# IS SKEPTICAL OF ENGLAND'S GOOD FAITH

**JOHN DILLON, CHAIRMAN UNITED IRISH LEAGUE, DOES NOT BELIEVE PARLIAMENT WILL OFFER HOME RULE TO IRISH PEOPLE**

(By United Press) DUBLIN, May 22.—John Dillon, the chairman of the United Irish League, issued a statement today declaring that the nationalist members who have absented themselves from the British parliament for some time will return. "It has never been our intention to absent ourselves permanently," Dillon said. "I can't say however, just when we will return. Ireland has been thrown into confusion by the futile and mischievous proceedings of the government. To desert parliament would be an adoption of the Sinn Fein's tactics."

**Cannot Believe It**  
The Sinn Fein members of the parliament will offer home rule. I can't understand what game the government is playing. I am neither in the councils of the government nor the Sinn Feiners.  
The manifesto issued by the anti-conscription conference, which was the Magnan House, denouncing the Sinn Fein arrests as an attempt to discredit and disrupt Ireland's united resistance to conscription and to offend Irish sentiment in the eyes of friendly countries is regarded as significant in that it clearly shows the underlying hostility and angry suspicion against Anglo-American governmental action.

**To Stick to Sinn Fein**  
This agitation is widening and deepening the chasm between England and Ireland and has shattered any hope that Dillon and the other nationalist members will accept the government's offer of home rule. They seem resolved to stick with the Sinn Fein through thick and thin in the main objective of resistance to conscription.  
The conference was significant in that the government's promise of immediate publication of part of the manifesto against the Sinn Feiners.

## NEW COMPROMISE IS BELIEVED IN SIGHT

(By United Press) WASHINGTON, May 22.—Senator Thompson, Kansas, announced today a new compromise had practically been agreed on between administration forces and the supporters of a Senate aircraft inquiry. ## INVITE CHURCHES TO CONFER UPON ORGANIC UNION

**PRESBYTERIAN GENERAL ASSEMBLY TAKES MOST IMPORTANT STEP SO FAR.**

(By United Press) COLUMBIUS, Ohio, May 22.—Declaring that the time has come for organization of the synagoga churches of America, the Presbyterian general assembly here in session took the most advanced step in that direction yesterday by authorizing and calling upon the other churches of the nation to join in an immediate conference looking to that end.  
The resolution to this effect, submitted by the committee on overtures through its chairman, Dr. J. Wilbur Chapman, was unanimously passed amid cheers by the assembly delegates.  
The moderator was directed to send messages to the four churches now in session in the United States requesting them to name an ecclesiastical committee to meet in conference and formulate plans for union.

The report declares for war prohibition "now."

## WOODMEN INVADE TWIN FALLS TODAY

**SCORES OF WIKING LODGE MEN AND WOMEN HERE FOR "LOG-ROLLING" OCCASION.**

Modern Woodmen and Royal Neighbors representing every camp and its auxiliary in the southeastern Idaho jurisdiction of the order are expected here tomorrow on the occasion of the "logrolling," for which the local camp and auxiliaries have been making large preparations for several weeks past. Both the Moose hall and Masonic temple are to be opened to the Woodmen and Royal Neighbors on this occasion, and arrangements are being made to serve dinner and refreshments for 500 persons in the Herriott building at corner of Second street and Second avenue west. In one hall the initiatory degree will be conferred upon a large class of candidates for membership, and in the other an entertainment is to be given.  
The local camp has a membership of about 400, and the Royal Neighbors of Twin Falls number about 200.  
W. H. Tyler of Boise, state deputy leader of camp, and National Lecturer Eltis are officials, the order whose attendance is expected.

