Prose details of the undertaking are not available, as naturally there is disposition to secrecy until all the details have been worked out.

SERVICE RESUMED ON THREE LINES

By the Associated Press. LOS ANGELES, Aug. 30.—Train service on the Southern Pacific, Santa Fe and Salt Lake routes, which has been virtually paralyzed during the past week as the result of a strike of firemen and yardmen and which was resumed this morning when the strikers returned to work, was fast approaching normal tonight, officials of the three roads announced.

Trains were dispatched on schedule today for points to the east, north and south and the embargo on freight which was placed in effect soon after the strike was called, was lifted.

NAME COMMITTEE FOR S. A. DRIVE

Elks Will Help Great Relief Organization Secure \$4,000 in This County.

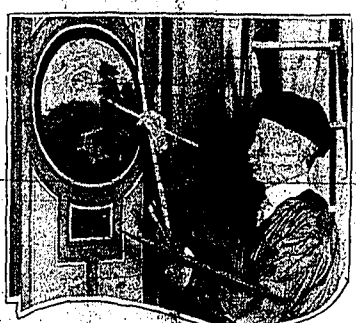

Following the action of Twin Falls Lodge B. P. O. E. in undertaking to handle the Salvation Army drive in Twin Falls county, announcement was made yesterday of the committee which is to handle the work.

Supplanting the old plan of raising necessary funds by passing the tinware, this drive, which is being pushed throughout the entire country, is designed to supply funds for an entire year.

Under the appointment for Idaho, Twin Falls is allotted \$4,000. That is the county's quota, and the committee is hopeful that the amount can be raised in a day.

IRISH BURGE SENATE TO REJECT TREATY

Declare That Free Will Give English Too Much Control of Nation's League.

By the Associated Press. WASHINGTON, Aug. 30.—Impassioned protests against the league of nations were presented on behalf of America yesterday at a hearing before the senate foreign relations committee.

In a series of dramatic appeals which repeatedly drew cheers from the crowd jamming the committee room, the speaker declared the covenant ought to pronounce a death sentence on the league of nations.

Among the speakers, who also voted the rejections of more than 20,000,000 Americans of Irish birth, were Frank P. Walsh of Kansas City, Michael F. Ryan of Philadelphia and Edward F. Dunne, former governor of Illinois, members of the American commission which sought to set a hearing for Ireland at Versailles.

Outright rejection of the peace treaty was asked by the Irish speaker, who charged that under the covenant Great Britain would receive a guarantee that no outside nation ever would help Ireland gain her independence.

In Versailles negotiations, Walsh, Ryan and Dunne declared President Wilson's ideals had been crushed aside by the other powers.

The three commissioners said they had been referred to E. M. House when they tried to get a hearing with President Wilson in Paris, and that their Secretary Lansing had written them that it would be useless to press their requests further since their re-

NEW CONTRACT NOW OFFERED TO ACTORS

Cohan, Submits Proposal—Whiff-Ho Asserts Will Soon End Equity Strike.

By the Associated Press. NEW YORK, Aug. 30.—Settlement of the actors' strike within ten days on terms which appeared on their face to be a victory for the Actors' Equity association was predicted tonight by George C. Cohan at a meeting of the regularly organized Actors' Equity association.

Mr. Cohan announced the Producing Managers' Protective association had offered a contract with an arbitration clause providing that in case of dispute the actors' "may be represented before the board by any association."

The arbitration clause provides that in cases of dispute differences shall be settled by a board consisting of two actors, two managers and a neutral umpire and then makes the assertion that the actors "may be represented before the board by any association."

Follows First Victory. Mr. Cohan's announcement, with the prediction that the strike would be over within ten days, came within 12 hours of the sealing of the Equity association's final victory in the signing of a contract with the New York Hippodrome management, by which the big playhouse accepted the Equity and the chorus Equity association full recognition.

OUTWITS THE THEATRIANS. CHICAGO, Aug. 30.—Striking actors were successfully defied tonight by George C. Tyler, manager of "On the Hiring Line," and the management of the Blackstone theatre when they went on before a well filled house after a week's delay due to the walk-out of stage hands, musicians and bill postors in sympathy with the actors.

The heavily armed chorus girls pickets failed to appear outside the doubly guarded playhouse. Several picketing stars were there, however, selling copies of a paper, labor with headlines proclaiming the theatre unfair to organized labor. They made no attempt to picket daily.

Crowds of curious persons passed the theatre on foot and in motor cars seeking diversion.

