Eye Witnesses Testify at Opening Hearing of Commission

DECLARES HOMES ARE RIDDLED BY BULLETS

Claim Arrests are Made and Deportation Ordered Without Definite Charges

By the Associated Press.
WASHINGTON, Nov. 18.—Eye-witness reports of disturbances in Ireland connected with the movement for Irish independence were given today at the opening hearings of the commission of 100 investigating the Irish question.

Four American witnesses, including Dennis Morgan, chairman of the town council of Thurles, Ireland, and three Americans who visited Ireland recently—John P. Martin, Green Bay, Wis., Father Michael English, Whitehall, Montana, and Father James H. Cotter, Ironton, Ohio, were heard by the commission. All expressed sympathy for the Irish independence movement and told of violence which they had seen and agreed that civil process, except of the provisional Irish republic, were very near at hand and under the rule of the British military forces.

Mr. Morgan said his home was riddled with bullets prior to his arrest and deportation to England without any definite charges being preferred against him. With 200 other Irish republican leaders, he said, he went on a hunger strike until they were released. He also told of "murders" of Irish citizens by constabulary and soldiers, including the "black and tan" forces.

British Confiscated Papers.

Father English asserted that British soldiers had confiscated his papers. The military authorities denied his protest that he was an American citizen, he said, and he also told of having witnessed the shooting of an Irishman whose body, he said, was taken to a hospital and then buried in a shallow grave.

Father Cotter, a Catholic, editor, told of the killing of a Galway civilian by a British soldier. The soldier, he said, was seized by another civilian and repaid against the town. He also told of the shooting of a man on the street for a few hours.

Vandenberg, California Oil and Mining Engineer, who recently was in Moscow, will be "questioned" by the intelligence department of Scotland yard on his arrival in London if the present plans of the police are carried out. The notification was given as a matter of courtesy and is not given in like cases of lesser importance.

The interrogation will not necessarily be made with the view of taking action against Mr. Vandenberg's presence in England. It was said, but with the intention of ascertaining exactly what his activities had been in Russia in view of the many conflicting reports published in London. No interrogation, it was pointed out, would be in conformity with the recently adopted attitude of the British government of "discouraging" travel between Russia and England.

Mr. Vandenberg was in Stockholm up to a few days ago. He recently returned from Moscow and gave out a statement asserting that he had secured a concession for 400,000 square miles of land in Siberia, for a syndicate of Americans.

GILLEN AGAIN TESTIFIES AT BOARD PROBE

Tank Steamer Department Failures Cost Huge Sum, Claim

TRANSPORTED OIL BUT COULD NOT GET FUEL

Investigation of Shipping Board Transactions is Continued by Walsh Committee

NEW YORK, Nov. 18.—Failure of the tank steamer department of the United States shipping board to utilize its fleet of bulk oil carriers for the needs of shipping board vessels, caused a loss to the government of \$3,000,000 in one month, Martin J. Gillen testified today before the Walsh congressional committee inquiring into the shipping board transactions. Gillen was special assistant to former Chairman John Barton Payne, last May when, he said, the alleged dereliction occurred.

Had Fifty-four Vessels.

"The tank steamer department had 54 vessels," he added. "Of these 30 were in the hands of private operators. It was discovered on May 15 last, that the 54 vessels were tied up at southern ports for lack of fuel oil, and in addition 40 per cent of the oil was being carried in our ships was furnished at \$2.07 a barrel."

Operations Complicated.

Gillen further testified that the condition of affairs was disclosed through complaints of two operators, Captains Phil Foley was then head of the tank steamer department, he said, and it was ascertained he did not know. He was compelled to buy oil at a higher price than could have been furnished by the board. Captain Foley, he added, was later relieved of his duties as head of the tank steamer department. In answer to a question by Congressman Miller, Gillen said: "Foley was now director of operations of the board, but it was not more than 1,000 ships including the tankers."

Country loadings of corn were said to have increased and this circumstance, together with new low price records for commodities aside from farm products led to general selling of feedstuffs and that of wheat and hops.

An extreme loss of six cents a bushel was shown at one time in wheat as compared with yesterday's finish. May delivery falling to \$1.67. Corn was to \$1.14 cents December. The average price of hops today was about \$12.17 hundredweight, a low in many cases of 75 cents since yesterday.

