PRICE FIVE CENTS

BARNES SAYS WHEAT PRICE IS GUARANTEE AGAINST "HIGHER PRICE IN FUTURE"

Decides to Maintain Present Offering Instead of Absorbing Any Discount.

BREAD PRICES LOWEST OF ALL FOODSTUFFS

Crop Not Short, Says Manager of Corporation—Compares U. S. With Other Grain-Raising Nations.

By the Associated Press. WASHINGTON, Aug. 5.—The decision of Director Julius H. Barnes of the grain corporation to maintain the government's guarantee on wheat at \$2.20 a bushel as a "reserve protection against a higher price" was one of the moves today by government attorneys working to reduce the cost of living and ally the country's interest.

President Wilson decided to address a message to congress regarding additional legislation to aid in reducing the cost of living.

Announce Immediate Steps. At the conclusion of a day's activity by the president, the sub-committee of the cabinet headed by Attorney General Palmer, and by the attorney general himself, announcements were made of these immediate steps to be taken, and of the government's wheat policy.

In a statement showing why the price should be held, the government guarantee, Director Barnes pronounced a readjustment of four prices at the expense of the national treasury as authorized by congress. It later developments indicated a wheat price for wheat lower than the guaranteed basis.

Immediate steps will be taken by the grain corporation to sell standard export flour in every community of the country in carload lots at a price not greater than \$10 a barrel.

Using figures described as coming from the grain corporation's own production in European wheat of a shrinkage of "probably 400,000,000 bushels" in the wheat production for North America; 250,000,000 bushels of which is in the United States from the June forecast, and a further shrinkage in European wheat of a production of 300,000,000 bushels outside Russia.

The high cost of living was not discussed at today's cabinet meeting, but Attorney General Palmer presided at the meeting to confer with the president and presented memoranda stating what the government was doing and what it proposes doing after passing laws, all possible additional laws to cope with the situation.

The department of justice agents throughout the country, the attorney general said, have been ordered to initiate special investigations to find evidence of hoarding and profiteering as prohibited under the Lever food control act, and prosecutions will be instituted without delay.

Attorney General Palmer declined to disclose what remedial laws were suggested to the president, or to go into detail as to how the department would proceed under the existing laws beyond saying that operating under the Lever act did not mean the function of the food administration would be assumed by the department of justice.

GIRL VICTIM OF MOUNTAIN LION

By the Associated Press. HAINLEY, Ida., Aug. 5.—Lettie Burnett, 16, while herding cattle on the outskirts of town was this morning maulled by a mountain lion and after a struggle in which the girl tried to choke the animal, she was found unconscious, her arms and legs almost severed. The lion jumped upon her back while she was in a sitting posture, tearing her clothing into shreds and a shoe which was torn from her foot could not be found. Citizens at once organized to hunt the lion, which has been seen in the vicinity of the town for a month. The girl will recover.

25 RIOT CASES GIVEN TO JURY

By the Associated Press. CHICAGO, Aug. 5.—Twenty-five cases involving thirty rioters and white, alleged to have participated in the race rioting last week, on charges of murder and assault, were prepared today for presentation to a special grand jury tomorrow. Seven indictments, naming 14 rioters, including two women, were returned today.

Twelve indictments, naming 17 rioters, were voted yesterday. The county commissioners today voted \$100,000 to be allotted for pay of special deputies and other expenses incident to apprehension of the riot spirit and \$50,000 to the state's attorney for use in his investigations.

R.R. PROBLEM BE GIVEN TO SOLONS TODAY

Will Present Proposed Control to Interstate Commerce Committee

BUSINESS OPPOSES U. S. OWNERSHIP

Would Mean Building Up of a Gigantic Political Machine—Costs Would Exceed Private Control.

WASHINGTON, Aug. 5.—The railroad problem, which is expected to be the center of the higher wages to meet the high cost of living were reiterated from many parts of the country today came before the striking shopmen reported that work, despite the fact that their action was denunciated by the Interstate Commerce committee of the six shop crafts. Strike halts were mailed from the American Federation of Labor, for taking an official vote as to whether the 500,000 shopmen should wait out to obtain their demands and express their confidence in President Wilson's reference of the railroad wage question to congress.

