

STATESMEN OF JAPAN FAVOR FAIR DEALING

American Congressmen are Given Welcome by Leading Men of Kingdom

EAST AND WEST MUST REACH UNDERSTANDING

Oriental Leaders Express Themselves in Behalf of Peace and Civilization For All Time

By the Associated Press. TOKIO, Sept. 3.—The duty of Japan and the United States to promote friendly relations between east and west, was emphasized in speeches delivered tonight at a luncheon held in the Imperial Hotel, in honor of the American congressmen who reached Tokio today.

The speaker continued that he was firmly convinced progress in development of government means so much ground gained toward the community feeling so essential for peace and good will among nations.

"The progress we have achieved," said President of the committee, "is a great achievement. It is a sure sign that in this important respect the east is destined to understand the west and the west to understand the east."

Upon looking at the map of the world, the speaker declared he found it difficult to believe that it was nothing that in the course of history Japan and the United States had come face to face each other across the ocean as neighbors, each of them completely ignorant of the civilization of the east and of the west. He was convinced, he added, that in this he perceived plainly the hand of destiny warning that Japan and America are particularly charged with the duty of bringing the east and the west into harmony.

"If both sides do their utmost," he continued, "with this fundamental truth in view and with the friendship and respect of justice and fair play, I have not the slightest doubt that all the troubles actually existing and all the troubles that may possibly arise between the two nations can be solved to the satisfaction of both. I have profound confidence in the ever lasting friendship and understanding between Japan and America."

Desires Peace

President Tokugawa, of the house of nobles, in the course of his address told the congressmen: "I know you come in a private capacity but I want to say that, in expressing our most cordial and warm-hearted sentiments in friendship to you, we are also conveying them through you to the people of the great republic which you represent to which we are under an historic obligation of friendship and cordiality and which we ardently desire to live in peace and harmony for all time to come."

COMBINATION RATE IS NOT APPROVED

Examiner Expected to Make Report to Interstate Commerce Commission Against Proposed Tariffs.

WASHINGTON, Sept. 3.—General disapproval of combining rates based on distances east and west of the Mississippi and Missouri rivers was expressed in a tentative report submitted to the Interstate Commerce Commission today by Examiner William A. Diquet. The report was drafted in connection with a complaint filed by the Intermediate Association relative to the class and commodity rates to Pacific coast cities and the intermountain territory from points east of the Rocky Mountains.

"The combination tends ordinarily to normal, natural, scientific, discriminatory and seems only to an American," examiner Diquet's report said. "It can almost be said to be prima facie unreasonable. The carriers should be regarded more and more as one national system and the day may not be far distant when we should proceed to the establishment through class and commodity rates, substantially lower than the locals between practically all points in the country."

The report added that tonnage through the Panama Canal was increasing at a rapid rate and soon will reach a point where it will result in a serious loss to tonnage handled by the rail lines unless they have in force appropriate measures to meet the situation.

GOMPERS OBJECTS TO THE AMENDMENT

Proposed Amendment to Nebraska Constitution Favoring Federal Consular Commission is Criticized

WASHINGTON, Sept. 3.—An attack upon a proposed amendment to the Nebraska state constitution which would authorize the setting up of a consular commission to pass upon disputes between employers and employees was made today by President Gompers of the American Federation of Labor. The proposal is to be voted upon tonight at the meeting of the Nebraska state convention of the Nebraska state Federation of Labor declares the proposal as more than the passage of a mere law for such a court as has already been set up in Kansas.

"It will not only hamper the normal activities of labor but of farmers. In fact, it will react on the whole people. Such a provision in the constitution would not be in the interests of Nebraska or of the United States."

They held behind the expression, the public welfare. Permit me to suggest that the state federation of labor should begin an intensive campaign to get the people of Nebraska with the vicious strain in its proposed legislation."

SENATOR HARDING WOULD OUTLAW WAR

Republican Standard Bearer Favors Plan to Secure Peace of the World.

MARION, O., Sept. 3.—Hope that the United States will take the lead "in outlaw war," and secure the permanent peace of the world was voiced by Senator Harding today in a speech at a home-coming celebration at Mount Gilead, a country town in his native county.

Addressing a crowd from a street booth where members of the American Legion were soliciting funds for a home for their local post, the republican nominee declared he was willing to do anything short of surrendering the nation's independence to attain world peace. He maintained that acceptance of the league of nations as it was written, however, would involve a sacrifice of nationality, which no friend of peace should advocate.

"I want to show my gratitude to these men in an effective way," said Senator Harding turning to the former service men "by seeing that neither they nor their sons nor their sons shall ever be called to fight a battle from again. I am not sure that I am in complete accord with others as to the means, but if I can appeal the conscience of America, we will lead the world to outlaw war."

