BUYS BOND WHEN CROWD EXPRESS ITS INDIGNATION

RICHARD HANSSING MADE QUICK INVENTORY AND INVESTS \$250

IS EXTRACTED BY POLICE OFFICERS FROM CENTER OF TROUBLED AND WELCOMES OPPORTUNITY TO EXPRESS PATRIOTISM

Persistence in the statement that he was unready then to buy Liberty Bonds involved Richard Hanssing, retired farmer of this city, in a controversy with volunteer bond salesmen of this city here Saturday afternoon. He was attracted for some such measure as seemed to him necessary to preserve order. Hanssing returned to his home on Fifth avenue east after the crowd had dispersed. He told the officers that he had refused to buy Bonds because he had not yet outlined his financial ability to do so, but that it was his intention on Monday to make such investment. He said that he had bought a \$50 bond of the second issue and had contributed \$10 to the Red Cross. He has six sons who are subject to the draft and has other relatives who are in the allied armies on the European battle fronts, he said.

Gives Statement of Worth

He said that he believed that his financial status had been overrated. He is the owner only of his residence property in Twin Falls, he said. A farm, held in his wife's name, had been sold recently to a former partner, and other pieces of property on which he had made a partial payment had been sold at sheriff's sale last week, he said. Hanssing is of German parentage, but is American-born, he said. He is 78 years of age. He came to Twin Falls from Oklahoma five years ago. Prior to the United States declaration of war against Germany he admitted he had expressed the opinion that Germany would win the war, but since that time he said, he had carefully refrained from expressing an opinion.

Wants America to Win

"Certainly, I want to see America win the war," Hanssing said when Sheriff Kendall reminded him that neutrality has no place in the present crisis. "This is not only a duty but a privilege," he said when V. H. Ormsby, member of the county council of defense, handed him an application for a Liberty Loan Bond for his signature.

NEXT DRAFT TO TAKE 37 MEN FROM COUNTY

GOVERNMENT CALLS 160,000 TO REPORT TO THE CAMPS IN APRIL

ENTRAINMENT DATES YET TO BE DETERMINED BY SCHEDULES WORKED OUT BY RAILROADS—CLASS ORD ALONG EASILE

Thirty-seven of the 604 men Idaho is asked to furnish in the next draft will go from Twin Falls county. The registrants will begin to entrain April 26 and for five days after that date they will be leaving Idaho for American Lake.

The schedule of departures for the men of the several counties must be worked out by the railroads and until they are made up it will not be known on what days the registrants from the different districts will get away for the training camp.

All of the registrants to be called for service this month will be sent to the training camp. The county sent 15 men into the service last month. When the government has made up the schedule as a whole it will be sent to the training camp in the morning draft. The county clerk, Captain Frank A. McCall of the adjutant general's office, the government will probably call 100,000 or more men every 30 days or six weeks this summer until the training camps are again filled.

BAND RAISES FUND FOR DONATION ONLY

Proceeds of War Benefit Dance Not for Investment, But Free Will Offering

In the O'Connell hall Monday evening the Twin Falls band will give its third war benefit dance. In preparation for this event, members of the band have been rehearsing new music and are donating their time and labor to the cause as a means of contributing what they can to the prosecution of the war. Proceeds from the first occasion in February were spent for supplies for the Twin Falls soldiers in foreign service. The band treasury still holds the proceeds from the second affair which will be added. The band will not buy Liberty Bonds with this fund, which is not raised for investment but for donation to the cause.

DR. DONALDSON TO GIVE KEYNOTE SPEECH

Takes Place of Rev. Willis Martin for Patriotic Address at Sunday School Convocation

Due to conflict in the plans of the state council of defense and the state Sunday School association, Rev. Willis Martin of Boise, who was to have addressed the convocation of the latter organization here Wednesday, is scheduled for an address in north Idaho on that day, under the auspices of the council of defense. His place here will be taken by Dr. R. M. “Keep the Home Fires Burning”

Tonight there will be American boys in lonely listening posts far out in the desolation of No Man's Land, American boys in the darkness and the mud and cold of the trenches under the ceaseless thunder of guns and the scream of shells, American boys tramping along high-black, shell-torn roads.

Through the long, dreary hours, as they wait and watch in the dark, while dangers lurk on every hand, their thoughts turn to the homes they have left behind, homes on distant farms, in scattered villages, in great cities, and they see in imagination the pleasant home lights shining out into the night.

They Are Fighting Keep Those Home Fires Burning

You back here in the peace and safety of the homes they love can help in the bitter struggle that our boys must face tonight and tomorrow night, and every day, and every night until the final VICTORY is won. You, too, must work to keep the home fires burning—for our sons in France.

