

AMERICAN TRADE WITH RUSSIA IS RESUMED

ANNOUNCEMENT MADE PUBLIC BY THE STATE DEPARTMENT

All Restrictions Removed Except on Materials That Might Be Used in War.

NO RECOGNITION OF THE SOVIET REGIME

Government Makes Position Plain; Traders With Russia Do So on Own Responsibility and at Own Risk

By the Associated Press. WASHINGTON, July 7.—Restrictions on trade with soviet Russia were removed today by the state department except insofar as they pertain to the shipment of materials susceptible of immediate use for war purposes. An individual export license must be obtained for the shipment of such materials and it was announced that such licenses would be granted only in exceptional cases.

Individual export licenses also will be required for the export to Russia of locomotives, railroad material and rolling stock, all motor cars and component parts.

Independent Action. While taken independently of other nations this action followed extensive exchanges between the United States and Great Britain and France. It is believed to have been hastened by the recent negotiations between Governor Krasin, representing the bolshevik government, and Premier Lloyd George looking to the resumption of trade between Great Britain and Russia.

In announcing his action the state department took particular pains to state that political recognition, present or future, of any Russian authority exercising or claiming to exercise governmental functions was neither granted nor intended. It also emphasized that individuals or corporations trading with Russia would do so on their own responsibility and at their own risk as this government could offer no protection to Americans going into Russia or trading with Russia.

The announcement by the department follows:

"The restrictions which have heretofore stood in the way of trade and communication with soviet Russia were today removed by the department of state. Such of these restrictions, however, as pertain to the shipment of materials susceptible of immediate use for war purposes will, for the present at least, be maintained. "Political recognition, present or future, of any Russian authority exercising or claiming to exercise governmental functions, is neither granted nor intended by this action. It should be emphasized, moreover, that individuals or corporations availing themselves of the present opportunity to trade with Russia will do so on their own responsibility and at their own risk. The assistance which the United States can normally extend to its citizens who engage in trade or travel in some foreign country whose government is not recognized by the United States, cannot be extended for in the present case, since there is no official or representative Russian authority with which this government can maintain the relations usually existing between nations."

"The action which the United States is now taking in which constitutes a recognition of the validity of industrial or commercial concessions granted by any existing Russian authority, of the present relaxation of restrictions against the trade in commodities for the acceptance of commodities of other values, or the title which may later be brought into question. No Passports Now.

B. P. O. E. PARADE STREETS OF CHICAGO

Thousands of Chicagoans See, Grand Pageant; Line of March Brilliantly Decorated.

By the Associated Press. CHICAGO, July 7.—The Benevolent Protective Order of Elks closed the third day of its week's convention here with a parade and pageant to which was drawn by thousands of Chicagoans as it proceeded through the downtown quarter and along Michigan avenue.

The life of march was brilliantly decorated and illuminated. Thirty-five floats were represented by elaborate floats, property at a cost of \$71,000, while cowboys, crack drill teams, 100 bands, decorated automobiles and delegations of Elks from all parts of the country, each group in a distinctive uniform or costume, added to the show.

Grand lodge officers and judges, who selected the prize winning floats, occupied a stand on Michigan avenue.

Hold Memorial Service.

Today's meeting of the grand lodge was marked by memorial service for the 1,027 Elks who died in the world war and for other members who died within the year. Special services were held for two past grand exalted rulers, Justice Henry Melvin and Justice T. King. Rev. Dr. John Dwyer, newly elected grand chaplain, officiated.

The grand lodge also heard the report of the national Elks war relief commission, of which John K. Tener, former governor of Pennsylvania, is chairman. "The Elks was the first organization to realize the need of hospitals at home and abroad," Mr. Tener said. "While the Elks turned over their subhouses for any purpose of the government, they sold Liberty bonds in every drive, they assessed themselves two millions, built a magnificent reconstruction hospital at Boston and equipped two fine base hospitals in France. The work of the commission did not end with the armistice. While the government had established the board of vocational education, the law made no provision for immediate financial help. "When the Elks' commission learned of this situation it created a fund of \$250,000 from which money was advanced to wounded soldiers until they received their checks from the government."

