THREE WARDS OF OKLAHOMA STATE INSANE ASYLUM DESTROYED—INMATES FIGHT RESCUE BY ATTENDANTS AND OTHERS

(By United Press.) NORMAN, Okla., April 13.—Thirty-five boy inmates of the Oklahoma state insane asylum here were missing in a fire which destroyed three frame wards early today.

Dr. B. W. Griffin, superintendent, stated at 8 a. m. that all inmates were accounted for except 35 boys who could not be reached before their building collapsed. It is feared they perished in the flames.

As rapidly as the smoldering ruins cooled, searching parties combed the debris for cremated bodies.

HEARST'S INTERNATIONAL

The News will not admit for a minute that there is no greater news disseminating agency on earth than the Hearst International News Service.

The Associated Press is the property of William Randolph Hearst and is used exclusively in Hearst newspapers and as a supplementary service in conjunction with either of the better known services by a few other newspapers.

The Associated Press was granted an injunction against the Hearst service restraining them from using Associated Press dispatches rewritten from the early editions of newspapers and sent out as their own.

The name of Hearst has figured in more than one episode of international interest, as for instance his connection with Bolo Pass, found guilty by the government of France of the greatest of all crimes in war and sentenced to death as a result.

As recently in this week it was in evidence before the Senate judiciary subcommittee that Hearst had offered to pay the expenses of an American delegation to a proposed convention in Europe in a movement which the witness said "met with the full approval of the German government."

Under those circumstances the actual foreign strength of the International will be seen at a glance. The reason given by the British and French foreign offices for disapproval of the service was the deliberate and repeated distorting and garbling of news.

As to the United Press, we have no apologies to make for it or its owners, and we regret that the attitude of the Times on the subject of The News wire service demands so frank a treatment of the matter.

AMERICA WILL GIVE ACCOUNT OF SHIP SEIZURES

ADHERES TO PRINCIPLES OF REGARD FOR RIGHTS OF SMALL NATIONS AND ACTS ONLY UNDER GERMAN COMPULSION

(By United Press.) WASHINGTON, April 13.—America adheres to its long established friendship and regard for small nations, and has actually applied it in the case of seizure of Holland's shipping.

As to Holland's objection that she had been used unfairly through denial of her right to gain for her ships in American ports, the formal reply points out that these commodities were America's and sadly needed for her own purposes.

The statement points out that Dutch ships will be replaced in kind if lost, that the United States is using only Holland's surplus shipping, and is in effect granting her agreement against the threats of Germany.

CASE OF ARMY WIDOW AND ONE-DAWG PROFESSOR TURNED OVER TO POLICE FORCE

CHICAGO, April 13.—The case of Professor William I. Thomas, of the University of Chicago, and Mrs. R. M. Granger, "army widow," who registered illegally at a Chicago hotel Thursday, was turned over to the city authorities by the federal department of justice today.

"I know what my husband will do," the young woman quavered when the officer was questioned by United States District Attorney Clyne. "He'll get a furlough and he'll come home and shoot me."

Thomas is the author of books on sociology, in many of which he expounds his own theories. Mrs. Thomas has been known as a worker for universal peace. She was a member of Henry Ford's Stockholm peace party.

LAWYERS UNDERTAKE TO MEND VAG LAW

COUNTY BAR ASSOCIATION ACTS IN RESPONSE TO STATEMENT OF MAYOR ON LABOR PROBLEMS

Appointment of a committee of three attorneys to draft amendments to the city ordinance to make the measure for the prosecution of vagrants more comprehensive and effective, was a result, at the meeting of the Twin Falls County Bar association here Friday, of the statement of Mayor F. P. Bracken on the labor situation. The committee, pursuant to motion adopted, was appointed by H. C. Hazel, president of the association, and is composed of City Attorney John E. Davies, Everett M. Swisher and James H. Dobwell. Its recommendations are to be presented to the city council at its next meeting on Monday evening next.

The existing ordinance provide no adequate means for bringing legal proceedings against certain idlers feasting the street corners who refuse to go to work and hold out for exorbitant wages, the mayor told the attorneys. Not only do they themselves refuse to work, but they influence others to permit idling, telling them that higher wages are to be secured, the mayor said.

