

SIM'S SOX WON TWO GAMES THEN

But Its a Different Reds Glensons Men Will Face This Fall.

By RAZZ BERRY.

Fans of Twin Falls and vicinity were much interested in the story appearing in The Chronicle Sunday regarding the first game played between the Reds and White Sox last spring, a game which Chicago won. A second contest was played and the White Sox were again victors. The score in this contest was 5 to 3. Fred Turbyville, who witnessed the games, describes the Six victory thusly:

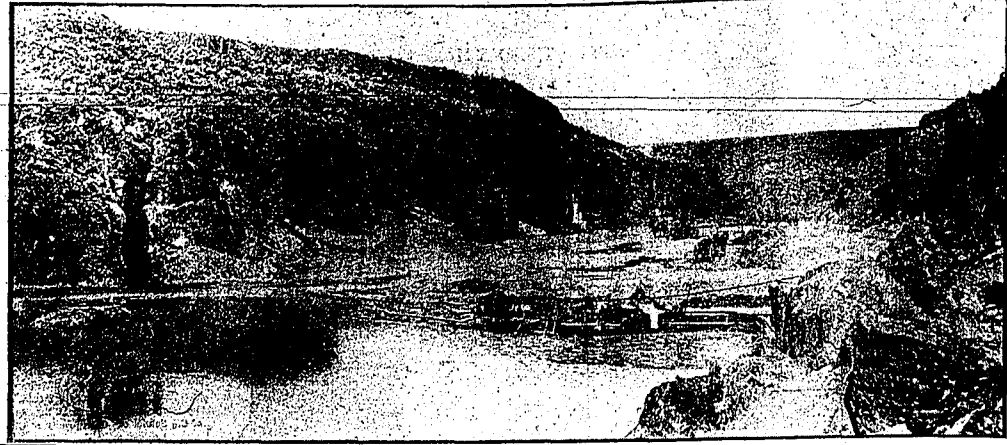

"After the Reds had overcome an early lead and tied the score the White Sox again mustered all their strength and drove in an eleventh hour victory, this time in the ninth.

"Hod Eller was in the box for the Reds. He started poorly and then pitched seven innings of good ball. He broke in the ninth.

"The Reds, though outclassed by the veteran White Sox team, played heads up ball all the way and sensational hitting gave the four plenty of opportunity to run their heads off.

"Ed Roush was back in the game in centerfield and Magese is left. There were thrilling catches in the gardens that saved Eller's hide on several occasions. Roush was there, and again for his circus catches.

"In the first the Sox made three runs. Lofthold walked. He scored a few seconds later when Weaver tripped to right. Collins was out, Rath to Daubert. Jackson walked and the

View showing the site of the dam for the stricture of water for the Idaho Development project adjoining Twin Falls tract on the west. The base of the dam is 425 feet deep.

Three concrete core walls cross the canyon and reinforce this dam structure. Last week a mammoth steam shovel was unloaded at Hooperville to begin completing the earth fill for the dam.

This shovel is now in fragments on the project, and will be operating about placed, and will be operating within a few days. It is estimated the dam will be completed in 60 days or less. As rapidly as the dam fills the canyon, water are stored for use

for the dam. The dam is on Cedar creek and stores the waters of that stream and three others, House creek, Devil creek and Deadwood creek. The dam will be thrown open under land on the project.

next the Carey net October 14, the opening being in July. Already people are flocking to the lands for selection to be made in event they are within the quarter. There is no rough or rocky soil.

L. F. Bracken, Cashier
Ray McClellan, Assistant Cashier

pair pulled a double steal, Weaver scoring and Jackson going clear to third when Harbick threw wild to second. Ed Roush, after center fielder and slugger of the Reds, did not play. He reported in time to play in the second game, but had not been in practice. In the first game Roush played center field and Chico left. Duncan and Magese are now playing left and either is far superior to Cuto, who never was a regular with the Reds. Kopf was not in either game for the Reds, Smith playing short one game and Davidson in the other.

And the White Sox will find much stronger pitching than they hit against in Fisher and Eller. Heuther, Salles, Rittie and Eller are rated higher than Fisher with the Reds today though the latter has greatly improved. Eller has developed into a wonderful pitcher.

"The White Sox on the other hand had their regular team and their three pitching men—Crotte, Williams and Kerr. The Reds proved they could get to Williams and Kerr and they also scored a run off Crotte.

Glensons has said: "We beat you last spring and we can do it again in the world series."

And Glensons' players all say the same.

But the Reds are, now champions and they have been gathering momentum all the season advanced from midsummer to fall. All of which means the Kid Glensons' athletes will have to hustle for they will face a half team much stronger than the one they vanquished in the spring.

WESTERN LEAGUE SERIES CALLED OFF; NO CROWDS

ST. JOSEPH, Mo., Sept. 22.—The post-season series between the St. Joseph and Tulsa Western league teams, winner and runner-up for the Murphy trophy cup, was called off today after four of the six games had been played, because of indifference on the part of the players, who said they wanted to finish the season and go home and the small attendance. Tulsa which had won three of the four games, was awarded the Murphy cup and declared winner of the series.

A FOOL AT 40.

It is an old proverb that every man is either a fool or a physician at 40. Well, I fooled along for 40 years in the pretence of pharmacy and the state of medicine and chemistry before I discovered the wonderful prescription for Number 40 For The Blood. There is more of this wonderful prescription sold and used by the citizens of our home city than all other blood medicines combined. It is indicated in all departed conditions of the system. In blood troubles, in sores, ulcers, eczema and skin diseases. In chronic rheumatism, catarrhs, constipation, stomach, kidney, and liver troubles. J. C. Mendenhall, 49 years a druggist, Houston, Texas, Jan. 22, 1919. J. C. Mendenhall, Evansville, Ind. Dear sir: "Having suffered from 12 to 18 months with a nervous breakdown, said by physicians to be acute neuritis, causing general toxic poisoning, and seeing your advertisement in the San Antonio Express, I called on Dr. A. M. Fisher, Druggist. He recommended your prescription Number 40 which I have been taking for three months and I have received great benefit from it. Sleep well, good appetite, have gained several pounds in weight, got up feeling fresh every morning. Have no pain. My nervous system has become nearly normal." Respectfully, J. C. Dupree, 1715, Common St. Sold by Rogerson Hotel Pharmacy.

Chewing gum was first used by Mexican Indians to keep throats from parching in the desert.

Hot black or white parlors are soon to be introduced in London for the first time in history.

M'ANDREWS OPPOSES STAFF'S ARMY PLAN

Says Force of 300,000 Men Sufficient to Stand for Universal Training.

By the Associated Press.

