VOL. 2. NO. 30. TWIN FALLS, IDAHO, SATURDAY, MAY 11, 1918. PRICE FIVE CENTS

GRAPHIC TALE OF BLOCKING HUN HARBOR

OFFICIAL REPORT OF OSTEND OPERATION SAYS VINDICTIVE OUBISED 20 MINUTES LOOKING FOR ENTRANCE TO FAMOUS NAVAL BASE

(By United Press) DOWER, England, May 11.—The German naval base at Ostend undoubtedly is effectively blockaded, as the result of yesterday morning's daring raid.

Officers and men who participated in the venture reported five-died, 29 wounded and ten missing.

Commodore Hubert Lison, commanding the operations, made the following report today: "It was a hard scene. At 5 a. m. the Vindictive arrived, on program time. There was a thundering of bombs on sea and land, the exploding of bombs from the air, and an occasional burst of enemy machine gun fire.

Occupied About an Hour "For a full hour this picture was witnessed off Ostend. The Vindictive cruised for twenty minutes in the fog looking for the entrance."

Finally, the old cruiser located the entrance, the commodore said, and entered the channel, jamming her bow against the pier.

"A general fog reduced the visibility to about 150 yards and made our task more difficult," said an officer of the Vindictive.

For fifteen or twenty minutes we were repeatedly struck by four, six and eleven inch shells, while seeking ingress to the harbor.

Rocheester People Obligated to Walk (By United Press) ROCHESTER, N. Y., May 11.—People of Rochester were obliged to walk to business this morning. Not a street car is running, and trucks and automobiles were in demand all over the city.

FRENCH ADVANCE, TAKE PRISONERS

(By United Press) LONDON, May 11.—French troops advanced their line north-east of Loere yesterday evening and took several prisoners," Field Marshal Haig reported today.

A minor operation in the Moreuil wood (two miles northeast of Mally-Barnaval) gave the French 60 prisoners and several machine guns.

BORGLUM SAYS CHARGES MADE ARE FRAMEUP

SOURCE INVESTIGATOR ISSUES SWEEPING DENIAL REFLECTING ON MOTIVES IN CONTROVERSY

(By United Press) NEW YORK, May 11.—Gutten Borglum, the sculptor, today issued a new statement in which he branded as a frame-up the charges that he had been actuated by a desire financially to benefit himself through his investigation of the aircraft situation.

His source charged that the accusations were for the purpose of trying to discredit him in the eyes of the people and prevent public knowledge of the real conditions existing in the aircraft program.

"The charges of Mix and Mix's assistant are lies unreservedly," Borglum asserted that 8000 airplanes might have been in France in March to help stop the German drive if the Curtiss and the Wright-Martin companies, who he claims were the only one prepared to construct planes, had been permitted to go ahead on contracts.

"Every Detail Denied An absolute denial is made, in his statement, in every detail, that he was ever secretly or otherwise interested in the manufacture of airplanes or that he ever offered to use the confidence of the president for his personal advantage.

"There has a grave question arisen: Who is it that is so powerful that makes it dangerous to the character and honor of men who shall dare to ask this question?"

NOTIFIES BOLSHIEVICKI TO STOP ARMING MEN

(By United Press) MOSCOW, May 11.—Count von Mirbach, German ambassador to Russia, has issued an ultimatum to the Bolshevik government demanding that it stop arming troops and disband those already armed.

Administrator to Shape National Labor Policy (By ROBERT J. BENDER (United Press Staff Correspondent) WASHINGTON, May 11.—President Wilson today placed in the hands of Felix Frankfurter of New York and Washington the difficult task of whipping into definite form a national labor policy for the war.

GERMANS ARE PREPARING TO OPEN ATTACK

SIGNS PLENTIFUL THAT ITALIAN FRONT WILL BEAR BRUNT OF NEW GERMAN OFFENSIVE—ENEMY ORGANIZATION COMPLETE FOR ACTION

(By HENRY WOOD (United Press Staff Correspondent) WITH THE FRENCH ARMIES IN THE FIELD, MAY 11.—News from the Italian front establishes that since the announcement by the German-Austrian press regarding the impending offensive against the Italians, indications are daily appearing of a complete re-organization of the armies in that theater, and of preparations for an offensive.

The Austrians have inaugurated a campaign of raids and reconnoissances, usually the prelude of a major attack. The Austrians have divided their force into two groups, the armies of each being commanded separately.

The offensive divisions holding down the Italian front, which were allowed to decrease during the winter, have been reinforced. The number of companies has been increased and the artillery filled out.

From various sources it is learned that military efforts are in progress for the purpose of restoring the complete quality of the Austrian army. While these preparations seemingly indicate an offensive against Italy, allied military officials recognize that this military concentration could easily be thrown against the Franco-British front."

Old Fighters Transferred The Macedonian front is now held exclusively by Bulgarians. The German divisions formerly there have been transferred to the French front and into Asia Minor and Syria.

POWELLER, Miss., May 11.—Miss Isabel Savage, 22, committed suicide by shooting herself early today. She left instructions indicating that Boise, Idaho, was her home.

SUICIDE MAY HAVE LIVED IN TWIN FALLS (By United Press) ROCHESTER, Miss., May 11.—Miss Isabel Savage, 22, committed suicide by shooting herself early today.

WAS MINE MANAGER, NOT A SECRET SERVICE MAN CHICAGO, May 11.—W. H. Winchell, mine manager from Norris, Miss., was arraigned here on charges of representing himself to be a secret service man.

GETS TWO YEARS FOR FRAUD DETROIT, Mich., May 11.—Alph Windsor, 25-year-old Chicago contractor, was adjudged guilty of defrauding the government by juggling sales of construction materials intended for Camp Upton. He was sentenced to two years in the federal penitentiary and fined \$10,000.

ROYAL WELCOME TO U. S. TROOPS

Cheering Thousands Line Side-Walks as American Soldiers Parade Streets of Historic London—Enthusiasm Exceeds that of Thrilling Days of First of the War.

LONDON, May 11.—Thousands banked the streets and parks today along the route taken by the American troops in their parade through the heart of London and the hearts of Londoners.

The enthusiasm evinced everywhere surpassed even that of the thrilling days of 1914. A stalwart American band headed the first battalion, a Scots Guard band the second, and an Irish regiment band the third.

As they swung down picturesque Birdcage Walk, between the walls of cheering military and civilians, with fifes screaming and drums thundering, these Americans were reminiscent of "Kitchener's mob."

