

### SWORE BY 'TEDDY'

#### Yellowstone Park Rangers With Roosevelt to a Man.

#### Colonel's Characteristic Greeting of Down-and-Outer, Whom He Had Known in Happier Days, is Still Remembered.

Of the few out-of-season visits paid to the Yellowstone, that Colonel Roosevelt, who, when president, spent 24 days of the late winter of 1903 there, has the most prominent page in the annals of the Spread-Eagle rangers. He found the scouts, then serving as chaperons for luckless cavalry troopers and doing their own work besides to be men after his own heart, and he did not hesitate to say so. Before he had been in the park a week every ranger was swearing by him.

"Anybody know the whereabouts of one William Jones?" was one of the colonel's early inquiries.

Jim McBride, the present chief ranger, who was then assistant chief of the Yellowstone, told me that one Bill Jones used a Bill Jones wood chopper and ne'er-do-well, chiefly remarkable for an insatiable thirst and a knack of ministering to it in a honed park. He was about the last man in the Rockies for whom a president of the United States would be expected to inquire.

"Bill put me into office once," said Roosevelt. "I want to see him, drunk or sober."

He further explained that the derelict had been sheriff during his own days as a ranchman and had made him a deputy in a horseflesh posse.

"I took three days to find that old horse and bring him in," said McBride, in recalling the incident, "but just to listen in at the colonel's hearty greeting of that down-and-outer was pay in full."

"Well, Ted, you got a right swell job since I see you're not into horseflesh anymore," remarked when they had exchanged bow'd'ye-dos; "but that needn't stand between friends—I got something on my hip."

"Colonel Roosevelt didn't partake, but I did spend the rest of an hour swapping yarns of the days when Bill was a 'white man' and sheriff of his county. The woodchopper tried to buck up after his talk with the president, but it wasn't to be done. The next winter he was dead in the brush over on Bear creek."

"The colonel was enthusiastic over the sport of ski running, and was something of a performer on the slabs himself, for a novice. He strapped his feet into them as often as opportunity offered. One morning on a slide near the Canon hotel he broke one ski and came a heavy cropper."

"The government has fallen at last!" he cried with a moan, showing his teeth as he coasted down a help-a-undo a living president and a pair of dead steaks.

"He was looking at the wreck he had made of the hickory alphas when Capt. John Fitcher of the park, arrived then in command of the park, arrived."

"Have you plenty of these?" Teddy said.

"Only a few pairs, and they are the property of the interior department," replied the officer.

"In less than three weeks there came a rush shipment of a hundred pairs."

"Next afternoon the president challenged me to a race on an alpine slope of thirty to thirty-five miles. Those with him decided that the trip would be an arduous strain upon him, and began to argue against his attempting it. He got me to one side after a while and whispered:

"We'll let them talk, McBride. Just you stick around until midnight. They'll be asleep then, and we'll hit the trail!"

"It took Harry W. Child and Captain Fitcher two hours to talk him out of that. He wasn't at all pleased at having to veto his own plan for a secret departure."—Ethel and James Dorrance in Munsey's Magazine.

### Bird Study of Interest.

A novel opportunity for studying the influence of extremes of climate on birds is offered by the English sparrow. This bird was introduced into New York city soon after 1800, did not reach California until 1871 or 1872, but has recently been found by Dr. Joseph Grinnell of the University of California to have settled in the heart of Death valley at Greenland ranch, 7,000 feet above sea level, with a temperature at times exceeding 130 degrees F., and great dryness. How development will be affected is a matter of much interest.

### Navy Dirigibles World's Largest.

Two dirigibles, the largest in the world, are planned by the navy, and one of them now being built in England, will attempt a transatlantic flight next fall, Captain Craven, director of naval aviation, recently told the house naval committee. American naval officers and enlisted men who will fly the British-built ship to America are in England training. In making \$2,700,000 for construction of a second dirigible, Captain Craven said it would be 50 feet longer than the British-built craft, which is 64 feet—Scientific American.

### Unceasing Violence.

"Why was it that the prohibitionists were so much more successful in the hearing of one of them that there was a bottle baby?"

### ELDERLY CAN "COME BACK"

#### Physician Tells How He Succeeded in Throwing Off the Incubus of Advancing Years.

Dr. L. Leo Niescher tells how he made himself over into a young man, in an article in *The Magazine for Men*. "It is something any elderly person can do," he says. "Here is the simple proposition. A man ages many years in the course of a severe illness lasting several weeks. After a few weeks he begins to look and feel many, but to a certain extent the case has taken ill. Having in mind hundreds of cases in which this has proved true, it is logical to ask if we cannot rejuvenate the aged, make them grow young again, just as we make the prematurely aged invalid become young. And, through recent experiments, that can now be answered in the affirmative. I speak from personal experience. It is a fact that the desire for a single one of the objective manifestations of senility, those that give the appearance of old age, which cannot be renewed, suppressed, or hidden, or at least a youthful substitute found for it."

"To restore the spirit and buoyancy of youth is more difficult. This requires the will, not only the desire, but the determination and the energy to be young, to feel young and look young. Most old persons have the desire, and have the determination, but few have the energy to carry out the measures necessary for rejuvenation. In many cases the old man or woman who would like to do so is afraid of ridicule, of being called glib and foolish if he or she suddenly appeared in youthful attire and adorned with the artifices of the beauty parlor. Yet under some special stimulus, usually the desire to attract some particular individual, of the opposite sex, both men and women have gone beyond the limit of propriety to look younger than they are and feel younger than they look. And if they went about it the right way, they usually succeed in doing so."

"In one year the change in my appearance and actions and feelings was most noticeable. The desire, and I have seen me since the earlier days, when I was aged, did not recognize me."

### Yields to March of Progress.

One of the oldest banks in Wall street has finally yielded to the march of progress—and installed a telephone. It will only cost him a few dollars, for it is difficult to uproot prejudices of many years. They have never had a telephone because they believed that confidential business could not be conducted over a telephone and their atmosphere of the old bank, the oldest in the city, is that of a staid institution in some old town settled in Colonial times. Absolute quiet prevails. The employees retain the old-fashioned good manners. Instead of a lively laughing creature who tells the world the line is busy in thrilling soprano, the bank will select for their first telephone operator a person with a beard and a hoarse voice, able to endure his slightest interferences with a certain propriety.

