

MYSTERY SHROUDS CHARRED REMAINS OF EGGERGLUSE

TWO THEORIES ADVANCED FOR MAN'S DEMISE

Many Indications Point to Murder; Others Favor Suicide Idea.

SON-IN-LAW IS CERTAIN FOUL PLAY IS EVIDENT

Coroner's Jury Believes Farmer Killed Himself—Body Recovered With Great Difficulty.

Did Fred Eggergluse deliberately bind himself with baling wire, strip himself to his underclothes, saturate these with coal oil, build a heap of cedar branches and burn himself to death, or was he murdered in an effort to torture him into telling the whereabouts of money he is supposed to have hidden?

This is the murder mystery for solution by the county officials of Twin Falls county.

The easy way out is the claim that suicide ended the life of the unfortunate and suffered. But there stands in the way of this theory an array of facts and a line of reasoning which calls for the utmost effort to clear before the suicide theory be adopted.

The Suicide Theory. The suicide theory presumes that not only did Eggergluse bind himself with wire, but that he also bound himself to death, saturating his underclothes with kerosene and set fire to the mass, but that after the fire had engulfed him, had burned his lower limbs till they burst; the right foot till the tendons were severed and the foot was almost ready to drop off, he unbound himself from the wire, extinguished the fire, put on his outer clothes and walked on foot from the fire with one foot almost burnt off, and there laid down and died.

The Suicide Theory presumes that the man was insane. This may be true. He has been in bad mental shape for some time. He has formerly been an inmate of an institution for mental trouble. He has been acting queerly of late, says those who are familiar with his habits.

The Murder Theory. Before the suicide theory can be accepted, there must be accounting of the following:

Fred Eggergluse has been popularly supposed to have hidden a vast sum of money. This story has been broadcast for a long time. The man lived much the life of a recluse, notwithstanding his family relations. Whether or not he had hidden wealth is not known. What more plausible than that some man or men, believing that he had hidden wealth, sought him in the lonely canyon where he was found, bound him with the wire, built the fire and began torturing him in an effort to learn from his lips the hiding place of his money? The jaws of the corpse are clamped firmly in death. The lips are pressed tightly together. The beard is singed, the face blackened, but not badly burned. The eyebrows are singed, but the eyelashes are not burned.

Suggestions of Torture. The work of torture could well have been carried out in the lonely canyon. And when the lower limbs had been burned to a char, and the story of wealth did not come, or if there were no wealth and the victim said so to the torturer, and his wounds were found fatal by the torturers

GUSTAV BAUER
FRIEDRICH EBERT

LEADER OF KAPP REVOLT ARRESTED—EBERT'S ORDER

BERLIN, March 23.—Major General von Luttwitz, the military commander in the Kapp revolt, has been arrested. It is officially announced. Admiral von Trotha, chief of the navy, has also been arrested.

There is no definite news of Kapp's whereabouts. It is supposed he is on his estate in east Prussia.

After his return to Berlin President Ebert ordered the imperial court at Leipzig to bring action against the leaders of the revolution, including Kapp, von Luttwitz, von Jagow and Admiral Trotha.

BERLIN, March 23.—The retirement of Gustav Noke as minister of defense, came after a stubborn attempt by his party supporters among the coalition bloc to retain him in office in opposition to the pressure of the Berlin party and labor leaders and the clamor of the independents. His resignation was first tendered to President Ebert on Friday at Stuttgart and was at that time not accepted.

When the Ebert-Bauer government returned to Berlin Sunday, the faculty of trying to hold Noke in power was

promptly discovered and the man who had long been a red flag to the independents and radicals has now been cast aside.

The designation of Noke within the ranks of his own party is only one of the numerous manifestations of impatience with the Bauer cabinet exhibited in the past few days. Noke being censured because of "obtuseness in letting himself be hoodwinked while the reactionary elements were influencing the army administration and his failure to have the notorious battle troops, especially Eberhard's brigade, garrisoned elsewhere than outside of Berlin, where they were within easy marching distance of Wilhelmstrasse.

A most significant development was the demand of the independent socialists for a straight labor cabinet. A party delegation headed by Adolf Hoffmann presented the independent terms to the government yesterday. These were chiefly the elimination of the bourgeois parties from the government, withdrawal of troops from the streets and reorganization of the army.

It was under the guidance of Deputy George Huffman. "Mr. Huffman took a bunch of boys out to the canyon," said Mr. Green. "The dead man's son was with the party of scouts. It was suggested to Huffman that a trip be made up Snake creek canyon but Huffman declared that that was nonsensical and told the boys to go down into Snake river canyon and then meet him at Perrine's. The body could have been found at that time, I am certain, if the proper kind of search had been made by Huffman. It would have given us a much better chance to have discovered the murderers."

Green was the first witness called and he was asked to relate to the jury what he knew concerning Mr. Eggergluse's manner of living, habits and business and incidents leading up to the discovery of the body and its recovery from the canyon.

Was in Asylum. The substance of Mr. Green's testimony was that Eggergluse was released from the state asylum at Blackfoot about four years ago after having been held there for several months, and that since his return to his farm he had been perfectly harmless and always seemingly happy and well. The actual farm work was left to others from the time of his return and he busied himself solely with caring for his bees. Until last year he was very particular with everything connected with his bee business. Two years ago

BLISS ATTACKS SIMS' REPORT ON THE A. E. F.

Denies, in Toto, Statements Made by Admiral in Senate Testimony.

PITTMAN AND NAVY MAN IN HEATED ARGUMENTS

Later Informed That He is not on Bridge of a Ship When Appearing Before Committee.

By the Associated Press. WASHINGTON, March 23.—The controversy started by Rear Admiral Sims' criticism of the navy department's conduct of its war activities was broadened tonight by the chief of the war department to deny some of the admiral's statements regarding the land forces.

General Tasker H. Bliss, American representative in the supreme war council, not only denied categorically that he had recommended the bringing of United States troops with foreign armies, as testified by Admiral Sims, but declared "the truth is exactly the reverse."

General Bliss made his denial in a letter to Secretary Baker, who transmitted it together with a copy of the original order assigning General Bliss to command the forces overseas, to Secretary Daniels, and he in turn set both on to Chairman Hale of the senate naval sub-committee, at the same time making all the correspondence public.

Rear Admiral Sims' statement Monday concerning General Bliss' alleged recommendation was made in discussion by the admiral of the most effective manner in which the United States forces abroad could have aided the allied cause. Senator Pittman, democrat, Nevada, read from an unsigned letter found in Admiral Sims' filing cabinet that American troops passing through Great Britain to be engaged with the British forces. He called the document "British propaganda" and said it was part of English organized effort to prevent the formation of a separate American army. Admiral Sims replied that while he had not written the letter he objected to having it called propaganda and said it was "pretty good military reasoning" and "what Bliss recommended."

Cross-examination of Rear Admiral Sims was completed today by the senate committee investigating his criticism of the navy department's methods of conducting the war.

Admiral Sims was charged by Senator Pittman, democrat, Nevada, with a desire to "turn over the whole American navy to the British during the war regardless of protection of the coasts of the United States," and with having "favored the French or British policy, certainly not the American policy, of sending raw, untrained troops to France."