Other business transacted by the attorneys at this meeting included the election of officers. By unanimous vote H. C. Hazel of Twin Falls was re-elected president, and Guy Kinsey of Twin Falls was re-elected secretary of the association.

Plans were discussed for an association banquet to be held within the next 10 days in honor of Carl L. DeLong, a member of the association, who expects to enter the military service as an ensign in the quartermaster corps. The meeting was held in the office of W. P. Gutrie, and was attended by practically all of the members of the association.

SHRINERS' RED CROSS FLOUR STILL SELLING

(By United Press.) SAN FRANCISCO, April 11.—The Shriners' Red Cross sack of flour has brought \$18,000 since it started around the country from Islam temple here. Charlotte, N. C., Oasis temple, sold it for \$1,000, and Crescent Temple at Trenton, N. J., got \$1,150 for it. Bridgeport, Conn., and Indianapolis have both sold the same sack.

On May 3, Islam Temple at Oklahoma City will sell the sack at its golden jubilee, and figure on getting at least \$50,000 for it. If they do, it will be the highest price ever paid for a sack of flour. The highest mark to date is \$49,000, paid for the famous "Civil War sack of flour in Virginia City, Nev." The Red Cross sack will be taken to the Shriners' imperial council in Atlantic City next June by Potentate John D. McCallury of San Francisco. The sack was started out by Clarence F. Pratt, historian of Islam temple.

WARM FRIENDSHIP FOR UNITED STATES IN THE ARGENTINE

PRESIDENT TRIGUERO ENTERS A FIRM DENIAL OF TRUTH OF ENEMY ASSERTIONS

(By Roy W. Hoar.) (Copyright, 1918, by the United Press.) BUENOS AIRES, April 13.—"Argentina is not indifferent towards the international conflagration now raging, nor is her course or her attitude to be construed as unsympathetic or cold towards the United States. The difficulties of her position possibly are not fully understood in the United States. What our past actions have been is known, even if they have sometimes been misinterpreted. Only future developments will shape our future in the policy but no misunderstanding of past developments, and certainly no prejudgment of Argentina's future policy to her disadvantage."

When interrogated regarding Argentina's misdeeds with Germany in the face of great popular demand for a declaration of war after Germany had affronted the republic, he said: "The position of a neutral is very difficult. It is not always understood by Anglo-Americans as the United States will appreciate."

"The misunderstanding of Argentina's position is quite evident to us, but it would not be well for the world to pre-judge Argentina's future course, in the event of further German affronts, except upon a full understanding of her past course and her present position."

"When she was affronted by Germany, Argentina, acting in accordance with international procedure, demanded an apology and reparation. When both were granted, Argentina, under the law, was unable to proceed further, regardless of individual opinions and national sentiments. When Germany made reparation upon our demands, our course was dictated as certainly as was that of the United States throughout the period of her long neutrality."

"It is no time now to discuss our course in the event of further affronts, but there is no justification for doubting us meanwhile."

When asked if he considered that Argentina's position parallels that of the United States after the Boston sinking, he replied in the affirmative, adding: "As the United States was stopped from action against Germany while Germany's flag regarding use of submarines had not been violated, and so Argentina is stopped now."

"Although herself rushed with war preparations, the United States does not mistake and is not blind to Argentina's sympathy and warm feelings, which we have expressed on every occasion, since the United States entered the war."

Your Bond May Bring Him Home in Safety

The supreme tragedies of war are not enacted on the battlefield, but in the home. Above the shouts of command and encouragement, the roar and shock of the great guns, and all the swelling tumult of battle which bear the husband and father to a hero's grave and a martyr's glory, there rise the weeping of the bereaved wife and the cries of little children deprived of a father's love and care.

American fathers are now on the battlefronts of France. Many must fall; how many depends upon us who remain safely at home.

A single Liberty Bond will help to save a soldier's life, your soldiers life, and bring him home in safety to those who hold his life far more precious than their own.

UTILIZING RICE HULLS

Experiments have been made with rice hulls in combination with different binding agents, but while the resulting briquets gave very satisfactory results from the standpoint of heating, yet the initial cost of the various binding agents made their cost too high for practical purposes. The experiments, however, are being continued, and it is hoped that in the future a material can be manufactured that will be satisfactory from an economic standpoint.