## ALL PENROSE MEN ARE SUCCESSFUL

(By United Press) PHILADELPHIA, Pa., May 22.—Returns today from yesterday's Pennsylvania primaries indicated the nomination of William C. Sproul as Republican candidate for governor and Edward E. Baldwin as lieutenant governor.  
Eugene G. Bonnell of Philadelphia, with 4,908 majority in this city over Joseph F. Duffey, believed to be the Democrats' successful gubernatorial candidate, J. Washington Logan, former lieutenant governor on the Democratic ticket, defeated Howard O. Holstein by 3,346.  
The entire Pennsylvania legislature, man-at-large apparently swept the state. Philadelphia's 140,854 majority in behalf of Sproul approximates his statewide lead over J. Dancy O'Neil his opponent.

## IRISH PLOTS IN AMERICA KNOWN FOR LONG TIME

**UNITED STATES GOVERNMENT FOR WEEKS OF PRO-GERMAN LOUSION WITH SINN FEINERS HERE.**

(By United Press) WASHINGTON, May 22.—Evidence of plotting between pro-Germans and Irish leaders in this country, with Sinn Feiners of the British empire, has been in the hands of the United States government for many weeks.  
A card index of these leaders here, together with much correspondence showing plots to ship arms to Ireland to aid in revolt against England, was obtained, and much information furnished to the British authorities.  
A letter said to have been written by John Devoy, New York Irish leader, carried recently by the United Press, showed financial arrangements between Germany and Irish leaders in America.  
**New York Headquarters**  
The central office of the activity was in New York with principals operating in many large cities, raising funds and cooperating in propaganda work.  
The apprehension of Sir Roger Casement marked the close of the first chapter in the proposed plot, according to reports received in the hands of the government, that they would work on to accomplish a later revolt. Their movements have been continuously watched.  
While the state department has not revealed the details of the evidence at hand, much of it has been revealed from time to time, and more of it may be made public soon.

## TRENCH RAIDING IS QUITE SUCCESSFUL

(By United Press) LONDON, May 22.—Successful British raids in various sectors and German artillery fire south of Albert and in the western and southern portions on the Flanders front were reported by Field Marshal Haig today.  
"Successful raids were carried out last night in different parts of the front," the statement said.  
"The enemy's artillery was active in the neighborhood of Ypres throughout the night and a half south of Albert and in the Nispepe forest (on the western portion of the Flanders front)."  
"Northeast of Bethune (on the southern position of the Flanders front) the enemy heavily bombarded us with gas shells."  
"Our raiders captured fourteen prisoners and a machine gun southeast of Arras."  
"Other prisoners were taken in the neighborhood of Nispepe forest in the Western sector and south of the Ypres-Cambrin canal."  
"Hostile raiders were repulsed north of Albert last night."

## GERMANY LIKELY TO ACCEDE TO REQUEST

(By United Press) WASHINGTON, May 22.—State department officials were confident today that Germany will accede favorably to the American request for an open American-German conference at Berne on the prisoner question.  
This confidence was inspired by the fact that such conferences have already been held between Germany and England, France and Italy, the latter conference being only recently completed.  
The department decided it was best to be frank in announcing its request, lest the session get under way and be distorted in Swiss accounts as a "secret peace meeting."

## MAKES LITTLE CHANGE IN ROAD OPERATIONS

(By United Press) CHICAGO, May 22.—Railroad presidents in Chicago today foresaw little change in operations as the result of Director General McAdoo's order replacing them with federal directors answering to the government.  
"I have no idea that this is a step toward permanent government ownership," said President H. E. Byram of St. Paul, "but merely something Mr. McAdoo thinks best for the present."  
Excepting E. H. Riedel of the Santa Fe and James E. Gomez of the Rock Island, the order supplied railway heads here. Gomez "heartily" approved.

## TO BEAT GERMANY WITH GOLD CASH

**AMERICA MAY BUY RUSSIA SUPPLIES TO HAVE THEM FROM HUN**

(By United Press) WASHINGTON, May 22.—The state department has under consideration a definite plan of aid for Russia.  
It became known today that this contemplates a form of financial assistance which, while helping Russia to struggle back to a place in the sun, would also foil Germany's grasping ambitions.  
The department plan is to furnish a vast quantity of money wherewith to buy supplies in Russia, including cotton, oil, and other commodities much desired by Germany. Germany will not step into the breach, according to proponents of the measure.  
With the money which America would pay for these supplies, Russia would have an opportunity to do much toward rehabilitation, it is urged.  
The plan has been given very careful consideration but has not yet been approved by secretary Lansing. However, there is a possibility that with some modifications, it will be put into effect.

