

CAPPER DENOUNCES GARRANZA AS A CROOK

CAPPER SAYS PROFITEERING IS SHAMELESS

Kansas Senator Denounces Department of Justice for Alleged Failures.

LAW ARE AMPLE, HE CLAIMS DURING DEBATE.

Acquits Farmers of Blame for the Present High Price of Commodities Over the Country.

By the Associated Press. WASHINGTON, April 24.—Profiteering was denounced in the senate today by Senator Capper, republican, Kansas, who presented statistics which he said showed that the farmers of many American corporations represented profiteering "open, scandalous and shameless."

Attacks Capper Meets Drive. Senator Capper attacked the department of justice's cheaper meat campaign, and said increased prices for sugar were "the most brazen challenge we have had in this autumn of greed."

Senator Leonard, republican, Wisconsin, agreeing with the senator's declaration that profiteering had become a national menace, said Attorney General Palmer was "setting a few mouse traps around the country when he ought to be setting bear traps" to catch the big or millimetre profiteers. The administration was held responsible by Senator Leonard for the increasing sugar prices.

Thomas Disagrees. Disagreeing with the contention of Senator Capper and Leonard expressed by Senator Thomas, democrat, Colorado, who said the nation was "comparing a child with a man" instead of "a child with a child" in its attempt to regulate the market and fix the price.

Senator Capper said ample laws existed to check profiteering and that "if those charged with enforcement of those laws will see that profit greeds are not to fall, prices will soon drop." He added that if law enforcement officers of the government could not enforce the statutes they should resign and let men who could take their place.

Excessive marking of profit as proof of profiteering, Senator Capper said, in presenting a list of corporations whose profits were placed at from 25 to 200 per cent. The list of corporations included oil, oil-refining, manufacturing concerns, steel companies, shoe and leather manufacturers and makers of nearly all the staple commodities. Farmers were acquitted of blame by the senator.

EIGHT PERSONS FOUND MURDERED ON FARM

By the Associated Press. TURTLE LAKE, N. D., April 24.—Eight persons were found dead today at the farm home of Jacob Wolf three miles north of here, victims in a mysterious tragedy. The dead: Jacob Wolf and his wife; their five daughters, Beulah, aged 12; Edna, 8; Mary, 10; Lydia, 5; and Martha, 4; and their 12-year-old son, who was employed on the farm. Only one member of the family escaped, Emma, 8 months old. Authorities believe all were murdered by a hatchet. The bodies of the mother, three daughters and the hired man were thrown into the relay by the slayer or slayers, and those of the father and two children put in a cowshed and eam and covered with hay.

SAYS THEM HINDUISH. By the Associated Press. KANSAS CITY, Mo., April 23.—"American isolation is an ridiculous term as would be 'isolation of sunlight,'" Bishop William F. Anderson of New York said here tonight in his address at the opening session of the semi-annual conference of bishops of the Methodist Episcopal church.

COMMUNIST STATUS IS A MOOT ISSUE

Government Officials Deny Party Is Furthered by Department.

SHOW CONNECTION WITH THIRD INTERNATIONALE

Palmer Explains Arrest Some Radical Leaders Without Warrants—Answers Other Charges

By the Associated Press. WASHINGTON, April 24.—Secretary of Labor Wilson, after an all day argument, took under advisement tonight the question whether membership of the communist labor party in itself constituted grounds for deportation of aliens.

During the hearing there was a flap-up over statements attributed to Federal Judge Anderson of Boston that the government "opens a Pandora's box" of the communist party in this country. Speaking in the hall of New York, upholding Mr. and J. Hoover of the department of justice, declaring it an "unjustifiable misconception of the facts."

Show Connection With Ideals. Armed with voluminous communist literature, Hoover attempted to show by "quotations" the connection between the relationship between the communist labor party and the third international.

