

SEEK CHECK  
ON DOWNWARD  
PRICE TREND

Farmers Face Heavy  
Loss as Result of  
Deflation Policy

Agricultural Interests to  
Appeal Directly To  
Wilson to Help the  
Movement

By the Associated Press.  
WASHINGTON, Oct. 12.—Steps to appeal directly to President Wilson against the currency deflation policy of the treasury department on the ground that farmers generally faced heavy losses unless the downward trend of prices of farm products was checked, were taken today by a special meeting of agricultural interests called by the American Cotton association.

Senators Overman of North Carolina and Harris of Georgia, who are connected with the movement, called at the White House to prefer a request for the conference with Mr. Wilson and his cabinet and were told by Secretary Tamm that they would receive an answer from the president tomorrow.

Senators laid stress on the necessity for prompt action at the regular fall conference of the federal reserve board and governors of the various reserve banks. The question of interest rates, it is said, would be considered at that conference, and the agricultural representatives here declared they wished to present their views on the whole question of crop financing before action was taken by the federal authorities.

Before adoption of the resolution proposing taking the problem to the president, speakers repeatedly denounced the currency deflation policy of Secretary Houston. Farmers stood to lose billions unless government acted to check the fall of prices, they declared, adding that in many cases market prices were now below the actual cost of growing. The result would be greatly reduced production next year, they said, if means to remedy the situation was not found.

Says Hankins Make Profit.  
Declaring that the New York regional bank had made 200 per cent profit when the law allowed it only six per cent, Senator E. D. Smith of South Carolina said "They are robbing us in the name of the public." He said the situation continues and let the wheat man, the cotton man and the cattle man say, "here is our price." We demand our rights and we will not loosen up one pound of wheat, wheat or cotton until we get them."

John Trumbull of the Kansas Farmers' union, said it had been estimated that the cost of this year's wheat crop was above \$21 per acre. The cost of the tenant farmers, he said, was placed at \$27.7 a bushel. He thought \$3 a bushel would just pay the cost of labor and expense of growing the crop, not counting for fertilizer and depreciation of land.

Dr. W. J. Spillman, former chief of the bureau of marketing department of agriculture, charged that Secretary Houston and the reserve board were engaged in a drive to force down the price of wheat. These gentlemen were using authority placed in their hands for the purpose of manipulating the market," he asserted.

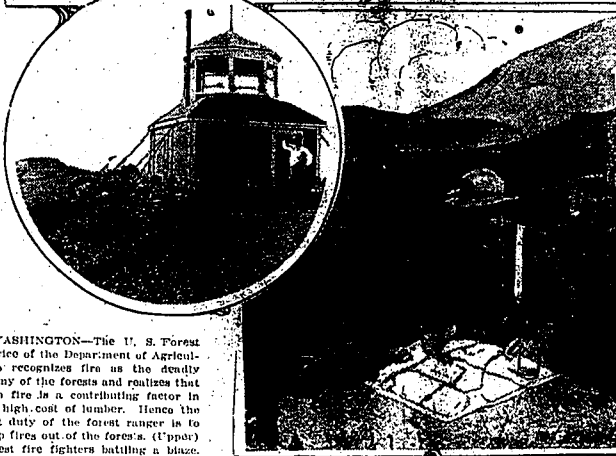

CONFESSES TO BURYING  
SMALL DAUGHTERS ALIVE

By the Associated Press.  
LANSING, Mich., Oct. 12.—Earl Rupp, a farmer, was arraigned today on a charge of murdering his daughters, Dorothy, and Benice, aged 3 and 2, respectively, whom he buried alive on his farm ten miles from here Monday, according to his reported confession to Sheriff Silbee. Preliminary hearing was set for tomorrow after Rupp had stood mute, and a plea of not guilty had been entered by the court.

Dependancy over financial troubles and the failure of his crops, according to the sheriff, was given by Rupp as the reason for his alleged act. He was quoted as saying that "he had been pondering the idea of taking the lives of his babies for nearly a year."

In a letter of fact manner, according to the sheriff, Rupp told of

Hence the first duty of the forest ranger is to keep fires out of the forests. (Upper) Forest fire fighters battling a blaze.

McADOO TO SPEAK  
HERE OCTOBER 20

Former Secretary of Treasury Will be  
Held in Twin Falls on Leading  
Campaign Questions

A change has been made in the speaking dates of the prominent touring the country in the interest of the democratic ticket which will bring W. G. McAdoo, former secretary of the treasury, to Twin Falls on October 20. Mr. McAdoo will replace Secretary of Labor Wilson, who was originally to have spoken here the 19th of the month. Mr. Wilson will speak at Idaho Falls under the new arrangement.

to his already enviable record as an executive, new laurels, won through his splendid work as the financial head of the government. It was under his able direction that the various bond issues were successfully floated, and through his efforts, mainly, that the union was never lacking in the funds necessary for the successful prosecution of the conflict.

Mr. McAdoo takes rank as one of the ablest public speakers of the time, and the people of Twin Falls may anticipate a forceful and eloquent presentation of the issues of the campaign. All arrangements for his speech here are being made by the speakers' bureau of which W. Orr Chapman is the chairman. It is planned to hold the meeting in the open air in order that a large crowd may be accommodated.

taking the children from his house on Monday to a field through which ran the Red Cedar river. There, Rupp said, he administered chloroform to the little girls, then set about digging a hole in the soft earth near the river.

While he was thus engaged, Dorothy revived, Rupp told the sheriff, and walked over to him. He then carried Bernice to the river and placed both children in the hole covered their bodies with mud. Silbee quoted him as saying:

Officers would not believe the man's story until they had gone with him to the spot and found the bodies of the babies this morning. This mother of the babies is in a critical condition at her home where six days ago she gave birth to a son. She has not been told of the fate of her other babies.

REPORT KING OF GREECE  
IS IN CRITICAL CONDITION

ATHENS, Greece, Oct. 12.—Only the heavy constitution of King Alexander of Greece is held up by his physicians to bring him through the crisis of his illness, resulting from the bite of a monkey a short time ago. It was admitted at the palace today that the king had entered into the critical phase of his illness.

The government, alarmed at the serious turn in the king's condition, discussed the question of a regency and decided that the council of ministers would take up the task of administering the country in the event

POLICEMAN IN  
FIGHT TO DEATH

New York Policeman Battles With  
Crane Negro On Roof of Five  
Story Building.

By the Associated Press.  
NEW YORK, Oct. 12.—Patrolman Martin Gill today struggled for his life as he fought a desperate battle with a Negro on the roof of a five-story building. The negro was trying to throw himself from the roof and Gill was trying to save himself from being hurled into the street.

