

FAVOR AMERICAN AID FOR ARMENIA

U.S. DECLARED BEST FITTED AS MEDIATOR

America Should Accept Mandate Declares Lord Cecil

WOULD HAVE GREATEST INFLUENCE WITH TURK

Stricken Country Could be Saved With Twenty Million Dollars is Claim

GENEVA, Nov. 26.—That the United States should be the best nation to accept the mandate for Armenia is the opinion of Lord Robert Cecil, who is acting as one of South Africa's delegates to the league of nations assembly, as expressed to the American newspaper correspondents today. The United States, he added, probably would have more influence with Mustafa Kemal Pasha, the Turkish nationalist leader who is conducting a campaign against the Armenians than any other nation.

Would Cost \$20,000,000
Lord Robert said \$20,000,000 would supply the necessary military assistance to put Armenia on her feet. "I have been advised by very good opinion," he declared, "that a good deal could be done to save Armenia with the expenditure of that amount. We have appealed to many states and organizations but so far we have had nothing but suggestions."

"I think the United States would be the best country to solve the Armenian question inasmuch as that country would have most influence with Mustafa Kemal. Twenty million dollars would enable us to organize a military expedition to establish Armenian independence. The money could be regarded as a loan to the Armenian state which would be repaid if the Armenian economic position were established."

Could Get Volunteer Force
While refusing to say the number of troops necessary Lord Robert stated it would be quite easy to obtain a volunteer force composed of Armenians and the nationals of neighboring states.

"The Armenian question," he explained, "rests largely upon whether there is any government or people in the world caring enough about Armenia to furnish the necessary money for the work."

"The South African delegate avoided the question of a possible revision of the Turkish treaty as a means for saving Armenia, but the subject was being taken up by the assembly."

Work of Assembly Successful
After declaring that the work of the assembly had been extraordinarily successful Lord Robert continued:

"We are glad to see that the assembly would become a corporate body with real life in it. The assembly, above all, has a genuine belief in its own

Edison, Ford and Famous Fals Play They Are Boys Again

NAPANOECHI, N. Y.—Five men to dual reunion at Yama Farms here, play match. Burroughs, who is 33 when America is greatly indebted Above from left to right, are the five years old, is said to have won the contest. They lived again the days of their youth, played boyhood games, talked over the days that were, and then useful to men gathered in an and Ford, right, engage in a "chop-

STEEL VESSEL ASHORE OFF COAST OF OREGON

By the Associated Press.
SEATTLE, Wash., Nov. 26.—Radio messages picked up here by the navy radio station at Umatilla reef indicated that the steel barge W. J. Perrie, which was cut adrift from the Washington coast near Quillayute, 96 miles south of Capt. Flattery, has gone ashore.

The coast guard ship Snohomish, which put out from Port Angeles to go to the assistance of the stricken vessel, is expected to reach the scene about 4 o'clock tomorrow morning. The Santa Rita is reported safe and standing by. The exact point where the barge is said to have gone ashore is not known here.

WILL STUDY POLICY

LONDON, Nov. 26.—The labor delegation appointed by the parliamentary labor party to go to Ireland to investigate the British government's policy and methods there, will start for Ireland next Tuesday.

WEEK OF OUTRAGES DECLARED GREATEST IN IRISH HISTORY

DUBLIN, Nov. 26.—A statement issued at Dublin today says that the week ending November 20, which was comparatively calm, the number of six outrages making the lowest on record during the past six months, was expressed by the content of a week "of tragic events, without parallel in the history of Ireland since the rebellion of 1916."

"In the space of 48 hours," says the statement "thirty-eight persons met with violent death and 79 were wounded or injured. The statistics of minor outrages were exceptionally light. One vacated police barracks was destroyed. Forty trials by court-martial resulted in 29 convictions and 11 acquittals. There were sentences to imprisonment at hard labor varying from two years to 84 days imprisonment in 25 cases."

WOULD BAR ALIENS FROM UNITED STATES

WASHINGTON, Nov. 26.—If Congress at the coming session is unable to enact laws to restrict immigration, it probably will be urged by the public immigration committee to bar all aliens from the United States temporarily. Representative Johnson of Washington, chairman of the committee, said today. Expiration on March 4th of the passport law, he added, makes it imperative that action be taken to prevent the entry of undesirable immigrants after that time.

AMERICAN REPORTED MISSING IN GERMANY

BERLIN, Nov. 26.—An American named Chase, who was en route to Berlin with his family, has disappeared from the Dortmund railroad station, the newspapers report. Two American acquaintances also are missing. Chase, a goldsmith, is known to have had a million marks in his possession. The police are searching on the assumption he was murdered.

HARDING STUDIES DEFENSE PROBLEM OF PANAMA CANAL

ANACON, Canal Zone, Nov. 26.—Problems connected with the defense of the Panama canal were studied by Senator Harding today during a detailed inspection of the precincts at the Pacific terminus of the waterway and in conferences with army and navy officers in charge of the zone finances.

He spent several hours making a round of the defenses in company with Brigadier General Charles E. V. Kony and Rear Admiral Marbury Johnston of whom he asked many questions on the capabilities and needs of the establishment.

OKLAHOMA OIL MAN DIES FROM GUNSHOT WOUND

Jack L. Hamon, Republican National Committee Man Dies from Accidental Discharge of Gun.

ARDMORE, Okla., Nov. 26.—Jack L. Hamon, republican national committee man from Oklahoma and reputed to have become a millionaire in the oil business, died in a hospital this morning.

His death, according to statements by Frank L. Ketch, his business manager, resulted from the "accidental" discharge of a revolver which Mr. Hamon was cleaning last Sunday night.

Russell Brown, county attorney of Carter county, filed information against Mrs. Clara Smith of Ringling, Oklahoma, Monday night charging her with assault with intent to kill in connection with the wounding of Hamon. Another information filed by the county attorney charged Mrs. Smith and Hamon with a statutory offense.

The body of Mr. Hamon will lie in state in Convention hall here Monday night from 8 a.m. to 8 p.m.

According to attending physicians, Mr. Hamon died without any knowledge of the information filed against him by the county attorney. He was said to have told Governor Hobbs of Texas and Governor Frank O. Lowden of Illinois will attend the funeral. The Texas executive having made plans to cancel his proposed trip to Mexico to attend the inaugural ceremonies for President-elect Obregon of Mexico, in order that he might attend the service.

MEXICAN CONSUL IS RELIEVED FROM DUTY

DOUGLAS, Ariz., Nov. 26.—F. Alfonso Peculieri, brother of Roberto V. Peculieri, confidential agent of the Mexican government at Washington, has been suspended as Mexican Consul at Douglas because he refused to accept an order from Mexico City to view the papers of U. S. Senator A. B. Fall of New Mexico.