The Blackstone was the one legitimate theatre alight tonight. Eight others and the Palace Music Hall, devoted to vaudeville, remain dark.

FOREST FIRE IS MENACE TO FARMS

MISSOULA, Mont., Aug. 30.—A forest fire on Willow creek, in the Missoula forest, about twenty miles from Phillipsburg, Mont., today crossed its control lines and spread rapidly and threatened ranches in the Flint valley, according to information at district headquarters here today.

The fire, fanned by high winds, has crossed Fall creek, driving many fire fighters who had escaped lines there. An effort was being made today to strike against the fire which has covered between 4000 and 5000 acres.

The Deep Creek fire, which crossed the divide from Idaho into Montana a few days ago, is still pushing ahead in a dangerous manner.

LIVESTOCK MEN SAY WITNESSES COERCED

Western Stock Raisers Are Sent to Washington by the Big Packers.

WASHINGTON, Aug. 30.—While western and southern stock raisers appearing before the senate agriculture committee continued today to attack the Kenyon and Kendrick bills to increase the packing industry, Chairman Gronna put into the record a telegram from the American Live-Stock association charging that in some cases the witnesses were "coerced" and in other cases had their expenses paid by the big packers.

The association has long realized the impossibility of proper conduct of the live stock business which subject to the entrenched monopoly of the great packer combination, said the message which was signed by H. A. Jantze, as chairman of the association market committee.

"We believe the licensing system properly places power and responsibility for just and rational treatment in an impartial agency of the government. We endorse an essential policy of allowing the producers from control of the stockyard. We believe that preferential care should be rated as common practice. We are aware of the desperate efforts being made by the packers to maintain their unbecomable position. We have noted their lavish expenditure in advertising this has done in certain, many presentation and half truths. We deplore the recent action of those live stock producers who have passed resolutions condemning certain features of the proposed bill."

# UNITED STATES NAVY AIRMEN RANK SECOND

### Rapid Growth from Insignificant Corps Made During the War.

### LARGE PERSONNEL AT TIME OF ARMISTICE

### Work in War Zone Successful—Protection Against Submarines Great Feature.

WASHINGTON, Aug. 30.—Although its origin was an almost insignificant corps, the United States naval aviation service was expanded so rapidly during the war that when the Germans quit was the second largest naval flying force in the world. The magnitude of the service, hitherto carefully guarded secret, was disclosed by the navy department today in the first of a series of announcements dealing with naval aerial activity since April 1917.

But One Station.

When the United States entered the world conflict it maintained a small naval aerial establishment, with the principal station at Pensacola, Fla. The personnel at that station was 24 aviators and 163 men and the equipment consisted of 22 airplanes, five kite balloons and two free balloons. A department of aviation was organized immediately and the various bureaus took up the work of providing men and equipment. The bureau of steam engineering took charge of the development and manufacture of motors and rable equipment; the bureau of construction and repair dealt with the hulls and wings of the planes; the ordnance department provided machine guns and bomb launching devices and thousands of tons of high explosives, and the bureau of navigation supplied and trained thousands of officers and enlisted men.

With 1500 Aviators.

The armistice found the navy with more than 1500 aviators, 1369 ground officers, and 25,000 enlisted men with 4,000 flight officers and

were in commission, 400 airplanes and airplanes and about 20 lighter-than-air craft of all types. More than 2,500 officers and 15,000 enlisted men together with 588 airplanes, 116 all-weather balloons, 12 kite balloons were sent to the war zone.

Continuing the single station maintained in the United States prior to the war had grown to seven training stations, 10 patrol stations, 100 test and training stations, 100 test and training stations, 100 test and training stations for various purposes were under construction. They formed a grid that covered the entire coast of the country. In Europe there were established and in operation 28 American naval flying stations, two training stations and 12 floating stations located in England, Ireland, France and Italy. There also was a marine aviation station in the Azores.

Capable Administration Key.

A capable administrative system, shown by the navy from the beginning, maintained the activities of the service with great success, but regular navy officers were in direct charge. Technicians and manufacturing experts of international reputation represented the navy at the bases abroad and in this country. Their loyal services to the navy of the first months of the war, the achievements which brought from Admiral William S. Sims the following praise for the work of the naval aviation service in the war:

"Please express to the naval aviators of America my most sincere appreciation of the conspicuous and gallant performance of duty at home and abroad throughout the war. Their brilliant exploits, their determination to win, will ever remain one of the highest tributes to America's manhood. The performance of duty at home, in the various bases, and at our command has not only been in keeping with the very best traditions of our naval service, but has in addition won for America the enthusiastic praise of her allies."

