PRICE FIVE CENTS

FEW MINERS GOING BACK TO THE PITS

Reports From All Parts of County Indicate Famine's Grip Becomes Firmer.

OPERATORS TO GRANT 25 PER CENT INCREASE

But Also Want to Raise the Price of Coal 30 Cents a Ton, Says a Trade Publication.

By the Associated Press.
CHICAGO, Dec. 4.—Another sidestall in plans looking to an end of the soft coal miners' strike marked the thirty-fourth day of non-production in most upion mines as the government prepared for a grand jury investigation at Indianapolis and prosecution of miners, operators or others for violation of the federal injunction of force or obstruction of production in violation of the law.
The mines that have been idle since the strike started, continued so today although for two days there have been reports of return to work of small numbers of men in scattered localities. Production had increased somewhat it is reported, but in much of the nation the reserve stocks were being reduced so rapidly that a virtual famine is feared in many communities.

GROSVENOR FOUND GUILTY VOLUNTARY MANSLAUGHTER

The jury in the Grosvenor murder case last night returned a verdict of guilty of voluntary manslaughter. The verdict was returned shortly after 10 o'clock, the defendant and the attorneys having been summoned by the court hall at the time the court was called. Sentence will be pronounced by Judge Hutchins Monday at 2 p. m.

The case went to the jury shortly after six o'clock, argument having been concluded in the late afternoon. Judge Hutchins held court a little late in order to give his instructions in order that the jury might take the case immediately after the evening adjournment.

The jury elected a foreman before going out to dinner, and went to the jury room at 8 o'clock. It reported a verdict at 9:30.

Testimony had been completed by the defense and the state in rebuttal during the forenoon. Arguments were held in the afternoon. Both

Judge James H. Hutchins and W. P. Guthrie addressed the jury in behalf of the defense while Prosecutor Stephen represented the state.
The pleas for the defense were eminently strong. James Hutchins, in clear and quietest style, recounted the story, told by the witnesses, discussed the weight and importance, took up the various phases of the legal questions involved, and closed with an eloquent appeal for acquittal.
W. P. Guthrie, also for the defense, also dwelt upon the story of the tragedy as told upon the witness stand and brought tears to those in the audience by his eloquence in summing up the argument to the jury.

By the state, Prosecutor Stephen outlined the position of the prosecution, followed step by step the events leading to the tragedy, the statements made by the defendant, which he dwelt upon and concluded with an appeal for law enforcement regardless of sentiment for the innocent who always suffer.

Railroad men said that the only possibility for reducing train service on trans-continent lines operating through Catten was by an embargo on passenger traffic as additional trains have been necessary to handle increasing business to California.

TAKE STEPS TO CONSERVE COAL

Dealers Want to Supercede One Plan
Initiation of Plan in Twin Falls.

As a result of resolutions by the governors of the chamber of commerce and the city council, coal dealers of Twin Falls have formulated a plan whereby the distribution of coal can be regulated.

In council's resolution it was planned to have a central station whereby permits or regulations could be obtained by consumers for coal. Council ordered City Clerk Minnie to confer with coal dealers and work out the details.

Coal dealers have not decided that the "best plan," in their estimation would be to have the coal dealers sell coal only in limited quantities and upon a sworn affidavit of the consumer giving the amount of coal on hand and the requirements.

The coal dealers, under the plan proposed, would have the control of who should or should not have coal. In their plan they expect, if the present supply of coal continues, to give private families 1000 pounds of coal, 2000 pounds if there is a furnace in the house, while a business firm can secure two tons.

This plan for distribution will be submitted to council Monday night before going into effect.

COMPLAINTS FILED AGAINST PACKERS

Charged With Violating Anti-Trust Law by Buying Food Concerns.

WASHINGTON, Dec. 4.—Formal complaints were issued today by the federal trade commission charging the five big Chicago meat packers with violations of the Glass anti-trust act through the alleged purchase and control of 31 corporations handling food and other supplies. Written answer to the complaints must be made within 40 days and thereafter public hearing will be had before the commission.

Concerns which the packers are accused of absorbing include meat processors, fruit canners, dealers in eggs and poultry and dealers in and manufacturers of butter, cheese, oleomargarine, condensed milk and like products, catsup and condiments and leather tanners.

The complaints, which it was announced grew out of the investigation

CHICAGO, Dec. 4.—The public was asked to suspend judgment until a hearing was held and more facts developed, in a statement by Edward Morris, president of Morris and Company, which denied the charges of the federal trade commission that the big five packers had violated the Clayton act.

E. Wilson White, vice president of Armour and Company, declared that the action of the commission, with its line with its established policy to stimulate business and to promote growth and development. The companies mentioned in the formal complaints, he said, voluntarily sold "to us as the interest we acquired."

Mr. Morris in his statement referred to "None of the purchases referred to by the Morris and Company is concerned, violated any law, either in fact or intent. The public was not deceived and no one has been injured. On the contrary, many of these transactions are of a stimulating character."

hundreds of secret documents. There are... of dispatches and reports that were submitted to Wilhelm...

Typical of them all is the comment he printed on the margin of a report concerning the assassination of the Austrian archduke at Sarajevo...

Appassimator Tschirsky, late Vienna, had written: 'I have repeatedly heard here, even among serious people, that there must some day be a thorough reckoning with the Serbs.'

'Now or never.'

When the ambassador wrote that he had 'healed every occasion in order quietly, but very firmly and seriously, to warn against any hasty steps,' the judgment and belligerent Kaiser nodded.

'Who authorized him to do this? This is every stupid. It is no business of his. It afterwards things so wrong we will tell Germany was unwilling. Tschirsky will please stop this nonsense. Accounts must be settled with Serbia, and that soon!'

'And for five years Wilhelm has persevered in the line that neither he nor his government had anything to do with Austria's treatment of Serbia, which brought on the big war. It is the same with dozens of other matters...

involving the question of war compensation. Those marginal notes will be heard from when Wilhelm is put on trial before an allied tribunal. It should be a warning to foolish scribblers.

MAKES NEW RECORDS.

Two new world's pocket billiard records were established tonight by Denzie Allen, in his match with Edward L. Ralston, Highstown, N. J., at the National American pocket billiard tournament.

Allen won the match 125 to 6 in five minutes. His high run of 41 shattered the former record of 24 held jointly by himself and Alfredo de Soto. Experts who witnessed the match said Allen played one of the most remarkable games they had ever seen. On his 30th shot, he made four balls and twice during the match he sent even balls with a single shot.

Grain

CHICAGO, Dec. 4.—Corn averaged higher in price today, influenced chiefly by prospects of unfavorable weather. The close was unsettled, 1-8c net lower to 1-1/4c advance, with December 139 7-8 and May 134 to 134 1-8. Oats gained 1-5c to 5-1/2c. In provisions, the outcome varied from 1/8c decline to a rise of 10 cents.

Prospective rain and snow gave little to the corn market, notwithstanding the opening. Speculation, foreign exchange rates were stabilizing power to rally. Absence of selling pressure resulted, and prices advanced sharply, until attention began to focus on reports that the coal strike might soon be settled. Then a decided break in values took place, accentuated by the fact that receipts of coal here today were larger and for values on the down grade. Rumor that export sales of grain were being cancelled had also a temporary depressing effect. Offerings, however, were readily absorbed, and with a renewal of talk that supplies appeared inadequate, the market swung upward again to the finish.

Provisions were irregular. Weakness in the hog market led to some selling but was offset more or less by talk that the output of packing houses might be greatly lessened through a coal shortage.