They need tanks and transports and airplanes, good food and warm clothes and medicines and hospital supplies—an ever increasing abundance of all the vital materials of war, if they are to drive the ruthless German invaders back within their own borders, and establish for all time the sacredness of American liberty and the safety of America's homes—their homes, our homes.

They need guns and more guns, shells and more shells,

these lads that are fighting and dying for you—do your share to send them to VICTORY. Invest today in Bonds of the Third Liberty Loan—ALL the bonds you can. Keep the home fires burning.

THIS DAILY NEWS

We believe that the Twin Falls Country is entitled to something better in the way of news.

In offering the Twin Falls Daily News to the public we are proceeding on the hypothesis that there is a heavy demand for daily news.

The decision to publish a daily newspaper here was not made on the spur of the moment.

The Daily News has its own leased wire/tele-operator and is in a position to give a message by wire at all hours.

Local news will be handled in regular form. Wire matter, when of importance, will, however, be given preference.

The Daily News will range in size from four to eight pages, and may occasionally go into larger form.

A complete bulletin service on National events will be supplied to the public during the daylight hours at The News office.

With this edition, April eighth, nineteen hundred eighteen, the Daily News is given to the public in the earnest hope that it will prove of public benefit and merit the confidence and support of News readers, new and old.

OUR PART: There are those who profess to believe that the Allied counter-offensive is being too long delayed.

There are better men among the leaders of the Allied armies than can be found in Germany, added to which the strength which comes of a righteous cause must and will lend impetus to the guiding hand.

All over America a feeling of quiet confidence is rapidly taking the place of the mingled doubt, fear and hope which characterized the early months of our participation in the war.

It does not greatly matter, in a broad sense, whether the Allied advance begins today or a week from today. It will come. It is our business to know that it will come, to believe that it will come, and to help in our own way to make it a success when it does come.

We can best do this by buying Liberty Bonds.

By saving on the food-stuffs our Government has asked us to save on. By being outwardly and inwardly for America and the success of the Allied arms.

THE THIRD LIBERTY LOAN: Thereby, probably never, his Twin Falls paper, day of such wholehearted enthusiasm in a worthy cause, as was the case on the occasion of the opening of the third Liberty Bond subscription list on Saturday.

There is something richly inspiring about a crowd, no matter what the occasion of the gathering, when to the mere fact of crowds is added the will of the people bonded in a single direction, nobility of purpose and pride of accomplishment apparent in the manner and upon the faces of one and all that suggest the first ideal of co-operation is seen in its best and finest form.

Twin Falls looks forward to several hectic days of the same kind in the weeks to come. In order to succeed the same co-operation which characterized the opening day must be continued steadily to the end.

But there need be no minglings over the outcome. Twin Falls will not be found wanting.

URGE INCREASED HOG PRODUCTION ON SOUND BASIS

GOVERNMENT VETERINARIANS SAFEGUARD INDUSTRY

SEVERE TREATMENT DEMONSTRATIONS ATTRACT ATTENTION AS THEY BROODER MORE IMPROBEMENT BY PLAGUE EXORISM

Following up nearly four years' work as a result of which the hog cholera plague which formerly cost local swine growers thousands of dollars annually, has been practically eradicated from the Twin Falls district, the bureau of animal industry campaign, directed in Idaho by Dr. W. A. Sullivan, of Twin Falls, is being bent toward increasing the production of pork.

Surveys Show Increase: Safeguard thrown about the industry by elimination of the disease factor, together with incentive afforded by prevailing high prices for pork and general appreciation of the marketing of the product are believed to be the responsible for increase in the proportions of the swine industry in this district.

The state of Idaho is asked by the national food administration to increase its production of pork 15 per cent over last year's figures to meet war demands. The bureau of animal industry advising every farmer to keep one head of swine for every 40 acres of land in order that no production may assume its normal proportions.

Abundance of alfalfa for feed and the value of the hog as a consumer of waste products are pointed out in argument for increasing swine production.

Records in the office of the Twin Falls station, bureau of animal industry, show that there has been no case of hog cholera reported since 1914. Demonstration of the method of treatment with serum, so common at the beginning of the campaign for the eradication of the disease, in the summer of 1914, have become so infrequent as to attract considerable attention when they are had.

One of such demonstration, conducted last Thursday by Dr. Sullivan and Dr. O. D. Bishop of the local station, on the farm of L. E. Otto, Duro-Jersey breeders, at the state fair in Boise last year, where it won a prize. It was sold to the Utah sheep for \$75.

