## GERMAN HORDE STORMING AMERICANS THROWN BACK WITH TERRIFIC LOSSES

### USE OF JAPSON WEST FRONT IS IMPRACTICAL

### JAPANESE AMBASSADOR DECLARES MILITARY CHIEFS REGARD IT AS TECHNICALLY IMPOSSIBLE—WILL NOT IN RUSIA IF DANGER EXISTS

(By United Press.)  
SAN FRANCISCO, April 22.—Japanese military authorities do not believe Japanese troops would make good fighting units on the western front, Viscount Kikujiro Ishii, ambassador to the United States, said here today.  
"Difference in food, climate and language would hamper them," said the ambassador.

"Of course," he added, "I am merely repeating what our military men have told me. I am not a military man myself. But I am told that it is technically impossible from a military standpoint to send Japanese troops to France. The Japanese soldier would need Japanese food and the three weeks required to send it would last over twice the time. They would be further hampered by the difference in language which would prevent the fullest co-operation with their allies."

**Seeks True Friendship**  
Viscount Ishii warned against the illusion to city and country between the two of the United States.  
"True friendship," he said, "is proved only in time of trial, and the time has now come when this friendship is to be abundantly proved."  
"The mist of enemy intrigues hanging over us by the two countries has been swept away by the clearing cloud on the horizon of the Pacific. In fact Japan and American relations have never been so cordial."

"We must not, however, relax our vigilance until we have secured our own share again slip in and renew his attempts to sow the seeds of discord between us as he has done with no small success in the past."

**Watching Bolshewiki**  
Viscount Ishii's interview, given to newspapermen here, was a preparation for the most important address he will give with the address he delivered at a banquet of the American-Japan Society on the eve of his departure from Tokio.

**Act Only in Defense**  
"All the allied powers must take steps to prevent those supplies from falling into the hands of the Germans. It is not in position to judge whether it would be considered a menace for those supplies to be removed by the Russians themselves. That would depend entirely on immediate circumstances. But Japan is ready to act as soon as a common danger exists and as soon as there is a common desire on the part of the allies to protect allied interests in Siberia. It would never be a matter of offense."

YOUR MONEY OR THEIR LIVES.

### RELUCTANCE TO RETIRE RESULTS IN CAPTURE

### Recklessness and Unwillingness to Give Ground Despite Orders to Withdraw Places 183 Americans in Hands of Enemy—First Serious Encounter

**EIGHTH DISTRICT GOES OVER**  
(By United Press.)  
ST. LOUIS, April 22.—The eighth district officially went over the top today with more than its quota of more than 400,000,000 in the third Liberty loan.

(By J. W. T. Mason, United Press, War Bureau)  
NEW YORK, April 22.—American troops have fought at Seicheprey their first real battle of the war, and have come through the engagement with victory.

### GERMAN TOLL ON WEST FRONT OVER TWO AND HALF MILLION

(By United Press.)  
PARIS, April 22.—KARL BIECKEL, A GERMAN MILITARY WRITER, DECLARES IN THE WEEKLY "DEUTSCHES WORT" THAT THE GERMAN LOSSES ON THE WEST FRONT, BETWEEN AUGUST, 1914, AND AUGUST, 1917, TOTALLED 2,664,981 IN KILLED AND PRISONERS.  
ON THE EAST FRONT, HE SAID, THE TOTAL KILLED AND PRISONERS WERE 1,484,500.  
GERMAN WRITERS ESTIMATE THE GERMAN LOSSES BETWEEN AUGUST, 1917, AND JANUARY 31, 1918, AS 567,450 KILLED AND TAKEN PRISONERS, ON BOTH FRONTS.  
THEY ESTIMATE THE GERMAN TOTAL OF GERMAN KILLED AND PRISONERS, ADDING THOSE DYING OF ILLNESS AND WOUNDS, AND THE CASUALTIES IN COLONIAL AND NAVAL FIGHTING, ETC., AT FIVE MILLION.

All previous attacks by the Germans against the American positions in east France have been raids or reconnaissances for the purpose of securing information for the German in remaining strength in the American positions they had temporarily occupied.

**Wanted American Position**  
The purpose of Hindenburg to consolidate the American-held sector with the German front is sufficiently indicated by the action of the German in remaining overnight in the American positions they had temporarily occupied.

**Bravery Assures Victory**  
The German claim of 183 Americans being captured may be true. The Americans very probably would be reluctant to obey orders to fall back in their first serious encounter with the enemy. Hindenburg on the part of an advanced unit to retire may well have caused its isolation by barrage fire and its necessary capitulation. Americans have a certain quality of resistance which may cause occasional mistakes like this, but which in the end means victory.

**BERLIN TO KEEP TAB ON COUNTRY'S ACTIONS**  
(By United Press.)  
BUDAPEST, April 22.—Count Czernin, who replaced an Austro-Hungarian foreign minister, probably will be appointed Austrian ambassador to Berlin, according to reports received here today.

### AMERICAN LOSSES HEAVY SAYS BERLIN

### GLAM CAPTURE OF 183 PRISONERS, INCLUDING FIVE OFFICERS—ADMIT WITHDRAWAL TO ORIGINAL POSITIONS BUT INSIST SUCCESS AT FIRST

(By United Press.)  
LONDON, April 22.—The Germans, in an official statement issued by the Berlin war office Sunday, claim the capture of 183 Americans, including five officers, in the assaults on the American positions near Seicheprey. They also declared the American losses were extraordinarily high.  
"Near Seicheprey Bavarian troops stormed American positions, advancing two kilometers (about a mile and a quarter)," the statement said. "They repulsed counter attacks and after destroying the enemy's works, withdrew to their original line."  
"They took prisoner 183 Americans, including five officers, and captured 25 machine guns. The American losses were extraordinarily high."  
"French statements differ."  
"In describing the action the French war office says the Americans repulsed a lively German attack Saturday night. Later it was stated that the allied line had been entirely re-established."  
"In the region of Seicheprey Saturday night, Americans repulsed a lively German attack," the communique said. "We regained most of the lost ground."

