EPOCH MAKING EVENT ATTRACTS KEEN ATTENTION AND CHEERING THOUSANDS SPEED DEPARTING CARRIER—PRESIDENT SEES START

(By United Press)

WASHINGTON, May 15.—Eighty-six years has cut the mail delivery between New York and Washington from thirty-two to three hours.

WASHINGTON, May 15.—Crowned by a great throng including President and Mrs. Wilson, Postmaster General Burleson and K. Kambara, postmaster general of Japan, America's first official airmail service was inaugurated at New York today.

PHILADELPHIA, May 15.—Lieutenant Webb landed at Bellefonte, near here, with the first airmail delivery from New York at exactly 1 o'clock this afternoon.

WASHINGTON, May 15.—A broken propeller blade forcing Lieutenant Geo. L. Boyle to land on the state road near Waldorf, Md., 25 miles from here, interrupted the airmail service today.

Phantom War Materials Are Under Investigation

(By United Press) NEW YORK, May 15.—Investigation of alleged stories of German birth that represented the owners of large stores of rifles and ammunition held in the United States was reported today by officials.

AMERICAN FLYERS DIE WHEN AIRPLANE FALLS

Terrible Tragedy of the Air Takes Place Northwest of Toul When Machine Crashes to Earth, Killing Both Occupants—Work of Ambulance Party Performed in Full View of German Artillery

(By FRANK H. TAYLOR United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN LORRAINE, May 15.—I saw two American aviators die, in a quick and terrible tragedy northwest of Toul this afternoon. Their plane became uncontrollable and crashed to earth. The cause is not known.

Three American observation planes skirting under some low clouds over our lines, at an altitude of probably 3,000 feet. Suddenly the three darted into a cloud.

Then I observed one of the machines plunging straight downward, with the motor going at full speed. I expected it momentarily to flatten out, but the plane kept plunging, the motor roaring louder and louder.

The plane struck with an echoing crash in a field about 2,000 yards from a village, just behind the American lines.

Plane Battered to Bits As ambulance patrol went on, returning, reported that the nose of the plane had torn a huge hole in the earth, the engine completely crushing the pilot and observer. The plane was battered to bits.

Quickly and bravely, a detail party went out in full view of the German artillery to perform the solemn duty of gathering up the bodies for burial.

The other two American planes, now free from the clouds, circled above like hawks, while the occupants peered over the side to find out the fate of their patrol mates. For several minutes they maneuvered thus, then returned to their duty of watching the German lines—although nothing had happened other than the everyday tussle of war.

WORK OR FIGHT IS NEW POLICY OF WAR CHIEF

GEN. CROWDER WOULD TAKE THOUSANDS OUT OF DEFERRED DRAFT CLASSES

(By United Press) WASHINGTON, May 15.—Plans to mobilize for necessary war work thousands of men in deferred draft classes have been framed by Provost Marshal General Crowder's office.

Carrying out his policy of "work or fight," Crowder proposes first to weed out loafers hiding behind women's skirts through dependency exemptions and give them the choice of working in a war plant or joining the army.

(By United Press) WASHINGTON, May 15.—The report of the federal trade commission as to the sale of the Independent Harvester company of Plano, Ill., to a group of Milwaukee promoters was sent to congress today by the commission.

PRESIDENT CALLS ON CHARLES E. HUGHES

SAYS PASSAGE INDICATES LACK OF CONFIDENCE

PRESIDENT NOTIFIES CONGRESS AS TO VIEWS ON ACTION ON CHAMBERLAIN RESOLUTION

(By United Press) WASHINGTON, May 15.—President Wilson today notified congress he would regard passage of the Chamberlain resolution empowering the senate military affairs committee to investigate every phase of the war department as a "direct vote of lack of confidence" in him and an attempt to take the conduct of the war out of his hands.

The executive functions are defined by the constitution, the president writes and the country knows where the responsibility lies and the responsible one can be held to their duty.

Every supporter of the administration should vote against the resolution, he said, "because a cabinet's time and it is absolutely necessary that the lines should be clearly drawn between friends and opponents."

ANNOUNCES CLAIM OF INDEPENDENCE

AMSTERDAM, May 15.—Cicciacchia has proclaimed its independence and so notified the central empires and neutral countries, according to a dispatch received today from Constantinople.

THE GOVERNMENT OF CICCIACCHIA embraces the greater portion of Europe in Cicciacchia including the provinces of Stravropol, Kaban and Terek, and formerly was subject to Russia.

ARREST TWENTY-ONE AT BISBEE, ARIZONA

(By United Press) BISBEE, Ariz., May 15.—Charged with "conspiracy to deprive citizens of the rights guaranteed them under the constitution," twenty-one residents of Bisbee were arrested today as a result of federal investigation of the deportation of 1,600 alleged members of the I. W. W. from Bisbee last July, during the strikes trying up the Warren copper district.

WILSONS WOULD STAKE ALL ON FINAL CAST

GERMANS PREPARE FOR LAST DESPERATE EFFORT TO WIN DECISION BEFORE ARRIVAL OF AMERICAN FORCES IN NUMBERS TO DEFEAT

(By WILLIAM PHILIP SIMMS United Press Staff Correspondent)

WITH THE BRITISH ARMIES IN FRANCE, May 15.—There is little doubt that Germany has embarked on her last great adventure, in which every man, boy, horse and machine will be used in a desperate endeavor to gain a favorable decision during the present fighting.

The German drafts are re-fitting divisions which are about half composed of returned wounded and recruits. The latter include some boys of 18 years.

Losses Are Enormous A captured non-commissioned officer of the sixty-second infantry declared that regiment lost fifty per cent of its personnel around Metz (on the Flanders front). Its casualties included nine company commanders.

A prisoner belonging to the 112th regiment says certain battalions lost 50 to sixty per cent.

It is clearly established that the German losses were high in both the Bohemia and Lys fights, delaying the slant of the third push.

There is every probability that the class of 1918, which is being drafted in large numbers, will be the veterans, be driven to death—fulfilling the Kaiser's boast that he will continue to rule the world, or will see every man, boy and horse die.

SUBMARINE WARFARE QUITE SATISFACTORY

(By United Press) LONDON, May 15.—On the whole, the general trend of the warfare against the submarines has progressed quite satisfactorily since January 15.

McNamara said that 172 steamers were unsuccessfully attacked by German submarines between January 15 and April 30.

NEWS FROM POSTAL CENTRIES and the increased booties and disclaimers of our enemies are proof of recent successes against the submarines," McNamara said.

ATTACK FAILS ON MILE FRONT

Heaviest Assault Attempted by Germans in Many Days Goes To Pieces in Face of Allied Opposition Between Somme And Ancre—German Casualties Heavy

(By United Press)

LONDON, May 15.—The heaviest assault undertaken by the Germans in several days—an attack on a front of nearly a mile, southwest of Morlaucourt, between the Somme and the Ancre, yesterday morning—was a complete failure.

Field Marshal Haig's report declared that after the enemy had succeeded in entering the lines at one point the Australians counter attacked and fully re-established their positions.

ENEMY ENTERS LINES AT ONE POINT ONLY TO BE DRIVEN BACK BY AUSTRALIANS—BRITISH LOSSES LIGHT WITH FIFTY PRISONERS CAPTURED—FRENCH TROOPS REPULSE ENEMY NORTH OF MONT KEMMEL

(By United Press) The French war office last night reported intermittent bombardments in the Ancre region and east of Montdidier.

Berlin claimed a "successful local thrust" into the British lines on the Bray-Corbelle road, evidently referring to the attack northwest of Morlaucourt. Counter attacks failed, the German war office said.

