## MORE VICTIMS IN STEEL RIOTS

### STATE TROOPS BATTLE WITH THE STRIKERS

#### Coming of Night Again Results in Trouble in Farrell and Other Towns in Pennsylvania.

### MOBS USE BRICKS IN ATTACKS ON OFFICERS

#### Worker's Wife Killed at Newcastle—Striker Victim at Farrell—Another Dead at Buffalo, N. Y.

By the Associated Press.  
**PHILADELPHIA, Pa., Sept. 21.**—Serious rioting here tonight resulted in the killing of one man and the wounding of three others by rifle bullets and the injuring of two other persons.

That rioting broke out at that of last night and early today occurred when 20 state troopers attempted to disperse a crowd of strikers and their sympathizers in the heart of the business district. The rioting was over in ten minutes.

The rioting in attempting to scatter the mob, were assaulted with bricks and missiles. Finally several shots were directed at the state policemen and they were ordered to fire. Five of the strikers were injured in the riot, most of them in the leg. The crowd scattered and four men were found lying in the street.

One of the men, John Dziadziak, said to be a striker, was killed instantly. One of the injured, was taken to the DuPont hospital at Sharon with a bullet wound through the neck. He is not expected to live.

Among the other injured is Ella Eshio. She was shot in the hip by a bullet.

Two other men with badly battered heads were lodged in jail. Both were found armed, the police say.

### Fear Serious Outbreak.

While the borough quieted down, following the shooting, there in front tenement and more serious outbreaks are feared. James Gibson, sheriff of Mercer county, tonight wrote in a large number of deputies calling them being returned soldiers. Some of these sworn in are negroes.

Local police and state troopers were stationed tonight on every street corner along the main street and search of pedestrians for firearms. Ten men were arrested carrying pistols.

After the clash with the troopers a report reached the authorities that an attempt would be made to dynamite the police station and the fire house and a carton of deputies was thrown about these places.

### Call for More Troops.

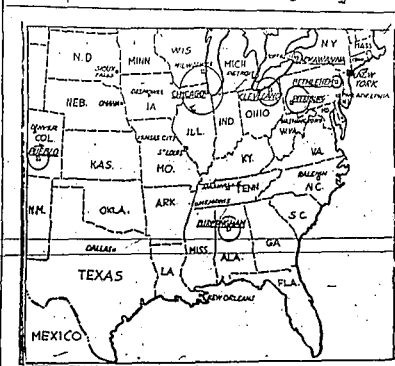

Thirty more state troopers who arrived at Butler today were ordered here tonight. The feeling against the state policemen by the strikers and their sympathizers is intense. This was aroused as the result of the killing of a man last night and of the wounding of several others. In a second outbreak this morning two persons were shot, it is alleged, by deputies. Striking leaders claim that the presence of the troopers has been responsible for the disorders, but it is asserted by others that the troopers in no instance shot into the crowd until they were fired upon by some of the men.

"It is charged by corporation officials that several times during the day persons on the hillside and the tops of nearby houses fired rifle shots into the plant of the American Steel and Wire company.

### GUARDS KILL ONE.

**BUFFALO, N. Y., Sept. 21.**—One man was killed and four persons, one of them a three year old boy, were wounded when plant guards fired the president on a crowd of strikers and strike sympathizers, who had congregated near one of the gates of

The big steel strike, which started Monday, affects many cities throughout the eastern and southern parts of the United States. Pittsburgh is the center, but the industry has many important plants in other places. The steel districts are designated by the circles.

### SAYS RESERVATIONS WOULD KILL TREATY

President Declares Republicans' Plan Would "Cut the Heart Out" of the Pact.

By the Associated Press.  
**SALT LAKE CITY, Sept. 21.**—Replying directly to senate proposals to withdraw from the ratification of the "peace" treaty, President Wilson declared in an address in the Mormon tabernacle here tonight that the proposals would "cut the heart" out of the league of nations.

Before a great crowd which repeatedly cheered his utterances, Mr. Wilson read a proposed reservation under article 10. Such a reservation he asserted, would reduce the United States of a part of its just responsibility.

### Answer With "No."

"Does the United States wish to be in on that special footing?" asked the president, and there was a great shout of "no" from the crowd.

### Answering objections, the under article 10 of the United States might be added to settle Balkan controversy, the president said:

"If you want to put out a fire in Utah, you don't go to Oklahoma for the fire engine, and if you want to put out a fire in the Balkans, you don't send to the United States for troops."

The choice would be made, he said, from "the most suitable and most available" forces, and the decision would be made with the consent of all the nations concerned. Should the controversy spread so that the aid of the United States would be necessary, he said, then it would be so serious a situation that this "nation would get in a way, large or no, to help."

### Would Reject Treaty.

To adopt such a reservation, continued Mr. Wilson, was not to interpret the covenant, but would constitute an "absolute withdrawal" from the "responsibilities" of the treaty and consequently a rejection of the treaty.

"Instead of wanting to get what it could without assuming any responsibility, it was the nation's duty, he said, to accept the leadership which the world now offered. That could be done, he continued, without in any way impairing national sovereignty, because no great decision could be taken without the votes of the United States.

