

COUNTY CAPTURES MANY FAIR AWARDS

Taken Greatest Number of Prizes at
State Exposition at Boise—
Results Are Excellent.

The final corrected list of awards announced by the authorities of the state fair show that Twin Falls county not only captured the first prize in the grand sweepstakes for counties, but in the individual open exhibits, secured 12 firsts, 12 seconds and 15 thirds. A check for \$400, the prize in the contest for counties, was received by the county auditor yesterday.

In the exhibit of Dicklow wheat, Twin Falls exhibitors captured both first and second places. There were 33 entries from all parts of the state. W. A. Weaver, who took first with his display of Dicklow wheat, is a member of the Farm Bureau Junior and not only won in the open class but also had the best wheat exhibited by boy's club members.

M. G. Powers, county agent, who has just returned from Boise, where he was in charge of the county's exhibit, stated that the exhibit which probably excited the most favorable comment was that of R. S. Harrison, of Twin Falls, both because of its variety, comprehensiveness and artistic arrangement. Mr. Harrison's display was particularly strong in the grains, capturing three firsts, three seconds and two thirds. Mr. Powers stated that the competition in all the events was the keenest ever known at the fair.

The list of prize winners in the open events, not including those for the boys' and girls' clubs, follows: Dicklow wheat: W. A. Weaver, first; K. A. King, second. Spring barley: T. H. Irwin, Twin Falls, first. Winter barley: R. S. Harrison, Twin Falls, second.

Spring oats: D. H. Brown, Filer, third. Winter oats: R. S. Harrison, Twin Falls, third. Red clover seed: C. D. Irwin, Kimberly, first; T. H. Irwin, Twin Falls, second; George McPherson, Boise, third.

White clover seed: T. H. Irwin, Twin Falls, first; C. D. Irwin, Kimberly, third. Alfalfa seed: C. D. Irwin, Kimberly, first; T. H. Irwin, Twin Falls, second.

Pop corn: T. H. Irwin, Twin Falls, first. Garden peas: R. S. Harrison, Twin Falls, first.

May beans: T. H. Irwin, Twin Falls, third. Garden Wax beans: W. W. Peifer, Filer, first; M. Olson, Filer, second.

Garden green pod beans: M. Olson, Filer, third. Beef calves: R. S. Harrison, Twin Falls, first.

Sheep yearlings: R. S. Harrison, Twin Falls, second. Sheep ewes: R. S. Harrison, Twin Falls, third.

Sheep yearlings: R. S. Harrison, Twin Falls, third. Sheep ewes: R. S. Harrison, Twin Falls, third.

Carrots: G. E. Pickett, Twin Falls, second. Mangel wurzels: T. H. Irwin, Twin Falls, second.

Cane of melons: John Gourley, Filer, second; T. H. Irwin, Twin Falls, third. Honeydew muskmelons: John Gourley, Filer, first; T. H. Irwin, Twin Falls, third.

Watermelons: S. W. Brince, Duhl, third. Cabbage: C. E. Pickett, Twin Falls, third.

Red Globe onions: R. H. McLean, Filer, third. Woad apples: E. R. Smith, Harrison, third.

Gravenstein apples: Kenyon Green, Twin Falls, second. Concord grapes: Kenyon Green, Twin Falls, first.

Nocturnes: Kenyon Green, Twin Falls, first.

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation, then if your hair is falling, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur compound at any drug store, all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, faded hair is not beautiful, we all desire to retain our youthful appearance and attractiveness.

By darkening your hair with Wyeth's Sage and Sulphur compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by using all gray hairs have disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.

TEA COMPANY FILES SUIT AGAINST BONDSMEN

Suit was filed in the district court yesterday by the Grand Union Tea company against Hugh O'Hagan, T. C. Maroney and L. H. Hunsman. The complaint charges that O'Hagan, who was employed by the company as a salesman, never turned in the money due on \$528.27 worth of merchandise which he received from them. Maroney and Hunsman furnished bond for O'Hagan to the extent of \$500 and the complaint alleges that although the matter has been brought to their attention several times they have refused to take any action.

