

UNCERTAINTY APPARENT TO THE LEADERS

First Magnitude Democrats Continue Conferences and Secret Scheming

M'ADOO BOOM WILL NOT STAY SUBMERGED

Despite Statements of Former Treasury Head Friends Keep His Name Before Nation

By the Associated Press.
SAN FRANCISCO, June 24.—More and more elements of uncertainty appeared in the line-up of the democratic national convention today as the leaders of first magnitude arrived in increasing numbers and put their heads together over questions of policies and men.

For the time being the platform held its place as the topic of cogitation and negotiation, with the problem of bone dry prohibition the chief material for controversy.

Talk of candidates, in a moribund stage for a week, was revived appreciably as the delegates gathered. Boosters for Palmer, Cox and a half dozen other aspirants became increasingly active among uninitiated delegates and a whole verve of favorite sons and dark horses blossomed out, with headquarters for themselves.

McAdoo Boom Again
Meantime, the phantom McAdoo boom stalked, unseen through hotel corridors and conference rooms, leaving behind a trail of speculation and speculation. Though publicly repudiated at the hands of Mr. McAdoo himself, the movement did not down. Indeed its postulations were suggestive of the pink and vigor and it turned up uninvited at the ghost at the council table of more than one candidate's manager.

On several questions of convention organization, too, the party chiefs were in a quandary. There were some rumblings of a split, as Senator Glass, the administration choice of the platform committee, and the problem of choosing a permanent convention chairman are into a mess which threatened to upset seriously the plans of some administration supporters.

Senator Walsh of Missouri, who ratified in the senate last March for violation of the peace treaty with the republican reservations, promised to become the storm center of the organization fight. In some quarters he was urged to run as a candidate against Senator Glass for head of the platform committee, though others thought he should have the permanent chairmanship instead. He had the backing of William Jennings Bryan and was said to be favored also by other powerful forces more or less out of accord with some administration policies.

Cathy Is Mentioned
The administration people have suggested Secretary Cathy of the state department or Chairman Cummings of the national committee as permanent chairman, but it was said today that no decision had been reached. The chief executive has been to be accepted as satisfactory. A general from tonight seemed to be put him forward for the convention chairmanship rather than for the head of the platform committee.

Chairman Cummings and some national committee officials discounted talk of an open anti-administration fight and protested vigorously against lobby group that President Wilson was attempting to dictate either in regard to the candidate or the platform.

"I am aware," said Mr. Cummings, "of no intention by the president to communicate to the convention in any way, shape or form. I anticipate no verbal message from him."

He added, of course, there could be no restraint on the president's friends in any communication they might care to establish with the "White House" though he said the whole attitude of the chief executive has been to let the convention work its own destiny.

Senator Glass, who arrived last night from Washington as the commonly reputed spokesman of the administration, also claimed that the president was to confer with the

OIL FRAUD AGENTS GET INTO TROUBLE

United States After Men Who Have Defrauded Investors In Bogus Oil Companies Enterprises

By the Associated Press.

NEW YORK, June 24.—With the breaking of seals today on indictments charging fourteen concerns and 50 individuals with fraud, government agents let it become known that they had begun a nationwide roundup of alleged wild cat oil company promoters who are said to have swindled the public out of millions within the last few months.

The defendants oil companies, brokerage concerns, and their officers and salesmen are charged with having used the mails to defraud. They are alleged to have made gross misrepresentations and to have in some cases paid impressive dividends out of receipts on stock sales.

Made False Statements
In one case, the indictments charged, salesmen disposing of stock of the Crown Oil company falsely represented that a son of former President Roosevelt was an officer of the company, which it was claimed would soon rival the Standard Oil company in volume of business.

Shares of the company, according to one of the indictments, were sold to investors in Chicago at \$2.25 a share, and to "evade the western blue law" later were disposed of here at \$3, after costing brokers only 7-12 cents a share.

While federal officers were seeking Louis C. Van Riper at Atlantic City and Boston for alleged connection with the sale of Crown Oil stock, the indictment and his counsel appeared at the federal court to answer the indictment. Bail was fixed at \$20,000 after the prosecution had sought to have the amount fixed at \$50,000.

Van Riper's counsel, Martin W. Littleton, pleaded the latter was on excusatory and would be tantamount to prosecution, contending that a bond of five thousand dollars was the usual bail in mail fraud cases.

