**FREIGHT CAR CONTROL.**  
The "priority rule" which gives  
the railroads the right of way is begin-  
ning to show results. There is still  
going to be a fuel shortage in some  
parts of the country next winter, be-  
cause it will be impossible under the  
present conditions to move an  
adequate supply before the bad  
weather sets in, but it will be far less  
serious than it would have been with-  
out this beneficent rule made of the  
"big boys."

The prevalent impression is that  
this is only a temporary revival of a  
war-time power, which will pass with  
the present emergency. Fortunately,  
the representatives of large shippers  
of interests points out, this is not so.  
By the new railroad law the Inter-  
state Commerce Commission is given

control of railroad service, along with  
other agencies. Thus, it is estab-  
lished, governmental control of cars will  
be a permanent feature even under  
private operation.  
This power, if wisely handled, will do  
more than merely give relief in the  
emergency; it is the present one to  
expel some particular commodity.  
It should also remove one of the  
oldest causes of complaint  
against the carriers, their alleged dis-  
crimination in car service. Discri-  
mination in service is just as bad as dis-  
crimination in rates, and is at last lo-  
cally recognized as so. Accordingly,  
any wronged shipper now has re-  
course. A railroad can no longer force  
or compel shippers at the expense of  
others, by giving or withholding cars  
at its pleasure.

Railroads may welcome this exten-  
sion of federal authority, for when  
they have discriminated they have  
probably done it as much through  
careless favoritism as through  
conscious power. At any rate, the pub-  
lic is protected. In this, as in many  
other matters of regulation, the much  
abused "Government" seems to be  
the only power big and broad enough  
to bring order and justice into the  
transportation business.

**SELL INHIBITIOUS DRUGS.**

**COPENHAGEN.**—The existence of  
many establishments for the sale of  
habit-forming drugs has been re-  
vealed through the denials of the  
editor of an obscure weekly  
journal. The authorities have found  
many places frequented by foreigners  
in the city, where large quantities of  
the drugs are sold. The drugs are said to have  
been smuggled in from Germany.

## ROCK CREEK BRIDGE OPEN FOR TRAFFIC

D. J. Pierce Is First to Cross With  
Load of Wheat—Structure Is  
Good One.

The Rock Creek bridge on Shoshone street was opened to traffic  
yesterday, D. J. Pierce, who lives  
1-4 miles south of the city, being  
the first to cross with a load. This  
load consisted of wheat, taken from  
15 acres with a yield of over 50 bush-  
els to the acre.

The new bridge was nearly ready  
for traffic Wednesday when H. C.  
Murray, who was in charge of the  
construction, was allowed to return  
to his home in Billings. It is, Mr.  
Murray reported, capable of carrying  
a load of 18 tons.

**POLICE COURT.**  
Dr. H. N. Lott was arraigned be-  
fore Police Judge W. A. Minnick on  
the charge of parking his car too  
close to a fire hydrant. He was fin-  
ed \$2.50.

Matt Cloven was fined \$2.50 in po-  
lice court yesterday for parking his  
car too close to a fire hydrant.

Complaints have been sworn out in  
the police court against J. W. Shan-  
ley and C. E. Munson. The former  
is charged with exceeding the speed  
limit, and the latter is charged with  
having broken parking regulations on  
Second avenue north.

## KEEP UP PACE.

**SAN FRANCISCO.**—The Kinsey  
brothers, Howard and Robert, of San  
Francisco, who last year ranked fifth  
in doubles in tennis in the United  
States, are continuing their winning  
streak this year in singles. Last year  
Robert Kinsey ranked eleventh in sin-  
gles and Howard ranked twenty-  
fourth.

This year the brothers decided to  
play single and attempt to win cham-  
pionships along the entire Pacific  
coast. Robert went south and won the  
Southern California championships in  
men's singles and the championships  
in the men's singles at Del Monte,  
Cal., in a handicap tournament.

Howard picked the Northwest as  
the territory he desired to conquer  
and at Tacoma, he won the Pacific  
Northwest championships in men's  
singles and, playing with a Tacoma  
racket expert, won the men's  
doubles.

The brothers last year held the  
California state and Pacific coast  
championships in men's doubles. They  
were runners-up this year in the San  
Francisco city championships in the  
men's doubles, losing to C. J. Griffin  
and Roland Roberts, now playing in  
the East.

## GOVERNMENT CONTROL ABOLISHED

**VIENNA.**—Austria has abolished  
government control of her domestic  
grain supply after a bitter political  
fight in which the advanced parties  
were defeated by an overwhelming  
vote of the combined Christian So-  
cial-Groeser Deutscher parties. Gov-

ernment control, it was alleged, was  
the cause of the present shortage.  
While the grain of Austria is negli-  
gible in the world's supply and but  
a fraction of her own need, passage  
of the decontrol act is interesting as  
a popular demonstration of the il-  
lusion of demarkation between the two  
great political factions.

The economic experts of the social-  
ist wind declared the decontrol act a  
necessary measure in favor of the  
agrarian element and predicted that  
bread prices would rise because of it.  
Advocates of the measure, on the  
other hand, insisted that in spite of  
the fact that Austria is a food-  
stuffs from the government regulation  
and sold to the "left hand"  
trade, which in turn profited by the  
risk they undertook and balanced  
prices. These men say that decontrol  
means normal adjustment of prices  
to demand and the sale of bread-  
stuffs being legalized the farmer and  
miller will again enter open compe-  
tition in a fair market.

The decontrol act brought the resig-  
nation of Food Controller Lowen-  
feldt-Russ. Under his leadership the  
social democrats fought the bill stage  
by stage. In its final shape, the bill  
provided that when the individual  
farmer has given up three-tenths of  
his crop the rest of it is freed. The  
bill also abolishes milling permits.

## LOSERS SECOND PLACE.

**SALT LAKE CITY.**—Utah has lost  
second place in the increase of na-  
tional guard forces and the distinction  
has fallen to Porto Rico, which in  
July showed an increase of 1,376  
men out of an allotment of 1,541.  
Utah on July 31 had an enlistment  
of 570 out of an allotment of 713, and  
is relegated to third place. Wyoming  
is in first place with 642 men en-  
listed out of an allotment of 669.  
Guard officials here are hopeful,  
however, that Utah may again get  
back to second place as a hospital  
unit is to be recruited in the near  
future.

## ENLIST IN NAVY.

Ralph Wright, Cadmus and Rose  
Mann, Hotel, whose homes are in  
Twin Falls, Idaho, were enlisted in  
the U. S. naval service at Salt Lake  
city on August 19, 1920, and  
were transferred to the United States  
marine station, San Francisco, Cal.,  
for instruction.

she was 72. They will be mar-  
ried tomorrow, they said.