The American naval aviators carried out their work with the British, French and Italian naval forces, using enemy submarines bases and aircraft bases at Ostend, Zeebrugge, Bruges, Heligoland, Pola, Trieste and various other points. Large quantities of planes, munitions, instruments, base, engine parts, and other supplies, ammunition dumps and other valuable military projects were destroyed.

Droids Are Successful.

Swamp patrol and aerial convoy were particularly successful. After the installation of American sea-plane patrols and during thousands of hours of aerial operations, the convoys protected by seaplanes was ever successfully attacked. In the ten months American patrols were active, only three ships were lost in the entire area between Penmach and Ilo Ilo.

British, French and Italian officials who gave the American naval aviation force credit for attacking 90 per cent of all submarines sighted while on patrol, in spite of terrific weather conditions at times, and of damage to 46 per cent and sinking 23 per cent of all those attacked. The exact number of submarines sighted, attacked and sunk cannot be made public until the compilation of figures contained in allied reports is completed.

### HISTORY SAVORS STRONGLY OF EARLY WESTERN ROMANCE

PHOENIX, Ariz., Aug. 30.—Wrested from the hands of the Apaches over four decades ago, the famous old Silver King mine of Pinal county possesses an early history that savors strongly of the romance of the early west.

Result for the discovery of the location belongs to the "soldiers" whose work of "civilizing the Apaches" led them into the almost inaccessible mountain fastness. The mine soon became the nucleus from which was carried on the work of reclaiming the Pinal region from the savages.

The Indiana do-uated the entire district, and deterred most prospectors from venturing far into the Pinal mountains.

Not up with a 52-ster name Sullivan, however, who was a member of the command of General Sherman, afterward a governor of California, his men showed its exact location. Groping to others, the exact location of the property was laid out, a corporation was formed, and the mine was first worked in 1875, being in continuous operation since then. During this period, the value in silver ore amounted to \$16,011,100. Since that time the property has been worked only sporadically and only \$600,000 in silver has been extracted. Recently, however, there has been a rekindling of renewed interest in the old mine.

# PALMER TURNS ON NEW JERSEY SOLO

### Declines That Freilichshausen Was Interested in Adding the Governor

WASHINGTON, Aug. 30.—A Mitchell Palmer, whose nomination as attorney-general was confirmed yesterday by the senate, gave back yesterday today at Senator Freilichshausen, New Jersey, leader of the fight in the senate which had for a number of weeks held up confirmation of the nomination.

Charging that Mr. Freilichshausen was constantly active in behalf of German property owners in the United States during the war and attempting to influence legislation which would affect adversely companies in which he personally was interested, financially, the attorney-general gave a detailed account of alleged activities of the New Jersey senator while this country was at war with Germany.

"No American interest has asked for any investigation of the alien property custodian," Mr. Palmer declared. "No American interest is complaining. The Germans are complaining very severely. Senator Freilichshausen nullifies any claims Germany has in this business. They have received special mention by the German foreign office for their activities, which Germany hopes may result in the Germans getting all their property back."

Mr. Palmer declared that Senator Freilichshausen was not really interested in the trade with the enemy net which he had administered, and "he has been especially against the Americanization of the industrial concerns in America owned by our enemies and in a hostile way against this country's interests."

In liquidating the business of German owned insurance companies, Mr. Palmer said he received a patriotic application from all except one American company which had resumed contracts with the enemy corporations.

The only American insurance company that stood in the way, therefore, of the final and complete liquidation of German insurance companies in this country," Mr. Palmer said, "was the Stuyvesant Insurance company of which the president is Senator Joseph S. Freilichshausen of New Jersey."

### DICKERSON WINS HIS CLAIM AGAINST WESTERN LEAGUE

By the Associated Press.

ALBUQUEN, N. M., Aug. 30.—The National board of the National Association of Professional Baseball Leagues today allowed a claim of E. W. Dickerson, a western newspaper writer, for \$6,425 against the Western Baseball League for alleged breach of contract.

Mr. Dickerson was elected to the presidency of the league in 1917 for a three-year term and when the league suspended in July 1918, on account of war conditions, went overseas as a soldier. A. R. Kearney of Chicago was tendered and accepted the presidency of the league last February a month before Mr. Dickerson's return to this country.

The board also affirmed its previous decision denying the application of the Texas league to be advanced to a class A rating.

### ENLISTED MEN GO BACK INTO NAVY

WITH THE PACIFIC FLEET, Aug. 30.—White officers of the navy are growing anxious because of the many enlisted men who are assisting and obtaining discharges under the rating which makes discharge easy for those who entered for the duration of the war, there is a tendency among those who get out to get back in again.

