VOL. IX - NO. 215

TWIN FALLS, IDAHO, SATURDAY MORNING, DECEMBER 11, 1921

## WILSON HEARS OF CONDITIONS BELOW BORDER

### Fall and Hitchcock Tell President of Resolution Introduced in Senate.

### EXECUTIVE IS FOUND TO BE MENTALLY ALERT

### Jokes Over Moses' Letter About His Condition - Urges Caution in Handling Situation.

By the Associated Press. WASHINGTON, Dec. 6.—Two senators, delegates by the foreign relations committee to confer with President Wilson on the Mexican crisis and report whether in their opinion the president by reason of his illness was unable to exercise his functions, left the White House after a conference of three-quarters of an hour with him today, according to those in touch with recent developments. It was mentally keen enough to form judgments on the questions confronting the nation.

Jenkins Is Released. In the midst of the conference, while Senator Fall, republican, New Mexico, was outlining the evidence on which he is urging a break of diplomatic relations, the president and his cabinet were informed that William O. Jenkins, the American consular agent at Puebla, Mexico, after having been released. The advances left some doubt as to the circumstances but the development was accepted generally as relieving somewhat relations between the two countries.

The discussion with the president produced no definite conclusion as to Mexican relations. It was interpreted every where as bearing on a subject of endless speculation in congressional circles—the extent to which the long illness of the chief executive has rendered him physically incapable of the duties of presidency. Propped up in bed, the president took many features of the Mexican situation. With a right hand and arm free above the bed cover, the senators said, he shook hands with them and took up and read papers which were on the table beside him. He was described as weak and nervous, but it was said he jested about exaggerated reports of his illness, and promised within a few days to give congress his advice on what, it should do about Mexico.

Wilson Mentally Alert. "He appeared to be a sick man," said Senator Fall afterward, "but mentally alert and perfectly able to cope with any question with which he might have to deal. He appeared to me, certainly, in no good mental condition as many features of the Mexican situation as he was doing it for nine or ten weeks." The other delegates of the committee, Senator Hitchcock, democrat, Nebraska, said the president seemed greatly improved since he saw him two weeks ago.

His opinion, that he has been a very sick man, but is improving," said Senator Hitchcock. "He has a pretty good idea of the Mexican situation, and although he did not give a final decision on the subject he indicated that to many serious considerations were involved to warrant any hasty action."

Quickly Arranged. The conference with the president, which the foreign relations committee decided a request yesterday afternoon Secretary Lansing had told it that he had not seen his chief during the recent Mexican negotiations was quickly arranged this morning, when the two senators got into touch with the White House. They were told that if they considered it urgent to see Mr. Wilson, they would be permitted to see him. An appointment accordingly was arranged for 11:10 in the afternoon. As the callers arrived, they were met by Grayson and Mrs. Wilson, who conducted them to the study. Asked how long they might remain, the president's physician replied that he would leave the study at the judgment of the two visitors. Mrs. Wilson collapsed on her knees.

## JENKINS TRIES TO RE-ENTER PRISON

### Release Through Paris Anti-Factor to Consul, Says Mexican Report.

By the Associated Press. MEXICO CITY, Dec. 6.—W. O. Jenkins, United States consular agent at Puebla, who was released from prison, then on Thursday night, attempted to secure his re-imprisonment today, according to special dispatches received here tonight by the Excelsior. Judicial authorities at Puebla refused to allow the consular agent to re-enter the prison. Mr. Jenkins' move, according to the dispatches, was prompted by a desire to secure unconditional liberty. Mr. Jenkins being quoted as declaring that he was furnished by his friend, J. Walter Hansen, without his knowledge and that he refused to accept conditional freedom.

Hilario Medina, under secretary of foreign relations, is quoted by the Excelsior as stating that the release of Mr. Jenkins had removed all occasion for friction between the United States and Mexico.