SUES FOR ACCOUNT

The Gager Mercantile company yesterday filed suit in the district court for \$388.30 which they claim due them on account by Jose Bengochien. The account was incurred during 1919. Bengochien gave a check drawn on the Bank of America National Bank of Pocatello, but the check has been refused by that institution several times on account of insufficient funds, the complaint alleges.

EXPERT TO VISIT HERE

Mr. Nicholson, seed expert for the farm boards of the state of Michigan, and three other states, is expected to arrive in Twin Falls in a short time to look over the field with a view to placing an order for about 400,000 pounds of seed.

INDIANS AND DODGERS READY FOR OPENING OF WORLD'S SERIES TODAY

NEW YORK, Oct. 4.—The Brooklyn Nationals and the Cleveland Americans open their world series battle for the 1920 championship at Ebbetts field tomorrow afternoon, weather permitting.

Twinkling stars in a cloudless sky early tonight seemed to bear out the forecaster's preliminary announcement of fair weather with moderate winds but a fairly heavy rainstorm came at nine o'clock tonight. The weather man said the storm was due to low atmospheric pressure and promised that it would be clear all day tomorrow, though somewhat cooler. Tomorrow for the initial battle for the regular honors of the professional diamond. Much depends upon the weather man, for all other arrangements have been completed and the success of the coming contest hinges entirely upon his control of the elements.

Reserved Seats All Sold.
The playing field of the Brooklyn park has been manicured for the last time and every reserved seat disposed of, while thousands of disappointed fans are engaged tonight in a fruitless hunt for speculators or friends who will sell or loan them a ticket for at least one game.

The Brooklyn players, winners of the National league pennant are resting lightly preparatory to encountering the rush of the Cleveland clan,

which is due in this city early tomorrow morning. Manager Robinson and every member of the Brooklyn team express firm belief in their ability to defeat their American league rivals, while Tom Speaker and his teammates hold the opinion that the world series banner will be hoisted next spring in the Cleveland park.

Arrangements and setting for the series of 140 will not differ greatly from those which have already made baseball history. If there is any outstanding feature, it is expected to be furnished by the spectators. Their attitude toward the baseball classic and players who participate in the struggle, is an angle which cannot be forecast.

Speculators More Observant.
General opinion among close followers of the game leans to the belief that the thousands who will file into Ebbetts field tomorrow will be perhaps more observant and critical in their comment upon the play, but beyond that, it was said by baseball enthusiasts, the recent exposure of gambling a year ago will not affect the popularity of the series unless some unfortunate occurrence should arouse suspicion afresh in the minds of the fans.

Certainly the climax of the baseball season has shown no loss of interest so far as the fans of Greater

New York are concerned. Every reserved seat at the Brooklyn park has been sold for the series. On Sunday President Charles H. Ebbetts stated that he had been obliged to return more than \$50,000 in checks and currency to those who had hoped to purchase seats for the four games for which the Brooklyn club printed reserve coupons.

Woman Heads Line.
The sale of unreserved seats in the field stands and bleachers began yesterday of the plan to sell the seats today and as a result a line of fans was formed several hours before the time set for opening the sale. A woman had the honor position at the head of the line. When asked how early she had come, she replied: "Early enough to get first place in line."

These seats sold for \$2 for the field stands for \$1 for the bleachers plus the war tax. Purchasers were permitted to buy seats for any one or all of the games to be played at Ebbetts field. It was estimated that with all seats sold and all available standing room occupied, approximately 25,000 persons could see the games.

Olds On Indians.
"Telling on the series opened today with the Cleveland combination over Brooklyn," Curb market and sporting resorts placed the odds at 5 to 3 on the Indians and reported several wagers averaging a thousand dollars at these places.

It was stated there was considerable backing for the Brooklyn team, but that those who would wager on the Superbas desired seven to five for their money and refused to accept the 5 to 3 odds offered, hence commissioners offered even money on the result of tomorrow's contest, leaving the wagers make his own choice between Brooklyn and Cleveland.

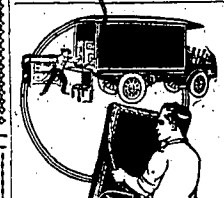

The standard barometer of the American league is not expected to arrive here from Cleveland early tomorrow. In addition to Manager Speaker and his fellow players there will be a large party of newspaper writers and fans accompanying the team. Owing to the closeness of the American league race which was not clinched by the Indians until Saturday, the American leaguers will have no opportunity for preliminary practice at Ebbetts field until they appear there tomorrow about noon.