## TURN OUT SHIPS NOW FASTER THAN HUNS CAN HINK

(By United Press) DETROIT, Mich., May 22.—"More ships are being built in the United States than Germany can possibly sink," said Charles M. Schwab, director general of government shipbuilding, said here today.  
"The great lake district yards will build 20,000 more dead-weight ship tonnage in the fiscal year beginning July 1 than was built in the entire country during the fiscal year ending June 30, 1917."

## HOLLAND NOT WILLING TO SEND MORE SHIPS FOR WHEAT CARGOES

(By United Press) WASHINGTON, May 22.—Answering the American reply to the Dutch ship charter, Holland has informed the state department that she regards as insufficient the explanations made by the government.  
The instructions that the latter further correspondence to clear up the misunderstanding between the two governments over the requisitioning of the Dutch ships.

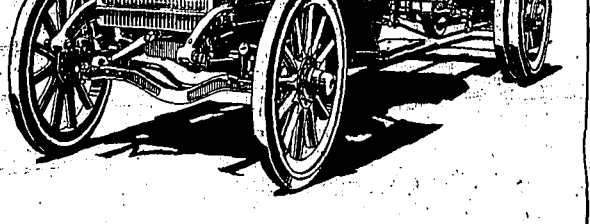

## HAIL IS H

When your crop is devastated and you did not carry hail insurance, what would you do about these obligations you have to meet if your crops were wiped out by hail?  
You never before had so much invested in your crop and you never had such urgent demands on you for money. Where would it come from if your wheat failed? Such a loss this year would mean financial ruin to many.  
You can not afford to take the chance. Think it over and then come in and insure your wheat, beans, etc. before it is too late.  
Landed or tenant can turn a share of crop and pay insurance only on the part insured.

# RUSSIA IS BAIT NOW HELD OUT TO PEOPLE

## GERMAN LEADERS PROMISE REMARKABLE EXPLOITATION OF AUSTRIA AND OTHER COUNTRIES NOW UNDER HUN DOMINATION AS MEANS OF 'DISTRACTING' ATTENTION FROM FAILURE OF WESTERN OFFENSIVE.

By J. W. T. MASON  
(United Press War Expert)

NEW YORK, May 22.—Continued hesitation to resume the offensive in Pomerania and Flanders by Von Hindenburg is being met by the increasing disadvantage of the Germans, and suggests the existence of divided opinions at the kaiser's headquarters.

There are indications that reorganization of Germany's shattered divisions along the west-front, sufficient for a renewal of offensive tactics was completed sometime ago. Nevertheless, Von Hindenburg has postponed from day to day his apparent desire to try once more to reach the channel ports. During this period of indecision, the allies have been given time to bring up reinforcements and an opportunity has been presented for American troops in increasing numbers to enter the trenches and familiarize themselves with local conditions. Furthermore, General Foch has been able to direct limited offensives, at which he is amazingly adept, and thereby to improve considerably the allies' defensive positions.

### Must Continue Offensive.

The German military mind works so regularly along the line of continued persistence that the present long drawn pause in the west front operations must be due to unusual conditions. It is two months today since Von Hindenburg's offensive began. The appalling losses suffered since that time are not likely to have induced him to desert from his further pursuit of their central objectives. The promise of victory was too grandly and prominently announced last March for an abandonment to be accepted by Von Hindenburg.

burg and Ludendorff after only two months' fighting.

But, the slaughter of German manhood is very likely to have exercised a profound influence upon the statesmen of the central empire. They are in closer touch with public opinion than are the military leaders, and public opinion in Germany and Austria-Hungary is increasingly restless, as time has proved for a dispassionate review of the results of the west front gains compared with the appalling casualties.

