Each Church Member

— and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3¢ a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

EMBRYO PREACHERS AS LUMBERJACKS

Theological Students to Work As Loggers in Big Campaign in Effort to Combat Heels.

BUTTE, Mont., April 23.—Theological students of the United States are to be given an opportunity to "try their hand" on loggers and lumbermen of the Pacific northwest during the coming summer, according to information received here by H. V. Edworthy, field secretary for Montana of the Interchurch World Movement, from L. C. Fry, in charge of the survey of special groups for the movement.
A recent visit by Mr. Fry to lumber camps of Washington, Oregon, upper California, Montana and Idaho developed the need of religious workers there, he said, and he arranged to place a number of the student preachers for the summer months.
The relationship of the preachers and the woodsmen would be more that of fellow workers than ministers and laymen, Mr. Fry stated, and opportunities would be afforded for social service work as well as religious.
DRY LAW VIOLATORS PAY FULL SALARIES; HONOLULU OFFICIALS
HONOLULU, T. H., April 23.—Violators of the national prohibition law

paid \$6,386 in fines and costs in the United States district court of Honolulu during the month of March, according to the quarterly and promotional reports to the court's records, a branch of the government in Honolulu.
As the rate set by the collection of fines and costs in March, Court Clerk Albert E. Harris estimated the yearly receipts from this source would be in excess of \$75,000, or about enough to cover the salaries of the federal officials of the judiciary and promotional branch of the government in Honolulu.

PERMANENT BONDS TO REPLACE LIBERTY LOAN SHORT COUPONS

SAN FRANCISCO, April 23.—Permanent bonds bearing the full amount of interest coupons will be beginning May 1 to replace the temporary "short coupon" bonds of the first, second and third liberty loans. John F. Culligan, governor of the twelfth federal reserve bank, has announced.
The decision to set the date for May 1, he said, was dictated by the fact that holders of the first and second loans must present such bonds for conversion prior to June 15 and May 15, in order to receive the benefit of the increased rate.
Bonds of the fourth loan will not be exchanged at this time, but probably will be taken care of before next October.

BUYING AT COST.

Twin Falls county is being regaled these days with sage advice about "buying at cost." We are told to buy our meats, our groceries, our autos, our clothing "at cost," whatever that may mean. We are admonished that this is the way to reduce the high cost of living and to bring about a proper order of things.

Let us lay aside the fact that those whose preachments we are hearing fail to tell us whether they mean production cost, or wholesale cost or retail cost. Let us forget that the "at cost" propaganda is a profusion of platitudes, and let us get down to facts.

We are doing pretty well as a community. Our farms are yielding handsomely, our cities and towns are thriving, we are for the main part minding our own business, sending our children to school and looking to the future with confidence.

We are doing this because to the last man's son of us, we are refusing to sell at cost.

What if our farmers were to sell the output of their farms at the cost price? How long would they continue to make this the best city and this the best county in all Idaho? And how long could our merchants provide us with the service which we require, as a community convenience, if they sold goods at the price they paid for them? How long would men remain here in toll, that homes may be built, and the products of our farms moved to the markets, if they worked "at cost?"

We are a little bit too far along here on the Twin Falls tract to listen to such propaganda. We do not wish to buy at cost, nor will we sell the products of our land at cost. When we buy an automobile, or a sack of spuds; a mutton roast or a new dress for the queen of our home, we want to know that the man who produced and the man who marketed to us each made a fair margin of profit—only a fair margin. We know that if there be no profit in the manufacture of automobiles, there will be no automobiles manufactured; and hence there will be less payrolls to make demand for the things we grow, and which we desire to sell at a profit.

And it may be well for those who are indulging in this beautiful "at cost" preachment to start in the school of experience. Let them first begin by selling their own products, whether it be labor or commodity, at cost.

For the rest of we plain, common mortals, we will keep along the old road, neighboring with our fellows, greeting the man who sells us our wares as a friend and not an enemy, chatting with the farmer who grows our wheat and who makes a profit and enjoying the visit, and quite in general loving our neighbors as ourselves.

THE OVERALL IDEA.

The "Overall Club" movement is of interest and importance chiefly as a hint of what people may do along various lines of expenditure if they will only get a proper "slant" on sane living.

More desirable than any possible benefit from this odd innovation is the thoughtfulness it may induce as to the general problem of personal outlay, and the blessed economies that may result if the lesson is learned.

It is not only in clothing that our people have been demanding the scarsest and most costly material and the finest workmanship. The safe luxurious tendency has

spread through nearly all phases of personal and family life. It is found in the choice of food and furniture, of jewels, art works, automobiles, houses, building materials, amusements. Everywhere there has grown up an abnormal demand for the rare, the luxurious, instead of the simple and comparatively inexpensive thing which would ordinarily serve the purpose, just as well.

