## COLBY ISSUES STATEMENT IN CASE OF HAITI

Secretary of State Declares Purpose of United States is Accomplished

## REFUTES CHARGES THAT WARFARE IS CARRIED ON

Object is to Help People of Haiti But They Must Cease to Interpose Obstacles

WASHINGTON, Sept. 20.—Announcing that the "benevolent purpose" of this country's occupation of the island of Haiti was "nearing" atainment, Secretary Colby declared in a statement tonight that the United States "hopes to withdraw all leave the island's administration to the Haitian people when that object has been achieved." The relations of the United States with Haiti, the secretary added, should not be "misrepresented even under the temptations that a political campaign presents to irresponsible utterance and conscious untruth."

While not replying directly to recent charges by Senator Harding that the administration was conducting "unconventional warfare" against Haiti and San Domingo, Secretary Colby defended American occupation of those countries as being guided by "no thought except to help" their people.

In his statement Secretary Colby said:

"The position of the United States with relation to Haiti should not be misunderstood and it certainly should not be misrepresented even under the temptations that a political campaign presents to irresponsible utterance and conscious untruth."

"This country is engaged in a task which has only a benevolent purpose. It is a task which was undertaken for the benefit of the Haitian people and with their assistance the task was defined in a treaty entered into by two countries. The work which the United States undertook to do is nearing completion and upon its completion this government hopes to withdraw and let the administration of the island to the Haitian people."

"As is well known, for many years prior to 1915, Haiti was the scene of many revolutions and chronic disorders. The revolutionaries were accompanied by wholesale massacres and always by serious fatalities. Public authority had broken down and the people in the rural districts were frequently reduced to starvation. The revolutionaries of those conditions came with the murder of President V. O. Sam, who was dragged by a mob from the French legation where he had taken refuge. This grave affront to the rights of the French government resulted in the landing of French troops in Port Au Prince. At this time Haiti's European creditors were pressing for payment of the foreign debts and the fear was generally entertained that the French government would prompt an aggressive program on the part of some European government, which would not only challenge the Monroe doctrine but arrange for the United States for a failure to perform duties which it had expressly assumed as a part of the Monroe doctrine. These duties have nowhere found more explicit statement than in the address and messages of the late President Roosevelt."

"The performance of this duty, and with no thought but to help the Haitian people until order could be restored, the United States therefore, with the full assent of public opinion in this country and resulted in the Port Au Prince, September 2, 1915, and Proclamation of martial law was made by Admiral Caperton, commanding officer of the forces of the United States in Haiti and Haitian troops. It was expected that no interference would be contemplated or would be suffered with the proceedings of the constitutional government and Congress of Haiti or with the administration of justice in the courts of Haiti. The Haitian people were notified by the authorities of the

## LIVESTOCK PRODUCERS ARE ACTIVE

File Appeal Before Federal Reserve Board Asking Loans Be Not Curtailed

## CREDIT SITUATION IS DETRIMENTAL TO THEM

Banks of Country Must Extend Loans or Livestock Industry Will be Greatly Harmed

By the Associated Press.  
WASHINGTON, Sept. 20.—Hearings from what was described as possible "destruction of the livestock industry" through curtailment of banking loans was sought today by a committee of livestock producers. They asked the board to encourage banks of the reserve system to add them financially in making and marketing their products.

Extension Necessary  
The committee, which came as the representatives of a Chicago conference of producers, packers and bankers predicted dire consequences to the livestock industry throughout the west unless banks and cattle loan companies discontinue "cutting" loans. They said millions of dollars in loans were maturing this fall and they believed a resuscitation from the board that it approved of such credit extension by the banks would materially lessen the difficulties with which the livestock men have to deal.

Governor Harding said the board's policy has been to look upon the livestock and other food producing industries as "vitally essential." He explained the board could not digress from its main purpose to help banks but it had planned with the reserve banks for all the agriculture interests to the extent of nearly one billion dollars this year.

Committee spokesmen told the board that, as a result of the credit situation, "the little cowman or sheepman" was being forced to dispose of young stock which if he could borrow more money, would have been kept in the farms and ranges. Frank J. Hagenbush of Salt Lake declared this to be the indication of "a destruction of the industry." The sale of young livestock or breeding herds, he said, was being forced in many sections because the owners were unable to finance the feeding of their herds. He also said that in the Pacific northwest there was an abundance of hogs, but a lack to feed it to the business easterners.

Senator Jones, New Mexico, blamed eastern bankers for not "helping the livestock men of the west, instead of financing automobile manufacturers in exporting their products to Europe."

Governor Harding interrupted to assure the senator that the board could not say to member banks that they should or should not loan to the livestock industry. He declared again that it had never declined any industry as essential or non-essential but had left such decisions to local bankers.

Governor Harding said he did not believe the bankers who were borrowing were employing the credit that they might without the meat supply from the market. The board's information, he said, showed the loans to livestock men, in most all cases, were for actual production purposes. With this sort of use of credit he said the board was in entire accord. He added, however, that the board was without power to tender direct assistance since all banks control the loans they make.

