

## CARRANZA IS URGED TO QUIT BY GENERALS

Report Received From Mexico Indicates His Popularity Is Waning.

## JUAREZ ABOUT TO JOIN THE REBELS IS CLAIM

Control of Chihuahua Safely in Hands of Sonorans, Is Assertion of Calles' Brother.

By the Associated Press.  
WASHINGTON, May 1.—President Carranza was advised by his generals at a conference held a few days ago to resign in favor of a president ad interim whom he or congress should appoint, according to dispatches reaching Washington through official channels. Carranza, refused to accept the recommendation, the dispatches said, but agreed to the withdrawal of the presidential candidacy of Ygnacio Bonillas, ambassador to the United States and to the sending of commissions to negotiate with the revolutionists.

The conference which was participated in by all the generals in the vicinity of the capital and by acting Minister of War Cuervo, the advice said, was called by direction of Carranza to discuss the situation growing out of the secession of Sonora. Lengthy arguments were presented by some of the officers, it is said, and the chief arguments being that Carranza would eliminate any danger of intervention by the United States in Mexican affairs.

The names of the generals taking part in the conference were not given in the dispatches.

EL PASO, Tex., May 1.—That the Juarez garrison will join the revolutionary movement against Carranza, said a source here, is assured, according to Arturo M. Elias, brother of General P. Elias Calles, commander in chief of the rebel forces in Sonora.

Will Have Control.

And with the revolt in Juarez, Mr. Elias said, the rebels will have complete control of Chihuahua, after which they will be ready to march upon Mexico City. Mr. Elias arrived in El Paso yesterday from Agua Prieta and will remain here to direct the efforts of the Obregon junta until the state of Chihuahua is entirely in the hands of the revolutionists, he said.

It is the purpose of the Obregonista, Mr. Elias said, to gain control in Mexico with the least possible bloodshed, and it is the hope of the rebels to have the Juarez garrison go over without hostilities.

Claims Big Gain.

Mr. Elias said that the state of Chihuahua is now controlled by the rebel forces from Chihuahua City to Bermejo which is in the extreme southwestern end of the state and that only that portion of the state adjacent to the border remains loyal to Carranza. The rebels, he said, now have 11,000 soldiers under arms in Chihuahua.

General Flores, with a large force is marching upon Mazatlan, and news that the city has fallen is expected hourly, said Mr. Elias. He is known to President Carranza is making preparations to leave Mexico, and that reason he is reinforcing Vera Cruz with troops which have been

## ELIMINATION OF SALES TAX FOR BONUS NOW PLANNED

WASHINGTON, May 1.—Elimination of the sales tax provision of the soldier relief bill will be discussed at meetings later next week of the house ways and means committee. The call for the sessions was issued today by Chairman Fordney. Committee members said Chairman Fordney planned to consider the bill.

Representative Johnson, republican, South Dakota, leader of the republicans "insurgents," speaking in the house, declared relief legislation "must and will be

## NEW YORK PRESS CLUB HAS NOTABLE GUESTS

By the Associated Press.  
NEW YORK, May 1.—Clubmen officers, presidential aspirants of the republican and democratic parties, and men prominent in the affairs of nation, state and city, tonight attended the 48th annual dinner of the New York Press club.

Secretary of State Colby, Secretary of the Navy Daniels, Senator Robert C. Owen of Oklahoma, and Governor Edwards of New Jersey, made addresses.

Hester Hoover and James W. Gerard were among the guests.

Mr. Hoover made a brief address and in his remarks introduced some of the "three cheers for the next president of the United States." The cheers were given lustily.

Mr. Hoover said he had been listening for five years on the end of the public telephone and was reminded of the man, having listened to telephone and telegraph calls all his life, finally died.

"And when he died," he continued, "and went to heaven, he had just entered into the hourly gates which were called out 'Mr. Jones, you are wanted on the outboard board, and that gentleman is my position and that is all it amounts to in this day and date.'"

## TEXAS ENDORSES THE WILSON ADMINISTRATION

By the Associated Press.  
DALLAS, Tex., May 1.—The state of Texas, endorsed President Wilson and his administration by overwhelming majorities in democratic precinct conventions today.

Incomplete unofficial returns from these conventions which selected delegates to democratic county conventions to be held Tuesday, indicated conclusively that the party faction favorable to the national administration would control at least 914 of the 1,406 votes in the county conventions which will select delegates to the state democratic convention to be held May 23.

The faction of the party headed by former United States Senator Joseph W. Bailey which waged a campaign seeking the repudiation of the Wilson administration may not carry more than eight of the more than 250 counties, the figures indicated. Mr. Bailey's home precinct in Cooke county refused to send him as its delegate to the county convention.

## INDIANA PRIMARY IS BROUGHT TO A CLOSE

By the Associated Press.  
INDIANAPOLIS, Ind., May 1.—With four candidates for the republican nomination for president and seven candidates for governor, and four democratic for governor seeking preferment, the 1920 primary campaign in Indiana was virtually closed tonight. The polls open at 6 a. m. Tuesday.

Because of the advice made by four of the republicans—Governor Frank O. Lowden of Illinois; Major General Leonard Wood, Senator Warren G. Harding of Ohio, and Senator Hiram Johnson of California—for the refusal to vote a goodly portion of the attention of the political world is focused on Indiana.

No democratic candidates filed for presidential preference.

Former United States Senator Thompson of Indiana and United States Senator James E. Watson are unopposed for the senatorial nominations on the democratic and republican tickets respectively.

## OFFICIALS FAIL TO FIND BODY OF MISS DELONEY

LOS ANGELES, April 30.—Officers checking up the alleged confession of William Andrew Watson, alias James E. Hurst in which he was pictured as a modern bluebeard, have failed to find the body of Nina Lee Deloney, one of the women Watson is alleged to have married and slain, at the spot in San Diego county, indicated by Watson.

"He asserted that attempts of both republican and democratic leaders to make it appear they were 'the only real friends of the ex-service men and women,' would not fool anyone."

Proposing a tax on war profits to supplant the sales tax, Mr. Johnson declared that republicans in the last congress vainly sought to have the democrats increase the excise profits levies and accordingly the republicans could not now consistently oppose this plan.

## MAGEL GARAGE NEARLY READY FOR BIG SHOW

Exhibitors to Be Given Opportunity to Put Cars in Place Last of Week.

## DECORATIONS TO BE ONE OF FEATURES

Vaudeville Artists to Arrive Early to Help Put Finishing Touches on the Stage.

This week the work of decorating the big Magel garage building will be completed and the latter part of the week days will be moved into their places in the various booths set aside for display purposes.

Plans are to make the second floor available for exhibitors on Friday, and the ground floor available on Saturday. This will give ample time for the placing of exhibits, the arrangements of displays and such decorations as may be desired by exhibitors.

But two spaces remain yet to be sold, and they will no doubt go out early tomorrow morning. Telegraphic requests have been received for the reservations of space, but these are not regarded, until deposit is made upon them.

To Bill Entire Section.

Tomorrow morning's rain-halos will begin on a final filling-out for the big show. Every part of the country available for the show will be visited by men posting bills and hanging window advertisements, telling of the show.

This will be an intense campaign, will cover all parts of Twin Falls and adjoining counties, and will be under the personal direction of Mr. R. B. Kleffner, circulation director of the Twin Falls Chronicle.

The bulk of the week the vaudeville artists will be in Twin Falls to remain over the week of the show. They will come on a day or so ahead of time to become familiar with the surroundings, the building and to supervise the last touches of stage arrangements.