JEROME PEOPLE SUFFER HEAVY LOSS BY FIRE

SEVERAL BUILDINGS DESTROYED BUT WILL NOT AFFECT BIG RED CROSS CELEBRATION

MONEY POURS IN (Special to The News) JEROME, May 11.—Bad news from Jerome is growing rapidly as a result of a fire which broke out at 3 o'clock today.

Several buildings were destroyed but the Red Cross celebration will not be affected. The fire broke out about 3 a. m. in a small dwelling, cause unknown, and spread rapidly.

Big German Forces Before City of Amiens (By United Press) LONDON, May 11.—The bulk of the German reserves are still holding on the Amiens front, indicating a probable renewal of the attack there."

Explosives Plant Is Entirely Destroyed (By United Press) WELLSBURG, W. Va., May 11.—An explosion destroyed the nitro-glycerine plant of the Lewis Coal company at Craft Creek today, according to telephone messages from that place.

Wants Special Submarine For Blockading Harbors SAN FRANCISCO, May 11.—Captain Richmond Pearson Hobson, planner in the harbor-blockading business, believes a special type of submarine should be constructed solely for the purpose of blockading harbors.

MAILED FIST DESCENDS ON UKRAINIANS

OLD POLICY OF RUTHLESSNESS NOW BEING FORCED UPON DEFENSELESS PEOPLE, WHOSE ALLIANCE WITH RUSSIA

(By J. W. T. MASON (United Press War Expert) NEW YORK, May 11.—Faced by the pressing necessity of securing food to prevent more dangerous conditions, Germany is forcing a new policy of ruthlessness in Ukraine which may drive the Ukrainians republic into an alliance with Russia for mutual resistance against the Hohenzollerns.

The Kaiser's principal purpose in creating the independent republic of Ukraine was to put under the control of Germany the principal food supply region of Russia. The Germans believed that on the score of gratitude, the Ukrainian government would supply them with food.

Feeling Is Bitter But the Ukrainians people are developing a spirit of bitter hostility toward the militaristic arrogance of their German taskmasters.

Dangerous to Germany The conditions that are thus developing have already become highly dangerous to Germany. It is probable that German military operations will be resumed along the east front as a punishment to be inflicted by Von Hindenburg on the Ukrainians.

NEW TAX MEASURE WILL CAUSE FIGHT

LEADERS OF HOUSE AND SENATE SAY IT WILL PUT OFF ADJOURNMENT

WASHINGTON, May 11.—If Secretary McAdoo persists in his demand for a new tax bill at this session of congress, he will precipitate one of the hottest fights in the history of that body—and will delay adjournment until late in the autumn. This was the threat of house and senate leaders today.

Additional taxes now would seriously affect the morale on the nation and cause great consternation—possibly critical—in the business world. The revenue law passed last session probably will produce \$1,000,000,000 more than was expected of it, and the third Liberty Loan will do likewise, giving the treasury \$2,000,000,000 more than it counted on to bridge the gap.

Wants Special Submarine For Blockading Harbors (SAN FRANCISCO, May 11.—Captain Richmond Pearson Hobson, planner in the harbor-blockading business, believes a special type of submarine should be constructed solely for the purpose of blockading harbors.

CITY PAYROLL GROWS TO MEET COST OF LIVING

COUNCIL APPROVES INCREASE IN COMPENSATION FOR MANY EMPLOYEES OF CITY

As a result of action taken by the city council at its adjourned meeting Thursday night, the pay of practically all of the city employes, exclusive of officials in elective positions, will be increased beginning May 1, by substantial amounts.

Members of the fire department, under the new schedule, in the first year of their service will receive \$200 per month, in the second year \$100, and in the third year \$110. The salary of the fire chief was advanced from \$105 to \$125 per month, and that of the engineer was raised from \$100 to \$110 per month.

Monthly salary of the chief of police was raised from \$100 to \$125, that of the patrolman from \$100 to \$110, and that of the guard at the bridge and of the speed patrolman from \$90 to \$95. Salary of the city park driver who furnishes a horse, was fixed at \$100 per month.

The city weighmaster received a raise of \$10 per month, his salary previously being \$75. Salary of the police judge is fixed by law at \$45, but allowance of \$10 a month for rental of the building he occupies brings the total monthly pay check of the magistrate up to \$55. Pay of day laborers in the employment of the city was raised to 40 cents an hour, or from \$3.50 to \$4.00 per day, while the pay for men with teams was advanced from \$5.50 to \$7.00 per day. The city street cleaners and waterworks construction foreman each received increases of from \$20 to \$110 per month, and the reservoir tender was raised from \$40 to \$100 per month.

Consider Garbage Problem
Consideration of the problem of collecting garbage occupied a considerable portion of the council's time at this session. The matter was referred to the committee on public health for further investigation and with instructions to report at the next regular meeting of the council on May 20. The probability is that garbage, other than manure will be collected at the expense of the city in the residence districts. Several amendments to the ordinance in regard to sanitation will be introduced as a result of the proposed innovation.

FUNERAL SERVICES OF MARKED SIMPLICITY

(By United Press)
CHICAGO, May 11.—Simplicity marked the services held over the remains of Mrs. Potter Palmer. Only closest friends and relatives were admitted to the mausoleum where lay the plain casket in which the body was brought from Florida. The mausoleum erected here by the social leader for her husband 10 years ago will be her last resting place also.

ORGANIZE TWO WAR SAVINGS SOCIETIES

Under direction of A. Gulbert, county director; J. W. Jesso and his assistant in this activity, War Savings Stamp societies have been organized during the week in the Twin Falls Presbyterian church and among the employes here of the Consolidated Wagon & Machine company.

The officers of the Presbyterian church society are C. J. McCormick, president, and J. W. Jesso, secretary. Organization of the society for the Consolidated Wagon & Machine company was effected by election, B. N. Bendahl as president, and E. D. Klondor as secretary.

BIG WAR INDUSTRIES WILL MOVE WEST

EASTERN PART OF COUNTRY IS RAPIDLY BECOMING CONGESTED WITH FACTORIES OF VARIOUS KINDS—NEW CONCERNS WILL BE FORBIDDEN TO LOCATE IN OLD DISTRICT

(By United Press)
WASHINGTON, May 11.—Big war industries henceforth will go west. To speed war work, the government has determined to place a virtual embargo on new plant construction in the great west belt of the east. The action has been determined upon for three reasons:

- 1.—Concentration of war industries in the east has produced a state of congestion seriously interfering with maximum war production.
- 2.—The west offers new reservoirs of labor and much needed power.
- 3.—War industries expansion in the west will restore to an even keel the financial structure now overweighed in eastern territory because of most war contracts going to eastern concerns.