Hoover Communist Leader. Assuming that John Reed had reported detailed in the "Communist" affiliation with the Bohemian, was the founder of the communist labor party. Hoover declared it was like all other communist organizations, "a gang of cut-throat thugs who have come to this country to overthrow the government by force."

Fifty per cent of the influence behind the recent strikes, Hoover said, was directly traceable to the communist organization. In endeavoring to distinguish between the communist party and the communist labor party, Hoover declared the applicant blank of the communist labor party made the applicant bound to be "loyal" to the communist party. An applicant for membership in the communist party on the other hand, he said, pledged support to an "active worker."

Says Karl Marx Socialism. The platform of the communist party, he asserted, "was nothing more than the socialism of Karl Marx and argument for 'action of masses' was subject to a political interpretation."

Palmer Makes Denial. Attorney General Palmer tonight denied the statement by Hale at today's hearing that Louis C. Franks, described as secretary of the communist party of America, was an agent of the department of justice.

Dismissing the department's action in connection with the raid and deportation proceedings, the attorney general said: "Governmental officials have recently reported in the public press to the effect that the department of justice had its agents actively identified in the formation of the communist party and the communist labor party, and was to a large extent responsible for the agitation and spread of these two organizations through their propaganda. There is no foundation whatever for this charge. Of course, the department of justice has used confidential informants ever since its bureau of investigation was established but they are under strict instructions not to engage actively in any organization under their investigation. There is no impropriety in the administration of the department of justice when any confidential informant has ever actively engaged in the councils of the communist party or the communist labor party. One of the specific instances charged to the confidential informants of the department of justice is to the effect that they

LLOYD GEORGE AND MILLERAND AGREE

By the Associated Press. LONDON, April 24.—Premier Lloyd George of Great Britain and Premier Millerand of France have come to a full understanding concerning Germany. They are drawing up a joint declaration setting forth the several points of their agreement, which has Premier Lloyd George says, "covers everything."

The agreement was arrived at during a conversation lasting nearly four hours in Mr. Lloyd George's hotel room and on the balcony adjoining it. The premier at times strolled outside on the 12th story balcony and walked up and down bareheaded in the sunshine talking earnestly and just as Mr. Lloyd George's rather long white hair was shaking in the breeze. Mr. Millerand's massive features were changing their expression frequently, sometimes they were almost sour in their resolution, at other times they were placid. At the close of the conference Premier Millerand came out looking decidedly contented.

Mr. Lloyd George said: "Everything is most satisfactory. A full agreement was reached in substance" and he declared that a full agreement was reached in substance. The foundation for the agreement was laid during an afternoon dinner Monday which was a continued dinner interval in the premier's work yesterday and was completed with precision and detail today. The terms of the understanding doubtless will be made public after the Italian premier, Signor Nitti, is called upon to give Mr. Lloyd George's and Millerand's conclusions.

SONORAN SAYS GOVERNMENT IS CORRUPT

MEXICAN OFFICIALS VIOLATES PRIVILEGES

Buy and Sell Positions of Honorable—Brutal to Women and Charge Toll on Rail Shipments.

By the Associated Press. AGUA PRINETA, Sonora, April 21.—The Carranza administration in Mexico is corrupt and officials, unpopular with Carranza but elected by popular vote, have been ousted by the military in several states; who have practiced the utmost brutality, according to charges made here by General P. Elias Cullender, commander of the revolutionary forces of Sonora, in a statement issued here today.

Wag in Carranza Cabinet. General Cullender's cabinet, was secretary of industry, commerce and labor in the Carranza cabinet. In the statement he attacked the foreign policy of Carranza, his late decision in regard to the rich oil lands of Mexico and in many other ways attacked the Carranza regime.