UNIVERSITY PRESIDENT QUILTS: CHICAGO, July 7.—Dr. Lynn Harold Hough has tendered his resignation as president of Northwestern university, Oliver P. Wilson, president of the board of trustees, announced today.

In a letter to the board announcing his decision, Dr. Hough said that "the duties of the presidency demand more in the way of physical resource than I can bring to the task." Dr. Hough was named president a year ago.

UNITED STATES GOVERNMENT CONSIDERS RECOGNITION OF PROVISIONAL REGIME

By the Associated Press. WASHINGTON, July 7.—The Mexican situation is receiving more careful study by the American government than has any subject since the Paris peace conference. It was stated today at the state department. This is with a view to according recognition to de la Huerta's provisional government, provided satisfactory assurances are given that it can and will maintain order and will live up to its obligations respecting the protection of the lives and property of foreigners.

Iglesias Calderon, the special envoy sent by de la Huerta to ask recognition, will ask for another conference with Acting Secretary Davis as soon as he has discussed the situation with the members of his staff who have just arrived here from Mexico City. American officials, it is stated authoritatively, are impressed with the

FLORIDA CITY VISITED BY BUBONIC PLAGUE

By the Associated Press. PENSACOLA, Fla., July 7.—The fourth case of bubonic plague was officially reported here today. Henry Hudson, driver for an express company having contracted the disease. Citizens at a mass meeting today demanded that the city commission pass an ordinance providing for rat extermination. Mayor Sanders said the ordinance would be enacted as quickly as possible. Word came from the surgeon general's office in Washington that unless rats are killed the city would be placed under quarantine.

REPORTED COLLAPSE OF THE POLISH ARMY FRONT

By the Associated Press. BERLIN, July 7.—The Polish front from the Pripiet to the Carpathians has completely collapsed and the situation is most serious, the semi-official Allgemeine Zeitung says it learns authoritatively. The Russian push southward from Kiev and Rovno has met with only slight opposition. A Warsaw dispatch says the bolsheviks have begun an offensive on the north front, to the north of the Molotsk-Chen-Polsk railway, but their first attempt to break through has failed.

CAMPAIGN FUND IS UNDERGOING PROBE

Committee Asking Some Interesting Questions About Wood's Great Financial Budget.

By the Associated Press. CHICAGO, July 7.—The senate committee investigating pre-convention campaign expenditures of various candidates today resumed its hearings by delving into the organization and expenditures of backers of Major General Leonard Wood. The committee also began an exhaustive inquiry into the organization in Missouri of Governor Frank O. Lowden which did not end until early in the evening after various details of the Tatt-Roosevelt fight in 1912 had been brought up by witnesses.

Chief among the witnesses were William Loeb, formerly private secretary to Theodore Roosevelt and who described himself as a "sort of clearing house through which Wood found in the East passed"; J. L. Babler, republican national committeeman from Missouri; and E. L. Morse, of Excelsior Springs, Mo., described by witnesses as the distributor of Governor Lowden's campaign funds in Missouri and "sons of the Third Missouri congressional district."

Don F. Kesterson of Princeton, Mo., brought in the Tatt-Roosevelt issue, declaring both had spent more money in Missouri in 1912 than Lowden in 1920 and described a system of payment by blank checks for which he received \$25 each, but which, he said, were cashed for sums up to \$250.

After Mr. Loeb had described how a group of New York men underwrote \$1,000,000 for the Wood campaign, Senator James Reed took up the cross-questioning of political conditions in Missouri and particularly in the Third congressional district which he said was always "noted as a hotbed of political fights."

LABOR DEPARTMENT IS DOING GOOD BUSINESS

The labor department of the farm bureau under the management of H. A. Cryder states that they have done a "land office" business the last few days. The supply and demand have been about equal for some time past. They have helped register men for all branches of farm work for the cities of Eliza, Jerome, Eden, Murghausen, Kimberley, Creek Creek, Piler, Buhi, Roosevelt, Hollister and Rogers.