### Are Hurling German.

The proposition was cheered again when he said that the "only serious force" back of the movement to reject or change the treaty, "proceeds from exactly the same sources as the 'peace' treaty," he declared. "It is charged by corporation officials that several times during the day persons on the hillside and the tops of nearby houses fired rifle shots into the plant of the American Steel and Wire company.

### SALVATION LASSIES BRING JOY TO COOK

Old Time "Dogboy" in Fourth Infantry Repays Kindness by Clipping Into Army's Fund.

After cooking two weeks on end for headquarters company the Fourth Infantry at Chateau Thierry, David Thynn, a veteran "dogboy" of 30 years' service, but a "banker" for doughnuts, according to a story told at the headquarters of the Salvation Army Home Service campaign.

But Dave was "banker" and even a soldier, when "broke" sometimes found it hard to get what he wanted. After some hesitation he "braced" a Salvation Army lassie on duty there, saying:

"The broke, but honest, jolly, I do want some doughnuts, but I don't have any money."

"Think three would be enough for a few minutes?"

"Just about."

"Better take five and come back for more if you can hold them."

Five proved to be his limit and as he left the lassie said, "You folks will hear from me later."

That was last July. Recently Dave Ryan appeared at a Salvation Army doughnut hut and handing down five \$1.00 bills, said that they were in payment for goods received. Dave had been moved from Chateau Thierry and it was his first opportunity to repay the favor.

### CARRIES MESSAGE, VILLA, TO WASHINGTON DELEGATE

By the Associated Press.  
**EL PASO, Tex., Sept. 21.**—A courier passed through here last night on his way to San Antonio, Texas, from Francisco Villa's headquarters near the Durango-Chihuahua state line, it was announced. The courier was expected to go to Washington from San Antonio with a message for Villa's representative, Miguel Diaz Lombardo, who is said to be in Washington at the present time.

### PROTESTS SMALL NUMBER OF AGRICULTURE DELEGATES

By the Associated Press.  
**LINCOLN, Neb., Sept. 21.**—Governor R. H. McKittrick today announced to President Wilson at Cheyenne, Wyo., protesting against the small representation agriculture will have in the labor conference to be held in Washington, October 6. Three representatives accorded agriculture as compared with fifteen each for labor and commercial interests are not sufficient, he said, and agriculture might better have no representation.

### SHOE MANUFACTURER NAMED AS CANDIDATE FOR GOVERNOR

By the Associated Press.  
**BOSTON, Sept. 21.**—Richard M. Long, a Framingham shoe manufacturer, was nominated for governor by the democrats at a primary yesterday for the second successive year. At the election in November he will again oppose Governor Calvin Coolidge, nominated by the republicans without opposition.

### SENATE WILL INVESTIGATE STEEL STRIKE

Labor Committee is Authorized to Summon Leaders of Both Sides.

### MEMBER OF RAILROAD UNION ATTACKS FOSTER

Appeals to Rand and File of Workingmen to Disregard "Radical" Leadership.

### WASHINGTON, Sept. 21.

Congress intervened in the steel strike today by directing the senate labor committee to institute immediate investigation to ascertain "if the situation can in any way be relieved by federal action."

The inquiry will begin Thursday, when representatives of the strikers will be heard. Later Chairman Guffey of the United States Steel corporation, President Compton of the American Federation of Labor and other spokesmen for both capital and labor will appear.

Adopted Without Objection. Action by the senate was taken on a resolution proposing the inquiry, offered by Senator Kenyon, republican of Iowa, chairman of the education and labor committee. The resolution was adopted without objection after a brief discussion of the serious industrial situation involving the public's interest.

While the senate was launching the committee inquiry, the house tonight applauded an address by Joseph P. Cooper, republican, of Youngstown, Ohio, member of one of the national brotherhoods, naming William Z. Foster, secretary and treasurer of the committee organizing the steel workers, and other labor leaders, whom he charged, were fomenting revolution. The representative from the heart of one steel industry district appealed to the rank and file of labor

### BEHAVE BODY THAT OF MURDERED BUHL MAN

Believing that a partially decomposed skeleton found on an island in the Snake river is that of a man by the name of Harkelroad, who disappeared three years ago, members of the sheriff's office yesterday spread a dragnet throughout the country to find a young man who is suspected of the killing of Harkelroad. The body was brought to Twin Falls late Monday night by an officer from the sheriff's force.

### FIFTEEN PASSENGERS ABANDONED IN TRAIN WRECK

By the Associated Press.  
**ALBUQUERQUE, N. ### CHAUVINISTS HOSTILE TO JAP DELEGATES

By the Associated Press.  
**TOKYO, Aug. 26.**—Japanese chauvinists attempted a hostile demonstration against Marquis Satomi when the Japanese delegation was invited to Japan. The demonstrators included several of the younger members of the Kowtowki, or opposition party.

At Kobe the promoters found a manifesto declaring that Japan's contributions to the successful pushing of the war were such that any claims could not properly have been rejected at the peace conference. But the "foolishness, timidity and cowardice of the Japanese peace delegates" lost to Japan many opportunities.

