BATTLE STILL RAGING BUT LINES HOLD INTACT

CITY POPULATION GROWING STEADILY

In connection with the census of population now going forward in Twin Falls county in the compilation by E. L. Folk & Company of the new directory it is announced that the figures for Twin Falls show a total of between 6500 and 8700.

These figures of population are said to be conservative and it is not unlikely that when final returns are in it will be shown that this city has 9000 residents.

BELLEAU WOOD CLEARED OF ENEMY BY MARINES

GERMAN SHOCK TROOPS SUFFER TERRIBLE LOSS

By HENRY WOOD (United Press Correspondent)

concentrated in Von Hutler's "shock army." This army is counted on to deliver initial blows with irresistible force, permitting less able troops to pass through the breach thus created.

The "shock army" consisted originally of twenty-five divisions (300,000 men). It opened the drive against Amiens and Chateau-Thierry with heavy losses. It has concentrated over two terrific losses in the present drive, five divisions (60,000 men) being replaced on the first day alone.

Since the beginning of the war the consumption of German manpower has never been so great as it has been in the last few months. Recent terrific losses have already precipitated the crisis in German effectiveness.

U-BOAT RAIDS STILL ACTIVE ON EASTERN SEABOARD

NAVY NOW POSSESSED OF MASS OF REPORTS BUT ONLY ACTUAL SINKINGS GIVEN OUT—COAST PORTAL SHIP ENCOUNTERS ONE

By GARY D. BOGAT (United Press Staff Correspondent)

WASHINGTON, June 12.—An American coast patrol vessel has had one battle from a German U-boat raider.

This was illustrated a few days ago when the fact, together with the fact that the navy has made a mass of reports from patrol commanders. None of these has been made public.

Secretary Daniels has taken the position that only absolutely substantiated cases of sinking or capture will be announced.

ATTACK ON WESTERN PORTION OF MARNE FRONT FLUNG BACK WITH INTREPID GALLANTRY—FIGHTING CONTINUES UNABATED

(By United Press)

PARIS, June 12.—The Germans, striking along the entire Oise front yesterday evening and last night, were blocked at every point by the desperate French resistance. The battle is still raging, the French war office reports today.

EXPLAINS ACTION OF THE BOLSHEVIKI

MOSCOW UNDER MARTIAL LAW BECAUSE OF WIDESPREAD FLOT

By JOSEPH SHAPLEN (United Press Staff Correspondent)

STOCKHOLM, June 12.—The action of the Bolsheviks in putting Moscow under martial law is probably due to the uncovering of a plot which was brewing when I left Russia, which aimed at the overthrow of the Bolsheviks by simultaneous uprisings in Moscow and Petrograd.

GERMAN DEFENDERS ARE SLAUGHTERED IN LARGE NUMBERS AND REMNANTS FLEE IN DISORDER BEFORE INTREPID ADVANCE

By LOWELL MELLETT (United Press War Summary)

WITH THE AMERICANS ON THE MARNE, June 12 (4:30 p. m.)

The possibility of a German advance in this area has been practically eliminated through consolidation of the new American position north and east of Belleau wood.

DISCOVER NO TRACE OF THE MISSING BOY

CONTINUED SEARCH FOR PHILIP RENDALL, WHO MYSTERIOUSLY DISAPPEARS, IS UNAVAILING

Search for Philip Rendall, 14-year-old son of B. N. Rendall, 250 Washington street, who disappeared mysteriously after he had left home early Tuesday morning, going alone on a fishing trip to Hook Creek near this city, has been unavailing up to a late hour this afternoon.

TWO AUSTRIAN DREADNAUGHTS SUNK BY ITALY

ROME, June 12.—Two small Italian torpedo boats, sinking an entire Austrian battle fleet, sank two of the largest dreadnaughts in the Austrian navy Monday morning and returned safely to their bases, it was officially announced today.

May Be Second Case

A second case, not quite so clear cut, yet believed by some officials to be authentic, is also on record.

Neither of the above mentioned incidents includes the case in which a United States destroyer interrupted a U-boat in its attempt to sink the Albatross.

Many naval district reports have come since the raid, but none of them indicate beyond a doubt that a patrol vessel fired on a submarine and dropped depth bombs "over her." The effect can only be conjectured.

Both the cases cited occurred since then, but have been kept secret up to today.

News is Held Up

only announced the sinking at night when the department had news of the "Vladivostok" all day, denied it and not announced the sinking at night after the crew had landed.

Among the strange occurrences noted by the patrol reports was that of a hydroplane which dropped depth bombs on a supposed submarine. (Submarines can be seen a considerable distance below the water by a hydroplane.) U-boat it developed that the supposed U-boat target was a whale.

BIG SHIP TORPEDOED

WASHINGTON, June 12.—Official report of the sinking of the Canadian liner Ansonia, used as a British transport, was received by the navy department today. No American lives were involved, so far as the department knows. The steamer was torpedoed while westward bound.

PROMINENT WIDOW IS MARRIED TODAY

(By United Press)

LEXINGTON, Mass., June 12.—Margaret Emerson Vanderbilt, widow of the late Alfred G. Vanderbilt, a Justice of the peace, was married today to Raymond Thomas Baker, a director of the mint. The ceremony was scheduled for 4:45 o'clock.

Only fifty guests were invited to the wedding. Throstling weather caused a change of arrangements and the ceremony will be conducted in the old colonial reception room of the mansion.

Mr. Reginald G. Vanderbilt of New York was master of honor, and Senator Pittman, of Nevada, host man. Nevada is Baker's home state. Rev. Benson B. Wyman, of the Lexington Episcopal church, is officiating. The honeymoon will be spent in California.

Captain Isaac E. Emerson of Baltimore was to give the bride away, while Mr. Vanderbilt's sons, Alfred G., 5, and George W., 4, were to lead the wedding march.

EXPLOIT OF TORPEDO BOATS AGAINST ENTIRE BATTLE FLEET RANKS AMONG THE GREATEST EVENTS OF THE WAR

(By United Press)

The daring exploit occurred off the Dalmatian Islands, on the Austrian side of the Adriatic.