CLAIM GRAFT CHARGES NOT THOROUGHLY PROBED

NEW YORK, Nov. 26.—John T. Moehan, deputy chief of the shipping board's bureau of investigation testified before the Walsh committee today that charges of alleged division of money by R. W. Bolling, President, Wilcox Brothers Inc., Seattle, Wash., and Tucker K. Banta, obtained from the Downey shipbuilding corporation of New York for a "favorable contract" were not "thoroughly investigated" by the board. Slater is a former secretary of the board and Banta a former Washington bank official. He explained the department's failure to go deeper into the charges as due to his opinion that Mr. Bolling was the victim of attempted blackmail. Moehan testified, however, he had received instructions to hold the investigation and that it was still open. Moehan had testified previously but he was recalled by the committee after Banta had repeated his allegations that Bolling and Slater were involved.

MINGO COUNTY MINE TROUBLE GETS SERIOUS

Soldiers Leave Camps to Take Charge of Situation in South

GOVERNOR WILL ASK FOR MARTIAL LAW

West Virginia Authorities Are Unable to Cope With Situation is Frank Declaration

CHILLICOTHE, O., Nov. 26.—A provisional battalion of 400 picked men from the Third and Nineteenth infantry regiments were prepared to leave Camp Sherman tonight for Williamson, Va., where the troops will be used for strike duty in the Mingo county coalmine district. The detachment is equipped for an indefinite period of service. Major R. S. Binford of the 19th Infantry and Captain E. L. Brice of the 40th Infantry are already enroute to Williamson to investigate the seriousness of the situation. The provisional battalion will be under command of Major Binford. A battalion of Camp Sherman troops which had been on duty in Mingo county returned about six weeks ago.

GOVERNOR ASKS AID
CHARLESTON, W. Va., Nov. 26.—Governor J. J. Cornwell announced here tonight that he had asked the government to send federal troops into Mingo county, W. Va., to strike some and add that as soon as the soldiers took charge would ask President Wilson to declare martial law.

Federal troops controlled the Mingo region for some time but were withdrawn about six weeks ago when the situation quieted down. Since that time many disorders have occurred, a number of persons have been shot and killed and gangs of unidentified men have attacked coal properties.

Can't Cope With Situation
"The state government is totally unable to cope with the situation in Mingo county," the governor said. "I hope with all my heart," he added, "that martial law will be declared immediately after an investigation has been made, but I am totally unable to

ARREST OF SINN FEINERS PRELUDE TO BIG ROUNDUP

By the Associated Press.
DUBLIN, Nov. 26.—Authoritative information was given The Associated press this evening that the arrests today of Arthur Griffith, founder of the Sinn Fein, and John MacNeill and E. J. Duggan, Sinn Fein members of the parliament and others, was the prelude to a contemplated roundup of a number of well known men either actually or believed to be connected with the Irish republican movement. "Some form of information is planned and it is intended to hold the lot of them indefinitely," the correspondent was told. The officials who made the state-

ment said he believed no charge had yet been formulated against Mr. Griffith or Professor MacNeill, but that their arrest had been decided on for the reason that "documents recently discovered show a link between the Dail Eireann, and the republican army, that the Dail Eireann has been collecting funds for republican known to be engaged in the murder campaign and that it seems inconceivable that the Dail Eireann was not aware that they were voting money for the purpose of murder campaign."

It was added that "We possess ample power to judge all the Dail Eireann members."

INSTALL FINGER-PRINT SYSTEM AT SHERIFF'S OFFICE

Means for Identification of Criminals to Be in Operation by Local Police Forces.

With the installation of the finger print system in the office of the sheriff of this county today, a great improvement in the method of identifying and running to earth criminals. The system, which was ordered last May, arrived yesterday morning and will be put into operation immediately.

Ben Brown in charge. Mr. Brown has been a great deal of previous experience in this work and is considered an expert.

If present plans are carried out, all records will also be submitted to the state constabulary for verification and checking up and will then be returned here. Approximately one-half of the counties in this state now have this system in operation.

The application of the system to the identification of criminals and others, although the idea is not by any means a new one, is of comparatively recent date. Attention was given to the subject by a college professor named Purkinje as far back as 1823, and it was also taken up by Bowditch, the inventor of wood printing in England, and Sir William Herschel of the Indian civil service of the British government.

Sir Francis Galton also did much toward developing the system to its present efficiency, but it was Sir Henry E. Wood, who put it in its final state of perfection.

It is recognized that the introduction of finger impressions in proof of disproof of identity when the person has given his mark on a previous occasion is the most efficient method of preventing perjury and peroration, while it is also most effectively used as a preventive of fraud in the case of civil and military pensioners and

as a means of identification, in both the military and naval establishments.

It has been indisputably proved that the details of the ridges constituting the patterns of finger impressions persist throughout the whole period representing the life of man, those found on the fingers of the same person in old age and are apparently effaceable only when after death, decomposition sets in. Authorities have stated that while there is some evidence to indicate the transmutability of patterns by disease, no sensible amount of correlation exists between the patterns of impressions and the bodily faculties or characteristics, or that these finger markings are distinctive of race or temperament. It is declared that precisely the same pattern does not occur amongst the millions of the population of the earth.

Since its perfection by Sir Henry E. Wood, the system has been adopted throughout Australia, in Ceylon, South Africa, Ireland, Canada, England, Wales, and in many of the states of the United States, having first been put into operation by the civil and military establishments maintained by Great Britain in the Indian Empire.

From one point of view, the finger print system is the essence of simplicity, as any person of average intelligence can apply it with entire success and become proficient in making comparisons, although much study is needed to master it.

CITY ARRANGES FOR NEW FIRE APPARATUS

Motorized fire apparatus was delivered to the local fire department within the next 30 days under the terms of a contract with the American LaFrance Fire Engine company of Elmira, New York, signed yesterday by Mayor W. H. Eldridge and S. P. White, manager of the Portland office of the concern.

The terms of the purchase include the delivery to the successful bidder of the old horse drawn equipment, as well as a cash payment of \$25,000, while it is also most effectively used as a preventive of fraud in the case of civil and military pensioners and

TWO AUTOMOBILES ARE STOLEN THANKSGIVING

Everyone in Twin Falls cannot boast of a happy Thanksgiving day, two local automobile owners having had their machines made away with on that occasion.

A Ford touring car, the property of C. E. Carlson, former county commissioner, bearing Idaho license number 14,887, was stolen from in front of the Golden Rule store between 7:30 and 9 o'clock p. m.