The manifesto went on:

"Our delegates made a point of favoring on the other powers in all things and the result was that they were befooled by the delegates of the other powers. Great Britain and the United States took advantage of this servile attitude and the racial proposal was shattered as a result. Also they managed to invite the contempt of the Chinese delegates. In our opinion Japan is placed in a position of isolation internationally, all the powers staring her with a hostile eye. The nation should really go into mourning when the peace delegates return. To welcome the blundering delegates is to congratulate the country upon the dishonor and disadvantages which she has suffered."

### CONFLICTING CLAIMS MADE BY LEADERS

Union Heads Assert Strike Is Spreading; Operators Say Situation Improved.

### STEEL WORKERS HEADS ARE TO CONFER TODAY

To Discuss Problems Which Have Arisen, and Not Peace Plans, Claims Chairman.

**PITTSBURGH, Sept. 21.**—Conflicting claims as much at variance as those given out the opening day of the big strike continue to be made by the contending forces in the widespread industrial contest now being waged.

The leaders of the organized workers boldly claim today that the strike is spreading and that thousands of men who worked yesterday joined the walkout today. Predictions were made that "plants in operation would be closed tomorrow or Thursday and that no gains were made anywhere either by the United States Steel corporation, the principal factor in the struggle, or by independent concerns.

## A Worthy Cause

Today is set for the drive for the Salvation Army. Committees from the Elks lodge, which has undertaken the work of handling the drive, together with returned service men, members of the American Legion, will visit the business firms of Twin Falls in the interest of the drive.

The county's quota is \$6000. It is planned to raise about \$3500 of this amount in the city of Twin Falls. This should be easy. The cause is worthy. No organization went to the front as did the Salvation Army workers during the great conflict. As far as the lines reached, under the torrential shelling of the enemy, there was found the work of the Salvation Army.

The entire wealth of the organization was dissipated in war work. The Army was left without funds for its relief work over the world. Now the returned service men and patriotic citizens are seeking to finance the organization that it may devote itself to its great work rather than to the raising of funds for rehabilitation.

The committee desires to work rapidly today. This can only be done if they are met promptly with response from those upon whom they call.

There should be no haggling. The obligation rests with us. We owe this for ourselves and for the boys in whose service the great organization made such heroic sacrifices. Let the response be quick. Let purses open even as the great hearts of the Salvation Army workers opened for our boys in France. Let's go over the top today.

# WANT ALLIES TO SEND MEN TO FUME

### Italian Fear to Take Action Because of the Pressing Quest of Home.

By the Associated Press.  
LONDON, Sept. 23.—The Italian government has appealed to the allied powers to send an allied force exclusively of Italians, to drive d'Annunzio from Fiume, according to a report here tonight, which is considered reliable.

It is understood that the American naval authorities here, who control the operations in the Adriatic, have declined any assistance whatsoever, pending final decision from Washington or the press delegates in Paris. The Italian government, it is reported, has pointed out in its appeal, that it would be difficult for Italy to handle the situation in view of d'Annunzio's popularity with the Italian people, and also because of the fact that the Fiume decision has been a thorn in the side of the Italians.

It is understood that the Italian government declared that it deplored the situation, and did not wish to make the slightest move against the decision of the allied powers, but naturally inferred that d'Annunzio's hold on Fiume was to be weakened if men of Fiume by other than Italian troops.

The Associated Press fears that even should the appeal be favorably received, no United States troops are available, and pending instructions from high authority, United States naval vessels would stay outside the three mile limit.

### D'ANNUNZIO REFUSES TO LET REGULARS DEPART

TRIST, Thurs., Sept. 1.—Colonel Scilliani, who was sent into Fiume by General Badoglio to confer with d'Annunzio, tried to induce the latter to keep only volunteers and allow soldiers of the regular army to return to Italy, in order to prevent their regarding themselves liable to severe punishment.

d'Annunzio refused, saying that only the presence of the Italian army would prevent the allies from considering Fiume a rebel city and harassing it. In fact, he added, the ships of the allies, although they had left the harbor, were not far away and were ready to return.

### NEWSPAPER MAN GOES INTO BUSY BUSINESS

I. E. Finney, manager of the Times company, has purchased the Bradley harness, tent and awning concern of Twin Falls. The business was turned over to Mr. Finney Monday morning. Mr. Finney contemplated forming a corporation under the firm name of "Finney Harness and Tanning company." Mr. Bradley's continued ill health was given as the cause of the retirement. Mr. Finney will devote his time to managing the tent and awning concern.

### SENTIPLE LAUNCHING IS TO BE FEATURE AT OAKLAND

OAKLAND, Cal., Sept. 23.—A sextuple launching, setting a new world's record, is planned by the Moore Shipbuilding company of Oakland for

October 11, when three big tankers and a like number of freighters are to be shunted into the waters of Oakland's inner harbor, across the bay from San Francisco.

The vessels have an aggregate tonnage of 24,000, the tankers, City of Reno, Salina and Sapupa, being 12,000 tons each and the freighters, Jalapa, Moselle and Jandow, of 2400 tons each.

Two of the ships will be started in their way to the sea by President Wilson and Secretary of War Baker, who, according to plans, will press electric buttons in Washington, starting the launchings here.