### CALIFORNIA IS AGAIN ROCKED BY EARTHQUAKE

### BUSINESS BUILDINGS ARE RAZED AT KEMET AND SAN JACINTO—BREAKS LOS ANGELES WINDOWS

(By United Press.)  
LOS ANGELES, Cal., April 22.—Business sections of the town of Kemet and San Jacinto, 80 miles east and south of Los Angeles, were in ruins today as the result of a severe earthquake shock which struck southern California at 3:30 p. m. Sunday.

**Shock was felt throughout southern California, but was most severe in the inland towns near Riverside.**

**Known Dead and Injured**  
Four are known to be dead, the towns of San Jacinto and Kemet, 80 miles southeast of Los Angeles, are practically in ruins and a score of people slightly injured today as the result of the earthquake which rocked southern California Sunday afternoon.

**The dead are:**  
Frank E. Darnell, Boston, trampled to death on a Santa Monica pier when a passenger steamer struck ashore, August Carlton, Astoria, Ore., also died.

(Continued on Page 2.)

### GROUND LOST SUNDAY RE-TAKEN THIS MORNING

### Outnumbered Americans Withstand Gas, Artillery and Three Waves of German Storm Troops—Sheer Bravery Regains Territory Given Up Day Before

(By United Press.)  
WITH THE AMERICAN ARMY IN LORRAINE, April 22.—American troops attacking the Germans northwest of Toul this morning following a heavy barrage, retook all the positions lost in Saturday's strategic retreat. The ground was covered with enemy dead; showing the heavy cost of their assault.  
Latest reports show that the Americans, although outnumbered, valiantly withstood the onslaught of three waves of storm troops. A German barrage behind their own troops forced their advancing infantry across No Man's Land into the attack.  
Americans say the Germans were "dope-crazed" and more like wild men and beasts than humans, singing and yelling as they advanced.  
In the artillery-wrecked villages in the rear, the Red Cross, Salvation Army and Canteen workers bravely stuck, helping the wounded and serving coffee to exhausted soldiers.

### ANOTHER DRIVE IMMINENT ON PICARDY FRONT

**NEW ASSAULT EXPECTED BETWEEN AMIENS AND ARRAS—HINDENBURG WANTS HEIGHTS**  
(By United Press.)  
LONDON, April 22.—The bombardment of Amiens has been heavily renewed, according to a dispatch today from the British front. Three additional hits have been made on the famous Amiens cathedral.  
A resumption of the Picardy drive by Hindenburg through an assault by the Somme and the Scarpe river appears imminent.

A United Press dispatch from the French front says "there are numerous indications that the Germans are preparing for a fresh drive between Amiens and Arras." This, the correspondent declares, is in line with the enemy strategy of "maintaining their temporarily abandoned drives in a condition permitting immediate resumption of the offensive."

**Sector Quiet Recently**  
The front between the Somme and the Scarpe has been comparatively quiet of any of the sectors in the two fighting fronts of the west front offensive for several weeks. The Flanders battlefield, with the exception of brief lulls, has been the scene of almost constant fighting since the drive started there April 9. The French have made several successful local attacks east of Amiens, and the

**Reports Casualties**  
American forces in the battles of Seicheprey, while suffering the heaviest losses of their fighting to date, inflicted casualties numbering close to 500 on the German. General Pershing reported today in the war department.  
The losses have not been checked up but are known to have been less than the Germans, it was stated.

**GERMAN WAR LOAN SUCCESSES**  
(By United Press.)  
WASHINGTON, April 22.—The result of the eighth German war loan amounts to 14,550,000,000 marks. This is the greatest subscription Germany has netted. A mark is 23.5 cents.

### TWO AMERICANS ARE DECORATED BY FRENCH

(By Lowell Mellett, United Press Staff Correspondent.)  
PARIS, April 22.—On the anniversary of the enlistment of the American ambulance corps in the French army, Lieutenant Albert Smith and Private Edward Bickel, both graduates of Gettysburg, University, were decorated with the Croix de Guerre today.

Smith and Bickel spent nine days carrying wounded under shelling and machine gun fire, beginning March 21. For six days they neither slept nor rested.  
Smith commanded twenty ambulances, all of which were riddled, although he was wounded under shelling and machine gun fire on the last wounded from the dressing stations when an evacuation was ordered.  
Bickel returned and rescued several wounded.

### Wearing Out of Allied Reserves Believed Part of German Strategy

There are numerous indications that the Germans are preparing for a fresh drive between Amiens and Arras, harmonizing with their system of exploiting drives when successful and abandoning those where the enemy successfully resists.  
From the Allied river to the North sea, only two offensive sectors remain—between Amiens and Arras, and between Neuport and Ypres.

### ABOVE 700 NOW

The already mentioned climb of the Daily News circulation figures is noted in the increase today at press time, from 700 actual subscribers Saturday, to

As evidencing the demand for the United Press dispatches direct from the front, The News Saturday after running off a number of papers, it was thought to be ample for all purposes, had to be put on the press again late in the afternoon for another run of 200.

Copies of The News are now being sent to subscribers and purchasers at news stands every day.