The candidate also declared the nation must show "practical helpful generosity" to the former soldier, adding that it was unfair to impose universal service unless there was to be an adequate expression of gratitude with the return of peace.

The speech was the second delivered by Senator Harding today, his position in support of co-operation in peace for former service men having been advanced a few hours before.

Co-operative marketing, he told a committee of the national board of farm organizations would be the first practical step that could be taken to protect the best of living.

During the day the nominee took up several other important issues in talks with political leaders, one of his conferences bringing together here for the first time representatives of all three of the groups. On his front porch during the afternoon he talked over the situation with Senator Knox of Pennsylvania, an irreconcilable; Senator Spencer of Missouri, a mild reservationist, and Senator Townsend of Michigan, who stood back during the day with the middle ground group led by Senator Lodge.

Other callers at Senator Harding's office today included Harry M. Daugherty of Columbus, a member of the republican campaign committee and Jake L. Harmon, national committee man from Ohio.

The directors were to be arraigned for preliminary hearing Sept. 4.

BOLSHEVIKI SPIES MAKE REVOLTS IMPOSSIBLE

WASHINGTON, Sept. 3.—Swarm of soviet spies, with which Russia is inferred make impossible any revolution against the Bolsheviks at the present time, advice today in official circles said.

Revolt against the Bolsheviks, the advice said only is possible if provoked and supported by outside influences as the efficiency of the secret police in Russia is such as to nip in the bud all plots and conspiracies. The dispatches add that the fear of the extraordinary commission also, has been a deterrent factor of powerful influence among the disaffected Russian people.

ROOSEVELT IS FOR SALVAGE OF VESSEL ADEQUATE SALARIES PLAN OF OFFICERS

Believes Government Service Can be Improved by Payment of Better Wages to Workers

By the Associated Press. PHILADELPHIA, Pa., Sept. 3.—Assured of the safety of the officers and crew of the disabled submarine S-6, naval authorities centered their attention on the question of salvaging the vessel. Lieutenant Commander Fitzhugh Gibson, commanding officer of the submarine repair base at Philadelphia navy yard, sailed tonight on the destroyer Biddle, with official plans from which the undersea boat was constructed. Salvage experts from the Brooklyn were on the Biddle which is equipped with machinery which may be needed to restore the vessel.

Word that two of the rescued men were in a serious condition from inhaling chlorine gas, caused by the rupturing of the sea water and sulphuric acid in the submarine, was brought here by the destroyer Billingsley one of the S-6's. Their names were unknown.

The government service can be increased in efficiency by giving adequate salaries to government employees to develop an efficient and well paid personnel in all departments, was discussed here tonight by Franklin D. Roosevelt.

"The government service can be increased in efficiency by giving adequate salaries to government employees to develop an efficient and well paid personnel in all departments, was discussed here tonight by Franklin D. Roosevelt.

Mr. Roosevelt charged that the last republican congress had been derelict in its duty in failing to take action on a report of a congressional commission regarding the administration of government service and reiterated instances of his own experience as a department executive with congress in an effort to improve the service.

Mr. Roosevelt spoke tonight at meetings in this city, Holloway and Gardner. At tonight's meeting Mrs. Antoinette Funk of Washington, was also a speaker. Tomorrow Mr. Roosevelt will conclude his three days' tour of the state with rallies in York and Scottsbluff counties, ending with a night meeting at Lewistown.

The fliers were to be initiated into the Yukon order of Pioneers tonight and afterwards entertained at a ball. Captain St. Clair Street said the expedition would leave tomorrow for White Horse, if weather conditions were favorable.

RICE HAS LONG RECORD FOR SHOOTING SCRAPES

LOS ANGELES, Sept. 3.—E. C. Rice, who was jailed in Salt Lake City last night following the shooting of Ed A. May, is a retired mining man, reputed here to be wealthy.

Three years ago, Rice was arrested and charged with the murder of John Lindlow, a waiter, who was shot and killed in a cafe quarrel at Venice. Rice was acquitted. He was rearrested on a charge of attempting to murder Arthur O. Sullivan, in the same cafe quarrel, and again acquitted on that charge.

The bullet that killed Lindlow also wounded Mrs. Rice. The Venice shooting occurred, according to Rice's subsequent evidence, because he believed Lindlow was smiling at Mrs. Rice. Lindlow was shot accidentally.

GOVERNOR COX TELLS PEOPLE ABOUT PLOTS

Candidate for President Makes Dozen Speeches in Michigan to Crowds

SHOWS UP PLAN TO BUY THE PRESIDENCY

Reads From Republican Official Treasury Bulletins Showing Details of Plan for Raising Funds

BATTLE CREEK Mich., Sept. 3.—Governor Cox today made a whirlwind rush into his western campaign, making a dozen speeches throughout Michigan renewing his attack on republican campaign contributions and peace policies.

