BAILLEUL, FIRST OF OBJECTIVES OF GERMAN DRIVE, FALLS---YPRES IS IN GRAVE DANGER

HAIIG TELLS OF ENFORCED RETIREMENT

BAILLEUL IS POINT OF UT-MOST STRATEGIC IMPORTANCE ON NORTHERN FRONT--GERMANS ADVANCE IN WAVES

(By United Press.) LONDON, April 16--Bailleul, one of the most important strategic points on the northern portion of the Flanders salient, has been captured by the Germans, Field Marshal Haig reported today.

"We have fallen back north of Bailleul and Wulverghem," Haig said. "Bailleul is in the enemy's hands."

"Between Bailleul and Neuve Eglise yesterday evening an intense bombardment was followed by a heavy enemy attack by three picked divisions (35,000 men) which had not previously been engaged. They succeeded after a fierce and bitter struggle in carrying the high ground southeast and east of Bailleul, known as Mont de Lille and Le Reveteburg."

Both Towns Abandoned The British have abandoned both Bailleul and Wulverghem, Haig's report indicates, but the Germans have occupied only the former city. Wulverghem, which is dominated by Messines ridge, on the north, probably is still held by British artillery fire from that height.

Bailleul has been the scene of the most desperate fighting in the entire Flanders drive. It was the stronghold from which the British pushed back the Germans from the northern edge of the Flanders salient. It guarded the entire Ypres salient from the south and its fall endangers the British positions in Ypres, on the Messines ridge and in Zonnebeke.

Way Westward Opened Bailleul is the first of the main geographic objectives of the German drive to fall. It is located on the Arras-Hazebrouck railway, midway between the two cities. It is one and a half miles from Neuve-Eglise, which is also now in German hands. The way now appears to be open westward to Bailleul, the most important railway and highway center in Flanders, and northward to Ypres, around the western edge of Messines ridge.

Bailleul before the war was a town of about 12,000 persons. It was of excellent construction, according to gazetteers and was of Flemish design. Grape growing was a large industry in Bailleul before the war. Recently the city was set afire and half of it destroyed.

Some Prisoners Taken Fresh German attacks in the neighborhood of Wytschaete (four miles southwest of Ypres) and southwest of Vieux-Berquin (four miles southwest of Bailleul) and the same distance due north of Merville) were repulsed this morning, Haig said. A number of German prisoners were taken in a minor operation near southeast of Robecq (a mile and a half south of St. Venant).

TEXAS IS VIRTUALLY IN THE DRY COLUMN (By United Press.) AUSTIN, Texas, April 16--Enforcement of a state law prohibiting sale of liquor within ten miles of any military or naval establishment or shipbuilding plant, effective at 9:30 last night, placed Texas virtually in the dry state column today.

At Fort Worth 184 adoptions went out of business. Practically all other large cities except those already dry by local option, were affected.

SECRETARY BAKER HAS CONFIDENCE IN U.S. TROOPS

RETURNS WITH PRAISE FOR FRENCH FIGHTING FORCES AND PLENTY OF FAITH IN AMERICA

WASHINGTON, April 16--Secretary of War Baker returned to this country from his inspection tour in France, landing this morning at an Atlantic port. Baker notified officials here by long distance phone of his safe return. He plans to return soon to Washington.

"I have a feeling of pride and confidence in the American army and its achievements in France," Secretary of War Baker said at an Atlantic port on his arrival from Europe.

"The things I have seen on the other side," he said, "would justify our making many trips to France. We judged here this morning, after a quiet and uneventful voyage."

Baker spoke highly of the morale of the French forces. He was abroad when the big German offensive started.

LEAVES NOTE TO BROTHERS, THEN TAKES OWN LIFE

OLIVE TIMMONS OF TWIN FALLS, WITH WOUND THROUGH HEART, IS FOUND DEAD

With a wound through her heart from a .38 calibre revolver which was found near the body, Miss Olive Timmons, daughter of Mrs. J. Large, of Twin Falls, was discovered early Monday morning in the ranch house of F. E. Slocum, two miles south and one mile west of Jerome, where she had been employed for about 60 days part as a cook. A note left by the dead girl convinced a coroner's jury at an inquest convened Monday afternoon, that the case was one of suicide.

Physician Testifies Testimony of a physician who was called to examine the body was that there was no evidence of violence, and the girl's employer was absolved of blame in connection. A Japanese laborer who reported the finding of the body to persons in Jerome had stated that Slocum had shot the girl.

The note left by the girl read: "Goodbye, Walter and Everett. I am going to die. My name is Olive Timmons. It is presumed that the names mentioned in the note are those of brothers. The girl's mother went to Jerome Monday afternoon, in response to word of her daughter's death."

HAND OF GERMAN IS SEEN IN FILM LOS ANGELES, April 16--Robert S. Goldstein, film producer, today faced a maximum sentence of 20 years in prison, following his conviction on a charge of producing "The Spirit of '76," an alleged seditious film.

Evidence at the trial established that Goldstein was in communication with German consular agents while he was planning the production.

THE DAY'S WORK Over 500 persons had enough confidence in the Daily News to subscribe during the first week of its existence.

FRESH TROOPS ARE RUSHED STEADILY ON

GERMAN ONSLAUGHT BEING CONTINUED--NEW STORM FORCES HURLED NORTH PAST BAILLEUL AND NOT FIGHTING IS STILL GOING ON

BY WILLIAM PHILIP SIMMS United Press Staff Correspondent WITH THE BRITISH ARMY IN FRANCE, April 16--The Germans are in Bailleul. Von Stettin's fresh troops attacked from the south, while Von Carlowitz hurled storm troops northward past the city, on the east, simultaneously assaulting Le Ravelsberg heights, which are the southernmost bastions of an agglomeration of small hills rising out of the pancake lowlands of Flanders. Several divisions swept against Bailleul.

Hurrying reinforcements, Hindenburg is attacking heavily from north Merville to Neuve-Eglise. Paris takes in the political right center of the German drive. From Merville to Neuve-Eglise is 11 miles; in an air line, but the front covers nearly 15 miles and embraces Merville, Vieux-Berquin, Meris, Motron, Bailleul and Neuve-Eglise.

French Mortars active A heavy trench mortar bombardment preceded the capture of Bailleul. The attacking forces included a German Alpine corps, the 117th, and the eleventh division. At least three divisions followed up the German barrage between Bailleul and Neuve-Eglise, where the British lines were bent, but not broken.

Bailleul was taken during the night. With it fell Lohaveburg ridge, between Bailleul and Neuve-Eglise.

Runs Hurled Back North of Merville the enemy attempted to storm British positions on the eastern edge of the Kippe forest. The attacking forces on the southern flank were caught under British shell fire and failed to progress. On the northern flank they developed the attack fiercely but were smashed, where they reached their objectives and were thrown back on Bailleul.

The fighting began early in the night, which was of pitch blackness. On the Somme battlefield, Von Des Marville's artillery is appealing with showing the German second army is battling with guns. There is considerable shelling of villages behind the British front.

BOND SUBSCRIPTIONS PASS FIRST BILLION WASHINGTON, April 16--Liberty loan subscriptions are passing the first billion dollars today.

Figures from eleven of the twelve federal reserve districts showed a total of \$890,405,200 up to the close of business yesterday. No official reports have yet been received from the Big Mineau district, which has been in receipt of orders yesterday. Unofficial reports from there, together with today's work, however, will carry the roll of liberty dollars well over a billion, it is believed.

TO COMMAND AUSTRIAN BRIGADE (By United Press.) COPENHAGEN, April 16--Gunnar Corning, who resigned as American foreign minister, has received command of an Austrian brigade on the Italian front. It was learned here today.

There was a sharp conflict of opinions here concerning a proposed campaign by Karl on Sunday morning, it is said. Later, on the order received Count Tizian and Dr. Wekerle, the Hungarian premier.

ONE WOMAN KILLED (By United Press.) PARIS, April 16--One woman was killed and two persons were injured when the long range bombardment of Paris was resumed today.

WASTE OF LIFE FORESEEN AND PROVIDED FOR

GERMANY PREPARED TO EXPEND MILLION MEN TO GAIN OBJECTIVE ON WEST FRONT

(By Carl D. Grant, United Press Staff Correspondent.) WASHINGTON, April 16--Germany is prepared to waste more than 1,000,000 lives in the west front fighting, according to information here. The Socialist and militarist leaders are understood to have conferred to stop the drive.

The nation was informed that the offensive would succeed and that the bloody dreams of the plunderer would be realized. Bahlul those pledges lies the explanation of the sudden scattering of peace talk, according to sources here.

Hindenburg Cocksure Hindenburg and his officers were cocksure in their talk. The British army would be annihilated and Germany's path to peace--with annexations--would be accomplished.

The government had positive information that "stalking everything" on the west front drive is no empty phrase with Germany. The use of men in waves--mowed down as grain before the reaper--is one evidence of the Tenth program. The fact that Germany does not object is due, it is now believed, to a pre-offensive agreement, and the German belief in the military leaders' word that victory is ahead.

Resolution Forgiven Germany has abandoned since the re-ignition of the negotiations, no indications' quite openly now. Zurich dispatches today said the pan-German organ, the Tagliche Rundschau, revealed the new stand.