# GERMAN REPULSE PLEASES ARMY MEN OF CAPITAL

## SECOND MONTH OF BIG OFFENSIVE FINDS HUN CHECKED—DAILY BULLETTIN NEEDED

(By United Press)

WASHINGTON, April 22.—German successes at the American front in the first month have been met with all the enthusiasm, and fighting spirit that has always characterized United States fighters. American military men here said today that accounts of the struggle proved that the Americans could count on.

With the offensive now on its second month, the German finds himself checked.

The fact that Berlin alone made claim of 183 American prisoners in the fighting at Stutgart and that there was no American communiqué on the subject served to emphasize here the need of an American daily official statement.

In addition to the west front situation, the experts are following up the fight closely. Cooperation between allied forces and Belshewiki, following lapping of added forces on the Murman coast, is to protect vital stores.

## STEEL CENTER PUTS ON WAR GARDEN CAMPAIGN

(By United Press)

JOHNSTOWN, Pa., April 22.—A big war gardening campaign has been started here this year and more than 200 acres of land has been secured in vacant lots which will be turned into gardens. Prizes amounting to \$750 already have been offered to stimulate the work. These are being given by Max Swartz, one of the city's business men. The prizes will be divided between the adult and the school children gardens.

D. M. Stackhouse, chairman of the Chamber County Committee of Public Safety, has sent a report on the work in the Washington, which is cooperating in the movement and has sent a lot of free garden primers for the instruction to the city farmers. Last year there was something like 500 war gardens here but this year it is believed that there will be a much larger number this season. A big steel corporation here is helping its employees to feed themselves via the home garden route. Between 20 and 30 acres of its land was plowed and fertilized for the new free of charge.

In order to get big results some farm machinery has been bought, including two tractors, to get the land in shape for the home food producers.

## RECORD-BREAKING BUDGET INTRODUCED

(By United Press)

LONDON, April 22.—Andrew Bonar Law, chancellor of the exchequer, presented a record-breaking budget in the house of commons this afternoon.

The chancellor estimated the votes of credit for the coming year would total 2,550,000 pounds (\$15,750,000.00) as compared with actual expenditures last year of 2,402,000,000 pounds (\$15,015,000.00).

Germany's war expenditures are \$40,250,000 pounds (\$255,000,000) daily, "almost" as much as our own, Honor Law said. The war debt of Germany, he said, is 8,000,000,000 pounds (\$40,000,000,000).

"Russia's debt to Great Britain is not high, as compared with hers, there will be an established government there," Bonar Law declared.

He announced that letter postage would be raised to three cents and that the tax on checks would be four cents instead of two.

The income tax will be raised from five shillings (\$1.25) to six shillings (\$1.50) per pound (\$5).

The liquor tax will be doubled and the tobacco tax increased thirty per cent.

Luxuries will be taxed two pence (four cents) per shilling (25 cents). The house committee will decide what constitutes luxuries.

## HUGE TONNAGE PLAIED AT DISPOSAL OF U. S.

(By United Press)

TOKIO, April 15.—(Delayed)—Under an agreement just concluded between the Japanese government and shippingmen, Japan will immediately place at the disposal of the United States 250,000 tons of ships.

These ships will leave Japan not later than May 15.

The agreement also includes a contract for the construction in Japan of 25,000 tons of shipping tonnage. These vessels will be turned over to the United States in exchange for steel or the basis of one ton of steel for two tons of ships.

## Much Demand for Dogwood. Shuttle factories and other manufacturing plants use more than seven and one-half million feet of dogwood annually in this country.

## BATTLE ROYAL FOR WILLARD-FULTON FIGHT

CHICAGO, April 22.—A Liberty bond battle at the twin cities of a military show at Camp Grant, Ill., was the choice before Champion Jess Willard and Challenger Fred Fulton today for their July Fourth bout. Willard said he had called Miller here from St. Paul to consider the offer from Camp Grant.

Colonel Miller was threatened with the axe as promoter, when camp officials announced they would deal directly with the boxers if they get the bout. Willard fears this location somewhat sure he would be granted a good jump sum. Obligations to Fulton for a \$20,000 and would be wiped out also, Willard believes. Military men said they would choose a referee and determine the number of rounds.

The Minnesota safety commission will rule tomorrow on whether the championship bout would interfere with prosecution of war work in Minnesota. Members of the safety commission were considering Miller's offer to put the fight proceeds into Liberty bonds.

## CAN'T SINK TRANSPORTS GERMAN WRITER ADMITS

(By United Press)

AMSTERDAM, April 22.—The Germans are not sinking American transports because they are so well convoyed that submarine attacks either are impossible or extremely hazardous. Captain Kahlert, writing in the Lokal Anzeiger, naturally admits that the U-boats.

Anyhow, he says, the aim of submarine warfare can be obtained in sinking other steamers.

## STARVED MEXICANS IN RAISING BUSINESS AGAIN

(By United Press)

PRESIDENTO, Texas, April 22.—Caranza soldiers, without food supplies and facing starvation, have taken to raiding American ranches in the Big Bend district of Texas.

The White ranch was raided today and several horses and head of cattle stolen. Other ranches are reported to have been raided also.

Reinforcements are being rushed to the Big Bend district to strengthen the United States border patrol.

## CALIFORNIA IS AGAIN SHOCKED

(Continued from Page 1.)

of heart failure when he rushed to the hospital.

Two unaffiliated men, buried in a magazine mine two miles south of Hemet. Their bodies were removed today.

Fall at Los Angeles

Windows were broken in Los Angeles and the beach cities. The only death thus far reported was that of a man who fell off a pier at Santa Monica when the earth heaved in several places. He was injured at Hemet and San Jacinto by falling gas and bricks, but none seriously.

