TWIN FALLS, IDAHO, WEDNESDAY MORNING, APRIL 21, 1920.

PRICE FIVE CENTS

TORNADO IN ALABAMA CLAIMS 140 VICTIMS

RETAIN PLAN OF PARK AS A MEMORIAL

Senators Vote Unanimously to Carry Out the Original Scheme.

WILL HAVE USE OF THE FUNDS VOTED BY STATE

Will Make Place One Sought by Tourists From All Parts of the Nation.

Twin Falls stands behind the movement for a Memorial Highway to and from the Shoshone Falls park. Other movements for the purpose of honoring the soldier boys and to advance various civic plans will be furthered in their turn, but nothing shall be permitted to interfere with the original plan for the Shoshone Falls park and highway thereto.

View of the Situation. This was the sentiment unanimously expressed at a mass meeting held in the high school building last night.

After the closing of the memorial association for the last year, the meeting covered the full details of the plan, and the results of the money subscribed, the amounts collected; the amounts disbursed and the purpose of these expenditures. After submission of this report, the board took the position that it had no power to alter the original plan; that it was but an agency of the mass meeting willing to pay all expenses to date and refund the contributions to the donors, or to go on with the undertaking, as the meeting might decide.

Calls for Good Faith. Then it was that there was expression, plain, unequivocal expression, for the continuation of the work. The park plan must go through. Twin Falls appeared before the legislature of the state and asked state aid for the plan, and the state, relying on the good faith of Twin Falls had proffered \$10,000. Now Twin Falls can not afford to fail.

The state fund is available only when matched by a similar sum expended within the park. So, in order to secure this fund, the association must secure money sufficient to build the highway in addition to a fund to match the state money.

This is to be done. Mrs. Cloucheck, Chairman. A finance committee is to be formed by Mrs. Cloucheck, who will act as chairman, and the work of collecting the subscriptions already made and of securing sufficient additional funds to meet the demands will be prosecuted with energy.

Twin Falls' reputation is to be maintained. There is to be no failure. The marvelous conception for the park is not to be made the labor of a year. It may take a quarter of a century to complete the work. But the plan is laid out by Miss Florence Yoch in the units, and the work each may be limited to the funds available. State aid can be more easily secured, once the work is under way. And each year a campaign may be made for funds for specific undertakings, those funds to be in with those appropriated by the state.

In this manner within a period of years, there will be at the door of Twin Falls one of the wonder-parks of the nation, accessible to the tourist, where nature is loved, revered as a treasure and a heritage.

And thus will Twin Falls honor her soldier boys.

SHIP BIG CAR OF SPUDS.

LITTLE ROCK, Ark., April 20.—Governor Henry Z. Allen of Kansas for the second time declined today to grant the request of Arkansas officials for the return to that state of Robert Hill, a negro, declared to have been the instigator of race disturbances at Elaine, Ark., last fall.

JOHNSON AND HITCHCOCK IN LEAD IN NEB.

Meagre Reports From Primary Show Californian Has Advantage.

BRYAN RUNNING LAST IN DELEGATE RACE

Palmer Leads Georgia Campaign With Watson, Former Populist, Coming Second; Smith Last

By the Associated Press. OMAHA, Neb., April 20.—With 39 precincts out of 1349 heard from, Hiram Johnson is leading the republican candidates for presidential endorsement at today's primary. By the following vote: Johnson 3549; Wood 2293; Harding 1444; Ross 426.

Hitchcock Away Ahead. United States Senator Hitchcock is running away ahead of his only opponent, Robert Ross of Lexington, who was also a republican candidate. Political observers claim a Hitchcock victory is assured beyond doubt, even if only a bare majority of the vote be heard from.

The republican gubernatorial race is close, with McMillen leading McKelvie by the following vote in 56 precincts: McMillen 1595; McKelvie 1522.

Bryan Shows Gains. William Jennings Bryan showed gains during the counting of the last 20 precincts and is not far behind the Hitchcock delegates who are leading for the large places. He had been running last.