It is highly significant that, simultaneously with the halt in the west front operations the German government should begin to direct the attention of the German people to the Teutonic successes in Russia. Reports of four German kings for Russia's western provinces are being circulated, and the creation of vassal relations toward Germany by Ukraine and Finland is suggested by the Berlin overture. Even Austria-Hungary's future subordination to the Habsburgs is intimated by the kaiser's statements.

These antics and others of a similar intent, are subsequently being performed by the German people to the German people from the west front failure. It is apparent that, though Von Hindenburg may be anxious to continue his policy of slaughter, there are others in Germany who desire to take no further risks in the west. These opponents of Von Hindenburg are apparently trying to placate the German people for the kaiser's failure to reach Calais by promising future exploitation of Russia and Austria-Hungary. If the Germans respond to the lure, it may be that Von Hindenburg will be compelled to abandon his bloody strategy in Flanders and Pomerania.

## EMBARGO HELD UP BIG STORES OF GERMAN OWNED MUNITIONS

(By United Press)

NEW YORK, May 22.—More than forty witnesses were on hand when the investigation of the attorney general's office against the large quantities of German-owned rifles and ammunition near this city was resumed today. The investigation is being conducted by Deputy Attorney General Becker and agents of the department of justice, and is being continued for several days. It was adjourned one week ago, it was said, for the purpose of running down "new and important clues."

### Caught in Embargo

Large stores of rifles and ammunition manufactured in America by German-controlled munition factories and intended for sale in the United States in Mexico were caught in this country when an embargo was placed on export shipments, according to testimony so far brought out.

These arms were at various times offered for sale and were reportedly for sale agents of the present Buzsagi government coming here to make a purchase, according to witnesses.

The owners are believed to have been successful in shipping some of the stores to Cuba or South America, according to an official speaking here, but the investigation was resumed today.

"A great net of mercy drawn through an ocean of unspeakable pain"

# The Greatest Mother in the World

STRETCHING forth her hands to all in need; to Jew or Gentile, black or white; knowing no favorite, yet favoring all.

Ready and eager to comfort at a time when comfort is most needed. Helping the little home that's crushed beneath an iron hand, by showing mercy in a healthy, human way; re-building it, in fact, with stone on stone; replenishing empty bins and empty cupboards; bringing warmth to hearts and hearths too long neglected.

Seeing all things with a mother's seventh sense that's blind to jealousy and meanness; seeing men in their true light as naughty children—snatching, biting, bitter—but with a hidden side that's quickest touched by mercy.

Reaching out her hands across the sea to No Man's Land to cheer with warmer comforts thousands who must stand and wait in stetched and crawling holes and watersoaked entrenchments where cold and wet bite deeper, so they write, than Boche steel or lead.

She's warming thousands, feeding thousands, healing thousands from her store; the Greatest Mother in the World—the Red Cross.

Your help is needed—give till the heart says stop.

# Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country. It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities it is serving as America's advance guard—and the helping to win the war.

Congress authorized it. President Wilson heads it. The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it. Twenty-two million Americans have joined it.

HUNS USE ROSARY FOR DEATH TRAP

By RICHARD PATRICK McGUIRE
Author of 'The Great Push'

(Written for the United Press.)
LONDON.—"Dirty dogs, they are, and they never will change. It's in their blood to be foul and dirty."

The talk in the cafe dealt with the Germans and their methods of warfare, and the men who were in the cafe at that moment had just come back from the front line. While they were there, their cultured enemy had turned a machine gun on two British stretcher-bearers who had gone out into No. 5 man's land to carry in a wounded German soldier. They had placed him on the stretcher and were making their way back to the home trench when the machine gun was turned on them, killing the two men as well as the hapless man whom they were carrying to safety.

back, and as there was a long narrow branch blocking the entrance to the door, he pulled it aside to have a peep in.
Branch was tripping.
"I had just got away about a hundred yards when I heard a bang, and I looked back to see the remains of that dugout in the air. It was the damned branch that caused the explosion, and the man who looked in was killed."

