PIGRIMS AND PURITANS.

Comment on the recent Plymouth ceremonies has shown again the general confusion of the terms "Pilgrim" and "Puritan." It is natural enough that the words should be regarded as synonymous, but in fact the two had nothing necessarily to do with each other.

The Pilgrims who went to Holland and then came to America left England, as much as anything to get away from the Puritans. The Pilgrims were dissenters, but were not dissenting about it. All they wanted was to worship God in their own way. The Puritans, as soon as they obtained power, used it as ruthlessly as the established church had done.

PANICKY LEGISLATION.

Legislation proceeds slowly in committee despite of the zeal with which members have tackled the program before them. Measures which have the name are held up in the Senate, or even worse, and one bill has been passed with full knowledge that it will in all probability be vetoed by the president.

The country just now is suffering from fear. Nothing very terrible has happened to any class as yet, but over class is thick and jealous of every other. As a result many measures are being pressed upon congress which are of doubtful wisdom of fairness where the country as a whole is concerned.

There are no starving people. There is no large number of people in any danger of more than temporary financial embarrassment. It is far better that pending bills should be subjected to thorough discussion than that preventive measures should become laws through hasty haste.

ALLEGED BOOTLEGGERS A BOUND OVER FOR TRIAL

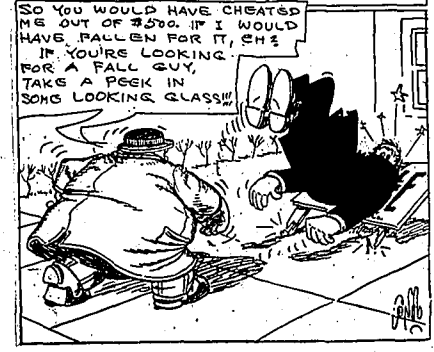

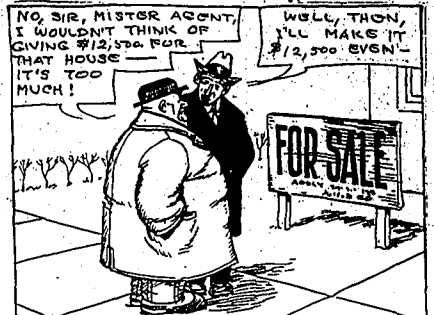

William Bush and M. H. Austin, arrested Christmas on a charge of bootlegging, were given their preliminary hearings in the probate court yesterday by Judge Duval and bound over to the district court for trial. They furnished bonds of \$500 each for their appearance.

NEW INTERNATIONALE NOT SO RADICAL AS OTHERS

AMSTERDAM, Dec. 28.—A new socialist international which leans more to the right than the second international and not so radical as the third appears in the process of development in Amsterdam under the leadership and auspices of the international federation of labor.

At a meeting of the Amsterdam labor union last night Van Oortveld, president of the Dutch labor federation and secretary of the international federation and Pletzer, J. Th. van der, the Dutch socialist leader, gave an inkling of the plan. "The international federation" said Oortveld "with its twenty four million members, is now strong enough not to mind the American labor movement led by Samuel Gompers and the Russian movement led by M. Zisovitch, which will not have anything to do with it. We are not only able to parry their attacks, but to deliver blows. Our purpose must be the nationalization of industry, which it is only possible to carry out internationally by collaboration of the work-

OUTBURSTS OF EVERETT TRUE

men's movements with a political intentionality a little more to the left than the second international. H. Troelstra, who was one of its leaders, pointed out that the failure of the second international was due to lack of means, other than parliamentary to prevent war. He admitted that the second international was dead, though he said this did not prove socialism was dead.