CATHOLIC—Corner of Second and Fifth street east. Rev. N. P. Hahn, pastor. Sunday masses at 8 and 10:30 a. m. Evening services at 7:30 with Holy Mass at 8 o'clock.

BAPTIST CHURCH—The subject of the sermon at the Baptist church tomorrow will be "Consecrating the new Christian Life." At the morning hour, 11 o'clock. In outlining this subject the pastor will define the nature and character of the Christian life, showing that it is not a commodity to be bought and sold. It is a gift of God, a gift of grace in which one may invest and hope to receive in return more than he put into it. It costs something to be a Christian, but it costs nothing to be measured in dollars and cents, however much money may be expended in the promotion of the kingdom of God. Its cost is always measured in terms of sacrifice, self-surrender and obedience to Jesus Christ. But Christ is not a mere master. He asks us to give up greater things, our little that we may receive his all. To use his language, "a hundred fold." And he says this compensation shall be partly in this life, and then the good man will be things in which it shall consist—in home, in loved ones, in joys unknown to the world, and in the end eternal life.

The subject of the evening sermon is "The Fullness of God in Christ." In this discourse we seek to show that the true revelation of God to men, that he satisfies the longing of those who want to know God when men come to know Him and understand Him. Both the morning and evening discourses are very practical and the heart of the message in each is timely.

Sunday school at 9:45 in the morning, and Young People's meeting at 7:30 in the evening. The pastor of the church expects to go on Monday morning to Camp Gooding where he will remain for two or three weeks doing Army Y. M. C. A. work in the camp among our boys. He does not feel that it is the part of wisdom to resign his church and go definitely into military service, but he has been directed to the camp and perforce engaged in the work for awhile, and the Y. M. C. A. organization permits this course. If it seems best for one to remain in the work after he has tried it, he will be glad to have the church adapted for the work, which involves physical hardship to a point almost equaling that of the soldier, he can return to his former work.

MANY MILLIONS LOANED FARMERS BY LOAN BOARD

DISBURSEMENTS UNDER FEDERAL ACT OVER 77 MILLION DISTRIBUTED AMONG THOUSANDS

WASHINGTON, April 13.—The government, through the federal farm loan board, has loaned \$77,927,167 to the farmers of the United States since the federal farm loan act was passed. Figures made public by the farm loan board here today show that 34,145 farmers have taken advantage of government interest rates in paying for their land and equipment.

Extensive agricultural areas are clearly indicated in the reports of loans made in each state. Texas, with the largest acreage, leads with loans of \$6,200,477. However, the states of North Dakota and Kansas where loans of \$6,068,600 and \$5,001,200 respectively have been made, are regarded by farm loan officials as having depended more on government aid than any other.

CHANGE BASIS OF DRAFT SELECTION

(By United Press) WASHINGTON, April 13.—Following a bitter three-day fight the house today passed amendments to the draft law, providing that men for the national army shall be selected on a basis of the number of men in class one, rather than on population. The measure passed by a vote of 225 to 2. Burnett, Alabama; Gordon, Ohio; and Huddleston, Alabama, were the only representatives voting in the negative.

Charging that scores of young men of draft age have been appointed to safe and easy berths by reason of the wealth and influence of their families, Representative Anthony, Kansas, today directed a bitter attack on the war department.

CONVENTION ADJOURNS TO GO TO EMMETT

FIRST SESSION OF SUNDAY SCHOOL WORKERS OF STATE DECLARED INSPIRATIONAL

The twenty-second annual convention of the State Sunday School association, prior to adjournment Friday noon following the first session here, elected the following officers for the ensuing year: president, H. C. Hildreth, Parma; vice-presidents, Rev. S. J. Cheney, Blackfoot; Rev. J. H. Baud, Rexburg; Rev. W. H. Hargam, Twin Falls; Rev. Walter Clever, Pocatello. Rev. J. E. Steiner of Hartman was elected as a member of the executive committee. Election of these officers will be ratified and the other officers of the association will be elected at the second session of the convention which begins at Emmett on Wednesday, April 17.

American Falls Invites
Invitation presented by the delegation from American Falls, Idaho, that the next year's convention be held in that city, was referred to the executive committee.