Members of the sheriff's force refused to talk of the affair, insinuating that they know nothing whatever about it. Mr. Robinson acknowledged to a CHRONICLE representative that the robbery had taken place, but declared that he could give no information until today.

Under another decree issued by Herr Eberl the imperial navy office ceases to exist and the admiralty will have supreme naval authority. The admiralty will be directed by an admiralty chief under the supervision of the minister of defense. The admiralty staff of the navy is dissolved.

Under government ownership the development of railroad facilities would depend upon congressional appropriations which would prevent the establishment of a national system of the country. Appropriations would not be made in the amount and at the time needed to insure adequate development of the railroads. Political considerations might also control the amount of appropriations and the objects for which they were made.

Other financing needed. To acquire the railroads the government would have to pledge its credit for eighteen to twenty billions of dollars at a time when other large government enterprises are in process of being liquidated.

Government operation is not an efficient as corporate management. Competition, the incentive to efficiency and progress in production, is absent from the government administration of affairs. Individual initiative is less, bureaucratic methods are more characteristic, and the services rendered are less progressively efficient.

HAD SMALL ARMY TO SIEZE CONTROL

Returned Soldier and Strike Leader Alleged to Have Planned Revolt in Manhattan.

By the Associated Press. WINSTON MARY, Aug. 5.—W. H. Gray, a returned soldier and Winthrop strike leader here, told today for conspiracy, declared that he had a fully organized band of 2,000 to 4,000 men ready to take up arms at a given signal on June 10, last, according to testimony offered in court today by Detective W. H. McLaughlin of the Northwest Mounted Police.

McLaughlin was a plain clothesman assigned to follow the strike and was in the confidence of several labor leaders. His testimony in part follows: "In course of my conversation with Gray he stated this affair was going to end in a fight and when I lamented the fact that we had no guns, Gray said: 'Don't worry about guns; we'll have them.' We got between three and four thousand men ready and instructed to be in certain places when the alarm is sounded and they will get into citizens cars which are to carry the militia to Minto barracks, pass themselves off as militiamen until they get inside the barracks, get possession of the rifles, turn upon the soldiers and note the barracks."

organ of this place, will be prosecuted on a charge of murder growing out of the death of his wife at the Troy ranch near here May 21, depends upon the finding of two coroner's experts, Doctors Whitman and Lewis of Boulder, Colo., who will make a chemical examination of the vital organs of the woman fallen from the body when the autopsy was performed here last Saturday. The autopsy revealed no marks or indications of violence such as claimed by the state. The vital organs were examined for traces of poison, the doctor having set up the claim that the woman died from self-administered poisoning.

INCURABLES MAY BE GIVEN DRUGS

By the Associated Press.

WASHINGTON, Aug. 5.—Hundreds of letters from persons suffering from incurable diseases and from aged persons subjected for many years to the use of drugs, piled in their supplications that rules governing the sale of narcotics be modified, led Commissioner Hooper today to issue instructions to collectors of internal revenue whereby such persons may obtain drugs on prescriptions by a reputable physician that the drug is needed to maintain life.

Collectors were warned by Mr. Hooper to exercise every reasonable precaution to prevent the aged and infirm from becoming the victims whereby unauthorized persons might engage in illicit traffic in narcotics.

PHOTOGRAPHS PRODUCED OF BURNING AIRPLANES

By the Associated Press.

WASHINGTON, Aug. 5.—Six photographs of parts of airplanes piled up at Colombey-les-Belles, France, awaiting to be burned, were submitted to a house investigating committee today by Gideon Burglum, a sculptor of Stamford, Conn., who said he paid \$500 for them and that microscopic examination convinced him that good parts had been destroyed.

"They were among the only battle planes the United States had," declared Burglum, whose investigation of aircraft production during the war for President Wilson resulted in something of a sensation.

ENGLISH STRIKING WORRIES OFFICIALS

General Strike in Sympathy With Polish Union Threatens Many Other Officials Feared.

By the Associated Press.

LONDON, Aug. 5.—With the Yorkshire strike still unsettled, the baker's strike continuing, a number of minor general strikes in other trades in sympathy with the smouldering discontent of the police at the failure of their strike to secure the withdrawal of the police bill, and the possibility of another big railway strike, the labor situation has again become so threatening that it is stated Arthur Henderson, the labor leader, who is attending the socialist conference at Lucerne, has been hurriedly summoned to London.