In the pursuit which followed an Austrian destroyer was badly damaged. Two torpedoes were fired at the first ship in the line and one torpedo at the ship immediately following.

The torpedo boats, under command of Captain Rizzo and Luigi D'Alfonzo, sailed boldly through a line of enemy destroyers and attacked the two leading ships of a battle squadron, which was steaming in fleet formation.

RECORD OF FEW WEEKS

Italian fleet naval forces have thus disposed of three of the largest ships in the Austrian navy within a few weeks.

A short time ago a mysterious Italian craft—suspiciously described as an electrically propelled vessel—penetrated the defenses of Pola harbor and sank an Austrian dreadnaught of the Viribus Unitis class.

This class originally consisted of four vessels. They are of twenty thousand tons displacement, carry twelve twelve-inch and twelve five-inch guns, and have a complement of 600 and 608 men.

NEW WAR ORDERS TO GO TO MIDDLE WEST

(By United Press)

WASHINGTON, June 12.—Landed to the limit, the east United States has been staked off as a barred zone for further expansion of war industry. New war orders will go to the middle west and the south—until the congestion is relieved in the east.

The barred industrial zone, as recently outlined by the United Press, was announced officially today to include New England, eastern and southern New York, Pennsylvania as far west as Allentown and Williamsport, New Jersey, Delaware and eastern Maryland, except Baltimore.

U. S. ARTILLERY MAY ASSIST CITY OF PARIS

(By United Press)

WASHINGTON, June 12.—American coast artillerymen, it was said on high authority today, may be assigned to help in the defense of Paris. The invaders get within range of the big guns before the capital. A considerable assignment of those trained fighters are in France, and others are being retained for overseas service.

WITH THE AMERICANS ON THE MARNE, June 12 (4:30 p. m.)

The possibility of a German advance in this area has been practically eliminated through consolidation of the new American position north and east of Belleau wood.

The marines now solidly hold the wood, the last machine gun stronghold at its edge being taken at the point of bayonets at ten o'clock this morning. The attacking party found the group of buildings surrounded with dead and wounded Prussians.

The total prisoners taken in the wood and contiguous territory now has reached well above 400, with 62 machine guns, four trench mortars, a great number of rifles and a large quantity of ammunition.

WITH THE AMERICAN ARMY IN FRANCE, June 12

American marines have entirely cleared the important Belleau wood, the site of the battle of Chateau-Thierry, of enemy forces, it was established today.

The German defenders were slaughtered in great numbers and those who survived fled in disorder.

The American artillery preparation began at 1:00 yesterday morning. An hour later the marines attacked the Germans who still held the northern portion of the wood. They were under orders to push through to the northeastern limits of the forest.

After their instructions to the letter, they did not wait for orders.

Many Prisoners Taken

In addition to inflicting heavy casualties, the marines took at least 250 prisoners, including two officers, and captured two three-inch field pieces and some mine workers. Their only casualties were light, with the exception of those suffered—at one point when a machine gun nest fell out for some time.

(While this fighting was under way the Germans launched an attack at 5 a. m. against the American units holding Belleau wood at night. The Germans were completely repulsed, great masses of the enemy being broken up by artillery and rifle fire.

Old to Be Captured

Prisoners taken by the marines are the gladdest lot I've seen yet. Many of the extremely youthful and well cared for said they had little to eat today. All are members of the American units, although drafted from all parts of Germany. Several who served on the Russian front said they liked it better there than on this front.

Many of the German regiments, they said, are now in the hands of the marines, although they are compelled to fight and are compelled to go into battle by machine guns placed in the rear of their lines.

An officer said it was understood by himself and others that less than 2000 American men are in France. He was surprised to learn that the Americans had been here several months.

CLAIM CZAR ENTERED INTO VERBAL DEAL

(By United Press)

PETROGRAD, June 10.—That the former czar and the Kaiser formed a verbal alliance against Great Britain and France during a conference at Potsdam, will be charged in the forthcoming trial of the czar, it was reported here today. The czar also is said to have promised the Kaiser a free hand in Turkey.

SAYS LABOR LEADER'S CONDUCT OFFENSIVE

Artesne Reed, Trades Council Manager, Is Held on Complaint of Woman

Artesne Reed, business manager for the Twin Falls building trades assembly, was arrested Tuesday afternoon on a misdemeanor charge of offensive conduct, filed by the prosecuting attorney at the instance of Mrs. Vera Reed, wife of James Linton, a carpenter here.

Preliminary examination in the case shows Reed is alleged to have taken place at the Linton home on June 3, that the husband was working at his trade in Oakley. Linton had at that time been present upon by Reed to assist with the trades assembly.

Reed had been cared for at the Linton home after he had been injured in a flat car encounter, according to the story told by the prosecuting attorney.

An officer said it was understood by himself and others that less than 2000 American men are in France. He was surprised to learn that the Americans had been here several months.

NEW PASSENGER SCHEDULE REJECTED

(By United Press)

PHOENIX, Ariz., June 12.—Holding that the state corporation commission had not yet authorized new intrastate rates, the commission today rejected and prohibited the use of new passenger rate tariffs filed by the railroads under the increases granted by Director General of Railroads to fix as they apply to intrastate rates. The commission holds failure to first obtain approval from the state board makes the new rates a violation of the Arizona state law.

TO HELP LABOR IN ALLIED COUNTRIES

Samuel Gompers Contemplating Trip Abroad in Interest of Workers

(By United Press)

ST. PAUL, Minn., June 12.—President Samuel Gompers of the American Federation of Labor is seriously considering a trip abroad to fight forces threatening a division of labor bodies in the allied countries. His decision may be made known within the next few days.

Belgium will never submit to German domination," asserted Van Hecke, amid cheers.

Other missions and committees made their reports today.

PRESIDENT AGAINST BORAH RESOLUTION

WASHINGTON, June 12.—President Wilson is opposed to the Borah "open diplomacy" resolution, Senator Hitchcock announced today. The senator Hitchcock read a letter from the president, written to Secretary Lansing March 12, just after Borah had introduced his resolution providing for open consideration of all treaties by the senate. The president in his letter said that when of January 8 he advocated open diplomacy he meant that all treaties, after ratification, be made public.

