

GOLD CAUSES RISE, SAYS PROFESSOR

Yale Man Declines Influx of Yellow Metal Declines Value of American Dollar.

By the Associated Press. WASHINGTON, Aug. 14.—(Herald)—before the bar of the Federal circuit railway commission today, a billion dollars in foreign gold was proffered by Professor Irving Fisher, of Yale university, as the chief culprit not only in bringing American prices down to bankruptcy but in sending prices generally skyrocketing to undreamed of high levels.

The flood of bullion, he said, came before the war, went over to most purchases by belligerent powers in the United States.

With the first appearance of the golden invader, he said, prices began to leap because the price of articles wholly unrelated to the war.

The result of the gold importation has been a depreciation of the American dollar, so far as its purchasing power was concerned, Professor Fisher asserted. At the same time it forced on the actual amount of gold it contained by weight, remained fixed, he added, and today its buying power is one third of what it was in 1906 and half of what it was in the spring of 1914.

The remedy is easy, the witness declared. Stabilization of the dollar by regulation of the price of gold in accordance with price fluctuations was possible, he said, through the system of dollar values worked out by government economists.

Applying his theory of gold inflation to the case of the trolley lines, Professor Fisher said the trouble was that the fixed rate of power of the nickel was but one third of what it was when most of the five cent rates were fixed. Obviously, he said, the logical thing to meet the present emergency appeared to be to raise fares; but in that would be inequitable equalization to the new price levels of all other fixed charges such as interest rates, salaries, wages and all similar contract agreements that were fixed in terms of "the" dollar, before the gold inflation, and should not now be met with depreciated "little dollars."

Appreciated dollars had caused the postal movement which did not want to be replaced by the Bolshevik idea now spreading through the world, the witness said. Stabilize the dollar and Bolshevism would similarly disappear, he continued.

JURY AWARDS FORD 6 CENTS DAMAGES IN BIG LABEL SUIT

MOUNT CLEMENS, Mich., Aug. 14.—A jury tonight awarded Henry Ford six cents damages against the Chicago Tribune for calling him an anarchist. Grey Hallett, foreman of the jury, said that they took "five ballots that I can remember." The first one, according to Leonard Mead, another juror, stood 8 to 4 in favor of awarding Mr. Ford some damages.

"Money damages were entirely subordinate and were not sought by Mr. Ford. He stands not only vindicated, but his attitude as an American citizen has been justified after the trial which raised every issue against him which ingenuity and research could present. His friends are entirely satisfied." Weymouth Kirkland, of counsel for the Tribune, said: "We claim a victory for the reason that Attorney Alfred Lucking in closing for Mr. Ford stated that anything less than substantial damages would be a defeat for his client."

FOLLOW LURE OF WEALTH TO AMAZON RIVER

Exploring Parties Search for Gold, Rare Timber, and Fruit.

AMERICANS INVADE BRAZIL WILDERNESS

Many Will Follow Trail of Fateful Roosevelt Trip in Quest of Riches.

By the Associated Press.

PARA, Brazil, Aug. 14.—The ending of the World War has given a new impetus to the work of opening up the great reservoirs of natural wealth, from gold to fruits and valuable woods, which lie in the valley of the Amazon. Several expeditions of exploration are being organized here, one of the most important of which is under the direction of Henry S. Fleming of New York, United States Customs Receiver at Para, who will shortly start on a three-month trip devoted to exploring the commercial possibilities of the vast region watered by the Amazon and its many tributaries.

Will Search for Treasure.

The advance guard of another important expedition of scientists, headed by Dr. Hamilton Rice of Boston and his wife, has passed through here on its way to Manaus which will be headquarters of the venture. A specially equipped 46-foot motor launch will accommodate the party which plans to navigate the Rio Negro to its junction with the Orinoco in Venezuela.

General Rodon, the well-known Brazilian explorer who accompanied Colonel Roosevelt on his famous trip down the River of Doubt, now named the Rio Teodoro by the Brazilian government in honor of the former president, has returned here after spending two years in surveying the wilds

of the state of Mato Grosso on the borders of Bolivia.

Follow Roosevelt Trail.

