## PRESIDENT OF FRANCE HAS A CLOSE ESCAPE

Plunges Head First Through Window of Speeding Passenger Train

## MIRACULOUSLY SAVED ASSERTS MILLERAND

Reported to Have Suffered Spell of Dizziness—Much Embarrassed at His Appearance.

By the Associated Press.  
PARIS, May 24.—President Deschanel returned to the palace this evening after a miraculous escape from death near Montargis last night when he plunged head first through a window of the special train on which he was traveling to dedicate the monument to Senator Raymond, French aviator killed in the war. The president looked not much the worse for his experience.

M. Deschanel, who was accompanied on his trip by automobile from Montargis by Madame Deschanel and Premier Millerand, alighted in the three year old train at 11:15 p. m. and showed the marks of the accident.

President Sound.  
"You may tell your people in America that the president is sound physically and mentally," Premier Millerand said. "Only a few scratches remain of the experience. President Deschanel is feeling so good that he insists on presiding over the council of ministers to be held tomorrow."

Escape Miraculous.  
It developed from M. Millerand's talk that the escape of the president from death was miraculous as, according to the premier, the train was traveling at 50 kilometers an hour. "It is fantastic," he kept repeating.

Julius Steeg, minister of the interior, who was on the train, reported to Premier Millerand that M. Deschanel alighted on soft sand and fell first. "It is fantastic," M. Millerand said. "I have advised the president to retire to Rambouillet for a few weeks, because it is on the morrow that he will feel the reaction from the strange experience."

Health Is Cause.  
Throughout Paris and even in official circles the falling health of the president is ascribed as contributing to the accident. The train was rounding a curve when he opened the window, the president told M. Thoma, chief of cabinet this morning that he was suddenly overcome with dizziness and recoiled, nothing until he regained consciousness on the roadway. The president was much embarrassed by his personal appearance, which was the first thought that flashed through his mind.

The president has been noted for his immaculate dress and dignity. His last word in fashionable apparel, and the picture of him walking down the train in pajamas, disheveled and barefooted, has appealed to the boulevard Parisian sense of humor.

The president had a hearty meal this evening and chatted with Madame Deschanel and the children. He seemed to enjoy the effort of the trackworker to whom he said: "I am President Deschanel," to which the latter replied: "Might you not be the late car of Russia?"

The fact that the president remained five hours on a gate keeper's cot before the automobile from Montargis arrived, has caused much discussion. After a consultation, his physicians issued this bulletin:

"The consultations are without gravity. The president's condition is as satisfactory as possible."

FLOOD DAMAGES PASS. ALBANY, N. Y., May 24.—Damage to property from the Rio Grande valley passed tonight when the waters began to recede. Several hundred acres of farm land were inundated through breaks in the levee.

## CONGESTION IS SLOWLY YIELDING TO ATTACK

By the Associated Press.  
WASHINGTON, May 24.—The freight jam was declared tonight to be slowly yielding to the efforts concentrated on the move or cars which was clearing the country's railroad yards. It is to the American Association's car service committee showed a reduction in car accumulation from 260,000 on April 24 to less than 170,000 last Friday.

While the battle by no means has been won railroad officials said indications of improvement were strong enough to substantiate the belief that the peak of the congestion had passed.

The car service committee's report showed the number of cars accumulated at the important terminals on various dates for the past 30 days to have been: April 24, 260,000; May 1, 235,000; May 8, 200,000; May 14, 184,000 and May 21, 170,000.

The figures also disclosed that on April 2, just prior to the unauthorized strike of switchmen, 93,000 cars constituted the congestion. In 12 days it rose to 230,000, the highest mark in history.

## JOHNSON LEAD IN OREGON IS CUT DOWN

By the Associated Press.  
PORTLAND, Ore., May 24.—Returns from the Oregon presidential preference primary held yesterday culminated late tonight by the Portland Oregonian showed Senator Hiram W. Johnson leading Maj. Gen. Leonard Wood, his nearest rival, by 553 votes.

The vote: Johnson 42,864; Wood, 41,311.

PORTLAND, Ore., May 24.—Returns from the Oregon primary election held Friday compiled tonight gave Senator Hiram W. Johnson a margin of 572 votes for the republican presidential preference.

The vote included complete unofficial returns from 14 of the largest counties and incomplete returns from all but one of the remaining 21. Wood, 42,864; Johnson 41,311; Lowden 15,653; Hoover 14,228.

Advices from Coos county early today gave Johnson 1,251 votes and Wood 677. A report from Coos county tonight said the Johnson vote should have been reported as 1,291.

## FAIR DISTRIBUTION OF SUGAR IS SOUGHT

By the Associated Press.  
NEW YORK, May 24.—The government will seek to obtain fair distribution of the sugar supply through a sweeping investigation of sugar brokers who ignore conditions of their federal license, A. W. Riley, special assistant, to Attorney General Palmer, announced tonight.

This announcement followed closely upon testimony before the joint legislative committee investigating profiteering of refined sugar had been charged the government with responsibility for the high price of sugar because of its failure to authorize the sugar equalization board to purchase the Cuban crop last year for 6 1/2 cents a pound and upon announcement that the price of refined sugar had been increased to 2 1/2 cents, an advance of 3 cents within a week.

The investigation headed by Mr. Riley will begin tomorrow.

## FLIER BRINGS BOOZE IN PLANE FROM CANADA

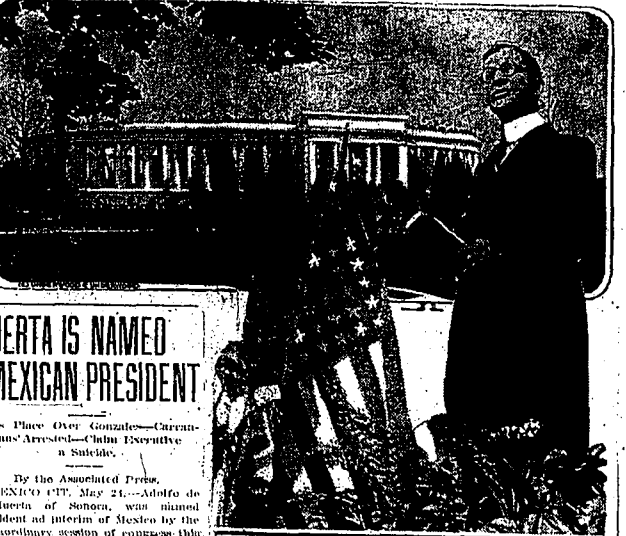

By the Associated Press.  
DES MOINES, Iowa, May 24.—Police announced tonight that they are on the trail of a Canadian pilot who landed at a flying field near the city at 4 o'clock this afternoon from Winnipeg, Canada, with 15 cases of whiskey in his plane. He sold the whiskey for \$250 a case within two hours after his arrival here the police said.

The plane left Winnipeg at 8:30 this morning and made the 560-mile trip in between 7 and 8 hours, the police have learned. They did not reveal the hiding place of the plane.

Frank Harby, assistant police chief and night captain, is conducting a city-wide search for the liquor brought to the city by the aerial bootlegger.

Under the colonnade are crypts where distinguished soldiers and sailors will be buried.

## HUERTA IS NAMED MEXICAN PRESIDENT

By the Associated Press.  
MEXICO CITY, May 24.—Adolfo de la Huerta de Sonora, was named president ad interim of Mexico by the extraordinary session of congress this evening. He received 224 votes against 28 for Pablo Gonzalez, General Antonio Villarreal was the only other candidate.

The extraordinary session had been fixed for 2 o'clock this afternoon, but did not begin until 5 o'clock because of the lack of a quorum. After one hour and a half of balloting, Governor de la Huerta received the necessary two-thirds majority.

The new incumbent holds office under the "Agrupacion plan" and has already postponed the presidential elections from July 14 to September 14, under authority of the "Agrupacion plan," which makes him supreme chief of the liberal constitutional army. He exercised the same authority in calling the extraordinary session of congress.