NO WORD OF BANDITS. ZAPATA, Tex., Dec. 5.—No word had been received tonight from county authorities who were searching for an unknown number of mounted and heavily armed Mexican bandits, who last night raided and looted a store on the Carrizo ranch, on the American side, eleven miles southeast of Zapata. It was believed the bandits, after the raid, immediately crossed the Rio Grande into Mexico, whence they are supposed to have come. They carried away all the provisions in the store, but aside from finding and carrying the store keeper, did not molest anybody on the ranch, according to reports. Texas rangers from Laredo were enroute for the scene late tonight. The identity of the bandits still is undetermined. A number of Mexican federal soldiers are reported to have raided three miles below the Carrizo ranch on the Mexican side, while Mexican custom guards were stationed almost in front of the Carrizo ranch store, which is situated on the river bank, according to reports here.

WOULD GIVE GOVERNOR POWER TO RUN COAL MINES. BISMARCK, Dec. 5.—Power to take over and operate any coal mine or other property in any emergency when necessary for the protection of life and property, is vested in the governor of North Dakota in a bill passed late today by the house at the special session of the North Dakota legislature. The measure already has passed the senate. An emergency clause to make the bill effective at once failed because the required two-thirds vote did not materialize. It will become effective Jan. 1 next.

SPY-VICE MEN RETURN TO KUME, MO., COAL FIGHT. By the Associated Press. HUME, Mo., Dec. 5.—Thirty union miners, employees of the Southern Kansas Coal company, returned to work today. The miners, the majority of whom are Americans, and foreign-born men, say they feel that their patriotic duty at this time is to mine coal and to prevent suffering. The output of the mine is 100 tons a day.

## TIME EXPIRES FOR FILING OF CANAL PROXIES

### Indications Point to the Election of Five Men East of Cedar Draw.

### WEST END MEN NEED HEAVY PERSONAL VOICE

### Lincoln's Friends Declare Will Be Able to Defeat Deitweiler in the Election.

The limit for filing proxies for the voting in the forthcoming canal election expired Thursday night, and all day yesterday clerks in company offices were busy tabulating them, ready for the final check and verification which must be held before election next Tuesday. It develops that more proxies were filed than ever in the history of the canal company, amounting to the election of five men east of Cedar Draw, leaving the western end of the county without representation on the board.

Three were seen candidates in the field, five of them from east of Cedar Draw, as follows: Colner of Hannes, Wagner of east of Twin Falls; Ke the east of Kimberly; Lincoln of east of Filer; Deitweiler of east of Filer.

Scant Proxy Strength. Barker of Bull and Brown of Col. (located are the west-end candidates) but they are represented by a scant proxy strength, which leads to the appearance that they will be defeated having heavy voting of residents of that part of the county. One rift in the net on the acquisition horizon is found in the claims of the friends of F. G. Lincoln, who assert that their candidate will be able to defeat Deitweiler. Both hail from east of Filer, and both have strong backing.

Lincoln Forces Confident. The number of proxies held by the anti-administration forces outnumber those held by the administration forces, but notwithstanding this fact, the Lincoln adherents claim their candidate will defeat Deitweiler. The canvass of proxies and their verification has not been completed, and because of the large number of proxies will not for several days.

REPUBLICAN CHIEFS TO SOUND KEYNOTE TODAY. By the Associated Press. NEW YORK, Dec. 5.—Two governors, William C. Brown of Pennsylvania and Samuel R. McKelvie of Nebraska will make "key note" speeches at the meeting of the republican national committee in Washington next Wednesday. Will H. Hays, chairman announced tonight. Mr. Hays also will make an address. All committee men have been asked to be prepared to report on the sentiment in their territories for or against the league of nations covenant.

Selection of the place and the date for the next national convention will be discussed. St. Louis, San Francisco and Ashbury Park are actively making the convention, it was stated, which is expected to be held about the middle of June.

BULL LUMBER OFFICES VISITED BY BURGLARS. By the Associated Press. BURLINGAME, Dec. 5.—Three local lumber concerns were visited last night by would-be thieves who, after ransacking the offices of the firms, departed with nothing of value. Entrance was made by forcing windows and doors. Officials of the three companies reported no losses that they are aware of yet.

THIEVES WENT THROUGH THE DRAWERS. Three thieves went through the drawers, three papers and correspondence around and tampered with the safe but failed to open them. The safe of the Gem State Lumber company contained Liberty bonds and some money and was unlocked. The thieves, however, turned the tumblers and locked the safe themselves before trying to open it.