The territory explored by him lies to the southwest of the Parecis range, northeast of which lies the Rio Teodoro. General Rodon reported the discovery of three new mountains and several new rivers. He also reported finding much evidence of rubber, caoutchouc, heceta, cacao and other valuable forest products and said that he traversed large areas of gold-bearing country, especially in the region of the headwaters of the San Miguel river.

Will Encourage Colonists.

President Pessoa, the newly-elected head of the Brazilian republic, is reported to intend devoting considerable attention to the work of sanitation in the Amazon valley and his expressed his intention of affording every governmental protection to investors who help to develop Brazil's natural resources and to encourage desirable colonists.

The region comprises an area of 2,000,000 square miles, almost five-sixths the extent of all Europe, and its climatic conditions are almost identical to those of southern Europe.

Only One Industry.

The only industry which has been developed to any extent up to the present has been the production of rubber and this is now in an unattractive condition owing to the competition of the Orient which has reduced the price of the product below a profitable margin. In consequence attention is being paid to the other resources of the valley which include gold, platinum, oil, uranium, vanadium, aluminum, tin, rare cabinet woods, nuts and apparently inexhaustible supplies of cacao, fibres and kapok.

Open for Cattle.

The banks of the Amazon are inundated for three or four months each year and are said to afford splendid opportunities for the cultivation of wheat, rice, maize, beans and other agricultural products.

Back of the river and behind the forest walls there are vast tracts of savannah suitable for cattle raising. An excessive rainfall at certain seasons of the year which is followed by prevalence of fever is the chief drawback to the climatic conditions and the general accommodations in the region are very scanty. The reported intention of the government to tackle this problem in a comprehensive manner is expected to remove one of the principal obstacles to successful colonization.

President Pessoa has frequently spoken of the United States in most enthusiastic and friendly terms since his return home and comment in the newspapers throughout the republic shows that Brazilians are looking to the United States more than to any other country for financial aid and other aid which they need in the development of their national resources.

SHOPMEN RETURN TO THEIR OLD JOBS

Strike Unauthorized by Heads of Unions/Pulls to Enlist Sympathy of Workers.

By the Associated Press.

CHICAGO, Aug. 11.—The railway shopmen's strike is off and the men will return to work Saturday. That was the decision of representatives of the strikers from widely scattered points throughout the country after an all-day meeting.

No official announcement was made, but the result of a conference was learned from men familiar with the proceedings.

While the shopmen's representatives were in session a mass meeting of car receivers representing about 27,000 strikers, decided to return to work.

The shopmen's meeting today was called by the Chicago district council which called the strike August 1 in defiance of the international officers of the shop craft who were in session in Washington negotiating with Director General Hines of the national administration.

A telegram was said to have been dispatched to President Wilson, chief of the district council attempt to maintain peace.

In the meantime it was learned from persons familiar with the action taken that the decision had been to call off the strike and return to work Saturday.

The decision had been expected since the council decided several days ago to call the meeting. An attempt to obtain recognition from Director General Hines for the Chicago leaders of the shop craft was, so far as known, to telegrams to the president and the director general. The president had said that before the railroad administration would take up the strikers' demands, the men must return to work.

The Chicago council telegraphed him they would not end the strike until some concession was made them.

At various times the Chicago leaders estimated the number of men on strike at about 500,000. The railroad generally were severely crippled, especially in the Chicago. Postpaid week saw several thousand of men return to work.

Today Regional Director Ainsworth of the northwestern roads received information that 4,000 strikers of the Chicago and Northwestern, and about

1,000 at Boone, Iowa, had decided to return to work at once.

The end of the strike will open the way for the international officers of the shop craft to decide action by the railroad administration. The strikers have demanded 55 cents an hour for the skilled workers and 50 cents for helpers.

NOTICE

At the regular meeting of the Board of Education to be held in the superintendent's office in the high school building next Monday evening, Aug. 11, drivers for the various school wagons will be elected for the school year opening September 2, 1919.

The salary paid to a driver depends upon the length of the wagon route. The salaries range from sixty dollars per school month to one hundred dollars per school month. The Board of Education furnishes the wagon. The driver furnishes the team and cares for the wagon.