SAID TO BE A SUICIDE. MEXICO CITY, May 24.—President Venustiano Carranza committed suicide rather than be taken prisoner, according to a telegram given out this afternoon at the headquarters of General Gonzalez. It purports to have been sent from Cuernavaca state of Puebla, the morning of Thursday, May 20, by Colonel Rodolfo Herrera, who, previous reports have stated was responsible for Carranza's death.

CARRANZA ARRESTED. EL PASO, TEX., May 24.—Ignacio Bonillas, former Mexican ambassador to the United States, Pauline Ponsa director general of the Mexican railroads, and other high officials who were with President Carranza when he was assassinated early Friday morning, have been arrested and are held for investigation. Carranza was reported to have been brought to Mexico City by General Alvaro Obregon at Mexico City, Obregon's message said:

"Last night we arrested the persons who were escorting the body of President Carranza. These persons were General Francisco de P. Mariel General Bruno Neria, General Francisco Urujo, General Urujo, General Bonillas and Manuel Aguirre Borlang. We believe Carranza was assassinated perhaps by Rodolfo Herrera, because Carranza was the only one hurt with all the other generals near him. These other generals, who were sleeping with him, were unhurt. These other generals did not use their guns to protect him, we believe. We are sending a commission to investigate the case and we will have additional details tomorrow. As for Carranza we will put him in jail and punishment will be severe."

## WILSON ASKS CONGRESS TO PERMIT MOVE

Private Predictions Made Request of the President Will Be Refused

## ALLIES WOULD WAVE TERMS OF PEACE PACT

Estimated by General Harbord That It Would Require 50,000 Troops to Patrol the Area.

(By the Associated Press.)  
WASHINGTON, May 24.—An authority to accept for the United States a mandatory over Armenia was asked of congress today by President Wilson. The executive said he was conscious he was "arguing a very critical choice," but that he did so "in the earnest belief it will be the wish of the people of the United States that this should be done."

The president's message was read in both houses, but was discussed in neither. Each referred it to its committee for foreign relations. Some conservative republicans predicted that the message would lie in the senate committee indefinitely. Chairman Lodge of the senate committee had no comment to make. In the past, however, he has declared emphatically his opposition to a mandate.

Will Never Consent. Senator Harding, republican, chairman of the committee which investigated Armenian affairs, said he would never consent to take a mandate over Armenia and added he did not think the senate would consent.

Senator Harding is the author of the resolution adopted by the senate congratulating the Armenians on the recognition of their independence and asking the president to send a warship and American marines to Baku. The president referred to this resolution in his message, but senators pointed out this measure was adopted as a substitute for one by Senator Williams, democrat, Mississippi, proposing that the United States become the mandatory for Armenia.

The president informed the senate that he had accepted the invitation of the allied supreme council that, he undertake to arbitrate the questions of the boundary between Turkey and Armenia, saying he had thought it his duty "to accept this difficult and delicate task."

Provision for mandate is made in the peace treaty and it is set forth such mandates shall be executed under the league of nations, but since the United States is not a member, administration officials said if congress decided that the United States should act for Armenia, the treaty provisions would be waived in this case.

The question of a mandate over Armenia was discussed in the report of the American mission to Armenia, filed with the American people, recently presented to the senate. The general estimate that acceptance of the mandate would necessitate the presence of 50,000 American troops there. Other estimates, however, have placed it at less, once the Turkish army has been demobilized.

The Statement. After referring to the senate resolution, the president said: "I received and read this document with great interest and with a feeling of gratification, not only because it embodied my own convictions and feelings with regard to Armenia, but also, and more particularly, because it seemed to me to be a statement of the deep Christian sympathies of the American people, in making the line of duty which led to them to the clearly before of the world."

"I am sure that the American people, and not only the American people, but the whole world, will find in this statement a clear and definite statement of the American position on this question."

China, the reply states, is ready to take over the policing of the railway, which responsibility will be taken by the railway's German management.

## RAISED RATES NOT TO INCREASE H.C.L.

Speedy Transportation Would Make for Reduction, Says Daniel-Willard.

By the Associated Press.  
WASHINGTON, May 24.—Belief that advances in freight rates to provide the more than a billion dollars additional revenue asked by the railroads would not increase the cost of living was expressed by spokesman for the carriers in opening their case today before the interstate commerce commission.

"Nothing I know of," said Daniel Willard, president of the Baltimore and Ohio railroad, "would reduce the cost of living so much as the prompt and speedy transportation of goods."

He added that the revenue asked is necessary to provide the 6 per cent return guaranteed by the government in the transportation act would enable the carriers to procure sufficient equipment to move commodities now unable to reach a market.

Frederick Strauss, New York, now appearing for the roads, declared a 50 or 60 per cent increase in freight rates would have no appreciable effect on the movement to bring down living costs.

"Questioning of Howard Elliott, of the general rate committee of the Association of Railway Executives, who presented the introductory testimony for the carriers, developed that the additional million dollars requested is not regarded by the railroads as covering wage increases estimated at more than a billion dollars annually, included in demands presented to the railroad labor board.

Mr. Willard made the initial presentation of testimony for the eastern group of railroads, who are asking an increase of 36.4 per cent in rates to produce about \$550,000,000.

Mr. Strauss contended for higher rates as necessary to bolster up the weakened market for railway securities.

Cross-examination of the carriers' witnesses was conducted by representatives of the shippers. Mr. Willard in reply to questions said there now were some 10,000 more men employed by the Baltimore and Ohio railroad than before federal control, but explained this was mainly due to the change from piece basis work in the shops to the day system.

Asked regarding the advisability of raising passenger rates Mr. Willard declared it his personal opinion that the public would rather have the increase in freight.

## CARRIER WORKERS DEMAND STATISTICS

Chain That They Desire to Prevent Inaccuracies in Wage Hearing Record.

By the Associated Press.  
CHICAGO, May 24.—A demand that the committee representing the railroads in the hearing being conducted by the railroad labor board on the employee's demands for increased wages be compelled to furnish employees with copies of all statistics presented, was made today by the employee's representatives.

The demand was made, it was said, to prevent inaccuracies concerning the wages now received from creeping into the minutes. E. T. Whittier, chairman of the committee representing the Association of Railway Executives, which is presenting a reply to the demands for increased wages, agreed "to furnish the employee's representatives with copies of all testimony presented and to inform them of the source of such information."

The employees' representatives said when they presented their testimony before the board in Washington they had furnished the roads with copies of their statistics and work sheets showing how these statistics were reached.

The demand came after Mr. Whittier had attacked demands of the railroad clerks for higher wages on the ground it would be unjust to many men and to the roads to grant a blanket increase.

"While many of these men merit consideration, it would be unfair to grant an general increase affecting all of them," he said. "Usually one-half of these clerks are from 18 to 23 years of age and receive good pay considering their age and experience."

Mr. Whittier said the average pay for junior clerks was \$27.50 a month and that the proposed wage increase would bring their pay to an average of \$32.50 a month. Q During the past 5 years they have received increases of from 74 to 130 per cent, he said.

Mr. Whittier also raised the question of the board's authority to grant increases retroactive to any date prior to March 1, when the transportation act creating the board went into effect.

## CHINESE MAKE LONG DEFERRED REPLY TO JAPS

PEKING, May 23.—The Chinese government yesterday sent its long-delayed reply to Japan on the subject of Shantung, says a dispatch to the London Times. The reply expresses pleasure that Japan proposes to return Kiao-Chow and would withdraw railway guards, but fails to see the necessity of formal negotiations.

China, the reply states, is ready to take over the policing of the railway, which responsibility will be taken by the railway's German management.

The tale of a lad who "fled from civilization," boarded a raft on the Mississippi, floated down, down, adventuring—with a "King" and a "Duke" and Old Black Jim.

The tale that will live as long as the world can smile, and men can remember youth. Made into a picture in the truest sense great.