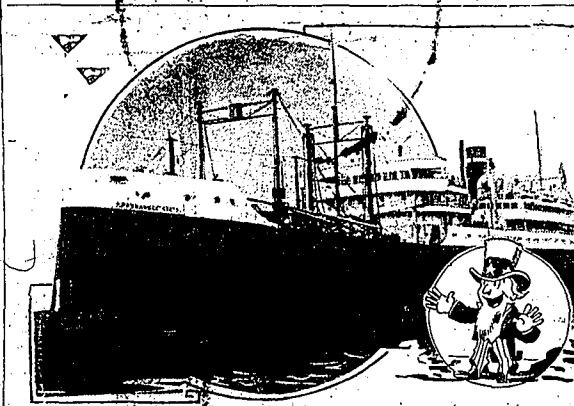

Other members of the delegation were Dr. J. N. Wilson, McKinley, Wyo.; Charles C. Collins, Carson City, Nev.; L. A. Vane, St. Joseph, Mo., and F. Fletcher, Chicago.

## INVESTORS KEEP STAMPS

WASHINGTON, Sept. 20.—Approximately 75 per cent of all war savings stamps sold by the treasury since the outbreak of the war are still retained by investors according to figures made public tonight.

The statement shows that total sales were \$5,840,000. Redemption to the middle of September had aggregated slightly more than \$360,000,000.

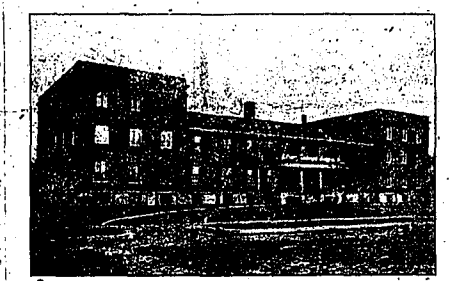

## Uncle Sam Builds First Passenger Ship

CAMDEN, N. J., Sept. 20.—Uncle Sam's first home-made passenger ship, the Panhandle State, which has been completed here, will be put into commission by the United States Mail Steamship Co. on the New York to London run in the near future. The Panhandle State is said to be the last word in comfort and luxury.

## TENTATIVE AGREEMENT FOR SALE OF BOYD HOSPITAL

Tentative agreements were completed yesterday for the sale of the Boyd hospital to an order of sisters of the Catholic church. Negotiations have been under way for the sale of the property for some time.

THE BOYD HOSPITAL.

The Boyd hospital is the largest one in the county and is one of the finest equipped institutions of its kind in the southern part of the state. An addition was built to the hospital during last winter.

## RAILROAD IS PLANNED TO CONNECT WITH MAIN LINES

WENATCHEE, Wash., Sept. 20.—Articles of incorporation have been filed for the Wenatchee Southern Railway company, organized to build a railroad from Wenatchee south along the Columbia river to Pasco, Washington, connecting four main east and west railroads. It was announced today.

The route are the Great Northern, Northern Pacific, Chicago, Milwaukee and St. Paul, and the Oregon, Washington Railroad and Navigation company. Preliminary surveys have been made and preliminary financing has been taken care of. It was announced. Permanent survey work is to be commenced at once.

The incorporators of the Wenatchee Southern include barons, merchants, prominent bankers, business men and fruit growers in the Wenatchee valley.

## ILLINOIS PUBLISHER BEGINS SERVING SENTENCE

DAVENPORT, Ia., Sept. 20.—Dan Drost, publisher of the Rock Island News, a weekly sensational publication, today began serving a year's sentence, imposed by the district court upon his conviction for libel. The sentence was imposed nearly a year ago but Drost forfeited his appearance, bond and kept himself within the confines of Illinois.

A regulation for his return was honored by Governor Lowden.

CIVILIANS FIGHT SOLDIERS  
DUBLIN, Sept. 20.—Armed civilians today ambushed a military lorry escorted by ten soldiers. In the ensuing battle two civilians and two soldiers were wounded. It is reported that one of the soldiers later died. Two civilians were said to have been captured.

## NO MATERIAL CHANGE IN LORD MAYOR MACSWINEY

By the Associated Press.  
LONDON, Sept. 20.—Although a little brighter tonight than this morning, there is no material change in Mayor Macswiney's condition, according to the evening bulletin. He is still comatose.

Mrs. Macswiney said her husband is not yet answered by the home office with: "If he is we do not know it."

It is noted that it would be virtually impossible for any one to administer Macswiney without physicians' attending, aware of it.

The government physicians and nurses have attempted to induce Macswiney to eat and if their efforts have not with success the officials say they certainly would report it.

The case has dragged so long that most of the London papers confine their accounts to paragraphs, some of the more recent, "Today, however, the Evening News says it has a report that the lord mayor is far from being cheerful and very sulky Sunday."

The paper adds: "He slept most of the night from 10:30 on, his temperature 97.2 and pulse 66 and varied from week to regular. During the night he had drunk some hot water. In the afternoon he was able to sit up in bed and be washed. He seemed to have sufficient strength to assist in the process. He was able to talk a good deal and read newspapers."