## DANGER IS NOT OVER.

**LONDON.**—The council of action of  
the British labor party after a long  
discussion today issued a new man-  
ifesto to the workers of Great Britain  
declaring that the danger of war was  
not over.  
"This," the manifesto said, "is not  
the time to be deceived by seeming

peace words. They show not the pro-  
mising assurance of terms of which  
England will make peace with Rus-  
sia."  
"Why is the position with regard  
to the adventure 'Wanted' so ambi-  
guous?"  
The manifesto demands a full  
peace together with a resumption of  
trading with Russia and exhorts the  
workers not to relax their efforts in  
this direction.

## Sinn Fein Organizing As Republican Government

DUBLIN.—Sinn Fein is organizing under the name of the Irish republican government, a supreme court of appeal which when set up will complete the system of tribunals so successful in handling minor disputes for the past months. The highest court of the British government in Ireland has virtually ceased to function because appeals have been withdrawn and many litigants decline to recognize that it has any authority whatever.

Arthur Griffith, the leader of Sinn Fein in Ireland, told the Associated Press that it had not been decided whether to have three or five judges on the supreme bench nor had any of the judges been selected.

"Our lower courts have been successful in checking the wave of crime that was sweeping over Ireland a few months ago," said Mr. Griffith.

"Whatever may be said about the republican government by our enemies it must be and is admitted that petty crime has been on the whole all over the country since our courts began to function. Naturally many cases both criminal and civil have been appealed but we have no court higher than a district court to which we may take them. Appeal cases are piling up and the need of a supreme court is increasing every day.

"We do not anticipate any more trouble with the military and police in holding meetings of the supreme court than we have had in connection with the lower ones. Now and then an armed force prevents their being held but in that case the court meets again somewhere else. In no instance have the troops and police permanently prevented cases from being tried."

The plan for forestalling British judges and courts is very simple but quite effective. When court is called then summoned for jury service fall to appear. Fines up to \$500 have been imposed on absentees. If the officers arrest them and imprison them they go on hunger strike and subsequently are released, hence, British authorities have ceased to use imprisonment as a weapon and their courts are rapidly ceasing to function.

All officers of the Sinn Fein parish and district courts are under the jurisdiction of the department of justice of the Irish republic.

Each litigant, in a civil action, agrees to abide by the decision and not to take up the case in an "appeal" which when set up will complete the system of tribunals so successful in handling minor disputes for the past months. submitted to the voters, 48 in the republican primaries and 48 in the democratic. Candidates of the Non-partisan league have filed for all offices in the democratic primaries. Besides congressmen and three justices of the supreme court, candidates are to be nominated for governor, lieutenant governor, attorney general, secretary of state, state treasurer, state auditor, railroad commissioner and state superintendent of public instruction.

### BLACKMAILERS FRUSTRATED

CHICAGO, Aug. 16.—Victims of blackmailers to obtain \$2,000 from Mrs. Mary Coleman, widow of Edward J. Coleman, Chicago labor leader who was murdered last April, were frustrated through the arrest of a man and woman, the latter colored.

Demands for the \$2,000, it was stated, followed the announcement that Coleman had his entire estate, more than \$75,000, to his widow. To exact the money, police said, the writer of the letter threatened to kidnap the 5-year-old daughter of Mrs. Coleman, to kill the widow, or to blow up her home.

The man, who is 1'70 tall, gave his name as Samuel Newhall, and furnished the police with the name of the negroes. She was booked as Ellen Wesley.

## FREIGHT CAR CONTROL.

The "priority rule" which gives coal cars the right of way in beginning to show results. There is still going to be a fuel shortage in some parts of the country next winter, because it will be impossible under the best imaginable conditions to move an adequate supply before the bad weather sets in, but it will be far less serious than it would have been without this beneficial rule made of the Big Box.

The prevalent impression is that this is only a temporary revival of a war-time power, which will pass with the present emergency. Fortunately, a representative of large shipping interests points out, this is not so. By the new railroad law the Interstate Commerce Commission is given

control of railroad service, along with its other powers. Thus, it is explained, governmental control of cars will be a permanent feature even under private operation.

This power, if wisely handled, will do more than merely give relief in such emergencies as the present one, to expedite some particular commodity. It should also remove one of the chief causes of complaint against the carriers, their alleged discrimination in service as well as in discrimination in rates, and, in fact, by rightly recommending as so. Accordingly, any wronged shipper now has recourse. A railroad can no longer favor or certain shippers at the expense of others, by giving or withholding cars at its pleasure.

Railroads may welcome this extension of federal authority, for when they have discriminated they have probably done it as much through fear of powerful business interests as through favor. At any rate, the public is protected. In this, as in many other matters of regulation, the much abused "government" seems to be the only power big and broad enough to bring order and justice into the transportation business.

## NELA INTRIGUES DRUGS.

COPENHAGEN.—The existence of many establishments for the sale of habit-forming drugs has been revealed through the death, under mysterious circumstances of the dejected editor of an obscure weekly journal. The authorities have found many places frequented by fiends of the city, where large quantities of cocaine and morphine are consumed. The drugs are said to have been smuggled in from Germany.

ROCK CREEK BRIDGE  
OPEN FOR TRAFFIC

D. J. Pierce is First to Cross With Load of Wheat—Structure is Good One.

The Rock Creek bridge on Shoshone street, was opened to traffic yesterday, D. J. Pierce, who lives 1.4 miles south of the city, being the first to cross with a load. This load consisted of wheat, taken from 15 acres with a yield of over 50 bushels to the acre.

The new bridge was nearly ready for traffic Wednesday when D. J. Murray, who was in charge of the construction, was allowed to return to his home in Billings. It is, Mr. Murray reported, capable of carrying a load of 18 tons.

## POLICE COURT.

Dr. H. N. Lott was arraigned before Police Judge W. A. Minnick on the charge of parking his car too close to a fire hydrant. He was fined \$2.50.

Matt Olson was fined \$2.50 in police court yesterday for parking his car too close to a fire hydrant.

Complaints have been sworn out in the police court against J. W. Hunsbury and C. E. Munson. The former is charged with exceeding the speed limit, and the latter is charged with having broken parking regulations on Second avenue north.

## KEEP UP FACE.

SAN FRANCISCO.—The Kinney brothers, Howard and Robert, of San Francisco, who last year ranked fifth in doubles in tennis in the United States, are continuing their winning streak this year in singles. Last year Robert Kinney ranked eleventh in singles and Howard ranked twenty-fourth.

This year the brothers decided to play single and attempt to win championships along the entire Pacific coast. Robert went south and won the Southern California championship in men's singles and the championship in the men's singles at Del Monte, Cal., in a handicap tournament.

Howard played the Northwest on the territory he desired to compete in, and at Tacoma, he won the Pacific Northwest championship in men's singles and, playing with a Tacoma racquet expert, won the men's doubles.

The brothers last year held the California state and Pacific coast championships in men's doubles. They were runnerup this year in the San Francisco city championships in the doubles, losing to C. J. Griffin and Roland Roberts, now playing in the East.