"The testimony before this committee proves to my satisfaction that you relied very largely on the British admiralty for your opinions and recommendations," declared Senator Pittman. "You talked freely to Americans abroad during the war of your belief that the American expeditionary forces transport system had broken down and on November 9, 1918, you still thought General Pershing's supply arrangements behind the Argonne front and Jackson and you never expected him to succeed there."

"That is the veriest kind of rot," retorted the admiral. "No officer of my experience, not to my record, would allow himself to be governed by any such policies."

BRANDEGEE SEVERELY ARRAIGNS PRESIDENT

By the Associated Press. NEW HAVEN, Conn., March 23.—Criticism of President Wilson, in which the way, twenty militant and militant politics of the democratic administration were severely arraigned, featured an address here tonight of Senator Brandegee, acting as temporary chairman of the republican state convention. He asserted that "the president of the United States has not been so shielded from just criticism by events as has the president of the United States."

SUFFRAGE DEFEAT IS LOOMING IN DELAWARE

By the Associated Press. DELEWARE, Del., March 23.—With the possibilities of the defeat of the ratification of the suffrage amendment looming large, preparations were made today by the Delaware legislature to have the ratification measure presented to both houses tomorrow. Arguments for and against suffrage will be heard Thursday and leaders of the anti-suffragists are working hard to have the measure acted upon by Friday afternoon.

COMMENCE HEARING ON R. R. WAGE DEMANDS

By the Associated Press. WASHINGTON, March 23.—Formal consideration of the wage demands of the two million railroad workers was begun today by the joint wage board, organized yesterday by the railroad courts. It took up first data on wage questions obtained by the railroad administration boards of adjustment.

Leaders of both sides said tonight they were giving attention to all details of every claim in order that when agreement was reached, the divided or class demand would not come up for further discussion except in its relation to living costs and rates of pay in other industries. There was no indication of what particular claims would be considered first. Chairman Whittier said he would withhold public statements until "progress of moment" had been made.

NAVAL APPROPRIATION BILL PASSES HOUSE

By the Associated Press. WASHINGTON, March 23.—The naval appropriation bill carrying approximately \$425,000,000 passed the house today without a roll call and now goes to the senate. It includes provisions aggregating \$104,000,000 to carry on construction of new ships authorized in the 1916 three-year program and for an enlarged personnel averaging 125,000 in the navy and 20,000 in the marine corps. There was no provision for new construction in addition to vessels already authorized and contracts for which have been awarded.

An amendment by Representative Hull, republican, Iowa, attaching the same provision against post-watch systems in navy yards that had been previously enacted for both arsenals and navy yards was adopted 218 to 69.

Refuse to Promise Not to Raise Prices of Meats

WOOD LEADS IN HOT RACE IN S. D. PRIMARY

Has Margin of 3,000 in Returns From 605 Precincts This Morning.

LOWDEN AND JOHNSON RUN NECK TO NECK

Norbeck Ahead in Republican Race for Senatorial Honors—But Few Democratic Contests.

By the Associated Press. SIOUX FALLS, S. D., March 24.—(Wednesday)—Leonard Wood made a lead of 3,000 votes over Frank O. Lowden for republican presidential endorsement, on the face of returns tabulated at 1 o'clock this morning from 605 out of 1740 precincts in 51 of the 64 counties. The vote stood: Wood, 20,257; Lowden, 17,298; and Johnson, 15,282. This tabulation included reports from nearly every city in the state.

The returns practically cleaned up the precincts in all the leading cities of the state except Huron, where several precincts were missing. Shortly before midnight, the Black Hills counties began to report and those heard from went heavily for Wood. Johnson pulled a heavy vote at Yankton and completed returns from Pierre, the state capital, showed he carried the city by a plurality of seven votes over Wood. Governor Peter Norbeck has a good margin over Dick Haney, for the republican senatorial nomination, and W. H. McMaster of Yankton, ahead of I. O. Richards, his opponent for the republican nomination for governor.

Number Automatically Nominated. Tabulated returns included complete or almost complete returns from Watertown, Madison, Canton, Vermillion and a score of smaller cities less than 300 precincts are represented by the counties not heard from. Most of these precincts are in remote districts.

Wood received strong support in the Black Hills and many the west precincts are included in those which were not heard from.

A number of candidates for national and state offices were automatically nominated. The Richards primary for governor was a process where candidates have no party opposition. The ticket of the national Non-Partisan league—which has a party status in South Dakota—was not on the primary ballot. When the time limit for independent candidates to file had expired, the secretary of state had not received any additional filings. Independent candidates for league support and the ticket endorsed at the proposed convention, December 2, was considered nominated.

Thomas Ayers, of Zonia, is the league nominee for United States senator and M. P. Bates of Letcher is the party's candidate for governor. The proposed convention endorsed Governor Lynn J. Frazier, of North Dakota, as candidate for president, but Frazier did not formally accept the endorsement.

Democrats Contests Few. The democrats had few contests. The ticket for state office endorsed at the Pierre convention was not contested. There were no congressional contests. In the third district, Reginald H. Gandy, of Rapid City, was nominated to succeed himself. Interest in the democratic primary was centered upon the fight for national committeeman between James Moe of Contrecoeur and John A. Bowler of Sioux Falls. Ralph R. Johnson of Sioux Falls, and J. E. McWhorter, and for United States senator between W. S. G. Cherry of Sioux Falls, and Tom Taubman of Plankinton.

Johnson Has Clear Field. James W. Gerard of New York, James O. Monroe of Maywood, sought democratic endorsement for president. There were contests here on the republican ballot only candidates had a clear field for Representative Royal C. Aberdeen, in the second district. He seeks re-election.

PARK SITE BOND ISSUE IS DEFEATED

Majority Cast Against Proposal in Both Wards—273 for; 312 Against.

Both wards in Twin Falls yesterday voted up measures against the issuance of bonds for the purchase of a park site in Twin Falls.

Not only did the proposal fail to receive the necessary two-thirds required for the approval of a bond issue, but in each ward there was a decisive majority against the bonds.

The vote stood:

First ward: For the bonds, 149; against the bonds, 152.

Second ward: For bonds, 132; against bonds, 187.

Total for the bonds, 273. Total against, 342; majority against the bonds, 69.

The vote cast was very light, no enthusiasm for the issue being evident. The untruthful statements printed in the Times were retracted by that newspaper in its edition yesterday, but the poison had been spread and with a very light vote the opposition was too heavy. Added to this, there was really no interest manifest in the election by the rank and file of voters.

Local Briets

Bert Hatch, who has been visiting his sister, Mrs. Charles Bullis, left yesterday for Pocatello. From there he will make visits to Wallace and Kellough and later will return to his ranch at Delta, Utah.

Miss Margaret Torgue, a teacher at Albion normal school, was returned to Albion after spending several days here with Miss Lois Hickman.

Mr. and Mrs. W. R. Anderson left Monday morning for Idaho Falls where they will make their home.

L. E. Tate, local manager of the Skaggs store, attended a meeting of all Skaggs store managers at Pocatello and reports the opening of another store in the chain of a dozen such stores now in operation.