WASHINGTON, Sept. 22.—America's future military policy as advocated today before the House military committee by Major General McAndrew, chief of staff of the A. E. F. throughout the war, should call for "peace on the Pacific on our own terms." This, he said, can be assured by control of the Panama canal and the Hawaiian islands.

"Although General McAndrew said the committee he was "loath to disagree with the general staff" he took issue with its reorganization plan on the basis of an army of 500,000 men, proposing instead a force of 300,000 "at the utmost." While joining with the general staff in advocating universal training for 19-year-old youths, General McAndrew disagreed with its proposed three month period of training, declaring it was "inadequate" and should be at least six months.

General McAndrew recommended

that the skeleton of 21 divisions, a field army of 1,250,000 men, as proposed by the general staff, be approved, but he suggested that the divisions, with the exception of four be skeletonized to six or seven thousand men, instead of a larger number as proposed by the war department. He also agreed with the department plan for "top-heavy" officers personnel, explaining these were needed for universal training, and even if such a system were not adopted their retention would be advisable for such enlargement of the army in an emergency.

He noted that the army of 300,000 men, he said, should be distributed with one complete division at the Panama canal, another at Hawaii, another, with additional troops, if necessary, along the Mexican border, small forces in the Philippines and Alaska, and the remainder at home for coast defense and training.

"By all means," he asserted, "we must safeguard Hawaii. Its loss in time of war would put Japan or any combination of powers on the flank instead of our communication to Asia and the Philippines. It is likely that in any shovels along on rails to protect more than in the Pacific we might not be first have the preponderance of naval strength, and the army must maintain the islands until reinforcements are brought from the Atlantic fleet by world.

way of the canal. With one division for the track creek bridge, arrived a day off for some time because of the few landing places.

SUPERVISING ENGINEER ARRIVES IN TWIN FALLS

J. M. Murray, supervising engineer for the track creek bridge, arrived yesterday from Billings, Mont. Murray brought four more sets of plans for the proposed Shoshone street structure.

TWO BUILDING PERMITS ARE ISSUED; VALUE, \$1800

Two building permits were issued yesterday, one to R. H. Heston on lot 10, block 78, building to be 26 by 26, for a frame structure at an estimated cost of \$3000, and another to E. M. Golden, on lot 1, block 61, for a frame structure at an estimated cost of \$1800.

A movable greenhouse has been invented which, when a crop is mature enough to be outdoors, can be shovelled along on rails to protect more than in the Pacific we might not be first have the preponderance of naval strength, and the army must maintain the islands until reinforcements are brought from the Atlantic fleet by world.

The United States now controls 24.5 per cent of the steam tonnage of the world.

FAR-REACHING DECISION IN DAMMAN SUIT

Federal Court Holds Canal Company Has Right to Waste Water.

TO HAVE EFFECT ON DENTON AND BERG

Similar Matters Involved—First Award of Any Kind Made in Such Cases.

The text of the opinion of Federal Judge P. S. Deltrich, in the case of the Twin Falls Canal company vs. Frank H. Damman, just received in Twin Falls is found to be of far-reaching effect, settling the rights of the canal company to seepage and other waste waters; and denying the rights of other to such waters whenever the canal company may desire to make use of them in watering-land on the appropriation.

Not only does the decision leave Mr. Damman without any rights to the waters involved in the litigation,

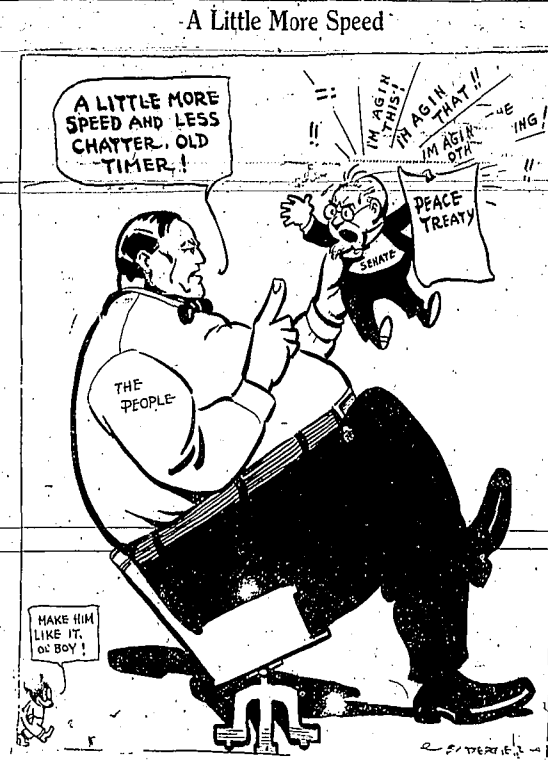

but in the opinion of attorneys generally, the Denton and Berg cases is so effected by the decision that it is not thought Attorney Hackman will go further in that action. Mr. Hackman says of counsel for Damman as well as for Denton and Berg.

It will be recalled that Damman transferred his water right on lands he held, and subsequently sought to water the land from which he had transferred the water by the use of waste waters from the canal company system on which he filed. The action of the canal company was for the purpose of preventing this use of waste water. Judge Deltrich for the canal company maintaining that the waters belonged to the canal company so long as they could be used by the company, he could be used by the company, and that the rights of others must be subject to the rights of the canal company. This view of the court upholds, establishing a view not heretofore taken in opinion of record.

The Denton and Berg cases are somewhat similar. These men have filed on waste water from the company, and seek to return that water to the canal company and compel the company to deliver it to them through its canal system at another point on the tract. Under the ruling of the court, if the canal company desires to use the waters filed on by Denton and Berg its rights are good, and those of Denton and Berg must be subject to them.

In his opinion Judge Deltrich says: "There is on the face of it a manifest unfairness—I don't mean any illegal conduct, but a manifest one of a layman—in the conduct of the defendants. Admittedly this water was brought from the Snake river at great expense and brought to these higher levels at the expense and labor of the stockholders of this company, and they are maintaining the system, the maintenance of which is essential to the continuance of the condition by which the defendants seek to profit 7500 feet in height, of course, is not conclusive or determinative of the case, but it makes rather a strong appeal to one's sense of equity and justice.

"Here is a land owner, who, under the necessities of the law, before he can enter his land, enters into a contract with the Canal company to pay a part of the expense of constructing the system, and to pay also his ratable proportion of the expense of maintaining it. He gets his water from a certain source, and, seeking to take advantage of certain conditions which have arisen, he sells his water right, escapes the obligation of paying his share in the expense of constructing the system, and also his obligation to bear his portion of the expense of

GIBBONS PRAISES SALVATION ARMY

Catholic Cardinal Declares That Americans Should Aid Great Non-Partisan Organization.