The stage has been built on the second floor of the building, flanked by two dressing rooms. The stage will be decorated in red and green, the floor to be covered with Navajo rugs complementary to the color scheme.

Color Scheme Effective.

The color scheme of the second floor is a modest blue with complementary pink. This scheme will be carried through ceiling decorations, and carried to the newels and lattice panels dividing the display.

On the ground floor, the color scheme is a green and salmon combination, beautiful in effect, carried out in ceiling and complementary by the shades on the newels and lattice panels dividing the booths of the exhibitors.

The floor decorations will be completed early in the week, and the entire building will be ready promptly for opening day, May 10, at 1 p. m.

MISSOURIANS SEND TWO DELEGATES UNINSTRUCTED

SAVANNAH, Mo., April 30.—Two uninstructed delegates to the republican convention in Chicago were elected by the fourth district republican convention here today.

The delegates were elected after a riotous scene participated in by two contesting delegations from Buchanan county which reached the extent of a fist fight on the convention floor. The trouble came when members of one delegation led by John S. Boyer, an attorney of St. Joseph, attempted to establish a separate convention. Order finally was restored when the chairman of the regular convention threatened to call the sheriff.

HOWAT IS RESTRAINED.

PITTSBURG, Kan., May 1.—Following the announcement of his decision that the new court of industrial relations law is constitutional, Judge Andrew J. Curran in the Crawford county court here today granted a temporary injunction, joining Alexander Howat and other district and local union officials of the United Mine Workers from calling a strike.

## MAY SOLVE U. S. JAPAN PROBLEMS

Committee Makes Report of Its Consideration of Many Problems.

TOKYO, May 1.—The conference just concluded here by the Japanese-American relations committee "was a beginning that may lead to a possible solution of some of the international difficulties between Japan and the United States," the committee announced.

This conference was an outgrowth of an initial meeting at representatives of the Japanese-American relations committee "was a beginning that may lead to a possible solution of some of the international difficulties between Japan and the United States," the committee announced.

The conference was an outgrowth of an initial meeting at representatives of the Japanese-American relations committee "was a beginning that may lead to a possible solution of some of the international difficulties between Japan and the United States," the committee announced.

After meeting for several days with the Japanese representatives, headed by Baron Shibusawa, the committee summarized the results accomplished as follows:

"Japanese ownership of land and immigration. These are the two vital questions which deeply concern the two peoples. Therefore the joint committee gave the most careful attention to these subjects and spent several days freely exchanging views on them, and finally reached the conclusion that the committee on both sides will use their utmost endeavors for the solution of these burning questions."

"Cooperation of capital. The best way to cement the relations of the two countries is to enter into economic relations. Such enterprises have already been started in Japan and the results are most satisfactory although there is plenty of margin for improvement and development."

"Cable communication. Cable communication falls far short of our expectations. No satisfactory communication on diplomacy or commerce can be carried on if it is left as it now is."

"Exchange of professors. Great benefit comes from the exchange of professors. In order that this enterprise can be satisfactorily conducted it is important that the exchange of professors be carried on in connection with this enterprise a method of publicity should be devised."

"Trade arbitration. There is danger that the good relations of the two countries may be jeopardized on account of disputes that may arise from commercial complications. Therefore it is highly desirable to create an agency for arbitrating such disputes."

"Industry. The labor question has a direct relation to industry and it is of an international nature. It is highly important that one country should learn from the experience of the other in dealing with the labor situation."

"After eight days of conference the joint committee was dissolved with many expressions of mutual esteem and satisfaction over the work accomplished. It was the general sentiment that a beginning had been made by the conference that might lead to a possible solution of some of the international difficulties between Japan and the United States."

## METHODISTS PLAN FOR CONFERENCE

Chairmen of the Various Committees Are Named—Addresses Are Delivered.

By the Associated Press.  
DENVER, Mo., May 1.—The committee on episcopacy of the Methodist Episcopal quadrilateral conference organized today by naming as chairman, Dr. David G. Downey, New York, the bank editor of the church, and James R. Joy, editor of the Christian Advocate of New York secretary.

The committee deals with the question of making bishops for the church. W. E. Carpenter of Brazil, Ind., was named chairman of the Sunday school committee, and Bishop W. O. Shepard, Wichita, Kan., placed at the head of the committee on boundaries.

Reports on Korea and China were made, tonight by Bishops W. S. Lewis of Shanghai, and Herbert Welch of Seoul, Korea.

The Methodist church has increased 40 per cent in China during the past four years, Bishop Lewis said.

Bishop Wilson expressed high hope for the future of the Chinese nation, both politically and religiously.

At the opening session the "apostolic creed" was read by the delegates in seven foreign languages.

Bishop Joseph P. Berry presided at the first session. In his address he said the delegates must keep in mind the church is not an American institution only, but "a world church."

"Legislation here must be so framed as to fit the human needs of Asia and Africa," he continued. He called attention to problems of readjustment.

Resolutions were adopted calling on the republican and democratic parties to adopt in their national platforms a plank for enforcement of the observance to the prohibition laws and amendments of the country.

LOTHY GEORGE III.

LONDON, May 1.—Premier Lloyd George has been ordered by his physicians to remain in bed for a few days because of which he described a mild attack of bronchitis and fatigue, from his San Remo activities. The premier's indisposition first became noticeable at yesterday's Irish conference, the conclusion of which he cancelled his appointment to visit the king last night at Windsor castle.

THOUSANDS OF CHICAGO TENANTS ON RENT STRIKE

By the Associated Press.  
CHICAGO, May 1.—Although there were many eleven-hour agreements reported between landlords and tenants, thousands of persons went out, hundreds of persons went to "rent strikes" today, refusing to vacate apartments, according to leaders in the movement against high rentals.

Other tenants who were unable to find new apartments or obtain the services of moving vans, remained in their present abodes.

Eviction of tenants refusing to vacate apartments due to the high rent situation and the housing shortage was postponed several days by Dennis Ryan, bailiff of the municipal court. "We are

## PARIS SCENE OF MANY MAY DAY DISORDERS

Three Killed in Riots—Other Expected Trouble Fails to Materialize

## MANY SMALL STRIKES DECLARED IN AMERICA

Arrests Are Made of Some Agitators—Man Forced to Remove Display Pleading for Debs.

By the Associated Press.  
PARIS, May 1.—May day passed with a series of small riots and disorders in which at least three persons were killed, one of them a woman, and many wounded, but without the declaration of a nation-wide strike which the union workers expected from the general federation of labor. The federation issued a 1,500 word statement urging nationalization, but not referring either to a continuation of the strike, or a return to work after May day. The situation this evening remained as muddled as it has been for the past few days, the labor element awaiting orders which do not come.

Fifty Per Cent Effective.

The railroads announced that their strike, which is to be continued after today to enforce nationalization, is already 50 per cent effective. Official reports, from government sources say that the operations today were not far from normal on certain lines, the most important trains moving in and out of Paris.

The colleges and university of high school and technical students who volunteered to run motor ambulances occasioned much applause but their efforts in breaking up the transportation strike were the primary cause of most of the disorders. In the Place de la Republique they at times drove through hostile crowds, who showered them with stones and broke the windows of the buses, but they continued the service, which was organized at the instance of the government.

FAILS IN UNITED STATES.

WASHINGTON, May 1.—Plans of radical leaders for nationwide May day demonstrations, involving strikes and plotted assassinations of more than a score of federal and state officials, fell flat, reports to the department of justice tonight indicated.

