MORNS PLUNDER BAKERIES AND STONE RESIDENCE OF PREMIER VON SEYDLER—BURGOMASTER DECLINES TO GUARANTEE RESTORATION OF ORDER DUE TO LACK OF GOVERNMENT CO-OPERATION AND DECLARATION OF MARTIAL LAW LIKELY—TROUBLE SPREADING

(By United Press) AMSTERDAM, June 20.—Cavalry regiments have been rushed to Vienna, where extremely serious bread riots have broken out, according to advices from German sources today. The mobs are reported to have stoned Premier von Seydlers' residence and to have plundered bakeries. Establishment of martial law is declared likely. The burgomaster has declined to guarantee the return of order, his demand for dried vegetables to be made up for the lack of bread, having been refused by government officials.

Demanded Speedy Peace AMSTERDAM, June 20.—The Vienna labor council has passed a resolution declaring that a substantial, lasting improvement in the food situation is impossible during the war and demanding a speedy, general peace, it was learned here today. At the same time, the city council adopted a resolution energetically protesting against reduction of the bread ration.

ZURICH, June 20.—There is enormous feeling in Vienna regarding reduction of the bread ration, according to dispatches received here. What is practically a general strike is said to be formulating in Vienna and Neustadt. The trouble is spreading to the provinces.

SENATOR HENDERSON OF NEVADA TAKES LIVELY INTEREST IN TWIN FALLS TO WELLS LINE—THIS SECTION WILL COOPERATE TO LIMIT

That there is a better chance today than ever before for the building of a railroad between Twin Falls and Wells, Idaho, via Coalinga of Nevada, was Senator Henderson of Nevada, who is now preparing to bring the matter to the attention in the proper quarter at Washington with a view to having the road built as a war measure, on the ground of the enormous saving in perishable crops in the Twin Falls country, and the making available of the huge copper deposits of the Nevada camp. This information was given out by Henry Smith and Blaine Hanks of Coalinga yesterday. Mr. Smith stated that Senator Henderson of Nevada was particularly anxious that steps be taken to ensure the interest of the members.

WESTERN UNION MEN ARRESTED BY GOVERNMENT

POSTOFFICE DEPARTMENT SAID TO HAVE EVIDENCE OF FRAUD BY COMPANY

WASHINGTON, June 20.—The government today arrested five Western Union messengers in Washington, Baltimore, Philadelphia, New York and Boston, securing evidence to support a charge that the Western Union was operating in illegal competition with the postoffice and in fraud of the postal revenue laws, by delivering night letters and messages via train.

It is alleged that the Western Union is for slipping so-called "night letters" for mailing by wire, charging wire rates and then delivering them by messenger between these cities. Thousands of these letters have been delivered "via suit case instead of wire," nightly for weeks, it is stated.

The Western Union has been getting no times as much as the postoffice for the same service, officials pointed out. The night letter rate from Washington to Baltimore is 25 cents, plus a five-cent war tax. The postage on a letter making the same trip on the same train is three cents.

Has Lots of Evidence The postoffice inspection department announced today that "abundant evidence has been kept working on these movements for some time back." This is taken to mean that the department has sufficient proof to run the Western Union company's fines, if it is established, into many thousands of dollars.

The department also announced it is assumed these movements have been going on all over the country where train times do not take more than five or eight hours and that they are checking up on scores of cities now.

The messengers arrested today all carried brief cases filled with night letters and telegrams dated yesterday and prepared to look as if they had been taken from the wires at receiving cities, it is stated.

Carlton Not Surprised NEW YORK, June 20.—The following statement regarding the raids made by the government on the Western Union company in this and other cities was given out, in printed form, at the office of New York Carlton, president of the company today.

"Mr. Carlton would not discuss the subject, as he deemed it improper to do so since he understood the matter had been presented to the grand jury, but he did say that the public need not be alarmed at the attacks that might be served against the Western Union at this time."

SOCIALISTS STRONG FOR PUSHING WAB

NEW YORK, June 20.—A pro-war declaration composed of John Spargo, former member of the executive committee of the Socialist party, Louis Kopella, editor of The New Appeal, formerly the Appeal to Reason; A. M. Simmons, a Socialist writer of Milwaukee, and Alexander Howat of Pittsburg, Kansas, Socialist member of the United Mine Workers of America, is today on its way to Europe. It will oppose any attempt of radicals of allied countries to talk peace with German Socialists at the conference called by the British labor party for June 28.

Given New Position PARIS, June 20.—Andre Turcan, former head of the French mission to the United States, has been appointed general commissioner of Franco-American war affairs. It is officially announced. This is a newly created position.

Shows and thunder storms tonight and Friday are forecasted for the Twin Falls district in the prediction of the department of agriculture weather bureau, as transmitted this morning through the local telephone exchange.

HOOVER WOULD SAVE FARMERS MILLIONS OF DOLLARS

REPORTS OF PROFITEERING BY THRESHING MACHINE OWNERS LEADS TO QUICK ACTION BY HEAD OF FOOD ADMINISTRATION

WASHINGTON, June 20.—Efforts to save farmers millions of dollars excess threshing charges are under way by the food administration, it was learned today.

With harvest beginning in the great wheat belt, reports of profiteering by threshing machine owners are reaching the food administration. Some farmers are being held up for a threshing fee of 50 cents a bushel on wheat. Increased machinery and labor shortage are giving rise to this.