Charges of a plot to buy the presidency were reiterated by the democratic presidential candidate, in our twenty five address of an itinerary which kept him on the rostrum of the rear platform of his private car before breakfast until late today. His principal address was at Lansing, the state capital and here with his closing address tonight at Kalamazoo. He also made numerous other platform speeches.

Local flavor was given by the governor to his address by constant reference to the election fraud case of Senator Newberry, republican of Michigan. The candidate declared that attempt was being made by the republican contributors to "buy" the nation. As proof of his charges, the governor, to a large crowd on the state capital lawn at Lansing read from copies of the republican treasury bulletins to "buy" the nation, presented in his Pittsburgh address and also before the senate investigating committee, and an alleged list of subscriptions to the republican handbook of William Barnes Jr. of New York.

Reading from a list of prominent men named in the subscription list, Governor Cox added:

"These men are no making contributions to my fund, and there are the very definite reasons. First, they haven't been asked. Second, they wouldn't be permitted to, and third, they privately wouldn't if they had the chance because they don't approve of my politics."

Commenting on many of corporations on what he characterized as the "Barnes list," Governor Cox said: "I have no objection to their being legal. I also promised to keep his eye upon the senate committee recalling it did service before the republican convention and now had the opportunity to prevent purchase of the presidency."

League of nations was mentioned. He declared that the mothers of America are for it and denounced an aspirant peace with Germany. He split the terms "land power" and "republican" to Senator Harding, his republican opponent and, replying to Mr. Harding's recent address in his, or of combining features of the league and the Hague tribunal declared the plan internationally "reactionary."

Accusing Senator Harding of changing positions frequently upon the league issue, Governor Cox said the Hague tribunal was and had "been in the belly, and spider web everywhere."

"Now the new plan" the governor continued, "is to re-establish that old institution which has proved an absolute failure by failing to stop the world war and to combine it with approaches to Senator Harding to place them together."

Governor Cox ridiculed the proposal by suggesting the result of an attempt to put into a new automobile place of a one league, "I will approach and attend a fifty dollar luncheon at Lansing in two days, and here tonight made two addresses and had dinner in the same place. The governor's only schedule tomorrow is at Milwaukee which he will reach on a very morning train for Chicago."

The league issue is prominent in his campaign.

# NIGHT PROWLER LEAVES NO CLUE

### Evidence to Arrest Offenders in Store Robbery is Lacking at Present Stage

No trace which might lead to arrest of offenders in the robbery of the C. W. Gresham second-hand store on Main avenue south Thursday night have yet been found by authorities who are handling the case.

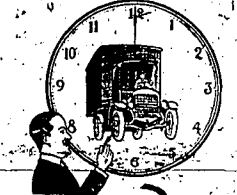

The store was entered through a broken window in the rear of the building and the marauders took but a small amount of goods, including a few firearms, some cutlery and a number of boxes of cartridges. Discovery of the theft was made by G. Gresham, proprietor of the establishment, upon open his place yesterday morning.

The broken window allowed the intruders to gain entrance to the store, but evidently they were greatly satisfied since only a few articles were found missing upon inspection. The character of the stolen goods indicates that the robbery may be attributed to small boys.

### STREETVILLE IS TO BE SCENE OF ANOTHER BATTLE

"CHICAGO.—"Streeterville" is the "desertic of Lake Michigan" a part of Chicago's famous "Old Coast" is about to be the scene of the thousand and first battle in its history, according to police reports on the street battle finally by Captain George Wellington Streeter, 80-year old claimant to a \$50,000,000 portion of the exclusive Lake Shore drive section.

"Cap" Streeter and William H. Nile on their "military" governor and command general of the army of the "desertic" having notified the federal authorities, that they are about to strain try to enforce their claim that Streeterville is not in any state in the union have invited the American League to assist them.

tion to assist them and set date for the opening of hostilities as September 6. A letter to the legion posts, a copy of which was also sent to Starling Gresham, the former soldier, to "hubert" action at the foot of Superior street in uniform armor and carry a flag and help to end by force of arms the transatlantic ends of justice or stand up against a wall before a firing line, the "desertic" invited the legionnaires to bring their lunch.

Captain Streeter has been fighting since 1850 to establish his claim to one of the most valuable sections of Chicago's lake-front. In that year, his steamer, the *Light*, stranded on the beach during a storm. Captain Streeter built a breakwater about the stranded boat 450 feet off shore, and made it his home. The rapidly shifting sands filled in the space between boat and shore and added 125 acres to the city's area. To this land Captain Streeter laid claim, and in the next quarter of a century battles by the hundreds were fought in an effort to oust him.

Gold in Adobe Walls.

As the early processes of extraction were very imperfect, the walls and doors of these buildings were thus full of gold. Things would have continued thus for an indefinite time, and the inhabitants would have been living yet in these valuable buildings, if the passage of a railway line nearby had not made necessary the demolition of about 100 houses.