## GOVERNMENT CONTROL ABOLISH

VIENNA.—Austria has abolished government control of her domestic grain supply after a bitter political fight in which the advanced parties were defeated by an overwhelming vote of the combined Christian Social-Groesse Deutsch parties. Gov-

ernment control, it was alleged, was a "farce."

While the grain of Austria is negligible in the world's supply and but a fraction of her own need, passage of the decontrol act is interesting as a popular demonstration of the line of demarcation between the two great allied factions.

The economic experts of the socialist wind declared the decontrol act a reactionary measure in favor of the agrarian element and predicted that bread prices would rise because of it.

Advocates of the measure, on the other hand, insisted that in spite of laws the former withheld his foodstuffs from the government requisition and sold to the "free hand" trade, which in turn profited by the risk they undertook and ballooned prices. These men say that decontrol means normal adjustment of prices to demand and the sale of breadstuffs being legalized the farmer and miller will again enter open competition in a fair market.

The decontrol act brought the resignation of Food controller Lorenzfeld-Russ. Under his leadership the social democrats fought the bill stage by stage. In its final shape the bill provides that when the individual farmer has given up three-fourths of his crop the rest of it is freed. The bill also abolishes milling permits.

## LOSERS SECOND PLACE.

SALT LAKE CITY.—Utah has lost second place in the increase of national guard force and the distinction has fallen to Porto Rico, which in July showed an enlistment of 1,841 men out of an allotment of 1,841. Utah on July 31 had an enlistment of 570 out of an allotment of 775, and is relegated to third place. Wyoming is in first place with 542 men enlisted out of an allotment of 550.

Guard officials here are hopeful, however, that Utah may again get back to second place as a hospital unit is to be recruited in the near future.

## ENLIST IN NAVY.

Ralph Wright Culbert and Howie William Bates, whose homes are in Twin Falls, Idaho, were enlisted in the U. S. naval service at Salt Lake City, Aug. 19, 1932, and were transferred to the United States training station, San Francisco, Cal., for instruction.

## Sinn Fein Organizing As Republican Government

DUBLIN.—Sinn Fein is organizing under the name of the Irish republican government, a supreme court of appeal which when set up will complete the system of tribunals so successful in handling minor disputes for the past months. The highest court of the British government in Ireland has virtually ceased to function because appeals have been withdrawn and many litigants decline to recognize that it has any authority whatever.

Arthur Griffith, the leader of Sinn Fein in Ireland, told the Associated Press that it had not been decided whether to have three or five judges on the supreme bench, nor had any of the judges been selected.

"Our lower courts have been successful in checking the wave of crime that was sweeping over Ireland a few months ago," said Mr. Griffith. "Whatever may be said about the republican government by our enemies it must be and is admitted that petty crime has been on the wane all over the country since our courts began functioning. Neither many cases but criminal and civil have been appealed but we have no court higher than a district court to which we may take them. Appeals cases are piling up and the need of a supreme court is increasing every day."

"We do not anticipate any more trouble with the military and police in holding meetings of the supreme court than we have had in connection with the lower one. Now and then an armed force prevents their being held but in that case the court meets again somewhere else. In no instance have the troops and police permanently prevented cases from being tried."

The plan for forestalling British judges and courts is very simple but quite effective. When court is called men summoned for jury service fail to appear. Fines up to \$500 have been imposed on absentees. If the officers arrest them and imprison them they go on hunger strike and subsequently are released, hence, British authorities have ceased to use imprisonment as a weapon and their courts are rapidly ceasing to function.

All officers of the Sinn Fein parish and district courts are under the jurisdiction of the department of justice of the Irish republic.

### WOMEN IN PRIMARIES.

HELENA, Mont.—One woman in the republican primaries and another in the democratic primaries on August 24 will contest with male aspirants for the respective nominations for seat in congress from the First Montana district, formerly held by Miss Jeannette Rankin, first congresswoman. Mrs. Joanna B. Griggs is running for the republican nomination against a field of three. In the democratic primaries Mrs. H. C. MacDonald is seeking the nomination, also against three men, one of them the incumbent John M. Evans. In the Second Montana district, Representative Carl W. Hildalek is opposed in the republican primaries, while in the democratic primaries two are contesting for the nomination.

Names of three other women will appear on the ballot for the election, which is to nominate party candidates for congressional, state and county offices and district judges. One, Ella Dorothy Lord, is the Non-partisan league aspirant for the democratic nomination for state treasurer. Margaret A. Hannah, also a Non-partisan league candidate, has filed for the democratic nomination for state superintendent of public instruction, to oppose Miss May Trummer, incumbent, who is seeking the republican nomination. No other candidates have filed for the office.

Aside from the county and district judicial nominations, 78 names will be

submitted to the voters, 45 in the republican primaries and 23 in the democratic. Candidates of the Non-partisan league have filed for all offices in the democratic primaries. Besides congressmen and three justices of the state supreme court, candidates are to be nominated for governor, lieutenant governor, attorney general, secretary of state, state treasurer, state auditor, railroad commissioner and state superintendent of public instruction.

### BLACKMAILERS FRUSTRATED

CHICAGO, Aug. 16.—Efforts of blackmailers to obtain \$2,000 from Mrs. Mary Coleman, widow of Edward J. Coleman, Chicago labor leader who was murdered last April, were declared by police today to have been frustrated through the arrest of a man and woman, the latter colored, on demands for the \$2,000. It was stated, following the announcement that Coleman left his entire estate, more than \$75,000, to his widow. To extort the money, police said, the writer of the letter threatened to kidnap the 5-year-old daughter of Mrs. Coleman, to kill the widow, or to blow up her home.

The man, who is a foreigner, gave his name as Samuel McWhorter, and furnished the police with the name of the negroes. She was booked as Ellen Wesley.

### PHILADELPHIA MINT IS DOING BIG BUSINESS

PHILADELPHIA.—The Philadelphia mint turned out 501,000,000 coins in the last fiscal year.

Raymond T. Baker, director of the United States mint, gave out the figures after inspecting the institution. Now die-cutting machines, electric furnaces and carrying devices have been installed within the last year and efficiency methods have been adopted, which greatly increase the output of the mint.

The increase last year was about 25 per cent over 1919. In 1916 a little over a million coins were produced.

Mr. Baker recently returned from San Francisco mint where he is preparing to install improved machinery similar to that in the Philadelphia mint.

"With the recent additions," said Mr. Baker, "the Philadelphia mint is now not only the largest mint in this country but manufactures a larger number of coins than any other mint in the world."

### ENGLAND'S PUBLIC DEBT REACHES GREAT PROPORTION

LONDON.—Great Britain's external debt on March 31 last amounted to 1,277,888,000 pounds, according to a white paper recently published. Of this amount 1,046,774,000 pounds is due to the United States, including some small amounts borrowed from continental countries which have to be paid back in United States dollars.

