Chronicle's Six Weeks' Drive for Subscriptions Is Brought to a Successful Close; Judges Praise the Work of All Contestants; Many Other Liberal Prizes Given.

TWIN FALLS, Idaho, Aug. 9, 1919.—We, the undersigned judges selected to count the vote in the Chronicle Mammoth prize voting campaign, hereby certify that we have canvassed ballots cast in the election, and find the results to be as stated below.

We wish, in stating the results, to commend the several candidates for their energy, their clean methods of campaigning and the spirit of fairness they have displayed in the contest. We wish, also, to congratulate the publisher of The Chronicle upon the success of the splendid enterprise, the fairness of its management, and especially to call attention to the manifest equity of the closed and sealed ballot box which received the votes during the last week of the campaign. The totals of votes cast disclose the great volume of subscriptions received by The Chronicle, which fact is the only evidence required of the energy of the contestants and the success of the campaign.

CRITICISM IS SURPRISING TO RUMANIA-MISU

Peace Delegate Declares He Believes His Nation Has Aided World.

OVERTHREW MENACE OF THE BOLSHEVIK

Will Not Sign Austrian Treaty if It Provides for the Protection of Minorities.

By the Associated Press. PARIS, Aug. 9.—"We are at a loss to understand why the allies and the Americans, above all, should criticize Rumania for its action in defeating the Bolsheviki in Hungary," said Nicholas Misu, of the Rumanian peace delegation today.

"We feel that we have done the peace conference and the entire world a service by giving the Hungarians an opportunity to set up a representative government. Furthermore, we were forced to march against them for self defense. Hungary attacked us and the Bolsheviki threatened to overwhelm us from two sides. For tactical reasons we had to advance beyond the armistice lines fixed between us and the Hungarians."

"Then, when other armies refused to move against the Hungarians, the Bolsheviki moved alone. We shall move our troops from Budapest when the Hungarians have been thoroughly disarmed and no longer threaten our very existence."

World Must Learn Truth.
"We believe we have the truth about the perils which forced us to fight against the Bolsheviki. We have now or left the peace conference and shall obey its orders, but we cannot sign the Austrian treaty if it contains the provisions for the protection of minorities. We believe it is wrong for the big powers to force such conditions on the small powers. We favored a clause proposed for the treaty of nations which would have guaranteed the rights of all persons, regardless of race or religion and believe that such action should be taken by all the nations acting together and imposed upon all nations."

RUMANIANS FORBID NOTE.
BERLIN, Aug. 9.—The Rumanian government has forbidden the newspapers to print the note of Premier Clemenceau announcing the creation of a mission of allied generals to go to Budapest in an attempt to adjust the Hungarian situation and take charge of the armistice question, according to reports reaching here.

"An English and an Italian aviator, learning of this left Vienna and flew over Budapest, dropping thousands of placards bearing Premier Clemenceau's message. The Rumanian then prohibited telegraph service between Budapest and Vienna for twelve hours.

The Hungarian proletariat and bourgeoisie have expressed fears that a monarchy is coming in Hungary, while the adherents of the Soviet government and Rumania are openly championing the monarchistic idea.

Airplanes last night dropped placards over Budapest proclaiming "King Joseph."

The socialist government, as much as the Rumanian, is much against the handing of the reins of government in the hands of Archduke Joseph and it is improbable that any socialist will participate in his government.

Some circles describe Archduke Joseph as indifferent whether the new...

DENVER PACKING HOUSE STRIKE ENDS

Employees Agree to Leave Matter in the Hands of Federal Mediator.

By the Associated Press. DENVER, Aug. 9.—The strike of employees at packing plants here ended late today when representatives of six unions voted to return to work Monday, pending settlement of their grievances by Judge Samuel Alschuler of Chicago, federal mediator, during a meeting to begin in Chicago Tuesday.

A threatened strike of engineers at the packing plants, which would have thrown 2,000 butchers out of work, was also ended by the decision.

Action followed receipt by union officials here of a letter from Judge Alschuler, inviting the men to submit their grievances to federal mediation. Announcement was made here by A. C. Leubering, business agent of the International Association of Machinists, local 47, that no Denver men would attend the meeting in Chicago Tuesday.

"We are willing to leave the matter entirely in Judge Alschuler's hands," Mr. Leubering said.

Between 100 and 150 men have been on strike at the packing plants here for several days.

"Lloyd George," "Clemenceau," "Orlando" and "Wilson" are going to do a lot to aid in the obtaining of a bridge across the Tombigone river on the Hill Highway. The birds named here, however, happen to be recognized in four of the cages here pictured, and not the distinguished statesmen whose names they bear.

