VOL. 1, NO. 33

TWIN FALLS, IDAHO, FRIDAY, MAY 17, 1918.

PRICES FIVE CENTS

ARTILLERY DUEL WITH NO LET-UP

Violent Cannonading Continued With Unabated Fury on Many Sections of Front--Unimportant Raids Constitute Only Sign of Infantry Action Along Entire Fighting Line.

ARTILLERY fighting continues to intensify the earlier operations on the west front. The French communique today reported violent cannonading in the Hallies sector in which one portion of the Americans on the front are fighting. Hallies is situated on the south bank of the Aves, where that river, which flows in a general northwesterly direction through Amiens, executes a sharp turn and flows due west.

LIBERTY ONLY OBJECT OF WAR SAYS GENERAL

NO THOUGHT OF ABOLISHING GERMANY AND NO INDEMNITY BUT RIGHTS MUST BE GUARDED.

GLASGOW, May 17.—"Americans are bringing about the thousands of the world's people," said a general, "and therefore there is no doubt about the result."

The enemy has a new incentive in driving toward Calais and Dunkirk, owing to their naval bases at Ostend and Zeebrugge being rendered useless by the British naval raids.

"The offensive, however, has been an advantage to us by bringing about the unity of command, for the realization of which Great Britain is indebted to France's Lloyd George. He is a real live man and rose to the crisis."

"We do not want to abolish Germany," he said, "we do not want any indemnity, we only want liberty, and we will stand for the rights of all nations and lasting peace."

"The U-boats cannot stop the American transports," said General Smuts, "although the German submarine policy was first undertaken in the belief that if it forced the United States into the war on the side of the allies it would also prevent American troops from reaching Europe."

EDWARDSVILLE, Ill., May 17.—Threatening letters, headed with a heart pierced by a dagger, have been received from alleged pro-Germans by defense council leaders connected with the trial of eleven men accused of lynching Robert Pranger, suspected German agent.

"The first chance we got, off going to the front," said a soldier, "will show you what the pro-Germans are up to," stated the letters.

FAMOUS AVIATOR KILLED HEMPSFORD, N. Y., May 17.—Captain Beal, the famous Italian aviator, was killed in an airplane fall here today.

Rescue was testing an American airplane and fell only 100 feet. The wings collapsed.

Captain Antonio Sylvia Rosenti was 35 years old. He gained fame in this country by piloting the giant Caproni triplane. One of his greatest feats was a flight over the Italian front, carrying ten passengers in the big machine.

HEAVY FIRE LOSS FORT DODGE, Iowa, May 17.—Fire originating in the boiler room of the Wacop Plaster company, destroyed the mill, blacksmith shop and two other buildings, with a loss of \$150,000, on Thursday night.

POTTER PALMER WILL FILED FOR PROBATE

CHICAGO, May 17.—The late Mr. Potter Palmer will, disposing of her personal estate valued at \$1,000,000 and her husband's estate, valued at \$1,000,000, was filed for probate here today.

The society queen divided Palmer's estate equally between their two sons. Of her own estate she left \$250,000 to various charities, \$100,000 to the Chicago art institute, \$100,000 to \$8000 to servants, annuities to her relatives, and \$100,000 each to her sons' wives.

VALUABLE PROPERTY DESTROYED BY FIRE

DUBUQUE, Iowa, May 17.—Two tons of coal, several carloads of tires and other valuable railroad property belonging to the Chicago, Milwaukee and St. Paul railway at Harper's Ferry was destroyed in a fire which burned throughout the night.

Fire apparatus from Dubuque and other Iowa towns went to the scene and aided in controlling the flames, which for a time threatened most of the town. The loss will be heavy.

TODAY'S CASUALTIES

WASHINGTON, May 17.—Today's casualty list contains 106 names, including fifteen killed in action; six died of wounds; four of disease; and four missing. The following were killed severely; six wounded slightly; and eight missing in action.

John M. Jennings, Belleplaine, Iowa, probably reported missing, is now reported killed in action.

FORMER RUSS PREMIER EXPECTED IN AMERICA

NEW YORK, May 17.—Reports that Alexander P. Kerensky, former Russian premier, would arrive in America soon, were widely circulated here today.

The statement originated at a meeting of Russian social-revolutionists at Cooper Union. When General Constantin M. Oliva, commander of Kiev district under the Kerensky regime, was asked about it, he said he understood Kerensky would reach here within two weeks. It was stated that Kerensky was coming on a Swedish steamer from Sweden, where he has been in hiding since the Bol-

shevik revolt. General Oborocheff has been in this country only a few weeks himself. He also came here from London. Kerensky's mission here was said to be a desire to oppose American aid to the Bolsheviks. The recent arrival at a Pacific port of the commander of the Russian revolution, General Kerensky, was reported that a Russian mission had in fact arrived on the Pacific coast for the purpose of joining Kerensky and accompanying him to Washington, where they would meet Ambassador Baklanoff, who represents the old Russian provisional government.

PHASE BY TRESOR IS RUN POLYON

NEW YORK, May 17.—Germany's system of warfare is based on the theory that the killing of four children out of five will induce the mother to implore her government to stop the war so the fifth may live. Henry P. Davison, of the Bad Room, declared here today.

"This policy of 'peace by terror,' he said, has resulted in the murder and maiming of thousands of women and children in France and Italy. Davison said this 'heathen policy' of Germany had not broken the people's spirit as the Teutons hoped.

"Efforts to terrorize the women, children and old men at home," he said, "will be made, he reported, but they are failing. Davison has just returned from an inspection of conditions in the war zones."

SACRIFICE IS KEYNOTE OF RED CROSS SPEECH

PRESIDENT WILSON TO TELL NEW YORKERS OF DEMANDS OF THE WAR WHICH FUTURE WILL BRING FORTH AND AMERICA'S EFFORTS TO FRUSTRATE TEUTON

By ROBERT J. BENDER (United Press Staff Correspondent) WASHINGTON, May 17.—America must prepare for further great sacrifices to meet the demands of a gigantic effort now assuming definite shape in the war department, to frustrate the Teuton designs on the world.

