BONUS TOTAL SHOWS GROWTH

Subscriptions Continue to Come in to Aid in Construction of Proposed Rogerson-Wellis Railroad

Subscriptions to the railroad bonus are continuing to come in at a steady rate and as fast as the soliciting committees are able to see the various business concerns and the local citizens. Two hundred and fifty-five business men and concerns in the city of Twin Falls have subscribed a total of approximately \$47,000 towards the quota of this place.

There are at present still 20 large corporations to be heard from and 60 prominent business men with offices in the business district to go together with hundreds of property owners and investors who have no regular quarters downtown and who, it is thought will gladly do their share towards putting the proposition across.

With these facts as a basis, Newell S. Wright, secretary of the chamber of commerce, states that it is easy to conclude that Twin Falls city alone can raise over \$100,000 of the bonus money within the city limits. This was contemplated when the drive was started a month ago.

The holding of the teachers' institute has interfered to some extent with the vigorous prosecution of the campaign. Election day will also prove a slight setback, as the work will temporarily be suspended until after the balloting has taken place.

The following are additional subscribers to the fund:

M. C. McKillan \$500, Twin Falls Clinic \$500, D. F. C. Beebe \$350, George Bristol \$25, Central Garage

WESTERN CONFERENCE TEAMS BATTLE TODAY

CHICAGO, Oct. 29.—Three underdog teams in the race for the western conference championship, Chicago, Ohio State and Illinois, will take the field tomorrow in games which will have an important bearing on the "big ten" title. Interest in the contests is at highest pitch owing to the prospects for the elimination of at least one of the contenders. Thirty thousand persons, including a delegation of 1,500 with a sixty piece band from Columbus, are expected to witness the battle between Chicago and Ohio State, the first game ever played between the two institutions.

Illinois will clash with Minnesota at Urbana, but the game unless Minnesota upstages a surprise and routs the Illinois team will have no effect on the championship race since Minnesota has been twice beaten this season.

Two vastly improved teams will take the field at Indianapolis when Northwestern tackles Indiana. Both teams have sustained upsells in the title race but are slated to present their full strength tomorrow.

Michigan and Purdue will venture out of conference circles. The Wolverines will take on Tulane University at Ann Arbor, while Purdue will battle Wabash at Lafayette.

WANDERER GUILTY OF TRIPLE MURDER

CHICAGO, Oct. 29.—Capt. O. W. Wampler, former army lieutenant, was found guilty by a jury today of the murder of his young wife, their unborn child and a "ragged stranger" and sentenced to 25 years in the penitentiary. The jury reached its verdict after 23 hours

and ten minutes deliberation. While he was awaiting the verdict to be read, Wampler showed the first signs of emotion he has displayed during the 23 days of his trial. He was plainly nervous but as the sentence, which Prosecutor James C. O'Brien later denounced as a "travesty on justice" was read, a smile broke over his face and he recovered his composure.

ANNUAL TEACHERS INSTITUTE CLOSES

Session Declared to Be Most Successful Ever Held in This City—Perfect Organization.

Yesterday was the closing day of the second annual teachers' institute for south-central Idaho, which has been in session here since last Monday. As a whole, the institute was considered a splendid success, and much better even than the one held here last year. All of the teachers who were in attendance were amply provided for as to quarters, which added much to the enjoyment of the occasion.

The entire day yesterday was devoted to the perfection of the organization of a district teachers' association which will form an integral part of the state association. Officers were elected, a constitution adopted, and everyone present was urged to become affiliated with the association.

The presence of a number of noted lecturers from other states as well as from Idaho added much to the instructive benefits that the teachers were able to get from the institute, particularly the lectures by Dr. Edward Hulme, Dr. Virgil D. Dickson, and Dr. Raymond A. Schwieger. All of them chose topics of direct interest to the audience, and treated them in a masterly manner.