General Cullender said that Carranza was forced to "tip" agents and employees of the roads from 75 to 100 pesos a car in order to obtain transportation for their produce. Cullender said, and without "tipping" would not receive cars. Carranza staged a "theatrical revolt" for the purpose of murdering the cruiser Yukpana when they recently visited Mexico City, according to General Cullender, and compelled employees of the federal government and city administration to take part under penalty of discharge. "Carranza pretended to show by this maneuver," said the statement, "that his government counted upon the support of the nation of the far east. This act of the government has been repudiated by all good Mexicans as they have repudiated the false international policy of Carranza."

Cullender attacked Carranza for what he termed "hundred of crimes committed at Yucatan in order to destroy all the revolutionary forces started by General Salvador Alvarado and to extinguish all the political rights of the citizens of the state."

Force Silences Opinions. Opinions of the people were silenced by force and fear, according to the statement, which continued: "In Yucatan the health of Carranza with Colonel Zamarripa at their head murdered the civilian authorities of some towns; burned, after plundering, the stores of socialist workers; burned the offices of the socialist party in the city of Merida, going so far in their barbarism that they whipped more than 200 defenseless women whom they personally assembled at a public park."

Offer More Preference. The statement also said: "About eight months ago Carranza summoned me to the capital under the pretense of giving me the post in his cabinet of secretary of industry, commerce and labor with the view of giving me out of my own and having my choice to him, at his disposition in the city of Mexico, with the purpose of making me his accomplice and his instrument for making me a mockery of the public vote.

At Queretaro in a conference with Carranza, I said at which General Francisco Murguerra was present, he verbally suggested to me more or less as follows: "As you well comprehend General Pablo Gonzalez is not a suitable candidate for the presidency and General Obregon neither can be thought about for his attacks against us, but"

AMERICANS VICTORS IN FIRST OLYMPICS

Hockey Team Surprises Europeans by Clever Work.

By the Associated Press.
ANTWERP, April 24.—The hockey team won an easy victory. This afternoon over the Swiss 7, by a score of 2 to 0. This was America's first participation in the seventh Olympic games. Scoring almost at will, the Americans baffled their opponents not only by the cleverest hockey ever seen in Belgium, but by their adroit shifting. From the very outset the Americans took the offensive, scoring the first goal within two minutes.

"They finished the first half with a score of 15 to 0, and even though Drury was put out of the game by a referee after the third minute of play in the second half for kicking the puck, the Americans continued to score with six men against their opponents seven.

Only once was the American goal threatened. That was after Conroy also had been ruled out and the Americans, playing with five men, were forced to put up a hard defense for a few minutes. Fitzgerald then took the initiative, driving and following the puck all the way down the rink for a goal.

McMorlock scored three times, scored from a long distance, hitting the puck and shouting to a line to the goal.

The general impression here is that the real contest is between America and Canada. The Canadians will get their first test against the Czechoslovak tonight. The chances of today's events were as follows:

Conroy 8; McMorlock 7; Gibson 6; Drury 6; Fitzgerald 1 and Tuck 1.

FORESTS AND PAPER.

The American Paper and Wood Pulp association, at its recent convention in New York, adopted a comprehensive program for replenishing the paper mills' raw material supply.

There would be fixed sums appropriated annually for forest surveys, the purchase of timbered land and land suitable for timber, and for planting new trees.

These recommendations are no doubt good ones, deserving careful consideration by congress and the state legislatures.

It is waste that has made it necessary to plan programs of reforestation. There has been inexcusable waste in the cutting of trees and in the preparation of those trees for lumber and pulp.

Autocratic Plumbers. A recent investigation into the plumbing situation made by civic clubs in Birmingham, Ala., developed several interesting facts.

AUTOCRATIC PLUMBERS.

An inquiry was inspired by a demand of the plumbers' union for a wage rate of \$12 a day.

Some groups of men may get away with this sort of thing for a while, but not for long. The strange thing about it is that, quite aside from the moral element involved, intelligent workmen should not see that such unreasonable procedure it bound to react in a way to injure their own interests.

