

# LOCAL MAN SHOT BY FATHER-IN-LAW

Living E. Kelsey Dies From Wounds Said to Have Been Inflicted by Peter Wiedenmann.

Living E. Kelsey, an employee of the Magel Brothers garage, was shot and killed by his father-in-law, Peter Wiedenmann at 2 o'clock Sunday afternoon at his home on Van Hook street in the Cotton Row section. Kelsey only spoke twice after he was shot, calling his wife's name and asking for a doctor. He died in less than twenty minutes. Wiedenmann went at once to the court house where he gave himself up and is now in the county jail.

According to testimony taken at the inquest yesterday morning, Wiedenmann had been lying down all morning and after eating dinner returned to his room, while the murdered man sat down in a chair in a corner of the front room and went to sleep after reading his paper. Mrs. Kelsey and the two children were in the front room when Wiedenmann entered from the back bedroom, with his hands behind him and holding a .38 caliber revolver. Seeing that he had a gun, Mrs. Kelsey called out a warning to her husband which aroused him from his sleep, although he did not arise from the chair.

Wiedenmann then ordered his daughter and the children out of the room, and as they ran, Wiedenmann is reported to have shot Kelsey. One bullet entered his body just above the abdomen and another pierced his throat, coming out just below his left armpit. The fact that there were no powder marks on the clothing of the murdered man above the first wound indicate, according to Prosecuting Attorney Stephen, that the killer was standing in the middle of the room when he fired the first time, while the bullet about the neck led to the belief that he advanced when he fired the second time.

Several of the neighbors declared that they heard three shots, but no trace of any other bullet has yet been found, either in the upholstery of the chair or about the walls or floor of the room. Examination of the wound on used in the killing will show this, however, but it was sealed up without any inspection at all, by the prosecuting attorney, who arrived on the scene immediately.

Which Wiedenmann arrived at the court house, Mr. A. N. Sprague, wife of the sheriff states, that he was

groaning and half sobbing and evidently was laboring under a great mental stress. His frailty, a young man who residing near the scene of the tragedy, was the only person who saw Wiedenmann leave the house. Kelsey says he saw him run out of the back door, scale the back fence and run across the alley in the rear of the house, disappearing in the direction of the court house. It is presumed that he took a direct route there, as he surrendered himself about 2:45.

Frank Stephens, prosecuting attorney, who conducted the hearing before the coroner yesterday morning and who had a long talk with the prisoner, entered that he is at a loss now to ascertain any motive for the crime. All of the neighbors have testified, he said, that the victim and his father-in-law were apparently always on the best of terms.

The coroner's inquest, commenced yesterday morning at 10 o'clock, and the jury heard in its verdict between 12 and 1 in the afternoon. The substance of the verdict was that E. Kelsey came to his death by reason of gunshot wounds inflicted from a gun believed held in the hand of Peter Wiedenmann. The jury was composed of C. D. Thomas, G. D. Sawyer, Don McKay, Henry Olson, John Lindahl, S. G. Hull, P. E. Dean, John M. Rock, L. D. Mann and W. A. McKintire.

Those who were called to give testimony were: H. W. Clinebeck, who was called immediately after the shooting; John E. Waite, a neighbor; Mrs. Louis J. Judge, the murdered man's sister; Miss Louise Wiedenmann, daughter of the accused; Gladys Kelsey, 15 years old, and Egbert Kelsey, 12, children of the victim. Mrs. Kelsey was not called upon to appear due to her prostrate condition.

Kelsey, who was 42 years of age, had been employed at the Magel garage since last May, and when questioned as to his character and habits, Mr. Magel said: "We cannot say too much for him. He had been with us for some time and was always a sober, industrious and competent workman. I have never heard him say anything whatever which would lead to the belief that he had harbored any malice against his father-in-law. In fact, I do not recollect having heard him mention Mr. Wiedenmann's name at all." He was also formerly a member of the city fire department where he had a record for efficient and loyal service.

Peter Wiedenmann, the accused, is alleged to have been in bad health for some time, having spent the greater part of the past few weeks in confinement at his son-in-law's home. He has spent the greater part of his life as a laborer, being 62 years old.

## "The Clouds Have Rolled Away, and Again the Sun Is Shining Brightly"

## FARM CROPS SET NEW HIGH RECORD

Preliminary Estimates Show Crops Exceed in Size Any in Previous Years in Country's History.

WASHINGTON, Nov. 8.—American farmers made a record in five crops this year. Preliminary estimates announced today by the department of agriculture show the corn, tobacco, rice, wheat, apples and hay. The wheat production record however has stood since 1896 with this year's crop more than 3,000,000 bushels under it.

In addition very large crops were grown in some instances closely approaching records of oats, barley, rye, potatoes, apples and hay. The wheat production record however has stood since 1896 with this year's crop more than 3,000,000 bushels under it. Final crop production figures will be announced next month. Corn, king of all crops and on which the United States grows more than 70 per cent of the world's output, reported the enormous total of 3,199,126,000 bushels. That is seventy-five million bushels more than ever before grown in any year. This is the third corn crop to exceed three billion bushels, the previous record having been made in 1912, while the corn of 1917 was the second largest.

In point of value this year's corn crop will not equal that of last year which based on the December first price of \$1.23 a bushel, was worth \$2,534,234,000. The crop of 1912 was valued at \$1,520,440,000 on the December 1 price amounting \$1.30 a bushel. The value of this year's crop based on the November 1 farm price which was \$1.5 cents a bushel is estimated at \$2,792,837,000.

Iowa's corn crop is the largest of any state at 441,068,000 bushels. Illinois ranks second with 302,634,000 bushels and Nebraska third at 250,329,000 bushels. The tobacco crop this year, priced at 1,476,444,000 pounds is estimated at 47,000,000 pounds more than grown last year when all previous records were broken. Virginia, North Carolina and North Carolina exceeded their last year's production, while Kentucky's crop this year is 636,000,000 pounds less than a year ago.

Production of rice this year exceeds by 12,000,000 bushels the previous largest crop in 1917. The output this year is placed at 12,224,000 bushels, almost half of which was grown in Louisiana.

The sweet potato harvest will show 165,678,000 bushels, which is 2,000,000 bushels more than grown last year when the crop exceeded all previous years production. Alabama's output is larger than any other state. The crop of pears this year is placed at 15,558,000 bushels. The previous largest crop was that of 1917, when 12,381,000 bushels were produced. California produced more than 3,000,000 bushels above New York's production which is 2,250,000 bushels.

HEAT-HYPOCOTYLO LONDON, Nov. 8.—The Marlborough divorce case will be heard in the law courts tomorrow. Al, though the Duke of Marlborough did not defend the suit of the duchess who was Consuelo Vanderbilt,

daughter of the late W. K. Vanderbilt, for the restoration of conjugal rights granted in March last, he is defending the divorce proceeding tomorrow.

## MARKET CLOSING.

The city market, which has been supplying the city with fresh eggs, vegetables, fruits and other produce has closed for the season. It is the intention of Ed Vance, the proprietor, to open up again next summer at the earliest opportunity. The market is located at the corner of Third and Shoshone street.

## MOVIE PESTS

A fan says up a number of varieties of movie pests in this fashion:

Those who talk loudly.

Who chew gum out loud.

Who criticize the actors, plot, scenes, etc.

Who cross their legs and dirty your trousers.

Who do not get up as you struggle to your seat.

Who leaves an umbrella in your row for you to fall over.

The woman who bats back and forth across your line of vision.

Who saw the picture before and begin telling others what's next.

The man who puts his legs into the aisle for you to stumble over.

Who put their coats and hats on the seats you want to occupy.

Who personally know some of the actors and persist in telling all about it.

The couple in front who try to imitate the love-making of the pair on the screen.

The idiot who almost knocks your head off as he bumps into a seat back of you.

Who keeps time with the orchestra with his feet on the back of your seat, thereby increasing the list of nervous wrecks.

The feminine pests who keep up conversation about the most rapid subjects throughout the picture.—Washington Times.

## HORSE TRAINER DIES.

BALTIMORE, Md., Nov. 8.—Daily, noted trainer of racehorses, died here Saturday at Johns Hopkins hospital of typhoid pneumonia. While engaged in training thoroughbreds in Canada, he contracted a severe cold which developed into pneumonia.

## PRINCE WILL HUNT.

OPENING, Nov. 8.—Prince Wilhelm of Sweden will start soon on a big shooting expedition into Central Africa. The trip is expected to last eight months. All trophies by the expedition are to be given to Swedish museums.

## REMARKABLE FLAG IS MADE BY GIRL

Country's History, From the Birth of Independence, Woven Into Emblem in Honor of Heroes of Spanish-American War.

Peace unfurled a million flags throughout the world, but not one of them was as remarkable and meaningful as that which Josephine Mulford wrought with her own hands a score of years ago in honor of the heroes of the Spanish-American war, observes London Answers.

The flag on which Josephine told, night and day for more than a year, with a great love to inspire her fingers, is so large that three battalions of soldiers could be massed on it, and so heavy that half a dozen strong men could barely raise its folds from the ground.

