BY DEMANDS

Asserts Chantellor  
Bauer in Commenting.FRENCH ATTACKED FOR  
ATTEMPTS AT REVENGEBritish Moderate Liberals De-  
clare Allies Left in Di-  
lemma by the Situation  
Over Wanted Men.

By the Associated Press.  
LONDON, Feb. 5.—The foreign af-  
fairs committee of the national as-  
sembly will meet Saturday with the  
party leaders to decide whether to  
convene the assembly, says a wireless  
message from Berlin. This action is  
in connection with the complications  
arising out of the extradition proceed-  
ings.

Chancellor Bauer in a statement to  
the press today said:  
"Germany finds herself in a critical  
position similar to that when  
confronted with the question whether  
she would sign the peace treaty or  
not. Then as now, the government  
tried to reject the so-called clauses  
of honor."

"A majority of the assembly voted  
in favor of signing the treaty on June  
22, 1919, presuming that these clauses  
would not become effective. Their  
efforts were unsuccessful and under  
pressure of the threatened occupation  
of Germany they were forced to accept  
the terms of the treaty."

"There was no lack of a sense of  
honor. It was known that France  
longed for an opportunity for her  
troops to enter Germany for the pur-  
pose of separating the north and the  
south. It was an act of self-preservation  
that we did not hesitate to sign."

"Meanwhile we left no stone un-  
turned to procure a satisfactory solu-  
tion of the question relating to hand-  
ing over of the persons demanded  
and we have done our utmost to con-  
vince the entente that we are ex-  
pected to do what the government  
though animated by the best good-  
will, could comply with. In a discus-  
sion with the representatives of the  
entente our standpoint was fully ap-  
preciated by America and Japan and  
by England's official representatives,  
but not by the official representa-  
tives of France."

"We tried to get a list, and the  
charges against these named before  
the ratification of the peace treaty,  
so that we ourselves might take pro-  
ceedings against them. Our request  
was refused and our attempt to es-  
tablish a state court was frustrated."

"Avoid Extradition."  
Our standpoint was explained in  
the note of January 25, and we again  
emphasized it. But we shall strictly  
avoid any provocation."

"For this reason the government  
regrets that Baron von Lerner re-  
fused to forward the entente note. In  
any such action the interests of the  
whole nation must be decisive, and  
not the honor of a single individual."

## ALLIES IN DILEMMA.

LONDON, Feb. 5.—The action of  
Baron Kurt von Lerner in refusing  
to transmit the list of Germans de-  
manded by the allies for trial to his  
government, if supported by his gov-  
ernment, has placed the allies in a  
somewhat of a dilemma in the belief  
of the moderate liberal press here.  
No event since the armistice has cre-  
ated such a sensation or aroused so  
much curiosity as to how the crisis  
will be terminated.

The number and the character of  
the names included in the list of per-  
sons demanded proved a surprise and  
within the newspapers of reactionary  
tendency loudly demand the im-  
mediate arrest of the strongest measures  
to enforce the extradition. In the more  
moderate circles, however, the more  
moderate opinion does not hesitate to  
point to the serious difficulties facing the  
allies.

## COUNCIL IN DISAGREEMENT.

BERLIN, Feb. 5.—The declaration  
made by the German government today  
that it would not extradite the persons  
demanded by the allies, has caused a  
sharp division of opinion in the German  
council.

## First League of Nations Meeting

The above remarkable and historic picture was snapped during the first meeting of the league of nations in the conference of the French foreign office on the Quai d'Orsay, Paris, Jan. 16, 1920. Delegates seated at the table, left to right, facing front are: Dr. Cynba, Brazil; M. Satou, Japan; Lord Curzon, England; Leon Mourguies, president of the French senate and permanent chairman of the league of nations; Ferrara, of Italy; Paul Hymans, Belgium; and Guinones de Lion, Spain.

HEAR EVIDENCE ON  
SOUTHWEST MINESOperator Declares Unlawful Strikes Are  
Called by the Coal Miners  
Union Leaders.

By the Associated Press.  
WASHINGTON, Feb. 5.—The case  
of the blunders of the coal industry of  
the five states comprising the southwest-  
ern field were laid before the coal  
strike settlement commission today  
by representatives of the operators  
and of the United Mine Workers' dis-  
tricts involved.

An spokesman for all operators in  
the field, H. N. Taylor, president of  
the National Coal Association, made  
an address on what he described as  
"the black and rotten record" of  
union leadership in the southwestern  
mines that precipitated a controversy  
between himself and John L. Lewis,  
acting president of the United Mine  
Workers of America.

Union heads have inflicted "eco-  
nomic loss and even poverty upon the  
mining worker in the mine" by call-  
ing "unlawful strikes," mostly of a  
"wildcat" variety, Mr. Taylor de-  
clared. There were 364 strikes in the  
Kansas district alone in 1918 which  
cost the miners in lost wages \$1,644,  
000, he added.

Mr. Taylor said he believed the  
miners in the southwestern field did  
not need an increased wage scale as  
much as "an unimpaired opportunity  
to work," the chance of which "could  
not be lost in justice be balanced against  
the present scale."

Representatives of the mine work-  
ers' unions presented a number of de-  
mands designed primarily to place  
uniform and working conditions on a  
higher level within the field. Chief  
among the demands were that the cost  
of moving loaded and empty cars to  
and from the working face be as-  
sumed by the operator at all times  
and that miners be paid for time lost  
by the rising of water in the mines.

NORTH DAKOTA PLANS TO  
FIGHT NON-PARTISANS

By the Associated Press.  
\* GRAND FORKS, N. D., Feb. 5.—  
Organization of the convention of the  
North Dakota Independent Voters  
association was perfected at the two  
sessions held today and tomorrow  
the association will formulate and adopt  
policies for continuing its campaign  
in opposition to the Non-Partisan  
League.

At the afternoon session Alfred  
Steel of Jamestown, Usher L. Burdick  
of Williston and J. D. Bacon, and O.  
B. Burness of Grand Forks and various  
delegates spoke, each declaring  
for the union of all political factions  
and forces in the state that are op-  
posed to the Non-Partisan League in  
the end and that there might be harmony  
or purposes in the forthcoming elec-  
tions.

There were about 500 accredited  
delegates at today's sessions. The  
convention will continue until to-mor-  
row evening.

## MOTORSHIP GOES ASHORE.

By the Associated Press.  
SAN FRANCISCO, Feb. 5.—The  
motorship Santa Maria, from San Fran-  
cisco, was today reported to have  
been wrecked on the coast of Mexico.  
The ship was carrying a large number  
of passengers and crew. The wreck  
is believed to have occurred in the  
Gulf of California.

SERVICE PEOPLE ARE TO BE  
FAVORED IN LAND DRAWING

WASHINGTON, Feb. 5.—Sold-  
iers, sailors and marines who  
served in the world war will have  
prior rights of entry on the vast  
North Platte and Shoshone ir-  
rigation projects, Wyoming to be  
opened up next month.  
Secretary of Interior Lane an-  
nounced tonight, following a mes-  
sage by congress today of the  
joint resolution giving honorably  
discharged service men a prefer-  
ence right in obtaining lands under  
the homestead act, that first  
application of the provisions of

the resolution would be applied  
to the North Platte and Shoshone  
projects.