"I saw another fellow dead in one of the houses at the corner of a village. He had a book from the table of the front room, and in some manner sent the table and the soldier up to the roof. And in that same house I saw a bucket of coal mixed with high explosives, and even his very store was charged to blow it up if it fell into it. Even the chairs would explode if you sat on one of them.
"If you saw objects lying about you took no notice of them. Spades, shovels, helmets and souvenirs that were apparently flung away, and almost everything else was under traps. I saw a young boy, a rookie, I suppose, going up to a shrine by the roadside with the intention of taking a rosary from the neck of the wooden statue of the Blessed Virgin.
" 'Don't touch that!' I yelled at him.
" 'What the devil has it got to do with you?' He roared back at me.
" 'Everything!' I called to him.
" 'And if you put your hand on it, I'll put a bullet through your head.'
" 'I took aim at him as if with the intention of firing, and he got a bit frightened. Anyway he came back from the shrine.
" 'Test Disclosures: Trap.
" 'I went up and had a look at the shrine. Round the neck of the Virgin the rosary beads were placed, with a cross hanging to the end of them. I looked at the back, and there I saw that the beads were tied round a little pin which was stuck in the woodwork. We tested it, by tying a long string to the rosary and getting back twenty yards into a trench and pulling the string. The whole shrine was blown to pieces, for the tugging at the beads had detonated a charge and caused an explosion.
" He passed.
" 'They're more honest than men,' said one of the lieutenants.
" 'They're devils from hell,' said another.
" 'They're all that,' said the old soldier. 'But they can't help it. It's in their blood to be foul and dirty.'"

Compare Your Baby's First Four Years With This

In 1918 little Marie was born in a village not far from Metzera, in the Ardennes.
In 1914 Marie's father, called to the colors, fell at the Marne. And Marie and her mother stayed in the village, which was now in the Germans' hands.

In 1915 a poster was pasted up on the door of the village church, and that night Marie's mother vanished, along with a score or more of other women.

In 1916 Marie was still living in that village—existing through the charity of the few elderly folk the Germans permitted to stay.

In 1917 Marie, with all the children under fourteen years and all the old people still alive in the village, was herded into a crowded car and shipped into Germany, round through Switzerland and thence into France, arriving at Erlan. She was underfed, of course, emaciated, sickly, dirty, too highly dressed for the time of year, and she came into Erlan with not a relative, not a friend left in all France to take care of her.

You took her? Your Red Cross!
Over there in Erlan your Red Cross took charge of her, cared for her in the Home for Children's Hospital, clothed her, fed her, built up her strength, taught her to play—and then helped the French authorities find her a HOME.

Multiple Marie by 600 and you will have some idea of just one day's work your Red Cross does at Erlan. It is only one of the Red Cross activities in France, to be sure—but for just that one alone can you help bring proud of it. Can you help being glad you are a member of it, supporting the work of humanity? Can you help wanting it to go on helping the Maries and the "grand-daddies" that come in at Erlan?

THE TRAIN THAT SAVED A NATION

How the Red Cross Helped Roumania

Have you heard of what happened in Roumania when that stricken nation stood in rags and starving before the shocked eyes of the world? We had thought ourselves grown up to tragedies until this greater horror struck a blow that roused still unsoftened sympathies.
And yet we felt so helpless, you and I, so terribly weak in our ability to offer aid. But were we after all, were we not the very ones who carried new life and hope to the heart of Roumania? You shall be your own judge.

Fighting with the desperation of despair, the shattered Roumanian army struggled to beat off the Kaiser's bloody Hun, who was mercilessly trampling the life out of the little kingdom. And the Kaiser smiled broadly as he saw his wolves at work and knew that from behind-the-scenes, the fighting men of Roumania were from the rear, sustaining the home front where mothers clung to the frail, distorted forms of their babies—was starvation.

