PLAN INCREASE OF COAL CAR SERVICE

Efforts Being Made to Prevent Possibility of Coal famine This Winter.

By the Associated Press.
NEW YORK, July 16.—Plans for increased coal service to Lake Erie ports—the gateways of the north—to prevent any possibility of the winter coal famine were agreed upon at a conference here today between the Association of Railway Executives and the National Coal association, the latter representing the bituminous industry. The plan will be submitted Monday to the Interstate commerce commission for approval and the issuance of necessary orders to put it in effect on all railroads.

Details of the plan will not be made public until after they have been approved by the interstate commerce commission. A statement from the coal operators said "adaptation of the plan by the interstate commerce commission means an increased supply, with sufficient direction of shipments to insure an adequate coal inflow to Lake Erie ports for transshipment to the northwest and Canada."

GOOD POKER PLAYER.
PARIS, July 16.—Many newspaper correspondents in Paris who have had occasion to meet the late Edward Paolina, formerly Provisional President of Albania, who was murdered here recently, are inclined to think that he was not such a bad sports Rustem Aven, his youthful assassin, seems to think. A French newspaper correspondent who knew him in Saloniki says that he was a wonderful poker player.

On one occasion the Albanian dictator had lost all the available cash he happened to have with him but continued playing "on honor" and won quite a nice pot but he refused to make in the money saying: "Keep your money, old man, when I play on paper, I simply play for the sport of it, and it does not count. We are quits."

TWIN FALLS LOSES GAME WITH BUHL

Many "Bobbies" Made by Visitors—Score At End of Conflict 10 to 5.

BUHL, Idaho, July 16.—Twin Falls players were the losers today in a baseball game played here against Buhl. The score stood 10 to 5 at the end of the conflict. Twin Falls played a loose game making many "bobbies" in the field, giving Buhl the long end of the score. Oliver, pitcher for Twin Falls, tossed a good game but his support of the game holding Twin Falls down with a few scattered hits. Buhl for Twin Falls knocked the pull over the fence for a eleven trip. "Red" is trying to collect \$15 from a local hardware store as the ball sailed over the 115 side. Turner of Buhl duplicated this trip in the fifth inning driving the sphere over the right field fence scoring the man on base. Whitehead of Buhl took the mound the first part of the sixth inning finishing the game with few hits checked against him.

ROBINSON'S

BY WAY OF REMINDER

To those who have been coming here and getting the benefits of the closing out prices, and to those who possibly may not have been coming here to trade I would call attention to the splendid bargains that are still to be had.

Discounts and mark downs are big helps if the prices are already reasonable, but they don't help if prices were already too high.

Dependable merchandise has always been sold here at reasonable prices and when you stop to think that you can buy here now at a fifth, a quarter, a third off from former prices you then begin to realize just what this big closing out sale means to thrifty buyers.

But when you read the prices here quoted you will understand just what a really big saving there is to be made by buying here at this time.

WHY CAN?

Canning season is not really a necessity. It is only a state of mind, rooted in tradition, and fostered by profiteers.

Where markets are inaccessible, or the garden provides more food than the family can consume, canning may be wise. But for the woman with access to city markets where the refrigerator car, the green house and rapid transit keep everything in season all the time, home canning is both of doubtful practicality and expensive. It is a relic of the past, when variety of diet could only be obtained by a supply of home-canned goods, which now may be safely left behind, along with hanging the milk and butter in the well.

All of which holds true on one condition—that there is no profiteering in the canned goods purchasable at the corner grocery. The canning factories are able to put up fruits, vegetables, jams, jellies, etc., more cheaply than the housewife. But when everybody connected with the professional canning business insists on taking undue profit, the only defense of the thrifty housewife is to go counter to economic evolution and do it herself, just as she used to do it from sheer necessity.

This is the only valid argument in favor of home canning in general, though some kinds of canned goods are admittedly of better quality when put up by a skilled housewife. It is a potent argument, however, in the present state of things. And millions of American women will therefore proceed, in spite of expensive materials, to do a lot of canning this season, uncomfortably and resentfully, as the only means at their disposal of getting canned goods at somewhere near a fair price.

SOBRIETY AND SCRUBBING.

The relation of prohibition to the scrubbing pail has not been sufficiently considered. There is an instructive connection between the two.

The Massachusetts state department of labor reports that it is very hard to get enough scrub-women in Boston to keep the office buildings clean. The old ones have been quitting their jobs lately, and new ones do not appear to take their places.

The women explain that they used to be forced to do such work to help support their families, because a good deal of the men's wages went for drink; but now, when there is no drink obtainable, there is plenty of money to go around. High wages and high cost of living are about equal; it is the liquor bill, they say, that makes the difference.

Has not this fact something to do with the "female help" problem in general? It appears nearly everywhere that as men stop spending money for liquor, the women are inclined to stop going out to work. In this same connection, it appears that children show a tendency to keep on going to school instead of quitting as soon as they are old enough to work.

And what is to be done now about those dirty office floors? Oh, maybe some genius, impelled by the mother of invention, will devise some mechanical way of keeping them clean, and save money by the process.