COMMENCEMENT WEEK REACHED

CLASS OF '17 GRADUATE FROM TWIN FALLS HIGH SCHOOL TO RECEIVE DIPLOMAS

The culminating event in the commencement week in the Twin Falls high school are the graduation exercises to take place on Thursday evening in the Lavington theatre, at which time diplomas will be presented by V. H. Decker, president of the board of education, to a class of 67 graduates, 39 of whom are young women and 28 young men.

The commencement address will be delivered by Dr. Elmer L. Goheen, pastor of the First Congregational church of Salt Lake City. The subject of his address will be, "The World of Yesterday and the World of Today—An Outlook That Confronts the Youth of This Epoch." Dr. Goheen, who delivered the commencement address here last year, is replete with a forceful speaker, and his address will be an attractive feature of the evening.

Music for the occasion will be furnished by the high school orchestra under the direction of Hoscoe G. Linger. The exercises will begin promptly at 8:15 o'clock.

DECLARE TRANSFER OF WATER IMPRACTICAL

Appeal from the decision of James A. Bales, county irrigation engineer, granting the application of Edwin Damman and Mary Alice Damman of Twin Falls for transfer of water from one tract of land to another under the Twin Falls canal system, has been filed in district court by the directors of the Twin Falls Canal company.

The canal company is made the defendant in an action provisionally brought in this court by the Dammans to compel the transfer of water in question.

In their statement upon which they base their appeal from the engineer's decision, the Canal company directors state that the company and other water users under the Twin Falls irrigation system would be prejudiced if the transfer were ordered by the court; that water is not furnished to the tract from which the Dammans ask that it be transferred and that an order for such transfer would cause a double duty to be imposed upon the canal system to the extent of the water right in question.

The appeal for the Canal company is taken by its attorney, James E. Bethwell.

LOCAL CHURCH SEE BISHOP INSTALLED

Rev. N. P. Hahn of Twin Falls, and Rev. George DeBoop of Buhl, are in attendance today at a public reception being tendered in the Flamingo theatre in Boise for the Rt. Rev. Daniel M. Gorman, Catholic bishop of the diocese of Idaho, who was installed in this office with ceremonies beginning Monday night and continuing until Wednesday morning.

Archbishop Christie of Portland, officiated at the installation of Bishop Gorman, following a procession Wednesday morning of the priests and protopresbiter in attendance from the bishop's residence to St. John's cathedral in Boise. Bishop Gorman then received the pledges of obedience of the priests of the diocese, and, assisted by them, celebrated pontifical high mass.

At noon Bishop Gorman and the visiting clergymen were guests at a luncheon at the Greyhound hotel, and later were taken for an automobile ride through Boise and the Boise valley.

HOLLISTER	KIMBERLY
------------------	-----------------

HOLLISTER, May 13.—Miss Emma Overlock of this city died Saturday of acute rheumatism, at the home of her nephew, W. C. Morse. Her death came, as a surprise and sad shock to her many friends here. She has resided in Hollister several years, and will be greatly missed by all who knew her. She was taken to Ponda, Iowa, for burial.

Miss Rosaell left for Orono, Iowa, with the body of Miss Overlock, and will remain in the east for some time. Dolis Mort went to Twin Falls Saturday.

KIMBERLY, May 15.—Mr. and Mrs. Calvin Owens entertained on a Friday dinner for W. D. Herndon on Saturday evening.

A. J. Fuller of Artesian City was transacting business in Kimberly Saturday.

Mr. and Mrs. G. L. Noble spent Sunday in Twin Falls.

Miss Alla King entertained the members of the senior class of the high school on Thursday evening.

Rev. V. G. Backman spent Saturday and Sunday at Jerome. In the absence of Rev. Backman Rev. Busell filled the pulpit at the Christian church on Sunday.

Mr. Harrison was called to Weiser Saturday to attend the funeral of his O. S. L. at Pocatello. Mr. Jamn brother.

Mr. and Mrs. Roy Williams, who moved to Twin Falls a few weeks ago, motored down to Hollister for a few hours' visit Sunday with friends.

Mrs. Cavness has returned from St. Louis, where she spent the winter, and is visiting her daughter, Mrs. C. W. Simpson, at Berger.

A Red Cross dance is being planned for May 24th, with Twin Falls music. Funds are constantly being needed for yards, etc.

A school board meeting was held last evening, but after discussing pro and con, it was decided to postpone the engaging of a principal for a week, so as to get the general sentiment.

GETTING AID FOR POLAND

Working in harmony with the Young Women's Christian association, Countess Laura de Goussawa Turczynowicz is organizing the Polish Gray Samaritans. She is pictured here in her uniform as a captain in that organization.

She is also president of the Polish reconstruction committee and author of "When the Prussians Came to Poland." The Samaritans are all Polish women recruited in the United States to do nursing and social welfare work. When their instruction is completed they will go to Poland to do reconstruction work or to serve in the hospital.

Miss Bernice Emanuel of Twin Falls who attended the Alumni banquet at the High School Saturday night, was the guest of Miss Hazel VanHouten over Sunday.

Two events of commencement week took place on Saturday and Sunday nights. On Saturday night the annual banquet for the graduates was given by the Alumni association at the high school. Twenty-eight were present and a delightful five course luncheon was served, after which a short business meeting was held. The following officers were elected for the ensuing year: Roy Wagoner, president; Jack Claiborn, vice president; Marie Turner, secretary; Bertha Jones, treasurer. On Sunday night the Rev. A. W. James preached the baccalaureate sermon at the high school auditorium.

The Kimberly W. C. T. U. held a public contest in the basement of the Christian church on Friday evening. The essay contest given by the children was very successful and Adeline Fay was awarded the prize for having the best paper. About 15 members of the Twin Falls chapter of W. C. T. U. were present including Mrs. Blake, the district president. Refreshments were served and the evening was spent pleasantly by all. Those taking part in the contest were Maed Warren, Adeline Fay, Dorothy Zack, Katharine Wilson, George Mcintosh, John McDowell. There will be no meeting of the W. C. T. U. until May 24th at which time there will be Red Cross sewing to do.

CHANGE MEASURE ON PRESIDENT'S ADVICE

(By United Press)
WASHINGTON, May 14.—On the advice of President Wilson the house public lands committee today struck from the oil leasing bill the section giving the executive power to commandeer all oil lands.

The section was inserted in the bill on the recommendation of Oil Director Regan of the fuel administration, but was never submitted to the president until a conference last night with Chairman Scott Ferris.

YOUR Red Cross is an all-American, largely volunteer organization, authorized by Congress, headed by President Wilson, audited by the War Department, enthusiastically approved by your Army, your Navy, and your Allies.

The work covers both military and civilian relief in every war-torn Allied country and full reports of all expenditures are continually being published, or are available through the Chapters.

It stands beside our boys in training here or "over there."

It watches beside the pillows of battle-broken men, and offers rest and sympathy to war-torn fighters on brief respite from the front.

It carries food and clothing to hungered mothers and little ones in ruined villages.

It helps rebuild the scattered pile of brick and stone they once called "Home."

It brings back to the hopeless mother's arms her long-lost child.

It helps care for the orphans of the men who died that civilization might live.

It helps care for the thousands that have fallen prey to dread tuberculosis.

It nobly represents in deeds of mercy, relief, and restoration the more than twenty million members that have made its great work possible.

Will You Do Your Share to Keep This "Hand of Mercy" at Its Work?

Every cent of every dollar received for the Red Cross War Fund is spent for war relief. All administration costs, relief work for other than war purposes (such as the Halifax and Guatemala disasters) are taken care of out of membership dues, and the interest accruing from the banking of the War Fund has made available for war relief at least \$1.02 for every \$1 contributed.

WHY HAVE WHEAT?