Officials are now working on plans to curtail orders to plants in the Pennsylvania, New York and Atlantic coast districts where congestion is now making rapid production and movement of supplies impossible. New factories will be forbidden to locate in this district, according to present plans, and will be urged to go to the middle west.

Use Interior Points
The first step in this direction is to be the establishment of the great new ordinance factory at "some interior

point" to demonstrate the advisability of war factories getting outside the present eastern belt.

It is stated that failure of ordinance manufacturers to meet expectations is due to the fact that industries in this belt are overloaded with contracts and lack of power, lack of labor, and congested rail facilities has kept down production to only 75 per cent of what is actually needed.

Laborers can't find places to live and hence leave with their families. The United States employment service announced today it could use 10,000 mechanics in the eastern belt within 24 hours if they were available.

Labor Enters into Plan
This labor lack in essential industries is developing a government campaign to attract skilled labor from relatively unimportant into vital war activities.

Strengthened by the acquisition of its new conservation division, the war industries board is co-operating by effecting a gradual reduction in all unessential production.

Further impetus is expected to be given this movement by placing a heavy tax on non-essentials through the new proposed tax bill just urged on congress by Secretary McAdoo.

SUNDAY IN THE CHURCHES
CATHOLIC—Corner of Second and Fifth street east. Rev. R. P. Healy, pastor. Sunday masses at 8 and 10:30 a. m. Evening services at 7:30 o'clock. Week-day mass at 8 o'clock a. m.

PRESBYTERIAN—Asher Marlan Brand, minister. Morning worship at 11 o'clock. Sermon theme, "Loving God With the Mind." Evening worship at 8 o'clock. Sermon theme, "Believe, O Young Man, in Thy Youth." The Bible school opens at 10 o'clock. The W. R. C. E. at 1:15 o'clock. The following musical program will be given at the morning and evening services, under the direction of Austin D. Thomas, organist-director.

Mornings
Organ prelude—"Adornatus".....Ravina Anthem—"Great and Marvelous Are Thy Works".....Creswell Offertory—"To a Wild Rose".....Macdowell Solo—"Light of Light".....Wooler Miss Minnie Sanderson Organ postlude—"Commemoration 'March'".....Gray

Evening
Organ prelude—"Pilgrim's Song of Hope".....Ballato Anthem—"The King of Love, My Shepherd Is".....Shelley Offertory—"Orga and Piano, "Angelic Dream".....Rubinstein At the piano, Miss Zelma Larnore Solo—"But the Lord Is Mindful of His Own".....Mendelssohn Miss Helene Allmendinger and Trio—"Lift Thine Eyes Unto the Hills".....Mendelssohn Mrs. A. L. Savage, Miss Helene Allmendinger, Miss Minnie Sanderson

BAPTIST—The pastor of the Baptist church will close his work at the church here with the close of the services on Sunday evening. At the morning hour, 11 o'clock, the subject of the sermon will be "The Manner of the Coming of the Kingdom of God." Today there are so many vagaries, so many fears, so much misunderstanding on matters pertaining to the establishment of the reign of righteousness among men. To those who are interested in this cardinal and vital subject, we extend a cordial invitation to come Sun-

GODMOTHERS NEEDED FOR BELGIAN BABIES

COUNCIL OF DEFENSE TELLS OF OPPORTUNITY TO HELP LITTLE ONES LEFT HOMELESS BY WAR

(By United Press)
BOISE, May 11.—It is impossible as yet to bring Belgian children to this country for adoption by people inclined to take little ones left homeless into their families, but those interested are given an opportunity to become "Godmothers" to them by paying regularly a certain sum of money for the maintenance of such child or children. This is the information that has been transmitted to the state council of defense by Arthur Fleming, chief of section, Council of National Defense.

In a letter to the Idaho council, Chief Fleming says in part:

"I have made inquiries of the Belgian legation as to the matter of the adoption of unfortunate Belgian children. The Belgian legation has found it impossible to have any children to this country as yet, and does not think that it would be practical under the present conditions. However, they have established a number of homes and sanitariums in the unoccupied sections of Belgium and in Holland where the unfortunate children of the devastated districts are cared for.

"It is possible for those interested in the Belgian children to pay a certain sum for the maintenance of a special child. The name of the child would be given and direct communication established between it and its 'Godmother' in this country. Madam Hortia is in charge of this work in this country, and any contributions sent for this purpose should be made out to the Belgian minister at Washington with 'For Madam Hortia Fund' written on the corner of the check.

"I am also informed by the Belgian legation that a special committee for this work will probably be established here in Washington within a week or so. As soon as we are notified of its organization I will inform you."

CHANGE MILLS TO MAKE WAR FLOUR

MINNEAPOLIS, Minn., May 6—Millers are spending many thousands of dollars changing their machinery to make war flour. The financial burden of the work, which is taking weeks, is being borne by the millers, whose profits for milling are cut below normal by government regulation.

To make a bushel of wheat produce more flour—war flour of a darker shade—the heavy silk screens over which the ground wheat passes must be changed. Warley is ground with the same machinery formerly used to grind wheat, with the exception that this machinery, too, must be equipped with different silk screens. To grind war into flour, a slightly different steel roller, as well as different silk screens are needed.

As Light Goes Through Glass

Just as light rays penetrate through glass, so current passes freely through Threaded Rubber Insulation. Nearly 200,000 tiny threads in each-insulator mark the path for the current flow.

The hard rubber stands guard against the formation of short circuits between battery plates.

There's another reason why the Still Better Willard Battery with Threaded Rubber Insulation is worth so much more than its slightly higher cost. It's the one and only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

GEO. M. DOW ELECTRICAL SUPPLY

Willard STORAGE BATTERY SERVICE STATION

When your crop is devastated and you did not carry hail insurance. What would you do about those obligations you have to meet if your crops were wiped out by hail?

You never before had so much invested in your crop and you never had such urgent demands on you for money. Where would it come from if you were halted out? Such a loss this year would mean financial ruin to many.

You can not afford to take the chance. Think it over and then come in and insure your wheat, beans, etc., before it is too late.

Landlord or tenant can insure a share of crop and pay insurance only on the part insured.

Facts About the American Red Cross

Did you know that---

It has established and is operating twenty dispensaries in the American Army Zone in France to care for the needy families there and to improve health conditions in that section ready for our troops.

It is housing and feeding thousands of Children in the war zone to keep them away from the dangers of gas and shell fire?