The North Platte tract will be  
opened to entry by ex-service  
men March 5 and the Shoshone  
project March 13. The right of  
priority in favor of former ser-  
vice men will be in force for 60  
days, after which remaining  
lands will be available for public  
entry. Thus the public will be  
permitted to enter on the North  
Platte tract May 4, and on the  
Shoshone May 12.

OWEN IS ENDORSED FOR  
DEMOCRATIC NOMINATION

By the Associated Press.  
MUSKOGEE, Okla., Feb. 5.—Forty  
delegates with half a vote each, were  
elected to the national democratic  
convention at San Francisco, pledged  
to support Senator Robert L. Owen  
of Oklahoma, for the democratic  
presidential nomination, "until he is  
either nominated or releases them  
from further support," at the state  
democratic convention which ad-  
journed here tonight.

The convention adopted a resolu-  
tion asking Gov. J. B. A. Robertson  
to call a special session of the legis-  
lature to amend the constitutional  
woman suffrage amendment.

Addressing the convention today  
Senator Owen formally launched his  
presidential candidacy when he de-  
clared "my hat is in the ring," and  
that he was in the race to the end.  
Among the planks of his platform  
are repeal of the excess profits tax,  
the return to private ownership of  
the railroads, the enactment of a cor-  
rupt practices act to prevent the use  
of large sums of money in election  
campaigns, the reduction of the high cost of living  
by use of the powers of the federal  
reserve board to fix and stabilize per-  
capita wealth of the country, and  
adoption of a national budget sys-  
tem.

By resolution Owen's candidacy  
was endorsed, as was the adminis-  
tration of President Wilson and Gov-  
ernor Robertson.

ANNOUNCE NAMES OF  
SALVATION ARMY CORPS

Members of the advisory board of  
the Salvation Army are in receipt of  
letters advising them that the corps  
which is to be located in Twin Falls  
has been selected and will be in Twin  
Falls within the coming week.

Baron and Mrs. John Watson have  
been located at Pocatello, Idaho, and  
have been assigned to this field, and will  
be in charge of the work here.

"As soon as they arrived the advisory  
board will call on them," said the  
board, "and they will be perfecting the  
understanding they will have in  
mind."

MILWAUKEE RUNS STEAM  
TRAINS OVER DIVISION

By the Associated Press.  
BUTTE, Mont., Feb. 5.—The strike at  
the Chicago, Milwaukee and St. Paul  
railroad shops in Deer Lodge, Mont.,  
involving all the electricians employed  
at the sub-stations, ended tonight  
when the men at a mass meeting in  
Deer Lodge voted to return to work  
at midnight tonight, according to a  
dispatch received in Butte.

BUTTE, Mont., Feb. 5.—With the  
exception of one passenger train  
which is being detained here by the  
Northern Pacific, all Chicago, Milwaukee  
and St. Paul railway trains were  
operated today by steam over its own  
lines despite a strike of electricians at  
the division between Harlowtown,  
Montana, and Avery, Idaho.

WESTPORT ELECTRIC SERVICE  
ATTN: Wash., Feb. 5.—Officials  
of the Chicago, Milwaukee and St. Paul  
railway are rapidly replacing the  
striking men and are planning to re-  
store full electric freight and passenger ser-  
vice, tomorrow between Harlowtown,  
Montana, and Avery, Idaho, according  
to a statement issued at the office of  
H. R. Eading, vice president and gen-  
eral manager.

FRANCE SHOWS INCREASE  
IN ITS GOLD ON HAND

By the Associated Press.  
PARIS, Feb. 5.—The weekly state-  
ment of the bank of France shows the  
following changes:  
Gold in hand increased 490,928  
francs.  
Silver in hand decreased 1,120,415.  
Circulation increased 459,849,485.  
Treasury deposits increased 470,891.  
General deposits increased 29,858,444.  
Bills discounted increased 33,540,587.  
Advances decreased 714,780.  
French advances to the state  
amounted to 500,000,000 francs.

AT BRIGHTON FOR EXTRADITION  
By the Associated Press.  
BRIGHTON, Feb. 5.—One of the most  
surprised men in Brighton was Count  
von Bernstorff, former ambassador  
to the United States who, it is said,  
is desired by the allies for his al-  
leged connections with the Kaiser.

The Count von Bernstorff, who is  
believed to be a German agent, was  
detained at Brighton and is being  
held in custody by the British govern-  
ment. He is being held in custody  
because of his alleged connections with  
the Kaiser and his role in the German  
war effort.

NEGRO RUNS WILD; FOUR  
ARE DEAD AS A RESULT

PINE BLUFF, Ark., Feb. 5.—City  
Detective C. C. Lynn, Mrs. Sam Solt,  
a negro known as "Memphis Slim"  
were killed, and seven persons  
were wounded, two seriously, this  
evening, when George Wicks, negro  
after shooting "Memphis Slim" and  
Lynn, barricaded himself in a house  
near the heart of the business district  
and held off a posse of several hun-  
dred men for more than three hours.

The negro finally was slain by pos-  
semen's bullets after the house had  
been set on fire. The body was then  
dragged through the streets by a mob  
of men and boys.

The negro killed "Memphis Slim"  
late today. Lynn went to the house  
to arrest him and was met with the  
shot which killed him. Possesmen  
were then summoned and peppered  
the house with rifle and shotgun un-  
til dark. An attempt was made to  
dynamite the building, but that failed  
and the building was set on fire. The  
superstructure was burned before  
Wicks ventured out. He fired several  
times into the crowd which had gath-  
ered before being killed.

PREDICTS END OF RED  
RULE IN RUSSIA SOON

By the Associated Press.  
NEW YORK, Feb. 5.—Overthrow  
of the Russian soviet government  
within a few months was predicted  
today by Major Joseph Lasker, a mem-  
ber of the French high commission to  
the Kolchak government, who is re-  
turning from Vladivostok to France  
to present his report.

The change may come sooner de-  
spite the recent military and diplo-  
matic achievements of the soviets, he  
added. The rule of the soviets was  
prevented to a return of the monar-  
chist regime, he continued, but fear  
of this restoration has been removed  
by a "new combination of political  
circumstances in Russia."

Siberia is not controlled by the so-  
viets, Major Lasker declared, "but  
the opposition to the soviet and  
revolutionary elements, principally  
social revolutionists who will do their  
utmost to force the abdication of  
downfall" of the soviet regime.

CENTER OF POPULATION  
MOVES TOWARD EAST

By the Associated Press.  
WASHINGTON, Feb. 5.—The de-  
cennial census, now being taken, will  
reveal that the center of population  
of the United States has moved east-  
ward and not toward the west or the  
south as commonly predicted, J. A.  
Hilli, statistician of the census bureau,  
predicted tonight in an address at the  
National Press club.