## UPHOLDS POWER TO COMPEL VACCINATION

Attorney General Gives Opinion Upon Request of Patrona and Board of Buhl Schools

While the statutes of Idaho do not contain a provision permitting school boards to make and enforce an order requiring that all of the pupils of the schools be vaccinated for smallpox, as supreme court decisions have been rendered in favor of such action in cases of contagious diseases, according to an opinion rendered by Attorney General T. A. Walters, this week, says the Buhl Herald.

The Buhl school board passed a resolution at their regular April meeting requiring that all pupils of the Buhl schools be vaccinated for smallpox, due to the rapid spread of the disease in that neighborhood. However, they requested their action at a meeting last Monday night.

A number of complaints have been directed to the Superintendent, C. G. Manning, by the patrons of the school, and because of them the board has lifted the vaccination order.

The authority of the school board to take such action was asked for, and the attorney general was asked for a decision on the matter.

## TIN HAT SOUNDS JUST LIKE CASH REGISTER

By FRED S. FERGUSON (United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN LORRAINE, FRANCE.—"That was the noise the Boche rang up without getting the message," said a boy from Dayton as he took off his tin hat and pointed to a noisy spot on the crown. He went over the top with the men of the Ohio regiment when they made their raid on March 9. While coming back the German artillery opened up with a barrage. There was a burst of shrapnel near the Dayton boy. His life was saved by his tin hat. A piece of the shell struck the hat and bounced off.

"You ought to have heard it ring," the Dayton soldier went on. "It sounded like all the cash registers in the shops at home were being rung up. The Boche missed his sale."

## THREE FILE CLAIMS FOR LATER INDUCTION

Some Registrants Called for Next Draft Contingent Say They Are Farmers

(By United Press)

NEW YORK, April 22.—The stock market opened buoyantly today. U. S. Steel sold up 1/8 to 66 1/8; Central Leather was off 1/4 at 63 1/4, while Amecum showed a gain of 1/8 to 114.

New highs for the year were made in United States Rubber, Halway Steel, Spring, Republic Steel, Baldwin, and Great Northern Ore, during the first fifteen minutes. Favorable market conditions were given strength to the list, and reports of impending government railway equipment orders.

## RUSSIA PROTESTS GERMAN ATROCITIES

(By United Press)

MOSCOW, April 22.—Foreign Minister Tchicherin today sent the following message to the German foreign office:

"I have authoritative information that German troops have firing on Russian towns and shooting the population. I feel German troops exterminating an entire family, including the women."

"At Novos Belki, peasants, including children, killing a German officer. German troops fired on the town with machine guns, exterminating the population. I feel German troops exterminating an entire family, including the women."

"I have authoritative information that German troops have firing on Russian towns and shooting the population. I feel German troops exterminating an entire family, including the women."

"At Novos Belki, peasants, including children, killing a German officer. German troops fired on the town with machine guns, exterminating the population. I feel German troops exterminating an entire family, including the women."

VIVIAN MARTIN in "A Pelican Pilot" AT THE IDAHO THREE DAYS, COMMENCING MONDAY

## PERSONALS

A. H. Anderson, manager of the Orpheum theatre, returned Friday after spending a week on a business trip to Salt Lake.

Mr. and Mrs. W. A. Tyler, of Salt Lake, are house guests this week of Judge and Mrs. E. A. Walters.

B. L. Hodgins, of the law firm of Walters & Hodgins, will leave the first of this week for Washington, D. C., where he will spend about three weeks on business.

Robert Hanson is a patient in the Boyd hospital, recovering the use of a fractured arm.

E. Lee Johnson, for two months past a resident of the vicinity of Tarnan, where he has purchased farm property, is here this week renewing acquaintances and arranging for work in his property in this district.

## ANOTHER DRIVE IMMINENT

(Continued from Page 1.)

sector from Montebello eastward has been innumerable raids and artillery engagements.

Preparing Fresh Assault

In his official report today described a strong enemy attack in the neighborhood of Mesnil, which is located on the Amiens-Arras front, about eleven miles north of the Somme.

There are also indications that Italy participated an effort by Hinesburg to consolidate the two big battle fronts between the La Bassac canal. He reported numerous successful raids on both sides of Lens, which is about midway between the two battlefields. These raids may have been part of a feeling-out process to determine whether the German lines had been strengthened materially there.

Wants Vimy Ridge

In this week's issue of the "Vimy Ridge," by a flanking movement from Lens southward, Hinesburg may hope to take this important height, after which he would attempt a flanking movement northward against Bethune and Arras, or southward against Amiens.

The British commander also reported

## REPORTS CHOLERA IN HERDS AT BLACKFOOT

Malady Reappears in Idaho After Several Months' Period of Control

Outbreak in the Blackfoot district of two cases of hog cholera, marking recurrence of the malady in this state for the first time in several months, was reported last week to Dr. W. A. Sullivan, inspector in charge of the bureau of animal industry investigations in Idaho, by Dr. L. C. Henderson, an inspector formerly with the Twin Falls station and now at Idaho Falls. The source of infection has not been determined, but the disease is believed to have been brought into the district in an infected importation of hogs. Dr. Sullivan Saturday detained Dr. H. T. Cook, inspector of the local station, to go to Dr. Henderson's assistance in combing and controlling the plague in the Blackfoot district.

# We Believe in Advertising

There is just one way the DAILY NEWS is sold—MERIT—backed by sound, substantial advertising.

That combination—merit and advertising—is pushing up the circulation every day.

Merit and advertising tell the story. It explains why over 500 persons in Twin Falls county subscribed to the Twin Falls Daily News during the first week of its existence.

It explains why the little-circulation figures on the front page change each day—growing always.

Merit—backed by advertising.

People know about the United Press. They know it's the biggest afternoon newspaper service in the world. They know it is always first and they know it is always dependable.