A. C. Wood also yesterday reported the theft of his Chevrolet, taken about 9 p. m. Thursday night. The car, which he had left sitting in front of the Market street, bore license tag number 12,848.

The usual steps to recover the pilfered property have been taken and it is thought by members of the sheriff's force that the cars will be found abandoned on some road near the city.

CAR SKIDS AND WHEEL IS SMASHED

Dr. D. W. Dwight slightly damaged his Haynes touring car yesterday when, in attempting to turn the corner at the intersection of Second street and Tenth avenue north, the machine skidded and getting out of control, crashed into the curb. One of the rear wheels was smashed, but Dr. Dwight was not injured. He declared he was not driving at an excessive rate of speed but that the rain had made the street muddy, causing his rear wheels to slide in the curbing.

WILL RECOMMEND GRAVELING OF HIGHWAY

Resolutions are to be submitted to the office of the state engineer by the local highway district recommending the graveling of the highway from Hansen to the Cash county

line some time in the immediate future.

The matter has been taken up by D. E. Olson, state engineer, who arrived here Wednesday, with the local board of commissioners, who have agreed to submit these resolutions asking for state and federal aid in carrying out the proposal as soon as possible. The documents in the case, however, must be turned over to the federal government by Mr. Olson before any definite action can be assured. Mr. Olson is leaving for Boise today.

THOMAS NOT GUILTY

After a trial in the local police court yesterday, G. Thomas Kyrna was found not guilty of the charge of assault. This charge was preferred by John Calvert, who alleged that the defendant attempted to choke him and made threats of violence in abusive language during the course of an altercation which occurred on November 3.

MURPHY FINED AGAIN

Another \$25 fine was plastered on Tat Murphy yesterday by Police Judge W. A. Minnick for drunkenness. Murphy, who is an old offender, was found not guilty of the charge of assault. This charge was preferred by John Calvert, who alleged that the defendant attempted to choke him and made threats of violence in abusive language during the course of an altercation which occurred on November 3.

MISS JOHNSON RETURNS

Miss Beth Johnson has just returned to her home here after an extended trip to Portland and other points in Oregon, which consumed two months.

CLUB WILL MEET

The Pan-Hellenic club will meet with Mrs. Wayne Johnson Monday evening at 8 o'clock at her residence 718 Shoshone street north.

WITHDRAW FROM MOVEMENT

ATLANTIC CITY, N. J., Nov. 26.—The house of bishops of the Methodist Episcopal church in session here yesterday decided formally to withdraw from the inter-church World movement, but to meet the obligation of \$1,500,000 of the Methodist church pledged a year ago.

ARREST BOLSHEVNIK

CONSTANTINOPLE, Nov. 24.—The French authorities here have reported more than 100 Russian Bolsheviks, who had managed to obtain passage to Constantinople among the refugees of General Wrangel's south Russian army from the Crimea.

TEACHERS ASSOCIATION OPENS ANNUAL SESSION

Following the formation of a district organization at the teachers' institute held here and at Wallace, Moscow, Nampa, Pocatello and Idaho Falls, the Idaho State Teachers' Association opened its 1920 convention at Boise Wednesday night, with Britton Wolfe, superintendent of public instruction in Twin Falls county presiding in her capacity as acting president.

The program to be given for the other sessions include addresses by some of the most noted educators of the entire west. Dr. H. D. Sheldon, dean of the University of Oregon school of education, Superintendent H. B. Wilson of the Berkeley, California, schools and several school authorities of this state come among those listed for addresses.

FOURTEEN STATES HAVE NO NATIONAL GUARD

WASHINGTON, Nov. 26.—Fourteen states have no national guard troops. Tat Murphy yesterday by Police Judge W. A. Minnick for drunkenness. Murphy, who is an old offender, was found not guilty of the charge of assault. This charge was preferred by John Calvert, who alleged that the defendant attempted to choke him and made threats of violence in abusive language during the course of an altercation which occurred on November 3.

leo, North Dakota, South Dakota and West Virginia. The recognized guard units had a total strength of 55,100 officers and men at the end of the fiscal year, the report said, against an authorized strength of 106,300, great difficulty having been encountered in obtaining recruits during the year. General Carter noted general public antipathy toward military service as among influences against which the reorganization of the guard was proceeded.

"There is conclusive proof," General Carter said, "that national guards officers were not, as a class, discriminated against by regular army officers. Individual cases of injustice have been noted by members of congress and the national guard to make it appear that unjust discrimination existed generally. As a general rule national guard officers were treated with more consideration than were regular officers under the same conditions."

NO CONCLUSION REACHED. With the adjournment of the district court yesterday, the fourth day of the case of the Utah Construction company against the Twin Falls Salmon River Land and Water company, the Shoshone Canal Company, and water users on Shoshone creek, was adjourned until the next day, with a conclusion having been reached. The case will be continued again.

ASSEMBLY EAGER FOR AMERICA TO ENTER LEAGUE

Would Make Any Concession, It Is Claimed; to Get United States in Combine.

GENEVA, Switzerland.—The assembly of the delegates to the League of Nations assembly in that city today must be found to bring the United States into the League.

The willingness to accept the United States on any terms that the latter would dictate is almost as unanimous as the sentiment for admission. This is not merely the impression of the state of mind of the delegates, but is based upon a thorough investigation and many conversations during the week with the leading men of the assembly.

Motive Not Selfish.
I am satisfied that the great desire to have the United States join the league is not the attempt to establish justice for war as the basis of international policy is not a selfish one. If there is a feeling in America that the other nations want to get her into the League, hoping that by so doing they will be able, in some way, to control her great industrial financial and potential war power to their advantage, it is not justified by the facts.

Certainly the leading men of more than two score nations who compose the assembly have no illusions as to the material power of the United States as compared with any other nation or group of nations. But neither are they foolish enough to have the desire that, in or out of the League, the United States is going to jump its wealth to the international jackpot for world rehabilitation. If the idea of getting Uncle Sam into a world league, and then squeezing

Easy? Just Try It Once.

When Arthur Paul Jr., of Los Angeles heard that Harding was elected he took his typewriter on his lap, so to speak, and rattled forth this portrait of the president-to-be.

his dollars out of him ever had any of the nation, certainly further than great voice and the statement of any of the great powers, to get America into the League. But even France refused to consider the possibility of breaking up this league and trying to form another association at the demand of America.

Real Election Signs.
By the same token the idea so often expressed by the opponents of the League in the presidential campaign, of the European nations wanted us in so they could commandeer our man power to settle European quarrels may be considered to have no place in any further discussion as to whether or not America joins the league.