INTER-CHURCH PLAN TO LOSE BAPTISTS

By the Associated Press.
BUFFALO, N. Y., June 24.—The general board of promotion of the northern Baptist conference, meeting here today after reaffirming the desire of northern Baptists to mark out some effective form of Protestant co-operation, the convention completely severed its relations with the inter-church world movement, effective June 12, 1920.

Judge P. W. Freeman of Denver, always an opponent of the inter-church world movement, swept the convention with applause when he pleaded that some method of cooperation between evangelized Christian bodies be worked out.

Dr. Cornelius Woolrich, pastor of the Fifth avenue Baptist church of New York, of which the Rockefeller family are members, declared that the inter-church world movement from the standpoint of support. The general board of promotion's recommendations include payment of Baptist obligations for inter-church indebtedness of \$1,500,000.

MISSOURI REPUBLICANS DEMAND RESIGNATIONS OF ALLEGED BOOGLERS

By the Associated Press.

SENDAIA, Mo., June 24.—Missouri republicans representing 15 of the 10 congressional districts of the state, met here today and passed resolutions demanding the resignation of Jacob L. Babler, republican national committee chairman from Missouri, W. L. Cole, state chairman and "all other committee members guilty of similar conduct" in connection with pre-convention funds of candidates for the republican presidential nomination.

The resolution authorized the appointment of two committees "whose duty, in case of the failure of Cole and Babler to resign, it becomes to aid Babler to resign, to at once lay all facts connected with the action of the meeting today, and activities of Babler and Cole, as divulged by the senate committee investigation for pre-convention expenditures before the republican national committee and the republican state committee, demanding the expulsion of Babler and Cole from the offices which they now hold."

A letter written by Harbert S. Hadley, former governor of Missouri, to W. C. Pierce of Maryville, Mo., in which Mr. Hadley asserted that the practice of obtaining money from presidential candidates was one which had been practiced since 1908 by republican politicians in Missouri, was read at the meeting.

Harding's Mail Is Heavy
WASHINGTON, June 24.—Senator Harding, the republican choice for the presidency received only a few visitors today and devoted virtually all his time to correspondence today. So great was the crush of mail brought to the senate that he was compelled to direct the greater part of his time to that work not only at his office but also at his home in the evenings.

In addition to the usual daily delivery of between 3,000 and 4,000 letters, mail bags containing approximately 15,000 letters sent by express from his home at Marion, Ohio, were delivered at Mr. Harding's office today.

Senator Harding had hoped before leaving for Marion July 4 to be able to leave his office for a day at a time in order to rest but it was said tonight that all prospects for any sort of vacation prior to his departure had been abandoned.

Colonel Theodore Roosevelt, son of the former president, has an engagement to confer with Mr. Harding tomorrow. He will come at the senator's invitation and in one of the numerous progressive leaders summoned by the republican nominees to discuss campaign plans.

Among those who saw the candidate today were Senator Fletcher, democrat of Florida; E. C. Alderson, Washington representative of the national grange, and Elmer Dyer of Tacoma, Washington, former secretary to the late Senator Mark Hanna and later secretary of the national republican committee.

Weather
Mainly fair.
In the morning a light rain fell, but it cleared away by 10 o'clock. The day was mostly clear and pleasant, with a few scattered clouds in the afternoon. The temperature was in the 70s and 80s.

BRYAN APPROACHES FIELD OF BATTLE

Political Leader Nears San Francisco Where He Will Be Going To Be Contested

SAN FRANCISCO, June 24.—Mobilization of democratic-national-convention forces for the expected clash over prohibition enforcement plans in the party's 1920 platform will approach completion tomorrow when W. J. Bryan arrives on the scene.

The Nebraskaan is generally regarded as field marshal of the bone-dry element. He may also function as supreme commander of allied and associated interests opposed to President Wilson's platform views, and his arrival is expected to set battle lines for the whole platform sharply drawn.

While the enforcement question remained the outstanding issue with the factions as far apart as the poles, interest in other platform questions was stimulated by the presence of Senator Glass of Virginia, who is known to be fully advised as to the president's views on what the party should do on the league of nations issue and similar questions. Supporters of proposals to modify the Volstead enforcement act were claiming presidential favor for their proposition, but up to date Mr. Glass has not indicated what views Mr. Wilson may have expressed in this regard during the conference which preceded the senator's departure from Washington.

Has Plank Of His Own

Mr. Bryan has already declared that he has a plank of his own to present on the enforcement question. He is understood to favor putting the party on record for rigid enforcement of the prohibition amendment to the full limit of the Volstead measure. Between this suggestion, which gained the support of Senator Owen of Oklahoma, first of the presidential aspirants to reach the scene of the convention, and the modifications advanced the gulf is so wide that no possibility of compromise is visible, unless it should be based on an agreement to follow the platform of the Virginia democrats and ignore the prohibition plank entirely.