People know that the Daily News gives them all local and state news. And they know they get it the day it happens.

They know what the slogan means—"Today's News Today."

# Now We Want You

There are over 1000 copies of the Daily News sold each day on the streets and by agents in Twin Falls and the other cities on the branch.

We want you people on our regular Subscription list. Sooner or later you are going to be with us, and the sooner you come in the more we are going to be able to do for you.

Running a daily paper is a business proposition—not a matter of sentiment. In no other line of business is the public so much a partner. We work for each other's interests.

# EXPLOSIONS TAKE HEAVY TOLL OF GRAIN

## GOVERNMENT MAN TELLS OF METHODS ADVISED FOR PREVENTION OF ENORMOUS WASTE

Four million bushels of wheat, or enough to maintain 200,000 soldiers for one year, were destroyed and 500 men were killed as a result of dust and smut explosions and outside of fires from other causes, in the United States last year, Dr. H. H. Brown of the bureau of chemistry department of agriculture, told an audience of about 100 grain growers, elevator men and mill operators assembled in the Lavington theatre Saturday afternoon.

Two such explosions occurred last year in Twin Falls county.

### Food Saving Campaign

As a means of assisting in the food conservation program as well as for the protection of the grain growing and handling industries in this respect, the department of agriculture is carrying on a campaign for the dissemination of facts as a result of the investigation relative to the causes of dust and smut explosions and methods of prevention. Dr. Brown, who has been detailed as a speaker in the northwest, came here in the interests of that campaign.

### Electricity a Cause

Explosions result from ignition of dust and smut are frequent in thrashing and after the grain is stored in elevators or mills, Dr. Brown stated. Static electricity is a common cause. It is the opinion of the department of agriculture, Dr. Brown said, that between 100,000 and 150,000 volts of electricity will be developed in the normal operation of a thrashing machine.

### Methods of Prevention

Methods of preventing explosion advised by the department include the use of ground wires, suction fans and automatic extinguishers. The use of suction fans is advisable for the reasons that it removes the smut, preventing its spread, and because it cleans the grain so that it is worth on an average of 95 cents a bushel more than grain, according to report of department of agriculture laboratories.

### Thrashing Insects Sought

Thrashing of grain infected with smut unless the spores are confined by means of a suitable mechanical device results in the spread of the pernicious fungus to the normal grain. Dr. Brown gave one instance in which smut spores to the number of 6000 to the square inch had been discovered three miles distant from the nearest grain field, a result of distribution of the spores in the wind of the pernicious fungus through thrashing.

### Department has succeeded in developing an effective automatic fire extinguisher for use in thrashing machines, Dr. Brown asserted, and is in position to give full information to anyone interested.

### Illustrates With Views

Dr. Brown illustrated his lecture by means of lantern slides and motion picture films showing the results of dust and smut explosions and measures adopted for prevention of such explosions. He produced a number of miniature explosions by artificial means, demonstrating the effect of ignition of various kinds of dusts.

### Dr. Brown was introduced by W. F. Arnold, of Ellet, president of the state and county farm bureau organizations.

### LETTERS FROM HOME

#### CHIEF THE SOLDIER'S

Thousands of persons on the Pacific coast will remember Thomas E. Watt, a minister of the Christian church, formerly educational director of the Oakland Y. M. C. A., and later a war work secretary at Imperial Beach, and Fort Hancock near San Diego. He heard the call to service in overseas work of the Y. M. C. A. and left for the front.

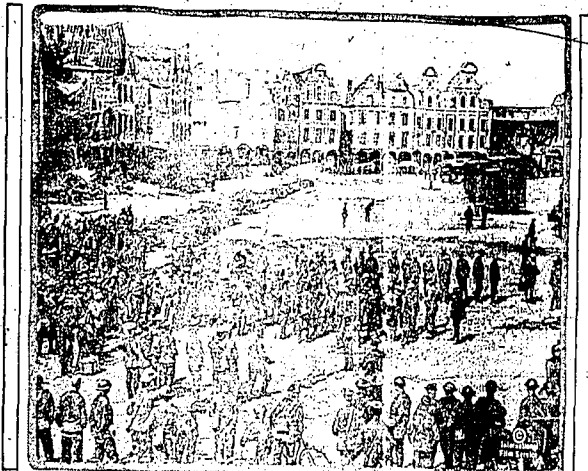

He is at Dixie in Winona Town, Winchester, England, and makes a plea for friends at home to write letters to the soldiers. He says that a letter from home is the greatest gift of spirits. He says that it is the only thing he has found to keep him from getting homesick.

In a recent letter he says: "Men and women of the homeland have to keep this work on your hearts. You must write your boys, in Y. M. C. A. war work, and go to work day and night to give the boys and keep them in touch with the best things in life, but you must put this terrible trouble in perspective. They are your own. They are here. They are your own. They are only one agency that can, in any measure, be of the least use to you. A. Pray for all of us that we may be given enough for the job that has been given us."

# GERMAN THRUST TOWARD ARRAS CHECKED BY BRITISH

The Germans made a determined thrust toward the British lines, but were checked some miles short of the city. This photograph shows British troops assembling in the square of Arras.

## SEASON FOR STORAGE GOAL MAY BE SHORT

### FUEL ADMINISTRATOR GOODING MAKES STATEMENT SHEDDING LIGHT ON SITUATION

GOODING.—The coal storage season is on, and it is evident from present indications that those who wish to secure their coal at the present low price must get in their orders before the first of May. Fuel Administrator Gooding still endeavored to have the storage season extended by the Utah and Wyoming operators till the first of July, but it is seemingly apparent that the coal operators have no desire to carry out an understanding between themselves and the state fuel administrator, first entered into in January and renewed only last week. This understanding was the effect that the coal operators would maintain a low price for coal throughout the storage season and close not earlier than July 1.

