

RUSSIAN IS IN CUSTODY OF OFFICERS

It is Alleged Journalist Was Seen Near Place Where Explosion Occurred

GOVERNMENT AGENTS ARE FOLLOWING MANY CLUES

All Sorts of Rumors Reach Headquarters of Police and Detectives are Kept Busy

By the Associated Press. NEW YORK, Sept. 18.—Alexander J. Bratlovsky, Russian journalist, who was taken into custody late this afternoon after the police had received an anonymous letter, that he was seen in the financial district a short time after the Wall street explosion Thursday noon, was formally placed under arrest just before midnight on a charge of being an undesirable alien. He will be turned over to the department of justice agents, the police said, while a check is being made of his movements.

Bratlovsky was seized in a small stationery store on East Seventh street in the rear of which is a printing shop where the "Rusky Golos" ("Russian Voice," described by the authorities as a "left" Russian magazine), is published.

SURE IT WAS BOMB. NEW YORK, Sept. 18.—Investigation of the explosion in Wall street Thursday noon which cost 35 lives and did property damage exceeding \$3,000,000 broadly divided itself tonight into two separate channels.

Firm in the belief that the bomber was caused by a time bomb set off by a band of anarchists, who were also implicated in the mail bombs in June, 1919, department of justice investigators headed by Attorney General Palmer and William J. Flynn, chief of the department bureau of investigation, have centered their efforts in seeking the identity of the person or persons who deposited five radical circulars in a mail box near the scene just before the explosion.

These circulars printed on cheap paper and signed "American Anarchist Fighters" threatened "sure death for all of you" unless the "political prisoners" were released. They bore a striking likeness, Chief Flynn pointed out, to those found in the investigations of June, 1919. Meanwhile police investigators were concentrating their attention on trying to establish the identity of the driver of the dilapidated wagon, which was abandoned near the J. P. Morgan and Company bank a few minutes before the explosion and which is believed to have contained the infernal machine.

Experts in the police bomb squad, who have examined and pieced together metal fragments believed to have been part of the bomb, delivered the deadly missile apparently weighed about 600 pounds, 100 of which were the explosive itself.

Arrest Stayaway. Department of justice agents late today arrested an Italian stayaway on the outgoing steamer. Credit on suspicion that he may have been implicated in the plot. He was taken to department headquarters, questioned and later released, agents stating he had satisfactory established his innocence.

The only other man being detained in connection with the explosion is Edwin Fischer, lawyer and former employee of the French high commission here, who sent postcard warnings of the disaster to friends in the financial district. He was turned over to the police of Hamilton, Ont., yesterday by his brother-in-law, Robert Popp, who said he was acting as a messenger. Fischer was later apparently incompetent by a lunacy commission, and temporarily confined in the Hamilton jail.

FRANKLIN D. ROOSEVELT SPEAKS IN CONNECTICUT

BRIDGEPORT, Sept. 18.—Franklin D. Roosevelt, democratic vice presidential candidate tonight wound up two days of campaigning in Connecticut, speaking from the same stand that Colonel Theodore Roosevelt well used in his campaign speeches. In the course of his speech, while he was touching on the league of nations, some one called out "what about Ireland?"

Mr. Roosevelt said that the republican charge that the United States was not on an equality with Great Britain in the league "was a half truth which was worse than a whole lie." To his interrogator at this point he said:

"It is my dearest hope that in a short time Ireland will have a voice in the league of nations." Mr. Roosevelt, in discussing the nomination of Senator Harding and the republican leaders said: "Suppose that in 1917, or 1918 Senator Harding or Senator Lodge or your own Senator Braniff, or on the other hand, the president of the United States had said to me, 'I'll follow citizens—all we are after in this war is a military victory, and when we have defeated the forces of the central empire we will bring our troops home and make a separate peace with Germany, reconstitute The Hague tribunal, and draw a Chinese wall around ourselves and let Europe and the rest of the world go to the devil.'"

"What would you have said then?" Mr. Roosevelt said that the United States had a double purpose in going into the war—to prevent its recurrence and to give smaller nations of the earth a chance to secure their own independence and right of self-determination.

"AMERICANISM" IS SUBJECT OF FRONT PORCH SPEECH

By the Associated Press. MARION, O., Sept. 18.—Americanism, in its meaning to the foreign born citizen and the "dingers of a hypocritical citizenship was the keynote of an address delivered from his front porch today to delegations of foreign born citizens by Senator Harding, republican presidential candidate.