Dr. Otto's herd of what is probably the largest and best herd of Duro-Jersey hogs in southern Idaho. Recently he imported the prize winning sow from the Oklahoma state fair to beat his herd. He is making preparations to show some of his better animals at the Southern Idaho Fair in Pocatello on the state fair in Boise this fall.

EXPERTS COMING TO HELP WITH HARVEST

Federal Government to Co-operate With Idaho Farmers in the Wheat Fields

One of three specialists which the federal department of agriculture is sending into Idaho to assist the farmers in their endeavor to increase the amount of growing, reaping and marketing of wheat, will be stationed in the south part of the state, according to announcement of L. F. Fairbury, director of the state university agricultural extension department, in connection with which department the specialists will work. It will be their duty to show the farmers how to combat rust in the grain, assist the thrasher and elevator men in the overcoming of dust explosions, and teach the thrashers how to use fire extinguishers with their machines.

ASKS SAVING OF MORE WHEAT FOR THE ALLIES

NEW RULES PUT FORTH FOR INCREASED USE OF SUBSTITUTES

AMERICAN PEOPLE MUST REDUCE CONSUMPTION ONE-HALF, SAYS 'HOOVER IN FLEXING POSITION OF ONE AND HALF-POUNDS A WEEK

R. F. Dicknell, food administrator of Idaho, is in receipt of dispatches from Washington, D. C., outlining changes in the nation's conservation policy. Supplementary to the principal message the following was received Saturday and transmitted to the several county chairmen.

After explaining in detail the program, the urgent needs of the allies for increased production of sugar beets and our own short crop make necessary that the amount of substitution required in the baking of all wheat flour be increased to 25 per cent on all wheat. This situation may demand a still further increase later on.

After saying in his opening message that in order to meet the demands of the American allies about the American people must reduce their ordinary consumption of wheat from 42,000,000 bushels a month to 21,000,000 bushels, Administrator Hoover writes asking that the following rules be observed:

First—Bakers, who are to not to exceed a total of one and one-half pounds per week wheat products per person. This means not more than one and three-fourth pounds of wheat flour containing the required percentage of substitute, plus one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.

Baking Houses Limited: Second—Public eating places and clubs to observe two weightless days per week, Monday and Wednesday, as at present. In addition there is to be a first-class dinner for each 100 men an aggregate of breakfast, macaroni, crackers, pastry, pies, cakes, wheat breakfast foods containing a total of over two ounces of wheat flour.

Third—Retailers to sell not more than one-eighth of a barrel of flour to any town consumer at any one time and not more than one-quarter of a barrel to any country customer at any one time and in no case to sell wheat products without the sale of an equal weight of other cereals.

Fourth—We ask the bakers and grocers to reduce the value of "Victory" flour by delivery of the three quarter-pound loaf where one pound was sold before and corresponding proportions in other weights. We also ask makers not to increase the amount of their wheat flour purchases beyond 70 per cent of the average monthly amount purchased in the four months prior to March.

Fifth—Manufacturers using wheat products for non-food purposes should cease such use entirely. Sixth—There is to be no limit upon the amount of other cereals, flours and meals, corn, barley, buckwheat, potato flour, etc.

UNITE TO HELP IDAHO FARMERS. STATE ORGANIZATIONS TAKE STEPS TO HEAD OFF DILATORY ACTIVITIES. Council of Defense Leads in Preliminary Campaign Against Agitators in Hindering Planting of Sugar Beets. Use has been made in argument here for increased production of sugar beets the planting and care of the increased sugar beet acreage as indicated for Idaho, will be branded as pro-German and will be dealt with accordingly. The activities of the pro-German are seen in unduly agitating the so-called labor shortage on the farms, particularly with reference to the best fields. The sugar factories are operating under government direction. The chief business of this nation during the winning of the war. Everything else must be secondary. Every citizen, young and old, must do his or her full share aiding in every possible way. A definite program has been laid out for the people of the state of Idaho, indicating the things that our government expects us to do in our own wealth contributions. These plans have been made in conference with those in a position to reach intelligent, unbiased conclusions. The Idaho state council of defense, the food administration, the Idaho state farm store, the department of agriculture, state farm market bureau and all governmental agencies stand pledged to assist the people of this state to do their utmost. With the exception of a relatively few, our people are responding splendidly. Will Not Tolerate L. W. R. The L. W. R. agitators will not be tolerated. There are other agitators equally as dangerous and harmful. It's duty is plain. The state council of defense and the public officers will tolerate no further interference.
