

# WILSON WILL NOT AGREE TO SETTLEMENT

Informa Entente that Latest Plan of Allies Violates His Principles.

CAUSES MUCH GOSSIP AMONG THE ENGLISH

First Considered as Ultimatum, But Later Information Softens This Attitude.

By the Associated Press. WASHINGTON, Feb. 16.—Decided objection to recognition of a settlement of the Adriatic question on lines repugnant to those agreed upon in the treaty of Versailles and not reconcilable with the principles embodied in the 14 points of President Wilson was expressed by the United States in the recent note to the allied governments.

Not a Threat. The note was not a threat to withdraw from participation in European affairs. It was said officially at the White House, but said that this country could not be a party to the disposition of Fiume as agreed upon by the allied powers without consulting the United States and consequently would not concern itself with the questions involved, including the policies of the Adriatic, if the settlement was enforced on the government of Yugoslavia.

Peace in the Case. The facts which influenced the department of state in framing the new American note were of course the December 9, last, at a meeting of the supreme council in Paris, a settlement of the Adriatic question was agreed upon, which to become effective required acceptance by both the Italian and Jugo-Slav governments. The basis of this in brief was the creation of a buffer state of Fiume and adjacent territory, and America, as represented by Under-Secretary Polk, was party to the arrangement.

After the withdrawal from Europe of the American peace commissioners, and while the Adriatic issue was still subject of discussion between the principals, a meeting was held in London of the entente premiers, Lloyd George, Clemenceau, and Miti, and an entirely new plan was drawn up without participation by America and forwarded in the shape of an ultimatum to the Jugo-Slav government. The basis of this was the recognition of Italy's title to much of the eastern coast of the Adriatic and Dalmatia and there were other substantial additions to Italian claims which did not agree in principle with the original understanding.

In Nature of Protest. The latest American note was in the nature of a protest against this method of procedure. It was not an ultimatum or a threat, but pointed out that if persisted in, this would leave the United States in the position of being expected to ratify a treaty that confirmed boundary lines beyond adjustment which it already had declared to be wrong. And furthermore, it was recalled that this latest move had been made by the premiers without consultation or advice from the Washington government, though this country would be bound to abide by the results should it ratify the treaty.

FURNISHES MUCH GOSSIP. LONDON, Feb. 16.—President Wilson's note to the peace conference on the Adriatic question has furnished London political and newspaper circles with a surplus and interest surmounting that revealed by the Wilson-Lansing correspondence. The Lansing incident was regarded as an American

## Lloyd George and the Grand Cordon

David Lloyd George, English premier, is shown in an exclusive portrait wearing, for the first time, the grand cordon of the Legion of Honor, bestowed upon him by the French government as a supreme recognition of his ardent work for the allied cause.

## TELLS OF PLANS TO AID RECLAMATION

Governor Davis Writes to J. C. Wheeler that the Outlook Is Encouraging.

J. C. Wheeler yesterday received a letter from Governor Davis, in which the latter told him that the outlook for the Western States Reclamation association to further the interests of the west through congress.

The letter in part says: "Our demands for financial assistance staggered the leaders, yet I can report to you that our economic arguments have made a deep impression on them, and I believe can state with absolute sincerity, that if we do not get the things now which we are asking, that within another year or two, it is certain to come because your committee of governors and executive commission has, I think, made a deep impression on members of congress."

"Our fight will come from the middle western states where they fear competition, both in production and in land. Their argument is baseless. We must produce more wheat, no matter where it comes from, for in three years' time the United States will be importing this grain, a condition which will be an indictment against our intelligence if we fail to develop the wheat and hay lands of the west."

"Your committee met with the ways and means committee of the house, the irrigation committee of the senate and house, the storing committee and finance committee. Both encouraging and discouraging things were put up to us, the discouraging things serving only to set our purpose more firmly. After many hours of discussion and consultation on a tentative bill was framed asking for a bond issue of \$250,000,000. It has been introduced in the house by Representative Kinkaid of Nebraska, and in the senate by Senator McCarry of Oregon, and is started on its way."

"I suggest that everyone who receives this letter write to friends in the middle western states setting forth the necessity for support and the soundness of the arguments of those who would oppose the bill. "Former Governor Spry of Utah was selected by your committee to stay in Washington and keep us informed of the condition of this legislation and such other matters as it will be necessary for him to attend to. I think you will agree with me in the wisdom of this choice."

PROPOSES CAPITAL LEVY. LONDON, Feb. 16.—In the house of commons this evening on the government's motion for the appointment of a committee to inquire into the practicability of a tax on war time increases in wealth, Sir Donald MacLean, Liberal, moved an amendment in favor of extending the inquiry to the practicability of a capital levy to reduce the national debt.

## POLITICAL ETHICS ARE TOLD TO JURY

Witness Tells of Flint, Michigan, Leader's Efforts to Hire Him to Solicit Votes.

By the Associated Press. GRAND RAPIDS, Mich., Feb. 16.—Political ethics in Flint, Mich., were given a thorough airing in the Newberry election conspiracy trial today.

The government then switched its tactics and brought a department of justice investigator to the stand. Through him there was introduced in evidence the statements made by three defendants prior to their appearance before the grand jury. They were in affidavit form, but Martin W. Littleton developed on cross examination that none of the men had been sworn.

Thomas J. Halligan, manager of the Flint team of the Michigan-Ontario league, related what he told Fred Henry in that city about "how to run a campaign for senator." He said he refused to "give the information for nothing," but what he did tell him received close attention from every one in the court room.

"Henry wanted me to work for him at fifty dollars a week," said Halligan, "but I told him I wouldn't be any good to him for \$50 a week. Eight hundred or a thousand dollars will get out a lot of votes, but I wouldn't consider working for \$50 a week."

Halligan said Henry never gave him any money, but on cross examination he said he worked for Newberry. The cross-examination went into Halligan's purpose in asking for \$500, and he frankly explained he intended to keep \$400 and "pass the rest along."

He denied that he intended that it should be used for buying votes.

Frax Dism, foreman in the Flint automobile factory, told the jury that Henry gave him a postcard box one-third full of Newberry buttons and told him to pass them around. When he opened the box he found a \$20 bill in it.

AMERICA TO GO TO VIADIVOSTOK FOR CZECHS

By the Associated Press. SAN FRANCISCO, Feb. 16.—The army transport America, formerly the Hamburg-American liner, Amerika, arrived here today from New York. She will be overhauled and will be used to transport Czechoslovak troops to European points from which they will be sent home, according to the army transport service.

VOTE FOR BIG BOND ISSUE. MONTGOMERY, Ala., Feb. 16.—A bond issue of \$25,000,000 for good roads was ratified overwhelmingly by voters of Alabama today, according to incomplete returns.

# PACT DEBATE IS RENEWED WITH A FURY

McCormick of Irreconcilables Opens the Fight—McCumber Makes Answer

LATTER ARRAIGNS THE LEADERS OF FACTIONS

Declares Compromise Should Be Made—Expect Much Forensic Display in Senate.

By the Associated Press. WASHINGTON, Feb. 16.—Laying aside its legislative business the senate by unanimous consent, took up the treaty of Versailles again today and resumed in all its vigor the ratification debate interrupted last November.

The opening gun in the new phase of the fight was fired by the treaty's irreconcilable foe, Senator McCormick of Illinois, reopening the discussion with a speech bitterly assailing many provisions of the document and counselling the republican leaders not to consent to further compromise.