## GRAND ARMY VETERANS HOLDING GREAT REUNION

By the Associated Press.  
INDIANAPOLIS, Ind., Sept. 20.—The boys who in '61 answered the call of "Father Abraham" tonight joined Indianapolis. The city and state were formally turned over to them by Mayor Charles W. Jewett and Governor James H. Goodrich at the 12th reunion of the G. A. R.

Several responses to the addresses of welcome were made.

The executive committee today voted to ask the delegates to increase the per capita tax to 10 cents per member. The tax is three and one-half cents, not having been changed since 1890 when the membership was 124,000. The membership at present is 103,200 and it will be necessary to take money from the permanent fund to pay expenses of the encampment. Ten thousand veterans had registered tonight.

## COUNCIL OF LEAGUE IS SMOOTHING DIFFICULTIES

By the Associated Press.  
PARIS, Sept. 20.—The sixth session of the council of the League of Nations adjourned today after having smoothed the difficulties between four nations in controversy which had threatened to result in war in the Polish-Lithuanian crisis the council got the two countries to agree to an immediate suspension of hostilities pending settlement of their disputes.

The Aland Islands question likewise is considered in a fair way for settlement. A Finnish reservation was explained as having been made largely for technical reasons.

Longue officials explained that, although neither Finland nor Sweden was legally bound to accept the league's decision they were morally bound to accept it.

## STATEMENTS OF ALLEGED WITNESSES

Explosion Occupies Attention of Officers; One Man Says He Saw Death Wagon

## FISCHER IS ELIMINATED AFTER LONG QUESTIONING

So-Called Witness is Sent to Hospital for Observation but He is Believed to be Insane

By the Associated Press.  
NEW YORK, Sept. 20.—Statements by two men, one of whom claims to have seen "the death wagon" which carried the explosive standing near the explosion in Wall street occurred, and the other who claims to have seen Isaac non flammage, away from the scene just before the blast, furnished the most important developments today in the investigation of the disaster.

Other developments included: Announcement by the district attorney's office that Edwin P. Fischer, lawyer and former employee of the French film commission, who sent postcard warnings of the disaster from Toronto, had virtually admitted himself from lack of direct knowledge or complicity in the case after eight hours questioning.

Receipts of a warning by William H. Edwards, collector of internal revenue, that an attorney would be made to destroy the random papers at 2 p. m. tomorrow. This was regarded by the police as a hoax.

Identification of the hitherto unidentified body, previously believed to be that of the driver of the explosive laden wagon, as that of Ed. W. Fisher, a chauffeur, and lack of any evidence connecting him with the crime.

Release of Alexander Bravinsky, a Russian Jew, who was arrested on a technical charge of being an undesirable alien after he admitted having been seen in the vicinity of Broad and Wall streets shortly after the explosion.

Search for federal agents for a reported period cache of explosives on Plum beach island, a government reservation off Sheepshead bay where a quantity of trinitrotoluene was found in an abandoned vessel several days ago.

Joseph Meade, an agent for the Society for the Prevention of Cruelty to Animals, in the man who claims to have seen "the death wagon." He said he had been sent to Mahattan from a Brooklyn car, where a summons and that while walking up Broad street, noticed an old red delivery wagon in front of the assay of five around the corner. The horse appeared broken down, he said, and he made an examination of it, finding a bad sore under the collar.

He looked at his watch and noticed it was 10:30; he told the police and waited beside the wagon until 11:30 with the intention of serving a summons. He also noticed that all the horses in the area were being forced in order to arrive his Brooklyn summons. He did not examine closely the contents of the wagon but described it as "an ordinary dilapidated express wagon."

Noted Kind of Collar.  
He also told the police the collar worn by the horse was of the "K" type and that this is the kind of collar found in the street after the explosion. He also noticed that all the ornamental knobs and markings had been stripped from the harness and in this, too, his description tallies with that of the material found. He also stated that the horse had been bit recently clipped and that the wagon bore a name but had some numbers on the side.

Police attach considerable importance to Meade's statement.

Information that three suspicious-looking men were seen near the scene was furnished by Samuel P. Wellington, president of the West Indies Trading company. He declared he left a lawyer's office in Wall street a few minutes before the explosion and as he did, the hard voices calling.

# BROOKLYN MAINTAINS EXHALTED POSITION

Increases Lead Over New York to Five and Half Games; American Leaders All Win

NEW YORK, Sept. 20.—The Brooklyn Nationals increased their lead over New York today to five and one-half games while the three American League leaders all won, Cleveland retaining its game and a half lead over Chicago.

Brooklyn won from Pittsburgh and gained a half game, as New York and Cincinnati split a double header. The Superiors have only to win four games out of seven to place the pennant beyond New York's grasp; and three out of seven to make it impossible for Cincinnati to reach the top.

In the American league both Chicago and New York put much hope in the Cleveland-Chicago series being thrown Thursday.

If the Indians win half of their 12 remaining games, they will lead the league with a six out of 9 to the them and the Yankees seven out of eight.