Nearly everyone understands why we must eat the corn and barley and ship our wheat to Europe. Those to whom the matter is not clear should read the explanation as made by Mr. Hoover to the hotel keepers who gathered at Washington recently. He said:

"We are asked why we do not ship corn, why we wish to ship wheat. No corn can be shipped across the Atlantic for two months, because this is the germinating season for corn and it will not stand shipment."

"That is the one grain that we have no desire to depart from this idea, but if we are to accomplish this problem it must be accomplished by the voluntary effort of the intelligent people, the influential people of the community. If this democracy has not reached such a stage of development that it has in its people the self-sacrificial, voluntary self-denial, willingness to sacrifice, to protect its own institutions and those of Europe from which our own were bred, then it deserves to go down under the German hand and take another form of civilization."

"Now, in these times of social unrest there is one antidote. That antidote was never applied in Russia; and the result has been massacre. That antidote is a willingness for us to sacrifice more than we ask of those who have less to give. We must ask sacrifice from those who give from plenty, not from those who would have to give from their necessities."

"Therefore, my message is small and concrete: the service that we ask of you, that we ask of every man, of every independent person in the United States today is, that he shall abstain from the use of wheat in any form until the next harvest. Every message that we receive every hour in this day from this country—and it is a great country—shows us that we shall have a large acreage planted in wheat this year that ever before. The arrival of the next harvest will solve our difficulties. If the Lord is good to us in the weather, the problem will be over by the first of September. That is not a long period of sacrifice."

"It is worth knowing that the hotel keepers who, in response to Mr. Hoover's appeal for wheat saving, pledged themselves not to use any flour until after harvest are loyally keeping that pledge and that the numbers of those who are subscribing to this pledge are constantly increasing."

The Twin Falls county food administrator Monday announced that three local cafes had indicated their intention of adhering to this promise. There should be no occasion to suspect that their action will involve a sacrifice. Either they are deserving of the patronage of everyone in the slightest degree sensible of the surpassing importance of winning the war and the disaster that will inevitably result if it is lost. The attitude of the patrons, if voluntary action will not, must place every hotel, restaurant, and boarding house in the country on the honor roll of those who are enlisted in the cause of wheat saving."

Court Rules Woman's Toilet "Trash" Is Necessary

ROCHFORD, N. Y.—Young men call them foolish frills. Husbands call them trash. Women call them make-up. But hereafter, soap and perfume that are to be found on millinery-dressing tables are to have legal standing in court as "a necessary part of a woman's upkeep." The decision was handed down by a village police judge here after weighing every side of the question. And, take it from Louis J. Whelan, who must pay an additional dollar each week to his wife because of it, the judicial finding is one that is attracting considerable interest in this village.

Whelan, who is a foreman gardener on an estate near here, was summoned to court by his wife, who declared that she was paying for her support was insufficient to her in the necessities of life. "That she spends it all on trash—frilly soap, face powder, and all that trash," he began. Whelan said: "Just then the judge cleared his throat, frowned down upon him and brought the complaining husband to a sudden stop. 'Yes, they're trash, but they're a customary part of a woman's upkeep,' Whelan agreed that he would pay the sum, although the decision had not changed his opinion in the least."

IN THE LIMELIGHT

GENERALISSIMO OF ALLIES

Gen. Ferdinand Foch has been put in supreme command of the armies of Great Britain, France and the United States on the west front, is of Basque origin, and is famed as a strategist.

Foch began by mastering the strategy of the war in his mind and in the details. Knowing the mentality of the Germans, he counted upon their repeating in future conflicts the maneuvers that had succeeded. He also expected them to make some of the old mistakes.

In his teaching at the Superior war school and in his writings he held always to the idea of an inevitable agreement by Germany, sprung with lightning-like rapidity after long preparation and most minute preparation—the swift thunderbolt of the opening to develop into a struggle of colossal proportions. To parry the blow, Foch said repeatedly, France must have a staff working in the same direction under a vigorous and audacious chief, directing all responsibility, preserving the equilibrium of his mind and the force of his intelligence under formidable difficulties and exercising without hesitation the most redoubtable rights over his subordinates.

Thin, tall, elegant, with a fine head and features, General Foch is simple of bearing but authoritative. From his gray eyes shine the intelligence and will power of a real chief. In conversation he shows his military training by directing the course of his talk like a maneuver.

NATIONAL CAPITAL AFFAIRS

Changes Wrought in Washington by the War

PENNSYLVANIA avenue used to be a stately thoroughfare on which you could promenade conspicuously from the capitol to the White House, curving at leisure the massive government buildings, the souvenirs in the window shops, the marble statuary and the creeping trolleys. It still has the same old shooting galleries, and the "rooms for 50 cents" and the hand-painted Martha Washington china plates and the miniature Washington monuments, with thermometers attached, in the shop windows, but Pennsylvania today is an Appian way along which surges constantly a continual stream of elbowing, energetic, endless humanity and vehicles. Potomac park used to be a place where you could ride

dreamily along in your open barouches on a Sunday afternoon with an occasional nod to a passing officer on command; now it is a North-south where on a splendid-spring Sabbath is mobilized a fleet of allied "toy wagons" that strive constantly for the same privilege of pursuing the joy track of their very unmodified.

If the city of Washington is ever threatened by an unexpected invasion, as was Paris in the early days of the war, the secretary of war has only to command the motorcade in the District of Columbia as General mobilizes the taxicabs of Paris, and he can rush up troops enough from Camp Meigs and Camp Metz and marines from Quantico, Va., to save the day.

The Long Arm of Mercy

By DR. FRANK CRANE

The Red Cross is the Long Arm of Mercy. It is the Kindness of Mankind—organized. In Man is an Angel and a Devil, a Dr. Jekyll and Mr. Hyde. The Red Cross is the Good, aroused, energized to thwart the Bad.

It is the best antidote we know to the bane of war. There are other Charities, more or less helpful. The Red Cross is the mightiest of all Charities, the Love and Pity of all men made supremely efficient.

If, as Emerson said, "sensible men and conscientious men all over the world are of one religion," this is the expression of that religion.

The Red Cross is Humanity united in Service. It asks no man's opinion; only his need.

Black or White, Friend or Foe, to the Red Cross there is no difference; it only asks: "Who is Suffering?" And to him it goes.

The Red Cross is so Efficient that Governments recognize it; so Pure in its purpose that whoever wishes well his fellow men, desires to help it; so Clean in its administration that the most suspicious can find no fault in it.

The Red Cross not only seeks to alleviate the cruelties of War; it is the expression of those human sentiments that some day will put an end to War.

It is the impulse of Love, striving to overcome the impulse of Hate.

It is Mercy's co-operation struggling against War's rivalries.

It is the one Society in which every Man, Woman and Child should be enrolled; for it knows no sects, no prejudices, no protesting opinion; the human being does not live that does not feel that the starving should be fed, the sick tended and the wounded healed.

Majestic and divine is this Long Arm of Mercy; it finds the fallen on the battlefield, it brings the nurse and the physician to the victim in the hospital; it leads the weeping orphan to a home; it feeds the starving, cares for the pest-smitten whom all others abandon, and pours the oil of Help and Pity into the bitter wounds of the World.

Where a volcano has wrought desolation in Japan, or a Flood in China, or a Hurricane in Cuba, or a Famine in India, or a Plague in Italy, or ravaging Armies in Poland, Serbia or Belgium, there flies the Red Cross, the Angel of God whom the fury of men cannot banish from the Earth; and to the Ends of the Earth, over all the ways of the Seven Seas, wherever is Human Misery, there is extended, to bless and to heal, its Long Arm of Mercy.

THE SCARLET CROSS

By Margaret Widdemer of the Vigilantes.

What is it that you do today, who lift the Scarlet Cross? All of the withered world is down in ruin and in loss.