All applications should be mailed to the Superintendent of Schools or to any one of the following wagon committees: David G. Clark, William W. Parish and George W. Hise. If any one is interested in securing a wagon, he should attend to this matter at once.

WOULD HAVE U. S. GUARANTEE PROFIT

Many Shareholders Want Assurance of 6 Per Cent Net Balance to Labor and Government.

By the Associated Press.

WASHINGTON, Aug. 14.—A plan devised by H. Davies Warfield, of Baltimore, under which the government in the reorganization of railroads, would provide a minimum return of 6 per cent on invested capital with division of all surplus over that amount among employees, the public and the earning road, was outlined today to the house interstate commerce committee.

Lathur M. Waller, of Chicago, general counsel for the National Association of Owners of Railroad Securities, which sponsors the plan, denounced its various points with the committee at a five-hour session, and declared it could be put into effect at once, or certainly with the return of the roads to private control at the end of the year.

The right of labor to share in the profits of the road was laid down by Mr. Waller as one of the fundamental principles of the plan. His sharply challenged the contention of Glenn E. Plumb, father of the labor plan, that the property investment account of the railroads would not exceed ten or twelve billion dollars. The total would reach nineteen or twenty billion, Waller said, at the same time expressing the confident belief that the courts would uphold substantially his contention.

In the general exchange of views on the present day transportation situation, Mr. Waller declared the roads would have been more successfully managed for war purposes under private ownership, and that, he declared, now, he said, replying to an inquiry as to whether this might help to reduce the growing deficit, would shift to the roads a burden the government should bear.

The Warfield plan would have the interstate commerce commission fix rates on a basis which, after paying the cost of operation, would not the minimum return of six per cent.

The Plumb plan was characterized by Mr. Waller as a "shillabib" which had attracted some people, but which he declared, was impossible. "It is not in line with our institutions," he added, "and could not help if adopted."

IF BACK HURTS USE SALTS FOR KIDNEYS

Don't Let Me If Kidneys Feel Like Lead or Bladder Suffers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, neuralgic pains, dyspepsia and all sorts of bladder disorders.

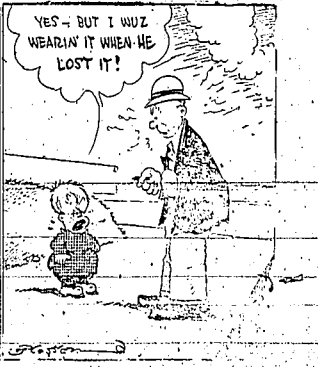

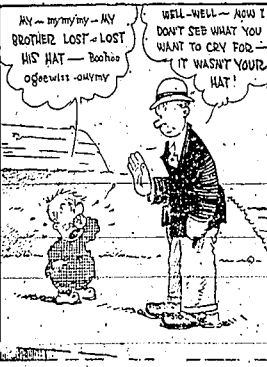

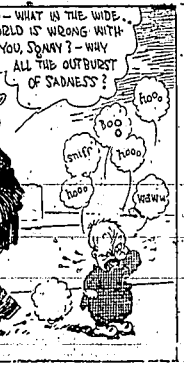

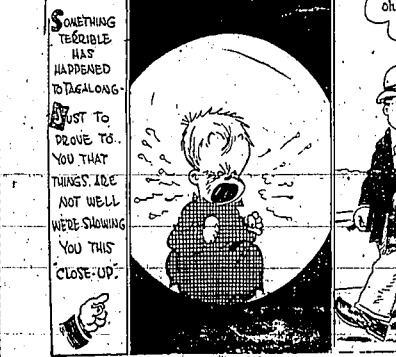

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Eads' Salt, or any good drug store here, take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

This famous salt is made from the best of brines and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Lithia is harmless; inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Eads' Salt to folks who believe in overcoming kidney troubles while it's only trouble.

CINCINNATI 1-3; NEW YORK 2-0

NEW YORK, Aug. 14.—The New York Nationals made a strong comeback here today, winning both games of a double header.

The first game was a pitchers' battle between Toney and King, won by the Giants in the 14th inning, 2 to 1.