## RUSSIAN STATESMAN IS UNABLE TO SOLVE COLBY

LONDON, Sept. 17.—(Pittsburgh Press.)—United States secretary of state, between Armenia, Poland, Finland and other nations of Russia that have declared their independence, which were made in the course of Mr. Colby's note of August 1 to the Italian ambassador in Washington, are "impossible to understand and probably the result of insufficient information to the facts of national conditions in eastern Europe," said George Tchitcherine, Russian bolshevik minister of foreign affairs. Mr. Tchitcherine has addressed a note to the Italian government and "to soviet representatives abroad" in which he answers some of the conclusions reached by Mr. Colby in discussing Russian affairs.

The foreign minister's communication was dated at Moscow Sept. 10, and has been published in the London Daily Herald, organ of labor. Mr. Tchitcherine says Mr. Colby considers the demand for independence of Poland, Finland and Armenia legal, saying they were "annexed" to Russia by force and that their separation does not infringe upon Russia's territorial rights. He asserts the secretary holds that other "oppressed nationalities of Russia" were not annexed by force and that the desire for independence of Azerbaijan, Lithuania, Latvia, Estonia and

Latvian peoples, either in the form of complete independence or in federation with Russia are theirs. "The exceptions allowed for by Mr. Colby," says the foreign minister, "underline the more emphatically his adherence to the traditional inviolability of the former great empire, while at the same time his friendly mood toward Russia is conditioned upon the fact that her government shall not be a Soviet government. As a matter of fact, any other government at present is a bourgeois or capitalist government, and in view of the present economic implication of the world, that means a government connected with the interests of the world's dominating financial groups.

"Among these, as a result of the world war, the most powerful are the North American financial groups.

## LADIES! DARKEN YOUR GRAY HAIR

Use Graubina's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and sulphur for restoring faded, gray hair to its natural color, dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

Just brewing at home in half an hour and out of date. Nowadays, by adding to any drug store for a bottle of "Welling's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known down town druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. Adv.

# OUTLOOK IS FINE FOR FOOTBALL TEAM

Coach Evans Pleased With Material That Is Available for High School Eleven.

Football men of the local high school are already in training for the coming season and from a preliminary survey of the material, Coach Evans expects to turn out a winning team for Twin Falls. Over 35 young men have been out in uniform during the past week and all working hard for a place on the team.

"Just come, who has charge of developing the team is very enthusiastic over its prospects. He stated yesterday that with the material at hand he was very confident of bringing the championship in the season to Twin Falls. Coach Evans has turned out winning teams at Pomona, and San Diego, California, and comes here with considerable reputation.

Coaches of the various schools of the southern part of the state met here Sunday and completed the playing schedule for the season. The schedule for Twin Falls follows:

October 1, Filer at Twin Falls; October 5, Jerome at Jerome; October 15, Buhl at Twin Falls; October 22, Wendell at Wendell; October 27, Buhl at Twin Falls; November 3, Gooding at Gooding; November 12, Rupert at Twin Falls and November 19, Buhl at Buhl. The Twin Falls team has several open dates which will probably be filled later.

## PLAN OF PACKERS REPORTED REJECTED

Department of Justice Does Not Endorse Project to Enable Packers to Dispose of Stockyards

By the Associated Press.  
WASHINGTON, Sept. 17.—(Herald Tribune.)—The department of justice of the plan of the "big five" packers for disposing of their ownership in stockyards was recommended today by the federal trade commission in a special report to Attorney General Palmer.

The packers' plan, providing sale of the stockyards in 15 cities to E. H. Prince and company of Boston and formation of a holding company for the yards was attacked by the commission on the grounds that it would permit increased rather than diminished control by the packers. The plan was drawn up by the packers after filing of a consent decree in federal court here which disposed of anti-trust litigation started by the government against the packers.

The effect of the government litigation, the commission said, would not be accomplished by the packers' plan. The 15 yards, included in the plan handle 73 per cent of the live stock received at all yards in the country, the commission reported.

### STOCKS WERE IRREGULAR

NEW YORK, Sept. 18.—Stocks were irregular today on the New York market, settling for profits and settlement of speculative accounts but the trend for the most part was upward.

Rail dominated the session but the market was not unduly confined to railroads. "Speculated" prices of St. Louis and San Francisco and New Orleans, Texas and Mexico also recorded substantial advances.

Calls displayed none of their recent buoyancy. Steamship, however, not only Atlantic Gulf and Mediterranean Marine, were responsive to better trade conditions.

Variable gains marked the buying of Vanadium Steel, Baldwin, United States Rubber, Kelly Springfield and Consolidated Textile, but this was balanced by moderate reaction in Central Leather Stockholder, best sugar and several of the unclassified specialties. Sales were 400,000 shares.

An advance of 1.54 points in the Coteau, French municipal bonds was the noteworthy feature of an active bond market. The general list, including Liberty also showing firmness. Total sales, par value, \$6,125,000. For the week old United States two and four were 1.4 percent higher on call.

