## HUN ATTACK REPULSED; BRITISH STANDING FIRM

### Enemy Advance in Bailleul Sector Checked Three Times, Leaving Haig's Men in Possession of Ground--Merris Sector Active With No German Gains at Any Point--Wytshaete Still in Enemy Hands

(By United Press.)  
LONDON, April 18.—German infantry, attacking in three waves southeast of Kemmel hill, pressed us back slightly at one point, but a counter attack restored the situation. Field Marshal Haig reported today.

"Shortly after mid-day, the attack had been repulsed at all points."  
In the Bailleul sector, the enemy attacking three times before mid-day, was completely repulsed.

"Our line yesterday was intact on the whole front. There was no change in the British front during the night."

"There was hostile artillery on the Lys battle front, from Ghent to the Wytshaete front established between Lozen and Bobeg."

"Local attacks in the Merris sector yesterday evening were repulsed."

"More detailed reports of the fighting yesterday in Nieppe forest and the Wytshaete front established the severity of the enemy's losses."

"The Germans are now in possession of Wytshaete and Meteren. It is admitted in Field Marshal Haig's night official report."

"The British captured these villages in counter attacks yesterday morning, but were compelled to evacuate them again in the face of continued enemy assaults. The French are co-operating with the British on this front; Haig said."

**German War Office Reports**  
In the retirement east of Ypres, the British abandoned Paschechelle, Poelcapelle and Langemark, it is claimed by the German war office. A Belgian communiqué said that the British abandoned the Ypres-Thourout railway (a front of about five miles just north of the Paschechelle salient), a massed German attack gained a temporary advantage, but that a counter assault restored the positions and resulted in the capture of 6000 prisoners.

"Continued enemy bombardment north of Montdidier was reported in the French night communiqué. The French laid down a counter bombardment."

## THINK PRIVATE ROW CAUSE OF LYONING

(By United Press.)  
CHICAGO, April 18.—Robert Higgins, of the Collinsville, Ill. mine, was not lynched because of his pro-German sympathies but as a result of a quarrel with miners at Marysville, was the opinion of Attorney General E. A. Brandage today. He received a complete report to this effect from his investigators.

"The Mallon county grand jury in the session at Edwardsville and in the case of those involved in the lynching are expected soon."

"I am certain of the indictments and I am certain you will obtain convictions," said Brandage.

## AMERICAN SOLDIERS DEAD WITH CANADIANS

(By United Press.)  
OTTAWA, Ont., April 18.—The following American men mentioned in today's casualty lists:  
Killed in action: E. E. Magren, Mayfield, Ky.

Mining: T. F. Best, Bellefont, Pa.; Thomas L. M. Dranch, Allegheny, Ill.; Wm. M. Morrison, Detroit, Mich.; Diel: F. Bowman, Denver, Colo.

## WANT BIG MATCH CEDAR RAPIDS

Local business men have guaranteed \$40,000 to bring the Caddock-Stecher championship wrestling match here on July 4. This offer was sent to Gene Melady at Omaha this afternoon. It is planned to stage the bout in the ball park if Melady accepts the offer.

## HEAVY FROST IN SPOTS PREDICTION FOR TONIGHT

Fair weather tonight, light frost that will be heavy in places—Friday, fair and warmer, is the prediction of the department of agriculture weather bureau transmitted through the local telephone exchange. Highest temperature yesterday was recorded at 6 p. m., when the mercury reached 55 degrees. Lowest was 30 degrees at 6 o'clock a. m.

## WORLD'S END HAS COME TO COTTAGERS

### PANORAMIC VIEW OF THE BATTLEFIELD STRANGE AND WONDERFUL SIGHT HOMES IN RUINS, FIELD DEVASTATED, POISON GAS EVERYWHERE

(By William Philip Sims, United Press Staff Correspondent.)

AMSTERDAM, April 18.—"What haven't I done to preserve the world from these horrors," the kaiser is quoted as saying during a visit to the Arrmentores battlefield, in a dispatch to the Loket Amsterdam.

WITH THE BRITISH ARMIES NEAR BAILLEUL, April 18.—The fight now progressing is the most spectacular of the war.

From a hilltop near Bailleul it can be observed in pantomime as though from a balcony seat. Miles upon miles, from around the Paschechelle salient—from which the British were voluntarily withdrawn—to far southwestward of Bailleul, is visible to the naked eye. With field glasses, infantry can be plainly seen on the move.

"The estates of Cambray, Verdun, and Meuse, were all in a pill country, as for the scenery. But the positions around Bailleul offer a panorama which, stretches out with scarcely a tree to obstruct the view. Across fertile miles of farms, men are visible going to action. Shells burst in pasture lands. Abandoned crops grow and stray in, mild astonishment at the strange operations. The sky is filled with black and white cloud puffs of burning shells."

**Greatest Drama of All Time**  
The rattle of machine guns and the howl of a hundred heavy artillery, mingled with the scintillating, volleying "bangs" of field guns, is a worthy orchestra to the greatest drama of all time.

Flashes from guns and howling elevators conceal us frankly out in the open, except hazily, sometimes startlingly so—while the horizon flickers like thousands of pocket mirrors flashing in the sunlight.

In the foreground, a German shell crumples fairly into a farm house. The former occupants, probably are tramping along the roads, regretting they ever left their homes. The howls give off a white smoke for a few minutes, a flag of flames mounts toward the sky.

**Strangling Gas Vapors**  
Gas shells drop into idyllic fields in full cultivation. Strangling vapors are falling heavily across the sprouting crops. An apparently fearless crew is due for the surprise of his life.

The whole business looks unreal from (Continued on Page 2.)

## SENATOR STONE'S FUNERAL IS HELD

(By United Press.)  
NEVADA, Mo., April 18.—The funeral of Senator William T. Stone was held here today. Knights Templar and other fraternal organizations escorted the remains to the church where services were read by Rev. J. L. Marshall of Kansas City. The funeral train arrived here at 4 a. m., from Jefferson City, where the body lay in state.

## STILL GAINING

Yesterday the Daily News circulation figures stood at 629. Today at the same hour they are 629.

Very good record for eight days, but, more people are reading the Daily News every day and every reader will eventually become a subscriber. For over 1000 daily in Twin Falls and adjoining towns, the popularity of the Daily News and its efforts to provide the reading public with "Today's News Today."

## SKIES CLEARING FOR THE ALLIES

### Whole Situation Distinctly More Hopeful With Indications of Impending Preparations for Counter Offensive By British and French Troops--Defense Stands Firm

### Determined Enemy Assault Against Mont Kemmel Repulsed with Heavy Loss and German Attack in Bailleul Sector Suffers Complete Breakdown--Similar Failures in Southern End of Flanders Salient

The French apparently are concentrating the heaviest allied artillery fire since the German drive started, on a 56-mile front extending from a point south of the Somme, east of Amiens, to the Oise, in the vicinity of Noyon.