## CHICAGO HARASSED BY SHORT DAY

### Big Mid-Western City Presents Unusual Appearance During Rush Hour.

By the Associated Press. CHICAGO, Dec. 5.—Confusion and topsy-turvy Chicago was endeavoring to become accustomed to the new, six and one-half hour a day working schedule when further restrictions were ordered today which will put retail stores on a six-hour basis next Monday.

The city presented an unusual appearance at the customary early morning rush hour. With stores closed and office buildings dark and cold, the downtown quarter had the atmosphere of Sunday. Some show windows were lighted with candles.

The steam and elevated train and surface cars which ran almost empty at 7 a. m. were jammed between 7 and 10 o'clock. Office buildings opened at 9 a. m. and closed at 3:30 p. m. while retail stores started business at 11 in the morning and closed at 5:30, other industries generally operated only six and one half hours. When office buildings closed at 3:30 p. m. elevators and light service were suspended.

While generally the restrictions were obeyed by consumers of electricity, power were reported violators and their power was shut off as a penalty. Clothing manufacturers' trade announced that it would adopt a five day week beginning Monday.

### WOOD ALCOHOL CAUSES 34 DEATHS IN NEW YORK

NEW YORK, Dec. 5.—Errors in food analysis of whiskey by mixing concoctions of wood alcohol, have caused 34 deaths here, 12 in the last two weeks, according to statistics made public tonight by the city medical examiner.

### FRENCH FIGHTER IS IN SINKING CONDITION

By the Associated Press. SYDNEY, N. S., Dec. 5.—The French freighter Colmar, 2,355 tons, is in a sinking condition off the Nova Scotia coast between Cape and Cape Sable, according to reports tonight from the coast guard at St. John's, Newfoundland. The ship was reported to have been seen by the crew but that it is now in an open boat.

## TIME EXPIRES FOR FILING OF CANAL PROXIES

### Indications Point to the Election of Five Men East of Cedar Draw.

### WEST END MEN NEED HEAVY PERSONAL VOYAGE

### Lincoln's Friends Declare Will Be Able to Defeat Deitweiler in the Election.

Time limit for filing proxies for voting in the forthcoming canal company election expired Thursday night and all day yesterday clerks in the company offices were busy tabulating them, ready for the final check and verification which must be done before election next Tuesday.

More Proxies Filed. It develops that more proxies were filed than ever in the history of the canal company, enough to decide the election of five men east of Cedar Draw, leaving the west end of the county without representation on the board.

There were seven candidates in the field, five of them from east of Cedar Draw, as follows: Colner of Hamlet; Wagner of east of Twin Falls; Kennedy, of east of Kimberly; Lingo of east of Ellet; Deitweiler of east of Ellet.

### Scant Proxy Strength.

Banker of Buhl and Brown of Colton are the west end candidates but they are represented by a scant proxy strength, which tends to the appearance that they will be defeated by heavy voting of residents of that part of the county.

One rift in this cloud on the administration horizon is found in the claims of the friends of J. G. Lincoln, who assert that their candidate will be able to defeat Deitweiler, but that heavy east of Cedar Draw vote will have strong backing.

### Lincoln Forces Confident.

The number of proxies held by the anti-administration forces outnumber those held by the administration forces, but notwithstanding this fact, the Lincoln adherents claim their candidate will defeat Deitweiler.

The canvass of proxies and their verification has not been completed, and because of the large number of them will not for several days yet.

## CARRANZA THREATENS TO CLOSE OIL WELLS

### By the Associated Press. HOUSTON, Tex., Dec. 5.—President Carranza's threat to close all producing oil wells in Mexico brought in since the decree nationalizing petroleum lands went into effect was made good during the past week, according to a cable received from "Times" by The Oil Weekly, an oil journal published here. All wells brought in by companies refusing to apply for permits under the decree and which were completed since the decree was made effective, several months ago, it was said were closed and pending around them, Carranza last week shut down all drilling wells belonging to companies refusing to take out permits, it was asserted.

