Plan Thrust Into Persia and

RELIGIOUS UPRISINGS

Movement Comprehends Combination of Bolsheviki,
Young Turks and Radical
Germans.

By the Associated Press.
WASHINGTON, June 17.—Details of the much-heralded uprisings in the Mohammedan world against British rule and in favor of the Turkish nationalists were received here today in official dispatches.

Confirm Early Advice.
The reports confirm advice as to Moscow and London conferences received some time ago by the state department.

Kaiser Pasha, Deme Pasha and Talat Pasha, Turkish nationalist leaders, were reported to have conferred with British and bolsheviks at Munich, while representatives from India, Egypt, Afghanistan, Persia, Azerbaijan and Georgia met Turkish nationalists and Lenin, the bolshevik leader in Moscow.

Plans for uprisings in the Mohammedan world co-incident with a bolshevik thrust on Persia and India are said to have been laid at these meetings. A force of 150,000 troops commanded by General Kurovskiy was promised the Mohammedan world by Lenin at Moscow, it has been reported.

Schools in Propaganda.
Following the two conferences, a training school was established at Moscow for representatives of the Turkish nationalists, according to the official dispatches received today. From this school, after a rigorous course of instruction in the plans and objects of the "young Turk" groups, from 10 to 20 and 30 of the "young Turks," it is said, were sent to propaganda headquarters in Persia, Afghanistan, India, Egypt, Georgia, Azerbaijan and Bulgaria to promote the intrigue and make ready for the march southward of the bolshevik army through Persia to India and southwest toward Egypt.

Ever Pasha in Berlin.
Ravet Pasha, chief of the Turkish nationalist conspirators, it was reported today, arrived in Berlin for a second visit last week. The chief instigator of the bolshevik, the German revolutionists, and "young Turk," Djemal Pasha, was reported in press dispatches yesterday to be in Moscow and Talat Pasha for the present is making Switzerland his headquarters.

According to the official reports, the Turkish nationalists and bolshevik propaganda has been particularly effective among the fanatical Egyptian tribesmen, the Senusis, in the Libyan desert. The situation there is reported critical.

Propaganda Causes Unrest.
Official reports as received here for several months have told of unrest in India and the effectiveness of the "young Turk" propaganda there. Complete cessation of business as a protest against the British have been reported by Hindus, Parsees, and Moslems alike; resulting in what was described as "an unprecedented loss to commerce."

Would Divert British.
Generally the plans of the bolsheviks are said to include the diversion of British attention from Mesopotamia to Egypt by the uprising of the Senusis and their sweep eastward at the moment when the bolsheviks were prepared to push into Persia. Occupation of Thrace by Greek troops would be taken advantage of by the Bulgarians and local disturbances in Syria and Palestine have been projected to supplement the major offensives in India and Egypt.

Organization of German and Austrian troops in the Balkans has been reported to be pledged to give military support, necessary in Turkey to add complications to the already turbulent situation in the Balkans.

media dominions of the British empire.

WILL NOT SCRAP TREATY.
LONDON, June 17.—There is no intention of scrapping the Turkish treaty, as has been reported, so far as the British government is concerned, it was learned today. But, it was intimated, Great Britain is willing to make important modifications in the hope of stabilizing the Near East situation.

Conditions in that part of the world are rapidly becoming worse from a British standpoint, and the British ministers are declared to be willing to change some clauses of the treaty, most objectionable to the Turks if steps to relieve the situation are promised.

CHICAGO BANKERS
TO HELP WOOLMEN

Meeting Determines That Western
Metropolis Shall Support Boston
as National Wool Market.

CHICAGO, June 17.—Steps to make Chicago the wool center of America were taken here today at a conference of wool growers and bankers with decision to name a committee to place the question before officials at Washington. The committee will be appointed by William J. Williams, president of the Wyoming Wool Growers' association, who presided.

Under the proposition approved by the meeting called by representatives of the American Wool Growers' association, the movement of the wool clip for 1920 would be financed by Chicago bankers, which would receive \$100,000,000 annually. Hereafter this has been done by Boston banks, who have been compelled, it was said, to relinquish their financial support due to demands for funds from other sources.

It was announced that the plan was favorably received by Chicago financiers, who it was added, desired co-operation and support of western bankers in the extension of the credit requested. The fund, it was stated, would be used to carry the wool through the warehouses, where the bulk of the present is stored, pending better market conditions.

Senators Hitchcock of Nebraska, Walsh of Montana, Pittman of Nevada, Chamberlain of Oregon and King of Utah joined in the endorsement. Conditions in the wool market, they said, in summing up the bankers and growers, were similar to those prevailing with cotton in 1914, there being neither actual or speculative demand, with the wool growers unable to find buyers for their wool, awaiting a profitable market.

The committee to visit Washington will hold a conference Monday. It was announced tonight, by Secretary of the Treasury Payne and a number of eastern and western wool handlers to discuss plans to solve the wool situation. It was stated that the drop in the wool market had affected the big western wool growers more than others, many of them. It was added, however, that money tied up in unsold wool not held in warehouses. It was said that a plan would be discussed to stabilize the wool market by financing the westerners who were unable to find buyers for their wool as it was needed without flooding the market.

REPULSE GROUPS OF
REDS NORTH OF KIEV

PARIS, June 17.—The repulse of important groups of bolsheviks on the river Teteroff, which flows into the Dnieper north of Kiev, is reported in an official Polish communication received here this afternoon. General Rydzynski is in command of the Poles.

Further north in the Bobruisk sector, the bolsheviks, about the 15th and 16th bolshevik frontier brigades, were repulsed last night after hand-to-hand fighting along the Beresina river, all the bolshevik attacks were repulsed.