Count Heusinger, the paper said, threatened the Socialists that he would resign if that platform were followed. Thereupon the majority factions accepted the imperial government plan, which included:

Annexation of French territory. Incorporation of the Belgian coast of Flanders into Germany. Payment of a large war indemnity by the western powers to Germany. Incidentally, it appears that Germany is hoping to collect indemnity from America, and her leaders are doing all in their power to make the books balance. After America's part in the war will be meager.

MISSING COLLIER CENTER OF MYSTERY (By United Press.) WASHINGTON, April 16--Disappearance of the navy collier Cyclops with about 300 aboard promised today to go down in the annals of the sea as one of the strangest mysteries.

The navy, they believe, are doing all the tropic seas, was virtually abandoned all but the fastest hope of finding her or any trace of her crew.

The strange engulfing of the ship in the waste of water left itself to many romantic tales of plots to be hatched, but thus far Captain Wells' intelligence officers have been unable to establish the truth of any of the stories.

Says Captain a German SALT LAKE CITY, Utah, April 15--Lieutenant Commander G. W. Worley, of the missing collier Cyclops in German-held and that his real name is Wickham is declared by his brother-in-law, Herman Pepperberg, of this city, whose wife is a sister of the commander. Worley or Wickham came to America when ten years of age and entered the navy 20 years ago, when he changed his name. He was aboard the Cyclops when she was launched eleven years ago. His wife, who originally came from Seattle, is now at Norfolk, Virginia.

TAR AND FEATHER UNPOPULAR ACTRESS (By United Press.) STILLWATER, Okla., April 16--While some of their number hold the police back with revolvers the remainder of a party of fifteen women yesterday tarred and feathered two women belonging to an objectionable show that was stopping here.

The actresses were made to buy tickets out of the county and leave on the first train.

WORST REVERSE OF ENTIRE DRIVE

Capture of Bailleul and Abandonment of Wulverghem by Germans Give Key Position to Enemy---Blow Delivered with Startling Suddenness---Defenders Outnumbered from Start

Driving of Westward Wedge Gives Hindenburg Good Opportunity for Action Against the Famous Town of Ypres, Which Has Never Yet Been in German Hands and Which is Believed Impregnable Except from the West

Hindenburg has won his most important victory in the Flanders drive through the capture of Bailleul and the abandonment of Wulverghem.

As he drove his wedge westward between the Ypres-Comines and La Bassée canals, Bailleul became the key to Messines ridge and the Ypres salient on the north and to Hazebrouck on the west. Bailleul is located midway between Arras and Hazebrouck on a sharp bend in the railway. It is eleven miles and a half east of Hazebrouck, about eight miles southwest of Ypres. The Messines ridge, which is the strongest defensive position in all Flanders, runs westward from the village of Messines past Wulverghem to Kemmel, a distance of about three miles. It is about a mile and a half wide, and on its eastern face runs northward to Wytschaete.

This ridge is practically impregnable from the east and only slightly less difficult from the south, a half east and slightly north of Bailleul, on the Douve river, gives Hindenburg a hold in the southern foothills of the ridge. The tenability of this position itself is questionable. But from Wulverghem and Wytschaete, he can keep the British occupied on the southern and eastern edges of the ridge, while he strives to swing back northward from Bailleul, against the western edge of the ridge.

At Foothills of Ridge The abandonment of Wulverghem, which is four miles and a half east and slightly north of Bailleul, on the Douve river, gives Hindenburg a hold in the southern foothills of the ridge. The tenability of this position itself is questionable. But from Wulverghem and Wytschaete, he can keep the British occupied on the southern and eastern edges of the ridge, while he strives to swing back northward from Bailleul, against the western edge of the ridge.

MUST HAVE STEEL NOW OR CLOSE UP

DEMANDS OF BOTH SHIPPING BOARD AND DIRECTOR GENERAL OF RAILWAYS INSISTENT--INVESTIGATE IN EFFORT TO FIX REASON

(By United Press.) WASHINGTON, April 16--Faced with an admittedly serious shortage in fabricated steel, officials of the United States shipping board started today to unravel the transportation and milling tangle which is held responsible for delay in building.

The shipping board holds that it must have steel at once or see the shipyards closed because of material shortage. At the same time Director General McCaDoo has called for steel for 100,000 cars and 3000 locomotives and the war department has made known its steel demands will constantly grow heavier.

Officials of the shipping board stated that many of the wooden ship yards will be converted into steel assembling yards.

Build Steel Ships This does not mean that no more wooden ships will be built but the ships for trans-Atlantic trade hereafter will be of steel. It was explained that probably private plants would place in service wooden ships to supplement the steel vessels, taken from the coastwise trade for trans-ocean service.

In letting no more contracts for the wooden ships the shipping board is taking the first direct step at increasing the size of vessels with which to supply our troops and the allies. The prime reason for the revolution (Continued on Page 2)

# DECLARES U. S. MUST STAND TRUE TO IDEALS

## WALTER E. HARMAN SAYS AT RUPERT "DIVINE RIGHT" SHRINKS BEFORE SPIRIT OF '76

Concluding a masterly presentation of the irreconcilable conflict of ideals involved in the war, before a large audience assembled at a patriotic meeting at Rupert on Sunday evening, April 15, Walter E. Harman, minister of the First Christian church of Twin Falls, declared:

"Almost one hundred and forty-two years have rolled by since the Liberty Bell pealed out the independence of the country destined to insure universal democracy. The Spirit of July 4, 1776, has already overshadowed the nation, and at its command 'divine right' will equally sink away to the ether regions whence it came. The world conflict, the revolution, set ahead of our country, is suffering, the north, no one can forecast. But that clause in the immortal document familiar to every American child which reads, 'And for the support of this declaration, with firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor,' will grip and make true and heroic the oncoming generations, until all have been emblazoned upon the peace-buried sky of a redeemed world."

In the course of his address, Mr. Harman said: "Without doubt our present form of government is the best to inspire the spirit of patriotism. Fortunately, since the beginning of our war with Germany, the fortitude and heroism of those who have gone before rendered it possible to perpetuate these priceless heritages. All things have their creation, development and decay. Can it be possible that our civilization has reached the zenith of its glory and is now declining? We are going back to the dark ages back where barbaric force was the controlling power? Yes, if the Kaiser wins. Not yes! That a thousand times, Not for ever God, the king of kings never win."

It is a fact that our country has never nor ever has been a friend of the United States, Mr. Harman presented facts gleaned from history. "In the war of the Revolution, Germany hired her Hessians to fight on the side of the British. In contrast with this we see France pouring out her treasure and spilling her blood side by side with our troops. King George III was a German-descended king who could scarcely speak English and yet he ruled over this household. In our great Civil war Germany tried to place an Austrian—Prince Maximilian—upon the throne in Mexico, thus trying to take advantage of our condition. In the Spanish-American war Germany led us in a struggle to have the European nation espouse the cause of Spain. The British premier brought her plans to naught. In the harbor of Manila Bay, Admiral Dewey had to threaten to sink the fleet of the German admiral, von Dittelich, before he would act."

### SECURING JURY TO TRY I. W. LEADERS

(By United Press.)  
CHICAGO, April 16.—Six jurors had been tentatively accepted today by government attorneys in the addition trial of I. W. W. Jackson, I. W. Langdon, French reconditioning party crossed the canal and brought back ten prisoners.

"French patrols took prisoners in the Corby sector (Chemin des Dames) in the Champagne near Selchery (Toul sector) and in the Vosges," the communication said.

"There was active mutual artillery firing north of Montellier. The French progressed slightly at Novion. Along the Oise canal there were French reconnoitering. West of Pierremont, a French reconnoitering party crossed the canal and brought back ten prisoners."

### COL. HUGH JOHNSON

Col. Hugh S. Johnson, recently designated by President Wilson to be deputy provost marshal general, will from this time on practically have charge of the operation of the draft law.

### FIND BOMBS AT OFFICIAL'S HOME

#### DISTRICT ATTORNEY'S HOUSE IS BLAZED FOR DESTRUCTION—DISCOVERED JUST IN TIME

(By United Press.)  
MILWAUKEE, April 16.—Two bombs were found in a hidden spot of District Attorney William Zabel's home here today. The bombs resembled one which blew up central police station here last year killing eleven persons. The find was believed to be connected with Zabel's activity against alien Italians recently sentenced for spying.

Detectives, called by neighbors who discovered the bombs, pried them from the wall. The explosives were said to have been powerful enough to have wrecked several houses.

### ANNIVERSARY OF CALL OBSERVED IN FRANCE

#### Twin Falls Boys Celebrate Date on Which They Were Called Into Service With Parade

March 25, the anniversary of the day the Idaho regiment was called into the service in the war against Germany, was celebrated by the Twin Falls unit now headquarters company of the One Hundred Forty-sixth field artillery regiment, "somewhere in France," with a parade of volunuous propositions, accompanied by a letter received by Israel G. Fickler, from Miss A. Hensley, formerly a clerk in the local postoffice, now a member of the band of that regiment.

"Have been to the city once and had quite a time for the first time we had to 'stay,' Hensley writes. 'Hope to go again soon.'"

"We have a pretty good band now except we are short on cornets and one bass. Have a few good numbers on the program at our camp. M. C. A. for a diversion from daily routine."

"We have one large room to ourselves among the barracks—a clean enough place. We have arguments, but no knockouts."

"We have M. C. A. serves ice cream that makes one homesick, as it is impossible to get ice cream anywhere else."