RUSSIAN CADETS DO NOT RECOGNIZE HUN-FORCED PEACE

DENY THAT AMERICAN ASSISTANCE IS NOT WANTED - WOULD OPPOSE GERMAN INROADS

(By United Press)

WASHINGTON, June 12.—Declaring it has never recognized the Brest-Litovsk peace treaty perpetrated by the Bolsheviks, the Cadet party of Russia has passed resolutions appealing to the allies for aid.

The Russian embassy today made public cables dispatches disclosing the cadet action, which declared that information in America that allied assistance is not wanted, is false.

Won't Recognize Treaty

The resolutions follow:

"We never recognize the conditions of Brest-Litovsk as 'considered that the disastrous situation in which they have placed Russia can only be ameliorated with the aid of the allies.

The movement of the Germans on Russian soil, the repeated arrests of new recruits still continue and there seems to be no limit to such occupation. Under such conditions we cannot refrain from appealing to our allies to whom we have frequently given proof of our loyalty.

Oppose Bolshevik Rule

"We proclaim our conviction that the appearance of a new, powerful factor on the scene of struggle undoubtedly will have a decisive bearing on the issue of the war and on the conditions of peace.

We can assure in the most conclusive manner that the information picturing that the Russian democracy does not approve of allied aid is false. If such information has reached the president of the United States, it must have come from Bolshevik sources.

The Bolsheviks are in no way representative of the Russian democracy. Their regime is a filthy rule of democracy, is really oligarchy, demagoguery and despotism, which at the present moment relies only on physical force and daily becomes more odious to the popular masses.

STATISTICS SHOW MAJOR AMPUTATIONS ARE FEW

American Medical Men Surprised By Facts Furnished by Canadian Commission

(By United Press)

CHICAGO, June 12.—Figures showing the relatively small number of Canadian soldiers suffering major amputations because of war injuries have surprised American medical men.

The American association of industrial physicians and surgeons advance the fact that the statistics furnished them from the I. R. Kidner, vocational secretary of the inviolable soldiers' commission of Canada.

"With 30,000 soldiers disabled," Kidner said, "we have had less than 1500 amputations of legs or arms. Between fifty and sixty have been blinded. That's no more than were blinded in the Halifax explosion alone."

Surgeon General Gorgas awarded 75 per cent of the American wounded took back the charges.

"The world has never seen a better of cleaner army," he said. "Morality and drunkenness are uncommon."

German poison gas, he said, is overcome by an American anti-toxin.

The statistics were furnished by the American Medical association upon request.

SHIPBUILDING FIGURES RUN IN BILLIONS

America Building Largest Commerce Fleet the World Has Ever Known

(By United Press)

SOUTH BEND, Ind., June 12.—Shipbuilding this year will exceed three million tons, while next year it will reach thirteen million dead-weight tons, Chairman Edwin N. Hurley of the shipping board told the Notre Dame university graduates.

Hurley outlined the plans for the greatest commerce fleet the world has ever known. It will cost \$5,000,000,000 and will literally bridge the commercial waters with the United States commercial vessels.

Foreign Minister Acknowledges That Other States Have Yet to Do It His Way

(By United Press)

WASHINGTON, June 12.—Baron Buzard, Austro-Hungarian foreign minister, in an interview published by the Tagblatt, declares that Austria still is ready for a "peace by understanding" on the basis of no annexations.

"But we will make no new offer to the enemy, as long as their statesmen maintain their present standpoint," he concluded.

WILLIAM A. DU PUY

William Atherton Du Puy, author and magazine writer of Washington, began a few weeks ago to use at the end of a paragraph in every letter he wrote the following pledge: "I swear so long as I live never knowingly to buy anything made in Germany." He found instant approval and appreciation of the slogan, many of his correspondents immediately spreading the idea by using it themselves.

FAIRS WILL USE THRIFT STAMPS OR PREMIUMS

Winning Exhibitors Will Get Rewards In New Form

(By United Press)

KANSAS CITY, Mo., June 12.—Nine state fairs this year will use premium winning exhibitors in thrift stamps, it was announced here today following a meeting of the American Association of State Fairs and Exhibitors. States adopting the plan are Colorado, Nebraska, South Dakota, Iowa, Illinois, Missouri, Kansas, Oklahoma and Texas.

The executive committee of the association will meet with regional directors of fairs in Chicago, June 17, in an effort to obtain low rates for the state fairs this fall.

REOLIGATED MARRIED MEN IN DRAFT

Those Whose Wives Can Support Themselves Will Be Put in Class 1

(By United Press)

WASHINGTON, June 11.—Under new regulations being prepared by the provost marshal, married men whose wives are capable of supporting themselves and married men whose wives are not dependent upon them for support will be placed in class one, while many now in class one will be placed in a deferred class or pronounced fit only for limited military service in class one.

The recent "work or fight" order, the reclassification and the new regulations will dovetail and round out the draft machine so that the work of shifting labor from non-essential industries to essential industries, may begin immediately.

OTHER BU, JOHN IT

IN 'N' BO BAD AS THAT?

(By United Press)

MINNEAPOLIS, MINN., June 12.—John Doherty and Miss Cora Gilbert had ideas of their own about what constitutes simplicity in wedding.

"They decided to have a very quiet little affair."

So they were married in an undertaker's chapel here.

There was no music. The only records the undertaker had on hand were "Near My God to Thee," "O Come, O Come, My Jesus," "Asleep in Jesus," and "He Leadeth Me."

There were no flowers, except an inconspicuous wreath, intended for another ceremony, and bearing the legend: "Gone, but Not Forgotten."

CONVERSION OF NON-ESSENTIAL INDUSTRIES NEXT

FORTY PER CENT OF EARNINGS MUST BE DIVERTED TO WAR NEEDS - COAL PRODUCTION DROPPING OFF

(By United Press)

WASHINGTON, June 12.—The American people and business must prepare for a serious lesson in economy—diversion of nearly 40 per cent of their earnings to war needs and conversion of non-essential industries to war work.