Probably never before in its history has Nebraska gone through a primary campaign that was so filled with interest as the one that closed here tonight. The fight was by no means confined to one party and while Omaha has never before seen the hard work at the polls that was evidenced by the Pershing, Wood and Johnson forces, the democrats were still issuing verbal broadsides even to the very close of the polls at 8 o'clock.

Shortly before the election officially came to an end, H. M. Hiltner, president of the Hitchcock for President league, issued a statement outlining the friction and crisis between Senator Hitchcock, who is running for re-election, and the democratic preference, and William Jennings Bryan, who is a candidate for delegate at large.

PALMER GETS SUPPORT.

ATLANTA, Ga., April 20.—With 121 counties out of 155 in the state heard from at midnight, Attorney General Mitchell Palmer on unofficial returns had a lead of 23 county unit votes over his nearest opponent, Thomas E. Watson and 44 votes over United States Senator Hoke Smith in the contest for the democratic presidential endorsement in Georgia.

The vote as compiled by the Atlanta constitution at that hour stood: Palmer 48 counties and 132 convention votes; Watson 46 counties and 109 votes; and Smith 37 counties and 89 votes.

Headquarters of Senator Smith conceded that Palmer held a slight lead at that hour. Mr. Palmer in his campaign appealed for an unqualified endorsement of the democratic administration of President Wilson and the league of nations. Senator Smith endorsed the "great achievements" of the Wilson administration and favored the league of nations with reservations. Mr. Watson has been a bitter opponent of the league of nations and many of the war measures enacted under the democratic administration.

EXTRADITION IS REFUSED.

LITTLE ROCK, Ark., April 20.—Governor Henry Z. Allen of Kansas for the second time declined today to grant the request of Arkansas officials for the return to that state of Robert Hill, a negro, declared to have been the instigator of race disturbances at Elaine, Ark., last fall.

IRISH REPRESENTATIVE TAKES CRACK AT GEDDES

By the Associated Press. WASHINGTON, April 20.—H. J. Holland, member of the parliament of the "provisional Irish republic," issued a statement here today on the Irish question in reply to views expressed yesterday at New York by Sir Auckland Geddes, new British ambassador to the United States.

"Ireland refuses to take any position within the framework of the British empire," said Mr. Holland. "The British ambassador assumes to present the Irish question to the American people as a domestic matter of Great Britain. The Irish question is an international question; therefore it is an American question."

13,000 MINERS OUT OF WORK IN BUTTE

By the Associated Press. BUTTE, Mont., April 20.—Estimates made here tonight placed the number of miners in the vicinity of Butte idle because of the strike called Sunday by Industrial Workers union 800 at 13,000.

Many of the miners remained away from their work voluntarily; others, they asserted, because of intimidation. A few cases of assault were reported during the day.

At the strike, which Sunday night a demand for a wage of \$7 for a six-hour day was drawn up, but mine officials said it had not been presented.

While the trade balance increased in March the country's gold and silver supply decreased.

HEARING IS AGAIN DENIED UNAUTHORIZED STRIKERS

By the Associated Press. WASHINGTON, April 20.—Applications of unauthorized strikers for hearings on their demands for a "living wage" were denied today by the railroad labor board after Chairman Barton had ruled that any one applying for a complaint, but that it was for the board to determine whether the dispute was one which the law empowered it to adjust.

The board's reply to Edward McHugh of New York, who filed a brief on behalf of the strikers, was a denial of the board's authority to hear the case. The board's reply to the strikers' application was a denial of the board's authority to hear the case.

SEEK TO BAR SOCIALIST PARTY FROM THE BALLOT

By the Associated Press. ALBANY, N. Y., April 20.—Two bills, designed to bar the socialist party of America, as now constituted, from the next official election ballot were tonight by the assembly.

The bills were favorably acted upon by the opposition of two party leaders, Simon L. Alder, republican, and Charles D. Bonaparte, democrat, and 11 of the 13 members of the assembly judiciary committee, which recently recommended expulsion of the five socialist assemblymen, a report which was favorably acted upon by the assembly.

