TWIN FALLS NEW STATE CHAMPIONS

High School Eleven Takes Fast Football Game From Opponents

IDAHO FALLS SCORES WITH PLACEMENT KICK

Hotly Contested Battle Ends With Bruins on Long End of 13 to 3 Score.

By conquering the undefeated Idaho Falls team yesterday afternoon 13 to 3, Twin Falls captured the unduplicated intercollegiate championship of the state, despite the fact that they were handicapped by the absence of "Speed" Newman, the individual star of the local team, from the lineup during the entire first half.

Payne Makes Great Kick

Although unable to cross Twin Falls' goal line, Idaho Falls marred a perfect record, extending back through eight contests, when Payne booted the ball squarely between the uprights standing on Twin Falls' 40 yard line and at the very edge of the field. This kick is declared to be the best that has ever been seen on Lincoln field and one of the greatest ever made anywhere.

The game abounded in thrills from the very start, to the finish and the crowd was kept in a feverish turmoil. Payne of Idaho Falls, furnishing the greatest with his wonderful place kick, and Newman following closely with a brilliant 50 yard dash to a touchdown after receiving a punt.

Game Hotly Contested

There was not an inch of ground gained that was not hotly contested, and although Twin Falls was the better team and won on its merits, they came out knowing that they had been in a tough scrap.

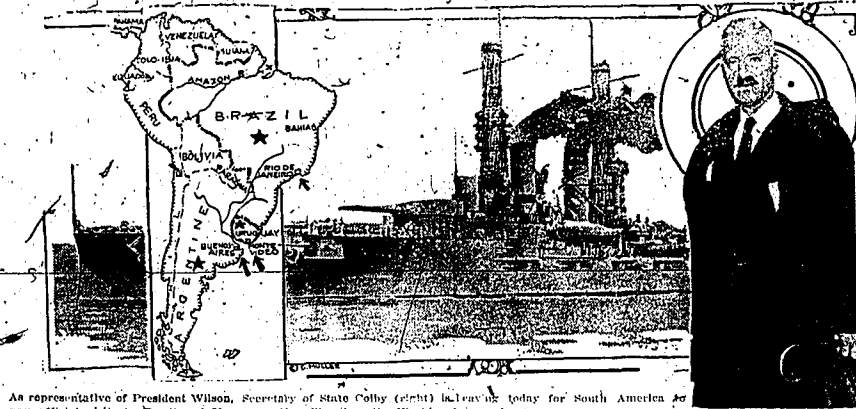

With their open formations and powerful double backs, the Falls put up the hardest fight of any team that has performed against the locals this season. They were evenly weak at tackling, however, a fact which is attributed by their supporters to the fact that they have not been able to practice for the past week. But regardless of their ability, they were a much stronger team when on the offensive than when the ball was in Twin Falls' possession although they were successful in holding the local aggregation several times when their goal line was endangered.

Yochum, It Surprised

One of the surprises of the contest was the work of Jake Yochum, who subbed for Newman as team general during the first half, and

COLBY GOING "CALLING" ON SOUTH AMERICA

A representative of President Wilson, Secretary of State Colby (right) is leaving today for South America for his official visits to Brazil and Uruguay. He will stay on the Florida, shown above.

WILSON WOULD APPEAR

WASHINGTON, Dec. 3.—President Wilson was represented today as being strongly desirous of appearing in person before congress next week to deliver what will be his last annual message to that body. He has not yet, however, made known his plans.

Both Secretary Tumulty and Rear Admiral Grayson, the president's physician, profess complete ignorance of Mr. Wilson's discussion, and it is not expected that he will make it known until just before congress is ready to receive the executive's message next Tuesday.

Those in close touch with the president have stated that his health had improved so rapidly in the past few weeks that there was no doubt of his ability to go before congress if he desired to do so. Mr. Wilson ceased using his wheelchair more than a week ago and it was said that he would be able to go to the capitol without the aid of either wheel chair or cane.

Senate and house leaders have sought information from the White House as to whether the president will receive this year the committee usually appointed at the opening day of congress formally to notify him that the legislative body was in session and ready to receive communications from the executive, but as yet no reply has been given.

ANNOUNCE CLOSING OF DAKOTA BANK

BISMARCK, N. D., Dec. 3.—Closing of the Citizens state bank of Antler in Bottineau county, due to depleted reserves, was announced tonight by O. E. Lortz, state bank examiner. This is the 19th bank to close in North Dakota since November 15. Mr. Lortz said that plans are under way for reopening the closed institutions.

SECRETARY COLBY LEAVES ON SOUTH AMERICAN TRIP

WASHINGTON, Dec. 3.—Eginbridge Colby, secretary of state left Washington today for South America where as the representative of President Wilson he will pay an official visit to the governments of Brazil and Uruguay, and an official visit to Argentina.

Before his departure on the presidential yacht, Mayflower, for Hampton Roads, Mr. Colby met the Latin-American diplomats envoys at the Pan-American union and they accompanied him to the Mayflower. At the Pan-Am union there was an exchange of farewell addresses between the secretary and Beltrán Mathieu, the Chilean ambassador and dean of the Latin-American envoys, and at the dock personal farewells were exchanged.

Mr. Colby will reach Old Point Comfort about eight o'clock tomorrow and transfer to the battleship Florida. The voyage to Brazil will begin at noon. While the secretary is at Hampton Roads, President-elect Harding will arrive there about the same time on the liner Pastores.

ALLIES CAUTION GREECE

LONDON, Dec. 3.—The allied supreme council today publicly announced that it would withdraw financial support from Greece should former King Constantine be returned in the plebiscite, Sunday, and would consider territorial proposals should he be enthroned.

Briefly summarized, the position of the allies is that they want to warn Greece that they will not go to a great extent to the wishes of the allies, and that if the admissions in yesterday's note, and today's statement relative to withdrawal of financial support are ineffective the allies are prepared to take even sterner measures, which were discussed today.