Extra precautions taken by federal and state authorities to block the radicals' widely disseminated appeal for "May day show of power" were described at the department as decidedly successful.

Reports to the department mentioned a number of strikes instituted during the day, but in nearly every case the reporting agent emphasized that the walkouts were local in nature and due to the regular May day expiration of wage contracts.

The appeal of the radicals for a demonstration to the government in behalf of Soviet Russia also was without avail, the reports indicated. Incendiary speeches and demands that the United States resume relations

Other tenants who were unable to find new apartments or obtain the services of moving vans, remained in their present abodes.

Eviction of tenants refusing to vacate apartments due to the high rent situation and the housing shortage was postponed several days by Dennis Ryan, bailiff of the municipal court. "We are

not going to turn anybody in the streets," he said. "Thousands must wait until their demands have been able to get moving vans."

One company today was found guilty of charging higher rates than those fixed by city ordinance. Many other suits on similar charges have been filed.

Mrs. Elizabeth Wilson, chairman of the "rent strike" committee, said from a judge's room in her flat. "What man I want to do justice?" she pleaded. "I work in a factory and support three children and when I come home last night I found the door of my flat had been locked by the landlord. We had to break in the house so that we could have a place to sleep."

## COMPLETE GRADING ON TWO MILE RUN

Road Roller Expected Monday—Dis-  
tributor Leaves Tuesday on  
Motor Truck.

Word was received Thursday at the Twin Falls highway commission that the road roller ordered from a firm in Peoria, Illinois, is now nearing this city. They expect to unload it Monday morning with the distributor loaded on a motor truck and proceed as far as Chicago and then ship it here by train. No accidents are being feared, as the roller will be carefully finished on that run within two weeks.

The northern road is now ready for the road roller and penetration macadam. Soon as the material gets here all that section will be given over to the finishing touch.

While men were working at the quarry yesterday morning a gear on the hoist broke. No one was injured. It was due to a defect in the iron, it is thought. The force at the job were compelled to cease work for the remainder of the day. It is said the plant will be in operation Monday.

## LOCAL METHODISTS WATCH CONFERENCE

Prompts Rev. Bennett to Talk on "Will the Churches Get Together?"

The general conference of the Methodist church meets tomorrow in the east and the American Inter-church watch movement campaign will be on hand this week in Twin Falls. In this connection therefore, "Will the Churches Get Together?" will be discussed by Dr. Alexander G. Bennett, at the evening service in the Methodist church tonight at 8 o'clock.

The success of the great inter-church movement campaign depends upon the local churches generally taking an active part. Thirty protestant denominations have set their approval on this co-operative movement.

"Great World Problems That Confront the Modern Church" is the subject of the morning sermon, 11 o'clock, in the matter of popular assessments, the relation of capital and labor, healing the sick in every land, the black man in America, illiteracy and Americanization, what part should the churches play in such spiritual, social and racial redemption.

These are big questions that come before the general conference of the Methodist church which meets in quadrennial session in Des Moines, Iowa, beginning tomorrow and continuing through the month of May. Something like a thousand delegates from all over the world meet to act on these matters. Dr. Bennett has many personal friends who sit in the important conference, and he himself has attended several general conferences. Four delegates are present to the Methodist of Idaho, Rev. J. E. Baker of Twin Falls district; Rev. W. A. Winters, of Caldwell; E. C. S. Bealard, of Payette; and G. H. White, of Boise. Other delegates will also be in attendance. Local Methodists are particularly interested in the news reports from Des Moines this month.

It is claimed the Methodist Episcopal church has become the largest single protestant denomination in the world. In the Presbyterian church this morning the sermon will be "Mutual Daring Bearing." Rev. Asher H. Brand gave out the following theme for evening worship: "The Deliberation of Religion and Education in the United States."

At the Lutheran church, Pastor P. N. Manning will deliver a talk on "The Gospel of God" at the morning gathering, and in the evening his subject will consist of "Studies in the Life of Christ."

W. A. Moore of the Christian church will discourse on "The Ideal Wife" at the night service. The forenoon and afternoon will be devoted to Bible school, social hour and devotional hour.

In the Lutheran church, Pastor J. M. Olson will have as his topic at the morning session "The Needs of Every Christian." An Evangelistic service will be held in the evening.

"Archer Day" is the theme for the Klabsby variety at the morning meeting as announced by Rev. G. E. Mangum. The Epworth League will meet in the church vestry at 7 o'clock and the sermon for the evening service will be "In the Valley of Decision."

At the Ascension Episcopal church, lay reader Fred W. Meach will conduct services throughout the day. The morning session is called at 11 o'clock with special music.

DEPUTY HUFFMAN Resigns TO WORK CITY CONTRACT.

G. H. Huffman has resigned his position at the sheriffs office and has signed up with the city to haul ashes away from citizens and walks. His duties will consist of seeing that no

ashes are thrown carelessly along any portion of the business or residential section and that they are placed in covered cans.

## PASS EIGHTH GRADE TESTS.

Special eighth grade examinations were completed in the Holliester and Piler centers of the county school system, it was announced yesterday. The names of all pupils who successfully passed the field test, have not been compiled though it is expected to be ready about Wednesday. It is said:

## REPUBLICANS WILL WIN

I was born in the Highlands of Scotland and came to the land of the Red, White and Blue in 1886. My service men, 1,000 names of men who have since his first vote. As I have spent most of my life in the U. S. army I did not vote, but I talked republican only. My last hitch was under the democratic power and I got enough of the service and started writing soldier books. But I have been that in 34 years from now any one

playing Democrat, by putting all out and nothing in. In other words I have been losing money. In place of being able to write my check for \$6,000 I am now in the hole \$1,000 and stand a good chance of losing \$500.00 more. I have thought that I will do as a republican. I will now brains and make money and pay off my debts, and have \$500 to be a good honest business republican. I have been selling my Twin Falls County War History at \$5.00 each and as I figure the cost to me for 1,000 books will be \$500.00, and the return will be \$500.00. I am coming out a democrat, a loser and a failure. Saturday, May the 8th, my book which has 276 pictures of my service men, 1,000 names of men who have since his first vote. As I have spent most of my life in the U. S. army I did not vote, but I talked republican only. My last hitch was under the democratic power and I got enough of the service and started writing soldier books. But I have been that in 34 years from now any one

who has the book will be able to sell it for 20 times the amount of today's price.

Remember only 1,000 copies will be sold as this is all that have been printed. You can still get the book for one week at \$5.00. I want a good live republican as a partner to take charge of this field as I must start on my new book in Utah, which will have no more money. The party must be a live, honest hustler and have cold cash, wind banks, never was and has been. Save your time and mine. Twin Falls County War History can be purchased at the following places: G. Duncan McLeod, Rogerson Hotel; Twin Falls Book and Stationery Store; Macaulay's Cigar store, Boring Bros. The Corner Drug Store, Dahl; Hall Drug company, Kimberly, Robert H. Rensell, Murrumbidgee.

## COVERTING STRIKERS.

The labor problem will never be solved by putting men in jail for refusing to work. The representative of the federal department of justice in Cleveland seems to have acted not only rashly, but illogically when he threatened the striking workmen with arrest if they refused to return to their jobs. His superiors at Washington very properly rebuked him and disclaim any intention on the part of the government of trying to enforce such a policy.