The roosters will be sold at auction. President Wilson, with Senator Bankhead of Alabama, at the right, was inspecting his namesake when the photographer arrived.

65 PERSONS GO ON HOME MAKERS TOUR

Much Interest Displayed in All Of The Homes Visited—Many Features Shown.

Fourteen cars, carrying 65 persons, made the trip into the Buhl district Friday on the "Home Makers' Excursion." Parties from "Montana," "Idaho," "Washington," "Oregon," "California," "Arizona," "Texas," "Colorado," "Utah," "New Mexico," "Missouri," "Pennsylvania" and "Ohio" were among the group.

The purpose of the trip was to visit four modern homes with a view of studying special features. Each home visited had been selected by Miss Edna Ludwig, home demonstrator, for special reasons.

Mrs. W. H. Harvey took groups of 12 through her home, the kitchen being of particular interest. Mrs. Harvey explained the reason for the arrangement, showing how needless steps for the housekeeper had been eliminated. She demonstrated labor saving devices, her home being one of the most efficiently equipped in this line on the tract.

The home of F. C. Marquardson was the second visited. Interest centered here in the arrangement room.

The last stop was at the J. A. O'Connell home. The and a half miles from Buhl. This proved to be one of the "charismatic" homes that one could wish for, and its attractiveness was increased by the knowledge that it had required no great expenditure of money.

The interior of the house has been going over and remodeled by Mr. and Mrs. O'Connell, who have also made most of the furniture. Japanese crepe has been used effectively for draperies, the entire effect being specially pleasing.

A picnic dinner of fried chicken and other good things were enjoyed by the party at noon at the Buhl park. Many pictures, both outside and inside views of homes were taken on the trip.

A recently designed lead motor for motor trucks consists of a stick that touches the ground when the maximum is reached, being folded up out of the way when a truck is running, each kind on separate dial while a single minute hand is used for both.

MUSICIANS TO AID STRIKING THEATRIANS

Will Walk Out Monday—Globe and Winter Garden Affected by the Strike.

By the Associated Press.

NEW YORK, Aug. 9.—A sympathetic strike on Monday of theater musicians and stage hands in support of striking members of the Actors' Equity association, was forecast in a statement issued at the "Equity" headquarters here tonight.

The statement quoted an address by James F. Holland, president of the New York Federation of Labor with which the actors are affiliated, in which he was said to have declared that unless the strike was settled tonight, the musicians and stage hands would be called out Monday.

The members of theater closed by the strike was brought up to nine this afternoon when actors at the Globe theater walked out preventing the usual Saturday matinee.

A walkout also occurred at the Winter Garden, where "Monte Christo," was being presented, but the management replaced the show with vaudeville acts.

RISE AGAINST BOLSHEVSKI

By the Associated Press.

LONDON, Aug. 9.—The Mohammedans of northeastern Persia and Turkestan are rising against the Bolsheviki because of recruitment, over-conscription, according to dispatches from Simla, India.

Kerosene, coal or wood can be burned in a new kitchen range that is intended for both summer and winter use.

LEGION MEETING ON THURSDAY EVENING

Will Organize Under Charter Recently Received From the National Organization.

What promises to be the most interesting meeting of returned soldiers met has been held will take place Thursday evening when the Twin Falls Post No. 7 will meet to organize under the charter recently received. The meeting will be held at Parson's hall.

In order that there will be an attendance present the officers desire to send postal cards to as many service men as possible advising of the meeting. A general invitation has also been issued.

Every returned soldier is expected to be at the meeting. It is hoped that the first membership of the Twin Falls post will exceed that of any other in the post. A constitution and by-laws will be adopted at the meeting and permanent officers elected.

CITY'S BALANCE IS \$44,828.88

City Treasurer Wheeler has announced that at the end of the first quarter of the municipal year, Twin Falls had a treasury balance of \$44,828.88. At the beginning of the quarter, May 1, there was a balance of \$61,272.88. During the quarter \$12,443.47 was received while \$66,742.47 was expended.

The balance is distributed among the banks as follows: Twin Falls Bank and Trust company, general fund, \$4,477.89; water works improvement fund, \$11,183.08; First National Bank general fund \$8,347.38; water works improvement fund, \$19,324.62; Idaho State Bank, general fund, \$1,817.48; water works improvement fund, \$101.92.

COMMENCE METER WORK ON MONDAY

On either August 24 or 25 the link pipe between the filtration plant and effluent canal will be put in and the connection made. This has been announced at the city water works office.

According to Superintendent John J. Pilgerm, the work of installing water meters will be begun Monday. At present 35 meters are being operated in the business district. However, it will be necessary to move these from the front to the rear, as the main of the new plant will be located in the alley.