PLAN REORGANIZATION OF "KATY" RAILWAY SYSTEM

NEW YORK, Dec. 28.—Completion of a plan by bankers and committees representing the interests of stockholders for reorganization of the Missouri, Kansas and Texas railroad company was reported here today. The plan, it was stated, will be presented shortly to the interstate commerce commission for its approval. The scheme, prepared by 23 committees as well as bankers, proposes issuance of approximately \$254,000,000 of securities in five classes, three of which are bonds, one preferred and one common stock. An investment of \$25 a share against present holders of common and preferred stock also is proposed. Common stock outstanding totals 563,309,757 and preferred \$13,900,000 and the assessments are expected to bring in \$18,600,000.

The "Katy" system embraces the Missouri, Kansas and Texas, the Missouri, Kansas and Texas, and the Wichita Falls and Northwestern. The road went into receivership September 16 and Charles F. Schaff, president, was named as receiver and has continued as receiver since.

Which Stone is Best? It is strange that after all these centuries of building and rebuilding, a recent project in London should set on foot a lively controversy as to what really is the stone which best withstands the city's atmosphere. Perhaps a generation hence the answer will be none, says the London Chronicle, and the re-enforced concrete system now on its trial will have established itself. Portland stone has been chined generally as the city's most useful building stone, but there are doubters now, and the conclusion seems to be that science alone can counteract the ravages of London's atmosphere by artificial coating of exposed faces of the stone.

Soldier Cashed as a Note. A soldier presented himself at the commonwealth treasury, Melbourne, and said: "I am a £20 note and want to be cashed." He stated that he had swallowed the note at Fleurbach when he expected to be captured. He remembered the number, and the note in question turned out to be the only one missing from a particular issue which had been reported. The man was given a new note.—Central News.

The Greatest Cotton Sheds. The largest cotton storage sheds in the world are being erected at Hall, England. These accommodate 50000 bales at one time under ideal conditions. There are all facilities for inspection of the cotton in the best light and also for removing any particular bales regardless of their position in the pile. This is done by a remarkable piece of mechanism recently invented.

Still to Be Considered. "Of course you are in favor of women voting." "I'm in favor of votes for women," called Mr. Meekton. "But I expect the decision will rest entirely with him as to whether or not they take the trouble to go to the polls."

THE DOOKIES WILL BE IN TOWN. And with them the Knights of Pythias and Pythian Sisters with their families and friends also visiting knights and sisters are requested to meet in Masonic temple on New Year's eve and be entertained with a program of music, speeches, dancing, cards, etc. After which a "Dookies" will wear a fee. COMMITTEE. Adv. 2x

ASHurst SPENDS MANY HOURS ON TRAIL OF WILSON

Arizona Senator Seeks Information Concerning Mine Assessment Bill NowAwaiting Signature

WASHINGTON, Dec. 28.—Pursued by his constituents for information as to the fate of the mine assessment bill, sent by congress to the president December 11, Senator Ashurst, democrat of Arizona, today spent several hours trailing the measure through the executive offices, the interior department and even the white house itself and found nothing beyond the fact that the president had not yet signed the bill.

The senator from Arizona, bent on his mission of obtaining information walked to the white house executive offices shortly after one o'clock and found Secretary Tumulty absent. Being told that the bill of which he was seeking information from the president and having pressed white house attaches vainly to announce to the president his desire for a conference, Senator Ashurst, walked directly up the path leading to the residential section of the white house, declaring that "as an American citizen and a resident of this city, I proposed to obtain information. At the white house door the senator was met by an attendant who led him to a seat within and went to seek Mrs. Wilson. The president had just finished his lunch and had returned to his study on the second floor. Mrs. Wilson drew the white house attendant to tell the senator he would have to take up his business first with Secretary Tumulty, as the bill has not been received by the president, whereupon Senator Ashurst retired again to the executive offices in pursuit of the bill.

CONFIRM FINDINGS.