## Meeting the Demand

Meeting the demand for more efficient telephone service is just as difficult as meeting the demand on any other public concern—whether it be an over-crowded grocery store, a popular ticket window, a bargain counter or anything else where supply is running short.

Conditions are unusual throughout the entire manufacturing, mercantile and domestic world. Deficiencies in telephone service which have been quite obvious for some time are directly due to these abnormal conditions.

Materials are scarce—manufacturers are not able to meet the demand—telephone supplies cannot be had—the war diverted all activities in other directions, and they are just beginning to come back. Until the normal level is struck, there is bound to be shortage of supplies and this means unavoidable deficiencies.

The telephone service is probably no better or no worse than the general average of the business and domestic routine.

The telephone management is in a vigorous campaign to get its service back to the old standard of speed and accuracy. Patience and co-operation on the part of the public will greatly aid in bringing about mutual satisfaction.

# STUDENTS' STRIKE ENDS IN FATALITY

Student Taking Examination Is Killed,  
Harmed On Assaultive  
Teaching.

BUENOS AIRES.—The students strike at the University of La Plata, which culminated recently in a shooting affair in a lecture room and the killing of one of a group of students taking an examination, is attributed by some newspapers to the incitement of politicians and by others to "the absorption of anarchistic ideas" by student agitators.

The tragedy was the most serious of a number of acts of violence on the part of the strikers that have occurred during the past few months. Demanding reforms in the administration of the university, including an enlargement of the rights in the control of the administration already possessed by the student body, the strikers took possession of various of the university buildings on four different occasions and ejected the faculty. The faculty have had to call on the police to put them, having been powerless to maintain discipline.

The strike was at first regarded as "college-boy nonsense" but was soon given a serious aspect by the newspapers because of evidence that the ringleaders were actuated by bolshevistic ideas and because it was led to threats by the federal administration to remove Governor Grotto of Buenos Aires province and appoint an "interventor" in his stead. Governor Grotto is a political opponent of President Frigorini and anti-administration newspapers have accused politicians of the president's party with inciting the students to create disorder to make an additional excuse for Governor Grotto's removal.

When the students first declared the strike by their organization, the "Federacion Universitaria," they took forc-

ination and rushed into the lecture room, flourishing revolvers. Flat fights between the strikers and orderly students were followed by the slaying of about 50 shots and Pelliccioli, a youth who had come from Paraguay to take the examination fell wounded. About 130 students were arrested in a police round-up which quickly followed and 120 revolvers were taken from them.

### WHITNEY'S WILD AIR IS WINNER OF BIG HANDICAP

By the Associated Press.  
NEW YORK, May 24.—Harry Payne Whitney's Wild Air won the Metropolitan handicap at one mile at Belmont Park today over three other starters. Wild Air, by Bromstick Verdure, led across the finish by two open lengths in 1:28 4/5.  
S. C. Hildreth's Thunderclap, hard driven, was second, six lengths in front of On Watch, an added starter, owned by G. W. Loft, while Corn Thael also from Hildreth's stable, was five lengths away.  
The winner and the Hildreth pair were split favorites with the public at odds of 11 to 10, with as much as 8 to 1, being laid against the added colt, On Watch.  
It was the smallest field that ever competed since the classic was inaugurated in 1891. The value of the race to the winner was \$3,865.

## U.S. MUST HUSTLE TO WIN OLYMPIAD

Track and Field Events Alone Do Not  
Assure This Nation of  
Victory.

ANTWERP.—Unless America is content with a possible victory in field and track events, she must send strong teams to represent the United States in military, equestrian, golf, tennis and other sports outside of track and field, if she hopes to win the seventh Olympiad on points. This was the general viewpoint of European sport enthusiasts who attended the ice hockey and skating events, opening the Olympiad, Sweden, which won the 1912 Olympiad on points, although America was victorious in track and field, will send strong teams to Antwerp, competing in practically every event.

The Swedes expect to be particularly strong in swimming and gymnastics and these sports, as well as shooting, equestrianism and other "outside" events, count just as heavily in the point total as weight throwing, running and jumping.

Other European nations, which specialize in horsemanship, fencing, archery, wrestling and half a dozen other varieties of sports, are to send crack teams for these events.

In 1912, at Stockholm, Sweden scored a total of 128 points to America's 126, this being the count before Thorpe was disqualified on charges of professionalism, when the six points he had won for the two firsts in the all round events—the modern pentathlon and decathlon—were awarded to Wilhelm Lander, a Swede, making the final count Sweden 125 to America's 125.

It is realized here that the United States team will be under great expense both for transportation and hotels, while the American athletes must win a number of competitions outside of the track and field games. The contestants in the ice hockey and figure skating matches expressed surprise at the high rates asked for board and lodging and the Antwerp newspapers are already protesting at the increased prices of hotel accommodations which must be paid by spectators and participants in the Olympic games. The Olympic committee has arranged to control prices and prevent profiteering by individual hotelkeepers who will rent rooms, under the committee's supervision, but the hotels, which, naturally, have the most desirable accommodations, already have increased their charges and are expected to raise prices even higher.

Their proprietors plead the decrease in the value of the franc and the increased cost of maintenance as justification, but the Antwerp Athlete suggests that they, too, should be controlled.

Writing of the experiences of some foreign athletes here for the Olympic events the Athlete says these athletes found hotel, board here higher than any place else in Europe.

"These athletes had two rooms, one a tiny sitting room and the other a bedroom, with a bath attached," the newspaper said. "They paid 350 francs per month—but per day for them."

The Belgian committee has expressed hope of accommodating all the athletes and visitors comfortably during the summer, but local hotel accommodations are seriously limited, even during normal times, and it will be only by packing the visitors in private homes and requisitioned school buildings or other large halls that even sleeping quarters can be found. This is the natural result of five

years of war and enemy occupation, during which no new buildings were constructed; but, according to the Americans and others who were here for the Olympic skating events and were disappointed with their accommodations, the man who expects a room with a bath, or even the use of a bath, in Antwerp this summer, had better stay at home.

The available hotel accommodations have already been largely reserved in advance, and the German army of occupation took back to Germany a majority of the few battalions which all exist in Antwerp's private houses. A partial relief from the congested conditions may be gained by defecting a portion of the tourist and games contingent to Brussels, which is but an

hour's ride from Antwerp, but accommodations there, better, it is thought that visitors attending the games for the Olympic skating events and were disappointed with their accommodations, the man who expects a room with a bath, or even the use of a bath, in Antwerp this summer, had better stay at home.

Although plenty of beer are to be had in all the restaurants and hotels, drink stronger liquors will strike disappointed in the spirits are only sold in two quarts or more, and private consumption.

## NON-ESSENTIAL SWEETENING.

One of the state fair-price commissioners declares:

"The government should take steps to prevent the use of sugar in candy, soft drinks and other non-essentials. This should be done especially during the present shortage. If manufacturers of such commodities used substitutes during the war, they can do so now."

The same view has been expressed by Herbert Hoover, who knows more about the sugar situation and practical methods of dealing with it than any other man in America.

It would be unfair to any industry to deprive it wholly, or to any ruinous degree, of the raw material on which it chiefly depends for turning out its manufactured product. The candy makers and the soft drink makers are engaged in business that is legitimate, even though not wholly essential at a time like this. They should have enough sugar to keep up a moderate volume of production, if it is obtainable. But it is certainly absurd to allow them to use as large a part of the sugar supply as they are using now, when the sugar is so sorely needed for more important purposes.

Those purposes are, first, the daily needs of American homes for cooking purposes, and second, the needs of the canning industry, commercial and domestic. This second-purpose will become the more important of the two when the fruit season arrives.

If there is not enough sugar available then, hundreds of millions of dollars' worth of fruit will be lost and limitless quantities of preserved fruit, jellies, jam, etc., will be lacking next winter from the grocery shelves and the family fruit closet. There will be serious privation and higher prices.