Mr. Pilgerm also stated yesterday that an emergency water line, crowding Hook Creek, has been completed. This line will supply water for domestic purposes, should there be a break in the siphon. The main is of 10-inch wooden pipe.

ADD CLASS TO PIG EXHIBITS

W. F. McCullisto, boys' and girls' club leader, yesterday sent word to the local bureau that an additional class has been arranged for exhibit of pigs at the state fair in Boise. This is for pure bred pigs that for some reason are not eligible for registration.

This class will be offered this year only and comes as a result of a misunderstanding among club members that pigs must be registered before entry for exhibit. It has developed that many club members were developing pigs that would be barred and the fair association as a result made the above ruling.

Premiums ranging from \$2 to \$9 will be given for best pigs exhibited in this class.

NO LAW TO KEEP BODIES IN FRANCE

WASHINGTON, Aug. 9.—Apparently there is no French law prohibiting the removal of the bodies of American soldiers dead from French soil for a period of three years from January 1, 1919. The house foreign affairs committee had been informed that such a law existed, but Secretary Lansing wrote Chairman Porter that while a bill along this line had been introduced in the French chamber of deputies, it had not been acted upon.

The foreign affairs committee has before it a resolution proposing the immediate return of the bodies of the American soldiers killed in the war.

EUROPE HUNGRY DECLARES TAYLOR

NEW YORK, Aug. 9.—Dr. Almaz Taylor, professor of chemistry in the University of Pennsylvania, chairman of a survey for the American relief administration, said today abroad it is a starvation "famine" after eight months' work in Germany, Austria, Hungary, Roumania and Serbia.

"There are millions of people in Europe who have no food," he said, "and who look to the United States to supply it. Government of course abstain from territorial adjustments. Governments will not spend millions of dollars for farm implements, when if they can obtain them, to be used on land that may shortly be given to a neighboring nation."

Round the World With the Marines

BY THE DECK OF THE BUCKINGHAM

"O, the English and the Irish and the 'wops' Scotch, too, The Canucks and Austrians, and the 'Afy' French don't; The only thing that bothered us polli: It's only 'w'y' in 'all we didn't know the 'Yanks' before."

"Well, Joe, I asked them guys what the 'Yanks' had done for 'em their own and they says up and says it means that the marines fall all over the world."

"It's a cute little thing, the marines' badge, looks something like a hotted huckleberry pudding with a couple of fish-hooks run through it, or like a lady hen's egg with a hatch out a fractured egg-hook. I'm sure you get me Gildy. Aids, the marines may be identified by their motto: 'Just where they wear that they're forgotten for the moment, but you're sure to find it somewhere about the world to look close. It is 'Semper Fidelis.' No, it has nothing to do with 'Maddox. No, it's not 'Blax' either. It is 'Blax' from 'Blax' disease, I think, meaning literally, 'Where do we go from here?'"

The story of "Bluebeard" and his seven wives, which many will recall having read long ago, is still going the rounds. The fable appears to have originated in France, but it has turned up almost everywhere in the wide world.

Now it appears that the Virgin Islands have a "Bluebeard" of their own, whom they claim as the original type—the wool-villain of childhood.

Corporal Lester F. Scott of the Thirty-fifth company, United States marines, who is in charge of the Chamorro Amale in the little island recently acquired by the United States, writes as follows of the people and their beliefs:

HOW SERVICEMEN LOOKS TO A FUTURE

Just plain squareheads, dumb looking, stolid, and unsexually stupid. But two days ago we penetrated into the wonderful Rindland and it is glorious here. We saw for the first time the girls and mothers. There is nothing so fearful to their feet as the sight of a pretty girl. No, sir!

"The country we are in is more like America than anything I've seen since Paris. They have fine stone houses and many beautiful mansions and hotels here. This is the country of those famous German bandits, or rather, where the sick come to drink of that magic elixir of life that Pierre De Mente failed to find in Florida."

Leut. Single journeyed to Notoch and then visited the "Wienberger" of wine mountains and finally reached the village, which he describes as follows: "I am now in Breda, a small town. The wine flows two hundred yards from my window. In front of us are mountains and tall back are mountains (terraced for grapes and on the river at the foot of the mountains huddle the small towns. The church here is about 600 yards across and flows rather fully along the distance. All is in true German order and big deer are working to make a harbor."

"Last night I met Captain Stone, one of the best friends I have known in the service. He would have thought that I should dine with him. We climbed to a big castle on a hill back over-looking the Rhine. I stepped to the top and started like a mephitic haze, but, in a realistic atmosphere, on my left only to find a worse squandered on my right. In the great master's den were many stuffed foxes and birds; also deer horns. Captain Stone had roast chicken, and it was a real meal, right in the castle of some former German baron."