WORK OF SALVATION ARMY  
The Salvation Army children's home in Uxehingth, Ohio, burned down last week last night.  
The officer in charge was a woman. She got up as she supposed, all the children out of the street. It was in the winter and a very cold night. She discovered that there were five children missing. She returned to get them and when the firemen found her she was unconscious and had two of the children in her arms with the other two around her. The children were dead and when she was revived at the

hospital the only words she said, before she passed into the next life were "Tell mother that I could not save the children but I died with them." The Salvation Army officers give him the credit for the work: it is a work of sacrifice, without hope of fee or reward from humanity. Is it not proper to wish them well from the pocketbook of the heart, and give them a burial which they can properly administer to the needs of the greatest humanitarian work in the world?

Ann Boleyn's Clock.  
The weight of a clock at Windsor castle, hear us then "The Most Happy," and the clock is further inscribed with the motto, "Dien et non dolet," and the letters "H. A." entwined in true ever-knots. This exquisitely-made clock—only four inches deep and ten inches high—was a gift from Henry VIII to Anne Boleyn on her wedding day. It was in the possession of Horace Walpole, and Queen Victoria paid \$521 for it when the contents of Strawberry Hill were sold in 1842.

Unpleasant Bedfellow.  
In California and on the staked plains in Texas where the nights are cold, it is the rattlesnake's custom to crawl between a tent's blankets and snuggle up close to him till morning. Numbers of them are killed in camp every year by soldiers campaigning in that section; but as the rattlesnakes seldom abuse hospitality by biting the sleepers few accidents happen. Still, there are men who, when out on a hard march, prefer to sleep alone.

Content With Little.  
"It seems to me," said Marie, with the wisdom that the simple in heart acquire with pain and travail, "that in this world a woman's chief source of happiness is if she loves. Being loved doesn't make her so. . . . Love's a fire, so it must have fuel to keep it alight, but a woman's fire needs very little, and that is rather a good thing, perhaps, for she seldom gets much." "The Journey Home," by S. J. SOME THING TO THINK OVER  
By Grantland Rice.  
Very few of the great few can do a little work well. The few you do do the most certain you are to do it rather badly. The more you have to do the more likely you are to do it all well.  
As a rule it is only the prodigious workman who get 100 per cent out of their assignments.  
Here, for example, is T. P. Speaker, he is managing a ball club that is in the thick of a pennant fight. Speaker is one of the hardest workers in the game. Not only on the field, but on the field, he is planning and working encouraging his men and looking after numerous details.  
As a side line he is not only playing a great game in the outfield, but is also being a manager.  
Speaker hasn't allowed his many

managerial duties to interfere with his work through the game. He has put enough determination into his day's routine to do both jobs well. On the one side by keeping his club the field; on the other he is having the greatest season of his ever known.

Speaker knows that a man's job is never finished—until the work is completed. He doesn't overlook the fact in making one of the main hopes of the 1920 campaign.

While waiting for the dinner bell to ring Sonny said to his mother: "Mother, you are willing, so the child went on with his game of make-believe. Said he: "This room will be the candy store. You be the clerk and I'll be buying, but, oh, mamma, let's have real candy!"

Why High Noon Weddings.  
All of us frequently have expressions of which we do not really know the meaning. Did you, for example, know that noon is the traditional hour for a wedding ceremony because in the old days in England the bridegroom could not be relied upon to be sober any later in the day than this hour?

Be Truthful Always.  
He that is habituated to deception, and artifices in trifles, will try in vain to be true in matters of importance; for truth is a thing of habit rather than of will. So, if you could not be relied upon to be true if the habit of your life has been dishonesty.—F. W. Robertson.

Bad Temper. It is an almost invariable rule that complaints are mutual. There are two sides to every bad temper. The truth is, bad temper is due less to the occurrence of irritating things than to the occurrence of things to irritable people.

Magpie Sacred in Norway. The magpie is, or was, held to be sacred in Norway, and whoever lifted a hand against it promptly brought down a curse not only upon himself, but on his family, relations, friends, live stock and household goods.

## Efficiency to Arrest Offenders in Store Robbery is Lacking at Present Time

No trace which might lead to arrest of offenders in the robbery of the C. W. Gerrish second-hand store on Main avenue south Thursday night have yet been found by authorities who are handling the case.

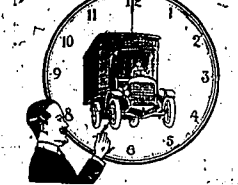

The store was entered through a broken window at the rear of the building and the marauders took but a small amount of goods, including a few firearms, some cutlery and a number of boxes of cartridges. Discovery of the theft was made by C. W. Gerrish, proprietor of the establishment, upon open his place yesterday morning.

