

TO ENTER ARMY FOR THREE YEARS

One Will Be Sent to Hawaiian Islands—Salt Lake Recruits Man—On Local Duty.

Enlistments in the army took on active turn and two bids entered and signed up for a period of three years each, though in different branches. Daniel M. Zent of Paterfield, Idaho, joined the stunt corps and will be stationed at the school in New Jersey. Tom H. Walker was recruited and was sworn in for service in the medical department at the Hawaiian Islands. Both left for Salt Lake, Utah, last evening for their final examinations.

During the fortnight of the recruiting personnel from the local station, W. J. Decker was sent from the main office at Salt Lake to help in the service here. He will remain for two weeks. Major S. E. Cline, recently assigned to the recruiting service at the Utah city, will make a visit here today for the purpose of inspecting the local station and ascertaining needed improvements as required by army orders. It is said. Late in the afternoon he expects to leave for home before returning to Utah.

DRAFT DODGER IS STILL AT LARGE

Search At Cincinnati Is Made for Man in Woman's Apparel.

He is the Associated Press. CINCINNATI, June 3.—Secret service men and detectives have made an unsuccessful citywide search for Grover Cleveland Bergdoll, wealthy draft dodger, who escaped from army jail at his home in Philadelphia. The search was based on information that was received here the telephone at the federal building that Bergdoll was in Cincinnati dressed in woman's clothing. The secret service men found that a couple who succeeded in "man as a wife" at a hotel were really two men. They also discovered that before they went to the hotel the "woman" had purchased an expodis wig after he had not fill the hair on his head shaved. He also purchased a stylish knee length skirt and other apparel. The two have not been seen since they left the hotel.

CHICAGO, June 3.—Chicago authorities today begin search for Grover Cleveland Bergdoll, Philadelphia draft dodger, on receipt of word from the military intelligence division in Washington that he was believed to have come of this city. Bergdoll escaped from two guards May 21.

HUGHES GIVEN GOOD CHANCE BY DOPESTERS

Standing With G. O. P., May Land Him the Presidential Nomination.

MENIN DEMANDS AN COMPROMISE LEADER

Partisans Feel He Is Entitled to Win After Disaster Four Years Ago.

By H. N. HICKEY, N. E. A. Staff Correspondent. WASHINGTON.—The name of Charles Evans Hughes in connection with the republican presidential nomination is being used with increasing frequency.

At first blush such an outcome of the Chicago convention might seem to be outside the realm of possibility. But when one considers the situation in all its many chaotic, not to say wild aspects, it must be admitted that stranger things than this have happened in politics.

Confidential News. There is probably no group of men in Washington better informed on the

inside moves in the great political game than the men being played than the newspaper correspondents. Much of the information which comes to them is confidential, especially as to the agents.

Also the correspondents, because of their long and intimate experience, are much given to hunches. Recently about a dozen of the leading political writers took a poll among themselves, each one writing on a slip of paper the names of the three men whom he considered to have the best chances for the Chicago nomination.

When the tabulation of the vote was made it was found that nine of the votes had written Hughes' name. The only man who got more votes was Leaden.

Politicians See Chance.

I confess that the strength which Hughes showed in this poll rather surprised me, but I was even more surprised when a number of politicians with whom I afterward talked agreed that in their opinion the possibility of Hughes' nomination was quite as great as that of any one of a number of frequently mentioned "dark horses."

There is this to be said for Hughes, that while he was defeated four years ago, he is not held personally responsible for that defeat by the party leaders generally.

It is held that he was the victim of a combination of circumstances over which he had little or no control.

As one of the political leaders expressed it: "Hughes got a dirty deal four years ago. Against his protest we changed him off of the supreme bench and thrust the nomination on him. He made a clean and winning fight and but for his betrayal in California, would have been elected. There are a lot of us who feel that with republican prospects as good as they are this year, Hughes' name certain claims on the party, which are entitled to consideration."

Advice Often Asked.

In estimating Hughes' standing among the "dark horses," the commanding position which he occupies in the innermost circle of the republican party is an important factor to be considered. Next to Billie Root, his advice is more often asked, and acted upon in connection with party politics than that of any other man in or out of office.