On Duty in Guam. "Something of the life of a marine on duty in the island of Guam is told in a letter from Corp. Fred G. Taylor, who is stationed on this American island possession in the South Sea. "When the last transport was here I had a very interesting excursion out to it on official business," Corporal Taylor writes. "A corporal and I went aboard to check the baggage of the 'homeward-bounders,' and then awaited several hours for the captain's certificate of the vessel to return from a social affair on shore to sign the manifest. He failed to appear, so we

EIGHT KILLED IN BRAIN EXPLOSION

Spontaneous Combustion Is Believed To Be the Cause.

By the Associated Press. PORT CHARLOTTE, Aug. 9.—Eight persons were killed and a score were injured, seven of them seriously in an explosion which wrecked the passenger car of a train at Port Charlotte, Fla., last night. The cause of the explosion is believed to have been a spontaneous combustion in the passenger car. The financial loss is estimated at \$1,600,000. Spontaneous combustion is believed to have caused the explosion of the elevator at D. S. Harvey's, was among the injured. The explosion occurred shortly after the elevator hands returned to work following their dinner hour. The explosion occurred about 10 o'clock and what was in nearby buildings were smashed. Flames spreading through the wreckage but because of fire proof construction they soon burned out.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poison and toxins from your system before getting your food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is nearly more important because the skin pores do not absorb impurities into the blood, causing pimples while the bowels pores do.

For every ounce of food that is taken into the stomach, nearly twice as much waste material must be ejected from the body. If this waste material is not eliminated, it will quickly ferment and generate poisons, gases and toxins which, absorbed or sucked into the bloodstream, through the lymphatic system, should suck only nourishment to sustain the body.

A splendid health measure: Drink, before breakfast each day, a glass of real hot water with a spoonful of Limestone phosphate which is harmless water to the stomach, liver, kidneys and aids this cleaning, sweetening, freshening, that nature cannot perform better than this phosphate.

A quarter pound of Limestone phosphate costs but very little and is sufficient to make one an enthusiast on inside-bathing. Men and women who are suffering from indigestion, constipation, or other ailments will find that this phosphate has done more for them than any other medicine. It is a natural stimulant, invigorates the system, and is a most valuable tonic. It is a most valuable tonic. It is a most valuable tonic.

THE "NEXT WAR"

"As conditions now exist," says General Bernhard in an article written for an American newspaper, "there is danger that in one way or another we will withdraw from our obligations. Then a new war will be a necessity."

He explains that the allies, through the peace treaty, have sought to make it impossible for Germany to wage war in the future, and the treaty "will achieve exactly the contrary."

He finds that the clause obliging Germany to surrender the men responsible for the war and its crimes is absurd, and blandly announces that "he who would pronounce it good to give up the killer and the leaders would dig his own grave."

The only reproach the killer deserves, he says, is "for having begun the war too late."

He pronounces it "an utter mistake to believe that progress of humanity is possible in eternal peace."

He represents his country as playing "possum." "Possibly the German nation will for a while content itself with the position to which the late war relegated it, but it is a grave error to believe that will be possible in the long run."

He is certain that "the late war conceals in itself a new war," that the conditions imposed on Germany will result, in no distant time, in a "violent reaction." "War may delay a little, but come it will."

Here is the same old spirit of German militarism, flaunting itself flagrant and unashamed. The war, according to this view, was not a crime meriting punishment and atonement, but merely a great game which Germany through some misapprehension or other, happened to lose. Sooner or later, the Germans must try again, and with a great victory wipe out the disgrace and inconveniences resulting from their present failure.

pled generally, it is certainly going to make trouble for aviators and limit the aviation business. Will rights of way have to be bought and marked from place to place, as in the case of territorial highways, railroads, etc., and will there have to be sky traffic policemen posted everywhere to keep flyers on the public routes? Will aviators desisting from these routes, or blown from them, be liable to arrest when they slip over into a private strip of air, or be shot at by brute gamblers for frightening the horses and other people?

PROMISING DETOURS. "Detour" is a word that has held much terror for the automobile driver. It means abandoning the highway and going sometimes miles out of the way, often over bad roads and away from the beaten path of the road maps, before returning to the main highway further on.

The statement that this season there are more detours than ever before all over the country might at first chill the motorist's joy in summer touring. But after thinking twice on the matter, he should really rejoice.

This sudden increase in the number of detours means a future increase in good roads. Detours are required in many places because a newer and better road is being constructed, or because long-neglected faults are being repaired. All this detouring will be rewarded in a season or two by fine, straight-away roads over which the automobilist may spin in safety and comfort.

Better bring Hoover home and put him on the food job.

CRITICISM SURPRISING TO RUMANIA—MISU

legislature will elect him president of Hungary.