Praises of the work of the Salvation Army in France and a request to Americans to support the Army's drive for funds this week throughout the country, was given by J. Cardinal Gibbons of the Catholic church in a recent letter to Charles Whitman, former governor of the state of New York. The letter follows:

I have been asked by the local commander of the Salvation Army to address a word to you as the national chairman of the campaign about to be launched in behalf of the above named organization. This I am happy to do, and for the reason that along with my fellow-American citizens, I rejoice in the splendid service which the Salvation Army rendered our soldier and sailor boys during the war. Every retiring soldier is a willing witness to the efficient and generous work of the Salvation Army both at the front, and in the camps at home. I was also happy to commend this organization because it is free from sectarian bias. The man in need of help is the object of his effort, and never a question of his race or color.

I trust, therefore, your efforts to raise \$150,000 for the Salvation Army will meet with a hearty response from our generous American public.

Dr. G. S. Watson, Office 116 1-2 Main Ave., North, opposite Perrin Hotel. Phone 745-J.—Adv. 9-19-18-10-3-20

ALIAS SUMMONS.

In the District Court of the Fourth Judicial District of the State of Idaho, in and for the county of Latah: Lucinda J. Pritchard, plaintiff, vs. George J. Pritchard, defendant. The State of Idaho Sends Greetings. To George Pritchard, the above named defendant:

You are hereby notified that a complaint has been filed against you in the District Court of the fourth Judicial District of the State of Idaho, in and for the County of Twin Falls, by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons if served within judicial district, and within forty days if notified elsewhere; and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Said action is brought for the purpose of obtaining a decree dissolving the bonds of matrimony between plaintiff and defendant and that plaintiff be awarded certain property described in the complaint for general relief, upon the ground that defendant has willfully neglected to provide for plaintiff the common necessities of life, defendant having the ability to do so, and willfully and without cause deserted and abandoned plaintiff.

Witness my hand and the seal of said District Court, this 22nd day of August, 1919.

C. C. GIBBONS, Clerk.
By C. L. BOWEN, Deputy.
Thomas C. Mills, Attorney for plaintiff: Residence, Twin Falls, Idaho, Oct. 1.

maintaining it, and operating it, and through substantially the same ditch he seeks to get substantially the same water which had been furnished to him under the contract, without bearing any of the burden of creating the source or maintaining it. I don't think that that ought to be made possible unless it is absolutely necessary under the law.

The court reviews the transfer question, and then says: "I think we will have to take the view suggested by one of the counsel the argument, that the rights of the company are analogous to the rights of a single individual who owns

all of this segregated land, and, for the purpose of irrigating it, made an appropriation and constructed a system, just as was done here by the construction company. Now, in a case of this kind, the owner of a large tract of land would have the right, as I am permitted here, to catch up water which wastes from the tract at high-seas and use the water thus wasting upon the lower lands, and would also have a right to catch up percolating waters, waters which seep in the lower places, and maintain those waters upon the lands for which they can be made available, in view of the elevatory fall so far, now, that being the case, it is the right of the company to utilize this tributary to the county, and it is obvious from the evidence here that some utilization was made of such water in the earlier days."

After consideration the instance of patent, the court cuts across this, saying:

"I think without a great deal of discussion or without any more discussion perhaps upon that point. I think that the water which comes into this canal or tributary in water coming entirely from that which the company diverts from Snake river and carries through its system, and that the plaintiff company has possession of so much of that water as it can use upon lands within the segregation, and that it has not possession, but must be deemed to have abandoned, such water as it cannot utilize.

"That would simply mean that the only right which the defendants can acquire or could acquire by virtue of their so-called appropriation is to use water flowing in this tributary which would otherwise waste into Snake river, and that at any time when the company can and does use the water its right is superior to that of the defendants."

"And, as I have already indicated, I mean that right to use is confined to lands within the segregation. At times there may be considerable water which would go to waste there. At other times there may be no water at all. But generally speaking the rights of the defendants are subject to and subordinate to the rights of the plaintiff company as I have defined them.—The right to use all of the water flowing in that canal, in that tributary, that it has need for upon land within the segregation.

"As", of course, within the principle that all of you have recognized, the company is not bound to maintain conditions for any length of time out of which there will come any waste at all, or any water in its course.

"I don't mean by that that it can maliciously and willfully divert the water from the canal simply to keep the defendants from getting it, but as long as it may use the water in good faith it has a superior right."

FIVE ARE FINED FOR LAND FRAUDS IN OREGON

By the Associated Press.
SAN FRANCISCO, Sept. 22.—A. D. Pustor was fined \$1500 and E. D. and W. S. Pustor and J. L. Van Wormer were fined \$500 each and A. L. Baker was fined \$250 in the United States district court today for their plans of guilty defendants charging the misuse of the mails in connection with alleged government and railroad land frauds in Oregon.

Indictments against Alan McGowan

and Franklin P. Bull, charging complicity in a scheme to defraud in connection with the sale of government and railroad lands were dismissed.

COOPERATIVE SUGAR COMPANY TO BE LOCATED IN IDAHO

The Idaho Cooperative Sugar company is to locate in Idaho. The concern was recently incorporated with a capital stock of \$1,500,000. L. G. Cole will be in charge. The company plans to build four large sugar beet factories in the Twin Falls district as soon as the final arrangements are completed.

ENGINEER SAYS PROGRESS WORK IS BEING RAPIDLY ACCORDING TO CITY ENGINEERS

Work on the sewer is progressing rapidly, according to City Engineer Berg. A new trucking machine is busy on the trunk line sewer, and another is expected in a few days to start work on the lateral sewer.

BOLSHEVIST CAUSING TROUBLE IN HUNGARY

VIENNA, Saturday, Sept. 20.—Serious disturbances have taken place at Toth, Hungary, as a result of the action on Wednesday of a number of miners, influenced by bolshevik agitators in proclaiming a new proletarian dictatorship and disarming the small police force there.

The mob hoisted the red flag, risked several lives and mutilated the civil officials. Later 600 gendarmes arrived and after furious fighting lasting for three hours, overcame the mutineers. Seven persons were killed and 25 wounded.

Safety With Service

The function of a strong, progressive bank, such as this, is to serve every customer to the very best of its ability.

But safety should never be sacrificed in the giving of service. Safety first, last and always—that is the business motto of this bank. It will never be anything else.

We invite you to freely consult us in the matter of your financial affairs. Let us get acquainted, in whatever department you are seeking safety with service.

BUYING FOREIGN BONDS.

An American financier who has been studying financial conditions abroad advises his fellow countrymen to invest in foreign bonds.

Foreign exchange is admittedly in a bad way. The money of the allied nations has been steadily declining in value, as compared with American money. This makes business transactions difficult, and interferes with the payment of foreign obligations. The chief cause of this trouble is the fact that Europe's debt to the United States government and to individual Americans is already so great.

