

TWIN FALLS CHRONICLE

VOL. 12, NO. 262

TWIN FALLS, IDAHO, TUESDAY MORNING, FEBRUARY 8, 1920

PRICE FIVE CENTS

SEC. MEREDITH OUTLINES HIS PLAN OF WORK

New Head of Department of Agriculture Calls for Increased Production.

MANUFACTURERS AND WORKERS SHOULD AID

Can Help Farmer by Eliminating Unnecessary Employees So That They Can Return to the Soil.

By the Associated Press. WASHINGTON, Feb. 2.—Elimination of useless employees in non-productive business, the speeding up of all lines of industry commensurate with the present activity of the farmers and determination of retailers and jobbers to exact only a reasonable profit were recommended as a solution for the high cost of living problem by Edwin D. Meredith on taking the oath of office today as secretary of agriculture.

All Must Cooperate.

The high cost of living problem, he asserted, cannot be solved through the efforts of one class, but all business and all labor must recognize the solution as a common duty of "less and less will there be of farm products to divide among the whole population."

E. D. MEREDITH

ple and higher and higher will go the price of that which is produced."

"The farmers of America," said Secretary Meredith, "are willing to assume their part of the responsibility as American citizens in meeting any problem threatening the welfare and stability of our country, but this high cost of living problem is a mutual one, and they ask that it be approached by all the people as a common problem. They ask that those engaged in distribution eliminate the lost motion and non-stop so great a burden upon production as there is upon it today. In other words, they ask that there be an adequate number of producers of wealth, and this includes property and food of all kinds, and only such number of distributors as is necessary to perform the services required. They ask that the banks, railroads, wholesale houses, retail establishments, factories, all of which are vitally necessary to the production and distribution of wealth, be speeded up, along with him, that the work now done by three men may be done, if possible, by two and the burden of transportation and distribution be thereby lightened."

Kid Solves of Unions.

"Business men must look to the operation of their establishments no matter in what time they may be engaged, and see that no useless employees are retained to add to the cost of distributing what the farmer now produces. Unemployed employees must be released from non-productive work that they may go into productive work and add to the sum total that may be distributed among all. Let us have six-tenths of our people in production and four-tenths in distribution."

REVOLT AGAINST SWEET FAILS TO MATERIALIZE

By the Associated Press. ALBANY, N. Y., Feb. 2.—The "revolt" which it was rumored was being organized against the forces of Senator Theodore C. Sweet, and Major Leader Adler, who initiated the movement for suspension of the five socialist assemblymen, failed to materialize at tonight's session of the lower house.

Senator Sweet, who is the "revolt" looking toward discharge of the judiciary committee, and re-election of the socialist, would be led by Colonel Theodore Roosevelt, but his friends declared after adjournment that if he entertained any such intention, he would not put it into execution until after the evidence had been submitted in the investigation now being conducted into the fitness of the five to serve.

JURY SELECTION IN L. W. W. CASE PROGRESSES

By the Associated Press. MONTESANO, Wash., Feb. 2.—Twelve men were in the jury box when adjournment was taken tonight in the trial of eleven alleged Industrial Workers of the World charged with the murder of Warren O. Grimm, one of the victims of the Centralia Armistice day shooting. Six of the eighteen, promissory challenges allowed the prosecution and the defense had been exercised.

What was expected was the first day's progress in selecting jurors since the trial started a week ago, was made today. No time was lost in arguments and it was predicted that if the present rate of progress was maintained, taking of the testimony might begin Thursday afternoon.

TAMMANY HALL DECLARES WAR UPON RADICALISM

By the Associated Press. NEW YORK, Feb. 2.—Tammany Hall tonight declared war upon radicalism, and a number of the members and leaders decided to inaugurate the campaign of "moderate" politics to be held on Washington's birthday, to which leaders of the democratic and republican parties and all other political organizations will be invited to co-operate. The meeting, it was announced, is planned to open a campaign of education in which printed matter, spoken in public schools and clubs and all other means will be utilized to prevent the spread of a seditious sentiment. The campaign will be carried on without regard to party affiliations, the leaders asserted.

URGES FAIR RETURN TO CARRIERS ON VALUATION

By the Associated Press. BOSTON, Mass., Feb. 2.—The principle that railroads must be allowed a fair return upon their valuation and that rates should be stabilized, in order that railroad credit may be restored and justice be assured both to the common carriers and to the public, was maintained by Charles A. Frosty, director of valuation of the Interstate Commerce Commission, in an address before the Associated Industries of Massachusetts tonight. Some increase in rates, he said, must be made. Mr. Frosty strongly commended the anti-write provision of the Cummins railroad bill.

JENKINS CASE TO GO TO TRIAL THIS WEEK

By the Associated Press. LOS ANGELES, Calif., Feb. 2.—The case of William C. Jenkins, American consul at Puebla, Mexico, who is charged by the Carranza government with conspiring with bandits for his own abduction, will probably go on trial in the Mexican federal court this week, according to a letter from Jenkins received today by his daughter, Mrs. Elizabeth Jenkins, who resides here. The Mexican authorities have refused to divulge the exact date of the trial, the letter said.

HUNG ARE ARRESTED

FLNBERG, Schleswig-Holstein, Feb. 2.—A new order, by the plebeian committee issued today, prohibiting the wearing of German uniforms, was being enforced in the German town of Flensburg, where a strike in the German faction. The excitement abated somewhat after Adolf Hitler, special representative of the German government, visited the commission and reported that he had been successful in securing the release of the prisoners.

OPEN SHOP IS IN EFFECT IN TWIN FALLS

Employers' Association to Announce Intention to Employes Today.

FOLLOWS DISPUTES IN THE BUILDING TRADES

To Employ Any One, Union or Non-Union, Whom They Wish—Promise Protection to Workers.

If plans perfected at a meeting of the Employers' association last night do not miscarry, cards will appear in the places of business of all of the members of that organization this morning declaring in effect for the open shop.

On Display Today.

The cards were printed yesterday and were ready for distribution last night, but the plan adopted does not contemplate their display all today. Advertisements have been prepared for the newspapers in which the text of the cards is shown. The plan for open shop is called the American plan. It in brief provides for employment of men and women regardless of whether or not they are members of any union or any church. It promises protection of employees, and wages as high as is justified by conditions.

Conflict for Some Time.

For some time there has been a conflict between several of the unions of the building trades and their employers. The fire of conflict has been smoldering during the time discussion was had, and several efforts have been made to reach settlement. It seems, however, that these efforts have been unavailing, with the result that the employers have taken a stand which will bring the issue squarely to the front, and settle in advance of the building season the whole realm of issues raised in the wage differences between locals and employers.

Printers Not Affected.

The first of the year the various employing printers signed contracts for the ensuing year. None of the printing establishments are involved in the troubles.

The garage machinists' strike left the garages open shop.

WOOL CONSUMPTION IN 1919 LESS THAN 1918

WASHINGTON, Feb. 2.—Consumption of wool in the United States in 1919 was 113,000,000 pounds or 13 per cent less than in 1918, the bureau of markets announced today in its yearly wool consumption report. The decrease was confined wholly to the medium and coarse wools the report showed, the decreased in those grades offsetting a marked increase in the consumption of finer wools and a slight increase in carpet wools.