Liverpool was quiet today but it remains the center of agitation for a strike of the dockers is now being threatened in support of the striking policemen. The executives of the dockers' union today passed a resolution demanding reinstatement of the dismissed policemen, failing which they will give whole hearted support to the policemen.

Another meeting of trade union organizations of all trades was convened at Liverpool tonight to consider the advisability of calling a general strike in support of the police union.

Negotiations between the government and the Associated Locomotive Engineers and Firemen to arrange a new scale of pay for engine drivers have been in progress for six months. The agreement has been issued, what is described as a final adjustment of the scale, as a result of which the executive of the union has been snowed under with indignant protests as to the inadequacy of the scale from all parts of the country. The executive has arrived in London from Leeds to interview the board of trade on the subject and the outlook is considered serious.

Further, there are the beginnings of strike movements on the Scottish railways owing to local dispute. The number of men out on the London Southwestern railway almost doubled today and passenger service is suffering severe inconvenience.

FLEET STEAMS PAST TROPICAL HEAT-WAVE

Admiral Rodman Seen Upon 'Whale'—Fought in Forty Years of Life Upon the High Seas.

By the Associated Press.

ALBANY, N. Y., Aug. 5.—NEW MEXICO, Aug. 5.—(Delayed).—The Pacific fleet steamed tonight through Avila, near off Cape San Lucas, today when the fleet began crossing the Gulf of California. A severe tropical heat wave through which the fleet passed for almost one week back today when the fleet began crossing the Gulf of California.

The sailors in the fleet expect soon to change from their white to blue uniforms.

The battleship Mississippi has been steaming along today with two damaged propellers.

White Admiral Hugh Rodman, commander of the fleet, was seen in the quarterdeck this afternoon he sighted a big brown whale approximately 500 feet off the starboard side. Admiral Rodman said he had seen only four whales of that character during forty years of service at sea.

Captain Willard, commander of the flagship, tendered a dinner tonight to Admiral Rodman and his staff.

TWO GARROTED BY HIGHWAYMEN

By the Associated Press.

IRVING, N. J., Aug. 5.—With their own bills drawn in a tight knot, the careers of the likes of William Bailey, a storekeeper of Rockwood, a settlement near here, and James C. McElhenny, a rancher of the locality, were found today in a field about one mile north of Bailey's store. Admiring the fact of the bodies was Bailey's little black dog.

Investigation revealed that Bailey's store had been robbed. Neighboring farmers declared both men were in the store at 9 o'clock last night. Officers arriving at the scene found the store robbed it and marched Bailey and McElhenny to the point where the bodies were found and then garroted them. Four sets of footprints were found entering the field and two sets leading away.

SUSPECT ATTEMPT ON CLEMENCEAU

PARIS, Aug. 5.—Two laborers, one of whom had two revolvers and the other a large knife, were arrested today near the residence of Premier Clemenceau by detectives who said their manner excited suspicion.

As they were being taken to the police station a detective said, the men offered money for their release. When they were questioned they gave their names as Ernest Vailo and Alexander Bonnard. They said they had an engagement with friends and relatives at a cafe in the street where M. Clemenceau resides.

The possession of weapons they explained by saying that some one whose names they did not know, commissioned them to sell the weapons for him. The men were held for trial on charges of carrying concealed weapons and attempted robbery.

Vailo, the police stated, is believed to be a deserter.

EXPECT VERDICT IN FORD SUIT TUESDAY

Jury Expected to Give His Ideas of Instructions to Attorneys Today.

By the Associated Press.
MOUNT CLEMENS, Mich., Aug. 5.—A verdict in Henry Ford's \$1,000,000 libel suit against the Chicago Daily Tribune is expected by next Tuesday night, August 12, just three months from the day the hearing began.

The evidence was all in the record today. Tomorrow the jury will be excused while the lawyers discuss the matter of the court's instructions to the jury with Judge Tucker. While the judge will not instruct the jury formally until he sends it to its deliberations it is expected he will indicate his ideas to the lawyers tomorrow. Great importance is attached by the attorneys to what definitions of "anarchy" and "anarchist" Judge Tucker instructs the jury it may consider, for the suit was instituted by Mr. Ford because the Chicago newspaper characterized him as an anarchist in an editorial published June 23, 1915.