J. F. Wood of Dolan is transacting business in Twin Falls.

Out of town shoppers yesterday included Mrs. Georgia Thompson of Rogerson.

J. N. Hobbey of Rogerson was in Twin Falls over the week end and returned to his home Tuesday.

O. W. Gilbert of the navy recruit-

ing station at Pocatello was in Twin Falls yesterday making arrangements to conduct a campaign for recruits here. He will return Monday and will be located at the army recruiting station.

Mrs. T. E. Warner spent yesterday in Burley visiting friends.

Mr. and Mrs. J. L. Richards of Macle, Idaho, are visiting in Twin Falls.

J. L. Pearson of Gooding is attending to business matters here.

C. E. Ross of Rogerson is in Twin Falls on business.

H. P. Chaffield of Salt Lake is a business visitor in Twin Falls.

Dr. and Mrs. H. C. Hider have moved to the A. N. Spangue residence at 148 Third avenue north.

Mr. and Mrs. G. C. Wiley and little son, left Monday for a visit in Camarillo.

Mrs. C. E. Vance of Hazelton is a patient at the local hospital.

The Wednesday Bridge club will be entertained at the home of Mrs. L. T. Wright on Sixth avenue east this afternoon.

Mrs. E. E. Haug, who has been a patient at the local hospital for the past three weeks, returned to her home yesterday.

The Foreign Missionary society at the Methodist church will meet with Mrs. C. H. Stinson, 451 Second avenue north, Thursday afternoon at 2:15.

Mrs. James Sutton of London, England, who arrived in Twin Falls last Saturday, will remain here for the summer.

MAN WILL PAY FINE BY VISITING FOR COUNTY

A request has been received at the local sheriff's office asking that Joe Wollock, recently arrested at Bluff for beating a board bill and fined \$30.45, be allowed to pay his fine by working for the county as Wollock is without funds. It is thought that permission will be granted.

KIMBERLY LEGION POST TO BUILD \$12,000 HOME

At a recent meeting of the Kimberly post of the American Legion it was decided to raise funds for the erection of a \$12,000 building for a home for the organization. The post raised \$500 last Friday through a chess auction.

UNPAID PROMISSORY NOTE IS CAUSE OF COURT ACTION

A promissory note alleged to be due and unpaid is the cause of the institution of proceedings in district court by Max M. Morchome against Katie Knudt, John Knudt and others.

Judgment is asked for \$700 together with attorneys fees and court costs.

BRIEF NEWS NOTES.

Bluff, March 23.—Efforts are being made by the chamber of commerce to build a new library building here. A committee has been appointed to gather all the information necessary and to submit a plan at the next meeting of the chamber. A letter is to be written to the Carnegie Institute for information on their plans.

The chamber will make an effort at tax levy time to secure authorization to pay the school teachers of Bluff larger salaries.

Plans are being made by the chamber of commerce to construct a new building for the legion here. A committee has been appointed to devise a way or means to raise funds amounting to approximately \$20,000 for this purpose.

The committee will submit their plans at the next meeting of the chamber.

Mr. and Mrs. Dan Whitley, accompanied by Mr. and Mrs. C. D. Bortler, motored to Salt Lake Sunday. They will return sometime the latter part of the week.

Friday night there will be a num-

ber of slug fests, a boxing exhibition to be staged in Stone's hall. The funds will go to the aid of the base ball team. There will be a goodly number of fast bouts between some Bluff scrappers as well as some outsiders.

UNPAID BAY BILL CAUSE OF ACTION IN PROBATE COURT

J. M. Boyd in a complaint filed in probate court against D. D. Huggers alleges that he sold the defendant alfalfa hay last fall to the value of \$110 but that he has received only \$50 of the amount and asks judgment for the \$60 balance, together with the costs of action.

DR. SULLIVAN IS APPOINTED STATE VETERINARY SECRETARY

Dr. W. A. Sullivan of this city has received notice from the national president of the American Veterinarian Medical association that he has been appointed state secretary for the association in Idaho. Dr. Sullivan is in charge of hog cholera eradication work in this state under the direction of the Bureau of Animal Husbandry of the federal department of agriculture.

OFFICIALS TO INVESTIGATE DELINQUENCY AT MURTAUGH

Miss Britton-Walke, county superintendent of schools and John Ault,

county juvenile officer, will go to Murtaugh today to investigate causes for delinquency on the part of certain pupils. Stops will be made on the way up for short visits to the Hansen and Kimberly schools.

The Life Insurance Man says: the value of a Life Insurance Policy doesn't depreciate with age, but increases in value each year.—Adv 1E

Build For the Future When You Build This Spring

Before laying a stone for your foundation, before buying a pound of nails, before you order a bunch of shingles, take a few minutes of your planning time and consider the advisability of having none but the best material go into the building of your home or other structure.

A well-built frame structure will last indefinitely with proper care. You can travel through the New England states, one of the oldest settled portions of America, and find beautiful homes built of pine which have stood for 250 years and are ready today to give as many more years of service.

Spring is the time to start building.

Right now is the time you should decide to use none but the best building materials in the structure you are planning, such as we carry in our yard.

Ask our yard manager to help you with your building plans. He will be glad to give you the benefit of his practical experience.

GEORGES IS MUCH CONTRACTED MAN

Bout With Dempsey During 1920 Is Improbable—Meets Many Promoters.

NEW YORK, March 23.—The arrival here today of Georges Carpentier, champion, caused the proposed match with Jack Dempsey to flame afresh, but after several hours of mysterious conferences with various promoters, there was little evidence to indicate that the French pugilist would meet Dempsey in the near future.

The situation with which Carpentier and his manager, Desamps, are closely related recently, here and abroad, seemed American promoters and left them in doubt as to the possibility of bringing Carpentier and Dempsey together within the next 12 months.

A close analysis of the situation disclosed the fact that the Frenchman was under contract with three different promoters which bound him to perform certain services which are closely related and which apparently prevent him from actually boxing Dempsey for some months, provided he is so inclined. The English promoter, Corbett, has first option on Carpentier's ring services providing he can obtain Dempsey's signature for a match, the option extending to December 31, according to one report, and to July, 1921, according to another statement.

In addition, Jack Curley, wrestling promoter, has Carpentier booked for a 10 weeks vaudeville tour beginning May 2, with another five weeks' extension if he desires to exercise it. Curley stated that he expected to tour the country with the Frenchman during the latter's boxing exhibitions with his own sparring partners.

A third contract is with a moving picture concern which has booked Carpentier for two seven reel films in which he will take the part of a college youth engaged in a boxing role. The possibility of a match with a French or English heavyweight, in France in August, was also mentioned and local fight followers are puzzled as to when Carpentier will find time to box Dempsey.

Manager Desamps, when interviewed through an interpreter, stated flatly that Carpentier has no intention of engaging to box Dempsey until the latter's "military affairs" had been cleared up. A somewhat similar statement was credited to Jack Kearns, manager of Dempsey, according to one of the interested parties, who said he had received a letter from Kearns to the effect that Dempsey would not consider a match of any description until his name had been cleared of the draft evasion charge.