As the Sevres treaty had not been ratified, it is within the power of the allies to modify it and they are keeping this fact to the fore, at least as regards Smyrna. It is known that some of those at the conference today expressed his appreciation of the honor done him by the diplomats.

INDICT FORTY-ONE FOR ALLEGED FRAUD IN LAST ELECTION

PITTSBURG, Dec. 3.—Forty-one persons, including a number prominent in political circles here, today were indicted by a federal grand jury which, investigated alleged fraud in the last primary election in the third congressional district. Practically all the defendants are residents of the "Strip" district, which lies in the downtown and Penn avenue sections.

Prominent among those named in the indictment are Paul Mastriani, P. F. Sullivan, candidate in the primaries last May for the republican nomination for congress in the 31st district, County Delinquent Tax collector Edward M. Kenna, and his brother, Edward J. Kenna, constable. Two policemen and entire memberships of election boards in five election districts also were made defendants.

BANK MESSAGERS ROBBED OF BONDS

ST. PAUL, Minn., Dec. 3.—Registered liberty bonds valued at \$15,000 were obtained by two bandits who held up two bank messengers in front of the St. Paul post office shortly before six o'clock tonight. The robbers escaped in an automobile.

Just as they were about to enter the building, the two messengers said they suddenly were pushed from the rear and ordered to throw up their hands. One man took the grip containing the bonds and the other admonished the boys to make no outcry.

WOMAN SUSPECT IN HAMON CASE STILL ELUDES CAPTURE

ARDMORE, Okla., Dec. 3.—Miss Clara Smith, of Bixling, Okla., widely sought throughout the southwest in connection with the fatal shooting of Jake L. Hamon republican national committee man of Oklahoma, was still at liberty tonight and, as far as the warrant specifies, here nothing had developed during the day to indicate that she had been near. Despatches from Ranger, Texas, state that Frank L. Kelch, business manager of Hamon, had declared a trip he was on in Texas was purely for the purpose of handling business matters in connection with Hamon's affair, was one of the day's developments.

While police of a dozen cities in Texas and Oklahoma were searching for Miss Smith, for whom there is a warrant charging assault with intent to kill, in connection with the shooting, officials here worked on loose ends of the case.

H. R. Brown, prosecuting attorney of Ardmore today announced that he had not yet received an official report from the police of Kansas City concerning the examination there of two trunks said to be the property of Miss Smith and which were intercepted at Kansas City at the request of local officials.

DANES WILL SEND MEN TO COPECISCO ZONE

COPENHAGEN, Dec. 3.—Parliament today passed a bill authorizing the dispatch of a Danish detachment to the Vilna plebiscite zone.

HARDING IN DISPUTE AT FARM PROBE

Gets Into Argument With Committee Investigating Situation

DECLARES FARMERS NEED NOT HAVE FEAR

States Banks Will Do Their Part in Carrying Loans on Crops Without a Market

By the Associated Press. WASHINGTON, Dec. 3.—The congressional joint committee hearings on the agricultural situation developed today into a dispute at times quite heated between Governor Harding and the federal reserve board, and members of congress.

"Mr. Chairman, what is the purpose of this hearing?" Governor Harding finally demanded, while being questioned by Representative Byrnes, dem., of South Carolina. "Is the federal reserve board on trial? Am I on trial here?" he continued, declaring he had been a target for "all kinds of abuse."

Representative Byrnes said he meant no reflection on Governor Harding.

Dixons Circulars

Circulars issued by the regional reserve bank of Richmond, Va., to member banks and which Mr. Byrnes was attempting to show had resulted in rigid restriction of farmers' credits, were under discussion.

Governor Harding said such circulars should not be submitted to the board until they had been looked over, and attention of the regional bank issuing them called to anything the board deemed unwise.

Ask for Statement

Senator-elect Hefflin, Alabama, asked Governor Harding if the lawmakers could issue a statement to the public as understanding his testimony to be that the reserve board was favorable to banks extending all credit possible to farmers.

COX LIFE MEMBER OF BOURBON CLUB

NEW YORK, Dec. 3.—Governor Cox of Ohio today accepted a life membership in the National Democratic club.

"I feel highly complimented to be made a life member of the club," said Governor Cox in his letter of acceptance. "It has had a useful career."

INNUMERABLE COMPLICATIONS PREVENT LEAGUE OF NATIONS ASSEMBLY FROM GOING AHEAD WITH BIG PROGRAM AT PRESENT SESSION AT GENEVA

By the Associated Press. GENEVA, Dec. 3.—The Catalans have asked the league of nations to free them from Spanish rule, the Montenegro repeatedly are appealing to the council and assembly for the independence of their country and point for its work. After 30 odd resolutions from alleged creditors of Serbia's troops of occupation, and among the almost innumerable odds and ends in the league, many are demands for a revision of the treaty of Sevres. These and minor complications are preventing the council of the league from pushing ahead with the big program of the present meeting.

MILITARY COMMITTEE IN MANCHURIA REPLIES TO CHARGES OF MASSACRE ALLEGED TO HAVE BEEN COMMITTED BY JAP TROOPS ON NATIVES

TOKYO, Dec. 3.—The military committee of Chien Tao, Manchuria, has addressed a letter to the Canadian missionaries there in answer to charges made recently by the missionaries that massacres alleged to have been committed by Japanese troops had taken place and that villages were burned. The letter declares that the Japanese military expedition to the district was due to the fact that the Chinese authorities co-operated with the outlawed and declares that churches and schools were burned only where there was uncontested evidence that they had been used as "breeding places of infidelity."

In such places, the letter points out, it was possible to hold even court martial; therefore, the troops executed insurgents on the spot after a simple inquiry, which included village evidence, but took the utmost care to avoid an indiscriminate massacre.