The delegations comprising several hundred, came from New York, Chicago and cities of the northwest and Cleveland. While declaring that "it is not possible and ought not be expected, that Americans of foreign birth shall stifle love for kinfolk in the lands from which they came" the senator asserted that "we are unalterably against any present or future hypochondriacal Americanism."

Senator Harding was interrupted many times during his address by applause as he struck sympathetic notes. Touching upon foreign relations, the senator declared that "nothing helpful has come from the wilful assumption to direct the affairs of Europe" but that "on the contrary, the mistaken policy of interference has broken the draw strings of good sense and spilled bad foreign capital."

MASSACRE DECLARED AN ACT OF REPRISAL

Mining Engineer Aswells Bolsheviks Killed Japanese to Avenge Work of Military Forces

By the Associated Press. HONOLULU, T. H., Sept. 18.—That "the massacre of Japanese at Nikolevsk, Siberia, last March when several hundred persons were put to death by the Bolsheviks, was in reprisal for acts of the Japanese military forces there was declared by Edward H. Barker, a mining engineer of Vancouver, B. C., who arrived here today on his way home from Siberia. Mr. Barker, who had been stationed at Orem, a town on the Utah river, 125 miles southeast of Oremburg, said he had spent some time in witness of the events he recounted. Mrs. Barker, who is accompanying him home on the steamer Niles, also witnessed some of them, he said. He believed his story the first uncorroborated description of events at Nikolevsk to reach the outside world.

According to Mr. Barker's account, the Japanese forces at Nikolevsk attacked the headquarters of the Bolsheviks and when the Bolsheviks retreated, killed or tortured them. It was in reprisal for this, he said, that the Bolsheviks attacked the Japanese force, and residents in the town. Unarmed marines landed from gunboats, rescued the British and American residents of Nikolevsk, Mr. Barker declared.

The second in command of the Bolshevik, tele mining engineer said, was a woman who personally shot many prisoners in the Nikolevsk jail for amusement.

WARRANTS WILL WELCOME SUGGESTION FROM COMMISSION

CHICAGO, Sept. 17.—If the federal trade commission has any better plan to suggest the packers will welcome it. E. H. White, vice president of Armour and Company, said today when he learned that the commission had reported to Attorney General Palmer that the plan for selling the packers' stock yards interest to F. H. Prince and Company of Boston would not be a real separation.

"If the commission has a better plan we invite them to submit it and they may rest assured that if it is feasible it will be adopted." Mr. White said. He claims that the plan was a subterfuge and that the packers would not provide for a real separation of assets, but we are not so keen for the present plan that we will not welcome any plan which satisfies the public interest.

HOOVER IS MAN ABLE TO FILL CABINET PLACE

Governor Cox Tells People He Admires Ability of Former U. S. Food Administrator

EXCESS PROFITS TAXES SHOULD BE ABOLISHED

Levy Justified During War But is Not Necessary Now, Would Substitute Tax on Business

SAN FRANCISCO, Sept. 18.—Governor Cox, in an address here today before a luncheon of business men, referred to Herbert Hoover as a type of trained mind he would like to have in his cabinet if he could. The democratic candidate read this morning, made two luncheon speeches, made a brief talk at a reception in his honor, and then left for his hotel to visit some wounded soldiers at a hospital and to make a formal address tonight.

"Mr. Hoover's effective service in the war was largely due to his thorough training as an engineer," he said, "and it can hardly be said, one of the best engineers in the country will sit in my cabinet."

The governor also favored in this speech the abolition of the excess profits tax, which he said was justified during the war but no longer necessary, and the substitution for it of a tax of one or one-and-one-half per cent on the volume of business of a firm.

A luncheon by the San Francisco Chamber of Commerce, a woman's organization, he declared that the country would have had a much richer group of basic commodities in Russia if a lot of women of the character of Jane Adams or the heads of American educational institutions had been included in the front ranks to Russia.

A rotary fund by which the president could buy up an entire sugar crop in case other ways were modified during the war was not in session was proposed in most of his talks. He said the government should have inventories of food supplies.

CITIZENS SUGAR PROFITS TAX OAKLAND

OAKLAND, Cal., Sept. 18.—Sugar profiteers were arraigned here tonight by Governor James M. Cox, democratic candidate for president in the third speech of his twenty-four program. Speaking from the rostrum where President Wilson made one of the last speeches preceding his breakdown, Governor Cox reviewed attempts by the president to do through the profiteers who have reaped the fruits of the war—gold, silver, ugly and hateful.