Now that the allies are in Constantinople they'd better stay there as long as the Turks have stayed. Turn about's fair play.

will pay dearly in the end. The unjustifiable expense which they impose on others soon comes around, of course, to them, adding to their own rent and other living expenses; and the ill-will they incur awaits its chance to make things even.

Many representatives of capital have learned the hard lesson that no class can benefit permanently at the expense of other classes.

BELGIUM INVADES GERMANY.

Regardless of the question whether or not the French invasion of German territory was ill-advised and indefensible, there was one little sidelight on the affairs that invite reflection.

That is all, but is it not full of food for thought? Can it be imagined with what feelings of satisfaction those 500 Belgian soldiers marched into and occupied German territory?

They will not inflict upon the Germans what the Germans inflicted upon them and their land in 1914, these Belgian troops.

THE LAZY HOME GARDENER.

Seed dealers in various places report that there is less demand for seeds this year on the part of home gardeners.

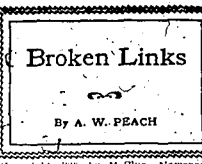

Unless this is to be explained by the weather, it shows a curious and disquieting situation. With prices of food so high, it might be supposed that there would be a stronger tendency than ever for the man with a garden plot to raise his own vegetables.

It may be futile to say that farmers of this type or any other type owe it to the community to do all they can to boost the food supply.

Maybe those stories about men selling the Woolworth building and the New York city hall to frustful visitors are true, after all.

There is a notable lack of interest in recent battleship launchings. What people want is to get rid of navies and armies.

Now that the allies are in Constantinople they'd better stay there as long as the Turks have stayed. Turn about's fair play.

Broken Links. By A. W. PEACH.

Miss Copeland panned on her way down the dusty corridor and listened—there was no doubt in her mind that her suspicions of the past week were well founded.

She knew that in that room a girl was crying—weeping in the low, subdued, silent way that is ever significant of a breaking or broken heart.

She knocked softly, but heard no answer; then she opened the door.

She saw the slight form of a girl stretched on the floor, her eyes in their disarray, her eyes covered with slim lids, her shoulders heaving.

OUTBURSTS OF EVERETT TRUE

Bad Superstition. Alms beads esteemed to be an efficacious charm against the evil eye, were largely worn by children, and in a town of Suffolk, England, there is said to have dwelt a witch who possessed a pair of alms beads, stated to have come from the Holy Land, and to have been sanctified at Rome.

Something Wrong. Here's the announcement of a head waiter's retirement, remarked Mr. Jibb says. "Wealthily, I presume," said Mr. Duffwhite. "Fairly well to do, but I don't understand how a man could be a head waiter for twenty years in a fashionable restaurant, as this fellow has been, and not accumulate a fortune of more than \$100,000."

Sadly Incomplete. A deed dated March 15, 1917, recently reviewed on Long Island, contains the following clause: "The title may be voiding from Jamaica to Great Plains on the Jersey turnpike, thence to the highway leading from Little Plains to Rocky Hill, including the buildings, orchards, meadows, pastures, woods, paths, water and water courses, but gives no other description of the property or any indication of its size, and nobody knows what it is."

Opening Announcement of Our Downstairs Store

Not many weeks after we took over this business we realized that more room was necessary. The business was increasing rapidly and we did not have the room to carry the many lines of merchandise for which we were having daily demands. We looked for another location, but found everything tied up in leases that would at all meet our requirements. The only thing to do was to grow up or down and having a large, roomy basement we decided to fix it up as a salesroom.

For weeks the carpenters and painters have been busy and we are proud of the work they have done. It looks so nice that we never intend to use the term "basement." It is our DOWNSTAIRS STORE.

HERE IS A FACT. We are paying the same rental for the whole store, including downstairs that we paid for the one floor only. We now have 2,500 square feet additional floor space for the same rent. This means that we can continue to give the values that have characterized our policy in the past. In fact, in the downstairs store you will always find values that make the extra effort of going down to get them, worth while.