The bone drys have a working majority on the committee. This is admitted by the modifiers of whatever shade of opinion. They also are credited with a slight majority in the convention itself, but the would-be reformers who view with alarm the rainmakers who view with alarm the prospect of defeat are very hopeful this can be upset.

There is pressure to expedite proceedings as much as possible. For that reason it was said today that if an enforcement plank is framed by the committee, probably it would be allowed to go to the convention with virtually no time devoted to committee debate by its opponents; but accompanied by a flatly contradictory minority report that would bring the subject into the open forum of the convention itself.

TRAIN HITS CAR; DRIVER IS INJURED

While driving home from his work on ranch near Eden, Wednesday afternoon, A. Newbury, riding in an automobile, was hit by a train at the railroad crossing one mile east of Eden and sustained several serious injuries.

Mr. Newbury had been thinking boots and after he had finished he was driving home in his Ford car about 4 o'clock. He was prevented from seeing the approaching train by dark blowing in his eyes. After being hit he was carried about two hundred yards on the cow catcher before the train could be stopped. His car was entirely demolished. When picked up he was unconscious and rushed to a local hospital in an ambulance. Upon examination it was found that his right leg was broken in two places and his right arm and shoulder badly bruised. He is reported as being in a very serious condition.

EQUALIZATION FARES AND FREIGHT RATES

WASHINGTON, June 24.—Equalization of railroad passenger fares and freight rates, in order that the burden may be distributed among all classes of traffic, was urged today before the interstate commerce commission today by A. C. Dixon of Eugene, Ore., representing the West Coast Lumbermen's association.

Western lumbermen, Mr. Dixon asserted, are forced to pay a "percentage" of that territory and oppose any increase on a percentage basis. "Value of the roads on the basis of the property investment accounts is the advisable," he said.

SENATOR REED DESIRES SEAT AS DELEGATE

National Committee Will Meet and Decide Contests; Reed Wants in

MISSOURIANS ALLEGE HIS SELECTION ILLEGAL

Claim Senator Was Selected After Meeting of State Convention; Favor Alternate Delegate

By the Associated Press.

SAN FRANCISCO, June 24.—Members of the national committee which meets tomorrow afternoon to complete the temporary roll of delegates to the democratic convention, anticipate a lively time if Senator James A. Reed, of Missouri appears and tries to have himself placed on the list. The Missouri senator, who is a bitter opponent of the league of nations covenant and who has opposed many of the administration measures in the senate, is expected here tomorrow to fight his own battle for recognition as a delegate.

After the senator claims to have been elected a delegate from the fifth Missouri district, his name does not appear on the list of delegates made up by the secretary of the national committee for submission to the committee tomorrow.

Reed Was Rejected
The Missouri state convention some time ago rejected the selection of Reed as a delegate by the fifth district democrats. According to the records of the national committee here, the fifth district did not select a delegate to fill his place during the life of the state convention but re-elected Reed at a subsequent meeting.

According to Executive Secretary Hollister of the national committee, an alternate delegate was illegal and for that reason his name was not placed on the temporary roll for approval by the national committee. It was also said by Mr. Hollister that James T. Bradshaw of Kansas City, an alternate, would be recognized as Senator Reed's substitute. The other regular delegate from the fifth district is Joseph B. Shannon, Kansas City.

It was said that if Senator Reed's claims were not recognized, an effort would be made by the senator to obtain a proxy in order to get on the floor and fight the administration plank of the league of nations. Supporters of the Wilson administration make no secret of their intention to reject Reed's efforts to participate in the convention proceedings.

Contest From Georgia
The Georgia contest, the only one officially filed with the national committee, is also probably will be considered by a sub-committee before final action is taken by the full committee. This is a fight between one set of delegates favoring A. Mitchell Palmer for president and another known as the Hoke Smith-Turner-Watson group. The adjustment of this dispute is expected to settle the contest for national committee men from Georgia. Clark Howell, oldest committeeman in point of service in the national committee, is with the Palmer forces and is opposed by W. C. Venable.

Talk of a contest from Oregon, where a delegate at large died and his place was filled by the state central committee, was not taken seriously by members of the national committee. J. L. Schuyman, who ran fifth in the contest for the four places as delegate at large, is said to claim that by reason of the vote he polled he should have been selected by the state committee. Members of the national committee here, however, expressed the opinion that the selection of the state committee would stand unless it was shown that party rules were violated.