The total consumption in 1919 amounted to 131,000,000 pounds, or about 5% pounds for every man, woman and child in the United States. Massachusetts led the states in consumption, 225,136,627 pounds. The decrease in consumption is attributed largely to the lack of demand for coarse woolen textiles, the war stimulus of 1918 and the inactivity of the industry in early 1919.

Of the wool consumed in 1919, 48 per cent was domestic and 52 per cent foreign compared with 40 per cent domestic and 60 per cent foreign in 1918.

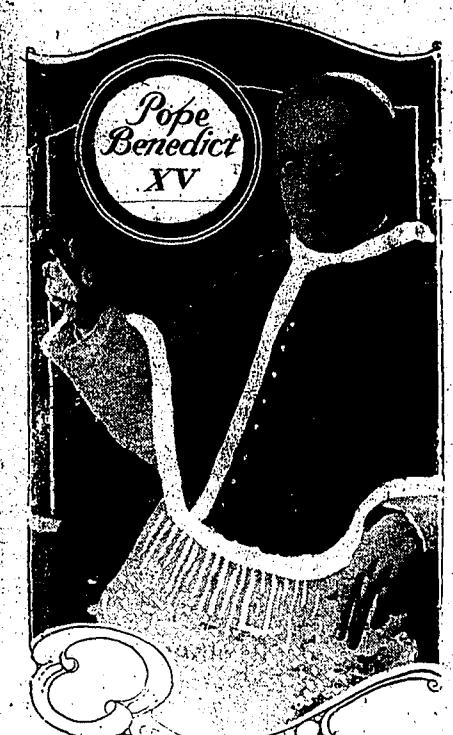

BRITISH DUMP RAISED

By the Associated Press. LONDON, Feb. 2.—News has reached London that the British dump at Gallipoli, composed of Turkish booty, has been raised supposedly by nationalists. Eighty thousand rifles, half a million rounds of ammunition and thirty-three machine guns were reported.

ILLNESS HALTS TRIAL

OAKLAND, Feb. 2.—The trial of the Chicago anarchists, Walter, Arthur, and Louis, was postponed today because of the illness of the defendant, Arthur.

Pope Bestows Red Hats

Pope Benedict XV recently bestowed red hats on the seven new cardinals before a distinguished assemblage and with impressive ceremony. The above picture is the pope's latest and was snapped at the Vatican.

NEW LOW RECORDS IN EXCHANGE MARKET

Heavy Discounts Are Recorded in New York on Foreign Money.

NEW YORK, Feb. 2.—New low records for British, French, Belgian, Italian and Dutch exchange were established in the local market today on a resumption of recent pressure to sell. The pound sterling at \$3.43 1/2 was 4 7/8 cents under its previous minimum, or a discount of about 82 per cent from the nominal of \$4.86 5/8.

Paris checks at 12 7/8 francs to the dollar represented a discount of about 62 per cent and Belgian and Italian remittances, normally the same as the French quotation, were depreciated by about 65 and 72 per cent respectively.

Exchange on Montreal duplicated its recent premium at 12 1/2 cents at this center, dealers reporting heavy offerings of grain bills. In the more remote markets slight improvement was shown by rates to Japan and the East Indies.

The exchange situation was the engrossing topic of discussion among bankers, overshadowing all other matters in the financial markets of the world.

An interesting sidelight on some of the old world's important industries was furnished by advices from Switzerland, which declared that government intervention might be urged to save that country's watch and clock making interests from the serious exchange situation.

HEAVY TAXES URGED ON EUROPE BY MCCORMICK

NEW YORK, Feb. 2.—England, France and Italy were advised to lay heavier burdens upon their taxpayers or drastically curtail their expenditures by Senator Medill McCormick of Illinois in discussing the international exchange situation in an address tonight. "Until the balance between imports and exports is restored to normal," he explained, "there can be no resumption of the normal rate of exchange. The value of foreign currencies will continue to fall in New York markets," he said, "until the foreign countries can present a balanced budget or reverse their expenditure habits." Urging the adoption of a national budget system in this country, he said that reforms to public administration were being urged in Europe.

CUMMINS DEFENDS PARTY WAR RECORD

Democratic Chairman Declares Republicans Criticism Destructive and Not Constructive.

By the Associated Press. BUFFALO, N. Y., Feb. 2.—The war record of the democratic party was defended by Homer S. Cummins, chairman of the democratic national committee, in an address tonight. He condemned the republicans for delay in ratifying the peace treaty and declared that in all the world only in this country "have been found men who are willing to stand in the way of a settlement calculated to organize the world for peace rather than for war." He challenged the critics of the administration to suggest how war could have been won more promptly and with less loss of American life.

"The republican management," he declared, "is rendering small service to America when it seeks to convert the machinery of its organization into an instrument of attack upon American leadership and American honor. When the history of this great period is written, it will be known as a golden era of American achievement, American statesmanship and American honor."

"For the present, we are enduring with what patience we may, an interlude of republican incapacity. The American people have paid and are still paying a staggering penalty for the election of a republican house and senate in November 1918. Since that time, all the processes of government have been impaired and the work of reconstruction has been delayed. Ruin and unbridled greed have been thrives recklessly amidst the interlarding strands of human destiny. The opposition has conducted a campaign of baseless criticism and slander of the president. Its leadership has attempted to pervert our country into a repudiation of international obligations and an abandonment of our allies; in whose company only a few months ago we were fighting to save the civilization of the world."

AVIATOR REWMAN KILLED

WASHINGTON, Feb. 2.—Lawrence G. Reisman, a young aviator of St. Louis, Missouri, died today from injuries received in an airplane crash. He was flying over the Potomac river when the plane crashed into the water.

ADVANCE DATE OF DEBATE ON PEACE TREATY

Republicans—Counter Democratic Movement by Urging Earlier Action.

MODIFIED CLOTURE MAY BE ADOPTED BY SENATE

Measure Used in Last Session Too Severe, Is Opinion of Solons—Reed Attacks the English.

By the Associated Press. WASHINGTON, Jan. 26.—Republican leaders of the senate joined forces with the democrats today to bring the peace treaty back into the open senate early next week.

Countering the democratic plan to reopen the debate a week from tomorrow, Senator Lodge, the republican leader, served notice that he would make a similar effort a week from today. The earlier date promptly was accepted by the democrats and in many quarters it was predicted that consideration of the treaty would be resumed then by unanimous consent.

Are Not Optimistic.

It was emphasized on all sides, however, that the agreement to put the treaty formally before the senate did not mean that the republicans over the issue of the peace treaty disposition. It was merely a tactical move, as before the treaty was thrashed out in the formal discussions of the past two weeks. It was agreed on by the senate, but senators were not so disposed in regard to the disagreement over the ratification and the Monroe doctrine.

As soon as a description of plan discussion seemed assured, leaders of the two parties put their heads together to work out some method of keeping the debate within reasonable bounds. Revival of the cloture rule which was applied during the closing hours of the last session was suggested, but many senators felt that it was drastic and it was predicted that some other method would be found.

Two resolutions to amend the senate rules and make possible a modified cloture, one by Senator Curtis of Kansas, and one by Senator Kalkren of Minnesota, as before the rules committee, which plans to meet within a few days to consider them. The leaders also went over the possibility of bringing one of these measures up for senate action without waiting on the committee, and it was said that a move might be made tomorrow.

Reed Talks Too Much.