Grain

CHICAGO, April 24.—Material advances took place throughout the day in the grain list today owing largely to active export demand for eye and wheat. Corn closed strong, 1 1/4 to 2 3/4c net higher, with May 167 1/4 to 167 1/2 and July 160 to 160 1/4. Oats closed 1 to 1 1/4 and provisions 1 1/2 to 1 1/4.

Uplift in the corn market was preceded by a display of considerable weakness, which however appeared to be due more to a lack of buying than to any general tendency to sell. Then the price of eye began to climb, and notwithstanding bearish aspects of the railway traffic situation and of difficulties in regard to credits all the cereals soon composed by selling upward. Before the day was over, export activity had marked the market, reaching 2.25, a rise of 6 1/2 to 2 1/2 points. Forecasts of wet weather and prospect of delay in the marketing of spring wheat added to the anxiety of shorts and made them especially eager to get out of the market at the last.

Oats showed independent strength. It was said that some indicated Chicago would presently resume buying of American oats.

Provisions were strengthened by reports that Germany had obtained \$40,000,000 credit from the American packing company.

Finance

NEW YORK, April 24.—Final prices today on Liberty bonds were: 3 1/2, \$35.40; first 4s, \$35.20; second 4s, \$35; first 4 1/2s, \$35.00; second 4 1/2s, \$34.75; third 4 1/2s, \$30.60; fourth 4 1/2s, \$35.00; Victory 3 1/2s, \$30.50; Victory 4 1/2s, \$30.45.

SHIP LAY BY EXPRESS

BECAUSE OF FREIGHT EMBARGO

BIOSHOPK, Ida., April 23.—On account of the freight embargo several shipments of lumber have been made by express that week to Klamath for the purpose of feeding stock and especially horses owned by sheep men near that place. Express is an expensive way to ship hay, but it was a necessity and the price could not be considered. During the same week two carloads of hay were shipped by Brown Brothers from Rupert to Soda Springs and the express fees exceeded \$1,000.

FACULTY GIVEN INCREASE

PHILADELPHIA, April 22.—Another increase in the salaries of the faculty of Lehigh university was announced tonight effective May 1. The advance will be 10 per cent of the present wage. COMPENSATION NON-PARTISAN

DENVER, Colo., April 23.—Senator Compers, president of the American Federation of Labor, criticized the Workmen Non-Partisan League political movement in Colorado in a letter received by John J. Eberman, secretary of the Pueblo branch of the league made public today.

Boon State Man Stimulates, Robbing Team of Title in World's Mark.

By the Associated Press, BOON, MO., April 24. The Boon State relay team broke records at the Drake relay meet today at Drake, Mo.

Boon State won the two mile relay with a time of 15:30, which is 15 seconds faster than the world's record.

For the first part of the four mile relay the teams changed first position frequently.

SONORAN SAYS GOVERNMENT CORRUPTED

Continued From Page One. tomorrow we will meet with Gabriela and Aguirre Berlanga and will have a conference in which we will resolve the situation, determining who will be the candidate for the presidency of the republic.

Calles said he called on Carranza the first day and said he would not subscribe to the plan and was not in accord with the electoral proceedings.

"During my short stay as a member of the Carranza cabinet I had the best opportunity to persuade myself of the immorality of government proceedings and how a corrupt administration with such an unscrupulous man headed by his chief of staff, General Juan Barragan."

"Right there in the chief of staff's office everything is a matter of speculation. They sell government positions and concessions of all kinds and robberies of the public funds are authorized. They speculate with the hands of officers and chiefs of the army and even with the pensions of widows and orphans of the soldiers of the revolution are subjected to a charge of a commission by the unauthorized Barragan."

General Calles charged that they proportionately divide all moneys produced by any dirty business.

Carranza violated the votes of the people of four states, he said, and imposed upon them military governors of his own selection to take the places of governors elected by the people.