The negro, with a bullet in his stomach, slid off the roof, falling into a bucket of wash left on the sidewalk. There he died a few minutes later. Scores of pedestrians stood on Sixth avenue, transfixed, watching the struggle while guests in several hotels nearby pressed their faces to window panes. Finally a former sailor dashed upstairs to the roof and caught Gill by one leg just as the negro was about to roll him into the street.

The negro, identified as Rafael Cota, by this time had obtained Gill's pistol. He fired at the patrolman, wounding him in the shoulder. The sailor cracked Cota on the head with a piece of wood and Gill, recognizing his weapon, fired twice as the negro made his last furious rush. Medical Examiner Norris later expressed the opinion Cota was insane. Gill, a veteran of the world war, who recently rescued two women from drowning in Central Park lake—said he had attempted to arrest Cota on complaint of a woman that he had insulted her.

INVESTIGATE RING  
OF BOOZE DEALERS

Saloon Keepers Confess Operations  
On National Scale Before Federal Agents.

CHICAGO, Oct. 12.—Governmental investigations of the activities of a ring of whiskey dealers operating on a national scale has been begun as the result of confessions obtained from several Chicago saloon keepers. It was declared by federal agents today.

The confessions are said to have implicated officials of several distilling companies and politicians in various parts of the country and to have revealed plans to make Chicago the center of their proposed scheme.

According to federal agents, H. A. Sadler, a former New York stock broker, is said to have declared that he paid \$45,000 to a Chicago politician who has been employed by the deputy United States revenue agent in the office of Collector Maser, to secure influence in the issuance of forged federal permits under which whiskey running in Chicago has been carried on.

CHARGE MURDER OF SON  
SAN FRANCISCO, Oct. 12.—William Koleksi was booked at police headquarters tonight on a charge of murder in connection with the death of his 16-month old son. Both Koleksi and his wife, who he married while in the American force, said the child had been injured by a fall from a chair. City Attorney Surgen Clark said the child's skull has been crushed in a manner impossible in a fall.

HIS LAST TOUR

ON BOARD SENATOR HARDING'S SPECIAL TRAIN, Oct. 12.—Beginning what may be his last speaking tour outside Ohio, Senator Harding journeyed southward tonight for an invasion of territory which has been counted democratic for half a century.

Opening with a speech tomorrow night at Chattanooga, Tenn., he will swing northwest on the following day to Louisville, Ky., through a section belonging normally to the solid south. Many stops are to be made for rear platform speeches and the audience indicated tonight that he was prepared to make a vigorous and aggressive fight to swing the two states over to the republican column.

Maintaining the candidate and his managers are holding in abeyance a final decision on the question of an eastern trip in late October.

Tonight serious consideration is being given to a cancellation of the whole eastern program. Should any trip be made, it is possible that only one speech will be made, at New York City.

FOREST FIRE SITUATION  
IN MINNESOTA IMPROVES

DULUTH, Minn., Oct. 12.—Reports tonight indicated that the forest fire situation in northern Minnesota is improved and there is less danger of the fires spreading than for several days.

Unless there is a heavy wind there will be no repetition of the fires of 1918, according to Major F. J. Becker, of the Minnesota national guard, in charge of volunteer fire fighters. Many small fires still are burning in widely separated parts of Northern Minnesota, but these are under control, he said.

SNOWSTORM FORCES MAIL  
PLANE TO MAKE LANDING

SALT LAKE CITY, Oct. 12.—Encountering a snowstorm in western Wyoming, a mail plane left Cheyenne with a mail airplane for Salt Lake at daybreak, was forced to land at Rock Springs, Wyo., this afternoon, according to word received here. Pilot Pickens was scheduled to have come to Salt Lake and return to Cheyenne before night. He arrived at Rock Springs on time but shortly after leaving there ran into a snowstorm and returned.

Treaty Will Become  
Effective at Midnight  
on October 18Wrangel Movement is  
Only Great Offensive  
Now in Operation  
Against Soviet

By the Associated Press.  
RIGA, Oct. 12.—A preliminary peace treaty and armistice was signed by the Polish and Russian soviet peace delegates here at 5:30 o'clock tonight. The armistice actually becomes effective at midnight, October 18.

The announcement that peace was to be signed brought great crowds to the square surrounding the "Black Head House," M. Joffe and the Bolshevik delegation entered the hall first and were followed by M. Dombaid and the Polish delegation. About 200 persons including the entire diplomatic body crowded the small room.

Considerable delay ensued, which was due to the physical work necessary for the completion of the treaties for signature. Fired by more than five days and nights of almost constant work M. Joffe looked extremely pale, but his voice showed no nervousness when he announced without doing that the treaty had been completed, and began reading the Russian text.

The head of the soviet delegation described the Riga peace as a "page without victory and without vanquished." In a brief address before the signature of the treaty that describes the Riga treaty accurately as it appeared to disappointed onlookers. It was a peace of give and take, which those who followed the course of events fear will not be very popular with either the Bolsheviks or the Poles.

Triumph for Chairmen  
But it is undoubtedly a triumph for the two chairmen who made it and the spirit of conciliation, with which they handled the explosive questions that dominated the Munich conference is likely to win for them the gratitude of a war exhausted world.

The Riga armistice will put the Bolsheviks at peace with all their Baltic neighbors within 144 hours from midnight tonight and leave the Wrangel movement as the only great military operation against the soviet.

M. Joffe called attention to the many difficulties encountered in arranging the armistice and also to the harmonious manner in which the delegations carried out the negotiations. He also expressed the belief that the foundation has been laid for a permanent peace as both nations are exhausted tired of war and unwilling to assume the responsibility for continuing the strife.

MILITIA FIGHTS FIRE  
SUFFERER, Wis., Oct. 12.—The local national guard company tonight was ordered to proceed to Black River Falls, Wis., to aid in fighting forest fires in that vicinity.

## FREIGHT MOVING WITH MORE SPEED

Cars Make No Mills Per Day Than  
Ever Before—Officials Are  
Optimistic.

BUFFALO, N. Y.—The railroads of the United States are now moving freight more miles a day than ever before.

This is the statement of the Railway Executives' association. The same report adds:

"The roads are reducing the number of cars in bad order and are not only getting heavier loading per car, but are securing, through the cooperation of shippers, quicker loading and unloading."

Now, after 10 days spent in the offices of one railway and aboard its freight trains and in its yards, I can understand why the Nickel Plate Road is one of the railways which the Executives' Association says is moving its freight rapidly.

When Uncle Sam took his hand from the throats of the nation's locomotives, he left the owners of the railroads more troubles than the oldest railroad had known.

Many Obstacles  
Regardless of the merits of federal control, no one seriously denies that when the railroads went back to private hands last March, there were the conditions:

- 1—Thousands of freight cars and miles of track out of repair;
- 2—Labor "black" and careless;
- 3—Congestion of freight and a lack of co-operation on the part of shippers.