My country around Roumania could help—and America was to leap forward. Thousands would die before supplies held in our own country could be sent her.

Hope was gone. Death by hunger and by the dripping sword of the Kaiser was closing in. A brave little nation was being torn to pieces.
Then came the miracle. One morning the streets of Jassy, the new capital of Roumania, swelled with sounds of rejoicing. A tiny, frail, feeble force there was heard nothing but the wails of the starving and the lamentations of those mourning their dead now was awakened by shouts of joy.
You may fancy you have helped in the heroic work of the American Red Cross, had gone to the rescue of Roumania. A train of 81 big freight cars packed to their utmost capacity with food, clothing and medicine, tons upon tons of it, had arrived in Jassy after making a record-breaking trip from the great storehouses of the American Red Cross in Russia. Other trains followed it; thousands were fed, clothed and nursed back to health. For weeks and even to this day the brave people of Roumania are being cared for in countless numbers by our own Red Cross.

History records how this last fragment of a study journal was kept out of the hands of the terrible Hun. It will give the victory to your American Red Cross.

HEARD and SEEN at the CAPITAL

"Wanted, Live Press Agent; Apply Mother Nature"

WASHINGTON.—Nature needs a press agent. If you were among the throng that witnessed the recent display of the aurora borealis, you will agree with me that a little advance publicity for old Mother Nature would result in larger audiences for some of her most choice displays.
Those who missed the "northern lights" have been kicking themselves because they didn't have the opportunity to look out the back window and see something worth looking at.

But how were you to know any thing about the aurora borealis before the way? Nature needed a press agent, that was all.
And how an earthquake!

Missing the aurora borealis was bad enough, but to miss an earthquake that shakes beneath your very feet is too much. When you failed to look out the window that night, it was very your fault, of course—how in the thunder were you to know the aurora borealis was out there, anyway?

But that earthquake! If you were so absorbed in a book that you failed to feel the house quiver, it was your fault, and not for failing to note the earthquake.
When you went downtown the next morning there was Henry Jones with the story.

"Did you feel the earthquake?" he asked.
" 'What earthquake?' you asked.
" 'He looked at you with pity.
" 'Where were you, anyway?'
" You confessed to home.
" 'And you didn't feel that quaker?'
" 'No.'
" 'Why, I shook our house and rattled all the dishes in the pantry—didn't you hear the dishes rattling in your pantry?'
" You had to admit that if your dishes rattled you failed to detect it.
" And Henry Jones went away looking as if he felt sure the fault lay with you and not your dishes.
" Yes, decidedly, Nature needs a press agent.

WHO IS WHO NOW

SAYS GERMAN LACKS HUMOR

John Galworthy, the famous Erie novelist, who has written a great deal of the great war, thinks the most set German fault is lack of humor. He has this to say on the subject:
"The German of today has pathos, humor, no power of self-criticism. This is a terrible mental defect, whether emanating from the individual or from living under a despotic bureaucracy organized as a state despotism."
Galworthy believes the allies will triumph through their sentiment and sense of humor. "There is in the back of the German's mind, Frenchman and Englishman, a subtle feeling of respect for the individual liberty and for the democratic forms of government which alone permit of honest public humor and self-criticism to be patriotism sober. The inspiration of an ideal that far transcends the idea of glory to our individual countries has made this the most terrible of all wars yet waged. The Germans will be chiefly through their disability to criticize themselves.
" John Galworthy has devoted himself to war work and has been in French hospitals, back of the firing line.

It is a question if the parents of these youthful offenders can say so much. The matter is far more serious than appears at first sight. A lifetime of habit may be acquired through the boyish pranks of immature days. And the boy who steals for fun as a boy may develop all too readily into the man who steals for a living in later years. No man wants a thief for a son, yet the man raising a thief by this particular method has surely no one but himself to blame.