It has divided the entire war zone into six main districts with Red Cross workers at each point to distribute cooking utensils, agricultural implements, beds, bedding, food and clothing?

It provides builders and ready-to-put-up buildings to house the homeless in the devastated regions, often before the walls of the destroyed homes have cooled?

It is bringing over two hundred tons of supplies every day into Paris, from which one hundred and twenty-five tons are reshipped to branch warehouses over France?

It is providing an artificial limb factory outside of Paris, in addition to special plants for the making of splints?

What will you give to keep this Hand of Mercy at work?

AVIATION

Aviation schools in United States 30; Airstores completed primary 1,026; Flying cadets abroad for training 1,500; Cadets trained, primary course, 430

There is no use in accepting the conclusion that the aircraft program has become a complete fizzle because, to date, there is an almost complete lack of airplanes.

APPLIANCES

Here is a statement from the minority report of the Senate committee charged with the investigation of the work of the Signal Corps in connection with the supplying of planes for use in France.

"Soon after the war began the Signal Corps arranged with the French Government for the making of 6100 combat planes at a total cost of \$187,000,000—the planes to be produced as rapidly as American floors could be trained to operate them.

As far as the actual shipment of airplanes to France goes, there has been, no, or the number is so nearly negligible as to be hardly worth mentioning.

Liberty motors ordered 29,800; Liberty motors completed 254; Liberty motors shipped abroad 4

Advanced training planes manufactured 3,458; Combat planes (foreign engines) completed 18; Combat planes shipped abroad 1

CHICAGO, May 11.—Decreased demand for cash oats and continued favorable weather reports for all crops depressed prices of grain futures here today. There were sharp breaks in wheat and corn. Provisions were lower on a weaker hog market.

WANT CANADIANS TO GIVE UP WHEAT

(By United Press) WINNIPEG, Man., May 11.—Canadian government agents today began a systematic search of the grain fields in Manitoba for 20,000 bushels of wheat reported held by farmers. With the completion of sowing, officials say that farmers must give up all surplus wheat field. They say they suspect wealthy Russian and German farmers in middle and western Saskatchewan are withholding considerable wheat.

DEMINES RUMORS OF LICENSE REVOCATIONS

Rumors that have gained considerable credence to the effect that city council has voted any of the various licenses now in effect are entirely erroneous, declares City Clerk W. A. Minick. The only suggestion as to a change in any licenses was in respect to the plumbers' licenses about four months ago. The council had considered informally the advisability of substituting an annual license fee of \$25 for the perpetual license fee of \$100 now obtaining. No subsequent action has been taken in this matter or in any other matter bearing upon municipal licenses, Mr. Minick states.

MEDICAL MEN ORGANIZE TO AID HOSPITAL

PHYSICIANS UNITE IN ASSOCIATION TO EXTEND USEFULNESS OF INSTITUTION

Permanent organization of the Twin Falls County General Hospital association, composed of practically all of the physicians of the county, was effected by election of officers and adoption of a constitution and by-laws at a meeting of members in the commissioners room at the court house Thursday night.

Extends Usefulness

The purpose of the organization is to extend the usefulness of the institution which is being completed by the county and which it is expected, will be opened about June 1.

Arrangements were made at the meeting of the physicians Thursday to furnish the operating rooms of the hospital as a donation from the members of the association.

Officers Named

Officers were elected as follows: President, W. F. Pike, Twin Falls; first vice president, Dr. P. A. Dwight, Picher; second vice president, Dr. J. H. Murphy, Duhl; secretary, Dr. Charles Westberry, Twin Falls; treasurer, Dr. J. N. Davis, Kinberly.

In addition to the physicians at the meeting at the organization meeting, number of others among the medical men of the county have indicated their intention of affiliating with the association. Those attending the meeting Thursday were: Dr. J. N. Davis, Kinberly; Dr. J. H. Murphy, Duhl; Dr. P. A. Dwight, Picher; Dr. H. W. Wilson, Dr. W. H. Clucke, Dr. J. R. Morgan, Dr. W. F. Pike, Dr. G. H. Caldwell, Dr. Charles Westberry, Dr. C. D. Weaver, Dr. T. K. Wasson, Dr. H. N. Leste, Dr. J. B. Coburn and Dr. C. A. Emsw of Twin Falls.

BOYS GET GOOD CARE IN HOSPITAL AT FRONT

By FRED S. FERGUSON (United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN POLAND—There is a hospital with in sound of the guns on the Toot front where wounded American boys can sleep under white counterpanes within an hour after being taken from the trenches.

It is a first hospital operated by the army medical corps.

The wards are low frame buildings. Long lines of windows let in sunlight and air. The cots are set in long straight rows. The floors, though of wood are scrupulously clean. Army doctors and orderlies watch over the patients day and night. There is an operating room where emergency cases are taken. It is fully equipped and a wounded man gets as good attention as here as he would in case of an accident at home.

Front than that to which Capt. This hospital is closer to the front than that to which Capt. Archie Brossvelt was taken. It is not as substantial,

BOISE TAKES FIRST OF TWO GAME SERIES

HIGH SCHOOL STATE BASE BALL CHAMPIONSHIP IS AT STAKE IN CONTEST HERE THIS AFTERNOON

Boise defeated Twin Falls, 8-7, in the first of the two games high school baseball series played here Friday evening. The second game will be called at 6 o'clock this afternoon. Fix, the Twin Falls pitcher who held Boise to 3 and 2 hits, respectively, in two games at Boise, will pitch today.

If Boise wins today's game, it means that Boise and Twin Falls are virtually tied for the state championship. If Twin Falls wins, it means the state championship in baseball for the home boys.

Twin Falls held a two-run lead until the eighth inning, when Boise with a spectacular squeeze play scored three runs. Twin Falls scored one in the ninth inning and ended the period with the bases filled.

Pitchers for Twin Falls were Banes until the first of the seventh inning, and Neumann from then on. Banes struck out five men, walked two and allowed one hit. Neumann struck out five, walked seven and allowed one hit. Bross, pitcher for Boise, struck out nine and allowed four hits.

Boise stole a total of 19 bases off Hyberger, Twin Falls' catcher.

Exceptionally good work was done by the outfielders on both teams.

Errors were numerous on both sides due partly to the soft infield and to the cold, windy and dusty weather.

The score by innings follows:

Boise 1 2 3 4 5 6 7 8 9 10
 Twin Falls 3 2 0 1 0 0 0 1 7

LOCAL BRIEFS

War Benefit Dance—The regular war benefit dance for the month of May given by the Twin Falls band is to take place on Monday evening next in the Culliton hall.