### New and Valuable Resin.

A new synthetic resin is stated to be a suitable substitute for many purposes for Damar and Kauri gums and the common resin. It is a product from coal tar distillates, and has been named Cumar. It is soluble in coal tar solvents, vegetable oils, carbon bisulphide, carbon tetrachloride, ether and acetone. It is insoluble in alcohol, and this, as usual, gives it special value for varnishes. It finds use also in leather dressings, polishes, artificial leather, printing inks, waterproofing paper, linoleum, and as a binder for milled materials. Its color may vary from light yellow to dark amber, and the melting points of the various grades range from 50 degrees to about 100 degrees centigrade. With many mineral and vegetable waxes it gives mixtures of remarkable properties.

### A New Gift!

The man next door to four-year-old Allen has a new car and little Allen is much given to accompanying him to the garage to keep him company while he tinkers with it. He sometimes seems to get as much pleasure out of it as does his actual owner. Only the other day something happened which threatened to take a dash out of his enjoyment. The owner of the car, some time with a jumper suit in which he appeared the next time he went out to work on his car.

The next time he started out to the garage he was greeted by Allen but to boy came. Then he went over to the boy's house and hunted up the little fellow. "Come on out to the garage with me, son," he said.

Allen looked at him sorrowfully. "I can't," he said sadly. "I haven't any garage space left—like yours."

### Chinese Girls' Fight the Boys.

According to the Peking Jipao the experiment of mixed education has not been a brilliant success in the capital as it resulted in a stand up fight between girl and boy students in the government university. It appears that during school hours some of the boys attempted to "cut out" the swains of some of the girls, and these, becoming jealous, tried to wreak vengeance. The government has dismissed all the participants in the fight, and has decided that the present moment is opportune for mixed education and will drop the scheme.

### CHICAGO HAS REAL SUBWAY

#### Windy City Has 65-Mile System for Freight and Construction Work

CHICAGO—The "busiest corner in the world" is at State and Madison streets—say Chicago native sons. It doesn't look like it—if you go 45 feet underground.

There, at intersecting tunnels are signs on the walls showing that it is State and Madison. Not a bit of traffic, though—except an occasional load of cinders, such as from a building excavation or supplies for a hotel.

You can travel 65 miles in a network of tubes forming the Chicago tunnel system. Few Chicagoans know the tunnels exist, though engineers compare them to the Panama canal, as an engineering feat.

Narrow-gauge railroad tracks carry freight trains that do the work of many thousands of horse teams and motor trucks daily, relieving traffic on the crowded streets above.

Trains in Tunnels

When a new building is erected

there are no long lines of wagons carrying earth and tying up traffic. A connection from the site is made with the tunnel system and the underground trains simply carry away everything from the excavation. It is carried to the hole for the site of the new Field Museum was made by this sort of pit-in.

ashes, cinders, waste and coal are also carried in the freight subway. Also supplies to hotels. Which accounts for a number of trolleys that live in the tunnels—trolley that pull off the train on the way to some hotel kitchen.

"Trains always stop when they see a turtle on the tracks," said H. L. Creutz, superintendent of transportation. "They think it's bad luck to run over a turtle."

### COMPLETE RADIO STATION

CHEYENNE, Wyo., Oct. 16.—The government radio station at the municipal building (field here has been completed and the workmen who constructed it have left for Salt Lake to erect the station there. All mail airplanes are to be equipped with wireless and they are to keep in touch with the stations along the transcontinental routes from New York to San Francisco.

Member of the Associated Press  
The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

**COVERING OUR FIELD**  
Some one once said, "I would rather know all about digging ditches than be supreme in my knowledge of that one thing—than to have a ditch digger's knowledge about the rest of the world." Specialization pays. More and more it is the theme of successful men.

A newspaper is the combined intellect of a number of specially trained men. But entirely aside from the intelligence behind it, though it may have able writers and excellent business management, the newspaper must be supreme in the territory in which it circulates if it is to be considered a complete success and a paying advertising medium for the advertisers.

Such a paper is the Chronicle. Its territory is the trade radius of Twin Falls. Its "customers," or subscribers, are the customers of every store in Twin Falls. The Chronicle makes no broad claims about its circulation aside from the fact that it does cover the trade and shopping radius of Twin Falls, thoroughly.

It does one thing well—better than any other advertising medium of whatever kind. To advertisers, it offers the daily opportunity of carrying their selling messages to the people who do their buying in Twin Falls. But the Chronicle is more valuable as an advertising medium than ever before. The big subscription campaign which has attracted country-wide attention and interest has practically doubled our circulation. Not only that, but it has secured for the Chronicle by far the largest list of

paid-in-advance subscribers ever attained in this section.  
Wide advertising is getting the maximum results per dollar of expenditure. It isn't merely the cost of the advertising that counts—but rather, it's the cost per dollar per cent. Advertisers should be bought on a basis of positive results. Cheap advertising, like "free advice," is generally worth what it cost.  
The advertising rate of the Chronicle is soon to be raised where it will conform to its added value to the advertiser.

## CLARK RETURNS FROM JOBBERS' CONVENTION

R. F. Clark, manager of the Southern Idaho Wholesale Grocery company, has just returned from the convention at Salt Lake City of the Intermountain Jobbers' association. He reports that the were representatives there from all the firms in Boise, Idaho Falls, Pocatello, Salt Lake, Ogden and Provo.  
Mr. Clark says: "Every jobber at the present time must contend with erratic fluctuations in his particular market. In my opinion the only amelioration of the situation can come through increased production. Production will have to increase because there are no surplus supplies to draw on. If a jobber does not carry an article at the present time it is not because he will not, but because he cannot secure it. The outlook is that conditions will remain about the same for some time, due to the fact that production is not up to the demand. Many manufacturers have sold out their entire output long ago. I do not, however, feel at all apprehensive as to a change for the worse. I think that the danger is that it will make every effort to speed up production."