Let the idea be applied to food, eliminating the scarce, exotic, unseasonable and expensive articles in favor of the simple, plentiful commodities that have always been the standards of sane living. Let tastes in furniture, rugs, personal adornment, diversion, etc., be likewise simplified. Let the simple and useful thing become a mark of distinction, instead of the complex, the luxurious and the flimsy. Then we shall be more happy and comfortable than we are now; and the cost of living will take care of itself.

The chief thing wrong with this country is not any external economic situation, but the state of mind of the people. Overalls are all right—in their place.

EVERY MAN'S DAY.

Human values, like other value, are being revised upward," says a recent newspaper editorial. It is a truth worth noting. The labor shortage and the great need of production mean that every man (or woman either) who wants a job can have one. It may not be just the one he would prefer above all others, but he can have work that he can do, at a good living wage if he will take it.

A few years ago the man with a thread of gray at his temples trembled at the thought of being forced to seek employment. "Too old!" were the derided words which most frequently met his ears. Today this is changed. Young-old men, old-young men, middle-aged men, all are in demand. Even men who really are old in years are sought for the lighter jobs. Employers realize that any active, interested employe is a valuable man, and frame their advertisements with a direct appeal to the man of graver years. They need him for two reasons. First, because of the great need of labor of any kind, due to the man shortage. Second, because stability comes with years, and in present disturbed industrial conditions the older man is less easily attracted by the plea of the agitator.

Even the cripplé who can run an elevator or manage a machine is welcomed into the ranks of labor where only a little while ago his infirmities would have relegated him to the dependent class as a matter of course.

There are many hard things which can be said about conditions in the present day, but so far as a chance to earn an honest living and lay away a bit of money is concerned, the present day is every man's day. Prices are high, but so are human values.

PROFITTEERING ON PASSPORTS.

Now congress has joined the profiteering class. It has issued an order raising the fee for a passport from \$2 to \$10. There's high cost for you—an increase of 500 per cent at one jump.

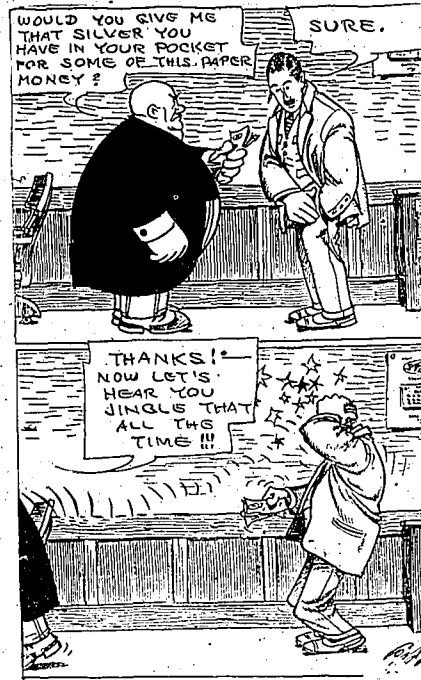

Just why the demand is made is hard to understand, and no explanations are forthcoming. The revenue to be derived, even at \$10, must be negligible. The number of Americans seeking to travel in Europe cannot be large enough to make a huge pile for the United States treasury in these days of billion-dollar deficits. But the infliction of just one more bogst is likely to prove irritating to prospective tourists.

It may be a fitting introduction, though, to what they will run up against when they reach the other side.

Whenever prices go up, the bureau of markets reports them as "improving." Improving what?

"To your tents, O Israel!" is a good summer motto for those who can't find houses. And for many who can.

mander appoints a legion member to act as "big brother" to the boy. "Results have been excellent," said Captain MacLean. "These ex-servicemen give the paroled boys advice, help them find work, receive their reports from school, and in various ways aid them to make good."

CHICAGO, April 23.—Despite some fluctuation in production, the corn market fairly heavy was today under the bullish influence of weakness in New York stocks. Corn closed nervous, 1-3/4 to 1-5/8 net lower, with May 15¢ to 16¢ and July 15¢ to 1-1/2 to 1-3/4. Oats finished at 1-1/2 net decline to 1-3/8 net advance, and provisions unchanged to 3/4¢ higher.