This service which is free of charge to both employer and employee, also has a department for the furnishing of women help for housework and cooking.

If Advice of Gov. Cox Is Taken Women Will Get to Vote at the General Election.

LOUISIANA IS ASKED TO RATIFY AMENDMENT

Ohio Executive Keen to Have State Act so Democratic Party Will Get Credit for Making Suffrage a Fact.

By the Associated Press. DAYTON, Ohio, July 7.—If the legislature of Louisiana acts in accord with the opinion of Governor James M. Cox, democratic nominee for president, women will be enfranchised to vote at the November election and the democratic party may get the credit for making universal suffrage a fact. In a telegram to Frank J. Looney, chairman of the Louisiana state central committee, Governor Cox proposed it as his opinion that the Louisiana legislature owes it as a duty to the democratic party to ratify at once.

Mr. Looney had wired the governor asking him to express his views to the legislature on ratification of the amendment. In his official capacity as governor of Ohio, the democratic candidate has repeatedly placed himself on record as being in favor of giving the vote to women. He has signed a number of bills intended to enfranchise women in this state and in a special message to the legislature transmitting the federal amendment for ratification he urged favorable action. Consequently, his frank opinion expressed today on the subject was not unexpected here.

Columbus Headquarters. It was stated today by those in close touch with the democratic presidential candidate that he contemplated conducting his campaign chiefly from Columbus, where he will necessarily have to be much of the time in connection with his duties as governor. His stay in Dayton, however, anticipate that his home city will be one of the principal nerve centers in the campaign and that no small part of his campaign work will be conducted from his newspaper office. It has been the practice of the governor to come home each Friday from Columbus and spend the week end with his family at Trail's End and at his newspaper office.

No political conferences of importance are expected until the party leaders return from San Francisco. The visit of Franklin D. Roosevelt, the vice presidential nominee, which is expected to last a day, is not anticipated to develop into anything more than an exchange of greetings.

To See Roosevelt.

Mr. Roosevelt will stop here on his way home from the convention. The governor spent most of today at his newspaper office receiving callers and reading messages of congratulation which have poured into his office in a constant stream since early Tuesday morning. Among them were felicitations from all the candidates who were contenders for the honor that came to the Ohio governor, Vice President and Mrs. Marshall, cabinet members, governors, political leaders of both parties, representatives of labor, business men and personal friends.

THE BOYS IN THE OTHER CAR

NONPARTISANS TO HOLD CONFERENCE

Saturday Is Time Set for Meeting at
Parish Hall; Reorganization Is
to Be Discussed.

For purposes of effecting a reor-
ganization of their forces, either un-
der a new name or the old, the mem-
bership of the Non-Partisan league in
Twin Falls county has been called to
meet in Twin Falls next Saturday.
There will be two sessions of the
meeting, one in the forenoon and one
in the afternoon. The meetings will
be held in Parish hall, which has been
rented for the purpose.

One element of the membership fa-
vors a change in name of the organiza-
tion, while many favor adhering to
the old name and organization. It
is not known, however, whether or
not those who are seeking a change in
the name propose also reorganization
of relationship with the Twentynine
organization in North Dakota. There has
been for some time an understanding
in favor of cutting loose from the
parent organization, in order that
there may be effected a saving in the
fee of membership paid to the Twentynine
heads.

The Twin Falls meeting is also ex-
pected to take up the matter of the
county political campaign. So far
there has been no apparent effort on
the part of the league to control the
election of the old party organizations in
the county, and there has been con-
sistent report that the plan was enter-
ed to pick from the candidates offered
by the democrats and republicans
those whom it would support, or, failing
this to put into the field a com-
plete ticket in harmony with an un-
derstanding with organized labor in
the county. It is expected that this
matter will be handled by the Satur-
day conference and a decision
reached.