It should be recognized alike by public authorities and private citizens that the legal right of any man to work or refrain from working is inalienable. To be driven to work by any external authority means slavery. People are tolerating that very thing in "free America," under Bolshevism, but Americans do not have to tolerate it.

Where refusal to work means the breaking of a bona fide contract entered into by a labor union, the legal recourse is presumably a civil suit for damages. The strikers may be doing something morally wrong, and something for which they are personally liable, but by refusing to work "as individuals" they are not committing a crime punishable by any criminal statute.

Union leaders, when they order strikes that are contrary to law, may be arrested and punished for "conspiracy" against the public weal when there are laws covering the situation. But there is no apparent way of dealing with the workmen themselves on a criminal basis, when they refuse to work "as individuals."

The way chosen at Cleveland and in some other places is not only legally unjustifiable, but is the worst way to handle men. It ignores ordinary human psychology, and especially the psychology of the American workmen, such high-handed methods merely arouse hostility and solidify the rebellious strikers. It is better simply to ignore and ostracize men who engage in a dishonorable and destructive strike, and if they continue stubborn, to get other men in their places.

## IF MARS CALLS US UP.

Scientists have been busy lately trying to catch wireless communications from Mars. It is a rather futile proceeding, inasmuch as the chances are against the existence of any life whatever on Mars, and even if there are intelligent beings there, the chances may be hardly one in a billion that they bother themselves about us and are able to send us intelligible messages.

If it is granted, however, that there are beings on the red planet able to communicate with our green planet, and sufficiently interested to do so, what do you suppose they would say?

message first sent a or the telegraph who in Morse code: "What both God wronch." It was a full expression of the wonder of the great invention. But the first communication between two heavily loaded, and between two races of beings true of millions of miles apart in distance, and perhaps even in time, far apart in development and outlook—what would it be? What would the Martians have to say to us?

Would it be a query as to what we eat and wear, and how to obtain it, and where to buy shelter and sharp ourselves? Astronomers say that Mars is an old planet, with little atmosphere, probably cold and unproductive. The Martians, then, if they exist, may be a small remnant of a once populous race, struggling hard to fight off extinction from cold and hunger. The cost of living may be more serious with them than with us. And if they are an old race, they may be far more advanced than we are, with a higher state of civilization and enormously improved mental and spiritual powers. In that case, they might tell us much worth knowing about science, art and government if our little, childish minds could grasp it.

Or, since the universe is infinite in variety as in extent, they may be a race of creatures as different from us in form, mind and ideas as, say, our own birds are different from us in form, mind and ideas; as, say, our own sheep are different from our crabs or our ants from our fishes. All comes from the One Life, no doubt, but how different in manifestation and powers. Imagine a Martian race of ants or birds or elephants or bees, or something even more different from all these than they are from each other. What would such creatures have to say to us, and how would they say it? Or what common ground of experience and comprehension could we get together?

## ROOM-SIZE GARDENS PAY.

That cultivation of the little tract does pay is evidenced by the report of amateur experimenters who have raised vegetables for table and canning, on gardens measuring 10 by 10, and 10 by 15 feet. Truly marvelous crops are reported from more generous areas, such as 15 by 25 feet.

The great advantage of these seemingly insignificant garden plots is that the average home gardener has neither the time nor the energy to put into a big garden, and if he tries to make do, the results are not satisfactory. The room-size plot presents no such difficulties. There is just enough work to be enjoyable, and results are sure, with irrigation.

Look at the smallest bedroom in the house, consider its surface area sufficiently large to produce real food for a real family fare forth under the open sky in the back yard and go to work!

If you really want to bring peace down, boys, stop strutting ground in overalls and go to work!

Congress is considering the number of two-cent pieces. We should think two-dollar pieces would be more useful.

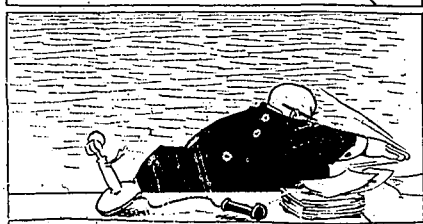

"Labor doesn't need a party," says Gumpers. Sure it doesn't if it has two already.

## QUIET IN MIDDLE WEST.

CHICAGO, May 1.—May day passed quietly in the central states and the west, although federal, state and city forces had made elaborate preparations to deal with threatened disturbances. Strikers were called in a number of cities and mass meetings were held in Chicago and elsewhere, but all were conducted peacefully. Radical literature was distributed in some places and a few arrests were made.

A strike of cooks and waiters in a number of Chicago hotels and restaurants and the general confusion incident to the annual spring moving day, when scores of tenants refused to vacate their apartments, largely overshadowed May day developments. The police continued their roundup of criminal gangs, but Chief of Police Garrity said the arrests had no connection with suspected May day disorders. More than 1,000 were instantly today.

# PROPOSES FORESTS FOR MAKING PAPER

Secretary Meredith Urges Development of Pulp and Paper Industry in New Fields.

WASHINGTON, April 27.—Greater use of the vast forest resources of the Pacific northwest and Alaska, and the growing of much more timber in New England and the lake states, were advocated by E. T. Meredith, secretary of agriculture, in a letter to the American Pulp and Paper association read at a meeting of that body which closed in New York city April 15. Such a program, the secretary said, will promote a permanent solution of the news print problem with constructive measures now being advocated, including the proposed Poinsett pulp survey provided for in a bill now pending in the senate.

Essentials in this program, the secretary said, were the continuation of technical investigation work such as the forest service now carries on and contemplation, and adequate support of the service's fire protection and other activities. The secretary's letter expressed his regret at being unable to accept the invitation to address the association and was read by Charles H. Winslow, director of the forest products laboratory, who represented the department of agriculture at this gathering.

"While the work of the forest service already deals with many problems of the industry, it should be materially extended and could, with advantage to the public as well as to the industry, cover a wide range of problems and activities from the growing of pulp timber to the many difficult technical questions involved in pulp and paper manufacture," said Mr. Meredith in his letter, an abstract of which follows:

"The United States is today facing the most critical pulp and paper situation in its history. Of these, the newspaper situation is the most serious. Present demands, abnormal though they may seem, are merely an incident in the rapidly growing normal demand for newspaper paper."

"Today we are dependent upon other countries for the equivalent of two-thirds of the pulpwood, pulp, or newsprint which goes into our newspapers. Our newsprint industry is concentrated largely in New England, New York and the lake states. I am told that 90 per cent of the pulp and paper consumed in New York have no stumpage of their own, and that less than five have enough timberland for continuous future operation. The predicted life of the industry in New York, New Hampshire and even in Maine, where the great bulk of our eastern pulpwood still remains, is alarmingly short."

"We have on the other hand large quantities of suitable newsprint woods in the Pacific northwest and in Alaska. The annual growth of timber on the national forest of southern Alaska alone would in half of one year produce as much newsprint as we need in the United States for one month. How the industry is undeveloped."

"A far greater degree of independence in newsprint manufacture can be accomplished by two measures—the development of the industry in the Pacific northwest and Alaska, and the large-scale growing of timber in New England and the Lake states. Both of these measures would be greatly stimulated by the passage of the Poinsett pulp survey bill now pending in the senate. A pulpwood survey would secure the facts on which a sound development of the industry in the northwest and in Alaska could be based, and it would also afford a basis for the production of pulp timber in the Lake states and in the northwest."