## RED CROSS OFFICIALS DISCUSS COMING DRIVE

The executive board of the Red Cross with a member of each church met yesterday afternoon in the Red Cross rooms. Plans were made and discussed concerning the 1921 drive which will take place the week of the election. A committee consisting of Mrs. W. H. Clouet, chairman, Miss Johnson and Mrs. Maxwell was appointed to act as workers for the drive which will open Tuesday the second. Mrs. Currie Harper White was appointed chairman of committee of about 100 for getting supplies to all pulp and outlying districts.  
The actual work of the committees will begin Monday, the 25th, when Twin Falls will be covered with posters and hand bills telling of the work of the Red Cross during the past year.  
Months will be placed in all polls on election day and a number of members will be placed on the street to tag each poleliner. The drive will last a week

# RISKS HIS LIFE AT HANDS OF THE REDS TO RESCUE HIS FAMILY FROM RUSSIA

DALLAS, Texas.—"It's just luck I'm able to tell the story," said Harry Harris, owner of the Queen Clear store. "Not one out of a thousand escape from Russia alive."

Harris has just returned to Dallas from Russia, with his mother and three sisters, Helen, 16; Gertrude and Beatrice, 13, after a search which lasted eight months and covered all Russia.

"If any one wants to know how much they get to eat over there, they should see my mother and sisters," said Harris.

"My mother is not yet over that terrible fear she gets in Russia. She is afraid to sleep with the windows open. When I got back to New York and was on the streets at 12 o'clock at night, I found myself looking back to see if anybody was slipping up on me."

Rahmet a tribes Harris went through Poland and crossed the border into Russia by bribing a Bolshevik soldier with his rahmet and cap.

"You can get most anything in Russia for clothes," said Harris. "Money don't do them any good because the other fellow comes along and takes it away from them."

"I had some American travelers' checks that I put inside a loaf of that black bread that I managed to get hold of while it was fresh. Nobody took the bread away from me."

Harris arrived in Minsk, where his father had strived to death, but his mother and sisters were not there. Three days after his arrival there the Bolsheviks came and for six weeks he existed under their rule.

"In that time I learned what they want, or in other words, they don't want anything but to get what the other fellow has.

"All they have to eat in Russia is black bread, potato peelings and grass. Lenin gets the potato and gives the people the peelings. The people have no clothes and they are starving—150,000,000 of them."

Can't Last Long

"Such conditions can't last another year. The people are just holding up on promises. They were told that they could easily whip Poland, then the world would recognize them and they would have plenty to eat."

"Wonderful posters are spread throughout Russia holding forth promises for a brilliant future. In the meantime people are calling dead on the streets from hunger. Women

Young Harry Harris of Dallas, Tex., and his family found starving in Russia and brought to the United States.

and children without clothes beg for a scrap of bread on the streets in the snow.

"The wheat fields of Russia are all lying idle. Nobody will work. A few would but what's the use? Another fellow would come along and take it away from him."

"There are a great many German aviators and Krupp workers in Russia. If it were the help of the Germans that practically all the millions are made. A large number of explosions and deaths are caused at the plants because inexperienced men are in charge. It almost amounts to a fight still going on between the Germans and the allies."

No Coal in Russia  
"There is no coal in Russia. They use wood to run trains, and you can

sometimes travel 50 miles in 24 hours, never any further. The sparks from the engines cause great fires. Sometimes a city is almost burned to the ground and great forest fires started that way. They have no system for putting out fires, except to make everybody pump water. They make a pump for 24 hours once and didn't give me a thing to eat."

"I finally found my mother and sisters in Lithuania, but it was almost too late when I got there. They were nearly starved."

"Women and children don't have a chance in Russia. They seldom get any bread. To get it you have to sit on the stairs all night so as to be one of the first in line in the morning to get it while it lasts. Then when you get it someone is waiting around the corner to knock you in the head and

take it away from you. What's a life to a loaf of bread?  
"We got away as soon as we could, and thanks to the aid of Senator Cullum, my trip was a success. But it's terrible to think what my mother and little sisters have suffered. They don't hardly realize where they are now."  
"The Bolsheviks have made peace with Lenin and letters can be sent there for people in Russia."

## AMERICAN MERCHANDISE ACCUMULATES IN PORT

BUENOS AIRES, Oct. 16.—The accumulation of North American merchandise in the Buenos Aires custom house is now estimated to total \$7,000,000. The Argentine consignment of merchandise have declined to remove it owing to the losses they would suffer in exchange through the rise in the American dollar which amounts to nearly 100 percent per cent.  
Many consignment have proposed to make immediate payment on the basis of the exchange rate which prevailed at the time they contracted for the goods and pay three months hence whatever difference in exchange prevails at that time. In various cases, it is said, these proposals have been refused on the ground of money tightness in the United States.

## OMAHA DAILY PAPER HAS PRINTERS' STRIKE

OMAHA, Neb., Oct. 16.—Following an almost complete shutdown of the mechanical department, due to the declaration of a "vacation" by the printers, the Omaha Sunday Bee today appeared as usual.

Photographic reproduction of typewritten copy was resorted to, in lieu of type, and the paper, although presenting an extraordinary appearance, nevertheless could be easily read.

The photographic process was the same as that resorted to nearly a year ago by several of the large national magazines when the mechanical departments of their plants were tied up by the walkout of printers. The plan for the publication of the paper by this means is an innovation in the newspaper world of the middlewest, although it was used once before on the Pacific coast when the Omaha Sunday Bee today. None of the printers have returned.

## CUT WORKING WEEK

PASADENA, N. J., Oct. 16.—Curtailed of operations to four days a week was ordered by officials of the Holston Worsted Mills here today. Four months ago, "because of business depression" the week was reduced to four and a half working days. More than 6,000 men and women employees are affected.

## HERE TO STAY

*in Variety of Uses*

The uses of White Trucks are so varied and widespread that there is literally no transportation undertaking in any line of business in which they have not had a part.

*in Long Mileage Records*

There are numerous owners' records of 100,000 miles, many of 200,000 miles and some of 300,000 miles.