Every responsible statesman with whom I have talked, interprets the American election as the final decision by the people of America not to join any world league which puts any limitation on her own sovereignty or which limits her own control of her wealth and military power. This interpretation has been accepted, and so far as I can discover, it has been accepted without dissent.

New League Impossible.
But while the sentiment favorable to admitting America to the league on her own terms—providing they are at all reasonable—cannot be overestimated, it must be clearly understood in America that this league, and not some other league or association of nations is meant.

There is no sentiment whatever for breaking up this league and trying to organize another league or association at the behest of America.

Even if such a program were within the realm of practical statesmanship, which it is not, I doubt whether there are half a dozen nations represented at this assembly, who, under any circumstances, would subject themselves to such a humiliating concession of their own impotence and American world domination.

Even the small and most poverty-stricken nations have too much pride and dignity to put themselves in this position. As for the great powers, Great Britain, France, Italy and Japan, such a proposal would not be considered for a minute.

Won't Undo Work.
While all of them recognize and admit the predominant greatness and wealth of America, they neither recognize nor admit that they are called upon to undo the great work that has already been done by the League of Nations in order that America might have her association in which she would have undisputed leadership. Perhaps, of all the nations, the little France is the most desirous of having America in the league. She would go further than almost any of

DECLARES AUTO RACER'S DEATH WAS ACCIDENTAL

Chevrolet, O'Donnell and Jolla Death Caused by Accident Says Coroner's Verdict

LOS ANGELES, Nov. 25.—Certificates of accidental death were issued from the coroner's office here today in the cases of Gaston Chevrolet and Eddie O'Donnell, automobile race drivers, and Lyle Jolla, mechanic, killed in yesterday's 250 miles championship race on the Los Angeles speedway.

It was stated no inquests were considered necessary and no official investigation of the accident would be conducted by the coroner's office. Officials of the Los Angeles speedway association expressed deep regret at the accident, but stated the deaths would not halt future racing events.

The deaths of Chevrolet and Jolla, who O'Donnell's mechanic, came almost after the crash between Chevrolet and O'Donnell's cars. O'Donnell's car fell in a hospital early today,

about 16 hours after the accident. He did not regain consciousness. The body of Chevrolet will be taken to Indianapolis for burial.

A. S. Dusenberry, head of O'Donnell's racing team, announced tonight that plans for O'Donnell's funeral depended upon wishes of his parents, who reside in Whitewater, Wis. He said the widow was willing to have the burial here, but telegraphed O'Donnell's parents to learn their wishes.

Dusenberry said he would take Jolla's body to Detroit, the home of the mechanic's parents, for burial and would leave here probably Sunday, if arrangements for the O'Donnell funeral had been prepared.

Jolla, who won the race, missed breaking the world record for 250 miles by a fraction more than two seconds, it developed today. His time for the distance was two hours, 25 minutes and 20 seconds or 2.01 seconds more than the world record, made on the same track last February by Murphy. Jolla's average was 103.2 miles an hour.

Murphy's record was made with a 300 inch engine, while that of Jolla was made with an engine of only 83 cubic inches.

Jolla's prize announced yesterday as a total of \$20,000 was raised today to \$15,000. Of that sum \$10,000 was the first prize for the winner, while the additional \$5,000

was for lending every even numbered lap, for each of which an individual prize of \$50 was offered.

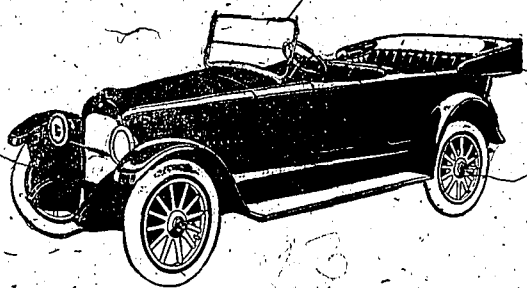

CONSIDER GREAT FALLS FOR LIVESTOCK CIRCUIT

GREAT FALLS, MONT., Nov. 26.—Plans to place Great Falls into the northwest circuit of fall livestock shows are being considered by the directors of the Montana Livestock Pavilion company of Great Falls.

The northwest for several years has consisted of the Northwest Livestock show at Lewiston, Idaho; the Western Royal show at Spokane, Wash., and the Pacific International Stock show at Portland, Ore. This year's show will be the last at Lewiston, which has withdrawn from the circuit.

The Montana Livestock Pavilion company has a leased pavilion at Great Falls, capable of seating 5,000 persons, according to C. C. Davis, secretary of the company. "At the Spokane show it was urged by the breeders of Washington and Oregon that to bring Great Falls into the circuit would mean business from eastern Montana and the Dakotas who would continue with the circuit to the Pacific coast and increase the territory from which the shows now draw," said Mr. Davis recently.

SELF-DETERMINATION FOR GREECE.

There is a natural temptation for the allies to interfere with the return of Constantine to the Greek throne. France and England cannot forget the meddlesome and harmful part he played in the early part of the World War, and they fear to have a pro-German king in Athens again, muddling the war settlement of the eastern Mediterranean countries. They cannot forget, either, that it was they who raised up modern Greece as an independent nation, and placed Constantine's grandfather on the throne, under a guarantee of constitutional conduct. It is a bitter pill, and perhaps a menace, to have the kaiser's brother-in-law return to power.

Nevertheless, if it is the will of the Greek people that their exiled king should return, how can the allies consistently interfere? If the principle of self-determination is sound, it is universal. Greece has, according to this principle, as much right to swing back to her ante-bellum regime as had the United States. When France and Britain intervened and drove Constantine from Greece, they gave as their legal justification the vote of the Greek nation in favor of Venizelos and against Constantine. Now, when that vote is reversed, the will of the people should still prevail.

The only legitimate question is as to whether the people have really expressed their will in this case. Constantine himself implies the doubtful nature of the verdict in the recent election, when he asks for a plebiscite on the specific question whether he shall return to the throne. If he wins in such a referendum, fairly conducted, no outside nation has a right to interfere. Fundamental principles of freedom are more important than temporary advantage.

Let the Greeks then take back their pro-German king if they will, and forego all the friendly co-operation of the allies and the great advantages Venizelos won for them at Versailles. The rest of the freedom-loving world is bitterly disappointed, but the world can stand it if they can, until bitter experience brings them again to their senses.

SMALL NATIONS RECOGNIZED

A report from the League of Nations assembly at Geneva runs as follows:

"The assembly got down to work today at routine business in the various committees. It is felt that their size—forty-one members in each—is an obstacle to rapid work, but there is no other way of satisfying the demand of the small nations for equal representation with the great powers.