"Your association has urged the purchase by the government of large areas suitable for the growing of pulpwoods. The government has made a beginning in this direction during the past decade. The purchase of the White Mountain forest in New Hampshire and Maine an area of about 362,000 acres has been acquired admirably adapted for this purpose. This area should be greatly enlarged to include much of the mountain region in New Hampshire, Maine and Vermont."

"We already have some technical knowledge of the best methods for growing the pulp timber of the northwest and the Lake states, enough to begin intelligently, but a great deal of investigative work remains to be done. If the pulp industry of the northwest is to be perpetuated in anything approximating its present size, the entire forest area of the region must be utilized to the full of its resources for pulpwood. This is hardly too far from the truth of the Lake states. Forest experiment stations alone will, in any reasonable time, furnish the required knowledge of the best methods of cutting, planting, protection, and the various other steps in such intensive timber growing. Bills now pending in both the senate and house of representatives provide for experiment stations on the White Mountain national forest in New England and in Minnesota."

"Protection of forests from fire is perhaps the most important single requirement in the growing of timber. Twenty-four states are receiving co-

operation. These states expend yearly for fire protection upwards of \$25,000, and private owners of forest land within their borders expend in normal years approximately a like amount. The federal appropriation, but \$100,000, which is entirely inadequate. This amount has remained unchanged since 1915, in spite of the fact that the number of cooperative states has increased from 18 to 24, and the cost of the work has practically doubled. The national policy of forestry advocated by the forest service contemplates a large extension of such co-operative fire protection. Not less than \$500,000 is required to meet the needs of this situation. Not less than \$500,000 is required to meet the needs of this situation adequately. Yet the present appropriation is but \$100,000, and there is even danger of its being reduced."

"The forest service is conducting at its forest products laboratory work of very great and immediate importance to the pulp and paper manufacturer. Limited though such work is, it has already covered a large field in the suitability of various American woods for the different kinds of pulp, and incidentally has developed information of great importance on the technique of the various pulp-making processes. Along a limited number of other lines it has also been possible to make a beginning, as, for example, through your cooperation, on the causes of and remedies for the molding and decay of pulp. The work already under way should be very materially expanded, and there is a wide range of other subjects on which long investigations would benefit both the public and the pulp and paper industry."

### TESTS TO BE MADE OF NEW ROCKET TO GO TO THE MOON

By the Associated Press. WASHINGTON, April 28.—Test of the new rocket apparatus designed by Prof. H. H. Goddard, to reach altitudes far above the earth's air envelope and, as a vague possibility, even to the moon, will be made late in July at Fort Monmouth, N. J. The National Geographic society announced today. Immediate objects of the inventor, the announcement said, was "the study of the aurora, and of the short wave lengths in the spectrum of the sun which are entirely absorbed by the air."

At more moderate altitudes, Prof. Goddard hopes to obtain valuable information concerning measurements of wind velocity, humidity, temperature and pressure, and of which nature vary into the business of weather forecasting.

### BANKERS WANT GOVERNMENT TO FINANCE FOREIGN TRADE

By the Associated Press. PHILADELPHIA, N. C., April 28.—Resolutions were adopted today by the executive council of the American Bankers' association, in annual conference here, approving the proposal that government assistance be lent to the financing of foreign trade as essential to continued national prosperity. Appointment of a committee to confer with responsible national organizations of exporters and other interests was recommended, with a view to securing united efforts for the formulation of foreign trade financing corporations. The committee would be urged to devote prompt attention to the matter. A member of the Association of Commerce and Marine committee in Paris, received today, declared in written opinion that American foreign trade would be seriously curtailed unless something was done immediately to correct present unworkable conditions in Europe.

### BUILDING CONTRACTOR SEEKS \$50,000 FROM UNION MEN

BLOOMINGTON, Ill., April 28.—Charles E. Hall, a building contractor, today filed a suit for \$50,000 damages against 58 union workers in various building crafts. The defendants are all members of the Building Trades Circle, a joint organization of the various building crafts unions, against which a recently organized contractor has been in a fight for the past 10 days. Hall, who operated on the "open shop" system, claims that the defendants by conspiracy to interrupt various building contracts which he had undertaken, had resulted in practically ruining his business.

BOSTON, Mass., May 1. Boston and Brooklyn battled 26 innings to a 1 to 1 tie today, breaking the former major league record of 24 innings established by Boston Americans and Philadelphia, September 1, 1906, when Jack Coombs of Philadelphia defeated Joe Harris 1 to 1.

It was pitchers' contest between Joe Oeschger and Leon Cadore, with honors in favor of the Boston pitcher, who allowed only three hits and 16 innings the Brooklyn batters were retired in order. Oeschger has allowed only two earned runs in 55 consecutive innings this season.

The fielding on both sides was brilliant in the early part of the game. Brooklyn in the ninth when, with the bases filled and one out, he stopped Piek's grounder, tagged Powell on the base line and then threw out the batter.

In the 17th inning one of the most remarkable double plays ever seen in Boston retired Brooklyn. The bases were filled and one was out when Elliott grounded to Oeschger. Wheat was forced at the plate, but Gowdy threw to Holke who was in a crouch, bled. Konecny tried to score from second and Gowdy received Holke's throw to one side and threw himself blindly across the plate to meet Konecny's spikes with bare fist.

Only twice did a Brooklyn runner

reach third, in fifth when Krueger scored, and also in the 17th. Cadore was hit hard, but pitched superbly in many pinches. Boston threatened to score repeatedly, but Cadore's masterly game to his rescue.

Brooklyn scored in the fifth on a pass to Krueger, a foldover choice and Gibson single. Buckel was thrown out at the plate, trying to score from first base on Maranville's double to right center, Hood making a remarkable stop. Cadore's interception of the throw and quick pick to Krueger just nipping Buckel and made it possible to play the second breaking

### TO BE ELECTROCUTED FOR MURDER OF WHITE GIRL

By the Associated Press.  
INDIANAPOLIS, April 28.—William Ray, colored, 17, was sentenced today to be electrocuted on August 5 in criminal court here tonight when a jury returned a verdict of guilty of murder in the first degree. He is 14 to 15 years of age, a white girl, 14 years old, was killed, a white girl, April 19.

Ray will be the first person to die in the electric chair in this state. When the verdict was read Ray seemed stunned. He had refused to take the stand and the first words he spoke. "If you were when he was sentenced."

"I didn't mean to kill her girl," he said. "I was overpowered by passion and didn't know what I was doing." The 18 witnesses examined and testified they testified the girl to the river bottom 1 at Monday evening, assaulted her, stripped her of her clothing, stabbed her 12 times in the chest and threw the body into English brook, where it was found the next evening.

The jury was out only twenty minutes.

### HAVE UNIFORM HEADSTONES

By the Associated Press.  
LONDON, April 27.—The war graves commission has decided on uniformity of headstones for graves of every man and woman who was killed or who died in the war. A plain design has been selected, recording the name, regiment and rank, symbol of religious faith and the inscription which King-Edwards chose: "Their Name Liveth Forevermore," with room for an inscription limited to 66 words. The principle of equality, whether for field marshal or camp follower, has the approval of the government.

### MAKE PLANS TO DECORATE THE GRAVES IN FRANCE

By the Associated Press.  
INDIANAPOLIS, April 27.—Graves of American soldiers who gave their lives in the world war and whose bodies rest in France, will be decorated by the American Legion on Memorial day, plans were announced today by Louis Bolles, national adjutant, where by arrangements may be made for special decoration by relatives.

### Legion posts are contributing \$5

each to a general fund to be used to decorate graves on foreign soil and donations will be received also by the posts.