LOS ANGELES, Dec. 28.—Captain R. Moffatt, in charge of the detective bureau of the local police department, today announced that a second investigation of the death of Lieutenant O'Brien, war aviator, in a downtown hotel, December 17, confirmed the findings in the first investigation only a couple of blocks when the executive offices received word that

ASHurst SPENDS MANY HOURS ON TRAIL OF WILSON

Arizona Senator Seeks Information Concerning Mine Assessment Bill NowAwaiting Signature

WASHINGTON, Dec. 28.—Pursued by his constituents for information as to the fate of the mine assessment bill, sent by congress to the president December 11, Senator Ashurst, democrat of Arizona, today spent several hours trailing the measure through the executive offices, the interior department and even the white house itself and found nothing beyond the fact that the president had not yet signed the bill.

The senator from Arizona, bent on his mission of obtaining information walked to the white house executive offices shortly after one o'clock and found Secretary Tumulty absent. Being told that the bill of which he was seeking information from the president and having pressed white house attaches vainly to announce to the president his desire for a conference, Senator Ashurst, walked directly up the path leading to the residential section of the white house, declaring that "as an American citizen and a resident of this city, I proposed to obtain information. At the white house door the senator was met by an attendant who led him to a seat within and went to seek Mrs. Wilson. The president had just finished his lunch and had returned to his study on the second floor. Mrs. Wilson drew the white house attendant to tell the senator he would have to take up his business first with Secretary Tumulty, as the bill has not been received by the president, whereupon Senator Ashurst retired again to the executive offices in pursuit of the bill.

CONFIRM FINDINGS.

LOS ANGELES, Dec. 28.—Captain R. Moffatt, in charge of the detective bureau of the local police department, today announced that a second investigation of the death of Lieutenant O'Brien, war aviator, in a downtown hotel, December 17, confirmed the findings in the first investigation only a couple of blocks when the executive offices received word that

Mr. Tumulty was not in the white house and was supposed to be in the interior department. Mr. Ashurst, recalled the name and upon Mr. Tumulty's part requested a "check" and a statement as to the status of the bill. He was informed by the secretary that everything possible would be done to expedite action on the measure. Senator Ashurst thereupon set out again for the interior department in quest of whatever information might be obtained there. Secretary Tumulty, during the senator's absence and upon return of President Wilson from his daily automobile ride, went to the white house for a conference with the president. Senator Ashurst shortly after six o'clock visited the executive offices for the fourth time and announced after his visit that he had been promised an answer by telephone within an hour after Mr. Tumulty had talked with Secretary of the Interior Payne at Pineau, N. C.

Senator Ashurst at 7:30 had received no word from the executive offices and announced newspapermen that he would wait no longer as he had an engagement.

FORM COMMITTEE TO GIVE RELIEF TO IRISE

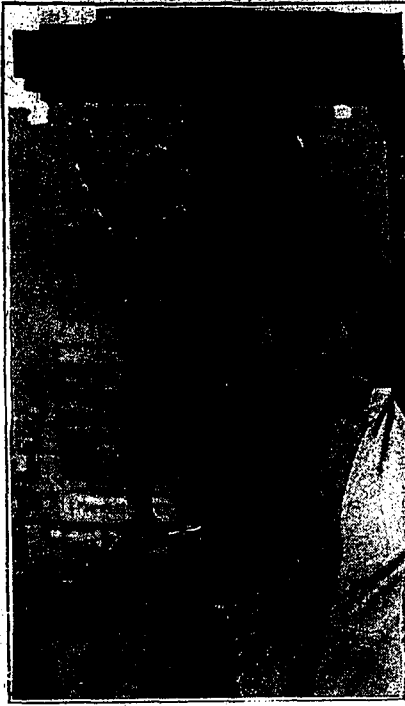

NEW YORK, Dec. 28.—Formation of the American committee for relief in Ireland with a preliminary fund of \$300,000 to complete organization work and start relief work was announced at a meeting today of business men of Irish ancestry from various parts of the country. Cardinal Gibbons of Baltimore heads the list comprising the committee's national council. Morgan J. O'Brien was elected chairman of the temporary executive committee, and J. J. Puley, president of the Emigrant Individual Savings bank, treasurer.

TILDEN WINS FIRST.