McCumber Attacks Both. He was followed by Senator McCumber, republican, North Dakota, who flayed the heads of both parties for their failure to compromise and declared that "chillid play obstinacy" alone in the way of ratification.

Drawn into the debate by the charges of the North Dakota senator, Senator Hitchcock, democratic leader, asserted that the democrats already had "abandoned" their previous stand and had offered compromise, but that the "irreconcilables" were demanding nothing short of complete democratic surrender.

Revives Old Issues. Once it got under way, the debate speedily revived the whole scale of issues which the senate had debated from May to November of last year. The subject technically under consideration was a motion by Senator Lodge, to modify the republican reservation on withdrawal was not mentioned until late in the day when Mr. Lodge took the floor to explain briefly his reasons for moving for the change.

When the debate was reopened the private negotiations for a compromise apparently passed into the delirium and some of the treaty's most active friends on both sides of the chamber predicted there probably would be no settlement of the discussion on a floor would spend time.

Adding under an agreement with democratic leaders, Senator Lodge made unanimous consent that the treaty be taken up and then presented the first of the proposed reservation changes he made public last week. He would make the withdrawal reservation stipulate that notice of withdrawal from membership in the league of nations could be given by the president or by congress acting alone whenever the majority of both houses may deem it necessary. In the original draft the notice might be given by a concurrent resolution of the congress of the United States.

The modification was proposed, said the majority leader, because the reservation as previously worded was "wholly ineffective in permitting a majority of congress to take the nation out of the league."

Opposed by Hitchcock. Although considered by the bipartisan conference, the modification was not agreed on there and Senator Hitchcock indicated that he and the democrats expected to vote against it.

Most senators were inclined to believe that it might be several days before action was reached on any proposals to modify the 14 republican reservations they were expected at the last session of congress.

ACCEPT HOLDEN RESIGNATION. By the Associated Press.

WASHINGTON, Feb. 16.—Resignation of Nige Holden as regional director of railroads in the central west was accepted today by Director General Hines to permit him to resume his duties as president of the Chicago, Burlington and Quincy and Colorado and Southern Railroad companies.

## HOUSE PASSES BILL TO FURTHER IRRIGATION

By the Associated Press. WASHINGTON, Feb. 16.—To promote development of western communities in arid regions, the house today passed and sent to conference a bill authorizing the interior department to contract with manufacturers and railroads for the sale of water for irrigation projects.

## HEAR 21 WITNESSES IN THE GRIMM CASE

By the Associated Press. MONTESANO, Wash., Feb. 16.—Twenty-one witnesses were called today in the trial of eleven Industrial Workers of the World charged with the murder of Arthur O. Grimm, one of the victims of the centrally unionists day shooting. Most of the witnesses testified regarding shots fired from Seminary hill and the Arnold and Avalon hotels and several, according to counsel for the state, were called in an effort to show that shots fired into the ranks of the former service men were not in defense of the I. W. W. hall but an alleged deliberate attack on the marchers.

Edward S. Mays, one of the marchers, said the first shot he heard seemed to come from the Avalon hotel. He said he ran at first toward the I. W. W. hall, but changed his course when he saw glass and splinters flying outward from the hall.

Dr. H. Y. Bell, also one of the marchers, told of helping Grimm to an automobile after the shooting and taking him to a hospital. On cross-examination, Dr. Bell said he did not know whether any of the marchers had attacked the I. W. W. hall. Dr. A. C. Robertson, also a marcher, told of having seen a man standing behind a store building firing into the crowd of marchers. He did not identify the man.

R. F. Gardner, who testified he was a member of the I. W. W. at the time of the shooting, said he heard Edith Smith and Britt Smith, both defendants, just before the parade, if he was "ready for a raid."

Dr. Smith replied he was "always ready for a raid." Gardner testified. On cross-examination Gardner said he had frequently attended meetings of the I. W. W. in Centralia, but had not heard any discussion of any particular raid or of the date of the march.

## REACH FINAL AGREEMENT ON RAILROAD LEGISLATION

By the Associated Press. WASHINGTON, Feb. 16.—Final agreement on railroad reorganization legislation was reached today by the house and senate conferees who planned to have the report ready for their signatures tomorrow so it could be presented to the house the following day.

The new labor provision amounts to virtually a redrafting of the earlier agreement and reveals directly, according to Senator Cummins of Iowa, chairman of the senate conferees, from developments incident to the strike of maintenance of way employees, which was called off before the men walked out. Secretary Commerce said he had the draft before him yesterday and the revised version was said to conform in principle with the director-general's views.

## PROTESTS MADE BY FARMERS AGAINST THE GRONNA BILL

By the Associated Press.

WASHINGTON, Feb. 16.—Protests against the Gronna bill, which seeks to terminate at once the existence of the United States Grain corporation, were heard by the senate agriculture committee today from western farmers' organizations and associations of grain traders.

The bill would have the effect of weakening the guaranteed government price on wheat, the witnesses said. "It is wholly ineffective in permitting a majority of congress to take the nation out of the league."

WHISKEY FOR FLO DOES NOT GO IN MONTANA

By the Associated Press.

# TWO DIVERSE REPORTS MADE ON AIRCRAFT

Lengthy Document Received Long Continued Investigation Into War Industry

RYAN ATTACKED BY REPORT OF MAJOR

Lea Declares that Charge Made By Colleagues Air Without Foundation—Quotes Reasons.

By the Associated Press. WASHINGTON, Feb. 16.—Reports of the long continued investigation of aircraft production program were presented today in the house from a lengthy document inquiring into expenditures.

Says Most of Waste. Representatives Frear and Mann, republicans on the sub-committee which conducted the investigation characterized the aviation program in their report as "a riot of waste" and Representative Lea, democrat, declared in his report that the republic members had sacrificed facts for nationalism in an effort to discredit the government.

Both reports contain thousands of words. They differ entirely in the facts they set forth in showing American airplanes abroad and in performance of the aircraft production program.

A prominent part of both reports given to the controversy over the investigation of John D. Ryan, former director of aircraft production, and construction of a government-owned railroad, which it has been charged rebounded to the benefit of the Chicago, Milwaukee and St. Paul road, which Mr. Ryan is a director.

Disclaiming any attempt to discredit Mr. Ryan, the majority report said that point says:

Ryan May Be Unfortunate. "If Mr. Ryan's statement of disinterestedness is true he has been unfortunate in handling a public matter in the judgment of your committee, even a fitting effort to bring large private business interests as was accompanied by blundering plans from beginning to end."

Lea Makes Answer.

In contrast, the minority report Representative Lea says: "The evidence shows that Mr. Ryan practically abandoned his own business affairs and devoted himself unreluctantly to his official duty. Without directly charging it, the report of the majority insinuates that Ryan used his power as head of a craft, owned a flying outfit on the Lake Crescent route for the benefit of the Milwaukee road. The purpose to construct a railroad from Lake Pleasant connecting with the Milwaukee determined several weeks before Ryan was connected with the project. The Lake Crescent route was selected over the opposite of the Milwaukee road up to the present the decision was made. Milwaukee contended for the surplused extension of its own route which served its interests far better than the present route. The Lake Crescent was distinctly the best route, the government could have selected serve its purpose."

The majority report, however, characterizes the transaction as "a remarkable chain of circumstances and adds to the evidence that the state being played for, the state attempt to produce spruce lumber. Washington and Oregon was for the of the lumber interests. The northwest after the war."

The report pays a tribute to Ryan's "courage and determination" and "rendered a great public service by bringing the matter to light."