### Special decoration for any grave May 30

may be assured if a letter with draft is sent to any post with information as to name, rank, organization,

serial number, date of death, place of interment and other data available. These letters will be forwarded to official headquarters here. Drafts should be made payable to "National Treasurer, the American Legion." To insure decoration of graves on May 30, all individual contributions may be sent to official headquarters by May 10, Mr. Bolles said. Contributions for the general fund will be received up to May 30, to be called to Paris.

## DANIELS SEES ATLANTIC WAR SHIPS PARADE

Unique Review of Fleet Takes place Off of Hudson River Before Naval Heads.

SECRETARY WIRELESS PHONES TO NEW YORK

Crowds in Times Square Can Plainly Hear Voice of Cabinet Officer. Praise Is Given to Forces.

By the Associated Press.  
NEW YORK, May 1.—Headed by the flagship Pennsylvania, with the broad blue flag of the secretary of the navy flying at the main mast head, nearly three score ships of the Atlantic fleet dropped anchor in the Hudson river today, home from three months of drills and maneuvers in Cuban waters.

Eight great super-dreadnoughts and a swarm of swift destroyers rode deeply at their moorings tonight, fairly filling the river anchorage for miles; but more than half of the officers and of the numbered youngsters of the crews were ashore, enjoying 48 hours of well earned liberty.

Carries Highest Officials.  
When the fleet steamed in past Ansonia light, early in the morning, the Pennsylvania, carried the three highest officers of the navy.

Besides Secretary Daniels, who boarded the ship off the Virginia capes yesterday morning for the last lap of the homeward cruise, Admiral Coughlin, chief of naval operations, was the chief of Admiral Wilson, commanding the Atlantic fleet and senior sea commander of the navy.

Mr. Daniels and Admiral Coughlin stood with Admiral Wilson on the flag bridge as the great sea force made its stately progress through the crowded harbor and river to its anchorage.

On the way up the harbor, Mr. Daniels spoke by radio telephone to a crowd gathered in Times square where amplifiers had been set up. At first, constant interference by an amateur wireless operator broke up the sweet greeting from fleet to city, but ultimately navy radio experts made good their promise and the secretary's words were plainly audible in the square, while he was still on the ship down the river.

In a statement regarding the work of the fleet during the winter, Admiral Wilson said he felt that much of value had been accomplished.

confronted with many difficulties not usually met. An unusually large proportion of the crews were comparatively untrained and to carry on the work of the ships and the fleet and for train these men brought an enormous amount of work upon the officers and the older men.

"It is with pride that the command in chief looks upon the results obtained by the earnest, conscientious efforts of these officers and sailors as well as upon the spirit with which the new men have entered into their duties."

"The target practice was, in most respects, all that could be expected under these conditions. The steaming trials have resulted in steady improvement and in the ability of the ships to steam."

### CANNIBALS THREATEN TO DESTROY EXPLORERS

By the Associated Press.  
NEW YORK, N. Y., May 1.—An attack by ferocious cannibals of large stature and scantily clad on the party of Dr. A. Hamilton Rice, which is exploring the Amazon region, is described in a letter received here from Chester Ober, photographer with the expedition. Dr. Rice and other killed two cannibals and the rest fled. Mrs. Rice, formerly Mrs. George D. White, of Philadelphia, is with the party.

## MAY DAY USHERS IN NEW CITIZENS

Five Admitted at District Court Saturday; Some Fought During World War Conflict.

On American day five new citizens were registered into this country as American citizens. Men who served in the great world war presented themselves at the district court yesterday and made formal application to become naturalized. One of the men hailed from Canada, while another claimed Germany as his former native land. Judge W. A. Babcock admitted them after ascertaining their knowledge of American history.

Julius Martens, a German, voiced his sentiments about the United States and was one of the first given papers which state that in the future he will be a full fledged American. Joseph Kuerni, a Czech-Slovak, was one of the defenders of this country in the world war.

Misko Corak, an Austrian, had a purposeful mind and declared himself into an American. John Balkwill of Canada and Elmer Nelson, a former resident of Norway are also admitted to the privileges of this country and permitted to claim it as their future abode.

Owing to the absence of six other men who desired admittance to this country as American citizens, Judge Babcock continued their cases over until the next term of court.

## COUNTY FARMERS NEED PROTECTION

Persons Making False Claims Touring State—Farm Bureau Officials Investigating.

To warn Twin Falls county farmers against persons claiming to be representatives of the State Poultry association, Miss Edna M. Laidwig issued the following:

"The farm bureau has just completed an investigation regarding same persons who are representing themselves to be with the State Poultry association and are inspecting poultry on the Twin Falls tract. It seems as though the game is to inspect poultry and before leaving attempt to induce the farmer to purchase dust powder, spray and internal remedies. Reports coming to the farm bureau office indicate that a number of farmers are falling for the game.

"The prices quoted are 40 cents for the dust powder, \$5.00 a gallon for spray and \$12.00 a gallon for internal remedy. Investigation proves that these prices are excessive. Dust powder, equal in value, can be purchased for 30 cents, spray for \$2.00 a gallon and internal remedies for many times less than these persons are charging from local dealers.

"The farm bureau wishes to state that these people are not with the State Poultry association, are in no way connected with the Extension Service and the prices they are charging are very unreasonable.

"An investigation is being made by the farm bureau officials to learn if these people are subject to prosecution under the laws of Idaho."

### POULTRY EXPERT IS TO VISIT DURING WEEK

To make poultry raising a fact and benefit to those interested in the work, Fern Moore is scheduled to arrive in Twin Falls this afternoon. On the day of his visit to this center he is slated to deliver two talks tomorrow at the high school. He will attend the school during the morning and again in the afternoon. During his last visit to this part of the country he gave interesting and inspiring addresses on the proper culling methods to be used regarding all poultry. Communities are to have his aid in helping them to reach a better understanding how to make poultry a profit, it is asserted.

## LEGION AUXILIARY PLANS SOCIAL NIGHT

Will Entertain Next Thursday Evening for Members of War Service Organization.

Members of the Women's auxiliary of the American Legion will hold their regular monthly meeting Thursday, May 4, at 7:30 o'clock in the Parish hall. It will be a social affair and the program will be supervised by A. Wilcox.

Legion members have been requested to attend the affair. An invitation has also been extended to all mothers, wives, sisters and daughters of ex-service men who are legion members to join the association. Similar relatives of those who were killed or died in the service are also eligible.

Those wishing to enter have been asked to be present at the meeting on the stated night as after that date no person can become a charter member. Mrs. C. H. Krueger is in charge of enrollment.

# GIVES STORY OF GRANTING ARMISTICE

Poeh Made How Plenipotentiaries Plead for Cessation of Hostilities.

NEW YORK.—Germany's appeal for an armistice on November 7, 1918, met with the laconic reply, "I have no terms," from Marshal Poeh to Erzberger and the other plenipotentiaries, according to "The New York Times" writer of Poeh and Erzberger, in an article entitled "What Poeh Really Said," which will be published in the May issue of Scribner's Magazine.

Captain Erzberger, describing the historic scene of the morning of November 11, when the plenipotentiaries of the allied forces attended by a few members of his staff, signed the document in a railway dining car in a forest near Rethondes, a town between Compiègne and St. Quentin, described "the sight of better news to fill the German envoys with joy."