REILLY WILL REQUEST MOVE
FOR STAY OF EXECUTION

NEW YORK, June 17.—Armin W. Reilly, special assistant to the United States attorney general, announced here tonight that he will request a stay of execution for Saturday and oppose the reported attempt of Charles J. Hughes to obtain an order from Justice W. R. Day of the United States supreme court, staying execution of judgment in the case of the "Ipswich" convicted of profiteering and fined \$31,000.

Mr. Reilly, who is in charge of government activities against profiteering, said that if the supreme court should grant the stay, it would automatically stay all proceedings under the Lacey act until the supreme court had an opportunity to pass on its constitutionality.

Mr. Hughes, when informed of Mr. Reilly's statement, declined to make any comment.

WEST STATES' CALL IS

Cox Will Not Attend Frisco
Convention, Remaining
at Home on Gubernatorial Job.

By the Associated Press.
SAN FRANCISCO, June 17.—The democratic national convention will be asked to include in its platform two planks of interest to the West, Senator James P. Phelan of California announced here today on his arrival from Washington.

One plank would provide for the exclusion of Asiatic laborers and restriction of the rights of native born Asiatics in this country. The other would provide protection for the domestic oil lands of the United States by preventing ownership by foreigners and vesting the power of embargo in the president.

Lively discussion among delegates to the national committee, who will edit the platform to order on June 25 and whose state, Montana, will be included in the association, said that idea of organization was an "excellent" one.

"It is understood that the western states will associate to present to the convention matters peculiarly of importance to the West, such as liberalization in the public land laws, matters associated with the maritime development of the Pacific coast, and to the development of the lumber, oil and mining industries of the West. The association will not be used to further the interests of any particular candidate."

Home S. Connelley, a temporary chairman of the convention, also emphasized that "it would be unfortunate if the pre-convention meeting of the western states were misunderstood."

WOMEN SUBMIT PLANKS.

NEW YORK, June 17.—Fifteen planks which the democratic national convention will be asked to include in its platform were sent today to delegates to the convention by the women's bureau of the democratic national committee. The planks were prepared by the labor committee of the bureau, of which Mrs. Robert Bruce, of New York, is chairman, after conferences with various bodies of workers.

The planks advocate the right of collective bargaining between employee and employer through representatives of their own choosing; general control of basic industries affecting the necessities of life; nationalization of the railroads and their administration by a corporation or commission on which the public, the management and labor should be represented; operation of federal fuel and steel commissions and development of the present system of collective bargaining into national industrial councils of the industries.

The committee also urges abolition of labor of children under 14, general adoption of an 8-hour law; that wages be placed on the basis of service without regard to sex, and minimum wages "which will insure to all workers a proper standard of health, comfort and efficiency."

Other planks recommended include:

Development of a national system of employment officers under joint control of the state and federal governments; organization of labor corps with transportation subsidies for harvesting; extension and development of the bureau of women in industry in the department of labor and appointment of women on all government commissions and state legislation to foster organizations of producers as consumers co-operative organizations and credit societies; insurance for all workers against accidents, diseases, disability, unemployment and old age.

The recommendations were forwarded to the national committee in London.

"Use of mandatory and prohibitory jurisdiction in labor disputes" and also the treatment of labor as a commodity.

Development of the bureau of labor statistics to make public facts concerning investment, capitalization, earnings and wages also is urged.

COX NOT TO ATTEND.

LOS ANGELES, June 17.—Governor James M. Cox of Ohio, candidate for the democratic nomination for president, will not attend the democratic national convention in San Francisco, it was announced here tonight by Edward Moore, national campaign manager for Governor Cox. Mr. Moore said that he had been told that Cox would not be "available" for Governor Cox to leave his office in an effort to obtain the presidential nomination.

Mr. Moore and Norman E. Mack, democratic national committee member from New York, were here for 24 hours en route to San Francisco where they will attend the convention.

Mr. Mack sharply criticized the platform adopted by the republican party at St. Louis. Failure to deal with the Irish question he characterized as "stupid."

Mr. Moore said that rumors that Governor Cox would accept the democratic nomination for vice president were without foundation. "It is the democratic nomination or nothing for Governor Cox," Mr. Moore announced.

W. D. Jamieson, of Shennandoah, Iowa, director of finance for the democratic national committee, arrived here tonight from Chicago. He will leave for San Francisco Saturday.

WILL BE NO PICKETING.

WASHINGTON, June 17.—Activities of the National Women's party at the democratic national convention as outlined in a statement from the party's headquarters tonight is not to include picketing of the convention hall as conducted during the republican national convention at Chicago.

"The campaign at San Francisco," the statement said, "will include the direct picketing of the delegates before the convention opens by the state branches of the party and interviewing of each state delegation during the convention. The party hopes to obtain from democratic national leaders a pledge for direct pressure on the North Carolina legislature to ratify the amendment at the special session in July."

The party activities at San Francisco, the statement added, will be directed by Abby Scott Baker of Washington; Mrs. W. C. Brown of Kingswood, W. Va.; Miss Edith Callahan of Louisville, and Miss Betty Gram of Portland, Ore.

DELEGATES ARE CHOSEN.

TALLAHASSEE, Fla., June 17.—James E. Alexander, of Deland; J. T. Applegate of Tallahassee, Congressman Frank Clark of Gainesville, and Governor John G. Gilchrist of Punta Gorda, Fla., were chosen as delegates at large to the democratic national convention by the state canvassing board which met here today.

They were elected by the state delegates primary of June 8. There also are eight delegates. All delegates go uncommitted.

TAMMANTITES EN ROUTE.

CHICAGO, June 17.—En route to the democratic national convention at San Francisco, New York's delegation stopped in Chicago tonight. It was announced that Governor A. E. Smith and C. F. Murphy of New York would arrive in Chicago Saturday morning and would be expected to confer with democratic leaders here and from other sections on plans for the San Francisco convention.