Warnings in given in the letter that any spiritual or material assistance the British missionaries give the Korean Malcontents will lead to a breach in the good understanding between the two countries. It says there are many insurgents in India, and that if British Christians assisted the Korean Malcontents the Japanese Buddhists are entitled to assist the anti-British elements in India.

ARMY PREPARES FOR GAME WITH NAVY NEXT YEAR

Makes Plans Already for Breaking Eleven Game Tie With Midshipmen Opponent in 1921.

NEW YORK, Dec. 3.—It's all over this year. But there's going to be royal tug of war next year. We're talking about the annual muss between the Army and Navy. The Navy went and did it by crossing the Army line this year for a lone touchdown, thereby making the count 11-1.

The sailors are to win three years in succession to do it, but they finally got the score leveled up over their eight years—the longest time, either team has ever held the supremacy in the number of games won.

The Army and Navy began playing each other in 1890. In 1905 the Army had forged ahead three games. In 1912 the Navy managed to be ahead by two games and then the Army took the lead with a string of four straight victories. And now comes the Navy back and finally ties the thing up again, both teams having won eleven games and tied one. So they're now getting ready for the big tussle that's to come off next year to see who's going to keep out in front.

Squeeze Play. This year's contest between the two service teams was one of the prettiest sports football fans have ever witnessed. The Polo grounds were jammed to the very limit, 50,000 getting in some way, although there were but 45,000 tickets. And three times that many applied for tickets. Two teams could not have been much more evenly matched until the two halves of the Army booted a miserable punt out of bounds and thereby started the Navy on the way to port.

And Next Year. But just figure for yourself what it's going to be next year. The Army team tied in the number of games won and the rubber-net the prize for winning.

The Army and Navy will be fighting for supremacy after the score has been evened up and as great as the rivalry has always been it should be even greater next year.

And certainly one can't thought of for just before the game at the Polo New York Giants who handles the tickets for the classics received a special delivery letter asking him for a reservation next year.

PROPOSED EXTENSION OF VOLSTEAD ACT

WASHINGTON, Dec. 3.—Extension of the Volstead prohibition enforcement act to the Philippines stands out to consular districts in China if said to be proposed by Senator Jones, Republican, Washington. He said tonight would clear away all doubt as to the application of the enforcement measures to the Philippine Islands.

One provision would penalize in the Philippines or American consular districts, the serving of beverages containing more than 1-2 of one per cent of alcohol at public or official functions.

STATES WILL ASSESS INDUSTRIAL TRIBUNAL

TOPEKA, Kans., Dec. 3.—Members of the legislatures in four states—New York, West Virginia, Indiana and Montana—have recently written Governor Allen that they expect to introduce bills for the establishment of a tribunal to settle industrial disputes, modeled on the Kansas court of industrial relations. It was announced at the governor's office today.

In at least 14 other states, the governor is informed, similar bills will be introduced.

ASSESSED VALUATION OF OREGON OVER BILLION

SALEM, Ore., Dec. 3.—For the first time in the history of the state, the assessed valuation of property in Oregon has exceeded a billion dollars. The total assessed valuation, as shown by a statement issued today by the state tax commissioner, is \$1,040,

Lift Despair to Gladness

\$23,040, an excess of \$5,403,576 over the assessed valuation of last year. The increased valuation is attributed by the commissioner to natural increases in valuation and to greater industrial activity.

"LIVE UP TO" THE CHILDREN

Writer Condemns Old-Fashioned Idea of Repression and Stern Punishment for Trivial Offenses.

It seems to me a great mistake to "live down" children. They are capable of understanding and responding to deep and true thoughts and feelings. Never from the first did we criticize or humiliate any boy in any way. We give them credit always for lights and right motive and judgment. Judgment will they had told their side. But if they were wrong they were not punished. The fact that they had fallen below what had been expected of them was punishment enough. A certain standard of conduct was there, established that they longed always to realize. They were able, even then, to see the beauty of certain qualities and the wisdom of others. It was lovely to see them trying to conform to the habit in the household, of unselfish courtesy and unselfishness and restraint. They often failed. They often showed their temper. But they grew to be more and more ashamed of their failures.

Character cannot be built from the outside. Coercion does not make for strength—only for compliance. That it seems to me is the great mistake some parents make. They exact obedience when they should inculcate principle. Judgment! That is the better word. They the child will have an inner light to guide him, a compass to steer him to a certain goal.

When the guiding hand is lifted, so many are left with no deep convictions—principles to shape their destiny—but impulses. They may be good, they may be bad, as life plays upon their emotions and desires. To trust to them for guidance is like going out upon a stormy sea in a tiny craft at the mercy of tossing waves and wind.

PEAK WHERE NOAH LANDED

Mount Ararat, in Northwestern Persia, is Now Part of a Recently Created "Buffer" State.

Youthful students of world history, if they will look upon the map of the near East, will find in the extreme northwestern part of Persia a mountain peak marked Mount Ararat. That should give them a few-voiced point to which they will remember that it was on Mount Ararat that Noah, in the Biblical account landed. Mount Ararat is the loftiest peak in Asia, 17,000 feet above sea level, but it has long been neglected news from Europe.

The inhabitants of Azerbaijan are Persians, Armenians, Kurds, Tartars, Turks and Arabs, whose valleys are fertile garden spots. It ranks in statistics as one of the most progressive spots in all Persia, but young readers will find their chief interest is the fact that it contains Mount Ararat, which gave Noah his first shelter, according to the accepted narrative. The creation of Azerbaijan as a buffer state brings the remote part and the immediate present together in a way which may also awaken the interest of those who have moved past the years of youthful curiosity.—Pittsburgh Courier.

FILER NEWS

NOVA SCOTIA WAS FIRST OF NEW COLONIES

Northern Country Settled Earliest in America With Exception of St. Augustine.