The weekly statement of the clearing house banks reflected recent heavy shifting of funds in connection with federal tax and Liberty bond interest disbursements, actual loans and discounts increasing by about \$112,000,000. This expansion is without precedent since the first of the current year.

CHICAGO, Sept. 20.—The Chicago White Sox strengthened their grip on second place in the American league tonight when they beat Philadelphia, today, 5 to 1, in 10 innings. The Sox scored three runs in the first inning, on an error by Philadelphia, 13 to 6. Fisher held the Athletics scoreless until the ninth when they rapped out five hits which, with an error, netted six runs.

The Sox collected 15 hits off three Philadelphia pitchers. Rishberg led the attack with a triple, a double and two singles in four times at the bat.

Harris started on the mound for Philadelphia but was forced to retire after the sixth. Blalock, his successor, was wild and he gave way to Keefe.

After the Sox had taken a con-mundling lead, Manager Gleason used five utility players.

Fisher pitched a mastery game, holding the Athletics to seven scattered hits in eight innings.

## Folks Just Keep On a-Coming

If you good people will keep right on coming just as you have been for the past month, between us we will make this big closing out sale one of the marvels of the retail trade.

It has been generally regarded as an established fact that after a stock has been about half sold that things begin to drag as it were, but not so here for trade has been good for weeks, phenomenally good for the time of year and remarkably good under the circumstances and the best part of it is that the sales keep up way beyond expectation.

## There Must Be a Reason

Now I am still glad to do my full share and if you folks will continue to do your share as you have been doing we will make these last weeks of this big sale an event to be remembered by all of you as a money saving sale worth while.

## COMMUNIST FAITH

The remarkable industrial experiment undertaken by Italian organized labor is notable for the childlike faith shown by the rank and file, and apparently by the leaders of the movement, in their ability to succeed against odds which to most observers seem insurmountable.

The Italian metal industries have to obtain their raw materials abroad. Italy has no iron or coal. The workers, soviets have no arrangements made for importing those and other materials needed. If they do perfect a buying organization, there is no indication that Italian banks will finance their purchase orders. They will soon have all the materials on hand used up. What then?

They believe, with blind faith, that they can get materials somehow. The railroad workers, they explain cheerfully, are "bringing coal and materials." But how will it be when there are no more coal and materials for those friendly railroads to bring?

Likewise with the selling end of the business. The workmen do not know anything about selling and have no selling organization.

They have no doubt whatever about their ability to continue manufacturing their usual products. They have turned out the further managers and bosses. "We have learned this much already," says Commissary Gilli, "that the men will work in good spirits without superintendents." But how long will that last? Even Lenin, in Russia, found that her could not operate the factories long without managerial skill, and so brought back many former superintendents at fancy salaries.

"We won't bother the banks," says Gilli. "Our workers are willing to work without pay for a long time." That is admirable, but how long can they live without pay? And when they need it, where will the pay come from?

Leaders are assuring the men naively that they need not worry, for "mints for coining new communist money are ready." But coining money is a governmental function, and the movement is supposed to keep clear of political complications. If such money is manufactured, moreover, it will not be gold or silver, but paper and everybody knows that has worked in Russia, where it takes bags of banknotes to buy a meal.

Investigators report that the workmen, however good spirit their spirit may be, have only 25 to 50 per cent efficiency, because "the men spend a great deal of time in idle discussion and conference on the general situation." Again, like Russia!

If that communist experiment succeeds, it will be a miracle.

## COTTON SPECULATION

The president of the Citizens and Southern Bank in Savannah, Ga., has announced that "speculators who propose to hold cotton indefinitely for the purpose of forcing up the price cannot get credit." If this attitude is taken by southern banks, generally, and upheld by the Federal Reserve Banks, it will interfere materially with the desire of cotton-growers to force up their product to 60 cents a pound. Cotton men, accordingly, do not approve of such a policy. The great, consuming public gives its hearty approval.

Cotton has been selling lately at about 29 cents a pound. That is less than the war-time price, but it is three times as much as the staple brought ordinarily before the war. Is it possible that it costs more than three times as much to produce cotton now as it did then, or that the producers need more than three times as much profit? They should make that quite clear before undertaking any price-fixing campaign. The millions of consumers who have been paying even more than three times the old price for all cotton goods they buy are naturally unfriendly to any movement calculated to continue the current rates for goods which they are convinced ought to be cheaper.

Whatever price the planters can get for their cotton legitimately, through the normal operation of the law of supply and demand, cannot be objected to. They will be given, without question, the usual two or three months' credit

to get their crop to market. But there will be powerful and widespread objection if they are enabled, on a big scale, to use funds controlled by the federal banking system to carry their crop indefinitely for speculation purposes, thereby profiting unduly at the expense of the rest of the nation.

## THE IGNORANT MARKETER

Experts have pointed out frequently that 95 per cent of all the money that is spent for food is spent by women. Yet those familiar with the ways of the feminine marketer declare that the majority of women select food for its flavor rather than for its food value.

In these days of excessive prices it is unfortunate that those who spend so large a portion of the nation's wealth in supplying its tables should be ignorant on such subjects. They should study food values and the relation of one article of diet to another, so that they may go about their shopping with intelligence and economy. Children should be trained along these lines also, so that they may help in one of the family tasks and acquire valuable knowledge for the future.