This cannot fail to be a handicap to "Him" for the Brooklyn park with its short right field backed by a concrete wall makes right position difficult to play until the fielder becomes accustomed to the angle at which a hard hit ball comes off the wall. Proper judgment on such a hit means the difference between a single and double. Further advantage goes with the Brooklyn team in that the players have had a longer period of rest between the winning of the pennant and their entry into world series than Cleveland. The probable lineup:

Cleveland: Chapman, cf.; Wambach, 2b; Speaker, cf.; Smith, rf.; Gardner, 3b; Johnson, 1b; Sewell, ss; O'Neill, c; Hagley or Clevelick, p.
Brooklyn: Olson, ss; Johnson, 3b; Griffith, rf.; Wheat, 1b; Myers, cf.; Kometzky, 2b; Kistuff, 2b; Miller, c; Marquand or Smith, p.

CLEVELAND LEAVES FOR SCENE OF BATTLE

CLEVELAND, Oct. 4.—The Cleveland Indians, winners of the American league pennant, departed at 6 p. m. in two private cars for Brooklyn where they will play the first game of the world's championship series with the Dodgers tomorrow. A large crowd of cheering fans bade the team

good bye and good luck. The stick clated was the 'ring leader' in "fixing the game." One of the men lost \$50,000 and the other \$15,000, it was said.
"Two men who lost money and lost heavily are known to me but I can't name them to come here and tell me or the grand jury about it," District Attorney Swann said. "Both say they were persuaded by 'this master mind' to place bets and that they lost and he won. But they tell me they know nothing about the game being fixed."

Mr. Swann declared he had been unable to get any witnesses for the grand jury investigation, although he is seeking Abe Attell, and two others.

It's A Pleasure to Cook Electrically

Have you ever been in a kitchen where an Electric Range was in use? Did you notice how clean—how spick and span everything was?

No smoky walls, no ashes spilled over the floor. Even the bottoms of every pot and kettle were as bright as when they were new.

And the work an Electric Range saves. There is no fire to tend and regulate. You simply turn a switch and you have the exact temperature you desire.

There are a dozen other electric cooking appliances to add to the convenience of your home. You must come in and see our display of toasters, percolators, grills, chafing dishes, hot plates. You will enjoy just looking them over.

Last week we advertised a Big Sacrifice Lumber Sale

This week quite a number of the public in Twin Falls and vicinity appreciate what a real sale means. As predicted, this lumber is going very fast. Henry Ford and a few others are not the only ones who can burst the high cost of living. We said we would and we are doing it. A survey of our yard last week and a glance over the same now will convince you that we mean what we say. The proof of the pudding is in the eating thereof. You will have to hurry.

THE LEGION MEETS

The American Legion held its annual convention in Cleveland, O., during the last week of September. Twenty thousand members of the Legion marched through the city streets in a grand parade, preliminary to a week of discussion of the Legion's business affairs.

While the gathering in the Ohio city may seem remote from many communities, it is fitting that the people of this country, both those who could witness the parade, and those who are far away, give earnest thought to these young men, representative of our army, 4,000,000 strong, who went over seas or were prepared for such service, who fought so gloriously, who endured such hardships with courage and spirit. First in the mind must be a deep feeling of thankfulness that these boys were assembled for peaceful purposes, that they did not move through the streets on their way to a living sacrifice on the altar of freedom, and with that thankfulness should come renewed determination that the troubles of the world shall be settled by peaceful means hereafter.

Then it should be remembered that these young men, so mighty in numbers, are the hope of the country in peace or war. They are a company organized and tried in loyalty. The country must keep faith with them in every way, as it is in every way dependent upon them.

And a new sense of the country's responsibility to all its youth should follow contemplation of the deeds of these boys. The necessity is keen for bringing up coming generations in accordance with such standards of health, of morals and of patriotism that they may be fitted to take up the burdens of their country when these men lay it down.

FUEL-SAVING LESSONS

The matter of fuel-saving is of universal interest. It makes little difference what kind of fuel is under consideration. Classes in such practical economy are being added to some school courses. Generally the subject is taken up in the domestic science classes attended mostly by girls. The boys should receive the instruction as well.