### BIG FUND IS ADDED TO FRENCH WAR ORPHANS FUNDS

By the Associated Press.  
WASHINGTON, Sept. 23.—General Pershing's last days in France contained an incident which is the focal point of a report, not readily available here, that the American Red Cross from Paris. It was a gift of 24,625.40 francs, over \$100,000, from General Pershing and the officers of his staff, to the Red Cross to be devoted to some deserving work among the mothers and children of France who suffered in the war. A letter accompanying the donation stipulated that the money be placed in the "Steele and Steubens war orphans fund" which, headed by the Red Cross, has "aided thousands of former children whose fathers were killed in battle."

### FIND METHOD TO MAKE NON-INTOXICATING WINE

By the Associated Press.  
LOS ANGELES, Cal., Sept. 22.—Discovery of a method by which grapes can be converted into a non-intoxicating wine, having the bouquet and taste of the finest wines previously manufactured, has been announced here. The details of the process are being kept secret, but it was recently announced that winemakers at Cucamonga and Etiwanda, California, will have a greater output of the new product this year than they had of wine previously manufactured. Wines grapes which have been in price almost 75 per cent since last year are being rapidly bought up by the wholesalers and this, it was believed, presaged a confidence in the success of the new leverage.

### SHOP EMPHATIC AGREEMENT WITH RAILWAYS

### EIGHTY PERCENT ARE FOR TREATY

Only Opposition Comes From "Disquieting Element" asserts President McQuinn.

By the Associated Press.

OGDEN, Utah, Sept. 23.—Honored bound after nearly three weeks of speech-making, President Wilson told a crowd here today that he had found 80 per cent of the people in favor of the league of nations. The chief opposition, he added, came from a "very disquieting element" which included the influences which tended toward disloyalty during the war.

The declaration was made from the rear platform of the president's private car where a crowd gathered and clamored for a speech after the presidential party had returned from a brief automobile ride through the city. Only a short stop was made here before Mr. Wilson went on to Salt Lake City for a night meeting at the Mormon tabernacle.

He said in part: "I cannot make a real speech in the circumstances, for you will understand that the theme that I have to turn in, and I would despair of making any adequate remarks about

so great a matter as the treaty of peace or the league of nations; but I do find this, my fellow countrymen, that the thing is very near the hearts of the people. They are sound men in public life who do not seem to be in touch with the heart of the people, but those who are know that heart throbs deep and strong for this great enterprise of humanity, for it is nothing less than that.

"We must set our purposes in a very definite way to assist the judgment of public men. I do not mean in any way to coerce the judgment of public men, but to enlighten and assist that judgment, for I am convinced, after crossing the continent, that there is no sort of doubt that 80 per cent of the people of the United States are for the league of nations, and that the chief opposition comes from the very disquieting element that we had to deal with before and during the war."

"All the elements that tended toward disloyalty are against the league, and for a very good reason: if this league is not adopted, we will serve Germany's purpose, because we will be dissociated from the nations and I am afraid permanently dissociated from the nations with whom we cooperated in defeating Germany."

### COAST LEAGUE TO BE WELL REPRESENTED

Many Members of World's Series Contenders Were With the Pacific League.

SAN FRANCISCO, Sept. 23.—When the world series contenders had apparently narrowed down to the Chicago Americans and the Cincinnati Nationals, sport followers here began to point out the probable performers in the big show who got their start on the Pacific coast.

Walter "Dutch" Rucker, when he was pitching for St. Louis in 1915, pitched a game against the Chicago White Sox and it is thought probable that as a twister for Cincinnati he will pitch against some of the same players in the world series this year.

Morris Rath, second baseman for the Reds, used to play with the Salt Lake club of the Pacific coast league. The Portland Northwest club started out William "Big Bill" James, the Chicago White Sox pitcher, on his way

up. Later he pitched for the Portland club of the P. C. L.

Other Chicago players who formerly were stars of the Pacific coast league include Claude Williams, star left-hander; Bert Lynn and Arnold ("Chick") Gandil, once with the Sacramento club; George ("Buck") Weaver and Charles ("Swede") Ribberg, formerly with San Francisco, and Fred McMillan, who used to play with Los Angeles.

Even the officials for the world series may be products of the P. C. L. San Franciscoans say, noting George Hildebrand, once an umpire in the coast league.

By the Associated Press.

CLEVELAND, O., Sept. 23.—Demands for a 60 per cent increase in mine wages, a limit of six hours a day underground, a five day week with time and a half for overtime and double time for work on Sundays and holidays and important improvements in conditions of labor, were adopted this afternoon by the convention of the United Mine Workers of America.

The convention then adjourned to await the result of the joint wage scale conference with the operators of the central competitive district, which opens in Buffalo Thursday. Should a satisfactory new agreement be reached by the representatives of the miners and operators at this conference the convention will be reconvened at Indianapolis to accept or reject it. Should no agreement be reached in time to be ratified and come into effect by November 1, a general strike of all bituminous coal mines in the United States will automatically come on that date, which may extend to the Canadian coal fields if the international executive board and the representatives of the Canadian districts so determine.