This will be the message of President Wilson tomorrow night when he opens the "Red Cross drive in New York."

With a serious situation facing all fronts as Germany punishes her allies on conquered peoples in Russia and the Balkans, America is preparing for a mighty stroke before the close of 1918. This greater participation demands greater sacrifice at home, the president will undoubtedly say at the same time, as he has previously assured the nation steadily for the last 10 months.

Some indication of the size of America's program may be found in the fact that the war department is outfitting the shipping board to increase its 1918 plans sixty per cent. Director General Schwab will make some changes in the personnel of the emergency fleet corporation immediately—and also the administration of the United States at the same time, to increase its 1918 plans sixty per cent. Director General Schwab will make some changes in the personnel of the emergency fleet corporation immediately—and also the administration of the United States at the same time, to increase its 1918 plans sixty per cent.

Only One Way to Peace A just peace appears possible now, according to Germany's determination to hold the devastated countries who has overrun. No great significance was placed on the peace discussion of Arthur J. Balfour in the House of Commons yesterday. It is pointed out that Balfour's statement that England would listen to any "serious" peace proposals of a belligerent was merely a reiteration of President Wilson's recent address in Baltimore. Balfour's utterance also squares with the expressed conviction of the president that thus far "no honorable offer has been made."

The president left Washington at ten o'clock for New York. He will confer with Colonel House late tonight on points to be covered in his expected discussion of international affairs tomorrow night.

AMERICAN TROOPS MOVED TO NORTH

SAYS AUSTRIA IS STILL FREE AGENT

HUNGARIAN PREMIER OUTLINES VIEWS ON OUTCOME OF ROYAL CONFERENCE

AMSTERDAM, May 17.—Premier Wekerle, responding to a query by Mr. Karolyi in the Hungarian house of deputies, declared that the new Austro-Hungarian alliance discussed by Kaiser Wilhelm and Emperor Karl does not affect the independence of Austria-Hungary, according to a dispatch from Budapest.

"The existing alliance was strongly anal and extended largely," Wekerle said. "The monarchs agreed to ask their respective governments to open negotiations to confirm this new agreement, but no treaty was signed."

"Certain military agreements were made, but we do not surrender our independence," Karolyi also questioned the premier regarding the emperor's letter to Prince Sixtus de Bourbon.

"I admit that the private letter, because it was twisted and forged, created a certain amount of uneasiness, especially in Germany," Wekerle replied. "But apart from its falsification, the letter gives no cause for uneasiness, and we can regard the matter as closed."

GREASERY OWNERSHIP NARROWING DOWN

PORTLAND, Ore., May 17.—Further paring of the control of the creamery industry of the Pacific slope was effected when the T. B. Townsend Creamery company of Portland was sold to A. H. Henningson. Henningson is said to have turned the better division over to the Mutual Creamery company of which he is a leading stockholder.

The Mutual Creamery company is said to own 14 creameries in the territory west of the Rockies and Henningson has other creamery holdings, which give the combination control of practically the entire trade.

IRISH APPEAL TO AMERICA FOR HELP

DUBLIN, May 17.—The Irish parliamentary party has adopted a resolution against conscription and has appealed to America to urge Great Britain to apply to Ireland the principle of self-determination set forth by President Wilson.

The president asks America to listen to statements from Irishmen and charges that Great Britain has been conducting propaganda in America to "blacken Ireland." It declares the British government has no intention to extend the reform just to deceive the British and American people.

IS NOT OPPOSED TO AIRPORT ENQUIRY

WITH PRESIDENT WILSON EN ROUTE TO NEW YORK, MAY 17.—President Wilson today authorized Secretary Tamm to deny emphatically that he is opposed to any investigation of the government's aircraft program.

He is, however, opposed to the "covert purpose" of the Chamberlain resolution, which he declared he "knows and understands."

FRENCH AND ENGLISH BACKED BY SAMMIES

Haig's Forces Strengthened by Arrival of United States Soldiers for use in Lower Flanders Sectors. Probably Sent Direct From English Training Camps.

WITH THE AMERICAN ARMY IN FRANCE—The Americans have arrived on the British front. The arrival of American troops in the area in northern France controlled by the British, places Pershing's forces in at least three and probably four sectors, in the western offensive front.

They have already been officially announced as brigaded with the French between Hallies and Hangard-en-Santerre and just west of Montdidier. Both of these sectors are southeast of Amiens.

The French and British lines are supposed to converge at Villers-Bretonneux, north of Hangard-en-Santerre, and just south of the Somme. William Philip Simms, in a dispatch from the British front several days ago, described the appearance of American troops marching into the battle lines, emphasizing their coolness and determination.

Probably no Semms While Simms was not permitted to mention the area occupied by these troops, it is presumed they were on the Somme front, somewhere north of Villers-Bretonneux.

The troops mentioned in today's dispatch from the American front probably are brigaded with the British as far north as Flanders. The policy pursued by both Foch and Pershing in maintaining a major degree of strength in the Lorraine sector was reported by American correspondent J. W. T. Mason, United Press war correspondent, at Amiens yesterday that announcement of the arrival of the Americans on the British front probably would show that the British were sent direct from the training camps in England.

In support of this theory is King George's review of an American regiment in London on Saturday. This regiment may well be included in the force just announced as having entered the British area.

Moves Gains Quickly It was on March 28, just one week after the start of the German drive, that Pershing visited Foch at the front and placed the entire American expeditionary force at the disposal of the generalissimo. Three days later the American force was reported moving from the Red sector to the Picardy front.

On April 10, Simms sent his dispatch announcing the first appearance of Americans on the British front, including infantry engineers and aviators.

PROTECTION AGAINST GERMAN AGGRESSION

BY RALPH H. TURNER (United Press Staff Correspondent) TOKYO, May 17.—Negotiations being conducted now between China and Japan are aimed only at military cooperation of the two nations for protection against German aggression in eastern Asia, Foreign Minister Goto said today in a memorandum presented to a committee of Japanese representing the interests of Chinese students in Tokio.