The burner or heater used for any kind of fuel should be of the type best fitted for it. Drafts, air blasts, chimneys, the proper mixture of air and gas where gas is used, all should be thoroughly understood by the person in charge of heating and cooking appliances. There is a widespread ignorance in these matters which should be remedied.

This sort of instruction is a valuable part of any school course. The one which does not include it may well be broadened. Moreover, the pupils should be encouraged to talk the lessons over at home, and to bring domestic heating and lighting problems up in the class for discussion. Shortages loom which might easily have been avoided. Education is a tardy but potent factor for conservation of such supplies as we have left.

It would never do for a reporter to wear one of those paper suits. He'd come into the office with notes written all over himself, and maybe have to clip off a sleeve or a trouser leg and send it to the composing room for copy.

FOOLISH INVESTORS

To get something for nothing is one of the most foolish aims of the human race. People who would not think of stealing or cheating for immediate personal material gain, and who realize that in all the normal affairs of daily life everything must be paid for according to its value either in time or money or labor or thought, still seem to possess a childlike faith in the miraculous when it comes to investments.

A large state bank in Texas estimated recently that \$95 is lost out of every \$100 invested in oil stocks. This amazing loss is not due wholly to the dishonesty of fraudulent promoters. A large proportion of it is blamable only on ignorance, bad management, poor judgment and failure to find oil. Year after year thousands of persons who have saved a little money and who wish to make much from it,

invest in unproved oil stocks or other uncertain ventures, attracted by the will-o-the-wisp prospect of making money out of all proportion to their investment. And most of them lose the game.

It is perfectly possible to get first-hand, reliable and honest information about any sound investment. Persons with large funds to invest are able to take care of themselves. It is the man or woman with small, hard-won savings who is most dazzled by the vision of quick returns and who falls easy prey to the fake promotion schemes as well as to those which fail through simple bad management. To change all this is up to the investors themselves. A little more thoughtfulness and a little less greed would save a good many of them annually.

BOUND TO COME BACK

Says a financial review: "Many producers and distributors, blinded by their own optimism, truly believed that the inflated prices and the abnormal profits of the past few years had become the rule rather than the exception, and were fated to continue indefinitely. The majority have been disillusioned by the events of the last week or two."

It is another illustration of how firmly a delusion may take hold of minds exceptionally vigorous and keen; when their own interests are involved.

Very likely prices will never return to their ante-bellum level. There is a natural process operating against any such return—the continuously increasing volume of gold in the world, and of the money and credit based on that gold. Until some absolute standard of value is adopted, a standard which does not fluctuate, but is always exchangeable for a fixed quantity of the necessities of life, money is bound to keep on getting cheaper, and commodities, as measured by that money, dearer.

Even without the war, prices would doubtless have been higher now than they were six years ago, and might be expected to be still higher five years from now. Hence, when all calculable war effects have been removed, and reconstruction and readjustment are accomplished, it would be folly to expect a return to the old prices. But prices are undoubtedly destined to swing back much nearer to those old levels before they start their slow upward climb again, and any wise business man will reconcile himself to that expectation.

THE METAL COW

A brand new metal "cow" has been installed on the navy hospital ship, Relief. The machine takes milk powder and water, mixes them with the proper proportions of butter fat, pasteurizes and emulsifies them and produces a rich, creamy milk, difficult to distinguish from the farm yard house's best brand. A freezer in connection with the device makes it possible to have ice cream "direct from the cow."

The great advantage of the contrivance is that it makes possible a supply of fresh, sweet milk no matter what the climatic conditions may be, and this really marks an epoch in sea life, where the restrictions of diet must be considerable under the most favorable conditions.

The metal "cow" deserves a place among the blue ribbon winners of the herd, for she helps to overcome the difficulties of climate and of isolation.

A Chicago psychoanalyst says the sexes are becoming equalized. That's all right. If women become masculine enough, we can get back to first principles, with the females doing all the useful work and the men having nothing to do but hunt and fight.

We're not for this business of shooting at the moon. One of these nights some scientific Red may blow it up, and then what'll we do for moonlight.

Virtue is its own punishment. The more vigorously political candidates condemn the use of money for campaign purposes, the less money they can get for their own campaigns.