"It is hoped to sub-divide the big committees into smaller ones because otherwise, with all forty-one members wishing to voice opinions, the delay is likely to be interminable. What makes it worse is that all decisions must be unanimous."

Undoubtedly it is desirable that even peace proceedings be carried on as promptly as possible, but if the League of Nations is any good at all, it is good just for the reason that it assures to the small nation equal representation with the great powers.

A committee of forty-one may of necessity move more slowly than one of four members, and the rule of complete unanimity may have to be modified. But in the light of history, which reveals how small nations have customarily been disposed of not to their own interest, but to that of a few great powers, it seems inevitable that large committees will better promote justice than small ones. Also, because they move slowly, their findings may be more dependable.

Whatever may be the final history of the League, this one assembly will be noteworthy

and commendable because, for the first time in the history of the world, the small nations did get a chance at an equal hearing.

HOUSES FOR RENT.

The "For Rent" columns grow in length in the daily papers of almost every eastern city. The people who flocked to the cities in answer to the lure of high wages are jobless, and going back to the country. So great has been the exodus from the city to the rural districts that the railroad offices sold out all their tickets twice in the month of October, a thing rare in railroad history.

City rents are already coming down as the result of the decreased demand for houses, which means that life is coming back to normal faster than most people expected. In the country town and on the farm they are coming back to normal, too, since the cityward tide has set the other way.

Discouraging though the present business status may seem in many instances, this residence readjustment is a comforting assurance that better times are ahead for everybody. The men who are left in town are realizing the value of jobs grown suddenly scarce, and are increasing production. The men forced back to the country are seeing country life, with new eyes as a steadily profitable source of income. Even if it lacks the temporary flares of profit of boom times in town. More men, better interested, mean more production on the farm. With more production on the way both in city and country, and the ratio of residents better balanced, it is but a short step to good, sound, old-fashioned prosperity.

THE REAL SPORTING EVENT

Considerable publicity has been given a man named Antonio Pizzo who has just completed a tour of 18,000, handcuffed and riding a bicycle. He took a little over seven months for the trip, and collected a bet of \$500 upon his return to New York for doing it in less than ten.

In the same issue of a daily paper which reports this freak adventure, whereby an able-bodied man apparently earned a little better than \$70 a month through the display of a little endurance and nerve, is the picture of a disabled soldier, equipped with artificial arms. His face is seamed with suffering, but he stands beside his lathe smiling, because, after long months of painful convalescence and training, life once more holds for him the opportunity to do a man's work in the world. And in the ambitious life of his chin is no sign that he will stop long at any \$70-a-month earning power.

There is nothing wrong in the first man's venture. It will be called a sporting event in the idle circle which he represents, and will afford a topic of conversation for them, if nothing more can be said of it. But, somehow, compared with the courage and determination of that great army of men injured on the battlefields or in industry, but struggling back to self-support in spite of their disability, it doesn't seem so very sporting after all.

"The Wild-Western bandit has died out," declared a Denver newspaper. And then right across the state line, was pulled off the biggest train robbery in history. But it may have been eastern talent that did it.

Archduke Ferdinand of Austria is foolish to offer his services as a butler for \$5 a day. Many an American millionaire would pay him \$50, and think a real duke cheap at the price.

Why lambaste those Osage Indians for squandering their oil money for automobiles and victrolas? Don't enlightened white men do the same thing?

No question that movie actors and actresses take rank with their "legitimate" brethren. Look at the way they're divorcing each other.

If the League of Nations succeeds in surmounting all other obstacles, somebody is sure to spring the Irish question on it.

Burning British flags in New York may be a soul satisfying pastime, but it is not the way to free Ireland.

Still scrapping about scrapping the League!

OUTBURSTS OF EVERETT RUE SEND TROOPS TO QUELL COAL STRIKE

FAVOR AMERICAN AID FOR ARMENIA

Continued From Page One.

utility and regard itself and rightly so, as the supreme international authority so far as such authority can exist.

"I think the assembly will do something of great value. It will accept the international code of justice; it will pass on the admission of members and I hope it will take a large and generous view of that subject—and it will review the recent international situation and the work of the council. Not the least encouraging symptom is that the assembly is taking things very seriously."

Lord Robert expressed the hope that there would be one member of each delegation, but said this was not possible for the first sessions. He indicated that the assembly would make no change in the duration of mandates, saying: "Mandates must be, in effect, trusts and the mandates should not be changed unless the trust fails."

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys of Back Aches or Bladder Hurts.

If you must have your meat every day, eat it. But flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink—Advt.

STEEL COMPANIES MAKE OUT IN BARK PRICE

PITTSBURGH, Nov. 26.—Most of the independent steel companies already have followed the lead of the Jones and Laughlin Steel company of Pittsburgh, which reduced prices on bars, plates and structural shapes today to the level of the United States

Industrial board's prices of March 1919, or are about to do so, according to high steel authorities here. Several of the larger independent interests have advised their sales of flats in New York and Chicago, Philadelphia, Cleveland and other cities.

It was said to accept new business at the industrial board's price. The new prices adopted by the largest independent interests and made effective today are: Steel bars \$2.35; structural shapes \$2.45; plates \$2.65, base Pittsburgh. Adjustments in prices of wire and cold rolled steel are to follow.

No reduction in wages is contemplated immediately, according to the best information obtainable. It was freely predicted by steel officials, however, that a wage reduction is inevitable within the next few weeks. The new selling prices are on a comparable basis with previous prices on any fixed basis, as some of the independents have been asking as high as \$4 for bars, plates and shapes. It was reported, and others have been receiving more conservative prices, ranging between \$3 and \$4.25.

RECLAMATION LEAGUE TO ESTABLISH OFFICES

SPOKANE, Wash., Nov. 26.—Headquarters of the Northwest Reclamation League, from which an active campaign in behalf of enactment by congress of the Smith-Fletcher bill for federal aid for reclamation projects will be conducted are to be established in New York city within a few days, it was announced here today by James A. Johnston, Shelby Mont, president of the league.

Mr. Johnston stopped here enroute to Boise, Idaho, where a joint conference of representatives of the league and western states reclamation association is to be held tomorrow. He said the league expected support in its behalf of the Smith-Fletcher bill from the western states reclamation association, the Sierra Nevada valley irrigation association and the American Legion.

DIDN'T MIND ROBBERY

SO LOSSES CASH AGAIN

PORTLAND, Ore., Nov. 26.—George H. Albright keeper of the toll gate at the Oregon on the Interstate bridge near here, reported that he was visited this morning about 3 o'clock by a second time by a robber who held him up October 31. At the first visit the robber obtained \$30.