*in High Earning Power*

The earning power of White Trucks results from low costs and high performance, without a parallel in motor trucking so far as we have any records.

*in Fleet Installations*

No fleet record of truck owners has ever been published which compares in extent or progressive growth with the White Annual Roll Call.

*in Service to Owners*

Millions have been invested in White owner service and factory facilities built up throughout the country, which have taken years to perfect.

# FARM BUREAU TO SELL POULTRY

Miss Edna Ludwig, Home Demonstration Agent, Asks General Cooperation in Culling Campaign.

In an announcement to all farm bureau members, Miss Edna M. Ludwig, home demonstration agent, asks for general cooperation in the poultry culling campaign that is now being carried on. Miss Ludwig calls on the members to cull their flocks and notify her by October 25 how many fowls they will have to sell.

President Moore, of the extension division of the state university, has made arrangements with a buyer who will ship his crates into the county and receive the poultry at the various concentration stations. This arrangement, the announcement states, will give the seller the market price which was 21 cents last week, as compared with 10 cents in this county. All poultry will be graded.

Miss Ludwig says, "almost every one in the county knows how to cull. Do it now and let me know, otherwise the buyer will not come to your station. Mr. Moore says the market will drop in November. At least 1,000 to 1,500 culls must be brought to the station before the buyer will ship his crates there.

Culling demonstrations have been arranged as follows: Tuesday, October 19, at the home of Mrs. Edward Harding near Dinah, at 2 p. m.; Wednesday, Frank De Klotz, at 2 p. m.; Friday, C. A. Johnson, west of Kimberly, at 10 a. m., and S. G. Proctor, south of Kimberly, at 2 p. m. Other demonstrations are being scheduled and will be announced soon.

## MRS. NIXON DIES AFTER FOUR YEARS OF ILLNESS

Mrs. Marla B. Nixon died last night at the home of her son, W. E. Nixon, Mrs. Nixon, who has been an invalid for the past four years, would have been eighty-two years old the ninth day of next May. She came here in 1906 to join her son and has made her home with him ever since that time.

Besides her son, W. E. Nixon, Mrs. Nixon leaves a daughter, Mrs. W. E. Louck, of Sappida, Okla. The funeral will be this afternoon about five o'clock. Mr. Nixon will take the body to Adrian, Mich., for burial.

## TRAVELERS' ASSOCIATION MEMBERSHIP INCREASES

According to a report of the membership committee of the United Com-

mercial Travelers' association, submitted at the regular meeting last night, the organization in this city has increased 100 per cent in numbers during the past month. There are now thirty-five members on the rolls of the local organization.

Commenting on the large increase in membership, H. F. Clark said: "We consider it quite an honor to have a council in Twin Falls. This organization, which is of national scope, will not place a charter where the branch cannot be self-supporting. I know of no smaller city in the entire country which has a council."

The next regular meeting will be on Saturday, November 20, and since it is expected that the number of members will be doubled again by the time, it is planned to give a big banquet and a smoker in connection with the institution. It will be held at the I. O. O. F. hall.

## MOTHER FALLS IN HUNT FOR MISSING SON

SAN FRANCISCO, Oct. 16.—Led on by hope, Mrs. Mary Erickson traveled 10,000 miles in search of her absent-minded son, James Erickson.

The long search started several months ago when she learned that he was a patient in a small-state ward at Camp Mercedes, Texas. She hurried there and learned that he had been transferred to Council Bluffs, Iowa.

Then she again learned he had been transferred to the coast. At Westport, Wash., his attorney picked out his secured employment, driving an automobile to Oakland, California, having heard that her son was in Alcatraz Island.

Mrs. Erickson hurried to Alcatraz island. They brought James Erickson before her.

But the James Erickson before her was not her son.

Her search had been futile.

## LONDON PEOPLE DISCUSS IMPORTANT QUESTION

LONDON, Oct. 16.—All London is discussing the question—are women too weak to serve as jurors? And all because a woman juror recently fainted when a blood-stained razor was exhibited during a trial.

"The one instance of fainting proves nothing," says Dr. Elizabeth Knight, of the Women's Freedom league. "The liability to faint is a matter of constitution and not one of sex."

And Dr. Bernard Hollander, nerve specialist, says: "In these days one hardly ever sees a fainting woman. Fainting men far outnumber fainting women."

Some doctors claim that the effect of war made many men subject to fainting spells.

And it is generally agreed that the weaker sex is not the weaker when it comes to the point in discussion.

## QUEEN DANCES WITH PIPER

LONDON.—Queen Mary attended a ball given at Marl Lodge, Broomfield. There was a Highland reel in which all members of the royal party took part. Among the queen's dancing partners was one of the pipers.

## HOPED-FOR BOY WAS GILL

LONDON.—"It's a girl," said the nurse. Then George Kenrick went on a rampage. He lashed his wife, ran wild, and landed in jail. The judge called it disappointment mental torture and advised George to sign the pledge.

# JOHNSON DECLARES LEAGUE BIG ISSUE

Is Willing to Declare Truce On All Issues to Oppose Covenant So Ho Says.

By the Associated Press. CHICAGO, Oct. 16.—Senator Hiram W. Johnson of California, in his first public appearance here since his defeat for the republican nomination for president, tonight said he was willing to declare a truce on all issues and "all men" to the great issue of nations as "the present issue in the United States since the civil war."

Senator Johnson in concluding a speaking tour through the middle west in behalf of the republican national committee.

The league, as the chief issue of the campaign is clearly defined, he said, the statements being on one side and the republican on the other. He emphasized his statement that "there is no ambiguity in the stand of the republican party or in the stand of Mr. Harding on the league of nations."

"For reasons of their own, certain interested individuals and newspapers may interpret and misinterpret his words," the senator said. "I repeat these imputations upon the sincerity of the utterances of the candidate, and the manifest endeavor in some quarters to distort his plain language."

"I will not permit to go unchallenged from other sources the falsification of position of the republican party and senator Harding's forthright stand. He has courageously taken his stand. He has put the league behind him. He wants neither interpretations nor reservations, but outright rejection."