There is also the matter of support
of a national ticket for consideration.
The nominations of the two old par-
ties are said not to be satisfactory to
many of the league leaders in the
county. These men are thought to
favor a third party movement; but
they realize also that they can not
act alone in this matter, and must be
deterred until a nation-wide move-
ment is launched which invites by its
nature their help and cooperation. It
there be a third party national move-
ment to which the league lends itself,
then it may be said that the chances
for a third party ticket in the state

are promising. Also, it may be said,
there is a chance for a third party
state ticket even if the national move-
ment does not take formers form.
With these matters coming before
the conference Saturday, unusual im-
portance is attached to them, and a
large turnout is being urged by the
leaders.

There has for some time been
growing desire manifested by a number
of elements of the local league mem-
bership in favor of cutting loose
from the Twentynine organization, and
reforming a movement which shall
without political or other antecedents,
devote itself to the problems which
confront the farmers. Whether or not
this feeling has spread to such an ex-
tent that it will dominate the meeting
is doubtful; but that it is growing is
the statement made by many of those
who have had part in the building of
the organization in Twin Falls county.

HOLDS HIGH PLACE IN RUSSIA

Chinaman of Low Origin Said to Be
Real Power in the Soviet
Government.

While ricksha coolies and tea house
gossips tell each other that bolshevism
means three acres and a cow all round
and even the sober middle class in
Russia think there may be some comedy
in it for "millions." It is interesting
to learn from Berlin that the most
powerful man in soviet Russia today
is a Chinese or, Confucius himself
named Jack Yen, who was formerly
a barbers assistant in Peking, and
was nearly hanged as a spy during the
Russian-Japanese war.

For several months Jack has had
working quarters in the Kremlin, and
has a palace in Moscow, where he
keeps up great state and parades his
four Christian wives on Sunday in
gilded carriages. The orthodox com-
munist bitterly criticize Jack and his
ways, and accuse him of having ac-
cumulated \$500 million rubles (15
million dollars) in six months.

Jack owes his power, says the Rus-
sian Gossips, to his industry, instanc-
ing ways, cunning, and ability to
keep on good terms with different par-
ties.

He is an ardent terms with Lenin,
who calls him "My Colossal," and
takes no important step without con-
sulting him.
The communist leader Jakovlev in-
tely declared, "We have a new Rasputin,
who hypnotizes our new czar."

Buhl News Notes

Marshall Baymiller today secured
some spy visitors from town. This
makes the second time that he has
had this unpleasant duty to perform,
but before they left they had talked
of one of Buhl's citizens in 10th
fortune, and after she was finished he
missed \$5. He overtook the fortune
tellers and recovered his five
"smackers."

Harry Williamson Monday night
was the victim of that "who boozes."
He drank some better whiskey which
nearly cost him his life. In the Buhl
hospital it was doubtful for a long
time if he would recover.

Bob Gagen was again caught drunk
and disorderly by Marshall Baymiller.
This makes Gagen's fourth offense
and when he was caught Chamber-
lain's "Coke Cure" was found to be the
"firewater" that was making him so
happy. He will probably get a stiff
sentence for violating the law so
often.

Mr. Singer, owner of the Buhl bak-
ery and restaurant, quietly alone out
of town leaving behind a string of un-
settled bills. It is alleged, amounting to
a considerable proportion. No trace
of him has been found so far.

Otto Harry, Frank Charlton and J.B.
Pulton returned yesterday from a
fishing excursion in Malad, bringing

home a good sized catch.

BRING THEIR OWN WELCOME

Robin and Dandelion Loved by Children Throughout the World, and Eagerly Looked For.

Someone has said that the dandelion is pre-eminently the children's flower, for it grows all over the world and is known and loved by the little ones of every nation. The robin holds the same place in the affection of the children of this country, its arrival in the spring being eagerly looked for by them. And yet a charming woman asked recently while listening to a song sparrow and a white thrush, "Does a robin sing, too?" Think of all she has lost—at dawn, at twilight and in the summer showers! Poor city dweller.