## ONLY THREE RACES ARE RUN ON GRAND CIRCUIT

By the Associated Press.  
COLUMBUS, O., Sept. 23.—Due to a slow drying track today but three of the five grand circuit races scheduled were started, the other two, the other two, the Board of Trade 2:05 trot, purse \$2,000 and the Chamber of Commerce, 2:09 trot, purse \$2,000, and the Chamber of Commerce 2:08 trot, purse \$3,000 sang over to tomorrow.

An attempt was made to finish the 2:09 class trot, the 2:15 class trot and the 2:17 class pace but so many different heat winners developed that in only two, the 2:15 trot, and the 2:09 trot, were they decisive. Dr. Nick won the former in 2:09 1/4 without being seriously annoyed but Red Bon had a great battle before first money went to him in the 2:09 event.

Tommy Direct won the first heat in the second mile he did in the stretch, Red Bon coming on to win and for his backers pay \$157.40 in a \$2.00 mutual. Red Bon tired in the third heat and finished in the rack, while Oscar Watts won. At Sunset they went at it again and Red Bon lasted the longest in the stretch drive

and won the race. Best time 2:10 1/4.

## NEBRASKA GIVES WORK TO FARMERS HIT BY DROUGHT

By the Associated Press.  
LINCOLN, Neb., Sept. 22.—A special grain chambered by the farm bureau of Cheyenne county, Neb., brought 275 farmers to this state from the vicinity of Great Falls, Mont., to help with the Nebraska wheat harvest. The great majority of the men coming were farmers who had suffered the loss of crops through the drought of the past three years. Most of them had families in Montana, and returned there at the end of the harvest season.

## WHY SOLDIER BOYS GET HOMESICK

Mrs. W. B. Arnold of Arkadelphia, Ark., who is said to have the distinction of being the only mother who visited her son in France, has the following comment to make on the life of the American soldier as she found it:

"The boys over there miss home life in having to do their own washing, and they don't boil their clothes, which, of course, is conducive to disease. Then, although the food is good—and I ate with the boys—lining up with mess tins and eating most any place does not induce good table manners.

"And their beds are not as comfortable as the beds they slept in at home. A boy wants a soft bed and he gets it just right in an American home. These are the reasons the boys are homesick."

Washing their own clothes, missing mother's cooking and the home table, and lacking the soft comfort of their accustomed beds—these are things whose hardship the American soldier boys would indignantly repudiate. Yet, quite likely, that Arkansas mother is right. It may be precisely such things—and the associations that go with them—that make the boys want to come back. They do not get sick of war so much as sick for home.

## FOOD FROM CACTUS.

The cactus has enjoyed a long life of ease and quiet in the desert lands of our great southwest. From now on it must show its right to existence by producing a large variety of marketable commodities.

In the first place it is to yield a highly nutritious cattle food. A large cactus food products plant is under process of construction and is expected to commence operations within 60 days.

Besides this cattle feed, the cactus is to be made to yield a table syrup of good quality and pleasing flavor. Other products will be glucose, gluten, bread flour and paper pulp. As if this were not enough for one humble plant to do for the world chemists are at work perfecting processes for securing other and even more valuable by-products.

The Cactus Food Products Company of California has secured governmental permission to harvest the cactus growing on 15,000 acres of public cactus land in the southwest. The experiments have been carried on in Washington, D. C., as well as in the cactus regions of Arizona and California.

## LOYAL PUBLIC SERVANTS.

In view of the recent policemen's strike in Boston and threats of similar strikes in other American cities, the action of the New York firemen deserves special commendation. In order to set forth their position and reassure the public, the "Uniformed Officers' Association" of the department adopted resolutions declaring:

"Being public officials, serving as a force of public safety, we believe any organized effort on the part of such force to engage in a strike under any circumstances would be mutiny and desertion of posts in time of danger, which would result not only in undue menace to the lives and

would also be an unlawful proceeding and property of the citizens of the city, but a crime against civilization and government." Wherefore the association resolved:

"That we hereby pledge to the officials of the city and to our employers, the people of the city, that we shall stand faithful to the trust imposed in us and to our oath of office, unwavering in our devotion to duty as members of the uniformed force of the fire department to protect and preserve our city and government, our department and the lives and property of the community."

As to whatever grievances or claims the firemen may have against the city, they express their confidence that the people they serve will deal with them fairly and justly.

This particular attitude is recommended to city firemen and policemen everywhere who may not have comprehended clearly the loyalty they owe their community and the essential difference between their employment and that of the industrial labor unions.

## SLAIN MEXICANS.

Probably the two Mexicans lynched in Pueblo, Colo., deserved execution. They were charged with the murder of a policeman. Their guilt, however, does not seem to have been clearly proved; if it were that was certainly not the way to execute them. If the law had been allowed to take its course they would have met strict justice, and the United States would have been saved the embarrassment in dealing with Mexico.

Suppose these two Mexicans had been Americans lynched in Mexico. What an indignant outcry would have been raised. Even if they were guilty of murder, that fact might have been lost sight of or explained away.

The Pueblo incident suggests a calm balancing of accounts. Granted that many grievous crimes have been perpetrated against Americans in Mexico; there have been crimes, too, against Mexicans in this country.