And all the world hears clashing sword, and bears no sound less plain—What can you do who lift the Cross, but heal to fight again?

We guard the women left alone, heartbroken for their dead. We save the children wandering where all save Fear has fled.

We raise again the broken towns swept down by shot and shell. We heal again the broken souls hopeless from learning Hell.

Oh, they who saw but Grief and Hate see now our red sign plain—We save the sad world's soul alive that War had nearly slain!

Bombardments Cannot Drive This Woman Back

She Thinks Coffee for Soldiers More Important Than Safety.

The following extracts are taken from a letter written by a Red Cross Canteen worker, Helen McElhine, an American woman and college graduate now located in a district almost constantly under bombardment:

"I was discouraged at the big outlook of affairs and also at the small outlook of mine, but more by the blackness that comes before dawn. Let us hope so. Our men certainly need help now as much as the militia. I am beginning to see those who have been at the front. In fact, I am beginning to see some of the results of this life. They are sick and homeless, and worse things have happened to them. Together have said: 'All we ask is to get to the front and do what we have to do. Anything is better than this life. . . . This morning we had more Americans than I have seen before at one time. One came up to me here as I was drinking coffee from a big marmite as fast as I could fill cups and, pointing to his pipe, said, 'Tobac, tobac.' I said, 'Do you want some tobacco?' He seemed stunned for a moment and then said: 'Do you know it nearly gave me a fit to hear you speak English. I haven't heard a woman speak English in five months.' He said he had been walking about in the cold since four o'clock last night. He couldn't find a hotel or a bright light because, of course, everything is closed and darkened on account of the bombardments. . . . The Americans are very fond of ham sandwiches. They eat much more than the French soldiers, and when they first came in and ordered six eggs apiece it caused consternation throughout the land. The funniest thing of all is to hear the Samurais grandly saying these words in English like to 'keep the change—oh, keep the change!' . . . We start the day at five and work continuously until, when three fresh cantinieres relieve us. At five we go to light and evening shift from five to eight, and it is the most exciting and exhausting of the shifts. There is a certain time when they come down on us like a flood eight or ten deep around the counter and three or four hundred all together in this little room, as eager and tired as schoolboys."

ORGANIZE WORK ON HUGE SCALE

WAR INDUSTRIES BOARD PLANNING ZONE SYSTEM FOR INDUSTRIES

(By United Press) WASHINGTON, May 15.—Industrial zones—each to constitute practically complete economic unit for war work—are to be created by the war industries board throughout the country.

Complete manufacture therein of war goods from the raw material to the finished product, is aimed at, and, it is believed, wasteful hauling of partly finished material from one part of the country to another, will be virtually eliminated.

Charles A. Ochs, Cleveland manufacturer, and members of the Chamber of Commerce, will undertake to organize the zones. One tentative plan which has been discussed is to make each federal reserve district a zone.

Expert at Head The zone organizations are to be built up around Chambers of Commerce that act as information and service bureaus both for the government and the manufacturers seeking contracts. Each zone bureau will be headed by an industrial expert.

A complete chain of information and service bureaus will be developed in each zone, starting with the smallest city where any available factory is located.

RUMOR CAUSES UNREST (By United Press) PARIS, May 15.—Socialist deputies today explained to Albert Thomas, minister of munitions, that the recent unrest in war factories resulted from the fact that American workers were revealing the French situation. The minister proved that the rumor was unfounded.

TO HOLD SPECIAL ELECTION JEFFERSON CITY, Mo., May 15.—Missouri will hold a special election November 5, to choose a United States senator for the unexpired term of the late W. J. Stone, Governor Gardner announced today.

WITH THE CANADIANS OTTAWA, Ont., May 15.—The following Canadian cases are in today's Canadian court files: Wounded: C. W. Donald, Portland, Ore.; O. G. Frieble, Portland, Ore.

Do Stones Grow? To speak very precisely, only organic things grow, though some inorganic things for instance, may increase in size or quantity. Stones do not grow, they happen. In some way or another they have been clipped off from rocks or hardened from other similar nodules. Sometimes they have been rubbed smooth, or partly so, by friction. But although they may be added to in some rare instances by coatings of hardened mud, they certainly do not and cannot "grow," as do living things, by any power within them.

Oral Rubrics. The Oriental rubric consists of nearly pure alumina—i. e., oxide of aluminum—in a crystalline form, containing but 1 per cent of oxide of iron and 1/2 per cent of any other substance. The specific gravity of this precious stone is higher than that of many other gems, ranging from 3.9 to 4.2. Aluminum, the metal, has, when cast, a density of 2.55; when forged, of 2.77, or only one-third of that of forged steel or one-fourth of that of silver. The melting point is about 1300 degrees Fahrenheit.

One Way to Get Around It. Doris ran errands for a neighbor and was always rewarded with pennies. I decided this winter to take money for doing an act of kindness. The next time the penny was offered to her she shook her head and said, "My mummy won't allow me to take any more pennies, but there is a suggestion, to having a penny's worth of candy put on your charge account," Chicago Tribune.

Catch Fish in Their Hands. Fishing in San Juan seems to often open by the women, and without nets, boats, or hooks. They simply wade into the water and form themselves into a ring. The fishes being so plentiful, they are almost sure to impale themselves in the ring. Those women are very quick and active, and every time they catch a fish with their hands they simply throw it, alive, into the basket on their back.

SCHOLARS LOAN FUND IS GIFT OF GRADUATES

CLASS OF 1918 LEAVES AS MEMORIAL TO SCHOOL NUGLES OF FINANCIAL ASSISTANCE

A scholarship loan fund of \$100 is the memorial gift of the graduating class of 1918 to the Twin Falls high school. The gift was presented at class exercises which drew an assemblage filling the high school auditorium to its capacity Tuesday evening. The presentation was made by the class through its president, Michael Thomas, who expressed the hope that succeeding graduating classes would add to the fund until a substantial amount should be accumulated for the purpose of assisting students in the pursuit of higher education.

Hands Down Pennant
Proceeding the presentation of the class memorial, the pennant which has been handed down by successive graduating classes was presented by Michael Thomas and accepted on behalf of the class of 1919 by its president, Burton Van Tassell.

Class Play Scores
One of the most pretentious of dramatic undertakings of local high school students was the senior class play, "The Rebels," given by members of the graduating class on this occasion, under direction of Miss Helen L. Deneske, a teacher in the English department. The lines of Sheridan's famous comedy are particularly well adapted for a student performance, and the rendition was an entirely creditable one throughout. Especially favorably commented upon were the parts of Sir Anthony Absolute and Mrs. Malaprop, taken by Jennings Baylor and Genevieve Riley, and the roles of Captain Obadiah and Lydia Langbush, as taken by Michael Thomas and Margaret Smith. Lillian Longmeyer as "Fighting Bob" gave an excellent impersonation of that amusing character.

Other parts were creditably taken by Gilbert Younger, as Sir Lucius O'Trigger; Anna Redwood as Julia; Paul O'Connell as Faulkland; Una Reed, William Buck and John Parisi.

Canada Evans was stage manager and Margaret Lowe was property manager.

Directed by the high school orchestra under direction of Roscoe G. Linder contributed largely to the enjoyment of the occasion.

LOCAL BRIEFS

Is Designated as Agent—Designation of W. B. Amshary as the local agent for the C. C. Taft company of Iowa was filed Tuesday in the office of the county clerk.

Filler Recruit Leaving—Norman H. Schamp of Flor has been accepted through the local army recruiting station for enlistment in the infantry, and leaves this evening for Salt Lake.

Again Predicts Showers—Showers to night and Thursday with colder weather through the local army recruiting station for enlistment in the infantry, and leaves this evening for Salt Lake.