### SUCCESSFUL AIR RAIDS LAUNCHED BY FRENCH

(By United Press.)  
PARIS, April 16.—Successful French raids in the Chemin des Dames and Toul sectors (where American troops are fighting) were reported by the war office today.

"French patrols took prisoners in the Corby sector (Chemin des Dames) in the Champagne near Selchery (Toul sector) and in the Vosges," the communication said.

"There was active mutual artillery firing north of Montellier. The French progressed slightly at Novion. Along the Oise canal there were French reconnoitering. West of Pierremont, a French reconnoitering party crossed the canal and brought back ten prisoners."

### MINISTER'S RECORD ONE OF ACHIEVEMENT

#### WALTER E. HARMAN, ACCEPTING CALL TO LARGER CHARGE, LEAVES LOCAL FIELD

When he leaves the pulpit of the First Christian church of Twin Falls, which he has occupied for nearly six years, to accept a call to become the minister of the First Christian church of Atchison, Kansas, Walter E. Harman will have achieved a record here which is paralleled in the history of few pastors over an equal period of time.

#### Church Debt Paid

During his ministry here, Mr. Harman has built up the membership of the church from about 250 to over 600; the indebtedness on the church building which was over \$2500 has been paid and a building fund has been started with several hundred dollars. More than \$25,000 have been raised and expended through various agencies of the church during his ministry, and the church has closed each fiscal year with all its bills paid.

#### Organize Buhl Congregation

Mr. Harman and his wife, Mrs. Gertrude E. Harman, have organized a new congregation of the Christian church at Buhl with more than 150 members at the present time. Three lots have been secured and a neat building erected free from debt. The property is worth now about \$6000, and a regular minister regularly supported by the church, now carries on a prospering work.

#### Revive Church at Jerome

Mr. Harman also was the leader in bringing the Organ-Mell evangelistic party to Idaho and in securing their support. Through him this company revived the church at Jerome with 115 members and the members of the church there since the first of the year by Mrs. Harman.

#### Is Honored by State Body

The state society of the Christian church has honored Mr. Harman by electing him as its superintendent of missions, which office he has held for two years past, handling several hundred dollars annually.

His religious activities of the local church, largely through the efforts of Mrs. Harman, who is thoroughly informed in every phase of Christian missions, have unified in the support of a missionary in the foreign field. For the past two years supporting Rev. J. E. Randall at Kingston, Jamaica.

#### Refuses Other Offers

During his ministry in Twin Falls several churches in larger cities have made Mr. Harman enticing offers, some of them involving large increases in salary, but he has refused them all. He accepts the pulpit at Atchison, he says, because it presents the opportunity he has been seeking for and because he is well known there, it being the place where he held a revival meeting seven years ago resulting in 120 additions to the church which has called him.

The Atchison church is one of the largest in the state of Kansas. The building has a seating capacity of 2800 and the membership of the church is 1250, with a Bible school that frequently passes the 1000 mark.

#### Time of Leaving Indefinite

The time of Mr. Harman's departure from Twin Falls depends upon the willingness of the local church to release him, and upon the dispatch with which he can close up the affairs of his various honorary positions.

#### MUST HAVE STEEL NOW

(Continued from Page 1.)

army—was believed to have been a lack of docking facilities in Europe. It was pointed out that wooden ships, few of which are larger than 3500 tons, were forced to sacrifice 35 per cent of the cargo space for carrying coal so the round trip could be made in one hunker engine.

#### BIG FIRE LOSS

(By United Press.)  
TORONTO, Ont., April 16.—The loading docks of the Harris Abattoir plant at Union Stock Yards was partially in ruin today and the fire damage was estimated at \$1,000,000. Large quantities of food were destroyed.

#### Too Parsimonious

The girl who thinks more of her geometric crepe waist than she does of her beau and refuses to permit it to get unsewed will never march to the well-known town of Mr. Mendelssohn, Elizabeth Times-Union.

### CHRISTIAN SCIENTISTS HELP IN WAR WORK

#### COMFORTS FORWARDING COMMITTEE SENDS 20,000 ARTICLES IN THREE MONTHS

Among Goods Delivered Are 5600 Pieces of Clothing for Refugee Children and Much Selected Second-Hand or Remade Apparel

About 20,000 articles were prepared and sent to enlisted men and war refugees by the Comforts Forwarding committee, conducted by the Christian Scientists of the Boston district and located at 323 Boylston Street, Boston, during the first three months of the committee's work. Among the goods forwarded were 16,000 knitted articles and comfort kits, 5500 articles of new clothing for French, Italian, Belgian and Serbian refugees children, and about 8000 selected second-hand or remade articles of clothing.

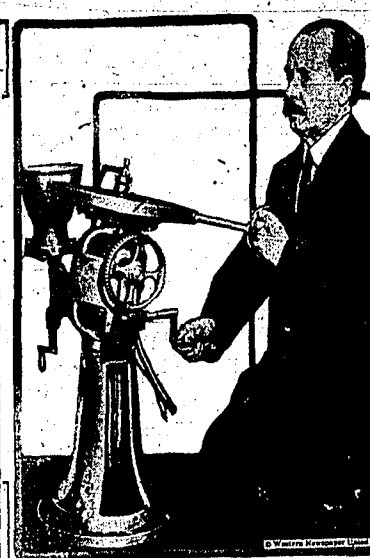

One American ship has been supplied with enough knitted goods, totaling 3500 pieces, to equip all the sailors on board. A large number of the knitted garments and other comforts have been turned over to the different war relief associations in Boston, which are in direct communication with 150 people of their respective countries, notably the British, French, Italian and Belgian associations. Some of the recruits for the British and Canadian forces were supplied with knitted articles before they left home.

A feature of the Comforts Forwarding committee's work which has brought splendid results is the "unit system" of preparing war garments for refugee children. Ten of the committee were first instructed in the making of a model garment, each of the ten instructed ten others and the latter when they in turn instructed. Two groups of team captains met at the committee's rooms every day to receive instructions and material for use by themselves and the members of their respective teams, who work at leisure moments at home. Thus 1100 sewers are banded together for this particular part of the committee's program and they are turning out an average of over 1000 garments a week.

In this work, they have been greatly assisted by one of the patriotic manufacturing companies of Boston, which offered and has undertaken to do all the cutting required for these garments.

Before beginning to sew for the refugees of any country, the committee ascertained not only what articles were needed but also the form and material desired, so far as was possible. It was learned for instance, that so common an article of general use as a pillow-case was, in one country for which the teams were sewing, very unlike the

### NEW GUN TO REVOLUTIONIZE WARFARE

It is what is claimed to be the greatest death-dealing war weapon yet conceived and its inventor, Leif W. Lombard of Boston. The machine gun, sometimes called the "Lombard gun," has a maximum firing power of 83,000 shots per minute. The ammunition is fed in a cuplike attachment at the left, and emitted through the slot just to the right of the top of the receiver. The gun has been tested and it is claimed it has been proven practicable.

yellow-case of the American home. For knitters, wool is sold over the counter, instructions are given, and the finished garment is returned to the committee's headquarters when ready. In addition, there are four knitting machines in operation, on each of which it is possible to knit a pair of socks in 20 minutes.

Prize has been given to the Comforts Forwarding committee of the Christian Scientists by persons associating for the high quality of the articles produced and the systematic manner of their production. Nearly 500 such committees are conducted by Christian Scientists throughout the United States.

### THINK ALEXANDER WILL SELECT NAVY

(By United Press.)  
ST. LOUIS, Mo., April 16.—Grover Alexander and Charlie Weegman, president of the Chicago Cubs, dismounted from the same train here today and

joined their team. Alex, was to pitch the opener here today against the St. Louis Cards if two days of Pflugmaning has not rotted him of condition.

The Cubs are convinced Alex intends to join the navy before he can be drafted into the national army.

Leo Meadows, sportswriter, was to oppose the Cubs.

### MINIDOKA FARMERS ELECT HAZELTON, IDAHO

The annual meeting and election of Minidoka county farm bureau was held at Hazelton recently. The following officers were elected: John C. Landy, president; J. G. Loaz, vice-president; William Henscher, secretary; R. G. Halliday, treasurer; C. O. Toles, organization; Frank Sullivan, live stock; R. C. Moy, dairying; E. G. Maynard, labor and exchange; Mrs. F. N. Victory, home economics; and Mrs. Ida E. Sullivan, boys' and girls' club.

# CALL ELECTION ON CREATION OF ROAD DISTRICT

## COMMISSIONERS SET THE DATE FOR EXPRESSION OF VOTER'S DECISION ON HIGHWAY FORM

Saturday, May 4, is the date of the election on the question of the creation of the proposed Twin Falls highway district, provided in forms of a call for election before the county commissioners for their adoption. The call of election and other proceedings in connection therewith have been prepared by the attorneys for Keeler Brothers, bond dealers of Denver, upon request of the county board. The proposed district includes 1,060,480 acres of land and comprises all of the territory of Twin Falls county outside the proposed Filer and Buhl highway districts.

**Transfers Administration**  
Approval by the voters of the creation of the proposed district will require the administration of highway affairs within its boundaries from the jurisdiction of the county commissioners and place the responsibility upon a board of highway district directors.

The call for the election is made in accordance with the acceptance by the commissioners of a petition filed March 14 and signed by 233 land owners within the proposed district asking that the election be called.

**Prior Call Deferred**  
Deferring to advice of bond dealers who asserted that a previous call for an election was illegal under the law to validate the subsequent proceedings of the district, the commissioners called off an election to have held on April 13, and awaited until Monday the receipt of the forms prepared by the bond dealers' attorneys.