The broken window allowed the intruders to gain entrance to the store, but evidently they were easily satisfied since only a few articles were found missing upon inspection. The character of the stolen goods indicates that the robbery may be attributed to small boys.

## In the Realm of Sport

ST. PAUL.—Fans in St. Paul have learned to say those sweet words, "Won again," so often that they've quit reading the box scores. The Saints are easy to the good in a one-sided race.

CHICAGO.—Sluggler Joe Jackson has signed a new contract. It's not with the Yankees but with the St. Louis Browns. The winter baseball promoter Joe will manage a club there this winter.

CANTON.—Jim Thorpe, who made Canton the hottest of professional football, has his Bulldogs about in line. Orig of Texas will return as quarterback.

WICHITA FALLS, Tex.—James Zinn is being called the Iron Man since he pitched a no-hit, no-run game against Houston recently, in the first and of a double header and then allowed but three bingles in the second.

CINCINNATI.—Hank O'Day applied the whisk broom to a rubber in a game here the other day between the Reds and the Phils. Moran claimed the Philly pitcher wasn't touching the rubber.

CINCINNATI.—Pat Duncan has showed a disobedient spirit lately. Moran sent him to bed. Duncan tried it twice and failed. The third time he slipped out a three-bagger. Two runs came in. Bad business, said Moran.

The Gold in Adobe Walls. The Mexican city of Guajumito, built near the old gold mines in the country, was originally constructed of adobe made of the refuse of these mines. As the early processes of extraction were very imperfect, the walls and floors of these buildings were thus full of gold. Things would have continued thus for an indefinite time, and the inhabitants would have been living yet in these valuable buildings, if the passage of a railway had never had the same necessary. The demolition of about 100 houses.

Ann Cleary's Clock. The weight of a clock in Windsor castle-bear in them "The Most Happy" and the clock is further inscribed with the motto, "Dier et non moritur." The clock is further inscribed with the motto "H. A. Cleary in true-love's' knots. This exquisitely-made clock—only four inches deep and ten inches high—was a gift from Henry VIII to Anne Boleyn on her wedding day. It was in the possession of Anne's father, and Queen Victoria paid \$25 for it when the contents of Strawberry Hill were sold in 1841.

Unpleasant Bedfellows. In California and on the staked plains in Texas where the nights are cold, it is the rattlesnake's custom to crawl between a traveler's blankets and snuggle up close to him all morning. Numbers of them are killed in camp every year by soldiers campaigning in that section; but as the rattlesnakes seldom abuse hospitality by biting the sleepers, few accidents happen. Still, there are men who, when out on a hard march, prefer to sleep alone.

Content With Little. "It seems to me," said Marthe, with the wisdom that the simple in heart acquire with pain and travel, "that in this world there is no such thing as happiness if it is slow. Being loved doesn't make her so. ... Love is a fire, so it must have fuel to keep it bright, but a woman's fire needs very little, and that is rather a good thing, for she seldom gets much." "The Journey Home," by Sybil Leith-Bridge.

SOME THING TO THINK OVER  
By Grantham Rice.  
Very few of us have a little work well. The less you have to do the more certain you are to do it rather badly. The more you have to do the more likely you are to do it all well.  
As a rule it is only the prodigious workers who get 100 per cent out of their assignments.  
Here, for example, is Tris Speaker. He is swinging a ball club that is in the thick of a pennant fight. Speaker is one of the hardest workers in the game. Not only on the field, but off the field, he is putting an encouraging hand on his men and looking after numerous details.  
As a side line he is not only playing a great game in the outfield, but is also batting around .460.  
Speaker hadn't allowed his many

managerial duties to interfere with his work through the season. He has put enough determination into his routine to do better work. He is the only one who is keeping his club in the fight; on the other he has ever the greatest reason he has ever known.  
Speaker knows that a man's job is never done until the work is completed. So don't overlook the Texan in making one of the main heroes of the 1920 campaign.

Sea Serpents Numerous. There are plenty of sea serpents, and of all species they are the most venomous. In tropical waters they are vastly numerous, especially to the Indian ocean, where they are often seen literally by hundreds, swimming at the surface of the water. They are said to attack human beings. Their bodies are flat, and almost wholly filled by the lungs.

Tactful Youngster. Mother bought a box of candy, but it was nearly dinner-time so would not give any to Sonny. While waiting for the dinner bell to ring Sonny said: "Mamma, let's play store." Mother was willing, so the child went on with his game of make-believe. Said he: "This room will be the candy store. You be the clerk and I'll be buying, but, oh, mamma, it's have real candy."

Why High Noon Weddings. All of us frequently use expressions of which we do not really know the meaning. Did you, for example, know that noon is the traditional hour for a wedding ceremony? Were the hours days in England the bridegroom could not be held upon to be sober any later in the day than this hour?