The following were elected officers for the ensuing term:

Executive committee: Hal G. Bluo, superintendent of Twin Falls schools, 215 votes; president, M. C. Mitchell, principal Twin Falls high school, 241; vice president, J. D. Shadwick, superintendent of Gooding schools, 158; secretary, Mae Lowe, superintendent Cassia county schools, 234; treasurer, Benj. W. Wolfe, superintendent Twin Falls county schools, 222; ex-

ecutive committee, three year term, H. M. Broadbent, superintendent Burley schools, 294, Elizabeth Shotwell, grade supervisor Twin Falls schools, 203; two year term, Milton D. Shewman, principal Jerome high school, 181; Zedon Armour, rural teacher Gooding county, 184; one year term, June Kearney, superintendent Jerome county schools, 244, Ellen Goshol, high school teacher of Twin Falls, 258.

ASSOCIATION ADVOCATES FINANCIAL SUPPORT

The committee on legislation of the South-Central Teachers' association presented its report to the institute assembled here yesterday, advocating same certain things as financial support for the public schools of the state by the legislature. The report, which was submitted by J. Tweedy, superintendent of Riggins schools and chairman of the committee, follows:

1. We urge the legislature to provide adequate financial support for the public schools of the state. A state tax should be levied sufficient to raise \$25 for each census pupil in the state. Items of education in independent school districts should be permitted to levy 15 mills for their special tax. The bonding limit of independent districts should be increased to 10 per cent of the assessed valuation. The school union should be organized so the average cost of instruction to be determined by the state board of education.

2. We urge that the principle of the consolidated district be used to solve the rural high school problem and the problem of rural administration and rural supervision as far as possible.

3. In counties where there is no accredited four year high school, we urge that same provision be made for a county high school.

4. The county superintendent should be empowered to employ teachers and purchase supplies for the common school districts.

5. We urge that the salaries of county superintendents be fixed at not less than \$2000.

6. We urge that office and expert professional assistance be provided for the county superintendent.

7. The school law should be recompiled and simplified. Senate bill 131 should be resubmitted to the legislature.

8. A permanent commission on legislation should be appointed by the South-Central Teachers' District for the purpose of presenting this program to the State Teachers' association, the state department of education and the state legislature.

FILER FOOTBALL MEN DEFEAT JEROME TEAM

The football team of the Filer high school yesterday defeated the eleven from the institution at Jerome in the closest game that has yet been seen this season on the local grounds, the score being 13 to 14. The game was hotly contested from start to finish, and although it was more in the nature of a comedy of errors, in four parts, than a football game, it was very interesting from the standpoint of the spectators. There were, however, only a handful there, due to the fact that the contest received no advertising at all and that it was only decided to play here last night.

Filer scored three touchdowns on straight rushes in the Jerome line, which although heavily outweighed, put up a game battle in the face of the odds. One of Jerome's scores came after a march down the field and the other through the medium of a cleverly intercepted forward pass by Lawache, who ran 40 yards across the line.

It was a hard clean battle from start to finish, and although neither eleven showed much teamwork or polish, they made up for that with their earnestness. Jerome had much the better of the argument after the first quarter when two touchdowns by Filer proved their undoing.

WATER IS CALIFORNIA'S MOST VALUABLE CROP

SAN FRANCISCO.—Water is California's most valuable crop, according to the annual report of the Railroad commission of California to Governor W. D. Stephens, which says that the twofold development of water storage for irrigation and power purposes will bring about a period of enormous development in the state.

"California's streams and rivers, its rainfall and its snowfall, must be made to serve and give well," the governor was advised by the commission.

Experts have estimated that it will require between three-quarters of a billion and a billion dollars to complete the necessary hydro-electric power plants to care for future power demands, and the commission said the expenditure to carry out a pro-

gram for the conservation of water for irrigation and domestic purposes undoubtedly would be as great. California's paramount need is cheap power, says the commission, because the state has no coal supply and its oil is needed for other purposes.

Utilities today, the report continues, as a result of regulation are selling their product at a price nearer to the prices of previous years than any other commodity; gas and electricity rates having advanced on an average not more than 40 per cent, against 100 to 500 per cent advances on other commodities.

SLEEK BODY OF PROFESSOR DROWNED IN MINE

PERKSKILL, N. Y., Oct. 29.—Three men in a small skiff, guided by torchlight, paddled their way tonight through the labyrinth of "the Mahitoe" an abandoned, waterlogged copper mine near here, searching for the body of Prof. H. C. Schmidt, who stumbled and fell down the 275 foot shaft yesterday.