AUCKLAND, New Zealand, Dec. 28.—William T. Tilden II, world's champion tennis player for 1920, defeated Norman E. Brooks of the Australian team here today in the first event of the Davis cup championship tournament. Chronicle want ads. bring results.

NASH QUICK AND ECONOMICAL TRANSPORTATION. NASH Trucks are equipped with electric lights and starters. The electric lights enable them to perform satisfactorily at night as well as by day and the starter saves fuel because the driver can shut off his power when the truck is left standing and start again with no effort on his part. Morris & Company, The Standard Oil Company, The Palmolive Company and The American Steel Foundries are among the nationally known firms using Nash Trucks. Magel Bros. Garage, Inc. Dealers. Twin Falls. Prices f. o. b. Kenosha. One-ton Chassis \$1895. Two-ton Chassis \$2650. Nash Quad Chassis \$3250.

Air Police Chief "Keeping Fit"

Captain Charles N. Fitzgerald, daredevil aviator, who commands New York City's new air police, does stunts like this "just to keep in trim." Sixteen stories below you see Broadway.

GOVERNMENT ADDS TO INDICTMENTS OF HOUSE TRUSTS

New York Receives Aid in Effort to Break Up Building Trust Organization.

NEW YORK, Dec. 29.—The federal government added its legal fiat to the whims of New York state's "trust smashing" organization today by returning indictments charging violation of the Sherman anti-trust act against four sand concerns and 11 individuals recently investigated by the joint executive committee.

Meanwhile the committee uncovered, as some of the most extensive co-operative organizations of manufacturers and contractors which daily in query over 10 weeks has brought forth. It was shown that hundreds of firms in all lines of trade throughout the country exchange through clearing houses the names of prospective buyers, their bids and signed contracts and also daily reports of stocks and bond and shipments.

These practices, carried on under programs advocated by the late Arthur Jerome Eddy, and his economic disciples, were characterized by Samuel Untermyer, committee counsel, as "team work to fleece the people."

A Chicago attorney, William J. Matthews, acting as counsel for a group of several of these societies, admitted in testifying today that he was employed to stir the concerns banded together under his direction "with, in the anti-trust laws."

Denying that the members of these societies after traveling over the country to attend meetings ever discuss future prices, but that they talk merely of past and present prices and exchange views, Mr. Matthews conceded. Mr. Untermyer's claim that these business men were "skating on very thin ice."

The witness defended the plan on the ground that it established prices, denying however that it made them uniform.

Other advantages of the plan, Mr. Matthews said, were that it does away with secret robbing, eliminates secret prices and puts the purchaser and seller on a ground of equality.

ABBASZIA, Dec. 28.—The taking of Pluma, from the post-commander has all the accompaniments of war, with this exception, that if life can be spared, it will be. Bombardments by the artillery and battleships, machine guns and bombs, with intermittent rifle firing continued throughout the day.

The regulars are well within the city. They occupy half of the city; while D'Annunzio's forces, ambushed in the houses, react with determina-

tion in the ever decreasing semi-circle which has as its base, the sea. The Italian regulars are displaying perfect discipline.

MOORE SCORES KAYO NEW YORK, Dec. 29.—Roy Moore of St. Paul scored a technical knockout over Jack Sharkey after one minute of fighting in the 11th round of a scheduled 16 round match here tonight. Both men are bantamweights.

BRITISH ENVOY TO DISCUSS EXCHANGE OF DEMAND NOTES

Representative Here to Confer With Secretary Houston Regarding Long Time Obligations.

WASHINGTON, Dec. 29.—A representative of the British treasury will reach this country soon, Secretary Houston said today, to continue in Washington the discussion of the exchange into long time obligations of the demand notes of the British government held by the United States.

Discussions with the English representative, Secretary Houston said, will be confined to the execution of the obligations of that government as it is the policy of this country "to prevent any such exchange of the allied nations to whom loans have been made."