But it is the romance of its fashioning that places it so far above all its rivals. It was begun on the first day of July, 1898, in the parlor of an old homestead in New Jersey, and from the first stitch to the last it was never for a moment out of the hands or thoughts of the young girl who had set herself this patriotic task. Every stitch was counted as it was made; for it represented an American soldier who was fighting in Cuba.

The Pennsylvania star was partly made in the room in which, a century and a quarter earlier, Detsy Ross worked, under Washington's guidance, on the very first American flag which proclaimed the independence of the states and the star was finished in the room where the first continental congress met.

To make Virginia's star she traveled to Mount Vernon and stitched it in one of the rooms of Washington's home. The Maryland star was made at Fort McHenry, historically associated with "The Star-Spangled Banner" of Francis Scott Key, and New York's star was made partly in the very room in which Washington laid good-bye to his officers, and partly on board the flagship New York.

And thus, making as far as possible each stitch historic, the colossal task proceeded, until the Madison Square garden, to hundreds of cheers from a hundred thousand throats. Then came a terrible reaction from the long strain, and within a few weeks the hands that had told so long and lovingly were stiff in death.

But the spirit of courageous love which Josephine Mulford breathed into her work lives on—for courage cannot die.

To Cure a Cold in One Day. Take GROVE'S LAXATIVE, BILDGRO QUININE tablets. The genuine brand the signature of E. W. Grove. 20c.

NO FREE BEDS FOR JURORS. SEATTLE.—There'll be no free beds for jurors here. Superior court judges have decided to do away with the jury dormitory. Hereafter jurors were given a reasonable time to do and then, failing to agree, were put to bed for the night. Now

they'll have to agree before they can leave the jury room, or agree to disagree.

HITS NUT IN SQUIRREL'S MOUTH. HARRISBURG, Pa.—Carl Stratt shot several times at a squirrel. The squirrel fell off the tree. Carl couldn't find out where the squirrel was shot. It wasn't. Carl shot at a nut in the squirrel's mouth. He choked to death. (The squirrel, of course.)

**OUCH! LAME BACK**  
Rub Backache, Lumbago, Soreness and  
Stiffness Away—Try This!

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? No! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Linger up. Don't suffer! Get a small trial bottle from any drug store and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints so quickly. You simply rub it on and out comes the pain. It is perfectly

harmless and doesn't burn or discolor the skin.

Linger up. Don't suffer! # BRITISH READY FOR STEEL WAR

Firms Climbing to Meet Challenge of United States, German and French Organizations.

By J. H. DUCKWORTH.  
LONDON.—Challenged by the gigantic U. S. steel industry which has allied itself with German and French steel firms to seize European trade and to oust British steel from other overseas markets, British steel magnates are preparing for the gigantic conflict.

They have formed the British Empire Steel corporation, a consolidation of interests which they are confident is formidable enough to withstand the threatened onslaught in their premier key industry.

Roller Over Rivals.  
Judging from the production figures given me by the Iron and Steel Institute, here, the American, German-French alliance will be in the position to steam roller all rivals.

These are the statistics of output of pig iron and steel ingots by the four countries involved in the steel war: United States, 1919, 65,000,000 tons; Germany, 1919, 38,244,261 tons; France, 1919, 5,838,693 tons; Great Britain 1919, 17,922,000 tons. The Britishers are alive to the fact that the coming fight is to be a real one. They know that machine tools will be utilized by either side and that no trade strategy or business tricks will remain utilized in the struggle.

"Will Hold Her Own."  
F. W. Harbord, probably the greatest steel expert in British empire, is confident that Britain will hold her own. Interviewed today, he said:

"While the United States had every opportunity during the war to secure world trade, at the same time the reputation of the English steel trade and the quality of their output was such that I do not believe the United States Steel Corporation or any other foreign corporation, can take away our customers, but the difficulty here is in obtaining sufficient supplies of raw material. Dur-

ing the war large quantities of pig iron were imported, chiefly from the United States.

"I consider our new consolidation one of the biggest steps forward taken for many years in the steel trade in this country. I am well acquainted with the plants of both the Dominion Steel Corporation of Canada and the Nova Scotia Steel and Coal company.

Open a New Supply.  
"It should be of the greatest help in enabling various finishing mills in this country to be kept going at top speed.

"It opens out a new source of supply of raw materials for the United Kingdom for many years to come, as the resources controlled by the British Empire Steel Corporation are not only amongst the largest known deposits in the world, but mining costs are low and shipping facilities almost unique.

"The steel-masters of Great Britain are fully alive to the situation and do not intend to allow foreigners to keep their hold, now while we are at war, on the supremacy of a trade that has made England famous in the past in the commercial markets of the world."

## PRESERVE PAINT ON SURFACE IN WASHINGTON

Most Every Man Experiences Trouble With First Car.

Great Care Must Be Exercised During First Months, Owing to Time Necessary for Varnish to Harden—Use Best Soaps.

Most every man experiences considerable trouble with the paint on his first new car, due to the fact that it was not given the best care of. Some, however, after running the paint on one or two cars, learn how to keep the tuster in the paint, but for the benefit of those who still do not know the secret the following instructions are given:

Owing to the time required for varnish to harden, great care should be exercised in washing the car during the first few months in use.

1. Before using new soaps and chemicals clean them thoroughly with soap and water to remove sand and shells.
2. Clean one panel at a time, thoroughly drying before cleaning the next. Never wash the engine hood while hot, and never use hot water on any part of the car.
3. Mud should never be allowed to dry upon a newly varnished surface. Wash off all mud as soon as possible.
4. Use lots of water to clean your car. A sponge, thoroughly saturated, is much better than a hose. Always have sponge full of clean, fresh water and use no pressure when applying.
5. Have two sponges—one for body, hood, etc., the other for the running gear. Keep sponge for body away from grease.
6. In washing running gear use a soap solution made by dissolving in a half of water sufficient soap to make a good suds. Sop on, to car with sponge. Rinse immediately with clear water.

If necessary to use soap on body, use only pure soap, such as imported castile, or the very best all soap made for use on automobiles. There must be no free alkali or acids in the soap, as these will eat the surface of the varnish.

### CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passage in your head will clear and you can breathe freely. No more sneezing, snuffling, mowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Dr. Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves comes instantly. It's just time. Don't stay snuffled up with a cold or nasty catarrh. Relief comes so quickly.—Adv.

# SIGN TALK FOR MOTOR DRIVERS

Numerous Accidents Last Year Were Due to Lack of Knowledge of Condition of Roads Ahead—Word of Warning Helps.

Last year the reckless and incompetent handling of automobiles in a single state exacted a toll of 1,287 lives, and thousands of persons were more or less grievously injured besides. A lack of knowledge of conditions, ignorance of the state of the road ahead, and failure of the driver to caution ahead, had much to do with numerous accidents, and the destruction or loss of an immense amount of property throughout the country, with Robert W. Skerrett in the Scientific American.

The continually augmenting number of machines and our ever-widening dependence upon automotive vehicles make it imperative that we find some "medium" by which needed sacrifices of life, limb and material can be reduced. Dr. Theresa W. Kilmer, a physician in New York city, has suggested that much may be gained in this direction by facilitating intercommunication between the drivers of moving cars. He is convinced that a word of warning at the right time will be of the greatest benefit, and to this end he has evolved a sign language in which a display of from one to five fingers make it practicable for the man at the wheel to sign useful information or to ask another motorist a question which may save much time and trouble.

### Amplification of Semaphore.

The code is merely an amplification of the semaphore by which a driver now indicates that he is about to turn out of line and thus cautions the man behind him to slow up. The signals are all made with the forearm held upright and the hand so placed that the fingers will receive a full measure of light or stand out well illuminated against a sunken background. Doctor Kilmer has chosen this position as the one likeliest to prevent confusion, as an experienced driver knows how much the other fellow hates to be halted, particularly if he is not to be the gaffer; and his desire has been to produce a code of such simplicity that "he that runs may read."

The display of a single finger means "You have a flat shoe"; two fingers warns the approaching on-pushing car that something is wrong with it; in short, that the machine should be stopped and inspected; three fingers is the query "I on the highway"; and the next town? a spread of four fingers is the symbol for danger ahead; and when five fingers are shown the oncoming motorist is asked to stop and to lend assistance.

### May Save Life.

A flat shoe is not a trifling matter. In ignorance of it a driver may ruin a tire; and the records show that numerous grave accidents have resulted from this wheel defect. Something may be done to obviate this danger. A passing car which may entail either loss of property or invite disaster. Prompt inspection will save a tool box or perhaps prevent a wreck. Time and again the stranger has gone miles astray on the wrong road when a nod or a shake of the head from some one informed might have reassured him if on the right path, or brought him around into the desired highway to the next town. A danger ahead may be an unsuspected railroad crossing, a sharp turn, a wreck, or an impassable or very bad road. A signal to that effect would cause the driver to slow down and to find out what lies before him. Every decent driver will respond to a rightful call for help, but he naturally wants to be certain that it is necessary that he should stop.