NATION WILL BE CONFIDENT SAYS HARDING

President-Elect Asks For Faith in Period of Reconstruction

PARTY LEAVES FOR TRIP IN PANAMA

Proposed Mexican Visit is Given Up; Would Take Boat Three Days From Course

NEW ORLEANS, La., Nov. 18.—Robert Harding and an abiding faith in the republic during the critical period of war reconstruction were asked of the American people today by President-elect Harding in an address delivered here before he sailed for a three weeks' vacation voyage to the Canal zone.

Says Recoveries Must Come.

Some recoveries and disappointments he declared, must come as the aftermath of the world conflict, but he predicted confidently that all of these would pass away again. If the people only "kept their heads" and held fast to the old time virtues of the land and use of common sense.

The address was delivered at a luncheon of the New Orleans association of commerce, the central feature of a program of entertainment by which the city sought to show the president-elect that the parliament of the campaign already had been forgotten. Great street crowds cheered Mr. Harding everywhere during his short stay and to a gathering of thousands in front of the city hall he expressed his gratitude for the hospitality extended him through the Canal zone.

The president-elect was in New Orleans about five hours. He arrived shortly before 11 a. m. from Point Isabel, Texas, and went aboard his steamer, the Parimela, shortly after 2 p. m. The steamer, the Parimela, started on the four day run to Cristobal.

No Misdemeanor Trip.

Any possibility that the vessel would reach a Mexican port on her way down, in response to an invitation extended to Mr. Harding by the Mexican government, disappeared when the steamship company notified the president-elect that such a stop would carry the Parimela three days out of her course. She already had delayed her sailing once, to await the president-elect, and the company carried a number of regular passengers, Mr. Harding would not approve a further change in plans.

Besides Mrs. Harding and his secretary, the president-elect is accompanied by a number of personal friends, including Senators Hale of Maine and Frelinghuysen of New Jersey. The party will remain in the Canal zone about a week and will land on the return trip at Norfolk on December 4.

The department said that no such treaty had been signed and that the publication was a fabrication.

TWO GOVERNMENTS WORK IN IRELAND

Irish "Republic" Continues "to Strengthen Policy—Officials Are Hounded From Pillar to Post."

DUBLIN, Ireland, Nov. 18.—Two separate and distinct governments are operating in south and west Ireland today and it appears to the impartial observer the government of the "republic" is slowly gaining the ascendancy.

Of course, the republican government is a secret, underground one, operating in defiance of the British government.

Its officials are hounded from pillar to post, arrested and imprisoned, and the papers and records seized, but in spite of these handicaps they manage to "carry on." They have a system of dispatch, riding by which they circulate their orders and transact their business. There is no end of official republican literature recently printed, in circulation throughout the country.

In the matter of courts, the republican government clearly has the upper hand. The people refuse to recognize the jurisdiction of the long-established British courts and bring all their legal troubles before their own courts.

The republican courts are growing bolder each day. I attended one in a Dublin school house. It was an appellate court, with jurisdiction in civil cases, where the amount involved is more than \$100.

There were five judges sitting in the case, one a very keen little woman, whose husband, by the way, was taken out and shot to death by the British military some time ago. The presiding judge was a famous Irish poet and writer. None was a lawyer.

"Only in our highest courts do we require that the judges be lawyers," said the poet. "The object of the lower courts is to dispense justice, without regard to technicalities."

Hardly a week passes that the "Irish Parliament" doesn't put out a proclamation on some subject, all meetings of the parliament are held secretly, and a good deal of the voting is done by proxy because a big proportion of the members is in jail for being connected with it.

WANT DRY LID TILTED WEE' BIT

Now Orleans looks to 'Have Liquor
Ban Raised Slightly So That
Harding May Be Entertained.

NEW ORLEANS, Nov. 18.—Herbert Hoover, food conservationist, said John Kramer, prohibition commissioner, want to know how far they can go in raising the liquor tax. Hoover said he would like to see the President-elect Harding when he visits this city enroute to Panama November 18.