Sen. Mr. Ryan, the majority report attacks his assistant William Potter, Colonel Edward A. C. who presided over Ryan's investigation, and says that he was responsible for the "blundering" of the program. It also attacks the program as an "expensive waste" and "a scandalous waste of money."

# SPECIAL SERVICES FOR LENT PLANNED

Father Keyzer Announces Program—  
Non-Catholics are Invited  
to Attend.

Announcement was made Sunday by Rev. R. M. S. Keyzer, pastor of the St. Edwards Catholic church that special services will be conducted during the lenten season. A special series of lectures are to be given on Monday and Wednesday evenings at 8:00 o'clock. A special invitation has been issued by Father Keyzer to non-Catholics to attend the services.

Following are the subjects to be discussed:

- Sunday, February 15, On Religious Differences.
- Wednesday, February 18, Necessity of Religion: Certainty of Religion.
- Sunday, February 22, Jesus Christ, the Son of God.
- Wednesday, February 25, The Rule of Faith or How Shall I find the True Religion.
- Sunday, February 29, The Marks of the True Church.
- Wednesday, March 3, The Pope.
- Sunday, March 7, The Economy of Divine Grace.
- Wednesday, March 10, The Sacrament of Baptism.
- Sunday, March 14, The Sacrament of Penance.
- Wednesday, March 17, Indulgences.
- Sunday, March 21, The Holy Eucharist.
- Wednesday, March 24, The Holy Sacrifice of the Mass.
- Sunday, March 28, Ceremonies and Sacramentals.
- Friday, April 2, The Sacrifice of the Cross.
- Sunday, April 4, The Resurrection of Christ.

## Local Briefs

Ray Johnson of Pocatello was among the Monday arrivals. He was called here by urgent business matters.

John B. Davis of St. Anthony arrived in Twin Falls yesterday afternoon for a short business and pleasure trip.

M. B. Clark of Filer spent Monday afternoon in Twin Falls looking after important business matters.

Mrs. A. A. Timm of Filer motored to Twin Falls yesterday afternoon for a brief shopping trip. Friends were visited while here.

Mr. and Mrs. Charles Barlow of

Hazleton motored to Twin Falls yesterday afternoon for a combined business and shopping trip.

Josephine Martin of Chicago was among the town arrivals in Twin Falls yesterday afternoon.

J. L. Anderson of Pocatello arrived in Twin Falls yesterday afternoon for a brief business and pleasure trip.

John Gastambide of Rupert motored to Twin Falls yesterday afternoon for a brief business trip of a couple of days' duration.

William Hawley of Wendell arrived in Twin Falls yesterday forenoon for a brief business trip.

S. G. Wright was called to Twin Falls yesterday afternoon to look after business interests and will remain for several days before making the return trip.

Mrs. W. A. McMillan of Rogerson arrived in Twin Falls yesterday afternoon for a two-day business and shopping trip.

Charles Craig of Rogerson spent Monday afternoon in Twin Falls, called here by urgent business matters.

Mrs. Stella Van Riper of Buhl is in Twin Falls for a few days, visiting with friends and shopping.

G. B. Bradley of Boise is spending a few days in Twin Falls looking after interests here.

T. G. Mayo of Blackfoot was among the Twin Falls arrivals yesterday afternoon and will remain for a few days looking after interests here.

F. D. Wochelt of Metchum motored to Twin Falls yesterday afternoon for a brief business trip of a few hours' duration.

H. L. Martin of Blackfoot is in Twin Falls spending a few days looking after interests here.

R. Y. Blagard of Rock Bar arrived in Twin Falls yesterday afternoon for a short trip.

Mr. and Mrs. Carl E. Painter arrived in Twin Falls Sunday afternoon and are visiting at the home of Mrs. Painter's parents, Dr. and Mrs. H. W. Dwight.

Mr. and Mrs. G. W. Eggleston departed yesterday afternoon for Cushing, Oklahoma, where Mr. Eggleston has land interest which will require his attention during the summer and fall. The expected to be absent from Twin Falls about a year.

## CONSTRUCTION PROGRESSING ON NEW POWER UNIT

Construction of the new power unit at Thousand Springs is progressing rapidly. The steel work is well along toward completion and the labor camp is a marvel to behold. Many acres are given over to the men's quarters. The system and arrangement of this reminds one of an army cantonment in many respects.

The new power plant is located near the old unit, but is much larger and more up to the minute in construction. The Idaho Power Co. expects that their new plant will supply considerable more power than any other now in operation.

## NOTICE TO BEET GROWERS.

A meeting of all those interested in growing beets is called for Thursday the 19th, at 2 o'clock p. m., at the farm bureau office, for the purpose of discussing price of beets and other matters pertaining to beet growing for the coming season. It is also to select a delegate to send to the Pocatello meeting called by the State Farm Bureau of Idaho, Friday, the 20th.—Adv. 1x

## WORK IS PROGRESSING ON EIGHTH AVENUE CONDUIT

Work, which was started last week on the construction of the Eighth avenue conduit is progressing satisfactorily, according to officials. The avenue has been closed to traffic between Third street east and Blue lakes boulevard. The unit will be the first one constructed. The work is being done on city time.

## GOES TO MEETING.

Miss Edna Ludwig, home demonstration agent, will leave today for Moscow to attend the extension workers convention to be held there February 23.

Start your spring's work with a new pair of shoes from Elling's bargain tables, \$7.50 and \$8.50.—Adv. K-2-20

Highest cash price paid for poultry. Independent Market, Twin Falls. Tu. Th. Sat.

## PURE-BRED CATTLEMEN TO HAVE SALE IN PRISCO

SAN FRANCISCO, Feb. 16.—Pure-bred cattle enthusiasts and many farmers and orchardists just entering the pure bred industry will be present in large numbers at the sale of Shorthorns to be held by the California Shorthorn Breeders' association February 26 at the University farm, Davis, in connection with Stockmen's week. These sales are cooperative and are designed by the association to educate ranchers in all lines to the advantages of maintaining herds of pure bred cattle.

Shorthorn breeders will sell that at the first sale in 1918, Little Sweetheart, grand champion cow last year at the Chicago International Livestock show, was bought for \$425. With her present show record, this cow is now valued at more than \$10,000.

# In the Interests of Beneficial Industry and for the Better Good of All

THE TWIN FALLS DIVISION OF THE SOUTHERN IDAHO EMPLOYERS' ASSOCIATION OFFERS THIS EXPLANATION OF PURPOSE AND PLAN:

With a view to cutting existing costs by eliminating waste and consequent useless expense, while at the same time paying wages which in some cases are actually higher than the schedules now in force, this Association goes before the people of Twin Falls as a whole, Employer and Employee, Business Man and Professional Man, Workers in every walk of life, and asks the privilege of making clear the principles upon which the foundations for its existence rest.

## Our Declaration of Principles

We, including employers of labor and citizens generally, recognizing the disturbed industrial situation in the Nation and particularly the conditions existing in Twin Falls, which involve strikes now in progress and others that are threatened, and knowing that such conditions seriously affect business, destroy confidence and retard the development of our City, pledge ourselves to earnestly support any and all individuals, organizations and agencies that believe in the following:

That all workers are equal under the law.

That they are, and of right ought to be, free.

That every worker deserves a just wage for an honest day's work.

That everyone has a right to work unmolested at honest labor without regard to whether he is a member of any organization.

That every worker deserves payment according to his ability to earn, and that it is un-American that the competent and deserving should be denied the right to work at employment of his own choosing or that he should be held down to the standard of the mediocre and slothful.