"From those who believe as I do, he is entitled not only to the warmest commendation, but the strongest advocacy and most enthusiastic support."

## PREDICTS NEW PARTY WILL SWEEP COUNTRY

ST. LOUIS, Oct. 16.—Pabey P. Christensen, presidential nominee of the farmer-labor party, in his speech here tonight, predicted that the new political movement would sweep the country like a prairie fire.

The main issue of the new party, Mr. Christensen asserted, was an effort to bring about closer relations between the producer and the consumer.

In attacking the capitalists and their earnings since war the nominee declared the government had thus made enough money had the steel mills, the coal mines and textile industry been taken over by the government, to refund the purchase price of these three branches of industry.

He quoted the premier of Canada as having remarked to him personally, that the farmer-labor party would control the dominion of Canada by 1923, so strong had the new government grown into the political developments of that country.

## CAPTURE ALLEGED THIEF OF CARUSO JEWELS

NEW YORK, Oct. 16.—Harry C. Toback, a salesman of Brooklyn, was arrested tonight, charged with having committed the half million dollar jewel theft from the home of Enrico Caruso, several months ago. According to the police, Toback has admitted possession of some of the stolen jewels.

The arrest, detectives declared, was the result of a carefully laid trap. Police give full credit for Toback's capture to two sisters, Mrs. Catherine Smith and Charlotte Pollon, in whose apartment the suspect was taken at the point of a revolver by Detective H. J. Porter. He protested innocence, though the women testified he had told them a different story when he tried to sell them valuable jewels.

Toback was forced to drive his captors to police headquarters in his own automobile.

## DROPS DEAD AT FIGHT SHANK TEREZ HAITHE

TEREZ HAITHE, the Mickey could fight if he had to, but Mickey wasn't a scrapper for all his fighting name. His owner Edward Lemmers approached Mickey's cage, doubled his fist and shook it at the little nanny. Mickey ruffled his feathers. "I'm not going to hurt you," said Lemmers. "Only want to play Mickey." Too late! Mickey had dropped dead at the first fist shake.

## M'ADOO ATTACKS BILL ON TRANSPORTATION

INDIANAPOLIS, Oct. 16.—An attack on the Each-Cummins transportation bill was made tonight by Wm. G. M'Adoo, who quoted Senator Harding as saying the republican party candidates considered it as a progressive and constructive measure. He declared that the bill was not a progressive measure, but "a regressive measure of the most pronounced sort."

"The Each-Cummins bill," Mr. M'Adoo said, "orders the railroads returned to their owners March 1, 1920, guaranteed the companies against operating losses for six months, while allowing them control of expenditures and gave them in addition a rental for six months of \$452,177,568."

"For the six months ended August 31 (August estimated) the private operators made a loss of \$182,134,700. The taxpayers are, therefore, required by the Each-Cummins bill to pay this

loss, plus the rental of \$452,177,568, or a total of \$634,356,766. The Each-Cummins bill has just increased freight rates from 25 to 40 per cent, passenger rates twenty per cent, and Pullman rates fifty per cent, thereby putting a new burden on the American people of approximately \$1,750,000,000.

## EFFICIENCY ENGINEERS PROBE POSTAL SERVICE

NEW YORK, Oct. 16.—Urie Sam has hired efficiency engineers to investigate the postal service and find out where and how it can be improved.

He ordered them to consider construction of postoffices as "workshops instead of monuments," and to recommend ways of affreting "economies in cost and expediting the handling of mail."

Every cog in the machine, from the rickety rural delivery wagon to the flying airplanes will be put under the critical eye of the efficiency engineer.

Appointment of Will B. Richards, several neighborhood dogs in fights

and company, an engineering firm to supervise this task was announced today, but was an accident and that he was trying to protect her from some "dog fancied" harm.

## DRINKS FURNITURE POLISH

CINCINNATI, O.—When Mrs. Ida Buchanan made a mistake between two bottles she made her last mortal error. The bottle from which she drank what she believed was medicine contained furniture polish.

## PLEADS FOR DOG

SAN FRANCISCO.—Although he bit her hip so badly that stitches had to be taken, little Adole Perron is pleading for the life of "Bobbie," condemned by the police to die today. The little white and black dog, he killed a brindle and white bull dog. He killed several neighborhood dogs in fights

# WEEK OF DRIVE SHOWS BIG GAIN

Over \$15,000 Raised in Twin Falls for Bonus of \$500,000 Towards Construction of New Railroad Subscription Report

Twin Falls City	\$60,000.00
Rogerson	1,500.00
Kimberly	450.00
Elko	1,300.00
Wells	3,000.00
Contact	24,000.00

\$90,000.00

Last week was one of the most successful in the campaign to raise Twin Falls' \$500,000 quota of the bonus for the construction of the proposed Idaho Central railroad, according to Newell B. Wight, secretary of the chamber of commerce of this city. Over \$15,500 was raised during the past seven days. Mr. Wight's report states that one-third of the quota in the Twin Falls district has now been secured and that there are now 218 subscribers in the territory. The Alys district has raised about one-half of its apportioned share. The following additional subscribers were put on the list by the committee yesterday:

Moseley Bros. \$150; Kent-Wilkinson-Strout \$1,000; H. J. Youngs \$100; Southern Idaho Wholesale company \$750; Three Bulo Stores \$300; and St. John Shiner \$200.

## WEEK IN FINANCIAL MARKET WAS INTERESTING

NEW YORK, Oct. 16.—The week in the financial market was replete with interesting events which included payment of most of the outstanding balance of the Anglo-French half billion dollar loan and strong investment activity for new capital issues approximating \$100,000,000.

No less important in their bearing on the immediate future of the securities market were the many surface indications that the prolonged period of credit contraction is approaching a natural conclusion.

It is almost a year since the federal reserve board began to put the brakes on a speculation by steady withdrawal of funds for nonessential purposes. That period has witnessed a drastic revision of commodity prices and reduction of rates with inevitable benefit, it is claimed, to finance and industry.