Schmidt, a geologist, with a class of ten Hackley school students, was studying peculiar formations about the mine. Holding a lantern over his head to light the way, he preceded the party through a tunnel which leads to the mouth of the shaft. The students saw the lantern fly in the air, heard a gasp, a cry for help, then a far away splash.

Prof. Schmidt was 50 years old, and a native of Germany. He was educated at the universities of Breslau and Grotswald. He came to the United States thirty years ago.

MARSHAL OF FRANCE PRESIDES AT DINNER

PARIS, Oct. 29.—Marshal Foch tonight presided at a dinner given by Captain Marcel Knoch, president of the Alliance Française in America, in honor of General Nivelle, who is representing the French protestants the Mayflower celebration in the United States in November, and Lawrence Fitch and other members of the delegation from Milwaukee, who presented a bronze tablet to the Strasbourg interlarded club tonight.

The Mayflower mission, which will consist of General Nivelle, Lieut. Col. Ahn and Prof. Andre Monod of the University of Paris, will sail for New York on the steamship Lorraine next Saturday.

DECLARE HARDING IS PURSUING "WILL O' WISE"

What Will You Tell Your Grandson?

—WILLIAM HOWARD TAFT

"My friend, suppose you were a senator, or suppose you had power to influence a senator, and you influenced him against the League of Nations. Suppose the league came in and worked those benefits that we believe it will work, and twenty-five years later, after that had been demonstrated, and your grandson should come up and say: 'Grandad, why did you vote against the League?'

"Suppose you were a man who voted against it because you hate Mr. Wilson—men have told me that they hated Mr. Wilson and so they were going to vote against the league. I said to one the other day: 'My dear sir, don't you see how utterly illogical and absurd you are? Why, you are allowing yourself to be influenced by a man whom you hate, to oppose something you would otherwise support. Just think, you magnify and allow your personal feelings toward him and his influence on you to be so great that you do not examine the merits of a question which concerns your country and the world.'

"Now then this grandson of yours, twenty-five years from now, should come to you (and you had voted against the league because you hated Wilson) and when he should ask you in the light of the beneficial operation of the league, 'Grandad, why did you vote against the league?' What will you tell him?

"You will do one of two things: you will either say, 'Run away, grandson, you do not understand those issues,' or else you will lie about it.

"But there are certain issues that arise above party, that transcend all parties and all party triumphs that are merely temporary. This issue (the league) is as fundamental as the Declaration of Independence, the Constitution of the United States or the issues of the Civil War."—from an address by Former President William Howard Taft before the Wisconsin Bar Association, July 2, 1919.

GOVERNOR COX says:—"I favor going into the league.

SENATOR HARDING says: "I reject the league. I have no program."

HERBERT HOOVER said: "If the league is to break down we must prepare to fight."

CONNOR CANDIDACY RECALLS OLD TALE

Filer Resident Candidate for Commissioner, Measures Up to Highest Standards Required.

Not a better known man in the county than T. D. Connor. Mr. Connor came to the tract in the early days, filed on land near Filer and the ranch is now his home. He is known throughout the county for his integrity and his loyalty. Of him the Wallace Press-Times says:

T. D. CONNOR.

Strength of character, sturdiness of purpose—these are what are demanded these days of public officials. It is refreshing to find a man who means up to them. Pleasing to know that such men can be prevailed upon to lay aside their own affairs to give attention to public duties. Here is a true story:

before the days of the Unhorn and something gambler had passed. Shoshone county was in the political grip of a bunch of gamblers. Then it was that T. D. Connor was nominated for sheriff of that county. A delegation from the gamblers waited upon Mr. Connor and asked him what he would do if elected sheriff.

"If? What can any honest man do but enforce the law?" Was the reply.

Dan Connor was defeated for sheriff, but a public sentiment was created by that strong stand which led to the abolition of gambling in the me'ropolis of the mining district. The nomination of Mr. Connor brings this old story to mind to the Wallace Press-Times which says:

His many friends in Wallace will be pleased to know that T. D. Connor, formerly of this city, but now a resident of Filer, is now a candidate for commissioner from his home district in Twin Falls county and that his success is likely. Mr. Connor was formerly mayor of Wallace and the people of this city heartily endorse to this day his clearing out of Pine street. Later Mr. Connor ran for sheriff and was approached by some men who desired him not to enforce the law in some respects. If elected for their votes and influence. This he refused to do although he knew what it would mean to him. But he has never regretted his stand.