POCATELLO AGITATOR IS ARRESTED IN OGDEN

By the Associated Press. OGDEN, Utah, April 20.—George W. Bailey, a striking switchman of the Ogden Union Railway and Depot company was arrested here tonight upon a federal warrant charging interference with the operation of mail trains. The charge is said to be the outgrowth of the strike here and the agitation alleged to have been carried on in Salt Lake and Pocatello, Idaho.

The note was presented to the German under-secretary of foreign affairs by the representatives of the allies in Berlin.

HEAVY TOLL EXACTED BY HURRICANE

Entire Towns Are Wiped Out As Storm Sweeps Through Narrow Territory.

SNOWS IN COLORADO ADD TO LOSS OF LIFE

Man Found Dead in Berth When Stalled Train Pulls Into the Station at Denver.

By the Associated Press. BIRMINGHAM, Ala., April 20. A death list which tonight stood at more than 130, and a property loss of many millions of dollars was the toll exacted by a tornado which today swept a score of towns, villages and isolated farms in eastern Mississippi, northwestern Alabama and the southern counties of Tennessee.

Communication with many of the stricken districts was difficult, but fragments of reports reveal that the tornado obliterated nearly everything that lay in its path. In at least one case—that of Kloss Hill, Miss.—virtually the entire town is believed to have been destroyed, and in several instances all members of a family were reported to have been killed.

Striking first apparently in Lauderdale county, Miss., about 10 o'clock this morning the storm swept a narrow path across the state, carrying destruction to a dozen or more communities. About the same time death and damage from the same or a similar disturbance was reported from counties in the northwestern corner of Alabama, the extreme force of the wind being reported from the Tennessee line was reached, in Williamson and Maury counties.

Meridian, Miss., the heart of a rich farming district, suffered heaviest, according to reports, with a known death list of 21. The village of Glen, Alcorn county, numbered its dead at 10. Aberdeen, 10, Ilogian, 6, Egypt, 5, Baker, 5 and Bay Springs, 7. A lumber camp near Philadelphia, Neshoba county, lost 12 workers killed, and injured 20, several probably fatally.

Sixteen Are Killed. Sixteen persons were killed, scores injured and property valued at hundreds of thousands of dollars destroyed by the storm in the northwestern part of Meridian county. Twenty-one persons were killed on one plantation, near Aberdeen, Miss. Harbald's hog ranch, near there, one of the largest in the south, was wiped out, 500 of the stock killed.

Assistance from the outside world is urgently needed in districts which were in the path of the tornado. Hundreds of injured require medical attention, the force of physicians and surgeons available locally being inadequate to cope with the situation. Tents and other temporary structures will be necessary for those whose homes were destroyed and a shortage of actual food is feared.

Roads traversing the track of the storm are completely blocked, reports tonight said. Dead cattle and horses may be seen in every field.

SNOW STORM KILLS SIX.

DENVER, Colo., April 20.—At least six persons lost their lives in the blizzard which swept over Colorado from Saturday to Monday, and many others are reported missing. Three of the dead are sheep herders and their herds perished with them. Nineteen other herds are missing and their herders are believed to be lost.

The three were found by a search party.

They reported that "ultra French women" are placing multi-colored bird wings on their shoes and that the boulevardiers are taking up the mercury footed shoe.

THE HOME-SAVING BEEFSTEAK.

A man and his wife were on the verge of divorce. The husband decided to make one more effort to settle things amicably. Armed with a fine juicy beefsteak he went home, his wife cooked the steak to a turn, and they sat down together and ate it. Somehow the discussion which followed the meal was not quite so acrid as former ones had been. Both members of the firm allowed their share of culpability, and agreed to try again without any further reference of their troubles to law.

It is not a new story. Most family quarrels could be avoided or would amount to little if they were staged after, instead of before meals. Many a matter which seems so important that it brooks of no delay in settlement, if it could only be deferred until after the beefsteak had been served would never come up for discussions at all, or would be so easily adjusted that its former-seeming gravity would later be a source of mutual amusement. Hungry people are always cross people.