Meantime discussion of the treaty broke out ahead of time on the floor. Senator Reed, democrat, Missouri, making a speech of two hours and a half in reply to the recently published letter of Viscount Grey, the British ambassador to the United States, regarding senate reservations. The letter, declared Senator Reed, showed that British thinkers were willing to give more consideration to American rights than were some members of the senate.

LONDON, Feb. 2.—The British government has received a letter from the United States and Great Britain full of large promises in the London morning paper. The letter, declared Senator Reed, showed that British thinkers were willing to give more consideration to American rights than were some members of the senate.

UNITED STATES ARMY

builder of

MEN

TEN years ago it was necessary for the United States Army to argue men into its ranks.

But, today the Army like every other great university, points with pride to its graduates.

Four million of the nation's choicest young men were entrusted to the Army's care.

MOST of them are back in the ranks of industry today; and every parent in America, every employer, every teacher knows that they are better, abler men for their experience.

They stand straight upon their feet, a symbol of physical fitness.

They have learned how to execute orders, and how to give them.

THERE is, in their characters, a maturity beyond their years, a vision and a self-confidence that are fundamentals of success.

The months that they gave to the Army were not lost months; the records of the future will show more rapid progress for them because of the qualities which those months developed.

THE United States Army is open for enlistments today. It wants no inferior applicants; it seeks young men of character and purpose; and it promises those young men that the term of their enlistment will be fruitful years.

They will come back to civil life in perfect health—their muscles, their eyes, their bearing all evidencing the finest professional care.

IT IS the purpose of the War Department to develop in the American soldier those qualities which are the essentials to success in any trade or business and are the prime requisites in an American citizen.

Congress has appropriated \$2,000,000.00 to be used in Educational work in the Army Schools. In many camps and posts men are being trained in the skilled trades and at practically all Army stations, schools are in operation in which the soldier can improve his education.

Through enlistment the United States Army offers opportunities to travel. It provides good food, good clothes and good care. It gives a training which brings health—physical development—mental quickness and self-confidence. It sends you back to civil life better-equipped for American citizenship than when you enlisted.

The Fourteen Arms of the Service

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. Horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence; and an enlistment in the Engineers can be the start of a young man's training in the various branches of Engineering and in any of the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also man the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his training. For flying is only in its infancy and its going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study; it adds a business as well as a technical training.

SIGNAL CORPS—Whether he is laying a wire from a reel-cart at a gallop or installing a wireless station, the Signal Corps man is always in the thick of it. The Signal Corps is there and a man who learns radio, telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPARTMENT—Good experience, good pay and training in all branches of hospital work and in the Dental Corps. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The tank was the latest development and the most important of the new arm of the service. Join the Tank Corps. You will find good and excellent training in all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Quartermaster Corps is the Army's supply department. It is the backbone of the Army. It is the Quartermaster Corps that keeps the Army supplied with food, clothing, shelter and everything else that is needed for the fighting.

CONSTRUCTIVE ENGINEERING—The Constructive Engineering Corps is the Army's construction corps. It is the Constructive Engineering Corps that builds the roads, bridges, and everything else that is needed for the fighting.

CHRONICLE—The Chronicle is the Army's newspaper. It is the Chronicle that keeps the Army informed of the latest news and events.

Where the U. S. Army serves

Alaska, Canada, Germany, Mexico, and everywhere else in the world. The U. S. Army is always ready to go wherever it is needed.

PROFITEERS AND PUBLIC.

The profiteers, so-called, are really the victims of conditions, is the statement of Maynard Keynes, a writer and economist attached to the British treasury department. He maintains that if prices are continually rising, every trader who has purchased for stock, or owns property and plant, inevitably makes profits.

Without committing ourselves to the guilt or innocence of the alleged profiteer, we must admit that, whatever of guilt there may be, it cannot all be laid upon the shoulders of any one class.

For instance, a committee of the National Retail Dry Goods Association declares that prices have reached the limit of the public's ability to pay, and that it is no longer possible to pass on to the consumer increases in material and labor costs. Therefore, they themselves propose to stop paying higher prices and insist that any further increases must come out of the profits of manufacturing.

It is quite clear that if the shopkeepers throughout the country back up their committee's resolution somebody is going to get a shock. Manufacturers will feel it first, and some workers may find themselves out of jobs. But if any good is to result, the public must back up the committee's claim that higher prices will not be paid. Going without is the answer to exorbitant prices. How far is the public willing to go along that line?

MAKING A RICH COUNTRY POOR.

During our enforced war economies the national food administration declared: "The unstirred sugar left in America's cup would meet the needs of the world."

It is simply a striking epigrammatic way of saying that Americans are the most wasteful people in the world. In spite of all the preaching and all the good resolutions, thrift remains almost an unknown virtue with us.

Not that we haven't the greatest number of savings accounts in the world, not that we haven't the greatest number of dollars per capita in those accounts, of any people in the world. Why shouldn't we have? Aren't we the best paid workers in the world? Does any laborer anywhere, get, or has any laborer at any time ever got, such sums for his day's work as the American gets and has always got? Comparison is out of the question.

But thrift, as it is practiced in other countries, is not known here. We waste food, we waste clothing, we waste fuel, we waste all our natural resources. We scatter everything in the same lavish manner that we waste the "unstirred sugar in our cups."

THE COMMUNIST PARTY.

It may seem a drastic step to mark for deportation every bonafide member of the communist party, merely because he belongs to that party, as the government is doing. It is drastic, but is also justifiable.

The so-called communist party is not a political party, in the same sense as the republican party or the democratic party. It is an association consisting not of citizens seeking to accomplish a certain program by political action, but consisting entirely of aliens and seeking to overthrow the government of the United States.

calls for "direct action," for "direct conflict with the governmental machinery in open combat." It is nothing less than a criminal conspiracy against our political and social organization. It represents the aim of a ruthless and conscienceless minority to seize the country by force, confiscating all its wealth and establishing a proletarian tyranny over the rest of the inhabitants as a similar minority has actually done in Russia.

The socialist party, despite the errors of belief and follies of practice has at least gone through the motions of operating as a regular political party, in obedience to law, seeking indeed to change our government and institutions, but through orderly political action rather than armed revolution. This is a fact brought out clearly in the widespread criticism of the leaders in the New York legislature who ousted five socialist members because of their membership.

The communists are a small, insolent and criminal minority, who, if they succeeded, would still be a minority, and therefore doubly intolerable.

GARAGES OR HOUSES?

Building statistics of one middle-western city just published give an apt illustration of the tendencies of the times and betray America's bent toward extravagance at the expense of life's ordinary values. In this city for instance, it is announced officially that the building permits show that twice as many garages as homes were built last year.

The statistician does not say so, of course, but it is presumed that many an already existing house was mortgaged to raise the money necessary to purchase a motor car and build a garage to cover it. While it may be that not every American city can match the record of two garages for every home erected during the year, it is just as true that the figures for the city mentioned must be accepted as more or less symptomatic of the extravagance of the times.

THE INGLORIOUS END.

Wilhelm von Hohenzollern today is a pitiful, cowardly spectacle—no more.

If Wilhelm had not been a coward, he would not have fled from Germany. If he were not a coward now, he would cut the gordian knot of diplomacy by giving himself up for trial. Still, by making himself a subject of universal contempt, he far toward solving the problem in another way. There cannot be any fear of Hohenzollernism, of Kaiserism, when its most splendid example skulks at Amerongen, an unwelcome, self-imposed guest, appealing to Dutch chivalry and international law rather than facing his fate like a man.