"When I was here before I told you not to report until I had been gone an hour, and you did not mind me," said the robber this morning. "Take off your hat and put your money in it."

When Albright gave the robber his cap with \$51 in it, the thief said he would find it under the Oregon on at the bridge, according to Albright's account.

REICHSMAT CHIEF AT NEW SUPREME COURT

BERLIN, Nov. 26.—The Reichsmat, which is the body representing the German Federal States, has passed a bill for the creation of a court which will be supreme in constitutional disputes, and will replace national ministers, the president of the republic and the chancellor.

It will, as a rule, be presided over by the president of the supreme court, which sits at Leipzig. The bill has still to go before the Reichstag.

venture an opinion upon what eventual military action will be."

"The governor issued the following statement tonight:

"On the week ago last Sunday night Judge Bailey, Sheriff Blankenship, President Bishop of the county court and Prosecuting Attorney Bronson of Minago county conferred with me at length as to the situation there.

"They were of the opinion that if they could secure 100 new deputy sheriffs and that with those and the state police the situation might be controlled. The trouble had become more acute daily.

"On the morning it seemed to have been impossible to secure the deputies. Wednesday night I had a wire from Judge Bailey, Mr. Bishop and Attorney Bronson, giving the reason for the failure of the plan mentioned and making an urgent request for the return of federal troops. As much as I regret to again call on the federal troops, there is no other way in which to handle the situation.

"Judge Bailey, Prosecuting Attorney Bronson and Mr. Bishop in their wire expressed the opinion that the troops be able to deal with the situation without putting the county under military control.

"I have not concurred in that view however, for the time for temporizing is past. Everybody has had fair warning. The local authorities have had every opportunity they could deal with the situation. Men were assaulted, before, in the presence of soldiers who were powerless to prevent it. I refuse to make sign posts of their again. I have done my best to deal with the situation. Our state police force is not sufficiently large to handle it. Inasmuch as I have been obliged to call in the federal troops again, I thought it proper to ask the president to issue permission to declare the martial law.

TROOPS ARE READY

CAMP SHERMAN, O., Nov. 26.

A provisional battalion of 400 picked men is under arms here to leave for Williamson, W. Va., early tomorrow. A renewal of trouble in the strike district has resulted in the release of the fifth strike corps, when for police duty, it was announced.

Captain E. I. Irvine, commanding the provisional guard left this afternoon for Mineral county, W. Va. He was supposed to have come to make preparations for a possible movement of troops into the strike region. The camp headquarters would not confirm his errand.

MAKES NO COMMENT

INDIANAPOLIS, Ind., Nov. 26.

Major General George W. Read, commander of the fifth strike corps, when asked here tonight if troops had been issued for the movement of troops into the Minago county, W. Va., coal mining district, said he would make no statement on the subject.

Governor Cornell would be informed of the movement of troops into West Virginia," he said, "and any announcement would have to come from him."

DENMAN WOULD BE PLEASED TO TESTIFY

WASHINGTON, Nov. 26.—William

Denman of San Francisco, first chairman of the shipping board, telegraphed to Charles F. Walsh of the house of representatives, investigating the shipping board's activities tonight after reading press reports that he had been expected to appear before the committee today, that he had received no notice to appear but would be "pleased to do so" whenever desired.

Mr. Denman's message said: "No notice to appear has reached me, but I shall be pleased to do so when you desire. I expect to leave for California about the seventh of December and trust you will hear me before that time."

"My testimony will cover fundamental policies of the board and will not be entirely devoid of constructive suggestions, if it is felt convenient, that is what you wanted."

COAL COSTS NINE CENTS PER POUND IN YUENNA

VIENNA, Nov. 26.—Coal was sold

here at the equivalent of one cent a pound, a price higher than that of the black-rattened bread, the other day when the temperature suddenly dropped below freezing. Cart loads of the brown lignite at a very low heat value were drawn to the curbs of the popular streets and the fuel was sold by the pound, the vendors being equipped with small scales.

U. OF C. INVITED TO REPRESENT WEST

PARADISE, Cal., Nov. 26.—An in-

stitution was telegraphed tonight to the University of California to represent the west in the east-west football game here Nov. 27. Assurance has been given that California will accept.

Ohio state university already has accepted an invitation to represent the east in the contest.

BENNY LEONARD SCORES TECHNICAL KNOCKOUT; RETAINS CHAMPIONSHIP

Lightweight Champ Successfully Defends Title in Battle
With Joe Welling in New York; Referee Saves As-
pirant From Taking Count of Ten in Fourteenth
Round

NEW YORK, Nov. 26.—Benny Leonard, world champion lightweight, successfully defended his title, and won the \$2,500 diamond belt, emblematic of the title of the championship, which was presented to him by Tex Rickard when he scored a technical knockout over Joe Welling in the fourteenth round, in what was to have been a fifteenth round bout at Madison square garden tonight.

Leonard seemed over-anxious to finish his task at the opening of the fourteenth and simply battered his opponent to the floor with left and right for count of nine. Welling showing remarkable gameness to the end of his fight. The referee, however, decided that Welling had received sufficient punishment and stopped in between them, although Welling and

his seconds protested he was able to continue.

The Fight by Rounds.

After some sparring, Welling landed right to the body, Leonard hooked a left to the head and after an exchange Leonard sent a right half arm uppercut to the chin. There was no damage done.

Round two—They exchanged rights and lefts to the body and Leonard hooked a right to the face. Both landed left and right to the head at close quarters.

Leonard kept jabbing lefts to the face and sent three hard rights to the body, blocking Welling's right lead to the head. Leonard kept forcing the pace to the left, doing nearly all the jabbing.

Round three—Leonard hooked a hard left to the ear and sent another to the nose. Welling was strictly on the defensive according to the referee for Leonard to the from his efforts. Welling was cautioned by the referee for hitting the body. At short range Welling put two rights to the body and Leonard hooked his right to the head. There was some light-fighting with no damage, the most exchanging light rights to the head.

Round four—At close quarters Welling sent three short rights to the body and then Leonard stopped back and in again with left and right to the head. Leonard jabbed left-facio and Welling clinched.

Round five—Welling jabbed left to face and Leonard sent left to body and a right hook to the head. Leonard hooked a left to the body and Welling landed a hard right to the head. Leonard sent half-down-lefts to the body and Welling hooked his right to the head. After some sparring Leonard landed a right swing to the head at the bell.

Round six—Leonard kept jabbing to the body and then sent his left hand to the body and head without a return. Leonard put more steam in his blows at this stage and sent a right and left to the head following with a right and left uppercut. Welling soaked his left to the face and received a vicious right to the chin in return.