Read this carefully and then ask yourself whether or not you find anything therein with which you cannot agree.

Study the plan; Analyze it; Discuss it with your friends. Make up your mind about it.

Keep before you the fact that the American Plan is not a new thing. It did not originate in Twin Falls, nor will it stop with Twin Falls. Dozens of American Cities have adopted it as well as many Idaho towns.

The American Plan DOES NOT prohibit organization among the workers. It DOES NOT lower wages or increase working hours.

The American Plan DOES guarantee employment to every man irrespective of his membership in any organization whatever. It offers the principle of the square deal to all.

It is fair because it is right.

## OUR FRIEND GREY.

It is difficult to understand why any American should be annoyed, as some seem to have been, by Lord Grey's letter on the peace treaty. The general view, and apparently the true one, is that, no matter what practical effect it may have on the action of the senate, Grey has done the American people a service.

Anyone who keeps at all in touch with foreign opinion knows that there has been almost everywhere outside this country, of late, a growing feeling of criticism and resentment against America and Americans. This feeling has been strongest in Europe and particularly strong among our war partners. They have not understood at all the American dispute and delay over the peace treaty—neither the political nature of it, nor the constitutional nature of it, nor the public doubt due to national policy and tradition. Thus, from the pinnacle of popularity that the American people enjoyed immediately after the armistice, we were sinking into a slough of unpopularity, not unmixed with scorn and contempt.

What Lord Grey did was to inform his own people, our nearest associates in this big war adventure, that we Americans are a sincere, honest, and honorable people, perplexed, indeed, by our present predicament and doubtful what course to choose, but a people who have demonstrable reasons for hesitancy, who do not seek to evade any just burden of responsibility, and who may be trusted to fulfill the duties of peace as they fulfilled those of war. He even went to an extreme to which few unbiased observers on this side of the water are inclined to go, in giving the United States senate, without exception of any group, full credit for sincerity.

Instead of abusing Lord Grey, we had much better try to deserve the generous things he has said about us.

## FARMING QUALIFICATIONS.

Farmers, for some reason or other, have always been regarded by eastern city-dwellers as mentally and economically inferior. There is not so much of this supercilious attitude now as there used to be but there is plenty of it left. To most young fellows in the eastern city the average farmer is a "Rube" or a "hick" or a "hayseed," as it was in the beginning and will be until these city folk rise above their own ignorance and provinciality. There is likewise a common notion among urban dwellers that anybody can run a farm, and that the city man by mere virtue of his innate superiority can do it, off-hand, better than the farmers are doing.

One of this superior class, a city book-keeper, wrote to a Virginia farmer asking what was required for agricultural success. The farmer thought it over carefully and then, according to the Country Gentleman, mentioned these as the main qualifications:

"A farmer must know his soils, soil drainage, soil chemistry, soil physics, the relation of crops to soil and climate, the rotation of crops, fertilization, best ways of handling and selling crops, how to feed and care for livestock, how to handle livestock in relation to soil and climate, how to repair broken machinery, how to handle various gasoline engine vehicles and

plumbing, and blacksmithing, must be a good buyer and seller, a good manager, should know enough about bookkeeping to compute costs, must have executive ability, should have the stamina to do 14 or 15 hours' work a day, and if frost or hail or drought or flood or high winds brings the year's work to naught, must have the courage to take a drink of water and a cold bath and start over again."

It is all true, too; the successful farmer of today is a man with precisely this accumulation of knowledge and ability, plus a good deal that is hard to put down on paper, but is no less essential.

If anybody is to be looked down on it is surely the eastern man who not only lacks the farmer's independence, but whose life has narrowed him to the doing of one thing and left him otherwise helpless.

## WHAT KIND OF LAWMAKERS?

"The workers and farmers," says Labor the official publication of American trade unionism, "should have 350 men in congress if they had their share. The lawyers alone have 260 members. The bankers have many times their quota, as have the packers and the food gamblers. The steel trust, the sugar trust, the lumber trust and the mine owners are more than adequately represented."

This is not a fair statement, particularly as regards the representation of "trusts" in congress. There is far less of that sort of thing nowadays than the labor men imagine. It is incompetence rather than subservience to special interests that is the characteristic fault of present-day congressmen.

A thought uppermost just now in the minds of millions of Americans is the desirability of getting better representation for a class which, despite the insinuations of the labor men regarding big business, is very poorly represented in congress—the great mass of American business men. It is felt that intelligent, straightforward, efficient business men should be sent to congress rather than professional politicians.

That is the main thing, in any case—to get rid of the old-fashioned politicians who have outlived their usefulness and whose utility has become so glaringly evident at Washington in the last couple of years. The public should view with equanimity the presence in congress of men representing almost any class of citizens or any political doctrine, if they only represented it in good faith, and concentrated their attention on the work they were sent there for, instead of devoting their main effort to petty schemes for getting themselves reelected.

## SKIRTS AND FLU.

The flu wave has aroused discussion once more of the never-failing question whether women's garb is sensible and healthful. Some critics, here and abroad, hold feminine clothing, or the lack of it, largely responsible for the spread of the epidemic. A noted French physician replies:

"For my part, I believe that the feminine fashions of today are not only not dangerous to health, but, on the contrary, protect health. Cut low at the top and cut short at the bottom, women's dresses today permit a double aeration of the skin, which I believe is very salutary, since the natural secretions are here and the functioning of the nervous system is stimulated."

"I do not believe colds are caught because of short skirts, for it is through the respiratory passage and not through the skin that one catches cold."

"I do not recall one case of influenza or pneumonia or grip among the many women I have treated, that could have been blamed on their modern dresses."

"Besides, eye, our grandmother wore a costume more scanty than those of today and she never had influenza."

TWO DIVERSE REPORTS  
MADE ON AIRCRAFT

Continued From Page One.

up the alleged waste and extravagance in the early aircraft appropriations, and the alleged failure of the American planes, the spruce production project in the northwest, millions of alleged wages on cost-plus contracts and many specific charges of inefficiency and squandering of millions of dollars.

In turn, Representative Lea's minority report replies to the majority findings as "intemperate, biased and unrecuperative, an exaggeration of alleged mistakes and misstatements," a "gratuitous reflection upon men who faithfully served the government during war," and a "repetition of defamatory charges admittedly unsubstantiated by evidence."

Answering the charge of the majority report that only 212 planes had been shipped to the front up to the Havildan, and that those were the Havildan, dangerous to the front, "flying coffin" the minority report quoted Brigadier General M. A. Patrick, director of construction and forestry operations of the American expeditionary force, as saying that no larger percentage of the Havildan, coming down in flames than any other types. Mr. Lea asserted that only 33 De Havildans out of 417 sent over enemy lines were lost. The majority declared more American aviators would have been killed except for the "failure of General Pershing to recognize the value of the Havildan." Senator American aviators to the front in this type plane, the majority said, was more wasteful of human life than "equipping shock troops with wooden guns."

Turned Out 11,000 Planes. On this point the minority report charged the government with turning out more than 11,000 planes during the war, and these were practically the same as the machines used by the allies. Touching on responsibility the majority report said Secretary Baker was properly chargeable with any success or failure of America's aircraft program.

Other Grave Charges. The greater part of the majority report was taken up with an indictment of conditions in the spruce forests where 20,000 soldiers were assigned for civilian duty under Colonel Patrick, former warden of the Michigan penitentiary. It was charged that Disque illegally spent \$4,500,000 of government funds in 1918 when he "farmed out" 20,000 soldiers to cost-plus prices, the government paying contractors who charged a seven per cent cost-plus profit on the soldiers' pay. Secretary Baker was charged with direct responsibility "for this unprecedented practice." Thirteen logging railways were said to have been

started, none of which was completed before the war ended, and five cost \$8,325,141, the majority asserting that some roads took a roundabout course "in order to touch summer resorts."