It would be well if this contemptible criminal could be tried, and have sentence pronounced on him. But it is not necessary.

His glory is departed. The world has marched past him. Nations and men are turning to new things, glad to forget the evil war and its evil doers.

This is getting to be such a whopping big nation that the people that the census enumerators overlooked would fill an ordinary country.

The public will soon be demanding to know whether this country is ruled by majorities or by bitter-end minorities.

If the United States navy were the German army, there couldn't be any fuss about medals, because they'd all have them.

Uncle Sam could afford to help a lot more. Bolsheviks celebrate Old Home Week back in dear old Russia this year.

Maybe the world does owe every man a living; but a good many men at present are trying to collect two or three livings.

AMERICAN AVIATORS HELD BY MEXICANS

Placed Under Technical Arrest by Order of General Official at Nogales.

By the Associated Press.
 DOUGLAS, Ariz., Feb. 2.—Lieutenants Usher and Wolf, aviators, flying from El Paso to Nogales, Ariz., made forced landing today near Nogales, Sonora, Mexico, and were held by the municipal authorities of Nogales. Both are members of the twelfth aero squadron, stationed at Fort Bliss, Texas.

The men were en route to Nogales, Ariz., and it is reported they were on the Mexican railroad leading south from here for the railroad—leading south from Fairbank, about 40 miles west of Douglas, to Nogales. Upon arriving at a point on the Sherman ranch, approximately 35 miles south of Douglas in an air line and ten miles further south by road, the plane had engine trouble and the men were forced to land. In descending they were unable to choose a landing place other than a rough field and one plane of their machine is reported to have been broken badly.

Just how the two men reached Nogales is not known. They reached Nogales at 2 o'clock this afternoon and were at once placed under technical arrest, being taken to the office of Presidente Municipal Francisco M. Peraza and detained there. The presidente is said to have lost no time in dispatching a telegram to Adolfo de la Huerta, governor of Sonora, at Hermosillo, the capital, requesting that he report the occurrence to the central government and followed instructions as to disposition of the two American officers.

It is reported also that the two officers were afforded the courtesy of sending a telegram to their commanding officer at Fort Bliss, Texas, relating their experiences and explaining the situation in which they found themselves.

The men, according to reports reaching here, are being well treated by Presidente Peraza. Nogales, where the men are detained, is the seat of the Moctezuma Copper company, a subsidiary of the Phelps-Dodge corporation, and has an American population of about 200 persons.

Headquarters of the Arizona district has been notified of the occurrence and is investigating.

Engine Trouble To Blame.
 NOGALES, Ariz., Feb. 2.—American Consul Francis J. Dyer, at Nogales, Sonora, was advised that Lieutenants G. L. Usher and L. M. Wolf, landed about sixteen kilometers south of Nogales, Sonora. Consul Dyer has wired to Governor Adolfo de la Huerta of Sonora requesting that assistance be given the aviators to facilitate their return to the border. It is reported engine trouble forced a landing at Rancho Nofia de Sherman.

ADVANCE DATE OF DEBATE ON PEACE TREATY

Continued From Page One.

terms and with any reservations that not at all.

The Morning Post on the other hand, reviews the language as more dangerous to Great Britain than to America; dissects from Lord Grey's advocacy to the American reservations and contends that if America is to be admitted under special reservations the other nations must also have special reservations.

Comment on Greek Letter.
 "Some of the papers which profess to recognize the whole sentence of Secretary Glass' statements, regrets that Mr. Glass did not express himself as one of them puts it, 'more pleasantly and with more civility towards the people of Europe whose condition is disastrous and critical.'"

The Times and Telegraph attribute "the campaign of calumny," which they say is in progress against Great Britain to "hypnotized enemies and stupid friends" and while the Telegraph admits that it feels some bitterness "over these defamations," it believes that Anglo-American relations will again become normal.

The Times expects that the bitterness of the anti-British campaign will increase as the electoral activities in the United States progress, but looks for a restoration of friendly feeling. It sharply complains of attacks on certain quarters here against America which it designates as "astonishingly foolish and may easily create a bad impression among the American-British friendship."

The Liverpool Post says that Vincent Grey's statement comes at the right moment, but regrets it was given through the medium of a single journal.

In justice, in the end, it is the plain man and woman that control destinies, adds the paper, "it is clearly of the highest consequence that the plain man and woman should be as fully instructed as possible on the nature of the issues arising over the peace treaty."

Agrees With America.
 The paper, however, agrees with the United States in its position.

States in dealing time to make up its mind on suitable reservations and to have the position of the British government on assembly of the league reviewed, but considers that the league should not be maimed for lack of positive arrangement in this matter.

"The world simply cannot afford to have both Europe and America as trustees for the future of humanity, there runs today the gravest duty to find a way out of the impasse at Washington. Viscount Grey's statement does not help much in that direction."

Highest cash price paid for poultry, Independent Market, Twin Falls, Tu. Th. Sat.

TO POSTPONE INVESTIGATION OF ARMY MEDAL AWARDS
 WASHINGTON, Feb. 2.—Investigation of army medal awards will be postponed until the war department has compiled and submitted to congress a list of all officers who received distinguished service medals or distinguished service crosses. It was announced today by Chairman Johnson of the house subcommittee investigating war department expenditures.

postponed until the war department has compiled and submitted to congress a list of all officers who received distinguished service medals or distinguished service crosses. It was announced today by Chairman Johnson of the house subcommittee investigating war department expenditures.

AUSPICES OF AMERICAN LEGION

— AT —

Lavering Theater and Dance Hall

FRIDAY EVENING, FEB. 6, 1920

Concert Begins at 8:00 P. M. in Lavering Theatre
 Dance Begins at 9:30 P. M. in Lavering Dance Hall

If you believe in the Lion, help it by attending its entertainments.

If you believe in the Legion, come anyway and enjoy a concert and dance that is worth more than the prices stated below.

The Legion has two objects in view: first to raise finances for the state convention which will be held in Twin Falls this spring; second, to give a high-class entertainment at moderate prices so that everybody can attend.

Concert 50c

Dance \$1.00

SEEK TO FORECLOSE ON SALMON LANDS

Two Hundred and Twenty-two Suits
Filed in District Court in Names
of Bondholders.

Two hundred and twenty-two cases seeking to foreclose liens held against owners of property on the Salmon tract were filed in the district court last night by Richards & Hays of Boise as attorneys for the bondholders who hold the liens as security from the Construction company. Thirty-five of the cases are filed in the name of A. C. Robinson, who loaned the construction company large amounts and the remainder in the name of the Commonwealth Trust company of Pittsburgh, trustee. Forty-three similar cases were filed in Boise in the federal court last Friday.

Attorney Hays personally filed the suits. According to Mr. Hays all of the actions are against land on which no payments for construction work have been made since 1911.

Filing of the suits brought the largest fees into the coffers of the clerk's office in one day in the history of Twin Falls county, \$2370.

The complaints are printed, with blanks for the names of each defendant. In addition to the owners of land, any one who may have a mortgage on the property, a judgment against it or any other claim is made party to the suits.

A detailed history of past steps and litigation is recited in the complaint.