When they get out, they begin to realize what the high cost of living means. They think of the old three squares a day and the certain pay they get in the navy—and they come back.

"These boys who are getting out," said one petty officer, "think they can get out and get some of the high

**A Palmolive Deal**

The Palmolive Company, makers of soaps and toilet articles, put on what is known as "a deal" last week here in Twin Falls and invited me to go in with them on "the deal."

I declined for the reason that this called for the selling of three cakes of Palmolive soap for 29 cents, the dealer to be allowed by the Company a half cake for each "deal," or two cakes to the dozen, or, in other words, the dealer was called on to supply 10 cakes of soap for which his customers paid him 4 times 29 cents, equals \$1.16.

As I have been selling Palmolive soap at 8 cents and am still selling it at that price, it means that my customers get 3 cakes for 24 cents, a saving of 5 cents on each purchase, so I could not see my way clear to "boost" the price 5 cents on a purchase even for one week.

This store is a good store to make your purchases with the feeling that you will be sold goods at right prices.

Get Less Meat If Kidneys Feel Like Lead or Shingles Both.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally. If you simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the seed of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble early it is only trouble.

THE BEST CITIES FOR BABIES

Newark, N. J., appears in the news pretty often, but never more deservedly than at this moment, when it claims the 1919 baby-saving championship of the ten largest American cities.

During the first six months of this year the infant mortality rate in Newark was only 77.1. Pittsburgh wins evil pre-eminence by coming in at the tail end of the list with 133 babies dying per thousand.

The most hopeful thing about it is that all of the cities show some improvement. Newark's death rate in 1919 was 125.

It is still nothing to brag of, however, when any city, town or village allows as many as 77 babies out of a thousand to die. The time when such deaths were accepted as inevitable visitations of Providence is happily past. People realize more and more than when babies die it is generally due to mere carelessness or neglect, on the part of the parents or on the part of the community or both together.

THE WORLD'S NERVES

"We are all on edge nervously," says a well known American minister. "During the war, fathers and mothers at home and boys at the front did not realize that all the while their nerves were being held taut. After the armistice was signed their nerves went on strike, joined a big union of millions nerves. That nervous reaction had to come."

The "railroad" men will not get what they want again; but who bothers about the living expenses of the underpaid postoffice employees?

Irish Urge

(Continued From Page One)

Comrades while in Ireland had offended British statesmen.

Great Britain, the speakers said, had drawn the United States into the league to help guarantee such "outrages" as she was committing in Ireland. At the same time, they said, England had been careful to serve a new power which gave her a "rip on every quart of salt water in the world," and which under present circumstances could be intended for use only against the United States.

Take Most of the Day. Although the committee had originally allotted ten hours to the hearing, when presentation of the Irish cause had been fairly launched, it was voted to extend the time for as long as the speakers desired. They took most of the day.

A brief opponent of the views expressed by the Sinn Fein was filed with the committee by Albert J. Kelly of New York and five others. The brief protested against the "intention of representatives of a faction" in Ireland known as the Sinn Fein party, or of kindred organizations favoring their movement in the United States, to bring the Irish question into discussion of the peace treaty.

Brief Not Read. The brief was not ready but was ordered put into the record of the hearing. The speakers said they were of Irish birth and "just plain, hard-

working American citizens with no axe to grind."

The Sinn Fein "faction," the brief set forth, has no right to take part in the discussion of the league of nations because it "failed to support the allies" in the war, conducting a propaganda hurra for the allied cause and giving "aid and comfort to the enemy by creating strife and turmoil at home."

Ireland Not Suppressed. Statements that Ireland has not self-government were denied, the brief saying the Irish have the franchise, have a representative government and are subject to laws made by parliament in the same manner as England, Scotland and Wales.

Ireland in not suppressed religiously or industrially, it was declared, and never has been one undivided nation, appearing unity only under British rule. Injection of the Irish question into American politics, it was urged, would create racial and religious issues foreign to the principles of American life.

The hearing today attracted unusual attention, an extra detail of police being necessary to keep the spectators from crowding the committee room beyond its capacity.

LAST ANZAC LOSES

WIN TENNIS MATCH

Three Famous Stars Defeated in Matches on Forest Hill Turf.