This statement of the foreign minister was the first intimation the Japanese public had that such negotiations are under way. A right censorship has been enforced during the past two months.

GERMAN BAIT REPUDIATED

PARIS, May 17.—Violent artillery fighting in the Hallies sector, southeast of Amiens, was reported by the (Continued on Page 8)

ITALIAN NAVY SINKS ENEMY TORPEDO BOAT

AIRPLANES BOMB AND SET FIRE TO GERMAN MILITARY WORKS IN LISSA AND DURAZZO. SAYS OFFICIAL REPORT FROM ROME

ROME, May 17.—Italian naval forces torpedoed and sank an enemy torpedo boat and steamer at Durazzo, on the eastern coast of the Adriatic, Sunday night, it was officially announced today.

Italian airplanes bombed and set fire to military works in Lissa and Durazzo, Tuesday. Lissa is on the island of that name, north of Durazzo.

It was on March 28, just one week after the start of the German drive, that Pershing visited Foch at the front and placed the entire American expeditionary force at the disposal of the generalissimo. Three days later the American force was reported moving from the Red sector to the Picardy front.

On April 10, Simms sent his dispatch announcing the first appearance of Americans on the British front, including infantry engineers and aviators.

NEGOTIATIONS BEING CONDUCTED NOW BETWEEN CHINA AND JAPAN ARE AIMED ONLY AT MILITARY COOPERATION OF THE TWO NATIONS FOR PROTECTION AGAINST GERMAN AGGRESSION IN EASTERN ASIA, FOREIGN MINISTER GOTO SAID TODAY IN A MEMORANDUM PRESENTED TO A COMMITTEE OF JAPANESE REPRESENTING THE INTERESTS OF CHINESE STUDENTS IN TOKIO.

This statement of the foreign minister was the first intimation the Japanese public had that such negotiations are under way. A right censorship has been enforced during the past two months.

PARIS, May 17.—Violent artillery fighting in the Hallies sector, southeast of Amiens, was reported by the (Continued on Page 8)

LEAVES FOR NEW YORK TO MEET KERENSKY

SAN FRANCISCO, May 17.—Madame Baranovsky, a relative of Alexander Kerensky, former premier of Russia's revolutionary government, declared today that she will leave for New York this afternoon in the expectation of meeting Kerensky at an Atlantic port "soon."

"I have no direct word from him," she said. "I merely have well-informed."

TRUSS KILLED BY TRAIN

BURLINGTON, Iowa, May 17.—Arsula Leusch, Kathleen Bosch and Opal Gustafson, all ten years old, are dead today as the result of an automobile accident three miles north of here, when a Back Island train struck the machine in which they were riding.

BIG NAVAL ACTION IS LOOKED FOR SHORTLY

WASHINGTON, May 17.—An allied naval offensive of sizeable proportions with Great Britain, the United States, France, Italy and probably Japan participating, was predicted in extensive naval quarters today.

These authorities declared that the British raids against the Ostend and Zeebrugge U-boat bases, followed by the successful Italian ally against Pola and Durazzo, are evident forerunners of further sea action. Simultaneous action by the Brit-

FOUR DETECTIVES SHOT BY ROBBERS

DETROIT, Mich., May 17.—Four Michigan Game Detectives were shot down—two killed and another severely fatally wounded—shortly before midnight in a battle between seven detectives and four auto thieves who were being pilfering their way in the Michigan Central yards. The bandits escaped.

The robbers surprised the detectives as they lay in ambush and immediately began firing.

MUST HAVE MORE STOCK CARS QUICK

INCREASE OF 40 PER CENT NUMBER NOW AVAILABLE IS ESSENTIAL TO PROPER HANDLING OF NATION'S FOOD SUPPLY

(By United Press.)

NEW YORK, May 17.—Increase of 40 per cent in the number of livestock cars is absolutely essential to the carrying out of any "win-the-war-with-food" program, W. R. Tagg, Omaha president of the National Livestock Exchange, told 200 members of the exchange in convention here.

"The government must have more stock cars built at once if the farmers are to be encouraged to increase livestock production," President Tagg said. "There is no use urging greater production if the producers are not to be enabled to move their stock."

Improvement of railroad service, and prevention of any "win-the-war-with-food" cases, are other reforms the stock man will ask of the railroad administration.

Prospects Excellent

Prospects for heavy production of meat in the west are excellent, delegates reported. Grass in the prairie states is in promising shape for summer grazing this year.

The convention, which will be in session today and Saturday will look upon any proposal for government price setting for livestock or meat with disfavor, officials of the exchange agreed.

President Hoover, who is scheduled to address the delegates today, but is not sure he can fill the engagement.

E. E. Russell, government hog specialist, will talk on necessity of increasing hog production.

WASHINGTON, May 17.—Both sides in the fight between the senate and President Wilson over the committee to create a committee on the conduct of the war were backing down and explaining yesterday.

The military affairs committee explained it never intended to interfere with the conduct of the war that it merely proposed to keep in closest touch with war department activities and to proffer whatever aid it could in preventing blunders and failures like the aircraft and ordnance fiascos.

The administration explained through spokesmen in the senate, that the president did not put the ban on investigation of aircraft production or war department activities in his letter of protest to Senator Martin Wednesday, that the president would not interfere with the proper functions of congress that he would wish congress to interfere with him, and that so far as he is concerned, the military affairs committee ought to be given whatever authority it needs to go into war department activities as long as the investigation does not reflect a lack of confidence.

These explanations, however, only increased the agitation, which bids fair to continue until the issue is fought out and settled on the senate floor.

GENERAL ASSEMBLY OF PRESBYTERIANS ON

(By United Press.)

COLUMBUS, Ohio, May 17.—For God and country, the 150th annual assembly of the Presbyterian church was opened in memorial hall.

Under the flag of America, Britain and France, backed by a khaki-clad soldier chorus, Dr. J. Wilbur Chapman, retiring moderator, opened the call for a reaffirmation of faith and the saving of humanity.