**Polling Places**  
The call submits the question to vote of the qualified electors who are residents of the proposed district. Polling places, which are to be open between the hours of 8 o'clock a. m. and 6 o'clock p. m. on the day of the election, are to be in the school houses in the following precincts: Precinct 1, Twin Falls, where voters in Precinct 1 will cast their ballots at the Washington school, and those in Precinct 2 will vote in the commissioners' room in the court house.

**Judges of Election**  
Following are the judges of election designated in each precinct:  
Twin Falls No. 1—W. B. Easterly, J. C. Maxwell, William Graham.  
Twin Falls No. 2—H. M. Sims, D. B. Brainerd, C. O. Higgins.  
Murtough—B. F. Jain, R. J. Day, J. L. Tolman.  
Hansen—J. A. Felton, Sturgeon McCoy, Stuart Sorenson.  
Kimberly—Nash Swearington, D. T. Turner, M. E. Eden.  
Roch Creek—Bergard Strickler, Neel Larsen, J. H. Hatley.  
Hollister—George A. Salles, W. H. Craven, W. E. Elmer.  
Rogerson—J. B. Langford, W. H. Feltz, W. R. McMullan.  
Berger—Hanning Erickson, J. M. Pierce, Fred W. Berger.  
Silverdale—Minnie Clauson, Lois J. Wells, Frank Lids.

### TWIN FALLS SOLDIER TELLS OF AIR RAIDS

James C. Moore, Junior, says American in France showed little concern.  
J. C. Moore Sunday received two letters dated March 20 and March 21 from the late James C. Moore, senior, who was formerly a member of the Twin Falls unit of the Idaho regiment and who is now in the motor section of the army somewhere in France. According to the receipt in the delivery of mail of four letters from his father bearing dates of from January 15 to February 15.

Reference is made to air raids over France with the comment that "The reports were not so excited." Filer says Moore says that he likes the French people, but that he finds it hard to accustom himself to their agricultural methods, the appearance of workers in wooden shoes and of ox teams in the fields being a perpetual source of wonderment.

### NEW SCHOOL AT FILER

Officers of the Filer rural high school have finished signing bonds of value of \$25,000 recently voted and filed to the state, for the purpose of erecting a new rural high school building. Plans for the building have been completed and it will be rushed to completion in the early fall.

### REPORTS EXTREMES IN WEATHER CONDITIONS

Grass Grows Deep at Mountalnham While Snow Blocks Roads in Other Parts of County

The extremes in weather conditions are to be found at the present time in Elmore county, according to Dr. Herbert T. Cook, inspector of the bureau of animal industry station at Twin Falls, who returned Sunday from a several days' visit to that section. In the vicinity of Mountainham, he says, the season is far advanced, grass in some places having grown knee high, while in the north end of Elmore county snow remains in the roads so deep as to prevent travel.

Dr. Cook was called to Elmore county to inspect the premises of a swinegrower in the vicinity of Glenns Ferry, among whose herds hog cholera has broken out in two successive seasons. The disease manifested itself in February of this year, and the inspector was called to pass upon the sufficiency of the disinfection before other animals were turned on to the premises.

While in Elmore county, Dr. Cook arranged with the county agent for a series of meetings in which he will demonstrate the methods of hog cholera prevention and control. These meetings will be held next week providing melting of the snow in the sections now impassable permits of travel.

Dr. G. D. Bishop, another inspector of the local bureau of animal industry station, spent several days last week in Blaine county. His services were called for in a case of acute indigestion in a herd of hogs at Dietrich which was taken to be cholera. Distemper among the hogs resulted from too heavy feeding of Linkage.

Dr. Bishop also arranged a series of cholera control demonstrations which will be held next week in Blaine county as follows: Monday at Hailog; Tuesday, Glendale; Wednesday, Pilebo; Friday, Muldoon; Saturday, Ketchum.

### EXTENSION SERVICE WORK

Send Woman to Teach Health Rules During Absence of Doctors

**BOISE.**—The university extension department of the University of Idaho has taken up a new branch of work made almost a necessity through war conditions, that of teaching the rural people how to have good health. The fact that 70 doctors have gone from Idaho in response to the government's appeal and that fully that many more are planning to go makes it imperative that the citizens of the state try to keep as well as possible.

### FRENCH RUSE RESULTS IN MANY PRISONERS

PARIS, April 15.—As the result of a detailed operation that worked out perfectly, we have taken half a score of prisoners in the region of Hungary, the French war office announced today.  
"Since April 12 we have taken 150 prisoners in the sector between Montiller and Noyon. In the Champagne south of Montell, as the result of several thrusts, we returned with prisoners. Enemy assaults from north and south of the Chemin des Dunes to southeast of Corbeury were without success. Intermittent bombardments have occurred elsewhere along the front."

### MARRIAGE LICENSES

Marriage licenses were issued Saturday in Twin Falls to the following: Perry Roberts and Ethel Yowell, both of Twin Falls.  
John Jewett, Twin Falls, and Christine Behrens, Pinesyville, Idaho.

## TO GIVE PRISONERS PART IN WAR WORK

### NATIONAL COMMITTEE PROPOSES PLAN TO MOBILIZE THE COUNTY JAIL

The Washington war bureau of the National Committee on Prisons and Prison Labor has notified L. E. Otto of Filer of his appointment as official representative of the committee in Twin Falls county.

An explanation of this appointment is contained in a letter to Sheriff Kendall which reads:

**Every Man of Value**  
The prisoners are under your care. Therefore we write direct to you.

The United States is engaged in a war in which the man-power of the nation is being effectively mobilized. Every man is of value. The men in your charge should not be relieved of their responsibility to help because they have committed a crime.

Yet we are sure that you will be interested in what has been planned in other places to meet this situation. This you will find explained in readable form in a little booklet which is enclosed.

You will naturally say that there is difficulty in encountering opposition from certain elements in the community should you begin developing such a plan. Such opposition is always possible. It is in exactly this situation that the National Committee on Prisons and Prison Labor can be of service to you. We have found it of great value to appoint a representative in a county who would be able to help obtain public sentiment to carry out what is best along the lines suggested.

We have asked our representative in your county to call on you and secure your approval of and suggestions for a plan adaptable to your community. Our representative is L. E. Otto, of Filer. We feel that it would be well if he is appointed, with your advice, several other citizens to help him. We feel certain that the plan worked out as a result of this cooperation will assist to the nation in its crisis the use of that part of its man-power which is under your control.

**Chicago System**  
"Mobilizing the County Jail," which is the title of the booklet mentioned in the foregoing letter, is based on the Chicago system of conserving community waste in each year. The superintendent of the Chicago workhouse found employment for the 100 prisoners, especially those unfit for skilled work, in gathering and sorting the waste of the municipal departments. The prisoners worked without wages both inside and outside the institution. Their labor increased the return for the waste of the municipal departments 900 per cent. Out of this was established a fund of \$40,000 for prisoners' relief.

**War Uses Waste**  
There is more than \$1,000,000,000 worth of waste in the country which can be reclaimed each year. The demand for waste material to supply war industries has expanded the industry of waste reclamation and necessitated a greater supply of waste material to supplement our natural resources. The industry is profitable, requires no investment, it can be continued after the war, and the facilities for making it a valuable adjunct in the war emergency are available.

**Opportunity to Serve**  
Great Britain has stressed the waste problem as a part of national defense. The women of Great Britain and Canada have organized. And women's services are more needed in other fields, whereas the industry is particularly suited to misadventured prisoners. It offers them an opportunity for regular employment and for service in the war emergency which will help them to escape competition with free labor if properly conducted. It brings the waste man and the waste material together for efficient national mobilization of man-power and resources.

### PRESIDENT TOO BUSY

WASHINGTON, April 15.—President Wilson today passed up his usual attendance at the "baseball" opener here. Johnson and Al Smith will have to go away to their senator's state without the presence of the nation's chief executive because of several White House conferences, scheduled for the day.

Griff's hand is in good shape for the start-off, with two new additions—Johnny Lavan and Bert Shotton.

### NO LONGER A DOLLAR

Washington has discovered a dollar is worth only 50 cents. That depends a great deal on what you buy with it. If you buy shoes, it is only worth a quarter. A statistician has figured out that a dollar now only buys 2.7 pounds of stein steak in stead of 5.2. It would only buy a third as many pork chops, two-fifths as much butter and only half as much lard. A dollar now will only buy as much flour as you could get for 50 cents ten years ago, and only half as much cornmeal as formerly was sold for 34 cents. In fact, a dollar is no longer a dollar.

### CALL HOCHBAUM EAST

**BOISE.**—C. B. Smith, chief of the states relation service at Washington, D. C., has asked that H. W. Hochbaum, director of county extension agents in Idaho, spend two weeks this month at the national capital. Smith wants the Idaho man to assist the federal government in organizing county farm bureaus in other states. He will leave for the east April 18.

### SURVEY PREPARES RECLAMATION WORK

Survey parties are now investigating the large tract west of the present Minidoka project with a view to determining the conditions to be met provided it is decided to pump water onto this land for irrigation purposes, says the Minidoka County Patriot, Rupert. Complete topographic surveys will probably be made covering about 130,000

# Worth Fighting For

**S**HALL this little girl grow up in the sort of American home we know, healthy and happy? Shall she have the advantage of living and learning in a free land, under free institutions? Shall such children develop into the Liberty-loving citizens that a free America may be proud of?