### Regulating Battery Charge.

When taking long trips turn the lights occasionally, thereby lowering the charging rate and preventing an overcharged battery.

## NEWS OF WENDELL

WENDELL, Nov. 8.—The Episcopal Guild met at the home of Mrs. Wm. Howard Tuesday November 8. The Wendell precinct experienced the first real snow storm of the season November 6, when two inches of snow covered the ground. John Flinnings of the Portland

Cattle association was in Wendell recently. He is shipping sheep from Wendell, Hagerman and Illias to eastern markets. From here Mr. Flinnings left for Jerome.

Charles Rodbeck and Dr. Huggins returned Monday from their big game hunt, and from all reports had a very strenuous and successful hunt.

The Wendell high school will play a football game at Buhl Friday with that team. Our boys are in good trim and we expect to bring home a Buhl scalp.

Miss Kathryn Andrews and Vernon Gray, both of this city, were married last week and have left for Twin Falls. He's a well known here.

Cree played on the Wendell baseball team last year. A great number of friends give their best wishes for their future.

The Wendell football team met Hagerman team last week on the home grounds with a score of 57 to 6. This home team displayed better team work than ever they have yet.

The Civic club of Wendell has invited the money offered club to attend the lecture of Miles Cannon on "Pioneer Day of Idaho" at the Presbyterian church, Wednesday November 10.

A real sociable Halloween party was given at the Grange hall No. 1, November 8. The east and west side Grangers' part of the program was a continuation of fun from start to finish which kept the hall roaring with laughter; while the town Grangers gave an educational history of the Wendell Grange since 1910. Refreshments were served by the Grange ladies.

The Gooding county farm bureau is planning a dairy excursion Monday, and is anxious to have as many as possible to take the trip. Mr. Cammack, state dairy specialist, says Gooding county offers an exceptional opportunity for the dairy clubs. The excursion starts at Mr. Hastings on Saturday morning at 9:30.

Miss Smith entertained her class in the social room of the M. E. church this week. Chamber of horrors, ghosts and jack o' lanterns made a lively evening.

On Friday evening cars took the Old time trip to the S. A. Lane ranch to a scenic route.

Work on the cement sidewalks has started and will be laid to the grange hall and beyond the city hall to west of Idaho street and east on both sides of the M. E. church corner.

Miss Grace Parkinson of Winona, Minn., arrived in Wendell the latter part of last week and will visit her sister, Mrs. H. D. Jackson, and family until the holidays.

The chicken dinner given at the Odessa by the church of the M. E. church is a well attended affair. George H. Bawler and family of Me.

## CROZIER TRANSFER CO

Telephone 348  
E. R. WHITE, Manager

LIKE EVERYTHING ELSE

hailing must be efficient to insure perfect service and satisfaction. We employ men who are experts in handling trucks and furniture and have up-to-date motor trucks for country moving.

## Auction Sale

TWENTY-ACRE ORCHARD AT WENDELL, IDAHO

For Sale to the Highest Bidder Thursday, November 11, 1920. For particulars enquire of

J. T. EVANS  
130 Main Ave. South.  
TWIN FALLS, IDAHO.

quite, Nevada, arrived here this week. He has purchased the Gettling place and will move soon to take up residence there.

An old time dance at the Odessa by the Catholic ladies election evening proved an entire success.

Mrs. Ray Ward returned from Twin Falls where she had been on a visit with friends and relatives for the past two weeks.

Miss Ertson of Buhl is visiting with her uncle, the Ward boys, on the Shepherd farm west of town.

A skating party is being arranged for the Hillandale and Mountain View clubs—November 19, is to be quite an event. Refreshments will be served after the skating, by the ladies.

J. A. Eyster of Twin Falls was a Wendell visitor this week.

Mrs. B. Martin left this week for Idaho where she will visit friends for two weeks or more.

Mr. and Mrs. Robert Moore have just returned from Eden, Tupper and Grandview. They visited friends, while their main object was to attend to some grange.

### TOOTH WORTH \$500, SAYS JURY

TACOMA, Wash.—A tooth is worth \$500. At least it is when a dentist pulls it instead of putting a new gold crown on it to replace one worn off. A jury here gave Jens Pederson \$500 judgment against Dentist E. E. Keith. Pederson sued for \$2000.

### ARREST MAN FOR MURDER OF GIRL

KANSAS CITY, Mo., Nov. 8.—A warrant charging Dennis Chester, arrested today in Great Falls, Montana, with the murder of Miss Florence Bartlett, prominent young lady here, was said into today to have been issued to an official of a private detective agency. Miss Bartlett was murdered October 7, while motoring with her fiancé along a suburban road.

Two other men suspected of complicity in the murder are said to be under arrests on minor charges in Missouri towns. Chester will be brought to Kansas City and the formal charge of murder lodged against him, officials say. Chester it was announced, had been traced from here to Tia Juana, Mexico, Los Angeles, back to Denver and thence to Great Falls where he had been only an hour before his arrest.

## CHAMBER OF COMMERCE.

Tonight the members of the Chamber of Commerce will meet for the purpose of canvassing the work of the past year and laying out the work for the year to come.

This is a community work, important to all interests. It calls for the best thought-of our business men, and demands the brief hour of time that they should give to it.

Part of the work of preparation for the coming year will consist in the selection of the men who are to handle the affairs of the various bureaus during the next twelvemonth. In this there should be care.

But above all there should be tonight in Parish hall a large gathering of the community's best thought. Much may depend upon the Chamber of Commerce officials before the next election of a board. Let's act wisely tonight.

## THE PEOPLE WANT PEACE.

The election, in spite of all the efforts to make it a clean-cut referendum on the league of nations issue, according to most observers failed of that purpose.

Again and again during the campaign, were heard the words, in offices and homes and on the street, "This is not a 'solemn referendum'." The straight issue of league or no league was complicated by the personalities of the candidates, by their utterances, by their platforms, by the divisions within the party lines, by political and racial antipathies and various other factors.

Nevertheless one fact became obvious as the campaign neared its close, and is still more obvious today. The American people do want some organized effort for world peace, participated in by the United States. It may be the league of nations, already organized and favored, with or without reservations, by a large though indeterminate proportion of the American citizens. It may be some new association of nations, such as the successful presidential candidate has suggested, if the other nations of the world can be persuaded to dissolve their present organization now just beginning to function, and form a new one after a new American pattern. It may be a fusion of the two plans, keeping "whatever is best" in the present league in accordance with the majority verdict.

Something of the sort there must be, if the obvious will of the American people is to be carried out. It is a matter of common knowledge that vast numbers of men and women voted for Mr. Harding because, for some reason or other, they felt more confident of getting a world peace federation by electing him than by electing the candidate who stood more directly and explicitly for such a federation.

## RED CROSS ROLL CALL.

"All you need is a heart and a dollar." Familiar words, but they are heard again on every hand, appealing from printed page and poster. The fourth annual Red Cross roll call is with us to continue until Thanksgiving Day, November 25. Hereafter Armistice Day is to mark regularly the beginning of the annual drive of the Red Cross for the dollar membership subscriptions of the people of the United States.

The last roll call resulted in a membership 10,000,000 strong, exclusive of the junior roll call of \$500,000. But until every adult and every child in the country is engirdled under the banner of this great society whose watchword is "Mercy," the enrollment is not heavy enough.

The money now collected with it used to advance the peaceful activities of the organization, which include work among America's world war veterans, especially the disabled; service to the peace-time army and navy forces,

including work among their families and the provision of a link between the man and his home in many ways; the establishment and equipment of units to develop the national resistance to disease through work in health centers; preparedness for disaster relief; home service and community work and the completion of relief work among the war-exhausted and disease-ridden nations of Europe.

## ARMISTICE DAY.

The second anniversary of Armistice Day will occur on Thursday, the eleventh of November. Two years since, the world went mad with joy because a truce had been arranged and the hostilities of the great war ended.

It is a day for rejoicing, truly enough, but not for rejoicing alone. Precious lives were paid to bring that day to pass. It is a day for serious contemplation. There can be no celebration of the closing of that bloody war without some thought being given to its beginnings to the evils which brought it about. Are they subdued forever, among all nations, or are they merely lying in wait to start the whole thing over again? Those boys who died, did they die just for a single day or for an eternal cause? And if it was the latter, what has this nation done definitely to advance it?

Armistice Day should be celebrated as the anniversary of a glorious moment in the past, but it should also be celebrated with a full understanding of its deep future significance and the responsibility which it imposes upon this nation to join the other nations in a peace that shall be just, broad and lasting, a true preventive of any repetition of the war which Armistice day brought to a close.