Hardly had the roads begun their work of reconstruction when the switchmen's strike broke and the whole machinery of railroad operation was disorganized.

Now seven months of private ownership and the possibility of reward for efficiency and loyalty have resulted in the almost complete "come-back" of America's railways.

All Are Optimistic  
From President J. J. Harnett, who gave me letters which enabled me to ride the freight trains of the Nickel Plate, to the brakemen in the cars, found the same spirit of optimism for the future.

Before I left the Stony Island terminal yards of the Nickel Plate at Chicago on a freight train trip to Buffalo, I spent several days in a short kindergarten course in the great mystery of railroading. Then Place, a freight representative, who tried to find a car for me and brother officials gave me their views.

"Bad order cars, terminal congestion and delay on the part of consignees, responsible for most freight delays," they told me. "Things are better now than they were and we have cleared our own yards rather thoroughly."

"It is hard to make some shippers unload their cars and lift the bills of lading because of the money shortage. Some of them have no storage room and would rather pay demurrage on the cars than move the goods."

"They're better now, but still we have trouble."

Harnett told me that the little shippers and consignees were the greatest "demurrage offenders."

"Sometimes a huckster," he said, "will use our cars as his store room and warehouse, block a valuable track and keep that car out of service longer than he should."

No Idle Town

I found that "no-operation of the shippers" is no idle term or matter of theory. Much of the railways' efficiency depends upon the shipper. The Interstate Commerce Commission now advises that all cars be loaded above their marked carrying capacity. That means that a car stenciled "50,000 pounds" still be loaded to 55,000 or even 60,000 pounds.

The same is true in the matter of prompt loading and unloading, and along the line I found many other matters, well-known to shippers, in which they can assist the road, usually at little inconvenience to themselves.

THOROBREDS CARRY OFF  
ENDURANCE TEST HONORS

NORTHFIELD, N. H., Oct. 17.—Thorobreds carried off the honors in speed in the first day of the 300 mile endurance test for cavalry mounts, which was started from Fort Ethan Allen this morning and finished at the Norwich University stables here tonight. Bungle, a thoroughbred chestnut gelding owned by the United States mounted service, finished first, making the 60 miles in nine hours and twenty-one minutes.

U-23, a registered thoroughbred, and Daw, registered Arab, were withdrawn because of lameness.

BENEFICENT ASSOCIATION

ASKS SUNDAY SCHOOL HELP

TOKIO, Oct. 12.—The new Buddhist association, organized by the progressive Buddhists, at a public meeting today adopted a resolution requesting the Sunday school association to exert its influence toward peaceful and satisfactory solutions of the problems arising out of the anti-Japanese measures in California. The resolution declared that the measures menace the friendly relations between Japan and the United States and expressed the hope that the leaders of Christianity who are devoted to justice and humanity will not remain indifferent.

Fifteen thousand delegates to the Sunday school convention, such as carry a flag, assembled at the session of Sunday, William C. Poole, of London, delivered an address on "Healing and helping the wounded world." Treasures were received from President Wilson and Premier Lloyd George.

SEARCH FOR BODY

FARKS HOLD LESS  
LIBERTY BONDS IS CLAIM

WASHINGTON, Oct. 17.—(Associated Press.)—The amount of Liberty bonds held by national banks was re-

ported tonight by John Skelton Williams, controller of the currency. Records of the banks show an encouraging absorption of such securities by the investing public, the statement said.

National banks held on June 30, Liberty bonds and Victory bonds equal to only about three and one-half per cent of their total resources, Mr. Williams said. On that date, national banks owned \$778,361,000 of such securities while their resources aggregated more than twenty-two billion dollars. The aggregate of Liberty bonds held by the national banks June 30, as collateral amounted to \$225,568,000 while six months previously they had held more than \$269,000,000, according to the statement.

SAN FRANCISCO, Oct. 12.—Air mail records between Reno, Nev., and Salt Lake City were broken today when Pilot Sharpnack was officially credited with flying the 570 miles in three hours and fifty-five minutes, passing en route through three storms of hail, rain and snow. Colonel John A. Jordan, superintendent of construction for the mail

service, telegraphed the record from Reno to the San Francisco Bulletin. According to the telegram Pilot Sharpnack continued eastward from Salt Lake City.

PREACHER'S SON STEALS  
FATHER'S AUTOMOBILE

CHICAGO, Oct. 12.—While the Rev. R. Keene Ryan was delivering a sermon Sunday night on the evils of theft, his son was running away with his automobile which had been left before the church, it was revealed today when the pastor swore out a warrant for the boy's arrest.

Young Ryan accompanied by several other youths was said to be bound for the wilds of Michigan in the car.

"My boy needs a lesson," the Rev. Ryan said, "and I am going to go through with it. It hurts me to do what I am doing but it is for the boy's own good."

Mrs. David J. Peterson of Burley was among the out of town visitors in Twin Falls yesterday afternoon. Mrs. Peterson will remain here for several days before returning home.

# Idaho's Greatest Scotch Shorthorn Sale October 19 and 20

The joint sale of J. G. Hayden of Castleford, N. H. Leyland, Wendell, Idaho, and Regua Bros. of Kimberley, Idaho, of 30 head of Scotch and Scotch Top Shorthorns, on Tuesday, October 19th, at the Twin Falls County Fair Grounds at Filer, Idaho.

One of the best features of this sale will be the selling of the Hayden Herd of Show Cattle of Scotch breeding that were on exhibition at the Twin Falls County and Idaho State Fairs this fall, and winning first premium at Twin Falls County Fair, with aged herd. At the head of herd was Village Victor 529429, a beautiful roan, son of Village Beau, and a grandson of the great Imported Villager. Village Victor is 4 years old and weighs 2200 lbs., and was champion Shorthorn bull at Twin Falls County Fair and the winner in second place at the state fair in aged bull class. He is a tried and sure breeder, and will make good any place.

The cows in the offering are mostly of Scotch breeding and are great individuals. They are all producers, and will have calves by side or safe in calf. Some extra good two-year-old heifers, bred, and five beautiful roan yearlings.

Mr. Farmer, what are you going to do with your hay? With an embargo on alfalfa to most of the nearby states and with the freight rates to Missouri points \$15.90 per ton, where are you going to get off? Why not make a market for your alfalfa by feeding it to live stock worth while, and put it back onto the land? It has been demonstrated many times that manure properly applied to the soil will greatly increase the crop yields. During the war when prices for grain were high the soil was greatly depleted, and the best way to restore fertility is by growing alfalfa and the use of manure. If you grow alfalfa you need good livestock, which is the basis of permanent agriculture.

All cattle have passed a tubercular test, and will be sold with a privilege of a 60 days retest, and a breeding guarantee.