The radio from the Germans asking for a "cessation of hostilities" in the name of humanity was received by Poeh shortly after midnight of the 7th and at 1:25 a. m. on the 8th. Poeh sent back his answer: "The German plenipotentiaries will have to go to the outpost on the main road from Meuse-Verne-Chapelle-Guise." From this point they were brought by delayed stages to Rethondes, which they reached about 7 o'clock in the morning. Two hours later they were in the presence of the commander of the conquering allied armies.

"There was a cold salute," says Captain Erzberger, "a how in return; no presentations. The Germans took their places at the table in the dining car, where their names were written and remained standing. The officers seemed embarrassed and upset. Not so the civilians who did not seem to care at all. They talked familiarly together; it was impossible to believe that their country's fate hung in the balance, and that they were there to sign the most 'fateful' capitulation the world had ever seen."

Poeh's piercing eyes glared and his curt manner was impressive. "To whom have I the honor of speaking?" he asked. The German replied: "What is the object of your visit?" he asked. They followed this dialogue: "Erzberger: We have come to inquire into the terms of an armistice, to be concluded on land, on sea, and in the air."

"Poeh: I have no terms to submit to you."

"Count Oberndorf, the diplomat in the German party interposed. 'If the marshal prefers we may say that we are here to learn the conditions on which the allies would be willing to grant us an armistice.'"

"Poeh: I have no terms," Erzberger drawing forth a greasy paper, "President Wilson has informed our government that Marshal Poeh has been 'invited' with the power of submitting the allies' conditions to the German plenipotentiaries."

"Poeh: I will let you know the allied conditions when you have asked for an armistice. Do you ask for an armistice?"

"Ja," exclaimed Oberndorf and Erzberger together.

"Poeh: In that case I will read you the terms drawn up by the allied governments." He sat down and the reading began. It lasted an hour for the document had to be translated. The Germans pleaded for an immediate suspension of hostilities and for time to permit the Berlin government to examine the terms. Again Poeh spoke:

"I am but the mouthpiece of the allied governments that have drawn up the conditions of the armistice. I have, therefore, no power to suspend hostilities without their authorization."

The Germans at once dispatched a messenger to Spa, with credentials and the request that his journey to Berlin be "facilitated." When the messenger reached the German outposts it is related, the troops were so demoralized that they fired upon his white flag. Promissuous valley fire continued and the embassy was unable to reach its destination until the next day.

Meanwhile the German envoys had notified Poeh of their difficulty and Poeh agreed to permit them to send a German officer to Berlin by air. A plane was equipped and ready for the flight when word was received that the messenger had reached Berlin.

Captain Erzberger declares that the armistice was signed because Poeh and his staff were convinced Germany was already in the throes of a revolution. The armistice envoys painted a "black picture" of conditions. While the German government was analyzing the terms the plenipotentiaries remained near Poeh in the forest at Rethondes. They were permitted to leave their train and, guarded by armed soldiers, exercise in the open air.

On the afternoon of the 10th, Poeh informed Erzberger the head of the delegation, that hostilities would be resumed at 11 a. m. the next day, at 7 o'clock on the night of November 10th the following radio message was intercepted by the French:

"German government to German plenipotentiaries: The plenipotentiaries are authorized to sign the armistice. (Signed) The Chancellor of the Empire."

Three ciphered figures at the end of the message proved its authenticity. More than 12 hours of deliberation and debate over the "charismatic" terms followed. Poeh granted some concessions and refused others.

Subsequently the accepted French and English and German delegations appended their signatures to the document and by prearrangement, six hours after the signing, or 11 a. m. of the morning of the 11th, operations ceased along all fronts.

Four years of warfare which had cost more than 9,000,000 lives was at an end.

## MORE THAN 12,000 OF WAR BRIDES BACK TO FRANCE

PITTSBURGH, April 25.—Incumbent of American and French customs has caused \$12,000 of approximately 50,000 French war brides to return to France, according to Mrs. Richard H. Johnson, president of the recently organized L'Esprit Franco-American club here, formed at the suggestion of Mrs. Adette de Longueville, of Paris, who was in Pittsburgh recently, is expected to broaden the interest of French girls who became the brides of American overseas, and to make them contented in their new homes.

Mrs. Johnson, herself a war bride, and wife of a professor of languages at the University of Pittsburgh, declared that members of the club are "learning English, of course, but slowly, and when they cannot talk, one thinks too much."

"We of France, are individuals," she said, "We live within ourselves and our own people, and that makes it doubly hard for the French girls who have left their homes and families. Not that they do not love their husbands, to be sure, but they miss their people."

## SAYS AMERICA SHOULD ASSUME RIGHT POSITION

PITTSBURGH, April 25.—"America must not be prevented from taking her rightful position as a world nation by little American narrow-minded men or peasant politicians," Francis H. Sloan, New York banker, declared today in an address at the annual meeting of the executive council of the American Bankers association.

Mrs. Sloan asserted that a national merchant marine was impossible of creation under the present woman's net. Enlarged foreign trade, he said, also was impossible without greater governmental encouragement in the way of trade information and adequate protection of American money invested abroad. America's industrial life, he told the bankers, cannot reach its full development without a more public spirited labor.

### TO THOSE IN DOUBT

There are those who are doubtful of the genuineness of all sales, brought about by the unfair methods used in conducting some of them.

To anyone who has the slightest doubt regarding the sale now being carried on here in this store at this time, I wish to say that it is not only genuine but absolutely fair and a rare opportunity to make liberal savings on goods that are in general demand and of the most dependable sort.

This stock is recognized as the cleanest, best assorted and best selected stock of goods in this section, and there are none that have been bought to better advantage. My suggestion is to buy now and buy liberally.

The entire stock is to be closed out absolutely and anyone who wishes to do so can buy every dollar's worth of merchandise—the furniture and fixtures to go with the goods.

The duration of the sale at retail will depend to some extent on weather conditions, which, as we all know have for some time been unseasonable. However, if the sales continue on the same scale as they have the stock will not last long.

If anyone is under the impression that the goods still on hand are not as desirable as those that have been sold, I wish to say that the value per dollar of the goods is, if anything, greater than at the start. As such goods as were considered the least desirable were priced so as to move them at the start and they have been sold.

## MANY CHANGES ARE MADE IN POLISH CITY

Names of Streets in Poznan Have Been Recently Changed From German.

POZNAN, Poland, April 28.—Poznan, which for more than a hundred years under German rule was known as Posen, is undergoing many alterations as a result of the outcome of the war and the peace conference which have Poznan back to Poland. Just recently, the task of changing the name of every street in town from German to Polish was completed, the task having been worked out by a commission which began its duties soon after Poznan became a city of the new republic.

One of the principal thoroughfares which had been known as Herder street has been changed to the street of "Poznan's Liberty," this being what is considered the very last day of the Germans in Poznan. A great square in the center of the city, which since 1793 excepting an

eight year interval after Prussian defeat by Napoleon (this being the year the Germans came to Poznan) had been called Wilhelmplatz, is now known as Liberty square. A great statue of Frederick III, which stood for years in Wilhelmplatz, long ago disappeared, having been torn down by Polish residents of Poznan during the night of December 27, 1918, when there were riots and much street fighting between German and Polish subjects, the upshot of the demonstration coveting German officials that it would be useless to endeavor further to convince Poznan in so-called German territory. The German soldiers began withdrawing that night, and since then "German" residents have been "driving." Many of them were born in Poznan, and still are.

Within the past 14 months it is estimated that approximately 27,000 Germans have departed from Poznan, most of them being officials who held important positions under the German machine, and the committee, not officers of the German army. Poznan city officials estimate that about 57,000 persons have moved to Poznan in their time, the majority of them having come from Congress Poland.