STORIES OF AMERICAN HEROES

Siberian Timber Wolf Imagines He's Chow Dog

PORT WASHINGTON, L. I. N. Y.—"Skoy" is a full-blooded timber wolf belonging to Addison Mizer, but he doesn't know it and settles himself to be a pet dog and is fully as tame and playful as the chow dogs which are the pet of the Mizer establishment.

Skoy was born in the Bronx two years ago. His mother was a full-blooded Siberian wolf, that had been given to the zoo by Prince Paul of Greece. One of the keepers of the zoo, before the officials presented him one of her whelps and the generous Russian in turn presented him to Raymond Hitchcock, the comedian. It is how "Skoy" got his name, as a result of the Russian name of the whelp.

The baby wolf was three weeks old when he came to live at the Hitchcock home at Great Neck. However, a trip abroad necessitated making other arrangements, and Hitchcock prevailed upon Addison Mizer to bring him along at his kennels at Port Washington. So Skoy was turned loose among a lot of chows and has grown up exactly like a dog. Not only has he become a great pet, but he has copied all the familiar dog tricks. He demands as much petting and attention as any of the dogs on the place, and up to date there is not a single black mark against his character or conduct.

To be sure, some of the mothers in Port Washington have complained that Mizer that it does not make the village more attractive to have a full-blooded innocent with his proven guilty.
Curator Dimora of the Bronx zoo says Skoy is the only genuinely tame wolf he has ever known. There have been many so-called tame wolves, but they have never become so thoroughly domesticated as Skoy. He has been associated with dogs so long that he probably imagines he is a dog.

DAUGHTER OF DESTINY AT ORPHEUM THEATRE

Oiga Petrova, star of the "Daughter of Destiny," showing at the Orpheum today only, was born in Russia, England; educated in Brussels, Paris and London; had repertorial career in London, where she studied to be a musician; took up singing, piano and violin. Finally became a journalist, was promoted to dramatic department of the London Times—went out to vaudeville at the age of twenty. Appeared in Shakespearean repertorio, then played Strindberg, Ibsen, and Henri Bernstein in Europe—next went into vaudeville, was seen at the Pavilion Theatre in London by Jesse Lasky, and was then brought to America to make debut at the Fallies Berger, in New York City, under the management of Henry B. Harris. Later starred in "Pantinos" and "The Hobbit" under management of the Shuberts, then went into vaudeville at the Fifth Avenue Theatre, becoming a headliner over night.

It is to be regretted that the system of petty thieving among young men and boys in Twin Falls should continue uninterrupted in spite of all that can be done to prevent it. Day after day reports reach the police and sheriff's office of articles of various kinds missing from lawns, porches and verandas, of the disappearance of autos, the theft of whips and robes from wagons and buggies, with occasionally a more serious loss. The police are not to blame, but it

NO NEWS HERE

It would appear that the news to the effect that there is a distinct American and to the pro-German-Irish combination is no news at all to the American Government. Nor does the information come as news to anyone else who has taken the trouble to follow the developments of the past few months with regard to the situation in the Emerald Isle. Germany, here as elsewhere, has overlooked no bet. She has taken the off chances that an Irish rebellion might be possible of accomplishment, and without any particular weighing of chances, elected to help out. She has spent money freely in this as in other things. Her efforts to date have not been entirely devoid of results, although the chances now are that there will be no Irish rebellion.

OVER THE TOP

Idaho has apparently outdone all previous efforts here or anywhere else when it comes to raising money for war purposes. From the figures available at this time it would seem as though the entire State had subscribed its quota after a single day of effort. Some of the counties did this on Monday, others on Tuesday, but those who did the work on Monday had no occasion to continue it beyond the first day. In Twin Falls County work was commenced on Tuesday morning. By noon the entire quota was subscribed, and the "drive" a matter of history. The result was magnificent. There are several reasons contributing to the success of the occasion. One was the splendid organization which has been built up in Twin Falls County for work of this kind. Another was the character of Twin Falls County's citizenship, which has never yet failed when called upon, or hesitated for a minute when any worthy object was at stake. What brings us back to a point made many times heretofore is a namely, that Twin Falls County is a mighty good twin to live!