### The Mexican government's action cuts Mexico's production nearly 400,000 barrels a day.

### NO DEFINITE BREAK.

Coal was said to be at about 45 per cent of normal production and while fuel administration officials and operators were apparently optimistic, no definite break in the strike was announced.

Delegates at a sub-district convention of miners in West Virginia called upon 10,000 miners in four counties to return to work even though dissatisfied with the 14 per cent wage advance.

Governor Cox of Ohio, after a conference with operators and miners to be continued Monday, said prospects were good for opening some of Ohio's mines soon.

Only a few men returned to work in Missouri, where Governor Gardner had called out state troops and appealed to the miners to return. The mines were seized and volunteers for mining will go to work soon.

Gov. J. D. Robertson of Oklahoma proclaimed martial law in the mining counties of that state, the first time in the history of Oklahoma, and an attempt will be made to operate mines with volunteers.

Work Stoppage. Volunteers continued working in the Kansas strip mines today.

Three companies of federal infantry left Camp Lewis, Washington, today for the Montana coal fields.

Gov. Frank O. Lowden of Illinois telegraphed Dr. Garfield urging his appointment as a commission to decide a basis for settling the strike.

A party of 250 businessmen and officials of 37 states, including the Mississippi Valley association and the National Coal Association, are to go to Washington tomorrow to discuss fuel and rail problems.

Efforts to improve transportation and distribution of coal in the western states were being made by the U. S. Geological Survey, Samuel R. McKelvey, director, Dr. Garfield to appoint a commission to investigate the coal situation.

### BUHL LUMBER OFFICES VISITED BY BURGLARS

BUHL, Dec. 5.—Three local lumber concerns were visited that night by would-be thieves who, after ransacking the offices of the firms, departed with nothing of value. Entrance was made by forcing windows and doors. Officials of the three companies reported no losses that they are aware of.

The thieves went through the drawers, threw papers and correspondence around and tampered with the safe but failed to open them. The safe of the Gem State Lumber company contained liberty bonds and some money and was unlocked. The thieves, however, turned the tumblers and looked the safe themselves before trying to open it.

COMPILE EVIDENCE FOR GRAND JURY

Government Prepared to Present Case of Alleged Conspiracy Between Operators and Miners.

By the Associated Press. INDIANAPOLIS, Ind., Dec. 5.—Henry B. Mitchell, special assistant to Attorney General Palmer, today arrived in Indianapolis to aid in the federal grand jury investigation of charges of alleged violation of the Lever act and anti-trust laws. A special session of the grand jury was ordered yesterday by United States District Judge A. B. Anderson after information had been furnished him to the effect that evidence existed of a conspiracy involving both miners and operators to limit production of coal.

Completion of evidence continued today and it was stated there will be no delay in starting the investigation when the grand jury convenes Monday morning. Arrangements already have been made it was said, to procure the appearance of witnesses Monday, some of whom are from outside of Indiana.

FIRST PRESBYTERIAN CHURCH Asher Harlan Brand, Minister SUNDAY EVENING, DECEMBER 7TH, 7:30 COMMERCIALIZED SUNDAY AMUSEMENTS AND SPORTS THE POWERFULLY ORGANIZED ATTEMPTS OF THE SMOKE PROUDER INDUSTRY TO SECURE FAVORABLE LEGISLATION EVERY DAY OF THE WEEK

The news was telephoned to the White House after the senators had arrived, and was communicated to Dr. Grayson by Secretary Tamm. Reference to the sick room where Senator Fall, one of the bitterest critics of the anti-trust act, was lying, followed by the whole of his argument for a diplomatic attack. Dr. Grayson informed the president that Jenkins had been set free.

All of those present expressed gratitude at the news and then Senator Fall resumed his statement. He is chairman of a sub-committee which has investigated the whole subject of Mexican production, and inquiry, especially regarding the alleged activities of Mexican officials in spreading Dr. Hiss's propaganda in this country.

Senator Fall also gave the president a copy of his resolution asking that the United States recognize the Cuzco as withdrawn. This resolution is before the foreign relations committee, which meets again Monday to act upon it. It was said the president expressed no final judgment regarding it, but indicated that he would give his advice to the committee as to congress by the end of the week.