MEETING TAKES FORM OF
INTERALLIED CONFERENCE.

By the Associated Press.
PARIS, June 17.—The premier's meeting at Boulogne held late to blossom into a full sized interallied conference. Premier Lloyd George and President Millerand decided to invite Italy, Belgium and Japan to attend. This amplification, it is understood, is due to the progress made by the Franco-British financial experts studying the German indemnity question. They have decided on a definite course which will serve as a basis for Monday's conversations at Boulogne. It is hoped that the conference will be concluded by Tuesday night.

Mr. Lloyd George will reach Boulogne Monday evening. Mr. Millerand and Marshal Foch proceeding there the night before.

TACOMA POLICE FORCE BALICS
ON OVERTIME FOR SHIRNEIS

By the Associated Press.
TACOMA, June 17.—Tacoma is threatened with a walkout of the police force Saturday. Following an order from Commissioner of Safety Fred Shoemaker that each police officer make work four hours overtime Saturday, Sunday and Monday to attain protective duties in the case of several thousand shirneis on their way to their convention at Portland, the police force voted to work no more than the customary eight hours.

Mr. Shoemaker's order declared the "most unworkable" and old rule, and the police will try to cut first.

PRESIDENT EXPRESSES HOPE
THAT PARTY WILL ACCEPT
ISSUES CREATED BY G. O. P.SPREAD NET FOR
KILLERS OF MRS. MOSS

ROCKFORD, Ill., June 17.—An order for the arrest of all soldiers found in Illinois, Iowa and Wisconsin was issued today by authorities at Camp Grant in an effort to effect the capture of the slayer of Mrs. Maude Lucille Moss, wife of Capt. Leroy H. Moss, camp utilities officer, who was killed Tuesday night while riding in an automobile with her husband and a party of friends at the camp.

The drastic order, it is believed, will throw a net around four escaped prisoners from the camp who are suspected of connection with the killing and will eventually lead to the apprehension of the guilty party. Arrests are expected momentarily and tonight armed men under the direction of Sheriff Baldwin of Rockford and Captain Hiram Clark of Rockford, Illinois, were being held in readiness to go after any soldiers taken into custody.

The names and organizations of each man arrested will be forwarded to camp officials and investigation shows that without doubt they are on leave of absence they will be ordered released, officers said. Otherwise soldiers found away from camp will be subjected to a thorough examination.

Mrs. Moss was a daughter of Col. Allen J. Arnold of Chicago.

SAYS BELGIAN LANDED
ON EX-KAISER'S JAW

DOORIN, Holland, June 18.—There are persistent rumors in the village that the former German emperor has been assaulted by a Belgian, who, showing a forged pass, gained admittance to Doorn castle. It is asserted that the emperor was wounded in the jaw and that the Belgian was arrested.

It has been impossible thus far to ascertain whether these rumors are true.

U. S. BUYS 7,000,000
KILOGRAMS OF SUGAR

PRAGUE, June 17.—The Czechoslovak government has sold seven million kilograms of sugar to the United States (a kilogram is approximately 2.5 lbs.). Negotiations are continuing for the sale of an additional 4,000,000 kilograms.

WILL PAROLE CONVICTS FOR
WORK IN HARVEST FIELDS

TOPEKA, Kan., June 17.—After a conference with Governor J. E. Coffey of the state penitentiary, Gov. H. J. Allen announced that plans have been made for harvest time parole of state convicts.

They will be sent direct to farmers upon request and the employer will be required to report daily. The money earned by the convicts is to be turned over directly to their dependents. Life terms will not be exempted from the list. It was said, but only men of approved behavior records will be paroled.

PUBLISHERS ORGANIZE TO BUY
PAPER MILLS AND PRINT

NEW YORK, June 17.—One hundred daily newspapers of the country "without print paper supply and largely dependent on open market purchases" have arranged to organize the Publishers Association of the United States under the laws of the state of Delaware for the purpose of co-operative buying of print paper and paper mills. It was announced here today. Officers of the new corporation include:

W. J. Egan, Waterbury (Republican), president; W. Weaver, Durham (N. C.), vice president; James Rogers, New York (Governor); and G. W. Marble, Fort Scott (Kan.) (Republican), secretary.

An executive committee to carry on the work, with James Rogers as chairman, was elected.

FATHER AND TWO CHILDREN
ELECTROCUTED BY TOY PHONE

FAIRMONT, W. Va., June 17.—Marlin Debokey and his two children were electrocuted and Mrs. Debokey was injured near their home at Monmouth, W. Va., today, when wires leading from a toy telephone with which the children were playing came in contact with high-tension traction wires.

President Wilson in Interview
Expresses Confidence
in Delegates.WOULD ACCEPT DEFI OF
CHICAGO PLATFORM

Supports No Candidacy, Keeps
Hands Off Platform and
Awaits Results in
Frisco.

By the Associated Press.
NEW YORK, June 17.—President Wilson, in a special interview given to the New York World to be published tomorrow morning said he was "extremely confident" that the democratic convention at San Francisco will welcome the acceptance by the republican party of my invitation to make the League of Nations the issue in this campaign.

"I am even more confident," the president said, "that such referendum will confirm and clarify the American people desire it above anything else that a political party now may provide, and that they will condemn the republican policy of denying them the consummation of their hopes. No one will recommend a referendum on that issue more than I."

Should Feel Flattered.
"I suppose I should feel flattered," he said, "over being made the issue of the presidential campaign by the republican party. But even so, the republican platform makers at Chicago to confer the distinction of being not only a burning but a living issue by camouflaging and obscuring the real issue of the League of Nations."