## "SATANISM" IN IRELAND.

Americans are not alone in their condemnation of recent British procedure in Ireland. There are critics in editorial and governmental positions in England whose utterances are as condemnatory as any in this country. Alfred G. Gardiner of the London Daily News, speaks in scathing terms of the folly of "employing a great army to reconquer a country that demands freedom in her own right," and adds:

"We have shown we can rival the Bashibazouks of the Sultan and the Black Hundreds of the czar. We have done in Ireland things the Germans never did in Posen and the Russians never did in Poland. We have set up a government by slaughter and arson. We have organized gangs of hooligans to run amuck through the land, answering crime with tenfold crime, murdering indiscriminately and burning indiscriminately. We have heard these things defended and encouraged by the British premier. We have heard a buffoon get up in the house of commons and talk about raking Ireland east, west, north and south."

He calls the policy "satanism in government." There is no question that indefensible crimes are being committed in Ireland by the British troops by the order or with the assent of the British government.

The Irish problem is admittedly one of the most perplexing in the world. Precisely how it shall be settled is strictly none of this country's business, but common humanity as well as common sense justifies the demand, from this or any other quarter of the world, that Ireland be treated with less severity.

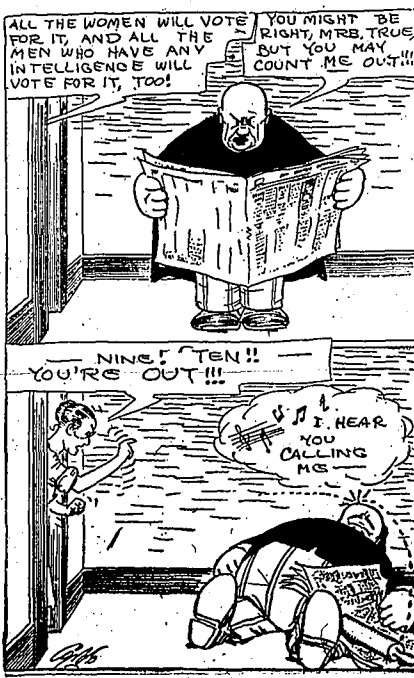

## FRANCE AND SPAIN

France and Spain have set out to render the Pyrenees a less formidable barrier. Delegates of hundreds of societies, Chambers of Commerce, and similar organizations in the two countries are gathering at San Sebastian in a great congress, and though much business will no doubt spring from it, the good accomplished must go farther than the balances of business houses.

France and Spain are neighbors. They have much in common in blood and culture. Their interests in North Africa are not dissimilar, and their frontiers march together in Morocco even as they do in the Pyrenees. Mutual understanding cannot but be profitable.

The movement, sponsored officially in both countries and supported enthusiastically by business and professional interests, contemplates the foundation of an International Federation of all the civic organizations of both nations with a view to strengthening the bonds between.

# OUTBURSTS OF EVERETT TRUE

## SAYS COURTS WILL IMPROVE WITH WOMEN

CLEVELAND, O., Nov. 8.—Some women receive more consideration and others, perhaps, not quite enough in the courts of law, thinks Florence E. Allen, first woman to be elected common pleas judge east of the Mississippi river.

Miss Allen, 30 years old, a woman of thorough university training, is at present assistant prosecuting attorney.

"Although the law, what is rare in women who enter the so-called 'manly profession,' a sense of humor and has time to laugh, Miss Allen has no time for idle talk of 'woman's place.' 'I don't want to be judged,' she said, 'because I thought I had the brain and the training to make a good judge. Furthermore, there should be women officials, particularly judges. A woman will talk to a woman, will be lenient to a woman.'"

"I don't say that women do not re-

ceive justice in courts today. I don't think men judges are too hard on women litigants before them. But at the same time, I think in some cases a woman will render more perfect justice."

"There are women who cannot tell their stories well before a man and who can talk to a woman judge. On the other hand, there are women who make their sex their defense. I mean the pretty woman who demands more than justice and pleads their beauty to escape punishment."

## ZEPPELIN PLANT TO AMERICA

GENEVA, Switzerland.—It is understood an American syndicate has been formed to buy out and transfer the Zeppelin plant and move it to America. Two Americans, it is said, recently arrived at Friedrichshafen. Because of the treaty ban on the building of more Zeppelins in Germany it is reported the Germans will accept the offer. A transatlantic service may be started later.

## DIPPER OF DIAMONDS

ON BRIGHT nights one can see gleaming in the sky a formation of stars which resembles a dipper in shape. But once, thousands and thousands of years ago, this dipper lived in the home of a peasant girl.

It was then just a simple tin thing, with a rusty handle. The mother was taken suddenly sick one night and called to Gretchen to bring her a dipper of water. Though Gretchen was cold and shivering, the daughter dressed and ran to the spring at once, filled the dipper and started home. Suddenly in her path appeared a tiny puppy.

"I am so thirsty," said the puppy. "Can't you let me have some of the water?"

"I promised to bring it to my mother," said Gretchen. "But I know you need it at once. Drink."

"Please, miss, for heaven's sake, give me a sip of water," said a feeble

The girl did not stop to think about how little water she had. She poured a drink down the puppy's throat and rubbed her wound with the rest. The old woman opened her eyes slowly.

"Can you tell me how, child, asked the sick woman, 'I live down by the spring?'"

"Certainly," replied Gretchen. "I have used all the water for which my mother sent me and will have to return to the spring away. I will be glad to help you."

So with the old woman leaning on her strong, young arm, Gretchen went slowly back to get the water. On reaching the spring the woman knocked on the rock above it and the stone opened, admitting them to a big chamber carved out of the solid earth. Gems gleamed from the walls, and on all sides were rich furnishings glittering with jewels, golden statues and pictures. Some music sounded and the girl held her breath in astonishment as the ragged woman changed suddenly into a handsomely dressed spirit.

"I was only testing your heart," said the spirit. "I am the fairy of this fountain and know why you come. Here is a golden flask full of water for your mother. It will cure her at once. Here, give me your old dipper."

The spirit filled it full of flashing diamonds, each one as large as a bean.

"Run home now," said the spirit. "But be careful that no evil enemy, the North Wind, does not hit you. He flies about at this hour to harm all my friends."

Gretchen hid the flask of water in her dress and held the dipper in her hand. Quickly she ran, but she could hear the wind coming after her. Faster and faster she flew, but onward roared the old North Wind. Just as she got to her door her foot caught in a root of a tree and she tumbled. Out of her hand flew the dipper, but it did not fall—the North Wind caught it and blew it up into the sky. And there it sticks yet. But, fortunately, the diamonds were saved, for they all fell out on the ground, so that Gretchen found every one of them in the sky. In gleams Gretchen's dipper, shining as brightly as it did thousands of years ago.

# BE PRETTY! TURN GREY HAIR DARK

Try Grandmother's Old-Fashioned Tincture of Sassa Tea and Sulphur.

Almost everyone knows that Sassa Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago, the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sassa and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't say so? Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application or two your hair becomes beautifully dark, glossy and attractive.—Adv.

## JURY INDICTS PASQUALE FOR MURDER OF CHILD

NORRISTOWN, Nov. 8.—Augusto Pasquale was indicted by the grand jury today on the charge of killing Blanche Coughlin, 12 months old son of Mr. and Mrs. G. H. Coughlin of this city, on June 20 inst. The grand jury also found two bills charging kidnapping, burglary and extortion. Only three witnesses, Mrs. Coughlin, Captain Gearhart and another policeman were heard.

While waiting in the prisoners' room Pasquale talked freely. He said he intends to plead guilty and "take my medicine" without delay.

In an alleged confession recently given out by Major L. G. Adams, head of the state police, Pasquale was said to have admitted kidnapping and killing the child, later extorting \$12,000 from his parents on the promise to return it alive.

Highest cash price paid for pool, try Independent Market, Twin Falls.

## ALIAS SUMMONS.

In the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls county, John Thompson, plaintiff vs. John Charles Thompson, defendant.

The State of Idaho sends greetings to John Charles Thompson, the above named defendant:

You are hereby notified that a complaint has been filed against you in the district court of the fourth judicial district of the state of Idaho, in and for Twin Falls county by the above named plaintiff, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons if served with said judicial district, and within forty days if served elsewhere; and you are further notified that, unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed, in said complaint.

This is the purpose of the suit for dissolving matrimony for direction.

Witness my hand and the seal of the said district court, this 1st day of November, 1920.

C. C. HIGGINS, Clerk of the District Court.  
 By C. L. DOUGLAS, Deputy.

J. P. Kosharek, Attorney for Plaintiff, Twin Falls, Idaho.

# NEW BASEBALL LEAGUE FORMED

Composed of 12 Clubs; Eight from National League and Four from American Leagues.

CHICAGO, Nov. 8.—The baseball leagues today were broken up and a new twelve club league composed of the eight National League clubs and the four from the American league was organized. A twelfth member will be chosen later, it was announced.

Organization of the new league came after the five American League clubs had refused to reply to an ultimatum issued by the other 11 clubs giving them an hour and a half to join in the reorganization.

After organizing the new league the baseball magnates proceeded with the Lasker plan for giving control of professional baseball and appointed Judge T. M. Landis of Chicago chairman of the tribunal which will govern the game.

Judge Landis, if he accepts the position, will be supreme dictator of all leagues joining the plan and will receive a salary of \$50,000.