The expert mentions four conceivable ways of bringing international money standards back to normal. The first is the shipment of gold from Europe to America. But that is impossible because Europe has not enough gold. The second is the shipment of goods. That is a natural process, but a very slow one. The third is the extension of "dollar credits." That is purely a banking proposition, which does not interest the ordinary American. Besides, Europe has already been given a vast amount of credit.

The fourth method, the purchase of foreign securities, is held to be the best way. This means mostly foreign war bonds. There is really much to be said for them, from the standpoint of profit. British 5 per cent bonds are selling at par, and French, Italian and Belgian bonds are selling well above their issue price, most of them giving a return of 5 to 6 per cent.

"By buying foreign securities," says the financier, "you are helping toward the improvement of the foreign exchanges which will mean a profit to you on your foreign investments and a profit on your domestic investments because through helping the foreign exchange situation to readjust itself you will help the development of your domestic industry and commerce."

Still, there is a big demand for investment money right here at home, with many profitable opportunities. It is a question whether both profit and patriotism does not demand domestic rather than foreign investment.

"SINGS" FOR WINTER

The mayor of one town considers the community sing a remedy for social unrest and he is one of the most active sponsors of a movement to transfer these gatherings, which have been held in the open air all summer, to the churches and public halls for the winter.

Summer, with its informality, its park gatherings and outdoor sports, does encourage a pleasant and friendly spirit which helps to make people content with their homes and pleased with their neighbors. It is a pity that when doors are shut against the cold of winter they seem also to be shut against this sort of friendly and informal acquaintance.

Happiness will be, as usual, the most important consideration during the coming months. There must be friendly feeling, social activities which do away with social distinctions, if antagonisms are to be soothed rather than fostered. Community gatherings for song, for competitive games, for political debates and to consid-

er measures which are for the public good are among the best agencies for promoting such feelings and arousing a common interest and pride in a community.

FREE DRINKS FOR HORSES.

Drinking troughs for horses are not so numerous as they used to be, in spite of the fact that Old Dobbin is still traveling the city thoroughfares along with the throngs of motor-driven vehicles. An automobile can live without gasoline, although it won't work without the stuff. The horse on the other hand, will keep on working just as long as it can, no matter how neglected it is, and only stops when it drops exhausted or dead.

Last month the Massachusetts Society for the Prevention of Cruelty to Animals undertook to supply Boston horses with all the drinks they needed. A traveling water cart made daily trips along hot city streets and three water stations were opened for the benefit of the suffering beasts.

It is reported now 68,000 horses took advantage of these particular opportunities to quench their thirst.

Here is a work of mercy and fairness which is neglected in too many places today. Even the small towns are inclined to grow careless about this matter. Of course, the horse requires more food and care than he is worth in real work, according to all the up-to-date efficiency experts.

POLITICAL HEREDITY AND PREJUDICE.

At a "felicitous banquet," celebrating the ratification of the woman suffrage amendment by the Minnesota legislature, Mrs. Walter McNabb Miller of St. Louis urged the voters to be "not to vote by heredity or prejudice."

Commenting on the wise advice, the St. Paul Pioneer Press remarks that "a certain amount of heredity and prejudicial voting is unavoidable" because it seems inherent in human nature. At least, it is found to a discouraging degree in the supposed lords of creation who until recently have monopolized the voting right.

"As a whole," admits the Pioneer Press, with a liberality rare in editorial males, "women are more free-minded than men. They see more of the human side and less of the policy side of politics. We may expect, as distinguished from the men, more of the heart and less of the pocketbook in their calculations."

But this is to be expected "only from those who are interested." As for the rest, the editor truly says, "we must expect for some years to come a dense mass of solid apathy and ignorance such as persists even yet in the male electorate."

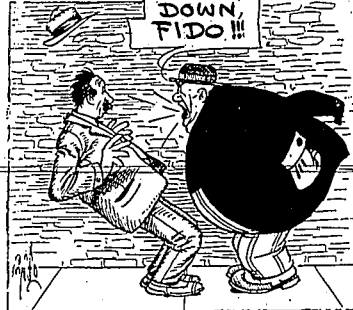

PROFITTEERING IN ARMY FOOD.

Chicago always has some new system for exploiting the public in the matter of food. The latest and most glaring example is the reaping of big profits by Chicago merchants in the sale of army foodstuffs.

The surplus supplies, as everybody knows, are being disposed of supposedly for the benefit of the consumers. The government is selling them at cost, or less than cost to help lower the cost of living. This benevolent purpose was obnoxious to a group of Chicago wholesalers. The army goods sold in that city were brought up with surprising promptness. It is reported by the city food bureau that large quantities were purchased, surreptitiously, of course, by wholesalers, and stored away or sold at current retail prices. In some cases the labels were changed. One dealer is said to have admitted that he made 33-1/3 per cent profit on the foods.

If there is anything meaner than this in the whole gamut of mercantile profiteering, it will be hard to find. There should be more care taken, everywhere, in future sales, that those stocks paid for by the public originally, and now paid for again should be kept out of the clutches of hoarders and profiteers.

OUTBURSTS OF EVERETT TRUE.

INDIANAPOLIS SELECTED AS AD CLUB CONVENTION PLACE

NEW ORLEANS, Sept. 22.—Indianapolis was chosen unanimously tonight as the 1920 meeting place for the annual convention of the Associated Advertising Clubs of the World, selection was made by the presidents and former presidents of advertising clubs of the association.

FOUR REGIMENT TROOPS GO OVER TO REBEL FORCES

PHOENIX, Ariz., Sept. 21.—Four companies of Indian infantry constituting the armistice line went over to Captain d'Ammonio's forces during the last 24 hours. The conservative figures placed the number of troops in Phoenix at 8,000.

VILLA ASSAILS CARRANZA AS TRAITOR TO NATION

WASHINGTON, Sept. 22.—Francisco Villa, "general in chief" of the revolutionary forces in Mexico in a "manifesto for the nation," a copy which has just reached Washington, assails President Carranza as a traitor, and calls upon Mexicans to join him in a new campaign against the regime of Carranza.

WILSON CALLS HIS TRAIN A "TRAVELING SHOW"

ON BOARD PRESIDENT WILSON'S SPECIAL TRAIN, Sept. 22.—A "traveling show" was the way the president laughingly characterized his special train to a crowd at Truckee, Cal., late in the day. In response

to shouts for Mrs. Wilson he presented her with the remark: "This is the best part of this traveling show."

MINERS POSTPONE ACTION ON WAGES

Monitions Questions to Be Held Today for Labor Party—Against Sympathetic Strike.

By the Associated Press.