There were not enough skilled loggers in the country to carry out the government's spruce production program, said the minority report, discrediting the use of soldiers.

Government spruce properties, according to the majority report, were estimated by Disque to have a salvage value of 10 per cent of cost, on which basis settlements were made with Great Britain for her share of spruce. An expert accountant employed by the committee testified that \$38,000,000 was wasted by Disque based on the contract price in 1918.

The minority report held that at the end of the war the spruce production corporation had on hand salvageable properties costing originally \$18,000,000, and that settlement was made with Great Britain which paid \$14,000,000 as a lump sum for her part of the obligation. On this settlement a 10 per cent salvage value was accepted. Property costing more than four million dollars, Mr. Lea declared, was sold at 74 per cent of its cost price.

## SECURES TWO PERMITS.

J. W. Denoyer contemplates the building of a small garage on lot 6, block 98, on Main Avenue North. He was granted the necessary permit yesterday. His garage will cost \$100. Mr. Denoyer is also to build an addition to his home which will amount to about \$300.

## GREAT RIVALRY IS EVIDENT IN BIDDING

Goethals Forced to Withdraw After Receiving \$13,000,000 Offer.

By the Associated Press.  
WASHINGTON, Feb. 16.—While controversy over the proposed sale of 30 former German liners occupied today three government agencies, the White House, the senate and the district supreme court—the president or any company were bidding in tens of millions against each other for the craft at the shipping board's auction. For one group of six vessels the bidders fought with \$250,000 bonus in price, until Major General George W. Goethals, retired, now head of the American Ship and Commerce company, dropped, out at \$13,000,000, which he said was his limit, and P. A. Franklin, president of the International Mercantile Marine, raised the price to \$13,100,000.

Commissioner Scott had announced in opening the auction that it was only for the purpose of receiving bids, final action to await approval of the senate commerce committee and the house merchant marine committee and the outcome of William Randolph Hearst's application for an injunction to prevent the sale. While the bidding was in progress the senate further complicated the situation,

adopting a resolution requesting that the sale be postponed but at the conclusion of the bidding today it was announced that the auction would continue at 10 o'clock tomorrow. In the district supreme court, Associate Justice Bailey took under advisement Mr. Hearst's application after hearing contention of counsel that the shipping board lacked legal power to dispose of the vessels. It will render its decision Friday.

At the White House it was said that the president would answer promptly and with a decided negative the resolution adopted by the senate Saturday asking if there existed a secret understanding with Great Britain as to the ultimate disposition of former German craft.

Bidding at the auction was slow at the morning session when groups of ships were being offered but became spirited in the afternoon when individual vessels were considered. The highest group bid was \$14,050,000 by the International Mercantile Marine for nine ships which went unopposed, and the record bid for a single ship was \$2,000,000 for the Callao, by the American Ship and Commerce company, double the offer of the International Mercantile Marine for the vessel.

The highest group bid covered the Lovatton, George Washington America, President Grant, Nansmond, Antigon, Pocahontas, Princess, Matoka and the Callao offered by the International Mercantile Marine, the vessels to be put in the European service. The next highest group offer was the International Mercantile Marine's bid

of \$13,100,000 for the George Washington, Martha Washington, America, President Grant, Nansmond and the Callao for service to Hamburg and Bremen, Moore and McCormack, offered \$4,500,000 for five vessels, the Princess Washington, Aetolia, Huron, Princess Matoka and the Pocahontas for South American service and the same company bid \$4,000,000 for the Princess Matoka and the Pocahontas for service to the Baltic.

For individual ships the high bids were as follows:

Black Arrow \$700,000, Oriental Navigation company; Princess Matoka \$975,000, International Mercantile Marine; Susquehanna, \$650,000, C. D. Richards and company; Artemis, \$750,000, International Mercantile Marine; Amphion, \$275,000, C. D. Richards and company; Antigone, \$500,000, International Bureau of Supplies; Elen, \$700,000, Oriental Navigation company; Porahontas, \$925,000, International Mercantile Marine; Callao, \$2,000,000, American Ship and Commerce corporation.

After making the \$13,100,000 bid for the group of six ships, Mr. Franklin was asked by Commissioner Scott if he desired to make any statement regarding the ownership of his company to which he replied that the International Mercantile Marine was 99 per cent owned and controlled in the United States.

Bids submitted by the International Mercantile Marine on January 20, have been withdrawn at the request of Mr. Franklin, Chairman Payne announced tonight. These bids included one of \$28,000,000 for the fleet of 30 vessels and one bid of \$4,000,000 for the Lovatton. Chairman Payne said the other companies offering bids at that time would have the privilege of drawing theirs. In general the bids made today were much lower than the ones received in January.

Terms proposed by the bidders for the purchase of the ships offered today varied from the regular shipping board terms of 25 per cent on delivery and the remainder in five years to payments over a period of 15 years.

At the auction tomorrow the cream of the former German ships will be offered individually including the Lovatton, Assamont, Mount Vernon, George Washington, Martha Washington, America, Von Steuben and DeKalb.

## WILSON WILL NOT AGREE TO SETTLEMENT

Continued From Page One.

family affair, toward which foreigners should be merely disinterested spectators. The president's reappearance as a determined party in the peace negotiations was construed as almost as threatening as his order for the George Washington to be prepared to take him home from France. The first version of the event gave the aspect of an ultimatum, which meant that the council of the allies must stand by the terms which President Wilson accepted in December, or America would shake the dust of European affairs off her feet altogether, and also that the council had framed a stiffly worded reply authorizing to its January offer to the Jugos.

Stiffness Stiff Neck. Later information appeared to soften the stick-necked positions erected to both parties. This consisted of messages from Washington that too sweeping a construction had been given to the president's words, fortified by news from Downing street that the council had not finished composing its answer. Nevertheless, Premier Millerand's cheerful observation to the reporters—"there is not a cloud ahead"—is taken as a purely diplomatic optimism.

The afternoon papers displayed stirring headlines, in which "bombshell" was the favorite word. If not a bombshell, it was an entirely unexpected settling of the waters about the parliament houses where it appears to have been assumed that so long as America had not even a representative at the conference table, her voice should not be heard in the debate.

## DR. AND MRS. ALEXANDER RECEIVED CONGRATULATIONS

Dr. D. L. Alexander was busy yesterday receiving the congratulations of his friends on his marriage Saturday to Mrs. Lillian M. Novin. Both Dr. and Mrs. Alexander are popular among their hosts of friends. Since returning from the service Dr. Alexander has built up a large clientele while Mrs. Alexander is one of the most prominent musicians in Twin Falls.

## FINED \$25 FOR LETTING HORSE LIE NEAR ROAD

Charles H. Crabor of Hansen was given a hearing in police court yesterday and fined \$25 for allowing a dog to remain in an open field for several days not a quarter of a mile from the highway and a running stream, according to evidence produced at the hearing.

## SMITH GETS PERMIT

J. W. D. Smith received permit yesterday to erect some additions to his home on lot 11, near the new bridge.

## LEGION HAS SOCIAL GATHERING TOMORROW

Ray Brown, who with the assistance of Earl Shoenberger, has been planning the details of the social meeting of the American Legion to be on Wednesday evening at the Masonic hall, announced last evening that all is ready for a "big time." It has been some time since the legion had a real social meeting and this one is expected to exceed anything ever held here before.