Be Truthful Always. He/She is habituated to deceptive and artificialities in trifles, will try in vain to be true in matters of importance; for truth is the thing of habit rather than of will. You cannot in any sudden and single effort will to be true if the habit of your life has been untrue. —F. W. Robertson.

**Bad Temper.** It is an almost invariable rule that complaints are mutual. There are two sides to every bad temper. The truth is, bad temper is less to the occurrence of irritating things than to the occurrence of things to irritable people.

**Maple Sacred in Norway.** The maple is, or was, held to be sacred in Norway, and whoever lifted his hand against it promptly brought down a curse not only upon himself, but on his family, relations, intimate friends, live stock and household goods.

**Three New Fox Trots and a Waltz on New Victor Records**

**"So Long Co-Long"**—Fox Trot by Van Eps Quartet

**"Lovely Summer Time"**—Waltz by Joseph C. Smith's Orchestra

Two dance numbers that are perfect triumphs. The basic effects in the former seem powerful enough for a "long" waltz, but the latter is a languorous waltz number very appropriately named.

**"Hold Me"**—Meadow Fox Trot by Palace Trio

**"Woodruff"**—Fox Trot by Savin's Novelty Orchestra

A new pair of fox trots that will be great favorites with live dancers. In the first, the saxophone, accordion and piano try to outdo one another in their hilarious fantasies. The second is also a vigorous dance number but depends upon its unusual interest rather than upon its melody.

RUSSIA FOR RUSSIANS
The recent American note to Italy has made it quite plain that the American government, backed by the American people, will insist on Russia working out her own salvation.

Thus Lenin and Trotzky are treated as aliens in their own land—and so they are. The vast mass of Russians, mostly conservative peasants, are against them.

POOR IN GEOGRAPHY
One of the studies which may well receive special attention in the schools is Geography, and not so much that of the uncertain and swiftly changing boundaries of Europe.

At a civil service examination held recently one of the questions asked of the 137 applicants was the location of five American cities.

The modern methods of teaching geography are undoubtedly more alive and interesting than the older, more stilted ways, and the children who study under the new regime become possessed of an amazing amount of general information.

THE WAGING STRIKE
In many quarters the strike as a weapon for obtaining pay increases is waning in popularity. One of the influential men attending the recent convention of the United Mine Workers of America, where the delegates voted to ask for certain districts, said, in speaking of the demands, "The men will not strike, whether the demands are accepted or not. The miners will keep their contracts."

justice or wisdom of the demands themselves, but the method of procedure for their attainment is a clean-cut and for the general good, as well as for the best good of the men themselves, since it creates popular prejudice in their favor.

RAILROAD IMPROVEMENT
Railroad service is improving. The most casual observation of traffic is enough to show that. Shippers everywhere agree. Official reports give such particulars as these:

Car mileage—the average number of miles a freight car is moved per day—has increased considerably. The average load per car is increasing. The average number of cars per train is increasing. The number of "empties" is decreasing—that is, more cars are going loaded both ways instead of only one way.

THE TRANS-CONTINENTAL CRUISE
A motor camping trip of 6,000 miles without a night spent in a hotel is the record made by a Los Angeles physician.

It was a vacation which the most luxurious traveler might envy them. They saw sights long to the view of the swifter traveler of the one who follows only railroads and main traveled roads.

THE ELECTRIC WARSHIP
The electrically propelled battleship is a mechanical and economical success. With this an acknowledged fact, the world may be said to be entering an electrical epoch in naval construction.

Two years ago the battleship New Mexico was completed and announced as the first vessel of its kind to be propelled and operated entirely by electricity. Steam experts doubted the practicality of the idea and predicted a speedy reversion to the steam-driven type.

# MAGSWINEY SAID TO BE GROWING WEAKER

Lord Mayor of Cork on Hunger Strike. In British Prison Reported to be Sinking.

LONDON, Sept. 3.—The condition of Lord Mayor MacSwiney showed no signs of improvement though the patient was said gradually to be growing weaker. Sean MacSwiney his brother, remained within the prison tonight.

At the prison tonight The Gentle Duke announced that for the first time during his hunger strike, the Lord Mayor complained to his wife of feeling very tired. The prisoner was unable to converse with his relatives. He was still quite conscious, however, and "his mind was so clear and his will as strong as ever."

Labor this morning addressed an appeal to Premier Lloyd George, asking the lord mayor's release. The premier said he would consider the matter.

"We are convinced that the government's treatment of the lord mayor has already seriously jeopardized the hope of an early settlement of the Irish question on a basis of conciliation, and in consequence, we have decided the name of Great Britain with dishonor in the eyes of the civilized world. By its persecution in prison of the lord mayor of Cork, the government has outraged public opinion everywhere, and his death will bring about a ferocious explosion of anger which can only lead to further bloodshed in Ireland."