Undergoes Operation—George Bristol, well known farmer residing north of the city, is a patient at the Boyd hospital where he underwent, Wednesday, an operation for gallstones.

Warmer Sunday—Fair tonight and Sunday and warmer Sunday is the weather bureau prediction transmitted this morning through the local telephone exchange.

Deal in Land and Stock—Articles of incorporation of the Buhl Land & Stock company, capitalized at \$50,000, were filed in the office of the county clerk Friday. The directors and incorporators of the company are Charles G. McGowan, Ernest W. Callen and George W. Lirie, all of Duhl. The principal place of business is to be at Buhl.

Brothers Join Marine—Three applicants for enlistment in the marine corps transferred through the local recruiting station Friday evening to Belt Lake included two brothers, Riker Francis Williams and Chester LeRoy Williams of Rupert. The third recruit was Andrew B. Allen of Shoshone.

Goos with Local Quota—James William Barr, a resident at Butler, Miss. went, left on Friday evening with the party of ten men called from Twin Falls under selective service call to report for military duty at Fort McDowell, California.

Will Serve with Tanks—Order of the local board has been issued granting permission to Edward H. Woldover of Picher to enlist in the national army tank corps. Woldover applied for this permission through the local board at Dodge City, Kansas, where he now is, and he expects to report for duty at Jefferson Barracks on May 19.

PERSONALS

Walter S. Smith of Castleford spent Thursday here.

Miss Dora Eldred left Friday for Wallace, Idaho, where she will spend an indefinite time.

DUTY MAY RESULT IN EXTENSION OF LEAVE

Charles Des Ruloseaux and F. L. (Syke) Putnam, members of the marine corps who are spending furloughs at their homes here, will be placed in charge of the local marine corps recruiting station during the ten days absence of Sergeant W. B. McCracken, beginning Monday next, providing the request for extension of their furloughs made to their commanding officer at Galveston, Texas, by Captain A. M. Robbins, recruiting officer for this district, who was here Friday, is granted. Sergeant McCracken expects while absent to visit Albion, Oakley, Burley and Rupert for the purpose of securing recruits for the "soldiers of the sea."

HONOR MINISTER ENTERING SERVICE

REV. O. T. ANDERSON GIVEN FAREWELL RECEPTION—LEAVES FOR WORK IN ARMY Y. M. C. A.

A farewell reception was held in the Baptist church Friday evening, honoring the Rev. and Mrs. O. T. Anderson, who leave Monday for Camp Lewis, where Mr. Anderson will take up his duties as Y. M. C. A. secretary.

Mayor F. F. Bracken, chairman of the county board of defense, invited the Rev. and Mrs. O. T. Anderson, who were followed by Dr. Asher H. Brand, Judge John E. Davise read resolutions adopted by the Council of Defense complimentary to Mr. Anderson.

Special selections were rendered, including a piano solo by Mrs. Beason, and vocal solos by Mrs. Cress and Clarence Beatty. At the close of the program a purse was presented the guests of honor by Wm. Cheek. A social hour with music and refreshments were served to 150 guests.

Rev. and Mrs. Anderson have been in Twin Falls but eighteen months, yet have a host of friends who wish them success in the grand field of work which Mr. Anderson is entering.

CHANGE TO ENLIST DELIGHTS ITALIAN

DETERMINATION OF GIUSEPPE (JOE) DETTORI TO FIGHT WITH AMERICANS IS REWARDED

Giuseppe (Joe) Dettori, native of Saragino, Italy, and a resident for three years past of Twin Falls, where he is well known, is determined to take an active part in the war as a member of the military forces of the United States, the land of his adoption. He is a professional cook. In that capacity he volunteered as a skilled workman for voluntary induction into the army. When the call was made recently for men from among the volunteer registrants, he was gladly disappointed when Twin Falls county was not called upon to send a cook and his opportunity for immediate induction was closed.

On Friday he explained the situation at the local marine corps recruiting station. Captain A. N. Robbins of Salt Lake, in charge of marine corps recruiting in this district, was at the station on an official visit at the time. He promised Dettori that he would endeavor to secure a waiver in respect to physical qualifications, leaving Dettori slightly under weight, to make possible his enlistment as a cook in the marine corps.

Dettori was delighted at the officer's decision and is awaiting the outcome with intense interest.

SHERIFF PURSUES AN ALLEGED AUTO THIEF

GOES WITH WARRANT FOR ARREST IMPROVING TO INTERVIEW—FRED A. COX IN NEVADA

With a warrant for the arrest of Fred A. Cox, for one month past a bookkeeper at the local office of the Nibley-Channel Lumber company, who is accused of the theft of a car owned by E. B. Heinicke, a local manager for the company, Sheriff F. M. Kendall left Friday evening for Wells, Nevada. He is accompanied by Mr. Heinicke. According to the statement of the owner to the officers, Mr. Heinicke had secured for Cox a position in the company's office at Rupert. Cox was expressly forbidden to use the car. Disregarding the injunction, Cox made away with the machine and was reported having passed through Contact, Nevada, Friday afternoon.

MAKE START TO HARD SURFACE CANYON ROAD

COUNTY COMMISSIONERS PROVIDE FOR DEEP COVERING OF ROCK FOR SHOSHONE GRADE

Preliminary to the improvement of the Shoshone Falls grade on the south side of Snake river canyon by grading of the roadbed after such minor alterations as are necessary are made, Engineer A. E. Fox Friday, with transit and level, began outlining the work to be done. The big rock crusher owned by the county, after being overhauled, was moved out to the scene of activity Thursday evening.

Six Weeks Work
The work will begin as soon as the engineer has finished with the surveys, and it is expected that it will be completed within six weeks' time thereafter.

Considerable work already has been done on the road at the summit of the grade on the south side. The grade which was established and built three years ago, at the expense of the county, is regarded as one of the best in this region.

The maximum grade of eight per cent is found only on a stretch of about 300 feet in length, while the average grade

throughout the entire length of practically one mile is less than four per cent.

Lava Rock to Be Used

The roadbed is to be covered with gravel to a depth of nine inches for a distance of about one and one-half miles. Lava rock through which the grade-is built will be crushed and used as gravel.

General Bouchier, a veteran commander of the French army, is in America on a mission for his government.

Brazil is Building A Democratic Army

By N. B. ROBERTSON
(United Press Correspondent)

RIO JANEIRO, May 10.—Brazil is creating a democratic national army.