Today the total earnings of the nation's workers, manufacturers, retailers and business amount to \$60,000,000,000. The war this year, Secretary McAdoo estimates, will cost \$24,000,000,000.

Must Curtail Industries

Fuel administration officials announced that a fifty per cent curtailment in non-war industry is essential, to save fuel. This will be made as gradual as possible. Fifty-six million tons of coal must be saved this year by enforced curtailment, it was declared.

A tentative list of non-war industries has been prepared for guidance of the war government in curtailing industry. Changes are necessary from time to time.

Coal production is dropping off, the declines for last week being one million tons below that of the previous week. It is more than sufficient to meet the weekly production necessary for the 600,000,000 tons production this year is obtained.

May Abandon Zone Tax

The government is developing an elaborate campaign of education to effect a patriotic refusal on the part of the people to buy non-essentials. It is officially, it favors the abandonment of the zone tax on newspapers and other periodicals and an increased price for newspapers and periodicals that these mediums may aid in the educational work and not lose their present income from advertising of articles not vital to the war.

The retailers of the country will be urged not to deal in non-essentials.

Elit 'Big Follow' Hard

Another year of the war and the drain of labor for war work will make non-essential industry virtually impossible anywhere. Taxes will take 40 per cent of the "big follow" earnings. This will enforce economy in luxuries. The man whose earnings are below \$5,000 a year cannot be called upon to turn half his earnings to war needs but his average will be approximately 20 per cent.

Ranging from \$5000 earnings (gross earnings are meant throughout) the percentage that each person should devote to war needs becomes smaller and smaller. By "war needs" is meant Liberty Loan, war savings certificates, etc. To gain the end sought, buying not absolutely vital must soon be vastly curtailed.

PERSHING GETS OVERALLS BY THE DOZEN - AND TERN-SOON

General Pershing four weeks called for 3,000,000 cotton garments. To keep his forces equipped, and to supply the "boys in camp," has forced the government to not only commandeer the product of all cotton mills from the first of June, but also the manufacturers of these products.

Eighty-five million yards of denim, or 25,000,000 overalls and coats, will be required within the next six months, to supply and keep equipped the Army here and "over there."

Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him. You sent him to school and to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into terrors that he cannot even know—and his faith has not faltered. He knows we will do our part if he does his.

JURY ACQUITS COX OF LARCENY CHARGE

MAN CLEARED OF AUTO THEFT ACQUITTMENT MUST ANSWER TO STATUTORY COMPLAINT IN CATELLO

Verdict of not guilty was returned Tuesday morning by a jury in district court here in the case of Fred B. Cox, charged in the information filed by the prosecuting attorney, with the theft of an automobile which was purported to be the property of E. B. Heinicke, manager of the local yard of the Nibley-Channel Lumber company. The case was given to the jury at 2:45 o'clock Monday afternoon, and the verdict was reached at 11 o'clock that night.

Although cleared of the grand larceny charge by the verdict, Cox is being held here for officials of Hannock county, where he is wanted to answer to a charge of committing a statutory offense.

Cox's home is in Los Angeles, where his wife and children reside. He was formerly employed by the Nibley-Channel Lumber company here, and has worked in lumber yards in various Idaho cities.

Employer Signed Notes

Evidence in the trial here showed that Heinicke had signed notes with Cox for the purchase of the automobile in question, and that in return he had demanded and received a bill of sale covering the car. Regarding the car as his own, Cox, when discharged from the employment of the local lumber company, started with it through Nevada toward Los Angeles. He announced upon leaving that he was going to Rupert, where he had been given a short employment. Mr. Heinicke failed to make the car. Evidence showed that Cox had tried to sell the car while on route to California. He was overtaken and placed under arrest by Sheriff Kendall at some distance south of Elko, Nevada.

Cox was represented in the case by Attorney E. V. Larson, while Judge E. A. Walters of the firm of Walters & Hodgins appeared as assistant to prosecuting Attorney F. L. Stephan.

SET DATE FOR W. S. S. DRIVE IN COUNTY

Four Days Campaign to Pull Quota to Be Launched on

Beginning on Tuesday, June 25, and continuing with the force of Friday, the War Savings Stamp drive will begin in Twin Falls county to secure pledges for the purchase of \$500,000 worth of the stamps still required to fulfill the county's quota. This is the decision reached at a meeting held last of the men who assembled Monday evening in the court house here to make plans for the campaign.

E. L. MacVicar, who has been named as one of the assistants to County Director A. Guibort in the drive, presided at this meeting, and there were in attendance C. S. McMartin, C. J. McCormick, H. J. Kingsbury and J. W. Jesse of Twin Falls, G. M. Hall of Holbert, Elvin Laycock of Hansen, John W. Hays of Kimberly, and F. G. Graves of Filer.

A. Guibort, War Savings Stamps director for Twin Falls county, stated Monday that the county has subscribed approximately \$100,000 of stamps, and that in order that its quota may be fulfilled, additional investment in the sum of \$400,000 will be required before January 1, 1919.

BEST IN THE LONG RUN

The World's First Torpedo Failed

ITS inventor, David Bushnell, an American, in 1776 attempted to sink the British warship, Eagle.

Bushnell towing his torpedo, charged with powder, by means of a hand-power semi-submersible, planned to fasten it to the hull of the attacked ship with a steel plunger; then explode it by clock work.

His torpedo—too much of an experiment—failed.

Safeguarding the user against failure, Goodrich never markets an experiment, tires or anything else.

Goodrich Tires, though built with the experience and skill of the oldest and largest rubber factory, are proved out by the practical road travel of Goodrich Test Car Fleets to make them in word and deed—

GOODRICH SERVICE VALUE TIRES

For Goodrich recognizes but one value in tires—their SERVICE VALUE on your car and on the road; one tire value—SERVICE VALUE.

Whatever pounds of rubber and other material go in tires; whatever hours of work and skill, their VALUE to motorists is their SERVICE, in comfort, dependability and durability.