The public can well afford to dispense with some of its candy and sweet drinks in order to avoid such a calamity. If the sugar scarcity, then, is as great as it appears to be, if there is nowhere near enough sugar to satisfy all demands, let the non-essential sugar-using industries be rationed first of all, and most drastically.

## THE LUXURY TAX.

The wisdom of the so-called luxury tax, as a producer of revenue with the least friction, is upheld in a statement made by the New York collector of internal revenue. He says that in Manhattan alone the expenditure for articles designated as luxuries has reached a total of \$105,000,000 a month. The taxes levied on this big sum seem to be paid almost invariably without a murmur, because, as he explains, the people have the money, and the tax is small compared with the total cost of the thing bought, whether it be a glass of soda water or an automobile.

Moreover, the remarkable fact develops that it is the humble purchasers who pay most of the luxury taxes. Says the revenue officer: "My accountants show that there is more money collected in tax from ice cream sodas and other small sales which carry a penny or two of tax than there is from the sale of diamonds, furs, touring cars and other expensive items." Other revenue districts tell the same story.

Self-chosen champions of the supposedly down-trodden proletariat may gnash their teeth at this, but the proletarians themselves refuse to get excited about it. And they are right. Everybody has been indulging in luxury, the humbler spenders no

less than the millionaires, the wage-earners no less than the bankers, in proportion to their usual rate of expenditure and the character of their purchases. It is right that when a whole nation, from top to bottom, goes luxury-mad, all should be made subject alike to luxury taxes.

However, lest congress be moved to work a good thing still harder, and boost the luxury tax a notch or two, it is just as well to add that the same cheerful internal revenue collector believes the peak of luxurious spending was reached last month, and that people from now on are going to think more before investing in commodities subject to the tax. That source of revenue, then, may soon shrink considerably.

## CUBA COMES TO VISIT.

Cubans are said to be coming now by thousands to New York city. It seems strange to the New Yorkers, who themselves are visiting Cuba in corresponding numbers. The Cubans manifestly have no such compelling reason to seek our dry metropolis as our citizens have to seek their wet one. Nevertheless, they are coming, and coming for diversion.

They are described as mostly planters and business men who have made fortunes in sugar. That fact alone would make them interesting visitors, at a time when sugar is, next to politics, our leading topic of public interest. There is a certain satisfaction, too, in the reflection that they are spending their surplus funds in this country—that a few Americans, at least, are going to benefit by the profits they have extracted from the pockets of all Americans.

They are welcome, however, for their own sake. The Cubans, though so different in character and culture that Americans often fail to understand them, are a graceful, courteous and intelligent race, whom we ought to know better. The more they visit this country, the better it will be for the business, social and cultural relations of both countries. And since they are representatives of the great, complex group we call Latin-America, it may be that their turning thither marks the beginning of a tourist tide from Central and South America.

All our Latin neighbors endowed with money and culture used to go to Europe for interest and relaxation. Paris, not New York, was their goal. When such a long-established preference changes in favor of the United States, we are surely coming to the better understanding and closer affiliation that we have so long hoped for.

Henry Cabot Lodge in December, 1918, said: "We cannot make peace in the ordinary way. We cannot, in the first place, make peace except in company with our allies. It would brand us with everlasting dishonor and bring ruin to us if we undertook to make a separate peace."

Congress may be all right in wanting to shut down on some of the waste of printed paper by the executive departments; but why doesn't it set a good example by shutting down on its own "leave to print," and saving paper in the Congressional Record?

West Virginia university students went on a thirst strike and brought down the price of soda water. Strange that all the striking thirsts of the last year have done so little for fire-water.

The Germans are now withdrawing their excess troops from the Ruhr district, and the French are justified. The Germans generally show a retiring disposition in the face of superior force.

The only trouble with Hoover's advice about the sugar situation is that it is so practical no politician will be able to understand it.

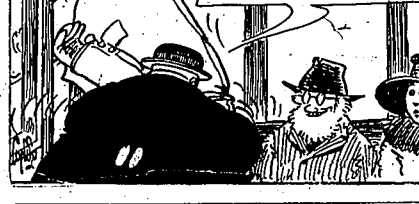

Dealers are announcing that straw hats are not going to cost much more this year than they did before the war. Straws show which way the wind blows.

## DANIELS AND HALE IN BITTER SETTO

Secretary Refuses to Answer Plain "Yes" or "No" to Questions Presumptive.

By the Associated Press.  
WASHINGTON, May 24.—(Cross-examination of Secretary Daniels before the senate naval investigation committee today wound about from verbal wrangle to debate and back to charges between the secretary and Chairman Hale. The latter requested Mr. Daniels to answer "yes" or "no" to the question whether the department had no dual plan.

"I am secretary of the navy and I shall answer you in accordance with the duties of my office," the secretary retorted. "You have no more right to tell me how to answer a question than I have to tell you how to ask it."

"At the present rate it looks like this committee will be here all summer," the chairman added. "All right," replied Mr. Daniels. "I can't understand why you are introducing so much irrelevant matter," continued Senator Hale. "These hearings are being conducted at great expense and I would think you would be as anxious as any of us to expedite them."

"I am not introducing irrelevant matter and I do wish to expedite the hearings," replied Mr. Daniels. "But I intend to give full answers to questions if it takes all summer."

"The hearing is intrinsically irrelevant matter," continued Senator Hale. "These hearings are being conducted at great expense and I would think you would be as anxious as any of us to expedite them."

## PISAL ACTION ON WORLD CHURCH MOVEMENT TAKEN

By the Associated Press.  
PHILADELPHIA, May 24.—Final action on the Inter-Church World Movement was taken tonight by the executive commission of the general assembly of the Presbyterian church in the United States, in session here and the announcement of the decision will be made at tomorrow morning's session. It will be read in a report by Dr. John W. Baer of Pasadena, Cal., who is head of the executive commission.

A stride toward organic union of protestant churches in this country was made at Bala Cynwyd, where a delegation appeared before the commissioners and ask their support. The delegation consisted of Rev. Dr. George W. Hefz, secretary of the Bala Cynwyd association of the reform church in the United States; Rev. Henry W. Jessup of New York and Rev. Floyd W. Tomkins, of this city. The question was referred to the committee on bills and overtures for their action Wednesday.

## ELIMINATE PROVISIONS OF BILL SECRETARIES OPPOSE

WASHINGTON, May 24.—The senate upon the motion of Majority Leader Lodge today eliminated from the annual army appropriation bill provisions relating to naval aviation operations in connection with fleet movements and land bases. The eliminated provisions were opposed by both Secretaries Daniels and Baker.

## JEROME WINS SETTO FROM BURLEY VETS

North Side, Team Swamps Veterans 12 to 1—Anderson Pitches Good Ball.

JEROME, May 24.—Jerome jumped into a leading place in the baseball firmament here yesterday when they defeated the Hurley team by a score of 12 to 1. Jerome took command of the situation from the start and the result was never in doubt after the second inning.

The game was played in a dust storm but it did not deter a large portion of the citizens of Jerome from being present. There were 800 paid admissions to the contest. Anderson, late of Blackfoot, was the particular star of the contest. He was doing around with the locals and had all the "stuff" in the world. He set down the heavy hitters of Hurley in regular fashion. Only four hits were garnered off his delivery. Conroy slugged the game for Burley. He was wild and got himself into hot water. He gave way to Kearns.

# METHODISTS DENY WORKERS WANT BEER

Also Denies Statement by Governor That Farmers Anti-Prohibition Is Not True.

By the Associated Press.  
DES MOINES, Iowa, May 24.—Instructions to send to officers of the Temperance Society of England, a communication denying that the agricultural population and what was termed "so-called" working classes of the United States were against prohibition were given to officers of the Methodist Episcopal general conference today.