SEC. MEREDITH OUTLINES HIS PLAN OF WORK

Continued From Page One.

us only four-tenths of what a man can produce each day for each of us. Must Make Effort.

"The farmer asks that the laborers in the mines, the factory, and the mills who are also producers along with the farmers, make an effort comparable to his to see that just as little labor expense as possible in each article turned out by their hands, thereby helping the

farmers of America, who in turn will help the laborer. Given this and the manufacturers, jobbers and retailers making a reasonable profit and recognizing the harm that must ultimately come from profiteering upon the farmer, the question of the high cost of living will largely solve itself into the permanent good of all concerned. "On the other hand, if the whole country, all business and all labor, does not realize this as a common problem and, do those things which give the farmer a fair compensation for his efforts and do those things which make farming remunerative, pleasant and as attractive as other lines of endeavor, the conditions will not improve. On the contrary, more and more will the young men leave the farms, more and more will the older men become discouraged, and less and less will there be of farm produce to divide among the whole people for their sustenance, and higher and higher will go the price of that which is produced."

OUTLINES EVIDENCE IN NEWBERRY CASE

Special Assistant Attorney General
Tells What the Government
Will Try to Prove.

By the Associated Press.

GRAND RAPIDS, Mich., Feb. 2.—An outline of what the government expects to prove against Truman H. Newberry, United States senator, and his 123 associates, charged with conspiracy in connection with the 1918 senatorial campaign, was started in the federal court today by Frank D. Dalley, special assistant attorney general. When adjournment time came he was about two-thirds through his prepared outline. When he finishes tomorrow James O. Murfin, personal counsel for Senator Newberry will reply on behalf of the defense.

Martin W. Littleton, of counsel for the defense, interrupted Mr. Dalley a few times with objection and at the close of the session asked the court to order government agents to "cease sitting among the defendants and listening to their whispered conversations."

Federal Judge Sessions announced that hereafter the front seats would be reserved for defendants and that others would have to find places after the men on trial had selected seats. He would not issue a formal order against the presence of the secret service men.

Throughout the address, Mr. Dalley stressed the money which the government alleges was spent in violation of the law limiting campaign expenses. He said Milton Cockman was hired as manager of the Detroit campaign "at an enormous and staggering salary amounting to thousands of dollars." He charged that when the campaign started the Newberry organization "launched into an orgy of spending" and spoke of great heaps and piles of currency which he said were visible at the Detroit and Grand Rapids headquarters.

"The evidence will show," he shouted, "that this organization spent more money an average every 48 hours than the laws of the United States permit for an entire campaign."

The prosecutor used a big map of Michigan to illustrate "the way in which the state was parcelled out among the field agents." Attorneys Murfin, Littleton and Nichols of the defense, watched the prosecutor's geography lecture closely and occasionally helped him pronounce some of the names.

CONFEREES AGREE ON OIL LEASING BILL

Legislation Urged for Past 10 Years
Is Near to Passage, It
Belies.

By the Associated Press.

WASHINGTON, Feb. 2.—Three months of bickering and an almost unbreakable deadlock on the oil land leasing bill were ended late today through agreement by house and senate conferees on the legislation. Senator Smoot, republican, Utah, chairman of the senate managers, announced the conference report would be submitted to the house tomorrow and an effort made to obtain immediate consideration.

The agreement of the conferees is expected to be approved with little opposition by both the house and senate, thereby completing legislation which has been pending for the last ten years and which would open up for development approximately twenty-five million acres of public domain in western states. Last session, a similar bill was passed but, the senate's failure to adopt the conference report in the run of legislation at the close of the session, prevented final enactment.

An now proposed, the bill affects oil, coal, gas, phosphate, sodium and oil shale lands and is strictly a leasing measure, all provisions for outright sale having been eliminated. Under the measure approximately 44,000,000 acres of government coal land alone would be opened for development as well as about eight million acres of oil lands.

As agreed on by the conferees the bill specifies only a minimum royalty, the senate provisions providing maximum royalties having been eliminated. In the matter of contested claims on oil, the conferees agreed upon seven per cent of the royalty received on past production going to the reclamation fund, 20 per cent to the states in which the oil was produced,

and 10 per cent to the government. Under another compromise, all royalties derived from oil, gas, coal, phosphate, and sodium produced in the future will be distributed 12 1-2 per cent to the reclamation fund, 17 1-2 per cent to the states and 10 per cent to the government.

The compromise measure also provides that the total amount of the royalties to be paid shall be determined by competitive bidding or by methods to be prescribed by the secretary of the interior. For oil lands a maximum of 2,200 acres may be leased at a minimum royalty of 12 1-2 per cent. The maximum for coal lands is 2,500 acres with a minimum royalty of five cents per ton. The same acreage for phosphate and sodium but 6,120 acres of oil shale land can be leased.

The senate remedial provisions over which a deadlock developed and which is designed to permit an adjustment of differences over claims growing out of the development of the naval reserves in California, and were in part retained. Under a compromise proposed by Representative Sinnott of Oregon, chairman of the house managers and accepted by the conferees, however, sales of surplus oil lands by persons holding more than 2,200 acres of the maximum allowed under the bill, and made after last October 1, would be invalidated. This modification is designed to prevent land juggling.

GOVERNMENT PLACES BIG ORDER FOR CASKETS

By the Associated Press.

WASHINGTON, Feb. 2.—The purchase of 17,000 caskets at a cost of \$1,104,508 to be used for the return of army dead from Europe has been completed by the war department in accordance with its announced policy to return as soon as practicable the bodies of American soldiers buried in France to the next of kin, for interment in this country. The manufacturers were instructed to expedite deliveries.

The department also made public a communication from the Casket

Manufacturers' association of America, condemning "any plan for the general return of the bodies as impractical, expensive and unmanufacturable."

This association is not seeking in any way to establish a market for the goods produced by the manufacturers it represents," the latter said, adding that the only purpose of the manufacturers it represents, "the latter said, adding that the only purpose of the manufacturers was to facilitate a task the government has undertaken and to prevent a serious increase in the prices of raw materials used in caskets.

AUSTRIA SELLS WOOL
By the Associated Press.
LONDON, Feb. 2.—A representative of the principal wool industries has arrived in London today to the value of 200,000 pounds sterling. These will be in England and the proceeds derived to enable the restarting of Austrian industries.

FRENCH FLASH WINS.
NEWARK, N. J., Feb. 2.—Bangle Valger of New York, known as the "French Flash," easily outboxed Joey Fox, English featherweight, in their eight round bout tonight.

Our Farmer and Stockraiser Friends

To personally meet and greet our farmer and stock raiser patrons is always especially pleasant.

Oftentimes, however, they find it undesirable or practically impossible to call at the bank.

Our banking-by-mail department is maintained for the farmer and cattleman's convenience; they can make deposits or withdrawals with remarkable ease and dispatch.

Requests for information will be answered quickly and completely.

MAC KEE CHAMPION RUBBER OF CRADLE

Mac Oodles of Rookies Ready to Try for Athletics This Spring.

By FRED TURBYVILLE.
 Connie Mack has 37 athletes ready for shipment to Lake Charles, La., where the famous Athletics will attempt to work something into shape resembling a big league baseball team. Of the 37 athletes there are thirteen city broke. The rest of 'em are bushers but good looking bushers. Connie Mack would have you know. He and his scout, Tommy Turner, picked 'em fresh from the bushes while the pick-

ing was good into last summer. From this large and varied collection of younger men Connie hopes to get with in waving distance of the American League flag. He would love to hear it whistling in the breeze again, but he is too foolish enough to predict a pennant winner for 1920.