Second and third members of the tribunal will be appointed later and one of them, chosen by the minor leagues. Representatives of the new league left last night for Kansas City where the National Association of Minor Leagues meets tomorrow, to present the proposition to them.

The minor league members would serve for six years while Judge Landis would be given a contract for seven years, according to a statement made after the meeting by the club owners.

Judge Landis was notified of his position by a committee of members and he told them he would take the matter under advisement and make known his decision within a few days.

The plans for the new league and a new controlling body contain frequent references to minor leagues, which were given assurance that they will not be overlooked in administration of the game and that their territory will not be interfered in selecting the third member of the new league.

The action came after all day sessions of both factions in the reorganization plans with neither side yielding to the other.

The five clubs which stood by Johnson in the fight are Washington, Philadelphia, Cleveland, Detroit and St. Louis. Tonight they maintained that the new league will have no effect on them.

"We are the majority of the American League and consequently are the American League," Clark Griffith of the Washington club said. "The American League will operate this year with or without the Chicago, New York and Boston clubs."

The new league will give New York, Chicago and Boston two clubs in the same league. Brooklyn also is included. The other members were Cincinnati, Pittsburgh, St. Louis (National), Philadelphia (National), and the contracts previously made.

This factor, they said, would give the five remaining American league clubs additional strength and enable them to proceed with organization of a new American league. Individual club owners said they would fight to the last court before allowing any player to be taken over by the new league.

and the twelfth member yet to be chosen.

Previous to today's action members of Johnson's "bold five" had declared that the three American league clubs would not be able to take their players into the new league, maintaining that the players are club property.

KANSAS CITY, Nov. 8.—Rejection of the Lasker plan of baseball reorganization in the minor leagues seemed probable tonight as the president and club owners of minor leagues gathered here for the convention which opens tomorrow.

Claiming that the proposed plan, adopted in Chicago today provides for government without representation, the advance guard of minor league officials declared they would oppose every move of the major leagues to present the plan for adoption tomorrow.

David L. Fultz, president of the International League, characterized the action of the major leagues in Chicago today as "outrageous."

A. R. Tierney of Chicago, president of the Western and Three Leagues definitely committed himself to the Lasker plan, declaring that the minor leagues are not suitably represented. Club owners of the Western league today adopted tentative plans for the 1921 campaign. There is a possibility that St. Joseph club may lose its franchise as a result of the lack of interest there. Mr. Tierney was empowered to complete the circuit for 1921 and indicated that the St. Joseph franchise might be awarded to another city.

The club owners also decided to postpone the 1921 playing season two weeks longer than last season. The present race will be opened a week earlier than usual and close a week later, but a 154 game scheduled will be played by the same as last season.

Under the new arrangement many double headers will be eliminated. The 1920 season was the biggest from an attendance standpoint in the history of the league. President Tierney's report showed that the eight clubs now on the schedule, an increase of 50 per cent over 1919. The clubs had led in individual attendance with 134,000.

## 'SEABRINE STILL IS LATEST MOONSHINE FAD

LAYWICK, Ky., Nov. 8.—And now comes the "moonshine" still, it may be it would be better to still "now" it.

For in Martin county, where "moonshine" hasn't got a thing to do with the sky, federal prohibition agents, J. S. Hamilton and J. H. Reynolds, have unearthed and "sunk" the first and only (as far as "revenuers" know) moonshine whiskey still.

Coming in all unsuspecting the officers seized an automobile driver to take them into the hills.

"Guys I've seen you all before," said the driver. "You're revenuers and I don't take you any place."

So Hamilton and Reynolds walked five miles to the farm of Herman Targish.

"Any old heronblows, Herman," they asked the backwoodsman.

"Dunno, there ought to be."

"Any moonshiner?"

"None, no, myself."

"Where's your still?"

"And Herman took the supposed 'friends' into his attic. There he had a cable ladder to a pond. On a moment's notice it was possible to run into the pond and disappear into the pond and disappear.

"The officers destroyed the still.

## TOLL GATE STILL ON JOB IN KENTUCKY

CAMPBELLVILLE, Ky., Nov. 8.—Thanks to the fine toll gate, the backless backwoods of "Kentucky"—as they pronounce it in this neck of the woods, has at least one road that is a road.

This place as far as any railroad road runs into the center of the state. Beyond is just hills and dale and more hills. The thoroughfare that leads from Campbellville, about 25 miles to the hills to Columbia, Ky., is one of mud, clay and shale. But it is traversed by auto because "strangers" have pulled the net in and that it is apt for upkeep.

There are five toll gates. Made out of heavy wooden poles, they hang across the road with a wheel on one end and the other end hooked under the railing of the porch where the toll gate keeper lives.

Driving up in an auto you hook your horn to summon the collector and he takes several amounts from you that total in the five cents, \$1.00. First gate costs you 50 cents because it's near a bridge and you have to pay a share of the upkeep of that, too. Other gates cost 50, 25, 17 and 15 cents.

If you are in a hired auto the driver pays the toll but he gets it from you when you pay your bill. The collections are per machine, not passenger.

"Strangers who want to ride around in these here parts kin pay for the roads," say the moonshiners. "We travel by pulchreback and don't need roads."

## 'SCHOOL WEEK' TO BE OBSERVED OVER COUNTRY

WASHINGTON, Nov. 8.—"School week" is to be observed over the country December 5 to 11. Commissioner of Education Clayton has requested the governors and chief school officers of states to take such action as may be necessary to cause the people to use this week in such way as it will most effectively disseminate information in regard to the conditions and needs of the schools.

Chambers of commerce, boards of trade, women's clubs, rotary clubs, labor unions, farmers organizations and patriotic and civic societies are requested to devote one meeting to a discussion of the needs of education in their states. The ministers also are asked to devote one of their church services on Sunday, December 5, for emphasizing the importance of education.

Friday afternoon and evening of school week has been designated as the date on which community meetings in the interests of education should be held in all school houses, both in the city and country, for the purpose of discussing the needs of the schools, the means of meeting these needs and remedying conditions.

## SEMINOLE INDIANS WILL MOVE TO NEW RESERVE

PAIM BEACH, Fla., Nov. 8.—Led by their chief, Tony Tommy, the remaining Seminole single group of Seminole Indians soon will move from their old haunts in this part of the state to a new reservation on the Florida west coast, about 40 miles from Fort Myers.

The new home of the Seminoles will consist of a reservation of approximately 25,000 acres, completely fenced in and including a portion of the Everglades. Although part of the reservation is under water, the area is fertile and is to be supported by the Indians with land to spare.

The Seminoles in their new home will be provided with schools and they have agreed to submit to compulsory education laws.

# NON-PARTISANS CLAIM BIG GAIN

Declared League Polls More Than Three Million Votes in Nine States at Election

MINNEAPOLIS, Minn., Nov. 8.—Results of last Tuesday's election are construed as "a remarkable gain" for the national non-partisan league in a statement to the Associated Press today by Oliver S. Morris, director of league publicity and editor of its national publication.

"League candidates polled more than 3,000,000 votes in 1920 in nine states," Mr. Morris said. "This is more than three times the vote of two years ago, and by a remarkable gain in a republican landslide year."

Although the league candidates for state offices in Minnesota were defeated by large majorities, men endorsed by the league in Wisconsin and North Dakota were elected governor and in North Dakota the first non-partisan United States senator was named," Mr. Morris pointed out.

"We increased our membership in the national house of representatives from four to six," Mr. Morris continued. "Although beaten for state offices in Minnesota, we just about maintained our majority strength in the Minnesota and Wisconsin legislatures, and retained control in North Dakota. In Montana, Idaho, Washington and Nebraska, we elected several state legislators."

"On the whole, we feel that the league has made wonderful progress in two years."

"We have carried the senate definitely in North Dakota and claim we have control of the house, although this is disputed by the independent voters' association," Mr. Morris said. "Regardless of the outcome with reference to the lower house the senate control could nullify action by the house and the governor also has the power of veto."

Mr. Morris said there was no way by which it could be stopped from carrying out its program in North Dakota if it still had in its ranks the three members of the international commission putting through this program. These members are the league, the ministry general and the commissioner of agriculture and labor.

## Suffered 'Decisive' Defeat

FARGO, N. D., Nov. 8.—Theodore Nelson, secretary of the Independent Voters' association, in commenting on the non-partisan league statement of last Tuesday's election declared that the league suffered a "decisive defeat" in the election. "We have the lower house of the legislature," said Nelson, "five state offices, and passed up five initiated laws and may yet win the senate. The league had one representative instead of two in North Dakota, Congressman Baer having been defeated."

## ADHERENTS SHOCKED BY MODERN PREACHES

LONDON, Nov. 8.—"The faithfulness of church people" have been shocked and the "scientific and modern" religions folk much chafed by the publicly expressed views of the Rev. E. W. Barnes, canon of Westminster, on the origin of man.

Before the solemn church congress, packed with archbishops, bishops and other dignitaries, Barnes declared:

"Systematic observation has made it practically certain that man was not specially created by God as, in two generations ago, all Christians believed."