The action was taken to counteract what the instructions said was "an official communication sent by the governor of one of our great states to John A. Page, secretary of the Temperance Society of England." The governor's communication was said to have alleged "the working classes demand their beer, and the same may be said of a large percentage of our agricultural people." The Methodists deny prohibition has caused unrest in industrial or agricultural centers, and declared that absence of violence in industrial disturbances has been due to saloons being closed. The agricultural population already favors prohibition, the conference said.

After a long debate, the conference adopted a modification of the provision of the church's relative to the term of office of the district superintendent, removing the time limit of six years.

The committee on Freedmen's Aid presented its report, recommending that the name of the Freedmen's Aid society be changed to the Board of Education for Negroes, which report was adopted.

The committee on home missions recommended that the board of home missions appropriate more money and do more work among the American Indians. The report was concurred in.

The report of the committee on unification with the Methodist church, south, which was adopted this morning, was expected to take a large amount of time before being decided upon. Contrary to all expectations, it was just 20 minutes from the time that the secretary commenced to read the report until it had been adopted without debate. This report provides for the organization of a joint convention with the representatives of the Methodist church, south, for the purpose of formulating new plans for unification upon a basis which will be satisfactory to all members of both churches and recites the fact that in its present form, unification is not agreeable to a large number in both churches.

## WILSON ASKS CONGRESS TO PERMIT MOVE

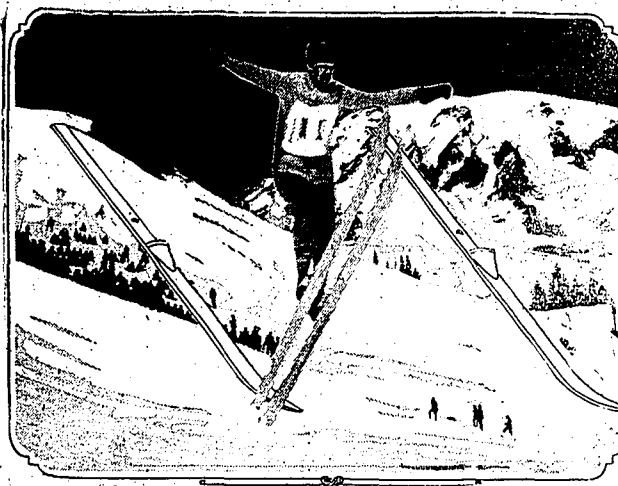

Continued From Page One.

conference of statesmen now sitting at San Remo for the purpose of working out the details of peace with the central powers which it was not feasible to work out in the conference at Paris, had formally resolved to address a definite appeal to the government to accept a mandate for Armenia. They were at pains to add they did this not from the smallest desire to evade any obligations which they might be expected to undertake, but because the responsibilities which they are obliged to bear in connection with the disposition of the former Ottoman empire will remain their responsibility to the uttermost, and because they believe that the appearance on the scene of a power emancipated from the pre-possessions of the old world will inspire a wider confidence and afford a firmer guarantee for stability in the future than would the selection of any European power.

Under State Sovereignty.

"Early in the conference at Paris

# Ski Tournament To Be Held Next Month

The seasons are a bit reversed here. On Mount Rainier, Washington, the roof-garden of the world, the Northwest Ski club holds its annual mid-summer tournament. It will be held the last week in June. The snow slide was won by S. Johnson last year. He is shown in the picture just after leaving the take-off for a long skin. He's only practicing. When he gets off in good shape he descends around 200 feet.

It was agreed that to those colonies and territories which as a consequence of the war have been placed under the sovereignty of the states, the former governed themselves, but have come with extraordinary loyalty and sincerity from the strenuous conditions of the modern world, there should be applied the principle that the well-being and development of such peoples form a sacred trust of civilization and that securities for the performance of this trust should be afforded.

"It was recognized that certain communities formerly belonging to the Turkish empire have reached a stage of development where their existence as independent nations can be profitably recognized, subject to the rendering of administrative advice and assistance by a mandatory until such time as they are able to stand alone."

"It is in pursuance of this principle and with a desire of affording Armenia such advice and assistance that the statement conferring at San Remo have formally requested this government to assume the duties of mandatory in Armenia. At the same sitting it was resolved to request the president of the United States to undertake to arbitrate the difficult question of the boundary between Turkey and Armenia and the Vilayets of Erzerum, Trebizond, Van and Bitlis, and it was agreed to accept his stipulation he may prescribe as to access to the sea for the independent state of Armenia. In pursuance of this action, it was resolved to embody in the treaty with Turkey a provision that Turkey and Armenia and the other high contracting parties agree to refer the arbitration to the president of the United States of America the question of the boundary between Turkey and Armenia in the Vilayets of Erzerum, Trebizond, Van and Bitlis and to accept his decisions thereupon as well as any stipulations he may prescribe as to access to the sea for the independent state of Armenia, pending that decision the boundaries of Turkey and Armenia to remain as at present. I have thought it my duty to accept this difficult and delicate task.

Responds to invitation.  
"In response to the invitation of the council at San Remo, I urgently advise and request that the congress grant the executive power to accept for the United States a mandate over Armenia. I make this suggestion on the earnest belief that it will be the

wish of the people of the United States that this should be done. The people of Armenia have proved to be a single portion of our people, but have come with extraordinary loyalty and sincerity from the strenuous conditions of the modern world, there should be applied the principle that the well-being and development of such peoples form a sacred trust of civilization and that securities for the performance of this trust should be afforded. This great and generous people have made the cause of Armenia their own. It is in this people and in their government that the hope and earnest expectations of the struggling people of Armenia turn as they emerge from a period of indescribable suffering and peril, and I hope that the congress will think it wise to meet the hope and expectation with the utmost liberality. I know from unmistakable evidence given by responsible representatives of many peoples struggling towards independence and powerful life that the government of the United States is looked to with extraordinary trust and confidence, and I believe it would do nothing less than arrest the hopeful processes of civilization if we were to refuse the request to bear the burden of these peoples as we may be authorized and formally requested to guide and assist.

"I am conscious that I am urging upon the congress a very arduous task, but I make the suggestion in the confidence that I am speaking in the spirit and in accordance with the wishes of the greatest of the Christian peoples. The sympathy for Armenia among our people has sprung from unfeigned conviction, pure Christian faith, and an earnest desire to see Christian people delivered from their time of suffering and lifted from their abject subjection and dis-

treas and enabled to stand upon their feet and take their place among the free nations of the world. Our recognition of the independence of Armenia will mean genuine liberty and assured happiness for her people if we fearlessly undertake the duties of guidance and assistance involved in the functions of a mandatory. It is therefore, with the most earnest earnestness and with the feeling that I am giving advice from which the congress will not willingly turn away that I urge the acceptance of the institution now formally and unanimously extended to us by the council at San Remo into whose hands has passed the task of compounding the many complexities and difficulties of government in the new-born Christian empire and the maintenance of order and tolerable conditions of life in those portions of that empire which it is no longer possible in the interest of civilization to leave under the government of the Turkish authorities themselves."

## PLAN EXCISE TAX ON NEWSPAPER PRINT

WASHINGTON, May 24.—An excise tax on print paper to curtail consumption will be one of the recommendations of the senate-manufacturers sub-committee investigating the print paper shortage. A bill for that purpose is being drawn by the committee assisted by the federal trade commission. The amount of the tax and other details remain to be worked out.

## Four "Irish-Americans" Take London

Four little Americans are the hits of the stage in London. Every one—Times, Mirror, Express, Daily News—all of them declare the maid from over the sea the crown of loveliness and the top of theatrical excellence. They are Miss Peggy O'Neil, Miss Taylor, Miss Mary Nash and Miss Edith Day.

# AUTO CARAVAN IS MAKING BIG HIT

Salt Lake Motor Train Arrives in Twin Falls—Parade Through Streets, To Be Completed in Jerome.

"Chugging steadily along the modern caravan of automobiles" trucks reached Twin Falls yesterday noon covered with the dust of several counties in Idaho. The assortment of trucks and trailers together with various other motals began their tedious and enterprising journey in Salt Lake City, and will continue to Boise. Citizens from Twin Falls met the train with a band and string of torches at Murfreesburg, then conveyed them to Homestead and on into the city of Twin Falls.