Connie hasn't had much luck since he converted well known stars into cash in the hand some few years ago after pennant winning had become sort of a monopoly with him and a half-hearted cheering matter with the fans of Philadelphia.

But from the top of the heap to the bottom was a long slide and after the fans had recovered their breath they began to supplant their cheers with jeers, and they made themselves conspicuous by their absence at the ball park.

So last summer Connie decided he'd have to get himself another ball team. He bought the whole shebang

match at Atlanta, and Atlanta was some pumpkin in the Southern association as the first standing of the 1919 race will show. Connie took what he wanted and then picked up a few more here and there.

Harry Davis will help him out again next season, and then there is Danny Murphy, engaged to coach the Youngsters. It looks like a busy spring for Davis and Murphy.

He has four veteran pitchers—Kinney, Taylor, King, Johnson and Scott Perry; Ralph Perkins, golfer-catcher; Dick Burrows, first baseman; Dugan, shortstop; Whitey Wilk, second; Red Thomas, third; George Burns, amos, Strunk and Clarence Walker.

The rest of them are new—very new.

There are ten new pitchers: George Gibson, Cincinnati league; Irvin Harris of Houston, Charles Eckert of Suffolk, William Plarson of Atlantic City, Bob Hasty of Atlanta, Pat Martin of Birmingham, Dave Keete of Reading, Ed Jannell of Newark, Lyle Hughes of Seattle, and Ray Moore of Bill Stiles of Atlanta, Glenn Myatt of Houston, and John Walker of the Western league catchers.

Ivy Griffith of Atlanta is a new first baseman.

Jimmy Dykes of the same team is a new second baseman.

Willie Chalk Galloway, another Cracker, will try at short.

Art Ewolt of the Western league, and Frank Drizal of Brooklyn, will try for third.

Outfield candidates are Bob McEwen of Suffolk, Rick Allen from the Eastern league, Charles High from the Three-I, Fred Welch, Virginia league, and Red Wingo from the South Atlantic.

That is some troop of boy scouts, eh? The seat of learning certainly will be located at Lake Charles late next month.

CHARGED WITH MURDER OF HER SIX-YEAR-OLD CHILD

By the Associated Press.
 RHINELANDER, Wis., Jan. 31.—Accused of the murder of her 6-year-old son, Alban, Mrs. Stanley Boski of the town of Sugar Camp was arrested here today.

Suspicion was directed against her when her husband attempted to get a death certificate from the coroner, who ordered a post-mortem, which disclosed severe bruises and lacerations and a broken arm.

The accused declares that the boy fell down stairs, striking himself on saws hanging in the stairway.

Neighbors accuse her of habitual abuse of the child.

SPECULATION NOT CAUSE OF DEPRECIATION OF FRANK

By the Associated Press.
 PAIS, Jan. 31.—That speculation is not responsible for the depreciation in the franc and the pound sterling, toward the dollar is the consensus of British, American and French bankers obtained in a canvass of financial circles in Paris today by a correspondent of the Associated Press. Hard work, economy, restrictions on imports, increased production and additional loans are the remedies for the situation, unanimously prescribed by financial men here.

DENIES REPORT OF WOOD RESIGNATION

By the Associated Press.
 CINCINNATI, O., Jan. 31.—Colonel William Cooper Proctor, manager for Major General Leonard Wood's press, identical candor, tonight denied reports that friends of General Wood had asked him to retire from the army. "No matter what he may decide to do in the future, this question is not to be considered at the coming conference," Colonel Proctor said concerning the meeting of Wood leaders in Chicago next Tuesday.

BOMB EXPLODES IN EXCLUSIVE RESIDENCE

By the Associated Press.
 CHICAGO, Jan. 31.—For the second time within a year an attempt was made tonight to bomb a house in Chicago's exclusive North Shore quarter. All windows in the building and several in adjacent houses were broken. Police say they believe the bomb was intended for a former occupant, said to have gained omity for renting homes to negro families in a restricted residential district.

CARDINALS PICK UP THREE ROOKIES FROM MINORS

By the Associated Press.
 ST. LOUIS, Jan. 31.—The St. Louis Cardinals tonight announced the purchase of the following players: Manager Grover Hartley, a catcher of the Columbus club of the American association; Arthur Griffen, first baseman of the Sacramento team of the Pacific coast league; and James McAnley, shortstop of the Kansas City American association team.

ENGLISH GIRL AND BABY ADMITTED TO COUNTRY

By the Associated Press.
 NEW YORK, Jan. 31.—Miss Emily Knowles, an English girl, who met Percy R. Epker of Baltimore, while he was at an aviation training camp in England, was admitted to the United States with her baby today after being detained at Ellis island while the baby was being examined.

to adopt the baby and the offer of Guy R. Spiker, brother of the aviator who married the girl.

A telegram received at the island today from the Department of Interior ordered that mother and child be admitted to the country for three months and placed in the care of Mrs. Epker and her family of Fall River, Mass. A bond of \$1,000 required for them has been furnished by Mr. and Mrs. Spiker.

Immigration officials, here, regarded the admission for three months as "most extraordinary" and were at a loss to explain it. There is nothing in the conditions of admission, it is explained, to prevent Guy Spiker from marrying the girl, as he has offered to do in an affidavit submitted to the immigration authorities, although he has never seen her. Such a marriage, assuming he is an American citizen, would permit her to stay in the United States.

Mrs. Spiker's affidavit contained the following:

"My husband and Miss Knowles formed a friendship which ripened into something more than friendship. Miss Knowles is not immoral under the immigration laws. She is a lovely, gentle, refined girl. I would welcome her into my own home. I know the moral character and tendencies of my husband and know them to be beyond reproach."

FAMOUS TURFMAN DIES

By the Associated Press.
 LEXINGTON, Ky., Jan. 31.—Colonel Jack Chinn, 72, one of the most noted turfmen of 20 years ago in America, died in a hospital here today after a long illness from heart trouble and complications. He was a former state senator and leader in democratic politics and a member of the first Kentucky state racing commission, which body he was instrumental in creating. He also was one of the first Kentucky horsemen to urge adoption of the pari-mutuel system at race tracks. He retired from the turf several years ago.

YAGUI CHIEF ACTIVE

By the Associated Press.
 DOUGLAS, Ariz., Jan. 31.—Mori, war chief of the Yaqui Indian tribe of Sonora, has descended from the mountains with 200 of his men and upon Tenching Oroz, a station on the Southern Pacific of Mexico, he held a long telegraphic conference with Adolfo de la Huerta, governor of Sonora, according to Orientalist, a Heraldo, Sonora, newspaper, which adds:

"It is reported here on creditable authority that Chief Mori will come to this city on a special train within two or three days to the end of entering into negotiations with Senor de la Huerta."

WISCONSIN VICTORIOUS

MADISON, Wis., Jan. 31.—Wisconsin defeated Minnesota, 28 to 12, in a western conference basketball game tonight.