Farmers and bankers, Chamber of Commerce and all interested in better cattle and the great advancement that is being made in the Shorthorns in Idaho in such a short time, if possible don't miss attending these two great sales. If you don't want cattle, you will want to see and hear the men that the American Shorthorn Breeders association will send here as their representatives. Frank D. Tomson of Lincoln, Neb., will be with us in this series of sales—America's most noted field representative. We will also have with us A. E. Lawson of Spokane, Wash., the American Shorthorn Breeders association representative from Idaho, Oregon, Washington, Nevada and Utah.

The annual Shorthorn Banquet will be held Tuesday evening, October 19th, at the Rogerson hotel, for the visitors and Shorthorn breeders, as guests of C. A. McMaster & Son, J. G. Hayden, Regua Bros. and N. H. Leland, the owners of the Shorthorns in the two sales.

Toast-master, W. M. Lambing. Speakers of the evening: Frank D. Tomson, Lincoln, Neb., A. E. Lawson, Spokane, Wash., E. F. Rhinehart, Boise, Idaho, County Agent O'Reilly of Twin Falls, Col. Harry O. Cranke of Nez Perce, Idaho, A. J. Miller of Caldwell, J. M. Markel, secretary of Twin Falls County Fair, Judge Walters.

The Twin Falls North and South Side Shorthorn Breeders association will hold a business meeting at the Rogerson Hotel at 7 p. m. October 19th.

TERMS OF SALE—Cash. Will extend time from 3 to 12 months on approved notes. Parties desiring time make arrangements before sale. Bring latest bank reference.

AUCTIONEERS—Col. E. O. Walters and assistants.

MURTAUGH, IDAHO, OCT. 18, 1920.—J. T. Silvers. Forty-two head. An exceptionally useful selection of cows and heifers.

# CLEVELAND WINS BASEBALL CHAMPIONSHIP OF WORLD

## Indians Take Seventh Game From Dodgers --Shut Out Brooklyn With Score 3-0

By the Associated Press.  
CLEVELAND, Oct. 12.—Baseball champions of the world—the Cleveland American league club won that supreme title this afternoon, when the Indians defeated the Brooklyn Nationals in the seventh and deciding game of the 1920 series, 3 to 0. Tonight Cleveland is celebrating in a manner adequately in keeping with the honor and it is doubtful if a government proclamation announcing the title of this city as the future capital of the United States would create a ripple of interest among frenzied fans.

**Victory Won by Clevelskies.**  
The shutout victory was chiefly engineered by Stanley Clevelskio, the spit ball hurler of the local team, who has proved to be a pitcher of remarkable skill and endurance during the series. Backed by an airtight defense

## SCALPED!

on the part of his teammates at the critical moments, the Shamokin, Penna., coal miner let the Robins down with five hits. But two Brooklyn players reached second base and but five of the invaders were left on bases.

Clevelskies feat in winning three of the five games necessary to clinch the championship for Cleveland will go down as one of the outstanding features of the world series history and one of the most prominent and praiseworthy factors in a struggle which has furnished more startling incidents than any similar series in years. The Brooklyn batters accumulated but two runs off the isolated slants of Clevelskio, as if he affectionately called here, in 27 innings in which he officiated on the hustling mound. He let the Robins down with one run in the first contest at Brooklyn on October 5, allowed them a second only on Saturday and shut them out today. It is doubtful if a more masterly exhibition of pitching has been finished before the fans in any world series since 1905 when Christy Mathewson, then at the zenith of his twirling career with the New York Giants, shut out the Philadelphia Athletics in three games.

**Indians Are Impressive.**  
Great as must be the credit accorded Clevelskio for his remarkable feat in coming back after but two days of rest, and pitching his best game of the series, the general offensive and defensive work of the other members of the Cleveland club cannot be dimmed by the individual glory of their star boxman. The Indians, as a team, gave more impressive at the series, prearranged and their feat in winning four straight games from the Brooklyn team after getting away to an indifferent start have won for them a great victory.

Sitting at the nationals in the final clash, the Indians led by Manager Tris Speaker, 1000 to playing heights which bore out the complete confidence of the club backers and fans in their ability to prove their right to wear the baseball crown of the universe. They executed the splits of Burleigh Grimes, the National league star deliverer of this type of pitching, for seven solid hits, clinched the game before the half way mark and topped the play with several pieces of baseball strategy that demonstrated the possession of mental alertness which marks the difference

between a keen thinking and a mechanical playing club.  
**Attendance 27,325.**  
The paid attendance was 27,325 and the gate receipts \$83,500. It was the largest attendance and receipts of any of the seven games.

That those who witnessed the closing contest saw a game of unusual standard is shown by the box score, but there were features which thrilled the thousands which cannot be illuminated by cold figures. Despite the two errors charged to Shortstop Sewell he made two plays which went far to eliminate his misdeeds.

In the fifth inning he stopped Miller's smash run of second base while on the dead and got the batter with a fine throw to first. In the same inning Clevelskio was almost knocked down by a line drive from Grimes' bat, but chased the ball half way to third and got his man at the initial tag. In Cleveland's half of the fifth, Right Fielder Griffith made a thrilling try for Speaker's triple which scored Jamieson. After a long sprint he got his finger tips on the ball just as he crashed into the stands, but could not hold his hard hit sphere. Second Baseman Kilduff also came in for a round of applause in the second session when he came in on the grunge on a full sprint and scooped up Smith's bouncer which had cleared Grimes' head by several feet and while off balance whipped the ball to Konechky for the out.

**First Run in Fourth.**  
Cleveland put across the first run in the fourth inning. After E. Smith had grounded out, Gardner beat out a hit past Kilduff and went to third on a hit and run play when W. Johnston singled to right. Sewell flied out and Johnston followed with a delayed steal. The ball was slippery and when Grimes threw to second after taking Miller's quick return the ball went wild and Gardner scored.

The Indians annexed their next tally in the fifth inning. Clevelskio opened the inning by striking out but Jamieson came through with a scratch infield hit. Wambegans flied out and Jamieson stole second. Speaker followed with a hard drive against the newly erected stands in right centerfield and Jamieson crowded the plate.  
The final run of the series came out in the "lucky seventh." The Indians started the inning with a double to left center but the plucky little back-

stop was run down when Clevelskio grounded to Griffin. Clevelskio, however, managed to take second while O'Neill was being retired, and he romped home when Jamieson drove the ball to right field for two bases. It has been planned to send "Tubs" Munster against the Indians in an attempt to check the winning streak of Speaker's men, but owing to the court action today in which the pitcher was charged with violating the exhibition tie-up ordinance and fined \$1 and costs, Manager Holman switched to Grimes in a last, forlorn hope.

## CLUB MEMBERS MAKE RECORDS

Remarkable Showing Made by Members of Boys and Girls Clubs Under Farm Bureau Direction.