The fact that he took his defeat four years ago gamely, notwithstanding the fact that it was the bitterest of disappointments to him, saved him from that loss of prestige which is usually the lot of defeated candidates. The past four years have been the busiest and in many respects the most profitable of Hughes' life.

Immediately after his defeat he resumed the practice of law in New York and today he holds at least

equal rank with any other lawyer in his position at the bar.

Years Bar Leadership.

If he has not already attained the leadership of the American bar, a position which by constant re-election has held for many years, he probably soon will, owing to the latter's gradual withdrawal owing to advancing age.

His services as counsel in important cases involving constitutional questions are in greater demand than those of any other American lawyer. The fact that Hughes made a vigorous protest against the action of the New York legislature in throwing out its socialist members and that still more recently he was refused by the minority the right to be heard at Indianapolis against the charge of connivance, shows that his activities and sympathies are not confined to the interests of big business.

Politically speaking Hughes should be classed as a conservative with progressive leanings.

Type Many Like.

This is the type of man that the majority of republican leaders would like to nominate.

It is the type of man that is likely to be nominated if the convention goes into a deadlock which can be broken only by compromise between the old guard and the Johnson progressives.

Given this situation, Hughes' nomination is by no means an impossibility.

RAIL LINES CUT BY VILLA AGAIN OPENED TO TRAFFIC

EL PASO, Texas, June 3.—Rail and wire communication on the Mexican Central railroad south of Chihuahua City, suspended since Sasturain has been restored and mail and passengers reached here late today from Southern Mexico.

At military headquarters in Juarez, it is announced that the suspension was due to Villa cutting the main line 15 miles north of Jimenez and the Parral branch line between the latter place and Jimenez.

Military advisers concerning Villa's movements are to the effect that the bandit leader with about 400 men is in the state of Chihuahua, about 100 miles south of Chihuahua City and close to the line of the Mexican Central.

ACTION IS DEFERRED.

WASHINGTON, June 3.—The American government has not yet acted upon the invitation of the allies that it send a representative to the Brussels financial conference July 15, under the league of nations. Secretary Houston said today that the matter still was under advisement.

OIL SUPPLY IN AMERICA IS CAUSE OF APPREHENSION

WASHINGTON, June 2.—Appointment of a joint congressional and naval committee to investigate the navy and the oil supply and to report at the December session of congress was recommended today by Secretary Daniels in letters to the chairman of the senate and house naval committees. The question is of "transcendent importance" in view of the increasing shortage of oil, the secretary said.

Secretary Daniels declared oil burning battleships were "essential for the highest naval efficiency and that re-

version to coal burners would be such a step backward it ought not to be considered." Mr. Daniels also commented on re-

ENGINEERS IN PUBLIC LIFE.

Dr. Charles P. Stelmets, the distinguished electrical engineer, in a commencement address at a big scientific school, lamented the small part taken by engineers in our public life.

This, he said, is distinctly the use of engineering. Just as certain previous epochs have been ages of artistic culture, law or religion. It is the advance of science and engineering, which in our time has made the good things of the world available to all...

He deplored the fact that so few engineers are found in legislative bodies and on state and national commissions. Even when these deal primarily with engineering problems.

It is not that the engineer does not care for leadership, he said. "Nor that the public does not appreciate him. It is that, unfortunately, too many engineers are not competent to take their proper places as leaders of this engineering age."

Speaking in this fashion, Dr. Stelmets is probably over-modest as to the merits of his profession. There are undoubtedly large numbers of engineers who are competent to take conspicuous places of leadership in the nation's public life.

of opinion back to the premises and thus show the reasons of honest disagreement. It might have referred also to the executive ability, which is often found to an extraordinary degree in the successful representative of any of the various branches of scientific engineering.

It is the engineers who have done the biggest things of our generation. Why are they not back to mere academic theories? Why do they stand good dead in a corner in American politics?

INTOXICATION CLASSES.