For over two hundred years Americans have fought valiantly, and died gallantly, to win for themselves and hand down to their posterity the blessings of liberty, justice, self-government and equal opportunity. This precious heritage, bought at so great a price, is now threatened.

The question which today confronts America as a nation, and you as an individual, is whether or not a free America is worth fighting for

Are American children in this and all future generations to receive unimpaired the legacy of freedom of which we are now the custodians, or shall their country be turned over bodily to the brutal, rapacious, power-mad enemy which has forced us into this war?

This question cannot be answered by word of mouth, but by deeds alone.

THE ISSUE

(Contributed by Thomas L. Mason to the National Security League's campaign of Patriotism Through Education)

The history of every progressive human life is a history of upheavals, each one of which moves the individual up to a new base. By a singular illusion, when we think of others who have been successful, we are likely to think of them as moving forward and upward evenly. But in actual life we know that this is not so.

WINDS UP WORK AND ADJOURNS

After being in session here three days, the highway commission completed its work Friday and adjourned Friday the commission asked, the state highway engineer for a report of the progress made on that section of the north and south highway, which is being built through Adams county.

FAVOR FOURTH OF JULY ROAD

The commission made a favorable report on the work to be done in the Fourth of July canyon and if its recommendations are approved at Washington \$100,000 raised by Kootenai county, the state and the federal government will be spent on work there during the next few months.

BLOWN TO ATOMS AS DYNAMITE EXPLODES

EUREKA, Cal., April 15.—The post office building, 39 miles north of Eureka, was wrecked and Postmaster George Scott blown to atoms by a terrific dynamite explosion early today. Relatives are searching for fragments of his body. Scott placed the dynamite under his bed last night. His reason for doing so was not known.

The Honor Guard girls at Filer have finished 16 jerseys for Belgian children.

ALBION HIGHWAY GETS STATE AID

Commission Will Recommend a Legislative Appropriation to Meet \$25,000 Raised for Hard Surfacing

Albion, Cassia county, is at last making ready to repair the road which connects it with Marshfield on the Oregon Short Line, says the Statesman. The state highway commission Friday agreed to designate the road between Albion and Marshfield as a state highway with the understanding that the Albion highway district would expend \$25,000 on it this year.

Albion is the county seat of Cassia county and one of the state normal schools is located there. It is an inland town five miles from the railroad at Marshfield. For the last two years the highway leading into it has been little better than a trail.

BONDS FOR THE ROAD

Bonds were voted by the Albion highway district some time ago, but work has not been started yet on the road which is to be built.

The state highway department will run a survey over the hills between Albion and the Snake river, looking for a maximum grade of 4 1/2 per cent.

The highway commission will not give the highway district state aid this year other than to furnish it engineers who will prepare the road building plan. The \$25,000 raised by the highway district will be expended on the new road this season with the understanding that more money will be raised later with which to gravel the highway. The highway commission will recommend that the legislature appropriate some money for the Albion road next year.

MURDER OF BROTHER BRINGS PRINTER HERE

Guy Canizer, Former News Employee, Called to Take Charge of Funeral of Frank Hattabaugh

Guy Canizer of Seattle, pressman in the Twin Falls News office from 1900 until 1909, was called Monday here from Miles City, Montana, where he is now employed, to make funeral arrangements for his half brother, Frank E. A. Hattabaugh of Buhl, who was murdered on the night of April 11 at Burley. The funeral will be held at Burley on Tuesday, Mr. Canizer stated. Two men under suspicion of complicity in the killing are held in jail at Burley, he said.

Food Administrator Bicknell Anticipates No Occasion for Com-mandeeing Wheat

State Food Administrator E. F. Bicknell has advised all county chairmen to advise the citizens in the order of the wheat, food administrator's office, requiring that all wheat in storage during this season's crop, before May 15, if wheat remains unsold by that date, the owner reads, it must be placed in an officer's custody for transporting it to market being guaranteed from the proceeds to be paid to the original owner.

SEND US AIRPLANES IS CRY OF BRITISH

(By United Press.) AN ATLANTIC PORT, April 15.—"Send us airplanes, for God's sake," was the plea of Major Gordon P. Howe of the royal flying corps, who arrived here today.

"During the early days of the present German offensive, the enemy literally filled the air with airplanes," Major Howe declared. "They came so thick that we could not count them. It took the combined efforts of the French and British aviation corps three days to get the upper hand."

The initial success of the German drive was almost entirely the result of the mastery of the air by the enemy. When the allied airman got the upper hand, Hindenburg's progress ceased.

AMERICAN CASUALTIES WITH THE CANADIANS

(By United Press.) OTTAWA, Ont., April 15.—The following Canadians are mentioned in today's Canadian casualty list: Killed in action—C. L. Bullock, Maple Ridge, Mich.

Died—J. Bunce, Sequim, Wash.; F. H. Hoenberg, Weyerhaeuser, Wis. Wounded—E. Leo, Vandergrill, Pa.; F. Becker, Bethel, Mich.; E. B. Madson, L'Anse-au-Loup, Mich.; E. Woodledge, Soo, Mich.; W. D. Boley, Detroit, Mich.; J. W. Fitzsimmons, Menominee, Mich.; J. C. Johnson, Spokane, Wash.; V. E. Edwards, Port Townsend, Wash.; V. B. Newport, Mich.; G. R. Walker, Mountain, Pa.

EVERY BOY IN IDAHO TO REGISTER FOR WORK

Young Soldiers Between the Ages of 16 and 21 to be Drafted for Farm Work

Every boy in Idaho between the ages of 16 and 21 years of age is expected by the federal government to register for farm work this summer. Harvey Alfred, director of the state farm work division, said today that the federal government is expected to register, Mr. Alfred said. They are to be given credit for work done.

DEFERS DRAFT CALL

An accurate record will be kept of the work done by each boy enrolled as a member of the reserve, County Agent Donald McLean, who is registration agent for Twin Falls county, said today. "The government, in this movement, is 'getting a line' on the boys," he said.

Mr. McLean added, stating that he had in mind the purpose of protecting the agricultural industry rather than with a view to augmenting the fighting forces at the front from their numbers. Each boy who reaches the age of 21 years, who has on file a record of the reserve, a record showing that he has worked at least six farm work for two successive summers at farm work, will be given deferred classification under the military draft," Mr. McLean said.

Guy Canizer, Former News Employee, Called to Take Charge of Funeral of Frank Hattabaugh

Guy Canizer of Seattle, pressman in the Twin Falls News office from 1900 until 1909, was called Monday here from Miles City, Montana, where he is now employed, to make funeral arrangements for his half brother, Frank E. A. Hattabaugh of Buhl, who was murdered on the night of April 11 at Burley.

The funeral will be held at Burley on Tuesday, Mr. Canizer stated. Two men under suspicion of complicity in the killing are held in jail at Burley, he said.

Hattabaugh was 38 years of age. During the past eight or nine years he had been employed in ditch construction and farm labor in this vicinity. He was employed as a cook for a construction crew when he met his death. His father, brother and grandmother were also in the family. Mr. F. E. A. Hattabaugh, residing at Seattle.

Word of his brother's death came to Mr. Canizer Friday from his grandmother at Burley with whom the corpse at Burley has been commated.

LONG TEST SHOWS RECORD BREAKERS

The fourth month of the fiscal year, for the Pioneer Cow Testing association just closed with record breakers in all of the divisions except the high milking division. The showing in this division, however, is creditable, according to the official letter, who stated there are a greater number of cows on record which have produced over 1600 pounds of milk for the month but not having one producing over 1700 pounds, while last month one was reported with over 1900 pounds. The leader this month being the same cow which made the record for Twin Falls county, said today. "The government, in this movement, is 'getting a line' on the boys," he said.

Mr. McLean added, stating that he had in mind the purpose of protecting the agricultural industry rather than with a view to augmenting the fighting forces at the front from their numbers. Each boy who reaches the age of 21 years, who has on file a record of the reserve, a record showing that he has worked at least six farm work for two successive summers at farm work, will be given deferred classification under the military draft," Mr. McLean said.

RUPERT VOTES BOND ISSUE FOR SCHOOL

Work on \$30,000 Building Designed by Twin Falls Architect to Begin Soon

A bond issue to provide \$30,000 for the erection of a new school building at Rupert was voted April 8, only one dissenting vote being cast. Work will commence at the new building as soon as the bonds are sold and money is available.

The new building, plans for which were drawn by Architect John Vleser, who also designed the Rupert high school building, is to be a one-story structure, built on the mission style. It is to be of brick with the roof and modern in every respect.

This building will permit the addition of rooms as the occasion demands that they be added in future years without detracting from the appearance and attractiveness of the structure and without great additional expense. It is proposed to complete six rooms this summer, any way not less than four, to provide adequate and comfortable quarters for the school children of the district next term. The enrollment of the school is being constantly increasing and the faculty has been somewhat inconvenienced owing to the lack of room this term, the enrollment this year having exceeded that of a year ago nearly three hundred.

JACK DICKEFORD "The Spirit of '17" A Paramount Picture... FEATURING PARAMOUNT PRODUCTION AT THE IDAHO COMMENCING TONIGHT.

TEN O'CLOCK

And the day is done! Fighting has ceased, and quiet again reigns on all fronts—if for only a few hours.