"Let us rank our devotion to Christ, in our loyal service, with our determination to win this war," he said. "For we must win if it costs our last dollar and if it calls for our last man. The fate of the world for decades to come is hanging in the balance."

Reaffirming his belief in eternal punishment in the hereafter, Dr. Chapman said:

"No ordinary punishment would do for a people who would permit children to be bayoneted, girls to be outraged, women's bodies to be mutilated and men to be beheaded."

Any of my friends wishing my services can see me at the Oxford Rooms every day from 7 to 9 p. m. Dr. Albertson, Chiropractor.—Adv.

LOSES WIFE BUT GETS PROPERTY

(By United Press.)

DETROIT, Mich., May 17.—A 75-year-old father was the winner in his "breach of promise" suit against his two youthful fiancées (sisters).

His "damages" were a \$7,000 piece of property which the court ordered returned to him. He had decided the property to his fiancées' father upon promise of a wedding which never happened.

Orville Sarton, the aged bachelor, was engaged to both Grace (21) and Cora (25) Sherwood at the same time.

Cora proposed to him, he said, he proposed to Grace. Once in possession of his property the sisters both gave Sarton his walking papers.

The Imperial Cement Company will give a high class musical at the L. D. Church May 20. Admission 50c and 25c.—Adv.

LADY ELCHO

Working for the same cause for which her husband gave his life on the battlefields of France, Lady Elcho is now serving as a nurse in Rutland, England. Lord Elcho, who was heir to his father, the seventh earl of Wemyss, was named among the dead in the British casualty list of May 2, 1918. Lady Elcho before her marriage was Lady Violet Catharine Manners. She is the second daughter of the eighth duke of Rutland.

LIVES WEEKS IN SHELL HOLE UNDER GUNFIRE

WHAT DISTINGUISHED SERVICE MERIT TO PRIVATE J. TAYLOR

By WEBB MILLER (United Press Staff Correspondent)

LONDON.—If you have been thinking that "distinguished service" on the battlefield means one grand dash and then a quiet room, an attentive nurse, and pleasant recuperation, consider the case of Private J. Taylor, whose valor is briefly recited in a late issue of the official "Gazette" to the London Gazette.

This official list of soldiers cited for decorations always carries a short description of the act of valor for which the citation is made.

These two paragraphs accompany announcement of the award to the distinguished conduct medal to Private Taylor:

"Having been cut off with his company, he received a bullet in the thigh causing a compound fracture. To avoid capture he crawled into a shellhole, where he remained for a period of over seven weeks, during the whole of which time the surrounding district was subjected to a severe bombardment by our artillery. He subsisted on tin of bully beef collected at night from dead bodies, and water which he obtained in a waterproof cask.

End to Feign Death "After some weeks three of the enemy visited his shell-hole, but by feigning death, he avoided capture and eventually succeeded in crawling back to our lines—a distance of some 900 yards."

In a hospital near London where he is recuperating Taylor diffidently amplified the story of his terrible experiences.

"It was during one of our attacks upon the Hindenburg line, he said, "We had gone over the top, two companies of us. We were met by a terrific enemy fire and the fellows were dropping like snipe. I was knocked out. It must have been a couple of days before I recovered consciousness. I found myself in a shell-hole, with another man who was wounded but could move freely. During the days and nights of the bombardment kept up, shells fell all around but none happened to drop in our shell-hole. At night Peters crept out and foraged among the dead for scraps of beef, iron ration and their water bottles. After two or three days it rained. We collected water in our casks.

Over Five Weeks "That sort of existence lasted for over five weeks. I was getting weaker and weaker. One night Peters crawled

ed out and did not come back. That left me without aid. Next night a party of Germans came into my shell-hole. One lifted my leg—luckily not the broken one or I'd have yelled—but they thought I was dead. I was covered with mud and looked like the other bodies covering the ground. During the next fortnight, I managed to live on the reserve beef Peters had collected. Then, feeling that nothing more could happen I resolved to try to get into our lines. It was a lucky night. First I crawled by mistake the right into a German line. They didn't hear me, so I turned back and inched along for an hour. Then I got into some barbed wire. I was a mass of cuts, blood and rags before I got through. Just then a Jerry light shot up. I saw a man peering over a trench. He was about to shoot when I shouted. Three of them came but dragged me into our own trenches.

Before the war Taylor was a factory hand. He is recovering rapidly and looking forward to his return to the trenches.

GIVE PREFERENCE TO RETURNING SOLDIERS

CONGRESSMAN SMITH INTRODUCES BILLS TO PROVIDE EMPLOYMENT

(Special to the News.)

WASHINGTON.—Congressman Addison T. Smith, of Idaho, has introduced a bill which provides a comprehensive plan of reclamation of the arid and swamp lands, and which will give preference right of employment on these projects, and of entry upon the land to honorably discharged soldiers and sailors.

Congressman Smith's bill provides for the formation of districts under state law containing arid or swamp lands, and the issuance thereon of bonds on such districts at a rate of interest which will be attractive to capital, and the principal and interest to be guaranteed by the federal government where the projects are constructed under the direction of the government.

With such a guaranteed, private capital could easily be obtained, and the work of reclamation could immediately be commenced. No appropriation would need to be made by congress, and the expense of reclamation would be charged against the land.

Congressman Smith has introduced a supplemental bill to be added as an amendment, which provides that returning soldiers shall be given preference employment on these great reclamation projects, and also be given the preference right of entry for one year, such entry to be made through an agent. This would enable returning soldiers to at once have selected for them an entry through the state or county defense council, or county officer, and have the opportunity of entering the land in person within one year. This consideration, which it is proposed to extend to the soldiers and sailors who are honorably discharged, will meet with popular approval by the people throughout the country, and will be but a poor recompense for the service which they have rendered. The most liberal legislation is being enacted in Canada, Australia, New Zealand and France to encourage the returning soldiers to enter upon the land in order to avoid the possibility of having an army of unemployed men who have been in the service of their country, without an opportunity of self support, and it is believed that our government should be as equally magnanimous to the returning soldiers as are the countries referred to.