The second game was a walkover for New York, the Giants winning 9 to 3. As a result of the double New York victory Cincinnati's lead was cut to four and a half games.

Benton started off as the New York pitcher in the second game, but was put out of the field in the third by Umberto Quigley after attacking Lugo. The Giants accused Lugo of pitching a bean ball, and there had been some hot words. Benton sacrificed to Lugo on a squeeze play. In making the put-out, Lugo jabbed Benton with the ball and Benton took several punches at the Cuban. Most of the other plays were got involved. After order was restored Benton was put out of the game for starting the wrangle. Scores:

NEW YORK 15; DETROIT 4

DETROIT, Aug. 14.—By collecting two extra base hits, following a pass, New York broke a tie in the fifteenth inning and won the first game of a series with the Tigers today, 15 to 4. Anya, who had held the invaders riddled for five innings, after relieving Buland weakened in the last. With one out he passed Ward, and then Wick and Baker smashed out a triple and double, respectively, thereby gaining two runs and clinching the game. Detroit made a brilliant try for honors from the ninth inning on. Maxs hurled a night ball for nine innings and then was ordered out of the park by umpire Owens for throwing a hot bat over the right field foul line after being called out on strikes.

Everyone Should Drink Hot Water in the Morning. Wash away all the stomach, liver, and bowel poisons before breakfast. To feel your best day in and day out, to feel clean inside, no sour bile, to coat your tongue and sticken your breath or dull your head, no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the blood is not so much impurities into pores do not absorb impurities into pores as a well-known physician. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day a glass of hot water with a tablespoonful of limestone phosphate in it. This will cleanse and purify and freshen the entire alimentary tract, before putting more food into the stomach. Use a quarter-pound bottle of Limestone phosphate from your pharmacist. It is inexpensive and almost tasteless except a sourish tinge which is supplemented. Drink 'phosphated' hot water every morning to rid your system of these vile poisons and toxins. To feel like young folks feel; like you feel before your bones and muscles became saturated with an accumulation of body poisons begin this treatment and above all, keep the skin clean, shining, sweetening and purifying, use limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

New York's come-back means that the Polo grounds will not be large enough to hold the fans. The first contest yesterday must have broken the hearts of the Cling bunch, because they should have won it.

The feeling between the players is becoming more intensified each day.

The double victory will give the Cling's the advantage today. But if Cling wins one of the games she will leave the city with the same lead which she had when she entered.

The two clubs will not meet until September 15 and 16. The battle will take place in Cincinnati. If the teams remain "down" then it is almost a sure bet that the championship will be decided at that time.

Cling has a long head pull ahead of her, but the majority of her games after this season around the circle will be played at home.

Mexico on Monday. During the day many airplanes were busy running many reports as to the whereabouts of the lost planes and aviators, but without success. General Truena, the Mexican commander at Ojinaga, is leading every mission to the American searchers and has a force of men out in the rough country opposite the big Bend district. The country is extremely difficult and at times both aviators' skin ground surfaces have not their way.

It was reported here today that the plane had been seen today in a canyon 60 miles up the Rio Chonchoa from Ojinaga and that the aviators were seen near the machine. Another rumor was to the effect that the plane had been seen in the mountains opposite India, Texas, and still another report stated that a plane had been seen flying low and emitting black smoke about 60 miles up the Chonchoa. None of these rumors were confirmed.

GOVERNORS TALK ON LIVING COSTS

By the Associated Press. SALT LAKE CITY, Utah, Aug. 14.—Governors who will meet at Salt Lake in conference August 15 to 24 will devote all of next Wednesday to discussion of bringing about a reduction in the high cost of living. The previously arranged program for Wednesday has been abandoned, due to the prime importance of this question at the moment and the state executives will attack the great problem of profiteering and the other causes which have been contributed to the rapid shrinking of the dollar.

This information was received today by Governor Hamberger from Miss C. Wiley, secretary of the conference. Mr. Wiley said the executive committee had directed him to make this change in the program.

Twenty-two governors, exclusive of Governor Hamberger, will be present, according to information received by C. A. Grimes, secretary to the governor.