And you are sure to get it if your tires are GOODRICH SILVERTOWN CORDS or BLACK SAFETY TREADS.

THRESHERMAN'S SCHOOLS TO GO TO THREE TOWNS

FILER, BUHL AND KIMBERLY SELECTED AS PLACES FOR INSTRUCTION IN EFFICIENCY

Schools for the instruction of threshermen in the most efficient and economical operation of their machines are to be held under the auspices of the county farm bureau and county grain threshing committee, at Filer on June 23, at Kimberly on June 27, and at Buhl on June 28, according to decision reached here by the committee. The receipt of a telegram from Representative Addison T. Smith, advising that Federal Food Administrator Herbert Hoover and the grain corporation had taken favorable action on the application for experts to attend these schools and give instruction.

Expect Great Saving

Through these schools it is hoped that efficiency of operation of threshing machines may be introduced to result in considerable savings of grain. County Agent Donald McLean recently gave out figures showing that a 10 per cent increase in the wheat crop grown in Twin Falls county this year would mean a saving of 45,000 bushels of wheat worth \$80,000, or an amount sufficient to make 9,000 acres of flour which in more than is required to supply the consumers of the county for one year.

The first plan was to hold a three days session of the school in Filer. This plan was changed in order to suit the convenience of threshermen and others interested by spreading the course of instruction over sessions to be held at the three points named.

TWIN FALLS WOMEN SOLVE BREAD PROBLEM

EVOLVE WHEATLESS LOAF THAT IS NUTRITIOUS AND PALATABLE, SAYS MISS DENEKOE

Have you a good wheatless loaf? This is the question asked repeatedly by the patriotic housewives and many have solved the problem satisfactorily. In Twin Falls county, says Miss Gertrude Denecke, county home demonstration agent.

We must change our view of a good loaf of bread. We have always heard that comparisons were useless which relate with wheat and wheatless bread. We will have the light, white bread, but we will have a concentrated, darker, but nevertheless very appetizing and healthful loaf if we made.

Mrs. O. F. Strobbeck's sandwiches, at the Kimberly Road club were wheatless and everyone considered them very delicious. This is the recipe she used. She sets her sponge at night, having the quart of liquid made up of her starter and potato water. To this she adds three cups of oatmeal. In the morning she adds one cup of water, one cup of barley and one cup of rice flour. When this is light and more rice and barley flour, about two cups of each and salt. Mix thoroughly and when light, put in pans and bake.

Mrs. Strobbeck believes that thorough mixing has much to do with her success of the wheatless bread. When potatoes and barley or other substitutes are used there is a change of a sour taste, so it is well to keep the bread white rising at a cool temperature, to use more yeast and hasten the process by setting the bread in the morning.

COMMISSIONERS MAKE NEW PRINTING AWARD

ACCEPT TERMS OF PUBLISHERS DEMAND FOR RAISE IN RATES PAID THEM

In practical acknowledgment of the terms of a proposition made by the Twin Falls Times Printing & Publishing company, the county commissioners, by vote of two to one, at their meeting here Saturday afternoon awarded a contract for the publication of the commissioners' proceedings to the Times, and designated the Buhl Herald, as the other newspaper of the county to which payment should be made for the publication of the proceedings. Both are Democratic newspapers.

T. E. Moore of Filer, the Republican member of the board, voted with Chairman O. E. Carlson and Commissioner W. F. Brower to designate the Buhl Herald as the second option.

Prior Arrangement

Prior to this time the proceedings had been published monthly in the Twin Falls News, the Twin Falls Times and the Buhl Herald, each publisher receiving one-third of the sum appropriated for this purpose, which was \$2 cent

per inch for eight point type and \$1 per inch for six-point type.

The Times on June 7, notified the commissioners that it would continue to publish the proceedings at no less rate than 60 cents per inch for eight point type and 75 cents per inch for six point type, at the same time proposing to furnish the set type of same to any other paper that might be designated.

Times Proposition Slightly

By their action Saturday, the commissioners authorize the payment to the Times of 55 cents per inch for eight point type and 60 cents per inch for six point type, leaving to the Buhl Herald 25 cents per inch for eight point type and 30 cents per inch for six point type.

Would Submit to Bids

Commissioner Moore voted against acceptance of the Times' proposition, asserting that the award of the contract should be made after bids had been called for and considered.

Last Saturday evening an entertainment was given for the benefit of the Red Cross by Edwin and Filina Sigman, Harold and Jean Blumens and Anna for this purpose, which was \$2 cent

PLATITUDES OF POLITICS FADE IN WAR LIGHT

CONSTRUCTIVE PLAT-FORMS LIKELY TO BE DRAFTED IN BOTH STATE CONVENTIONS

(Special to The News)
BOISE, June 12.—The big political platform fest will be on in Idaho the twenty-fifth of this month. It is forecasted that both the Democratic and Republican parties will adopt constructive platforms in contrast with some of the platitudinous productions of the past. The political parties are doing the war have made that definite consumption most probable.

It is likely both conventions will go on record heartily against any and all agitators and movements that tend to divert the official or public mind from the one business of the hour. There has been growing opposition to the practice of introducing and pressing innovations that distract attention from the main business of the hour and its most important details. It is likely no doubt take form in a definite expression by the platform makers.

One of the leading men of the state wrote in a letter to a friend recently: "I am naturally interested in the success of my party at all times, but I am at this time unalterably opposed to any political activity that will take attention away from the war. And, further, I most assuredly oppose those various organized political and quasi-political 'committees' that have the effect of interfering with this war. The participants, excepting the paid representatives, are innocent enough of any attempt to do harm, but these movements constantly keep the public eye and attention continually interfered with the work of war administrators, from President Wilson down. Let them go, no need we have looked Prussianism."