NAVAL AVIATOR DOWNED BY SEVEN ENEMY PLANES

BATTLE IS SPECTACULAR BUT HOPELESS—FALLS IN SEA AMID BURNING OIL

(By United Press) WASHINGTON, May 22.—That American naval aviators have operated over Heligoland light was revealed today when the committee on public information announced the death of Ensign Stephen Potter, U. S. N. R. F., Detroit, Mich., in a spectacular battle with seven enemy single-seaters.

The London representative of the committee tells the story thus: "Six weeks after Stephen Potter, U. S. N. R. F., had shot down a German seaplane in Heligoland light, the enemy got him in the North sea. Potter was killed on April 25 in a fight with seven enemy planes. He was the second pilot in a British royal air force captain with whom he shot down a German last March.

# AIDS CITY TO LOCATE ITS FIRE RISKS

### EXPERT J. F. LINDSEY IS AUTHORIZED BY OREGON OIL TO MAKE INSPECTION HERE.

An inspection of Twin Falls fire risks to be made by J. F. Lindsey of Spokane, representative of the Fire Prevention bureau, and Fire Chief Fred A. Coulter, was authorized by the city council at its meeting Monday night. Mr. Lindsey is in this territory under directions from the fire prevention bureau directors. He addressed the council in response to invitation extended by Councilman E. J. Ostrander.

#### America's Loss Greatest.

Mr. Lindsey spoke briefly before the council in regard to the prevalence of preventable fires in this country. He quoted statistics to show that the annual cost of preventable fires in the United States is \$250 per capita, and is higher here than in any other country. Germany's preventable fire toll is the highest of European countries at 34 cents per capita per annum, and Italy's at 18 cents is lowest.

#### Gasoline High Explosives.

The greater proportion of preventable fires are caused from carelessness in disposal of ashes and trash, Mr. Lindsey said. Storage of gasoline also is a big factor. Explosion of five gallons of gasoline, he said, is sufficient to wreck any building in Twin Falls, and is more disastrous in its effect than explosion of 100 pounds of dynamite.

#### Extends Sewer System.

The council at this meeting, under suspension of the rules, passed an ordinance creating improvement district No. 31 for the purpose of extending the sewer system through block east of the Jones addition, and through blocks one, two and three of the East Lawn addition. June 3 was set as the time for hearing protests in this matter.

#### Installs Street Light.

A petition asking for installation of a street light at the corner of Fourth

avenue east and Togo street was granted, and installation ordered. The street commissioner was directed to provide street signs in the additions, more especially on streets and avenues recently regraded.

#### Inspector Gets Raise.

The monthly salary of A. W. Murray as plumbing inspector, which was overlooked by the council when it recently made a wholesale raise in the municipal payroll was increased by \$15, so that instead of \$40, he will receive \$55 per month on the future.

# HIGHWAY DISTRICT MATTER UP AGAIN

### BOND ATTORNEYS SUBMIT FORMS OF PROCEEDINGS FOR CALL FOR ELECTION.

Provided legal forms of procedure prepared by Keeler Brothers, financial agents of Davenport and in their present form by the county commissioners at their meeting on June 1, an election on the creation of the proposed Twin Falls independent highway district, to include all districts within the county outside the Buhl and proposed Elmer highway districts, will be called to be held on Saturday, June 22.

Petition asking for the creation of the Twin Falls highway district was submitted to the commissioners early in March. Twice proceeding in this connection have been held up. At one time the date for the election was set, when representatives of bond brokers advised the employment of expert assistance in the preparation of the legal proceedings. Misunderstanding arose over certain provisions in the first forms submitted by Keeler Brothers, and adjustment of details has required several weeks.

Copies of the amended forms submitted by Keeler Brothers were received Tuesday by County Clerk E. J. Finch.