CIRCUS DAY AT BOOTH'S

Specialty Glassy Trimmed Hats \$1.95 to 3.75

These are more than ordinary hats at these prices—and not cheaply constructed to sell at these prices—they are made up in our own workrooms with care—each one different and worth double the asked price. Perhaps you are not acquainted with our large millinery department, if not let this introduce you. Let us show you here as in our other departments that you cannot get better values or better service than here.

GET THE KIDDIES' NEW HAT HERE.

Very pretty hats for Children and girls are here.

BUSTER BROWN AT SAVING PRICES

Circus day will be a big day on children's shoes. If you would like pumps or Oxfords in patent, gun metal or kid or high shoes, you can save money here.

Extra large stock of Buster Brown Blue Ribbon Shoes at prices and styles that will surprise you.

Sizes 5 to 8 \$1.75 to \$2. 8 to 12 \$2 to 2.25 12 to 2 \$2.55 to 2.75

These prices are for either high or low styles. Pretty pumps at these prices come in one, two or three strap or you may like oxfords. Come and get your size at these prices.

BOOTH MERCANTILE COMPANY

"ANOTHER PACKAGE FROM BOOTH'S"

Tomorrow is the big day
soft—but Satisfying

*"A great net of mercy drawn through
an ocean of unspeakable pain"*

WE'LL WIN

What does it mean to you to know that your
American Red Cross:

Is supporting 50,000 French children.
Sends supplies to 3,428 French military hospitals.
Provides 2,000 French hospitals with surgical dressings.
Is operating thirty canteens at the front line.
Is operating six other canteens at French railway junctions, serving 30,000 French soldiers a day.
Operates a movable hospital in four units, accommodating 1,000 men.
Is operating a children's refuge in one part of the war zone; and in another a medical center, and travelling dispensary, both capable of accommodating more than 2,000 children.
Has opened a long chain of warehouses stocked with hospital supplies, food, soldiers' comforts, tobacco, blankets, etc., all the way from the seaboard to the Swiss frontier.
Has warehouse capacity for 100,000 tons.
Has 400 motor cars and operates 7 garages, making all repairs.
Had shipped 46 freight car loads of assorted supplies to Italy from France within two weeks after it began operating in the former country.
Had a battery of motor ambulances at the Piave front four days after the United States declared war on Austria.
Started a thousand different activities in Italy at the time that nation was in its most critical condition.
Has established 5 hospitals in England and operates a workshop for hospital supplies employing 2,000 women.
And that 120,000 cases of supplies have been received at the Paris headquarters of the American Red Cross from your various chapters scattered throughout the United States.

What does all this mean to you? And that is but a fraction of the work your Red Cross has done and is doing. It means that without this ceaseless, heroic work of the American Red Cross we could never win this war.

Without your Red Cross quick, vital help to keep Italy in the fight for Liberty would not have been possible.

Without your Red Cross thousands of French soldiers now gallantly fighting for you at the front would have died of wounds, exposure and lack of food.

And great and wonderful as has been the work of the American Red Cross in the past, still greater and more wonderful must it be in the future—for now *your* boy is in the fight.

Your Red Cross cannot neglect France, England, Italy, Serbia, Roumania and little Belgium. It must give them all constantly increasing help, for the men of these countries have been fighting our battles.

But now we must all redouble our efforts and sacrifices for our Red Cross because a million mothers' sons are going to carry the stars and stripes to the greatest victory God has ever given to men fighting for honor and liberty.

With the help of your Red Cross your boy will win.

ANOTHER TYPE OF SHACKLE

Government officials, after months of study and investigation, are urging consumers to fill their bins now as the only feasible means of averting a coal shortage next winter. There can be no adequate basis for doubt as to the soundness of the conclusions of these officials, nor hope for any brighter prospect should their advice be disregarded.

THE IRRECONCILABLES

(Contributed by Gertrude Altherton to the National Security League's campaign of Patriotism Through Education.) A few days ago an American whose loyalty has been undeviating from the beginning of the world war said to me: "If the Germans win I shall become an immediate convert to their Kultur, arguing that since they had won against such fearful odds, and with practically the whole world lined up against them, their theory of life and conduct must be right and ours wrong."

Life livable, to say nothing of the long setback they inflicted upon civilization, be exalted in history—which, by the way, has turned their name into a byword for irrevocable destruction. The incident would not be worth mentioning if it were not for the reflection that the American race worships success. For generations it has toiled to wealth, no matter how ill-gotten, and every man who achieves power, by whatever devious ways, is secretly envied and openly courted.

This is an abominable prospect but it is to be feared. Our world, over here, in the event of German domination, would be divided into two classes, mean converts and proud irreconcilables. or, even in this new and composite country, there are enough men and women with high ideals and insulate souls to despise a race without a gleam of spirituality, of sportsmanship, of decency and good manners, in whom cunning has taken the place of intelligence, and that was only by driving its millions of coked aborigines to mathematical slaughter.

I have not the faintest notion that the Germans will win. All the probabilities are against it. Moreover, if one projects his mind forward it is inconceivable that history can read that way. The general conditions of the world are not what they were in the fifth century—that is to say, unless the idea goes insistently that it was the destiny of the Germanic race to win and rule the earth; in other words, that it was the destiny of earth to revert to the fifth century, and begin over again. It is incredible that such a thought should take possession of any educated man's mind, but the trouble is that our famous (and offensive) cock-sureness is only a bluff.

MORE CARS NEEDED TO SHIP COAL

REVIEW OF FUEL SITUATION SHOWS ALL LIKELIHOOD OF ANOTHER SHORTAGE UNLESS IMMEDIATE STEPS ARE TAKEN TO CORRECT

(By United Press) NEW YORK, May 17—A car shortage is today holding up the nation's attempt to build a coal reserve against another serious shortage next winter. This was shown in a survey of coal producing centers by the United Press. Although announcement has been made by the railroad administration that American miners produced five million more tons of coal during the first four months of 1919 than in 1917, the consumption is far above normal, due to war work.