CANNON BEHIND GROOMED

The Non-Partisan league, a new factor in Idaho politics, is grooming Miles Cannon of Weiler for the candidate for governor. Mr. Cannon has been a banker and merchant and he is an ardent politician of the stand-pat variety. Some members of the league oppose any nomination or endorsement excepting for the legislature. They are influenced by dissatisfaction with the present league leaders from outside the state who, they declare, are putting the league outside the realm of non-partisanship. ardent expresses an ardent devotion has also caused members of the league to withdraw their support of these leaders. Nevertheless, it is pretty certain Mr. Cannon's fine political ability will win for him the endorsement of the league.

D. W. Davis, of American Falls, was the first to make a bid for governor in the Democratic primaries.

PRESS MEN IN THE GAME

A large number of newspaper men are expected here for the platform conventions. It is understood they will meet in a separate convention on the twenty-fourth and adopt suggestions for the platform action. The Republican Press association, already organized, will be well represented. One demand upon the Republican delegates would be a constructive use of the farm market bureau, which, they declare, has been a political machine. It should be made into a business organization of real benefit to the farmers. A plan will be suggested to make it self-sustaining as a state brokerage agency for the farmers and co-operators, cutting out a large chunk of middle-man profits for the benefit of each class. Encouragement of rural banks will also be urged.

MARINES GARRY BARRELL HUMOR INTO THE TERRITORY

(By United Press)
PARIS, June 12.—Marines have carried their humor into the dugouts and trenches of France.
"When the German shells burst about us, the fellows call out 'strike one' or 'ball one,' and when a shell lands uncomfortably close, they shout 'fair ball.'"

This is disclosed by Private Arthur N. Fawcett in a letter to his father, William Fawcett, Northfield, Ohio.
For a time the Sea Soldiers had great fun at what they called the "international word's series" but the officers admonished them that their excursions did not conform to trench etiquette.

Effective Thursday morning, May 8, continuing until the completion of road improvement work now in progress, the Shoshone falls grade will be closed to traffic of all sorts except between the hours of 6 o'clock p. m. Saturdays and 8 o'clock a. m. Mondays. By Order of the County Commissioners.—M.D.

"CLEW WITTING THE HUN"

BY NOPSIS.
CHAPTER I.—Introductory. Pat O'Brien tells of his purpose in writing the story of the adventure.

CHAPTER II.—Tells of his enlistment in the Royal Flying Corps, his training in England and his transfer to France for active duty.

CHAPTER III.—Describes flights in which he brought down two German airplanes and the manner in which he was brought down wounded within the German lines and was made a prisoner of war.

CHAPTER IV.—Is taken to the officers' mess and is made a prisoner of war. He begins planning his escape. By great sacrifice he escapes and hides away two daily rations of bread.

CHAPTER V.—Discovers that German officials start by sending him to a hospital, finally wounded and devoted their efforts to his recovery. He is taken to a hospital and returned to the dining lines. Witnesses the flight of his best chum, Lieutenant O'Brien.

CHAPTER VI.—He contemplates a map of Germany and decides to make a dash for it. He escapes through a window and hides in a hole.

CHAPTER VII.—For nine days he crawls under German lines during the day, traveling at night guided by the stars. He covers his miles before reaching Luxembourg.

CHAPTER VIII.

There was no chance of getting away with any "bullying" staff in Luxembourg. I knew, because the young men have not been forced into the army and are still at home, and as they are decidedly pro-German, it would have been pretty hard for me to demand anything in that line of the country. It was not like taking things away from old men and women or robbing people that could not stop me if they chose to do so. I thought at this time that I was suffering about the worst hardships any human being could ever be called upon to endure, but I was later to find that the best of my journey was made along about this time. There were plenty of vegetables, even though they were scarce, and these were much better than the things I was afterwards compelled to eat or go without.

We frequently hear of men who have lived for a certain number of years on their own resources in the woods just on a bet or to prove that the "back-to-nature" theory still has the merits and will still work. My advice to some of these nature seekers is that if in any time they wish to make a good good deed, try the little countries of Luxembourg and Belgium with a slice of Germany thrown in.

I suppose that during this experience of mine I made many mistakes and tried many unnecessary things which, with a knowledge of woodmanship might have avoided and I failed to take advantage of many things which would have been quite apparent to me. However, that I did not undertake this adventure voluntarily, I was "wished on me." I simply had to make the most of the knowledge I had.

As at that time my blisters began to appear on my legs and my knees swelled. In addition I was pretty well convinced that I had lost the sight of my left eye. I hadn't seen a thing out of it since my leap from the train. As at that time the village of Luxembourg I must have presented at that time—my unhealed wounds, eighteen days' growth of beard and general haggard and unkempt visage—I think the few I fell about meeting strangers and trying to make my way through the chances are they would have been infinitely more scared than I!

As it was, I was nearly out of Luxembourg before I came face to face with anyone. It was about 8 o'clock in the morning and I was walking along a regular path. Just as I was approaching a cross-path, I heard footsteps coming down it. I stopped short, stooped over and pretended to be adjusting my shoelace, figuring that if the man came near to my path he would probably pass right by me. As luck would have it, he continued on his way and never noticed me at all.

After that I frequently noticed groups of Luxembourg peasants in the distance but I usually saw them first and managed to avoid them. On the eighteenth day after my leap from the train I crossed into Belgium. It had taken me just nine days to get through Luxembourg. I believe that a man could ordinarily cover in two, but considering the handicaps under which I labored I was very well satisfied with my progress.

CHAPTER IX.

I enter Belgium. I have said it was about the eighteenth day after my escape that I entered Belgium, but that is incorrect. I was in Luxembourg possibly well into that country before I realized that I had crossed the line. About the third day after I figured

required consciousness, and then, no doubt, only because the rain was beating in my face.

I knew that I had to get away, as was beyond doubt. Moreover, there was a tow-path right there and any minute a boat might come along and find me. But it was equally dangerous for me to attempt to travel very far. Fortunately I found some marshy ground by and I hid there all day, without food or drink.

That night I made a little headway, but when day broke I had a dreadful fever and was delirious. I talked to myself and thereby increased my chance of capture. In my lucid intervals when I realized that I had been talking, the thought sent a chill through me, because in the silent night even the slightest sound carries far across the Belgian country, so that I fear that another day of this would about finish me.