"Is Germany truly repentant for her sins?" asks a magazine writer. This is the silly season.

Americans may not be producing the goods, but they're certainly producing the price.

Don't get so wrapped up in politics that all the bugs and worms in the neighborhood hold a convention in your vegetable garden.

The United States government is forced to pay 6 per cent interest for money, and yet a lot of people keep right on throwing it away as if it were not worth anything.

U. S. COMMERCE IN THE PHILIPPINE ISLANDS.

An American Chamber of Commerce has been established recently in the Philippines. This is a purely American body organized for the purpose of developing and protecting American trade in the islands and the Far East, providing for convenient exchange of ideas, promoting the resources of the islands and cultivating friendly relations between Americans and orientals. Its membership is limited to American citizens of unqualified loyalty to the United States.

The establishment of this organization, says the United States trade commissioner for the Far East, is a very important forward step in our international commercial relations. In the past Americans have paid too little attention to the resources of the Philippines and have ignored their importance as a source of supply for some of our most needed tropical products. Coconut oil, hemp and rubber are among the most valuable materials which the Philippines have to offer us. But there are other possibilities which the short-sightedness of American business has failed to note in the past. The present annual sugar production is only 300,000 tons. It is perfectly possible, with the right kind of financial support and an adequate labor supply, to increase this output to 600,000 tons; and experts say that the Philippine production might even reach 1,000,000 tons—the present Cuban output.

Tapioea, sago, gums, tanbarks, gutta percha, camphor, cinnamon, cacao and other products are to be had in abundance simply for the application of enterprise and capital. This country has done much for Philippine education, but it has remained indifferent to the economic development of the islands.

The establishment of the American Chamber of Commerce should mark the beginning of a new period, not of selfish exploitation of Philippine resources by American business, but of co-operation and mutual benefit through the development of that region's natural resources.

HUSBANDING WOMAN'S POWER.

Mrs. O. H. P. Belmont, the New York suffrage leader, is out with a fiery appeal to women to "husband their new power."

"I ask you, women," she says, "are you going to be content to become servants of the two old parties in our country, to try to bolster up their system of corruption? Are you able to recognize fraud, deception, stupidity and dishonesty? If you are, you will not be found allied with a system which is decayed." "Put a high price on your freedom! Stand aside! Don't vote! Keep away from the democratic and the republican parties. You have a new power which you can use for the benefit of your country."

After "nineteen centuries of man's government," she declares, the world is still in the grip of pestilence, poverty, hunger, discontent, corruption and tyranny. Man has not succeeded in regulating it. Masculine rule has not resulted in the betterment of the human race. So:

"Pull yourselves together. Don't vote! Your vote now means simply strengthening a power which is not with the human race."

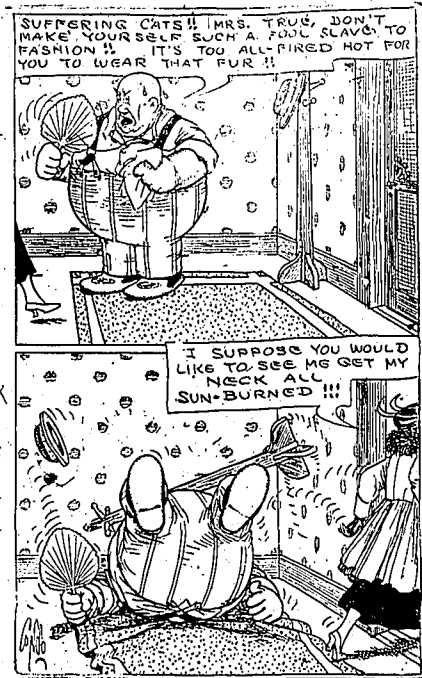

Men of open minds may read this in a spirit of humility. Man, they will admit, in 19 centuries or 20 centuries, has not solved all the world's political, economic and social problems. Things are still messed up pretty badly, and there is much to be done before the millennium arrives. But what is Mrs. Belmont driving at?

Simply not voting will never change the world. The more women stay away from the ballot box, the more republican and democratic males can continue their stupid and nefarious work.

As Mrs. Belmont going to take all those women and organize them into a new party, to sweep the country and bring in an era of feminine rule? If that is the idea, let her say so, in fairness, so that poor males will have a sporting chance to get together and defend themselves against the wrath to come. What chance will men have if women take the reins and set about saving the race in this militant mood?

Prices in June were higher than ever. Probably this is because, since the supreme court upheld the Volstead law, prices are afraid to take a drop.

OUTBURSTS OF EVERETT TRUE

HARDING SAYS PARTY IS MISREPRESENTED

Alleges There Is Perverted Effort to Make Party Appear Opposed to Woman Suffrage.

WASHINGTON, July 15.—Senator Harding in a statement released what he characterized as "misrepresentation" of the republican party's attitude toward woman suffrage and said to that party belonged the credit for that reform over having a chance for success. He declared, however, efforts to make political capital out of the situation and said he hoped ratification would be accomplished before November no matter whether a democratic or republican state was the thirty-sixth to approve the suffrage amendment.