The 1910 census showed the cen-  
ter of population to be in Bloomington,  
Ind., and in 1920 the center was  
some 50 miles eastward or near Col-  
umbus of the same state. Preliminary  
reports thus far received, said  
Mr. Hilli, while revealing the eastward  
movement, do not contain sufficient  
figures to make any estimate of the  
extent of the eastward movement.

After the war movement to the  
eastern states together with the war  
time growth of the eastern industrial  
centers, the census statistician said,  
have more than counteracted the nor-  
mal westward movement of popula-  
tion.

BUT TWO JURORS NEEDED  
IN I. W. W. MURDER CASE

By the Associated Press.  
MONTESANO, Wash., Feb. 5.—  
Twelve men were ready tonight to be  
sworn as jurors to try eleven alleged  
Industrial Workers of America mem-  
bers charged with the murder of Warren  
O. Grimm at Centralla during an  
Armistice day parade. Two alternate  
jurors are to be chosen before the  
prosecution makes its opening state-  
ment.

MUCH INTEREST IN GEODESIC  
SUGGESTION ON WILHELM

By the Associated Press.  
LONDON, Feb. 5.—The suggestion  
of Sir Auckland Geddes that the  
German ambassador to London, Count  
Dietrich von Helldorf, be tried for  
the murder of the German agent  
Baron von Bernstorff, has created a great  
interest, but according to official  
views, it should be regarded as an  
alternative plan in the event that  
the negotiations with Germany for  
bringing about Count Bernstorff's re-  
turn to Germany should fail.

New England Hit

By the Associated Press.  
NEW YORK, Feb. 5.—Huge waves  
rolled up by a fifty mile gale were  
still sweeping the north Atlantic coast  
tonight while cities and towns along  
the shore were trying with indifferent  
success to dig themselves out of the  
deepest snow drifts of years. Dam-  
age done by the sea to resorts and  
summer houses along the New Jersey  
and Long Island coasts was estimated  
at hundreds of thousands of dollars.

Shipping remained at anchor, re-  
moved with the utmost caution, in  
the land-locked waterways around  
New York huge ice floes menaced  
navigation. The steamer "Maine,"  
the New England Steamship company  
was driven ashore on the north end of  
Long Island, but reported in no im-  
mediate danger, and four other steam-  
ers were reported creeping along  
through fields of ice.

"Cold, snow, ice, and high seas have  
made it impossible to get coal from  
the coast to the interior," reported  
Perth Amboy to New York and the  
city faces a fuel famine unless the  
weather moderates. The highest ice  
ever recorded in New York harbor  
caused floods along the Hudson and  
Harlem rivers.

Snow Drifts 18 Feet Deep.  
Through trains from all directions  
ran hours late. Between New York  
and Buffalo snow drifted 15 to 18  
feet deep in some cuts.

WORST IN YEARS.  
BOSTON, Feb. 5.—New England  
was battling tonight with the worst  
blizzard in years. More than a foot  
of snow had fallen since early morn-  
ing and the weather bureau officials an-  
nounced "no relief in sight by morn-  
ing."

A wind that reached a velocity of  
72 miles an hour at some points along  
the coast hurried the tracks of the New  
York, New Haven and Hartford, the  
Boston and Albany, and the Boston  
and Maine railways.

After the war movement to the  
eastern states together with the war  
time growth of the eastern industrial  
centers, the census statistician said,  
have more than counteracted the nor-  
mal westward movement of popula-  
tion.

Put into Force.  
Virtually all shipping, which had  
been warned of the storm, was  
into the harbor New England ports  
before the blizzard reached its peak.

The Fall River line, operating be-  
tween New York and Boston, was  
suspended for the night.

Maine reported the heaviest snow  
of the winter. Intermittent snow  
way traffic was reported from  
late tonight and the Maine  
railroad schedules completely  
suspended.

The blizzard, which began to  
late tonight, was the worst in  
the Cape Cod region in  
years.

The Rhode Island coast was  
for the first time in years  
to cancel today's trans-  
portation because of the  
storm.

It was estimated  
trains were stalled  
most of them in the  
East. The New York  
and Boston lines were  
suspended for the night.  
The Fall River line, operating  
between New York and Boston,  
was suspended for the night.

## TO DELIVER SERMONS UPON AMBITIONS

of Christian Church announced New Series of Sermons.

W. A. Moore, pastor at the Christian church yesterday announced a series of Sunday night sermons on "Ambitions." The first series will be given this coming Sunday night and will be devoted particularly to "Twenty-Year-Olds." The second sermon will be given to "Thirty-Year-Olds," the third to "Forty-Year-Olds," and the fourth to "Fifty-Year-Olds."

For next Sunday night Mr. Moore has invited his young people to suggest what, in their judgment, are worthwhile ambitions. Among replies received to date are the following:

Be kind; get thee a wife; finish your education; lie in bed till noon; get into the church and get busy; somebody else happy; forget yourself—think of others; mission service on the foreign field; learn to do housework well; careful of what you say and speak; to build a good clean business; have a smile for every one you meet; join the narines; quit smoking—think of something real; make yourself and see if you are treating your parents well; at 20 I am a German—my ambition was to go to the U. S. to help build a young people's organization creditable to our fine community. Mr. Moore proposes to use these and others for the foundation of his Sunday night sermon.

### USE BIG SETS IN NEW ENID BENNETT PICTURE

The biggest set ever built under a glass-covered stage for a motion picture will be seen by those who view the latest Thomas H. Ince picture, "The Haunted Bedroom," featuring Enid Bennett, which will be shown at the Idaho Friday and Saturday.

This is a regular seven-room house, minus the camera inside. It is a mystery story and it was necessary to get views of different rooms through the various doors and hallways. So this monster set was built at a cost of \$1,250. It shows a living room, a grand stairway, a hall, and six rooms opening from the hallway.

When it is considered, this is but one of many sets in the picture, some idea may be obtained of the cost of the production.

## TESTIFIES ALIENS RUN SOCIALISTS

Knight of Columbus Leader Declares  
75 Per Cent Are  
Foreigners.

By the Associated Press.

ALBANY, Feb. 5.—Peter W. Collins of Boston, a Knight of Columbus worker, was recalled to the stand at today's session of the trial of the five suspended socialist assemblymen, to support a claim by the prosecution that the socialist party was dominated by aliens. This claim was the basis of a charge that socialist public officials were controlled by dues-paying party organization after they had been dominated. Bearer in the trial Mayor G. R. Lunn of Schenectady had testified that prior to being expelled from the socialist party, he once had signed such a resignation.

When adjournment was taken until next Tuesday, the prosecution at the end of the third week had virtually closed its case. Counsel announced

that only some "odds and ends" remained to be introduced.

Mr. Collins, who previously had testified as an expert on labor and socialism, was the day's only witness in cross-examination the defense sought to show Collins was employed by a "secret society" fighting socialism that he was prejudiced in favor of "freedom" as opposed to socialism, and that he lacked knowledge of socialism and the socialist party.