It is the purpose of the truck train to demonstrate the feasibility of automobile transportation of heavy loads over roads of any and every character, and at the same time to stimulate the public interest in improvement of the state and national highways.

After traveling over the roads in the vicinity of this city the train is banded to enjoy a rest during the noon hours. They remained in Twin Falls over night and a large meeting was held at the feature of the night at the high school auditorium.

Numerous officers throughout the country will endeavor to demonstrate what the ship-by-truck movement means during the week which has been set aside for that purpose. Great progress is expected to be derived from the exhibition after people realize the true meaning of its appearance.

The party will leave early this morning to complete another lap of their journey and will be escorted over the Shoshone grade by L. B. Merrill who will conduct the train into Jerome.

## PAPACY MAKES NO REQUEST TO JOIN LEAGUE OF NATIONS

By the Associated Press.  
ROME, May 24.—Cardinal Gasparri, papal secretary of state today authorized a denial of a report recently printed in Paris that the holy see had requested that it be permitted to participate in the league of nations and that the request was refused.

## HOUSING PROBLEM IS SERIOUS IN BELGIUM

BRUSSELS.—Twenty-five thousand German civilian functionaries who occupied positions in Poland and have been deprived of their posts owing to transfers of territory, are in sore plight. The government, which apparently, is housing such a multitude with their wives and families, are signing them to old concentration camps and barracks.

In these quarters according to

statements made by some of them in Berlin, they have to lead a manner of hardships and are among the least of which is the situation of their accustomed belongings.

The German Civil Service has taken the matter up on half. It has memorialized the government, demanding a fairer consideration of their situation should receive preferential treatment against what it is termed "those ingratitude now show fatherland" to faithful servants have now been deprived means of livelihood.

## HAVE DARK HAIR AND YOUNG LOOKING

Nobody Can Tell When You Darken Gray. Only With Sage and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and attractive with a few of Sage Tea and Sulphur. Whoever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By adding it any drug store for "Woolly's Sage and Sulphur compound," you will get a large bottle of this old-time recipe, over night and a large meeting was held at the feature of the night at the high school auditorium.

This simple mixture can be depended upon to restore natural color and beauty to the hair.

"A well-known downtown druggist says, everbody uses Woolly's Sage and Sulphur compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's no easy thing to do. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks young, soft and beautiful. Adv.

## BALFOUR TELLS POPE OF ENGLAND VIEW ON IRISH

By the Associated Press.  
LONDON, May 24.—The long absence which Arthur J. Balfour, first president of the council, had with the pope recently was devoted chiefly to a statement of the case of Ireland from the British government's standpoint according to a Rome dispatch to the Daily Mail dated Sunday.

The pope, the correspondent adds, will hear on Monday the other side from the Sinn Féin leaders assembled in Rome. The pontiff has already conferred with the Irish bishops.

## GLIBBONS TO OFFICIATE

CHICAGO, May 24.—Cardinal Glibbons who will be in Chicago during the national republican convention today received a formal invitation from Frederick W. **ST. LOUIS, May 25.**—New York broke St. Louis' winning streak today by 7 to 4. Sherdel was knocked from the box when five of the first six who faced him hit—four with hits safely and drove in four runs. St. Louis hit Neff, driving him out in the eighth. Score: R. H. E.

**REDS STOP LOSING.**  
CINCINNATI, May 24.—Cincinnati broke its losing streak today by winning from Boston 4 to 2. McQuillen pitched brilliantly for six rounds but in the seventh the Reds bunched five hits for three runs and scored another on three hits off Heum in the eighth. Ruether was in rare form except in the fourth. Score: R. H. E.

**DODGERS BEAT PIRATES.**  
PITTSBURGH, May 24.—Gond pitching 7 2/3, enabled Trypko to defeat Pittsburgh 3 to 0 today. Adams was hard hit, but the visitors used poor judgment on the bases. A

pass to Johnson in the fourth, followed by six out and six hits, a two-run homer secured the only run of the game.

### KING CORIN IS VICTOR IN THE KENTUCKY HANDICAP

By the Associated Press.  
LOUISVILLE, Ky., May 22.—King Corin, R. L. Baker and company's Transvaal-Kent Simpson horse, garnered a fresh turf laurel for his owner at Churchill Downs today when he, for the second time, won the Kentucky Handicap at a mile and a quarter. Behind King Corin, a length and a half, was Dracule, followed by Minto II, Boniface, Linden, Sway, Pictor, Bo Frank, Dodge, Ginger and Mickey in the order named. The race was run in 2:04 1-5, which compares with the track record of 2:03 3-5, for the same distance set by Old Road in the Kentucky derby in 1913. The race carried \$10,000 in added money. Its gross worth was \$15,775, of which \$12,315 was the winner's share. The owner of Dracule received \$1,500 and Minto II, was awarded \$800, while Boniface saved his fees amounting to \$275.

## BOXING RESTORED IN EMPIRE STATE

Game to be Under the Supervision of Licensing Commissioner of Three.

By the Associated Press.  
ALBANY, N. Y., May 24.—Professional boxing was restored to legal status in New York state today when Governor Smith signed the Walker bill to regulate the sport and to provide for the appointment of a state athletic commission.

Fifteen round contests to a decision will be permitted. The law places the sport under supervision of a state licensing commission of three, to be appointed by the governor. The commissioners will receive \$5,000 a year each, but the licensing commission will serve without pay.

Two judges are to decide all bouts and in case of a disagreement the referee will pick the winner. All clubs, physicians, referees, judges, timekeepers, professional boxers and their managers, trainers and seconds must be licensed.

The rules of the army, navy and civilian board of boxing control and the International Sporting club are to govern the bouts. Exception of the two heavyweight classes, the difference in weight between opponents shall not exceed 15 pounds. Five ounce gloves will be up to and including the lightweight class and six ounce gloves in the heavier divisions.

**CHICAGO TAKES STEPS TO STAMP OUT GAMBLING**  
By the Associated Press.  
CHICAGO, May 24.—Chicago made its first move today to stamp out gambling at baseball games, when police and detectives arrested 47 spectators, who were alleged to be making bets. The men will be arraigned tomorrow.

The raid was the outgrowth of action decided on recently between John Heydler, president of the National league, and B. B. Johnson, American league head, to stop gambling at major league parks.

Detectives have been stationed for

a week in the bleachers where the arrests were made. At the end of the second inning of the game between Philadelphia and Chicago, a signal was given and detectives and police surrounded the men.

William Vereck, president of the Chicago club, said all persons found guilty would be barred from his park hereafter.

President Johnson was enthusiastic when informed of the arrests, but declined to make any statement, because he said, the arrests were made in a National league park.

The crusade against gambling has

GIVEN TO THE VICTORS

**NEW YORK, May 24.**—A tiger's claw, a "luck token" from George Monaghan, former premier of France was received today by Hugh Jennings manager of the Detroit Tigers. Detroit defeated New York 2 to 1.

"I judge we couldn't help winning with such a 'luck token' commented Jennings."

Iron will melt at a temperature of about 2,000 degrees above zero.

**CHICAGO, May 24.**—Reports of planting delays throughout important sections had a decided bullish influence today on the corn market. The close was nervous, 7-8 to 15 1/2c net higher with July 15 1/2 to 16 1/2c and September 15 1/2 to 16 1/2c. Late finished unchanged to 3c up and previous carrying from 35c decline to 47c cash.

Upward swings in the corn market with shorts covering freely began almost immediately after the opening and with no liquidation in evidence continued until just before the close. Buying attained its greatest impetus simultaneously with general notice of gossip that to an unusual extent soil conditions had been a hindrance to getting the new crop into the ground and that the success of planting would in a large measure depend on the amount of dry weather in the next 10 days. The fact that receipts today were not heavy tended also to stimulate demand, especially for May delivery. Besides talk of new export business in wheat and rye attracted attention. At the last, however, longer started to unload and found support lacking.