By this time—ten o'clock—the newspaper correspondents have finished their last "stories" of the day's fighting, and these stories are speeding over the wires to America—to amplify the reports these trained newspaper observers have sent off during the day.

The United Press has representatives with all of the allied armies in the field, and in all of the important capitals of Europe.

It is their business to supply United Press readers in America with facts—cold, colorless FACTS.

And by ten o'clock at night they have "covered" the day.

But ten o'clock at night in Europe is still early afternoon in the time zone in which we live.

That is how the Daily News can give you "Today's News—Today"

Merely an advantage in time—that's all.

Our forms are held every afternoon until the "last word" from Europe arrives direct at our office—over our own leased United Press wire.

All day long the "big" stories of the entire world are being sped across the continent on this wire, and the Daily News gets them all, and gives them fresh—the day they happen—to its readers.

You read about it the day it happens.

Do it now.

# AMERICANS ARE BETTER TROOPS THAN GERMANS

## BEST STORM FORCES OF ATTACKERS DRIVEN BACK WITH BIG LOSS IN FIRST FIGHT WITH U. S.

(By United Press.)  
WITH THE AMERICAN ARMY IN FRANCE, APRIL 15.—Details of Sunday morning's battle on the left bank of the Meuse prove that the new American army is more than the master of the Germans.

The Boches used their best storm troops to attack us. Numerous naturalized Italians, English, Poles, Irish, and Scandinavians were in the American force which, with a knockout blow, repulsed the Germans. The enemy came on in a two-wave formation after a barrage. Storm troops led the attack.

After a three-hour fight the 400 Germans were hurled back. They lost 64 dead, 11 prisoners and 22 machineguns.

**Fear American Patrols**  
"The Boches are too respectful now even to fire on patrol. They are spending their bayonets and want to get some more Boches," said an officer.

"One typical American private, Italian born but a good American, encountered several Germans in his trench. He killed one and the rest fled. He captured them, the private chastised them in no man's land and captured two. Returning with them to the American trenches, he asked a sergeant for a match. The latter told him to capture another German, dead or alive. "The private thought he had already caught it, but he went out into No Man's Land again and returned with a six-footer—18 inches taller than himself."

**Use Wicked Tools**  
The Germans are equipped with new trench daggers, six inches long and with double edges. The enemy troops are husky and average about 18 years of age.

The Americans are smaller but appear tougher.  
The Americans are lathier with "Gott mit uns" belt buckles as souvenirs. The average opinion of the American troops regarding their Trench enemies was embodied by a Yankee private, who said:

"They are great big buns. They're yellow clear through."

## NEW JARBIDGE ROAD NEARING COMPLETION

Engineer Says Improved Route to Mining Camp Will be Open to Travel May 1

The new road between Jarbidge, Nevada, and Twin Falls county points will be open to travel on or before May 1, according to A. E. Fox, chief engineer, in charge of the construction of the highway for Twin Falls county, who was here Saturday conferring with the county commissioners.

The new road eliminates several steep grades and dangerous grades in the present route to the Jarbidge gold mine camp. From the Hot Hole west of Rogerson, it follows a water grade into Jarbidge. It extends through Twin Falls and Owyhee counties in Idaho and through Elko county in Nevada.

Building of the new route has been made possible by appropriations of Twin Falls and Elko counties, together with substantial donations on the part of the Elko Mines company, operating a large mill at Jarbidge, and of the Oregon Short Line Railway company.

Construction was started last fall. Contract for the work was let both by Elko and Twin Falls counties to William Harkins, who is pushing the work to a successful conclusion.

## STUDENT SPEAKER SCORES AT ELMWOOD

Elmer Wyland, Twin Falls' high school student, at a patriotic meeting at Elmwood school house Saturday evening, scored a decided hit with the audience which filled the building when he entreated the crowd to support the war, the oration which Wyland gave as a participant in the state declamatory contest at Burley last week.

Other speakers at Elmwood on this occasion were C. D. Thomas, chairman of the Liberty Loan drive in Twin Falls county, and Sergeant W. B. McCracken, in charge of the local marine corps recruiting station. Both spoke convincingly on the duty of the American citizen in support of the nation at war.

## WITH THE CANADIANS

(By United Press.)  
OTTAWA, Ont., April 16.—The following Canadian are listed in today's Canadian casualty list:  
Died—J. R. Guire, Burlington, Ont.  
Wounded—Lloyd E. Davison, Detroit, Mich.; B. Holland, Bay City, Mich.; W. H. Milon, Little Falls, Minn.; H. Smith, Chicago.

## Local Briefs

Undergoes Operation—E. D. Demant of Rupert was operated on Saturday evening at the Boyd hospital.

Inspects Army Station—Sergeant Harry A. Canfield of the Salt Lake army recruiting station, was here Monday on a regular inspection trip.

Visits Relatives Here—Almer Fox of Wallace, arrived here Monday for a visit with his father, L. B. Fox, and sisters, Mrs. J. M. Maxwell and Miss Edna B. Fox.

Going Fishing—Dr. T. Wigglesworth and J. W. Craven expect to leave Wednesday for an extended fishing and boating trip in the vicinity of Salmon City in the Sawtooth mountains.

Flies Masons Coming—A delegation of Masons from Ellet will attend a special meeting of Twin Falls Lodge, A. F. & M., in the Masonic temple here Wednesday evening, at which time work in the third degree will be conducted by the visiting lodges.

Keep Stubbs at Hansen—J. E. Stubbs, whose accession to the post of superintendent of schools at Hansen followed his resignation as secretary of the Twin Falls Commercial club last November, has been retained as superintendent of schools at Hansen next year by vote of the directors at a recent meeting.

On Recruiting Trip—Sergeant Leonard Brinley, in charge of the local United States army recruiting station, is in Ellet on his way on a recruiting trip. Private C. S. Hales, of the local station, returned Sunday after spending a week on a similar mission in Oakley.

Draft Takes Mustian—Arnold Hutto, who plays the traps in the orchestra at the Orpheum theatre, on Monday received orders to report for enlistment with the next draft quota from Wichita, Kansas, where he registered.

He has applied for permission to leave with the contingent from Twin Falls going to American Lake on April 30.

Wendell Nilso Here for Game—The second game of the season for the Twin Falls high school baseball, which is to be played against the Wendell High school team, will be called at 4 o'clock this afternoon on the Lincoln school athletic field. On Friday next, the Rupert team, which was defeated last Friday by the locals in a contest at Rupert, resulting in a score of 11-0, comes here for a return game.

Wife Seeks Divorce—Asking for divorce from her husband, Conner, of Ellet, on the ground of her husband's name of Sumner, Mrs. C. Caroline Claassen of Kimberly, has filed petition in district court, in which she avers that she was married to Claassen in Twin Falls in October, 1915, and that she was left with a child and went to Sacramento, California, so that the defendant was addicted to intemperance.

His Present Willing to Thank—Alex. W. Murray, city planning inspector, has received a letter from J. P. Tully, secretary to President Wilson, expressing the chief executive's appreciation of Mr. Murray's courtesy in submitting a copy of original versus edited letter to "Over There."

The lines of the verses, Mr. Murray says, were suggested to him when reading letters from relatives and friends who have enlisted under the Stars and Stripes.

Waterworks Engineer Here—Clinton S. Burns, of the firm of Burns & McDonnell, engineers of Kansas City, who submitted the recommendations and prepared plans for the installation of a new water plant and extension and improvement of the Twin Falls water works system, arrived here today to consult with the city council and water committee relative to the letting of contracts for the work at the council meeting on Thursday, April 18. Mr. Burns will remain here on this trip until after the contracts are let.

Lieutenant Bracken Transferred—Lieutenant Leo F. Bracken, son of May of F. Bracken, Twin Falls, was transferred from Camp Lewis, Washington, to Camp Fremont, near San Francisco, and probably is assigned to duty with a regiment of infantry of the regular army stationed there.

Letter written by him recently which was received by his parents Friday, states that he with several other lieutenants were selected from the top of the efficiency list to go to Camp Fremont, and make a trip to Europe, that they will be sent abroad soon.

County Agent Gets Assistant—A. D. Wicher of Hanley, arrived here Monday to enter upon his duties as assistant to County Agent Donald McLendon, to which position he has been detailed by the department of agriculture through the state university extension department. Mr. Wicher is a graduate of the agricultural department of the University of Idaho of the class of 1912, and during the past four years he has been engaged in farming in the vicinity of Glenny Ferry.

INSERT PRIZES GIVEN BEST LOAF  
The bread was exhibited and judged at the offices of the Idaho Power company, where it was received Saturday by a committee composed of the following members of the volunteer club: Mrs. John E. White, Mrs. Fred Foss, Mrs. A. E. Eldred, Mrs. J. M. Wright.

## "SPIRIT OF '17"

### A PICTURE ALL SHOULD SEE

#### YOU'LL BE DELIGHTED BY THE SPIRIT OF PATRIOTISM WHICH PERVERSADES IT

Having won the unqualified praise of practically every motion picture critic the country over, by his portrayal of a real "Tom Sawyer," Jack Pickford, youthful Paramount star, is now making another big immortal. This time he is a Tom Sawyer in khaki, a modern boy of about fourteen years, filled with the spirit of patriotism and bent on doing "his bit" for his country.

In "The Spirit of '17," Jack plays the part of David Giddens, whose chief activity in life appears to be idolizing the old soldiers of the veterans' home where his father is military officer in charge. His fervent sentiments find expression in a genuine service for his country, when German agents working through mine workers, located near the soldiers' home, instigate a plot to tie up production at the mine.