By the Associated Press. FOREST HILLS, N. Y., Aug. 30.—All danger of the 1919 national curling singles championship going abroad at the end of the season was removed here today with the elimination of the last of the foreign competitors in the 38 championship tournament of the National Tennis association. The completion of the fifth round found three eastern and one

western racket expert still in the running and given fair weather the new title holder will be evolved from among William M. Johnston of San Francisco, Wallace F. Johnston, William T. Tilden 2nd, both of Philadelphia, and H. Norris Williams of Boston. Of this quartette two are previous holders of national title. Williams won in 1914 and 1916, while Johnston was crowned champion in the 1915 tournament.

The play today marked the passing of two football international Daviecup stars and the American title holder of twelve months ago. Norman E. Brock of Australia, fell before the tornado-like drives and minuses of

Tilden, while H. Lindley Murray of Niagara Falls, who won the championship from Tilden a year ago, bowed before the racket mastery of Johnston. Along with Brokes went Maurice E. McLaughlin of Los Angeles, who five years ago on this same strip of West Side club turf, defeated Brooks and Anthony Whiting in the greatest Davis cup matches ever witnessed in any part of the world.

charge of obtaining employment for returned soldiers, makes a request to prevent the misuse and commercialization of the army uniform by discharged men.

MANY THINGS ARE BLAMED FOR HIGH LIVING COSTS

By the Associated Press. WASHINGTON, Aug. 30.—High costs of living which the governor is now seeking to combat are due primarily to the curtailment in the production of nearly all commodities, hoarding, profiteering and inflation of currency, the council of national

defense said in an exhaustive report sent to congress and made public by the House Secretary Baker, chairman of the council.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness

Almost everyone knows that Sage Tea and Sulphur, properly compounded brings back the natural color and lustre to the hair when faded, streaked or gray. You say "no" the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients at a small cost. Don't say "gray"! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, starting near the roots, in the morning the gray application or two, you hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease, and after another trial of disease.

# SOCIALISTS FIGHT OVER BOLSHEVISM

Berger Declares That Those of the Left 'Are a Lot of Anarchists' His Side O. K.

CHICAGO, Aug. 30.—A candidate for president will not be named at the national-socialist convention which opened here today. Resolutions to that effect were adopted after J. Louis Bradah of Chicago had proposed Eugene O. Debs, now serving a prison sentence for violation of the espionage law, for the nomination.

Seymour Stedman, temporary chairman, declared that the nomination would insure Debs' chances for a pardon.

Election of John Reed, unopposed Bolshevik ambassador to the United States and 33 other members of the left wing of the party, by members of the police anarchist squad on guard during all the convention convened the credential fight in the morning.

In the meantime, the main convention of the socialist party, headed by Congressman-elect Victor Berger of Wisconsin, Seymour Stedman and Hugh Bremer, national secretary, is going ahead with its business. "We are the party," Mr. Berger declared, "the others are not a lot of anarchists. I have been through this experience before."

Among the left wing delegates who were making the fight today were Eugene Pastor Stokes, Kate Sadler and I. E. Ferguson, temporary secretary of the national.

"The left wing events about 10 per cent of the socialist party," said Mr. Ferguson, "but we seem to be left out of the party's deliberations."

Only delegates who had white cards were admitted to the floor of the convention today, and most of the left wing delegates were unable to obtain these cards. The card of admission up to this year has been reserved for the fundamental difference between the left and the right wings is the desire of the left to affiliate with the third international of Moscow instead of the second international of Berne. It is said by many that the left wing wants a policy similar to the Bolshevik of Russia.

# FIGHTING FIRST IS BACK IN STATES

Proud of Its Record, Premier Division Lays in This Country From Germany.

By the Associated Press. WASHINGTON, Aug. 30.—The first division, first units of which returned home today from Germany, is justly proud of its claim on being "the first division in France; first in a fighting sector; first to fire a shot at the Germans; first to attack, first to conduct a raid; first to be raided; first to capture prisoners; first to inflict casualties; first to suffer casualties; first to be cited singly in general orders; first in the number of division, corps and army commanders and general staff officers produced from its personnel."

The official history of the division shows it was organized in France, the first units to arrive reaching that country July 7, 1917. It was composed of troops of the regular army, the Sixteenth, Eighteenth, Twentieth and Twenty-eighth infantry regiments; the Fifth, Sixth and Seventh artillery regiments; the First engineer regiment and the Second field hospital and the Third, Fourth and Fifth ambulance companies and field hospital.

It occupied successively the Sommerville sector, near Nancy; the Annaville sector, near Toul; the Chateau sector, near Metz; the Bismarck sector, near Metz; the Sablon sector; the Meuse-Argonne operation in the Sippuy sector, west of Yverness; the operation against Meuse and the operation south and southwest of Sedan, attacking the heights on the morning of November 7, 1918.