The various items below are work-out of the amount. Payable in: Pounds. \$1,046,774,000. Canada 73,412,000. Japan 7,170,000. Argentina 19,200,000. Uruguay 5,354,000. Holland 743,000. Spain 2,500,000. Brazil 434,000. Italian Settlements 7,656,000. Mauritius 538,000. To certain allies 112,500,000. 1,277,888,000.

#### SWEDISH EXPEDITION TO UNITED STATES

NEW YORK.—Discovery of the date marking the first appearance of man in the Hudson, Connecticut and St. Lawrence valleys and substantiation of the theory that the glacial period passed because of climatic changes, rather than volcanic disturbances, will be the objects of a Swedish geological expedition headed by Baron Gerard De Geer, which will arrive here August 19.

Baron De Geer, in addition to his reputation as an eminent geological explorer, occupies a position in Sweden as chief of the technical commission of railways. In this capacity he gives advice as to location of rights of way with respect to the solidity and permanency of earth formations.

Shortly after his arrival in this country, Baron De Geer will go to Lake Champlain to take up his geological investigations. From there he will go north and west into Canada, possibly as far as the Rocky mountains, and afterward will return east and begin a detailed study of the Hudson and Connecticut valleys.

In this latter part of his work Baron De Geer will have the co-operation of some of the first ranking American geologists, who have organized a reception committee to meet the Swedish explorer on his arrival. Among these are Harry Fairfield Osborn, president of the American Museum of Natural History; John M. Clarke, director of the New York state geological laboratory; Professor J. B. Woodworth, of Harvard and Dean Frank D. Adams, of McGill university, Toronto.

Discussing the value to railroads of Baron De Geer's past investigations, Axel Granholm, president of the Swedish railways, said that "the investigation of stratified clays is most important if railways would know whether dangers and difficulties of many kinds are to be avoided." American railroads which it is understood will profit most from such investigations here are the New York Central and the Northern Pacific.

The De Geer expedition is being conducted under the auspices of the American-Scandinavian foundation.

#### VISITING IN JAPAN.

TOKIO.—Japan is receiving the first visit of a party of Chinese news-paper men since feeling between two Japanese boycott in China, and the nations became strained. With one visit is welcomed as a sign of an exception all the members of the leged amelioration in the relations party are Canton men, Japan's trade between the two countries.

## ATHLETIC RACE IS SAID TO BE CLOSE

Hamilton, An American and Loveland, A Norwegian Are Running Neck and Neck At Antwerp.

ANTWERP, Aug. 21.—The title of the world's new all-round athlete lies tonight between Brutus K. Hamilton, of the University of Missouri, and Captain Helge Loveland of the Norwegian army, who were well ahead in the Olympic decathlon. So few points separated them that a recount of the points allotted will be necessary before the world officially knows which is the better man, but it appears that the Norwegian has a slight advantage in the ten events. Whoever is awarded the cup donated by the Russian emperor and which Jim Thorpe had to forfeit at Stockholm to Welander of Sweden in 1912 because of the charge of professionalism, there is no little difference that both Hamilton and Loveland may be justly proud of their laurels.

Loveland Does Well. Although Loveland failed to score a single first, he made equally good time with several others in the dashes and his performances in the high jump, pole vault, the 1500 metres and the shot put and discus were so consistent he obtained second, third or fourth. He thus apparently outpointed Hamilton, who won first in the shot put and the 100 metres and did well in the broad jump, the javelin and discus, but got only seventh in the 1500 metres and eleventh in the high jump.

At the finish of the 1500 metres, the tenth event in the two days, Hamilton fairly staggered into the arms of friends and was assigned off the field.

In addition to Hamilton's bitter two-day battle to defeat Loveland other American athletes made an excellent showing during a cold, raw eight-hour competition in the other events.

Six places for 21 points were captured in the finals today. These consisted of first and second in the 55-pound weight; third, and fifth in the 3,000 metre walk and fifth and sixth in the hop, step and jump.

American four man teams qualified for the two relay races, while K. C. Bartlett, University of Oregon, and A. H. Pope, University of Washington, qualified for the discus final, with the third and fourth best throws.

Aside from Hamilton's exhibition the best performances were those of "Babe" McDonald, biggest man on the team, if not on the entire field.

Football. Noyes is said to be a warrior, but many of the local fans believe he will be shown up when pitted against the Buhl giant southpaw. "Lefty" will be backed up by one of the fastest kicking bunches, and the strongest hitting nine ever got together in Idaho. The game will be called at 3 o'clock on Fair athletic field.

Manager Lloyd has also arranged for a game with Smithfield, winners of the pennant in the Cache Valley league, and Roxbury, winners in the Yellowstone league. He is trying to get all the games at Buhl. He is also in communication with the manager of the Salt Lake club of the Pacific Coast league to get the team to come across from Boise and play a game here in the afternoon before going out to Salt Lake on the evening train.

#### COMPLAINT IS FILED.

A complaint filed in the district court, Johnson Auto Sales company vs. Lydia McLaffie and Gillman & Connor, charges that the defendants are holding a car and claiming possession of the same which does not rightfully belong to said defendants. It is alleged that the defendants claim the ownership by virtue of having purchased the same from the owner. The car, a Hudson super-six, is valued at \$1,700 and judgment is asked for that amount.

## Everybody Wants to Know About Clothing Prices For Fall

That's only natural; clothes are a necessity; every man wears 'em and he don't want to pay any more than he has to pay for them. Here are the facts: You'll have to pay a fairly good price for clothes; transportation costs more; yarn spinners are getting more; weaving costs 150 per cent more than it did a few years ago—every cost has gone up.

There's one thing we can control; one thing the makers can control, and that is the price we and they get for the goods.

Hart Schaffner & Marx are selling on the closest margin imaginable—we're doing the same; the closest margins ever attempted.

Maybe we'll not make very much money on these clothes; but we shall give you some remarkable values—and if you're not satisfied, we'll give your money back.

## SEED PRODUCTION IS BELOW NORMAL

Salmon Trout Will Not Produce Normal Seed Crop Because of Curtailed Water Supply.

That the prospects of seed production in Grinnell alfalfa on the Salmon tract were considerably below normal was discovered by a party from the farm bureau who have just completed a tour of inspection for the purpose of inventing methods to control the weeds on the banks of the irrigation ditches.

The party, composed of M. A. Thomsen and R. K. Bennett, directors of the Idaho Seed Growers' association, Frank Caudle, county weed control man, and H. E. Powers, county agent, made an extended tour of the county this week, looking over the fields of alfalfa and clover in the vicinities of Piler, Buhl, Castleford, Clever, Twin Falls, Berger, Amsterdam, Hollister, Rogerson, Kimberly and Hansen.

In the evening meetings were held in Clever and Rogerson. The purpose of these meetings, it is said, was to call attention to the importance of clean alfalfa and clover seed and to suggest weed control methods. A good attendance at these meetings is reported.