One of the things a prosperous American can't figure out is how poverty-stricken Italy can pay \$35 a ton for our coal.

Australia is instituting a pay-as-you-go policy. Australia, as you know, is the antipodes of the United States.

Same old story in politics: "All dem 'ings w'at you say I is, you is dem!"

A good many people seem to want a twentieth amendment prohibiting prohibition enforcement.

ASK RECONSIDERATION OF MINERS' DEMANDS

PITTSBURGH, Oct. 4.—Reconsideration of the antilabor demands for a wage increase equal to that recently granted, the thousands of miners will be asked by Secretary of Labor Wilson by the policy committee of the hard coal workers at Canton, Ohio, tomorrow. This announcement was made by Chairman Thomas Kennedy of the committee, who stopped here tonight enroute to Canton.

A wage increase of approximately 13 per cent in addition to the 18 per cent granted the contract miners by the government commission will be asked according to Mr. Kennedy while an additional increase of approximately 10 per cent will be asked for the day laborers and other mine workers. Revision of the committee's award which abolished or reduced the differential between the wages of skilled and unskilled workers will also be asked.

WONDERFUL OPPORTUNITIES OPEN IN AUSTRALIA

NEW YORK, Oct. 4.—Wonderful trade opportunities are open to American business men in Australia and New Zealand, Sir Thomas McKenna, former four-time minister of New Zealand told members of the chamber of commerce of the state of New York, at a luncheon today in honor of British delegates to the imperial chamber of commerce conference just concluded at Toronto.

Millions of lamb and mutton carcasses which would relieve the shortage of meats in the United States, could be purchased each year in New Zealand, Mr. McKenna said. The export Americans in take advantage of the vast trade opened up by the Panama canal.

Stanley Machin, president of the chamber of commerce of London, another speaker, asserted the "fasc" in England is being run by a small, militant body and that when the voice of the greater mass of English people is heard, Bolshevism will be obliterated. He said England is rapidly co-operating from financial hard during the war.

METROPOLITAN CLUB WORLD AID IN OUSTING CRIMINALS

DETROIT, Oct. 4.—Members of the Metropolitan club—2,600 active and 10,000 honorary—yesterday and last night offered their services as civilian police officers following a call by Dr. James W. Inches, police commissioner, for a volunteer force to aid in ridding the city of criminals. Organizations of the volunteer force will be completed tomorrow.

Commissioner Inches' call for men was made the morning in a statement, declaring liquor smuggling across the border to be chiefly responsible for an influx of criminals and the recent increase in law breaking here. The business men offered either their personal services or by the special officers of their motor cars.

The regular police force, according to Commissioner Inches, is several hundred men short of normal strength.

BOSTON, Oct. 4.—Joseph Daniels, furniture dealer, who claimed a partnership with Charles Ponzi, the get rich quick financier, told Referee in Bankruptcy Olmstead today what disposition he had made of \$50,000 paid him by Ponzi in settlement of a million dollar suit, which he brought against Ponzi last August for alleged violation of contract. After repeated objections by his attorney, Isaac Harris, and the assertion of Referee Olmstead that he would cite him for contempt of court if he refused to

answer, Daniels said that he gave Ponzi \$5,000 of the \$10,000 which was paid in cash and deposited the rest, drawn in the form of a certified check on the Stanover Trust company, in the First National bank.

RECLASSIFICATION OF CIVIL SERVICE EMPLOYEES URGED

ROCHESTER, N. Y., Oct. 4.—Reclassification of federal civil service employees by a central agency, in which employees shall be represented increases in federal sales, a minimum wage for civil service employees, were resolutions adopted by the convention of civil service employees here today. Congress is called upon "immediately to reclassify the civil service and adopt a wage scale commensurate with the skill, training and responsibility involved in the work performed and with just relation to the increased cost of living."

Legislation establishing a rate of pay for civil service employees was recommended favorably. The use of identification passes and laws in time of peace was condemned. The convention is expected to end tomorrow.

PROGRAMS COMMITTED BY ASSOCIATED PRESS

VIENNA, Oct. 4.—The Ukrainian press bureau here issued a statement today denying that the recent programs in the Ukraine were committed by the Ukrainian armed forces and declaring the programs to be the work of bands of deserters and that the authorities already have executed a number of the ringleaders. A deputation of Jews thanked General Petlura, Ukrainian leader, for the protective measures, the statement says.