The hearing is said to have been one of the longest on record. It produced a searching analysis of libel laws and precedent and an immense amount of testimony. Approximately 120 witnesses were heard including Mr. Ford himself and the publishers and several editorial writers of the Tribune, and 408 exhibits were put in.

Arguments will begin Thursday and continue Friday, Monday and Tuesday.

Vigorous methods were required to complete the presentation of testimony today. Cross examination was virtually abandoned. Four witnesses placed on the stand by counsel for the plaintiff were not permitted to testify, Judge Tucker ruling that the subject on which they were called at ready had been covered.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach liver, and bowel poisons before breakfast.

To feel your next day in and out, to feel clean inside; no sour bile to eat your food; no gas; no sour breath or dull your head; no constipation, bilious attack, sick headache, colds, rheumatism or grassy acid stomach; you get bathed on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels drink before breakfast each day a glass of hot water with a teaspoonful of Linstone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of Linstone phosphate from your pharmacist. In inexpensive and almost tasteless except a scratch taste which is unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins, also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons begin this treatment and above all, keep it up. As soap and hot water act on the skin, cleansing, sweetening and purifying, so Linstone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

TWIN FALLS LAD IS COMING JOCKEY

Laverne Factor Is Sold to Hildreth of Eastern Fame For \$15,000.—To Be Bred in Country, Prediction.

That the sale of young Factor for such a high price has caused a sensation in eastern racing circles is evidenced by the following clipping, which was received yesterday by James Kirk from young Factor. It is a copy of a story that appeared in the New York Herald on July 15.

"The event of the day at the Empire City racing association's summer meeting yesterday was the sale of a jockey just out of the apprentice class for \$15,000. The buyer was Samuel C. Hildreth, owner and trainer of Purneha, Tachillito and other crack horses, the stellar, Stewart, Peck, of Billings, Mont., and the lad that changed hands Laverne Factor, who will not be 18 years old until August 21. And who hails from Twin Falls, Idaho. He rode his first race at Havana, Cuba, in January; had his first winning mount, Tippano, on February 11, and Tippano was on an apprentice at the Aqueduct meeting less than a fortnight ago, when he rode his forthright winner.

Mr. Hildreth's I wouldn't have sold my contract with the boy for twenty-five thousand," Mr. Polk remarked to a reporter of the Herald. "I've given to be the greatest jockey in the country, and he won't have long to wait for it. He is improving every day and it is just a matter of time before he will be a match for any of them New York crack horses. I can't say I have seen another horse all his life, I fear, of nothing, but a cool, quick brain, and heat of 21. His habits are correct. Dad habits have ruined many promising young jockeys than you can shake a stick at, but they won't ruin this one.

"Laverne can make at ninety-eight pounds, and he can make a hundred pounds and eat three meals a day," continued the Montana horseman. "A Sacramento weight of his ability and weight is worth a lot of money in these days on New York tracks, because every one is putting five thousand dollar horses in claiming races or selling races at a valuation of one thousand to get the weight off, then betting enough to win twenty or thirty thousand and eliminating their own horses after the race on a bid big enough to protect themselves. It's another way of paying a stiff price for the privilege of running a high class horse in a race supposed to be for poor ones."

"I don't mark my word, you are going to see the western crowd play the game until the jockey club and the New York tracks are forced to change the rules to something like they have in Kentucky. There an owner cannot claim his own horse, and if he tries to limit the rule by having a friend claim him he will find himself tripped up when he tries to start him. I have six horses here, ready to start, but they are not good enough to beat the kind you see in selling races on eastern tracks, and so they are idle. And because I can't race them I have sold my contract with my jockey."

Sold Another at Same Price. Factor is the second crack jockey Mr. Polk has brought out and sold for a long price. Alfred Johnson, who rode his first race in February and had 166 winning mounts to his credit, the following August, was sold to the other. The contract with him was sold to a California turkman for \$15,000. The contract with Factor, for which Mr. Hildreth paid a like sum, has a little more than three years to run. The Hildreth horses, it is generally held, are the best some horse wagers on occasions when one or two of the Oklahoma kings are at the track. Factor rode in four races yesterday, winning with Arrang Ho On, getting the place with Carmandale and being placed with Trophy and Mary Belle.