On November 17 it began the memorable march through Lorenae and Luxembourg, reaching the Colmar bridgehead on the Rhine December 14, 1918, which position it held until relieved recently by other American troops.

Replacements in the division up to the time of the armistice totaled 30,206 and the losses in killed and died of wounds were 4,111; wounded and missing 17,291 and prisoners lost 152. It captured 647 Germans; 113 pieces of artillery, 62 trench mortars and 413 machine guns. The total of distinguished service crosses awarded the men of the division was 356.

Major General William L. Short commanded the division from June 1917 to December 1918; Major General Robert L. Dillard from December 12, 1917, until he became corps commander; Major General Charles F. Summerall from July 29, 1918, to October 11, 1918; Brigadier General Frank E. Bamford from October 12, 1918, to October 24, 1918; Brigadier General Frank Parker took command on October 25, 1918 and from May 31, 1919 Major General E. F. McClachlin, Jr., is in command of the division.

The divisional insignia is a crimson "1" on a black background, chosen because the numeral "1" represents the number of the division and many of its subsidiary organizations.

**REPUBLICANS FIGURE SCHEME TO FOLLOW THE PRESIDENT**  
By the Associated Press. WASHINGTON, Aug. 30.—Republican senate leaders today discussed plans for sending speakers behind President Wilson during his tour of the west next month in the interests of the peace treaty, but final details were not decided upon.

Senator Johnson, republican, California, probably will be the principal speaker, and the proposal under consideration is to have a special car cover the same territory that the president does with the republicans speaking in many of the same cities a few days after the president.

In preparation for the task before him, President Wilson has been advised by Rear Admiral Cary T. Grayson, his personal physician, to give the state to be gathered together into most of his time before Wednesday to "one week" of rest and recreation and rest.

Ed Housh, one of the battling stars in Cincinnati's pennant drive, is stirring up the battling championship of the National league. Unofficial averages, released yesterday show he is tied for second place with an average of .255. "Coney" Cavett, manager of the Philadelphia club, topping the league hitters with .310.

Catawba of Pittsburgh continues to lead the base stealers with 31, with Hedges, a teammate, and Jack Smith of St. Louis, tied for second with 25.

With the close of the season a month away, Ty Cobb is in no apparent danger of being dethroned as the champion batter of the American league. The Detroit star is safely in the lead with an average of .380. Vetch, Cobb's teammate, is in second place with .356.

"Babe" Ruth, the sensational slugger with Boston, who is striving to break the major league home run record of 25, established by Buck Freeman of the Washington National League in 1919, has shattered the American league record with 23, bagging four in his last six games. Ruth also has scored a total of 89 runs in 165 games.

Eddie Collins, the Chicago second baseman, is praising George Siler, of St. Louis, for having a base stealing. Siler with 25 having a margin of two.

## PAUL TO PLAY HERE MONDAY AFTERNOON

No Game Today—Hot Time's From Paul for Hurley at Harper.

Twin Falls' baseball team will win a game today. Honored to goodness. It will be because the contest scheduled with Eller will not be played and the contest is forfeited to Twin.

But even if Twin Falls wins today it is due for a hard contest this week. Monday afternoon the Paul team will be on hand to give our favorites a lesson in the great American game. The biggest contest of the year is scheduled for this afternoon at Harper. Hurley will be the opponent of the "Fighting Rubes." The game should draw well if for no other reason than the fighting that will undoubtedly take place. Hurley and players furnish all kinds of excitement in this way, showing a determination to win the posant one way or another. The spirit is there in the little town down the river and they use many methods of slowing it.

### MRS. DEWALB WINNER

By the Associated Press.  
DETROIT, Aug. 30.—Mrs. Perry DeWalt, III, won the championship of the Woman's Western Golf association today, chiefly through her brilliant play from hazards, defeating Mrs. P. C. Lutz, Jr., of Chicago, twice western champion, 3 and 2 in the 18 holes final.

Twice during the second nine was the lead at stake on Mrs. Pisk's play from hazards and both times she came out of trouble within a foot of the hole, halving one, which had seemed lost and winning the other. Mrs. Lotta was never ahead. She was the weakest where Mrs. Pisk was strongest, in the bunkers, although outshining her opponent, and lost 6 holes on the first 9 through failure to get out.