Since this country aligned itself with the enemies of German militarism the public interest in the army and navy has grown rapidly.

The compulsory military service act, however, was passed in 1908. It provides that there shall be compulsory military service of three years by all men of draft age, except—and it is the exception that is creating the democratic army. Men who have received a certain amount of military instruction are exempted.

The military instruction may be received in military schools, but obviously it is not, in most cases.

Numerous "Linhaos do Tiro" or rifle ranges, have been established throughout the country. Nearly 200,000 men already have been enrolled in these "Tiro's."

Twice a week the men practice military drill and marksmanship at the ranges. When they become sufficiently expert they are enrolled in the reserves, and are not obliged to serve their three years in the regular army.

Naval reserves are being trained by the same method. This service attracts many young men because of the actual

training and short sea voyages given on naval ships.

With the growth of the army reserve the public attitude toward the regular army has undergone a noticeable change. Formerly the army constituted a special caste, and this caste was always viewed with considerable suspicion. Militarism was not at all popular to republicans. Brazil. But now whenever there is a military parade it is noted that a large share of the uniformed men are those of the Tiro—and the Tiro are the nation.

At a recent review President Washington Bras noticed the Tiro boys dressed in the uniform of the Tiro in which their father was an officer. When the president spied the boys, one of whom is four years old and the other two and a half, they were standing at salute while the flag passed, the review stand. After the ceremony the president called the boys to him and asked them if they knew the manual of arms. They said they did. An aide gave a few of the simpler orders and they executed the drill perfectly.

"What Tiro do you belong to?", the president asked the younger.

"To papa's Tiro, number 249. Don't you want to join? It's the best of all," was the answer in childish treble.

The president declared that he was the youngest recruiting officer in the country.

Use for Coffee Grounds.

The question of what to do with the coffee grounds has at last been satisfactorily answered, says the Popular Science Monthly. Just pour them out into the sink-strainer and dump them into the garden. They contain some valuable fertilizing properties, including a large percentage of nitrogen and a fair amount of potassium and phosphorus.

Three Kinds of Sweet Odors.

Sweet odors are of three kinds—the floral, the aromatic and the balsamic. The first group includes all those derived from sweet-smelling flowers and plants; the second, those derived from minks and resins; the third, those derived from leaves and gums. The oil, or essential oil of perfume, is obtained in three several ways—distillation maceration and enfleurage.

FLAG POLE GIFT OF ROTARIANS TO CITY

"SILENT POLICEMAN" AT CENTRAL STREETS INTERSECTION MUST GIVE WAY FOR SPIRE

The "silent policeman" which has stood for several months past at the intersection of Main avenue and Shoshone street is to be replaced in the near future by an immense flag pole which is to be the gift of the Twin Falls Rotary club to the city.

W. B. Friese, a member of the Rotarians committee to which arrangements for the flag pole had been delegated, appeared before the city council at its adjourned meeting Thursday night and announced the purpose of the Rotary club to make this donation.

Councilmen E. J. Ostrander, A. L. Swain and C. B. Channon, composing the committee on streets and alleys, were directed by the council to cooperate with the installation of the flag pole.

Declan has not been reached by the Rotarians committee as to whether the pole shall be of steel or of wood, but the former is favored at the present time.

tion. A sketch of the proposed pole drawn by Architect B. E. Morse was exhibited before the councilman. It provides for a steel pole 75 feet in height, to be mounted on a concrete base and a pedestal of granite or bronze. The pole is to be 6 1/2 inches in diameter at its base tapering to 2 1/2 inches in diameter at the top. It will weigh, if of steel, approximately 1500 pounds.

It is suggested that the pole should bear four cluster street lights encircling police lights, and that the faces of the pedestal shall bear tablets inscribed with the names of the streets which they face.

NATIONAL PARKS ARE OPENED TO WAR WORKERS

(By United Press)

DENVER, May 10.—The national park season, which opened May 1, already gives indications of being a banner season, despite war conditions.

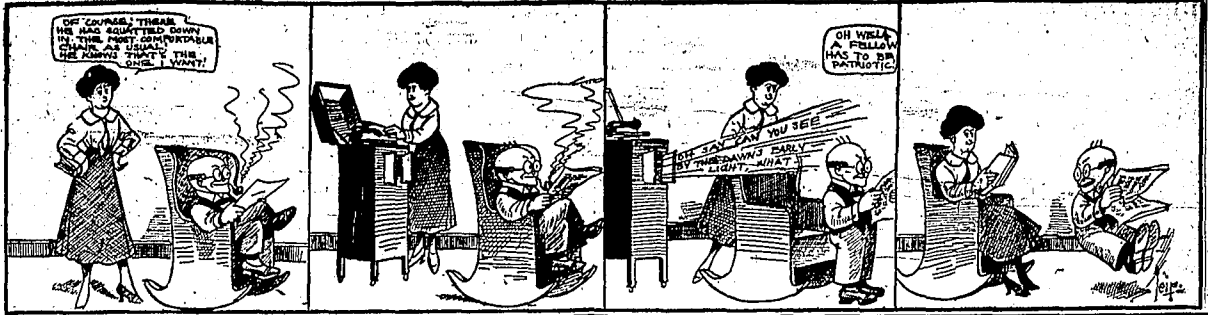

The national railway administration is permitting reduced railroad fares to national parks from June to October 31, in recognition of the fact that tired war workers need recreation and rest.

W. G. Meadlo, director general of railroads, recommends that all vacationers patronize resorts nearest them. Because of their central location the Rocky Mountain National and Mesa Verde National parks are drawing good portions of the early recreation seekers.

HEYBURN

HEYBURN—The beautiful Afghan knitted by the high school girls is on display in the Heyburn Mercantile company window, and is greatly admired.

Mr. and Mrs. Herman Pullman returned home from Salt Lake last Saturday, where they were called on account of the death of Mr. Pullman's mother.

Mr. Nick Wilson's sister, Mrs. O'Brien, from Montana, arrived in Heyburn last Wednesday and will visit here for some time.

The Red Cross met at the M. E. church last Wednesday, with a good number present.

Last Wednesday afternoon some baled hay belonging to Clyde Hardy, which was stacked close to the railroad, caught fire, supposedly by a passing train, and was burned before the men who were there could save it.

The two Pullman children, Richard and Herman, who have been ill with scarlet fever, are much better and it is hoped will soon be well.

Charles Rich died at his home from pneumonia last Thursday morning after a week's illness.

Mrs. Ida Sullivan, county superintendent of schools, Miss Fowler and Mr. Lancaster of Rupert visited the Heyburn school Monday.