PENNSYLVANIA G. O. P. OUTLINES ITS CAMPAIGN

By the Associated Press.
 PHILADELPHIA, Jan. 31.—Pennsylvania's representatives to the republican national convention next summer were discussed here today at a series of conferences between state

republican leaders. Six of the delegates-at-law were decided upon, it was announced. They are: Governor Spruill, Lieut. Gov. Baldwin, Attorney General, Philadelphia, Messrs. Baugh and Cook of Pittsburgh and Justice Stites

Senators Baugh and Spruill. Senator Baugh and Spruill were named last month for the delegates-at-law. The delegates-at-law were named last month for the delegates-at-law.

CARRANZA REFUSES TO BREAK UP PLANTATIONS

WASHINGTON, Jan. 29.—The breaking up of large hacienda plantations in Yucatan and their distribution among the Indians for the cultivation of grain recommended by the officials of the state, has been refused by President Carranza. It was reported today in Mexico City. The recommendation was refused, the officials said, on the grounds that the lands particularly adapted to the production of henequen, which is the principal export of the state, are of little use to the Indians. The officials did not understand the cultivation of henequen. Other lands, it was said, already had been apportioned to the Indians. The officials claimed the government was not getting adequate return for the henequen lands.

TRANSATLANTIC NAVIGATION

LONDON, Jan. 29.—Four of the largest aviation firms in England are negotiating with regard to a combination of their transatlantic services. It is said to be the purpose of the combination to purchase all airplanes which the government does not require for the army and navy. The combination has been formed for the purpose of saving money by short time to the hands and the government has agreed to sell the airplanes at a low price.

WOULD ABOLISH ALL SPHERES-INFLUENCE

British Association in China Wants 'Clean' Australia Toward This Country.

SHANGHAI.—Abolition of spheres of influence in China was recommended in a resolution adopted at a recent meeting here of the Association of British Chambers of Commerce in China and Hongkong. The association includes representatives of most important British commercial interests in the far east.

It is noted that the resolution is significant because it has long been claimed that Great Britain has been able to obtain a dominant position in trade in China chiefly by reason of the vast extent of British spheres of influence, which is said to overshadow those of all other countries. The conference resolved that the time had come to reaffirm the denotation of the "open door" as an essential commercial principle and that abolition of spheres should be accomplished by international agreement.

The British government was asked by the association to remit a portion of the Chinese community and devoted to the education of Chinese along British lines.

The association expressed its sympathy to abolish the plan of extrajurisdiction. But declared a stable government should first be established, a satisfactory code of laws enacted, and the Chinese judicial system should be reformed.

It asked also that the British government should put into immediate effect the measures adopted by the International Opium Convention in 1912, restricting traffic with Chinese laundries, and that Chinese rivers should be supervised.

WINCHESTER SECURES FLAG

By the Associated Press.
WINCHESTER, Va., Jan. 28.—Formal presentation was made tonight of the original "Gladiolus" flag of Winchester, England, to the namesake Winchester, Va., an expression of enduring amity and good will to the people of the ancient municipality to wards the hundreds of thousands of Americans who passed through the city on their overseas journey to the A. E. F. in France. The presentation was made by Major General Bethell, military attache of the British embassy in Washington.

The flag was brought to Winchester, England, by Colonel Carl Abrams of Salem, Oregon, to whom it was entrusted on the occasion of a formal ceremony on July 4, 1918.

LAST OF OLD MORMONS IS CALLED BY DEATH

SALT LAKE CITY, Utah, Jan. 31.—William C. A. Smoot, last survivor of the original band of pioneers which reached the valley of Salt Lake City, 24, 1847, with Brigham Young, died here tonight. Many of his relatives and friends were with him last Friday to celebrate his ninety-second birthday.

Mr. Smoot was one of the first company of men to break the trail between Salt Lake and Los Angeles, Calif., by way of Las Vegas, Nev., and San Bernardino, Calif. He was one of the 30 young men called by Brigham Young to go to Las Vegas build a fort there to protect immigrants and the United States mail from Indians, and to teach the latter how to raise wheat, corn, potatoes, squash and melons.

Mr. Smoot was the father of eighteen children, ten sons and eight daughters.

DAILY AIRPLANE TOURS OVER FLANDERS FIELDS

By the Associated Press.
PATIS, Jan. 31.—Daily airplane tours over the Flanders battlefields which are now being organized, according to present plans will start from the "Bourge" airfield, south of Paris. The first will be a series of flights. The first covers the sector of the British advance of 1918 with a view of the Somme, a descent at St. Quentin and a flight over Arras, Albert, Cambrai, and Lille. The second is a flight from Chateau Thierry to Reims, returning over the Chemin des Dames, with a descent at Soissons. Four to six passengers will be carried by the machine, and the excursions will take half a day.

EMPLOYEES TO BE NAMED ON COMPANY'S BOARD

By the Associated Press.
DAYTON, O., Jan. 29.—President John H. Patterson of the National Cash Register company tomorrow will announce an advisory board of 25 employees, exclusive of persons holding executive positions, will be created at once, to have a part in the determining of the policies and management of the concern. The new board, to be elected by employees, February 3, will be composed of 22 men and three women.

URGES PUBLIC TO READ DIFFERENT UNION PAPERS

By the Associated Press.
NEW YORK, Jan. 31.—The "open-minded, liberty and humanity loving public" is urged to become readers of the labor press of the various localities of the country in order to learn "the truth of the workers' conditions." In a resolution adopted at the National Labor Council of America, the council urged that the labor press be encouraged and supported by the labor press "financially and morally." The meeting was called by the American Federation of Labor.

COUNCIL HAS LONG DRAWN-OUT SESSION

Large Number of Matters Considered
Seek to Open Picture Shows
Other Questions.

City council last night returned to its regular habit of keeping late hours when a session that started at 7:30 p.m. lasted until about 11 o'clock. This morning several matters were discussed and many of them disposed of by the city officials.

Early in the meeting a petition was presented by several hundred residents of Twin Falls urging council to open the meeting picture shows on Sundays. After some discussion council decided to hear the proponents and opponents of the plan next Monday evening.

Twin Falls will become a better lighted city as a result of an agreement reached by the city council and the King, representing the city's power company. City lights will be extended from the park to the depot and four lights around the depot. These lights will also be placed on Main street for two blocks each way from the depot. The initial cost will be paid by the light company with the city making payment in installments. It is estimated that the plan will cost the city \$4000 a year more for lights.

W. A. Fallon was selected as city street inspector. Council had under consideration a tentative ordinance providing for this inspection. It is the desire of council to cooperate with the federal government. The ordinance as considered proposes a fee in proportion to the average amount of stock on hand at each market as well as slaughtering charges. The matter will be brought up for further consideration at the next meeting of council.

Council spent several hours considering the purchasing of a motor

street sprinkler and flusher. Council decided to buy a sprinkler of a concern which intends to make Twin Falls its headquarters for parts of its automobiles if the council will agree to make delivery within 120 days. It is figured by council that the city can save \$2000 a year by the elimination of horse-drawn outfits. The sprinkler itself will cost \$5000.

A representative of a government store in Portland was given permission to open a branch in Twin Falls.

W. C. Hart, who will build a building next to the city building, was again before council. He was told to present an offer next week for the lease of the east wall on the building.

Sherriff Sprague urged council to permit Chief of Police Taylor to attend the meeting of peace officers in Boise Friday. Council accepted his suggestion and agreed to pay the expenses of the local chief.