Among the signers of the appeal are William Adams, a labor member of parliament; J. Bromley, secretary of the society of firemen and engineers; Robert Smiley, president of the miners' federation; Robert Williams, head of the Transportation Workers union; George Lansbury, editor of the Daily Herald, organ of labor; John Robertson, member of Parliament; Edwin Bevin, of the Bristol Dock Workers union; and Benjamin Turner, of the British labor delegation, which visited Russia.

## SENATOR HARDING ATTENDS SPECIAL GAME OF BALL

MARION, O.—Senator Harding Thursday made two front porch speeches held several conferences on political questions and campaign management and then attended a baseball game as a special compliment to his constituents.

The Chicago Cubs brought here by their owners to give the nominee his first glimpse this season of a major league club defeated an improvised Marion team in an exhibition game by the score 2 to 1. Senator Harding pitched the first three balls across the plate and during the game he and Mrs. Harding roared with several thousands of their neighbors for the home team.

One of the nominee's speeches was to the Cub team which marched to his front porch and presented its compliments through President Veeck. In reply phrased in baseball language declared his hope "to develop team work among the people so that the nation would stir proudly." The pennant won at his home and held respected throughout the world.

The other address was a denunciation of teachers' organization and was in advocacy of better compensation for the teaching profession. He declined, however, to accede to a request made by his callers that he endorse the Wilson-Towner bill providing for a federal department of education and larger federal participation in school financing.

Senator Philander C. Knox of Pennsylvania, a leader among the ir-reconcilables of the senate during the recent fight over the treaty with whom the nominee conferred. The country's foreign policy and the proposal of Senator Harding for a new association of nations was discussed. In a statement tonight Senator Knox cleared his conscience that the foreign policy of the Wilson administration would be repudiated at the November election and that Senator Harding's stand would commend itself to the voters.

"Appreciate Opportunities. The one great thing to be hoped for in the campaign," he said "is an adequate appreciation of the opportunities to record the protest against the maladministration of national affairs during the past eight years."

Senator Harding has made it clear that we are not independent of our surroundings, any of our functions of government to a willowiness, and but one thing can save such a situation and that is our willingness to do so, only an avowal of lethargy and indifference to the highest duties of enlightened government an unjust transferring their discharge to strangers.

"You cannot conduct a political campaign or a specific foreign policy, but you can on the question as to whether our foreign policy shall be submitted to foreign control."

The delegation of teachers included representatives of the National Educational association, the American Federation of Teachers and several other organizations. In reply to the quest for an endorsement of the Wilson-Towner measure the nominee said he had been unable to study it closely enough to express an opinion. "It is rather a curious idea of the trend toward federal control" he

continued. "That at this moment not less than four or five new cabinet officers are being proposed. I am not a miracle of human intelligence and cannot pretend to say in your today what ought to be done in each instance."

"I am not a student of the Smith-Towner bill and I could not be so unfair as glibly to pledge to you any specific action. But in public, you by specific action. But I do pledge you the most sympathetic concern and a determination if responsibility comes upon me—to call the attention of the congress to the pending crisis in American education and to urge the best thought of the country to its early solution."

# GET BUSY NOW

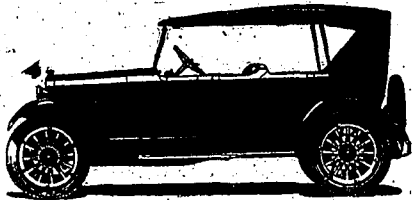

A one-year subscription to the Chronicle counts 7,000 votes NOW—a little later a one-year subscription counts only 3,000 votes.

That in itself is sufficient reason why you should make every moment count while you get the greatest number of votes for every subscription you secure.

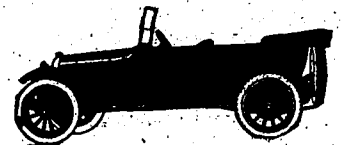

The present big vote schedule will be DECREASED very soon—that's why it pays to get busy during the big vote period—NOW. You can't expect to hold off until later to start getting subscriptions—doing nothing but collecting vote coupons. The time to pile up a big number of votes to your credit is RIGHT NOW, when every subscription secured will count more votes than at any other time.

If you are willing to put forth the little, easy effort required to land one of the big prizes—if you want to make as high as \$48.00 per day (and that's just what 6 persons will get for their work in this campaign)—you'll use every bit of your spare time in getting subscriptions THIS PERIOD and thus "cash in" to the fullest extent on the advantage the big vote schedule gives.

## Grain

CHICAGO, Sept. 3.—Sharp advances took place in the wheat market today largely as a result of what is estimated the amount of wheat available for export. One authority figures the total as 10,000,000 bush, less than last season. Opening quotations, which ranged from the same as yesterday's finish to 1-4c higher, with December \$2.40 to \$2.44 and March \$1.71 to \$2.12, were followed by a modern reaction, and then by a swift general upturn that carried December to \$2.46.