Claims Bride Here—The marriage of Eva Bryant of Twin Falls and Henry Overly of Boise, took place Tuesday afternoon in the office of the officiating magistrate, Probate Judge O. P. Duvall.

Returns from California—Chester C. Baird, an old time resident of Twin Falls, returned to the city this week after an absence of two years spent in California. He expects to be here for some weeks.

Says Wife Deserted—Statement that his wife, Katie Hardie, to whom he was married in Elko, Nevada, in June, 1909, had deserted him in September, 1916, is made by Phil Hardy of Twin Falls, in his petition for divorce filed Tuesday in district court here through his attorneys, Myers & Kinney.

Surgical Dressings Resumed—Resumption of the sessions of the surgical dressings class under the auspices of the Twin Falls county Red Cross chapter beginning on Monday next, has been authorized by headquarters of the society, and all workers enlisted in this phase of the relief work are urged to resume their work.

Clover Holds Rally—An enthusiastic patriotic rally was held Monday evening in the public school at Clover. The speakers were former Senator M. J. Swaney, County Agent Donald M. Lean, F. A. Smuts, boys' and girls' club leader, and Miss Gertrude Deneske, county home demonstration agent. Forty-seven persons were in attendance.

Demonstrates Poisoning—A. D. Wicher, assistant county agent, Monday conducted a demonstration in the poisoning of rabbits and squirrels at Artesian City. The dry farm crops in this region evidence every appearance of yielding satisfactory return provided the rodent pests which are more numerous this season than usually can be eradicated, Mr. Wicher states.

Sally Here on Furlough—J. A. Bohler, a nephew of former Councilman R. Bohler, was here Monday and Tuesday on a furlough granted to him at the expiration of his first enlistment period in the United States navy. He had recently returned from a cruise in Asiatic waters, and immediately reinstated, being assigned to duty with the torpedo boat destroyer Schley, now in course of construction at San Francisco.

Gas Furnace Ignite—Spontaneous explosion of gas in the dry cleaning department at the Troy Laundry at about 10 o'clock Wednesday morning resulted in a blast that was quickly extinguished by the fire department, and no damage except to the machinery resulted. Operation of the department continues without interruption. A tank containing about 50 gallons of gasoline was in the building which was swept by the flames, but did not explode or burn.

'BICYCLE BANDITS' HAVE DAY IN COURT

IMITATION CUSTOMS OF JUVENILE ORGANIZATION DRAWS ATTENTION PROBATION OFFICER

"Modification of the ritual of the 'Bicycle Bandits,' wherein it provides a rigorous system for its activities is a forgone conclusion as a result of an investigation that has been instituted by Probation Officer John H. Ault.

The 'Bicycle Bandits' is an organization of about 20 boys ranging in age from 12 to 16 years and including in its membership the sons of some of the most prominent families in Twin Falls.

Information has come to the probation officer that features of the initiation ceremony are rather too impressive. It is reported for instance, that one candidate was dragged feet foremost by means of a rope about his middle into the cave, while the organization boasts somewhere in the east quarter of the city. Once inside the cave, he was held there while water was poured in on him from a hole in the top of the cave; regardless of the effort upon his clothing or of the opinion of his parents when he reappeared in debilitated condition.

Applied Communism
It is apparently another feature of the initiation to insist upon a division among the members of the organization of the contents of the candidate's pockets.

Mr. Ault today has called into his presence eight or ten of the prime movers of the organization and is addressing them upon the proprieties of their conduct.

"There can be no objection to the organization or 'gang,' among the boys so long as they confine themselves to innocent amusement, and discouragement of this sort of activity is farthest from the purpose of the office," Mr. Ault stated today. "But," he continued, "the youthful spirits must be brought to a realization of the rights of individuals, and for this reason I have summoned the boys before me for an inquiry into their ritual."

BOOK CREEK

BOOK CREEK—Mrs. C. L. Dean has the second service flag to be displayed. One of her sons is with the fighting forces in Europe.

The Red Cross met Wednesday usual but before the meeting was over it began to rain and in a short time the roads were impassable to a car without chains. Some realized the coming danger and hurried home, taking work with them, but Mrs. Larsen stayed till the work was finished and as she had no car chain her brother, A. P. Murray, Jr. took her home in his car and Mr. Larsen brought the chains and took her home.

Mrs. Catherine Rose made an application for one of the two orphans that are at the county hospital waiting for someone to give them a home, but before her application was received the children had been taken to the home of an uncle in Nevada. Mrs. Rose has raised a large family and although she has given a son and two grandsons to the army she still feels that she ought to be doing her bit in caring for the orphaned.

Mrs. Morris, who is visiting with her sister, Mrs. L. M. Van Eaton, was taken to the hospital at Twin Falls the last of the week to be treated for influenza from which she has been a sufferer for several years.

Mr. and Mrs. T. O. Jones came in from their ranch at Three Creek on Wednesday for a short visit with Mrs. Jones' parents, Mr. and Mrs. Robert Brose.

Mrs. Robert Brose and Mrs. T. O. Jones went to Twin Falls Friday to visit with Miss Helen Brose, who was slightly ill here.

Robert Brose and G. J. Demaree spent Wednesday conducting business in Twin Falls.

REO CAR DEALERS ADD TRUCK LINES

DUPLIX AND INDIANA TO BE HANDLED BY IDAHO AUTOMOBILE & SUPPLY COMPANY

Two truck lines have been taken over by the Idaho Automobile & Supply company, E. N. Flory, the manager announced Wednesday. Mr. Flory, G. E. Duke and Fred Linsen drove demonstrators overland from Salt Lake last week. One of these trucks, the Duplex, is a four wheel drive machine, adapted particularly to heavy hauling. It has been purchased by the Elkora Mining company of Jarbridge, and will be put at heavy hauling between Rogerson and the camp. The other machine, the Indiana, is a two-ton truck for lighter work. It is manufactured, however, in different sizes.

Mr. Flory states that his company has been obliged to drive fifteen automobiles from Salt Lake since the first of the year, owing to the car shortage of that time. It has been Boon. Two of these were brought up last week, a coupe six cylinder Boon for Dr. T. S. Wasson, and a roadster for Dr. M. L. Halliday. The roads between here and Salt Lake City, Mr. Flory states, are in good shape.

DUMMY RIFLES HERE FOR YOUNG CADETS

ORGANIZATION OF BOYS FOR MILITARY DRILL TO BE RE-PEPECTED

One hundred wooden rifles purchased with a fund subscribed recently by Twin Falls business men, have been received for the use in military drill of an organization of marine cadets which is to be formed among the boys and young men of this city.

The rifles were to have been provided for the use of the Boy Scout troops and high school students. Complaint originating locally against the participation by Boy Scouts as an organization in military drill was filed with the headquarters of the organization and the plan, insofar as it regarded the Scouts, was abandoned in consequence. Organization of cadet corps has been left upon as the solution of the situation.

Organization of this corps is to be effected at a meeting this evening in the grounds at the rear of the Wash.ington school, where the first drill will take place at that time.

Ressemble Army Rifle

The dummy weapons received are similar in appearance to the regulation military rifle, but weigh only one pound where the military rifle weighs about 10 pounds. No bayonets are used with the wooden rifles, but they are fitted with stacking swivels, so that they may be stacked out of the way when the cadets are engaged in calisthenics which are an essential feature of military training.

An effort will be made to provide distinctive hats or caps for the members of the new organization, so that they may bear a distinguishing mark when they make their first appearance in public in the Memorial day parade. Later, it is planned, uniforms will be secured.