Senator Reed and his friends claim that he has no statement to make regarding his status as a delegate. He said that he had been elected a delegate and would be filled with the national committee. He said that he had been elected a delegate and would be filled with the national committee.

PHILADELPHIA, June 24.—Philadelphia dropped to last place today when Cincinnati owned the series by taking the final game 5 to 3. Spectators surged on the field after the game and Rightfielder Neale of Cincinnati, is said to have spiked one of them, precipitating a free for all fight. The visitors gained the shelter of the clubhouse without injury but one spectator was badly cut. Loose playing by the local infield lost the game in the first inning. Score: R. H. E. Oleason Knocked Out BROOKLYN, June 24.—Brooklyn knocked six hits for five runs off Adams in the fifth inning today, and won the game six to two. Oleason was hit over the left ear by a pitched ball.

Electric Ranges Make Cooking a Delight

Have you ever cooked a meal on a modern electric stove? It's truly a pleasure. The radiant heat will hardly raise the temperature of your kitchen a single degree. And this clean, cool way of cooking means freedom from the nuisance of matches, ashes and all the disagreeable features of ordinary stoves.

The ovens have double walls that are separated by efficient heat insulating material. This means the conserving of heat, baking temperature reached quickly and freedom from the sickening atmosphere of the average kitchen.

There are many more important features about electric stoves that we would like to tell you when you call. And we have accurate figures on the economy of electric cooking.

Its Identity

"Rip Rumble is—heel heel heel—wag!" chuckled old Ripper Reisz of Potomac. "He told me he was going to a Kay See for a surgical operation—inyahow, he guessed likely he'd have his pocket book pinned." "We do not see anything especially vagabond to that statement," returned the able editor of the Weekly Palladium. "Knowing Ripley as we do, and having been in Kansas City several times, ourselves, we consider it a plain and plausible presentation of a perfectly probable possibility."—Kansas City Star.

Bill Met With Misfortune

The new giant bell, "Jennie d'Arc," destined for Bonnet cathedral, met with an accident just after it had left the foundry at Ancey, France. It was being drawn by 14 horses through the streets when an excited geyser way and the great bell, weighing 20 tons, fell to the ground, obstructing the traffic. The road was cleared sufficiently to allow vehicles to pass some hours afterward, but it took five days to lift the bell.

Meant What She Said

Mabel—How can you be so inconsiderate? You told Mr. Boreleigh that you were sorry you were out when he called. Marie—Oh, no, my dear, I said I was sorry he called when I was out. You see, he's likely to call some time when I am in.—Boston Transcript.

Never Noticed

"We are afraid young Silbilly is losing his mind." "Well, keep quiet about it, and nobody will ever know the difference."

TELLS OF ADVANTAGES OF VOCATIONAL TRAINING

Mrs. Joan Morris Ellis who has been here for several days instructing veterans of the great war on the advantages of the vocational training offered them by the Government left last night for Boise.

While here Mrs. Ellis, who is an interesting speaker made many friends among the soldier boys and acquainted a free deal with them as many of them agreed to take advantage of the scholarships.

QUICK WORK RECORDED IN TRIAL DIVORCE CASE

In the district court yesterday the Reno divorce record was beaten when quick time was made in the hearing

and disposal of a divorce case. The action was T. W. Cantrill vs. Mabel C. Cantrill. The defense filed a demurrer to the complaint of the plaintiff. This was overruled by the court and the defendant was required to answer instantly. The attorney for the defense refused to plead further, judgment was entered by default and a decree of divorce granted the plaintiff forthwith.

The MINTS OF HELL Starring William Desmond

A DRAMA OF THE FROZEN YUKON COUNTRY.

in the days of the gold rush, picturing the wild scramble gold-mad men made for wealth—vivid portrayal of the risks they ran, built around the romance of a tenderfoot prospector and a daughter of the North.

The Lure of Gold.
A Gripping Drama of the Yukon.
The "Devil's Colosseum." Which Drive Men Mad.
A Story of a Search for Gold and Adventure.
How the Tenderfoot Thwarted the Claim Thief.
He Fought for the Girl He Loved and Won a Fortune.

Men froze to death in the snow, perished in blizzards and starved in the bleak wastes of that Yukon country in a crazed rush for gold, for yellow wealth which lay on the ground, and around this spectacular period of Alaskan history this story has been built, with William Desmond as Dan Burke, a tenderfoot prospector who fought hard and won—when he won—on the square.