MUST CONTINUE RAISES. ST. LOUIS, Aug. 5.—In response to an order to show cause why rates established by the postmaster general are maintained, F. O. Holt, general manager of the Southwestern Bell Telephone company today told Missouri juries, "The commission the company had been forced to continue the rates because of the telephone strike here, and if wage demands are met, the company would have to decrease its rates."

DETROIT VICTORY RAISES STANDING

Go to a Tie for Fourth Place to Second When Cleveland Is a Loser.

Table: HOW THEY STAND. Columns: Team, Won, Lost, Pct.

DETROIT 2; WASHINGTON 1. WASHINGTON, Aug. 5.—Detroit took the opening game of the series from Washington today 2 to 1. With the score tied and two in the eighth inning, Plentich was charged with a passed ball on the fourth ball pitched to Yeach. He made an effort to recover R. Yeach sprinting to second and scoring with the winning run on Hellman's single to center.

BOSTON 7; CLEVELAND 5. BOSTON, Aug. 5.—Boston hammered Cleveland's pitchers, particularly Tagley, and won the first game of the series today 7 to 5. Hoyt, the 19-year-old boy, was credited with the win for Boston, his second in as many starts.

PHILADELPHIA, Aug. 5.—Philadelphia game postponed; rain. Two games tomorrow.

VALUE OF CREDIT

A checking account is the first step toward establishing credit with a bank. And credit today is a real asset. Yet it is what you make it. The right credit at the right time, at the right bank may be worth more to you than a batch of letters presented by you as a stranger. We seek growing accounts of growing business men—men who will come to us for advice, and who will want the friendship of a strong bank when credit is needed. This bank will be glad to meet you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

72 HOURS LEFT

10 P. M. Saturday The Final, Fateful Hour

But 72 hours remain after today in which the hustling candidates in Chronicle's big voting campaign may entrench themselves behind enough votes to win. Such a gigantic, tireless, thorough canvas for subscriptions, as these energetic men and women are making these last few days has never been seen in Twin Falls county.

It's truly a most wonderful race between the most capable representatives of every section of the county.

Enter Civic Pride

A striking feature of the past week is the personal pride that is becoming so noticeable. Two or three of the candidates have voted their opinion to win at all hazards. One declared that to accept defeat would be a disgrace; another said that she owes it to her friends who have helped her up to this point, to put forth every effort and to draw on every resource to the extent that when the final day of reckoning comes everything will have been done, and nothing left undone, to better her chances to win.

So, on a basis of personal honor, the competition is being waged zealously. Shedding lustre on this inspiring sight of the civic pride that is manifesting itself. This mighty factor is the bulwark behind the various candidates; in short each community and each town and each "following" is solidly behind their candidate, and no "town" that really values its reputation for "doing things, is going to let someone else walk off with the most desirable prize when a little concerted action will "bring it home."

For this reason and for the reason that the difference in value between the grand capital prize of this campaign and the secondary awards are a matter of over fifteen hundred dollars (quite a tidy sum in itself), you can expect to see a desperate struggle on all sides before the big prize is finally awarded.

Hope and ambition are strong to the highest pitch; eager hands are reaching out to grasp the grand trophies, already partially won and which really belong to them; and now the effort

and diligence of the past few weeks will be crowned with an avalanche of votes that will bring thousands of people to their feet, excitedly rooting for their favorite—hurting themselves into the fray with all the vim and vigor of the candidates themselves.

A Timely Warning.

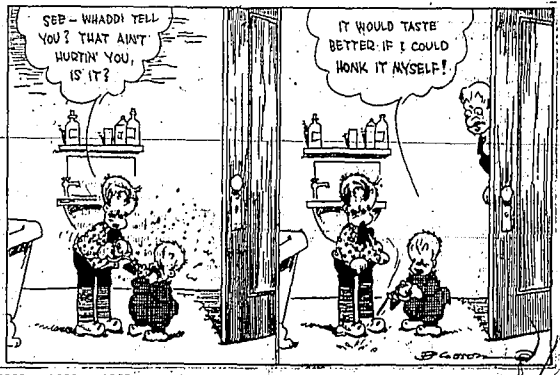

As a final warning, don't flatter yourself that you have already enough votes to win, for you haven't. Before the final scope comes into play, you can expect to see these figures greatly

changed. Don't take a single chance of losing the prize you most desire. It would be better to win by a million votes more than enough than to lose by a few hundred thousand—representing the efforts of one good day's work. You would never forgive yourself the fatal error. There will be no need for regret if you had heeded expert advice and back it up with a goodly number of subscriptions.