Mr. Gooding is well informed by the operators it is their present intention to advance the price of prepared coal from \$3.50 for lump and \$3.00 for nut to \$4.75 a ton by the first of May on May 1. He is still endeavoring to complete arrangements by which operators will be authorized until the first of July, and if possible for still another month.

Retailers Reduce Gross Margin.—In contrast with the action of the coal operators is the voluntary action of the retail coal dealers throughout the state. They have offered to reduce the gross margin allowed them, 35 cents a ton, of all coal sold and delivered from the car. This is only in cases where the gross margin allowed is in excess of 35 cents. The effort of the fuel administrator for approval and the present low price of coal, this will give the domestic consumer an advantage of at least 70 cents a ton on all coal purchased during the storage season. However, consumers

should remember that the length of the storage season is uncertain, and should govern themselves accordingly.

### Storage of Fuel a Duty

The Fuel Administrator Gooding has recently been calling attention to the patriotic duty of an early storage of the domestic coal and other fuel supplies. A careful investigation has developed that unless the domestic supply of the United States is very largely left to the customer and dealer, based by the first of September that a serious situation will surely arise, much more dangerous even than that which confronted the United States during the last fall and winter.

Just at the present time it is pointed out the coal mines everywhere can secure a fair supply of labor, and are thus enabled to mine and ship a large surplus over normal season requirements. It is appreciated that a little later in the year even with the mines working to full efficiency they cannot produce the normal and abnormal demands of the fall and winter seasons. All the extra coal mined and marketed at the present time is only that which is good.

### Utah and Wyoming Mines

The coal mines of Utah and Wyoming which Idaho very largely depends for its fuel supply, at the present time are finding difficulty in marketing their entire product. If this continues very long it will be necessary to reduce their working force. The railroad companies will use the cars at present available for coal shipments, for other purposes, and when the demand for coal shipments increase, it will be doubtful if the shipment can be assured.

### Wintergreen.

Technically, the wintergreen, or as it is sometimes called, the checkerberry, or mountain tea, is a member of the health family. The plant is slender, of stem and from three to six inches in height and leafy at the summit. The leaves are oval, shining green, the flowers white. The blossom itself is urn-shaped and segmented into five small teeth. The fruit is, of course, the familiar red, globular berry.

## Schools Take Lead in Work of Ornamental Tree Planting

### ARBOR DAY OBSERVANCE DIRECTS ATTENTION TO VALUE OF SHADE—FORESTRY SCHOOL DEAN SHOWS WORTH IN DOLLARS AND CENTS

Arbor Day, in accordance with proclamation of Miss Britton-Walker, county superintendent, is to be observed in the schools of Twin Falls county on Friday, April 26, an occasion that directs attention to the value of trees, particularly those affording shade.

### Lively Interest Indicated

That there is a lively interest in the matter of ornamental tree planting in Idaho this spring is indicated by the large number of inquiries on this subject now being received by the Idaho school of forestry, at State P. O. Miller, dean of the school.

This is an undertaking in which all may unite. Towns and cities should encourage street and park planting. School grounds offer unusual opportunities in ornamental planting. The school authorities should lead the way, but the school children should have a prominent part in the work. The practice of planting trees makes an impression on the traveler. Their work along public roads is most commendable, adding greatly to the attractiveness of the country side, as well as comfort to the good advertiser. In particular, should the farm house and garden be encircled with trees chosen with special reference to their ornamental value.

### Value in Dollars and Cents

While the aesthetic value of shade trees is generally recognized, they are not usually thought of as having a value in dollars and cents. In order to determine this value the Massachusetts forestry association sought the advice of a large number of practical real estate men and has published the results of the inquiry in a recent bulletin.

The question asked was this: "How much, in your judgment, do you think shade trees along the street improve the value of the adjoining land for house lots?" The majority of the answers put the figure at from 10 to 25 per cent, while some stated that the value of a residence lot was increased by 100 per cent if improved with full grown trees along the street. The average of the answers ranged between 25 and 40 per cent. It is other words, a lot without trees valued at \$100,000 would be worth from \$250 to \$400 more with well developed trees properly set in front of it.

### Add \$250 to Value of Lot

It may be added that experts who are in position to know, say that a well formed shade tree properly placed is worth one dollar per square inch of grass surface measured at breast height, that is 1 1/2 feet from the ground. On this basis a tree six inches in diameter at breast height would be worth \$25, and one measuring a foot in diameter at this height would have a value of \$125. Thus it will be seen that a tree of ordinary residence lot having a width of 60 feet, with two trees, each a foot in diameter, breast high, properly placed along the front would be worth \$250.

While shade trees on the farm are perhaps less capable of appreciation than in the city, there can be no doubt that a farm house is more valuable and will sell more readily if neatly ornamented with well selected shade trees.

### Pearls to Children's Fund.

The London Daily Express states that a magnificent collar, composed of fifteen rows of famous Vandyke pearls, known as the large diamonds and set in plaques, worth in all about \$25,000, is the Duchess of Marlborough's gift to the children's jewel fund. Three diamond chains already have been sent to the trustees for the fund, and the Duchess is the treasurer. Every woman is asked to contribute one piece of jewelry to help establish child welfare and maternity centers, of which 5,000 more are needed in the United Kingdom.

### Great Expectations.

Thild Dalton—"I thought I heard a north in the collar just now!" South of the Family (clumping up)—A south, of course!