Discussions carried on in Europe with the other nations indebted to the United States, the secretary said, have not reached a stage so advanced as those with the British government. The British negotiations, he said, had progressed to the point of a general understanding but the details remain to be worked out and will be taken up with the British treasury officials here.

The questions of interest rates and of the forms of the various long time bonds which may be adopted are yet to be decided, the secretary intimated.

"The obligations should contain suitable provision for their conversion into bonds of small denominations or for their payment, at the option of the obligator, in lieu of such conversion," Secretary Houston said. "To prevent or curtail gold exports from the United States they should contain an agreement by the debtor government to offer demand drafts payable in its currency of a quantity to be fixed, substantially in the gold export limit, and to apply the proceeds to deferred interest and then to principal, current interest to be adjusted accord-

ingly. Sinking fund payments should be worked out and will be taken up with the United States in the currency of the debtor government at the par of exchange, if the holder shall so request."

Actual exchange of the securities will not be made at the coming conference here, the secretary said, adding that the documents of the agreement of probably would be drafted for presentation to each of the contracting governments before the transfer of securities is made.

HOMEMADE BOMB KILLS ONE AND WOUNDS TWO

NEW YORK, Dec. 28.—Declaration that he "learned how to make bombs from the dictionary" and that one of his homemade products killed a child and probably fatally injured another boy, and himself injured today was made by Robert Bramm, a Brooklyn youth, the police said today. Bramm, who first claimed he had found the bomb at Bergen beach about 11:00, confessed, the police say, he had made bombs and had "set them off" in an outlying district, "to hear the noise."

The boys were in Bramm's home unscrubbing a piece of gas pipe, loaded with powder and cartridges when it exploded, killing John McKenney, Jr., 18 years old, and severely wounding Bramm and Paul Glandow, 17. Little hope is held at the hospital for Bramm's recovery, while Glandow has failed to recover consciousness.

AVIATORS OPTIMISTIC SAN DIEGO, Cal., Dec. 29.—Optimism and a spirit of readiness prevailed tonight at North Island navy aviation station in San Diego bay, whence tomorrow a fleet of 14

seaplanes will take off on a flight half again as long as that across the Atlantic.

INSURANCE MAN ARRESTED. LINCOLN, Neb., Dec. 29.—Houghton N. Kenyon, general manager and treasurer of the Bankers Fire Insurance company, was arrested here today on a charge of embezzlement. His arrest followed two complaints signed by Attorney General Davis charged Kenyon with embezzlement of about \$116,000.

CAHURA HAS PLEURISY. NEW YORK, Dec. 29.—Enrico Caruso, who has been seriously ill in his apartment here for more than a week has developed suppurative pleurisy.

TUBERCULOSIS. Dr. Glass has a positive prognosis that the patient will recover from tuberculosis by inhalation in a hospital. For further information address THE T. P. COLLINS INFIRMARY Co. Mason Bldg. Los Angeles, Calif.

CHICAGO, Dec. 22.—An annual national meet, in which every college and university in the United States would have representatives, and the formation of an Olympic association to take charge of and interest itself in the American Olympic committee were endorsed at the first annual meeting of the "association" today. Committee reports favoring legislation of interest to college athletes, as well as undergraduate bodies, were made in addition to the transaction of routine business.

The suggested track team would bring together athletes from all over the country, and would be in the nature of an annual American college Olympic. The resolution which was passed regarding an Olympic association would place in it the responsibility for naming a representative committee which would see every endeavor to bring together the American college athletes.

A. A. Bennett, director of the University of Chicago, declared the committee should be representative of the entire country, whether of high school associations. "The purpose of the association is to coordinate the efforts of the various athletic organizations, president of the association, who presided, declared that he had called a widespread meeting in Chicago to bring together the various athletic organizations. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.

He declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.

He declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.

He declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.

He declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.

He declared the college athletes' union to reduce the number of rejected men in the country during the winter months. He declared that he had called out the district athletic associations in the past year and had declared the college athletes' union to reduce the number of rejected men in the country during the winter months.