When he returned to the capital, Senator Fall was surrounded by six republican colleagues, who sought news of the conference. He also saw Henry P. Fletcher, American ambassador to Mexico, and sent to the White House an abstract of the results of the sub-committee's investigation, requested by the president. He had indicated he might make this public tonight but decided not to do so for the present.

Much of the substance of this abstract, it was said, was given to the president today by Senator Fall, who did most of the talking. The whole conference was declared to have been of the most friendly nature, the president closing it with a story about an Irishman, who when asked whether he thought the United States would attack Mexico, replied: "I think we will. It's no consequence to us."

Comments on Mexico. At another point, when news was being exchanged about the president's health, Mr. Wilson was said to have referred to the statement made in a letter by Senator Moses, republican of New Hampshire, that the executive was reported to have brain lesion. "The president remarked," said Senator Fall, "that as a result of the conference, he hoped the secretary would be disappointed, although he might be disappointed."

Senator Fall gave a detailed account of the White House visit. He said Dr. Grayson received them up to the president's bedroom, where Mrs. Wilson shook hands with each senator. When the president shook hands with each senator, Senator Fall continued, "he was lying in bed, flat on his back. His shoulders were propped up slightly. His bed was in a shaded portion of the room. He greeted us pleasantly and while his articulation was somewhat thick, during the entire conference, I could understand perfectly every word he said. I think he was covered up to his chin, with his right arm out. I sat a little to one side and slightly behind him near a table, and he frequently turned his head to talk to me. He also reached over to the table several times to secure papers on it."

Has Not Lost Weight. Asked regarding the president's present appearance, Senator Fall said he was not an expert but would judge that the executive had lost any weight. He continued that Senator Hitchcock opened the discussion by stating that he personally had nothing to present, but accompanied Senator Fall, who desired to submit some information. "I told the president that I didn't care to fetter him," said Mr. Fall. "I sketched as rapidly as possible, the work done by our sub-committee and gave him, hastily, some of the reasons why I thought this government should break off relations with Mexico. "I asked him if he had a copy of my resolution and he reached for it on the table and picked up a copy. The president asked me if I would give him a memorandum in writing covering my statement and I agreed to send him one at once. He asked many questions and displayed a general knowledge of conditions, recent as well as past. He indicated perfect comprehension of the points I was making."

written memorandum. He said he was much interested and would give it his careful attention. He didn't say when or how he would communicate with me. "The president seemed extremely familiar with Mexican affairs and said he didn't know the details. "Mr. Wilson, according to Senator Fall, had an idea that the sub-committee's report was in readiness and Mr. Fall explained that the industry probably would not be completed for several months and that a report was in preparation for him, to be ready for his review, about June.

Asked directly if he was satisfied with the president's condition and his ability to handle the Mexican situation, Senator Fall countered: "You mean his mental condition?" "Yes sir," he replied, "entirely so."

### CLAIM RETAILERS DISOBEY ORDERS

Further Violation to Result in Cutting Off Coal Supply, in Decision.

By the Associated Press. ST. LOUIS, Dec. 5.—The southwest regional coal committee, tonight announced it had received many reports that retailers in various parts of the district were violating the order peremptory them to remain open only between 2 a. m. and 5 p. m. It is believed that immediate action would be taken to cut off further coal supply to such violators. More than 100 violators were reported. In St. Louis alone, since last Tuesday when the order became effective.

The committee controls the coal distribution in Missouri, Kansas, Nebraska, Oklahoma, Texas, Arkansas, Louisiana and part of Alabama.

Following state operation of mines in Missouri, Kansas and Oklahoma, George R. Patterson, acting president of the Missouri state federation of labor tonight announced that the state federations of those three states would meet at Post-Scott, Kans., next Monday and devised plans to furnish necessities of life to needy families of striking miners. Representatives of the four railroad brotherhoods will attend the meeting, Patterson said.

O. F. Bush, southwestern regional director of railroads, asserted that the curtailment of passenger service one-third in the region, effective at midnight Sunday, would eliminate 30,000 train miles and result in the saving of thousands of tons of coal daily.