The Department of Agriculture issues three pamphlets dealing simply with these matters. It is a pity not to use all available information in dealing with a subject of such importance.

and the home buyer who is shut off from other study of household economics will find them helpful. They come under the headings: How To Select Foods 1. What the Body Needs; 2. Cereal Foods; 3. Foods Rich in Protein.

## THE WOMAN OFFICIAL

City Welfare Director, in charge of parks, playgrounds, boulevard system, municipal hospital, workhouse and city farm—that is the position to which an intelligent and energetic woman has been appointed by the mayor of her city.

When offered the position her reply was: "I'll have to talk it over with my husband. Women should never let anything interfere with the peace and happiness of their homes." Her husband assented promptly to her acceptance of the honor, for he had learned by previous experience with his wife's civic activities that women, like men, can attend to public duties and still retain the domestic virtues.

The new welfare director has some rather definite views as to official etiquette. "I am a voter, a citizen and a public official," she says, "and I want to be treated as such. I don't want men to stop smoking or to stand up every time I enter their offices. Too much formality hinders cooperation, and that is what I want and need."

This woman's attitude may fairly be considered typical rather than individual.

## JOY FOR THE GARDENERS

There will be joy among the gardeners. Fifteen million Dutch flower bulbs, including hyacinths, narcissi and tulips arrived in New York the other day on the steamer Luckenbach, direct from Rotterdam.

The importation of shrubs, flower seeds and bulbs from Europe was practically abandoned during the war, and even after peace was established there was no perceptible increase in the imports. The stoppage of these supplies has worked a hardship in the flower-growing world, and it is partially due to this scarcity that prices of flowers have become so prohibitive.

There has been one beneficial effect in this shortage, however, as in many another. It has stimulated the activity of American growers and dealers to the production and development of American growers and dealers to the production and development of finer native varieties.

With the resumption of European trade in plants and flowers, along with the domestic improvement, the American arden, fast attaining fame all over the world, should glow with beauty next season as never before.

## AMERICANS GUESTS OF MEXICO

Early next month the Mexican Government will be host to 200 Texas Business men. There is to be a trade excursion into several Mexican cities for the purpose of promoting more friendly relationship between the two countries and also to celebrate Mexican peace. An agent of the Mexican government, appointed to act as personal conductor of the tour is now making arrangements. The Americans will not need passports and will pay no travelling expenses.

Among the cities which the Americans are invited to visit are Chihuahua City, Santa Rosa, El Financiero, Torreon, Zacatecas, Mexico City, Monterey and Guadalajara. The excursion will start October 10.

A few days thereafter a convention was signed by the two governments, expressing the mutual desires of both countries to strengthen the unity between them by measures for the common advantage. The United States dedicated itself to assist Haiti in three specific ways: to co-operate with the Haitian government in placing the revenues and finances of Haiti on a stable basis; to help the Haitian government to maintain tranquility throughout the republic, and to contribute in other proper ways to secure the prosperity of the republic and welfare of its people."

## STILL COUNTING BALLOTS IN ILLINOIS PRIMARY

CHICAGO, Sept. 20.—Little progress had been made tonight in the official count of ballots cast in the Illinois primary last Wednesday. The twenty-eight precincts tabulated showed little change over the unofficial tabulation.

There were frequent charges of fraud by both sides in the republican contest between the ticket supported by Mayor Thompson and that backed by Governor Lowden.

## BOND ELECTION IS ASKED BY COUNCIL

\$75,000 Will be Needed to Pay for Paying Intersections; \$20,000 for Fire Apparatus

In order to provide funds to complete payment for paying street intersections in the local improvement districts, city council last night ordered papers drawn calling for a bond election for bonds to the amount of \$75,000. Bonds for \$20,000 to provide new fire equipment will also be asked.

The bond issue of \$75,000 will pay for paying street intersections that are already completed but for which there were not sufficient funds in the last bond issue to take care of.

Council expects to make the fire department of the city of Twin Falls one of the first in the country and will call for the issuance of bonds to the amount of \$20,000 to provide for it. All equipment will be motorized and several new trucks will be added.

Property owners who have popular trees whose roots are trying to break through the paving will be ordered to remove them according to a decision made last night by council. It was pointed out that popular trees along the paved streets are shipping a tendency to ruin the pavement and to prevent this council has ordered them cut down.

## HUNTERS RETURN HOME WITH TROPHIES OF CHASE

With two mountain goats and one deer, Dr. Hal Hietler and Dr. Weatherly returned Saturday night from the Snake River valley. They have been hunting to the west. One of the goats secured by Dr. Hietler was a huge billy weighing some 200 pounds. It is a magnificent animal. He shot the animal, so he says, with a .22 highpower rifle at a distance of between 500 and 600 yards. The other goat was a mummy and was shot by Dr. Weatherly. Although much smaller than the one secured by Dr. Hietler it is a good specimen and Dr. Weatherly is well pleased with himself.