Mr. Connor is a successful and competent man and those who know him in his many years residence in the Cour d'Alene know that his neighbors in south Idaho will make no mistake in selecting a man so well fitted as county commissioner.—Wallace Press Times.

REJECT RESIGNATION

TURIN, Italy, Oct. 29.—A general meeting of the Fiat company today rejected the resignation of Signor Agnelli, director of the works, who had said his proposed co-operative arrangement under which the workmen took over the works had not been accepted by the workmen's organization. "Especially for political reasons."

PROTEST AGAINST MEMORIAL PROCESSION

SPOKANE, Wash., Oct. 29.—A public hearing on protests against permitting a proposed memorial procession here Sunday in honor of the late Lord Mayor MacSwiney of Cork is to be held by the city council tomorrow, the council announced today.

A protest against the proposed demonstration, which would include a procession through downtown streets with a hearse and an empty coffin, was filed with the council today by Rev. M. D. Townsend, pastor of a United Brethren church here. He said he feared that trouble would result if the demonstration was held. Plans for the service announced today include the naming of prominent Protestants as well as delegates of the Roman Catholic church as "honorary pallbearers."

AMERICAN ACTIVITIES CAUSE JAPS INTEREST

TOKIO, Oct. 29.—The reports that Washington D. Vanderlip of California has secured large concessions in Siberia have created interest in Japan. The foreign office is quoted as declaring that it has received no direct confirmation of the granting of the concessions but that it appears from advice received from the United States there is some truth in the reports.

URGES COOPERATION IN TABULATING RETURNS

BOISE, Oct. 29.—Machinery in aid of the speedy gathering and tabulation throughout Idaho of the vote at the general election next week was set in motion today by Governor D. W. Davis.

Calling attention to the fact that The Associated Press this year for the first time had arranged for collection and tabulation of the returns under the same plan in use in larger and more populous states, the governor urged each precinct commit-

teeman to telephone or telegraph to his county seat promptly the latest news regarding progress of the count on the four principal issues on the ballot.

Where there was no other means of communication the governor urged the committeemen to mail the final count to the county seat immediately it was complete. There is a number of Idaho precincts without wire communication. The governor used the committeemen to impress on all election officials the necessity of complying with the law regarding posting of the returns at the polling place and outlining several other measures for placing the results of the election before the people promptly.

DUBLIN COURT MARTIAL CONVICTS MEDICAL STUDENT

DUBLIN, Oct. 29.—The first degree murder trial by court martial in Dublin in connection with recent killings of soldiers has ended in the condemnation to death of Kevin Barry, a medical student 18 years of age. Barry was charged with complicity in an attack on soldiers in Dublin in September when one soldier was killed. His execution has been set for next Monday.

Barry today made an affidavit to the effect that he had been terrified by soldiers and had in an attempt to induce him to reveal the names of his comrades.

Mrs. Hattie A. Pierce, aged 77, died October 28 at the home of her daughter, Mrs. E. P. Pierce, Twin Falls. Funeral services will be held at De Witt's undertaking parlors Saturday at 2:30 p. m. Rev. Edgar L. White officiating.

PACIFIC COAST TEAMS WILL PLAY TODAY

SAN FRANCISCO, Oct. 29.—Games between Oregon and California colleges made up the Pacific coast conference program tomorrow. Oregon university team which claimed the 1919 championship plays Stanford at Stanford, while California meets the Oregon Argos at Corvallis, Ore. Washington state college, another conference eleven goes outside the organization tomorrow and meets Montana but is expected to have no easy time winning as Montana recently defeated Washington. Washington, the sixth conference team, does not play.

Do You Know What Struck You?

Well, it was the Underwood Free Trade stuffed club, and it hit you right where you lived, didn't it? Right in the pocketbook. If it didn't it soon will hit you. It has already struck the farmers, miners, stockmen and other producers, and the panic days of 1893 with the soup houses and unemployment are not impossible if we do not kill the measure and substitute it for PROTECTION for all industries by electing a Republican president and congress.