CLEVELAND, Ohio, Sept. 22.—Action upon the demands for a 50 per cent increase in wages, reduction of the working days from the 8 hours now negotiated to actual labor "at the face" of the coal seam, to six hours underground, counting time taken to go from the shaft mouth and return, and other features of the mine workers program, was put over until tomorrow by a roll call forced in the convention of the United Mine Workers of America today on a question of appointment for election of additional organizers and other matters of the workers of the union. A proposal backed by the organization forces to refer the question to a committee to report at the next biennial convention was carried by a standing vote, but the opposition called for a roll call, which occupied the entire afternoon and evening.

A resolution to extend sympathy and support to the striking steel workers, but only by such measures as can "legally" be employed under the union agreements with the operators, was adopted, the convention thereby disposing of the proposal introduced last Saturday to call strikes in aid of the steel men wherever coal is mined or was being used to the detriment of the steel strikers' cause. The Washington agreement, under which the miners are now working, forbids strikes during the life of the agreement. The resolution gave as a further reason against indulging in any sympathetic strike at this time the fact that the miners' organization is itself facing the possibility of a national coal strike to enforce its demands, which if called would tax the miners' resources to the utmost.

The convention voted to abandon the long-established political policy of the labor movement, as expressed by the American Federation of Labor, and to call a general labor conference to launch a national labor party, to have as its object the election of straight labor representatives to congress and to the state legislatures.

Local Briefs

Miss Ethna Lovley was in Filer yesterday completing final arrangements for the county fair in the interests of the home demonstration department of the farm bureau.

By C. Lynch, C. C. Sigkins and Frank Mattison motored to Rupert Sunday to attend the ball game.

A meeting of the O. E. S. will be held at the Masonic hall tonight at 8 o'clock.

Mrs. G. S. Haddon of Los Angeles, Cal., who has been here for some

time with her daughter, Mrs. Arthur Alworthy, is leaving today for her home.—She will be accompanied by Mrs. Alworthy and little son, who will visit there during the winter.

Mrs. and Mrs. Joseph Walkington have as their house guest, Mrs. Stella Bradley, who will visit her parents for a month.

Mr. and Mrs. Fred Hummel had as their guest during the week-end their daughter, Miss Beth, who is teaching in the Hurley schools.

Mrs. Stella Van Ripper of Duluth spent Monday afternoon in Twin Falls visiting the shopping district.

The M. W. S. club will meet at the home of Mrs. E. Duke Wednesday afternoon. A special program has been arranged for the afternoon.

Lynna Elm of Idaho arrived in Twin Falls yesterday afternoon for a brief business and pleasure trip.

Mrs. Gertrude Kesteven motored to Twin Falls from her home at Kimberly yesterday afternoon for a short shopping trip.

Mrs. Personia and son, Ray, motored to Twin Falls from Gooding to join Mr. Personia, who has been in Twin Falls for a few days on business.

A. J. Schubert of Gooding, motored to Twin Falls yesterday afternoon for a few hours' stay on his way to Burley. He will return to Twin Falls today and after a day's business trip here will return to Gooding.

Paul Carlson, steward of the Twin Falls and Lone-Landscape of Hazelton, left yesterday evening for Boulder, Colorado, where they will enter the University of Colorado for the year's work.

Mr. and Mrs. H. W. Hurlbush of Jerome, were among the Twin Falls business visitors yesterday afternoon. Mrs. Hurlbush visited the shopping district while here.

Mrs. Beatrice Reynolds of Duluth spent the greater part of Monday in Twin Falls visiting the shopping district.

R. M. Murray of Billings, Mont., has arrived in Twin Falls to supervise the construction of the Rock Creek bridge. Mr. Murray is well known in Twin Falls having recently completed the construction of the Hansen suspension bridge.

C. L. Guen, accompanied by his family, have arrived from Nampa to look after business interests. While here he will consider the country in view of making his location here.

Mrs. Walter Deer of Filer spent the greater part of yesterday in Twin Falls visiting the shopping district.

W. E. Miller of Duluth was in Twin Falls yesterday afternoon looking after business interests.

Paul Thompson of Duluth was in Twin Falls Monday afternoon for a short time on business.

Mr. and Mrs. Frank J. George of Fairfield are in Twin Falls for a few days on business matters. Mrs. George will visit with friends while here.

Harry Graham, who has been in Salt Lake City for the past few days, returned to Twin Falls Sunday afternoon.

Mrs. Musser, accompanied by her daughter, Miss Ella, of Filer, motored to Twin Falls yesterday afternoon for a brief shopping tour.

Miss Mildred Taylor of Duluth was

among the Twin Falls shopping visitors yesterday afternoon. Mrs. Taylor visited with friends before returning to her home.

O. B. Hills of Hansen was a business visitor in Twin Falls yesterday the fore part of the afternoon.

Halt G. Cox, who has been in Filer with the A. E. F. the past year, returned to Twin Falls Sunday afternoon.

Misses Laelle Kelly and Ruby Hartman, of Caldwell yesterday afternoon, where they will enter college for the coming year.

Raymond Bigger of Nampa is in Twin Falls for a few days on business. He will add the setting up of the air-plant which will be among the chief attractions at the county fair.

Old Halverson and Ole Anderson of Stanton, Neb., are in Twin Falls buying their land for farming.

NIGHT BRINGS RIOTS IN THE BIG STRIKE ZONES

Continued From Page One.

PITTSBURGH, Sept. 22.—One man was killed, two state troopers were shot and many other persons less seriously injured tonight in a second riot at Farrell. The fight occurred near the American Steel and Wire Plant, which, it is said, members of a crowd threw bricks and other missiles at the state police and local officers. Private Pringo died in the riot. Private Frank Milligan and Sergeant Smith, state troopers, were struck by bullets, and the former is in a serious condition.

NEWCASTLE, Penn., Sept. 22.—Seven persons were shot, one probably fatally, in rioting which broke out at the Carnegie Steel company's plant here late today.

This trouble started when a crowd of about 400 persons attempted to prevent mill workers from entering the plant, about 20 workmen were being assaulted, when the mill guards consisting of a number of deputy sheriffs, came to their rescue.

Refuge to Ishamers.

The mill guards met with a volley of bricks, stones and clubs. They drew their revolvers and attempted to hold the mob at bay, but the shower of missiles continued and the crowd refused to disperse.

When the situation appeared to be getting beyond control the guards are alleged to have opened fire on the crowd with their guns. Two women were shot. A man shot through the stomach is reported to be in hospital in a critical condition. A boy was also wounded.

Three other persons were struck by bullets but not seriously hurt.

Following the shooting the mill guards had little difficulty in clearing the streets about the plant.

Another outbreak occurred today at the plant of the Shenango Pitt Plate company, in which two local policemen were wounded while attempting to protect mill workers. One officer was shot and another man shot. Their wounds were not serious.

TROUBLE AT LACKAWANNA.