Nova Scotia may lay claim to being the earliest colonized land in North America, with the exception of St. Augustine, Fla., where the Spanish establishment was made as early as 1565. Port Royal, now the little town of Annapolis was settled in 1629, three years before the English settled Jamestown. The brave French pioneers found it necessary to suspend their colony for three years, but the settlement was re-established in 1610 by a group of Acadians.

The Acadians were in almost constant conflict with the English. The colony fell into the hands of the English twice, and each time returned to the French before the English finally captured it in 1710. The Acadians remained steadfast in their hopes that the British rule would some day return, but their hope was destined never to be realized. They, however, persisted in maintaining their identity even against the English insistence that they abandon their allegiance to their mother country.

The descendants of the Acadians numbering 300,000, are to be found in Maryland, Virginia, the Carolinas, Georgia and Louisiana. When the Acadians were expelled from the British of Mount Grand Erie, when they refused to take the oath of fealty to the English sovereign in 1755, many of them escaped to the wilderness, and later drifted back to their former homes only to find them occupied by new settlers from New England states.

DEEP RESPECT FOR SABBATH

Writer's Recollection of How Day Used to Be Observed When He Was a Small Boy.

My mother was born and reared in a little country village in western New York. On the farm where my grandfather lived, it was the custom to begin Sunday on Saturday night at sundown. The "hired man" came in from the clover, grandmother put away all her work in the kitchen, and then the entire family gathered in the best room and studied the Sunday school lesson, of had a reading from the Bible, led by grandfather, and all the family retired not later than nine o'clock.

In the morning after doing none but the absolutely necessary chores on the farm, the team that had not been used the day before, was hitched up to the big four-wheeled wagon and the entire family, including the "hired" help, went to church. There was preaching service in the forenoon, and then we adjourned to a lunch for ourselves and the team. Then we went in to a Sunday school service, and after gathering in the forenoon, we went to church, after which we hitched up and drove slowly back to the farm.

That was the way Sunday was kept in western New York a little more than fifty years ago. I can remember having my mother say that when she was a girl in the same New York state village, she was not allowed to walk except to the cemetery and back, on Sunday, and was not allowed to read any books except the Bible and "The Book of Maryam."—Christian Herald.

ENGINEERS AND OFFICIALS HEAR INVESTIGATION REPORT

NEW YORK, Dec. 3.—Declaring no economic necessity exists for the 18-hour day in steel plants, a vociferous substitution there for the three shift system, Horace B. Drury, recently of the Industrial Relations Division of the United States shipping board, tonight reviewed his three months of investigations of the industry before a forum of engineers and public officials. The forum was conducted by the American society of mechanical engineers and other technical organizations.

Drury said he had visited 20 American steel plants already on an eight hour basis and found changing to the three shift system could not add more than three per cent to the total cost of the finished product, even

without any increase in efficiency. There is not a surplus labor supply to make easy and feasible the transition to a shorter working day, he added. The long stretch of time had been abandoned in European plants, but 150,000 men still work 12 hours a day in the American steel industry, he said, while in some departments the seven day week still exists.

The expense of changing would be slight, Mr. Drury thought. He contended that the 12 hour day does not leave enough time for home life, education or activity in community affairs.

A resolution was offered, urging the governing body of the international labor office at Geneva to place the subject on the agenda of the international labor conference of 1922. The committee's meeting was participated in by three organizations—the Mechanical Engineers, New York section of the American Institute of electrical engineers and the Taylor society—a person could be taken. HAITI.

The intervention of the United States in Haiti is legitimate, just as it was in Cuba some years ago, and as it would have been in Mexico at certain times during the last ten years. The only question is as to how the American representatives have discharged the duty of restoring order in the island and straightening out its public finances.

Recent charges look ugly. They look just as ugly to Americans as they can possibly look to anybody else. The United States has steadily proclaimed its disinterestedness and humanity in the treatment of other nations. If either of these ideals has been ignored in handling the Haitian situation, the responsible persons, whether civil or military, may expect a harsh accounting at the hands of their fellow-countrymen.

It goes without saying that the United States government should conduct a thorough inquiry into the charges of financial crookedness and incompetency made by the president of Haiti, and punish whoever is guilty if there has been criminal or neglectful conduct.

More important is the charge of wholesale cruelty. Americans can hardly believe, in spite of the alleged evidence submitted, that their marines have been so brutal and bloody as they have been represented. The marines are typical American boys, sons of typical American parents, and above the American average in manhood, rather than below it. Marines have always been the particular pride of the nation, rated higher than either soldiers or sailors. Can it be that they have deteriorated, all at once, to the status of murderers?

Hundreds of letters now reaching American homes in every section of the country are indignantly repudiating the accusations of "indiscriminate killing" of natives. The natural presumption is that the stories are false, and that natives killed were really bandits or other criminals, slain by the marines in self-defense or in the necessary restoration of law and order.

Still, the whole record of that little army of occupation should be carefully reviewed, and no guilty man should be allowed to escape a fit penalty.

Americans have been particularly severe on Great Britain for the acts of its "black-and-tans" in Ireland, and do not want to make an Ireland of Haiti.

IRISH MISTAKES

The Irish revolutionists are now at the most critical point of their revolution. The next few months may make or break them—may bring success or defeat, triumph or disaster. And at this point, as many of their sincere friends in this country see it, they are making serious mistakes.

The greatest mistake is the assassinations in Ireland of which the recent Dublin killings are the most conspicuous example. Whether these assassinations are the deliberate work of the Sinn Fein or the work of smaller and less responsible organizations, they hurt the Irish cause. It will be readily granted that the British troops have set the Irish an example in violent crimes, and it is easy to understand and sympathize with the Irish desire for reprisal in kind. But if the retaliatory slaughter can be justified morally—and of that there is some doubt—it is unjustifiable from the viewpoint of sound policy.