The two hunters report considerable snow in the mountains and state that the goats and deer are plentiful.

## PATRONS OF HOTEL HEARING FINE MUSIC

Patrons of the Hotel Rogerson have been having the rare privilege of hearing several well known Salt Lake musicians during the past few days. The artists give vocal and instrumental programs daily. Miss Becky Almond is heard at the piano of which instrument she is completely the master, and Mrs. Zena Morris, soprano and Fred C. Graham, tenor, are delighting the audiences at the hotel with their voices. These artists formed the nucleus of the Salt Lake Opera Quintette which was heard during the recent concert fair.

"Hurry."  
"Wait."  
"Get out of this."

He looked across the street and saw two middle aged men, who looked to him like "East Side Peddlers" beckoning and calling to a third man who was the other side of the street nearer the assay office and across the street from the Morgan bank. The third man, believed to be about 30 years old, and described as "grocery looking" was then peering into the ramshackle wagon at the curb.

In response to the call of the others, the third man, Mr. Wellington said started to run after them toward William street. He took them for hand thieves, he added, and expected to see them chased by a policeman. When he reached the corner of Nassau street he was knocked unconscious by the explosion.

Held for Observation.

At the conclusion of Fisher's examination he was sent to the psychiatric ward of the Bellevue hospital for observation. If adjudged insane, measures will be taken to have him committed to an insane asylum. It was announced by the district attorney's office.

Secret service operatives declared Fisher had been investigated four years ago and found "a harmless letter writer." He is alleged to have sent President Wilson several "verbal letters" in 1918, posing as a religious pacifist and calling upon the president to stop the war and by so doing put an end to the "slaughter of human beings." No action was taken against him at that time.

Testimony tending to contradict that of Mead, was later furnished by Oscar Snyder, a Y. M. C. A. secretary, who said an automobile truck drove up in front of the assay office to carry him at 11:45 a. m. Thursday and that no other vehicles were parked near there at the time. This was confirmed by the men who took away the ashes.

Detective Sergeant James Gowan, who accompanied federal agents to Plumb Island declared he had found a base of snickelous powder weighing 200 pounds today in the bulk of an old boat at Plumb Island.

PLAIN SILKS, FANCY SILKS, WASH SILKS, HEAVY SILKS, LIGHT SILKS, FALL SILKS, BLACK SILKS STREET AND EVENING SILKS, AND EVERY OTHER KIND OF WANTED SILKS

Here is one week where Twin Falls women are going to be able to buy silks—silks for fall, silks for the present, silks for every conceivable need and purpose, at a price that three months ago would have seemed a dream. To buy them at a time when silks are in a revel of popularity, when the silk market is fast beginning another upward trend, when all of the fashion reports from Paris and New York are forecasting that nothing shall be so completely fashionable for fall wear as silks, this is truly an extraordinary event.

They are all new silks that have arrived recently. You should buy every silk need for months to come as prices won't be as cheap again this year.

# WHO WILL WIN?

Who will be the winners in the Chronicle's big gift-giving campaign? Who will ride in the handsome motor cars? Who will be presented with the bag of \$500.00, in gold? These questions are the principal topic of interest in Twin Falls and vicinity. Only a few more days and the questions will be answered.

Scores of predictions have been offered—palmists and exponents of the occult science have been consulted by some in an endeavor to obtain some inkling of what the outcome will be. But the final result is as much in doubt as ever.

In frenzied effort to eliminate as much of this doubt as possible, candidates all over the Chronicle's territory are scouring the communities ceaselessly. From the waking hours of morning until the day is done, these ambitious candidates are fighting the battle courageously, never pausing but keeping busily at it so that the tide of favor will sweep toward them.

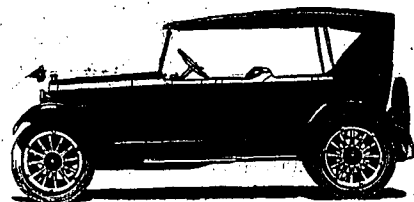

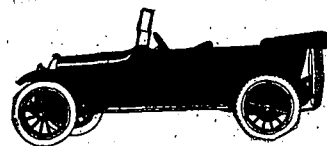

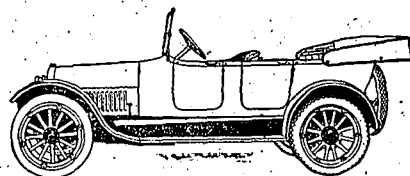

Such stirring scenes as this, with such eager candidates filled with the spirit of conquest, have never had their equal in this section! The race for supremacy is rushing forward nip and tuck.