Delegates, expressing pleasure with reception given them here, declare that the sessions of the convention in Twin Falls were of highest inspirational value. The challenge of the war to the Sunday schools was the theme of the conventions, and wartime emergencies and duties figured most prominently in every discussion and address.

Closing Session

The closing session of the convention Friday forenoon was the occasion for able address by Dr. A. H. Brand of Twin Falls, Boy Roadneck, Christian church Bible school superintendent, of Spokane, and Rev. E. W. Halpey, representative of the International Sunday School association of Toronto, Canada. Dr. Brand, who has been recently called from the east to occupy the pulpit of the First Presbyterian church of Twin Falls, brought new and inspirational ideas to the delegates. He urged the importance of careful study of the Bible as the Sunday school workers' text book.

Should Enlist Youth

The capability of young men and women in the teen age and the duty incumbent upon the Sunday school in enlisting them in its work was developed by Mr. Roadneck in his talk on "Youth and the Church." The closing address of the convention was made by Mr. Halpey. His subject was "The Trust Given to Idaho" which trust, he declared, so far as the Sunday schools are concerned, is one involving the necessity for building character in the children and providing the proper atmosphere in which they are to be reared.

The convention was and means committee reported an outline suggesting the additional policy to be pursued by the association, and it is to be adopted at the Emmett session.

To Elect State Leaders
Mrs. L. M. Ormsby of Boise, secretary of the state association; Mr. Roadneck, Mr. Halpey and Dr. Brand have been elected.

been invited by the girls' conference of Kimberly to attend a banquet to be given there in their honor Saturday. At 8 o'clock Saturday evening they will address a mass meeting of Kimberly young people.

On Sunday next Mr. Roadneck, with Rev. J. E. Steiner of Hartman, will go to Burley to address a meeting of the several churches and Sunday schools of that city, while Dr. J. D. Spighton of Portland and Mr. Halpey on that day will be in attendance at all day meetings of the churches and Sunday schools of Blackfoot.

STUDENTS AT FILER WILL RAISE BEETS

SPEAKERS AT ASSEMBLY SHOW IMPORTANCE OF SUPPLYING SUGAR TO SOLDIERS.
Several students of the Filer high school agreed to undertake the growing of beets this year and all of them pledged their support to the industry that is depended upon to increase the sugar supply for the nation and its armies at the battle fronts. Their decision was indicated at an assembly Friday morning which was addressed by C. D. Thomas, chairman of the Liberty Loan drive in Twin Falls county; W. P. Alworth, president of the county farm bureau; Miss Gertrude Denke, county home demonstration agent, and Donald McLean, county agricultural agent.

A telling argument in behalf of the sugar production campaign was delivered by Miss Denke in the statements that sugar will sustain the energy of the fighting man in his minutes and quicker than will any other article of food. She cited also the fact that the blood of the sugar consumer coagulates more rapidly than that of one deprived of sugar, and that soldiers, especially in positions where they are liable to be wounded, should have their full ration of sugar.

WOMEN TO BE NAMED ELECTION REGISTRARS

County Commissioners at Work on List of Officials Required by the Change in Law

Pursuant to the terms of the state law altered by the last session of the legislature to require the registration of voters prior to setting the county commissioners are preparing a list of registrars to serve in the several election precincts.

In practically all cases, it is announced, women will be appointed to these positions.

The law requires that registration books shall be opened in each precinct on the first Saturday of the month of May and that they shall remain open up to and including the Saturday next preceding the date of the primary election. The registration books are to be closed at that time until the Saturday following the primary election, at which time they shall be reopened for registration until 9 o'clock p. m. on the Saturday next preceding the date of the general election.

STAR PLAYER CALLED

(By United Press.)
NEW YORK, April 12—Ed Pfeffer, star right hander of the Brooklyn National League club, received orders today to report at once to the United States auxiliary navy reserve at the recruiting office in Chicago. Pfeffer enlisted last fall but joined the Dodgers during the spring training season, believing he would not be called for some months.