In a statement sent recently to the governor of New York, Dr. Harvey Wiley dealt a blow to 2.75 per cent beer. He said: "At any rate, he said in part: 'You cannot standardize a poison as to the quantity required for intoxication. You must standardize the individual. There are as many different sensibilities to toxic substances as there are individuals. You cannot say that 2.75 per cent beer is not intoxicating until you try it on every man, woman and child in the United States.'

To the prohibitionist this positive exposition of the case from a medical man's point of view would seem to ban all beer, however small its alcoholic content. But to the ever-hopeful 'wet' it suggests the possibility that no beer is intoxicating if only it is consumed by a person who can drink it without intoxication.

The populace might be tested and classified. There could be 2.75 per cent for the group which could stand up to 2 per cent beer, and so on down to the present one-half of one per cent for those who find that anything stronger goes to their heads.

tional convention for presidential nomination, will be of only 10 minutes' duration. It was announced tonight at the governor's headquarters.

Representative W. A. Rodenberg of East St. Louis, Ill., will make the speech.

Plans for a demand that the republican national committee be increased from 48 to 99 members and that a woman vice chairman be appointed, were announced today by Miss Mary Garrett Hay of New York, chairwoman of the Republican Women's National Executive committee.

Miss Hay discussed the plans with many women republicans, following the failure of the sub-committee of the national committee to reach any definite conclusions at its meeting today in taking up the question of women's representation. Miss Hay's plan will be presented at a caucus of women Sunday and if approved will be placed before the sub-committee Monday.

should be increased from 48 to 99," said Miss Hay. "Because the electorate has been divided, I do not mean there should be a man and a woman from every state. It is up to the states to elect anyone they wish. Also, there should be a woman vice chairman, and an assistant secretary and either the secretary or the assistant should be a woman."

Electrical sound-amplifying devices which will enable the speakers at the republican convention here next week and at the democratic convention in San Francisco later in the month, to be heard in every part of the hall, will be installed by the Bell telephone interests. It was announced here tonight.

A large transmitter will be placed above the speaker's platform at each convention and from it wires will run to all parts of the hall connecting with small receivers which in reality will act as transmitters and carry the speaker's voice all over the building. All of the mechanical apparatus used will be covered with flags and will appear to be part of the decorations, according to the plans.

A similar device was used by the navy during the war to improve communications between different parts of large ships.

We are installing a modern electric pumping plant to irrigate about twelve hundred acres of fertile Snake River Valley land known as the Zion Irrigation Project, which is situated about 40 miles south of Boise, and

COLOMBIA TREATY TO BE CONSIDERED

Senate Committee Recommendations That It Be Given Consideration

By the Associated Press.

WASHINGTON, June 3.—Recommendation that the long pending treaty with Colombia, growing out of the unratified Panama agreement, be reported back to the senate for final action was made today by the sub-committee appointed to draft an amendment designed to protect American oil and mining interests from the operation of the presidential decree, regarded by some senators as arbitrary.

The sub-committee, of which Senator Paul, republican, New Mexico, is chairman, said an amendment was unnecessary because the supreme court of Colombia had declared invalid not only the presidential decree but legislation along similar lines which had been presented in the Colombian congress. It called attention that this decree was similar to that issued in Mexico, against which the United States has protested, but expressed full confidence that the people and government of Colombia were sincere in their expressions of desire to protect American rights and interests within the republic.

The sub-committee's report was approved by the full committee late today and the treaty will be placed on the senate calendar probably tomorrow.

Senators said there was little probability of its being acted upon until the next session of the senate, which begins in December. The treaty was before the senate for ratification last summer when the presidential decree was issued and it was recommitted for amendment. The original draft had been signed at Bogota by the Colombia government in 1904, but subsequently had been changed by the state department to meet objections of senators, who opposed especially the clause by which the United States would have expressed regret over the partitioning of Panama. The document provides for payment of \$25,000,000 to Colombia by the United States and when it was taken up in the senate last summer, it was understood that Colombia had agreed to the changes.

WILL GO UNINSTRUCTED.

By the Associated Press.