In order to do the occasion justice and sustain the city's proud reputation for hospitality, it is declared necessary not only that all considerations of cost and security be waived with respect to foodstuffs but that the prohibition lid be tilted at least a wee bit.

Not that it is expected the president-elect would countenance the serving of wine or liquor at the "testimonial dinner" to be given him by the New Orleans Association of Commerce. That, it is conceded, is too much to be hoped for.

Claret Won't Do.
But the preparations of many of these "rare old creole dishes" on which the culinary fame of New Orleans depends, requires the use of ingredients not permitted by the eighteenth amendment and the Volstead enforcement act. Cocking sherry will not do. Only vintage wines and rare cordons can impart the true creole flavor to such dishes as Bouillabaisse, or Casaburgot chambord. The necessary ingredients can be supplied if only John Kramer's men will look the other way.

But will they? That's the question. Despite handicap of the dry law the commerce committee on arrangement under Crawford it, Ellis is determined that the dinner to Harding shall occur, if not surpass, the famous feast spread for President-elect Taft back in the fall of 1908.

Recalls Taft Dinner.
Just what this means may best be understood by reviewing some of the accounts of the Taft dinner. The New Orleans States, telling of that great feast, says that Theodore Grunwald, at the head of a "court of famous cooks" from the "famous taverns" of the town, arranged a menu with the recipes for each and every dish especially prepared. They even went so far as the account says, as to have famous Bayou Cook oysters removed from their beds and placed in other beds with a greater flow of water, so they could be especially fattened.

The richness of the dishes served is indicated by analyzing as a sample the Casaburgot Chambord, over which Taft is said to have smacked his lips in gorging gusto. This contained a fine "sheep's head, two dozen oysters, three large tomatoes, one cup of stale bread, three sprigs each of thyme and parsley, one quart of fresh mushrooms, two large onions, two bay leaves, three cloves and last and most important, one bottle of white wine."

The cost of the Taft dinner was an even \$5 a plate. No price limit has been fixed for the proposed Harding feast. But it is not likely the Taft limit will be exceeded. Cost, however, will be secondary matter. The big problem is how, under the limitations of the liquor law, the occasion can be made as mellow and memorable as the feast given Harding's predecessor as republican president-elect.

MEN DETERMINED TO WIN CONTEST

Local High School Football Men Will
Play Buhl Today—Many Will
Attend Game.

Despite the many pessimistic expressions concerning the game with Buhl at that place today, credited to Coach Clinton W. Evans, the morale and determination of the local team does not seem to be in the slightest impaired.

Arrangements have been completed for the transportation of the team and the crowd of rooters that is expected. They will leave here at noon, and the evening train will be held over at Buhl for an extra 20 minutes, giving plenty of time for them to take part in the game. An extra coach will be attached to the train.

Due to several injuries and low grades in studies, there is apt to be a quite different team take the field from the one that usually goes into action at the start. Neither Denton nor Dalley are in fit condition to last out the whole contest, but the supply of substitutes is ample so there need be no worry on that score.

Buhl is reported to have improved tremendously since their appearance here early in the season and a much closer contest is in prospect. Angelo has been shifted from the fullback to tackle where his weight will be of greater use. Clinton taking his place at full. Speed has also been added to one of the halfback positions instead of at end where he previously performed.

The Twin Falls lineup will probably be as follows:
Left end, Taylor; left tackle, McAttee; left guard, Putzier; center, Denton or Dabcock; right guard, Brown, (Captain); right tackle, Bailey; Quarterback, Newman; right half, Fix; left half, Horitz; fullback, Phillips.

THE FOUNTAIN OF YOUTH

A Vionnee surgeon named Stoin-
ach is said to have discovered a new
method of rejuvenating old people.
Precisely what the method is has
not been clearly explained, but he
described as "superficial" a Baltimore
surgeon, returned from Europe tells
of wonderful effects produced on
rats—an old decrepit rat has been
made strong, glossy and plump as
ever.

Ho-kum! Same old game. One
time it is an "elixir of life" made
from pig's gristle. Another time it
is a sea water injected into the veins.
Again it is transplanted monkey
glands. Now it is Heaven knows
what, and only Heaven can tell
what Fountain of Youth may be
discovered hereafter, and exploited
for a brief period. Every age has
its, De Leons, and the only differ-
ence between these latter-day explor-
ers and the credulous Spaniard is
that they are "scientific." Or at
least they think they are.