Many of those who apparently have little chance, if they are to be judged by their present vote standing, promise to spring such surprises at the end as will send the too confident ones down to defeat. Over-confidence is the biggest handicap under which a candidate can work. This unwelcome handicap causes more regret than anything else in a campaign of this kind. The only way to be

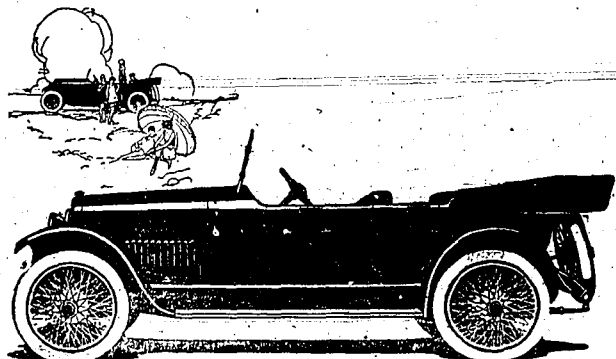

sure of winning is to spend every minute scouring for subscriptions. Perseverance is the only winning quality. And see what there is at the top of the "ladder of success" for the plucky ones—luxurious touring cars worth \$2,000 each and hundreds of dollars in gold and silver. These prizes will make their owners proud. No luxury compares with the delight of a really fine and costly automobile and these dandy cars that will be given away stand out with radiant splendor.

The big schedule of votes in effect until next Saturday night and the 100,000 EXTRA FREE VOTES offer coupled with the second payment schedule, makes a rapid rise in votes easily possible. One candidate said yesterday that she was making a thorough canvass of every subscriber she had previously secured and thus far her returns averaged better than 50 per cent.

Determined methods are being brought into play to make an exhaustive "clean-up" of the territory. Candidates are darting hither and yon, ever in quest of votes. Make these days the most active of any that have gone before that VICTORY may crown your efforts. The BIG vote schedule points the way—to delay is to lose the splendid chances that are now yours. The time is short—only six working days until the end of the "second period"—any candidate can make themselves a sure winner in that time. Get started early Monday morning and when the sun sets on the final day you will be able to say that your work was a mighty effort, well put forth.

"Four More Days" These three words have a mighty big meaning when we consider the importance of the result of the Chronicle's big automobile contest which is now rapidly nearing its conclusion.

The last of the big votes will undoubtedly be the deciding factor in determining the winners of the automobile contest which is now rapidly nearing its conclusion.

Who Is Your Favorite? For five weeks the contestants have been engaged in accumulating votes, and during this time the Chronicle's grand prize election has gained fame that is widespread. This is the most liberal prize-winning contest ever conducted in the section of the state.

The efforts and influence of the candidates these past few days should be crowned with an avalanche of votes that will be a surprise to the thousands of people in this section of the state. This is the time for candidates to bid themselves with vim and vigor into the fray.

Blue List of Contestants. The Chronicle is fully proud of the list of contestants that are competing with vim and vigor in this exciting "battle of votes" for the big prize which is now being offered in this section of the state. It seems that each community and neighborhood of the county and city has chosen its brightest and most energetic leader for its representative in the election. And these favorites are well fulfilling the expectations of their hundreds of friends and supporters in their respective communities.

After a long and hard day of the "second period" approach to the "first period" approach, the "first period" approach is now being offered in this section of the state. It seems that each community and neighborhood of the county and city has chosen its brightest and most energetic leader for its representative in the election. And these favorites are well fulfilling the expectations of their hundreds of friends and supporters in their respective communities.

## SEARCHERS UNABLE TO RECOVER BODY

Efforts to Secure Remains of P. A. Hector, Drowned in Murtough Lake Sunday.

Searchers for the body of P. A. Hector, who was drowned Sunday in Murtough lake had their efforts unrewarded at a late hour last night. All afternoon Sunday and all day yesterday the lake has been dragged, but no trace of the unfortunate man found. Draining of the lake was started yesterday and it is expected that the body will be recovered some time today.

Hector, who is a business man of Oakley, in company with S. H. How-

ers, also of Oakley, were duck shooting on the lake Sunday when the boat they were in capsized. Drovers swam to safety, but Hector, after clinging to the overturned boat for a few moments, released his hold and sank immediately. No trace of the body has been found since.

Hector was in the garage business at Oakley and was a partner of M. H. Fennell of that city. He has a wife and one child.

According to Sheriff Sprague, who has charge of the search for the body, four feet of water was drained from the lake yesterday. The water is being taken off by means of two hook and several irrigation canals. About four feet remain to be drained.

M. F. AND S. CLUB TO MEET

The M. F. and S. Club will meet at the home of Mrs. S. Watkins Wednesday afternoon, September 22.

## NO OBJECTION MADE TO PROPOSED ROAD

First Hearing At Wells, Nevada, On Petition of Idaho Central Is Harmonious.

Not a single objection was presented at the first hearing on the petition of the Idaho Central railroad for a certificate of convenience and necessity held yesterday at Wells, Nevada, before a joint commission from Idaho and Nevada, according to word received by The Chronicle last night. Representatives from the Oregon Short Line and the Southern Pacific railroads were present at the hearing. A number of ranchers of the Wells country as well as business men testified before the commission of the road and told of the number of cattle they would feed in the Twin Falls country during the winter and the amount of hay and straw they could use if the road was built.

Today the commission will hold a hearing at Contact where mining men of that vicinity will tell of the amount of copper ore they would transport by the new railroad. Wednesday the commission will hold its final hearing in this city.