ALBANY, N. Y., Sept. 22.—Disturbances growing out of the steel strike resulted in three riot calls for the Lackawanna police tonight. In one instance the 62 policemen on the city's force headed by Chief Gibson were met with a shower of bricks and stones from a crowd of strikers who had gathered near the steel plant gates. Three men, two of them strikers, were arrested on charges of inciting to riot.

The first sign of trouble came late this afternoon when the police were notified that 7,000 persons had gathered near the steel plant gates. In a fight which preceded the arrival of the police, a Spaniard who is still working at the plant was knocked down. His head struck the curb and he has a bad cut and possibly fractured skull. The police dispersed the crowd with some difficulty. Stones were hurled at the policemen and several were hit. None were seriously injured.

Three Thousand Attack 200.

At 7:20 tonight an 800 workers were coming out of gate No. 3 of the Lackawanna plant, they were met by a crowd estimated at 3,000. One of the loyal employees, a Spaniard, was chased by a crowd until he fled into his house. The police went to the plant gates and forced the crowd to leave.

At 7:45 another riot call came in. A Buffalo man had been badly beaten by a crowd of men who overheard him talking about his plans for a job on the steel company's private police force. As a result of this fight, the police arrested three men. They were booked on charges of inciting to riot.

Two of the four steel plants in Buffalo and Lackawanna affected by the strike closed today. The Lackawanna plant was working with about half its normal force, and the Donner Steel company claimed to have 85 per cent of its men at work.

Strike leaders claimed that 8,000 men had joined the walkout, but the best estimates available from all sources indicated that the number was about 5,000.

32,000,000 TONS OF COAL.

LONDON, Sept. 22.—Five million tons of coal is the estimate of a British expedition to Spitzbergen after explorations over one square mile.

TREATY ARGUMENTS CAUSE WILD SCENES

Gallery Crowds Clear and Hills When Senators Discuss the Pact.

WASHINGTON, Sept. 22.—At the close of a four hour attack on the League of Nations by Senator Reed of Missouri, a democrat, who has refused to stand with his party for unreserved ratification of the peace treaty of which the League covenant is a part, the senate galleries late today started a demonstration that had to wear itself out and then closed with a demonstration on the floor.

No Outburst Like It.

There has been no outburst like it since the treaty first was put sharply before the senate by the foreign relations committee. But there were incendiary speeches today when Senator Reed began his speech that the crowd, swarming for admittance at all hours, were in sympathy with his movement. Many of the evidences of feeling in the galleries, Senator Cummings, president pro-tem, gave warning that while applause might be tolerated, despite senate rules, no shouting at the address, it would not be permitted at other times. Threats to clear the galleries if they repeated,

had no effect, and no attempt was made to enforce the long standing rule.

When Senator Reed, with arms lifted, closed his speech and followed into the applause broke, followed instantly by busy cheering from every gallery. Men in uniform joined in the demonstration and many spectators shouted, waved their arms wildly and abused with the men.

Senator Ashburn, democrat, first to congratulate him, shouted loudly for order a moment later and the crowd, not knowing what to expect, suddenly became still. But the quiet orderliness of the senate did not prevail long, for as the speakers realized that their conduct was being condemned a wave of hissing swept through the chamber, while galleries gathered manfully but unsuccessfully to subdue and eject these responsible for it.

Still speaking to the crowd, Senator Ashburn declared the fate of nations was still at stake, while galleries were attempting to make the senate of the United States a police court, and appealed by name to Senator Lodge and Hillebrand, the party leaders, to stop it. The Arizona senator declared the galleries would not applaud a decision of the highest court, which had never been called upon to decide a question of such tremendous importance to the world.

The appeal was met with another volley of hissing, to which the Arizona senator replied that only snakes and

snakes hissed. Meanwhile the chair was pounding, for order, and the crowd began piling up pell-mell.

Voice Approval With Cheers.

After he had been interrupted repeatedly by Senator Jones, democrat, New Mexico, an advocate of the League covenant, Senator Reed departed sullenly from his speech, and it was while he was talking bluntly that the spectators voted approval with hands and feet. This was particularly noticeable after he had declared that advocates of the League described it as a "policy" as a prize fighter strong enough to whip anything under the world's canvas, and next as a man with paralyzed arms.

The principal part of the speech was an argument against the League covenant, with a bitter assault on the clause giving Great Britain six votes in the League assembly to one for the United States. President Wilson was sharply and severely attacked by Senator Reed, who declared he had counseled with kings to transfer to them the sovereignty Washington had won with the sword.

POOLED CROPS BRING BIG RETURN TO THE FARMERS

By the Associated Press.

SALT LAKE CITY, Utah, Sept. 21.—Fifty-four farmers of Millard county, Utah, pooled their wool clip of 22,000 pounds and marketed it at 20 cents a pound, 7 cents more than any one of them had received up to that time.

There has been no outburst like it since the treaty first was put sharply before the senate by the foreign relations committee. But there were incendiary speeches today when Senator Reed began his speech that the crowd, swarming for admittance at all hours, were in sympathy with his movement. Many of the evidences of feeling in the galleries, Senator Cummings, president pro-tem, gave warning that while applause might be tolerated, despite senate rules, no shouting at the address, it would not be permitted at other times. Threats to clear the galleries if they repeated,

ROBINSONS

The Kozy Wrap for Baby

FIVE GARMENTS IN ONE

A wonderfully comfortable and hygienic little wrap that "GROWS" with the baby. It is a truly remarkable, yet simple, invention.

Kozy Wrap comes with a detachable patented rubber pad which protects the coat, mother and child.

The Kozy Wrap keeps out the cold and draughts by means of its patented hood, sleeves and flap which are adjustable to the growth of the baby, from birth to the age of three. In the Kozy Wrap the babe can be taken out early in the morning and late in the evening, thus getting the benefit of the fresh air which is so essential to their young lives.

Ideal Outdoor Garment and Carriage Robe.

SIMPLE DIRECTIONS: The Kozy Wrap is adjusted to the size and growth of the baby by buttoning down the flap on the side from the third button to the second and to the last. When babe reaches the age of three the Kozy Wrap becomes a perfect little coat by turning under or cutting off the flap, which is then no longer necessary.

Warmth, Comfort and Sanitation.

Other Features: The patented cuffs, when buttoned, protect baby's tiny hands from the cold and at the same time act as a preventative against the habit of sucking the thumbs. When the cuffs are buttoned back they form into fetchingly ornamental cuffs.

COME IN AND SEE THIS BABY WRAP. IT MUST BE SEEN TO BE APPRECIATED.

SERIES TO OPEN AT RED'S PARK

Two games to be played at Cincinnati—Then Jump to Chicago for Three Contests.