Having made the "conservative" estimate that at least 75 per cent of socialist party members were aliens, Mr. Collins said that through the resignation clause in the party constitution, the socialist party is actually a government within a government, determining how its members shall act in public places.

Asked by Chairman Martin to differentiate between communist, industrial workers of the world, left wing socialists, radical socialists, and "guinea" socialists, Mr. Collins quoted Victor L. Berger as saying there were many roads to socialism, but "only one variety of socialism."

They have their different varieties of socialism for the purpose of getting where they can drive home some

claimants and make socialists, he continued: "It is the most scientific system of deception in the world, because it wants to make a thousand different people believe that it stands for a thousand different things."

Mr. Collins, who said he based his estimate of alien members on exhaustive acquaintance with socialists made while touring the country lecturing against socialism, was asked by the defense how he reached this estimate. He replied he had questioned socialists, had heard the question of alien membership brought out in debates, and had observed for himself.

## CLAIM BERGER PRACTICED FRAUD UPON COURTS

By the Associated Press.

CHICAGO, Feb. 5.—In an answer filed today in the circuit court of appeals to a brief filed by attorneys for Victor L. Berger, convicted socialist, District Attorney Charles F. Clyne, declared that Berger tried to perpetrate a fraud on the court and that he should be sent immediately to Leavenworth penitentiary to serve out his 20 year sentence.

The fraud charge is based on evidence that while out on bail under promise to refrain from all such activity Berger took part in a campaign to induce socialists to oppose conscription and the war.

Berger's appeal from the sentence passed by Federal Judge Landis is now pending.

## MORE THAN 24,000 DEFECTIVES FOUND

Six of Every Thousand Examined for  
Army Suffered From Mental Disease.

By the Associated Press.

NEW YORK, Feb. 5.—More than 24,000 candidates for military service in this country during the war were rejected on the ground that they were feeble minded, according to a paper written by Dr. Pearce Bailey, chairman of the New York state commission on mental defectives, and read at the closing session of the Societies for Mental Hygiene here tonight. Dr. Bailey was unable to be present because of illness.

Rejected for nervous and mental diseases, he asserted, ranked fourth on the list. The percentage of mental defectives averaged six to a thousand, he said, and ran especially high among the immigrant element of New York. Past records show that 50,000 delinquents might have been expected in the American army, but that only 14,000 developed.

Persons suffering from functional nervous disorders, Dr. Bailey explained, were unable to face trying situations successfully. They imagined themselves ill when any state of stress arose, he said, and frequently succeeded in convincing those around them that they were physically incapacitated. Scores of persons may be found undergoing treatment for physical troubles in hospitals in normal times, he added, when they are sound in every way except their nerves. Portions of another group were found, he said, who showed no pronounced symptoms of nervous or mental disorders, but suffered from instability of a sort that unfitted them for duty as soldiers. This class, he explained, easily became the tools of designing propagandists in spreading seditious doctrines or in commission of acts of disorder and violence.

## PRECIOUS METALS FROM THE ETHER.

Sir Oliver Lodge, the brilliant English scientist and spiritualist, now in this country, is one of those who have faith in alchemy. The ancient philosophers and scientists, he holds, glimpsed a great truth. Modern science, with more complete knowledge of the composition of matter, and a better knowledge to work with, may succeed.

Everything, according to Lodge's view, as set forth in his famous little book, "The Ether of space," as contained in the marvelous ether which exists everywhere. It is the first stuff, and the last. It is invisible, not to be got at by any of the senses. But in it are all forces, all potencies. It is the basic substance out of which all things are made. Matter is merely a certain arrangement of it, perhaps transitory, something like clusters of bubbles on a stream.

It is said that some such transmutations have already been made, or are thought to have been made, in laboratories, on a very small scale, by the use of radium. It may be possible to turn electricity to this work. We may then have all of the precious metals manufactured at will, just as many of the precious stones are already manufactured, though the process may be too expensive to turn to practical account.

## CANNED FRUIT PRECAUTIONS.

Experiments conducted by the department of agriculture at Washington have proved conclusively that various deaths from ptomaine poisoning in the past few months were genuine cases of "botulism." This was suspected in most of the cases at the time. It is well to have authoritative corroboration, in order that the people may realize the danger and know how to protect themselves.

The government food chemist have performed a useful service in providing the necessary information and incidentally sweeping away some mischievous misunderstandings about the matter.

Contrary to current belief, botulism hasn't anything necessarily to do with olives. The bacillus botulinus if found sometimes in ripe olives, but is just as likely to be found in many other kinds of fruit—or in meat or in cheese, for that matter. Neither is it necessarily connected with canned food. It was first discovered in sausages. It is found now mainly in canned food, this is because canning has become the most common method of preserving food.

Fresh food, of course, does not contain this poison. As the government bulletin explains, it is not always contained in spoiled foods; but spoiled food may contain it, and so is always to be guarded against.

The precautions recommended are rather simple: "Thorough cooking will remove the possibility of danger from botulism." If the food seems wholesome, and yet the consumer wants to be perfectly sure, the food may be well cooked and then eaten. If there is evidence of spoiling detected by sight, smell or taste, the food should be thrown away.

In most cases recently observed, it is said that the contents were observed to have a bad smell when the cans were opened. That should have been enough to be enough to cause the dis-

carding of the food if the can is seen to be bulging from internal gas pressure, before it is opened, or if the contents are found discolored, or if there is an evident "rotten" taste.

As for the proportion of cans likely to come under suspicion in this way, it is pretty sure to be small. Most housekeepers will probably testify to opening cans for years without finding a spoiled one or bottle will spoil, whether put up in a factory or in a kitchen, and the odds are said to be in favor of the factory.

## A BILLION-DOLLAR MESSAGE.

Charles P. Steinmetz, the noted electrical engineer, says that it is practicable to send a wireless message to Mars—if anybody is willing to spend \$1,000,000,000 for it. So it might be done with the billion congress is going to save out of next year's appropriations.

It would involve the consolidation of all the electrical power in the country, says Mr. Steinmetz, and the erection of a wireless tower 1,000 feet high.

It doesn't seem likely, though, that even the United States congress will undertake any such venture. Congress is rather particular as to what it spends money for just now; and, also, congress is a bit wary about scientific research, after the experience it has had with the celebrated Boston-Armenian inventor of "Garabed," who guaranteed to extract limitless energy direct from the ether.

Mr. Steinmetz adds that if the world really wants to communicate with an inhabited planet, it should put the same energy into it that it put into the war. The world, however, with all its protestations of pacifism, is still more interested in war than in scientific progress.

Besides, when you spend money for fighting, you at least get some action for your money. Who is going to spend billions for communicating with an inhabited planet when nobody knows whether any other planet is inhabited? And, granting the inhabitants, it's a mighty big assumption that they would notice the signalling, or to be able to understand the Morse code if they did notice it, or be able to reply if they understood it. The betting chance on a response might be one in a million. Scientists say man is fog cold for animal life.