Marriage licenses were issued here Tuesday to the following:

UNEMPLOYED IN TWIN FALLS IS DANGER SOURCE

COUNTY COUNCIL FOR DEFENSE DISCERN MENACE IN LARGE LOCAL ELEMENT

The Twin Falls county council of defense discerns in the surplus of labor existing here at the present time a situation which constitutes a menace to the agricultural industry, and has recommended in resolutions recently adopted that the sheriff be instructed to see that idle men are not permitted to remain indefinitely in the county unless willing to work for a reasonable wage, and that vigilance should be taken of the situation by the state council of defense.

Instructs Sheriff
Following is the resolution adopted by the council:

"Whereas, the need of labor of all kinds in Twin Falls county and of farm labor in particular is rapidly becoming acute; and

"Whereas, there is a large element of unemployed labor suitable for farm or other work in Twin Falls county, consisting of men unwilling to work for reasonable wages; and

"Whereas this situation constitutes a menace to successful harvesting of crops, preparation of land and is likely to result in loss and damage of a most serious character;

"Therefore, it is resolved, that the sheriff of Twin Falls county be and hereby is instructed to take such legal steps as he may find necessary to see

ENEMY PROPERTY MUST BE REPORTED

PROBATE JUDGE O. P. DUVALL COOPERATES WITH FEDERAL OFFICIALS UNDER WAR LAW

Probate Judge O. P. Duvall is cooperating with the director of the federal bureau of investigation and alien property custodian in the work of ferreting out enemy-owned money and property in Twin Falls county.

New Law Gives Authority
This work is authorized under the provisions of the trading with the enemy act, and the custodian is responsible for the sequestration and administration of all enemy property reported under that act, but the duty to discover and make known such enemy property is upon the citizen, official and unofficial alike.

All those who hold enemy property or any interest therein must report on blanks which will be furnished on request, and with which Judge Duvall has been supplied. Report also must be made where the holder of property has reason to believe that an enemy or ally of an enemy owns it or has an interest in it.

Failure to make report to the alien property custodian is punishable by imprisonment for not more than 10 years or fine of not more than \$10,000 or both.

For all property that comes into his hands the custodian has all the powers of a common law trustee. The trading with the enemy act makes it possible for the government to use the property without confiscation.

What Enemy Property Is
Enemy property includes any and every kind of property tangible or in-

tangible, money—chattels, securities, lands, indebtedness, accounts receivable, etc., which belong to an enemy. Even if the property is held in the name of another—by a dummy or in trust—the real beneficial interest belongs to an enemy, it is enemy property.

An enemy is any person, regardless of citizenship or nationality, who is now living within, or any company incorporated within Germany, Austria-Hungary, Turkey, Bulgaria, Rumania, being the occupied territories of Belgium or northern France and all other territories occupied by the armed forces of Germany or her allies. Actual residence and not citizenship is the determining factor. A German living in the United States is not an enemy unless he is interned. On the other hand, an American living in Germany or any territory occupied by the

armed forces of Germany or her allies, is an enemy.

Purpose of Act
The purpose of the act is to prevent, aid or comfort to the enemy or the allies of the enemy, to make available for war financing any funds in this country belonging to enemies, and to safeguard property of enemies for such disposition as congress may deem advisable after the war is over.

SOCIETY

A delightful week-end affair was the gathering of the members of the Alpha household at the summer camp of two of the members, Misses Ruth Millard and Jessie Warrington, at Blue Lakes. The girls who motored down Saturday were the Misses Marjorie Metcalf, Nell Nell Saunders, Oral Anderson, Hazel Bishop and Mary Bailey, accompanied by Miss Margaret Edwards. The affair was in the nature of a farewell gathering of the Alpha girls, four of whom are leaving the last of this week for their home in the middle west, also for the formal naming of the summer camp. All the girls lived together under the name Alpha household since last fall and a warm friendship has sprung up among them. All have been spending the week-ends at Blue Lakes since the two members established their home there some six weeks ago for the purpose of raising property to offering their services for war work in France. Sunday was spent by the eight girls in a final visit about the beautiful ranch to 'Lovers' Retreat', Sunbank, Falls and other favorite spots. After a swim in Alphas creek dinner was served, at tables decorated with the first wild roses of the season. Mrs. I. B. Perrine, Mr. and Mrs. H. Griswold Haight, Kenneth Ayres, Mrs. Frank Morrison and little son, Frank Jr., were specially invited guests.

place is dedicated to joy, health and happiness. Many all who ever enter its doors be showered and comforted with these blessings. And when they leave they take with them, stored away like sunshine in their souls, enough of the treasures which Nature bestows here, of sunbeams and peace and joy, of flowers and birdsongs, to brighten all their days and radiate from their hearts wherever they go. Mrs. Haight broke a bottle of clear, sparkling Alphas creek water on the doorstep while all drank toasts to hook water as Miss Saunders said "We here by christen this place 'Boulderbrook'" and read the following poem:

The New House
(By Louis Untermyer)
May nothing ever cross this door,
And may ill-fortune never pry
Among these window; may the roar
Of rain rains go by.
Strengthened by faith, these rafters
Will withstand the battering of the storm;
Withstanding the battering of the storm;
This hope, though all the world grow
Chill,
Will keep us warm.
Peace shall walk softly through these
Doors,
And may ill-fortune never pry
Among these window; may the roar
Of rain rains go by.
Laughers shall drown the raucous shout;
And, though these sheltering walls are
Thin,
May they be strong to keep heat out
And hold love in.
"Boulderbrook" is a combination of

sleeping porch and dressing room an
apartment. It is nestled in an enchanting
spot on the banks of Alphas creek
and is visited every week by friends
and acquaintances who invariably take
with them supplies for the week-end
picnics and good times. Before the
Alpha girls returned to town Sunday
evening each wrote a letter to the
absent member, Miss Ada Warrington,
who recently accepted a position in

schools here the past year, expect to

GIVES QUOTAS FOR RED CROSS WAR FUND DRIVE

CHAIRMAN STUART H. TAYLOR ASSIGNS SHARE TO EACH DISTRICT AT MEETING

Stuart H. Taylor, chairman for the Twin Falls Red Cross chapter of the Red Cross war fund drive beginning in this district on Monday next, at a meeting of the executive committee and district leaders in the Perrine hotel Tuesday evening, announced the following quotas based upon assessed valuation for each of the several districts within the county:

Twin Falls	\$7,600
Elmer	2,750
Kimberly	1,700
Hansen	1,200
Hollister	800
Montague	650
Curry	475
Hogenson	450
Pleasant View	375
Berger	350
Bickel	250

The quota for the Blue district where the drive organization has been effected under the auspices of the Red chapter, is \$4,200, bringing the total apportionment for the county up to \$21,000.

Perfect Drive Plans
Plans for carrying on the campaign in the Twin Falls section were perfected at the meeting Tuesday evening. It was determined that the meeting of the district leaders were the following members of the executive committee: Chairman Stuart H. Taylor, Manager E. L. MacVicar, E. J. Strander, E. L. Ashton, Hal G. Biny, W. R. Pritch, Edwin A. Wilson, Dr. H. W. Wilson.

SCHOOL ELECTION IN ROCK CREEK DELAYED

ROCK CREEK—The Rock Creek district school election which was overlooked in April was held at the school house May 13. Through an oversight the notices were not posted and it was necessary to set the date forward. At the term of Magnus Larson had expired and the others held their offices by appointment, it was necessary to elect a full board. Magnus Larson was re-elected for the three year term, Mrs. Ollie Gray for the two year term, and Mrs. Mary C. Donmore for the one year term. It was voted at the general meeting to have a nine months term of school during the following year, but the matter of a tax levy and other matters were left to the trustees. A vote to secure a better water supply was unanimously carried.