The process by which the Chicago platform was accomplished seemed to me to have been essentially and scientifically Prussian in inspiration and method. Instead of questioning the platform makers at Chicago to confer the distinction of being not only a burning but a living issue by camouflaging and obscuring the real issue of the League of Nations."

Would Belong to Men.
"Every charge directed against me and my administration, is obviously directed against the League of Nations, the paramount issue confronting the American people to beget their sense of responsibility and make violation of the obligations they have assumed to be of small consequence. I sincerely believe that the attempt of the republican party to win the sanction of the American people for its attempted evasion of these obligations will be decisively rebuffed. With one thing I am fully satisfied, namely, that the republican party in its platform has joined me in the suggestion I made in my letter to the guests at the Jackson day dinner in Washington in January last. In that letter I expressed my confidence that the republican party would be made to determine the attitude of the American people on the League of Nations by the resort to the genuinely democratic process of the referendum."

Will Speak for Itself.
"Of course I have no way of anticipating the probable trend of sentiment that will be expressed in the democratic national convention at San Francisco," forecasting the ultimate conclusions of that body. But I have every confidence that the delegates who will sit in that convention will repeat the challenge I issued to the republican party and express their readiness to permit the people to decide between the League of Nations and the republican party. I am confident that the republican party will not only accept the challenge, but will also accept the challenge of the people to decide between the League of Nations and the republican party. I am confident that the republican party will not only accept the challenge, but will also accept the challenge of the people to decide between the League of Nations and the republican party."

GOMPERS MAY NOT SEEK REELECTION

Veteran Head of A. F. of L. Is Overwhelmed by Vote for Government Ownership.

MONTREAL, June 17.—The American Federation of Labor's important today of government ownership of the railroads, at its annual convention here, was declared by labor leaders tonight to have been the first general defeat since Gompers, the veteran president, has suffered in years. The final vote was 23,069 for government ownership and 8,349 against.

The decisive vote, it is reported, prompted the labor chief to state before the convention last night that he "was not quite sure" he would be a candidate for re-election.

Mr. Gompers' defeat had against the convention's action declaring it was a step toward the "enslavement" of the workers to government employers who, he said, had been denied many political and economic rights under the past administration. He received only a mild censure.

The conference's union and the building trades organization stood firmly by Gompers, but were overwhelmed. After the federation's action, the executive council, whose members supported Mr. Gompers, are said to be placed in an "embarrassing position. They must now take steps to bring about government ownership, which they have opposed, or resign, it was stated.

Supporters of Mr. Gompers declared tonight that they would urge him to retain leadership of the federation and stand up for re-election for the 33rd time.

Despite the protest and desires of Mr. Gompers, the convention increased his salary as president from \$10,000 to \$12,000 a year.

In making an appeal to delegates not to give him a salary increase, Mr. Gompers declared that "\$10,000 is all sufficient for a man living in the ordinary modes of life to satisfy him and his wife."

The convention called upon congress to enact "necessary legislation to establish the United States employment service as a permanent bureau in the department of labor, with ample appropriations."

The executive council was instructed to render all possible assistance to "abolish present unreasonable speed limits, time measuring devices and the unreasonable standards of personal efficiency in the postal service."

The council will also aid civil service employees to obtain "the right to a hearing and to appeal from the judg-

ment of officials in cases involving detention or dismissal."

The federation adopted a decision that the "rights of free speech and free press and assembly are inalienable ones, and are beyond the power of any judge, court, legislative body or administration, official to qualify, modify, abrogate or suspend."

The proposal of James Duncan of Seattle for an "initiative and referendum" clause in the federation's constitution was defeated after a lively debate. The proposal would have permitted the submission of any "given proposition to the whole membership" of the organization upon demand of five per cent of the local union.

Military training in the schools was condemned as "the first step in the development of mechanical and unquestioning obedience which results in the killing of initiative." Compulsory military training was also denounced as "unnecessary, undesirable and un-American."

The "moral support" of the federation was voted to the 10,000 striking fur workers in New York city.

The membership of the executive council was increased from 11 to 15 members by the addition of four new vice presidents.

A resolution to elect the officers of the federation by the "popular vote of the membership" was defeated.

BEHMAN FINDS RESULTS BEYOND HIS EXPECTATIONS

Thomas Behman was gained as the results of the two advertisements by the Idaho Department Store, said Mr. Behman, manager, yesterday evening. "No handbills or dogers have been printed, and yet from the advertisements placed in the Twin Falls Chronicle and News we have had unusual success."

"It is gratifying to know that the Twin Falls people are alive to the advantages afforded by the 'Twin Falls' papers. I am greatly surprised at the quick results gained by them."

"Before to get back this morning more orders had been received in the grocery department than we had expected. Other departments showed the same degree of prosperity."

"This should be gratifying to Twin Falls, their daily newspapers, and it most certainly is to me," said Mr. Behman in concluding.

FARMERS ORGANIZE NATIONAL CHAMBER OF AGRICULTURE

WASHINGTON, June 17.—Plans for the organization of a national chamber of agriculture along the lines of the United States Chamber of Commerce were discussed at the opening here today of the first annual convention of the American Association of Agricultural Editors. Secretary Meredith addressed the 50 or more editors gathered here for the three-day meeting.

POSSIBLE WILL SEARCH FOR MISSING FILIP BUTCHER

The Filip Butcher, named Ackervik, who disappeared a few days ago has not yet been heard from and no feasible clue on which to investigate has been found. The officers and friends of the missing man have ascertained that he is not in any of the hospitals in this vicinity. He had been employed or acted as a partner in the same meat market for the past 15 years and this is the first that he ever went away without telling his whereabouts. His reputation has always been first class and no reason can be given for his sudden disappearance.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salt if Your Back Hurts or Your Head Trembles

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms an acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacy. Take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delicious effervescent, little white drink which everybody should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

"STRONG POINTS" FOR A CANDIDATE.