Democrats Cannot Dodge the Responsibility

They attempt to dodge by telling you that they will adjust the tariff, that a so-called "bi-partisan commission has been created" for this purpose. They have "fixed" you, all right, and that Democratic fake you are now facing. The bi-partisan commission was killed by a Democratic congress, as was the appropriation proposed for its maintenance. The Democratic congress then passed the Underwood Free Trade measure which is still in existence and which the Democrats have made no effort to change. In the mean time Wilson re-vamped what was termed a "Nonpartisan" commission and made this up of five Free Traders, FOUR OF THEM BEING DEMOCRATS. That much for their intent to readjust the tariff.

John Nugent sitting for two years as senator from Idaho has had every opportunity to vote for the protection of the state and has failed to do so. On the contrary he has sustained every vicious feature of the Underwood law which has provided for open ports and created a ruinous system of competition with foreign products. What the Underwood law is doing against you today it will do TOMORROW unless you kill it by electing a Republican administration and a Republican congress.

Industries Wrecked by Free Trade

(Following is a report of Imports directly effecting this state as taken from the statement of the Department of Commerce for the fiscal year ending June, 1920.

- Wheat, 4,744,712 bushels;
 - Mutton and lambs, 16,358,000 pounds;
 - Potatoes, 16,913,939 bushels;
 - Wool, 427,578,038 pounds.
- Imports increased in 8 months by \$1,500,000,000.
- In the past three months we have imported goods at the astounding rate of \$6,400,000,000 annually.

Wool growers have lost \$60,000,000 in the price of the clip on the prices of a year ago.

1,641,622 frozen New Zealand lamb carcasses imported for the year-to date, says the Market Reporter, and the same authority cites:

9,000,000 pounds of storage lambs—all from New Zealand; sharp decline of \$1 on feeder lambs in last half of week; 2,160 casks of Danish butter, also Argentine butter; Canadian flour \$1.50 under American mill prices; 3,000,000 bushels Argentine corn in New York; 2,000 tons butter from New Zealand sold without restriction.—Recorder, October 16, 1920.

Nugent has not protected farmers and stockmen against foreign competition involving these and other items. He has likewise neglected the mines and other industries of Idaho.

A vote for Nugent is a vote to continue foreign competition. A vote for GOODING is a vote for protection against foreign invasion.

Yegain Draws Attention to Domestic Issues and Brings Up Charges of Waste by Administration

By the Associated Press.
COLUMBIA, O., Oct. 19.—A day

extravagant waste, unpreparedness for war and for peace, and a bungling industrial policy were among the "failures" which the candidate declared had characterized eight years of democratic rule. All of these he promised to remedy under a Republican administration.

The candidate's speech at Munro Hall followed a series of local demonstrations in which thousands were welcomed and acclaimed him.

Arriving here late in the afternoon from Akron, he was cheered through the streets to his hotel and later he rode to the hall at the head of a parade in which many marching clubs participated.

On his way from Akron he made
 short speeches at Ashtabula, Green
 Canby, Richwood, North Lewisburg,
 Urbana and Hamilton, reiterating his
 position on the league and arguing
 for constitutional government. At
 Dayton, the home town of Governor
 Cox, no speech had been arranged,

A "gospel of understanding" that should insure domestic tranquility and honest politics was preached by McHarding at Urbana, and when some one in the crowd passed up to him a broom made at an Urbana factory he said he was pleased at the gift because it symbolized the "political housecleaning" to be accom-

In his night speech the senator gave major attention to domestic questions, but also restated his position on the league and asserted that only by giving the proper example to the world could the nation fulfill its mission and pay its debt to civilization.

TACT PREDICTS BIG

VICTORY FOR HARDING
PHILADELPHIA, Oct. 22.—Predicting Senator Harding's overwhelming election, William H. Tamm, in an address today, declared the dominant issue of the campaign was the repudiation of the Wilson administration and not the league of nations.

"The issue of the league of nations" said Mr. Taft "has been juggled into this campaign by the hair of the head. It has no place in the campaign. I am for a league of nations. I have labored with all my heart for an international arrangement to do away with war and assure peace. The democrats have used my arguments for the league. I must admit, with due modesty, they are the best arguments there have."

DOUGLAS HARTN BEATEN