Tex Rickard, who was closest to Carpentier and his manager for several hours, was non-committal after the conference and refused to give any definite idea of his plans in regard to staging a bout between the French boxer and Dempsey. His only comment was to the effect that it did not appear that such a match could be arranged for the summer or fall.

Notwithstanding the uncertainty of such a conflict, Carpentier was greeted in impressive fashion and will be the guest at several semi-public functions during the next few days. Chief among these will be a dinner tendered to the pugilist's party on Thursday night by the officers of the International Sporting club, at which a number of prominent personages will formally welcome Carpentier to America.

Several important announcements are expected to be made at the dinner, which will be of great interest to followers of sports. The former professional sport organizations will probably be made public as well as a statement from former Champion Jess Willard, provided the latter can reach this city in time to attend the banquet.

Carpentier is expected to give a demonstration of his boxing skill if a suitable opponent can be obtained to oppose him.

ONE CHANGE IN STANDING.
PEORIA, Ill., March 23.—One

change of importance was recorded in the high jumps at the American Bowling congress here today. J. P. Dunlap and H. Homer, Aurora, Ill., went into fourth place in the two day event with a count of 1256. Other attacks in the individuals and two men classes by bowlers from New Haven, Conn., St. Louis, Pittsburg, Cleveland, Erie, Penna., and Mt. Shallow, Iowa, failed.

FRENCH LONG DISTANCE.
RUSSEK WINS HIS PLACE.
By the Associated Press.

PARIS, March 23.—Marcel Guilleminot, the French long distance runner, yesterday confirmed his right to represent France in the Olympic games, by winning the French national run of 100 kilometers, making the distance in one hour, one minute and 13 seconds. By this victory, Guilleminot

now became the cross-country champion both of France and Great Britain.

The growing interest of women in athletics was exemplified yesterday by six runners taking part in a race Sunday at Auburn. The distance was about 235 miles and the winner covered the distance in 16 minutes, 47 seconds.

The largest apple orchard in the world is at Duffur, Ore. It contains 1,800 acres, with 200,000 trees, and in 1919 bore 6,000,000 pounds of choice apples.

ACTION AT WASHINGTON.

German militarism has failed to come back, but German Bolshevism is an imminent peril. This is the salient fact of the latest attempt at counter-revolution in Germany.

The aristocracy, seeking to regain its old power, was easily put down, but the temporary disturbance it caused opened the way for a proletarian dictatorship. The "Spartacists," as the German Bolsheviks call themselves, have gone further this time than they did in their first outbreak. They may actually succeed, now or later, in getting a firm grip on Germany. If so, good-by to the Paris treaty. It will be resistance, active or passive, against the fulfillment of Germany's war obligations. It will be at least a friendly understanding with Lenin and Trotsky, and a possible Russia-German Red league against western Europe. The world would be plunged into uncertainty and confusion. There would be no assurance of peace, justice, order, prosperity.

And for all this threatened peril, what is responsible? Primarily partisan politics and personal animosities in Washington, which have delayed peace month after month, while statesmen quarreled and dallied and fussed as if the world-fire were not still smoldering.

If Washington had ratified the peace treaty in effective form, neither a militarist revolt nor a Bolshevik revolt would have dared raise its hand in Germany.

The lesson is so plain that it needs no argument to drive it home. It is time for quick, wise, patriotic action at Washington. May it not be too late.

LEGITIMIZING CHILDREN.

North Dakota has adopted a notable long-headed reform in providing legal rights and a respectable status for children born out of wedlock. The first case of the sort under the state's new law has just been decided in Cass county. By court action, a child who, under the old order, would probably have been a nameless waif, has been formally declared the son of his natural parents and has received his father's name. He is now entitled to support, shelter and education—equally with other children that may be born in legal marriage, and entitled to share in any estate jointly with other heirs.

Under this law, a suit to establish the parentage of a natural child must be instituted within a year after birth, and the facts must be proved as in any other legal action. In effect, it does away with "illegitimacy" altogether, in cases where either parent sees fit to take the proper steps. Thus it abolishes a wrong against unoffending children which has been one of the greatest stains on modern civilization. At the same time, it confers a distinct benefit on society; for it is admittedly far better for the community to have all its children, regardless of their origin, properly and decently reared.

There is a widespread movement under way to extend similar legislation to other states. A vigorous propaganda is being conducted by the Children's Bureau of the United Department of Labor, and by an organization called the Inter-City Conference on Illegitimacy. These two bodies are aiming particularly at legislation which shall be uniform, and which shall make the legitimizing of natural children a process imposing as little difficulty and injustice as possible to either parent.

CHINESE VIEWS OF OUR SCHOOLS.

Since December 17, 1919, a Chinese educational commission has been traveling in the United States studying our public school system. It has centered its investigations on the normal, secondary, elementary and vocational schools, in both city and rural communities. Although the commission is here to study our methods with a view to introducing new and helpful ideas in Chinese schools, its work and conclusions hold much material for serious thought for educational leaders here at home.

One thing that struck the Oriental educators as odd is the fact that in the United States the modern school building is a model of beauty and efficiency, while the teaching force is sadly neglected—underpaid, overworked and disregarded generally by the public. Why such elaborate tools and so little emphasis upon skilled men and women to use them?

"In China," said one of the commission, "the school teacher is regarded as the most valuable asset of the community, and is given credit for being the most intelligent and patriotic of citizens. In the United States the public school teacher is paid a wage much lower than the skilled workman. In China he is taken care of with a wage that is higher."

Of course, modern education methods are newer in China than in this country. Yet is that really a reason why ours should lag behind the times while those of China are in the lead?

Another thing which surprised the visitors was an apparent over-haste in passing from one lesson or subject to another, for, say they, "we are convinced that only by quiet and prolonged thinking can the vital and worth-while ideas be clearly grasped and held." This is very revolutionary, indeed, to expect pupils to think clearly and grasp worth-while ideas. It would do no harm, however, to try it out in our public schools. Perhaps some day we will thank the visiting commission for setting before us freshly the real ideals of education.

HONESTY IN SHOES.

There is considerable opposition to a bill in the New York legislature which provides that shoes shall be labeled in such a way as to reveal the use of leather substitutes in their making. The manufacturers argue that it would be unfair to brand New York products in that manner because it would make them less salable than similar shoes made in other states.

There is truth in this contention. The proper thing to do would be to obtain a uniform regulation in all of the shoe-manufacturing states, so that every producer would be under the same obligation, and there would be no unfair competition in the national market. Such legislation should naturally be the duty of congress rather than state legislatures. The country is already familiar with the application of the principle in the pure food and drug act, and there is a growing demand that it be extended to clothing and shoes.

It is possible, however, that the New York manufacturers are unduly alarmed, even if the reform is to be restricted to their own state. A New York newspaper suggests:

"Why is not an exactly contrary assumption just as logical? There is reason to believe that New York made shoes certified by the state to be what they are represented to be would enjoy a better market than others not bearing labels. Purchasers would then know what they were buying and unscrupulous dealers would not juggle prices. It might be found true, after all, that honesty is the best policy."

Statisticians say the United States owes \$1,000 per family. Fortunately, however, the families owe it to each other, and not to any foreign country.