Speaking of Paul Carnot, the great French statesman, at the time he was chosen unexpectedly as president of France, a foreign observer of our political life says:

"He had two strong points in his favor—he spoke little, and never smiled."

Here is another evidence, perhaps, that we do not readily know the French people. What Americans would imagine that it was greatly in a Frenchman's favor, as a candidate for presidency, that he "spoke little, and never smiled."

These two tests become still more interesting when applied to American politics. Take our politicians in general—what are their salient characteristics, when running for office, be that office anything from a place on the city council to the presidency itself? The reader guesses right at the very first time. They speak much, and smile incessantly.

There is a third characteristic which may also be typically American—their propensity for hand-shaking. Very likely Carnot was not a "hand-shaker, either." If so, in the opinion of the distinguished European quoted, who is by the way of being something of a politician himself, Carnot was triply armed for successful candidacy. Imagine any American running for office that way, and winning.

And yet—and yet—it might be done. Maybe the sheer novelty of it would make a hit with the voters, even if it did not with the party workers. There is such a thing as carrying political "urbanity" too far.

ON THE PORCH.

The old family hearth of song and story has been replaced by the furnace radiator, but long live the Great American Front Porch!

It is the family assembly place upon which, of an evening, the folks lay down all the day's trouble and try their best to be cheerful.

It must be that good angels hover about porches. No doubt, there have been family quarrels at hearths. But who ever heard of a family quarrelling on a porch?

But, maybe, there are no quarrels on porches because porches are wide open and the neighbors could hear every word. And that is just what makes an ideal family altar. It brooks no concealment. It is the show window of family life. A man can't scold his wife on the front porch and get away with it among his neighbors. Nor can a wife nag her husband and hold her reputation as a woman of sweet disposition.

So the front porch brings out the good that's in all folks, while the cross word, the frown and the angry scowl are kept inside.

The well-known function of the front porch, as a cooling place, requires no extended remarks. But the porch has never been given the credit that is due it as a great African forum upon which neighbors get together in the cool of a summer's evening and exchange notes about the weather until one of them asks: "Well, who do you think will be our next president?" And then it starts a talk that doesn't end until 10:30 p. m., involving, as it does, vast problems of politics, economics and foreign relations.

So God bless the front porch—sanctuary of neighborliness and friendliness; altar of all that is sweet in family life; show-place for all our best qualities!

Lost Life to Save Jewels.

Whether we realize it or not, we are seizing or losing opportunities every day of our lives. Queen Mary was conversing with Mrs. Robinson, who was a stewardess on board the Titanic. The queen asked why so many of the women had been lost in that terrible disaster. Mrs. Robinson replied: "Many more women would have been saved, madam, if they had thought more of their lives and less of their belongings. When the danger arrived, there were opportunities for getting into lifeboats, but in many cases the women rushed down to the cabins to save jewelry and other valuables. When they returned to the deck, it was too late.—Grit.

Anything for Ballast.

I was calling on some friends one evening when during the conversation the host inquired about my aunt and uncle, who were planning to drive to Florida.

After I had given some information concerning the trip the host said: "Well, they'd be glad to have us go with them."

"Surely," I replied. "They'd be glad to have anybody."

"Hm! Some class you put us in!" Then I spent a most embarrassing moment trying to explain.—Exchange.

There are rush periods in every line of business, especially where the public is being served, and when these rush periods come the capacity of the utility is invariably overtaxed and someone must wait for service.

A man will wait in line patiently several minutes to make a deposit in a bank, to buy a two-cent postage stamp, to register a letter, to buy a railroad ticket or a seat in the theatre, and make no complaint. He will go personally to see a business man and will sit in line for half an hour before he can be "seen," and think nothing of it.

The vast system of the Mountain States Telephone Company which cares for 305,301 telephones in its own territory alone, is set up to answer calls in a very few seconds. Any variation therefrom is usually because a number of calls have come in simultaneously.

In telephone operation, as in everything else, when an overload occurs, patience should be exercised by everyone until the jam has been relieved. The operator is not always to blame—the equipment may be short owing to scarcity of materials, but it is not at fault—even the public that creates the rush periods is not to be blamed.

Abnormal conditions is the answer. Patience and reasonable consideration is the temporary remedy until adequate equipment may be had.

In answer to my question (addressed to a man who is competent and in a position to judge), as to what he thought of my advertisements, he said: "Why, they are good because you always have something to say and say it."

The advertisements of this store are meant to be like the merchandise—reliable and dependable. The aim is to have you fully understand what we are offering and to tell you only facts about it.

No slaughtering done here; the city ordinances do not permit of slaughtering within the city limits. BUT when it comes to making low prices on dependable merchandise, we sure do make a killing.

Just stop a minute and think where you have always found reasonable prices and where bona fide reductions were made long before there was anything even hinted at elsewhere.

I was told on the 28th of last month that I could not hope to do much with a fire sale going on; that the crowds would go there. I am here to tell you that business is surprisingly good, as good, I think, as it would have been at this time if there had been no "great counter attractions."

There surely must be a reason for this.

Elwell Murder Mystery—SUI Baffles
Gotham Authorities—Clues
Prove False Leads.

By the Associated Press.

NEW YORK, June 17.—The investigation of the mysterious murder last Friday of Joseph B. Elwell, turfman and whist expert, took a new turn tonight when Assistant District Attorney Doelling and Linger visited the home of Walter Lewishohn to question once more the members of his family who were dinner guests of Elwell at the Ritz-Carlton hotel the night before he was shot.