A London dispatch of September 26 to the Jewish Telegraphic Agency declared that 200 Jews had been killed in pogroms instituted in Galicia by the Ukrainians.

G. O. P. CANDIDATE TAKES BRIEF REST

Dedicates Soldier Memorial and Gives Non-Political Address During Respite from Campaign

FREMONT, Oct. 4.—Taking a respite from the cares of his campaign, Senator Harding, motored to Fremont today and delivered a non-political address at the dedication of a soldier memorial at Hayes Memorial library, situated in a public park which is part of the old estate of Rutherford B. Hayes.

Before the exercises the nominee and his wife were luncheon guests of Webb C. Hayes, a son of the former president, and later they visited the latter's grave nearby.

A parade of Sandusky county war veterans also was reviewed by the senator as a part of the day's program which commemorated the anniversary of President Hayes' birth.

In his speech Senator Harding reviewed the historical associations of Sandusky county and praised President Hayes as one "whose official service to America was more healing than heroic, and left a sense of satisfying security as a heritage to America." Paying tribute to the soldiers of the great war, he said that they, too, had "wrought less in brilliancy but more in glory" and called upon American citizens to demonstrate by peace time patriotism the same measure of devotion to duty.

"I voice today," he said, "a tribute to the steadfastness, the resolution, the undaunted courage, the irresistible determination of the American Expeditionary Forces. You world war veterans are the new leaders in the patriotic citizenship of the republic the mightiest influence in American life for half a century to come."

Farmer-Labor Candidate for State Representative Makes Statement

In soliciting your support I want to give you a brief history of myself. I have been a resident of Bluff for the last ten years coming here from North Yakima where I grew up. About six years ago I went into the electric business for myself, meeting with very good success up to the time that I sold my business and went into the Army, during which time my wife and two children remained at Bluff, upon my return I reestablished my business, and joined the Clark O. Fox Post of the American Legion, of which organization I was later made Post-Commander.

I believe sincerely in our program of justice for all and special privileges for none, and if elected will do my utmost to see it carried out.

Mr. Crabtree is made up of Robert Nicholson, Orrell Tucker and John Owens.

The ranking of men individually: John Owens, first; Robert Nicholson, second; and Orrell Tucker, fourth. As to high men in each class of livestock judged Twin Falls captured two first medals, Robert Nicholson on Dairy cattle and John Owens on hogs. Orrell Tucker tied for second for dairy cattle.

BRITISH AMBASSADOR VISITS MOUNT VERNON

By the Associated Press.

WASHINGTON, Oct. 4.—Accompanied by Sir Auckland Geddes, the British ambassador, delegates from Great Britain and The Netherlands to the thirtieth anniversary of the landing of the Pilgrims visited Mount Vernon today as the guests of Secretary Daniels, on the presidential yacht Mayflower.

On behalf of the British branch of the Sulgrave institution, of which he is a member, Lord Rotherston, head of the British delegation, placed a wreath on Washington's tomb and offering of hope that "the nation from which he sprang and the nation he helped to establish may be forever bound together in friendship and common service for mankind."

To the declaration of Secretary Daniels that the Magna Charta of Runnymede "belonged no less to England than to America," Ambassador Geddes replied in his address that "just as truly George Washington belongs to England."

ESCAPED CONVICT SURRENDERS

IDAHO FALLS, Oct. 4.—Joseph H. Martin, who escaped from the Utah state prison at Salt Lake on July 8, 1919, where he was serving a life term for robbery, voluntarily surrendered to Warden George A. Storrs here tonight. He told the warden that after due consideration he had reached the decision that he should not have left the prison. He had been working as a clerk in the prison commissary and had no difficulty in making his escape. He was taken to Salt Lake tonight.

CLOSELY QUESTION NEW SUSPECT IN BOMB CASE

PITTSBURGH, Oct. 4.—Florin Zelenko, who was arrested here last night with a quantity of dynamite percussion caps and fuse in his suitcase, was sent back to city prison tonight from the office of the department of justice where he was closely questioned regarding his movements for the past several months. The questioning, department of justice agents said, would be resumed tomorrow.