# GOMPERS SAYS LABOR TERMS A NECESSITY

## Declares Senate Should Adopt Workingmen's Charter Without Delay. Will Raise Level Throughout World Changed Conditions in World Cannot Come in Day but Will Come in Time.

By the Associated Press. WASHINGTON, Aug. 29.—Samuel Gompers, president of the American Federation of Labor, in a statement to the Senate on the Debs bill today, with the opposition to the labor articles of the peace treaty which has a proposal before the senate foreign relations committee to strike them out. Gompers favors Treaty.

"The government for a league of nations and the treaty of which it is a part," said Mr. Gompers, "hold the first world agreement among the nations to keep all that has been secured for labor and to make the standards already gained universal, advancing and improving for all men, for all women and for all children. They ratified the covenant and treaty are not safe and the United States is not a party. Any amendment to this treaty will send it back to all the twenty-seven nations concerned, Germany included."

"Favors Labor Charter. This first international charter for the rights of labor should be adopted without delay. It begins among the nations the great and sublime task of raising the level of the conditions of labor the world over. Every workman in the world, wherever he may be, is in peril by every workman whose hours are long, whose pay is inadequate, whose conditions of labor are dangerous and whose standard of life is low. Every child at work too early on his mother's knees. It more difficult to obtain the new standard for the labor of childhood. This is 14 years in many of our states. It should be 16. Children working at a lower age makes it harder to improve and keep the present child standards. So with the woman. Every woman in the 12 and 14 hours a day renders it harder for every woman working 8 hours a day—it should be 6—to keep her hours secure."

"The world needs to be made safe for labor as well as for democracy. The world cannot be safe for democracy until it is safe for labor. The only sure protection for any labor anywhere is universal justice to all labor everywhere. The covenant and treaty delayed so long in the senate proposes to gather this."

"This cannot come in a day. In a year or in a decade; but it is possible to turn the world of nations in this direction, to give the command of forward march to keep the world moving until this goal has been won. This cannot be done if the treaty is amended or delayed."

Opposes Debs Bill. "Senator Fall of New Mexico has at-

ready proposed that the labor articles of the treaty be cut out under the pretense that they level down. They do not. "The articles of the treaty creating a conference of labor in which all nations are represented provides that the article shall be interpreted in accordance with the following principle: In no case shall any member be asked or required as a result of the adoption of any recommendation or draft of the conference to lessen the protection afforded by its existing legislation to the worker concerned. The labor articles of the treaty were drawn by labor men for labor. They will stand."

## FATE OF BRUNEAU

(Continued From Page One.) Engineers Give Approval. The feasibility of the undertaking has been attested by several of the most widely experienced engineers on the continent, while government engineers are understood to have approved the entire project.

Hope for government development of the Hemenet lands was abandoned some time ago by Secretary Lane, when Congress became involved in political wrangles, treaty disputes and party dissensions. It became apparent that there was no chance for the return of membership in the territory from east and south, upon a proposition, for the reclamation of arid lands at large cost. Hence, the reversion to plans for a well defined, carefully organized Carey act company. This now seems to have been worked out, and it is up to the secretary of the interior to act.

Appraisers Are Appointed. J. S. Buswell of Twin Falls, Henry James of Hollister and J. W. Jackson of Bull were yesterday appointed appraisers in the condemnation suit of the Idaho Farm Development company against its tract and others. The appraisements were made by stipulation in order to permit the placing of a value on land that will soon be covered with water by the dam on Cedar creek for the Roseworth project. The appraisement was made by Judge W. A. Babcock.

With the completion of the dam on Cedar creek the Roseworth project of 8000 acres will soon be ready for opening. The flood waters of this winter and the coming spring will be stored in the Roseworth project is the connecting link between the Twin Falls project and that of the Deineau or the Franklin I. Lane project, as it is to be known. It is fine well laid land. With water on it next year those who are located on the site will be in a position to furnish lay for the construction crews on the Lane project, thus having a ready market for their first crop.

## RACES RIOT IN KNOXVILLE

(Continued From Page One.) Two machine guns had been brought up; one was placed at the alley on the north side of Vine street, just east of State street. Another was placed on the roof of the stadium. The machine guns were set up on alley and outside of six each were placed in advantageous positions on both sides of the street, from the machine gun to the stadium.

Several civilians, Henderson among them, followed the troops at their own risk.

ROOM IN JAIL FOR THEM. CHATTANOOGA, Tenn., Aug. 31.—When informed that five negroes' trial will be held here, Knoxville, for this city to obtain the negro, Maurice P. Mayes, who is held in the county jail here, Sheriff Bob Hess, after consulting the number of men in the five trucks, remarked: "All right, let 'em come. I 'd give room for that many 'n jail."