Poznan today is a city of about 170,000 inhabitants and is considered by Germany prior to the outbreak of the war as the strongest fortified city in western frontier. All the old forts, redoubts and outposts held by the Germans still stand.

When the Germans were in control Polish classes in the school were forbidden. German is spoken so generally in Poznan however, that even now the white and scarlet flag of the new republic it is taught in a certain number of schools.

The action was taken, it was said, because the "movement tends to increase prices of overalls and makes their purchase prohibitive for mechanics and artisans."

## MEREDITH PLEADS CAUSE OF FARMER

Asserts Competition With Business for Workers May Hinder Full Production.

By the Associated Press.

ATLANTIC CITY, April 29.—Facing was detained as confronted with more serious difficulties than any other American industry by Secretary Meredith of the agricultural department in an address tonight at the annual meeting of the chamber of commerce of the United States.

"American farmers," the secretary said, "are not only in competition with producers of other countries. Not only that, but agriculture as an industry, is in direct competition with other industries for capital and especially for labor. Under present conditions farmers are losing in competition for labor."

"Farmers hesitate to pay higher wages because, unlike other industries there is no opportunity for a quick turnover or to pass the increased cost along to consumers. Not only are farm wages higher than ever before, but farm hired labor is scarce at any price, and, on the whole, is said to be relatively less efficient than formerly."

"Farmers are now faced with the problem of deciding whether to pay high prices for all the things they have to buy—fertilizer, equipment, seed, fertilizers, clothing and supplies—and the investment at a huge part of the cost of production in the early spring months, with the prospect that after harvest when they have to market their crops, they will be compelled to accept lower prices for everything they have to sell, or whether they cut down the initial expense of production by investing less capital in equipment, supplies and hired help and by reducing acreage and numbers of livestock. The latter course means smaller production. The food situation during the next 12 months will depend upon what answer the farmers give to this difficult question."

Illustrating the power of American farmers, Secretary Meredith said that if they sold all their belongings, including land, crops and livestock, they would be able to buy all the railroads, all the manufacturing establishments, all the mines and all the quarries in the country.

### ASK ALL RUSSIANS TO JOIN WITH THE REDS

By the Associated Press. SEBASTOPOL, April 28.—The latest move of the Bolsheviks is an invitation from Moscow for all the south Russian army to join the reds, thus making an armistice unnecessary.

## Hot Spot and Ram's-horn HAVE LIFTED CHALMERS to the Peak of Efficiency

IN these days when "gas" is going up in price and down in grade through a shortage in supply the world over, consider these revolutionary devices: Hot Spot and Ram's-horn. They have lifted Chalmers to the very peak of efficiency.

They get amazing power out of low grade "gas." When the raw "gas" strikes Hot Spot this device transforms it into a "cloud," very much like a drop of water striking a hot stove.

This "cloudy" condition makes just the right fuel for the engine. Now the task is to get it quickly to the engine chambers for ignition before it can condense or "grow rainy."

This is where Ram's-horn performs heroic service. It has no sharp corners for "gas" to lodge against, is surprisingly short in length, and the velocity with which "gas" travels through this "tunnel" is estimated at one hundred miles per hour.

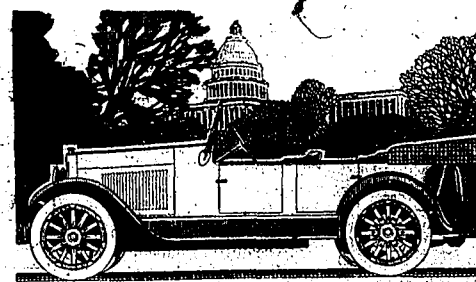

The results are two-fold. You get power with rare smoothness. You seldom experience such difficulties as fouled spark plugs, burned bearings, scored cylinders and the like, because "raw gas" cannot trickle down past the pistons and thus "cut" the lubricating oil in the crankcase.

These efficiency results have added to the impression that Chalmers is one of the few great cars of the world.

# JONES DESCRIBES WATERPOWER BILL

Commission to Have Charge of Matter Pertaining to Water Power Development.

By the Associated Press.

WASHINGTON, April 30.—The senator, chairman Jones, of the senate commerce committee, as the bill affecting every citizen of the United States, the water power bill, 25,000,000 in revenue would create a federal power commission, composed of the secretaries of war, agriculture and interior. This commission would have authority over all matters pertaining to the development of water power in which the federal government has jurisdiction or in which it is interested as an owner of lands or other property necessary to such projects.

The commission will have preliminary permits showing applicants three years in which to make examinations of water-power projects, prepare plans and make financial arrangements. The commission also may suspend licenses for a period of 50 years or it may reserve such projects as should be undertaken by the federal government. Preference must be given by the commission to states and municipalities if they are equitably adapted to utilize water resources.

The bill also would encourage the building of head-water storage reservoirs to control power production, prevent floods, and obtain water for irrigation purposes after being used for generation of power. Provision is made for construction of locks and power dams in navigable streams so as to extend navigation into the upper reaches of rivers.

At the expiration of the 50 year license, the government under the bill is given the option of purchasing the hydro-electric plants by paying the licensee his net investment, or it may issue a new license to the original licensee or to a new licensee who shall pay the original owner his net investment. Licenses are placed under the supervision of state public service commissions as to rates and regulation of service.

The federal government, the bill provides, may take over and operate any water power under license in time of war for manufacture of explosives or any use conducive to national safety.

Senator Jones in a statement said he was convinced that water power development, to be successful, must be enacted in the bill would have a capacity of more than 4,000,000 horsepower and would open up to navigation more than 4,000 miles of the upper reaches of streams.

## JAPANESE NOT DECLARED WAR ON THE BOHEMIAN

By the Associated Press.

LONDON, April 30.—Cecil Harmsworth, under secretary for foreign affairs, replying to questions in the house of commons today said Japan had not declared war on the Russian soviet government in eastern Siberia.

He added that as far as the British government was aware, Japan did not intend to set up a protectorate or accept a mandate for eastern Siberia. There was no agreement between Japan and the allies regarding the Japanese action in those regions, Mr. Harmsworth declared.

## CLAIMS POLS WOULD VIOLATE TERMS OF PEACE TREATY

By the Associated Press.

BRESLAU, Silesia, April 27.—President Josef Bittu of upper Silesia has said the government at Berlin is drawing up alleged to be a Polish plan for the military occupation, not only of the upper Silesian plebiscite area, but of German territory to the north and east of that area.

President Bittu exhibited a copy of the plan to the Associated Press correspondent, explaining its meaning. The drawing is said to have been obtained by German secret agents and outlines the plebiscite zone and covers the region roughly between Posen and Troppau. The setting which is in German appears to give the disposition of two Polish arguments, with indications of their line of advance.

## TELEGRAPH OPERATOR BLAMED FOR TRAIN WRECK

By the Associated Press.

CHICAGO, Minn., April 29.—Responsibility for the head-on collision of two passenger trains on the Chicago and Northwestern railroad near here today, which five persons were killed and 12 injured, one witness, was placed on Joseph Tamer, telegraph operator at Sanborn, Minn. by St. J. Boyle, division superintendent. Tamer is alleged to have neglected to give the crew here of the west-bound train orders to take a siding one mile west of Sanborn to meet the eastbound train.

All of the injured are recovering.

## RAISE PRICE OF PAPERS.