WATON RUDGE, La., June 3.—The Louisiana delegation to the democratic national convention will go uninstructed as to modification of the Volstead act, to permit the sale of light wines and beers and on woman suffrage and will vote as the members desire for a presidential nominee. It was decided today as a caucus held preliminary to the opening of the state convention.

PASS OMNIBUS PENSION BILL.

By the Associated Press.

WASHINGTON, June 3.—Concurring in all of the senate amendments, the house tonight passed the omnibus pension bill which disposes of more than 500 individual pension cases.

SET TWIN FALLS DAY AT IDAHO GAME BREEDERS' FARM

By the Associated Press.

At the meeting of the Twin Falls members of the Idaho Game Breeders' association held in the Chamber of Commerce rooms last evening, it was decided that Sunday, June 13, should be selected as Twin Falls day at the Game Farm. The question of who should represent the local members on the association board of directors as well as who should be chosen as chairman of the local part of the Game Breeders' association was not acted upon, it being desired best to adjourn the meeting until 7:30 tonight in order to give more members an opportunity to express their views on these important questions. This meeting will be held in the Chamber of Commerce rooms in the Boyd building.

ALLIES ASK AUSTRIA FOR 6 PER CENT BOND ISSUE

By the Associated Press.

VIENNA, June 2.—The entente powers have proposed that Austria issue a 6 per cent bond series secured by all the existing national assets and sources of income as a means of reconstruction. Chancellor Renner made this announcement to the finance commission of the assembly today at the opening of the debate on the taxation bill. The plan contemplates that part of the bonds shall be given to the countries which already have advanced credits. Further credits will be similarly secured. The bonds are payable in 1925 according to be plan in the currency of the creditor country.

IF BACK HURTS BEGIN ON SALTS

Phish Your Riches Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms a waste which clogs the kidneys, so they are slightly stiff or strain from the blood, then you get sick. Nearly all rheumatism, headache, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders, come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular in passage or attended by a sensation of stinging, get about four ounces of Jad Salts from reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be all right. The famous acid salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in the blood. It no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which, all regular users, should take as soon as they begin to feel the kidneys clogged and the blood pure, thereby avoiding serious kidney complications.—Adv.

SENATE CONCURS IN MOVE TO ADJOURN TOMORROW

By the Associated Press.

WASHINGTON, June 3.—The resolution to end the present session of congress Saturday, already approved by the house, was adopted in the senate today after democratic senators had given assurances that President Wilson had no present intention of calling an extra session during the summer.

Republican and democratic leaders joined forces in bringing the resolution to passage, but a score of senators, 13 of them republicans and 17 of them democrats, made a vigorous fight for the adjournment after the national political convention.

The announcement was contrary to the expectations of many of the republican senators, and some of the leaders on that side still believed tonight that Senator Culliver's statement left enough leeway for a special session should the president decide it to be advisable after the convention.

AIRPLANE RACE IS ARRANGED BETWEEN U. OF I. AND W. S. C.

By the Associated Press.

MOSCOW, Idaho, June 3.—An intercollegiate airplane race, said to be the first ever held in the northwest, was announced today for next Wednesday between Dave Matthews, representing the University of Idaho, and George Tozer of Everett, a student at Washington State college.

The flyers will circle the campuses of the two institutions, which are nine miles apart, several times during the course of the race, a pursuit contest of 30 miles.

CAPPER WITHHOLDS BILL

By the Associated Press.

WASHINGTON, June 3.—Senator Capper, republican of Kansas, announced tonight that, owing to opposition of Secretary Houston, he would make no further effort to call up his resolution directing the secretary of the treasury to deposit \$40,000,000 with federal reserve banks for the purpose of readjusting loans made on western cattle and other livestock. Senator Capper said that the secretary's letter today held the measure would establish a dangerous precedent, if enacted, would upset the whole financial program of the government.

VETERANS TO GET PENSION.

By the Associated Press.