The former kaiser recently saved his 16,000th log. What a pity that talent was not discovered earlier in his life.

OUTBURSTS OF EVERETT TRUE

PERSHING PRAISES WORK OF A. E. F. REPORTERS

By the Associated Press.
 BALTIMORE, March 23. In a lecture here tonight, Charles H. Grasty of the New York Times, referred to a letter from General Pershing, praising the work of American newspaper correspondents in France.

"I need not tell you how much I regret my inability to come to Baltimore Tuesday and have the pleasure of introducing you and saying a few words on the fine work of the American press correspondents in France. I need not without exception the representative of the American press realized the necessity of army supervision, and the compensating factors of the unlimited opportunity of seeing everything at the front, which this supervision and control alone made possible. They subordinated their instinctive and natural desire as newspapermen for news to the obligation of intelligent co-operation with the military authorities who of necessity were alone in position to judge when and what items could be safely transported."

"I can remember no occasion when a correspondent knowingly violated the trust placed in him, and I fully appreciate the valuable assistance they gave in placing before the American public matters which were considered of importance to the success of American arms. Although in the nature of things it was hard to demand of newspaper men that they comply with the censorship regulations when information which had tremendous news value had to be withheld, the American correspondents—some and all co-operated with the army authorities and played the game which helped us to win the war."

PARSON PASSES UP KAISER.
 AMERONGEN, Holland, March 23. For the second time former Emperor-

or William of Germany was deprived of the customary religious services at Bentinck castle Sunday. Because of the new restrictions, the German minister from Zeist, who usually presided at the services at Bentinck castle, was unable to enter. Today the former emperor renewed with energy his wood sawing operations, sticking at his task for four hours.

ANNOUNCE APPOINTMENTS IN HIGH-MASONIC ORDER

WASHINGTON, March 23. Provincial grand lodge appointments of the Royal Order of Scotland, one of the highest Masonic lodges, were announced here today by George E. Carson, grand master for the province of the United States. John L. Thomas, New York, was named deputy grand master; Sterling Kerr, Washington, secretary; Leroy A. Goddard, Chicago, treasurer; Perry W. Weidner, Los Angeles, senior grand warden; Thomas E. Harrell, Kansas City, junior grand warden; and Canon William T. Smyth, Washington, chaplain.

UNIVERSITY NEWS NOTES

MOSKOW, March 22.—Last week seemed to be a visiting week. Albert Benoit went to Lewiston for the week end and for a little diversion Gladys Chinnel was a guest of the Zeat ph house in Pullman Friday, attending the Varsity ball there.

"Ted" Holderman, who has been suffering from rheumatism, is much better and expects to be out the end of the week. Ralph Bristol also went to the hospital this week with the rheumatism.

"The Amazons" was given last week and without doubt, "Mike" Thometz was one of the best actors on the east. He took the part of Galfred East of Tennessee and from his monologue to his woeen socks, he looked the part. Although Mike is an amateur, one would think he was an old hand at the game. His "We are never

at a loss" caused much laughter and his "Good heavens," will follow him the rest of his life.

W. H. Kjosness, the president of the alumni, will be in Twin Falls about March 25, to organize a university club there. He has organized four clubs in northern Idaho and has found unusual interest displayed in all the places.

Ted Erb will go to Twin Falls some time next month in the interest of the American Legion. Mr. Erb has been in Twin Falls before and is quite well known there.

TREAT HUSBAND TO SOME OF HIS OWN PUNISHMENT

By the Associated Press.
 WAIREN, N. March 23.—George Belley probably knows what his wife has suffered when he beat her with a leather belt. On order of Judge Leonard Pardee, of the municipal court, a court officer today stripped Belley's back of clothing and applied a series of lashes with the handle end of the same belt with which his wife had been beaten.

Mrs. Theresa Belley caused her husband's arrest and told the court of the beating he had given her with the belt.

ALSACE ENDS FRANCE.
 By the Associated Press.
 STRASBOURG, France, March 22.—Al-sace has subscribed more than a half billion francs to France's "poverty fund." Strasbourg alone took \$9,000,000 francs in the aid bonds.

NEWSPAPER MAN DIES.
 By the Associated Press.
 VIENNA, March 18.—Maurice Benedict, editor and owner of Austria's foremost newspaper, the Neue Freie Presse, died last night. He was 72 years of age.

The state of Ohio led the nation in the purchase of war savings stamps in 1919.

NOTICE OF STOCKHOLDERS MEETING.

To the Stockholders of the Twin Falls Dehydrating Company:
 Notice is hereby given that a special meeting of the stockholders of the Twin Falls Dehydrating Company has been called for the purpose of increasing the capital stock of the corporation to Seventy-five thousand dollars, and that such meeting will be held at the Parish Hall in Twin Falls, Idaho, on Tuesday evening, April 6, 1920, beginning at 7:30 o'clock.
 By order of the Board of Directors.
 W. L. FRIEDLE,
 President.
 2x Mar 5-12-1920 Apr 2.

BANK ROBBER IN FUTILE EFFORT TO ESCAPE PEN

By the Associated Press.
SACRAMENTO, Cal., March 23.—A futile effort to gain his liberty was made by E. P. Hudson, Los Angeles bank robber, in a Pullman compartment early today, where he fought desperately with Frank Cochran, deputy sheriff, who was talking him to prison to serve a term of from one year to life imprisonment.
The attempt was made near Tulare City, Cochran related, when he appeared at the jail here, his head bandaged in bandages, to await transportation to Folsom with his partner, Hudson, who was manacled in an upper berth, asked to be allowed to get down for a drink of water. Cochran permitted him to leave the berth, and with glass of water in hand Hudson asked his keeper what this it was.
When Cochran struck him on the head with the glass, and a fight which lasted many minutes ensued before Cochran was able to gain a throat hold and bound Hudson backward over a berth. Hudson was choked into submission and the manacles restored.
In another compartment on the same train was Deputy Sheriff H. M. Donnon, who had in custody Arthur and Herbert Brown, who will also serve prison terms for robbery of a branch of the Los Angeles National bank, the offense of which Hudson was convicted.

TWO THEORIES ADVANCED FOR MAN'S DEMISE

Continued From Page One.

He cleared about \$1,200 from sales resulting from his business.
He developed several superstitions and finally refused to eat any food cooked by his wife with the exception of bread. He did his own cooking. At one time he was possessed with the idea that something was wrong with the Lutheran minister in charge of the church which he had been in the habit of attending and took \$1,000 to a Catholic priest whom he seemed to think would be able to correct existing evils, according to Green's testimony. He did not attend church after that time.
Gives Money to Family.
On six or more different occasions this spring he has given members of his family a \$20 bill with the request that they purchase some little gift for him. The change would be returned to him but never did he send

for anything with any of the change received from the precious bill. He drew his money out of the bank when he returned from Blackfoot because he seemed to think it wasn't as safe there as it would be in his care.
For no apparent reason he lost interest in his bees this year and realized only about \$500 from the business. As a result of neglect about half of the bees have died.
Had Money Hidden.
It had been his custom to walk along the rim rock of the canyon every day at least once and often twice a day. Sometimes he would go into the canyon and would be gone all day. It was believed that he had hidden his money somewhere in the rocks and that he made these trips to assure himself that it was secure. No attempt was ever made to follow him, for the purpose of discovering his hiding place. Mr. Green said that Mrs. Eggerhus had estimated from what she knew of the amount of money he had received and spent that he had between \$500 and \$1,000.
Tells of Discovery of Body.
In regard to the discovery of the body, Mr. Green commenced by telling of his first hearing of the disappearance last Friday from the son of Mr. Eggerhus. He suggested to Mrs. Eggerhus that authorities be notified but she thought it better to wait a little longer as it was possible that he would return and that in that event he might be angry if he should learn of action. A slight search was made with no results and Mr. Green testified that he thought it best to notify the sheriff's office and the coroner, which he did on Friday afternoon. Deputy Sheriff man went out but as it was late in the afternoon it was decided to let the search go until next day when search would be made of the canyon by deputies and mounts. A search was made in Snake river canyon but nothing was found.