Martyrdom is a more powerful weapon. The martyr's crown will win Irish freedom sooner than the assassin's knife, even though that assassin be clear in his own conscience and call himself a soldier fighting for his country. The world is sick of blood.

The other mistake is to bring violence into this country. The attack on a New York club

which happened to be displaying a British flag along with the American and French flags was an unwarranted act. There have been threats of reprisals against the British in the United States. There has been other activity calculated to force the American people to take sides, and formally demand the liberation of Ireland. The Irish question is one that goes home to the heart of every liberty-loving American, but it is a private question in this country, not a military or political question, and most Americans resent having it forcibly thrust upon them. Private and peaceful effort will do more for Ireland than public violence can possibly do.

EDUCATION IN THE ARMY.

There has recently been an increase in army enlistments. Two reasons for this are suggested by the secretary of war.

The slackening in industry, which has meant considerable unemployment in some localities, is cited as turning many young men toward the army and navy. The educational advantages offered to enlisted men, however, are regarded as the chief cause.

Both technical and academic training are available to soldiers and sailors. The opportunity to fit themselves for better jobs after their term of service is ended, and to be paid while doing so, is proving a real attraction.

There is another side to this education in other than military subjects which appeals to the civilian mind. It does away with the narrowing influence of the strictly military life. While these men are acquiring the discipline which is essential to an army, they are also studying subjects which encourage them to develop their own special abilities, to think through problems not usually connected in any way with soldiering, and to follow interests which will be helpful in all the work they do after they have left the service. It is difficult to fear a tendency to Prussianism in military life when such wholesome civilian activities are introduced, and carried on along with the strictly army work.

A "PAY-AS-YOU-GO" TOWN

A "pay-as-you-go" basis is promised one municipality which has suffered for years from maladministration of its financial affairs.

A new mayor has come into office, and this is his second great reform. The first one was a crime clean-up which is really getting somewhere.

A budget is now being drawn up for 1921. No department will be allowed to exceed its appropriation during the year, nor to spend more than one-twelfth of its annual appropriation in any month. In order to check up on receipts and expenditures regularly, a continuous auditing system is to be installed, and the results of these audits will be given to the mayor at stated intervals. What is more important, they are to be published regularly so that the citizens may know at all times how their money is being spent and what is the financial status of the town.

There is here, a promised combination of honesty, policy and efficient administration which promises well for the citizens who are to enjoy its benefits. The mayor's suggestions are worthy of incorporation into national affairs, and the household which practices a like method will find its own finances less troublesome.

A woman who is looking for a husband says she wants a loving man and not a New Yorker. Well, what does she expect? Nobody ever claimed that husbandry was the leading industry of New York.

The fact that an Indiana boy really discovered some buried treasure is not half so important as what that treasure will discover in that boy.

The Germans are openly referring to the Versailles treaty as "shameful", and when we consider how little it has affected the Germans thus far we are inclined to agree with them.

The Greeks seem to be tired of fighting Turks. We don't blame 'em; but is there any other way to get along with Turks?

It seems rather a pity that the sculptress who made a bust of Lenin didn't bust him.

today in conference over national legislation. Senator Watson came from Washington for the meeting, which was held at the home of the Pennsylvania senator.

Most of the conferences, Senator Penrose said, was taken up in going over proposed revenue legislation. He said he did not see how it would be possible to pass any substantial revenue legislation during the short term of office.

"For," he added, "Mr. Wilson is silent with the power of veto. There is no hope, so far as I know, for any plan of cooperation on the revenue or any other legislation."

Senator Penrose said the income tax excess profits tax and kindred subjects would be taken up after the Christmas holidays.

"I expect to have hearings before the finance committee shortly after the holidays," he said. "The income tax, especially, needs radical revision. I haven't gone very far into this matter, but some radical propositions stare me in the face. No tax should be allowed to reach a stage where it causes savings to be hoarded. When this occurs the tax is not paid, and it is withdrawn from the tax base in commerce and industry."

Senator Watson said he concurred in Senator Penrose's views.

HARDING WILL SPEND ON BOARD THE STEAMSHIP PASTORES, Dec. 3.—President-elect Harding expects to go from Norfolk to Washington and thence to Marion, Ohio, Tuesday or Wednesday. He probably will spend the remainder of the month in Marion. A few days will be occupied with clearing his accumulated correspondence and the senator will hold his first session of his own conference on December 12. He hopes to complete these conferences by the end of December.

CEASE INQUIRY INTO NEW YORK BUILDING TRUST

Legislative Committee Turns Evidence Over to Extraordinary House Grand Jury.

NEW YORK, Dec. 3.—A abruptly halting its inquiry into the activities of the Builders' Supply bureau and the Association of Dealers in Building Materials, the joint legislative committee today turned its evidence over to the extraordinary house grand jury, which returned indictments charging two officials of the bureau with contempt.

The indictment, directed against John A. Ehrhardt, former chairman of bureau, and Joseph Henry, secretary, resulted from the refusal of the defendants to answer questions of the witness stand per- taining to the bureau's affairs. They were given their liberty on \$1,000 bail each.

While the legislative committee was in session, the board of estimate was conducting its own inquiry into the \$62,000,000 worth of city contracts. The committee quickly decided to discontinue its inquiry into the affairs of the building materials association, following testimony by its accountant and typewriter experts that the minutes produced by the two associations before the committee had been tampered with and substitutions made.

"We are sick and tired of this—books destroyed, books disappearing, minutes disappearing—most disgraceful," said Samuel J. Bintermyer, the committee's counsel, in asking that the matter be given immediately to the grand jury.

The committee then launched into an inquiry into the brick industry, the Contractors' Protective association, and the alleged "towing" monopoly on the Hudson river. Several brick manufacturers were heard, including W. K. Hammond, of this city and David Fowler of Haverstraw, New York, both declared the brick makers were not guilty of collusion in price fixing. Mr. Hammond admitted that the entire output of brick makers supplying the New York market was handled by three agencies, but denied they had anything to do with the price fixing. Informal consultation between manufacturers had resulted in uniform prices, he explained.