# Society

At a meeting of the Federation of Rural Women's clubs on Saturday afternoon in the Parish hall, the following officers were elected for the coming year: President—Mrs. J. E. White. First Vice-president—Mrs. S. H. Bolton. Second Vice-president—Mrs. W. H. Jones. Recording Secretary—Mrs. A. V. Strain.

Treasurer—Mrs. David Brown. A survey of all members of the rural clubs is to be taken to ascertain the amount of fruit seeds which will be needed during the coming season this year and thus give local retail stores time to fill orders satisfactorily.

The first contribution to the Loan Scholarship fund from the organization was turned in during the meeting. It was voted to send one delegate from each rural club to a first-aid class and in turn be instructed by that member.

The Boise high school debaters were entertained at a banquet in the high school cafeteria following the debate Friday evening, by the domestic science girls. The table decorations were in red, white and blue, representing the class colors of both schools. The guests were the debaters of both teams, Miss Heuson, Mr. Blue, Miss Jones, Miss Stephenson of Boise, and Mrs. M. C. Mitchell and mother.

The Twentieth century club year closes with the meeting Tuesday afternoon in the Moose hall. All members of the club are urged to be present on this occasion. Mrs. John H. White is the hostess, and the following is the program: "Life of Reginald DeKoven, Mrs. John B. White; piano duet, "Fifth Symphony," Mrs. Gilbert and Miss Yule Varney solo, "O Promise Me a Winter Lullaby (DeKoven), Mrs. F. B. Bell; solo, Miss Sarah Higgins; solo, "Past Present and Future" (DeKoven), Mrs. Willton Perki; solo, "Reveries," Mrs. Elizabeth Armstrong; Miss Zelma Larmon, Mrs. Jerry Higgins.

Following brief funeral services Sunday afternoon at the home, 135 North Main, the remains of William Baker Blue, one month and two days old son of Mr. and Mrs. Hal G. Blue, who died at 6 o'clock Saturday evening from pneumonia, were laid to rest in the Twin Falls cemetery. The services were conducted by Dr. A. H. Brand, pastor of the First Presbyterian church. C. J. McCormick sang "Rock of Ages," accompaniment on the piano being played by Austin D. Thomas.

Funeral services for Mrs. Fluke will be held at 9:30 o'clock Tuesday morning from St. Edwards Catholic church. Mrs. John Fluke, mother of the beloved husband, and Mrs. Elizabeth Neely, sister of the late Mrs. Fluke, pending whose arrival funeral services had been deferred, arrived here Sunday from St. Louis.

### Wonderful Natural Mechanism.

The value of a woman's blouse lies in a more perfect structure than it is possible to imagine. Day and night, asleep or awake, the whole works its breathing apparatus in such a manner that not a drop of water ever gets down into its lungs.

### Ashamed of It.

This bit of cynical wisdom occupies the most obscure page in the Syracuse Herald: "Don't think that every elderly woman has loved and lost. Perhaps she loved you just now."—Buffalo News.

# COUNTY FLIES LIBERTY LOAN HONOR FLAG

### PROOF POSITIVE OF OVER-SUBSCRIPTION OF \$560,000 QUOTA IS REPORT OF BANKS OF AMOUNT OF BONDS—THEY ARE TO DELIVER

Positive proof of the fact that Twin Falls county's apportionment of \$560,000 worth of Liberty Loan bonds of the third issue is over-subscribed was furnished Saturday evening when the banks of the county reported to Chairman C. D. Thomas that the aggregate of the amount of bonds to be delivered by them was \$561,300, and there remained at that time at county headquarters subscriptions for \$11,600 worth of bonds yet to be apportioned among the banks of which the subscribers were patrons.

#### Apportionment Among Banks

Following are the amounts of bonds to be delivered through each bank: Twin Falls, \$289,100; Buhl, \$150,000; Filer, \$40,100; Kimberly, \$34,700; Hilder, \$28,000; Rogerson, \$22,100; Hansen, \$5,000; Murtaugh, \$300.

#### Others Get Credits

On Friday Chairman Thomas announced that the record of sales in the county indicated that the "yes" had been over-subscribed. At that time the county committee had just become cognizant of a ruling of the treasury department providing that credit would be given to each county or district only for the amount of the bonds actually delivered through the banks of such county or district. Chairman Thomas announced that subscriptions received in this county for more than \$400,000 worth of bonds would be credited to other districts under that ruling.

#### Women Play Important Part

The Liberty Loan campaign had been carried on just two weeks when the Twin Falls county committee was able to announce the county's quota over-subscribed. More than 500 men have been engaged in the campaign, and in Twin Falls, Rogerson, Hollister and Kimberly, committees of women stationed in the banks secured subscriptions, aggregating about \$40,000.

#### Buhl Sector "Over"

The campaign in the sector at the west end of the county, which includes the Buhl independent district, and 16 other school districts, was conducted under direction of J. W. Paris, of Buhl. The quota for the districts in this sector, determined by apportionment based on the assessed valuation of property, was \$110,000. On Thursday of last week, Mr. Paris reported subscriptions to bonds in the sum of \$145,000. Districts in this sector which had over-subscribed their quotas at that time were Buhl, Clover and District Number 50.

#### Others Reach Quota

Other districts in the county which were over the top last week were Twin Falls, Filer, Murtaugh, Rogerson, Hollister, Bickel and Haggard.

## PRESIDENT OPPOSES COURT-MARTIAL BILL

(By United Press.)  
WASHINGTON, April 22.—President Wilson today expressed strong opposition to Senator Chamberlain's bill providing for court-martial trial for men arrested for treasonable utterances and acts. In a letter to Senator Overman, the president declared such legislation would be unconstitutional and would put the United States "on a level with the people whom we are fighting."