And when they are thorough, it
always comes back to the same old
truth that the only real fountain
of youth are those that God has
provided for all his creatures—fresh
air, sunshine, sleep, work, play;
wholesome food, companionship, and
interest in things new—fountains
whereof all may drink freely if they
will.

Always alive to community inter-
ests, the Maroon Women's club is plan-
ning a new departure in the form of a
community Thanksgiving dinner.
At present plans mature, the dinner
will be served in the Maroon
school house on Thanksgiving day.
The families of the community, in-
stead of sending in their own turkeys,
will pool their supplies, and a feast
the like of which has not been before
seen in the county will be served at
a function which will bring together
the folk of the neighborhood in gen-
eral Thanksgiving. And the ladies of
the community are fully capable of
making this undertaking just what they
please.

There is no community in the state
in which the neighborly feeling is
stronger than in the Maroon district.
And the Maroon Women's club is
largely responsible for this spirit. So
it is that the men have decided that
this season they will give a hand in
helping and make this dinner the
biggest affair that has ever been held
in the community. And what a les-
son is here for those elsewhere who
are worrying about conditions.

Maroon will give thanks for the
bounty that has come to America, for
the return of the boys from the front,
which has been vouchsafed her peo-
ple; for the food stores which prom-
ise a season of full tables; for the
right to live and to labor in love and
community helpfulness.

The Shamrock club met yesterday
at the home of Mrs. May Jenkins.
A delightful musical program was
enjoyed immediately following a brief
business meeting. Dainty luncheon
was served at the close of the after-
noon.

The W. C. T. U. will meet with Mrs.
Joseph Blake on Addison street
this afternoon at 2:30. All
members are requested to bring
needles and thimbles and any old
garments to be made over for needy
children.

The Episcopal Guild was postponed
from yesterday afternoon to Satur-
day. The members will pick a
Christmas box for Alaska during the
afternoon.

The United Commercial Travelers
will give a reception and banquet at
the O. S. L. hall Saturday evening.
There will be an initiation of
17 new members. Twin Falls is the
smallest town in the United States to
have an order of U. C. T.

PRELIMINARY HEARINGS
CONTINUED IN COURT

With the completion yesterday of
all the preliminary hearings and ar-
rangements, with the exception of the
Hernandez case, the district court is
now ready to undertake business in
earnest.
The cases of the state against
Hubert Snow and Bert Skidmore are
now in abeyance, both of the defend-
ants having left the country and their
whereabouts being as yet unknown.
Both men, who were charged with
grand larceny, forfeited \$1000 bond,
so that when they are again appre-
hended they must face two counts in-
stead of one, although no complaints
on the new score have been filed.

McKinley Tipton, after having
been sentenced to from 1 to 14 years
in the penitentiary for grand larceny
was paroled and released. Henry
Muller was also given a sentence of
from 1 to 15 years for burglary, but
his term will stand.

Robert Holmes was granted an ab-
solute divorce from Katie May
Holmes.

BUSINESS MEN TAKE

Business Men's Athletic association.
These efforts to reduce the ever pro-

iel L. Robey of the local high school.

FORECAST HUGE SUPPLY OF OIL

National Petroleum Institute Sponsors Product Quantity Soon Sufficient for World's Needs.

WASHINGTON, Nov. 18.—An oil production sufficient to supply the world for several generations at least was forecast today at the annual meeting here of the American Petroleum Institute.

Henry L. Doherty of New York, Thomas A. O'Donnell of Los Angeles, president of the institute, and J. D. Benson, president of the Tidewater Oil company, declared that the petroleum resources of the world were nowhere near exhaustion.

Mr. O'Donnell, however, attacked the navy department for its seizure of oil stocks on the Pacific coast. Producers there, he said, "feel that the navy department has been unfair," and added: "We believe this to be true."

Mr. O'Donnell and Mr. Doherty both declared that government regulation of the petroleum industry was likely to jeopardize the world's future oil supply by discouraging development of new fields.