## OUCH, PAIN, PAIN. RUB RHEUMATIC ACHING JOINTS

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacobs Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and cannot burn the skin. Lumber up! Quit complaining! Get a small trial bottle of old, honest, "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

## GRAHAM GETS PERMIT

A building permit has been granted R. A. Graham for a 1x20 structure on lot 2, block 6, at a cost of \$300.

## WIGHT IS FINED \$1.00

Newell S. Wight, secretary of the chamber of commerce, was yesterday fined \$1 by Police Judge Minnick after being found guilty of parking his car to near a fire hydrant.

## CONGRESSMEN DECLARE THEIR INTEREST IN GOOD ROADS

Letters received yesterday by Newell S. Wight, secretary of the chamber of commerce, from Senator John P. Nugent and Congressman Smith and French, all declared their continued interest in good roads.

## START EXCAVATION

Excavations have been started on the site chosen for the new \$75,000, 12, 15, S. church, soon to be erected on Fourth avenue East. Work on the home of the bishop is also progressing satisfactorily.

## MARTINO COMPANY

—AT—

## LAVERING THEATER

Tuesday Evening, February 17 at 8:30

Season tickets for the seven numbers will be on sale at the Majestic Pharmacy and at the Lavington Tuesday evening at \$3.00. There will be no season tickets sold after Tuesday evening.

## GET YOUR TICKETS NOW

An ounce of preventative is worth a pound of cure.

## Influzone

Keeps the mouth and throat free from germ disease. For your protection. At all drug stores.

## They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the corkscrew air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American railroads to pay the highest wages while charging the lowest rates.

## This advertisement is published by the Association of Railway Executives

Those desiring information concerning the railroad situation may obtain the same by writing to The Association of Railway Executives, 101 Broadway, New York City.

# BALL MAGNATES TO MEET THURSDAY

Hope to Be Able to Get a Movement Started Here to Secure Team.

The baseball plans of the Southern Idaho league will be discussed at a meeting to be held Thursday evening at the chamber of commerce. Announcement was made yesterday by Secretary W. R. Wright of the Twin Falls Chamber of Commerce that an invitation to hold the meeting here had been extended after a letter had been received from C. S. Moss, secretary treasurer of the league asking that such an invitation be extended.

The make-up of the league has not yet been definitely decided upon. It is anticipated that "bractically" every team, with the exception of Filer and Twin Falls will have teams in the league. "Locatello" may come in on the circuit and there is hope among other teams that some way of financing a Twin Falls team can be worked out.

While the few faithful plans who have been helping the game here have abandoned hope of having a league team here this year, the suggestion has been made that if a league meeting is held here enough spirit may be aroused among the local fans to attempt the organization of a nine.

Among those who have watched the game rise and fall here the general impression is that a good manager is needed in the first place. Tyler Christian's name has been mentioned, but Tyler quit in disgust at the lack of support last year and it is not believed that he would consider any proposition made.

O. B. Felton has also been mentioned as good timber for the manager-ship. He knows the game thoroughly but he is said to be opposed to taking charge unless he is assured that he can be given support.

The piece set by Buhl, Raport and Burley in financing their organization is another barrier that must be surmounted. Each of these teams has \$6000 secured for the year. Baseball men declare such a sum could not be secured here. Twin Falls team for 1919 still owes several hundred dollars and many of the players have not been paid for their work. There are many outstanding bills that must be cleared before the 1920 season can be launched.

## WORLD'S MOTORCYCLE RECORDS ESTABLISHED

By the Associated Press.

DAYTONA, Fla., Feb. 15.—Certified world's motorcycle records were established on the beach yesterday by L. E. Parkhurst, for the one, two and five mile and one kilometer distances. The mile event made in 24.59 seconds or at a rate of 101.1 miles an hour, brought this record back from Australia where it stood at 35 seconds flat.

Parkhurst made the two miles in 1:12:05; the five mile in 5:02:32 and the one kilometer in 21.64 seconds.

## SPRING IS HERE; BICKEL WINS BASEBALL GAME

An interesting game was played yesterday by the baseball teams of the Washington and Bickel schools. The score stood in favor of the Washington team up until the last inning, when some Bickel hard hitters turned defeat into victory by making the score 18 to 17 in favor of the Bickel team. The game was played on the Washington field.

## FRAZEE AND WARD ARE FORCED INTO THE COURTS

By the Associated Press.

BOSTON, Feb. 16.—The superior court today issued a temporary injunction, restraining President H. H. Frazee of the Boston American baseball club, and Hugh J. Ward, an associate, from disposing of any of their stock in the club or of drawing dividends.

This action was taken on petition of Joseph J. Lamm, former owner of the Red Sox, who asserts that Frazee and Ward have failed to pay a note for \$262,000 due November 1, 1919, in connection with their pur-

# WADSWORTH IS ARRAIGNED BY SUFFS

Women of New York Urged to Send Liberal-Minded Men to Senate.

By the Associated Press.

CHICAGO, Feb. 16.—Bills for the Great Western circuit races were set today. The purse for the nine races total \$132,000. Richard White of Milwaukee, was elected president and W. H. Smullinger of Chicago, secretary-treasurer. The dates had purges follow:

Lafayette, Ill., August 9-12, \$7,000.  
Sedalia, Mo., August 17-20, \$7,500.  
Davenport, Iowa, August 19-21, \$10,000.  
Kankakee, Ill., August 17-20, \$3,000.  
Springfield, Ill., August 23-27, \$24,000.  
Des Moines, Iowa, August 27-Sept. 2, \$17,000.  
Milwaukee, August 30-September 3, \$20,000.  
St. Paul, September 4-11, \$22,000.  
Omaha, September 15-17, \$17,000.

It was decided that each association furnish \$7,000 or more in added money to qualify for membership.

The American Trotting association of congress will meet in Chicago tomorrow.

By the Associated Press.

CHICAGO, Feb. 16.—The League of Women Voters today condemned Senator James W. Wadsworth Jr. of New York for "misrepresenting his state and party" in working against suffrage. Appreciation was extended to the women of New York in their determination to send to the United States senate "a modern minded senator capable of comprehending the great American principles of freedom and democracy" to replace Mr. Wadsworth.

The league also took a stand for a single standard of morals when it accepted the report of its social hygiene committee, of which Dr. Valerie Parker of Hartford, Conn., is president.

Among recommendations for commercialized vice were:

Punishment of frequenters of disorderly houses.  
Abolition of segregated, protected vice districts.  
Heavy penalties for pandering.  
Prevention of solicitation whether by man or woman.  
Control of venereal diseases with recommendations for proper laws was urged.

Passage of laws to protect minors, defectives and delinquents was urged. Among these was a law providing for mental examination of all children and to care for the defective ones.

A law was urged to make legal age of consent at least 18 years and to provide protection for the boy as well as the girl.

It was recommended that women be put on the governing board of all charitable and penal institutions as

WASHINGTON, Feb. 16.—Bankers of the United States, Great Britain, France and Japan, who are reported from Peking to be ready to make a loan of approximately \$20,000,000 to China are included in those who will be in consortium which is being planned to finance China, on an extensive scale. This loan, however, is not a part of the consortium project, but a temporary advance to meet urgent needs of the Chinese government.

Thomas W. Lamont of New York, is now enroute to China to represent the American bankers.