WASHINGTON, June 3.—The house conceded today to senate amendment to its bill to give veterans of the Spanish and Philippine wars suffering from disabilities, not resulting from service, pensions of from \$12 to \$20 a month. All veterans of the two wars on reaching the age of 60 would be given the same pension. The measure now goes to the president.

Let Your Clothes Teach You Thrift

The next suit you buy can prove to you that it is money saved to buy quality material. All good clothing must be all-wool, but clothes that wear must be of good fiber-wool, well tailored.

Kincaid - Kimball Clothes

Famous for fine Tailoring

Founded over 63 years ago, this manufacturer was one of the first to establish model clothing shops free from all sweat-shop influence. They still use their choice of long, staple, all-wool fabrics. Inspection follows every process of production with the result that these clothes will give greater satisfaction for their wear and for their appearance. They are made for young men and men of middle age who still dress young. Come in and let us show you different models.

All members and their immediate families will be admitted free of cost to the association Game Farm and recreation center. Non-members and their families will be charged 50 cents for adults and 25 cents for minors on and after all memberships have been sold. Get your name in this list now and save money later.

SOFT OF CO-ED SCHOOL IS PLANNED FOR WOMEN

CHICAGO, June 3.—A single organization of men and women instead of dual control under separate leadership will be the plan presented to the republican national convention by the national committee for assimilation of the new voters.
 Chairman Will H. Hayes today named five national committeemen to draft the committee plan for the part the women voters are to play in party organization. The women delegates and alternates, approximately 160

strong, will caucus and discuss their proposals Sunday.
 The demand of the more militant women leaders for a suffrage plank in the platform calling on states which have not acted on the constitutional amendment to hurry and do so.

WOMEN HURDLE BRITISH FLAG ON STREETS OF WASHINGTON

WASHINGTON, June 3.—Women sympathizers of freedom for Ireland, who yesterday invaded congress and addressed queries to members from the floor and galleries, today burned a large British flag in front of the treasury building. As the flag vanished in flames, Miss Mary Keana, of New York, leader of the band, kicked the smoldering ashes and shouted: "Just another little Boston tea party to remind the assamms not to go too far."
 No arrests were made and the women returned to their headquarters.

Exact Heat IN AN Instant

Electric cooking is exact, for it may be perfectly controlled. Each switch is so arranged that it will provide for three degrees of heat. Therefore, you will be able to make an exact allowance of time for every dish, as the temperature developed is always the same.

This control means economical operation as medium heat uses but one-half as much electricity as high, while low heat uses one-half as much as medium.

That is the reason the electric cooking expense is so moderate. When you call we will tell you about the economy, and other features of electric ranges.

REDUCES PRESIDENT'S SALARY.
By the Associated Press.

WASHINGTON, June 3.—A bill providing for reduction of the salary of the president of the United States from \$75,000 to \$65,000 a year was introduced today by Senator William Smith, democrat, Georgia. Senator Smith also introduced a resolution proposing an amendment to the constitution which would limit the president to one term of six years.

AMERICANISM IS MR. TAFT'S THEME

Discusses in Bolshewist and Bull-calm—Money and Happiness Not Always in Company.

By the Associated Press.

Mr. Taft was the main theme in the talk given by the Honorable William H. Taft, last night in the Lawing theater. After a discourse on that topic he compared conditions here with Bolshevism in Russia. In that country, he said, there is no freedom, no free press and no right to labor. If a person refuses to be assigned to labor, he is sent to jail. The right of people is the result of gain and industry and those having more than others in life have the opportunity of extending a helping hand to the less fortunate, he said, and in the American system rewards are necessary to promote the progress of all hands.

One thing is keeping men from giving a working development to the world and that is the Bolshevist element. The people of the earth have the opportunity of ascending to the higher things of life, one of which is the spiritual. He said further that money and happiness do not always travel hand in hand. "Dictatorship is sustained by the Red Guard," said Mr. Taft, and is despotic as was the Roman dynasty; and when the American working man finally knows what Bolshevism is there is no chance whatever for it to become popular here.

In Russia, he said, one who employs others is not allowed to vote and if an employer hires a boy to milk a cow he is excluded from the vote and called a capitalist. Besides, he continued, those of an "intellectual capacity are not permitted to cast votes; included in that list are doctors, clergymen, lawyers and teachers.