Fowler started the committee when he testified that the Cornell Towing company has a monopoly on Hudson river towing and has raised its rates more than 500 per cent during the last few years. These "excessive towing charges," he said, were a great burden on the brick business.

Testimony as to the activities of the Contractors' Protective association, an organization of 47 contractors, based on trucking and house wrecking, con- tractors was given by Thomas F. McLaughlin, secretary, who also produced the association's minutes.

The minutes read by the witness indicated that committee had been appointed by the association to fix prices on the hiring of motor trucks and for dirt and rock excavating.

FILE MURDER CHARGE AGAINST CUNNINGHAM

TACOMA, Wash., Dec. 3.—Following discovery today of two letters in the trunk of E. W. Cunningham, who has been missing since his former wife was shot to death in her apartment Wednesday night, prosecuting Attorney W. D. Askren, announced a murder charge would be filed against Cunningham.

One letter addressed by Cunningham to his employers said: "I have no regrets at all in this action I am taking. My wife has wrecked three homes."

The letter indicated that Row E. Moon, the man who was with Mrs. Cunningham before her death, and who is still held in the city jail, came near being a victim.

"I would have settled Moon's career some time ago, but I understand his wife is not well and strong, and needs him," Cunningham wrote.

In a letter to his mother, as revealed by the police, Cunningham made no mention of the letter to his wife. He asked that his body be cremated and the ashes scattered in a public park here.

In the light of the letters it was decided by Prosecutor Askren that no inquest is necessary over the body of Mrs. Cunningham.

No trace of Cunningham have been found, and the police directed the search upon theory that Cunningham had gone in the automobile over the Canadian border or had driven to some out of way spot and taken his life.

of the court martial will be promulgated later.

In her testimony today the countess indignantly denied making the statements attributed to her by the crown counsel, who credited an officer with declaring that the countess one occasion murdered a British officer and soldiers and that on another occasion some one who arrested her, himself was murdered.

In an emotional speech, the countess declared that the boy scout movement was started in 1909, long before the Irish revolution and that according to English law, it was not illegal to teach the boys of 15 years of age and drill them their history and their language. The countess said she stood upon principles of freedom as announced by President Wilson.

RELATIONS COMMITTEE SUGGESTS PRINCIPLES

GENEVA, Dec. 3.—The report of the committee on relations between the council and the assembly of the League of Nations, adopted by the assembly of the following principles as a working basis for the time being:

First—The council and the assembly each will be invested with sufficient power and duties. Neither body will have jurisdiction to render decision in any matter which has been expressly committed to the other.

Second—The assembly will have no power to reverse or modify a decision which falls within the exclusive competence of the council.

Third—Under the covenant representatives sitting on the council and in the assembly will render decisions as representatives of their respective states, and in rendering such decisions they have no standing except as such representatives.

Fourth—The council will present each year a report to the assembly. It will be impossible to consider the League of Nations as a club, the report finds, because in certain matters the dead rights while in others each body has special rights.

MAY HAVE CHRISTMAS TRUCE IN IRELAND

LONDON, Dec. 3.—The possibility of a Christmas truce in Ireland seems to be connected with a suggestion by Roger N. Sweetman, a Sinn Fein member of parliament, for North Western, that a truce be taken effect in Ireland to bring about a conference between the commission and the Irish labor party, the Irish peace conference and the Catholic hierarchy to enlist all moderate opinion in Ireland in the support of General Dwyer's appeal for "a truce for God."

Mr. Sweetman is a wealthy land owner of moderate views. His idea is to bring about a cessation of bloodshed in the hope of attaining an atmosphere which will be better suited for political negotiations, which are considered impossible as long as the extremist on both sides of the controversy are swaying apart.

SIXTY-ONE KILLED IN MURDER OF THOOPS

SHANGHAI, China, Dec. 3.—A message received today from Kankow reports that 60 persons have been killed in the mutiny of Chinese troops at I-Chang, a treaty port in Hu Peh province.

Gunboats are due to reach I-Chang today. The situation in the city is said to be quiet, but looting is continuing. Chinese troops have been despatched to the scene of the mutiny.

Monarch's Pleasure Ground. A buried garden has been discovered at Poona, India. In excavating the site of an eighteenth century palace, where a public park is to be laid out, an elaborate ancient garden was discovered. One side consists of three terraces at different levels with foundations and reservoirs, after the fashion of the celebrated Shalimar gardens of Kashmir and Ladakh. The system of fountains and reservoirs is connected by well-made pipes and ducts of pure copper. On the top of the plinth an enormous fountain, circular in shape, fashioned after a lotus flower, and having over 200 jets, was discovered.

BANQUET CLOSES FOOTBALL SEASON FOR LOCAL HIGH

Visitors and Local Eleven Guests Of Honor At Spread—Cuebs Of Make Short Talk.

Twin Falls high school wound up the most successful season it had ever experienced with a banquet last night at the Rogersian at which the entire squads of both the local aggregation and the visiting Idaho Falls team, several prominent business men and members of the faculty were present. Superintendent Hal G. Huse acted as toastmaster for the occasion.

Coch Clayton W. Evans declared, during the course of a brief address, that it was of course a great satisfaction to finish the season with such a hard, clean game as the one staged yesterday, and asked who could not turn out a good team with the good bunch of scrapping kids at his disposal, and with the wholehearted support of the business men of the community. He paid a tribute to the boys who came out early in the season, and in spite of the fact that they never got into a single game, stuck to their guns to the finish, saying that they shared the credit for the winning of the championship equally with the first string men. Coach Evans expressed his appreciation of the services rendered by the press.