Ten o'clock Saturday night is your last chance to enter subscriptions in this campaign.

WHO WILL WIN?

VALUES SLUMP IN FEAR WHEAT DROP

Corn, Chief Trading Feature, 22 Cents Lower Than Week Ago When H. C. L. Was Started.

CHICAGO, Aug. 5.—Efforts to anticipate the results of any quick reversal in the United States government policy as to the disposal of the 1919 domestic crop of wheat knocked the bottom out of values today on the board of trade. Downward plunges in the price of the chief trading commodity, corn, did not stop until the market was 22 cents a bushel lower than when the campaign against the high cost of living began a week ago. It was not until there remained open only a single hour of business activity before the time set for a conference between President Wilson and Federal Wheat Director Julius Barnes that the grain and provision traders reported that "have been circulating for days that the government would make a radical cut in the price of wheat to consumers. The most definite of these reports was that millers would get wheat from the government 50 cents a bushel cheaper than the government had guaranteed growers." This, it was said, would make flour less profitable than at present, by 27 cents barrel. Corn prices have been largely based on a prevalent belief of farmers that 12.25 a bushel for wheat meant \$2 a bushel for corn, and that the value of all other cereals and consequently all livestock and meat products had a similar substantial relation and the absence of any definite reports that wheat prices would be severely cut finally today produced a tense situation on the board of trade. The most spectacular tumble today was in the December delivery of "corn" which under "furious" selling dropped 10 3/4 to 1.41, but rebounded and closed at \$1.42 1/2 to \$1.43 1/4. In the time one bank plunged, \$2.50, \$1.44.50 a barrel for September delivery and unlike corn displayed no power whatever to rise again from the bottom price reached.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat If Kidneys Feel Like Lead Or Bladder Bothers. Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, especially in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act "fine." This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flesh, clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus "ending" bladder disorders. Jad Salts is harmless; it makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney troubles while it is only trouble.

MATURE PLANS FOR GRADING OF GRAIN

Will Use as Many Local Samples as Possible—Special Plant Will Be Erected.

Plans have matured for the grain grading school for farmers, grain dealers, millers and managers of warehouses which will be held in Twin Falls Thursday afternoon at the high school auditorium at 2:30 o'clock.

Meetings will be held at Flax Friday morning at 10 o'clock at the fair grounds and at Bull Friday afternoon at 2 o'clock at the high school building.

H. F. Sheehan, state grain inspector of the University of Idaho extension division, will be in charge and demonstrations will be given by W. J. Morgan, federal grade supervisor in charge of the Salt Lake office.

Mr. Morgan plans to give instruction as to correct grading of wheat and oats under federal standards. A fully equipped grain inspection office will be arranged for the occasion to determine the grade will be carefully explained.

When classes varieties and mixtures, The sample. Deckage. Weight per bushel. Moisture and heat damage.

BARNES SAYS WHEAT

Attorney General Palmer said it was his belief and hope this immediate result toward the end of living could be obtained through proposals being circulating here.

Secretary Tumulty said after Director Barnes had led the president that no statement would be forthcoming from the White House tonight before the more announcement that the president will address a message to congress as soon as he has time to write it.

When Crops Not Short. Director Barnes in making public statement regarding the world wheat situation said that the wheat crop in the United States is not short, and that the world crop is not short.

Compares World Prices. Figures were given by Mr. Barnes on the world prices as follows: Average farm price to American farmer under guarantee \$2.05 a bushel.

Average farm price in the United Kingdom during the last calendar year \$2.78.

Average farm price for four big producing countries. United States \$2.05, Argentina \$2.55, Australia \$2.55, Canada \$2.55.

Average of all wheat growers, weighted according to the size of their contribution to the total crop of the world, works out an average world price of \$2.30.

Argentine wheat higher. Argentina wheat, with higher yields and higher freight rates, the Barnes statement said, costs delivered in Europe fully 25 cents more than American wheat delivered in Europe.