## Local Briefs

#### Pythian Sisters Meet

The Pythian Sisters will meet Tuesday at the home of Mrs. H. E. Cutting, 259 Fifth avenue north, to ask for the Red Cross.

#### Take Cattle to Market

W. C. Vanauken and J. C. France left Saturday night with nine cars of fat cattle for the Kansas City market. Mr. Vanauken will visit his parents in southeastern Kansas on his return trip.

#### Boosts War Stamp Sales

A. Guibert, county director, went yesterday to Murtaugh and Hansen in the interest of the War Savings stamps. In each locality the boosters for the W. S. S. promised him their active cooperation.

#### On Surveying Trip

James A. Bybee and E. S. Shockey, civil engineers, left this morning with a camp outfit for a month's stay in Blaine county on survey trip in the interests of a riparian project in that region.

#### Meets Bride Here

Mrs. Miggins C. Richards of Seattle was met on her arrival here Saturday by W. H. Tolis of Jerbridge, and they were married that evening by Justice of the Peace W. J. Smith.

#### Commissioner Entertains Brother

H. H. Moore, of Hillsdale, Michigan, is the guest of his brother, County Commissioner T. E. Moore, of Filer. On his return to Michigan the last of the week, he will be accompanied by his father, Daniel Moore, who is in his eighty-sixth year, and who has made his home for 18 months past with Commissioner Moore.

#### Alleges Theft of Pelts

Upon complaint of H. B. Frame, who alleged the theft of several sheep pelts, T. F. Samuelson was arrested Sunday evening by Sheriff Kenneth S. Borch. Warrant was issued in the case by Justice of the Peace W. J. Smith. Five pelts were found in Samuelson's possession. J. Harrison is held for complicity in the offense.

#### Juvenile Speeder Fined

Ferry Watson, 16, paid a fine of \$4.00 in police court Saturday for driving a car at an excessive rate of speed on Main avenue on the afternoon of April 14. Watson was the driver of the car which in the evening of that day struck Mrs. H. Y. Cochran, inflicting serious injuries including fracture of her shoulder. No complaint was filed in respect to the latter offense.

#### Lands Safely "Over There"

Under the supervision of the post-office Europe of his son, Bruce McMillan, a member of the Twenty-third regiment of engineers, was received here Sunday by James McMillan. Bruce McMillan, who is a graduate of the Twin Falls high school, enlisted last December in the unit with which he went abroad, and was stationed for a time prior to his departure at Camp Meade, Maryland.

#### Under Bond to Provide

J. T. Blankenship, lessee of the Monarch barn, Twin Falls, in prothon court here Saturday was placed under bond in the sum of \$100 to provide for the support of his four daughters, aged from eight to 15 years. Charges against Blankenship were made by Probation Officer John H. Ault. Testimony of the children at the hearing in court Saturday was that the father was a heavy consumer of "beef, wine and iron." They averred, however, that they had not lacked for food or clothing. There are two sons other than the girls in the family. They were left motherless last December.

## PRESIDENT MAKES TWO IDAHO APPOINTMENTS

(By United Press.)  
WASHINGTON, April 22.—President Wilson today set to the seals the following nominations:  
To be United States district judge, eastern district of Illinois, George W. Coker, Central, Ill.  
To be United States marshal, Joseph McEachin, Reno, district of Nevada; Stephen J. Duple, Fargo, district of North Dakota.  
To be receiver of public moneys at Blackfoot, Idaho, Charles E. Harris, Idaho.  
To be register of the land office at Lewiston, Idaho, Henry Hatfield, Idaho.

## DRAFT TAKES HALF OF VAUDEVILLE TEAM

Byron Brob Receives Call Into Service Just Before Opening Act Here

Byron Brob, member of the vaudeville team of Brob and Pao, comedians and singers appearing at the Idaho theatre the last three days of last week, just before the opening of the act here Thursday evening received a telegram from the local board in Chicago directing him to report for enlistment on a conditional army commitment on April 25. The team, after completing an engagement in Los Angeles, gave its first performance at the vaudeville circuit at Durley just before coming to Twin Falls. Brob has secured a transfer permitting him to report at Seattle. He will continue with the circuit as far as Portland, Oregon, where the team is to fulfill an engagement on the night of April 25, and will go from there to Seattle.

## BIG DYNAMITE BOMB CONTRIBUTED TO "LIFE"

(By United Press.)  
NEW YORK, April 22.—A dynamite bomb weighing 25 pounds was found today in the entrance to the Life Publishing company building, west Thirty-third street. The police are working on the theory that it was to be used to blow up the Pennsylvania tube, three blocks away.  
Inspector of Combustibles Eagan says it is the most powerful explosive machine he has ever seen. It contained five pounds of dynamite and was built to explode by concussion or a fuse.

"What practices?" interrupted Pindexter. "Transporting dynamite and such things," replied Johnson.

"I have no opinion," said Johnson. "But hope was an unworthy man who had engaged his services but should not have engaged in."

Don't Slow Up Advertising Now... Never has there been a time when the public has looked more keenly for MERCHANDISING NEWS than now. People must continue to eat, to wear and to use. The tendency is to cut out luxuries, and luxuries are only a relatively small proportion of your business. For every luxury cut out you have a chance to increase your movement of staples. How short-sighted is the policy of reducing advertising expense to "save money." You will only lose trade. You will only lose prestige. Advertisers to increase sales and make more money; don't cut it out to save money. Study your advertising as you never did before—do it wisely and well. Be prosperous and let the people know that you are prosperous. Success was NEVER achieved by stopping advertising or by wearing old clothes and talking pessimism. Be Wise... and Advertise Stewart-Davis Advertising Agency, Chicago