Harry Kanelmeyer, coach of the Idaho Falls team, when called upon for a speech, said that he had not much to say, but that he hopes that his team has left an impression such that they will be asked to come again. Coach Kanelmeyer expressed his conviction that Idaho Falls would have a better team next year than they did this season, and extended a cordial invitation to the Twin Falls team to visit his city for a contest next season.

Among others who spoke were Mayor W. E. Ehrhardt, Asher B. Wilson, president of the chamber of com-

morce; Dr. W. F. Pauser, commander of the local American Legion Post; M. C. Mitchell, principal of the high school; Professor Hise of the Idaho Falls high school faculty; John Hood, and Jake Brown, captains of Idaho Falls and Twin Falls, respectively; Harley Payne, Bob Putzler and "Speed" Newman.

The crowd gave vent to their genuine high spirits in much hearty, unamused, song, under the leadership of Carlo Oliz, Lawrence Spor, Frayne McAtee and Bill Denton being among those who rendered musical selections—rendering meaning to tear apart, de- stroy and mutilate.

In closing the evening's outpourings of oratory and exhibitions of forensic talent, Hal G. Huse praised the value of football in the formation of character, as well as a physical conditioner, characterizing it as one of the essential elements of scholastic education.

who took the place of Phillips at full during the last two periods. He hit the line hard for good gains, ran his team in good style and his punting was especially good when the fact that he has never before kicked in a game or even practiced consistently is taken into consideration. Other individuals who were noteworthy are Bucklin, the anguishing Idaho Falls end, Puzler and Irwin, Twin Falls guards, Denton, Twin Falls center, Payne, Idaho Falls left half and Reed, the Idaho Falls right half back and captain. Bucklin lived up to all the many complimentary things said about him, getting into every play and tackling with deadly accuracy. Puzler and Irwin were towers of strength both of the offense and defense, the former making one of the best essential plays of the game when he spilled Tompson, Idaho Falls right end, and cleared the path for Newman to make his repeat run. Denton, playing center, put up a splendid game, by far the best he has shown this year, while Reed proved to be one of the most consistent ground gainers that has appeared here. The Twin Falls ends appeared to have an off-day, several times letting forward passes slip away from them after they almost had it safely clutched.

Twin Kicks Off

Twin Falls started the game by kicking off to the 20 yard line. Gosin running the ball back 10 yards. The first play, a line plunge netted two yards, and on the next lineup, Reed went through right tackle for a 10 yard gain. Newman was kicked in the head in this play and was forced to retire in favor of Yochem, who took over the running of the team. Reed made four and Payne five, but Idaho Falls tumbled and recovered, losing four yards on the play. A five yard penalty forced them to kick, Reed booting the ball to Twin's 25 yard mark.

Fix started the team's attack with a gain of six yards and on the second play, Hertz broke loose and tore off 20 more around Idaho Falls' right end. Two tries at the line gained four yards, but an attempt at a forward pass was intercepted and Yochem punted to Idaho Falls' 18 yard mark. Reed plunged through right tackle for 12 yards gain, adding six more on two plungers into the line. Idaho Falls was penalized yards for offside play, and having lost three more on a trick play which Epler broke up with a fine tackle. Reed punted to Twin's 25 yard line.

Fix Makes Gain

After a four yard gain around right end by Fix and two small gains by Yochem, the latter kicked to line up

ponents' 30 yard mark. Fix broke up a pass, and Deed gaining only one yard against left tackle, he punted out of bounds near midfield. Fix gained about three yards in two tries at center, and Idaho Falls was penalized 10 yards for roughing Yochem when he attempted to punt. Two gains of four and two yards by Yochem and Hertz respectively were offset by a five yard penalty and when Fix could gain but three yards, Yochem punted over Idaho Falls' goal line. The visitors put the ball in play on the 20 yard line and on the first play, Twin was penalized five yards for being offside. Reed was held for no gain at center. Gosin made four around right end and Reed again kicked out of bounds at midfield.

Yochem Punt

Fix made two yards around right end, and Epler just missed completing a perfect pass when he slipped and could not grasp the ball. Yochem again punted over the goal line. Reed gained one yard left tackle and a line plunge by Payne netted five more, but the visiting captain took no chances and punted to his own 42 yard line. Yochem gained five yards in two attempts at the line, and Fix kicked eight out of a brilliant gain of 15 more. Phillips made one and Hertz five, the quarter ending with the ball on Idaho Falls' 28 yard line.

Twin Makes First Score

Immediately following the opening of the second quarter and Reed immediately kicked, Yochem made three yards and Hertz five. Fix again ran amok for 15 more through the middle of the opposing line. Phillips smashed through left tackle for two gains through center. On a play on which there was no gain, Idaho Falls was penalized five yards, putting the ball on their seven yard line. Fix plunged through center for three yards and Phillips made two on a drive against right tackle. Here the visitors' line took a brace and held Fix for a scant gain of one foot, but he went over for the first score on the next play. Yochem missed the attempt at goal, the ball striking the cross bar and bouncing back onto the playing field.

Hertz Receives Ball

Hertz kicked off, Hertz receiving the ball on the 15 yard line and running it back to the 30 yard mark. Hertz made seven yards in two plunges into the line, Yochem making it first down. Twin was penalized five yards for offside play on the next shift, but Fix gained five and Phillips four on smashers at the opposing center. Yochem forced his injured ankle giving way with him. Carter went in for Bailey. Phillips gained only one yard by the Idaho Falls left end and Yochem punted to the 25 yard line, the ball being run back for a distance of 10 yards.

Reed Gained Three at Center

Reed gained three at center, but was held on the next play and punted to Twin Falls' 20 yard line. Hertz and Phillips gained three yards each in drives at the line. Yochem added three more and punting to Idaho Falls' 40 yard line on the next lineup.