It is not necessary to argue whether the life of a Mexican is worth as much as the life of an American. The point is that any offense committed against a Mexican is sure to be made known in Mexico, with embellishments, complicating the problem of getting Mexico to respect American rights.

Herbert Hoover is back home, and there are no parades for him; but it isn't because he doesn't deserve them. And anyhow, they had parades in his honor on the other side, where his services are better understood.

Grand opera in New York is said to have gone up to \$7 for an orchestra seat. And that may be all right, if, as economists say, the value of a commodity is whatever the people are willing to pay for it.

"Generally speaking our tactics were sound," says Marshal von Ludendorff, writing of last summer's campaign. But for some mysterious reason they got licked just the same.

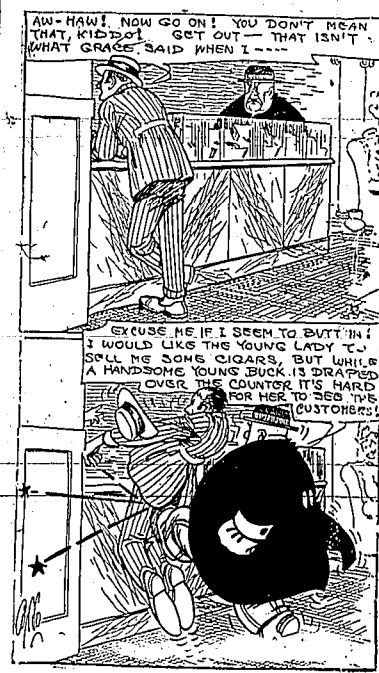

Now that Lower California has closed its doors to Japanese, Chinese and Asiatics Carranza may have cause to regret that he doesn't recognize the Monroe Doctrine.

"No gentleman," says the Washington Post, "uses perfume, except as a beverage." And even then the gentleman seldom uses it more than once.

Somehow, when you do happen to see an occasional horse nowadays, he generally seems to be suffering from defective ignition, poor lubrication and sand blisters.

It does look as if there were more garages being built than houses. Do automobiles need shelter more than people?

## OUTBURSTS OF EVERETT TRUE.

## STATE TROOPS BATTLE WITH THE STRIKERS

(Continued From Page One.)

The Lachawanna Steel Company's plant late this afternoon. City policemen restored order after the shooting but the strikers are in an ugly mood, according to reports to the police, and further trouble is expected before morning.

Carlmer Mazurek, a striker, was shot through the head and died while lying where he fell in the hospital. He served in France with the second division. Three other strikers and a boy were slightly injured.

The trouble began when two workers who came out of a gate of the plant were pelted with a shower of stones and bricks from a crowd. Plant policemen are then said to have advanced to the middle of the street and opened fire with 12-gauge shotguns. Chief of Police Gibson and members of the Lachawanna police were in the thick of the crowd trying to restore order. They signaled to the guards to cease firing were not heeded. Chief Gibson said tonight: "It was not until the crowd broke up in a panic that the firing stopped, he said.

**WOMAN PASSES AWAY.**  
NEWCASTLE, Pa., Sept. 23.—Mrs. Sophia Johnston, who was shot in a strike riot here last night, died in a hospital tonight. Twelve other persons who were injured in that night's rioting are expected to recover. Mrs. Johnston was the wife of a striker. She leaves two adult children.

serted, settlements had been made on the theory that the people themselves should determine what form of government they should have.

"Through the people," the president said, he was appealing to senators to take a second thought if they intended to write into the treaty any such reservation as that he had quoted.

## SMALLPOX CASE IS FOUND AT MANGLON SCHOOL.

An incipient case of smallpox developed in one of the rooms of the Manglon school yesterday morning. The patient, a child named Marjorie, residing at 821 Fourth avenue west, was immediately removed by the county health officer, C. Q. Menzies, and the necessary prophylactic measures were immediately taken against the spread of the disease. The room was fumigated and the family placed under quarantine.

## PEACE CONFERENCE MIRROR TO JAPANESE.

TOKIO, Sept. 23.—These days in Japanese civilization, says the Japanese newspaper Yoritomi, have been recalled by the peace conference: "The first defect, is lack of the understanding of democracy. The second is ignorance of the value of labor. The third is Japan's doubtful capacity for colonial administration. The fourth, lack of sympathy for the

presidents and—the launching of a boom for Arthur G. Newmeyer of New Orleans, for president of the association" marked the second day's activities of the 14th annual convention of the Associated Advertising Clubs of the World.

Among the eight nominations for vice president were: E. T. Meredith, Des Moines, and William C. Ayer, San Francisco.

The Scamvener boom was launched by the Oregon delegation.

## EPISCOPALIANS WOULD CHRISTIANIZE THE JEWS.

By the Associated Press.

NEW YORK, Sept. 23.—Christianization of the Jews in the United States, as part of a \$1,000,000 "Americanization" program planned by the Episcopal board of missions was advocated here today at a board conference.

Suggestions by Bishop Rogers of New York, that all action should be deferred until after the Episcopal general conference at Detroit in October, brought anger from the Rev. John I. Zaker, superintendent of Jewish work for the diocese of Philadelphia, that if the Jews was left out of the program for only a short time it would be a failure.