"What the petroleum business needs is assurance that it can proceed in the development of new resources of supply," Mr. Doherty declared, "in a competitive and non-restricted manner. Government regulation and meddling will check the initiative of oil companies, resulting in a restricted output."

Mr. Doherty predicted there would be sufficient gasoline for all automotive machinery for generations to come.

He said scientists would discover new oil extracts, but was of the opinion that the probability of developing an artificial substitute for petroleum was remote.

The immense capital needed for development of new oil fields precludes the possibility of the petroleum industry becoming a monopoly, the speaker said. More money, he continued, is being sought in the production of oil.

Mr. O'Donnell urged that all governments adhere to the "open door" policy, "allowing every opportunity for everybody from everywhere, to participate in the necessary oil development."

Addressing the institute tonight, Admiral Benson, chairman of the shipping board, declared that American shipping was facing "the most unrelenting and stifling competition" from foreign countries, but had a great advantage in its oil-burning fleet.

His fifty-five per cent of American ships now burn oil for fuel, he said, while only 15 per cent of foreign ships are oil burners.

Establishment of former bunker stations, Admiral Benson said, had enabled the shipping board to meet three-fourths of the oil requirements at a saving of millions of dollars a year.

FARMERS ARE ASKED TO SUPPORT MOVIE

KANSAS CITY, Nov. 18.—An appeal for all farmers to uphold policies adopted by the annual convention of the National Farmers' union here were issued at the closing session tonight by Charles B. Barrett, president of the organization.

He said that the farmers were asked to support the movement for withholding farm products from the market until prices were again at a profit paying level.

"Unless this movement is broadly supported," Mr. Barrett said, "it will have no effect. It is in the interest of farmers everywhere and should receive their active support."

ELECT KENTUCKIAN JUDGE WHILE CONFIRMED TO JAIL

WHITESBURG, Ky., Nov. 18.—Fess Whitaker, judge, who is in his own jail and finally county judge, "has got more doggone friends in Letcher-co than any fellow in these here parts."

And all these friends from the backside of 'Klatcher-co' just naturally went to the polls and voted Fess into the judgeship.

"He's a landlubber," said Fess from his cell window.

And Fess' wife, Jim Whitaker, all put Fess in a mighty unusual situation. Some time back he drew a three-month sentence for getting all "moonshined up" and taking part in a political argument. His deputy, Mack Young, put him behind the bars.

But Fess' wife took out his keys and let himself out into the sunshine. He left a note behind: "Needn't look for me. Am gone to the tail timbers."

Later on he returned to Whitesburg and was arrested. He carried his case to the court of appeals and was released on bond.

whole town and countryside thought him a nutty.

"Wall," says Fess, "guess I'll run for county judge."

He filed too late to get his name on a regular ticket—so just ran as Fess Whitaker. While his opponent, Jim Whitaker, was in the Virginia, he to the creek and back. Fess sat in his cell and worked on "Valleys in the Mountains," a book he plans to have published soon. And once in a while he made a speech through his cell window.

"If you can't do a county judge, what will you do to do county?" was the general thought going the rounds.

Fess wrote a letter to the town paper in which he said:

"I'm Second Fieger, Letcher-co jail. Paul and Silas were once in here. I trust this won't happen here 'cause my four colored cell-mates might get hurt."

But the only thing that fell in on Fess was the avalanche of votes.

Laughing Mr. Fess

And now Judge Whitaker, alias Prisoner Whitaker, is laughing up his sleeve.

"Wouldn't it be funny if I could pardon myself?" says he. "But I'll serve my time—less see, about two months up to Mr. Fess."

Whitaker served as a rough rider in the Spanish-American war and was wounded in the capture of San Juan Hill.

"Teddy Roosevelt once told me," he solemnly boasts, "Fess, you are destined to be a great man."

Some day you will adorn the congressional hall of fame and be a credit to your country."

ORDER NEW YORK RAILROAD RATES INCREASED

WASHINGTON, Nov. 18.—In its first decision on the right of the federal government under the transportation act to require railroad rates within a state to correspond to the higher levels of interstate tariffs, the interstate commerce commission today ordered the railroads of New York to establish passenger and baggage rates on intrastate traffic conforming to advanced interstate schedules.