This bombardment, reported in a United Press dispatch from Henry Wood, covers every inch of the German positions and the rear areas for miles back of their lines. Prisoners say that the annihilating has caused heavy German casualties and has prevented the enemy from digging in.

"The next few hours are expected to reveal whether this annihilating is preparatory to a major counter offensive by the allies."

**British Stand Firm**  
On the Flanders front, Haig claims to be holding his own. His official report today said "there was no change on the British front last night."

He reported the repulse of a determined enemy assault against Mont Kemmel from the direction of Wulverghem and the complete breakdown of a German attack in the Bailleul sector, to the southwest of Mont Kemmel.

Haig also reported heavy fighting on the southern edge of the Flanders salient and the repulse of local attacks there. He emphasized the heavy German losses in the fighting around Neve Wood and Wytshaete yesterday.

**Make Short Withdrawal**  
The British withdrawal east of Ypres on Tuesday is not clearly outlined. Apparently, Haig moved his line back an average of about three miles. It would appear that they now run from about Zillebeke, a mile and a half east and south of Ypres, northward to a point just west of Langemark, which Hindenburg claims to occupy.

The retirement must have necessitated a slight retreat by the Belgians, whose lines, according to an official communication, joined Haig's at the Ypres-Thourout railway, which runs northward through Langemark. The Belgian report said a German attack between the railway and LeBlaek post was repulsed. This indicates an extension of the Flanders fighting to a point eight miles north of Ypres and less than three miles south of Dirmuide. This city is less than 10 miles south of Compiègne, the west front touches the North sea.

## HEAVY ATTACK IS CHECKED BY FRENCH

HUN SURPRISE TACTICS NIPPED IN THE BUD BY ARTILLERY AND INFANTRY FORCES

(By United Press.)  
PARIS, April 18.—"A strong enemy attack in the region of Gorbeay (in the Chemin des Dames sector) following heavy artillery preparation was caught under fire and dispersed," the French war office announced today.

"The Chemin des Dames toward Demuloup (east of Verdun) an enemy surprise attack was repulsed and prisoners taken."

"We conducted a successful raid northwest of Amiens and took a number of prisoners."

**MONY BOLLING IN**  
NEW YORK, April 18.—The New York Federal Reserve district officially reported total subscriptions of \$213,200,000 in the campaign for \$500,000 for the third liberty loan today.

## BIG THINGS LOOKED FOR BY EXPERTS

### ARRIVAL OF FRENCH REINFORCEMENTS TO AID HARD PRESSED BRITISH ARMY TAKEN TO MEAN IMPORTANT DEVELOPMENTS IN ALLIED PLAN

(By Carl D. Grant, United Press Staff Correspondent.)

WASHINGTON, April 18.—Military men here today looked for important developments following arrival of French reinforcements on the Flanders battlefield. "That it might be the forerunner of a vast strengthening of the British, as mentioned by Haig several days ago, was the thought here."

Army men recalled that Haig then said the French were coming up "rapidly and in great force" to aid the hard-pressed Britishers. It is assumed here that Haig is playing a game that will not permit the situation to get out of hand.

The Flanders battle is admittedly an unpleasant stage for the British, but any man thus far is thoroughly confident that the German will not achieve his object of breaking the British army or of plunging through the channel ports.

**May Retire Again**  
The bloody fighting for Meteren and Wytshaete, the British retirement near Ypres and the German claim of capture of Poelcapelle and Langemark all form part of a situation which may compel further British retirement. The German apparently wishes to reach Cassel and his strokes have aided him materially.

However, several of the French may chat him of the strategic advantage thus far gained, and it is deemed quite likely the next few days will see the tide turning against the foe.

**American Aid Needed**  
The battle situation daily hammers home the need for more American troops on the battle line. Secretary Duggan has given President Wilson a comprehensive view of the manpower problem and every effort is now being made to making existing troops available for transport and to turning out new troops.

The non-essentials are falling before the demand for the vital—men.

## TORNADO KILLS MAN AT CANTONMENT

CAMP RHELY VISITED BY A TERRIBLE WINDSTORM--MANY MARRIAGE ESCAPES

(By United Press.)  
CAMP RHELY, Miss., April 18.—One soldier was killed and more than a score injured as the toll of a tornado which hit the cantonment here yesterday.

Private Vaughn Deakman, Marion Ind., member of the 12th Indiana Infantry, was struck by lightning and instantly killed during the height of the storm. His body was buried under flying debris of nearby buildings. Other soldiers had narrow escapes from serious injury. The carpenters of a construction gang were also injured.

The wind hit in the region of the base hospital and cut a path across the field wide through the big structure. Fortunately none of the occupied wards were struck.

The tornado was one of the worst that has ever visited this section. It is considered miraculous that the loss of life was not greater. The injuries of the soldiers were confined mostly to cuts and bruises.

## RUSSIAN FLYERS OFFER SERVICES

A CANADIAN PACIFIC PORT, April 18.—Fifty officers of the Russian flying corps arrived here today. They are being trained in the use of the Ryan Pacific plane. All have reported they were finished on the Austrian and Rumanian fronts, and want to now offer their services to the British flying corps.

## TAN SHOES AND FANCY CLOTHES MAY NOT LAST

### STANDARDIZATION OF WEARING APPAREL IS BEING CONSIDERED--PRICE FIXING GOING ON

(By United Press.)  
WASHINGTON, April 18.—Americans may soon wear a "liberty shoe" and "war suits"—to be manufactured at low cost on a large scale and with very few flaps.

Models and specifications for the shoe and suits are being considered by the war industries board. While board officials said neither is imminent, ultimately the country must prepare for the standardization. If the example of England is followed, the tax shoe will be the standard.

"The standard war suit will be made in a few designs of standardized materials and with a retail price fixed."

**Necessity Will Govern**  
Rapidly rising prices on necessities resulting from the tremendous war orders which are absorbing the output of clothing and shoe factories make necessary firm action by the government to protect civilian consumers.

Officials indicate that only standardized clothing controlled by a sweeping price-fixing policy, covering every stage of manufacture from raw material to the finished product will save the country from economic difficulties if the war continues.

**Board Keeps Busy**  
The war industries board is actively plunging into its price-fixing activities. Wool manufacturers have been notified to appear with Chairman Baughn of the board. Leather manufacturers were here earlier in the week. Cotton men were assembled in New York working on plans for regulation of the wool industry to be submitted to Baughn. Representatives of other industries will be called in the future.