"I am in favor, in circumstances like this," the governor said, "of the government, through congress, supplying a rotary fund which would be used in other ways modified during the war, to purchase as much of the sugar crop as is necessary to prevent profiteering." If elected in November I shall recommend to the congress that they be "done for future emergencies in food supplies."

"The extent to which profiteering prevailed during the war, and especially since the signing of the armistice, has been outrageous. The amount stolen from the people of America in that time by the profiteers would pay off the greater part of the funded debt arising from this war itself.

It must be more than a consolation that so many profiteers who were protected by the senatorial oligarchy in the present congress are paying their share into the republican campaign fund, which I charge will not be less than \$10,000,000. If Governor Cox will leave for Los Angeles tomorrow morning.

BROOKLYN IS BEATEN BY CINCINNATI REDS

Rush Toward Pennant Is Checked in Final Game of Season Between Two Clubs.

By the Associated Press.

BROOKLYN, Sept. 18.—Cincinnati stopped the on-rush of Brooklyn toward the National league pennant today by winning the final game of the season between the two clubs, 11 to 5.

Manager Robinson of the Superbas tried his best to stop the tide of the Reds' onslaught and before these champions were retired in the ninth, five Brooklyn pitchers had been used.

Hing and Margard were the opposing pitchers at the start and both retired in the sixth. In the first five innings Hing held Brooklyn to three hits, scattered over as many innings, while Cincinnati had touched Mar-

shall, then succeeded Hing and Myer, greeted him with a double that scored Myers to tie the score. Napier then pitched good ball allowing one more hit and losing a pass, the only Brooklyn men to get to first base. Smith started to pitch in the seventh but was withdrawn after two of the first three men to face him had hit safely. Then Robinson called upon his star, Grimes. A hit by Duncan sent home two runners and in two outs, three hits off Grimes added another run. Mitchell pitched the last inning, and three runs were added to Cincinnati's account as the result of three hits and Wheat's second error.

Score: R. H. E. Cincinnati 11 5 2 Brooklyn 5 6 2 Batteries: Hing, Napier and Marlston; Margard, Smith, Grimes, Mitchell and Miller.

THE HEAD OF MAKAU

July 10 was the final date fixed for the fulfillment by Germany of Article 316 of the Versailles treaty. It passed, and the article remained unfulfilled. Thereupon there was a great to-do about it, with the result that Germany has at last been released from the obligation.

The requirement in question was that Germany should, on or before the time specified, "hand over to His Britannic Majesty's government the skull of the Sultan Makaua (also written Makawa and A Quawa), which has been removed from the proclerote of German East Africa and taken to Germany."

It seems possible that Germany, after all, has been misunderstood and wrongly accused. Whatever else she may have stolen, she insists that she did not steal that East African potentate's skull. The British have reluctantly accepted the German story, which is this:

Makaua, for having given the Germans much trouble in their administration of East Africa, had a price of 5,000 ruyper set on his head. A German captain, with a band of troops set out to capture him. When cornered, Makaua killed himself rather than surrender. Thereupon a German sergeant, cut off the Sultan's head, took it to the nearest German fort and preserved it in alcohol. But the Sultan's followers broke into the fort, the Germans say, and carried off the head, leaving in its place, the head of another native—hardly the authentic head subsequently along with Makaua's body.

It is an interesting yarn, which may be true, but which might not

convince an American jury. The reason Great Britain demands the head in this that piece was that she wanted to return it to Makaua's tribe, which insisted on having it. Why should these tribesmen have a head for the head if they already had it? Moreover, if the Germans had a substituted head, why did not they return that, as the easiest way out, and say nothing about it? Germans are usually strong for substitutes. It might settle the matter. The matter is of no practical importance. The Germans, however, will now go ahead producing skulls for their other stolen goods. Instead of the goods themselves.

MAGSWINEY SUFFERS FROM EXHAUSTION

Lord Mayor is in Great Pain and Relatives are Anxious: He is Conscious

By the Associated Press.
LONDON, Sept. 18.—Tonight's bulletin on the condition of Lord Mayor Macswiney issued by the Irish Self-Determination League announced that the prisoner "continues in a state of extreme exhaustion and is in great pain, which lasted throughout the day." This, the bulletin adds, has caused great anxiety to his relatives. He is still conscious.

CORK, Sept. 18.—Doubt whether in the event of Lord Mayor Macswiney's death the British government would permit the body to be brought to Ireland for burial was expressed by municipal officials today. It was suggested that inasmuch as the government, in order to avoid demonstrations, refused Archbishop Mannix permission to come to Ireland, the same course was likely to be followed in this case.