Similar proceedings are pending affecting more than half the railroads in the United States.

By its order of last August, the commission authorized in the New York action an increase of 40 per cent in freight rates, 20 per cent in passenger rates, excess baggage charges and rates on milk and cream, and a surcharge of 50 per cent on railroads' accommodations. The New York public service commission granted the freight advance except on milk and cream, the other increases within the state and the carriers' appeal to the interstate commerce commission.

LEAVE CONFERENCE SAN FRANCISCO, Nov. 18

The Blue Funnel line under the British flag, and Mitsui and Company, Japanese line, have withdrawn from the Pacific coast conference. Denny Chester, low state judge and member of the conference, said tonight. Mann expressed the belief that a desire to fix freight rates lower than those stipulated by the conference was the cause for withdrawal.

The conference has not considered lower rates. Mann said.

TWO KILLED IN FIGHT WILLIAMSON, W. Va., Nov. 18

In a statement the commission gave tonight they said they had decided that a point had been reached in the operation of a new boxing law where they felt justified in permitting heavy weight boxing contests.

Regrowing Legs

A standard seized by one of its arms, surrounded this to the capitol and captured with the other four, regrowing the missing part at its infinite leisure. A starfish may jerk off each of its five arms seized in succession; it may cast off an injured or paralyzed arm; in rare cases there is multiplication by division. Sea cucumbers discharge their viscera in the spasms of capture and may thus escape from an astonished foe. The replacement of the food canal is sometimes accomplished in two days though it may take as long as weeks.

World's Largest Town

A little village in New Zealand called Russell was described as the "sleeping place in the world." Herbert Garrison, a lecturer, said residents of the town took life so easily that, although the fall were jumping out of the water, asking to be caught, they would not be taken into the town from British Columbia. Rather than be put to the trouble of milking their own cows, they imported condensed milk from Switzerland.

Here's a Thanksgiving Sale With Record-Breaking Reductions

Throughout the store we have met the new conditions, regardless of loss to us. Grain

CHICAGO, Nov. 18.—In a field day for the bears in all the grain pits today and wheat reached new bottom figures for the period which has followed the end of government control and the resumption of future delivery trading. Liquidating sales of corn and oats acted as the chief immediate depressing factor. Wheat finished nervous 3 to 4 cents' not lower, with December \$1.80 1-2 to \$1.80 3-4 and March \$1.65 1-2 to \$1.69 3-4.

Corn lost 1-2 to 2-3-8 and oats half at 5-8 to 1-4. In predictions the outcome varied from 30 cents decline to 20 cents advance.

Wheat showed considerable rallying power until corn and oats began in earnest to give way to general selling that later forced both feedstuffs to the lowest prices yet this season. Increased offerings from the big new 1920 yield of corn appeared to give the bears an advantage and to discourage numerous holders. Unlike these circumstances with the new cuts in the price of sugar and other commodities, a rally due to word of export business in wheat yesterday proved to be only transient.

On the decline March delivery of wheat touched \$1.87. But 1-2 cent under any previous figure yet for that month. Then a little better support developed and the wheat market recovered somewhat.

In the corn market the weight of general commodity house selling was added to by pressure from a leading trader who has been conspicuous of late on the bear side.

On followed closely the action of corn.

Provisions for the most part sympathetic with the weakness of grain and hogs.

SPECIAL TAXES ARE EXPLAINED

City Clerk Explains Special Paying Assessment Now Being Made to Property Owners.

In order to clarify the special paying assessments that are now being mailed out to the property owners of the city, W. A. Minnick, city clerk, gives the following explanation:

"Taking as an example an ordinary 50 foot residence lot, the assessment would be \$29.50, if paved cash. Under the plan which is being employed, however, the payments are to be distributed in equal parts over a period of ten years, making the final payment this year amount to \$1.65.

"This amount is calculated by taking the one-tenth of the principal which must be paid this year, or \$2.95, and adding to it the interest on the deferred payments at 7 per cent, which amounts to \$20.75 the first year. Also included in the total of \$51.16, is the one and one-half per cent charged the city by the county to cover the cost of collection and which is in turn passed on to the taxpayer by the city.