This was the liveliest round so far.

Round seven—Leonard jabbed three to the body and they exchanged rights to the head. Then Leonard staggered Welling with a left hook to the ear and followed with a right to the body, forcing Welling into a neutral corner and driving two rights to the head before the round sounded.

Round eight—Leonard sent three rights to the body. After a clinch Leonard hooked a hard left to the head. Welling jabbed left to the face and was driven back with a stiff right to the head. Benny swung right to head and hooked right to jaw. Two hard rights to the head from Leonard made Welling wince.

Round nine—Leonard hooked his left to the head three times and drove a hard right to the stomach. The champion was outboxing and outfighting his man but his blows seemed to lack steam although making weight had weakened him. Leonard sent his right to the head twice while Welling did not land an even blow during the round.

Round ten—There was a lot of fiddling in this round which was rather tame until Leonard sent his left to the body and followed it with a hard right to the face. Leonard hooked two lefts to the face and they were sparring at the bell.

Round eleven—Leonard drove his right over the heart and Welling countered right on the head. Leonard

hooked left to the body and head. Leonard kept forcing but there was a good deal of clinching. Leonard tried a right swing for the head but it went wild just before the bell.

Round twelve—Both landed rights to the head and Benny kept boring in sending lefts to the body. Welling getting into a clinch frequently. Benny hooked a hard right to the ear, jabbed left again, three times and hooked his right again to the head. At close quarters, Leonard sent two rights to the body and followed it with a short half right uppercut. Welling going to his corner seemingly unconcerned.

Round thirteen—Leonard sent left and right to body, and right to the head, Welling still being on the defensive. Leonard hooked right to the jaw and right to the head, following through the ropes but was up again in a moment. Leonard rushed at him again, sending Welling down again for a count of two. Then he battered him all over the ring with lefts and rights sending Welling down once again for a count of four. Welling got up again very groggy and he staggered into his corner as the bell rang.

Round fourteen—Welling was in distress but came up to come up. Leonard hooked a left to the head and sent two rights to the jaw. Welling going down for a count of seven. Benny was over anxious and missed a swinging right uppercut. Leonard swung another right on Welling's jaw and the referee stepped between them stopping the bout to save Welling from further punishment despite the protest from Welling and his seconds. Time of fourteenth round one minute and seven seconds.

Valuable Shrub.

One may look for an increased cultivation of the so-called Guatemalan "Jocote maritima" (anacardium occidentale), which is quite common in that country. It has been found that incisions in the trunk "bark" it to exude a resinous secretion that dissolves like gum arabic, and that is highly useful for pasting purposes. Used in the binding of books, it possesses, he said its adhesive qualities, the added virtue of keeping away moths, because of its acrid odor. There is also obtained, from the same plant, a caustic oil, which turns black when it strikes the air. This has been found excellent in the treatment of furunculosis. The seeds of the fruit are toasted and eaten, as well as used for various dishes. An 18 per cent extract of oil is made, which is said by chemists to merit comparison with the best of sweet almonds. According to the newspaper, Excelsior of Guatemala the cultivation of the shrub provides a business of increasing profitability.

Soot as a Disinfectant.

It has been found that soot acts as a disinfectant and is more active moist than dry. Water seems to dissolve the disinfecting agents in the soot, making them more active. Certain bacteria, in fact, seldom, if ever, carries along unless it has lodged on the ground and is again blown into the air.

Now soot acts as a very effective blanket, protecting the bacteria and giving them a chance to grow. Disinfection of the nose and throat, not appreciably more prevalent in smoky cities, but they are more severe and harder to cure. This is probably due as much to the cracking of the mucous membrane by the change from the dry atmosphere in the house to the moist air outside and subsequent irritation by dust and smoke.

MANY BIRTHS RECORDED IN WALES AND ENGLAND

LONDON, Nov. 26.—The number of births recorded in England and Wales in 1919 was 692,438, including 41,233 illegitimate, a birthrate of 18.6 per 1,000 of the population, say the annual medical report of the ministry of health.

In 1902, a record year, there were 718,271 births, or more than 250,000 greater than last year.

ARMY AND NAVY TEAMS PREPARED FOR BIG GAME

Annual Contest Between Old Rivals Causes Much Interest Throughout East; Navy Favorite

NEW YORK, Nov. 26.—After short workouts at the Polo grounds today the Army and Navy football eleven are resting tonight in preparation for the annual game Saturday afternoon. The practice of both teams was comparatively light, consisting of signal drills, kicking and catching work to familiarize the players with the light and shadows of the baseball park.

Both the Navy and Army coaches and captains expressed satisfaction with the gridiron, their only adverse comment being that the turf appeared to be a little heavy as a result of recent rains. Coach Felwell of the Navy and Major Charles Daly, army coach, reported their respective players and first substitutes to be in excellent condition.

Though the navy team rules a slight favorite, being quoted to win at odds of 11 to 10, it is generally conceded that the two teams appear to be more evenly matched than in some years. The army possesses an all-round star in French, who from his backfield position has scored many touchdowns, goals and field goals than any other player on the West Point team. While the navy cannot offer a similar individual performer, the eleven is a well-balanced, fast, aggressive combination.

The hotel section of the city today began to show evidence of the arrival of out of town visitors and by nightfall Navy and Army uniforms were common in most of the leading hotels and restaurants. Among the early arrivals were Secretary of the Navy Daniels and his family and Secretary of War Baker and party. Special trains will bring the great majority of non-resident spectators to the city early tomorrow, including the entire Annapolis and West Point cademy squads.

RAILROAD COMPANY ATTEMPTS DELIVERY

HELENA, Mont., Nov. 26.—The Great Northern railway company, according to official advice to the Montana railroad commission, is making strenuous efforts to move coal in this state.

About fifteen coal "empires" daily are being delivered at Laurel in the attempt to move fuel out of the Bear Creek field.

SELL SHEEP TO BRAZIL.

PULLMAN, Wash., Nov. 26.—According to information received at

Washington State college, now from the county agricultural office of Columbia county, a sheep company of that county is buying time on a large tract of land for 100 Rambouillet rams. Transportation charges on the rams will amount to \$10,000, it is stated.

HUDSON BAY DOG DERBY CAUSES MUCH INTEREST

THE PASS, Man., Nov. 26.—With the advent of cold weather the Hudson Bay Dog Derby is again a topic for discussion in the north country and many suggestions for the betterment of the 1921 derby are being brought forward. The race, which will likely be held early in March, will be for a purse of \$2,500. It is suggested to increase it to this sum is approved at the annual meeting of the members of the derby to be held shortly.