The story was written by Judge Willis Brown of the Juvenile court of Chicago. Appearing in support of the star is a new leading woman, Katherine McDonald.

## VAUDEVILLE—2 ACTS

### TONIGHT

## IDAHO THEATRE

### HEAVY TONNAGE OF NEW SHIPS COMING

#### CHAIRMAN HURLEY OF SHIPPING BOARD MAKES ANNOUNCEMENT OF VITAL INTEREST

"WASHINGTON, April 15.—Eighteen wooden ships, totaling 63,000 tons, are to be launched May 1, Chairman Hurley of the shipping board, announced today. Special trains bringing fire logs from Pacific lumber states are being hurried across the continent in one-fifth the usual time to furnish ample supplies for the speeding up of the shipyards. The emergency shipment will help offset an arrangement between the shipping board and the railroad administration which will bring the Atlantic and Gulf yards up to the program set for them.

With the launching of the new ships the cost and output are breaking about even with the war for the first time. In addition to the 63,000 tons to be launched by May 1, outputs of 20,000 additional tons of wood ships are due to leave the ways this month under private contract.

## ALLEGED BIGAMIST RESISTS EXTRADITION

Prosecuting Attorney Goes to Boise for Papers to Secure Return of F. Rebbein

Permanent Resident, the Jerome blacksmith who was arrested April 10 at Portland, charged with bigamy in a complaint filed here, has decided to resist extradition. Prosecuting Attorney Frank L. Stephens of Twin Falls left Saturday evening for Boise to secure the necessary papers which will forward to Sheriff F. M. Kendall, who is in Portland for the purpose of returning with Rebbein. Rebbein, when arrested, indicated that he would return without requiring extradition proceedings.

## SOMEWHAT OF A FLEEER

A young Texan who has applied for a commission in the flying corps, has recently justified his ambition. From a training camp in Texas he recently brought to Bridgeport, Conn., where he obtained a marriage license, met and married his sweetheart and caught a train back to Texas within an hour. To do this he stole a trip of 400 miles each way. A stand like that ought to prove any man equal to a position in the flying corps.

## NO SECRET TO MEN FOLKS

A suggestive notice from the military chamber of commerce of the United States that there is profiteering in women's hats. This is no secret to the men folks, they have known this for the last ten years. The easiest way to get money is to take it away from the women when the spring hat season opens. This military organization estimates unofficially that between 300 and 500 million dollars is spent every year in the United States for women's hats alone. The estimate seems conservative.

## RAISING HEIFERS FOR DAIRY

Main Object is to Produce Animals With Plenty of Constitution and High Capacity.  
The main object in raising dairy heifers is to produce animals with plenty of constitution and capacity. The feed should be bulky and at the same time contain plenty of protein and calcium. The protein and calcium in the building up muscle and bone and milk foods distend and develop the digestive organs. Alfalfa and clover hay and silage are excellent roughage for dairy heifers.

# DAIRY

## PRODUCTIVE COWS PAY BEST

Income Over Feeding Costs Advances Rapidly With Increased Butter-fat Yields.

(Prepared by the United States Department of Agriculture.)  
The large producers are the most profitable cows in the dairy herd. Every dayman strives to fill up his herd with animals known to be high producers, but few realize fully the remarkable rate at which profits advance as production increases, say dairying specialists of the United States Department of Agriculture.

The following figures, obtained from the records of 1,638 cows in various cow-testing associations, show how rapidly with increased production of butterfat income advances over cost of feed.

Production and Profit.	Average butterfat production (pounds).	Average income above feed cost.
1	10	\$ 4
2	20	12
3	30	20
4	40	28
5	50	36
6	60	44
7	70	52
8	80	60
9	90	68
10	100	76
11	110	84
12	120	92
13	130	100
14	140	108
15	150	116
16	160	124
17	170	132
18	180	140
19	190	148
20	200	156

As butterfat production increased from 100 pounds to 300 pounds, income over cost of feed advanced from \$16 to \$56, or as production doubled income above feed cost increased three times. As butterfat production increased from 150 pounds to 450 pounds income over cost of feed advanced from \$24 to \$144, or as production tripled income above feed cost increased six times. If no expenses except the cost of feed are considered, the cow that produced 450 pounds of butterfat was as profitable as 27 cows of the first group, whose average production was 100 pounds. If labor and miscellaneous expenses also could be taken into consideration the results would be much more striking.

A further study of the records showed that the cost of roughage was about the same for all groups, but that the total cost of feed was somewhat greater for the more productive cows. The increased profit should therefore be credited in part to better feeding, but apparently it was more largely due to better cows. The present high cost of feed will eliminate the low-producing cow, or it must eventually eliminate the dairyman who keeps such cows. More cows are needed, but better cows are needed more. Certainly it pays to keep good cows and to feed them well.

High Producing Cow.

## BARREL TYPE OF CHURN BEST

Found by Dairy Specialists to Be Most Satisfactory—Special Preparation to Churning.

The barrel type of churn has been found by dairy specialists to be one of the most satisfactory churning. The dasher or plunger type requires a somewhat greater expenditure of labor. Earthenware churns are undesirable unless perfectly clean, since if pores are exposed, they absorb milk and cream which later decay. The churns with mechanical devices inside them are difficult to clean and sometimes injure the body of the butter. The churn should be scalded preparatory to churning, but should be cooled with water before the cream is placed inside.

## STRIVE FOR STRONG CALVES

Six Weeks Before Parturition Cow Should Be Fattened Dry—Aim to Prevent White Scour.

The care of the calf should start about six weeks before parturition, by making the cow dry and molting her to rest and put on flesh. If the cow is not turned dry, weak calves will generally be the result. Ordinarily a calf will be nursing in less than an hour after birth—except strong calves, which may nurse in much less time. The herdman or attendant should disinfect the navel of the calf at once in order to prevent white scours. A solution of carbolic acid or tincture of iodine will be very effective.

## EDWARD ROBINSONS

JUST TO REMIND YOU

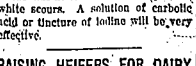

ARE YOU SURE that you come to this store just as often when there are no advertisements in the newspapers as when they appear each week?

I am sure that my advertisements are reminders to a good many and it is a question in my mind as to just how often I should use newspaper advertisements as reminders.

Many of you know that this store carries a splendid line of history, and it is truly remarkable how many have we sell, but perhaps but few realize just what a large variety is here.

A SPECIAL NUMBER IN HOSE  
A specially good number that has just come in is an all-rib for small women and big girls, just in between a regular make women's and the large size children's.

This is a fine rib in a soft finish list; made with double sole, heels and toes; very durable; white or black and most reasonable at 50 cents a pair.

SPRING TIME AND MIDDY TIME

## JACK TAR TOGS

are just about the cleverest, niftiest, and smartest things in the way of middies, midly dresses and regular make of wash dresses one can find. Wonderfully good styles; splendid qualities and most reasonable.

MAR-HOF MIDDIES  
MAR-HOF middies are so well known to many of the BIG GIRLS and YOUNG LADIES around here that a word of where they can be found is all that is necessary. You will find them here in the regular union kind. Some are priced as low as \$1.48.

## CORSETS

There seems to be a growing demand for front lace corsets; in fact there are some manufacturers who are making lace front models only. FRONT LACE CORSETS have many advantages over the back lace style, with seemingly no disadvantages. They are very more convenient on account of the hooks and lacing both being at the front. Specially good values at \$1.50 and \$2.00. Better ones up to \$5.00.

### BANDMEN PROUD OF IDAHO BOYS' THANKS

#### TWIN FALLS SOLDIERS IN FRANCE ACKNOWLEDGE DONATION OF TOBACCO

The Twin Falls band is the proud recipient of a letter from First Sergeant Herbert G. Lasterbaugh of Headquarters Company, One Hundred Forty-third field artillery regiment, "somewhere in France," acknowledging and expressing the thanks of the Twin Falls boys in foreign service for the gift made by the band of 20,000 cigarettes and 500 packs of tobacco purchased with the entire proceeds of the first war benefit dance given by the local bandmen in January.

The letter bears date of March 25. It was received Sunday by J. E. Dabbs, leader of the band. In part it is as follows:

**Cigarettes Most Acceptable.**

"Captain McRoberts being temporarily absent from the company I am taking the liberty of acknowledging the receipt of the cigarettes and tobacco, and also to thank you in behalf of the company for your precious remembrance. There is nothing that pleases the boys more than a package of Camels, so you may be sure your efforts are fully appreciated.

**Trouble in Store for Old Bill.**

"Everyone is getting along nicely and feeling fine. All are anxious to get into the mine, and when they do, Old Bill had better find a good hiding place for I sure think this bunch will be long to stop. While it seems to take a long time to get our outfit in readiness, they are really making time, and in a short time we expect to have a first class fighting machine.

#### FRANCE HEARS IDAHO BAND

"The band is getting along fine. Have been giving up all concerts during February and March, and at the present time are giving four each week."

### GERMAN PRISONERS MUST GO TO WORK

#### WAR DEPARTMENT MAKES GENERAL ORDER IN THE INTERESTS OF EFFICIENCY AT HOME

(By United Press.)

WASHINGTON, April 15.—Every German prisoner of war in this country was ordered by the war department today to be put at work. Eight hundred and fifty were set at the task of building new homes for the "Mein Kampf" people, others at Post Office buildings, and others at the Post Office buildings, and others at the Post Office buildings.