Several promising fields were visited and opportunity was afforded to observe the results of a variety of

different cultural methods, on both the Salmon and Twin Falls tracts. It is reported that the seed prospects on the Salmon tract are considerably below normal, due, it is said, to an untimely distribution of a scanty water supply and the excessively hot weather that has prevailed for the past three weeks.

It is also said that where subnormal seed yields were apparent on the other areas visited it was occasioned in a large measure by a superabundance of noxious weeds which in most cases had been carried into the fields by the irrigating water. Mr. Powers stated that the frequency of complaints of this nature leads one to believe that the solution lies in the elimination of noxious weeds from banks of irrigation ditches.

In view of the fact that a visit by a Michigan seed man, who is interested particularly in Grinnell alfalfa, is anticipated in the near future, the party was anxious to investigate the prospects for Grinnell seed. The best field of alfalfa visited is one owned by G. W. E. Bear of the Moran community, which will yield approximately eight bushels to the acre. It is said that this estimate is very conservative.

### NO SMOKING ALLOWED.

EAST LAR VIRGAR, N. M.—Because women delegates will be present, smoking will not be permitted at the state democratic convention here August 24. It has been announced. The state central committee said it was feared smoking might be offensive to some of the women delegates. At all democratic state conventions in Arizona in the past, the delegates have been allowed to smoke.

### TURK'S LEADER UNDAUNTED.

ANAGRA, Asia Minor.—Mustapha Kemal, leader of the Turkish national movement, is undaunted by the Greek advance in Asia Minor. He told the Associated Press that the contents has under-estimated the Turkish strength and intimated that despite the Greek advance, the Turkish forces which are massing for a movement against the Anatolian railways. Mustapha Kemal also frankly admitted co-operation of the Turkish forces with the bolsheviks. He declared that bolshevism was not incompatible with Islamism and expressed the belief that Turkey could not possibly suffer a worse fate than the destruction arranged for her in the peace treaty. These views were expressed to the correspondent by Mustapha Kemal after he had submitted the correspondent's questions and his answers for the approval of the cabinet. Consequently the interview was fully authorized by the national government which expressed its gratitude in advance to the Associated Press for communicating the nationalist position to the American public.

"What is the ultimate aim of, and what result is expected, from the recent Greek offensive?" Mustapha Kemal was asked. "To let the Greek offensive, with Great Britain at its head, be an allied offensive," replied the nationalist leader.

"It aims to shake the moral force of Turkey. The motive that led to the Greek advance is the restoration of its moral force, which are thin along the Smyrna front."

"Greece thought that was all she would meet. But time will show the real strength of the nation and of the country."

"Will the Turks ally themselves and keep with the bolsheviks fighting against Europe?"

"We are equally wary against European capitalists. It naturally follows that we are keeping with the bolsheviks," Mustapha Kemal said.

"Are the members of the bolsheviks worth more in Turkey than European promises?"

"I am aware of no European promises to Turkey; from the way Europe treats us I know she intends no such thing."

"Is bolshevism applicable to the Islamic world?"

"Bolshevism is a social affair. I think as its aim the betterment and amelioration of human society. In the fundamental principles of Islam the attainment of this brotherhood is included."

"What form of administrative organization will your government adopt?"

"We will follow the principle that a nation should decide its own destiny. This sort of administration enables a nation to have full actual control over its affairs. We believe a nation must have unlimited and unconditional sovereignty and adjust things itself."

"How will you uplift the Turks educationally and economically?"

"Our educational program is practical. Our essential aim is to give everybody particular knowledge or science in the shortest possible time and immediately set them to work."

"What position will women occupy in the 'nationalist program'?"

"Women already enjoy some of the same social rights and privileges as men. These will be given on a more solid basis when women realize and demand their political rights and stand on equal grounds with our men."

"How about the minorities?"

"The principles adopted by the world at large toward minorities are completely observed by us."

### PREMIER MAKES REPLY.

LONDON.—Premier Lloyd George in detailed reply to the request of Leo Kamenoff, of the Russian mission in London for an exact definition of Great Britain's attitude toward General Baron Wrangel, anti-bolshevik leader in South Russia, says that the British government never had the intention to detach the Crimea from Russia or encourage Wrangel in his offensive.

"The British government, adds the premier, is only concerned with insuring the safety of troops and refugees under Wrangel, who Mr. Lloyd George says, has been warned that the British will decline all responsibility if he undertakes intervention."

Mr. Lloyd George then explains that the British government would only feel bound to reconsider its attitude in event of the soviet propagandists infringing upon the independence of Poland.

### AMERICAN LEGION DANCE.

The local post of the American Legion will give another of the series of dances they are conducting at the Loring pavilion, Wednesday night. The proceeds of these dances come to help build the American Legion home.

### ART IN SCHOOLS.

SALT LAKE CITY.—Courses in painting and decorating probably will be established in Salt Lake schools beginning with the fall term, according to announcement by school authorities. Work of this nature is being taught in eastern schools, it is said.

## Local Briefs

Married.—Lawson Lockhart and Grace Turner, both of Kimberly, were married yesterday by Judge O. P. Duval. Mr. and Mrs. Arthur G. Halsey witnessed the ceremony.

Jakeham Goes Home.—Floyd Jakeham, who was arrested some time ago, left his morning for his home in Rigby, Idaho. Jakeham was arrested on the charge of having stolen a gold watch and some money out of a bunk house near Buhl. His father sent the money with which to settle some affairs and the lad was sent home.

Building Permit.—William Fucht was granted permission to construct a one-story frame building on lot 22, block 7, South Park addition. The cost is estimated at \$225.

Body Sent Home.—The body of F. W. Howard, who died at a local hotel Thursday night, was shipped to his home in Los Angeles, last evening.

## A Fortune In Furs Here Next Week

On August 27 and 28, Friday and Saturday of next week, Wright's store will offer an exhibition that every woman will be eager to see. The firm has arranged for an exhibition and sale of furs, bringing here a stock worth one hundred thousand dollars. Of course it would be impossible for any Twin Falls store to carry this great fortune in furs in its stock. Indeed there are very few of the larger cities wherein the stocks would aggregate so much. So in order to give the women of Twin Falls an opportunity to see this rich showing of furs, the management of Wright's store has brought this assortment to Twin Falls.

Any of the furs may be bought by those who want them. The price is about 25 per cent less than ordinary, owing to the fact that the local store will pay for only those garments selected by its customer. This should be a great thing for husbands to select furs for their wives as Christmas gifts. Payments may be made to secure the fur desired, which may be left at the store until wanted.

In the showing are fur coats, capotes, capes, novelty scarfs and hats in all of the various kinds of fur that is used for women's adornment.—Adv.

### PROSPERITY IS NOTED.

BUENOS AIRES.—Increased prosperity this year in comparison with 1919 is indicated by banking and railroad statistics of Argentina which have just been published. Official banking reports show that between May 31, 1919 and the same date this year deposits increased 21 per cent, loans and discounts 12 per cent, and balances on hand 40 per cent.