## REPUBLICANS WIN FIRST SKIRMISH

### Postpone Action on Amendment For Week on a Three-Vote Margin.

By the Associated Press.

WASHINGTON, Sept. 23.—Republicans took actual control of the senate today by a three-vote margin.

The first test in the fight now being waged about the pact with the league of nations covenant, came on a motion by Chairman Lodge of the foreign relations committee, to postpone for one week consideration of some 40 odd amendments which would relieve the United States from service on commissions created under the treaty. The formal motion, with a fixed date, was put before the senate after the vice president had sustained a point of order by Senator Hitchcock, leader of the administration forces, for ratification, against a motion for indefinite consideration and it was adopted 43 to 40.

The motion, not of itself important, was accepted tonight by opponents of the league as the least possible index of the feeling and attitude of the senate toward the treaty and the covenant. Democratic leaders declared it meant nothing.

Except in three instances the vote on which the eyes and ears were demanded by Senator Hitchcock, followed party lines. Senator Jones of Washington and Senator McCumber of North Dakota, both republicans, voted against the motion, and Senator Reed of Missouri, voted for it. Two senators patrick and three—Gore, Oklahoma; King, Utah, and Shields, Tennessee—absent, and not voting, were paired.

The little flurry over the Lodge motion was the only excitement during the two-hour consideration of the treaty, which was not taken up until 6 o'clock, because of a parliamentary wrangle. Senator Lodge called it up at 2 o'clock the regulation hour but the fight over a senate rule was running wild, when Senator Hitchcock cut it short by a demand for reading of the treaty. There was no speechmaking and late in the day the crowd in the galleries, listening to the monotonous reading, jolted down and saw only two senators—Hitchcock and Brandegee, republican of Connecticut, in the chamber. Others filled back and forth, but few sat through the reading.

organizations to disregard "radical" leadership.

Immediately after the adoption of his resolution Chairman Kenyon sent telegrams to Judge Gary and John J. Fitzpatrick, chairman of the steel strikers' "organ union," requesting them to appear Thursday. Judge Gary telephoned later that he could not appear Thursday and, at his request, his testimony was deferred until a week from tomorrow. Senator Kenyon said tonight he was assured Fitzpatrick and probably other representatives of the strikers would be on hand to start the hearing Thursday.

Expedition Is Planned.

Expedition of the committee's inquiry is planned by Senator Kenyon. He said he proposes to hear both sides as quickly and as fully as possible, to not cause delay of the strike and the license clearly before the American people. Visits by the committee to the steel centers, he said, is not contemplated.

"I hope to complete the hearing and submit a report late next week," said the chairman, who added, during senate discussion of his resolution that legislation to bring about cancellation might result.

Senator Kenyon told the senate he was acting primarily in the public interest, believing that the steel strike was "the first skirmish in industrial warfare" and that either capital or labor had the right of setting in detriment to the public.

Expect Further Discussion.

Further senate discussion of the industrial unrest and the strike is expected tomorrow in the senate. Senator Thomas, democrat of Colorado, today introduced a resolution which would put the senate on record as disapproving "conspiracies and disturbances" to accomplish objects by force or disorder, denouncing the "closed shop" as tyrannous and un-American and deploring "striking for power."

The senate plans to call up the resolution tomorrow.

WOMEN IN WAACS SUITS ARE AUTOMOBILE THIEVES

LONDON, Sept. 23.—Women dressed in the uniform of the Women's (Women's Auxiliary Army Corps) the organization that proved of such value during the war, are proving the most annoying automobile thieves

with which Scotland Yard has to deal, according to an inspector-in-charge of the chase.

They frequently work in couples, and when caught in the net emphatically at the owner of the car with the remark, "We were just off for a short joyride." As a rule they are allowed to go.

## WATER NOW FILTERED

### DECLARES SUPERINTENDENT

City Water Superintendent J. J. Fitzgerald stated yesterday the filter plant is supplying filtered water to the entire city. But states that the system is not in its smooth working order as is to be expected shortly. Fitzgerald estimates the maximum capacity of the filter plant to be between 7,000,000 and 8,000,000 gallons although the consumption has not exceeded a "maximum" of that capacity.

His estimate is based on the maximum supply with a minimum head which is 2,500,000 gallons, with the water in the canal three inches above the intake pipe. He says this was demonstrated during the three days the water was diverted to the north side tract. The water superintendent states they will soon start tests for determining the amount of chlorine and other chemicals to be used in treating the water.

# BASEBALL SPORTS BOXING

## TURBYVILLE PICKS REDS AS CHAMPS

Better Pitching, Nine Games and Not Moran Will Be Deciding Factor.

By FRED TURBYVILLE.

The Reds to win. That's my pick for the world series of 1919 and nothing at such a grand-festival is by no means an easy task.

But after watching closely the work of both teams, getting intimately acquainted with both managers and keeping both eyes open—one for Red fans and one for Sox followers—I can only see the Reds.

Had any other team in the National League won the pennant I would unhesitatingly pick the White Sox to win the series. My choice is a "hair-line decision." It would not have taken many more points on the White Sox side of the one-man debate to have caused me to switch from the Reds. But the little things win games.