CROWN FIRES BREAK OUT IN FORESTS

Fighters Are Forced to Flee for Safety; Trenching No Longer Being of Any Avail.

By the Associated Press. LEWISTON, Idaho, Aug. 14.—As the result of a light rain, crown fires have developed in the Selway national forest and for a distance of 40 miles on each side of Locksaw creek flames are sweeping through the timber. There are 250 men in that zone, but with crown fires breaking out all around them, the first of these fires is located about 35 miles from Kossika, the headquarters of the forest fire fighters, while the last is at a point about 40 miles from the Montana line.

The fires here in the fresh timber, classed as the best white pine and fir on the reserve. One of the fires swept over the 2,000 acres this afternoon.

In crown fires the flames leap from tree to tree top and ground trenching is of no avail.

Advises tonight from Grandville stated the entrance of 700 sheep, owned by Charles Munham of Lewiston, had been found in the Selway forest fire zone on the New Peru reserve. Other bands of sheep are reported in danger.

MANAGERS REFUSE TO MEET ACTORS

Belasco Declares That He Will Never Again Produce Play That Strikers Win.

By the Associated Press. NEW YORK, Aug. 14.—Theatrical managers of New York gave a flat refusal today to an offer of mediation to the actors strike made by a volunteer committee of playwrights, headed by George V. Hobart, George Ade and Irvin S. Cobb.

Mr. and Mrs. Coburn announced they would file suit for \$200,000 against De Wolfe Hopper, who had been employed to head a road company in the "The Better Ole," which was scheduled to open in Toronto ten days hence.

Charles Shea, president of the International Association of Theatrical Stage Employees, announced tonight that the stage hands would go on a sympathetic strike "at the right time if the actors can't win without us."

Nearly 400 members of the Friars club paraded through Broadway to the Coburn and Harris theatre tonight, and going upon the stage where George V. Coburn was about to appear as "strikebreaker" in the Coburn and Harris production, "The Royal Vagabond," presented him with a petition signed by one thousand club members urging him to reconsider his resignation from the club.

Members of the delegation pleaded with Mr. Coburn for several minutes to act favorably on the petition, but his only answer was "I'll never set foot in the Friars club again."

David Belasco announced tonight that he never would produce another play if the actors' Equity association should win the present strike.

"How can I or any other producer assure that some new creature won't immediately turn up these children of Impulse who are under heavy hand to obey the so-called Actors' Equity association?" said Mr. Belasco's statement. "If the actors involved in the

strike will send representatives to us whom we can trust there will be no more trouble."

RUMANIANS MAKE PLANS TO WITHDRAW FROM BUDAPEST

By the Associated Press. BUDAPEST, Wednesday, Aug. 14.—The Rumanian government, after consulting Bohachevich at Budapest, decided to withdraw the Rumanian troops from Budapest because of adverse criticism by the foreign press, according to a statement issued by the Rumanian legation at Bern.

An influential delegation of the Magyar authorities, however, begged the Rumanian general to remain until order had been re-established, the statement says, "as it was considered that Archduke Joseph's reign would only be temporary because both the Austrians and Hungarians disapproved of the return of the monarchy, under whatever guise."

Dr. Karl Renner, head of the Austrian peace delegation, who passed through Buda on his return to St. Germain, said that the reappearance of a Hapsburg at the head of the Hungarian government had caused the greatest indignation at Vienna.

TELLS OF FIRST LEGION MEETING

Alph. Reynolds, Who Is Visiting Here Was Delegate to Important Convention At Paris.

Among those who attended the meeting of the Twin Falls Post American Legion, last evening, was Alph. Reynolds, who is here visiting with his parents. Mr. Reynolds, who was attached to the general headquarters, was a delegate to the first meeting of a fast growing organization in Paris.

In speaking of the work of the Legion, Mr. Reynolds said: "If the organization follows the outline made at its initial meeting in Paris it will become the most potential force for good in the country. It is a pleasure to me to see the organizations of the different state branches progressing so satisfactorily as they are at this time."

Mr. Reynolds just recently secured his discharge from the service. He will remain with his parents looking for a location at present. If he finds where, he last evening joined the Twin Falls post of the legion.