RUMANIANS ARE VIOLENT

BERLIN, Aug. 9.—A transition government in Hungary with representatives of the Hungarian peasants and workmen will be formed shortly, it is understood here.

At the request of the Budapest official Archduke Joseph has created a volunteer force of 8000 men to keep order in the capital.

The Rumanians are reported guilty of further acts of violence in Budapest. General Mardarescu, head of the Rumanian occupying forces, it has been announced, will retire from the city and most of his troops will be withdrawn within a few days.

Vienna advises say it is understanding the action of the senate in treating a military commission of four generals to supervise the situation in Budapest has had a depressing effect upon the Rumanians.

ARCHDUKE IS VIOLENT

COPENHAGEN, Aug. 9.—A dispatch from Budapest says that the new ministry at its first meeting yesterday resolved to recognize Archduke Joseph in recent up to a national assembly is elected, "his that in these

unsettled times there may be one firm center in the country."

The archduke then entered the chamber where the meeting was being held and, when a short speech was made by Premier Friedrich, the minister took the oath to the archduke. He asked them to do their utmost to support him during Hungary's reconstruction.

REJECTS BRITISH PROTEST

LONDON, Aug. 9.—General Gordon, British representative on the international military commission appointed here to facilitate re-arrangement of settlement at Budapest visited the Rumanian commander in that city Friday to protest against the excesses of the Rumanian troops according to advices from Vienna. The commander declined to accept General Gordon's letter of protest.

JOSEPH FAVORS THE HUNS.

PARIS, Aug. 9.—The Vienna correspondent of the Temps remarks on the singularity of Archduke Joseph, "the most Magyar of the Hapsburgs," entrusting the presidency and the ministry of nationalities to the Germans; Stephen Friedrich, formerly professor Jacob Bloyer, ascribing this to the influence of the archduke's wife, who is a Bavarian princess.

Friedrich, the correspondent, points out, was one of the closest friends of Count Alfred Károlyi, formerly provisional president of Hungary, whom he accompanied on his visit to the United States in 1914. Algeyer, the correspondent says, is a great admirer of the Germans.

HUMANIANS SPITAL PROVISIONS

BUDAPEST, Friday, Aug. 8.—The Rumanians have swept the country bare of provisions for miles around Budapest. The American food mission at Vienna, in response to urgent appeals, has undertaken to feed the school children at Budapest.

Anti-Jewish feeling in of the strongest in Budapest. Many Jews have been beaten in the streets, after having been dragged from cabs and tram cars, the Rumanian troops looking on indignantly and joining the Hungarians to further attacks on the Jews.

MOVEMENT IS ROYALIST

BUDAPEST, Thursday, Aug. 7.—Premier Friedrich interviewed tonight said:

"The removal of the Peidl cabinet, was essential because it was really a Bolshevik body. Archduke Joseph came to Budapest at 10 o'clock yesterday morning, escorted by Hungarian officers and conferred with the British General Gordon, the American Colonel Ley, and the Italian Colonel Romanello, and then formed a cabinet consisting entirely of bureaucrats."

"The archduke again conferred this morning with the heads of the allied missions, reaching a satisfactory agreement. The Rumanians will not participate in the conference."

Archduke Joseph's movement organized chiefly in the aristocratic and official circles without reference to organized labor or the peasantry. It evidently is of a strongly royalist character.

The Rumanians are assuming control of the administration and apparently intend reorganizing. The press censorship is most severe and a majority of the papers have suspended. The Rumanians suppressed announcements from Paris that four estates generally were coming to Budapest.

Rumanian soldiers are said to be robbing houses and persons and to be permitting excesses in the provinces. They have arrested several hundred residents of Budapest, mostly Jews.

MUNICIPALITIES TO BUY FOOD

WASHINGTON, Aug. 9.—Under arrangement with the war department worked out today, the entire allotment of surplus army food stores for New York state probably will be taken up by the sixty or more municipalities.

of that state for distribution and there will be no parcels sent out of state by other federal agencies in the state.

Dr. Eugene H. Porter, head of the New York state division of foods and markets, called on the director of sales today and was told that if the New York municipalities submitted orders for these surplus supplies by August 15 they would be filled to the extent of the state's allotment, which is approximately 200 carloads of assorted commodities.

Mr. Porter indicated a belief that the municipalities would take up primarily the entire state allotment and the question of its distribution would be worked out promptly as a licensing state and municipal matter.

MUCH FOOD ROTTING

OMAHA, Neb., Aug. 9.—A total of twenty carloads of spoiled food and fruit in railroad yards here has been reported to Mayor Smith by detectives who are working under him in an investigation of food waste here. Seven cars of watermelons were found today. Police were given blanket subpoenas today to summon commission men and all others who may have knowledge of alleged food waste to appear before the city's high living cost investigation which starts Monday.