This followed a searching cross-examination for hours today of Victor Von Schlegel, divorced husband of Miss Viola Kraus, Mrs. Lewishohn's sister. Von Schlegel also had dined Thursday night at the Ritz with a companion described as "the woman in black" whose identity he revealed to the district attorney.

On leaving the Lewishohn home after a three-hour interview with Miss Kraus, Mr. Doelling completely cleared her name of any connection with the crime. He stated she had given him information that may prove of value in the investigation.

"It is only fair to Miss Kraus," said Mr. Doelling, "that the public be informed that she was not connected in the slightest way with any intrigue involving Elwell. She has answered all our questions fully, frankly and freely and is entirely vindicated of having anything to do with the affair."

A revolver Von Schlegel today admitted he kept in his apartment was found there tonight by Dr. Doelling. It was of .38 caliber. The bullet that killed Elwell was of .46 caliber.

District Attorney Swann announced tonight he would question Mrs. Elwell, the slain man's widow, Edwin Rhoads, his chauffeur, Mrs. Marie Larsen, the housekeeper, and Frank Jefferies, a negro, said by the police to have been a valet employed by "Jack" De Saullies who was shot and killed by his wife in his Long Island home about three years ago. The police say Jefferies told them Elwell and de Saullies had been close friends.

The story of Joseph Wagstaff, a chauffeur, that another taxicab driver had told him of Friday, driven a man and a woman to Elwell's home at an early hour Friday morning was discredited tonight by Assistant District Attorney Joyce.

NEW YORK, June 17.—A 5 a. m. visit by a man and a woman to the home of Joseph Elwell, a turfman and whist expert, last Friday, the morning of his murder, was under investigation by the police today, seeking to unravel the mystery which so far has baffled all inquiry.

Police and members of the district attorney's office were unwilling to admit they attached great significance to the report of this early morning visit because of its vague origin. An unnamed chauffeur is alleged to have said he drove the couple to Elwell's home at that hour.

According to another chauffeur's version of the story, he said was told him, the unnamed driver waited outside the Elwell house, which, he said, the couple entered, until a moment later the screen of the woman inside the house frightened him and he drove away.

Mrs. Marie Larsen, Elwell's housekeeper, under vigorous questioning, told Assistant District Attorney Doelling that a young woman had come to the Elwell house shortly after the whist expert was discovered dying from the bullet wound in his head. Mrs. Larsen said this woman had visited Elwell several times before and was the reputed owner of the pink silk lingerie found in Elwell's bedroom.

District Attorney Swann admitted his belief that the woman was bent upon getting possession of the merchandise and other evidence of human occupancy of the sportsman's apartments. He stated that he had no reason to believe she was connected with the shooting.

For seven hours today Victor von Schlegel, divorced husband of Miss Viola Kraus, was questioned in the district attorney's office regarding his movements on the night of the murder and the days preceding. According to Assistant District Attorney Doelling, von Schlegel admitted having an army revolver in his apartment, which he said he had never used, did not know whether it was loaded and could not tell its caliber. He had no license to possess the weapon, Mr. Doelling said.

"Mr. von Schlegel has accounted for practically every minute of the time from the Sunday before the murder, up to the present time," said Mr. Doelling.

Von Schlegel was examined in the

IDENTIFY "ANNIE"

LEXINGTON, Ky., June 17.—Anne Russell, Gruffy, daughter of Porter Russell of Versailles, Ky., prominent socially throughout the Blue Grass region, and whom local police believe is the "Annie" mentioned by New York authorities in their announcement Tuesday night that witnesses were coming here in connection with the murder of Joseph B. Elwell, made public today a statement explaining her acquaintance with Elwell.

Miss Gruffy said she first met Elwell at a social function during the Lexington race meeting and that she saw him four times after that at entertainments. Elwell sent her flowers while she was in a hospital for an operation, the statement said, and she wrote a formal note of thanks to Elwell in New York.

It was the note of thanks from Miss Gruffy that brought about activities by New York authorities, police here believe.

DRAWS FINE FOR SWAPPING TAGS ON HIS AUTOMOBILE

Yesterday Frank Milton, city speed cop, arrested a man named Heeler, who came here from the state of Utah, on a charge of not having a proper automobile license. At a Penitentiary Heeler had traded autos with a dealer, the car he traded bearing a proper license tag for the state of Idaho, but after exchanging cars he took the tag off the car he traded and put it on the car which he got in exchange. He was fined \$15.00 in police court, which he paid.

East Indian Superstition

Many East Indian people will sit down in meditation before a grave and, by holding their breath as long as possible, derive inspiration from a saint. Superstitious women select a particular grave to which to make their offerings, and every Thursday night they either take or send a female servant with an earthenware lamp, with a cotton thread as a wick, which they burn at the head of the grave. Offerings of flowers are taken as offerings, or butter or ghee (cheese) is burnt in a lamp instead of oil; while some show their respect by having the grave sprayed with water during the summer months.

Long Meteor Flight

Numerous observations of the best meteor seen in the early evening of October 27, 1919, show that it had the long horizontal flight of 235 miles from over a point 50 miles northwest of York, England, to 30 miles south west of St. Valery, France. It traveled at a speed of about 33 miles a second and its average altitude was 74 miles. Its radiant point and speed agree nearly with those computed by Prof. A. S. Herschel for the meteors from the comet of 1739—Scientific American.

One of the most fantastic stories of the "Arabian Nights" is of a mountain of "lodestone" which draws the nautica out of any ship that may approach it (together with any other iron machinery that may be on board), causing the doomed craft to fall to pieces. It is to be presumed that this remarkable tale finds its germ in the accidental observation of the attraction of iron by pieces of magnetic iron ore. Why is magnetic ore magnetic? Nobody knows. Only now and then is iron ore found that possesses this strange property. It is so exceptional that collectors of minerals are always hunting for fragments of the "magnetic" known in earlier days as "lodestone."