Of the 22,141 miles of railroad in the country only one group of 1,188 miles has failed to show increased aggregate receipts, according to a table compiled by the Review of the River Plate, showing conditions for the present year. The remaining lines have all had substantial increases. All railroads in Uruguay and Paraguay and all tram lines in Argentina have also shown increases.

### WILL GO TO JAIL FIRST.

LONDON.—Sir W. B. Richmond, Royal Academician, will go to jail rather than pay the increased taxes now being charged by the Hammer-smith borough council. He writes to daily capacity, operated by steam, and the local press "I have refused to, will be shipped from Seattle by company with the bolshevik demand for ships to St. Michaels, transhipping 140 pounds annually on my house paid by a Yukon river boat a distance and grounds just under two acres. I of 325 miles and thence from the world rather, at the age of 70 years, mouth of the Tanana river by rail to go to prison than be a party to such fairbanks."

### TO ESTABLISH MILL.

PORTLAND, Ore.—Equipment for point where a mill may be installed in Alaska, maintained there successfully.

has been sold to a Fairbanks, Alaska, firm by a Portland machinery company. The plant will be of 25, barrels of 140 pounds annually on my house paid by a Yukon river boat a distance and grounds just under two acres. I of 325 miles and thence from the world rather, at the age of 70 years, mouth of the Tanana river by rail to go to prison than be a party to such fairbanks."

Since 1914 wheat of hardy variety has been grown in the Tanana valley, the period of maturity being 80 days, and development has reached a stage where a mill may be installed in Alaska, maintained there successfully.

## Advisory Board

It is the sincere aim of this newspaper to conduct this campaign from start to finish in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interests of participants, and absolute honesty in all dealings is guaranteed.

However, not all wisdom lies within any one man or institution, and for that reason an Advisory Board has been decided upon, whose functions shall be to guide any question of sufficient moment that might happen to arise during the competition and from which a committee shall be selected to act as judges and count the votes the last night of the election. The personnel of this board is as follows: H. R. Lee, Editor, Lee & Erickson, Twin Falls; J. A. Keeler, Twin Falls; J. B. Burrell, Twin Falls; Thomas M. Robertson, Twin Falls; C. A. Robinson, Twin Falls; W. Orr Chapman, Twin Falls.

All of these gentlemen are well-known to everyone in this territory, and the final results as given out by them, will be beyond dispute.

## BOY IS INJURED BY AUTOMOBILE

Lee Housh Is Struck by Car of Tourists From Montana—Leg Is Badly Broken.

Lee Housh, 11-year-old son of Mr. and Mrs. Elmer Housh, 420 Third avenue east, sustained a broken leg when an automobile containing tourists from Montana ran over him. His right leg was broken in two places, above and below the knee. It is doubtful at present if his leg can be saved.

According to reports, the lad was at the edge of the road, when this car swung out to pass another car. It was going at a rapid rate, and struck the lad, running him down. The accident is reported to have happened on Main avenue south, at about 5:30 o'clock last evening. Dr. Panser took him at once to the Boyd hospital where he was given attention.

The Montana car, it is said, has left town.

# ITALY LACKS GOOD DEAL OF BEING A DRY PLACE

ROME.—Italy cannot be called the "heart of Europe" because for her 40,000,000 inhabitants she provides 145,000 places where wine and alcoholic beverages may be consumed, according to the Italian Statistical Annual which has just been published.

Lombardy with a population of about 6,000,000 leads the way with 52,642 drinking places; the figures show, Piedmont follows her closely while the province of Rome, which in 1911 had a population of less than 1,500,000, has no less than 8,127 drinking places. Less intoxicants are consumed in the South, in the island of Sicily and in Umbria than in any other regions.

Many other interesting features of Italian life are revealed by the annual. The death rate of illegitimate children, for instance, is shown to be 40 per cent greater than that of those born legitimately. Tuberculosis is said to have shown an increase; 50,000 of the 720 deaths in one year being attributed to that malady.

While Italy has no regular poor law, some of its 28,614 charitable institutions, with a capital of about \$45,000,000 date from the middle ages and provide for more than 1,000,000 persons, 17 lunatic asylums, 62 orphanages, 21 night refuges, 16 food kitchens and about 100 refuges for deserted children. The statistics say that in Italy annually 200,000 children are abandoned by their parents.

Italy has more than 120,000 elementary schools, with 76,000 teachers and about 4,000,000 students although about 45 per cent of the Italian people, especially in the south,

nothing to do with finance, but was purely educational, scientific and technical, with the idea of laying a foundation for a more thorough knowledge of the Far East. Above all it was his aim to guide toward France the Chinese who are seeking a higher education.

His visit is deemed here to be important in view of the preparations already under way in France to receive Chinese students who are increasing in number. A project has been started at Paris by Senator and M. H. Le Douarin to found a social club for visiting Chinese.

## THEY WANT CREAM PUFFS.

SAN FRANCISCO.—Trimmings, such as chicken salad and cream puffs, are wanted by the stevedores of the Matson Steamship company on the bill of fare of the cafeteria at the Matson club; operated on the company's docks here for the employees.

When the cafeteria opened, "solid" food was offered at cost. This, it was believed, was what the workmen wanted. The stevedores on the board of directors, however, put through a motion ordering the trimmings be added.

"Plain, wholesome food for stevedores," one of them said. "Sure, but a fellow wants some of the fancy trimmings when he has the money to pay for them."

The club, which was established to replace the hospitality of the waterfront saloon, also has ordered a billiard table and has subscribed to what several of its members described as "highbrow" magazines.

## ROOSEVELT MAKES APPEAL.

HI LINGS, Mont.—Franklin D. Roosevelt, democratic vice presidential nominee, tonight, in an address here, appealed to republicans to vote the democratic ticket in a year and

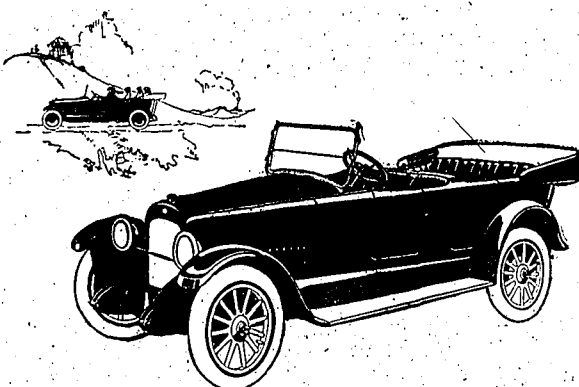

thus "repudiate the action of republican leaders at the Chicago convention. He declared he did not attack the republican party; but leaders, who he said, decided the nomination "in the back room of a hotel."

Replying to a note which was this morning placed in the hands of the reception committee by a local republican, Mr. Roosevelt said he did not

consider prohibition an issue in the present campaign. The eighteenth amendment, he said, "and it was just as likely to send Americans summarily away to fight."