And that reminds me of an incident in a railroad yard in Michigan. A pile of robins built their nest in a freight car, and just as the brood was hatched the order came to send the car on to Chicago. The yardmen, after consultation, telegraphed the situation to the headquarters, and the order came instantly back to shunt the car till the babies were able to leave the nest. The men at both ends of the line were country boys, without doubt.

Our own particular robins are back in full feather, fat, and full of song as ever. We miss the one who always hopped instead of running, on account of some injury in his youth, and who was here every summer for four years. —Clifford Daily News.

ECUADOR HAS FEW SCHOOLS

Colleges in South American Country Out of All Proportion to Primary Institutions.

If the proportion of whites in the population of a country is to be taken as an indication of its intellectual status, then one might expect to find only a very moderate intellectual achievement from Ecuador. One of the smallest of Andean countries, with its few mountain towns linked with the rest of the world practically not otherwise than through its one important seaport, its entire population is only about 1½ million, and of this number all are Indians and blacks excepting the four hundred thousand of mixed origin and a mere one hundred thousand whites.

At best, the twelve hundred primary schools, with a nominal attendance of eighty thousand, do not begin to account for all the children of school age, and the thirty-four secondary schools have to do with no more than forty-five hundred pupils, all told. Like all Andean countries, however, Ecuador gives preference to all who assume to follow a professional career, and for higher instruction she counts the three universities of Quito, Guayaquil and Cuenca, with six provincial schools of trades and professions.

To Break Him of the Habit. "John," said her husband's wife, "I don't believe you have smoked one of those lovely cigars I gave you at Christmas."

"No, my dear, I haven't," replied his wife's husband. "As a matter of fact, I intend to keep them until our little Willie grows up and wants to learn to smoke."

WHERE 'HUSTLE' IS UNKNOWN

People of the Fiji Islands Have No Use Whatever for the Motto "Do It Now."

In the Fiji Islands physical activity is synonymous with heartlessness, all things being done slowly. Everything there is "malua," that is, no matter what is wanted, or whom it is wanted from, "wait a bit" is the process. There is no use of rushing anywhere, is the islanders' idea.

When the Fijian works, however, he is as indifferent to big as to little tasks. The Indian, small and wiry, who seems too delicate for any task, and is stopped by none, acts as a reinforcement in the south sea labor market, including the Fiji Islands. Labor is borne unevenly, the white man looking on and commanding, while the Indian slinks about and slaves.

All the business and labor of the islands has passed into the hands of the Indian, who is tailor, jeweler, grocer and butcher. Sidney Greulich writes in Harper's Magazine. The Indian works the plantations and the factories, and is gradually buying up land. Meanwhile the Fijian idles, happy if he can add a shilling, an old vest, or a torn pair of trousers to his possessions.

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts if Suffer from Urinary Disorders.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative passages clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

Beat Him to It.

The company had been marching for two solid miles without a rest and Recruit Sullivan, holding the exalted rank of No. 8 in the rear rank, first squad, had about come to the limit of his endurance. Finally, just as he was about to give up the ghost and drop, the captain gave the command, "Company, halt."

"By the lord, captain," groaned Sullivan, as he eased off his pack, "you took the very words out of me mouth."

MODERN TRADING POSTS.

Old memories are stirred by the announcement that the Hudson's Bay company is building a \$5,000,000 department store in Winnipeg. The store in the heart of the retail shopping district will stand on Portage avenue. That avenue itself is richly reminiscent of frontier life.

It is a far cry from the little trading post of olden days, and the portage that brought Indians to it with their season's catch of skins, to modern department stores and magnificent business thoroughfares. Yet it is a matter of comparatively few years.

The Hudson's Bay company—a name full of romance—already has 11 department stores in Western Canada, the finest of them in Calgary, Vancouver and Victoria, and all developments from its primitive trade outposts in the wilderness.

The company is now willing to farm settlers the last of its big land holdings, amounting to 3,000,000 acres, in Manitoba, Saskatchewan and Alberta, and will confine itself in the future to its mercantile business, with its far trade little more than a branch of its general department store business.