Further price cutting and a strengthening of the investment situation continue hand in hand, taking this week's bond market as a criterion. Dealers reported a marked increase in private or unrecorded sales of high grade bonds on an ascending scale.

In the stock market calls again were dominant issues. Shares of recognized

worth and dividend record mostly moved to higher levels.

The course of favorite industries was generally cheered to the sunny as certainties which continue to heat the steel and iron trade. Likewise copper textile, leather and kindred raw and finished materials.

It is highly probable that discussions of absorbing interest and significance will engage the attention of leading producers at the conferences of the American Iron and Steel institute, to be held here next week.

The reactionary trend of foreign exchange was governed chiefly by the more ominous aspects of industrial conditions in the British Isles.

## RIAN NEW LAW TO AID AIRPLANE INDUSTRY

SALT LAKE CITY.—A law giving county commissioners the power to apportion public funds for building airplane hangars and fields for public and government use, is to be introduced in the next Utah legislature, according to announcement here. The nonpartisan branch of the Salt Lake commercial club is framing the measure and if passed, it will be the first state legislation referring to air traffic to be undertaken in the history of Utah.

It is planned that the law will provide for the expenditure of public funds for construction of fields and hangars in much the same manner that money is now spent for roads. The law will provide for the creation of public facilities for airplanes the same as for automobiles and other vehicles.

## FILES DIVORCE SUIT

Charging misapprop and cruelty, Rita M. Taylor yesterday filed suit in the district court against Richard K. Taylor, asking for an absolute divorce. The couple were married in Green Forest, Arkansas, in March 1901. The complaint charges that the plaintiff has been forced to support herself and the three minor children through her own efforts.

## CHAMPION WAFFLE EATER.

NEW YORK, Oct. 16.—The title of champion waffle eater of the world today was claimed by Private Paul French Jones, of the United States marine corps, after eating twenty-six and one-half of the corrugated pastries in 30 minutes flat, in a contest with a representative of the army at the Grand Central palace.

The Federation of Rural clubs met yesterday afternoon at the Farm Bureau office for their monthly meeting. Plans were formed toward aiding the Red Cross in their 1921 drive which will take place the week of the election. The federation as a whole

subscribed \$60 for an Armenian orphan and the M. S. and S. club as a club gave another \$60.

ACCEPT WAGE CUT  
WEIHESTER, Mass., Oct. 16.—Choosing between an indefinite shut-down and a decrease in wages, about 2,000 employees of the R. Slater and Sons, Inc., South Village Woolen and Worsted Mills, will return to work on full time Monday, accepting a 15 per cent cut in pay. The present scale has been in force since June 1 when a 15 per cent increase was given and when the mills went on half time. The mill was closed Tuesday night because of "slack business."

Mrs. C. C. Stevens of Filer was a Twin Falls shopper yesterday afternoon. Mrs. Stevens returned home last evening.

# Society

The Twentieth Century club will hold its regular meeting Tuesday, October 19th at the Baptist bungalow. Mrs. Burton E. Morse, chairman of the day, has announced that the topic of the day will be the League of Nations. Two democrats, Dr. W. F. Piko and Mrs. Duko, and two republicans, Attorney S. L. Hodgins and Mrs. Provest, will give brief history and their personal views of the league. This will be purely of an instructional nature. All ladies interested in the question are invited to this meeting.

Mrs. C. R. Scott entertained yesterday afternoon with a tea, complimentary to her sister, Mrs. A. W. Craven, a house guest from Chicago, Illinois. About 40 friends arrived during the afternoon to meet Mrs. Craven. The attractive Scott home was decorated with daisies and other flowers indicative of autumn. Tea was served at a late hour.

The hat making department of the Country Woman's club met Thursday afternoon at the home of Mrs. Carole H. White with Miss Ladwig, Mrs. White will have an all-day meeting at her home Thursday 21st. There are eight members in the class. The hostess served at the close of the afternoon.

The Mountain View club will meet with Mrs. Nellie Owens, Wednesday October 20, in her country home.

## JESSE WINTERS MAY BLOSSOM INTO STAR

Manager McGraw Is Convinced That Recruit Has Ability.

Twifler Possesses Rare Assortment of Curves but Lacks Control, That Which is Absolutely Necessary to Pitcher.

The case of Jesse Winters, now clinging precariously to a berth with the Giants, is in some respects strangely reminiscent of the case of Ferdinand Schupp. Both came to the Giants as green as any bushers a big league ball club ever knew.

Both had a world of stuff from the start and soon took the fancy of John McGraw. Schupp earned the bench for three years and then blossomed out as a star. Winters isn't a star yet, but he has warmed the bench for one full season and has started another with the Giants. He, too, may come through in time.

When Winters appeared in a Giant camp it was at Marlin in the spring of 1918. McGraw branded him as the best looking kid pitcher he had ever gazed upon. Small wonder that the Giant leader appointed the youngster so highly, for he has a world of stuff. He lacks, however, that which is absolutely essential to a good pitcher—control.

Lack of control, it will be remembered, was what kept Schupp in the dugout for three years. The Louisville kid finally acquired the ability to whip the pellet over the plate when he wanted to or to cut the corners if

Jesse Winters, he so desired, so there may be hope for Winters.

McGraw remains much of his old faith in Winters and has been very patient with him, despite some caustic criticisms of his judgment in the matter. The Giant leader was severely panned for holding Schupp, too, but Schupp finally vindicated him; perhaps Winters will do the same.

# MANY NEW FACES IN NEXT SENATE

Several Senators Are Not in Race for Re-election at November Polls; 32 Terms Expire in March

WASHINGTON.—There'll be a lot new faces in the United States senate as a result of the election Nov. 2. It is expected that 32 of the 100 senators will expire their terms March 4 next, seven-four Democrats and three Republicans—either withdrew from the race for re-election or were defeated for re-election.

Of the remaining 25, only 13—seven Democrats and six Republicans—may be re-elected at the next election. The other 12, evenly divided between Republicans and Democrats, became the storm center around which the fight for control of the next senate is chiefly waged.

Not Probable Although the Republican congressional campaign committee has publicly announced its prediction of an increase of eight Republican senators, giving the G. O. a majority of 17 in the upper house, it is admitted at headquarters here that this prediction is based upon extreme possibility, not reasonable probability.