The broad issue of the present campaign, he said, was the progress of nations but "I do condemn those leaders of the democratic party, who have blocked peace for the reactionaries of the republican party."

Mr. Roosevelt spoke in a tent.

## Why We Sell the Battery with the Dreadnaught Plates

BECAUSE we know that battery plates determine the kind and the length of service a battery can give on a man's car. Battery plates are the foundation of battery quality. No other battery offers plates that are as rugged, as lasting, as Dreadnaught Plates for they are made by an exclusive Gould process.

Unequaled as they are, Dreadnaught Plates alone do not tell the story of Gould Quality. A generation of experience in building storage batteries for every purpose is another indispensable factor. We recommend and sell the Gould Battery because we have confidence in the makers and we know the invaluable advantage of Dreadnaught Plates.

## Grain Live Stock

**CHICAGO, Aug. 21.**—Favorable weather over the west and low selling price of Canadian wheat to the seaboard today resulted in a further advance here after starting fairly steady. Provisions remained quiet and firm. Compared with Friday's close, wheat was off 3-4 to 4-1/2 cents with December 2.32 1-2 to 2.33 1-2, and March 2.35. Corn was down 1-1/2 to 2-3/4 cents, while oats showed a net loss of 3-4 cents to 1-1/2 cent. Provisions were 20 cents off. Fear of Canadian competition on an increase with the belief that British purchasers will be confined largely to Canadian grain for a time created a more bearish view in regard to prices here.

Needed rains overnight in parts of Illinois and Indiana led to free selling and a lower range in corn. The weakness in wheat also helped the market become bearish.

Oats were under pressure as the result of the easier tone in corn.

Packers were fair buyers of provisions and prices averaged higher.

**RENTS ARE HIGH.**  
**BUENOS AIRES.**—Startling living conditions as the result of high rents in Buenos Aires are disclosed in a report by Alejandro Bunge, director general of national statistics.

Eighty of each 100 families occupy only one room, he says. Of this 80 per cent, 715 families consist of four persons, 20 of five, 11 of six, 4 of eight, 2 of nine and one of 11 persons all living in one room in each case.

Comparing the respective positions of a workman in the United States and in Argentina, he cites the case of a bricklayer who in the United States with the wages earned in 600 working days could have built a house in 1919 which here would have taken him the wages earned in 3,600 days.

However, he finds that the cost of necessities in the United States other than rent is about 50 per cent higher than in this country.

# ALL FREE!

On another page will be found the first published list of candidates entered thus far in The Chronicle's \$16,000.00 "Everybody Wins" big election... in which six touring cars and hundreds of dollars in cash are to be distributed among "home folks" absolutely free.

The short list of candidates shows that there is plenty of room for live workers—there are plenty of prizes for all. The opportunity is actually calling aloud for real "live wire" workers to enter the campaign and make themselves important factors and winners of the big prizes.

\$16,000.00 is actually going begging for lack of active workers!

Send or bring the nomination coupon in this paper to the Chronicle office. That makes you a candidate—starts you off with 5,000 FREE VOTES. A few subscriptions to the Chronicle, while the big vote schedule is in force, credits you with thousands of votes toward capturing one of the big awards—and WITHOUT A SINGLE PENNY OF COST.

FREE!

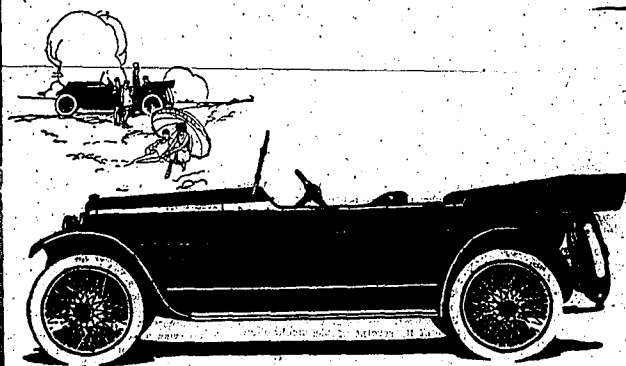

## ARE YOU AWAKE

Candidates who have been nominated in The Chronicle elections are urged to wake up to the vote value of subscriptions these next two weeks. Thus far very few of those nominated have made any effort whatsoever in the way of securing subscriptions or renewals to the Chronicle—in fact, more subscribers have come to the Chronicle's office voluntarily and paid up their accounts, giving the votes to some contestant whom they happened to know, than most of the candidates have brought in.

Votes accumulate very fast during this part of the campaign when the vote schedule is the highest. Wake up, candidates, don't expect your friends to do it all; make some effort yourself and you will be surprised at how easily and how fast you can pile up a big vote total—and go "over the top" for a car.

Don't be one of those who will "wish I had" when the election is over and the big prizes distributed—Start an active campaign NOW. It is doubtful if you ever had or ever will have such an opportunity for making BIG MONEY without investing one cent.

If your name is not on the list of participants among whom the gigantic distribution will be made; send in your nomination blank, and get busy. It will pay you bigger in the short period of time than anything you have ever done in your life. Are you awake or asleep?

**SUPREME COURT DECISION  
INTERESTS THE PEOPLE**

**BOISE.**—No decision of the supreme court of the United States in recent years has been of greater importance to the financial interests of the country than that handed down on March 8, 1920, in the case of *Estate of Blumenthal*. This decision has given rise to numerous inquiries as to what stock dividends are for the purpose of income tax acts, how they are to be determined and treated, and distinguished from other dividends.

The following rulings, embodied in treasury decision 3,052, cover the questions which will most frequently arise and which are of widest interest to corporations and taxpayers generally.