"The total next year will be \$29.65, less, the one-tenth having been paid this year being deducted from the grand total of \$296.50, the 7 per cent interest being paid on the balance."

HIGH SCHOOL STUDENTS TO SELL FOOTBALL TICKETS

"Hanging to their policy that students of the high school should not approach the business men of the city upon any solicitations whatever, ticket booths will be opened at the various drug stores either on Saturday or Monday, where pasteborders to the Twin Falls High School may be secured.

The committee appointed to secure the attendance of the membership of the chamber of commerce will also have tickets at their command for disposal.

No definite hour for the game has yet been set, but it will commence either at 2:30 or 3 o'clock p. m. As admissions will no doubt be greatly in demand, and because of the large crowd that is expected to arrive, just before game time, it has been suggested that enthusiasts avail themselves of the opportunity offered to secure the tickets in advance.

TAKE ACTION FOR LIFTING HAY BAN

Agricultural Bureau of Chamber of Commerce Criticizes State Department.

Severe criticism of the state department of agriculture was voiced at the meeting held last night at the agricultural bureau of the local chamber of commerce to consider ways and means for lifting the statewide hay ban which has been in effect since six other commonwealths.

It was stated that from the inception of the department no provision has been made to link it with the state university, and that due to the fact it has not worked nearly as well as might be expected. It was the general belief that the quarantine enforced for over a year by the department of this state against those counties which were infected had been lifted because of ignorance on the part of the officials.

That the erection of the quarantine against Idaho by the states of California, Montana, Nevada, Washington, Oregon and Arizona, was due to the lifting of this local ban, was conclusively proved by letters from the agricultural department of those states which were produced by H. E. Powers, county agent. The letter received from the California authorities, which is typical of all the rest, is as follows: "I respectfully call your attention to the provisions of the order issued by the state of Idaho on July 22, 1919, which order repeals all existing quarantines maintained by the state of Idaho against the alfalfa weevil. This official withdrawal of all local bans of protection from the alfalfa weevil in the state of Idaho compelled the state of California, as a matter of fact, to issue and enforce the present quarantine."

Newell A. Wight, secretary of the chamber of commerce, was instructed to take the matter up at the coming convention of the Commercial Secretaries' association at Caldwell, Idaho, in an effort to gain some concerted action by these bodies to have the state again class a quarantine on the infected areas, thus freeing those that are clean.

The plan proposed by Mr. Wicks of the state department of agriculture, to furnish every car of hay that is shipped, was scouted as being utterly impossible. Mr. Wicks called attention to the great success of

the vacuum fumigation plant at El Paso, but it was brought out that this plant was used only for fumigating city box cars.

The board took this opportunity to pass resolutions congratulating the Boys' and Girls' club members whose stock was exhibited at the recent show at Lewiston and Spokane, on their splendid achievements and on the record they had established. Resolutions were also carried thanking A. L. O'Reilly, who is in charge of this work, for his fine co-operation and the great results he has accomplished.

DETWILER NAMED AS DEFENDANT IN SUIT

D. F. Detwiler was named as the defendant in suit filed in the district court yesterday by John Z. George, the complaint containing three causes of action.

The complaint alleges that on April 27, 1920, plaintiff sold to defendant several horses, mules, harness and other equipment, the agreed purchase price being \$727.40, no part of which has ever been paid. The second cause of action contained in the instrument states that defendant hired plaintiff as the foreman of certain sheep at a specified salary of \$150 per month, and that although plaintiff worked for defendant from September 8, 1919, to April 27, 1920, he has never received any compensation whatsoever for his services. That while employed as foreman, plaintiff advanced to certain sheepherders the sum of \$274.85, due them as wages by the defendant, is alleged as the third cause of action.

"Sweet's memories!"

There's many a thing learned in college that the Sages failed to write into their text books. For instance, you'd be surprised to know how many prominent western graduates have "majored in Sweet's"—most successfully.

Any girl will tell you that it's much easier to study "Calc" or "English Lit" with a box of Sweet's inimitable cream-filled Chocolates at your elbow. And for those little chafing-dish parties and "experience meetings" which mean so much in college life, there's nothing so acceptable as a box of Sweet's super-chocolates—rich, creamy, and delicious—just what you need when you are feeling a little blue.