In oats, as well as in corn, there was extensive covering by shorts. Paucity of offerings was also a feature.

Pickers buying made provision average higher despite weakness of new values.

**SURVEY ALASKAN LAND FOR ENTRY AND PATENT**

**ANCHORAGE, Alaska.**—According to the report of Alexander T. Vogland, acting secretary of the interior, over 1,000,000 acres of agricultural land has been surveyed in the territory of Alaska to the end that it may be

available for entry and patent under the public domain laws. A considerable portion of this land is within country traversed by or tributary to the government railroad, now being constructed in Alaska.

Under the coal lands leasing law enacted in October, 1914, coal lands in the Bering river, Cook inlet, Matanuska and Neenana coal fields have been divided into leasing blocks or units, ready for sale. The two last named fields are tributary to the government railroad.

New townships have been established upon the public lands along the line of the railroad and lots for business and residential purposes disposed of through the land and industrial department of the Alaskan engineering commission.

As soon as arrangements are completed for traffic on the government railroad large numbers of settlers are expected to rush into the agricultural districts.

Gov.'s Little Budget.

Frank H. Hitchcock, former post-  
master-general, appearing as the re-  
spondent of General Wood, threw  
but little light on the general cam-  
paign expenses and Senator Harding's  
manager will be examined later. As  
said several witnesses, including  
Colonel William T. Prater, of  
Cincinnati, A. S. Sprague, of Chicago,  
H. C. Stebbins of New York and John  
H. Price of Cleveland.

C. L. Davidson, secretary of state  
for Illinois, testified that Governor  
Lowden, after agreed with records  
and cancelled checks and gave fig-  
ures, names, dates and localities. Of  
the total spent he said \$73,175.78  
was contributed by the governor him-  
self. Expenditures were \$25,725, he test-  
ified before collections were stopped  
on orders from Governor Lowden.

Detailing expenditures, Mr. David-  
son testified that a total of \$154,-  
245 was sent into different states, the  
Michigan primary campaign with  
\$72,243 taking the most.

The Iowa committee, he said,  
had sent \$25,000 into Missouri. Sen-  
ator Reed, democrat, questioned him  
to determine the method of his ex-  
penditure.

"Gotting out of the Lowden settlement  
was the purpose," Mr. Davidson  
said, adding it had been successful  
because the delegates would support  
the Lowden candidacy.

When a delegate.  
"Cost about a thousand dollars a  
delegate for Missouri," he com-  
mented Senator Reed.

E. H. Moore, who testified to con-  
tributions of about \$22,000 to the  
campaign for Governor Ohio, dem-  
ocrat, Ohio, charged heavy testifi-  
cations in the republican primary con-  
test in Ohio and provoked a hot per-  
sonal strife.

He told the committee Colonel  
Duquet was "the angel" of General  
Wood's campaign in Ohio. He testi-  
fied to extensive newspaper adver-  
tising in the primary fight. He was  
interrupted by Senator Spencer, republi-  
can, Missouri, who said the witness  
was making general charges and de-  
manded names.

"I know a chicken hawk from a  
hard sow," Mr. Moore retorted. "Call  
John T. King," he said. "Call John  
T. King," he said. "Call John T. King,"  
he said. "Call John T. King," he said.  
"Call John T. King," he said.

Senator Poindexter, republican, of  
Washington, with \$75,000 was second  
to Governor Lowden in size of ex-  
penditures actually declared, and Sen-  
ator Johnson, republican of Califor-  
nia, with \$68,128 was third. The  
largest contributor to the Johnson  
fund was H. B. Strassburger, of  
Norristown, Pa., who gave \$27,000,  
according to Angus McQueen, man-  
ager of the senator's campaign head-  
quarters. William Flynn of Pittsburgh  
gave \$7,500 to the Johnson campaign,  
he testified.

## Children Honor Joan of Arc

Events in the life of Joan of Arc was portrayed by 10,000 school chil-  
dren on the campus of the Fordham university here on the day that Pope  
Benedict XV. announced the canonization of the French martyr. Ameri-  
can Legion veterans and National Guardsmen took the parts of the French  
and English troops, and Archbishop Hayes attended the spectacle.

General said their own expenses in the  
primary there, Mr. McQueen said, and  
also sent \$4,500 to eastern headquarters.  
Funds for the Michigan cam-  
paign also were raised locally, the  
witness said.

H. M. Rice, secretary to Senator  
Poindexter, testified that J. F. Barber,  
banker of New York, had furnished  
\$25,000 for the Poindexter campaign,  
while William H. Todd, a Brooklyn  
shipbuilder, had given \$25,000.

Mr. Hitchcock, the first witness,  
testified that it had been understood  
when he joined the Wood organization  
he was not to handle campaign ex-  
penditures and said information as to  
them and expenditures could be ob-  
tained from Mr. Sprague and Mr.  
Stebbins. Colonel Duquet, he added,  
was the general manager of the  
Wood campaign.

The "greatest expense" were in  
the big primary fights, "the Illinois  
and Michigan," he said. He testified  
that they were handled from Chicago,  
and that he didn't favor making the  
fight in those states. The Wood cam-  
paign in Michigan, he said, was  
financed by the Michigan organiza-  
tion.

Mr. Hitchcock said that when he  
joined the Wood forces he found treas-  
urehouses, headquarters in various  
cities; that there were a "very serious  
draw on campaign finances," and  
that eventually their cost became so  
great they had to be cut down.

"Our finances were always ex-  
hausted," he declared. "That has  
been one of our difficulties, always, to  
get money to meet legitimate needs."  
J. F. Laver of New York representing  
Herbert Hoover, republican, will  
be the first witness tomorrow.

Chairman Kenyon, announced W. W.  
Vick, general manager for Governor  
Lowden, democrat, of New Jersey,  
also is expected to testify tomorrow  
along with H. M. Haruch, who has  
been requested to appear for William  
G. McAdoo, democrat, and C. C. Car-  
lin, former representative from Vir-  
ginia, who has been conducting the  
campaign in behalf of Attorney General  
Palmer.

## FATIMA HUFFS DEFT TO THE SUPREME COUNCIL

By the Associated Press.  
CONSTANTINOPLE, May 21.—"We  
shall never consent to be separated  
from Thrace and Smyrna, with their  
historic monuments. The cross shall  
never be raised over our mosques. We  
believe in the Wilsonian principle and  
are confident that adequate applica-  
tion of them will be made eventually."  
Thus spoke Fatima Hanem, a woman  
teacher who swept aside her black  
veil and addressed a mass meeting  
held today in the park adjoining the  
mosque of St. Sofia.

## RUNAWAY RETURNS HOME.

By the Associated Press.  
NEW ORLEANS, May 24.—Henrietta  
Wood, 15, daughter of Mrs. H. H. Wood,  
died May 17, after a nation-  
wide search since her disappearance  
here April 12, returned home today.  
Her desire to become a motion pic-  
ture actress and possession of \$250  
which her father had given her to  
dispose in the way she caused her to  
start west, she said, and who made  
stops at Philadelphia, Chicago and  
Los Angeles. She had \$18, when she  
arrived today.

## COUNCIL HOLDS SHORT SESSION

Fire Chief and Officers Volunteered  
Commanded for Work At House  
—Millmen Operate With City.

Absence of Councilmen Brecken-  
ridge and Russell last evening result-  
ed in city council postponing action  
on all matters requiring formal ac-  
tion. Discussion was had, though, on  
several matters, mainly those arising  
from the fire last week.

During the session H. H. Dooley re-  
marked on the good done to water  
pipes after the fire. They were cleaned  
out and seemed to give a better  
service, he said. He expects to obtain  
cost of the water today and ascertain  
the amount of money and vegetables  
contained in the pipes, if any.