Montana government agents in Logan county West Virginia, and in Cincinnati were tracing Zelenko's movements in order to see whether they agree with the story he had told during the afternoon. Zelenko who was reported by Leon Konkol, to the police as having referred to the Wall Street explosion while they were riding from Cincinnati to Pittsburgh yesterday, told the federal agents that

on the day of the explosion he was working as a laborer in Brooklyn. Soon afterwards Zelenko told the agents he obtained employment with a coal company in Whitman, Logan county, West Virginia, and left New York September 24 for that place. After working a few days as a coal tender he went to Cincinnati; from there he came to Pittsburgh. At Whitman, he said, he bought the explosives for use in his work as other miners did and having it on hand when he left, he took it with him.

Federal agents also endeavored to confirm a statement by Zelenko that during the war he had been employed as a laborer on concrete work at Nifro, a suburb of Charleston W. Va., where the government began the erection of an explosive plant. This work, Zelenko told the agents, he had abandoned because it was too hard for him.

Zelenko is a Pole who, according to his story, came to this country in 1914. He speaks enough English to be understood.

The dynamite found in Zelenko's suitcase was turned over to the Pittsburgh station of the bureau of mines where engineers pronounced it the kind used in mine operations.

Delegates will also hear Samuel Gompers on a non-political non-partisan campaign on behalf of candidates for public office whose records have showed them to be friendly to labor.

FARMERS EFFECT COMBINE OF GRAIN GROWERS

CHICAGO, Oct. 4.—A permanent organization was effected here today by the committee of 17 representing principal farmers' organizations of grain growing states and appointed to develop a co-operative marketing plan to handle the grain crop of the United States. C. H. Gustafson, president of the Nebraska farmers union, was elected chairman, and A. L. Middleton of the Farmers National Grain Dealers' association was named vice chairman.

It was announced that plans were made to employ economists to investigate features of the grain marketing problem, and sub-committees were appointed to report on co-operative marketing plans in use in this country and abroad.

Nash Motor Company Guarantees Prices

Many manufacturers of motor cars have reduced their prices during the past two weeks and undoubtedly others will follow. In practically all of these cases, the manufacturers of these various cars now declining in price, have advanced their prices abnormally, previous to and during the war period and naturally under the changed conditions they have been very quick to make reductions.

The list price of the Nash five passenger car has advanced but \$400.00 since it was first made and the first list price was an arbitrary one and cars were produced at an actual loss for several months. The increases as made by other factories without cost justification, has been contrary to the Nash Motors Co. policy. The increases which have been made in the Nash line have been based entirely on actual cost of materials and such additional equipment, as for instance, cord tires.

Grain

CHICAGO, Oct. 4.—All grain prices smashed down today to the lowest level since 1917. Impairment of confidence on the part of owners appeared to be largely responsible. The finish in wheat was semi-dramatic at 11-12 to 12-12 net decline with December \$3.50 to \$1.95 1-2 and March \$1.50 to \$1.91 1-2. Corn lost 4 1/8 to 5c; oats 1-3 to 1-4 to 2-3-8 and provisions 2c to 11c. Heavy selling from holders found the wheat market with little support except from shorts who were in a position to grab profits. Toward the last, even this may have out, and values collapsed in good earnest notwithstanding that the pressure to sell had diminished as compared with the first part of the day. The unanimity of sentiment was due to a considerable degree to gossip that liquidation from rural sources had increased. Besides, export demand seemed to have vanished for the time being and domestic millers gave no sign of coming to the rescue. On the contrary one of the biggest flour mills in St. Louis was reported as having closed down for lack of buying orders. Canadian wheat continued to be offered freely and it was suggested that actual exports from India had begun.

Big receipts and ideal weather accelerated the decline of corn. Oats sympathized. Provisions like grain were without adequate support.

Now is the time. The speed is greatest this week. It is the last big vote period in this great automobile and cash campaign in Twin Falls. Contestants can make this the winning week. For the voting power is the greatest. Not only strike while the iron is hot, but keep it hot by striking.

Here are a few examples of the way subscriptions count fastest in the

way of votes in the third period which closes next Saturday night. Of course, the big subscriptions count fastest in the way of votes. A six-year subscription to The Chronicle turned in before next Saturday night counts 250,000 votes. A few of these would work wonders for anyone in the campaign.