"Even if a democratic state shall finish the business, the record will still show that 25 republican and 2 democratic states made up the roll of honor," Senator Harding said. "That is good enough for us." His patience is sorely tested sometimes over the persistent misrepresentation of the republican party, its state government and legislatures, in this matter of woman suffrage. Whether it emanates from mere mischief-makers or from parties desiring to cannot help resenting it. We must insist on a fair treatment of the party without whose persistent support the great reform would never have had a chance of success.

"A republican senate and a republican house submitted the constitutional amendment for equal suffrage. A democratic senate had previously refused to submit it. Twenty-nine republicans and six democratic states have ratified it. "The democratic states have rejected the ratification resolution and now, Louisiana, has just refused to give it consideration. One republican state—just one, Delaware—has rejected it."

"The first eight states to ratify were republican states. "When, in 1919, the republican senate finally mustered the necessary majority to submit the amendment, there were 25 republican and only 20 democratic senators voting for it, but there were 17 democratic and only 8 republican senators voting against it."

"Whether in the senate or house, concrete or no legislation, the record shows that the republicans have been the persistent and effective supporters of this measure. In such circumstances—circumstances that are thoroughly familiar to everybody—it is simply amazing that democratic managers should now have the audacity to be assuming that they need the friends on whom the cause must depend if it is to succeed."

"For myself and for the republican party, I earnestly desire that ratification may be accomplished in time to give the whole body of American women the ballot next November. I am therefore willing to make no partisan advantage out of the situation. I hope there will be ratification and I do not care if the whether it is secured through a republican or democratic state. I will rejoice if North Carolina will do it, or if Tennessee will do it, just as I would rejoice if a republican state did it. "There will be glory enough for the republican party no matter whether the thirty-sixth state is republican or

not. If any word of mine could possibly be misinterpreted with any reputation in the North Carolina legislature, or in the Tennessee legislature, that word would be 'vote for ratification and don't worry about who gets the credit of putting it over.'"

ANOTHER NEW PARTY
CHICAGO, July 16.—Another political movement, the Liberal party, was launched today by former members of the committee of 48, who bolted from that organization. Judge Arthur G. Wray, mayor of York, Neb., and Allen McCurdy, keynote speaker at the Forty-eight convention, head of the new party.

SOCIETY THIRD DIVISION.
CHICAGO, July 16.—The Society of the Third Division was organized today at a reunion of members of the unit. Capt. Harold Flecken, of Chicago was elected president. Maj. Gen. J. T. Dickman and Maj. Gen. Robert L. Howe were honorary presidents for life.

CONSIDERED NINE PLANKS TOO STRONG

Forty-Eighters Unable to Stand Decisions of Principles Adopted by Labor-Farmer Group.

CHICAGO, July 16.—The platform as adopted by the labor-farmer group, and which was considered too radical by the forty-eighters, contains nine planks, summarized as follows:

1.—Americanization; 2.—demands the right of free speech, amnesty for political prisoners, repeal of espionage, sedition and "criminal syndicates" laws, referendum and recall for federal judges and equal suffrage for women.

2.—Demands withdrawal of the United States from participation under the Versailles treaty in the re-

LOCAL MEN GREET SENATE COMMITTEE

Chamber of Commerce Selects Committee to Accompany Senators On Tour of Inspection.

A committee of 10 local business and professional men, selected by the chamber of commerce last evening to join the congressional investigating committee, on its tour through the Twin Falls irrigation district. The party made the trip to Shoshone in automobiles, where they took "a trail" to Nampa.

leaving their automobiles in Shoshone. The purpose of the trip is to give the federal committee a proper sort of vision of the most important reclamation system in Idaho. At Nampa the local committee will meet the congressional and accompany them Sunday on a trip to Buhl and then back to American Falls pointing out the features of the district throughout the tour. The local committee will then return to Shoshone for their cars and drive back to Twin Falls.

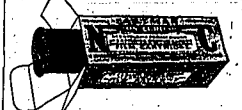

The local committee, which was chosen to make the trip consists of M. J. Sweetley, J. S. Keel, D. D. Alford, H. H. Stevenson, H. C. Beach, E. A. Walters, A. J. Peavey, J. R. Rothwell, J. S. Russell and Roy A. Reed. Mr. Stevenson, however, was unable to go with the committee.

Dr. and Mrs. A. P. McChusky will leave Sunday for an extended trip through Yellowstone park. They will be accompanied by their guests, Misses Amanda Belser and Helen Almond.

The city will place larger water pipes along Seventh avenue, between Main street and Locust. This action was brought about when Mr. H. W. Alfred, chairman of the building committee of the construction of the new high school, and J. W. Smith, superintendent of the work, appeared to the council for a new water main for this section stating the present water supply was inadequate for building purposes. The request was granted by councilmen. The appropriation will be taken from the school treasury and when the taxes are received by the city the school board will be reimbursed.

The council made the decision that the police judge is entitled to an office in the new city hall. Police Judge Washburne previous to this time had been holding court in his home and recently a case appeared that required a number of witnesses which could not be accommodated.