FIERCE FIGHTING IN RUSSIAN CAPITAL

(By United Press)
PETROGRAD, May 13.—Fighting has broken out between Bolshaviki and anarchists in Moscow. The Bolshaviki surrounded the anarchists' headquarters in the center of the city and bombarded it with guns mounted on armored cars. Desperate street fighting ensued. Casualties were heavy. The anarchists replied with machine guns and grenades. At noon the fighting was continuing.

HAIL IS HERE

When your crop is devastated and you did not carry hail insurance. What would you do about those obligations you have to meet if your crops were wiped out by hail?
You never before had so much invested in your crop and you never had such urgent demands on you for money. Where would it come from if you were haled out? Such a loss this year would mean financial ruin to many.
You can not afford to take the chance. Think it over and then come in and insure your wheat, beans, etc., before it is too late.
Landlord or tenant can insure a share of crop and hail insurance only on the part insured.

UNEMPLOYED IN TWIN FALLS IS DANGER SOURCE

COUNTY COUNCIL FOR DEFENSE DISCOVERS MENACE IN LARGE LOCAL ELEMENT

The Twin Falls county council of defense discloses in the surplus of labor existing here at the present time a situation which constitutes a menace to the agricultural industry, and has recommended in resolutions recently adopted that the sheriff be instructed to see that idle men are not permitted to remain indefinitely in the county unless willing to work for a reasonable wage, and that cognizance should be taken of the situation by the state council of defense.

Instructs Sheriff

Following is the resolution adopted by the council:

"Whereas, the need of labor of all kinds in Twin Falls county and of farm labor in particular is rapidly becoming acute; and

"Whereas, there is a large element of unemployed labor suitable for farm or other work in Twin Falls county, consisting of men unwilling to work for reasonable wages; and

"Whereas this situation constitutes a menace to successful harvesting of crops, preparation of land and is likely to result in loss and damage of a most serious character;

"Therefore, be it resolved, that the sheriff of Twin Falls county be and hereby is instructed to take such legal steps as he may find necessary to see

ENEMY PROPERTY MUST BE REPORTED

PROBATE JUDGE O. P. DAVALL COOPERATES WITH FEDERAL OFFICIALS UNDER WAR LAWS

Probate Judge O. P. Davall is cooperating with the director of the federal bureau of investigation and alien property custodian in the work of ferreting out enemy-owned money and property in Twin Falls county.

New Law Gives Authority

This work is authorized under the provisions of the trading with the enemy act, and the custodian is responsible for the sequestration and administration of all enemy property reported under that act, but the duty to discover and make known such enemy property is upon the citizen, official and unofficial alike.

All those who hold enemy property or any interest therein must report on blanks which will be furnished on request, and with which Judge Davall has been supplied. Report also must be made where the holder of property has reason to believe that an enemy or ally of an enemy owns it or has an interest in it.

Failure to make report to the alien property custodian is punishable by imprisonment for not more than 10 years or fine of not more than \$10,000 or both.

For all property that comes into his hands the custodian has all the powers of a common law trustee. The trading with the enemy act makes it possible for the government to use the property without confiscation.

What Enemy Property Is
Enemy property includes any and every kind of property tangible or in-

tangible, money, chattels, securities, loans, indebtedness, accounts, receipts, etc., which belong to an enemy. Even if the property is held in the name of another—by a dummy or in trust—if the real beneficial interest belongs to an enemy, it is enemy property.

An enemy in any person, regardless of citizenship or nationality, who is now living within, or any company incorporated within Germany, Austria-Hungary, Turkey, Bulgaria, Luxembourg, the occupied territories of Belgium or northern France and all other territories occupied by the armed forces of Germany or her allies. Actual residence and not citizenship is the determining factor. A German living in the United States is not an enemy unless he is interned. On the other hand, an American living in Germany or any territory occupied by the

armed forces of Germany or her allies, is an enemy.

Purpose of Act
The purpose of the act is to prevent aid or comfort to the enemy or the allies of the enemy, to make available for war financing any funds in the country belonging to enemies, and to safeguard property of enemies for such disposition as congress may deem advisable after the war is over.

Editor's Suggestion
"You say this poem was composed on the spur of the moment?" asked the editor. "Yes, sir," replied the proud author. "It struck me all of a sudden, and I dashed it off." "Permit me to offer you a word of advice," "Certainly." "The next time a poem strikes you, put on a gym suit and run it off." —Birmingham Age-Herald.

SOCIETY

A delightful week-end affair was the gathering of the members of the Alpha household at the summer camp of two of the members, Miss Beth Millard and Jessie Washington at Blue Lake. The girls who motored down Saturday were the Misses Marjorie Metcalf, Nell Nell Saunders, Oral Anderson, Hazel Bishop and Mary Bailey, accompanied by Miss Margaret Edwards. The affair was in the nature of a farewell gathering of the Alpha girls, four of whom are leaving the last of this week for their home in the middle west, also for the formal naming of the summer camp. All the girls lived together under the name Alpha Household since last fall and a warm friendship has sprung up among them. All have been spending the week-ends at Blue Lake since the two members established their home there some six weeks ago for the purpose of retiring preparatory to offering their services for war work in France. Sunday was spent by the girls in a final visit about the beautiful ranch to Lovell's Retreat, Snowbank Falls and other favorite nooks. After a swim in Alpeuss-creek-sluice-was served at tables decorated with the first wild flowers of the season. Mrs. J. J. Anderson, Mr. and Mrs. H. H. Haight, Kenneth Ayres, Mrs. Frank Mattison and little son, Frank Jr., were specially invited guests.

GIVES QUOTAS FOR RED CROSS WAR FUND DRIVE

CHAIRMAN STUART H. TAYLOR ASSIGNS SHARE TO EACH DISTRICT AT MEETING

Stuart H. Taylor, chairman for the Twin Falls Red Cross chapter, of the Red Cross war fund drive, beginning in this district on Monday next, at a meeting of the executive committee and district leaders in the Perrine hotel Tuesday evening, announced the following quotas based upon assessed valuations for each of the several districts within the county:

- Blaine \$7,500
- Filer 2,750
- Kimberly 1,700
- Hassan 1,200
- Hollister 300
- Maulsberg 650
- Curry 475
- Rogerson 450
- Pleasant-View 375
- Boger 250
- Bickel 250

The quota for the Bull district where the drive organization has been effected under the auspices of the Bull chapter, is \$4,500, bringing the total apportionment for the county up to \$21,000.

SCHOOL ELECTION IN ROCK OREEK DELAYED

ROCK OREEK: The Rock Creek district school election which was overlooked in April was held at the school house May 13. Through an oversight the notices were not posted and it was necessary to set the date forward. RED CROSS TO BENEFIT BY STAMP SALE

FIRST LETTERS CARRIED BY AERIAL MAIL WILL BE AUCTIONED OFF TO HIGHEST BIDDER—OFFER OF \$1000 FOR ONE ALREADY RECEIVED

(By United Press)

NEW YORK, May 15.—Close watch-keeping made possible the new York-Philadelphia-Washington aerial mail line practically assured. Army airplanes were used up at Belmont park, the New York terminus of the air mail route, ready for the start. The first "small plane" carrying 500 pounds of postal matter was scheduled to get away from Belmont park at 11:30 a. m. The first plane from Washington is due here at 2:30 p. m.

In the Washington-New York pouch were letters from Postmaster T. G. Fenton to President Wilson and Postmaster General Burleson. Another from Governor Wallcut to the president was the first cancelled in the local post-office. This letter will also be given to the Red Cross.

Southern smokers, desirous of sending mail on the first trip, swamped the New York post-office with letters. Only the first 500 pounds received was carried, however. The rest was sent to Washington by a special courier, by train.

AUSTRIA NOW MERES VASSAL

(Continued from Page 1.)