GATES LOCKED ON RIVAL BALL TEAM

Smith and Seaton Released From Prison, Are Refused Recognition in Southern League.

ATLANTA, Ga., June 17.—When members of the Little Rock baseball team arrived at Ponce de Leon park, the Southern association grounds here this afternoon, for the scheduled game with Atlanta, they found the gates locked against them. The management of the Atlanta club together with officials of the Mobile and Chattanooga teams had announced earlier in the day that no games would be played with Little Rock as long as Casey Smith and Tom Seaton, formerly of the San Francisco Pacific Coast league club appeared in the Little Rock lineup. The two players against whom protests have been made to Southern association officials were signed by Little Rock after they had been released by San Francisco for alleged unsportsmanlike conduct. The Little Rock manager had announced that Smith would appear in the pitcher's box today.

Umpires Kerin and Roth, who were to have officiated at today's game and who appeared at the park with the Little Rock players, announced that the game would stand as "not played" instead of being forfeited to the Little Rock club. The umpires ruled that both teams must be on the ground to have the game forfeited. The Atlanta players were not at the park.

"The charges against the players is all hearsay evidence," Manager Elbert of the Little Rock club declared today. "In spite of our written requests to the San Francisco club officials for full information as to details in the case, we have received no reply. In justice to these players the charges should be investigated, thoroughly. If they are proven true, these men should be barred from baseball, but if unfounded, as they seem to be, Smith and Seaton have been done an injustice."

Casey Smith and Tom Seaton, former pitchers of the San Francisco club of the Pacific Coast league, reported today as involved in a Southern association controversy, were dropped a month ago from the San Francisco team "for the good of baseball." President Charles Graham of the club announced. Their release came during an investigation of alleged gambling at the baseball park, but Graham's statement at the time said they were not directly connected with the gambling charges.

NATIONAL LEAGUE

GIANTS GET JOHNSON.

SALT LAKE CITY, June 17.—The New York Nationals are negotiating for the services of Ernest Johnson, manager and shortstop of the Salt Lake club of the Pacific Coast league. It became known here tonight when Johnson announced that he had received an offer to join the Giants if satisfactory arrangements could be made with the owners of the Salt Lake team to leave here. Johnson is 34, fourth in the greatest number of hits made in his stealing and is regarded as one of the best infielders in the coast league. He came to Salt Lake from the St. Louis Americans last season.

SMILE GOOD BUSINESS ASSET

No Doubt That Cheerfulness Is of Great Advantage in Strenuous Battle of Life.

When it is not a palpable weakness, a terrific artificiality, turned on to create a fleeting impression of a quality that is not there, a smile is an asset of business, a lubricant in social life, the outward index of a welcome mood and happy mind. It refreshes the air, relieves the tension, proclaims a cheerful and serene philosophy. Those who smile most work best.

The man whose brow is clouded, whose face is frowning, whose pessimism sees no rainbows and lives beyond the pale of hope and innocent expectancy, is a poor fellow-workman and an unpopular employer. In the strife for higher wages let it be seen and known that men work for more than material rewards. They toil faster and harder for one they like; and the employer who wins devotion and holds men can see a joke and is a lover of clean fun, and works in his face the sign of high good humor.

The man who keeps on smiling, not with the jenne and constant grin that never wears off, but with the welcome expression of good nature, within—has won victories. He has had his share of trials and temptations. Life has not laid a lighter hand on him than on his neighbor. He enjoyed no special privilege and fate did not reward him preferential treatment. But the expression of a smile above that he has come through

tribulation and not yielded to his troubles. A light that shines there in the reflection of the sufferer's brow, if that smile were the sign of a selfish selfishness it would not mean so much. The meaning of it is that he who wears the look has toiled and suffered, known the anxieties, been foiled and frustrated, drunk the cup and eaten the bread of sorrow—and still he holds his head on high, and the enthusiasm is unquestioned. This attitude of cheerfulness, constantly manifested bespeaks in him who keeps it an essential greatness. The man who smiles has not lost hope and he still keeps faith with his ideals. You cannot take from him the force that he carries in that bright, bright aspect which navigates his way as it is seen.—Philadelphia Ledger.

Barbed Wire Disease.
The name "barbed wire disease" as applied to certain war-stricken victims is believed to have originated in Switzerland, and it applies to a very marked functional mental disorder. The symptoms, recognizable in most cases, confined more than six months behind barbed wire, are: increased irritability, nervousness, followed by diminished power of concentration, and there is much complaint of loss of memory of persons and places. Insomnia is a secondary symptom. Some prisoners have diminished eyesight, many grow suspicious, all tend to pessimism.

A Touch of Mischievous.
There has been a difference of opinion in the preacher's family in which six-year-old Elizabeth thought she got the worst of it. So at prayer time she was unhappy and resentful toward the world in general and her own ministerial family in particular. But she knelt at her mother's knee as usual and went through her usual evening petitions. Finally she prayed: "Oh, Lord, make all the bad people good."

Then as an afterthought she added: "And, God, if you can, please make all the good people nice."—The World Outlook.

In many cities of the Southwest, the cottonwood trees have become a nuisance by reason of the litter which they shed at certain seasons of the year when little seeds of cotton are dropped from them and the matter is being met by the wholesale cutting down of these trees. Thousands of these beautiful shade trees are being sacrificed.

Can't Get Down to That.
Julius, the headwaiter, says he has enough money to retire on, but he can't reconcile himself to the idea of becoming one of the persons who have to give tips.