I have a distinct recollection of a ridiculous conversation I carried on with an imaginary Pat O'Brien—a sort of duplicate of myself. I argued with him as I marched drowsily along and he answered me back in kind, and when we disagreed, I called upon my one constant friend, the North Star, to stand by me.

"There you are, you old North Star," I cried aloud. "You want me to call to the Holland, don't you? But this Pat O'Brien—this Pat O'Brien who calls himself a soldier—he's got a yellow streak—North Star—and he says it can't be done! He wants me to quit to lie down here for the hour or two and take me back to Courtrai—after all you've done, North Star! I don't want to follow him—I just want to follow you—because you—you are taking me away from the Hun and this Pat O'Brien—this fellow who keeps after me all the time and leans on my neck and wants me to lie down—this yellow Pat O'Brien wants me to go back to the Hun!"

After a spell of foolish chatter like that my senses would come back to me for a while and I would trudge along without a word until the fever came on me again.

I knew that I had to have food because I was about on my last legs. I had had no more than a slice of bread and there and call it a treat. Things seemed to be getting worse for

fields, bad patches, woods, swamps—anywhere provided I was not, likely to be seen and captured. Food was an important consideration to me, but it was secondary to concealment.

At last I brought up at the Meuse river at a place between Namur and Huy, and it was here that I came nearest of all to giving up the struggle. The Meuse at this point is about half a mile wide—so wide as the Hudson River at West Point. Had I been in normal condition I wouldn't have been a moment to swim across. San Diego Bay, California, is a mile and a half wide, and I had often swam across and back, and the sea, I thought, was also a mile and a half wide, had never proven an obstacle to me.

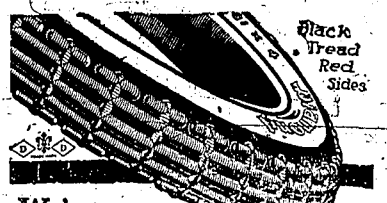

In the wretched shape in which I then was, however, the Meuse looked like the Atlantic ocean to me. I looked for a boat, but could find none. I tried to get a piece of wood upon which I hoped to ferry across, but I was equally unsuccessful.

Get across I must, and I decided there was nothing to do but to swim. It was then about 3 o'clock in the morning, I waded in, and was soon beyond my depth and had to swim. After about an hour of it I was very much exhausted, and I doubted whether I could make the opposite bank, although it was not more than thirty or forty feet. I was gasping and gasping, and my arms and legs were completely fagged out. I sank a little and tried to touch bottom with my feet, but the water was still beyond my depth.

There are times when erections will pray, and I was no exception. I prayed for strength to make those two few wicked yards, and then, with all the will power I could summon, struck out for dear life. It seemed a lifetime before I finally felt the welcome mud of bottom and was able to drag myself up to the bank, but I got there. The bank was rather high and I was shaking so violently that when I took hold of the grass I fell right up to the grass shock out of my hands. I could not retain my grip. I was afraid I would faint then and there, but I kept pulling and crawling frantically up that infernal bank and finally made it.

Then for the first time in my life I fainted—fainted from utter exhaustion.

It was now about 4 o'clock in the morning and I was entirely unprotected from observation. If anyone had come along I would have been found lying there dead to the world. Possibly two hours passed before I

Were Just As Particular As You About Tires

OUR customers are thrifty, calculating fellows who know tire up-keep costs.

Believe us, we've looked into this tire proposition from top to bottom.

Take our advice and buy Diamonds, the one best buy on the market. The Diamonds we have sold our customers are running farther, giving less trouble, and costing less in the end than any other tires we know.

Put a Diamond Tube in a Diamond casing and you have the ideal tire equipment.

Take Care of Your Tires

America's greatest need is for ships—more ships.

Every available vessel is being utilized in government service.

Many ships that have been carrying rubber from Sumatra and Brazil have been taken for active transport duty. The number now left to bring rubber to this country is extremely limited.

This will necessarily force a temporary curtailment of tire production.

So, make the most of the tires you have.

Use good tires.

Take good care of them. Keep them in perfect repair. See that they are properly inflated.

Increase their mileage by careful driving. Keep out of car tracks and away from bumps. Don't scrape the curb or apply brakes too suddenly.

Get every mile your tires have in them.

Only in that way can you be assured of your car's continuous service—and remember, your tire is a vital war-time necessity.

So again, —take care of your tires.

M. J. SWEeley IS GIVEN PLACE IN STATE COUNCILS

REPUBLICANS FILL VACANCY AND NAME DELGATES TO PLATFORM CONVENTION IN BOISE

Marlin J. Sweeley, former state senator from Twin Falls county, was elected as a member of the Republican state-central committee from this county at its meeting Tuesday afternoon in the assessor's office at the court house here for the purpose of naming delegates to the Republican state platform convention to be held June 25 in Boise.

Election of Senator Sweeley was made to fill the vacancy occasioned by the resignation of Carl E. De Long, former state legislator from this county, who resigned recently when he enlisted in the engineer corps of the army. Senator Sweeley's name was given in nomination after resolutions expressing the appreciation of Mr. De Long's services to his political party and to his nation had been adopted. There were no other candidates.

The delegates, also in number, to the state platform convention were nominated and elected from the floor of the committee meeting. No alternatives were named for the reason, given by Chairman W. J. Young, that alternatives could not be given credentials to attend and take part in the convention.

The delegates elected are: M. J. Sweeley, E. A. Walters, W. P. Guthrie, C. Robinson, R. A. Reed, Twin Falls; J. O. Eastman, C. A. Greenwall, Buhl; W. C. Hill, Mustang.

The committee filled vacancies in its own membership by election of C. A. Greenwall to succeed T. R. Allen, committee chairman for Buhl precinct No. 1, and P. C. Graves to succeed Arthur Anderson, committee chairman for Flie precinct.

Chairman W. J. Young presided at the meeting Tuesday. Others in attendance were Secretary Stuart H. Taylor, W. E. Hill, V. H. Decker, E. M. Sweeley, secretary of the W. L. Leonard of Rogerson, all of Twin Falls; W. C. Brown of Buhl, and John H. Blase of Mars.