So there is no more "frontier" in Canada, either. The continent is all won to civilization. It is a great conquest, full of blessings for two great nations; but along with the satisfaction that comes with it there are inevitable regrets.

BRIGHT TWIN FALLS BOY DIES IN SALT LAKE CITY

W. A. Jacobs last night received word announcing the death of his son, Morton Jacobs, aged 14, in Salt Lake City yesterday evening. Mrs. Jacobs was in Salt Lake city at the time of the boy's death.

One of the brightest boys of Twin Falls, with a pleasing personality, Morton Jacobs was the friendship of the entire community and there will be general regret at his sudden taking.

A week ago Mr. Jacobs took the lad to Holy Cross hospital in Salt Lake City for treatment for heart trouble. Yesterday Mr. Jacobs returned to Twin Falls, leaving the little fellow feeling cheerful. The news of his death was, therefore, a distinct shock to him; as it will be to the community and especially the churchward.

The funeral will be held next Tuesday afternoon at 3 o'clock at St. Ann's Roman Catholic church, Salt Lake City.

RECRUITING OFFICERS ARE HIGHLY COMMENDED

A telegram was received yesterday that the local army recruiting office from Col. E. V. Smith, inspector in charge of the territory, commending the local officers for their loyal spirit shown in the special drive put on last week.

In his message, Col. Smith said that he had, especially commended this branch to the headquarters at Washington, D. C., and asked to keep up the good work in the future.

STAMP MEASURING THE RACING YACHTS

NEW YORK, July 7.—Sir Thomas Lipton's Shamrock IV, challenger for the America's cup, and Resolute, defending craft of the New York Yacht club, were hauled out of the water in Brooklyn today for measurement in anticipation of the international races off Sandy Hook beginning Thursday, July 15.

The ships are being measured by Professor Harold W. Webb of Columbia university and a corps of assistants.

Measuring the cup yachts is a difficult proposition, as the rule this year requires that the draft be weighed for displacement. It will require at least four separate measurements being drawn off on each craft. At the rate of progress made today, it is doubtful whether the work will be finished before Saturday.

It is generally believed that Shamrock is the larger craft and will have to give at least six minutes to the American defender.

OUTBURSTS OF EVERETT TRUE

SCOREBOARD IS HIS DIAMOND

Most Hopes of Fans Is the One Who Can Enjoy Game, Without Seeing It.

We never see him at the game, not even in the bleachers. He stands before a checkered frame with scores of fellow creatures. He cannot hear the crack of bat or see the rival flaggers, but yet he visions all of that as on the curb he lingers.

He cannot hear the "batters" cheer or hear in wild delirium, nor can he raise a cry of "thief" when pounced at some decision. He cannot watch a charged pitcher, his diamond gods vanquished, he cannot start a din to get the other twister rattled.

But yet he groans or whoops with joy, looks glum or starts to grin, when now and then the office boy chokes up the latest hitting. The hard discharges before his view as do the stroke and alley and fancy speeds him quickly to that dear old Italian valley.

In fancy he is with the hits that perch upon the railing, with "smashes" and assorted words the robber "umps" assailing, and though the scoreboard's potent dope portrays a sad disaster, he adies around in dogged hope his heroes yet will master.

Most anyone can be a fan who owns a season ticket; it takes another sort of man to be a scoreboard prophet. He swarms around the boards in packs, he is not of diamonds. If he were, he would vanish—Carlton, Pritchett in the Seattle Post-Intelligencer.

LAND WAITS ON RECLAMATION

Water and Modern Methods Will Make the Desert of Turkestan Blemish Like a Garden.

Turkestan is, of course, primarily agricultural country, and cotton, the major crop. The other industries still await development. There is a tremendous field for the cultivation of vineyards and rice and other cereals. At the same time, the development of agriculture will greatly stimulate the sheep-raising industry, which is now in the hands of primitive nomads, untrained in modern methods. The fruit industry awaits the guiding hand of modern science. With the help of California specialists, Turkestan could transform her vast wastes into a garden. There is at present only one factory for fruit preserving. Similarly, the fish tanning in the lakes and rivers need only the introduction of modern industry to place them on the foot markets of the world.