## IN BRITISH POLITICS.

The decision of Herbert H. Asquith, former British premier, to stand for election to parliament in the district of Paisley, Scotland, assuming his probability of his winning the seat, brings up for discussion the whole question of the enure of Lloyd-George's government. Ever since the end of the war it has been common gossip that the George coalition ministry could not long survive, and as each by-election has registered new defeats to the end has seemed to be approaching with uncertainty.

If Asquith gets back to parliament Lloyd George will face an opposition equipped with a real leader. As if realizing this fact, the wily Welchman is preparing a political program that promises to go far beyond anything that Asquith could stand for, hoping thus, no doubt, to spike the guns of the opposition in advance of the battle.

The George program proposes to carry his old-pension, unemployment and other governmental insurance projects to still greater lengths than he could attain in his early successes along that line. He is said to carry the idea to the very limits of socialism itself. He is further credited with being ready to spring a plan for a system of profit-sharing in industry, instead of the nationalization demanded by the labor party. How far he can proceed with the second half of this program in the face of what amounts to a practical labor majority in commons cannot be foreseen. But the labor party in parliament lacks broad gauge leadership, and therein lies Lloyd George's opportunity.

## FLIRTING.

## DOLLARS MAIN TOPIC IN NEWBERRY CASE

Prosecution Calls One of Defendants to Show Amount He Expended.

By the Associated Press. GRAND RAPIDS, Mich., Feb. 5.—Dollars formed the main topic of the Newberry election conspiracy trial today. Beginning with the testimony of Allan K. Moore, a defendant who pleaded "no contest" and continuing right up to adjournment this afternoon, the testimony related to money expended or received, deposited and checked against and to cash kept in deposit vaults in Detroit or handed out in the Grand Rapids office from which the western Michigan campaign was directed.

Bank officials from Detroit and this city were on the stand to identify deposit slips, ledger entries and voucher checks and guardians of the master key of a Detroit safety deposit vault told of visits to that institution by certain of the defendants.

At one stage of the proceedings, Federal Judge Sessions interrupted a reading of long lists of deposits and withdrawals with the remark that the jury "could not possibly carry all those figures in their heads" and with the consent of the defense attorneys he ordered the accounts "considered as read." The prosecution reckoned tonight that it had shown thus far in the case that more than \$200,000 had been handled in the campaign. This was compared with the \$2,750 which Judge Sessions has ruled was the limit of campaign expenses allowed by law for the 1918 senatorial campaign. The defense attorneys indicated it will combat this point on the ground that the statutes refer solely to a candidate's personal contributions or expenditures.

Moore testified that he had received or handled approximately \$2,500 in his work as a field agent in the campaign. The testimony of a Grand Rapids bank cashier gave the total deposits in the account of Charles Floyd, in charge of Grand Rapids headquarters of \$11,280. Detroit bankers testified that \$5,083.73 was deposited in the account of "Frank H. King, chairman," and that the account of the Truman H. Newberry senatorial committee, showed total deposits of \$178,857.20. These two accounts were in the Commonwealth Federal Savings bank of Detroit.

In addition it was brought out that Frank W. Blair, president of the Union Trust company of Detroit and treasurer of the Newberry campaign, handled \$78,056 through his own bank. The institution's records showed that all this money had been checked against in favor of the Truman H. Newberry senatorial committee account in the other bank and Blair's attorney, A. H. Smith, by cross examination of a witness established that Blair had never been seen to make a deposit personally in the Commonwealth Federal Savings bank. While on the subject of the committee account, Federal Judge Sessions asked the government, had Albert R. Smith, of the Commonwealth Savings bank, sent records showing deposits of \$1,000 each on August 23 and August 25 of the campaign year. Later with John N. Stalker, vice president of the Union Trust company, on the stand, he adduced testimony that the latter's institution's records indicated transfer of \$16,000 to the other account on each of those days, there being four checks of \$5,000 each drawn on those dates.

Grand Rapids, Feb. 5.—The guardians of the master key of the safety deposit vaults of the Old and First National bank, who testified were Frank H. Gorline and Charles Myers. Gorline testified that he had rented box 813 to B. Frank Emory of Detroit, a defendant, on May 9, 1918. He said that Harry O. Turner, another Detroit defendant, had access to the box and visited it much more frequently than Emory.

Gorline testified that after a client had taken a deposit vault to one of the customer's rooms and returned it to the vault, the officer in charge always went into the room. He said that after some of Turner's visits he had found in the room hands off packages of bills and that he noticed the label said \$500 on some of them. Myers in his direct testimony volunteered the information that sometimes half an hour might elapse between the customer's departure and the examination of the room. In answer to a question by Judge Richardson he added "there may have been others" in the room sometimes.

Mr. Littleton objected steadily to the government testimony on the general ground advanced yesterday that no conspiracy had been shown to exist and that the acts alleged concerning some of the defendants "were therefore not binding on the others. The objections came so often that it became a matter of routine and he had only to offer "the usual objection" to draw Judge Sessions' terse "objected" in reply.

Mr. Littleton also moved to strike out testimony concerning Detroit bank accounts because it did not show that Truman H. Newberry had either deposited or checked out or caused to be deposited or checked out any of the funds. This too, was overruled.

More snow tomorrow was forecast by the weather bureau for the entire Atlantic seaboard north of Virginia. High winds may be expected all along the seaboard tomorrow.

## IF KIDNEYS AND BLADDER BOTHER

Take Suits to Fluid Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very painful; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist, take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and caused no bad effects whatever.

Here you have a pleasant effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

## FORMER VERMONT GOVERNOR FOUND GUILTY OF LAURENCE

MONTPELIER, Vt., Feb. 5.—Former Governor Horace F. Graham was found guilty by a jury today on 56 counts charging larceny of state funds while he was state auditor from 1913 to 1917 when he became governor.

Counsel for Graham immediately announced that the case would be taken to the supreme court on exceptions. The penalty in this state for larceny may be ten years in prison or a fine of \$100 or both. Sentence will be imposed tomorrow. Graham contended that the disbursements in his accounts of nearly \$1,000,000 represented not shortages but a balance on outstanding orders, and that in drawing to his personal account against the state he acted as a prudent manager of the state's funds. He contended that the state's funds were not his, and that he was not responsible for the state's funds.

# EDWARDS TALKS ON PROHIBITION ISSUE

Injects Issue Into Discussion At Dinner for Democratic Chairman.

By the Associated Press.  
NEW YORK, Feb. 5.—Prohibition was injected tonight into the testimental dinner given here to Homer S. Cummings, chairman of the democratic national committee, at which Secretary Daniels was the principal speaker. One thousand invitations had been issued to the banquet, which was attended by prominent congressmen from all parts of the country.

The prohibition issue was brought into the proceedings by Governor Edwards of New Jersey and was greeted with obviously mingled feelings by the diners. Governor Edwards was not on the official list of speakers and was called upon unexpectedly after Secretary Daniels had concluded his address. Earlier in the evening the New Jersey executive had been giving a striking ovation when he entered the dining hall and there was an even greater demonstration when he arose to speak.