Mayor Smith personally inspected army food supplies today preparatory to opening the municipal food shop.

HAY SHORTAGE IN SOUTH NOT BAD

Dean Idlings of Idaho University Disproves Recent Stories of Shortage.—Condition Good Here.

"Dean E. J. Idlings of the agricultural department of the state university, arrived from Jerome yesterday for a two days' visit in the Twin Falls district. He was asked by Nat Holmes to inspect the Holmes herd of Shorthorn cattle.

In speaking of the hay and live stock situation in southern Idaho Dean Idlings stated that it was much better than it has been pictured. Dean Idlings said: "Many had reports concerning the hay and live stock situation here have been received; but I have found conditions much better than they were painted. In the upper Snake river country, while there will be only two cuttings of alfalfa this year, the usual three, I find that these two are very good. In the central part of the state there will be a fair crop of hay and I am pleased to state there will be a good crop around here."

"In the southwest, in the live stock country, they have had a normal amount of rain recently which has freshened up the vegetation, making it possible for a part of the stock to be taken care of. However, it has been necessary for the shipment of some of the stock to other states, Nebraska and Kansas, and possibly to New Mexico and Texas. Shipments in the past few weeks have been at the rate of five carloads a day. Special rates of one-half have been granted to the stockmen.

"It will also be necessary for the stockmen to buy hay to feed during the winter. It was first thought that there would not be enough hay to feed the stock. However, since the shipment of the cattle recently it is thought that the hay and stock about balance.

"The question to be settled now is the fair price for hay to the farmers and stockmen. To settle this question a conference has been called at Idaho Falls Monday morning, when an attempt will be made to agree upon a standard price.

"An element has entered into this which farmers and stockmen are disapproving. Men are buying hay making small deposits with the expectation of making a gain of as much as nine or ten dollars a ton. These speculators do not even expect to move the hay. Such conditions are of no benefit to the farmer and are especially bad on the stockman. The farm bureau on the upper Snake are trying to discourage speculation."

Dean Idlings spoke of the bright prospects of the university. He said that there had been inquiry not only from Idaho, but from many other states and that it was the general belief that this would be a better year than any two other years in the history of the university. He further stated that the state was beginning to find that its own university was the nucleus of the state together and there was more of a tendency to go there than to leave the state for education.

"This year," continued the dean, "finds Idaho opening with better equipment, a complete faculty and the university strengthened by new appointments."

Dean Idlings was called to this part of the country to address a number of farmers' plenary which are being held by different counties. He is the member of the one being held on the upper Snake August 5, at Madison, and Fremont counties at which there were two hundred cars filled with farmers in attendance. The second was held by Jefferson county at which there were 150 cars attending. The next plenary will be held near Boise. After a short tour of the Boise country he will return to Moscow.

LEADING ACTORS WILL NOT STRIKE

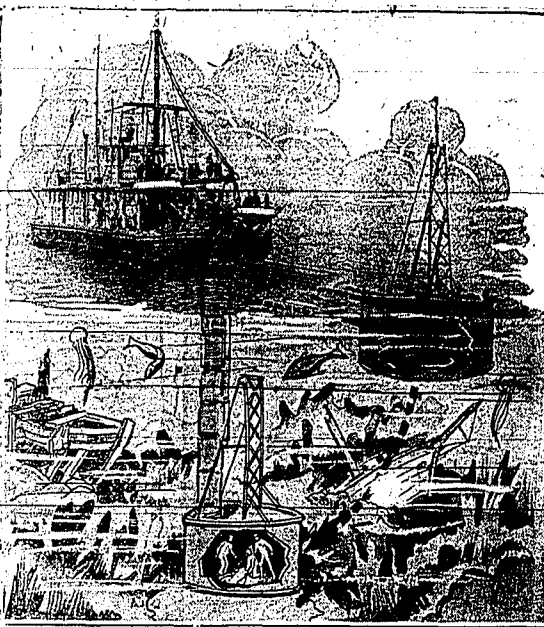

NEW YORK Aug. 9.—Ten New York theater stars were "dark" tonight at the end of the third day of the actors' strike. To the nine which were "glad" last night was added this evening the Orlans.

Members of the Actors' Equity association expressed confidence tonight that they would win the written equity contract embodying the demands for which they went on strike. They professed not to be deterred by the fact that the members heartened by the fact that the members of the Actors' Equity association in closing up theaters by ordering a so-called strike.

From the producing managers protective association tonight also came expressions of confidence in the actors. It was stated that the actors were being satisfactorily recruited despite the extraordinary length to which the actors' Equity association has gone in the intimidation and coercion of its people.