The silk industry, if properly organized, would easily become one of the most important in the world. The mountains of Turkestan are rich in unexploited oil, coal, iron, copper, and other minerals and precious stones and metals await development.

There is an old legend in Turkestan that the Eden of the first man was placed in the valley of Fergana and that for his sin Allah hid a curse upon the country and transformed it into desert. The undraining touch of water restores the desert to richness and fertility, surpassing all legends. Who will build Eden again?

Domestic Book.

Domestic Book, or Domestic Book, is the ancient record of the survey of most of the lands of England made by order of William the Conqueror and then for his son Alfred the Great under the name of Domesday. It consists of two volumes, a large folio and a quarto, and gives the name of every proprietor of land

and the extent of his possessions. At of England, except Northumberland, Durham, part of Cumberland and part of Westmorland, was included in the survey. The Domesday Book was formerly kept in the chapter house of Westminster, but is now in the public record office.

Taxes were levied by this Book in 1085, when a more accurate survey was published by national cost in 1783, in two folio volumes. Two supplementary volumes were published in 1810.

Where Life Is Longest.

Which is the healthiest place in the world? It is presumably not here, but we have to go to the unlikely neighborhood of the Arctic to find it. In the last volume report from the Falkland Islands the death rate for 1917 and 1918 was 5.23 per 1,000. During ten years the death rate in England and Wales did not drop below 15.3, and was as high as 17.4.

Yet the climate of the Falkland Islands is vigorous and the country is more bleak and barren than the Shetlands. High winds blow almost constantly, but there is no scarcity of sunshine. To those, Nature's two great differentials, is probably due the longevity of the sparse population. —Bandon Times.

Measuring Colors.

An English scientist has, according to Popular Mechanics Magazine, worked out a method of taking exact measurement of color. Black, white and gray are photometrically compared with standard white, and the composition expressed in percentage of black or white. A color, such as red, is compared with a white surface in a plate red light. If the red appears bluish, stand white, and the composition expressed in percentage of black or white. RELAY TOO MUCH ON MACHINES

Writer Laments the Lack of Personal Responsibility Discerned Among the World's Workmen.

Writing in the Scientific Monthly on the value of handicraft in the production of wounded soldiers, Capt. Frank A. Vane of the Sanitary Corps, U. S. A., says:

"It is a great defect of modern society that it depends too much on machinery. Everything we touch is machine-made. The common habit in particular is to rely ever so far on anything but machine-made objects. He begins his life in a machine-made world, eats canned food from a machine-made can with a stamped steel knife and spoon, dies in the hospital in a machine-made bed, is buried with a machine-made coffin, and marked with a machine-made tombstone. When such a man once makes with his own hands a good basket or leather pocketbook, he begins to realize the value of honest craftsmanship—the place of personal responsibility in the day's labor. This is a most fundamental element in human psychology now largely lost in a mechanical world. These objects are made by machinery, not by hand. The men only feed the machines and are themselves controlled by another social machine called a labor union."

BEDSTEADS THAT SAVE SPACE

Three-story Sleeping Places Are the Latest Idea to Be Placed on the Market.

Two-story beds, that is to say, beds containing two beds played one above the other, have been in use for years, but something rather novel in this line is the three-story bed, containing three beds, one above another, which was placed upon the market not so long ago.

These bedsteads, which are made of iron, and so constructed that they can be knocked down to occupy comparatively small space for convenience in handling in shipment and transportation, the three-story bed containing five parts, the head and foot sections and the three beds, each bed section having a wire mattress permanently attached to the side and end pieces.

At the ends of each mattress frame are pins that fit into slots placed at suitable heights up the head and foot pieces. To set up a two or three-story bed one simply stands up the head and foot pieces and drops the pins on the mattress frames.

There is the bedstead with its wire springs in each tier ready to receive the mattresses.