One of the greatest records for the winning of state championships in demonstration work that was ever made by any one county in the United States came to Twin Falls through the exhibits put on at the state fair by the members of the Boys and Girls clubs. These young champions had been carefully laying their plans throughout the summer for thorough preparation of their lines of work and proved to be too much for the competitors from other counties of Idaho who took part with them in the various events at the state fair.

Among the championships which were won by Twin Falls competitors are those in canning demonstration work, in wine judging, in corn judging, in potato judging, and in wheat growing. These young demonstrators also won first prizes on squash, onions, tomatoes, sugar beets, sweet corn, potatoes and beans. They took all the prizes that were offered at the state fair in their class on sugar beets, beans, squash, sheep, and 17 out of 18 of the prizes that were given for Duroc swine. In addition to these laurels, they went into the open class and won first in sheep, four places in swine, and first in wheat growing against the best agriculturalists of the state.

## TRIAL POSTPONED

The trial of L. H. Carr and Robert Carr, charged with being drunk and disorderly at the Laverne dance hall the night of the American Legion festival, has been postponed until October 20 at 2:30 in the afternoon. One of the defendants was unable to be present at the date originally set, yesterday morning.

## LUMBER FIRM FILES SUIT

WILSON AND HIS DETRACTORS  
(From a letter to the Springfield  
Republican.)

Senator Penrose, as reported in the  
Boston Herald, vilified Mr. Wilson in  
these words: "The hypocrisy, effemina-  
cy, incompetency and inefficiency of  
President Wilson."

I was brought up a republican. I  
am an independent in politics. I  
never voted for Mr. Wilson. But if I  
had the opportunity tomorrow I  
would vote for him with both hands  
up.

It is unbelievable, the vast, heart-  
less, calculated and prolonged propa-  
ganda of character assassination that  
has been carried on against Mr. Wil-  
son. I never have contemplated his  
like. It is one of the dark chapters  
of shame.

Compare the spiritual and noble  
face of Mr. Wilson with the gross  
face and figure of Senator Penrose.  
A volume of revelations in one look!  
I sat in the gallery and watched and  
studied our senators by the hour. As  
I have looked at the senator from  
Pennsylvania and looked at the others,  
I have thought, "You are the least  
erected spirit of them all. You are  
the 'Cathion' of the United States  
senators."

By the hour I have forecast his  
votes on the different questions. Al-  
ways hit it. Never failed once. Al-  
ways voted against labor and for  
capital; always against the people  
and for privilege. Yet this is the man  
who induces President Wilson. And  
this is the leader of the republican  
party—Senator of my native state,  
the role of Pennsylvania and leader  
of my father's party. I am covered  
with shame.

Mr. Cox will be the next president  
if my vote can help make it so.—  
Elihu W. Shumaker, Cambridge,  
September 15.

LEY LITHUANIANS FOR  
RECAPTURE OF VILNA

LONDON, Oct. 12.—A wholesale  
levy of citizens who are capable of  
bearing arms is proceeding at Kovno  
with the object of a counter attack by  
Lithuanians for the capture of Vil-  
nius, given color to the possibil-  
ity of a Polish advance on the city.  
The dispatch declares. These forces are  
well equipped.

The correspondent says the secret  
police of Kovno have arrested the  
ringleaders in the plot, in which the  
principal Polish organizers are im-  
plicated. The plot aimed at the cut-  
ting of the railway between Vilnius  
and Kovno to prevent the transport of  
supplies from Germany. German  
speaking, the dispatch adds, Vilna  
was spared the horrors of street  
fighting, although there was some  
shooting and bombing. The invaders  
proclaimed their government in a  
flamboyant declaration signed by Ze-  
linski and five others.

The declaration repudiated the  
Russos Lithuanian treaty and insisted  
upon the rights of self-determination.

The general cooperative program of  
the board was enlarged throughout the  
world in 1919, with efforts completed  
looking toward the control of hook  
worm infection at the Ping Lian-  
colony, as a model of entering China's  
public health field.

All work last year was conducted in  
close association with governmental  
agencies, it was stated.

CARPENTIER PUTS  
K. O. TO LEVINSKY

French Champion Successfully Handles  
Battler and Wins Right to  
Fight Dempsey.

JERSEY CITY, N. J., Oct. 12.—  
Georges Carpentier, European heavy-  
weight champion, knocked out Bat-  
ling Levinsky, holder of the Ameri-  
can light-heavyweight title in the  
fourth round of a scheduled 12-round  
bout. Carpentier, who holds the light-  
heavyweight championship title of  
Europe, thus becomes the world's  
title holder.

Early in 1918 Jack Dempsey, who  
won the world's heavyweight cham-  
pionship, knocked out Levinsky in  
three rounds at Philadelphia. Ta-  
night Carpentier failed to equal  
Dempsey's feat in finishing Levinsky,  
but he is the only one outside the  
champion who has knocked out Lev-  
insky since the latter became promi-  
nent as a fighter.

His victory over Levinsky, Car-  
pentier has earned the right to meet  
Dempsey for the world's champion-  
ship.

Levinsky was in splendid condition  
and so was Carpentier. From the  
middle of the first round when the  
Frenchman began to cut loose the  
outcome was inevitable. His blows  
were well delivered and effective  
while Levinsky's blows returned  
were too light to do much damage.  
Twice in the second round Carpen-  
tier sent Levinsky to the floor of  
the ring with hard right crosses. Dur-  
ing the third session Carpentier  
slugged up a bit and seemed unde-  
cided as to what his next move should  
be. When he did start after his  
man however, he used both hands  
peacefully and Levinsky, who has  
always been credited with being able to  
absorb punishment was visibly weak-  
ening.

In the final round Carpentier  
simply battered Levinsky into submission  
and when the bell rang he was un-  
able to get up, while Referee Ertle  
counted him out.

Levinsky was badly punished while  
Carpentier did not show a mark  
when he left the ring.

BAR MARQUARD FROM

"Babe" Marquard, pitcher who was  
finishing the exhibition ticket ordi-  
nance, would never play with Brooklyn  
again.

"I'm through with him absolutely,"  
said Mr. Ebbetts. "He hasn't been  
called however and if anyone else  
wants him they can have him. But  
Marquard will never again put on a  
Brooklyn uniform."

How We Care  
For Your Meat Cars

When you see a Swift Refriger-  
erator Car going by in a train, it  
seems a simple thing that it should  
be carrying fresh meat up and down  
the country.

Like most of the packer activities which  
contribute to your welfare, you are so used  
to having this going on uninterruptedly,  
day in, day out, throughout the year, that  
you are likely to take it as a matter of course.

But it is not a matter of course. Every  
car you see going by means long hours of  
minute, scientific, painstaking care in prepa-  
ration for what it is doing.

Every time a car comes in it is washed  
out thoroughly with scalding water. If any  
taint, any foreign matter, were present, this  
would get rid of it. Even the meat hooks  
are taken down from the racks and scalded  
with water and live steam.