Built to Salvage Billions From the Ocean

Walking dry clad in six fathoms of water on the floor of Long Island Sound, 50 men and women guests of H. H. Hinton, inventor of the submersible, tested his new device that is intended to salvage from the floor of the ocean billions of dollars in gold and treasure sunk by submarine and wreck during the war. From the operating vessel a steel tube four and a quarter feet in diameter is connected to a suction-plunger compartment. The plunger is forced through the tube to the compartment and the tube is forced downward until the compartment rests on the floor of the ocean, or over a vessel to be salvaged and a metallic hatch is opened. Compressed air pumped in keeps seawater out. A suction equipment will lift 200 tons of gold an hour. The dotted line outlines the tube to the diving chamber and the arrow shows the course in lowering to the ocean bed.

LOCAL MEN CLOSE DEAL ON PLACER

Take Up \$100 on Mining Property in Butte Section—Plan Extensive Development.

C. A. Payne has returned to Twin Falls from Anaconda, Mont., where he has been for some time in connection with a deal involving Emery placer, which was purchased by the Butte and New England Copper Mining company in which a number of Twin Falls men are interested.

Following are details of the deal from the Anaconda Standard of August 5.

One of the most important mining deals of recent months was completed yesterday, when the Butte and New England Copper Mining company made its last payment on the Emery placer. The company took a bond on the property some time ago, and has been working it for about seven months. It produced such good results that it was decided to close the deal and make the last payment, which was done in Butte yesterday.

It would have been done sooner, but there were 20 different people interested in the ground, and it took time to reach settlements with them. The final chapter in the deal was closed by George W. Walker of Butte, W. B. Andrews of Butte and Robert Payne, of Twin Falls, Idaho, who are large owners of the stock. After the deal had been completed, Joseph Latach of Helena, an experienced mining man, was engaged as superintendent, and will take charge at once.

The property thus acquired consists of 12 1/2 acres. It adjoins the DeWitt property on the south, the Mary Louise and the Otisco claims on the north, the Belmont of the Anaconda company on the east, and the Emma of the west. It is located near the center of the Butte district as a whole.

In the work that has been done already, 16 cars of ore have been shipped, the returns being from \$1000 to \$1200 to the car. The shaft is down only 150 feet now, but work will be started at once to sink 200 feet further. At the 150 there is a large ore body known to exist, and in line with the characteristics of the Butte district the ore gets richer with depth. The property is entirely out of debt, and the project is self-supporting, and the owners expect to give good returns from now on for their investment. The stock is entirely in private hands, and there is none on the market.

PHYSICIAN AND WOMAN AID HELD FOR MURDERING MAN

By the Associated Press.—MADISON, Ill., Aug. 9.—Dr. Frank Alderson and Mrs. Lawrence Clugston were arrested today charged with poisoning Mr. Clugston, who died July 20, last, after he had been treated by Dr. Alderson for cholera fever. The arrests were ordered by a coroner's jury which returned a verdict today that Clugston had

enthusiasm having done much to make that composer's works popular in Italy. Others of Leonavalle's operas were "Cecilia," "Vomitorio," "Tullio," "Cesare Borgia" and "Zaza." He first came to the United States in 1916.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Hair to Its Original Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded brings back the natural color and luster to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Now, however, by asking for any drug store for "Wyntha's Sage and Sulphur Compound," you will get a large bottle of this famous "old recipe," improved by the addition of other ingredients at a small cost. Don't stay gray! Try it! No one can possibly tell that your darkened hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyntha's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance! It is not intended for the cure, mitigation or prevention of disease.

Up against Paul today. Hard lines for the local contingent. Should be some game at Burley. Burley is the attraction at that thriving city.

Burley hopes to win so as to be able to cop the second half as well as the first.

Cincinnati gained another full game on the Giants.

That brought joy to many local fans. Salt Lake lost another yesterday. Rather hard luck for the Bees after such splendid work during the last few weeks.

The team must have got the idea that that \$10,000 was a possibility.

Tyler Christian will probably manage the local team for the last time today.

"Red" Bell to Try His Luck Against the First East End Aggregation.

Twin Falls baseball players will journey to Paul today to meet the classy team from that little city. From all appearances the boys are in for another drubbing unless they pull together better than they have in the last few games. Paul is contributing \$1600 a month beside gate receipts and have pulled in some good stuff to work under their banner.

For Twin Falls, "Red" Bell will do the twirling. Ray Eubanks will play around first and Neuman will be sent out to field. Paul will have Swartz on the mound, and Bartholomew, rated the best catcher in the league, will be behind the bat.