Wheat dominated by the strength of wheat. After opening 1-4c off to 1.5c up, including December at \$1.15 to \$1.19, corn scored substantial gains all around. Oats hardened in price with other cereals, standing about unchanged, December \$0.65, then sagging a little, and later trending upward.

Fineness developed in provisions owing to advances of grain and hogs, but trading lacked volume.

OMAHA, Sept. 3.—Hogs, 4,000; mostly steady to 1/2c higher, closing weak; bulk medium and light butchers \$14.50 to \$15; top, \$15.25; strong weight and packing grades, \$14.20 to \$14.75.

How to Jump into First Place

On each six-year subscription to the Chronicle (\$42) 462,500 votes are given; on two three-year subscriptions (\$42) 270,000 votes are given; on six one-year subscriptions credit for 242,000 votes are allowed, providing you secure the subscriptions NOW during the big vote period.

THE STANDINGS

Following are the names of candidates who have been entered in The Chronicle's big automobile and prize campaign up until today. The names, this time, are arranged in alphabetical order; after today they will appear according to vote standing—the highest first, and so on.

Table with columns for candidate names and vote counts. Includes names like William Andermann, Emery Benoit, Mrs. Vera Brown, etc.

Table with columns for candidate names and vote counts. Includes names like Mrs. C. J. Bellows, Joe Bulkley, Miss Ruth Caton, etc.

With the more aggressive contest, the candidates who have been entered in the campaign are rapidly making up for lost ground. A few long-time steady bunched and the candidates who have been entered in the campaign are rapidly making up for lost ground.

Speed Will Win. The crucial test is now at hand. If you ever intend to do anything big in this town, do it NOW. Instead of being in second, third, fourth, fifth, sixth or seventh place, for further down on the list GET UP AT THE TOP AND STAY THERE. Now is the time to secure an insurmountable lead, or to lose your vote. Now is the time to secure reasonably certain of the prize you most desire.

MEMORANDUM, 462,500 votes are allowed on every six-year subscription this week with next week the second period starts, whereby they take a very large decrease. And after the close of the "second period" there is still another big decrease in the number of votes given for such subscriptions.

These are the days to get busy—the work you do this big vote period COUNTS and FILLS UP MIGHTY QUICK. A number of changes in the standings of the contestants will be noticed in today's announcement. Newly entered candidates have made large gains in their totals and some of those who have been less active in the past are among those showing increased strength in their vote scores.

GIRL IS INJURED IN AUTO ACCIDENT

Miss Costello is Severely Cut by Flying Glass When Two Cars Collide

Miss Irene Costello, 531 Second avenue west, sustained severe injuries about the face last evening when a car in which she was riding was struck by another car on Main avenue south-near fifth street, the force of the collision shattering the windshield of the first car and shattering broken glass upon its occupants.

The accident, Miss Costello, with the Misses Martha White and Eleanor Munson, was riding in a car driven by Miss Irene Hall and traveling east, when another machine driving west, and whose identity the authorities have not yet established, and going westward, swung in front of the girl's car and collided violently. The machines locked together, doing considerable damage to the front of each car.

Miss Costello was taken immediately to the county hospital by Dr. D. L. Alexander, with one side of her face severely cut. The driver, who was said by an eye-witness of the accident to be driving on the wrong side of the street, left the scene of the accident and has not been apprehended.

Shortly after midnight Officers Austin and Ham arrested Nick Wilhelm, a single man, who lives in a small house to the west end of the city. Wilhelm was placed in jail. He did not deny being the man who drove the car that collided with the car in which Miss Costello was injured.

NAVY FLAGS USED IN WAIR. TO BE EXHIBITED IN CITY. Within the next few days the navy recruiting service will exhibit in the city a set of signal flags used by the United States navy during the war.

These flags are designed by naval experts in such shapes as to be easily distinguished at great distances and with no danger of confusion. They are named after the letters of the alphabet and different combinations make different flags as found in the secret navy signal book, which is kept by the commanding officer. They represent the same secret letters as sent out by radio at great distances when vessels are out of sight.

Signal flags, two, three or four, five hoists are used, the various thousands of combinations having thousands of different meanings. The signal flag hoists are used as emergency signals. They are announced by all the allies in separate international code.

As an example, suppose the senior ship of a convoy was one of our destroyers and there were French, Japanese, English, Russian and Italian destroyers present protecting the convoy. If the American destroyer sighted a German submarine on the starboard bow he could hoist a signal such as "a, b, c," which would mean in all languages at the same time "attack enemy submarine on starboard bow."

Each foreign vessel would have that meaning in their own language and there would be no necessity of waiting time by translating.