By the Associated Press. CINCINNATI, O., Sept. 22.—Cincinnati for the first time in its history as a National League city, will on Wednesday (October 1), witness the opening game of the series to decide the championship of the world between the Cincinnati Reds, winners of the National League, and the Chicago American League team. Chicago has not yet elected the flag in the junior organization, but the National commission made the arrangements on the theory that it was almost impossible for Cleveland, the runner-up, to nose out "Cincinnati's" club. All games are scheduled to start at 7:30 p. m.

The decision to open the baseball "series" in Cincinnati was decided on the toss of a coin by Louis Comiskey, son of the owner of the Chicago club, August Herrmann, president of the Reds, called "Boss" and won.

The team will play the first two games in this city, and the next three will be played in Chicago. The clubs then jump back to Cincinnati for games six and seven, if this is necessary, and before the eighth game, which will be played in Chicago, it will be decided by lot where the ninth game should be contested, should the series stretch out to its length. The schedule, as drawn, calls for continuous playing on each day, weather permitting.

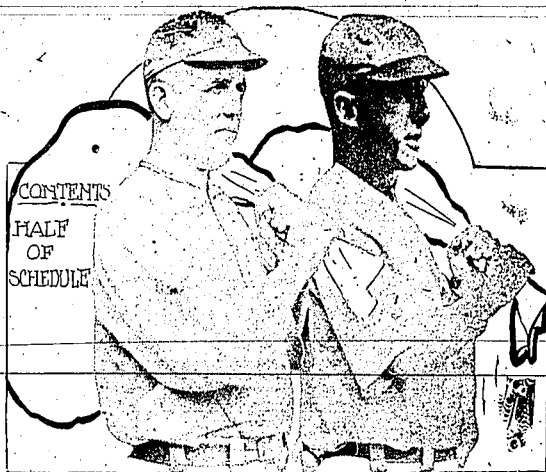

The umpires who will officiate in the series are William Evans and R. P. Naitin, of the American League and Charles Higler and E. C. Outley, of the National League.

J. G. Taylor Spinks of St. Louis will represent the National commission as official scorer, while Joseph M. McCready, secretary of the Baseball Writers Association of America, will represent that organization. These two officials will work in both cities, and will be assisted by one member of the local chapter of the writers' association in each of the contesting cities.

The commission voted \$1,500 for the distribution between the major and minor league clubs of this country. Also President Johnson and Heller drew the first 100 envelopes containing requests for tickets for the games here from a large box, the meeting adjourned.

It was announced that 25 players on each club are eligible for the series. They follow: Chicago: Eddie Cicotte, Eddie Collins, John Collins, Urban Fisher, Oscar

Cicotte and Lefty Williams Carried Big Load For the Sox

CONTENTS HALF OF SCHEDULE

Felish, Charles A. Grandt, Joseph Jenkins, Joseph Jackson, William James, Richard Korr, Harry Leibold, Grover Lowdermilk, Hyrd Lyon, Harvey McClellan, Fred McMullin, J. E. Meyer, Edgely Murphy, Charles A. Moberg, Ray Schall, J. J. Sullivan, George Weaver, R. H. Wilkinson and Claude Williams.

Cincinnati: Nick Allen, H. N. Bressler, Jacob Daubert, L. B. Duncan, Ray Fisher, H. O. Eller, Edward F. Gerner, Henry Groh, William L. Kopf, A. Laque, S. W. Mance, A. B. Mitchell, A. Earl Steele, William A. Harbison, Sherry Huth, James Ring, Ed Booth, W. H. Reuther, H. F. Selby, Charles H. See, Henry Schreiber, James L. Smith and Ivy D. Wingo.

"The attacks on Herrmann at this time are inappropriate," Mr. Johnson said after the meeting, in speaking of the statement by Mr. Baker of the Philadelphia National, that Herrmann should resign from the chairmanship of the commission.

BURLEY WINS FIRST GAME IN CHAMPIONSHIP SERIES

RIPPERT, Sept. 22.—Burley won the first game of the three-game series for the state championship of Idaho Sunday, when they defeated Rupert by the score of 2 to 1. Burley scored its first run in the first inning, when Kilpatrick singled

and stole second, was sacrificed to by Crane and ambled across the rubber on a single by Truett. His base and run was earned in the fourth stanza, when Keegan singled, went to third on an error in the center garden by Torrance and came across the plate on a fielder's choice.

Rupert made their lone run in the seventh inning when Johnson leaped on one for a homer over the left field fence.

"The game was a pitchers' battle between Davis of Burley and Stroud of Rupert. Davis let Truett down with two scattered hits, while the visitors found Stroud for seven batters. Stroud, however, fanned 11 batters, including Truett, Burley's lead-off man, on every one of his five trips up to the plate. The slowest of without interruption in one inning, 20 minutes and was witnessed by 1500 howling fans. The next game will be played Wednesday at Burley.

Score: R. H. E. Rupert..... 1 2 2 Burley..... 2 1 1 Batteries: Stroud and Marshall; Davis and Perkins.

The Franklin Sedan

During the past five years the Franklin Sedan has been proving that unrestricted motoring is as much the province of a fine enclosed car as of any other type. The present pronounced trend of sentiment toward enclosed cars, and the fact that the Franklin Sedan has the fastest growing sale of any enclosed car in the fine car class, is more than a coincidence.

For seventeen years, only Franklin owners have enjoyed real motoring freedom. Franklin light weight, flexible construction, and direct air cooling (no water to boil or freeze) have enabled them to tour with pleasure, while road conditions, seasons and weather forced owners of ordinary cars to proceed with caution, if at all.

Riding comfort; safe, easy driving; distance ability; absence of trouble; and advanced features of Sedan practicality and appearance, are particularly appealing when coupled with—

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

The Franklin Sedan differs from other sedans in structure. Wide Observation Windows give unobstructed outlook, two Wide Doors increase riding view and make access easy, the Slanting V-shaped Windshield gives broadest driving vision, and the Sloping French-style Hood adds distinctiveness in appearance.

ACKNOWLEDGES SETTING BOMB IN GREENWOOD HOME. By the Associated Press. WASHINGTON, Cal., Sept. 22.—George Edwards, who was arrested here last night, stated today that he set the bomb which killed Mrs. G. P. Greenwood in Oakland March 15, according to Chief of Police S. Whitt. Edwards, according to the police, had no part in the bomb in the home in Oakland. "Greenwood had too much money. I wanted to cause a little excitement; that's all," was the motive Edwards gave for his alleged act, according to Whitt.

successful bidder should be full to contract and furnish a 60 per cent satisfactory bond, for the full performance thereof under such bid within ten days from the date of opening the bid.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Sids If Your Back Hurts Or Bladders Bothers. If you must have meat every day, eat it, but flush your kidneys with occasionally, says a food authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull pain in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach acts queerly, and when the weather is hot and you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

WILSON TALKS TO CROWDS AT RENO

President Declares Treaty of Versailles for People and Not for Government.