While production is about three per cent above normal it is not anywhere near capacity. The nation still faces a deficit of between two and three million tons from last year's reserve. Coal authorities in Washington estimate that the output should increase at least ten per cent to meet the increased demands of war work. On that basis the mine running seven per cent short of the necessary increase in production.

Laber Reported Short Potomac, Pa., was the only coal center reporting the car shortage improved. A 25 per cent shortage of labor was reported there. All mines there, however, are working, hollays included. As a result that section shows a 25 per cent increase in production over last year.

Ohio April reports state produced only 65 per cent of capacity. Four-fifths of the lost production there was blamed on car shortage. Despite this the April production was 10 per cent above that for April, 1917.

Indiana fields are operating at about sixty per cent of normal. Miners are working only three days a week. The car service which was normal in March has slumped to sixty per cent of the demand.

Edow Capacity Nearly all Illinois mines are working but 60 per cent of capacity. Here again car shortage is blamed for the low output. The state's production is estimated at a little less than last winter.

Meanwhile 23 per cent of the mine in the southwest district of Kansas, Missouri, Oklahoma, Arkansas and Texas are laying off. The output in this section is estimated about normal.

up under the direct example but will be ashamed to be reckoned as mere numbers, in the great mass of sheep or convicts. There is no such justifiable lowering of morale threatened as this, because it is not of German, Pacific, or Socialist origin. It is born of common human weakness and national snobbery. The result will be a vast mass of inertia, and only a party of sleepless Irreconcilables will combat and diminish it.

WASHINGTON GOSSIP

World of "Make-Believe" Affected by the War

WASHINGTON—There is an alley with a gutter down the middle and that opens into back yards. And, always, little children romp in and out to play. The other morning, after a night rain had washed the cobblestones and filled the gutter green up with fresh water and put gold-green leaves on the bushes, it seemed an extra nice alley to a woman who was making a short cut through it—but people do make such ridiculous mistakes. For it wasn't an alley at all. Three boys who were floating toy boats down the gutter interrupted her.

WATER TO RUN IN SALMON DITCHES

MANAGER PORTERFIELD ANNOUNCES PLAN FOR PRESENT SEASON

Water deliveries on the Salmon River project for the season of 1918 will begin on Wednesday, May 22, according to notice issued to the water-users by J. C. Porterfield, engineer and superintendent for the Salmon River Canal company. The first run probably will continue for three weeks. Deliveries will be made at any reasonable rate that may be requested, subject to the carrying capacity of the irrigation system, the engineer promises.

Rate of Allotment
The allotment for this season has been made on the basis of 15 inches per acre for each share on which maintenance has been paid in full, the water as delivered to be put to full and beneficial use. This allotment is based on an anticipated demand for water on 45,000 acres, and it is hoped that with favorable weather and a fair runoff from now until June 15, a slight increase may be made in the allotment.

As nearly as can be determined now, the second run will begin in the latter part of June, and will continue until each user has had his allotment and the head in the reservoir is so low that no further allotment or deliveries can be made.

LOOKS LARGELY

MILWAUKEE, Wis., May 16.—A Jack Dempsey-Fred Fulton fight here early in June was in sight today with the announcement that Fulton is ready to meet any heavyweight, Dempsey preferred.

IS ENTHUSIASTIC OVER TWIN FALLS

SEATTLE CAPITALIST PASSES COMPLIMENTS ON POSSIBILITIES AND DEVELOPMENT

Enthusiasm over the manifold possibilities and the present measure of development of the Twin Falls country is expressed by Thomas S. Lippe of Seattle, one of the most prominent men of the Pacific northwest, who is here on a business visit.

Mr. Lippe is a member of the Seattle port commission and is interested as a director in a plant for the production of fertilizer from the refuse of fish-packing plants. In this latter capacity he has made a special study of the component elements of soils and

in supplying the elements lacking in some soils.

Although the demands made upon him by his varied interests are great, Mr. Lippe has found time to devote to the work of the Y. M. C. A., and is prominently identified with all phases of war work. Thirty years ago he resigned from an executive office in the Y. M. C. A. to take up a gold-mining claim in Alaska. The story is told in Seattle that Mr. Lippe and his wife took turns in guarding this claim from "claim jumpers."

At the present time Mr. Lippe is the western director of the national Y. M. C. A. organization.

As a member of the financial committee of the Northern Life Insurance company, Mr. Lippe is here in company with S. J. Bice, an agent for the company, investigating certain interests of the company.

TAKE UP SUIT TO OUST SHERIFF OF MINIDOKA

RUPERT ATTORNEY ALLEGES OFFICIAL BREACHED DUTY IN ARRESTING HIM

(Special to The News.)

RUPERT.—The first case called in district court Monday was that of E. B. Dampier versus Hiram Thompson, sheriff of Minidoka county, in which the complainant alleges various causes of action and asks that the official be ousted from his office.

Dampier & Coddling and Homer C. Hill represented the complainant, and former District Judge J. E. Rothwell of Twin Falls and R. T. Lowe of Burley appeared for Thompson.

The complaint alleges seven causes of action, the first four relating to the arrests of W. E. Brown, Peter J. Holt and R. N. Lind on charges of disloyalty. The complaint alleges as further causes of action that on March 30, 1918, defendant pretended to arrest plaintiff (Dampier) upon a warrant charging a misdemeanor and willfully refused and neglected to perform the official duties of his office by refusing to wait until daylight, but made the arrest between 12 o'clock midnight and 1 a. m. That next day defendant again arrested Dampier and placed him in the county jail, notwithstanding the fact court was then in session and waiting for the case to be called, and that the plaintiff demanded to be taken before the magistrate and arraigned according to law.

The complaint asks that the defendant be ousted in the sum of \$500 and be summarily removed from office. Arguments upon demurrers took up the greater part of the morning, and hearing was then suspended to enable the court to hear arguments on an ap-

plication to appoint a special public prosecutor in the conspiracy cases.

Will Not Remove Prosecutor

Application was made Monday before District Judge Babcock for the appointment of a special prosecutor to take the place of W. W. Mattinson, prosecuting attorney for Minidoka county, in the case of alleged conspiracy in which 11 prominent business men and Minidoka county officials are charged with committing an assault upon the person of E. B. Dampier.