This purse is not considered too high in view of the heavy expense incurred in maintaining and preparing a dog team for racing. The dogs are very expensive, last spring pups selling at \$200 for five, and full grown and trained animals from \$75 to \$100 each.

PREDICTS DROP IN BUTTER.

OMAHA, Neb., Nov. 26.—Prediction of what he referred to as a "butter drop" in milk and butter prices was made in an address at the chamber of commerce today before Omaha business men by George M. Wilber, of Maryville, Ohio, head of the executive committee of the Ohio Wool Growers' association.

Sheep, 3500; fat lambs and sheep strong; fed lambs \$10.55; ewes \$4.50; yearling wethers \$8; feeding lambs dull.

Produce

BUTTER AND EGGS.
CHICAGO, Nov. 26.—Butter lower; creamery 38¢ to 39¢; case; eggs higher; receipts 1,520 cases; extra 70¢ to 71¢; ordinary first, 69¢ to 70¢; at mark, cases included 69¢ to 70¢; standards 72¢ to 73¢; refrigerator firsts 69¢ to 70¢.

POLY, alive, unchanged.
FLOUR.
MINNEAPOLIS, Minn., Nov. 26.—Flour unchanged to 20 cents lower. In carload lots, family patents quoted at \$4.40 to \$4.50 a barrel in 98 pound cotton sacks.

FAIRM BUREAU BOARD TO URGH RATE CHANGE

There will be a meeting this afternoon of the executive committee of the local farm bureau to devise some means whereby a reduction of freight rates on crops originating in the Twin Falls country may be effected, and the Interstate Commerce commission will be requested to bring about this decrease by means of resolutions to be adopted at the meeting.

In view of the fact that the advance in freight rates recently granted the carriers is said to be working a hardship on the farmers due to the low prices of the commodities which they produce, united action is expected throughout the state to bring about the proposed reduction.

Grain

CHICAGO, Nov. 26.—Continued financial condition in North Dakota has much to do today with a violent drop in the price of wheat. For the first time in several years, the cash market commanded less than \$1.50 a bushel. There was a nervous close at 6 to 7 3/4 cents not declining with December \$1.52 1/2 to \$1.53 1/2, 1 1/4 March \$1.48 to \$1.49 3/4.

Corn finished at 14 cent low to 35 cent gain. Outcrop up 1-8 to 3-8 and provisions varying from 20 cents off to an advance of 1 1/2 cents.

Attention to the remarkable series of rural bank failures in North Dakota was so eager and general among wheat growers that a selling campaign could be easily forgiven. As soon as the market opened, rushes to the banks of the market began, and buyers were restrained through knowledge not only of the North Dakota banking situation but also on account of a fresh break in the cotton market and owing to weakness of foreign exchange. Realities took place later, influenced by estimates that 1,000,000 bushels had been bought to go to Europe from ports on the Gulf of Mexico. Announcement however that the Belgian government had withdrawn from the market led to a fresh setback as the day came to an end.

Corn and oats at first sympathized with wheat but later, and December corn touched the lowest point since the war. In the last part of the session, though, the scantiness of country offerings tended to make the market harder.

Provisions were steadied by an advance in hog values.

CASH GRAIN.

MINNEAPOLIS, Nov. 26.—Wheat, receipts 585 cars compared with 551 a year ago.

Cash: No. 1 Northern \$1.48 3/4 to \$1.49 3/8; December \$1.41 1/2 to \$1.42 1/8; March \$1.45 1/2 to \$1.46 1/8.

Corn—No. 3 yellow 68¢ to 69¢.

Oats—No. 3 white 41 3/4 to 41 1/2; No. 2 white 41 1/2 to 41 1/4; No. 1 white 41 1/2 to 41 1/4; No. 2 yellow 41 1/2 to 41 1/4; No. 1 yellow 41 1/2 to 41 1/4.

Barley—No. 2 63¢ to 64¢.

Timothy seed—\$6.50 to \$6.75.

Clover seed—\$15 to \$20.

Dark—Nominal.

INJURY IN JUMPING from a second story window.

MAY REARRANGE PACIFIC INTERNATIONAL LEAGUE

SPOKANE, Nov. 26.—A possible re-arrangement, if not a split, in the Pacific International Baseball league when the league meeting is held at Tacoma the first Tuesday in December is forecasted in statements made recently by Spokane officials of the league. Possibility of a new league comprising clubs representing cities west of the Cascades, including Spokane, is said to be strong, as, owing to the recently increased railroad fares, it is held that the distances between the P. I. club towns are too great to permit of professional baseball being conducted without a loss.

Club Brown, of the Vancouver club, is admittedly seeking a berth in the coast league, said George M. Parrie, president of the Spokane P. I. club. He has told us that the Vancouver club has \$75,000 available with which to finance the franchise to come to land this season. With Vancouver in the coast league it would leave Seattle, Everett, Bellingham, Anacortes, Victoria, B. C., Tacoma and other west side towns to form an organization.

On this side of the mountains, the league may be made up by Spokane, Yakima, Wenatchee, Walla Walla, Lewiston, Kellogg, Coeur d'Alene, Spirit Lake, Pullman and other prospective centers, which sought admission to the proposed league.

FOR RENT—10 ACRES 2-1/2 miles north of Ellensburg. 1-1/4 west of Marah school; five room bungalow; cistern; deep well; pasture fenced and cross; big grain pastured; 15 acres old alfalfa to plow; school wagon. land league projected in 1920 before the Pacific International league was formed.

Following the meeting in Tacoma of directors of the P. I. league, the first Tuesday in December, another meeting of the interested baseball leaders of the inland empire will be called at Spokane at which time more definite plans will be formulated.

Serial No. 018934.
NOTICE FOR PUBLICATION.
Department of the Interior, U. S. Land Office at Halley, Idaho, November 16, 1920.

Notice is hereby given that John Charles Thompson, plaintiff vs. John Charles Thompson, the above named defendant.

The State of Idaho sends greetings to John Charles Thompson, the above named defendant.

You are hereby notified that a complaint has been filed against you in the district court of the fourth judicial district of the state of Idaho, in and for Twin Falls county, the above named plaintiff, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons if served within said judicial district, and within forty days if served out of said district, and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed, in said complaint.

This is the purpose of the suit for dissolving matrimony for desertion. Witness my hand and the seal of the said district court, this 1st day of November, 1920.

C. C. SUGGINS,
Clerk of the District Court.
By C. L. BOWEN,
Deputy.

J. P. Kosharek, Attorney for Plaintiff, Twin Falls, Idaho, Counselor at Law, Nov. 5, 1920 to 28 Dec. 3, 1920