Governor Edwards declared that a great issue had emerged from the most "the issue of state rights and personal liberty." He asserted that this issue must be decided by the people next November.

"If the federal government," he continued, "may subvert the doctrines of state rights and, without a commission or mandate from the people, enter upon our firelands and into our homes with the bureaucratic system of office holders and overlords, the theory of our constitutional government, and all the rights incident to home rule and local state governments are destroyed. Under such a system the indestructible union of indestructible states becomes a myth and we have the necessary machinery of great super-power at Washington imposing its will upon us in the direction of our habits, our manners, our tastes and our local customs, until nothing is left of the independent state of our fathers but the name."

"To me, this situation is a political sacrifice and I purpose to carry the fight to San Francisco regardless of what any man or set of men may personally think so as to bring about a popular re-statement of the doctrine of state rights and popular local home rule upon which our fathers founded this government."

Governor Smith of New York sent a telegram expressing his regret that illness prevented him being at the dinner. In his telegram the New York executive said:

"Do not forget the time honored democratic doctrine that the government is most effective which governs the least. This precept of democratic faith in the recent past has been grievously and willfully slanted against when in the name of democracy there was imposed upon 100,000,000 free people, without asking their direct consent, a restriction to their personal liberty which Prussia in her palmy days never dreamed of."

The name of the dinner was introduced at the dinner by John M. Riehl, the toastmaster, at the conclusion of Secretary Daniels' address. The secretary had dwelt upon the great service performed by the North Sea mine barrage in putting an end to the German submarine menace and incidentally credited President Wilson with having the first high American official to conceive the idea. Mr. Riehl, before calling upon Governor Edwards as the next speaker, said:

"Secretary Daniels spoke of the great barrage laid across the North sea. I have just recited the only American who shows signs of a memorandum which shows that the only American officer who opposed the laying of that barrage was Admiral Sims."

The mention of the admiral's name was the signal for considerable hissing and booing from the various parts of the dining hall.

Among the prominent democrats seated at the speakers table were: Charles D. Alexander, vice president of the National Democratic club; Assistant Secretary of the Navy Franklin D. Roosevelt; Mrs. Elizabeth B. Bass, chairman of the women's bureau of the national democratic committee; William W. Farley, chairman of the democratic state committee; Mayor J. P. Hyland, Moderator; Michael J. Lavelle, and the following national committeemen: Norman E. Mack, New York; H. E. Hudspeth, New Jersey; Fred K. Lynch, Minnesota; Patrick H. Quinn, Rhode Island; John W. Coughlin, Massachusetts.

## MOVIE PICTURE ACTOR FALLS FROM PLANE; DIES

By the Associated Press.  
LOS ANGELES, Feb. 5.—Earl Burgess, a motion picture actor, was killed here today when he fell 700 feet from an airplane on which he was performing in the making of a comedy.

Burgess was flying with Lieut. Walter Hawkins, an aviator who had a record of never having met with an accident. The actor was to cast off a dummy from the plane, but in some manner, in attempting this he was killed. The cameraman and the pilot, both of whom were killed, were flying over the Los Angeles harbor and the wreckage was seen by a number of people on the shore.

where it had alighted, and discovered that it was Burgess' body. Burgess was a professional "stunt man" and had been employed in motion picture work for ten years. He was said to have been the first man to make a successful parachute jump from an airplane.

## COMMITTEE STARTS STUDY OF THE VIRGIN ISLANDS

SAN JUAN, Porto Rico, Wed., Feb. 4.—Senator William S. Kenyon of Iowa, Walter E. Edge of New Jersey, and Edward J. Gay of Louisiana, Congressmen Horace M. Turner of Iowa, Philip J. Campbell of Kansas, and Philip P. Campbell of Tennessee, and Rear Admiral James W. Oliver, the first naval governor of the Virgin Islands, arrived here this morning. Tomorrow they will proceed to St. Thomas, where they will hold hearings preparatory to reporting on the form of government to be established for the Virgin Islands.

# SAYS DEMOCRATS READY FOR BATTLE

Cummings Challenges Republicans to Force Treaty Into Political Arena.

NEW YORK, Feb. 5.—Democratic leadership in the senate has stood for unqualified ratification of the treaty of peace, Homer S. Cummings, chairman of the democratic national committee, declared in an address tonight at the testimonial dinner given him by the National Democratic club. When that "became impossible," he added, "it has stood for such reservations as would preserve the spirit of the document and make its re-submission unnecessary."

"If republican leadership," he continued, "blind to overwhelming neces-

sity for an honorable and speedy peace, drive this issue ultimately into the arena of politics, the democratic party will untiringly take up the gauntlet of battle. Upon that issue we shall have the support of the moral and spiritual forces of the nation. We shall have the support of the churches of the land. We shall have the support of the business interests which are now suffering from the delay in the restoration of the peace of the world. We shall have the support of the laboring men of America who do not want to be driven again into war and we shall have the support of the women of the United States."

Allying to the committee of 171 appointed by Chairman Hays of the republican national committee, Chairman Cummings said if the committee over meets, "it will be necessary to call out the militia to preserve order." He characterized the sixty-sixth congress as "the most melancholy failure in legislative history."

"As for holding the Wilson administration to account for its stewardship," Mr. Cummings said, "ninety-two investigations set on foot at enormous cost have produced nothing that was worth the expenditure of a dollar, except to demonstrate that this war has been fought out to a successful conclusion without scandal, or graft, or fraud."

## MICHIGAN DEMOCRATS SELECT 23 DELEGATES

By the Associated Press.  
MILWAUKEE, Wis., Feb. 5.—Joseph E. Davies, Madison, former national democratic committeeman from Wisconsin was today nominated at a state conference to head the Wisconsin delegation to the democratic national convention at San Francisco. Besides Mr. Davies and three other delegates-at-large, 22 delegates from the 11 congressional districts were named. The delegates will go uninstruted. The list of delegates

named today will be published in the Lincoln, Neb., Feb. 5.—The resolutions mandating the work of men in connection with the treaty.

## VAULT IS LOOTED

By the Associated Press.  
NEW YORK, Feb. 5.—The vault of the Equitable building was looted tonight by burglars. It was learned today. A large sum in securities and stolen. The Equitable building, which is in the heart of the financial district, houses the New York branch of the federal reserve bank.

## WILL RUN FOR RE-ELECTION

LINCOLN, Neb., Feb. 5.—The secretary of state's office here today received notice that Congressman James P. Kinkaid, republican representing the sixth Nebraska district, would seek re-nomination at the state's primary election April 26.

# "It was a hard life, but a good life, and a life that built MEN"

## THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

**INFANTRY**—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

**CAVALRY**—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

**FIELD ARTILLERY**—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

**CORPS OF ENGINEERS**—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in any of the mechanical and building trades.

**COAST ARTILLERY**—Living on the sea coast, guarding big cities with big guns, getting into for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile, big gun regiments throughout the country.