When the car is thoroughly cleansed we  
put in 5,000 pounds of ice. But that  
is only preliminary. It only cools the car  
to the proper temperature. By the time  
the car is moved over to receive its load,  
this first ice is melted. More is then  
put in to keep the car cool.

Then the meat is hung on the sterilized  
hooks and the load of food is ready for its  
journey. It arrives as it leaves, clean,  
fresh, wholesome, appetizing; and your  
meat supply goes on unaffected by seasons  
or weather.

This is only a part of the service which  
Swift & Company furnishes, at a profit  
to itself so small—averaging a fraction of a  
cent per pound on all products over a period  
of years—that if the profit were handed on to  
the consumer, it would make a difference of  
less than a nickel a week in the meat bill of  
the average American family.

# INFUX OF IMMIGRANTS TO U. S. UNPRECEDENTED

NEW YORK.—Ellis Island, melting pot of the world, is boiling as never before, with the greatest flood of immigrants in history pouring into it. Millions more are clamoring at Europe's exits, anxious to come to America and Congress will be pressed to quickly enlarge both the physical plant and working force on the island to more than double its present size, according to Immigration Commissioner Frederick A. Wallis.

Since early last summer, aliens have been entering America's front door in unprecedented numbers. The prospect of housing them until they can be admitted to the country has become painful to all parties concerned. Recently, hundreds of immigrants detained for investigation had to sleep standing up, as the floors, benches and chairs already were filled with the backwash from the congested dormitories.

The tide is certain to become greater with each passing month. Commissioner Wallis felt assured. Steamship operators informed him that their accommodations are booked to capacity for twelve months ahead. Government officials announced 267,000 applications had been made for passports in Poland alone recently by Jews, while hundreds of thousands in other parts of Europe also were anxious to cross the sea to this country.

"Between 2,000,000 and 4,000,000 Italians are seeking domiciles and citizenship here and more than 3,000,000 Poles want to come over," said Commissioner Wallis, who attributed the exodus from Europe to the harsh post-war living conditions and the economic situation.

Frequently the commissioner asked the aliens why they left Europe. Most of them replied, "no money, no eat," he said. Many Italian farmers declared they quit their native soil because of the danger from explosions when plowing in former battlefields.

Added to the prospective influx of immigrants from the countries of the war allies will be millions in from Germany who, as soon as the way is clear, will seek passage to America. The immigration authorities have been informed by reliable and official sources.

"The immigration in the future will be limited only by the capacity of the vessels," Commissioner Wallis said.

In the meantime while wondering how many years it will be before aliens quit coming across the sea at their present rate, Ellis Island workers are perplexed over their existing problems. The normal capacity of the island is reached when 2,000 immigrants are inspected daily. Yet, on a recent day, 10,400 aliens were fed there. During another day the same week 11,000 persons were detained in the holds of the vessels which brought them over, while officials struggled with the work of examining the 4,000 then on the island. For two days the

island doors were shut against newcomers, who remained on boats.

The rapidity of handling them depends upon the aliens themselves. Commissioner Wallis has found that some groups are easier to examine than others, while care must be taken in separating the many nationalities which makes the island conversation sound like that at the Tower of Babel. "If we mix English, Irish and there will be a free-for-all fight in ten minutes," said the commissioner. "The English won't eat with the Jews, and call them 'foreigners.'"

Three recent additions to the tasks of the immigration officials have made more tedious the handling of the aliens. Much time is required in checking passports and the literary test which all immigrants must pass, also causes trouble. Each alien must read in one language before being admitted. In addition to its labors with the aliens, the immigration officials examine every seaman entering the port, even though he left it but a few days before. In the last eight months 800,000 seamen were examined here.

Despite congestion everything possible is being done to make the treatment of the aliens on the island humane. Babbles are given warm milk and crackers. Candy, cigarettes, fruit and other comforts are furnished adults. Sunday concerts, with bands, grand opera stars and others on the program are held weekly. For those who cannot find a bed, 10,000 army blankets recently received from Washington are available for improvised sleeping equipment.

Ellis Island authorities are trying not to keep the aliens in the holds of the vessels after arrival and are striving now to delay commerce by holding up ships in that manner and so far they have succeeded. But, no matter how fast the immigrants arrive, the examinations will not be made less rigid, but will continually be made more severe, Commissioner Wallis said.

Aliens who are refused admission—and the percentage of rejected ones has increased greatly since before the war—are returned to the port from which they came at the expense of the steamships. Most of those admitted to America are going to industrial centers, but many are flocking to rural districts and farms, the commissioner said.

from Commander J. K. L. Ross' stables. The time was 2:03, more than a full second faster than the Canadian record for the distance.

Samuel D. Middle of Philadelphia, owner of the victor, is the richer tonight by the purse of \$75,000 and a gold cup valued at \$5,000.

The race was over a course of a mile and a quarter, the winner carrying 126 pounds to the losers 125. A \$2.00 ticket on the winner paid \$210.

Between 25,000 and 30,000 persons paid to see the two great horses race, the attendance figures and gate receipts setting a new high mark in the history of Canadian racing. The time, 2:03 flat, was more than a second slower than the record of both horses. Sir Barton has a mark of 2:01 4-5, which was later tied by Man O'War. The slow-time was partly due to the fact that the victor was never in danger from the time he took the lead at the first sixteenth pole.

## TOURISTS ARE GUESTS

San Francisco again H.A.-Ber tan SAN FRANCISCO, Oct. 12.—Fifteen motorists who are making a tour of national parks in the interest of a highway 6,000 miles in length to connect all the parks, were guests of the San Francisco chamber of commerce at a luncheon today. They will leave tomorrow for Yosemite and Grant national parks.

The ritual program, was taken in charge of by Mrs. P. W. McRobert. Mesdames White, Norton and Packard gave talks on "After War Conditions," and a report from the Americanization committee was read with suggestions for beginning immediate work. Mrs. Gamble was elected secretary to fill the vacancy created by the resignation of Mrs. Hursted.

The next meeting will be given over to celebrating the four hundredth anniversary of the landing of the pilgrims, under the leadership of Miss May Scott.

The regular meeting of the Eastern Star was held last evening at the Masonic hall. The time was spent with initiation followed by a social hour.

The members of the Henry Watling Circle, Ladies of the G. A. R., will meet at the home of Mrs. East Mudge Thursday evening. The evening will be given over to initiation.

# THE FINAL FATEFUL HOURS

## FOURTH PERIOD

Embracing the last week, terminating October 16, the following number of votes will be issued on subscriptions:

FOURTH PERIOD Oct. 11th to Oct. 16th		
1 year	\$ 7.00	3,000
2 years	14.00	8,000
3 years	21.00	20,000
4 years	28.00	50,000
5 years	35.00	100,000
6 years	42.00	150,000

A special ballot, good for 100,000 votes, will be issued on every "club" of \$20 turned in. This is in addition to the regular number of votes allowed on every subscription secured up until 11 o'clock, Saturday, Oct. 16, the last hour of the contest.