FORTY-FIVE THOUSAND MINERS THREATEN STRIKE

DUBOIS, Pa. Sept. 18.—The special convention of representatives of district No. 2, United Mine Workers of America, in session here, decided today to notify the operators that a strike vote of the 45,000 miners in this region would be taken if the employers continue to refuse to com-

for with union officials on the question of wages. The operators are to stop five days in which to modify their attitude, according to the miners' decision.

DEAD MAN WAS SON OF PASADENA CITIZEN

ALBUQUERQUE, N. Mex., Sept. 18.—Francisco Arguello, who was found in an automobile last Wednesday night mysteriously wounded was the son of J. M. Arguello, of Pasadena, Cal., a wealthy orange grower. It was learned today, Arguello was wounded four times and died Thursday morning, but he had thought himself.

THOMAS HESHENS POSITION TO RUN FOR OFFICE

SALT LAKE CITY, Utah, Sept. 18.—Miss Thomas of Salt Lake, federal prohibition director of Utah, today wired to Washington his resignation from that office to take effect next Monday, he announced tonight. He will devote his time to campaigning.

MRS MOLLIE MALLORY WINS CHAMPIONSHIP

PHILADELPHIA, Sept. 18.—Mrs. Molla Bjornstedt Mallory won the women's national tennis championship for the fourth time today when she defeated Miss Marion Zborosten of Boston at the Philadelphia Cricket club.

CENTRAL STATE FARMERS WANT IDAHO SEED

BOISE, Sept. 18.—Farmers' organizations of Idaho, Ohio, New York, Michigan and Wisconsin are sending representatives into the state of Idaho this year to obtain Idaho-grown seed, as an arrangement by H. P. Sheehan, secretary of the Idaho Seed Growers' association, who is field assistant of the university extension division. This announcement is made in connection with the statement that the Idaho association, at its annual seed show, to be held in Stamps in January, will award cash premiums amounting to \$1500.

"This aim of the association," says Mr. Sheehan, "is to boost the seed industry in Idaho. We are going to capitalize Idaho-grown seed, and the premium list, just received from the show, will show that awards are to be made which are not equaled by any other show of its kind held in the country.

"How many farmers or other people in the state realize the position that Idaho-grown seed assumes when it is placed on the market? Our seed is in demand by the seed trade in every section of the country and up until recently that demand has been confined to the seed trade. Idaho-grown seed has been taken up by the eastern seed buyers and used as a blend with the poorer quality seed produced in other sections of the country. Our seed has not been sold as Idaho-grown seed.

Our potatoes, Irish barley, buckwheat, timothy seed, and many other crops. In addition, awards are to be made for all other classes of farm seed. Exhibits shown at the county fair are eligible for entry."

FOUND NOT GUILTY

SEATTLE, Wash., Sept. 18.—Six individuals and the Great Harbor Fishery company, charged with conspiring to defraud the government through the presentation of false claims for loans in connection with wartime ship construction, were found not guilty by a jury in federal court here today.

CONFLICT OF AUTHORITIES

WASHINGTON, Sept. 17.—Conflicts between the interstate commerce commission and the treasury department relative to interpretation of the transportation act for provision for loans to railroads from the \$200,000,000 revolving fund will be aired at a public hearing, the commission announced today, to be held here September 22. The commission has certified to the treasury loans aggregating several million dollars to a number of railroads including the Chicago and Northwestern, the Chicago, Burlington and Quincy, and the Santa Fe. Payment of loans involved in these loans has been held up by the treasury.

RAILROADS PETITION DENIED

CAIRO, N. Y., Sept. 18.—Holding that the act of the federal body did not suspend the state rights to regulate rates on intra-state business, the Nevada public service commission denied today the application of certain railroads for freight and passenger increases, based on rate hikes, recently granted by the interstate commission.

TROOPS ARE MOVING

AUSTIN, Tex., Sept. 18.—All troops will be out of Galveston by October 10, according to a statement issued by Governor Hobby late today. He said no troop movement would be started before October 5th, however.

SEVENTH AND EIGHTH GRADE PUPILS

Will Enroll at the High School Building Next Monday Morning

This year has completed the enrolling pupils of the Intermediate School next Monday morning at the High School building. Every room in the Intermediate School is used for lower grade pupils and, consequently, the Fourth Hall has been reserved for school purposes until the new building is completed. The auditorium of the Washington School and the auditorium of the Barlow School will also be used. The auditoriums of these schools and the Parish Hall are the only rooms available. There will be no other rooms for recreation purposes. This increases the problem to a very great extent.