Great Britain and France are unable to take immediately their part of the consortium or the present temporary loan. It was explained today and until they have established conditions at home the United States and Japan are to "carry" the banks of these countries.

## ADVOCATES COMPULSORY ARBITRATION OF DEPUTIES

DENVER, Colo., Feb. 16.—Compulsory arbitration of railway labor disputes when the government returns the railroads to their owners was advocated today by Carl R. Gray, president of the Union Pacific railroad, in an address at a dinner in his honor given by the Denver City and Commercial association.

# WADSWORTH IS ARRAIGNED BY SUFFS

Women of New York Urged to Send Liberal-Minded Men to Senate.

By the Associated Press.

CHICAGO, Feb. 16.—The League of Women Voters today condemned Senator James W. Wadsworth Jr. of New York for "misrepresenting his state and party" in working against suffrage. Appreciation was extended to the women of New York in their determination to send to the United States senate "a modern minded senator capable of comprehending the great American principles of freedom and democracy" to replace Mr. Wadsworth.

The league also took a stand for a single standard of morals when it accepted the report of its social hygiene committee, of which Dr. Valerie Parker of Hartford, Conn., is president.

Among recommendations for commercialized vice were:

Punishment of frequenters of disorderly houses.  
Abolition of segregated, protected vice districts.  
Heavy penalties for pandering.  
Prevention of solicitation whether by man or woman.  
Control of venereal diseases with recommendations for proper laws was urged.

Passage of laws to protect minors, defectives and delinquents was urged. Among these was a law providing for mental examination of all children and to care for the defective ones.

A law was urged to make legal age of consent at least 18 years and to provide protection for the boy as well as the girl.

It was recommended that women be put on the governing board of all charitable and penal institutions as

well as in other public positions which deals with problems of delinquency or health.

The report of the committee on food supply and demand was adopted with its endorsement of the Kenyon-Kendrick-Anderson bill for the control of packers, despite a talk from the packers' point of view by L. W. Wells of Swift and Company.

Mrs. "Hotter" Gardner of Washington announced the installation of an

exhibit, connected with the history of the suffrage movement in the United States, in the Smithsonian Institution.

Among the exhibits are pictures of Susan B. Anthony, Anna Howard Shaw and Carrie Chapman Catt—the first woman to be so honored because of their achievements. The round mahogany table is there on which the woman's bill of rights was written at the first suffrage convention in the world, 1848, at Seneca Falls, N. Y.

# UNITED AMERICANS ARE TO FURTHER USE OF BALLOT

By the Associated Press.

SAN FRANCISCO, Feb. 16.—The United Americans of California was organized here today with the declared intention of educating the people to use the ballot in bringing about necessary reforms. Three hundred delegates representing all parts of the state were present.

## Grain

CHICAGO, Feb. 16.—Corn advanced in price today as a result of indications that farmers were continuing to hold their grain. Depreciation in securities and foreign exchange had only a transient opposite effect. The market closed strong, 3-4 to 2-1-8c not higher, with May \$1.35 1-2 to \$1.35 5-8 and July \$1.44 1-4 to \$1.32 3-8. Oats gained 1-1-4 to 1-5-8 and provisions 10 to 25c.

Dearish attacks which took place in the corn trade at the opening met with some success, but as soon as estimates were posted showing that farmers here did not reach even a moderate total, the buying side of the market became the buying side of the market because of the financial conditions to the contrary. The fact that even after a full week the railroad emergency orders to hurry the crop movement had failed to bring any important large supplies to the big centers was generally regarded as "dwarfing" all other factors for the time being so far as the corn market was concerned. Realizing of profits after mid-day led to something of a reaction, but fresh uptakes quickly followed.

Changes in the oats market ran parallel with the action of corn. Provisions rose with grain despite selling by packers.

CASH GRAIN.  
CHICAGO, Feb. 16.—Corn, No. 3 mixed, \$1.42; No. 2 yellow, \$1.47 1/2; \$1.49.

Oats—No. 2 white, \$8@89c; No. 3 white, \$7 1/2@83 1/2; \$8 1/2.

Rye—No. 2, \$1.61@1.62; \$1.65; \$1.65@1.60.

MEXICO HAS MORE OIL AVAILABLE THAN U. S.

LAREDO, Texas, Feb. 16.—Mexico's supply of petroleum "it worked thoroughly," would be greater than the entire production of the United States, according to the Mexican department of industry and commerce as quoted by the Mexico City newspaper, Excelsior.

"The potential production of Mexico is practically 2,000,000 barrels daily," the newspaper continues, "and the exportation of petroleum last year was 50 per cent greater than the previous year." The value of that exported last year was \$45,887,421, on which a tax of \$4,700,000 was collected, the paper adds.

**WOULD KEEP "PROVINCIAL DAY" REGINA, S.C.**—The first move to effect the prohibition setback, which became effective January 1, when war restrictions were lifted by the dominion government, has been taken by the Saskatchewan Social Service Council. Members of the provincial legislature are being urged to submit to a referendum the question of prohibiting the importation of wine and whiskey.

Present provincial laws prohibit the manufacture and sale of liquor within the province. The federal war order, which was lifted, prohibited importation.

## STATE TO CARRY ON TUBERCULAR TESTS

Announcement of Intentions Received By the Chamber of Commerce

Newell S. Wight, secretary of the chamber of commerce, received word yesterday from the Idaho department of agriculture that the state will do all possible toward continuing the carrying of tubercular tests in the county.

Miss S. Cannon, commissioner of the department, wrote Mr. Wight that "We are pleased to advise you that there will be no suspension of our activities in the matter of tubercular work in your locality. It is very encouraging to note the activity on the part of your citizens in the matter of pure-blood stock and we are only glad to cooperate with you to the very fullest extent of our power."

J. D. Adams, director of the bureau of animal husbandry, stated that "A state man will be placed in that territory in the near future. I will be in Twin Falls on February 21 to meet the local growers and will take the matter up with you and the representatives of the cattle industry at this time."

Word received here some time ago that the government would discontinue its tubercular testing in this county resulted in the filing of protests by the bureau of agriculture of the chamber of commerce and local farming organizations. Later a request was made to the state to take up the work. It is this request that has been complied with by the promise of the state officials.

**JURY FAILS TO AGREE.**  
The jury in the case of J. S. Parker against P. J. Keenan last evening was discharged after talking the case over for some time, but failed to reach an agreement. The case involves a note

## Engagement Is Announced

Miss Suzanne Dabney Taylor, whose engagement to Mr. Lynn C. Ulin was announced yesterday afternoon at a beautifully appointed luncheon at the home of the bride-to-be's parents, Mr. and Mrs. W. O. Taylor.

for \$1600 and alleged misrepresentation on the sale of a land relinquishment.

Executive members of the Methodist church are seeking a vacant lot in a more favorable location with a view to erecting a parsonage.

At a beautifully appointed one o'clock luncheon yesterday afternoon, Mrs. William Oliver Taylor announced the engagement of her youngest daughter, Miss Suzanne Dabney Taylor, to Mr. Lynn C. Ulin. The wedding will take place April 13. The announcements in small violet envelopes were cleverly concealed in the nosegays placed at each cover. The guests were seated at a table spread with rare old Chinese embroidered and hand worked linen over yellow satin. Tiny branched candelabras held lighted violet and yellow candles corresponding with the color scheme of the house throughout. The centerpiece was a yellow bowl of jonquils surrounded by four violet colored bowls of violets. The afternoon was spent with bridge. Mrs. E. L. McVicar winning the prize, an arm bouquet on jonquils. Covers were laid for nine. Those present were: Mesdames A. J. Schubert of Gooding, Meritt Bailey, Lydia Boyd Keough, E. L. McVicar, and Frank Nagel; Misses Julia Taylor and Martin Stevenson.