## DISBAND SOCIETY AND GIVE COST TO RED CROSS

(By United Press.)  
MILWAUKEE, April 18.—The Wisconsin German-American alliance is no more today. Although Wisconsin is perhaps the most largely German populated state in the Union, little objection was raised to the dissolving of the organization. Its \$350 in the treasury was given to the Red Cross.

## HE KNOWS BECAUSE HE TRIED IT

"It's funny," said a man across the counter at the Daily News office this morning. "Your circulation, while a magnificent showing for the time you have been running, is of course nothing like as heavy as your weekly, yet it sells the goods."

"I have actually found the classified column of the Daily News gives better returns than any other paper I have tried. Here are two more small ads. Run 'em for three days."

This man KNOWS. Get his experience is not different from that of scores of others.

"Today's News Today" is being read from front page to back—and then the neighbors get it."

# GREAT BRITAIN GIVES FIGURES OF MAN POWER

## SEVEN AND A HALF MILLION MEN IN SERVICE ON APRIL 1—COLONIES FURNISH LARGE QUOTA

(By United Press.)  
 NEW YORK, April 16.—The British army, at the beginning of April, had 6,500,000 men in the service of the army and navy, according to official figures received here today. Of this number, 4,530,000, or 69.4 per cent., are from England.

The dominions and colonies have furnished 900,000 men, 12 per cent. of the force, while little Scotland has 220,000 men in service—one man for every seven and one-half of her population. Ireland has furnished only 170,000 men, 3.3 per cent. of her population. India, Africa and other dependencies have contributed 1,000,000 native laborers and "specials" to the allied armies, the dispatch states.

**Wales Butters Heavily**  
 Statistics, completed last night, show that the price of butter has fallen from 10s. 6d. in England and Wales, which constitute seventy per cent. of the man's living here, suffered seventy-six per cent. of the casualties. Scotland, with 8 per cent. of the active fighting force, lost 10 per cent. of her manhood. The dominions and colonies, with 16 per cent. of the fighting force, bore 8 per cent. of the casualties. Irish troops—8 per cent. of the fighting force—suffered 6 per cent. of casualties.

### WORLD'S END WAR COME

(Continued from Page 1.)  
 This hilltop. It gives the impression of monster open air spectacle in commemoration of an important centennial. This is enhanced when I see a gunner peck from a blazing battery, tucked in and, as close as an exercise covering for the supper milk, like an awkward stage hand engaged in some ridiculous thing in the midst of an ivy-covered tragedy.

**Soldiers Death and War**  
 All the while you are standing in front of a tiny, whitewashed and thatched cottage, feeling alone in a world where everything is soldiers, death and war. You turn to go and halt—startled, peering through a little square-pane window, you see, outlined against the naked interior, the white face of a young woman. Behind her is that of an old man, staring fixedly toward the plains. They have lived in that cottage too long to leave it.

**Cottage at a Single Shot**  
 A little way down the slope a German well bulks above a similar structure of red-tiled roof in every direction. Now the enemy's artillery is battering on the hill. A tabby cat, lying a discarded "old boot" can scampers off through a hole in a hedge. Even he is deserting the old place. But inside the cottage the old man lays his hand on the woman's shoulder. Together they watch the fields be laid.

You move away, but something makes you walk on tiptoe. For these folks, and those they symbolize, the end of the world seems to have come.

**Deaths**  
 Mrs. Agnes Fink  
 At her home, 227 1/2 avenue west, Mrs. Agnes Fink, wife of John Fink, manager of the Anchor Hay, Grain & Feed company, died at 2 o'clock this morning in childbirth. His children are all motherless by Mrs. Fink's death. Her remains are at the Grossman & Witt undertaking establishment, pending funeral arrangements.

**Silent Applause**  
 Many a mandeville actress seems to think she's a big thing because she sneezes through her nose, like an elephant—Exchange.

## Local Briefs

**Marine Here on Furlough**—Virgil W. Williams, who enlisted in July in the marine corps and has been stationed at Mare Island, California, here spending a few days leave of absence with relatives and friends.

**John Soldiers of Sea**—John G. Clever yesterday quit his employment with the Canal company and joined the marine corps, being accepted for enlistment through the local recruiting station. He leaves this evening.

**Back on Furlough**—Herbert F. Harlin, son of Mr. and Mrs. John W. Harlin of Kimberly, got home this week from Camp Fremont, Palo Alto. He expects to spend some weeks here before returning for overseas service.

**Baby's Sickness Concerns**—Mr. and Mrs. Hal G. Blue are deeply concerned over the illness of their baby son, William Baker Blue, whose condition has developed symptoms of pneumonia.

**Graduates Choose Dr. Brand**—Dr. Asher N. Brand, pastor of the Presbyterian church, has been chosen by the members of the Twin Falls high school graduating class to deliver the baccalaureate service on Sunday evening, May 12. The second marks the beginning of the commencement week. Commencement exercises will be held May 16th.

**Ignorant of Father's Death**—In probate court Wednesday, Mrs. Alpha R. McGrew was appointed administratrix of the estate of her husband, the late John F. McGrew, who was killed February 25 in an automobile accident near Burley. Thomas McGrew and Harry McGrew, sons of the deceased, are in the military service in France, and have not yet learned of their father's death.

**Deputy Quits to Sell Motors**—Charles H. Brown, for nearly six years a deputy in the offices of the county treasurer and county assessor, has resigned his position in the latter office to accept on May 1 a situation with Messrs. Brothers, distributors of the Haynes car. No appointment will be made at this time to take Mr. Brown's place in the county office, Assessor George W. Wilcox stated today.

**Seek Man for Tanks**—Opportunity for early service in France in an important branch of the army is available to recruits in the tank service, for which the local army recruiting station was authorized Wednesday to accept applicants who have secured permission to enlist in this branch from the director of tank service at Washington, D. C. Applicants must be over or under the first age.

## PERSONALS

Mrs. Emily Reddin, who spent some time here as the guest of her daughter, Mrs. C. Mackelovian, left Thursday morning for Colorado, where she will visit for a time with relatives before returning to her home in Indiana.

Mr. and Mrs. O. B. Fuller left Thursday morning for Detroit, where they will make their home in the future. Enroute they will visit for a time at their former home in Sauk Center, Minnesota.

## FRENCH "ACE" VISITS US

John, Georges Flechna (left), a French "ace" who saved German planes to his credit, and Maj. Gen. George O. Squier in Potomac park, Washington. Lieutenant Flechna, who has had an experience of two and a half years on the front, is showing the captain the laws of a one-engine propeller airplane, whose normal speed is 150 miles an hour. British and American flyers are competing with him in daily exhibitions.