Buhl News Notes

Arrangements are being made by the citizens of the West for a big celebration on July fourth. The morning will be given over to orators of note among whom is Miles Cannon who will deliver an address to the farmers. Mr. Cannon is well known throughout the state and will long be remembered for the stand he took in behalf of the farmers, when he made his successful fight against the U. S. Grain Corporation who were holding the price of wheat down, his address will be of vital interest to farmers and business men alike.

Chief Hutchinson of the Buhl fire department has issued challenges to Emily and Freda Pohl departments for a water fight to take place in the afternoon on the athletic field. A large purse will be awarded the winner of this contest. In addition to this, athletic contests of all sorts and for all ages and sexes will be held. The feature of the afternoon will be the base ball game between Buhl and Jerome, which will take place immediately after the festivities, this game will provide thrills for all boosters of the West.

Buhl will be the only town in the county that will participate in the Independence Day celebration therefore elaborate preparation will be made to accommodate the people attending. The program of the evening will be in the form of dancing both indoors and outdoors, also throughout the evening the Buhl Band will entertain those not dancing with a special prepared concert, the night will be brought in a close with a wonderful display of fireworks.

CAMPAIGN BEGINS

LANCASTER, Ohio, June 24.—Twin boys born Wednesday to Mr. and Mrs. Enos White, farmers living in Madison township, have been named "Harding" and "Coolidge".

Powerful Subs.

The submarines of the English "K" class are said to be the fastest and most powerful submersible craft in the world. They are propelled on its surface by steam turbines in a space of 24 knots, which is about eight knots faster than the speed of ordinary submarines. They are 310 feet long, and displace 2,570 tons. These boats have unusually long periscopes measuring 33 feet from top to bottom. Their funnels are made to hinge back before the boat dives.

Lucky Bird.

"I would I were a bird," sighed the mere man. "I don't think of coming back to last year's nest without having the rent raised."

Cause and Effect.
Two notices on a church bulletin board in Manchester, England, ran as follows:
"A potato supper will be held Saturday evening."
"Subject for Sunday morning: 'A Night of Agony.'"
—Boston Transcript.

Agricultural Missionaries.
To lighten agricultural production the world over and thus increase the world's food supply, with the resultant blow at old H. C. of L., an international association of agricultural missions has been formed. Its members will carry modern agricultural methods into every land.—World Outlook.

Demonstration.
Here is this would-be critic talking about a water color in oil. Did you ever hear of a water color which could be in oil?
"Sure Sea Blue."

Analogy.
"Pop, wasn't a soldier who carried a lance, called a lancer?"
"Then is a soldier who carries a pike, a pikier?"

I am a conductor from a suburb. I boarded a crowded train, but found a seat occupied by one man who monopolized the space at his side by filling it with packages. When I asked him to remove his bundles he suggested I probably would be able to find room elsewhere. But after a disagreeable discussion I finally settled down by the seat. In walked a friend of mine who gave me and my seat mate a nudge and said: "Mr. S., you must shake hands with Mr. B.; you will like him. I am sure. He has just moved and has rented the house next door to you."
—Chicago Tribune.

In Hungarian Parliament.
Sister Margit Szecht is the name of the first woman elected recently to the parliament of Hungary. She was formerly a school teacher and for ten years was a member of the Catholic Social Mission society, where she did social work excellently as a professional. She is said to be between thirty-five and thirty-eight years of age and has given her country excellent service, organizing in the whole country the Catholic women who were voting for the first time, and through her work her party became the leading one, having a majority in the house.

MACHINIST IS FINE ORATOR

It is not uncommon for a great orator to come up from the masses of bothheim and radicalism, but it is uncommon for a man of the laboring class, following this daily work for the support of his family, to become imbued with the spirit of patriotism and the good of the nation to go out and champion the cause of 100 per cent Americanism.

Such a man is E. B. Fish, who comes to Chautauque on the third afternoon. He was a machinist in the Everett, Washington shipyards at the time of the general strike in Seattle, and he left his job to go out to appeal to his fellow laborers in the Northwest to down the Bolshevism, and stand by Uncle Sam. For a year he has been doing heroic work, speaking to thousands of laboring men in the factories, camps and mills. He talks with tremendous earnestness and force and he speaks every word with authority.

He is now editor of the "Labor and Industrial Journal", a publication that is 100 per cent American, and has just finished a book on "The Cause and Cure of Industrial Unrest."