Kenneth King, one of our boys who joined the marines nearly a year ago, and who is stationed at Fort Crockett, Alveston, arrived home yesterday on a ten days' furlough.

The dance given by the young people of Heyburn at the Cyko ball last Friday evening was much enjoyed.

HUNS LOSE TO AMERICANS BY BAD GUESSING

ENEMY MISINTERPRETS SIGNS OF ARTILLERY FIRE, PERMITTING RAID WHICH RESULTS IN 20 PRISONERS—GAS LAY-OUT COMPLETE WRECK

By FRANK H. TAYLOR
(United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN LOBBRAINE, May 11.—American artillery in the sector northwest of Toulet out-guessed the Germans this morning, frustrating an attack on the American lines and creating a diversion that permitted the French in the adjacent sector to execute a lightning-like raid.

The boches, contemplating the execution of a new trick, established a gas projector layout opposite the point where the Americans' left wing joins with the French. It was planned to fire the whole concentration simultaneously at one point in the allied lines, enveloping the objective in gas before the men could dig their heads for the signal when the American artillery, receiving information regarding the concentration, subjected it to a terrific shell fire, completely destroying it.

Boches Make Bad Error

The boches thought the bombardment was the harbinger for an American attack and directed all their artillery on the American left wing in a constant barrage.

The French right wing, immediately to the west, was untouched by the enemy fire and executed a lightning raid into the German trenches, over twenty prisoners, who notified the enemy's plans hinging on the operation of the projector concentration.

On the right wing of the Toulet sector, an American patrol encountered a German patrol and forced them to flee. The German artillery, getting busy, compelled the American patrol, in turn, to retire.

Elsewhere, the American front was quiet.

NEW PARTNERSHIP IN COAL AND FEED LINE

Under the name of the Strobridge Coal and Feed Co., Strobridge has formed a partnership with J. H. Hughes.

The firm's yards will be opposite the old location of the Strobridge Coal Company on Fourth avenue south, where Mr. Strobridge has carried on a similar business for some years. Through special arrangement the firm will retain the old telephone number at its new location.

The firm expects to carry a full line of feed of all kinds. Coal will of course be on tap at any hour of the day or night.

LIVING STANDARDS MUST BE LOWEBED

ROCHSTER, N. Y., May 11.—Declining living standards are inevitable if the war continues, Secretary of Labor W. B. Wilson, addressing the Employment Managers' Association today, called for co-operation between labor and capital to stave off the fatal hour.

Borglum's Connections No News to Administration

OFFICIAL AT WASHINGTON DECLARES THAT GOVERNMENT HAD FULL INFORMATION ON PURPOSE OF SCULPTOR EARLY IN THE PRESENT YEAR—INVESTIGATOR GETTING INTO DEEP WATER

(By United Press)
WASHINGTON, May 11.—A great mass of sworn evidence bearing on the government's disclosure of Borglum's activity was read into the Congressional Record by Senator Thomas Colorado.

It was officially stated that Senator Thomas now has information to substantiate his previous understanding that Borglum was acting in the interests of others than himself when he was vigorously prosecuting his probe of the aircraft situation.

It was added that the government is in possession of important information which will be read into the Congressional Record showing that Borglum, at the time he was carrying on his probe, was also acting as a competitor of a proposed private aircraft enterprise.

In connection with Gregory's conference with the president yesterday it is recalled that when the president ordered the inquiry into the Borglum affair, it was officially indicated that the probe was as much to disclose Borglum's real purposes as it was to ascertain whether there had been some criminal mismanagement in the aircraft situation.

Some had a conference yesterday with Vice-president Marshall and Senator Thomas relative to reading the contents of his disclosures into the Congressional Record.

BRAZIL PAPERS ENDORSE SPEECH

PAN-AMERICANISM AS OPPOSED TO LATIN-AMERICANISM PLEASES ALL

(By United Press)
RIO DE JANEIRO, May 11.—The American ambassador here today, in his message to the press, regarding his Rio legation to the rank of embassy today furnished the Rio newspapers with a series of national sensations.

When President Venezuela Gomez received the special British embassy which has just arrived in Rio, he was informed of England's intention to make the legation here an embassy. The president replied that, in that event, Brazil will raise its legation to an embassy.

Senator Alves' unqualified declaration in favor of pan-Americanism was the feature of Friday's newspaper editorials. Referring to this and to the presence of the British mission, O. Pais said:

“Senator Alves' interview gives to the United Press its most opportune, because his ideas on the foreign policy of the future government were expressed on the same day England's special mission was received by the president. Senator Alves categorically affirms his cordials with President Wilson's actions and sentiments, which must unite the American peoples. In a word, Alves furnishes security that there will be no modification of our solidarity with the United States. There is ground to be held that this interview will prove extremely opportune.”

Defence Latin Americanism

An editorial in A. Nolle says: “Rodriguez Alves' declaration demonstrates that he has no sympathy with Latin-Americanism. Brazil should have cord with all the Americas, South and North, but especially should also have an alliance of intimate friendship with the United States. The so-called Latin-Americanism is essentially German-Americanism. Within our hemisphere, Brazil's natural allies are the United States.”

O. Pais said:

“The Alves interview constitutes a valuable document, defining precisely the direction of Brazil's future policy. The statement is most important, as it guarantees that Brazil will continue to follow the war course of the United States.”

JEROME PEOPLE SUFFER HEAVY

(Continued from Page 1.)

Cross dinner will serve only food donated for the purpose and the entire proceeds of this and the sale will go to the Red Cross.

The town is entertaining one of the biggest crowds ever gathered together here, and a heavy snow is expected to be raised.

AMERICANS IN FRANCE ARE BUSY ON LETTERS

(By United Press)
WITH THE AMERICANS IN PICARDY, May 11.—Hundreds of letters will leave Picardy for American mothers Sunday.

In August, letters could be observed writing today, in their spare moments.

Some were puzzled by the most touching of condolences—their mothers had died since they had come to France. They asked if they could write to someone else.

Y. M. C. A. and Salvation Army workers suggested the boys' sisters or their bunkies' mothers.

It was stated further that Kenyon W. Mix, Jr., of the Dodge Motor company, has presented sworn affidavits to the government corroborating Sople's and adding further interesting data covering Borglum's activity.

“Mix, it appears, led Borglum into a full disclosure of his (Borglum's) plans and then gave them in detail to the authorities at Washington.”

“The government had all of the information on Mr. Borglum's purposes early in the year. It took precautionary measures at the time and awaited developments,” one official who participated in the situation declared.