With the final hour, 11 o'clock Saturday night, emblazoned on their minds, stirring scenes are being enacted by candidates in the Chronicle's great automobile and gold election, now swiftly drawing to a close.

Aroused to unprecedented opportunities of winning four beautiful motor cars and other prizes of big value, every passing hour is instilling new energy into ambitious workers. Everywhere they are swarming in eager and anxious quest for subscriptions that will win them the big votes—and in the end, one of the big automobiles.

These workers pay no attention to frequent rumors that circulate with the hope of damaging effect—to discourage competitors in the race. Misleading stories have but one object—influencing some candidate to retire for fear of being passed by some one else in the race. Such

tales have no foundation whatever. It is obvious that no one can determine the ultimate result of the campaign.

Courage and downright hustle are the two main things to observe. Votes are the only things that will win the prizes and every candidate should—and for that matter they are taking upon themselves to annex just as many votes as possible between now and the close.

The road ahead may be strewn with barriers, but these will be of slight consequence to the one who goes steadfastly onward through the corridors of chance and out into the "Land where happiness lies."

The FINAL and FATEFUL hours of this big race are here. Time waits for no one. In order to win you MUST GET BUSY in EARNEST.

## THE JUDGES

Some of the members of the Advisory Board, selected at the beginning of the campaign, will be asked to act as judges; to canvass the findings in the ballot box, and to award the prizes. The personnel of this board is as follows:

H. R. Grant, Banker.  
Leo F. Bracker, Cashier of Idaho State Bank.  
J. A. Keefer, Cashier Twin Falls National Bank.  
J. S. Bussell, Banker.  
Thos. M. Robertson, Realtor.  
C. A. Robinson, Capitalist.  
W. Orr Chapman, Attorney.

## How to Get the Most Votes

A glance at the vote schedule will show you the big vote value of 6-year subscriptions. For example, one 6-year subscription counts 350,000 votes while a one-year subscription counts only 3,000 votes. In other words, one 6-year subscription is many times more valuable than a one-year subscription.

Figure this out for yourself—it is easy to see that the candidate who is most successful this week is the one who gets the greatest number of long term subscriptions. In fact, a few 6-year subscriptions turned in from unexpected sources would make a new leader in the race.

Keep in mind, too, that every \$20 "club" of subscriptions turned in entitle you to 100,000 EXTRA FREE VOTES, besides the regular number of votes allowed on subscriptions.

So, remember to keep after the 6-year subscriptions which are biggest in vote value. That's the way to win the prize of your choice.

**IMPORTANT NOTICE—ALL SUBSCRIPTIONS DEPOSITED IN THE SEALED BALLOT BOX MUST BE ACCOMPANIED BY CASH, MONEY ORDER OR CERTIFIED CHECK FOR THE FULL AMOUNT TO COVER. PERSONAL CHECKS UP TO \$10.00 ARE ACCEPTABLE, PROVIDING NO TWO CHECKS ARE SIGNED BY THE SAME PARTY. THIS RULING IS MADE IN FAIRNESS TO ALL CANDIDATES AND WILL BE STRICTLY ADHERED TO.**

## MEAT CAUSE OF KIDNEY TROUBLE

Take Sals to Flush Kidneys if Back Hurts or Bladder Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of 2nd Sals from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize uric acids to urine. It is no longer irritates, thus ending bladder weakness.

2nd Sals is inexpensive; cannot injure, and makes a delightful uric acid lithia-water drink.—Adv.

## EXPLAIN CAUSES FOR SLUMP IN WHEAT PRICES

MINNEAPOLIS, Oct. 11.—Causes of recent slump in grain prices, especially in wheat, were explained by delegates attending the Grain Buyers' National association's convention which opened here today with more than 1,200 members present.

Heavy importations of Canadian wheat, heading sales by Canadians on American exchanges, an unusually heavy production of foodstuffs other than wheat, lack of recent foreign buying and heavy competition for loans were among reasons cited by speakers. Among those who spoke today were P. E. Goodrich, president of the association, and B. E. Clement, president of the Texas Grain Dealers association.

## NOTICE TO CONTESTANTS

- \* The Chronicle ballot box, lacking and sealed, is located in the corridor of the First National bank, corner Shoshone and Main streets, where all letters and cards must be deposited.
- \* This last week of the campaign is to be deposited.
- \* Handing hours at this well-known institution are from 10 a. m. to 3 p. m., and votes may be cast any day during these hours.

The climax comes Saturday night. Seven weeks of enthusiastic work and handling on the part of the candidates in the Chronicle's big automobile contest will culminate in the closing week—Saturday night, October 16, at 11 o'clock. The award of the prizes will be made in the evening. In addition to the prizes, the Chronicle if possible to complete the contest in time.

The list of prizes includes one new 1919 Buick touring car, now on display at the Lind Automobile company's salesroom, one 1919 Buick sedan, now on display at 415 Idaho Auto company's salesroom, and one 1919 Buick sedan, now on display at 1105 Oakland touring car, now on display at the salesrooms of the Maple Bros. garage, five hundred dollars in cash; two \$250.00 cash prizes; two \$100.00 cash prizes. In addition to the prizes, equal to 20 percent of all subscriptions equal to or less than \$10.00 will be paid to each contestant who does not win one of the above prizes, providing that they have made a record of subscriptions every week during the campaign.

In order to handle the history of Twin Falls county has been such a distribution of costly prizes, and never before has there been such an exciting battle to hand them.

Each contestant to All.

In order to maintain the strict secrecy as to the number of subscribers there must be no disclosure of names during this, the last few days of the contest. The names of the contestants will be published in the Chronicle on Saturday night.

No matter whether you are a subscriber through the campaign department, or whether you are a subscriber to the Chronicle, or whether you are a subscriber to the First National bank, corner Shoshone and Main streets, by sending in one of the above prizes, you are eligible to win the prize, and the strength of the respective candidates, which provides the possibility of favoritism and insurance favors to the nearest degree.

Lacking and sealed, the ballot box is now in the First National bank, where it will remain until the closing hour of the contest—eleven o'clock Saturday night.

When the final hour arrives the contest will be declared closed. The judges will then break the seals, unlock the box, and immediately thereafter, or soon as the votes can be issued on subscriptions contained therein, the last count will begin.

Most Successful Campaign

And never before in this section of the state has there been such a successful subscription campaign. Each of the leading candidates has turned in hundreds of new and old subscriptions, and the enthusiasm of the contestants has been augmented by the hearty response the people have made to the solicitations of the contestants. The final week will give the total volume of the campaign a big boost.