The more important eliminations of the Missouri Pacific follow: The two daily "sunshine" appeals, leaving in St. Louis, Little Rock, St. Paul, San Antonio and Galveston; four between St. Louis and Kansas City; two between here and Hering, Mo.; two between here and Riverdale, Mo., and one each between Kansas City and Ohio, Kansas City and Joplin, Mo., and Memphis and Little Rock.

"The Texas special" of the Frisco

and the M. & T. will be dropped. These trains run from St. Louis to central Texas and take in all intermediate points. The Frisco's "Texas" operated from here to Paris, Texas, will also be eliminated. Both lines also announced the curtailment of many accommodation trains.

While the coaches drafted the schedules, the faculty members of the conference will discuss athletic rules. The question of professional football probably will be brought up and a more stringent rule adapted to prevent athletes from playing with professional teams before graduation. The faculty committee is expected to award the conference indoor track and field meet to Northwestern university.

### SEEK RELEASE OF TWO ANARCHISTS

Berkman and Goldman's Attorney Attempts to Stop Deportation.

By the Associated Press. NEW YORK, Dec. 5.—Although Berkman and Emma Goldman, America's two most notorious anarchists, spent tonight at Ellis Island, they were surrendered to the immigration authorities at noon upon demand of the department of labor to await deportation to Russia after protesting their innocence in the United States for an hour.

While they were on the way to the island, accompanied on the government ferry boat by a few of their most devoted followers, the counsel, Harry Weinberger, was appearing before Federal Judge Mayer with a petition for writs of habeas corpus in a last effort to nullify the deportation proceedings. The writs were granted and the two were released Monday. Weinberger said he would insist that his clients be produced in court before Judge Mayer, who sentenced them on two years' term for obstructing the justice of the law.

The way of appealing whether the legal proceedings would delay the departure of Berkman and Miss Goldman for Russia. The government has not announced when it expected to have a ship available to carry them away and Weinberger declined to state whether he would take their case to the United States supreme court if the lower courts decide against them. It was pointed out, however, that the \$20,000 in liberty bonds used as bail for them would be available to carry on a legal battle if it is considered worth while.

The habeas corpus petition was based upon the contention that Miss Goldman is an American citizen by marriage, that the constitutional right of free speech has been brought within the pale of the law by radical utterances they may have made, and that deportation to soviet Russia would be illegal because the United States is not recognized by the Bolsheviks. Meanwhile, Berkman and Miss Goldman will be held at Ellis Island with \$2 other radicals awaiting deportation. After they were arraigned today, searched and inspected by officers, Berkman was put into a room with seven ringleaders of the hunger strike and silence strike against the porting houses, while Miss Goldman was sent to the neighborhood of two girl anarchists who had participated in the hunger strike.

Pearing immediate deportation of the two anarchists, had a dozen women ruffians accompanied them on the ferry trip to Ellis Island and issued their last defiance to the boat before leaving the Statue of Liberty and again when they reached the island.

Berkman was fully equipped with new clothing. He carried three grips. Miss Goldman's "farewell" message to her followers was:

"Love and comradeship to all the civil and revolutionary people. We expect to be called back to soviet Russia."

Both she and Berkman predicted a revolution in this country within five years.

### TO FIGHT PROCEEDINGS

WASHINGTON, Dec. 5.—The government will continue habeas corpus proceedings in New York instituted with the purpose of preventing the deportation of Alexander Berkman and Emma Goldman, Anthony Guinetti, commissioner general of immigration, said today, and is satisfied that it can support its deportation order.

Mr. Guinetti at the same time made public a telegram he sent today to Harry Weinberger, counsel for the anarchists in which he denied that the immigration bureau had ruled that it would permit the family of a deported alien to accompany him.

"In answer to your question," said the telegram, "the bureau stated that if you had a client ordered deported to Russia who had a family, suggestion of permitting family to accompany him would be considered if presented, but bureau did not decide the question in advance and it does not say it will permit family to accompany him if presented. I have given this message to the press since you seem to have given out for publication an erroneous statement."