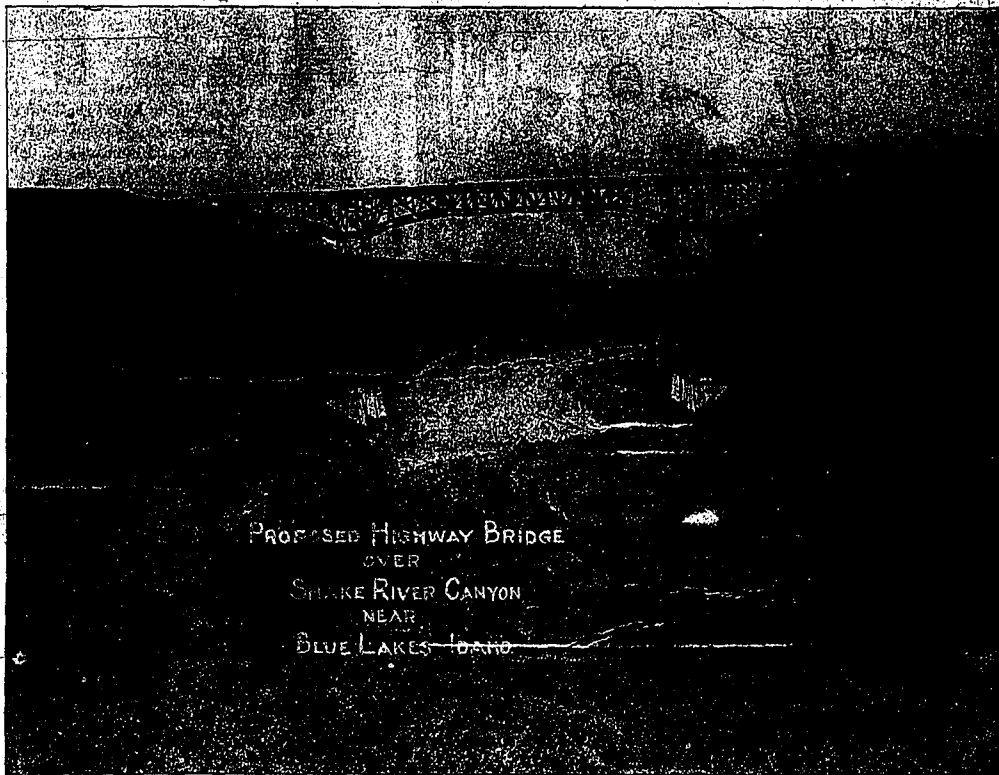

Where a corporation, being authorized so to do by the laws of the state in which it is incorporated, transfers a portion of its surplus to capital account, issues new stock representing the amount of the surplus so transferred and distributes the stock so issued to its stockholders such stock is not income to the stockholders and the stockholders incur no liability for income tax by reason of its receipt.

Where a corporation, being thereunto lawfully authorized, increases its capital stock and simultaneously declares a cash dividend equal in amount to the increase in its capital stock, and gives to its stockholders a real option either to keep the money for their own or to reinvest it in the new shares, such dividend is a cash dividend and is income to the stockholders whether they reinvest it in the new shares or not.

Where a corporation which is not permitted under the laws of the state in which it is incorporated to issue a stock dividend, increases its capital stock and at the same time declares a cash dividend under an agreement with the stockholders to reinvest the money so received in the new issue of capital stock, such dividend is subject to tax as income to the stockholder.

Where a going corporation having a surplus accumulated in part prior to March 1, 1913, and being thereunto lawfully authorized, transfers to its capital account a portion of its surplus, issues new stock representing the amount so transferred to the capital account and then declares a

**PROPOSED RIM-TO-RIM BRIDGE**

Proposed plans for a bridge from rim to rim across the Snake river canyon are here shown above. First, a number of photographs were taken by Engineer Murray, from which the one here shown was taken at the precise point where it is proposed to construct the bridge. Then Mr. Murray reproduced in miniature the design of the cantilever bridge he had designed drawing it in upon the photograph. The whole was then reproduced by the photographing operation for use in the Chronicle. The site is a third of a mile east of a line extended due north from the end of Blue Lakes boulevard. The estimated cost of the bridge here shown is a half million dollars. It is planned to organize a stock company to build the bridge. Tolls will defray operation expenses and pay interest on the investment until such time as the bridge can be taken over by counties, highway districts and possibly the state.

dividend payable in part in cash and in part in shares of the new issue of stock, that portion of the dividend paid in cash will be deemed to have been paid out of the surplus accumulated since March 1, 1913, and is subject to tax, but the portion of the dividend paid in stock will not be subject to tax as income.

A dividend paid in stock of another corporation held as a part of the assets of the corporation paying the dividend, is income to the stockholder at the time the same is made available for distribution to the full amount of the then market value of such stock. This ruling is based upon the decision of the supreme court of the United States in *Peddy v. Blumenthal* (247 U. S. 347) which was not mollified by the case of *Blumenthal v. Macomber*. If such stock was subsequently sold by the stockholder the difference between its market value at date of receipt and the price for which it is sold is additional income or loss to him as the case may be.

The profit derived by a stockholder upon the sale of stock received as a dividend is income to the stockholder and taxable as such even though the stock itself was not income at the time of its receipt by the stockholder, or the purpose of determining the amount of gain or loss derived from the sale of stock received as a dividend or of the stock with respect to which such dividend was paid, the

cost of such share of stock (provided both the dividend stock and the stock with respect to which it is issued have the same rights and preferences) is the quotient of the cost of the old stock for its fair market value as of March 1, 1913, if acquired prior to that date) divided by the total number of shares of the old and new stock.

**AMERICA'S THREATENING  
BRITISH COAL SUPPLY**

**NEWCASTLE-ON-TYNE.**—America is threatening the British coal monopoly of Europe. W. J. Noble, chairman of the Tyne Improvement commission, in the course of a recent speech, drew attention to new competition from the United States and Australia.

Recently he saw in Scandinavia, he said, vast stacks of coal from America and saw a contract concluded for 200,000 tons of coal from Australia. He had learned also he said, that last year the United States exported nearly 21,000,000 tons of coal to Europe and South America, compared with 1,500,000 tons the year before the war.

There was a real danger of under-estimating the American coal competition in markets which were once virtually the monopoly of this country, he declared, and gave the following figures to illustrate his remarks:

Shipments to	1912	1919
Europe	Tons	Tons
England	58,458,000	27,468,000
U. S.	478,000	12,713,000
Shipments to Mediterranean:		
England	20,687,000	7,576,000
U. S.	427,000	6,850,000
Shipments to South America:		
England	6,853,000	903,000
U. S.	445,000	2,216,000

Increased production was necessary to remain trade, said Mr. Noble, and with the recent advance in the United States in the price of coal and the government embargo he believed there was an opportunity to do it.

**PLAY NEW THEATRE.**

**RIO DE JANEIRO.**—This city, which already possesses a splendid municipal opera house, is now planning a municipal dramatic theater where national dramas written by national authors and performed by native talent will be presented under the auspices of the municipality. It is intended that the new theater shall be largely for the benefit of the public.

This project, which has already passed its second reading in the municipal council, provides for the establishment of a stock company of native Brazilians and the remainder naturalized Brazilians who have had their artistic training in this country.

The company will perform for regular seasons in Rio de Janeiro and make annual tours to the state capitals and the principal cities of Bra-

zil. One benefit performance will be given each season for the first artists of the company, and another for those of the second class. Gala performances will be given on five days marking notable events in the nation's history.

**LABOR TAKES CREDIT.**

**LONDON.**—The all-Russian central council of trade unions has telegraphed the British labor council of action, crediting British labor with having "forced the hand of the Russo-Polish crisis and voicing thanks for its efforts."

"On receiving news that the aggressive policy of the British government toward Russia has changed for the better, under the strong pressure of British workers," says the Russian council's message, "We desire to convey to those British organizations which forced the hand of the government the heartfelt thanks of all industrial organizations of workers in soviet Russia."

The message declares that the sympathy of British workmen toward soviet Russia "will unite the workers of Great Britain and Russia into a strong fraternal union against which no intrigue of the international bourgeoisie can prevail."