Because there will be available in each place only one large room seating approximately 100 pupils, and because the regular recitation work of the pupils will need to be held in these large rooms, it is absolutely necessary that such groups of pupils involve as nearly as possible a single grade or grade division. If such groups have more than one grade or grade division, more teachers will be required and it will be the impossibility of performing any sort of organization that will be in any way effective.

Therefore, it is planned to have the 8A grade attend school at the high school, the 8B grade at the Washington School, the 7A grade at the Barlow School, and the 7B grade at the Parish Hall. It is realized, of course, that this will mean long walks for many pupils. This is most regrettable and the school authorities deplore the conditions requiring such plans of school organization. However, there seems to be no other way to handle the situation. And, too, the pupils will have good walks all the way and it is planned to move into the new building before cold weather sets in. The patrons are kindly asked to be as patient about this as they can, and to help in every possible way to solve a difficult situation.

When the pupils enroll at the high school next Monday morning, a book exchange will be opened so that used books may be sold and bought by pupils wishing to use second-hand books. Every pupil who has used books to sell is urged to bring his books Monday morning. Every pupil who wishes to buy used books is urged to come prepared to do so Monday morning.

A GOOD PLACE TO TRADE

Remarkable Sale of Suits

During the past week we have had not less than ten of our best customers make remarks such as, "Well, this year I do not intend to spend over \$50 for a suit." This gave us an idea and it is this: Why not mark this last shipment on a very close mark up, sell them for less than \$50 and move them in a hurry. So right at the beginning of the season here are some excellent values.

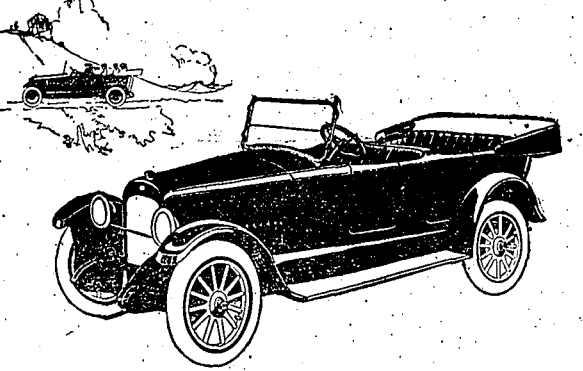

There are cheaper suits on the market, but not of the quality and workmanship that is to be found in these. All of the suits were bought to retail up to \$65 and they are worth that much. You need not wait until the end of the season to save from \$10 to \$20.

There are Silvertones, Broadcloths, Velours in navy, brown, tan, blue, and mixtures. Truly you can find just the suit you want for less than \$50. Choice next week

Grain

CHICAGO, Sept. 18.—Grain values took a downward trend today there being considerable profit-taking in wheat and liquidation in corn and oats.

At the flash wheat showed a net loss of 1 3/4 to 2 1/2c with December 2.40 to 2.40 1/2 and March 2.35. Corn was off 1 5/8 to 4c; oats were down 3-8c to 7 3/8c, while provisions showed a range of from 1 1/2 to 2c to 5c higher.

Wheat started with a firm undertone but this soon was lost because of buying by cash houses and selling by the local traders on the weakness in cash grains. Prices as a whole averaged lower. Duluth was reported to have sold 200,000 bushels Durum to the seaboard and some business was put through at the rate. A rally of more than 10 points from the inside here in sterling exchange also was in effect.

Liquidation was on in corn and oats with the deferred delivery of corn and all deliveries of oats at low figures on the crop.

Packers bought October hard and cash trade in that commodity continued brisk. Weakness in grain led to some selling and the market was lower.

With honors thus far about evenly divided candidates in the Chronicle's now famous automobile prize campaign are preparing with feverish haste and intensity to make their final stand for victory before 11 o'clock this coming Saturday night. The close of the second period schedule of votes.

coming so noticeable. Several of the candidates have voiced their determination to win at all hazards. One declared that to accept defeat would be a disgrace. Another said she owed her to her friends who have helped her so loyally to get to the finish every effort and draw on every resource to the extent that when the final day of reckoning comes everything will have been done and nothing left undone to better her chances to win.

Surging forward at the rate of several thousand votes at a clip, all of the leading candidates are dashing through the final days at top speed, straining every nerve in their final efforts for supremacy.