There is no support for the theory, without basis, and influence for the wheat market, that the station said. Figures were presented to bear out Mr. Barnes' statement.

prices, buying their raw material at the world's price and absorbing the loss by national taxes. Any sale of wheat or flour by us at reduced prices to them would only save their national treasury, while depleting the treasury, without any possible reflection in the bread price to their people which is already fixed.

Food Bill Would Be Lower. Mr. Barnes also gave figures to show the relation of the price of wheat to the price of bread and announced that bread now was the cheapest item in the diet. If all other foods were at the same rate as bread the annual cost of food for each person would be about \$46, or a total national food bill of \$5,000,000,000 instead of \$11,000,000,000.

HOLD FOR HIGHER PRICES. OGDEN, Utah, Aug. 5.—Farmers of the intermountain states are refusing to sell their wheat at the government guaranteed price and several mills in this district are now idle because of inability to get grain, according to authorized statements of Ogden grain exchange officials today.

The following statement was issued: "Farmers in Utah and Idaho will not sell wheat excepting at twenty-five cents a bushel over the government basis. Several of the mills are idle for want of wheat, which the farmers will not sell excepting at this premium."

THE GRAIN EXCHANGE includes representatives of three large Pacific coast flour companies and all other prominent buyers of this district.

DIXIEEN PROFITING

WASHINGTON, Aug. 5.—E. White, vice president of Armaur & Company, today before a senate committee investigating the high cost of living in the District of Columbia, declared that his company was profiting from the distribution and sale of meat. He declared the company had made no profit on its live business this year.

Mr. White denied also that his company participated in exorbitant profits in 1918, declaring that the company's average profit was not more than 2 or 3 cents a dozen.

The witness told the committee that yesterday his firm sold meat at a loss of from 1 to 1-1/2 cent a pound in eastern cities.

Mr. White charged the federal trade commission with withholding from the public that its investigation had shown the packers' profits to be only 5-5/8 per cent and added that there should not be the present agitation against the packers had those figures been announced.

He told the committee that the consumer was to blame in part for the high cost of living. He said the retailer advances his prices with each advance market but he held the price up just as long as his customers permitted him to do so.

Mr. White told the committee that letters received by Armaur and Company indicated that the producers were opposed to federal regulation of the packing industry.

PREDICT HIGHER PRICE FOR SUGAR

Sugar Producers to Bring More Money in 1919-20, It Is Hope Received From Havana.

By the Associated Press. HAVANA, Aug. 5.—That the price of Cuban sugar for the 1919-20 crop will be higher than the present figure established by the United States equalization board, seems inevitable from the present trend of events in Cuba.

A resolution presented in the house of representatives late today would authorize the president to "intervene into the buying and selling and exportation of sugar and tobacco and virtue thereof dictate such measures as he may deem convenient to obtain a remunerative price for mill owners and planters in the sale of such products.

The same resolution would authorize the president to impose a duty up to 50 per cent ad valorem or to increase the existing customs charges 100 per cent of all raw materials or finished products entering Cuba, when such raw materials are produced or the articles manufactured in Cuba. The law would remain in effect until December 1, 1920. No action was taken on the measure to night.

Many of the planters favor forming a controlling committee of their own. They are opposed to government control. Rumors are in circulation that negotiations are under way looking to the taking over by American interests of the entire 1919-20 crop at an increased price.

One prominent planter said today he had received a bid from persons connected with English capital for 10,000 tons of sugar for delivery in January at seven cents a pound. Cash payment on the spot was refused.

By the Associated Press. CHICAGO, Aug. 5.—George Fleming, a youth recently released from the navy, was probably fatally bayoneted tonight by Private Edgar Moran, E company of the Fourth Illinois reserve infantry.

Fleming was in the "riot zone" and was ordered to "move on." This he failed to obey and in the argument he was thrust in the abdomen with the soldier's bayonet. Fleming was taken to a hospital, where his condition was said to be critical. Private Moran is continuing his guard duty although investigators from the state's attorney's office have started an inquiry.

SEVEN THOUSAND VOTE TO STRIKE IN BUTLER, PA.

By the Associated Press. BUTLER, PA., Aug. 5.—Approximately 7,000 men of four manufacturing plants of Butler voted tonight to go on strike tomorrow. They demand an eight-hour day and a maximum forty-four hour week.