Family Takes Up Search.
Mr. Green stated that on Monday he saw by the newspapers that the search had been made and that nothing had been found and that he then began making contact with members of the family to make a search along Rock creek canyon.
While following the rim rock they came to a place from which they could see the remains of a fire in the bottom of the canyon and suspicious of this, ropes were secured and Mr. Green let himself down over the projecting rock to a bench below and from there to still another and then another, from which position he could determine that the object which could not be determined from above was the body of Mr. Eggerhus.
As it was late in the afternoon and he had no apparatus with him it was decided to make an attempt to remove

the body that evening. Mr. Green stated that the body he touched or moved until the coroner had seen it.
Fire of Considerable Size.
H. E. Tate, a neighbor who assisted in recovering the body from the canyon Tuesday morning, was the next witness called. His testimony showed that the body of Mr. Eggerhus lay about 15 feet from where there had been a fire of considerable size as the heat has affected some near-by rocks. A considerable amount of wire was found where the fire had been. This wire had four loops apparently made to slip over hands and feet and another loop for attaching the whole to a tree or limb.
Examination of the body showed that it had been severely burned about the lower limbs and about the wrists. Wrists and ankles also showed signs of being burned. The body was found in the ashes, the skin being scraped.

Clothing Not Burned.
The underclothing was burned to a considerable extent, but his overalls and mackinaw, which were on the body when found had not been burned. Mr. Tate estimated that the fire covered an area about 16 feet square and testified that he assumed the distance from his mate. The body was found on the body or near the fire. One mackinaw lay a considerable distance from the body, but neither hat or mackinaw had been burned. The fire was evidently of brush.
Third witness called described the position of the body as it was found Tuesday morning. With the wire he described stated how it would have been possible for Mr. Eggerhus to have twisted the loops on himself. Also said that the body found near by had apparently contained a lantern. A junny rack lying on the rocks not far from the fire contained some debris. When asked concerning trees which had been cut, he said that he estimated that the cutting had been done at least a month ago. He could

give nothing to indicate where there had been a struggle in the vicinity of the fire, and stated that there were no tracks in the sand near the creek. He was unable to say whether or not the victim might have taken steps after being burned.
Reveals Murder Theory.
A. J. Foster, who was the next witness called, in answer to a question as to whether or not he believed it would have been possible for Mr. Eggerhus to have replaced his clothing after having been burned so severely as he was, stated that he did not believe it would have been possible for him to do so. It was his belief that the body could not have rolled from the fire to the position in which it was found. There were no signs of the brush for the fire having been gathered re-

cently and indications seemed to be that preparations for the fire had been made previously.

Dr. H. S. Alexander, who made an examination of the body, testified that it might have been dead anywhere from three to 12 days. The burns were sufficient to cause death, although the man may have lived from four to fifteen hours after receiving the burns. Burns covering one-third of the surface of the body will cause death, he said. He also said that it would have been possible for the man to have replaced his clothing after having been burned. In answer to a question from a jurymen he said that it was possible that in the event that the man was attempting suicide the burning would bring him to a state of condition of mind and he would attempt to exorcise himself. The muscles were not burned and by his own power the man could have moved it means of ropes and tackle. The depth of the canyon at place where the body was discovered is between 250 and 300 feet.

PROVIDENCE, R. I., March 23.—The Palmer House Hotel arrived here results.

his belief that the man had been murdered, but admitted that he thought it possible that he could have gotten out of the fire by himself. It was his opinion that it would have been with the greatest difficulty that a man burned as severely as this one appeared to be could have replaced his clothing.

Frank Lowery climbed down the canyon by means of a ladder and trail and went round a point to where the body was discovered. This he thought was a possible means by which Mr. Eggerhus got into the Rock Creek canyon.
The removal of the body from the canyon was attended with great difficulty. It was necessary to place a heavy boom over the precipice and Coroner Grossman and Sheriff A. N. Sprague reached the body by attachment of ropes. The body was placed in a canvas and lifted to the top by means of ropes and tackle. The depth of the canyon at place where the body was discovered is between 250 and 300 feet.

today from Mediterranean ports, bringing 15 members of the crew of the United States shipping board freighter Brookfield, which burned and sank in the harbor Hurta, Azores islands, March 3.

DEPRECIATES EFFORT OF THE LEGION TO SECURE BONUS
By the Associated Press.

NEW YORK, March 23.—Efforts of the American Legion to induce congress to appropriate bonuses for servicemen were denounced tonight by Rear Admiral James R. Glennon, commander of the Third naval district. Rear Admiral U. A. Carr and other speakers at the first annual dinner of the Mine Sweeper post, American Legion.
"I am much interested in the American Legion and I do not want to see a diverted from its original purpose," Rear Admiral Glennon said. "Some people are trying to divert it and make it political, or use it for obtaining money or for other purposes. I hope you will keep it a strictly patriotic organization and purely American."

HUNGARIAN BANKS ARE IN BAD SHAPE

Financial Leader Declares Terms of Peace mean Much to Financial Interest of His Country.

BUDAPEST: Robert Hegedus, director of the Commercial bank and financial representative of the Hungarian delegation sent to Paris to discuss peace terms, says Hungary's banking situation cannot be looked upon as cheerful. "All the banks loaned money to the government during the war and later, so if the government can't pay, we are injured," he adds. "The ability of the state depends on the kind of a peace we get."

"According to the boundaries now fixed, it is difficult for us to operate our industries. My bank operates about 25 small railways, for instance, and part of these railways are in our territory, part in that of our neighbors, the Rumanians, the Serbs, the Czechs and so on. Because of the line drawn by the peace conference, these railways may have to cross and recross customs frontiers several times. "There are many sugar factories hindered in the same way. The factory may be left in Hungarian territory while the beet crop is across a customs line. The largest iron works in Hungary are cut off from their ore, the latter having been given to the Czechs."

"Agriculture is the only thing left us, and with rich land and energetic people we are bound to rise again. The waters of the Danube haven't been taken from us and with irrigation we may do a great deal. "From a merely money point of view, we have in circulation about 19,000,000,000 crowns. The damage done by the Bolsheviks may be estimated at 2,000,000,000. Our total war debt was about 32,000,000,000 crowns, most of which was consolidated into war loans."