**Aspen Wood for Matches.**  
 Aspen wood is used almost exclusively in making matches in Sweden as it is easily cut and porous enough to be readily impregnated with sulphur or paraffin.

# DAIRY

## QUARTERS FOR DAIRY CALVES

To Prevent Bumping and Jostling of Young Animals Small Pens Should Be Provided.

(Prepared by the United States Department of Agriculture.)  
 Small calves should not be bumped and jostled about. An easy way to prevent this is to provide small pens, not less than four by six feet in size, in each of which a calf may be kept for the first few weeks. The pens should be fitted with feed boxes for grain and racks for hay. After the calf is old enough to run with the others it is placed with them in a larger pen. Blaunchers are fixed on one side of this pen to provide for the separate feeding of the calves, so as to insure that each receives its proper care. Racks for hay should also be placed within easy reach of the calves. Too much emphasis cannot be laid upon the necessity of having light, dry quarters for the calves. Breeding always should be abundant and should be changed often, in order that the pen always may be dry. Lack of attention to these matters is very likely to allow the development of the various calf diseases.

After the calf is a few weeks old, it can stand considerable cold if it is kept dry and has dry quarters. Provision also should be made to allow the calves plenty of exercise. A small paddock or pasture adjoining the calf stables is excellent for this purpose. Except for the very young ones, calves may be let out in the exercise lot for a short period each day, whether the weather is not too cold or stormy.

If the calves are kept together in a large pen it is very difficult to feed them by hand unless they are tied. When they are loose the milk often is

## Good Place to Keep Calves.

Spilled, and the larger calves get part of the smaller ones' share. The simple stanchions may be constructed to prevent losses of milk and insure the equal distribution of the feed. To prevent the calves from sucking one another they should be kept in the stanchions for some time after feeding. A calf stanchion may be constructed of cheap or scrap lumber. It is usually 38 to 40 inches high and has a four-inch space for the calf's head.

## SANITARY SHED FOR MILKING

Cows Should Be Kept Clean and Udders Wiped With Damp Cloth to Keep Out Dirt.

The cows should be kept clean and milked in a place free from dust. If the udders of the cows are wiped with a damp cloth it will prevent dirt, dandruff and hair from falling into the milk with their millions of bacteria. A covered or small-top milk pail should always be used in milking. It keeps out more than half of the germs.

## COWS RESPOND TO FEEDING

Even Poor Animal Will Increase in Production if She is Given "Proper" Treatment.

A good cow will respond to good treatment and even a poor cow will increase in production if she is properly handled.

With liberal feeding liberal returns cannot be obtained. A heavy producer cow cannot do her best work unless she is well fed.

## TEMPERATURE FOR CHURNING

Usually From 52 to 60 Degrees Fahrenheit in Summer and From 58 to 68 in Winter.

The churning temperature should be such that (1) the churning will require from thirty to forty minutes, and (2) the butter granules will be firm without being hard—usually from 52 to 60 degrees Fahrenheit in summer and from 58 to 60 degrees Fahrenheit in winter.

# NOTICE To Car Owners

WE HAVE PURCHASED THE CENTRAL AUTO COMPANY on Second Avenue South, next to our supply room.

We are installing some new machinery and will employ only the best mechanics. All work guaranteed. Prices reasonable.

Our stock of supplies and accessories is the largest in Southern Idaho. We have just received a car load of MONOGRAM OIL AND GREASE. Special prices on large quantities.

We are sole distributors for UNITED STATES TIRES AND TUBES, which have given more service for the dollar than any tire on the market.

If in need of any supplies or a mechanic, we are always at your service.

Note the change in name and phone number of the garage from the Central Auto Company to

## HOUSE IS PEEVED AT GEORGE CREEL

SPECIAL COMMITTEE DECIDES THAT HIS LANGUAGE IS DISRESPECTFUL OF A MEMBER

(By United Press.)  
 WASHINGTON, April 16.—The house "special investigating committee" today decided that George Creel, chairman of the committee on public information, had been "disrespectful of a member."

Creel in a report to Postmaster General Burleson had declared "absolutely baseless" statements by Representative Treadway that "tons and tons of Creel literature" were blocking the mails to France.

This, the probers decided, "called in to question a statement made on the floor."

President Roosevelt got himself into difficulty the same way, the records show, attacking in one of his messages Representative Fitzgerald and others. The message was returned to the White House.

And as far back as 1842 the house refused to receive a departmental report because it contained statements that a member's charges "were wholly without foundation."

The house may pass on the committee's report this week.

## BURGLARS MAKE HAUL IN GROCERY STORE

William Clausen Reports Theft of Flour, Including Sugar, Flour and Cheese

Thieves, during the night, entered 125-William Clausen grocery store, 432 Main avenue south, through a side window, stealing a quantity of provisions, including two sacks of sugar, four sacks of flour, a cheese and some bacon. Mr. Clausen discovered the evidences of the burglary when he opened the store this morning, and informed the sheriff's office. Deputy Sheriff George F. Huffman spent the forenoon investigating. Hugsy tracks from under the window were traced to the southeast corner of the city, where they were obliterated.

## Births

A son was born on Sunday, April 11, to Mr. and Mrs. L. L. Palmer.

CELLARS HOLD BIG QUANTITY BAD SPUDS

City Sanitary Commissioner Takes Steps to Secure the Removal of Wasted Crop

Basements of several Twin Falls business houses which were made available for storage of Twin Falls district's superabundant potato crop last fall, and which held the stored spuds throughout the winter months when a sufficient number of cars could not be secured to move them, now contain several hundred sacks of decomposed tubers that are fit for nothing but prompt removal to the dump grounds, according to City Street and Sanitary Commissioner J. J. Pilgrimer, who is waging an energetic campaign to secure proper disposition of the spotted potatoes in storage here.

CATTLE SALES RECORD IN INTERMOUNTAIN COUNTRY

NORTH SALT LAKE, Utah, April 18.—Five loads of choice 1300 pound grade fed steers on the market this morning were sold by the Hauser Packing company, of Los Angeles, California, to the Cudahy Packing company, of North Salt Lake, at \$13.50 per cwt., the highest price ever paid in the intermountain country for fat cattle (outside of show stock), and topping the market \$1.50 per cwt.

ISN'T IT TRUE?

When the power and resources of this Country can be applied effectively, the war will be won. Are you doing your share? It has been reserved to the producer of today to feel the satisfaction derived from patriotism and personal profit at one and the same time. It is not money, but goods and service that will win the war. But as goods and service must be bought, the Government sells Liberty Bonds.