ENLISTMENT MAKES JOB FOR MAIL CARRIER

EXAMINATION TO FILL VACANCY ON CARLETON ROUTE IS ANNOUNCED—WOMEN ELIGIBLE

To fill the position of a mail carrier at Carleton, which recently by enlistment of the carrier formerly employed on the route, and to fill vacancies that may later occur on rural routes from postoffices in Twin Falls county, the United States civil service commission announces examinations to be held at Buhl and Twin Falls on April 27.

Women are eligible to take the examination, a ruling of the commission in accordance with the request of the postoffice department was announced to rural carrier examinations upon the same conditions as men during the continuance of the war.

Upon the honorable discharge from the military service of the carrier whose enlistment occasions the vacancy in the Carleton route, he will be assigned to other parts of the postal service or transferred to other positions in the classified service for which he may be eligible.

The person appointed to fill the vacancy may, however, upon the return of the soldier-carrier, be assigned to other parts of the postal service or transferred to other positions in the classified service for which he may be eligible.

COUNTY ASSOCIATION ELECTS ITS OFFICERS

Dr. A. H. Brand of Twin Falls, Chosen As President By Sunday School Workers

Delegates from Twin Falls county to the state Sunday school convention met here Thursday afternoon and elected the following officers of the county association for the ensuing year: president, Dr. A. H. Brand, Twin Falls; vice president, G. F. Bowles, Twin Falls; secretary and treasurer, Mrs. C. M. Simpson, Twin Falls. These officers constitute the executive committee of the county organization. Owing to the lateness of the season, it was decided to hold no county convention this year, but the departmental heads will be named and the plans for a campaign of aggressive Sunday school work in the county during the ensuing year will be outlined by the executive committee at an early meeting.

Dr. Brand, who was elected head of the county association, is the pastor of the First Presbyterian church of Twin Falls, recently called to that position from Ohio. Under his leadership, organization of the county ministerial association has been completed in his own church, and active Sunday school work is being inaugurated.

EXPLAINS PREVENTION OF GRAIN EXPLOSIONS

Government Chemist to Address Food Emergency Campaign Meeting in Twin Falls

As a part of the emergency campaign being carried on to secure a more general understanding of grain dust explosion and means of prevention, the grain expiration of the United States food administration, through the office of the county agent, is sponsoring a meeting for millers, elevator operators and farmers to be held in Twin Falls on Saturday, April 20, in the Leaning theatre, beginning at 3 o'clock in the afternoon.

Dr. H. H. Brown of the department of agriculture bureau of chemistry, who has been detailed to present the most detailed explosion work in the Pacific northwest, is to be the speaker at this meeting. In the course of his lecture, graphic illustrations will be exhibited by means of lantern slides and motion picture reels. Miniature grain dust explosion and some excellent views of threshing machines in operation blowing up and also equipped with protection apparatus, will be shown.

The investigations of the department of agriculture have developed the fact that the grain dust explosion problem has not been thoroughly understood by many millers, elevator operators and threshing machine men. As a result certain practices are being carried on which are felt to be dangerous and which may cause extensive grain damage by fire and explosions. A number of various disastrous fires and explosions have occurred during the past year, many if not all of which could have been prevented, the food administration declares.

PLEASANT VIEW HEARS TALES OF PATRIOTISM

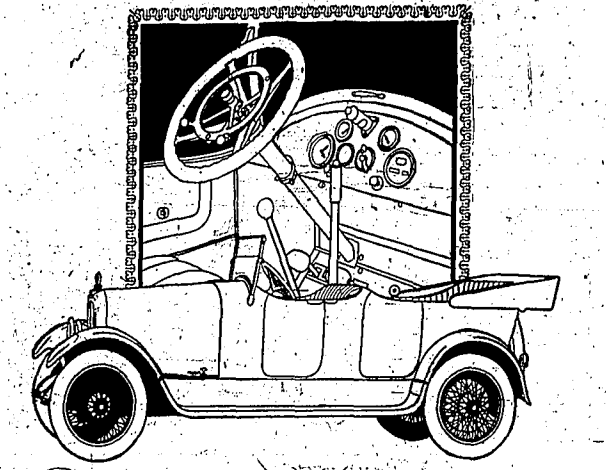

A patriotic meeting was held Thursday evening in the Pleasant View district under the auspices of the speakers bureau of the county council of defense and county farm bureau co-operatives. The speakers were E. B. Hargrave, W. P. Alworth and Miss Gertrude Denke, county home demonstration agent. County Agent Donald McLean presided. An audience of about 30 persons was present.