Resolutions of Respect

Following are the resolutions as drafted by E. M. Sweeley and adopted by the former State Committee Chairman Carl E. De Long.

Whereas, Carl E. De Long, member of the Republican state central committee of Idaho for Twin Falls county, has enlisted in the service of his country and has resigned as such committee member;

Whereas, the Twin Falls county Republican central committee in meeting

Resolved, that the committee do hereby express its appreciation of the services of Mr. De Long to his country and to the Republican party of Idaho.

assembly, has accepted said resignation. Therefore, he is resolved by this committee that we appreciate and repeat the motives actuating Mr. De Long in his enlistment, which has every prospect of success and return, and take this method of expressing our appreciation and of extending to him our thanks for the work he has done.

Growth of Tower of London. A royal palace, consisting of what is now known as the "white tower," appears to have been the beginning of the Tower of London. It was commenced by William the Conqueror, who, in 1066, surrounded it with walls and a broad ditch. Several succeeding kings made additions to it, and King Edward III erected the church. In 1028 the old white tower was rebuilt, and in the reign of Charles II a great number of additions were made to it. The new buildings in the tower were completed in 1850.

Longevity of Customs. The longevity of customs is curiously illustrated in the case of Lord Forester, the fifth baron, whose death is announced. King Hal took an ancestor of Lord Forester so deeply into favor as to grant him leave to wear his hat in the "presence." The right became a tradition, and is one of the trifles of etiquette to be remembered on occasion by officials of the court. The Foresters were originally of Walling street, and had charge of the Wrekin forest.—London Chronicle.

Pineapple Planting. Pineapples are planted in three ways—for shipment raw, for canning, and for juice. If the planter wants large, perfect specimens of the fruit he should plant only one to the acre. The uniform smaller sizes that are found in the cans are the result of closer planting, while the planter who desires only juice sets the plants still closer.

Good Excuse for Forgetting. Charles lived with his aunt, who was a milliner and worked down town. She had told him not to telephone to her unless it was important. One day she was called to the phone, and Miss Charles said, "Auntie, don't be cross, but this is something very important."—Chicago Tribune.

Soldier's Superstition. Cavalrymen have a superstition of their own. A mounted man firmly believes that he will come through the deadliest charge unscathed if he carries on his person the tooth of a war horse, and in those of the British Charles said, "Auntie, don't be cross, but this is something very important."—Chicago Tribune.

CANAL GUARD VICTIM OF SUDDEN DEATH

NED STONE OF KIMBERLY FALLS IN FATAL ILLNESS AS HE STEPS FROM OAR

In the act of stepping from an automobile Tuesday afternoon at the high line canal siphon, four miles west of Kimberly, where he was employed as a guard, Ned Stone of Kimberly, aged 60 years, dropped forward on his face, as a result of heart disease or of an injury which he may have received at that time. He was brought to Twin Falls by members of the family of Stuart Stevens, who was with him at the time, and given medical attention at a local hospital, where he died Tuesday evening. The remains are at the Crosby undertaking establishment.

Mr. Stone had been a resident of Kimberly for some time, and was the owner of a five-acre tract one-half mile west of that town. He is survived by his widow and one son, C. N. Stone, aged 18.

Funeral services, unless arrangements are changed upon word from other relatives, will be held Wednesday afternoon from the Kimberly Christian church, under the auspices of the Odd Fellows lodge.

FOOD ADMINISTRATION HOLDS FLOUR RESERVE

Supply of 500,000 Barrels Held Up to Avert Possible Famine

(By United Press)

WASHINGTON, June 12.—Emergency reserves of flour totaling 500,000 barrels are piled in more than twenty cities throughout the United States for use in case of bread famine, it was learned at the food administration today.

These stores, equivalent to 2,250,000 bushels of wheat, have been held by the food administration at great industrial centers since early last winter. With the present flour and wheat stocks practically exhausted, it is possible that these reserves will have to be drawn upon. They constitute a two weeks' supply for the coaters in which they are stored.

Industrial centers where the population would be most helpless in case of bread famine were selected as reserve cities.

CHICAGO, June 12.—The appraisal of Count James Minotto, possessor of Louis F. Swift, Chicago packer, was withdrawn in the federal courts of appeals here today. This action formally ends the young Italian noble's opposition to internment under a presidential warrant. Minotto, now at Ft. Oglethorpe, Ga., was represented by attorneys.

Japanese "Fish Sausage"

The "kamoboko" or "fish sausage" of the Japanese is described by a consular report as made by chopping the white meat of any fish, passing through a strainer, and making into a paste, with a flavoring of sugar, salt, and rice-brewed alcoholic beverage called "mirin." The paste is made into loaves, steamed on boards an hour and a half to three hours, and at once packed in cans.

All appointments are made by the president, generally upon the recommendation of senators and members of congress.

Lobster's Shell.

The shell of the lobster is imbued with a black or bluish pigment, secreted by the true skin, which also gives out the calcareous matter after each moult, so that time and pigment are blended together. This pigment becomes red in water at the temperature of 212 degrees Fahrenheit.

Just Landed.

"Clarence is so potted," she sighed, "when I accepted him he said he felt like an immigrant entering a new world."—Millstones.

Iron Rust.

Few stains are so obstinate as iron rust is. They may, however, be removed from delicate fabrics by covering the spot thickly with cream tartar, then twisting the cloth to keep the tartar on the spot itself. Put that into a pan of cold water, bring gradually to boiling point, and afterwards rinse in the usual way.—Exchange.

Daily Thought.

To be able to obey ideas, to be free from self-consciousness, to be simple—these are the secrets of courage.—Phillips Brooks.

Airplane Needs Much Wood.

About 200 board feet of wood is used in the actual construction of the average airplane. To obtain this material it is ordinarily necessary to work over about 1,500 feet of select lumber, which often represents all that can be used for airplanes of 15,000 board feet of standing timber.

Readers of the Daily News are men and women who are in the market for the best the market affords. Tell them about what you have to sell.