"To the biologist man was cousin to the ape. This ancestry, as embryology affirmed, went through the amphibians to the fish."

"Such a discovery gave to all religious speculations as to the origin of man a background for different from that of the theologians who elaborated the doctrine of the Trinity."

Canon Barnes raised a storm between the orthodox and the heretics that may split the Church of England into two distinct camps.

# MAKES REPLY TO SPEECH OF BARNES

Secretary and Treasurer of Wheat Growers' Association Takes Exception to Address

LINCOLN, Neb., Nov. 8.—A. T. McGreevy, secretary and treasurer of the national wheat growers' association, who is in Lincoln arranging for the state meeting to be held at Hastings next Thursday, this evening replied to the Chicago address of Julius H. Barnes, former head of the Grain corporation. Secretary McGreevy takes exception to what he says was the statement of Mr. Barnes that were it not for the "scientific" efforts in future trading, the price of wheat would be much lower than it is now.

The only custom that will protect and establish the price of wheat as well as the price of other farm products, said Mr. McGreevy, "is to keep out wheat and its business according to business method."

Mr. McGreevy said "what wheat growers' association does not propose to secure a monopoly on prices, but merely to proceed along lines that will give the wheat grower a fair price. It proposes to market wheat on the legitimate demands of trade require, if the price to be determined by a price fixing committee on which the public is properly represented. The selling price, he said, would be based on the cost of production, plus a fair profit, and would be at all times subject to change and correction by a national commission instituted for such purpose."

Mr. McGreevy said if it had not been for the organization of the farmers of Texas, Oklahoma, Kansas and Nebraska, and the consequent appeal of the association to hold their crops until they can obtain a fair return, the price would have been much lower than now prevails.

Secretary McGreevy returned to

# MINOR LEAGUE MEET TO BE OF MUCH INTEREST

KANSAS CITY, Mo., Nov. 8.—Baseball enthusiasts are focusing their attention on the outcome of the meeting here next Tuesday, Wednesday and Thursday of the national association of minor leagues.

Major league managers await the verdict of the minors on certain points at issue, chief among which is the latter's decision of the proposed Lasker plan for the reorganization of baseball. Reports received indicate the attitude taken by the minor league heads, and the importance bearing on the future of the national's outcome.

Every minor league in organized baseball is expected to be represented at the meeting. Between 250 and 300 managers and league presidents will be in attendance.

It's toasted

THINK what that means—"it's toasted."

# AUTO BRAKE IS OFTEN MISUSED

Effect on Car Is Not Such as to Increase Its Serviceability—Many Accidents Could Be Avoided by Overhauling.

An automobile is entitled to the same protection as a home. If one or the other is in danger of being destroyed or damaged immediate steps should be taken to prevent the possibility of loss.

As regards the automobile the greatest measure of protection is in good brakes. They should be regularly examined and adjusted. The brake linkage should be oiled and the copper wire and while functioning they will wear in correspondence with their judicious use or abuse. The brakes must be so adjusted that the springs bear evenly and with the same pressure on the brake drums.

Unfortunately the average driver does not use his brakes with any degree of discretion. He knows that they will stop the car, and as a consequence keeps moving at his accustomed rate of speed until almost abreast of the point where he wishes to bring the machine to a stop. Then the brakes are suddenly applied and the car abruptly stopped. The average motor car weighs in the neighborhood of 3,000 pounds or more, and to bring this much weight to a sudden stop when travelling ten miles an hour or better requires the exertion of some pressure. It is not only tiring to wear the brake out faster than necessary, but the effect on the car as a whole is not such as to increase its serviceability.

Many of the accidents that occur today could be avoided if the owner would but take a few minutes' time every week or ten days to himself, examine, or have it done for him, the braking system of his car. Perhaps the last time that it became necessary to apply the brakes suddenly they functioned properly but when needed again in an emergency were found inefficient. Collisions many times occur because the brakes fail to work.

One way to insist upon good brakes is for the police department when investigating an accident to examine the brakes of the car or cars concerned and if they are found to be inefficient make this prima facie evidence of the guilt of the driver of the car. Motorists on the street cars, though they use the air brake the greater portion of the time, are required at fire stops to use the hand brake. This is not because the hand brake is more efficient than the air, but to insure that it is in serviceable condition. If it should become necessary to use it on account of the failure of the air. Certainly if this is good policy on a street car the same attention should be good for the motor car, be it passenger car or truck. When they are running about the streets of the city with faulty brakes, bringing them to a sudden stop in case of necessity they are a source of danger not only to the occupants of the car itself, but to the other users of the streets as well.

**WHISKEY AT AUCTION.**  
YOUNGSTOWN, Ohio, Nov. 8.—Sixty-two passenger automobiles, two trucks, 2500 cases of bonded whiskey and 63 barrels of whiskey consigned for auction.

# ACHES AND PAINS—SLOAN'S GETS 'EM!

1. mous pain and Ache Liniment. Left hand, brins warming, gratifying relief.

**REUMATISM.** (wings ease up set. So d's all joints, lame legs, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long again—the counter-irritant that Sloan's Liniment produces. Always keep this old family friend handy for instant use a little powder & rub, leaving no skin stains, rashes, or clogged pores. Its very odor—healthy and stimulating—suggests the good it will do. All druggists. Three sizes—35c, 70c, \$1.40. Largest size is most economical.

**Sloan's Liniment** (Pain's enemy)

minated by the federal agents quartered here were held today by United States Marshal Charles Lapp of Cleveland and will be sold at auction noon.

# JAP RAPIER MODERATE IN LAND LAW COMMENT

**TOKIO, Nov. 8.**—A moderate tone is maintained by the Japanese newspapers in their comment on the passage of the anti-Japanese land law in California. A majority of them expressing confidence in the negotiations proceeding at Washington.

The Osaka Mainichi Shinbun says Japan will recognize it as an accomplished fact that a new treaty is the best way out of the difficulty. The Chuo-O Shinbun predicts that now that the election is over the "fanatical anti-Japanese feeling in California will disappear, even if the land law becomes operative." It says the Japanese will not be deprived of their vested rights, and predicts that though their leasehold rights are lost, the Japanese continue their profitable operations in California.

The Hochi Shinbun declares that Washington's efforts to arrange a settlement may be regarded as a repudiation of California's action.

# WAYS SUGGESTED FOR DIMMING CAR LIGHTS

Use of Salts or Ground Glass Substitute Favored.

Glare May Be Effectively Diminished by Placing in Center of Lens, Immediately in Front of Bulb, a Spot of Mixture.

The right interpretation of local anti-glare legislation, regulations in some localities has created a desire among motorists for some way means for rendering the lights less bright without going to the bother and expense of substituting new lamp bulbs for those they are using.

One way out of the difficulty, says American Motorist, is the frosting of the lens or glass of the lamp. Buy 10 cents' worth of epsom salt, dissolve in about one ounce of water and pour the liquid over the glass on the inside. When dry the glass will be coated with frosting similar to ground glass.

A more permanent job can be made by using a certain "ground glass substitute" obtainable at hardware supply houses. Ground glass substitute should flow over the inside of the headlight glass by tilting the headlight evenly. One treatment with ground glass substitute will last for an entire season.

Instead of coating the entire headlight lens with ground glass substitute the glare of the light may be very effectively diminished by placing in the center of the lens, burned in front of the light bulb, a round spot of ground-glass mixture, thus:

Cut a paper disk with a round opening in it about two inches in diameter. When the paste is well dried flow ground-glass substitute over the circular spot not covered by paper and let it dry for about twenty minutes. Now soak the lens in cold water until the paper mask comes off, and nothing remains on the glass but the round spot of ground-glass substitute. There will be plenty of light left, but the direct glare will have been eliminated.

# 200,000 POUNDS OF TOBACCO IS BURNED

**HOPKINSVILLE, Ky.,**—It is certainly being proven that Christian county tobacco will burn. In a total of 58 tobacco barns burned in the county, over 800,000 pounds of the weed were consumed. Christian's annual crop totals 12,000,000 pounds.

# REORGANIZED GUARD

**INDIANAPOLIS, Nov. 8.**—The first step toward reorganization of the national guard in the fifth army corps, including Indiana, Ohio, Kentucky and West Virginia will be taken at a conference called for Monday at Fort Benjamin Harrison, Ind., by Major General Fred, commander of the Fifth army corps.

# ANNOUNCEMENT

Dr. D. Brown Lewers has moved to permanent location, the Koto building over Tuna's Cafe, Phone 115-V.