Grain

CHICAGO, Dec. 5.—Increased receipts of corn looked upon as an unexpected result of the coal miners strike and a bullish effect today on the corn market. Prices closed unsettled, 1-8c to 1-5-8c net lower with January 134 to 134 7-8 and May 132 1-2 to 132 5-8. Oats lost 1-4 to 3-8c to 3-4c. In provisions, the outcome tinged from the decline to a like advance. Corn traders acted on the assumption that enlarged arrivals of corn here had been brought about by utilizing railway equipment made available through heavy reduction of general freight business, and that consequently for at least the time being the influence of the coal strike was more bearish than bullish as to corn. Curtailment of buying on the part of the industries tended further to depress the market, and so likewise did lower quotations on hogs together with a new low record for British exchange. Transit rallies which followed were associated with predictions of rain and snow and with gossip that Scandinavian countries and Italy had bought 1,000,000 bushels of corn in the United States. Oats weakened with corn. Nothing of any substantial demand was heard, and domestic oats were very slow. Provisions reflected the fall of grain and hogs but recovered when offerings were absorbed. CASI MINN. MINNEAPOLIS, Minn., Dec. 5.—Floor 25 cents higher. In carload lots standard flour quoted at \$13.75 in 98 pound cotton sacks. Barley—\$1.23@1.45. Rye—No. 2, \$1.51@1.52 1/2. # STARR TELLS JURY STORY OF ROBBERY

## Farmer Held Up by Young Annis Relates Details of His Experiences.

### FORCED TO SIGN TWO CHECKS AT GUN POINT

## Defendant Accuses Him of Maligning Lad's Family When Making Requests For Funds.

Following the selection of a jury which occupied all forenoon and part of the afternoon, hearing of testimony was interrupted yesterday in the case of J. H. Annis, charged with robbery, before Judge W. A. Babcock in the district court.

### STARR ON STAND

J. H. Starr, principal witness for the state, was called to the stand. He told in detail the story of the robbery. His testimony varied very little during direct and cross-examination. He told that Annis had called at his home and asked him to take him to Blue Lakes in his automobile for which Annis said he would pay any price he asked. Starr said he agreed to take him to the lakes and accordingly they started. On the way into Twin Falls, Annis asked the witness if he had a blank check which Starr answered in the negative.

Stopping in Twin Falls for a short time Annis got out of the car and was gone a few minutes, according to the witness, but soon returned and they started for Blue Lakes. Arriving at Blue Lakes and following some conversation between the two, the witness said that Annis paid him \$200 for the trip and that Annis had probably been told to go back to town with him as he didn't know whether he wanted to work out there or not. Starr and Annis started back, but stopped in an orchard as Annis wanted to look for some apple pie, according to the witness. Starr then began fixing a wheel of his car and the witness Annis until he heard a revolver shot and looked up and saw Annis pointing a gun in his direction.

### ANNIS MAKES THREATS

Starr then said the witness again, "What's the matter with you, kid? What do you mean?" "You come out here," Annis is supposed to have answered, "and apologize to my folks for all the dirt you have done me." After some more conversation relating to where the family was, Annis and Starr started in the direction of the river and as they came to within 50 yards of the bank, Annis then said, according to the witness, "It will take \$300 to settle this. Look for a flat check to write a check on." Annis produced a First National Bank check, and Starr wrote a check to the amount of \$300 telling him where it is if it will do you any good." It will take \$300 to settle this, he retorted, "if that doesn't get me the money, it won't be good for you."

### STARR TELLS JURY STORY OF ROBBERY

At 10 o'clock Starr testified he had had \$500 in dollars in the First National bank, but that Annis had taken two new checks were written by Starr, one for \$200 and the other for \$300.

Starr and Annis then started back to town. Annis said he had the car over Starr, and according to Starr, he shot twice over his head on the way back to the bank.

Go to the bank.

Annis, on the way back, directed Starr to drive to Blue Lakes, where he claimed he had a good place to keep his white car. Starr, according to his testimony, told Annis that the \$300 didn't amount to much to him and that if he wanted to take the money, that he would go to him and he would not keep him away from his home for several days. So they came to Twin Falls and entered the Idaho State bank, where Starr identified Annis and the money was paid. Starr claimed that Annis kept the gun pointed at him all of the time, even while in the bank. After receiving the money the two again entered the automobile and drove to Eden where Annis was overpowered and captured.

Following the testimony of Starr court adjourned.