**AIR SERVICE (including BALLOON CORPS)**—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

**ORDNANCE DEPT.**—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

**SIGNAL CORPS**—Whether it's laying a wire from a rear fort at a gully or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephones work in the Signal Corps is always valuable.

**MEDICAL DEPT.**—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

**TANK CORPS**—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

**QUARTERMASTER CORPS**—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

**CONSTRUCTION DIVISION**—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

**CHEMICAL WARFARE SERVICE**—For men with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

**MOTOR TRANSPORT CORPS**—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

WHEN I got out of the Army, I raised my right hand over my derby and said, "Never again, I hope!"

And I'm here to state that I was just one of about 3,000,000 who felt like that—only stronger.

It was my privilege to kick and believe me, I did. I couldn't get out too quick—I wanted a feather bed, restaurant food and trousers that flapped around my ankles.

But now that I'm out, civil life is not all that we cracked it up to be! And the Army looks like a pretty good place, after all.

I've been and seen and done things that I wouldn't give up my memories of, for anything.

I had a fine crowd of buddies—two-fisted men with a regular man's outlook on life.

I learned how to take care of myself and all comers—to hold my own with the best and with the worst.

And I learned the sort of discipline that makes a man able to handle men.

I got pretty fair clothes—not as good as the Army gives in peace time but warm and plenty of them—and they didn't set me back sixty a suit, either.

Meals—well, did you ever see a hungry looking soldier?

We all kicked then. Some of the rear-rank generals will always kick. You can't please some birds ever.

The Army never was a bed of roses—it was not meant to be. It is a powerful fighting machine. And even right now, with the peacetime lack of hardship, it's still no place for the lad who won't "play ball."

But the man who does his duty, who snaps into the spirit of the game, who stands on his own feet, who plays hard and plays clean—there is the chap who gets along and eats up the Army life.

He learns how to handle men, he rises in rank as fast as he proves himself.

He is intrusted with important and interesting work.

He gets more money clear than he could save in civil life.

He comes out with a better education—he has a real time with a good crowd of regular he-men.

He's seen something and been something and done something for the little old U. S. A.

Where the U. S. Army Serves  
American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details.  
Like every one else in the Army from General to Buck Private, you've under orders and if your outfit moves and you're needed elsewhere, your duty is to go.

UNITED STATES ARMY

SAYS WILSON HELPED CLEAR SEA OF HUN

Daniels Tells of President's Efforts to Fight the Submarine

NEW YORK, Feb. 5.—President Wilson was given credit here tonight by Secretary Daniels speaking at the Democratic club, chairman of National chairman emeritus, C. Cummins for having seen the necessity of shutting German submarines off the seas in the only effective method of combat. Along before naval staffs "on either side of the water" moved to that end.

"You must shut up the horrors in their nest," the president was quoted by Mr. Daniels as having said in his famous speech to officers of the battleship Pennsylvania, early in the war, "for you can never end the submarine peril if you let them out and then have to devote yourselves to chasing them all over the ocean."

"The barrage finally built across the North sea," Mr. Daniels declared, "was the American navy's answer to the president's counsel. It was proposed by Admiral Erle (chief of ordnance) in April, 1917, approved by Admiral Benson and Admiral Mayo, by the general board, by the secretary of the navy and by the president. It was the greatest, new, constructive naval measure of effectiveness in the whole war. It was a factor both in destroying the morale of the German navy and in its deadly destruction of submarines."

President Wilson had also pointed out before naval staffs had reached that conclusion, Mr. Daniels said, "that the only way to most surely safeguard merchant ships was to send them in convoys protected by armed ships."

The secretary attacked the record of Congress since 1918 when "disunion" appeal to hyphenated-politics elected the republicans to elect a majority of this congress and declared the people had "already found they got a gold brick." That record, he characterized as certain to defeat the republican party next November. "It is certain that the democrats will have the wisdom to go forward and nominate a great leader who is himself a platform of constructive legislation."

Mr. Daniels said he believed that a program of action such as that proposed in the treaty would enable the world to maintain peace without competitive naval building, but that without such a league, American duty was "as plain as a pikestaff." He quoted President Wilson's statement in 1918 that the navy should be "incapable of the most adequate navy in the world" and added that none of the present American building program would be delayed or abandoned.

"We are to have a league of nations with America making as large a contribution as any other country to the mobile police force afloat," he said, "or we are to have a navy incomparably the most adequate navy in the world. Which is it to be? It must be one or the other."

Reviewing the history of the merchant marine through "forty years of republican neglect and indifference," the naval secretary declared it was not until President Wilson's first inauguration, when a shipping bill was introduced in 1914 by Representative Alexander, now secretary of commerce, that "a constructive measure to give America a merchant marine with administrative backing" had been presented.

"This new merchant marine is in jeopardy again," he said. "Unless the people register their high resolve never again to let America be dependent upon foreign bottoms, this republican congress will start the merchant marine down the toboggan slide out of which Woodrow Wilson pulled it against republican opposition and hostility."

Seriously, this old world is getting rather small. The birds with the bulging brows and the deaf that have invented so many contrivances that it is no trick at all to hop round the globe. Time was when we didn't hear anything about the sports in England or France, Norway, Cuba, the Philippines or Australia. But it is quite another matter for individuals to compete regularly for international contests. As far as sports are concerned the world is one big democracy.

New York likes wrestling and six-day bicycles racing. No one knows why, but nevertheless it is an indispensible fact. But how do you figure the 200 Nebraskaans who are going to the metropolis to see a match between Stecher and Caddock, get that way?

If Jack Dempsey is such a hit in the movies, why should he care whether the American Legion like him fight or not? If Babe Ruth is such a star in the movies why should he care to play ball for \$20,000 a half year? The old bunk is still the national fable.

Jess Willard spent many weeks acting for a film that was to take the country by storm, but Jess hit the canvases and the picture wasn't worth a dime a reel.

# BIG BEND MAY BE ABANDONED SAY RANGERS

**Claim Insufficient Protection Is Given to Settlers by Federal Troops.**

**STATE FORCES DEFEATED BY GREASERS IN CLASH**

**Lose Prisoner - Carranzas Are Indicted by Testimony of Customs Inspector at Marfa.**

By the Associated Press.  
EL PASO, Tex., Feb. 5.—United States customs inspectors, Texas rangers and civilian residents of the Big Bend district told the senate subcommittee investigating the Mexican situation today conditions along that stretch of the Rio Grande were such that it must, in the end, be abandoned by Americans unless more adequate protection is afforded.

Until a year ago, they alleged, the Mexicans who crossed the river on raids might be reasonably certain they were going to be pursued by American cavalry but since then so no reason any witness could give, the attempted running down of the invaders had ceased.

**Discuss Latest Clash.**  
The latest clash with Mexicans was described by Sgt. H. A. King, of the ranger service stationed at Marfa. That was on January 21, a Mexican appeared in front of a store at Presidio, owned by D. T. Baldwin, and after an altercation over the purchase of tobacco, and demanded that the storekeeper come out and "be killed." The fire of two rangers interfered with his plan, but as the storekeeper was a force of Mexicans crossed the river and started in their pursuit. In the running fight that took place the rangers lost their prisoner, who afterwards was located on the Mexican side of the river.