A one-year subscription received in the first period of the campaign) now lengthened by six years would count 543,000 votes. See what a difference a few of these would make. A six-year subscription given in the first period now lengthened another six years would count 725,000 votes. Contestants are warned that this is the last week up until 11 o'clock Saturday night that "second payments" will count for additional votes.

Keep constantly in mind the fact that the big campaign closes forever one week from next Saturday night.

SALVATION ARMY DRIVE PROGRESS SATISFACTORY

The work of securing funds for the erection of a building in Twin Falls by the Salvation Army to aid in its work is progressing rapidly and already a considerable amount of money has been secured. Yesterday in response to letters sent out by the army a number of most satisfactory replies were received, among them being one from C. E. Pickett, a local market gardener, in which he declares his willingness to donate \$250. Mr. Pickett's letter is, in part, as follows:

"Your literature with reference to your work here and the proposed building, received. If you put up such a building as you propose, I will pay the boards. If I heartily approve the work you are doing, it is practical Christianity."

Norman S. Hicks stated last night that their desire to aid the Salvation Army in its drive for funds could do so through H. E. Grant, of the First National bank, or through envelopes furnished in the letters sent out with the official ballot.

TRUCK CASE TAKEN UNDER ADVISEMENT

The case of the State vs. Trask was heard in the probate court yesterday morning and afternoon. Judge O. F. Davell took the case under advisement because the evidence submitted by the state failed to incriminate Nellie Trask, one of the defendants. He will render the decision in the case tomorrow.

SEEK BETTER CONDITIONS.

WASHINGTON, Oct. 4.—Representatives of the Press association and newspapers conferred with the American commissioners on the international communications conference for the betterment of communication facilities for the press. The suggestions will be presented at the preliminary sessions of the conference, which begin Friday.

CHANGE DATE OF BOND ELECTION

City Council Selects November 9 as New Date; Garbage Contractors Ousted

City council last night postponed the bond election, decided to place the city garbage contract in other hands, and considered the promulgation of a new set of regulations governing traffic.

It was found that the advertisement of the bond election fell one day short of thirty days required by law, and the ordinance setting the date as October 23, was repealed, and a new one issued postponing the election until November 9. The date for the sale of the bonds was also set back to November 15, the first Monday after the election.

Council decided that the garbage contractors had failed to live up to the conditions of their agreement, and that the company which gave bond for the satisfactory performance of the contract had been lax in seeing to its enforcement. After some discussion, it was decided that the city employ someone else to do the work and that the city clerk shall serve written notice on the bonding company that they would be expected to pay the bill.

A set of traffic regulations compiled by W. L. Johnson, of the Twin Falls Highway district, were taken as the basis for a new ordinance to be issued soon. Among the new features in the proposed ordinance, was one governing the use of headlights on automobiles, recommending that they should be equipped with dual lenses.

When required to display a light in one of the new provisions. The paving estimates carrying a total of over \$12,000 were passed and approved, and bond of \$5,000 was accepted from the Warren Construction company for the completion of the remaining work.

Council again issued a warning to the consumers that in buying meat which had not been inspected, they were incurring a very great risk. The state law allowing the farmer to kill and peddle meat was discussed and the general opinion was that it presented efficient operation of the city.

Mayor Eldridge pointed out that when a butcher refused to buy an animal on the grounds that it would not pass inspection, the farmer very often performed the butchering himself and peddled the meat to the restaurants at a greatly reduced price. To guarantee that the meat in all the local eating houses is free from contamination would require inspection of their stock about four times a day, he stated.

HIGH WINDS SPREAD A SMOLDERING FIRE

PAIDFIELD, Vt., Oct. 4.—High winds tonight spread a fire that has been smoldering in the swamp between here and Neffsville for several days over several square miles. Telephone communication has been cut off from the affected district. Many surrounding houses are sending fire fighters to the scene.

Three farmers near this town told, tonight that their farms were encircled by the flames. Automobiles were ruined to their aid, but up to a late hour no news had been received from the district.

A report reached here tonight that the village of Tioga had been wiped out, but confirmation could not be obtained. Stubbs Mill, eight miles from here, and Conner's, a mile away, have appealed for aid. A number of cattle ranches are said to have

been destroyed. The prices start