With the war department taking over for the navy the U-53 prisoners captured by the destroyers Egan, there still remains the problem of whether General Pershing's prisoners shall be brought back here. A decision on this point is expected soon, but meantime the Testons taken by the "Higgins" remain in French prison camps.

**Complaints Coming In.**

That some complaints of German food and camp conditions have come from American prisoners in Germany because have today. Some of the men reported they did not have enough blankets, while others said they were given either poor quality food or little of it. International law requires a nation to feed its prisoners as it feeds its own soldiers.

It is necessary to not being, though the United States is scrupulously observing that regulation. Now, America proposes that the interned soldiers and other prisoners already on hand and the U-53 men coming here shall work for their "chow."

### GAY PROFESSOR IS NOW OUT OF A JOB

(By United Press.)

CHICAGO, April 15.—Notice of suspension as associate professor of geology in the University of Chicago was to be served today on William J. Thomas. Thomas' arraignment in morals court yesterday on a disorderly conduct charge was followed by a telegraphic order of suspension from President Judson in Washington, D. C.

Meantime the campus board of trustees began an investigation of the case in which their distinguished elderly colleague was involved in a hotel adventure with a woman whose husband was fighting in France.

### FOREST FIRES ARE QUENCHED BY RAIN

(By United Press.)

ESCONA, Mich., April 16.—Heavy rains today stopped threatening forest fires in three sections of the northern peninsula. Fires which destroyed some farm buildings on the outskirts of this city Monday are practically out.

Messages from Calumet and Iron Mountain say the rain has practically eliminated further damage from fires which have been raging along Keweenaw bay and in Dickinson county. Thousands of dollars damage had been done.

### RAIN STOPS FIRES

(By United Press.)

GRAND RAPIDS, Mich., April 16.—A forest fire that swept part of Ionia county and threatened six miles of railroad to have been extinguished by rain today.

### LIBERTY LOAN CAMPAIGN PASSES \$500,000 MARK

Subscriptions aggregating \$511,700 were reported in a statement issued Tuesday morning by C. D. Thomas, county chairman of the Liberty Loan drive, giving results of the first eight days of the campaign in Twin Falls county. Twin Falls subscriptions in the amount of \$140,000 and investments in the Bull district to the extent of \$143,000 were reported.

Rogerson has more than doubled his quota of \$5000, while Twin Falls, Piler, Mountain and Clover have exceeded their apportionments. The quota for the county is \$500,000. Several districts have not as yet turned in reports.

### AGED WOMAN STRUCK DOWN BY MOTOR CAR

#### MRS. E. H. COCHRAN, 72, SUSTAINS INJURIES FOR WHICH 72-YEAR OLD YOUTH IS RESPONSIBLE

Struck down by an automobile driven by Percy Watson, 10, son of H. E. Watson, at the intersection of Tenth avenue and Shoshone street at about 5 o'clock Sunday evening, Mrs. H. E. Cochran, 72, mother of Mrs. E. H. Gates, 150 Tenth avenue north, sustained a fracture of her left shoulder and possibly other injuries. Various reports of the occurrence are current, and the police are investigating.

#### CHARGED WITH SPEEDING

Percy Watson and his older brother, who was with him in the car, were brought before the police magistrate yesterday to answer to charges of speeding on Main avenue Sunday afternoon. De la H. in the case was deferred. Police Judge W. J. Smith said this morning that he had understood that further complaint would be filed against the youth later in the week.

#### GOES FOR HELP

After striking Mrs. Cochran, the boy struck the car, one of them running to the scene and with the other at the accident, while the other summoned assistance from the nearby home of City Treasurer H. E. Rouda, where she was carried until removed to her home.

#### RESTS COMFORTABLY

Mrs. Cochran was rendered unconscious for several hours, and can give no explanation of how she was hurt. She was returning to the Gates home where she resides, after a call at a neighbor's home and was alone when struck by the car. Attending physicians held out no hope for the recovery of the boy without an arm. She was resting comfortably this morning.

### HOSPITAL TRAINS HEAVILY LOADED

(By United Press.)

WASHINGTON, April 15.—The German wounded are pouring back from the western front to the hospitals behind the lines, according to state department messages today.

Twenty-five hospital trains are reported to have reached nightly through Anchen, with a few days ago the Anchen hospitals, jammed beyond capacity, were sending the overflow to schools, homes and public buildings. Medical supplies are short and the suffering of the wounded is accentuated by the lack of morphine.

Several sources reported to the state department that the morale of the German troops is not good except among new levies of the very young troops.

### MARKET STANDS WELL UNDER WAR REVERSES

(By United Press.)

NEW YORK, April 15.—The stock market here showed the effect of the new Bill at the opening today. The trend was lower, but the losses were fractional.

U. S. Steel opened off 5/8 at 90 7/8; Agribelt off 1/4 at 65 1/2; Marine off 1/8 at 25, and Marine preferred off 1/4 at 61.

### BONDS AND BARRELL

(By United Press.)

NEW YORK, April 16.—Major-General William H. Bullard of the United States department of the east, threw out the first ball at the game between the Dodgers and Giants here today at the Polo grounds. The old press box, in the lower stand, was pressed into service for the occasion. Being the first game, 575 Illinois saloons have been voted out; anti-saloon league officials declared today.

### LONDON PAPER COMMENTS

(By United Press.)

LONDON, April 16.—"Bullard was an important position," said the Evening News today commenting on his loss to the Germans. "No doubt the enemy's strength was overpowered." But the above remains being reached the objective. Every retirement has been for only one reason—to save the British line from being broken."

### SALOONS IN THE BALANCE

(By United Press.)

CHICAGO, April 16.—The fate of 217 saloons in Illinois cities and villages will be decided in today's wet and dry election. Alton and Blue Island are the largest cities voting on the question of the sale of the saloons. During the last 15 months, 575 Illinois saloons have been voted out; anti-saloon league officials declared today.

### LONDON PAPER COMMENTS

(By United Press.)

LONDON, April 16.—"Bullard was an important position," said the Evening News today commenting on his loss to the Germans. "No doubt the enemy's strength was overpowered." But the above remains being reached the objective. Every retirement has been for only one reason—to save the British line from being broken."

### HANSEN ORGANIZES IMPROVEMENT CLUB

#### CIVIC BODY STARTS OFF WITH MEMBERSHIP OF 35 PLEDGED TO COMMUNITY BETTERMENT

Subscribing to a program declaring needed measures for the betterment of Hansen and vicinity, 35 citizens enrolled as members of the Hansen Improvement League at its organization meeting in the school building at Hansen April 8. Officers were elected as follows: President, Eric Leacock; vice president, Mr. Blackley; secretary and treasurer, J. E. Stubbs. The following to act with the officers as a board of directors were elected: W. E. Brewer, Ora McVay, Otis Simpson, and Mr. Taylor.

Plans were discussed at the first meeting for the improvement of the park, streets and alleys of Hansen, and the secretary was directed to request the Oregon Street Line Railway company to extend the sidewalk from the business district to the depot. Regular meetings of the league are to be held on the first Monday of each month.

### UNDER ARREST FOR OBSTRUCTING DRAFT

(By United Press.)

JEROME, Ariz., April 10.—Robert Lee Marton, Socialist candidate for congress from Arizona two years ago, and W. F. Buzsac are under federal arrest here today after having been saved from a mob on a far and feather program. They are charged with sedition and spreading propaganda calculated to obstruct the selective draft.

Both men were found in a room at Cottonwood, a mining camp near here. Rifles and a large quantity of ammunition were found in the room.

### HEAVY GERMAN LOSS

(By United Press.)

PARIS, April 15.—The material losses in the fire which destroyed the aircraft factories at Friedrichshafen 61,000 tons of material, including thirty squadrons of airplanes reserved for use against the American fleets, it was announced here today.

One hundred and forty persons were killed and two hundred injured.

### DAVID KEITZ DIES

(By United Press.)

SALT LAKE CITY, Utah, April 15.—David Keitz, pioneer of the Pacific slope and one of the best known financiers of the west, died here today of pneumonia.

### GERMAN PRISONERS REACH UNITED STATES

(By United Press.)

AN ATLANTIC PORT, April 15.—The first German prisoners of war arrived in the United States today. They are members of the crew of the submarine U-58, which was sunk by an American destroyer. The prisoners are to be interned. Their exact number was not given out, but it is believed there are about twenty.

### DEATH PENALTY FOR SPIES

(By United Press.)

WASHINGTON, April 15.—The death penalty for spies and persons interfering with the army or navy is provided in a bill introduced today by Senator Chamberlaine.

It also provides that enemy agents, spies and propagandists shall be tried by military court martial instead of civil courts.

### SINK FOUR RUM SHIPS

(By United Press.)

COPENHAGEN, April 16.—British destroyers sank four armed German trawlers in the vicinity of Kullen, outside Halmstad, early Monday morning. The trawlers were dispatched from Gothenburg today.

One trawler, wirelessly for assistance, escaped.

### GREAT FRENCH GUN WORKING AT NIGHT

This wonderful photograph shows a 320-millimeter French gun at the moment of firing during a night bombardment of the German lines. This picture is a fire photographic. For night pictures of firing are made as perfect as this very infrequently. The batch of smoke from the explosion of the charge which in the daytime would be nothing more than smoke, is a flash of light at night and makes a most unusual sight.