THEY WALKED OUT, 6200 MEN AT MONS

... with the soldiers on each side, with bayonets fixed; with the women held back. The degradation of it! The degradation of it as they walked into this great market square, where the pens were erected exactly as if they were cattle—the greatest men of that province—the lawyers, the statesmen, the heads of trades, the men that had made the capital of Hainaut glorious during the last 20 years. There they were collected. ... You saw on the one side the one brother taken, the other brother left. A hairy embrace and they were separated and gone. You had here a man on his knees before a German officer, begging and pleading to take his old father's place. The father went and the son stayed. You saw the women in hundreds ... beseeching to approach the trains. ... No one was allowed to approach. ... Off they went! ... Can an Idahoan picture that scene—

THRIFT CAMPAIGN LOSES ITS PUNCH

Twin Falls County Leads State for War Savings Stamps Sales, But Does Not Fulfill Expectation

Twin Falls county stands first among all the counties of Idaho in respect to the amount and per capita sales of War Savings Stamps. This fact is disclosed in a letter sent by Secretary Eaton of Boise to the several county chairmen asking them to explain, if they can, the reason the sales have not gone on with the same momentum during the month of March that they did during the three months previous.

BIRDY TID BIRDY

In connection with the difficulty Assistant Secretary of the Boy Scout is experiencing in providing appropriate names for the new "Billies of mine sweepers" it is suggested to the admiralty that one of the heavy cruisers should be honored with the name of the great admiral Drake of the British navy. After waiting a long time this admirer of the splendid sailor received a reply from the admiralty gravely stating that it was not deemed expedient to bestow the name of a male duck on such important ships of war.—New York Herald.

Thought and Faith

Men who are seeking for knowledge in regard to subjects as to which there can, in the nature of things, be none, might well ask themselves whether there is to be any hope for the human thought in which faith can operate. It was said of Arnold of Rugby that his mind could rest as quietly in the presence of doubt as in that of discovered truth. It is a great thing to be able to believe where we cannot know.—Exchange.

Translation of Y. M. C. A.

W. Gordon Griffiths of the Y. M. C. A. told an audience at Ceru that he was proud to be a Welshman although he was unable to speak the "language of Paradise." He had, however, learned one thing in Welch and that was that the letters Y. M. C. A. may be translated to mean "Yma Mae Gysse Ardros." ("Here is a splendid opportunity.")

Monks Carved Church Seats

Church seats carved by monks are to be seen within the walls of the ancient church at Clodoc on the borders of Monmouthshire. The edifice was built some eight centuries ago and for many years it had interesting relations with Lantony Abbey while it was the monks of the adjacent monastery that did much of the beautiful carving within its walls. The fine tower is now so dilapidated that it must be speedily restored if it is to be saved from ruin.

A SOBERLY HERDED LAW

Slowly but surely the trend of thought in America is turning against the pacifist, the Hun sympathizer and he of the Nonviolents. Notwithstanding and but of style of conversation. Within a few days Congress may be depended on for action which will result in getting on the statute books a law under which a large and dangerous element of persons may be handled for the first time. For many months now there has been crying need of such a law. A more glance at the recent record of tar and feather parties, temporary arrests and various other actions in connection with disorderly and similar charges is of itself enough to establish the necessity for such a law. And it does not take a wise man to predict that the effect of such a law will be of unmitigated good. It should be remembered always that the man or woman who is not for us is against us. There has never been, nor can there be, any middle ground.

Concoct Macarons

One and one-half cups shredded coconut, one-half pound powdered sugar, whites of five eggs. Beat the egg whites until stiff and very dry, fold in carefully the powdered sugar and the coconut. Stir very lightly. Drop by teaspoonfuls on oiled paper; bake in a slow oven 20 minutes, take out of oven when a golden brown and, when cold, moisten the under-side of the paper so that the macarons may easily be removed.

FOLLOWED INSTRUCTIONS

"I can't keep the visitors from coming in," said the office boy, dejectedly, to the president. "When I say you're out they simply say they must see you." "Well," said the president, "just to be sure to keep them out, I'll tell you that afternoon there called at the office a young lady. The boy assured her it was impossible to see the president." "But I am his wife," said the lady. "Oh, that's what they all say," said the boy.—Selling facts.

FOR EXCHANGE—Job printing for money. Our work is like your money—the best. Twin Falls News.

Natural Gas. Natural gas is probably formed in the earth by a process of natural deflation from the animal and vegetable remains of past geological epochs, and is nearly the same product as is distilled from coal in the retorts of gas factories, only instead of the heat of the intense heat of the earth added perhaps by chemical decomposition, has caused its formation on a magnificent scale.

Nature's Error. Sufferer writes us that if nature had known what she was about when she made man, she would have given him two noses—one to have a cold in and one for general utility. Then you could get the first one, unimpacted (as the case of tonsils of an appendix) and comparatively happily ever after. It will call nature's attention to it—change.

Typewriting Fades Out. It has been found that typewriting on parchment leads is not durable. The deeds deposited within—very recent years many hues are flexible and so that light have completely disappeared.

WANTED FROM FARM, FACTORY AND FIRESIDE

A plan comes to us here in America from those who have suffered the torture of organized brutality, that you, on the farms; you, in the factories; you, the fathers and friends of brave boys "over there"—did YOU will come to the rescue with your money—today. Don't wait. Help shorten the horror. You're not asked to give—but lend. Buy Liberty Bonds—all you can afford.

TWIN FALLS BANK & TRUST COMPANY TWIN FALLS, IDAHO

A DIFFERENCE

Seeking some sort of a plausible explanation for its "bargain sale" subscription rate, a competitor lays considerable stress upon the idea which it expresses in the following words—conspicuously displayed.

"SO THE SUBSCRIBER INSTEAD OF THE SOLICITOR GETS THE \$2.50"

Aside from being a covering up process, it is designed to make subscribers to THE DAILY NEWS believe they have been imposed upon.

This insinuation, however, THE DAILY NEWS sees fit to answer—and to make its answer doubly effective—

It Will Give \$50.00 to Any Person, Firm or Corporation Proving that it is Paying or Ever Has Paid \$2.50 for a Subscription to Any Solicitor, Employee or Any Other Person and It Will Give Another \$50.00 to the Red Cross When Any Such Proof is Produced.

As a matter of fact—well known by everybody in the Twin Falls country—THE NEWS is the only newspaper in Twin Falls that has not resorted to silverware, millinery, cut glass and automobiles to sell its product. THE NEWS has never been "thrown in," "sent free," or WISHED OFF on people who were actuated only by the desire to help a friend win a prize. Nor is it sent to people with the expectation of effecting an "adjustment" with them later.