MOB IS DOUBTFUL. KNOXVILLE, Aug. 30.—Despite assurances that the prisoner had been returned to Chattanooga on inspection of the jail by three separate committees of citizens, a mob tonight stormed the Knox county jail in search of Maurice P. Mayes, a negro, who had been arrested as a suspect in connection with the murder of Mrs. Martha Lindsey early today.

In a series of fights between deputy sheriffs, police officers and militiamen and members of the mob in the jail corridors and outside the building, several men were wounded. Several national guardsmen were beaten, but not seriously hurt. One man was carried away by friends unconscious.

Most of the window glass in the jail was shot out; one front window (and the main door) were battered in and all other exposed windows were broken. Unable to Hold Situation. Early in the evening it became apparent that the deputies and policemen on duty at the jail would be unable to cope with the situation and a call was sent for troops from the fourth Tennessee national guard, which is holding its encampment here. The squads were rushed to the jail in a motor truck. The doorer recoiled in height with their arrival and a mob of all kinds were hurled while fist fights were numerous and precipitous shooting, up to the jail began. The guardsmen were soon

## COOPER VICTIM OF MYSTERIOUS MURDER

Body Found in Creek—Whiskey Peddler Is Suspected of the Crime. By the Associated Press. NASHVILLE, Tenn., Aug. 30.—(Revised.) J. Cooper, a Nashville attorney, whose trial for the killing of former United States Senator Edward W. Carnack during the celebrated pistol duel between his father, Colonel D. H. Cooper and Carnack in 1808 attracted country-wide attention, has been murdered here under mysterious circumstances.

Cooper's body was taken from Richard creek today soon after his blood-stained automobile had been found on a bridge near his home in the fashionable Belle Meade park section. The body was found about 12:30. There were evidences that a violent struggle had taken place before the fatal blow was struck.

A coroner's inquest late today developed no clues to the murderer or murderers, but the police tonight were proceeding on the theory that Cooper met his death at the hands of a white job seller. While no arrests have been made, the authorities are known to be searching for an unidentified man, believed to have been a Nashville whiskey merchant, who, it is thought, enticed Cooper from his home at a late hour Thursday night with the promise to deliver to him a stock of liquor.

Cooper, the police said, was overheard to remark that he was expecting some liquor the latter part of the week, but did not mention from whom the purchase was to be made. Cooper is known to have had about \$200 on his person when he visited Belle Meade park and after meeting the alleged whiskey peddler, it is believed by the authorities that the attorney was murdered for his money.

The authorities assume that the young lawyer was lured from his home to the secluded bridge over the creek and there done to death. The condition of his clothing indicated that he had been dragged some distance before he was thrown into the water. Physicians who examined the body found the small amount of water found in the lungs was evidence that Cooper was dead when dropped into the creek.

PASSES AWAY AFTER LONG PERIOD OF ILL HEALTH. Jacob Michalsky, 50, a native of Poland, passed away at a local hospital yesterday. Interment will be made today at 10 o'clock in the local cemetery.

## MAN HIT BY CAR; HAS HIS HIP BADDY BRUISED

Charles Norman, 60 years old, was badly injured last evening when he was run down by a Buick automobile, said to have been driven by Arthur Rundack. The accident happened in front of the Gem theater. The old man, 120 apparently, toppled into the street without noticing the approaching car. He was carried to a drug store and Dr. Conaghan called. An investigation showed that he had been badly bruised about the body and had probably suffered a broken hip bone. An X-ray will be taken to determine this.

## GET UP HOW OF FINDING TWO ROCKWELL AVIATORS

# ANNOUNCEMENT

## NOT MOVING

The confused appearance of our store during the last two months was due to the fact that we were flooded out of business early in June through the breaking of a city water main, and not, as many supposed, because we were getting ready to move.

## READY FOR BUSINESS

We now have our store again ready for business with a more complete line of exclusive ready-to-wear tailored and pattern hats than has ever been shown in the city.

## NO RENT, LOWER PRICES

Our arrangements on our place of business are such that we are relieved of the necessity of loading our prices to pay store rent. Our prices will give our patrons the benefit of this large saving.

## EXCLUSIVE READY-TO-WEAR

Beginning with this season our line of millinery will be confined exclusively to ready-to-wear tailored and pattern hats direct from the foremost designers.

## NEW MERCHANDISE

Our large stock supplemented by large shipments each week during the season assures our patrons of the best possible selection of up-to-date styles and designs.