Democrats, on the other hand, are insisting that, irrespective of the vote for president, the senatorial contest is bound to be virtually a standoff, with a bare chance existing that the present Republican majority of one may be changed to a Democratic majority of the same figure.

It is by no means impossible, they maintain, that Harding, if elected, may be faced in the next Senate by just such a Democratic majority as the Republicans opposed to Wilson in the present senate.

This, they say, would be poetic justice, though certainly not productive of governmental harmony.

The seven senators already named of retirement are:

- Democrats: Gore, Oklahoma; Kober, Arkansas; Smith of Georgia, and Thomas, California.
- Republicans: Gronna, North Dakota; Harding, Ohio; Sherman, Ill. Gore, Kirby, Smith and Gronna all were defeated for re-nomination; Thomas and Sherman voluntarily withdrew.

Certain Winners Members rated as definitely assured of re-election are:

- Democrats: Fletcher, Florida; Gray, Louisiana; Henderson, Nevada; Overman, North Carolina; Smith, South Carolina; Underwood, Alabama.
- Republicans: Cummins, Iowa; Curtis, Kansas; Dillingham, Vermont; Moses, New Hampshire; Poore, Pennsylvania; Wadsworth, New York.

The new political lineup as a result of the changes insured by the seven assured vacancies, appears likely to favor republicans rather than democrats.

The democrats admit little or no hope of winning a senate seat either in North Dakota, Ohio or Illinois.

On the other hand, republicans are confident they will elect Samuel Nicholson to succeed Thomas as senator from Colorado, and are talking, without much hope, however, of beating Felt Ferris in Oklahoma with Congressman John W. Harfield. At best, though, according to the real, not the openly expressed, opinion on both sides, the situation narrows it down to a fight for 23 seats admitted to be doubtful, now evenly divided between the two parties. These are held by:

- Democrats: Beckham, Kentucky; Chamberlain, Oregon; Johnson, South Dakota; Nugent, Idaho; Phipps, California; Smith of Maryland.
- Republicans: Hendricks, Connecticut; Jones, Washington; Leppert, Wisconsin; Froot, Utah; Spencer, Missouri; Watson, Indiana.

Hard Licks for Threes Although the fighting hasn't yet begun, the democrats here, as the G. O. have little hope of success. Beckham, Chamberlain or Nugent. They are confident, however, that Congressman Peter Harbeck will beat Johnson in South Dakota and that one of the two, who will win, will be Senator Felt Ferris in California. They

hope, but scarcely expect, to displace John Walter Smith of Maryland with O. B. Wetler.

On the other hand, republicans privately admit that hard-licks will have to be put in to save Leppert in Wisconsin, Spencer in Missouri, Jones in Washington and particularly Froot in Utah.

Defeat in any other state on the doubtful list means the loss of a senator. Defeat in Utah would mean the loss of an important organization center as well.

## ROBERT 'SUSPECTS' COLBY COMMENT IN HIS SPEECH

NEW YORK, Oct. 16.—Senator Borah of Idaho, speaking of the league of nations here tonight said he "suspects" Secretary Colby "was correct in saying in his speech at Springfield, Illinois, that Europe will have no league but this league."

"If we cannot have a league with articles X and XI in it, articles which put us under an absolutely compulsory moral obligation to place our army and our navy at the disposal of a council sitting behind closed doors in Europe," he added, "then she will have no league."

"America must submit to what has been handed her or she must be content to have no association or league. That is the effect of the secretary's speech. The secretary is in a pretty good position to know. I suspect he is correct."

The senator declared "a league which would not guarantee Shantung to Japan, which would not nullify Syria and other extensive distributions of territory which would not secure Mesopotamia, Egypt and millions more as subject peoples to the British empire, would not be acceptable to Europe." These, he continued, require an army and navy to maintain and get it only under articles X and XI.

## RESERVE BOARD DECLARES BANK CREDIT AVAILABLE

WASHINGTON, Oct. 16.—Bank credit "has been steadily available for the successive seasonal requirements of agriculture" according to a statement tonight by the federal reserve board, designed as a reply to agricultural organizations which appealed to the government for a further extension of agricultural credit.

Recent disturbances in price and demand which have been manifest in agricultural markets are "invariable and unavoidable consequences of the economic disarrangements by the war," the statement said.

# G. O. P. CANDIDATE COMPLETES TOUR

Senator Harding Is Greeted by Large Crowd At Close of Last Extensive Spending Trip

ST. LOUIS, Oct. 16.—Before a crowd which overflowed the big St. Louis coliseum and greeted him with cheering and singing which lasted more than half an hour, Senator Harding tonight closed his last extensive speaking trip with an address in which he couched condemnation of embarrassing foreign political entanglements with a plea for extension for the nation's foreign trade and commerce.

Again arraigning the democratic administration, he declared that in the last few years there had been much "meddling" in Europe and too little trade co-operation with Latin-American and other lands.

The night meeting concluded one of the candidate's most strenuous days of campaigning during which he spoke in Indiana and Illinois. The league of nations had a prominent place in his utterances, the nominee replying to criticisms of his proposal for a new world association. At Greenacres, Ind., he asserted a "spokesman" of France had been sent to him to ask that America lead the way in the formation of a world association and at Effingham, Ill., he quoted a similar declaration by Stephen Tagliani, French publicist.

In his reference to an emissary of France the nominee did not explain when or from whom the French request had come. He added, however, Lloyd George and Earl Grey had spoken for American leadership in reviving the league covenant.

"The quotation from Leauanno confirmed the declaration that the French people were ready to give up the league covenant if necessary to insure America's moral leadership. "That's the tribute," said Senator Harding, "one of the nation's whom the democratic nominee says we are trying to desert."

## PERSONAL MENTION

Mr. and Mrs. Francis Leo Johnson of Murlough were in Twin Falls yesterday between 7 and 8 o'clock, looking after interests and shopping.

Mrs. C. W. Case of Filor motored to

Twin Falls yesterday forenoon and remained during the day shopping.