False Stories. It is no doubt natural, with such intense interest being shown in the great race that some candidates would attempt to discourage others by circulating rumors more ingenious than accurate. One hears of immense vote reserves stored away to dumbfound participants in the end, etc. But the tales that one hears are so highly embellished with facts, so utterly inconceivable that their untruthfulness is readily apparent. These exaggerated stories hurt no one but those who attempt to discredit them. The REAL contestants are those who are too busy either to listen or to be bluffed by these would-be bluffers.

A striking feature of the past few days in the personal pride that is be-

ing on the heels of personal honor.

the competition is being waged, usually. Shedding laurels on this inspiring sight in the civic pride nurturing itself. This mighty factor, is the bulwark behind the various candidates; in short, each community and each "cast" is zealously bent on their favorite and no community that values its reputation for doing things is content to let some one else walk off with the most desirable prize when a little concerted effort will "bring it home."

For this reason, and for the reason that the difference in value between the grand capital prize of the campaign and the secondary awards is approximately \$200 (quite a tidy little sum itself) you can expect to see a desperate struggle on all sides before the big prize is finally awarded.

Very Close Race. The entire race is so close that any one of the candidates can force to the front and clinch the coveted honors which the present big vote schedule is in force, faded the outcome of the whole battle depends almost entirely upon what each individual contestant accomplishes during the next few days.

Some hard work and real hustling will undoubtedly be seen in the next week. And is it any wonder? Some four of the hunters are going to make \$200 each, for their efforts these days. Another five wire contestant will make \$500 in gold. Isn't that sufficient compensation for the very best hustling almost "night and day" that one can make for so short a period of time?

HARDING SAYS CONSTITUTION AND LEAGUE INHARMONIOUS

By the Associated Press. MARION, O., Sept. 17.—Pronouncing the league of nations covenant irreconcilable with the American constitution Senator Harding declared in a constitution day address here that there had come for the United States to decide whether it would preserve or abandon the charter under which it had achieved nationality.

"The constitution or the covenant, that is the paramount issue," he said. "The two are irreconcilable. We cannot be governed from both Geneva and Washington. We cannot follow our present chief magistrate without forsaking the father of our country."

The republican nominee also assailed the administration's policy toward the smaller nations of the western hemisphere, asserting that the executive had usurped congressional powers to carry on an unconstitutional war with Haiti and San Domingo. He declared the recent utterances of Franklin D. Roosevelt, the democratic nominee for vice president had revealed officially for the first time the American government's "rape" of the two little republics.

The speech delivered from the front porch to detachments from several Ohio counties, reviewed the circumstances surrounding the making of the constitution and outlined the candidate's conception of the balanced powers of the executive, legislative and judicial branches of the government.

"The constitution has never failed America," he continued, "and despite reckless assertions to the contrary America has never failed the world. And now, as never before she stands ready, and let us hope, will soon be in a position through earnest cooperation of all branches of our government to lend a helping hand, but she herself must point the way."

"How can we, then, in reason and with confidence make sure of fulfilling our mission on earth? The first step in plain. We must strictly maintain and scrupulously observe, in letter and in spirit, the mandates of the constitution of the United States. We are no doing so now. We are at war, not alone technically with Germany, but actually with the little, helpless republics of our own hemisphere."

The Newest Things in Women's Shoes For Fall

Are Shown in Our Enlarged Shoe Department

And the newest of the new is the "BROGUE" a shoe that is taking the women of fashion by storm in all the larger cities. It is a shoe with lots of style and class tailored into it. A shoe made on the lines of the English last, yet without the narrow cramped feeling that this last embodies. Made of soft, pliable calf skin in a dark shade of brown, with perforations and stitching that sets it off to the best advantage. And the wing tip that is cut with a dash of style is the feature that makes this shoe popular with all who see it.

We also have this same style of shoe in the oxford, a shoe excellent for fall wear with wool sports hose or with fancy hose that will match the costume worn.

The high shoe comes in all widths, and sizes from 4 to 8, and is modestly priced at \$11.50.

The low shoe is priced reasonably at \$9.75, and comes in sizes from 4 to 8 and widths from A to D.

Many other attractive numbers are being opened up each day and the reasonable prices which we maintain on our shoes have made many customers for us. You will also take delight in visiting our enlarged shoe department and letting our courteous and efficient shoe men show the new modes in footwear to you. May we not have the pleasure to serve you?

Our finding stock of polished shoes is complete.