# ARITHM-A-LETTA

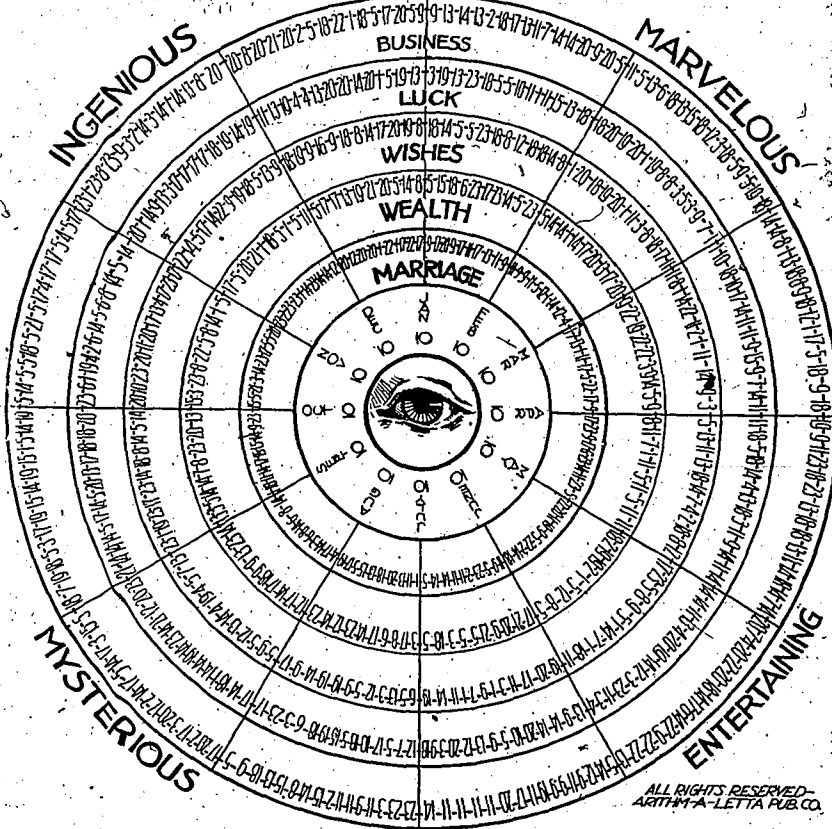

## HAS A MESSAGE FOR YOU

ARITHM-A-LETTA has Ouija backed off the board. It is fascinating, ingenious, marvelous, entertaining, mysterious, educational and harmless. A child can work it. And grownups are sure to spend many happy hours getting messages from it on Business, Luck, Wishes, Wealth and Marriage.

## Ask Arithm-a-letta. It Knows!

# Market News

## Grain

**CHICAGO, Nov. 8.**—Wheat—Authoritative big new breaks in price today simultaneous with acute depression of foreign exchange and with liberal receipts at Kansas City and Omaha. The market closed unsettled, 4 3/4 to 6 cents net lower with December 1.87 1/2 to 1.94 1/2 and March 1.82 1/2 to 1.84 1/2.

Corn finished 1-8 to 5-8 cents high, or oats unchanged to 1-4 cents up.

**INDEMNITY**—The outcome varied from the same yesterday's to 2 cents lower. Settlement regarding wheat was intensely bearish from the outset, and prices fell to the lowest levels of the season. Demoralization of foreign exchange was accepted on all sides as indicating an increased handicap on export business, an opinion that was emphasized by news of the failure of an export concern of New York.

Besides the liberal arrivals at Kansas City and Omaha messages from the southwest told of heavy notices of consignment from the country and it was contended in some quarters that the farmers strike had been a success. Selling was general and at no time did the market show much power to rally.

Corn and oats developed firmness owing to scantiness of arrivals of corn and to evening up for the government report.

Provisions were depressed by lower quotations.

**CASH GRAIN.**  
**MINNEAPOLIS, Minn., Nov. 8.**—Wheat—Receipts 550 cars, compared with 485 cars a year ago. Cash: No. 1 Northern \$1.81 3/4 to \$1.84 1/4. December \$1.70 3/4 to \$1.73 1/4. March \$1.81 1/4 to \$1.84 1/4. No. 3 yellow \$2.00 to \$2.03. Oats—No. 3 white 18 1/4 to 18 3/4 c. Barley—No. 2, \$1.62 1/2 to \$1.64 1/2. Rye—No. 1, \$2.45 to \$2.53.

**CHICAGO, Nov. 8.**—Wheat—No. 2 hard, \$1.92 3/4 to \$1.94 1/2. No. 2 mixed, \$1.88 to \$1.90. No. 2 mixed 18 1/2 to 19 c. No. 2 yellow \$1.91 to 1.92. Oats—No. 2 white 53 1/4 to 54 c. No. 2 white 52 1/2 to 53 c. Rye—No. 2, 1.60 to 1.62. Barley—No. 2, \$1.60 to \$1.62. Timothy seed—\$5.50 to \$5.75. Clover seed—\$12 to \$20. Pork—Nominal. Lard—\$10.07. Ribs—\$13.50 to \$14.75.

## Produce

**MINNEAPOLIS, Minn., Nov. 8.**—Flour, unchanged 40c lower. In carload lots family patents quoted at \$10.00 to \$10.75 a barrel in 95 pound cotton sacks.

Brat—\$2 to \$2.25.

**BUTTER AND EGGS.**  
**CHICAGO, Nov. 8.**—Butter, firm; Creamery 40¢ to 42¢. Eggs, higher, receipts 2,653 cases; firsts \$2.00 to \$2.05; ordinary firsts \$1.95 to \$2.00; at mark, cases included \$1.95 to \$2.00; standards \$1.90 to \$2.00; storage packed firsts \$1.85 to \$1.90; Refrigerator firsts \$1.80 to \$1.85. Poultry alive, higher; fowls 18¢ to 19¢; chickens 15¢ to 16¢; turkeys 35¢.

**POTATOES.**  
**CHICAGO, Nov. 8.**—Potatoes, weak; receipts 164 cars; Idaho Russets \$1.90 to \$2.05 cwt.; bulk \$2.20 cwt.; North Dakota Red river Ohio sacked \$2.25 to \$2.40 cwt.

## Finance

**LIBERTY BONDS.**  
**NEW YORK, Nov. 8.**—Liberty bonds 1 1/2 to 1 3/4, \$1.85; \$1.85 to \$1.90, \$1.90 to \$1.95, \$1.95 to \$2.00, \$2.00 to \$2.05, \$2.05 to \$2.10, \$2.10 to \$2.15, \$2.15 to \$2.20, \$2.20 to # CITY COUNCIL REFUSES PERMIT

Application for Gas Station Refused—  
Take Up Smoke Nuisance and  
Consider Bond Refuse.

City council at their regular meeting last night refused the application made by F. A. Webb for a permit to construct a gasoline filling station at the junction point of Illinois Avenue and Shoshone street and Eleventh Avenue east, took up the matter of the smoke nuisance and considered the release of a \$2000 bond given by the Warren Construction company for the completion of the building work.

The application for the permit made by Mr. Webb stirred up quite a hornet's nest. A. C. Swain and John E. White, local real estate dealers, appeared against the proposition, Mr. White stating that such a structure would have a very detrimental effect upon the value of the residential properties in that section. He declared that the people who have put their money into homes in that vicinity are entitled to protection and urged that the request be denied.

A. C. Swain also opposed the proposition on other grounds, citing a number of instances where the encroachment of business upon a residential district had injured property values, and also calling attention to the fact that the station would be very near the Washington school and would be an undesirable neighbor to the lives of the children. He stated that although the station might not attract much traffic, it would create dangerous cross currents at an already hazardous place.

Don Lyman appeared on behalf of John A. Beveridge, the owner of the property, declaring that would work a great hardship to him if he was refused permission to sell the property, largely on account of the big paving tax which had been assessed against him and which he would otherwise be unable to pay. Upon motion of Councilman Truckard the permit was denied.

Council also heard a petition presented by Mr. Stone declaring that some persons are taking to cough the smoke nuisance created by the plant of the Twin Falls Steam Laundry, declaring that several of his neighbors who wished to dispose of their property had been unable to do so because of this trouble. The matter was taken under advisement until some comprehensive ordinance can be framed to regulate the installation of smoke consumers on all buildings in the city limits.

A. J. Hill requested that the bond of \$2000 given to the Warren Construction company, of which he is the local representative, be released, inasmuch as the building work has been completed and it is no longer needed. Council decided that the bond should be returned to him as the party who had given it, and the matter was closed.

The report of Dr. Patton, city meat and slaughter house inspector, concerning the opening of the abattoir of the general market, was laid before council by City Clerk W. A. Minnick. The report contained several stipulations as to conditions which must be corrected before the establishment can again undertake business. The stipulations were mainly concerned with drainage, lighting, pens and ventilation, and council decided that when they have complied to the satisfaction of the mayor and Dr. Patton, the slaughter house may be reopened.

With regard to the enforcement of the local ordinance covering the meat inspection, it was stated that State Inspector Barr has declared that he will do everything in his power to assist, but that in some places the state will not allow him to go as far as the city provisions require.

## PERSONAL MENTION

Miss Cecil Slater left yesterday for Fairfield where she will resume her work as teacher. Miss Slater had been absent from Twin Falls during the past week because of the illness of her parents, called by the illness of her sister.

Miss James R. Rathwell, who recently was operated upon at the La Moine hospital, had returned to her home yesterday.