The News Has Always Been Sold on Merit Alone. It Continues to be Sold on Merit Alone and It Will Continue to be Sold at a Rate Commensurate With the Service It Believes the People of This Community Demand in a Daily Newspaper. To Do Less Would be Unfair to the Community.

# Where the Money Goes

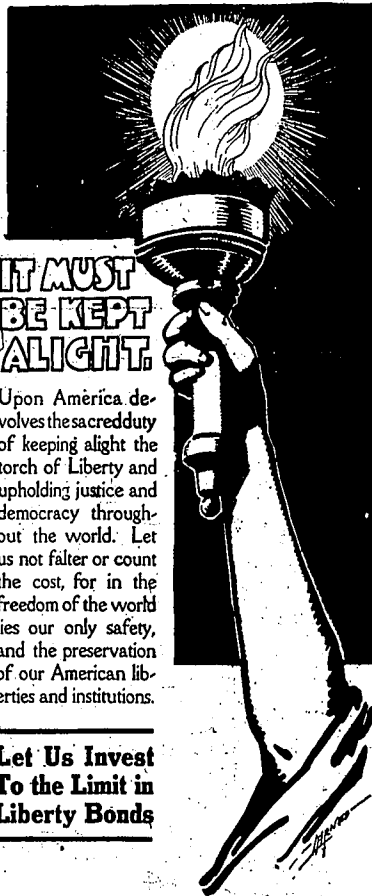

**WE** are now building more naval and merchant ships than we have constructed in the last generation.

We are building a vast fleet of aeroplanes, and enormous supplies of artillery, motor trucks, machine guns, rifles and ammunition. We are feeding, clothing and training an army of a million men and preparing for a million more. We have loaned

billions of dollars to our allies to be spent in the United States.

From the shipyards of the Pacific to those of the Atlantic; on our farms and in our mines, mills and factories in every state in the Union; back of firing lines in France, where men are training, camps are being erected and railroads built, billions upon billions are being expended for labor, for transportation, for materials and supplies of every description.

The mind can hardly conceive the sums of money required for our war preparations—yet these expenditures are absolutely essential

**IT MUST BE KEPT ALIGHT.**

Upon America devolves the sacred duty of keeping alight the torch of Liberty and upholding justice and democracy throughout the world. Let us not falter or count the cost, for in the freedom of the world lies our only safety, and the preservation of our American liberties and institutions.

**Let Us Invest To the Limit in Liberty Bonds**

We must win the war quickly if possible; we must carry it on for years if necessary.

We must do the job with American thoroughness, let the cost be what it may.

Remember, when you invest in your Liberty Bonds, that there is immediate, urgent and imperative need of every dollar you can spare

# WILL TAKE OFF MILLION MILES TRAVEL MONTHLY

## DIRECTOR GENERAL TO CURTAIL PASSENGER SERVICE TO RELEASE EQUIPMENT FOR WAR

WASHINGTON, April 15.—Director General McAdoo is about to flip one million miles a month from the timetable (traveling by passenger train) under the Mississippi river.

Details of the remodeled train service schedules are practically complete and an official announcement of the change is expected within ten days. It was located at the office of the rail road administration here today.

The revolutionary change, besides releasing scores of locomotives for hauling war necessities, is directly in line with a war economy. It will place passenger service on a war basis. One train practically will be doing the work of two, it was said.

### Demand Increasing Steadily

Constant calls for speed in handling materials needed in the preparation for war have become so great that it requires better facilities for transportation.

Although the cut in service promises to be the most drastic that the government took charge of the rail lines, officials stated the rescheduling has been worked out on purely an efficiency basis. They asserted the public would suffer few inconveniences.

### No Half-Priced Cars Go

Transcontinental trains no longer will be permitted to carry half-price coaches. And they will make more stops since contemplated changes will eliminate numerous local trains. The number of trains from coast to coast will be fewer. Details as to the exact reduction in that service were refused, but it was understood the same curtailment would be effected on the coast-to-coast service where fewer trains have proved practical.

The "north" routes to the Pacific coast are fortified by officials as having the highest percentage of "upper class" riders. These routes are being especially between Chicago and St. Paul. It is certain to be thrifty.

### MORE SUBSTITUTE AND LESS WHEAT

Food Administration Medicine Bread and Cake Rules Again

Save for Soldiers

Amendments, and additions to the existing rules have been made which will be instrumental in saving greater quantities of wheat flour, according to an announcement by the United States Food Administration Saturday. These changes that became effective April 15, are announced by food administrator Dickell as follows:

After today the substitute content of all bread and rolls must be increased from 15 per cent to 20 per cent requirement.

Under the baking rules issued February 1, bread and rolls were the only bakery products that required wheat flour substitutes, unless those products were called "victory" cakes, "victory" pies, etc. Under the new amendments, all bakery products must contain a certain percentage of wheat flour substitutes. The substitute content hereafter required in the various products follows:

### How Much White Flour?

Swet yeast dough goods, 33.33 per cent; crackers, 10 per cent; cookies and biscuits, 25 per cent; rolls, 25 per cent; cakes, 25 per cent; pastries, 25 per cent; waffles, 25 per cent; breads, such as muffins and Boston brown bread, 66.67 per cent.

Under the new rules, any bakery establishment may serve more than two ounces of bread and rolls, or more than four ounces of quick bread to any one person at any one meal.

### Make Smaller Loaf

With customers who buy loaf bread, bakers are urged to promote the use of the three-quarter pound loaf, following the food administration request that the 16-ounce loaf be used where the 16-ounce loaf was used before.

Bakers are urged to introduce "quick breads" as a wheat saving measure. These quick breads, including muffins, including powder, corn, corn bread, Boston brown bread, griddle cakes and waffles, must contain two-thirds wheat flour substitute.

### "Milk" Bread All Right

The use of the words "milk" or "cream" on wrappers and labels is no longer prohibited, but milk bread must still be sold at the same price as bread made without it.

Mr. Dickell said that all bakers in Idaho are charged with knowledge of these regulations, and this will be demonstrated next week. All bakers must govern themselves accordingly.

### BEATS OFF ATTACK

ROME, April 15.—An Italian merchant of more than 1500 tons and two smaller craft were sunk by enemy submarines in the past week, it was officially announced today. One steamer beat off the U-boat attack.

# DEMANDS STRONG FOR SINGLE MEN

## FARM BUREAU FILLS FIVE JOBS—THEIR SUPPLY BUNG OUT—CITY OFFICE HAS SURPLUS

Demand at the office of the county farm bureau here for unmarried men for work on farms on Wednesday exceeded the supply for the first time in several weeks. Five single men were placed in positions on that day, and there were applicants for more.