Each contestant is now devoting every minute of their time to getting in

all the votes possible before the closing hour, and the enthusiastic boosting of their friends is proving an important factor in the race. The awarding of the prizes will be the biggest event in the history of Idaho. Forest bordering an excitement will prevail from now until the closing hour, Saturday night, October 16, at 11 o'clock.

## NEW ROAD WILL EFFECT SAVING DRIVE FOR BONDS IS AGAIN RESUMED

Friends of Rogerson-Weils Railroad Point Out Advantages Accruing to County's Shippers.

The saving that will be effected in freight rates to the benefit of the business men and farmers of the Twin Falls tract is clearly shown in a comparison compiled by George L. Davis. The table shows a saving on grain, hay and livestock, when shipped to San Francisco, of at least 20 per cent, and as much as 20 per cent saving to San Francisco rather than shipping to the eastern markets at present prices.

Under the new rate hay could be shipped to San Francisco for 60 cents, according to Mr. Davis, and at the present rate to Kansas City is 75 cents, this would mean economy of \$5.00 per ton. Similarly the present rate to Chicago on cattle is \$2.05, the rate to San Francisco would be \$1.25, or a saving of \$1.02 per car of cattle.

Some of the statements of the various business men and shippers of this region show very concretely what these people think of the benefits that will be derived from the construction of the proposed road. H. W. Humphreys, a prominent stock buyer of Ogden who has purchased cattle in this territory for the past 12 years, told the farmers at a recent meeting as follows: "If the new railroad were in operation now, I could pay from one-half to three-quarters of a cent more per pound for the livestock I am buying. This would mean, on a lot of 225 head of cattle, just purchased, about \$1200 additional money to the farmer. I am dealing with, I could pay this price because the freight rates to San Francisco would be lower and the shrinkage to the eastern market of ten runs as high as \$10 per head."

J. E. Smith, prominent banker and business man of Twin Falls said at the meeting: "The Idaho Cattle raisers' association, which is the organization of the cattle raisers of the state, has been organized for the purpose of securing a road to the coast. I will do all within my power to get this railroad which will mean so much to us."

At the ORPHEUM

Wednesday and Thursday, two days only, the Laetitia Concert company composed entirely of soldiers.

In presenting this organization to the public, the management wishes to announce that this concert orchestra is an one of the finest in America, and that it is a school and academy, graduates of some of the best musical schools and have played in some of the finest halls and orchestras in the United States which places them in a position to render the very best standard orchestras, grand opera and popular selections, characterized by unusual talent and solos played by renowned artists. Some thing that will please the most critical—Adm.

WHEAT GROWERS MEET

Mr. John E. White and Bruce Lumsden, organizers for the Idaho Wheat Growers' association, addressed an enthusiastic meeting at Murtaugh on Monday night. About 50 farmers were present and many of them signed contracts as members of the association. There will be other organization meetings at Black Creek tonight, Buhl on Thursday, and Berger on Friday. Donald McClain, who is acting as advance agent, is already on the ground at Buhl making preparations for the meeting there.

KIDNAP JAILOR

CORR. Oct. 12.—The first known case of an attack on an Irish prison official occurred yesterday when Thomas Griffin, warden of the Corral jail, was kidnaped. No trace of him has been found.

It was stated that Griffin was on the "blacklist" being accused of torturing hunger strikers in jail by forcing them food and mistreating other prisoners.

DEATH OF MRS. GRIEVE

Mrs. W. A. Grievie of Filer died yesterday morning at a local hospital. Funeral arrangements have not yet been made.

## MERCHANTS MARINE HAS PLENTY OIL

LONDON—Uncle Sam produces about three-fifths of the world's present supply of petroleum, but when ships, flying Uncle Sam's flag, come into the ports of the world to take up supply of bunker oil, they are as apt to find this business in control of a Briton as an American.

Only recently it was announced in the British press that a great company was being formed whose purpose it would be to establish fuel oil stations for merchant ships all over the world. The object is, of course, to help British shipping out as in the past British control of coaling facilities all over the world has helped the British mercantile marine.

Oil is rapidly taking the place of coal as a ship fuel. In the Pacific ocean oil has already come into general use, and it is making immense strides on the Atlantic where merchant vessels are being fitted up as oil burners.

The advantages are numerous: Oil requires less bunker space than coal.

It can be carried between double bottom and in other places where neither cargo nor coal can be stored. Oil bunkering can be quickly done and weather and darkness do not interfere.

It is a cleaner fuel and there are no soot, so that much labor and machinery are cut out.

Oil as fuel also cuts out the necessity of the stokers employed where coal is burned.

The bulk of the world's crude oil, used as ship fuel, comes from California, Mexico and Peru. It is controlled on the markets of the world principally by the American Standard Oil group and by the Royal Dutch Shell group, which is British and Dutch.

## SCHOOL BOARD AWARDS CONTRACT FOR FURNISHINGS

Having allowed \$1000 bids at its meeting last Monday night the school board awarded the contract for furnishing the shades for the new building to the J. H. Self, Furniture company. Progress on the new building was discussed and declared satisfactory.

## factory, and the purchase of additional school wagons for the transportation of the children living in the country was also under consideration. It was thought that two more wagons would be sufficient. There was a full membership present.

## ADJOURN HEARING OF IMMIGRATION PETITION

The hearing before the county commissioners of the petition for the organization of the Blaine Irrigation district was resumed yesterday morning, and after additional evidence had been taken, was adjourned until Thursday afternoon at 1:30.

County Commissioners have written to the state reclamation engineer requesting his presence here at that time, but as yet no reply has been received. Mr. Dibble, connected with the federal reclamation service, has consented to appear at the proceedings. His is now stationed at American Falls.

## BATTLESHIP BOMBED BY FIVE ARMY AIRPLANES

NORFOLK, Va., Oct. 12.—The battleship Indiana was subjected today to aerial bomb experiments in Lynn Haven Bay, five planes having been sent out from the Hampton Roads naval operating base to attack the ship, which is now the pride of the American navy.

The Indiana recently was consigned to the junk heap. It was later decided to use her and the battleship Iowa as targets. The Iowa will be bombarded by gunners on the battleships of the Atlantic fleet.

The Indiana was under way when attacked but no one was aboard, wireless control being used to direct the ships' movements, from the battleship Ohio.

## FIRE MARSHAL LOOKS INTO GIN BURNING

WACO, Texas, Oct. 12.—A. J. Dossert, owner of a cotton compress destroyed at Cherokee Sunday morning, upon his return from that place tonight said he found the department of justice agents and the state fire marshal investigating the fire.

"If gins are to be burned and cotton yards molested," Dossert said, "it will have the effect of bringing the price of cotton down. Insurance companies will either cancel or reduce insurance on cotton and this will make it impossible for the barks to loan money. If, thus the farmers will be the sufferers."