MARMON 34

Advanced Engineering

Every Control at the Finger Tips

"It is the easiest handling car of American manufacture that I have ever driven."

THIS is the verdict of a noted engineer who obtained his training in Europe. What this means in added safety and comfort is recognized by every motor car driver. A woman can drive the Marmon 34 with ease and without fatigue.

At all speeds, on country pikes and amid city traffic, the New Series Marmon 34 is always under instant control.

To change gears, or to use the emergency brake or the switches, the driver does not need to change his position. A slight foot pressure disengages the clutch.

Perfect balance and low center of gravity hold the Marmon true to any road at any touring speed.

A drive in the Marmon will convince you of the unequalled degree to which Marmon Engineers have obtained riding ease and roadability.

And just as the Marmon excels in this one respect, so does it in the many essentials.

We invite you to have this demonstrated—call, or telephone and we will call.

MOTORS INVESTMENT INDICATES BURL BUSY

Highway Improvement in the West End District Requires Four Big Motor Trucks

An indication of the extent to which the Buhl highway district is making use of its funds for road improvements derived from the sale of one-half of a \$400,000 bond issue voted last September, is the application received by the county assessor's office Friday for license for four heavy motor trucks and two automobiles. The trucks, a Kelly, Springfield, a Garford, a Mack and a White, together with the automobiles, represent an investment of approximately \$20,000. The trucks are all of the heaviest type and are continuously employed, it is reported, in road improvement work.

STILL ABLE TO FILL FARM LABOR NEEDS

Bureau Connects Thirteen Men With Jobs On One Day and Has Supply Left Over.

The county farm bureau, through the office of the county agent here, is still in position to fill all the applications for farm labor during the present period of jobs in position on farms. The number of jobs to be filled was not so great Friday, but the needs of five employments were fulfilled, and there remained on file the applications of nearly a dozen men wanting work on farms.

OUR Rabbits

The term rabbit was formerly more properly applied to the burrowing species of the old world, Lepus californicus (meaning to burrow), though by common usage our molly cottontail has long been termed a rabbit that the name will now stand, as will that of Jack rabbit for the big western hare of the prairie and Pacific coast.

INSPECTS RECORDS OF LOCAL BOARD

Sheriff T. L. Quaid, Sent by Adjutant General, Says Draft Affairs Here Straight

Records of the local draft board, particularly in reference to classification of registrants, were inspected Friday by T. L. Quaid, chief of the office of Keenan county, one of the officials designated by the adjutant general for that duty. A list of 68 registrants who failed to report or to turn in their questionnaires and who are classified as deserters was turned over to Mr. Quaid by the local board, and proceedings are expected to result immediately.

KNIGHT MOTORS DEVELOPED ABROAD

Mary Dickford's use of her Willys-Knight car in leading the recent Red Cross drive in San Francisco, was particularly appropriate, as the Knight motor has won conspicuous laurels on all European battle fronts. It was the Knight motor that drove the British tanks through hand-to-hand, and over the Hindenburg line at Cambrai. "The brilliant military achievements of the Knight motor being to mind its very complete history," says Mr. Goldworthy of Willys-Knight, "is a worthy local representative of the Old World."

In 1903 Charles F. Knight applied steam engine principles to automobile mechanics and the result was the Knight engine valve motor. American manufacturers were slow to accept the new type of engine. Knight took his invention to Europe. The leading automobile manufacturers of England, the Daimler company, put the new motor through the most gruelling tests and finally adopted it for use in their tanks.

AUTO ACCIDENT NEAR BURLEY IS REPORTED

Son of A. F. Baymiller of Buhl, Driver of Car Which Leaves Road—Girl's Arm Broken

An automobile in which several young people were returning to Buhl from Burley where they attended the state declamation contest, ran off the road about eight miles west of Burley Friday evening, when the headlights were extinguished from some unexplained cause. Miss Katherine Cairncross, one of the passengers, sustained a broken left arm. None of the others were injured. The party was compelled to walk back to Burley from the scene of the accident.