Voluntaneous affidavits were read, and Probate Judge Stanley was placed upon the stand and testified as to proceedings had in his court. Then W. W. Mattinson was questioned at length as to his animus, if any, for or against the parties in the case. Mr. Mattinson stated that he was perfectly willing to try the case and would give all hands even justice. After hearing all the evi-

dence in the matter Judge Babcock decided to let Mr. Mattinson have charge of the prosecution.

AIR RAID REPULSED

(By United Press.)

PARIS, May 16.—An attempted German air raid on Paris last night was repulsed after enemy planes had penetrated to the outskirts, it was officially announced today. The attack occurred about 10 o'clock. Only a few bombs were dropped.

WHAT CANDY IS

Candy is a good food, pure and wholesome. It is the universal food; it speaks all languages; it dries the tears in the eyes of little children, and wrinkles the faces of old age in smiles. It is the unspoken message of the lover to his sweetheart; one of the first tokens sent to the absent one; it brings joy to the home; it is the advance agent of happiness in every clime; it makes regular visits to the home, the church, the hospital, the prison, the battle field and trench. Its constant associates are love, joy peace, happiness, smiles and laughter. Can so much be said of any other food?

Father will yet realize what war means

SEES FULFILLMENT OF HIS GREATEST HOPE

(By United Press.) LONDON, May 17.—It has always been my dream that two great English-speaking nations should work together toward those ends of progress and civilization common to both of us. King George declared in receiving the American labor delegation at Buckingham palace yesterday afternoon. "The fate has decided that war shall fulfill the dream. "We have made common cause in the defense of freedom and justice. In the future days of peace, may we stand together. "Science is daily increasing the rapid transportation between us and facilitating and strengthening the ties of mutual feeling and fellowship and confidence, which please God, may forever unite us."

BORNE FROM AL G. BARNES CIRCUS

BIG JUNGLE HUNT UNDER CANVAS

UNIQUE FEATURE OPENS BARNES ANIMAL SHOW SENSATIONAL "Circus Day" is less than 24 hours off. Before daybreak tomorrow the Al G. Barnes circus train, 48 cars long, will arrive in Twin Falls and give two performances afternoon and evening. "Bigger and better than ever" is the way the great agent described the all-star wild animal show. He declared that the Barnes circus this year surpassed all others of former years, that many animals have been added and that the program consists of 103 spectacular, sensational thrilling acts. Spectacular... sensational features thrill the crowds. Horse-riding lions, wrestling lions, performing and posing elephants, high school dancing horses and hundreds of zebras, llamas, seals and other animals perform stunts that thrill and amaze.

thousands have been thrilled by this wonderful production, which is regarded as one of the sublime creations of the circus. It was in Nyaza that Col. Theodore Roosevelt hunted the tiger and the lion. He killed them, had their bodies stuffed and then presented them to the National Museum. But Al G. Barnes traveled the district of Nyaza, captured and tamed the wild ferocious tigers, lions and leopards and transported them to the United States. This is the first time that wild jungle beasts taken from the mountains and forests of Nyaza are being exhibited in this country. Other spectacular acts on the two-hour program are "Sampson," the aerial lion, who goes up in a balloon accompanied by his trainer, Miss Venus Fannon; Miss Marguerite Ricardo's group of human, a band of leopards presented by Miss Martha Florio and Clarence Crosby's varied assortment of bears, who do all kinds of difficult and amazing feats. The big parade, two miles long, being at 10:30 o'clock. Dens of tigers, leopards, pumas, bears and lions will be exhibited in their open cages, with over 1000 animals of all kinds; forming the greatest array of wild and domestic animals in the world will be in the procession.

BUY TRUCKS FOR ROAD WORK (Special to The News) PHILADELPHIA, Pa., May 17.—Paraphrasing President Wilson's "force to utmost," ex-President William Howard Taft, addressing the Win-the-war government-consumption here, declared that "victory with power" alone will insure permanent peace. The Hohenzollern dynasty and Prussian military hierarchy, with its might makes right doctrine, must go, Taft declared, adding that the Kaiser's continuance in power was a continued threat against integrity and safety of other nations. "Since 1914," Taft said, "no solution consistent with permanent peace has been possible, except through allied victory. The other trustworthiness of the Kaiser as a signatory to a treaty makes his continuance a threat to other nations. America is ready to do it through to the bitter end," the speaker declared, adding that "victory with power" must be our cry. Five million men in France; millions of supplies and armaments; millions of dollars of the national war effort, all for the purpose of converting all her potential strength into force was urged by Taft. "It will take two years—perhaps three—to fulfill our plans of preparation. We must face facts; realize what is before us. If we should discard unjustified optimism and set our feet storn and unbending for one purpose—war! war! war!" Taft concluded.

DEFEAT OF RESOLUTION IS ASSURED

SHOWDOWN ON CONGRESSIONAL INVESTIGATION OF CONDUCT OF WAR IS LIKELY TO RESULT IN FAILURE TO MAKE A CHANGE IN STATUS

(By United Press)

WASHINGTON, May 17.—President Wilson was a "compro-mised" victory today in his fight to prevent the senate military affairs committee investigating the conduct of the war.

An agreement was reached that the Chamberlain resolution is to go over until Monday. The military affairs committee is to be given funds to carry on an investigation of aircraft, ordnance and the quartermaster's department. It is not to interfere in any way with the conduct of the war. It is not to get broad powers to go into every phase of war department activity.

Just what executive form the department will take has not been definitely worked out. But the original Chamberlain resolution is dead.

Introspect entered today in the minority report of the committee on audit and control submitted by Senators Thompson, Kansas, and Jones, of New Mexico. The report written by Thompson embodies what President Wilson told him on two visits to the White House this week.

The president's letter to Senator Martin was construed by some as opposing any investigation and by others as not opposing an aircraft inquiry, but merely any probe that would go into the general conduct of the war as an embarrassing way.

The latter view was verified by information sent to the senate by an official who is extremely close to the president and who made his statement as to the president's attitude as strong as it could be made.