The needed money for players was not forthcoming this week and probably after today's game, the local men will have a new manager, Tyler

Christian having signified his intention of giving up the position since no support from the town has been accorded him.

The lineup for today's game follows: Neumann, 1f; Miller, ss; Whitzel, 2b; Thompson, cf; Eubanks, 1b; Bell, p.

PLUMBAVERS HIS PLAN NOT SOCIALISTIC

Pounds Table as He Declares Force Is Not Being Contemplated.

MIGHT EXTEND TO OTHER INDUSTRIES Brotherhood Attorney Asked Many Questions Concerning Idea He Has Developed

By the Associated Press. WASHINGTON, Aug. 9.—The railroad labor will not attempt to impose the Plumb plan for railroad control on other industries unless employes and the public desire it and its fight for public ownership of utilities will not stop until it has reached that point where "grant and privilege cease."

By the Associated Press. WASHINGTON, Aug. 9.—The railroad labor will not attempt to impose the Plumb plan for railroad control on other industries unless employes and the public desire it and its fight for public ownership of utilities will not stop until it has reached that point where "grant and privilege cease."

Labor would be kind to its own interests, Plumb added, with emphasis. If attempted such methods. Later, Plumb announced, information would be put before the committee in support of his charge that there had been systematic stealing of the great railway systems of the country.

Plumb said his grand wild Republicanism, Democratic, New Jersey, asked questions which they anticipated would point out defects in the Plumb plan. Representative Montague particularly wanted to know, in his opinion, the government would pay for tracks and lines built out of profits. Plumb said it would not.

Representative Dewalt inquired if the Plumb plan was leading to socialism. Plumb said it was not. Representative Merritt asked if the plan would be extended to gas plants, trolley lines and the like, and Plumb said it would.

Plumb cited the case of the postoffice department, "the only great industry politically managed, and said its efficiency would be greatly increased if the employes had a vote in its management."

FLEET MAKES BOW TO LOS ANGELES

Destroyers, Omaha Harbor While Large Vessels Anchor in Breakwaters

ON BOARD THE FLAGSHIP NEW MEXICO OFF THE POINT OF LOS ANGELES, Aug. 9.—The Pacific fleet came today to make its bow to Los Angeles. Six dreadnaughts of the heavy figure line and two of the older class battleships of the United States navy dropped their mudhooks this afternoon at the San Pedro breakwater while 23 destroyers with the mother ship, the cruiser Birmingham and the tender Francis came up into the anchorage for anchorage.

The flagship New Mexico, with the secretary of navy's flag—four white stars and an anchor on blue—flying from the main truck, took up her anchorage outside the harbor.

On board the New Mexico were the secretary of the Navy Daniels and family, making the trip from San Diego to San Pedro were Governor Stephens of California, Governor Larrazo of New Mexico and a welcoming committee from Los Angeles.

STOCKYARD MEN VOTE TO GO BACK

Removal of Deputy Sheriff's From Scope Proves Satisfactory to strikers

By the Associated Press. CHICAGO, Aug. 9.—Striking stockyard workers today decided to return to work Monday. Withdrawal of the militia from the yards yesterday and the deputy sheriff's today was satisfactory to the men.

The decision, if adhered to, will remove a serious situation that had promised to become a general strike with resultant reduction of meat products for a large part of the nation with a possible increase in prices.

In some quarters it had been believed the union leaders would demand closed shop with discharge of 3,000 negro non members of the union. Now 2,000 negroes are said to be members of the union.

The stockyards were placed under a curfew of militia and police during the race riots of last week when numerous race clashes occurred in the neighborhood.

The return of negroes to work two days ago was followed by a strike of union workers. The union leaders, however, said the presence of armed guards was the cause of the strike.

The militia was withdrawn yesterday. Chief of Police Garrity declared the 500 policemen were on duty in the vicinity of the stockyards to prevent any recurrence of racial trouble.

The larger packing companies had been crippled by the walkout but had said they were operating today on a fifty per cent basis. While many of the smaller companies were seriously affected, the "big five" reported not many more than 10,000 of their men were out.

Union officials had claimed 36,000 men had walked out.

GHAKHI NURSE BE EMPLOYED HERE

Announcement has been made by Mrs. Burton E. Morse, chairman of the public health department of the Twin Falls Red Cross, to the effect that a public Ghakhi nurse will be employed here. Mrs. Morse said that recommendations of two nurses had been sent to the Seattle headquarters for selection.

This action was adopted after conference with the County commissioners, who had planned to employ a county nurse. The Red Cross nurse will be used not only in the city, but in the county, aiding the county for the period of one year.

The nurse will be located in the Collihan hall. Her work will be carried through a general welfare and health clinic held in Twin Falls. The Red Cross assumes all expenses during the year for her work.