**Hatcher Loses Property.**  
J. F. Tiger, formerly a ranch owner, said he had been forced to dispose of his property because of the repeated depredations ranging from ordinary cattle stealing in raids including the killing of employees. C. D. Wood, formerly a saw manufacturer of Alpine, Tex., gave similar testimony, adding it was "pretty dangerous there without the soldiers."

**Credited Taylor, customs inspector at Marfa, Grover Webb, mounted customs inspector at Presidio and R. M. Wadsworth, another customs inspector of that district, told of the different raids of which they had personal knowledge. Their testimony charged that Chas. Cano, whose name has been repeatedly connected with stories of border outlaws, is now an officer in the Carranza army. Webb testified that Cano had been seen at Ojinaga, the northern military headquarters of the Mexican army two weeks ago, where he had gone to collect his pay as a scout leader. There also is in possession of the committee an official American army report to the war department, in which it is stated that Cano now has 35 men under his command as scouts in the service of Carranza. The official army reports have named him as one implicated in the capture of the American aviators, Lieutenants, Vickers and Davis.**

**Tells of Kinas Raid.**  
S. H. Nell, now in the ranger service but who has been an officer either in that service or the customs service since 1872, gave the committee details of the raid on the Kinas ranch, on Christmas morning, 1917. He was working the two men aboard off the band of forty Mexicans.

HUMPHREYTON, Wash., Feb. 5.—Fire in the engine room of the battleship Wyoming at the Puget sound navy yard today was extinguished only after crews from other ships were called in to help, and how lines were run from a derrick and nearby vessels to draw the flames. For a time the fire threatened to reach the magazine of the battleship, it was said. The fire started from oil dripping.

from Howard county, and unless eleventh hour intervention, not to-night apparent, comes before 6 o'clock tomorrow evening the two men will be electrocuted in the state penitentiary. The supreme court dismissed the application of Grammer's attorneys to compel Governor McKelvie to hold another hearing on the application for a commutation of sentence. Later in the day Judge Stewart, in the district court, denied for further consideration the application for the summoning of a jury to pass on the sanity of Grammer. Cole was not a party to either of the court actions.

**COLD STORAGE EGGS COME DOWN; NO DO FRESH ONES**

NEW YORK, Feb. 5.—Victims of the high cost of living were given cause for vengeful chuckling today when market reports showed that eggs recently put in cold storage at 50 cents a dozen were being thrown on the market at prices ranging downward from 45 to 11 cents wholesale. The slump was reported to have affected the fresh egg market, bringing prices down eight cents since last Friday.

The decrease in cold-storage egg prices was explained as being due to the fact that the expected European demand for eggs did not fully develop.

# DEMOCRATS CAUCUS UPON PEACE PACT

**Hitchcock Will Marshal the Forces for Renewed Controversy in Senate.**

**RUMORED WILSON AGAIN INTERESTED IN FIGHT**

**Grey's Letter Continues to Be Subject of Much Speculation Among the Various Senate Factions.**

By the Associated Press.

WASHINGTON, Feb. 4.—Plans of party leaders for resumption of the peace treaty debate began to take form today, although it was said there probably would be no definite decision as to procedure until the treaty is called up for consideration Monday.

Senator Hitchcock, acting democratic leader, returned to Washington after a week's absence, called an office conference for Saturday to consider some of the points likely to be raised when the treaty comes back to the senate floor. On the republican side there were numerous consultations among the leaders, but it was said no final plan was adopted.

**Hear From Wilson.**

Indications developed today that the influence of President Wilson might again be felt in the senate controversy. It became known that he had been in communication indirectly with some democratic senators and the republicans heard a report, when Senator Hitchcock declined to discuss, that a letter setting forth the executive views on compromise reservations had been sent to the democratic leader.

The White House also took notice during the day of the recently published letter of Viscount Grey, former British ambassador to the United States, in regard to reservations. Officials close to the president indicating unofficially that they felt the ordinary diplomatic courtesies would have suggested that this government be consulted before such a document was made public. While taking the position that they did not care to officially deny them, White House officials said there was no foundation in fact for reports that the president knew of the Grey letter prior to its publication.

Reports that the letters publication had led to "improper representations" by this government were denied at the state department.

**Grey's Letter of Interest.**  
Among senators, the Grey letter contained a subject of widespread discussion, apparently forecasting that it would play a prominent part in next week's debate.

Although there has been no formal agreement between republican and democratic leaders regarding the mechanical progress of getting the treaty back before the senate, it is expected on both sides that when it is called up it will be referred to the foreign relations committee, which immediately will report it without any attempt to frame reservations. This step, it was explained, will be merely a technical one in order to get the treaty out from under the closure at which it was just before its fall of ratification in November.

Hitchcock talked with Grey. In discussing today Viscount Grey's letter, Senator Hitchcock revealed that he had talked over the question of reservations with the British statesman before the latter's departure from this country. The senator said that most of the conversation related however to the reservation regarding voting power in the league. Viscount Grey indicating that it would be acceptable to London but would be expected to bring strong protests from the colonies.

"Lord Grey was very careful in his conversations, concerning the treaty and all proposed reservations while in this country," Senator Hitchcock added. "He said the only reservation which concerned the country directly was that which declared that the United States would not be bound by any decision or election in which the colonies cast separate votes. This reservation did not affect the mother country, but he thought the colonies might strongly object at having their voting right thus attacked."

# WAR STRICKEN MAN CONFESSES CRIMES

**Service Man, Gained in France, Perpetrator of Numerous Burglaries—Lost Recovered.**

Gained "white" serving with the American forces in France, his health badly broken, a former soldier, who served as a member of the United States fighting forces yesterday confessed to Deputy Sheriff Bob Redmond that he had been the perpetrator of petty robbery after petty robbery that has occurred in Twin Falls for the last month and a half.

The young man, whose name is kept secret because of his work in the army and because of his present condition, was first arrested several days ago by Deputy Redmond as a suspect in the robbery of the Riley home between Christmas and New Years. Possession of a revolver that failed with the description of a gun stolen from the Riley place had first aroused Deputy Redmond's interest in the young man and resulted in his arrest. The former soldier then acknowledged his dereliction in this case.

Other circumstances surrounding the confession, told Mr. Redmond to believe that the young man might be connected with a large number of other crimes. A search of the home of the young man led to the discovery of a list that had been stolen from 18 different places, ranging from a small chisel to a large saw and a big plate as well as electrical material. Other property stolen from the Riley home was discovered as well as jewelry and trinkets taken from the home of Jack Thorpe. The Thorpe home had also been robbed during the holiday time. As Mr. and Mrs. Thorpe entered the front door the young man left by the back door, taking with him several boxes containing jewelry and keepsakes. Some of the stolen goods was of considerable value while much of it was of no value except to the owners.