The office anticipates no difficulty, however, in supplying the demand.

Several men with families have filed applications for employment at the farm bureau office. Demand for married men, however, is less than for single men for the reason that many employers are not willing to provide quarters suitable for families of their employees.

City Clerk Mianick, in charge of the municipal employment office, said on Wednesday that the supply of labor of all kinds was in excess of the demand. He said that he had no doubt that most farmers were enabled during the warm and open winter, to complete the work of preparing the land and sowing crops without assistance.

On an average, there are not more than 2000 men in the city for the factors at the municipal employment office, he stated.

## STOCK TO SHIP AND COMMENDED FOR AOT

(By United Press.)  
WASHINGTON, April 15.—Five arm'd guardmen standing extra watch for several days in a drifting life boat from the submersible steamer Acton were commended today by Secretary of the Navy Daniels. The Acton was sunk November 24. For several days thereafter the survivors drifted, part of them being ill.

The five stuck to the ship to the last, then cast for the life in the boat, as they could, standing extra watch during the drifting. They were: John A. Carroll, Washington, D. C.; Samuel P. Erickson, Bath, Me.; William J. Hennessy, Cambridge, Mass.; Henry E. Sarr, Middlebury, Vt.; Albert J. Danielson, Minneapolis.

## LEADING BANKER IS DEAD IN NEW YORK

(By United Press.)  
NEW YORK, April 15.—Luther Knauts, aged 73, one of the leading bankers of the United States, is dead here today.

With his brothers, he entered the banking business first in Omaha, Neb., organizing what later became the First National Bank of Omaha. Later he organized the Colorado National Bank.

After spending one year in London studying finance, he returned to this country in 1870 and organized the banking firm of Knauts Brothers.

## PNEUMONIA TAKES HEAVY TOLL IN LIFE

(By United Press.)  
WASHINGTON, April 15.—Pneumonia caused 171 of the 185 deaths among the American troops in training for the week ending April 12, Surgeon General Wood reported today. Deaths for the preceding week were 200. The highest death rate was reported by Camp Dodge, Des Moines, Iowa, with 34 pneumonia claimings 32.

The national army death rate increased somewhat with 185 deaths as against 120 deaths for the preceding week, but on the whole, reports the surgeon general, general health conditions are good.

## INDUSTRIAL SYSTEM WILL BE SHOWN UP

(By United Press.)  
CHICAGO, April 15.—Exhibits illustrating results of the present industrial system, with 165 deaths as against 119 U. S. W. men on trial for alleged sedition, Attorney George F. Vanderveer indicated today in his questioning of witnesses. Defense counsel will attempt to justify the I. W. W. repressing program.

The government has tendered tentative jurors to the defense. It is believed that several will be challenged by the defense.

## WETS AND DRYS IN ALMOST EVEN BREAK

ALBANY, N. Y., April 15.—The local option election in New York state yesterday was almost an even break between the wets and drys.

Twenty cities voted dry. Eighteen voted wet. One is still in doubt.

Manufacturing cities retained the license. In the larger cities votes of the wets and drys were about evenly split.

## HOG MARKET

CHICAGO, April 15.—The hog market closed quiet, but 15 cents below yesterday's close. Total \$17.50. Estimated tomorrow 20.00.

Cattle closed strong, 10c higher. Total \$19.00; average \$14.50. Estimated tomorrow 20.00.

Sheep, calves, strong. Total \$17.50; average 14.00. Estimated tomorrow 16.00.

## OFFER TO RESIGN IF PRESIDENT WISHES IT

(By United Press.)  
WASHINGTON, April 15.—Officials here engaged in the government's air corps recruiting program have expressed their willingness to resign if the president should wish to resign if he desires, preliminary to his expected reorganization of this branch of the war work.

# GAS SHELLS AND HEAVY GUNS ARE PUT INTO PLAY

## YPRES SHELLED INTERMITTENTLY WITH BRITISH GUNS KEEPING UP UNREMITTING FIRE

(By William Phillips Shonau, United Press Staff Correspondent.)

WITH THE BRITISH ARMIES IN FRANCE, April 15.—Ypres' Quai's freshly arrived guns were pounding the villages in the areas back of the British lines today.

Throughout last night the region along the La Bassée canal was bombarded, British communications are constantly under indirect machine gun fire.

Ypres is being shelled intermittently. The British guns are keeping up a harassing and intense fire.

On the north bank of the Lys battle field yesterday there was a ceaseless struggle. British fire from the cluster of hills southwest of Ypres raked seven German assaults in the evening, besides Von Arnim's attempt to advance into the pocket of the Ypres salient which Heig evacuated. Here British artillery smashed the troops of Generals Marshall and Zolnowka, which were caught in the old shell-torn battlefield.

## ARMY OFFICIALS TO INVESTIGATE FIRE

(By United Press.)  
NEW YORK, April 15.—Army officials are today investigating the origin of a fire that destroyed a large brick building on Governor's Island last night. Three thousand soldiers were unable to extinguish the fire, which did \$1,000,000 damage. A call for aid was sent to the New York fire department. The firing of a cannon alarm was heard throughout the lower section of the city created considerable excitement.

## OPPOSES RAISING PRICE OF WHEAT

(By United Press.)  
WASHINGTON, April 15.—"Catering congress members have been" declaring the farmer who doesn't need caterers is today representing Madison, Illinois, today rallied powerful house forces to defeat the senate measure raising the wheat price from \$2.50 to \$2.60.

At the same time the opposition movement has increased \$2.65 a bushel. "Wheat at \$2.60 a bushel," said Madden, "means flour at \$18 a barrel and it's an outrage to impose such a burden upon industrial America."

## OPPOSE TEACHING GERMAN LANGUAGE

(By United Press.)  
INDIANAPOLIS, Ind., April 15.—Resolutions opposing the teaching of German in all public grade and high schools were adopted at the closing session of the convention of the women's franchise league of Indiana here today. Other resolutions were: endorsing passage of the prohibition amendment; endorsing amendments as war measures; urging congress to pass Jeanette Rankin's bill providing that American wives of aliens retain their citizenship.

## AUSTRIAN TROOPS ARE GREATLY DISAFFECTED

(By United Press.)  
WASHINGTON, April 15.—Austrian troops in the west front have refused to go on to the west front, according to reports reaching the state department today. In addition to these rumors, authentic information showed that the Austrians are trying to force the Ukraine into a German-Austrian confederacy.