LEAGUE IS CAUSE OF AN UPHEAVAL

Will on Charge of With Itting Back Information From Committee on the Negotiations.

WASHINGTON, Aug. 5.—The league of nations and the Shantung settlement both came in for more bitter criticism today in the senate's consideration of the treaty with Germany.

At a public hearing of the foreign relations committee issues of the league controversy started a dispute which bordered on an uproar, and in the senate chamber an attack on the Shantung provision by Senator Watson, republican, Indiana, developed a series of sharp exchanges.

The committee's clash over the league grew out of the examination of Norman Davis, a financial advisor to the Versailles peace conference, and centered in a heated discussion of the attitude of President Wilson toward fulfilling the committee with adequate information.

Chairman Lodge replying to a suggestion that the president be asked to come before the committee declared Mr. Wilson never had offered to do so and had failed to send important information repeatedly asked for. Senator PHILLIP, republican, Nevada, replied that in his address to congress such an offer had been made, but the committee majority had ignored it.

One of the subject of the league has already asked congress to give a forecast of what may develop when Secretary Lansing appears before the committee tomorrow by keeping the witness under a running fire of questions relating to provisions of the covenant. It was when Mr. Davis declined to permit an expert on the subject and, in reply to a question, suggested that the president be consulted, that the committee members chafed over Mr. Wilson's course in the matter.

Under present plans the questioning of the secretary of state tomorrow will be in open session and it is expected he will be asked to disclose many features of the Versailles negotiations, with the league covenant and the Shantung agreement occupying a prominent place in the discussion. The senate adjourned tonight until Thursday so tomorrow's committee session may be uninterrupted.

LARGE ICE PLANTS IN OGDEN DESTROYED BY FIRE

By the Associated Press. OGDEN, Utah, Aug. 5.—Five large Union Pacific railroad ice houses and the plant of the Utah Ice and Cold Storage company, leased to the Pacific Fruit Express company, were totally destroyed by fire tonight with a loss of \$75,000. Because the Ogdien plant was the chief factory station in the intermountain country, serious handicaps will be faced in the shipment of fruit from this state.

This fire, the twelfth industrial fire in less than 20 days is said by the fire department, police and railroad officials to have been, as it is believed the others were, of incendiary origin. Business men and manufacturers started plans tonight for organization of a committee to assist the police in coping with the situation which they declare to be grave.

AUSTRIANS MAKE FINAL REPLY TO TREATY TODAY

By the Associated Press. PARIS, Aug. 5.—The Austrian delegation formally notified the peace conference today that it would submit its complete observations on the treaty to the conference at 5 o'clock in the evening tomorrow, which is the last day allowed the Austrians for their reply.

Dr. Kaulhammer, the Austrian chancellor and head of the peace delegation, will leave for Vienna tomorrow night, he said, returning about August

PRINCE OF WALES LEAVES ENGLAND FOR AMERICA

POHNSMOUTH, Eng., Aug. 5.—The Prince of Wales sailed for Canada at 6 o'clock this evening on board the cruiser Renown. There was no ceremony attending the departure of the king.

King George and Queen Mary accompanied the prince aboard the Renown, where a farewell luncheon was served. There was no speech making, but the king raised his glass and wished the prince a prosperous voyage and a safe return.

The royal party then returned to shore, the prince accompanying them to the military station where there was an affectionate leave-taking. The prince stopped off and stood at

salute with tightly drawn lips as the train pulled out for London. Then he rebarked the Renown, which sailed immediately.

GERMAN AIRLINES SENT TO GROUND BY THE POLISH

By the Associated Press. BERLIN, Aug. 5.—A special dispatch to the Lokai Anzeiger from Rybnik, upper Silesia, says a large German airplane, belonging to a German airship works left yesterday morning during a flight. Killing all seven of the occupants, including the pilot.

The accident occurred near Rattibor. The airplane carried 3,000,000 rubles in Ukrainian money and a sack of Russian money. Former Finance minister Witousky of the West Ukrainian republic, was a passenger. The plane was on its first trip. Its destination was Poland, but a landing had been planned on the Galician side of the border near Tarnopol.

An official announcement says the airplane was shot down by Polish border troops. The crash occurred while crossing the Polish frontier.