It is impossible, that such an absurd system will ever be adopted here as there will be no votes except from congested centers of alien origin. He remarked that the alliance he understood our system and the foregoing doctrine may create trouble in some cities. It must be suppressed, he concluded, and if the results are of an unlawful nature we must not become hysterical or attempt to take short cuts. Every man must be given a fair trial under the forms of the law so rights

may be preserved. They should be punished only in the action stated in the constitution.

ENFORCEMENT OF DRY LAW EASIER

Approval of United States Attorney Not Required to Issue Warrants. By the Associated Press. WASHINGTON, June 3.—Enforcement of prohibition was made easier for federal agents by instructions sent by all district attorneys by Attorney General Palmer tonight that their approval is not required for issuance of warrants for offenders under the prohibition enforcement law.

Some confusion has arisen because warrants charging offenses against the internal revenue laws must be approved by the United States attorney of the district before issuance, but the prohibition enforcement act, the attorney general said, is not an internal revenue law and expressly authorizes prohibition agents to swear out warrants for offenders.

GOVERNMENT TO BUY FILER HORSES

Greaver Davis Named to Assemble Animals for Regular Inspections—To Place Stallions.

PILER, June 3.—Filer is to be the headquarters in this county for the purchasing of government horses. Regular government inspection of horses referred to here will be conducted here each week, if the supply is great enough, according to Greaver C. Davis, who was recently authorized by Major J. G. Blue of the quartermaster corps to assemble the horses there for regular inspection by Captain Hill, government horse expert.

Davis brothers are now advertising for 50 head of horses weighing from 1,000 to 1,200 pounds for the first inspection. All animals bought must conform to certain requirements. The first inspection will be held this month, the date for which has not been decided, and is to be conducted at the Davis brothers' barn.

There is claimed to be a scarcity of cavalry horses of the right type in the United States at the present time and much difficulty is being experienced in securing them. It is the intent to place in certain sections of the country representative stallions to be bred to suitable mares owned by farmers and others. The government will charge a small stud fee, it is said, and the mares will be compelled to pass a preliminary examination as to soundness and suitability of type.

WILL ASK CANADA TO LIFT BAN ON NEWSPRINT EXPORT

WASHINGTON, June 3.—The Underwood resolution requesting the president to appoint a commission to confer with the Canadian government in regard to the cancellation of certain restrictive orders on the exportation of pulp wood, newsprint and other print paper from Canada to the United States, was passed tonight by the house without a record vote.

Under the resolution the commission would be required to report to the president before next December what action should be taken by congress that would aid in obtaining the cancellation of the orders.

The senate a few minutes later accepted amendments made by the house. "The resolution now goes to the president."

THIRTY 12 ARMY OFFICERS WITH POISONED NEEDLES

By the Associated Press. BUDAPEST, June 3.—With 12 army officers in hospitals in consequence of having been pricked by syringe needles and a number dead, it is believed that Bolsheviki are attempting to create new disorders during the period of unhealthiness attendant upon the signing of the peace treaty. The city is filled with terror at these outrages, which are committed

at night when officers are going about on duty, and particularly when they are in the crowds. There are few people about the streets now, the cautious ones staying within doors. Order is being kept by mounted police and squads of soldiers armed with hand grenades, pistols and rifles with fixed bayonets.

PALMER LOSES TWO VOTES

PHILADELPHIA, June 3.—Official returns of the vote cast at the recent primary election with five counties, show that two of the anti-Palmer candidates for delegates at large to the democratic national convention who supported Judge Eugene Bonnell, are among the 12 leaders for the 12 places, it was announced today by the secretary of the democratic state committee.

POLISH ARMY IN FLIGHT

By the Associated Press. COPENHAGEN, June 3.—It is reported here that the Polish army is in flight pursued by an enormous Bolsheviki force.

FILER AND BUHL OPPOSE ADVANCE

Citizens From West End Will Meet With Twin Falls Committee On Heat Rate Question.