Perhaps the wife in this instance had become careless about keeping the home pleasant and the man, wearied by business annoyances, was in a poor mood to put up with excuses and delays. Perhaps the man stayed away when he might have come home, and well-cooked meals spoiled in the waiting. At any rate, one good meal to which they both sat down saved the day and the home.

There are so many problems to vex in these days that tempers everywhere are worn thin, yet never was there such need of harmonious home life to keep the foundations of society secure. Happy the home, and a blessing to society, where the husband brings home the beefsteak, the wife cooks it, and both defer all troublesome discussions until after the meal has been eaten.

STRIKES AND PRICES.

Says a New York financial writer, in a recent review of national business conditions:

"Prior to the refusal of Chicago switchmen to work the industries had been feeling considerable relief from the winter difficulties of railroad shipments. The delivery and payment for goods long held was acting to relieve a congested situation of credit tied up in commodities. There were signs of price recessions, in markets that had begun to receive increased quantities of manufactured products."

And now, what? Under the best imaginable conditions of resumption, he says, it will be several weeks before the railroads regain the traffic improvement which had begun with the passing of bad weather and was lost through the strike. "The high cost of living problem is put further than ever from a practical solution, and the high cost of doing business is made even higher than before."

That is always the way. Every big strike, though it may win gains for the strikers, imposes on the industry and thence on the general public a cost out of all proportion to the advantage sought. A public utilities strike is especially ruinous.

Officers of the railroad, brotherhoods, and the public have an understanding of the direct concern of the public in the strike. They should show themselves less selfish of it, and more sympathetic to the public.

that in the end it reacts on themselves. Every workman's family in America is going to find life harder because of this ill-considered strike.

SAVE THE AMERICAN EAGLE.

The American bald eagle faces extermination, and strangely enough, because of government action. A bounty has been offered by the government in Alaska for every bald eagle killed. Since Alaska is the only place in this country where the bald eagle has held its own numerically, this encouragement to its destruction is a serious matter. More than 6,500 of these splendid birds have been destroyed in the two years since the bounty law went into effect.

There is a federal statute protecting migratory birds, and since the eagle comes in the migratory class, no state or territory can claim the right to exterminate it. Evidently there is some weak point in the statute, if one territory can thus annul its action.

The American Museum of Natural History is making a strenuous fight to arouse public interest in protecting the noblest of our American birds, and its authority for the statement that most of the tales of attacks on wild game and domestic animals charged to the eagle are pure fiction, or else greatly exaggerated.

Unless protective action is taken very promptly it will be too late. Close inbreeding resulting from diminished numbers will weaken the stock so that the birds will soon die out. Scattering of the flocks will result in the same effect.

It is incredible that Americans should let the great eagle, symbol of America's unfettered pride and glorious freedom, be destroyed. Any laws, local or federal, permitting such a calamity should be promptly revised.

A CASE IN POINT.

A young man called at the office of the Associated Charities in a large city and asked that the charities visitor come to his house and find out what was the matter with the way his family was living. His children, he thought, were not getting the right kind of care. He thought perhaps the charities people could find out what the trouble was.

When the visitor called she found the little girls seriously undernourished, and the wife said the only hope was a better job for the husband, for they simply could not make ends meet on his pay.

The visitor discovered that the wife had no idea of what constituted proper feeding for the family, and, moreover, had no idea of how to handle money. The visitor taught her some simple principles of food values and helped her with a sensible division of the income to cover the family needs.

In a few weeks that family was no longer up against the losing game of ill-health, debt and discouragement. It was living within its income. The children's cheeks were beginning to fill out. Husband and wife were happy and full of hope.

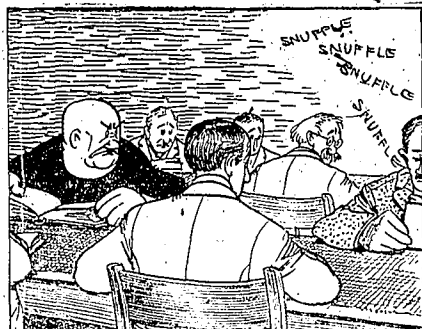

This is perhaps an extreme case. But most distress over money comes from a failure to face facts. When a family once knows in plain figures how much money there is, where the money went last year and where it ought to go this year, the rest is easy.