This season's world series, I believe, is going to be a hard-fought affair between two of the strongest world series enterers we have had for away back. It is likely to run eight—and maybe the full nine—games before a winner is declared.

The White Sox are due to win three, and maybe four games of the series.

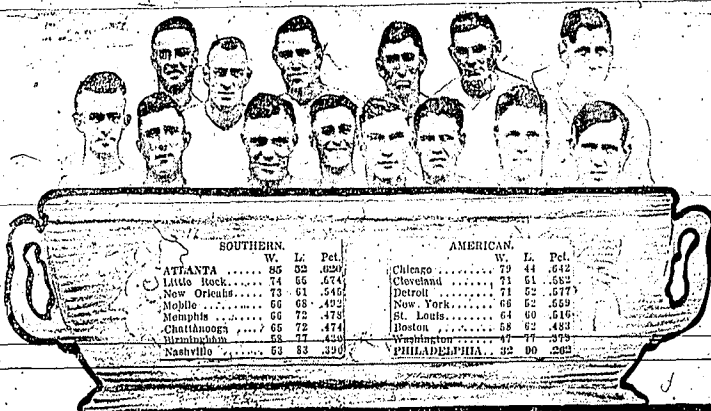

Among both American League and National League fans sentiment is divided. There are many "American League fans" who are picking the Reds to win and there are National fans who are taking the "White Sox."

In the local American League strongholds they still are rating the American league 25 per cent stronger than the National. I don't believe the American league is much stronger than the National this year. National league clubs have had just as good pitching, perhaps better.

The nine-game schedule adopted this year helped me to decide in favor of the Reds. With the best pitching staff, made up of stars, Pat Moran gained a distinct advantage when the managers decided that the team winning five of the nine games would be declared the champion.

The White Sox, according to the figures, are the best hitters of the two entrants. But the White Sox hitters probably have been battling against weaker pitching than have

## THE MACKMEN OF 1920

Count Mack has purchased the Atlanta team in the Southern League, a Class A organization. His team will be the Mackmen of 1920. They won the championship in the Southern Association while the present Atlanta club will finish a poor last.

the Reds. Also the Sox have been forced to last in a big bunch of runs in almost every game to win. Their pitching has been poor and with poor pitching more runs always are needed. The Reds have had splendid pitching and they haven't been forced to extend themselves in many of the games they won this season.

It doesn't seem the White Sox will have much to do with the Reds in hitting strength.

Cleatle and Williams are the two stars of Gleason's staff. Between them I believe they can win three games. Maybe Dick Kerr or Bill Hance can come through with another victory. And that is only four.

The Reds have Sallow—and I believe if he pitches the opening game he'll win it—Reuther, Eller, Ring and Fisher. Any of this quintet should be able to hold the Sox in check and with any kind of hitting behind him win or pitch a mighty close game. I don't believe the Sox will be able to rout any one of this quintet easily.

There is plenty of good fielding ability on either team. The Reds have the great Hattie Crabb, coach of the National League "Burrhussum, Morris Taft and Kopf are much improved infielders. Jack Swabert may not be quite so good as Chuck Gansell but the difference is negligible.

In the outfield we have Frank to match Jackson and Seale to Luther Feisch, and if Pat Demart is played well can perform as he has in the past four weeks he'll give Nemo Lajoie or John Collins a hard run.

Probably the White Sox are a little ahead of the Reds at present work. Eddie Collins, Dick Weaver and a few of their buddies are mighty smart ball players. They're smarter still in a world series where a bag of gold balls is temptingly just ahead.

And then the two managers, Pat Moran and Kid Gleason. Pat with Pat. I believe he will outline the famous "Pat-in-the-series." They're both grand fellows and splendid leaders.

Gleason, the Kidder, and Pat, the Hottie. Both are kind to their men. Both have been able to "get the work out of them. And the bench end between these two is sure to be one of the big inside features of the series.

Even granting the Sox a slight edge in hitting and betting, I believe the nine-game schedule, Pat Moran's pitchers and Pat Moran himself, will be the deciding factors in this year's battles for the baseball championship of the world.

**Those Who See The Post-War Maxwell Want One**

IT'S a great tribute to the keen minds and good taste that made the Post-War Maxwell so handsome, to find that so many who take one look at this car want one.

There have been, in other days, cars possessed of beauty that was only paint deep, but nearly all are "orphans" today. Not so with the Post-War Maxwell, because the major effort, the vast expenditure, the employment of superior brains, all have been devoted to a mechanical excellence.

Beauty came last with Maxwell executives; and it arrived last. But it's here now, and nearly everyone will say it's "liberally endowed with things that please the eye."

If it pleases you—take one ride. You will get a "feel" that you will remember many a day.

That delightful casting effect in steering which a new type front axle gives, that mental assurance you experience when you throw on the emergency (it's up on the transmission shaft), that troubleless electric system, that clinging-to-the-road feeling that a heavier rear axle supplies!

300,000 mighty good Maxwells are on the world's highways today. All the qualifications they possess and many more come with the Post-War Maxwell, and you pay only \$985 f. o. b. Detroit.