Bedsteads of this sort are intended for camp apartments, residences or wherever the floor space is limited.

TOKEN OF THEIR GOOD WILL

Soviet Government Made Present of Entire Train to Americans Whom They Expelled.

When the soviet government took control in the Ukraine, writes French Strangler in the World's Work, the workmen at Kyshtin organized their strike. They united on the American staff at the mine and they were sorry, but a new day had dawned, in which the workers would be able to own and operate everything themselves. Regrettably, because they feared them, they would have to send the American friends away. The day of their departure arrived and the workmen and their wives and children escorted the staff, as a guard of honor, to a special train which had been sent to the mine and they were sorry, but a new day had dawned, in which the workers would be able to own and operate everything themselves. Market News

Grain

CHICAGO, July 7.—Corn scored a material advance in price today, owing chiefly to belief that the reaction was due after the recent big break. Galena, however, was not held. The close was unsettled, 7-8c not lower to 3-8c advance, with September \$1.60 3-8 to \$1.60 1-2 and December \$1.45 5-8 to \$1.45 2-4. Oats finished 1-8c off to 3-8c up, and provisions varying from 37c decline to a rise of 10 cents. Bulls in the corn market made much of the fact that in some cases the shrinkage of prices had amounted to nearly 20 cents a bushel as compared with last week's top figures. Furthermore, demand was stimulated by assertions that this week would see the end of liberal receipts. The reaction with which offerings were absorbed gave additional impetus to the uptick in values. Near the end of the day, however, the market had an overbought appearance. Efforts to realize profits on newly acquired holdings followed, and during the last 30 minutes of trading all the advances were virtually wiped out, with December closing at 1-2c to 1-8c net loss. Historical crop estimates counted somewhat in the overcoming strength that oats developed in sympathy with corn. Provisions were buoyed for the most part by the action of grain. Packers bought to a moderate extent.

On a Change of Menu.
His name is Jimmy, and he is classed as a bad boy in his western home. Not really bad, perhaps—mostly spoiled. Among other bad habits he has picked up that of excessive profanity. Last week his father shipped him to the home of a well-to-do friend here in the hope that some of the rougher edges might be rubbed off.
"Jimmy," said his father, "has always had his meals served in the old-fashioned way, with everything on the table at once. But his first dinner in the city mansion happened to be of a formal sort. As the meal progressed Jimmy grew redder and redder. Finally he burst out in a flame of indignation.
"I've eaten your soup without bread," said he, "and your bread without butter, but I'll be damned if I'll eat your potatoes without gravy!"—New York Correspondence Kansas City Star.

Doing Away With Exertion.
"Dad Yaw," that runs the store at the crossroads, is an easy-going fellow," related a citizen of Sandy Spring, "but he met his match either day when I was there, settling around. But he stretched out on the counter, half asleep, with a bolt of cotton under his head, when he came a big fat drummer that he was sorry acquainted with. 'Well,' said he, 'I'll be a drummer. That's what I do.' Jerry grumbled and said, 'Say, can't you just as well come around some time when I'm standing up?' 'Not necessary,' says the drummer, 'I've got a little proposition in plug tobacco. Lay over, and I'll while you to it.'"—San Francisco Argonaut.

The Diamond Trade.
Considerable activity has prevailed in the diamond trade in British Guiana within the last few months, and prices have advanced to a high level here, therefore, unknown, states Consul C. C. Mann in his formal report. Exports are being dispatched to the diamond fields in the interior by those interested in the business in Georgetown. It is currently reported that the English market is eager to absorb any quantity of stones, large or small, but that they are being bought not only for England but also for American markets regardless of present exceptionally high prices.

A Horrid Threat.
Amateur Gardener (Gravely)—Look here, sir! That dog of yours comes in here every day and digs up my flower beds, and I want you to put a stop to it!
His Neighbor—Suppose I don't? What then?
"I'll plant so many flowers that your wretched dog will wear himself to a skeleton trying to keep them dug up!"—London Answers.