FARMERS OBJECT TO INCREASE IN FREIGHT RATES ON GRAIN

WASHINGTON, June 17.—Farmers and grain traders presented differing views before the interstate commerce commission today as to application to grain and grain products of the increased freight rates asked by the railroads of the country.

Urging the commission to reach a decision which "discriminates against agriculture, or in favor of any other industry," J. B. Needham of Lane, Kan., representing the Kansas state grain and the Kansas agricultural council, opposed any flat rate increase in grain.

Protesting against the application of percentage advances and contending against any disturbance of rate relationships, A. E. Vandegrift, of Louisville, Ky., presented a petition asking the commission to preserve the equalization on grain between the markets of Cairo, Ill., Cincinnati, Ky., Louisville, Ind., Henderson, Ky., Memphis, St. Louis, New Orleans, Omaha, Kansas City and Louisville.

"Farmers do not ask discrimination in rates on farm products," Mr. Needham declared, "but we do vigorously protest against discrimination in favor of any other commodity, and we wish to express our disapproval of these demands heard here in which narrow commercial or sectional interests have been seeking selfish advantages."

STICKER WITH BANK ROLL FROM JIM KINGS JURY

With a handkerchief drawn over the lower part of his face yesterday morning at a hotel, a robber entered the Pullman car at the corner of Third avenue north and Shoshone street with a revolver in his hand, and seized a roll of bills from the cash register made his escape. The night man was in the rear portion of the building but did not know that any one had entered until he heard the cash register ring. Coming forward he found himself covered by a revolver and ordered to remain quiet. The robber in his haste neglected to take all the money in the register, and Manager Thompson found about \$15 remaining when he checked up in the morning.

ASKS TEMPORARY HELP.

Jonnie Jansen, who two weeks ago brought an action for legal separation from her common-law husband, Paul T. Jansen, now makes a motion in the district court to compel her husband to support her and furnish her money with which to conduct her case during its pendency. The motion was denied by the court. In the original action she asks for a portion of the property which she claims she helped to accumulate.

Wear the Fabric that wears well and looks good on you

In the spring you turn consciously to the lighter-weight wearing apparel. This is the time when it is a relief to get into a suit that is comfortable. We want you to notice our window displays this season. If we can impress you with a suit model in our window display, we should be gratified. We would like to impress you with the idea, however, that we shall have a suit model that is adapted to your build and a pattern and color that is becoming to you.

Price Range from
\$20 to \$45

We have certain ties to go with our suits that you will appreciate. We also believe that every man should consider the right hat to wear with the model suit he buys.

Ties 75c to \$4.50
Hats \$3.00 to \$12

As you pass our store look in the window and find time to come in and look over our line.

The United Stores AN ANNOUNCEMENT

Ever since the fire—more than three weeks ago—we have been besieged with inquiries as to when we would hold our fire sale. To please the adjusters, settlement was effected Monday and we find much work yet to be done before we can satisfactorily start this great sale.

However, we want it plainly understood that we will put on a sale such as has never been the good fortune of Twin Falls to have had. Our losses will be forgotten and with the thought of serving the public ever uppermost in our minds we assure you that the word "bargains" will come into a meaning such as it has never before received in this community.

We realize that the public expects more than ever to find bargains at a fire sale, and we feel it our duty not to disappoint them. We know that the mere announcement of a fire sale will bring crowds who will be so busy purchasing that they cannot always judge the true value of an article at the time of purchase, and who will naturally rely upon the honesty and integrity of the merchant to give them values in accordance with their highest expectations. We know this, and shall strive to offer bargains that are even beyond these expectations, for we realize that we are not building for today but for the morrow.

If you have been disappointed in previous sales or price cutting melanges, a visit to this store will renew your faith in some sales and in the United Stores.

Definite announcements of this big sale will be made in this paper at a later date. Watch for them.

Society

For many years and it has always been our plan to build or buy a clubhouse. Now is the time for action. Let this be a club to do, and not one to idle away our time. For years we have looked forward to the time when we could perfect our idea and this seems to me to be the best time.

"The club must have an ideal, a motive to work for. Without this it will die. It is my opinion that unless we make this clubhouse a reality that the club in a short time will dwindle and in a short time die."

"We want to be felt in the community, we want to make ourselves of some benefit to the civic side of Twin Falls and it is my opinion that by making this plan to buy a reality that such an aim will be accomplished."

The members all wanted to buy, but it was decided to call another meeting to be held in the dark hall Monday to decide further upon the plan.

Other houses will be investigated during the week.

The Salmon Social club was entertained at the home of Mrs. Charles

Craye yesterday afternoon. A social time was enjoyed after which the hostess served refreshments.

Mrs. J. A. Griffith was the delightful hostess yesterday afternoon for the members of the Shamrock club at her country home. The forenoon of the afternoon was given over to a business meeting after which a short program was enjoyed. Mrs. Corlie read an interesting paper on "Children" and Miss Elaine Griffith gave several musical selections. The next meeting will be held July 1 at the home of Mrs. E. L. Franco. There were 15 members present yesterday and one guest, Mrs. Franco, mother of Mrs. E. L. Franco. At the close of the meeting the hostess served food and white punch and roses were used in profusion throughout the house.

ELECTRIC RANGES

Clean and Cool

A cool, clean kitchen! What could be more desirable? Always bright and cheery kitchen with white woodwork, enameled walls, gleaming porcelain sink, and a spotless floor when you use an electric range.

Cool, because an electric range will give you cooking heat by radiation. Clean, because this heat is produced without ashes, without smoke, without soot, or harmful fumes.

Clean—kitchen, utensils, clean walls and floor, and even clean, pure air in the room. In such a kitchen it is a joy to work.

From every standpoint an electric range provides the ideal method of cooking. We will be glad to explain further the economy and usefulness of an electric range—plan to come in tomorrow.