There is also evidence at hand to show that Hugo Gibson, connected with the British war mission, was to play a part in the proposed concern. In this connection, it is recalled that Secretary of War Baker, who has been thoroughly in touch with the activities of the sculptor, held frequent conferences with the British ambassador, Lord Reading, shortly before President Wilson announced his intention to take the lid off the rumors of scandal in the aircraft work which followed Borglum's investigation and political charges.

Borglum could not be located this afternoon at the Metropolitan club, where he stays while in Washington.

FAMOUS CIRCUS AGAIN WORKING

AIR IS FULL OF FIGHTING MACHINES OF ALL NATIONALITIES

(By WILLIAM PHILIP SIMMS
(United Press Staff Correspondent)
WITH THE BRITISH ARMIES IN FRANCE, May 11.—The most amazing air fighting is going on in the entire battle region.

For three days the weather has been ideal for the pilots who strike literally all with fighting squadrons of all nationalities.

The late Baron Richthofen's famous “circus” with a new commander, is busy east of Amiens, where twenty-five or thirty enemy machines are trying to block the allied scouts from the back areas along the Somme.

The number of German machines is increasing and new battle tactics are being employed. The enemy is putting up an exceedingly stiff fight.

“There is little ground fighting. The artillery keeps pounding heavily in spots. There was a terrific cannonade between 8:30 and midnight south of Arras on a single corps front, while the harassing fire was unusually bitter in the region of Lens, Bethune and Haebrouck.”

NONPARTISAN OFFICIAL GETS YEAR IN PRISON

(By United Press)
RED WING, Minn., May 11.—Joseph Gilbert, manager of the National Nonpartisan League, a political organization which claims 200,000 farmer members in twenty states, was guilty of disloyal utterances, a jury here today decided.

Gilbert was sentenced to one year in prison and fined \$500. A stay of sixty days in which execution of sentence was granted, with the proviso that he forego legal activities in Goodhue county during that time. His attorneys stated they would appeal for a new trial.

O'Connell says:

“The Alves interview constitutes a valuable document, defining precisely the direction of Brazil's future policy. The statement is most important, as it guarantees that Brazil will continue to follow the war course of the United States.”

STUDENT MUSICIANS AND SINGERS SCORE

FIRST ANNUAL CONCERT OF HIGH SCHOOL GLEE CLUBS AND ORCHESTRA A DECIDED SUCCESS

The first annual concert given by the high school orchestra and combined glee clubs in the high school auditorium on Friday evening was so undoubtedly a success that its permanency as part of the commencement exercises is assured.

Flores of seats arranged on the stage afforded seating capacity for the entire chorus of 47 young women and 18 young men, below whom were seated the Liberty chorus and male quartet.

Every number was enthusiastically applauded but the male quartet in a group of humorous songs were called upon repeatedly to respond to success.

The quartet, composed of Gilbert Younger, Donald Clinecomb, Burton Van Daessl and Duncan Mickelwell rendered “Flashing,” “Bendometer's Stream,” a quaint old Scotch ballad, “Story of a Truck,” “Spooky, Spooky, Spooky,” and gave as an encore “When You've Studied Half the Night.”

Paul McKinley, club soloist, has a clear full tenor and his “Banjo Song” was followed by “I Hear You Calling Me.”

The selections by the orchestra were all well rendered, and the concert closed with the singing of the “Star Spangled Banner” by the assembly.

The untiring efforts of Miss Jessie Sington, instructor of the glee club, and E. G. Minder, director of the orchestra, have brought to light local talent which will be of immeasurable delight to music lovers in the future.

FALL OF LLOYD GEORGE WOULD PLEASE GERMAN

(By United Press)
LONDON, May 11.—“The British empire would sooner have Lloyd George as premier than any other; his fall would cause rejoicing in Berlin,” Lord Curzon, president of the privy council, declared in addressing the annual meeting of the Primrose League (an organization formed by the late Premier, Disraeli).

“The hour of destiny is at hand. There are some who predict the present government is near its end. Yesterday's tidal wave failed. I dare say the government has made its mistakes, but since it has been in office its war effort has never been equaled in England's history.”

RECENT CRISIS CLEARS THE AIR

BRITISH WAR MINISTER ENDORSES CONFIDENCE IN LLOYD GEORGE

PARIS, May 11.—“The crisis has cleared the atmosphere,” Lord Milner, the British war minister, is quoted as saying, in an interview with the Echo de Paris correspondent in London, regarding the recent situation engendered by General Maurice's charges against Premier Lloyd George.

“Such events are comparable to storms. They have a certain utility, especially at a time like the present, when the world is excessively tense. It ended rapidly and the British government may now pump the only task

that matters—winning the war—with renewed vigor.

“France may be assured that British efforts at the front, as well as behind the lines, will be continued to the utmost. The unshakable French confidence during the past few days has greatly comforted us.”

STRIKES COMBINE TO TIE UP BUSINESS

(By United Press)
BUITE, Mont., May 11.—Several strikes combine to tie up a great portion of business here.

The plasterers' union went on demanding a seven hour day and an increase of 21 in wages.

The Idaho Electrical Workers are still striking.

Butchers and retail clerks have asked for a conference to rearrange working hours. The bakers' union is holding a conference, threatening to stop work. Work on the Y. M. C. A. and Knights of Columbus buildings has been stopped because of the electrical workers' strike.

FRANKLIN

AIR COOLED VS. WATER COOLED MINUS WEIGHT PLUS EFFICIENCY

The cardinal objection to the water cooled motor is its tremendous weight. Undoubtedly the abolition of water cooling will in itself reduce the weight of the average engine approximately one-third. This takes no account of other advantages secured.

Recently there has been a good deal of discussion about the motor car of the future. Practically every expert has stated a belief that the water cooled engine for the motor was the thing of the future.

They have all cited the success of the FRANKLIN, America's greatest car, and the only air cooled car now being manufactured.

All are convinced that the car of the future must be a great deal lighter than the present water cooled vehicle if anything like successful competition is to be waged against the FRANKLIN.

The Gooding Motor Company, like the Franklin Manufacturers, do not fear competition. It is rather welcomed than otherwise.

Relative light weight in a motor car signifies efficiency—economy—thrift. A two or four or larger car that weighs more than 3000 pounds is surely extravagant in the use of raw-iron—and tires.

The FRANKLIN car weighing less than 2300 pounds is the acme of efficiency—the last word in economy.

Let us show you. The salesman will not argue with you. The car will do that.