Miss Ruth Hunter of Hazelton was in Twin Falls yesterday afternoon between trains.

Reynolds Lewis and sister, Mrs. Ruth Reynolds of Denver, who has been visiting with her parents, Mr. and Mrs. H. S. Lewis, will return from Idaho today where they have been for some time visiting at the home of Mr. and Mrs. R. B. King. Miss Lewis will leave tomorrow for Denver.

Mr. and Mrs. P. O. Bethuns of Jerome motored to Twin Falls yesterday forenoon for a brief business and pleasure trip.

Mr. and Mrs. William Thompson of Eden were among the out of town visitors in Twin Falls yesterday afternoon.

Miss Dora Kuhns of Rogerson motored to Twin Falls yesterday afternoon for a brief shopping trip.

Miss Doris Burkhed of Filor was among the out of town visitors in Twin Falls yesterday forenoon and afternoon.

J. C. Conner of Kimberly spent Saturday afternoon in Twin Falls looking after business interests.

Mrs. C. B. Shaft of Filor motored to Twin Falls yesterday afternoon and remained during the day visiting with friends.

Mrs. E. M. Hardin of Kimberly was among the Twin Falls shoppers Saturday afternoon.

Mr. E. J. Weaver of Buhl was in Twin Falls yesterday between trains shopping and visiting with friends.

Mrs. Frank Bower of Kimberly motored to Twin Falls yesterday forenoon and remained during the day shopping.

Mrs. G. E. Gasten of Filor, spent Saturday afternoon in Twin Falls visiting with friends.

Mrs. A. B. Stone of Kimberly was among the out of town visitors in Twin Falls yesterday afternoon.

Mrs. Robert Lapp accompanied her husband to Twin Falls yesterday from Kimberly on a brief business and pleasure trip.

D. Harold McGrath of Jerome arrived in Twin Falls yesterday forenoon and will remain until this forenoon before returning home.

Miss Anna Herlich of Murlough motored to Twin Falls yesterday afternoon for a brief business and shopping trip.

Mr. Stella M. Nelson of Hansen motored to Twin Falls yesterday afternoon with friends to spend the day.

Mrs. Herbert Lanning of Kimberly was among the out of town visitors

in Twin Falls yesterday afternoon and evening.

Mr. and Mrs. J. P. Ticknor of Kimberly arrived in Twin Falls Saturday forenoon for a short business and pleasure trip.

Mrs. W. J. Schulz of Filor motored to Twin Falls yesterday afternoon with friends and shop.

Mrs. Peavey, accompanied by her daughter, Miss Dease, spent Saturday afternoon in Twin Falls shopping. They returned home last evening.

Mrs. B. Daugherty of Hansen spent Saturday afternoon in Twin Falls.

Mrs. L. L. Mollon of Hansen and daughter, Miss Clara, were among the out of town shoppers in Twin Falls last evening.

Mrs. A. C. Reynolds of Rogerson spent Saturday afternoon in Twin Falls visiting with friends and shopping.

Mrs. Joe Kemper of Buhl was in Twin Falls yesterday between trains in the interest of shopping.

## CHURCHILL DECLARES STRAIN ON SOLDIERS INTENSE

DUNDEE, Scotland, Oct. 16.—Referring to the Irish situation in the course of a speech here today, Winston Spencer Churchill, secretary of war, declared that the strain on soldiers serving in Ireland, by reason of long and killings far exceeded that of the soldiers who served in the trenches during the recent war.

"But," he added, "we are going to break up this murderous gang, and it will be broken up absolutely and utterly, as sure as the sun will rise tomorrow."

## EX-SERVICE MEN PARADE IN BEHALF OF BONUS

NEW YORK, Oct. 16.—Thousands of former sailors, soldiers and marines today put on uniforms again to

day to let the country know they want the national bonus.

Parading up Fifth avenue with flags and military bands, the veterans formed the largest column of uniformed men that has assembled here since the divisions' return from France. Over a thousand lined the gayly decorated thoroughfare.

Leading was Captain R. G. Woodruff, commander in chief of the Veterans of Foreign Wars. American Legion posts and other organizations of world war veterans were followed by bands carrying wounded and disabled fighters.

Riding between disabler and thousands of former soldiers on foot were five Indian chiefs, wounded while fighting in France. The Indians wore their tribal costumes and war paint.

Chief Yellow Hank of the 104th artillery, erect and solemn, sat with Chloey Running Elk, Little Bear, Red Eagle and T. A. Boll in the auto of Mrs. Randolph Hearst.

## PREACHERS ASLEEP SO PASTOR STARTS SINGING

MEMPHIS, Tenn., Oct. 16.—In the middle of his sermon at Madison Heights Methodist church, Rev. T. W. Lewis observed that a number of his congregation were asleep in their seats. The preacher stopped and offered a broad hint, but the sleepers slept on. For a moment, the minister looked baffled—but only for a moment.

"Let's all stand and sing 'Jesus, Lover of My Soul,'" came the request from the pulpit.

There were some embarrassed faces among the sleepers when they were awakened by the sound of the music. After two verses had been sung, Rev. Lewis resumed his sermon and there after the drowsy ones kept awake.

Madison Heights church congregation includes many of Memphis' wealthiest and most prominent families.

A Six-Reel Special

HOBART BOSWORTH and GRACE DARMOND in a scene from the THOMAS H. INCE Production "BELOW THE SURFACE" A PARAMOUNT AIRCRAFT PICTURE

# Hobart Bosworth

—IN— "Below The Surface" A Paramount-Aircraft Picture

A great love story of the sea. Of under-water heroes and underworld "sharks." Of a father's love for a willful son, a boy's love for an unworthy woman, a girl's love that waits and wins when the storm of passions ends.

A story of fog and wreck and rescue, of city revel and small-town charm. And the most exciting sub-sea exploits ever shown in a motion picture. A story more human and far more appealing than even Bosworth's "Behind the Door."

You'll Want to See—

The heart-thrilling scene when Bosworth, without a diver's suit proposes to a killing depth, cuts the fouled life-line, swims with the disillusioned lad to the surface.