The eighth avenue lateral conduit is causing considerable trouble. It was reported that deliveries on materials needed could not be obtained as soon as desired. The city engineer was urged to make further investigation.

Council decided that the bond election for the city park will be held some time in March. The matter was again brought before council by Secretary Wright of the chamber of commerce. A definite date will be set at the next meeting.

A petition was presented by residents in block 1 in Jones addition seeking to have the alley widened from 10 to 20 feet. It was announced that but one of the property owners had refused to agree to the widening of the alley.

Council decided that the city offices are not in need of a heating plant at this time.

A resolution was adopted urging congress to continue federal aid in the building of highways. This resolution is similar to that recently adopted by the chamber of commerce.

Residents of South Park asked for 13 additional lights. The matter was referred to the city engineer and he will report to council on the number he deems necessary.

Council granted to Albert Bonoli and others the right to build a side track on Wall street past the Kinney wholesale house to the Bonoli property as well as to close an alley on Sixth avenue south. This permission was granted because of the desire of the Bonolis to construct a warehouse in that section.

SIRIL MINISTER RECALLED.

By the Associated Press.
WASHINGTON, Feb. 2.—Dr. Slavko Y. Grulich, minister to this country for the past 15 months from the kingdom of the Serbs, Croats and Slovenes, has been recalled and will be succeeded by the present Yugoslav minister to Great Britain, Yovan M. Yovanovitch.

Dr. Grulich has been named grand marshal of the king's palace, and it is assumed that he will occupy, at the same time, the post of minister to Greece as the two are duties usually filled by the same incumbent.

BRITISH CONDEMN COERCION OF IRISH

Members of Party Visiting Emerald
Isle Declare Lloyd George
Plan Unacceptable.

By the Associated Press.
LONDON, Feb. 2.—There is good reason to believe that the recent trip of the British labor party's delegation to Ireland will not prove the means of making friends among the labor members of parliament for the government's Irish scheme to be elaborated at the next session of parliament.

An indication is found in the statement circulated at the labor party headquarters, signed by "one of the delegates," in which observations and impressions of the Irish trip are recounted.

While these are purely individual, it is significant that they parallel the conviction of the whole delegation as interpreted by the accompanying correspondents.

The statement says:
"Throughout the whole of nationalist Ireland, the delegation came face to face with an intensely bitter feeling towards, and general condemnation of, the Dublin castle administration. What the castle claims to be a policy of protection is denounced by all shades of nationalism as one of provocation."

The constitutional nationalist hold this latter view, and it is not unusual to find Sinn Féiners who admit that their rank are swelled daily as a result of the continuance of the policy of coercion."

"The realities of the situation cannot be ignored. The problem is full of difficulty and complexity, and a solution will not be found by any rule of thumb."

"The irreconcilable demands of the Sinn Féin and Ulster may be summed up, on the one hand, 'set out' and on the other hand 'no change.' Neither of these attitudes will assist in a peaceful settlement, nor is it likely that the scheme outlined by the premier in the closing days of parliament will achieve this object."

The statement concludes by pointing out that an opportunity is offered the labor party, through the present lack of faith that Ireland will obtain remedial measures through any other of the older political parties.

The official report of the delegation, which is to be issued shortly and which will contain recommendations as to policy, is awaited with much interest.

RUSSIA TO BE VISITED BY COMMERCIAL MEN

By the Associated Press.
NEW YORK, Feb. 2.—The American Commercial Association to promote trade with Russia decided at a meeting today to send a mission to visit Russia to foster commerce.

To the executive committee were left the details of the commission's personnel and date of departure.

Meanwhile "pressure" will be brought to bear on the federal government to lift present restrictions against trading with that part of Russia in control of the Bolsheviks. A suggestion that one of the members of the association seek a writ of mandamus from the United States supreme court to compel the state department to permit American firms to do business with Russia, either with the soviet government direct, or through the soviet government or with the soviet government direct, also will be considered by the executive committee.

Emerson P. Jennings, president of the association and of the Lehigh Machine company of Lehigh, Penn., announced at today's session that small firms "do not need to send representatives to soviet Russia to seek business" as there "is a commercial representative of the soviet government here, I am informed, with whom you can negotiate." Jennings' firm has a large order from the soviet organization for press printing presses.

MILITARY POLICY MUST BE SETTLED AT ONCE

By the Associated Press.
PROVIDENCE, R. I., Feb. 2.—Franklin D'Oller, national commander of the American legion, told members of the legion post tonight that "if universal military training is not secured in the next few months it will be lost entirely."

Commander D'Oller declared that the American legion want a proper military policy adopted by the country, "one which will provide for universal military training by the country, 'one which will provide for universal training and an organized citizen army and navy.'"

"I think that we will be able to agree on some form of legislation that will be truly democratic, truly American and make this country safer for us, our children, and our children's children," he said.

players preliminary to the departure for the spring training camp at Waco, Texas. O'Leary anticipates no trouble in signing all the regulars, despite the declaration of Shortstop Biegar and First Baseman Gandil, that they have retired.

ARMY OPENS EXTENSIVE CAMPAIGN IN TWIN FALLS

Lieutenant Evans of the Fourteenth field artillery and ten non-commissioned officers arrived here yesterday to carry on an intensive campaign to further recruiting in this section. This will remain here for a week.

The feature connected with the campaign that is attracting the most attention here is the essay contest will be participated in by all schools in the country on February 20, 1920. On April 10 the judges, consisting of Generals Pershing and March and Secretary of War Baker will decide and announce the three winners. On May 5 the successful contestants, with their parents or guardians will be given a trip to Washington, D. C., with all expenses paid. In addition the best essayist in this section will be given a cup by Maj. A. H. Emery, commander.

TO ELECTRIFY LINES.

By the Associated Press.
WINNIPEG, Feb. 2.—The electrification of certain portions of the Canadian Pacific railway's lines, especially in the Rocky mountains, is a possible development of the near future, President E. W. Beatty stated today upon his return from an inspection of western lines.

Mr. Beatty also said that an increase of freight rates on the Canadian Pacific is entirely dependent on the action of American railways.

DENY GRAMMAR PETITION.

LINCOLN, Neb., Feb. 2.—The Nebraska supreme court tonight denied an application made in behalf of Allen V. Grammer, sentenced to be electrocuted next Friday, for a writ of error to enable the case to be taken up in the federal court.

Highest cash price paid for poultry. Independent Market, Twin Falls, T. Th. Sat.

LEGION TO MEET AT ELKS HALL TONIGHT

Brucan to Be Discussed At Gathering—Other Topics to Be Brought Up.

Twin Falls post, American Legion, will hold what is considered by its officers to be the most important meeting ever called tonight at the Elks hall.

Several matters of importance will be discussed, foremost of which is the attitude toward Brucan's reclamation. Several of the posts of the state have declared against the project because it has been reported service people will not be given preferential rights.

Many members of the Twin Falls post have condemned this attitude which it is claimed is fostered by Boise jealousy. Other members of the post declare that the matter is not one for the legion to consider and have announced that they will oppose any plan of endorsing the project or of condemning it.

The state convention will also be a topic for discussion at the meeting. The date for the gathering will be set by a meeting of the state executive committee at Boise last Sunday.

Twin Falls post is now raising money for the entertainment of the convention.

GOODING MAN HERE.

Dick McConnell motored to Twin Falls yesterday afternoon from Gooding to look after business and attend the theater last evening.