Following this Senator Thompson saw the president again and brought back word that the executive was another

BIG RIFLE CACHE WAS INTENDED FOR MEXICO

FEDERAL INVESTIGATION INTO OWNERSHIP AND ORIGIN OF LARGE CONSIGNMENT OF WAR MUNITIONS BRINGS OUT HIGHLY CONFLICTING THEORIES AS TO OWNERSHIP AND DISPOSITION

(By United Press)

NEW YORK, May 17.—Rifles and ammunition, believed to have been stored near New York by German interests, were brought here for exportation to Mexico, according to the theory of some investigators, it was learned today. Attorney General Lewis of New York is conducting an official inquiry. The arms were necessarily left near this city when the government shut down on shipments of munitions across the border.

The amounts of arms and ammunition, if located, will be found much smaller than at first supposed, it was stated. In the investigation now being conducted by the state's attorney general, direct connections between Germany and upland in Mexico border this country entered the war may be exposed, if clues now being followed develop as expected.

Looking for More
That there may be smaller arms caches in cities within a short distance of New York, was indicated when it was learned that a search is being made for such stores.

When the attorney general's probe

first started, it was widely reported that the arms constituted a huge arsenal which has been made ready for a German outbreak in this country. The investigation is not bearing this out, it was learned.

The munitions were not brought into the United States but were made in this country by factories controlled by German capital, according to the latest disclosures.

Sensational developments are expected before the attorney general's hearing is resumed next Wednesday.

Swindlers Had a Chance
Swindlers, who had a knowledge of the existence of German stores of munitions in this country, got responsible for the stories that the number of rifles and rounds of ammunition held near into the millions, according to authorities. They exaggerated the amount in effort to get purchasers on espionage lists, and without showing their wares.

The representations of these swindlers were held responsible for the agents of the present Russian government coming here for the purpose of closing a deal for the war materials.

ably opposed to any senate inquiry.

No Chance of Whitewash
Thompson's report it was learned will repeat the administration's view that Hughes' appointment ought to satisfy everybody that there will be no "white wash" for political reasons.

Other objections advanced to the Chamberlain resolution are that the appropriation of \$10,000 for expenses of the senate inquiry would exhaust the contingent fund.

It is unlikely that the fight on the resolution will occur until tomorrow. Meantime administration leaders are working at top speed, lining up votes. They already claim enough to defeat the resolution.

Senator Chamberlain said today he has made no effort to organize a fight for the resolution.

"If the senate defects it," said Chamberlain, "I will take that to mean that the senate does not want an investigation."

GERMAN TULIP BLOOMS ONLY IN TIME OF WAR

BOISE, Idaho, May 17.—Eighteen years ago Mrs. Doris Buchschel came to Boise from Germany. She brought with her a tulip bud, which she planted in her garden. It never bloomed until this spring. Now it is producing beautiful blossoms of red, white and blue.

PIONEER OF RUPERT CLAIMED BY DEATH

(Special to The News)
RUPERT—James E. Band, a pioneer of this city and a former judge of the district court, died at his home here on Monday, May 13, at the age of 53 years. Although he had been for some time a sufferer from tuberculosis, his death came as a great shock to his many friends. He leaves to mourn his loss his widow, two sons and one daughter, also a sister, Mrs. Daisy Thomas, of Twin Falls.

Deaths

Mrs. Katie Boehm
Mrs. Katie Boehm, aged 56 years, wife of William Boehm, died at her home on the Kimberly road at 8:40 o'clock Thursday evening after a lingering illness. Funeral services, conducted by Rev. John Gehring, pastor of the Twin Falls Lutheran church, will be held at 4 o'clock Saturday afternoon at the Grady chapel.

Twin Falls. The daughters are Mrs. Mary Burton, Hood River, Oregon; Mrs. C. E. Goodright, Mrs. N. V. Nelson, Mrs. Carl Nelson and Miss Emma Boehm of Twin Falls.
Mrs. Boehm was born November 25, 1861, in Illinois. In that state in 1890 she was united in marriage to Mr. Boehm. The family has resided in Twin Falls for nine years past, coming here from Colorado.

Dispenser of Happiness
If there is happiness in contributing to the happiness of others, the letter carrier ought to be one of the happiest men on earth.—Washington Star.

GUNS ARE ACTIVE IN MONTDIDIER REGION

WITH THE AMERICANS IN PICARDY, May 17.—The aerial activity of yesterday brought a resumption of heavy artillery fighting.

The enemy hurled high explosives along the villages and roads in the Montdidier region last night and today. American guns responded, concentrating their fire upon Castigny, Fontaine-Sous-Montdidier and the roads in the vicinity.

Now both dugouts were located and blown up. At least two enemy batteries were also destroyed. There are indications that the enemy has been forced to withdraw several light batteries farther to the rear.

Slightly enemy divisions (500,000 men) have been reposing for two weeks now, ready to be hurled forward in a resumption of the German offensive.

The American artillery yesterday laid down a heavy counter barrage, frustrating an attempted enemy raid.

ONLY ONE TORPEDO

PARIS, May 17.—There was only one case of torpedoing in waters where American warships are operating, during February, compared with thirty-four in October, and in April there were none. Admiral Wilson declared today in a news interview published in the Matin.

HEAVY BOMBARDMENTS NIGHTLY

WITH THE BRITISH ARMIES IN FRANCE, May 17.—German artillery fire was concentrated on the front lines and approaches east of Hinges and Paucot wood at 3 o'clock this morning. The British positions were fairly heavily dosed, but there was no infantry action, as the British guns damaged home a few rounds and cooled any ardor the enemy might have had for attack.

There was some gas shelling in the Givency, Vimy and Avon regions. The weather is unusually calm and the brilliant sunshine gets out the aviators in swarms. Aerial combats continue almost incessantly. Heavy bombardments are indulged in slightly by both sides.

BOLESHVITS ACTIVE AMSTERDAM

AMSTERDAM, May 17.—Bolshevik forces are reported to have captured Baku, the center of the greatest of producing district in the world, accord-