In the good old days the farmer's wife saved up the egg money to buy herself a Sunday dress. Now, as the Kansas City Journal remarks, she takes it and buys an automobile. And the dress? Oh, she has enough left over for that.

Says the cook of an American Legion club: "There are two things members of this club never order—beans and corned beef." Veterans' wives and mothers take notice.

One reason for the increased demand for hampers is that there are no more sa-loons.

BONUS BILL CAUSES TROUBLE IN HOUSE

Charges and Counter-Charges Hurled Across Chamber When Question Is Discussed.

WASHINGTON, April 20.—Conflict between republicans and democrats on soldier relief legislation broke out in the house today after Chairman Good of the appropriations committee had warned the members that to put through a cash bonus plan would "bring down the wrath of 100,000,000 men, women and children."

"The greatest badge that the American soldier will wear," Representative Good declared, "will be the badge of sacrifice and not the badge of a bonus."

The open fight over the legislation started when Representative Mondell of Wyoming, republican leader, in opposing any bill enterprise costing any million charged that the democrats were attempting to fast an extravagant plan on the republican house for political reasons.

The statement of the republican leader brought a quick response from Representative Garner of Texas, the democratic whip, who attacked the republican sales tax plan for raising the needed revenues, declaring that the republicans were planning "to place a tax on the backs and bellies of the people instead of taking it from the pockets of those best able to pay."

Another development in connection with bonus legislation was calling by Representative Tamm, Iowa, secretary of a republican women's committee of a party conference. Thursday night to consider this legislation. His action was in response to a demand from two senior republican members, who were said to be dissatisfied with the work of the house ways and means committee in framing the legislation.

Huberta Lewis, a 60-year-old negro evangelist, was found frozen to death under a bridge near Brighton, where she had sought shelter from the storm.

Louis B. Klinger, 43 years old, a coal miner, was killed by slipping on a live wire at La Fayette, which had been blown down by the storm. J. W. Bradford of Hingham, Wash., died in his birth on a Union Pacific train as it was entering the city after being hit by a storm-blasted tree for some time. His ticket indicated that he was traveling from Farland, Okla. to Portland, Ore. He is believed to have a son in Houston, Okla.

MATURE PLANS FOR DEMOCRAT CONVENTION

Cummings to Sound Keynote. Gives Indication of His Views.

SAYS REPUBLICAN PARTY IS WITHOUT CHARACTER

Objections to San Francisco Arrangements Overcome by Postmaster and California Leader.

By the Associated Press. "CHICAGO, April 20. (Homer S. Cummings, chairman of the democratic national committee, today was selected to preside as temporary chairman of the national convention at San Francisco June 28 and deliver the keynote address which will announce the party platform for the forthcoming campaign.

The convention, which was framed at a luncheon at the Frigolito club and the democratic club, today was scheduled to start at 10 o'clock with a speech in which their leader expounded what they said, probably would be the main point of his "keynote address."

Last Moral Character. The republican party has lost its moral character, he declared, in launching a vigorous attack on the actions of the majority in congress, in defeating the peace treaty and league of nations and particularly the methods by which control of the foreign

relations committee was held in the republicans.

"The whole point on this issue of election dates back to a corrupt election in Michigan," he said, "and a corrupt election is the thing upon which republicans stand today."

Convention Committee. Plans for the convention were virtually completed today with the selection of the temporary officers. The following officers were named: E. C. Hoffman, national committee chairman from Indiana, secretary.

W. R. Haller, Missouri, assistant secretary.

Colonel John L. Martin, St. Louis, president of the national committee for the past 25 years, has affiliated at this previous conventions.

Objection to the San Francisco convention "committees arrangements, and particularly to the side of the hall were removed, following the appearance before the committee on arrangements of Postmaster Charles Pay, chairman of the San Francisco committee, and Theodore B. Dockweiler, national committeeman from California, who explained the plans being made to handle the guests and the convention. Suggestions that the convention might be moved across the bay to Oakland, or to another city were dropped.