"Despite a crazy shift boundary line fixed by the allies leaving hundreds of villages to us and leaving hundreds in foreign territory with a customs barrier, making it difficult for the villages to use the railroad, we have not despaired."

SENSATIONAL REVELATIONS

CHICAGO, March 22. Revelations of a sensational nature are being made in the American press today by Joe Maguire, former Cincinnati and Chicago National league player.

"On Sunday," said Maguire, "I shall make public the charges on which the government is basing its action against me. I have been fairly treated and I am going to turn up the goods. If I have killed quite a few and a few people with me, I'll show up some people for tricks turned over since 1906, and there will be merry music in the baseball world."

Robert S. Atorn, Maguire's attorney, said John Heydler, president of the National league, has been asked to investigate charges reflecting on Maguire made by a National league magazine, and added:

"If Mr. Heydler persists in ignoring Maguire's charges against the magazine and refuses to hear them the game will be made public by Maguire."

Maguire, it is said, was refused a contract by the Chicago National league club for 1920.

GERMANS TO RETAIN SETTING OF PRICES

Will Increase Minimum Prices 100 Per Cent Because of Differences in Exchange.

BERLIN. The German government has decided to retain throughout the coming harvest year its policy for fixing prices of wheat, potatoes and other basic food commodities, despite strong opposition to the farmers. At the same time it has announced that the minimum prices which shall be demanded for supplies will be increased by 100 per cent for wheat and 200 per cent for potatoes. These advances are intended as a partial concession to producers to allow for the reduced purchasing power of German money and the increased cost of production.

Under the new scale of minimum prices wheat is fixed at not less than 1,600 marks a ton, potatoes at 500 marks a ton, rye 300 marks, barley and oats 800 marks. This fixing of a minimum price is a reversal from the former practice when maximum prices were fixed. Producers had opposed the maximum price system on the ground that it failed to provide for the general increased cost of production.

Farmers also vigorously opposed

continuance of the government's policy of fixing prices and vainly attempted to have the free trading system restored. The government, acting through the economic council, insisted that the price fixing was necessary because the food situation continues precarious and because Germany is obliged to rely upon her own production until the country is placed in a better position for buying in foreign countries.

The government cited as evidence of probable disastrous results if control of prices were removed, the fact that when oats were released for free trading they sold in the open market at 4,400 marks a ton, while wheat was fetching 500 marks a ton.

TO STUDY AMERICAN RETAIL STORE PLANS

Twenty-Two Britishers Coming Here for Six Week Tour of Big Establishments.

NEW YORK—Twenty-two British merchants, representing the largest department stores of the United Kingdom, will soon sail from England for a six-week tour of the United States to study American methods of retail store management with a view of establishing its use in England. The

merchants, who will be the guests of the National Retail Dry Goods association, will visit most of the principal cities in the country.

Chambers of commerce throughout the country are joining with the national association and local merchant organizations in preparing receptions for the visitors and giving them an opportunity to study American methods at close hand. Secretary of Commerce Alexander has promised to welcome the visitors in the name of the country and pledged the aid of the department in making their visit a successful one.

A special car will carry the visitors on their tour. The itinerary includes stops at Pittsburgh, Dayton, Cleveland, Toledo, Chicago, St. Louis, Kansas City, the Grand Canyon, Los Angeles, the Yosemite valley, San Francisco, Portland, Seattle, Salt Lake City, Milwaukee, Detroit, Buffalo, Niagara Falls and Boston. Side trips also will be made to Washington and Baltimore.

GUIN PILED FOR BATTERY.

J. W. Guinn paid a fine and costs amounting to \$11.25 in justice court yesterday on a charge of battery by A. Tolman. It is said that Tolman accused Guinn of taking some newspapers and that before the argument had ceased the men had come to blows.

***** EMPLOYERS' ASSOCIATION. *****

What Is the Trouble?

Many of the citizens of Twin Falls ask why there is still a controversy existing between organized labor and the employers of Twin Falls and the purpose of this advertisement is to make the issue clear cut and easily understood by all of those interested.

Why Is there Stagnation?

Because organized labor is contending for a condition that is un-American, unfair and is designed to create and maintain a monopoly. Because through that monopoly, organized labor assures inefficient, incompetent and lazy members of their organizations a job and demand that loyalty to the union rules and by-laws be the only test applied as to the workmen's ability.

Here Is the Issue

We quote literally from the demands of the unions: "THE EMPLOYER SHALL EMPLOY ONLY MEMBERS OF THE UNION." The Employers' Association challenges the word SHALL. If the Union men in Twin Falls will use the words MAY or SHOULD or OUGHT to instead of SHALL, the differences will be adjusted and the wheels of industry revolve at full speed.

You Shall

That is an expression of the Autocrat, of the Dictator, of the Kaiser, and of the Czar. It is American, it is fair, it is just, to say MAY, but not SHALL! and as long as the Union men in Twin Falls use the word SHALL there can be no peace, there can be no stability, nothing can be settled permanently.

Not a Question of Wages

It is not a question of ruining the Unions. It is not a question of cutting down the wage scale. It is not a question of denying the right to craftsmen to organize. But: Instead of the Unfair "YOU SHALL employ Union men only," it should be written "YOU MAY employ Union men if they are qualified and competent."

STATE COMMISSIONS ATTACK VALUATIONS

Oppose Railroad Executives' Idea on Investments as Unreliable

By the Associated Press.
WASHINGTON, March 23. Stand alignment of state railroad commissioners representing the public against consideration of the "unreliable" investment accounts of the roads for valuation purposes developed today before the Interstate Commerce commission, which is holding hearings to determine the basis of payment of the standard dividend under the Paris pact act.

Insisting that the "book account" of the roads were worthless as an index to the values of the properties, John E. Denton of the Association of State Railroad Commissioners, sharply criticized the argument advanced by the carriers that any valuation of the roads found to be less than the aggregate accounts would be a blow to the financial centers of the world.

"Since when has this commission rendered its judgment with its face toward Wall street?" he asked. "Since when has it disregarded the law and the facts in favor of the railroads of any situation it came upon in the performance of its duty?" It has heretofore discovered and exposed many shoddy things but the country still lives and the financial centers are still intact."

All the elements of value must be taken into consideration, Denton continued, but the investment accounts of the roads are not to be regarded as evidence.

"Congress has not given you dis-

On Locals to Start Activity

By the Associated Press.
WASHINGTON, March 23. Provision for the representation of "subordinate officials" on the railroad labor board was made in a decision today by the interstate commerce commission. Scrapping the previous regulations governing the labor board nomination, the commission created a fourth group of labor which will join with the three previously named by the commission in the selection of six candidates from which the president will choose three for the labor members of the board.

In the new group of employees and subordinate officials established by the commission's orders are the following organizations:

The Order of Railway Employees, Railway Station and Ticketed Laborers, the Porters' union, United Order of Locomotive Firemen, American Association of Engineers, Brotherhood of Railway Clerks, Order of Railroad Telegraphers, Dispatchers, Agents and Signalmen; Brotherhood of Railroad Station Employees; Colored Association of Railway Employees; Association of Railroad Supervisors of Mechanics; Railroad Yardmasters of America; National Order of Railroad Claim Men; The Roadmasters and Supervisors Association; American Train Dispatchers' Association; Order of Railroad Station Agents; Railway Men's International Industrial Association and the American Federation of Railroad Workers.