At first, the corn market showed a decided upward tendency, with the shipment of trailers directed largely to the big export demand for wheat and rice, especially an Argentine market for wheat had risen to a point which made wheat from the United States much more advantageous for foreign buyers. Today, did we see whether in the domestic field was an additional factor on the bull side. On the other hand, however, there was heavy selling on the part of houses with cotton commitments. For quite a while, cable selling, which appeared to be slow, is related to breaks in stocks, making an impression, but during most of the day toward the end, the buying power has seemed to be fairly extensive.

OUTLAWS FIRM IN SPITE OF WANING HOPE

Striking Railroaders by Thousands Refuse to Return to Work.

GRUNAU IS CHEERED AT CHICAGO MEETING

Cleveland, New York and Other Points Still Hold Out Against Appeals of the Union Officers.

By the Associated Press. CHICAGO, April 23.—Several thousand striking railroad workers

at a mass meeting today refused to take action to end the unauthorized withdrawal, now in its fourth week, of the Chicago terminal district. The meeting, called by John T. Van, president of the entire Chicago yardmen's association, and Harold Loomis, head of the United Engine-men's association, to clear up the "outlaw situation" adjourned in minutes after being convened with no progress made toward settling the difficulties.

Men Out Loose. Representatives of the national general managers' association and of the government were asked to attend the meeting, but the general managers' association, which they could enter into no negotiations with the strikers.

Grunau, who was a key player from 1917 to 1918, last week, after being freed of a year of imprisonment, he stepped on the platform. An American flag was presented and, after around the room, he left it there as a symbol of peace.

"I called this meeting to bring together all the men who are in the same boat," Grunau said. "We want to see the men who are in the same boat together and we will permit it to be so."

"I am a local American citizen and so are all of you local American citizens. We have conducted this strike in an orderly manner and we will permit it to be so."

"If we can return without loss of dignity, without loss of our seniority rights and if our organization is recognized by the roads and our salary demands will go back to work of ours," he said. "We will not surrender our rights to government. If we return, we will not be treated as a conquered people."

FIVE HUNDRED ARE FIRM. (CLEVELAND, O., April 23.—Five hundred strikers refused settlement of a meeting today, agreed unanimously to go to jail rather than return to work after officials of the department of justice requested the strike leaders to make the men that all of the approximately 1,200 strikers would be arrested if they did not return to work by tomorrow morning.

"I have been informed by the department of justice representatives that every man who will go to jail unless we go back to work," said E. J. Fitzhugh, president of the yardmen's association after a conference with Grunau.

"Every man who wishes to avoid arrest by returning to his job will kindly leave the room."

"Every man who chooses prison life to starvation wages will risk," Fitzhugh said.

WILL REMAIN OUT.

ST. LOUIS, Mo., April 23.—Approximately 1,000 striking workmen from the Illinois terminals of the St. Louis district, met in East St. Louis tonight and voted to remain out. The vote was unanimous, according to J. J. S. Binko, chairman of the St. Louis yardmen's association, who presided at the meeting.

WILL REMAIN OUT.

NEW YORK, April 23.— refusal of the railroad heads to modify their ultimatum in the strikers and the equal determination of the latter to hold out for seniority rights, tonight virtually destroyed all hope of an early and complete settlement of the railroad labor difficulties in the Metropolitan district.

Edward McHugh, chairman of the strikers' executive committee, tonight gave the following figures on the men still out:

Yard switchmen 100 per cent; freight train crews and firemen, 50 per cent; freight conductors, 100 per cent. He admitted passengers crews are "all on the job."

St. Mantell of the Railroad Managers' association said passenger service had been restored to normal, that freight service was improving steadily and that in a few days he expects all transportation difficulties will be solved.

Senator Hitchcock's friends explained the presidential campaign would take him far away from Washington at frequent intervals and that aside from this he would make frequent visits to his summer home in Massachusetts and, consequently, would not desire the responsibility of minority leadership.

Senator Hitchcock has been the dominant leader throughout the hour peace treaty fight and it was explicitly stated at the White House and by Senator Underwood that irrespective of the outcome of the election for leadership he would continue as the administration spokesman should the treaty not be renewed.

ROBINSON'S

WORTH WHILE READING

There are some in this community who have presumed to give reasons for the discontinuance of this business that are not in accord with the facts. While the purpose of these statements is obvious their influence is more imaginary than real and their effect has not been successful.

This business has always been, and still is, conducted in a fair and fearless manner, with no discrimination on account of color, creed or association.

There are some who, from fear of those in an official capacity, may have been kept away from this store and this sale, but apparently there are but few, as is indicated by the many whom this influence is intended to effect that are coming here almost daily.

My suggestion to the people of this community is to buy what you need now or will need for several months to come in the lines we handle and do not allow others whose purposes and intentions are not sincere to guide you against your best interests.