Payne Carries Ball

A mass attack at center, with Payne carrying the ball, netted one yard. Reed gained three at the same spot, but Payne's five yard gain left them one-short of making their yards and Reed punted to the 22 yard line. Yochem made one against right tackle. Phillips three against center, and Hertz smashed off left tackle for three more, following which Yochem punted to the 45 yard line. Here Idaho Falls found themselves in the peculiar position of having five yards on a completed double pass. Fix breaking through and adding the man with a hard tackle. Reed punted and the ball, which over before Twin Falls could line up and with the score 6 to 0, Idaho Falls kicked off to start the

FOOTBALL MEN MEET TO DRAFT SEASON'S RULES

Western Conference Coaches Gather to Discuss Changes for Play for Coming Year.

CHICAGO, Dec. 3.—Football coaches of the Western Conference universities will meet here tomorrow to draft new rules for the 1921 season and to discuss rule changes which will be presented for action at the meeting of the national inter-collegiate committee in New York next month.

The proposal to extend the season from seven to nine games also will be considered. The prolongation of the season, if the proposal is adopted will be accomplished by starting the 1921 campaign a week earlier and ending it the Saturday after Thanksgiving. Instead of the preceding Saturday. The proposed nine game season is certain to find opposition tomorrow, as some of the coaches believe the seven game program is best.

Indications were tonight that grid-iron relations between Minnesota and Chicago and Northwestern and Chicago would be renewed. Dr. Harry Williams, coach of the University of Minnesota eleven, said he hoped to arrange a game with Chicago, the first between these rivals since 1918. Illinois, Michigan, Ohio State and Chicago were said to be sought as opponents for the big eastern universities, but the conference, it is expected, will not sanction proposals for games unless return dates are agreed upon. Princeton has yielded to Chicago in this regard and will play here in 1922. The Maroons will invade Princeton for a game next October.

Changes in the rules will be suggested tomorrow, but they will likely be of minor importance, according to Coaches Post of Michigan. Jones of

Irwin and Williams of Minnesota. Elimination of the goal after touch-down will be one of the subjects to come up. Several coaches tonight expressed the opinion that after the goal after touch-down is necessary, and inasmuch as it sometimes means victory on defeat, is not a fair indication of a team's strength. The faculty members of the conference will assign dates tomorrow for the indoor and outdoor championships track meets. The indoor event it is expected will be awarded to Northwestern university, while the outdoor probably will be awarded to Chicago. Basketball coaches also will convene tomorrow to arrange for the season, which opens January 2.

COUNTY PRODUCTS WIN IN EASTERN HAY EXHIBITION

Local Farmers Add to Leads by Winning Prizes in International Hay and Grain Show.

Continuing the wonderful success of the state fair, Twin Falls seed growers added much to their laurels in the International Hay and Grain show at Chicago, according to a telegram from H. E. Shinn received by the local family here.

Walter Weaver was awarded second on white spring clover, Carl Levin taking third and L. D. Birkley fourth. J. H. Hasdin captured first money for both alfalfa seed and red clover. Jarroo Brothers' finishing second in the former.

According to H. E. Powers, county agricultural agent, this is one of the best showings made at the exhibition by any county, and he thought that with such a record at the biggest exposition of the kind ever held in the American, eastern seed buyers will be attracted to the Twin Falls tract in great numbers. Their interest in the county is shown by the fact that the seed produced in this county is second to none and that for several years that there has been a growing tendency on the part of purchasers from the enterprise to come into the county for their supply. The seed which was recorded established at the International is a great impetus to the local industry.

PREMIER REPLIES TO CHARGE IN PARLIAMENT

THE HAGUE, Dec. 3.—Premier Deerenbrouck replying to charges in parliament today that former Crown Prince Frederick William of Germany was abusing the hospitality of Holland by communicating with monarchist elements in Germany pointed out that the Dutch government would have preferred that the royal fugitives had not entered Holland. Since they were here, however, he said, Holland would have to grant them hospitality or, at least, toleration. The premier expressed the opinion that the fugitives would not abuse the hospitality of Holland or cause trouble to the Dutch government. If they so abuse it, the premier declared, "the government will know its duty."

POLICE WITHOUT CLUE TO ROBBERS' IDENTITY

MINNEAPOLIS, Minn., Dec. 3.—Police and postoffice inspectors were tonight without clues as to the identity or whereabouts of three young men who early today held up the mail car of train number six on the Chicago, Milwaukee and St. Paul railroad and obtained loot estimated at \$25,000 to \$275,000.

The actual value of the mail car had not been determined until recently and inspectors checked over some of the loot taken was said to be bonds and other papers being sent by country banks to Twin City banks.

Reports that the car carried contents worth more than \$500,000 circulated by big named crooks were made by officials.

USERS MUST PAY FOR INSTALLATION OF WATER METERS

City Water Works Department Makes Ruling Regarding Payment of Installation Charges

To comply with a decision of the city water works department, all those water users who are served by the city plant, but who reside outside of the corporate limits of the city, must make application and pay for the installation of a water meter on or before January 1, 1921.

For failure to comply with this regulation, the officials of the department will give directions to have the water cut off and the pipes plugged up. This action is being because of the hostile attitude several people who come within this class have taken, according to one of the men connected with the department, in declaring that they who do not want the water cut off for its installation, must become the owners of an ordinance, as are the citizens of the municipality proper.

The terms for these water users are precisely the same as those made to consumers within the corporate limits, entailing for a payment of \$20 to cover the initial cost of the meter and the expense incidental to the installation.

All of the meters in the first district have been put in, approximately \$100 in number, and bills are being mailed out for payment on or before December 16, the department will allow a discount of 10 per cent from the regular charge of \$20, making the total cost \$18; it is announced. District one comprises all of the additions within the city limits and outside of what is known as the original townsite. The 100 water users residing outside of what is known as the corporate limits are also included in this district.