As long as the method of asexual reproduction keeps the Austro-Hungarians from revolting, the food situation in the dual monarchy, as well as the attitude of Vienna toward the German peace in the east will be under management of the Berlin military; and for the time being Emperor Karl must be regarded as doing more than a vicerey. This sacrifice made by the Hapsburgs, the proud ruling house in Europe, can have been accepted only as a last desperate expedient to save itself, perhaps even from the fate of the Romanoffs. The clearing of front is the most humiliating of Hapsburg pretensions because Karl had previously tried to make himself independent of the Kaiser's influence.

May Force Help

It is improbable that German control of Austria-Hungary will be exercised so as to compel Austro-Hungarian forces to fight along the west front, except, perhaps, as a final gamble with fate. The Germans realize that they now control Austro-Hungarian policies only because of the dangerous ferment proceeding among the antagonistic elements in Karl's two kingdoms. The growing hatred of the Germans is one of the most serious problems Germany must contend with in Austria-Hungary.

Revolution Yet Possible

Any slaughter of Austro-Hungarian troops for German purposes in Picardy and the Somme might be the final blow needed to cause a revolutionary outbreak. If German ruthlessness is used to restore order in Austria-Hungary, Russia's example of regnant anarchy may be followed by the Hapsburg domain.

JAMES GORDON BENNETT PERHAPS MOST PROMINENT FIGURE

(By United Press)

NEW YORK, May 15.—James Gordon Bennett, whose death took place in Paris May 14, was one of the best known figures in the newspaper world. He was born in New York, May 10, 1841, and was the son of James Gordon Bennett, Sr.

Educated abroad by private tutors, he returned to the United States in 1864. He assumed control of the New York Herald on the death of his father in 1872. Although residing in Paris, he actively controlled the Herald by cable. He published a Paris edition of the Herald and, for some time published a London edition.

At his own expense Bennett sent Henry M. Stanley to Africa to find Livingstone in 1874-75. He also fitted out the Jeannette polar expedition in 1879.

With John W. Mackay, he established the Commercial Cable company in 1883.

In 1886, Bennett won a yacht race from Sandy Hook to the Isle of Wight, with his yacht "Henrietta" and in 1890 he won a race from Queenstown to New York with his yacht "Dauntless."

AUSTRIANS OPEN FIRE ON SUPPLY DEPOT

(By United Press)

HARSHBURG, Pa., May 15.—Austrian shells had belted a column of bushes and first upon the United States aviation supply depot at Middletown. Soldiers made a detour and approaching from the rear, seized them.

The Austrian "army" was captured by a French maneuver of Maj. Sergeant Lewis Mohr, who went for reinforcements when he discovered that the enemy was in force. The slip of a bullet over an American soldier's head fired (ed Mohr) to investigate. The prisoners in the trenches, three American fighters, Mahler—were taken with all equipment, which consisted of revolvers.

AMERICANS IN PICARDY MAGNIFICENT FIGHTERS

ORDERS TO MARCH FOR GREATEST BATTLE THEY HAVE YET ENGAGED IN FINDS TROOPS FULL OF PEER AND ANXIOUS FOR CHANCE AT ENEMY—ENGAGEMENT OPENS IN MIDST OF DRIVING RAIN

By FRED S. FERGUSON (United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN THE FIELD, April 15.—A hunkier, better fit body of Americans probably never went into a fight than those who threw America's weight into the Picardy battle line.

Heredoin first by months of training and then seasoned by a long trial in the trenches, these American fighters were ready and "spitting" for some real action. Officers and men alike realized they were going up against a harder game than they had ever known, but they were anxious to try.

If America's first contribution in a fighting unit in the greatest battle of nations was to be a sacrifice, they were ready. But they thought only of success.

From the time the order came that brought them out of the trenches and sent them marching and riding over the roads to Picardy, to the time they went into the fight, their "pep" and fighting spirit increased. They swung along the muddy roads of Lorraine with a song. Ten first saw them dressed with the mud of the trenches, their britches torn by wire. Then they "broke

CHICAGO MARKETS
(By United Press)

CHICAGO, May 15.—Continued reports of favorable weather depressed opening prices on the Board of Trade here today, but futures showed strength later on strong buying support.

Provisions were slightly lower at the opening, following yesterday's big drop when the food administration ordered pork products should not be sold at prices higher than in May, 1917.

May corn opened late and 1-8 down at \$1.27 3/4, and subsequently rose 7-8c. May oats were off 3-8c at the opening, 74 3/8, later advancing 1 1/8c. June oats opened late at 72c, up 1-8c, and continued at that level. July oats opened 1-8c off at 66c, later advancing 1-8c.

MIDDLE WEST WILL PROFIT AFTER WAR

(By United Press)

ST. LOUIS, May 15.—The middle west will participate in an unprecedented volume of foreign trade after the war, according to Mr. Hanning, consulting engineer for the state of New York and authority on river terminals.

"The result of the war will be a great merchant marine," Hanning declared in addressing the Mississippi Valley Waterway association convention. "With a merchant marine the United States will make a strong bid for foreign trade and every factory will be pushed to the limit of production."

NEW YORK, May 15.—An army biplane carrying mail for Philadelphia and Washington got away from Belmont park shortly after 11:30 a. m. today, on the first flight in the New York-Philadelphia-Washington mail service today.

The plane carrying 185 pieces of mail for Philadelphia and 400 pieces for Washington, weighing in all 144 pounds, was driven by Flight Lieutenant Terry H. Webb, aged 25, of Gasline, Calif.

Webb, the son of Louis Webb, manager of the La Grange Electric company of Kennedy, Calif., is a graduate of Columbia university and joined the aviation corps at the declaration of war.

The big biplane was out of sight ten minutes after leaving the ground. The flight started at the place where the first international aviation meet opened eight years ago.

Many Guests Present

A crowd of invited guests gathered at Belmont park to witness the historical event. Among those who spoke were Postmaster Fenton of New York, Byron Newton, collector of the post and Alan Hawley, president of the Aero Club of America.

The entire proceedings were in charge of the signal corps of the army. When the airplane left the ground, it flew low, altitude and then turned southward, where it was enthusiastically cheered and applauded among the spectators.

Most of the crowd remained on the scene to welcome the mail which started here from Washington by airplane.

CASUALTY LIST

BIGGEST SO FAR

TOTAL OF ONE HUNDRED TWENTY NAMES IN TODAY'S DISPATCHES

(By United Press)

WASHINGTON, May 15.—Today's casualty list is one of the longest yet reported by General Pershing, containing a total of 120 names. Thirty-nine of the men are New England soldiers, making 19,000. The other casualties are: three killed in action; three dead from wounds, five from disease, one from accident, seven from other causes; six wounded severely and forty-eight wounded slightly and eight wounded in action.

The list of eight wounded in action as apart from the other wounded, was explained, was due to the fact that no information has been received as to the severity of the wounds of those eight.

When this information has been received the men will be properly classified, it was stated.

It is a common thing for a Chevrolet "Four-Ninety" to travel 25 miles on a gallon of gasoline.

There is no mystery as to why it should do better per gallon than other cars. The valve-in-head motor is a designed on a principle so simple that any man who has had a hammer in his hand knows it to be the right principle.

When you strike a nail squarely on the head, you get the full benefit of the force behind the blow. If you hit a nail at a glancing blow you dissipate much of its force.

In the Chevrolet valve-in-head motor the explosion occurs squarely on top of the piston head. The entire force of the explosion is delivered to the driving mechanism.

In other types of motors gasoline is exploded in a side chamber—the force or impulse must travel a short distance at an angle to reach the piston head. Thus it strikes a glancing and inefficient blow.

It is this difference in motors that makes possible low Chevrolet gasoline consumption.

It explains why people who have a respect for money select the Chevrolet entirely aside from the initial low price of the car.

Do you want the difference demonstrated? We will gladly do this.