Late in the evening, Messrs. Lynn C. Ulin, Willard Kaufman, Frederick Grant Hedman, Newell S. Wight, E. L. Vear, A. J. Schubert, Sidney Graves and Truman Boyd joined the party for five o'clock tea.

Miss Suzanne is possessed of a charming voice and most pleasing personality. Her popularity extends not only to a wide number of friends in Twin Falls, but to Boise, the home of her grandparents, General and Mrs. George H. Roberts.

Mr. Lynn C. Ulin is well known in the business life of Twin Falls. He is the head of the L. C. Ulin Insurance and Investment company.

Many delightful affairs are anticipated for the popular young couple.

Mr. and Mrs. J. M. Maxwell were hosts last Sunday evening at a 6:30 dinner at the Rogerson hotel, complimentary to Mr. and Mrs. Sengraves of Seattle, who are here for a short visit. The guest list included Mr. and Mrs. A. J. Peavoy, Miss Jane Maxwell and Mr. Harry Maxwell. A beautiful bowl of pink roses graced the center of the table.

Mr. Willard Kaufman entertained Sunday evening with a six o'clock dinner at the Rogerson hotel. Those present were Mr. and Mrs. W. O. Taylor, Misses Julia and Suzanne Taylor, Mr. L. C. Ulin, and George Taylor. After the dinner the party motored to the Taylor home where the evening was spent.

The Mountain View club met at the home of Mrs. Emma Baird Wednesday, February 11, where a short musical program was enjoyed. Refreshments were served at the close of the afternoon. The next meeting will be held at the home of Mrs. M. F. Gamble, February 25.

Mrs. Emmett Kall will entertain the Pioneers club at her home Thursday afternoon at 2 o'clock.

**WILL USE VACANT LOT TO DISPLAY USED CARS**

John B. White yesterday commenced the fencing of the vacant lot, 50 by 110 feet, which adjoins his garage. The spot will be used to store and exhibit used cars by the John B. White firm.

## COUNCIL ACTS ON SEVERAL MATTERS

Accepts Filter Plant—To Work Three Shifts On Eighth Avenue Later.

City council met in comparatively short session last evening, discussing and passing on several matters of prime interest to the city. The session was over by 10 o'clock.

The city filter was accepted after council had received and approved a report made by C. E. Painter, who represented the firm of McDonald & Burns, who had the contract for the work. Council ordered the final payment be made. The final cost of the plant will reach approximately \$365,000, according to the report.

Council ordered that Engineer Sharpe, who made several trips to and from the east to inspect the plant but was unable to do because of delays in the final completion of the work, be paid \$700 for his expenses resulting from the delay.

Three eight-hour shifts will be worked by the city in order to complete the eighth avenue lateral as the result of a resolution adopted at the last meeting of the canal board in which the city will have just three days notice in case it will be necessary to turn the water in the lateral. The city engineer was instructed to rush the work to rapid completion.

Common laborers on city work were given a raise of 50 cents a day by council following information that men employed on the eighth avenue sewer line were receiving 65 cents an hour. Old time employees of the city petitioned the city to find way they should be given \$4.00 a day when the men working on the lateral were to receive 65 cents an hour. The result was a raise in pay with a ruling that in the future all common laborers would be paid \$4.50 a day.

Definite action on the proposed meat inspection ordinance was postponed until information as to the exact number of animals slaughtered

here each year for human consumption. This information will be secured from the state, the city clerk being instructed to find out so that the ordinance could be passed at the next meeting of council.

Residents in Blue Lakes addition living on Buchanan street, asked council to have the city water mains connected with 135 feet of pipe laid by them on this street. Water superintendent Pilegrim declared it was advisable to do so and that he had arranged to make the connection, with council's permission, if the residents would do the trenching and back-filling. The matter was turned over to the water committee with power to act.

A request was made by J. H. King for permission to build a new building next to the library of sheet iron with wooden joists. He was informed that this would be in violation of the city ordinance and his request was refused.

A Mr. Evans, representing the Oregon Short Line, informed council that the railroad would not pay half of the paving on Minjok street, but declared it was willing to stand its share of any taxes. Attorney Davies declared the railroad was within its rights in refusing to pay.

Chief of Police Taylor requested permission to put in a "Y" branch sewer connecting two houses on one lot to one sewer. Plumbing Inspector Murray was asked to advise council on the matter and following his suggestion council refused to accede to the request of Mr. Taylor. It has been a rule of the plumbing department that this should not be allowed.

On the suggestion of Mayor Eldridge council approved a plan to have a coating of paving material placed on the sidewalk in the park at the time that the paving work is being done around the park. This will cost approximately 17 cents a foot compared to a cost of about 25 cents a foot for concrete walk.

Traffic Officer, Bob Graham, was raised \$15 a month by action of council.

## CHOLERA DISCOVERED IN THE WANN HERD

Dr. Sullivan Vaccinates Entire Herd—Stops Spread to Other Sections.

Presence of hog cholera in the herd of W. O. Wann was discovered yesterday by Dr. W. A. Sullivan, hog cholera specialist. Fifteen animals were affected. The entire herd was vaccinated.

Discovery of the disease was made just before the opening of the sale at Mr. Wann's place. There were more than 150 present while 250 animals were to be sold. It is anticipated that practically all of the animals would have been disposed of and that the disease would have spread throughout the section.

This is the first discovery of hog cholera in the county in seven months. Its appearance in the Wann herd is attributed to refuse slop from Twin Falls.

Dr. Sullivan does not anticipate the spread of the disease.

**SALVATION ARMY ADVISORY BOARD TO MEET TONIGHT**

A meeting is to be held tonight of the advisory board of the Salvation Army at the Chamber of Commerce. The meeting is called for the purpose of deciding on a suitable building in a good location to be used as a meeting place and headquarters for this organization.

Ensign Naton will take up his work and if such a building should be unsuitable at present, a tent will be put up and furnished to answer requirements until a building may be found.

**LEGION BULLETIN PUBLISHED.**  
The American Legion Bulletin, the organ of the local post, went into the mails last evening. It is the largest issue yet published by the local post, consisting of 12 pages, printed on book paper.

## The Rise of Maxwell Is Due To Its Metals

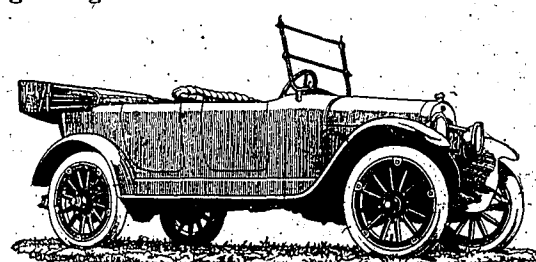

Fine soil makes fine wheat; fine feathers make a fine bird; and fine metals have made the Maxwell. They have given it:

1—A life of 100,000 miles. 2—Thriftiness. For its metals are light in weight. Therein comes thriftiness.

But these metals are of extra strength. Therein comes long life.

Metallurgists—those who have made the study of metals a science—will tell you that such metals are costly, but they guarantee quality in a car and their generous employment in a Maxwell is by far the best evidence anyone may need to determine its quality.

They are almost alone responsible for the rapid rise of Maxwell, for the fact that nearly 400,000 now have been built, for that ever-growing friendliness to Maxwell the world over.