Miss Minnie Johnson has returned to her home from the county hospital where she has been for some time.

Mr. and Mrs. A. H. Ripley of "Eden" were among the out of town visitors to Twin Falls yesterday afternoon and evening.

Mrs. C. R. Coklin of Kimberly was in Twin Falls yesterday afternoon training visiting the shopping district.

Mr. and Mrs. H. F. Hansen of Elmer were in town yesterday for a few hours on a combined business and shopping trip.

Mrs. B. T. Radcliffe of Duhl was in Twin Falls between trains visiting at the home of friends and shopping.

# DRIVE FOR BONUS WILL BE RESUMED

Collection of Funds for Railroad to be Conducted Vigorously by Contributors in Charge of Work.

Asher B. Wilson, chairman of the Twin Falls committee in charge of the railroad bonus drive, announced yesterday that the work will be resumed this week and the campaign pushed vigorously to a successful conclusion.

Twin Falls has raised to date \$68,000 of the necessary amount and on the present basis is expected to easily subscribe \$100,000 to the quota within the city limits alone. Other districts of Idaho and Nevada have raised \$25,000, making a total of \$100,000 needed to date.

Councilmen are calling on the business men having offices in the downtown district and who have not yet subscribed to the fund, and 25 teams, each having been assigned a territory covering a specified number of blocks, are canvassing the residence neighborhood.

The following team captains have taken charge of these residence districts: G. W. Houghton, T. K. Hackett, J. B. White, R. J. Clark, E. J. Clark, J. S. Stewart, R. H. Johnson, E. S. Johnson, W. H. Eldridge, E. J. Powers, Paul Johnson, E. Hollister, R. A. Wilson, S. W. Chapin, Dr. W. H. Dwight, W. H. Burkholder, R. E. Clark, C. P. Bowles, W. H. Bowles, P. Stephens, R. E. Clark, C. P. Bowles, Dr. F. P. McGee, J. A. Cron, J. B. White, James McMillan, W. S. Johnson, R. F. Hogan, Bert Sowden and C. A. Boldison.

## WIFE BODY WILL HOLD ELECTION NIGHT

Tonight at Parli hall the officers of the chamber of commerce who will serve during the ensuing year will be elected. In accordance with the constitution of the chamber, a meeting will be held last Tuesday night, but since there was not a quorum present, it being election night, the gathering.

Nominations for the various offices were made at the meeting. There being no other business, the meeting was adjourned until tonight.

Approximately 2,000 taxpayers have registered for the special bond election to be held today. This election is called for the purpose of ascertaining whether or not the municipality shall issue \$55,000 in bonds of which amount \$70,000 is to cover a deficit in the street intersection paving fund, the balance of \$20,000 being used to motorize and completely renovate the equipment of the local fire department.

The deficit in the street intersection fund was caused by a large amount of work done over and above the estimate prepared at the time the last bond issue was put before the voters. It also includes some other paving work.

The \$20,000 is to be devoted solely to re-equipping the fire department and not one penny of the same can be used for any other purpose. Officials of the department have called attention to the fact that the present horse drawn equipment is many years out of date, nothing to the recent fire at the Lorch home as an example. This home was completely destroyed before the engine could reach the scene, because of the great distance it lies from the heart of the city, where it is believed that with the motorized apparatus it could have been saved.

Speaking of the necessity of the bonds carrying, Mayor Eldridge said: "Unless the bond election carries the city will have to pay contractors with a warrant, the entire amount of which will be due in one year from the date of its issue, while in the event that the issuance of the securities is given the stamp of public approval, bonds may be issued running from ten to twenty years, or an average life of fifteen years. In other words the bonds will be raised out of taxes at the rate of one-tenth each year instead of paying the whole amount at one time."

All voters who registered or voted at the last general election held April 22, 1915, can vote on this election without special registration, according to a recent decision by the city attorney. It was previously stated and advertised that special registration would be necessary, but this is annulled by this decision.

The polls, which will open at 9 o'clock this morning and close at 7 o'clock p. m., will be located in the city hall and at the Johnson Auto Salesrooms. Election officials are as follows: Ward number 1, G. D. Allen and M. E. Finch, Judges; Mrs. Margaret Gillette and Miss Ada Wallington, clerks; ward number 2, C. H. Stinson and Reese Wiley, Judges; Miss Blanche Walker and Miss Marguerite Putnam, clerks.

VOGLER WILL DESIGN. NEW YORK, Nov. 8.—Martin Vogler, assistant treasurer of the United States in charge of the local sub-treasury for the last six years, announced today that he will resign January 1, and return to the practice of law. It is believed that by that time the Federal Reserve bank of New York will have taken over the functions of the sub-treasury, according to the legislation enacted at the last session of congress.

MAKES NO COMMENT. PARO, N. D., Nov. 6.—A. C. Paro, president of the Non-Resident League, made no statement to the press during the election, but said he tonight. "I prefer to do my work and let the results talk for themselves," he said.

THE COUNTY CURSE. Miss McCrell will speak at the Hansen high school this evening.

## BOND ISSUE UP TO VOTERS TODAY

Taxpayers Will Have Opportunity of Deciding Whether Bonds to the Extent of \$80,000 Be Issued

Approximately 2,000 taxpayers have registered for the special bond election to be held today. This election is called for the purpose of ascertaining whether or not the municipality shall issue \$55,000 in bonds of which amount \$70,000 is to cover a deficit in the street intersection paving fund, the balance of \$20,000 being used to motorize and completely renovate the equipment of the local fire department.

The deficit in the street intersection fund was caused by a large amount of work done over and above the estimate prepared at the time the last bond issue was put before the voters. It also includes some other paving work.

The \$20,000 is to be devoted solely to re-equipping the fire department and not one penny of the same can be used for any other purpose. Officials of the department have called attention to the fact that the present horse drawn equipment is many years out of date, nothing to the recent fire at the Lorch home as an example. This home was completely destroyed before the engine could reach the scene, because of the great distance it lies from the heart of the city, where it is believed that with the motorized apparatus it could have been saved.

Speaking of the necessity of the bonds carrying, Mayor Eldridge said: "Unless the bond election carries the city will have to pay contractors with a warrant, the entire amount of which will be due in one year from the date of its issue, while in the event that the issuance of the securities is given the stamp of public approval, bonds may be issued running from ten to twenty years, or an average life of fifteen years. In other words the bonds will be raised out of taxes at the rate of one-tenth each year instead of paying the whole amount at one time."

All voters who registered or voted at the last general election held April 22, 1915, can vote on this election without special registration, according to a recent decision by the city attorney. It was previously stated and advertised that special registration would be necessary, but this is annulled by this decision.

The polls, which will open at 9 o'clock this morning and close at 7 o'clock p. m., will be located in the city hall and at the Johnson Auto Salesrooms. Election officials are as follows: Ward number 1, G. D. Allen and M. E. Finch, Judges; Mrs. Margaret Gillette and Miss Ada Wallington, clerks; ward number 2, C. H. Stinson and Reese Wiley, Judges; Miss Blanche Walker and Miss Marguerite Putnam, clerks.

## VOGLER WILL DESIGN.

NEW YORK, Nov. 8.—Martin Vogler, assistant treasurer of the United States in charge of the local sub-treasury for the last six years, announced today that he will resign January 1, and return to the practice of law. It is believed that by that time the Federal Reserve bank of New York will have taken over the functions of the sub-treasury, according to the legislation enacted at the last session of congress.

## ROBBERS GIVE GAY PARTIES

Spent \$5000 in Five Days Following Death and Robbery of New Jersey Bank Messenger.

CAMDEN, N. J., Nov. 8.—More than \$5,000 was spent in five days for gay parties in Philadelphia by Raymond W. Schuck and Frank J. James after they killed and robbed David S. Paul, Camden bank messenger, according to Prosecutor Wolverson, of Camden county who tonight made public additional details of the alleged confessions of the two men. Wolverson announced \$1600 of the \$16,000 in cash stolen from Paul was found today in a new home. The remainder, more than \$130,000 was buried in two packages at the head and foot of the grave of Schuck's mother and has been recovered, the prosecutor said.

Schuck, according to alleged confession, buried the money in Evergreen cemetery on October 11, six days after he and James, riding with Paul in a motor car in Camden, killed the messenger in order to make a better financial showing among their friends.

Mr. Wolverson said James and Schuck, who are in the Burlington county jail, would be brought to trial in Camden.

Schuck disclaimed responsibility for the killing of Paul, declaring he was forced into it by James, who Schuck said, according to the police, beat Paul to death. Schuck and James, Mr. Wolverson said tonight had a bungalow at Clementon, New Jersey, known as Lillypots, where they were entertaining parties of men and women.

As these parties grew larger and more expensive, he added, they found that it was necessary to provide themselves with more money and accordingly.

The night of the killing the prosecuting attorney said, the men had a gay party with a number of women in Philadelphia. "The next day they

ATTENTION We have 35 acres well improved on main road on which we will take Twin Falls residence property as first payment.