Mayor Eldridge commended the  
Twin Falls fire department on the ex-  
cellent work performed at the recent  
blaze and remarked on the volun-  
teers who assisted in handling the  
burning job so well. Many of them,  
he said, clambered over the roof and  
acted as though they were veterans at  
the game. One man, Harry McKin-  
ley, formerly fire chief at another  
town, and Officers Austin and Han-  
sen were instrumental in saving Miss  
Elizabeth Greenwald.

He paid high compliments to Fire  
Chief Warrell for the excellent man-  
ner in which he handled the situa-  
tion. Several of the women are sup-  
posed to have partly ruined their  
clothes. It was stated that if the  
present bill for services performed at  
the fire to Chief Warrell, an attempt  
will be made by the city to reward  
them for the part played.

A dog catcher is needed and possi-  
bly one will be selected today. It  
was stated that it is a nuisance  
in this city. They swarm the  
streets like a pack of wolves and an  
effort will be made to eradicate them,  
said councilmen.

It was stated that the milk inspec-  
tor is doing a creditable work in get-  
ting the city. It is said all are cleaning  
their milk cans with live steam there-  
by saving the sweetness and purity of  
the cows gift, and with the help of  
the farmers much is being accom-  
plished in providing better quality for  
the consumer as well as higher grades  
for the distributors.

A remark was made by the mayor  
that he was asked by a certain party  
to have the meat inspector visit a  
slaughter house about five miles from  
their milk cans with live steam there-  
by is already established in Twin  
Falls, but a meat inspector is not

Business Men Having Stores Cleaned  
For Complete Inventory—Water  
Still Drips.

Business men who suffered heavily  
from the fire last week which de-  
stroyed the entire upper floor of the  
cotton building are working to get  
the stores in shape again for opening.  
Water's suffered considerable dam-  
age in all articles in the store and  
businessmen are working to clear  
away the debris and prepare for a  
complete inventory.

A complete estimate of the amount  
of damage resulting from water soak-  
ing materials cannot be given until  
goods have been arranged for storage.  
According to reports it is doubtful if  
much can be saved owing to the ter-  
rible condition of the after effects  
from water and smoke. The store  
will be opened for business as soon as  
possible. A roof is expected to be  
put up at once so further loss will  
not be experienced and selling operations  
can be resumed.

Water continues to drip from the  
roof of the United States, and  
buckled were the featured articles  
yesterday after men punctured holes  
to allow water to descend from rid-  
ging. The store will be straightened  
out and opened within three weeks if  
help will endeavor to exert a helping  
hand. It is said, and work in union.  
Arrangements are now under way to  
complete the cleaning process as the  
insurance adjusters can get a proper  
amount fixed for damage.

Salliday's Hardware company ex-  
pect to open their store in three or  
four days. Much of the hardware,  
the higher priced implements, are  
expected with rent again. An inter-  
ior will be made in a day or two  
then the adjusters will prepare the  
estimates.

The owner of the building, C. M.  
Smith, is to start cleaning away the  
burnt portions of the upper floor so  
the damage can be fixed by the in-  
surance adjusters. Repair work will  
not be commenced in the upper halls  
until a complete estimate of the dam-  
age has been made and the roof di-  
rectly over the store buildings re-  
placed.

## PERMISSION TO ERECT TWO ONE-STORY BUILDINGS

Building permits for the erection of  
two frame one-story buildings were  
issued yesterday by City Clerk  
W. A. Minnick. On lot 5, block 97, J.  
C. Clark will put up a building, size  
26x35 at about \$4,000. D. R. Church-  
ill will construct a garage on at 11,  
block 6, at an approximate price of  
\$250.

## HAUL ROCK FOR ROAD WORK

Beginning this morning two shifts  
are to be in force, while rock is being  
hailed to the Blue Lake highway.  
The initial work is expected to be fin-  
ished by the time the large oil dis-  
tributor arrives from Boston, it is an-  
nounced by the Twin Falls district  
highway.

available. The matter will be given  
further consideration, it was said.  
It was announced that the trial of  
the manager of the Skaggs store will  
be tried this evening at 6 o'clock. He  
is charged with accepting an unex-  
pected shipment of meat though it  
was not placed on sale. Letters were  
produced by the manager to prove  
that the shipment was an error.  
The matter will be thrashed out in  
public court today.

A decision was made that both  
sides of the Bickell school road to  
the new gift, and with the help of  
was that further details of the pay-  
ing question will be considered.

## INSURGENT WOULD FIGHT AN ACTION ON BONES BILL

By the Associated Press.

WASHINGTON, May 24.—Insur-  
gent house republicans favoring im-  
mediate consideration of the soldier  
relief bill, reported from committee  
last week, decided tonight to insist on  
the measure being considered by the  
house not later than Thursday.

House republicans believe they  
will consider the bill this time, it was  
said, a caucus might be held to "take  
some determined action if the steering  
committee does not carry out  
promises made at the last party con-  
ference."

Under the original plan of leaders  
the bill was to be considered tomor-  
row, but Chairman Campbell of the  
rules committee announced today it  
would not be brought up before  
Thursday.

## FUNERAL SERVICES HELD SUNDAY FOR INFANT

Funeral services for Robert R. Beal,  
infant son of Mr. and Mrs. H. S. Beal,  
were held Sunday afternoon at the  
family residence, 134 Eighth avenue  
west. Rev. Alexander G. Bennett of-  
ficiated. Vocal selections were ren-  
dered by the Meddies H. J. Kings-  
bury and J. W. Wright.

## NO REMEDY HAS BEEN DEVELOPED ON CALL MONEY

By the Associated Press.

WASHINGTON, May 24.—Governor  
Harding of the federal reserve board  
today in a letter to Senator Owen  
of Oklahoma, stated that no remedy had  
been developed for the high call  
money rate prevailing in New York.

Replying to criticisms of the board's  
action made by Senator Owen, he said  
that should the New York reserve  
bank decline to loan to banks on gov-  
ernment bonds, who, in turn, loan to  
their customers on stock exchange  
collateral, as suggested by Mr. Owen,  
the result would be higher money  
rates.

## DEMOCRATS MEET HERE THIS EVENING

Will Select Delegates—Former Sen-  
ator Dubois Is Here for  
the Affair.

For the purpose of preparing for  
the selection of a delegation to the  
convention to be held in Law-  
rence, Kan., in order the discussion  
may be held of issues which are to  
arise in the forthcoming campaign,  
the democrats of the county will  
meet in the county commissioners  
rooms in the court house this eve-  
ning.

Former Senator Fred T. Dubois,  
who reached Twin Falls yesterday  
afternoon, has agreed to remain over  
for the meeting this evening. Presi-  
dent T. D. Connor and Secretary W.  
Orr Chapman, last evening issued a  
call for a meeting of the Jefferson  
Club at 8 o'clock this evening at the  
commissioners rooms. County Chair-  
man J. M. Pinson also joined in a  
call for the attendance of democrats  
at that time, and the indications were  
last night that the meeting will be  
one of the most important of the  
year.

It has been many years since Sen-  
ator Dubois visited Twin Falls. Here  
in the old days he found many of his  
most staunch friends, and his coming  
has been the source of gratification  
for many of them.

## REWARD IS OFFERED FOR TRACE OF THIEVES

A \$100 reward, has been posted  
with the county sheriff for the person  
who will give information leading to  
the arrest of the person or persons  
who drove off with a Ford automobile  
belonging to C. H. Brown, living  
south of Twin Falls.

The car is alleged to have been taken  
while the family were attending  
worship in the L. D. S. church Sun-  
day evening.

## GETS TELEPHONE MESSAGE MOTHER IS SERIOUSLY ILL

Mrs. H. G. Deltrich received a tele-  
phone call early Sunday morning from  
Dulles, to the effect that her mother  
was seriously ill and not expected to  
live. According to the message her  
mother was apparently improving after  
a short illness of sickness but late  
Saturday night was found to suffer a  
relapse. Mrs. Deltrich left for Dulles  
on the morning train yesterday.