A. F. OF L. LAUNCHES POLITICAL DRIVE

On Locals to Start Activity

By the Associated Press.
WASHINGTON, March 23. Organized labor's non-partisan political campaign has gotten into a way "with tremendous enthusiasm" as a result of a mass held last night throughout the country by local unions, according to a statement from American Federation of Labor headquarters today.

Proceedings were held today by President John L. Lewis, Secretary Frank Marshall and James O'Connell, comprising the campaign executive committee, in all local for the centennial of the campaign organization into an efficiently functioning machine. These directions were made public as follows:

"At the meetings of March 22 men have held get-out-the-vote and our American political campaign has been put forward with tremendous enthusiasm. Our brothers all over the map have entered into this movement in a magnificent spirit of co-operation. A large number of men and women of the labor movement will be ready to volunteer when called upon. With this object, we are sending a letter to each local union in your city requesting co-operation in this work and with your central body by the selection of a committee of three."

"Our central policy and our local non-partisan political committee have a great opportunity in the primaries. There is a smashing effort can

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salt to Flush Kidney if Bladder Bothers You

Eating meat liberally eventually produces kidney trouble in some form or other, says a well-known authority, because the urea acid it creates excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery. In the kidney region, set fire. This famous salt is made from stomach, constipation, torpid liver, depression, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of diet salts from any food store; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get free. This ammonia salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush out the kidneys and eliminate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Did Salt cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take not only to keep the kidneys and urinary organs clean, thus avoiding kidney disease, but also to keep the body in good health.

Should a Husband Forgive?

The problem of the ages reduced to the terms of modern life. Of all photo-dramas this is the most amazing in theme and answer.

A Wonderful Race Scene.
TENSE MOMENTS ARE MANY IN THIS ABSORBING PLAY.

When the former lover of Mary Carroll intrudes upon the happiness of her married life.

When the husband, suspicion aroused, follows his wife to the trying place, challenges the other man to a duel, and refuses his wife's plea for a chance to explain.

When the husband meets death in the duel and the wife is turned out of the house by her father-in-law and forced to leave her young son.

When Rex Burleigh, millionaire horseman, under a pretense of fatherly protection, installs innocent Ruth Fulton in a luxurious apartment.

When the jealousy of rough Kid Dugan, pugilist and ex-jockey, who has always worshipped the girl, is aroused by meeting a young man at her apartment.

When Burleigh and his henchman arrange with Dugan a faded prize fight in hope of ruining the youth financially—and he loses \$5,000.

When Kid Dugan is torn by remorse on learning that his crooked work has hurt Ruth, whom he worships.

When Kid Dugan shoots Burleigh dead and gets away by the fire escape.

When Ruth finds employment as private secretary to Mrs. Carroll, the wife who was driven from home.

When Ruth is recognized by Burleigh's henchman when he calls on Mrs. Carroll, and Ruth, dismayed, leaves Mrs. Carroll's employ.

When the boy asks Ruth to marry him and she accepts.

When Mrs. Carroll recognizes her son's fiancée as her ex-secretary.

When the boy hears Ruth's name linked with Burleigh's and, with the stern conscience of youth, breaks with her.

When Ruth determines to save the boy from a plot to ruin him at the race track.

When the conspirators discover Ruth's purpose and gag and bind her.

When Ruth struggles free and reaches the race track before the start of the big race.

When Ruth rides "Lightning" to victory.

When Ruth and the boy are happily reunited.

NO ADVANCE IN PRICES.

Wright's A GOOD PLACE TO TRADE Alteration Sale on Ready-to-Wear

Although we mention Ready-to-Wear especially, all of the stock advertised in Monday's papers will be on sale the balance of this week. Our Alteration Sale is a great success and as one customer said the crowds reminded her of Christmas, we were so busy.

Suits BLOUSES

EASTER is but 10 days off. You can buy your Easter suit for less than you expected for we want to reduce our stocks to provide money for the improvements that we contemplate.

New Spring Suits \$39.50 and \$55.00

That new skirt demands an attractive blouse to go with it. Our stock of Georgettes, Crepe de Chines and Pongee surely has the blouse you have looked for. All are Specially Priced.

Skirts Dresses

For the balance of this week we will continue the sale on our new spring skirts. Not one skirt will be withheld. They include the new fancy silks.

All Are Specially Priced.

When the warm afternoons come and you receive your invitation to the select afternoon tea you will regret that you didn't buy one of the new dresses now on sale.

\$32.50 and \$39.50

The New Spring Coats on Sale

To use a slang expression "Our coats have just been walking out." Maybe it's because we have just what is wanted. We admit this, but feel, too, that price has something to do with it. If you would have a good selection you must hurry. ALL ARE SPECIALLY PRICED.

SHRINE CLUB ORGANIZED PLAN TRIP TO PORTLAND

At a meeting held in one of the club rooms at the high school last evening, the Twin Falls Shrine club was organized. The primary purpose of the organization is to further social and fraternal relations and to keep the club in touch with the other Shrines in the state. The club will immediately make plans for the trip, of Twin Falls Shrines to Portland in June. V. H. Decker was elected president, P. H. Chamberlain, vice president and Sidney Graves, secretary-treasurer. Authorization was given the president to appoint committee on constitution, by-laws and constitution, and membership.

PROSPECTS FOR GOOD YEAR IN DRY FARMING COUNTRY

Murray Damm, a dry farmer who recently arrived in Twin Falls from Ashton, Idaho, brings the assurance that there is sufficient moisture in the hills to assure an abundance of water for the coming season. He reports that there have been heavy and frequent snowfalls for the past few weeks and claims that a heavy early snow fall settled and froze thus storing a considerable amount of water. It is his belief that the prospects for dry farmers this year are very good and he urges that farmers do not lessen the amount of land to be put under cultivation this year because of fear of water shortage.

CHARGE DENT NOT PAID.

Wilson Bros. of Kimberly have filed a complaint in probate court against H. J. Decker charging him with non-payment of debt incurred between June 4 and September 29, 1931. On the original bill of \$28.85, \$25 is said to have been paid and judgment is asked for the balance of \$3.85 with interest at 7 per cent from December 29, 1931, and costs of the suit.

SALT LAKE ENGINEER HERE

C. S. Heuser, engineer for the Heuser Packing company of Salt Lake City is in Twin Falls consulting with persons connected with the highway district's road building projects with a view to entering a bid for construction work.

BLISS ATTACKS SIMS' REPORT ON THE A. E. F.

Continued From Page One.

ness enlivened the hearing for the senators. At one point the senator shook his finger at the officer. "Don't shake your finger at me," admonished the admiral. "It won't do any good."

"You are not on the bridge of a ship," retorted the senator. "We will follow senate procedure, not navy methods here."

"Well you don't need to use politics court methods," replied Admiral Sims.

Captain Horace Lanning, assistant chief of the bureau of navigation during the war and for a time acting head of the bureau, is expected to testify tomorrow.