By the Associated Press. Acting under authorization of the meeting held the evening before, William M. Lambing yesterday named a committee of three to take charge of the contest with the Idaho Power company in the heat rate hearing before the state utilities commission. Thomas Warner, C. E. Robinson and Stewart Taylor are selected for this work by President Lambing. They will work in conjunction with the chairman, Filer and Buhl citizens who are affected by the proposed advance in rates have been asked to meet with the Twin Falls organization to the end that interests may be pooled in the contest

before the commission, which is to sit in Twin Falls June 21.

The Filer and Buhl people are asked to meet in Twin Falls this afternoon at 2 o'clock, when a definite plan will be formulated.

The power company maintains that it is operating the heating branch of its business at a heavy loss, hence its appeal for permission to sharply advance rates.

NOTED 'HEALER' IS ILL

By the Associated Press. NEW YORK, June 3.—Professor James H. Huxley, advocate of spiritual healing and recognized leader in America in the research of the apparatus, has suffered a hemorrhage of the brain which has affected his speech, it became known today. His illness which has kept him under the care of specialists for several months, prevented him from appearing as a witness today in a legal action.

Dr. Huxley published an article in 1915 announcing his conviction that spirits could cure physical ailments.

ROBINSON'S

Opinions of Those Who Are In a Position to Know

The following is from a letter sent out by a large wholesale dry goods house regarding the cut price sales that have been held.

We have not seen in any of the advertisements what seemed to us to be the real reason for holding these sales. Among the reasons named, the popular one has been that certain retailers have thought that they were expected to do their part in reducing the high cost of living. Others have explained that on account of reductions in prices in the primary market for textiles that they have made reductions in their selling price to meet the market.

The real facts are that prices for dry goods of all descriptions started to advance about the middle of last year and continued to advance through the Fall. Many of the largest retail concerns in the country placed liberal orders for delivery in the Spring of 1920. The long period of wet and cold weather has delayed Spring sales in all parts of the country to such an extent that merchants who are overstocked are now confronted with the danger of carrying over large stocks of Spring and Summer goods. They have followed the policy that good merchants always adopt, of reducing their stocks before it is too late to dispose of them during the present season.

That keen competition between merchants has developed in many places has been a very natural consequence and the result is that sales have been made and are still being made at prices which are lower than the replacement value of the goods (excepting probably in the case of goods made wholly or in part of silk, particularly silk piece goods). We are advised that large amounts of both staple and reasonable merchandise have been moved by this means, which will naturally create a further demand on manufacturers.

There have been, so far as we are aware, no quotable changes made in the prices of any of the leading staple brands of cotton goods by manufacturers. We do not know what the future may bring forth, but manufacturers still continue to refuse to take orders for nearby deliveries for certain makes of plain goods and practically no Gingham, Napped Piece Goods (outings) or Blankets can be bought from manufacturers for delivery during the present year, and manufacturers' prices for Spring 1921, on lines which are now offered are higher in most cases than our present wholesale prices.

Our exports to foreign countries of commodities and manufactured articles of all kinds continue to make record figures each month, and prices of articles are not based entirely on local conditions, in fact the prices for these goods have become internationalized. Therefore, we do not expect much relief from the present basis of cost for Dry Goods so long as demand exceeds production.

Our chief aim in writing this letter is to assure our friends and the trade throughout the country that the markets are sound and that we are not threatened with serious reductions in prices.

In A More Concise Statement-The Situation Appears To Be About as Follows:

RETAILERS bought heavily for spring at high prices. RETAIL STOCKS at the beginning of this season were large.

THE CONTINUED COLD WEATHER has retarded retail buying.

IT WAS NECESSARY for retailers to reduce stocks materially.

PRICES WERE NOT REDUCED for the benefit of the public.

RETAIL PRICES were not reduced on account of lower manufacturers' prices.

BUT ON ACCOUNT of an impelling, urgent, actual necessity.

This store has at no time attained to or maintained the high prices that other stores have, and in the big closing out sale there is a rare chance to buy here at a wonderful saving