RENO, Nev., Sept. 22.—Contracting the peace conference at Versailles with the congress of Vienna, President Wilson declared in an address here tonight that the Vienna peace conference had failed because all of the governments represented there were in the hands of "a small coterie of autocrats."

At Versailles, said the president, the league of nations covenant was drawn up by a few autocrats so that autocrats never again could enslave the nations of the world.

Speaking in a theater here to a crowd of about 2,000, the president frequently was interrupted by applause. The address by the president was carried to a listening hall, holding 1,000 seats.

Introduced by Republican, the president was welcomed to Reno by crowds which cheered him at the railway station and along the line of a short automobile ride through the city.

Mr. Wilson was introduced by Charles Chandler, a republican lawyer, who said he desired the right of "a few prominent senators" to consult the republican party as opposed to the democratic party. The treaty, he declared, contained "good republican doctrine."

It was the invention of the Monroe doctrine, he said, that broke the backbone of autocracy's effort to overthrow the republic.

Written at Chateau-Thierry, "This treaty was not written, essentially speaking, in Paris," he said. "It was written at Chateau-Thierry, in the heart of the battle."

Referring to the "imperialist tendencies" prevailing in Europe and Asia, Mr. Wilson asserted that the world was not desired peace, but peace by America only, he said.

Wants to Stay In. Discussing the withdrawal feature, Mr. Wilson said he didn't want to get into the league with a fear he might not be able to get out, but wanted to go in with the hope of staying in and helping all he could.

Real Estate. \$500.00 For two city lots. Will advance money to build, at 8 per cent. \$1000. Two rooms and garage lot. \$500.00 Three rooms, corner lot, cutting sidewalk, sewer, etc.

UNCERTAINTY AS TO SPREAD OF STRIKE

Continued From Page One.

Steel officials admitted that in some cases lost business, which they said they always had regarded as their most vulnerable spot, had been badly crippled. This situation was not by banking some furnaces and concentrating the remaining workers on others.

BEHELDEN NOT AFFECTED.

An important announcement came during the day from representatives of 35,000 workers employed by the Bethlehem Steel company. This was the effect that they would not walk out pending an attempt to confer with company officials.

An example of the wide difference between estimates made by labor leaders and corporation officials concerning the number of strikers is found in Pittsburgh. According to William Z. Foster, secretary of the national committee of industrial workers, 75,000 men are out while in opposing quarters, the number was set at 15,000.

In the Chicago district company officials estimated that from 70 to 80 per cent of their workers had remained at work, while at strike headquarters in that city, it was claimed, 67,500 had obeyed the strike call.

Labor leaders in the Youngstown district stated 20,500 men were out in the district proper and 25,000 in the entire district, which includes Sharon and New Castle, Penn. Company estimates were much less.

DEFY THE INTERNATIONAL.

CHICAGO, Sept. 22.—Stems and operating engineers tonight voted to remain on strike, pending a conference with John P. Fitzpatrick at Chicago Wednesday. The strike of engineers here is in defiance of orders of international union officials.

SON AND SISTER SEE PERSHING HONORED

The Pershing fighting jaw at the head of the First Division paratrooper in New York was mirrored in the revolving stand on the face of Warren Pershing, son of the general. With Warren is the general's sister, Miss May Pershing.

was well stocked with provisions and equipped with sleeping accommodations.

Local officials of the United States Steel corporation refused to make any statement as to the extent of the walkout or its effect on the plants. There was no violation of disorder today.

EAST APPROACHES PARALYSIS. YOUNGSTOWN, O., Sept. 22.—With plants of three large steel companies in the Youngstown district employing 16,500 already closed as a result of the strike and others running only part capacity, according to officials, the steel-producing industry in the Mahoning valley was fast approaching general paralysis tonight.

HUT 500 ANSWERS CALL. PITTSBURGH, Pa., Sept. 22.—Less than 500 workers answered the steel strike call in the Birmingham district today and every plant was in operation under practically normal conditions. No disorder was reported.

Strike leaders, while admitting their disappointment over the small response of the men claimed more workmen will quit from day to day.

ALMOST AT STANDSTILL. CLEVELAND, Sept. 22.—Steel production was brought almost to a standstill today, only four of the 20 plants being in operation in a general strike.

The only plants to operate were the Empire Rolling Mills company and the Union Ironing Mills company both of which have union agreements and the Hiversville plant and two blast furnaces of the Otis Steel company. Of these the Union and Hiversville plants operated about 75 per cent capacity, it was said.

FURNACE SERVICES TO BE HELD TODAY AT 9 O'CLOCK.

The funeral services for Morille Hodges, Mexican, 25 years old, who died at a local hospital Sunday night, will be held today at 9 o'clock at the Catholic church. Interment will be held in the Twin Falls cemetery.

TWO ARE FINED FOR FIGHT IN POOL HALL.

Joe Butler and Wesley Hayes were fined \$25.00 in the city court yesterday. Butler was fined \$25.00 and Hayes was fined \$15.00. Both parties paid fines. They were charged with disturbing the peace in a pool hall Saturday night.

ABANDON PLANS TO RAISE FUNDS FOR SOLDIER MEET.

D. P. Detweller and other farmers, who were to raise enough money among the farmers to give each service man a ticket to the fair free, has decided to abandon the plan due to the fact that the fair board has decided that all soldiers can enter free of charge. Mr. Detweller, who first announced his

campaign through "The Chronicle," said that he was exceedingly sorry to abandon his plan, just as it was gaining much great headway. Over \$50 had been collected before this announcement was made.

FATHER QUITS WORK TO HELP SON INTO THE ARMY.

Raymond P. Clayton, 18, farmer lad from Jerome, was accepted for enlistment yesterday at the Twin Falls recruiting office. He enlisted for three years in order to be placed overseas in the infantry. His father stopped the recruiting crew while he came to town to sign an affidavit as to the lad's age. The recruiting office reports that two men from the Salt Lake district have been transferred to Gilbert, leaving four vacancies in this district, two in clerks and two motorcycle orderlies.

TO STOP SELLING OF ARMY FOODSTUFFS

By the Associated Press. WASHINGTON, Sept. 22.—Sales of surplus foodstuffs through parcel post delivery and through municipal buying agencies will be suspended after September 24, the war department announced today, in order that all efforts may be centered on the operation of the army restaurants which will be opened on the following day. The department will continue to sell to municipalities the frozen meats and poultry and evaporated fruits now in refrigerator depots at the fixed prices announced last week.

A new allocation of the stock on hand has been made based on the number of postoffices in each distribution zone. These stocks were valued at \$3,000,000 on August 1. The army retail stores will make sales both over the counter and by mail order. Mail orders must be addressed directly to the store in the district in which the purchaser resides.