## PITCHER WRAVES MAY GO

ST. LOUIS, April 15.—Bad weather that led to last opening game worried the Cubs today, only little more than the Germans. Because of the latter the Chicagoans are apt to lose Harry Weaver, pitcher, who paced his draft examination yesterday. The Cub "stray" includes Alexander, Kilmer, Weaver, Elliott and Klindoff. Tyler or Vaughn was to pitch against Bill Doak today.

## ITCHER TO GO TO SEA

CHICAGO, April 15.—Grover Alexander will be a sailor, not a world famous pitcher, if he joins the navy. That was Commander Moffett's announcement at Great Lakes today following the receipt of instructions from Washington. If he joins here Grover will be pushed through preliminary training and headed directly to sea.

## STOCKS TREBUCLAR

NEW YORK, April 15.—The stock market opened irregularly. U. S. Steel closed off 1.5 at 91.65; Bethlehem gained 1.25 to 77.12; and Baldwin locomotive gained 1.4 to 70.12.

Amalgams opened unchanged at 65; Missouri Petroleum lost 1.4 to 91.3; Tails were unsteady at 140.00; Pacific at 118. American Smelting was one of the leaders at 76.75, up 5.8.

## NEW AMBASSADOR NAMED

LONDON, April 15.—The appointments of Lord Derby as ambassador extraordinary to France, succeeding Lord Bessborough; of Viscount Milner as secretary of state for war, succeeding Lord Lee; of Lord Curzon as secretary of state for foreign affairs, succeeding Lord Curzon; and of Lord Curzon as secretary of state for foreign affairs, succeeding Lord Curzon.

LADY FURNESS  
Lady Furness, one of the noted women of the British peerage, is serving as a nurse in the Red Cross behind the lines in France. Many, like her, have given up personal comforts and the joys of society life to enter their efforts in their country's cause. Many are serving in the hospitals close to the firing line in France.

## BUHL PAYS TRIBUTE TO YOUNG SOLDIER

SAMUEL JASPER KELSO, DEATH'S FIRST VICTIM AMONG MEN OF COMMUNITY IN SERVICE

The flag of the nation to which he had pledged his service and life covered the casket containing the remains of Samuel Jasper Kelso, death's first victim among the soldiers who have given from Buhl, whose funeral service were held Wednesday here.

The whole community joined in paying the final tribute to the young soldier. Business houses were closed during the afternoon. Ministers of all the Buhl churches were in attendance, and in their composed prayers of all de-mo-nistic-a-look part in the funeral services. The sermon was delivered by Walter E. Herman, minister of the First Christian church of Twin Falls. The Buhl troops of Boy Scouts attended as an organization, and the committee furnished a firing squad and bugler who sounded "taps," playing military honors to the young man whose life was claimed while in the service of his country.

Samuel Jasper Kelso, son of H. B. Kelso, was 17 years of age. On December 15, 1917, together with several other, young men among his neighbors and acquaintances, one of whom accompanied the remains back to Buhl, he enlisted in the army aviation service. His death was result of pneumonia poisoning, and occurred at a cantonment in Louisiana.

## LOCAL FRUIT CROPS ESCAPE FROST DAMAGE

Deputy Inspector O. W. Brannan Gives Assurance of Full Crops of All Varieties

Fruit of all varieties in the Twin Falls district, outside the orchards in Snake river canyon, escaped practically unharmed from recent frost. Deputy Inspector O. W. Brannan, in his report of report, said here this morning. The peach crop escaped for the reason that blossoms were not fully opened. The killing of 50 or 60 per cent of the blossoms would still leave a full crop of fruit this year. The inspector said. His investigation leads to the conclusion that the damage has not reached so great proportions in any of the orchards on the bench.

## QUARTER OF MILLION LOCAL BOND SALES

Four Campaign Commanders in Twin Falls District Report Total Subscriptions of \$251,000

Liberty Loan subscriptions secured by the several teams in the Twin Falls district, the boundaries of which coincide with those of the Twin Falls independent school district, totaled \$251,000 according to report turned in to county headquarters this morning. The apportionment of the subscription among the four Twin Falls campaign colonies was as follows: Stuart H. Taylor, \$17,770; E. L. MacVicar, \$60,000; W. P. Riebe, \$45,750; C. S. McMartin, \$80,000.

## WATERLOGGED SHIP IS SIGHTED AT SEA

(By United Press.)  
WASHINGTON, April 15.—Waterlogged and apparently abandoned the four-masted schooner Herald, New York, was sighted April 12 in latitude 23 degrees 15 minutes and longitude 85 degrees 45 minutes west, according to a state department dispatch from the American consul at Tampico, Mexico, today.

## SECRETARY BAKER CHEERS UP TROOPS

(By United Press.)  
WITH THE AMERICAN ARMY IN FRANCE, April 15.—Secretary Baker, in a letter to the American expeditionary force, made public here today, promises to "speed up the transport of the remainder of the great army, of which you are the vanguard."

The price of Butter Wrappers remains unchanged

## SCHOOL DEBATERS TO ARGUE PEACE POLICY

TWIN FALLS NEGATIVE TEAM GOES TO CAPITAL CITY, WHILE BOISE TEAM COMES HERE

Whether or not, after the war, the United States should participate in the organization of a league of powers to enforce peace, is the question to be argued at the annual debate between the Boise and Twin Falls high school teams which will take place simultaneously in Boise and Twin Falls on Friday evening. Boise's negative team comes here to meet the Twin Falls affirmative debaters, and the local negative team goes to the capital city. Members of Twin Falls' negative team, which leaves for Boise this evening, accompanied by M. C. Mitchell, a member of the faculty and debate coach are Michael Thomson, Walter Krenzel and Elmer Wyland.

The affirmative team which meets Boise's speakers here is composed of William Buhl, Waldemar Reed and Paul McKinley. The debate here will take place in the high school auditorium and is to begin at 8:15 o'clock. Several numbers will be given by the high school orchestra.

Admission is free and the public is invited to attend.

WANTED—Work by married man, mechanic and automobile driver and mechanic; will take farm work. Room 117, Rogerson annex, Twin Falls.

## BRITISH PRAISE FOR AMERICAN SOLDIERS

(By United Press.)  
WITH THE AMERICAN ARMIES IN FRANCE, April 15.—General Pershing today received a letter from General Rawlinson, commander of the British fifth army, in which the latter declared it was largely due to the assistance of the American engineers that the British army was able to check the German army in Picardy.

He Didn't Know  
In a matter trial that experts were examined. Most of them had a national reputation. A hypothetical question of 20,000 words, which it required two hours to read, was asked of Doctor Kelly, a Boston expert on insanity. The learned doctor answered the question in three words: "I don't know." A frank answer, but rather perplexing to counsel.—Case and Comment.