Farmers held down by the fixed \$2.50 wheat price are unable to pass this charge along and must bear it themselves. An average increase of one cent a bushel in threshing fee would cost American farmers about \$100,000,000.

Hoover is organizing threshing committees in every wheat-growing county which are to determine a just threshing fee. Profiteering will be guarded against. Increased fees are to be expected, however, because of the increased machinery costs and the general rise in prices. Threshing rates have remained practically the same as in 1911, when wheat was \$1. When prices have doubled since, then the threshing charges must be permitted to keep pace with the advance in all other things. No uniform schedule of fees can be drawn up because of varying local conditions.

Many Schedules Fixed Fee schedules have already been agreed upon in many sections in Texas, Oklahoma, Kansas, Missouri and Iowa. As the season advances, Minnesota and North Dakota and the Dakotas will be reached. Oklahoma prices range from 10 to 18 cents a bushel in some districts. Missouri's scales are from six to ten cents. One Illinois district has fixed its price as low as eight cents a bushel.

Thomas Threshing Owners Threshing machine owners are being licensed and will be under the supervision of the threshing division of the food administration, newly created to handle the problems of hoarding.

In each county in the wheat belt the county food administrator has been asked to organize a local committee to determine all questions of fees and harvesting on the basis of local conditions.

MAY BE VICTIM OF SUBMARINE

AN ATLANTIC PORT, June 20.—That a British ship may have fallen victim to a submarine operating off the American coast was the belief here following arrival of a United States fruit liner which had an exciting voyage from Havana. Passengers aboard the liner said the ship received calls for help from the British craft Sunday, which said a submarine was using its guns. The liner had been ordered into port, however, and could not turn back.

CANADIAN CROPS ARE IN NEED OF RAIN

WINNIPEG, Man., June 20.—Crops from Winnipeg west to the mountains are in critical need of rain, according to J. D. McGregor, director of agricultural labor of Canada's food board here today. The weather of the next two weeks will determine crop conditions, he said, but the uncertainty makes cooperation through North America essential.

TRANSFERS FROM RED CROSS WORK TO THE Y.M.C.A.

L. L. BROCKENRIDGE OF TWIN FALLS, IN FOREIGN SERVICE, SEES GREATER NEED

Loyal L. Brockenridge, manager of the Twin Falls Milling & Elevator company, who left March 25 to serve in an executive capacity in the Red Cross work in France, has transferred to the Y. M. C. A. work abroad. In a letter, written May 25 in Paris, received this week by Mrs. Brockenridge, Mr. Brockenridge says regarding his new work: "I have transferred to the Y. M. C. A. work now and am to leave this point for another part of France the first of next week. No doubt this will be somewhat of a surprise to you, but I found what seems to be a larger work, or at least a work that needed doing more, and went at it.

Works With Rhodes
"I shall be with Mr. Rhodes quite a little of the time. He was general secretary of the Y. M. C. A. in Portland for the northwest and came frequently to Twin Falls in the interest of the work. He is doing a great work over here, and is loved by all the workers, by whom he is commonly known as 'the big man on the block.' I presume, that he moves, but he surely is working and going some. He seems to think that I can at least keep up or in sight of his dust.

At Business End
"I will have the business end of the sector he is here to look after. It is really the most important sector at this time, and has been somewhat disorganized during the past two months, but is getting going again in fair shape and is growing at a wonderful rate. I shall have to look after and oversee the securing of funds for the post, as well as changes and the transportation of them from the exchanges to the canteens."

HUNS ENGAGED IN DIGGING TRENOZES

By Fred B. Ferguson
(United Press War Columnist)
WITH THE AMERICANS ON THE MARNE, June 19.—The Germans on the Chateau-Thierry front, "fed up" with the style of fighting diaped up to them by the Americans, are trying to force our men to accept a reversion of trench warfare.

This sector has undergone a vast change in the last few days. Not only have the positions become stabilized, but the trenches are getting elaborate and better trenches.

The huns are digging wire before their new trenches as though they had no immediate intention of trying to push on. They are being strengthened daily by reinforcements.

Heavy Artillery Arrives
Our troops, however, are taking up stabilized warfare with the same avidity they displayed in open fighting.

The recent arrival of German heavy artillery on this front was heralded by bombardment of areas ten kilometers (six and a third miles) in the rear of the American positions. At the same time the American artillery pounded German rear areas, shelling a wood where enemy reserves were mobilizing, gaining their gun positions and spraying shrapnel over roads where supplies and men were being transported.

EASTERN APPLE CROP FAILS
Practically no entire failure of the apple crop this year in Massachusetts is a result of the severe cold weather of last winter is reported by Mrs. Ida E. Miller of Sherburn Falls, Massachusetts. "The apple orchards here are in very bad shape this year owing to the intense cold of last winter," she says in a letter recently received here. "The Baldwin are nearly all killed, the trees standing like dead sentinels at their post. A great loss has resulted to our farmers who clean up thousands of dollars every fall, as this is a great apple producing section."

Needful Things
"Tis a good old world to buy in, so you need a pile of wealth; to stay in, so you need the best of health; to play in, so you need to be with folks; to love in, so you need to tell some jokes; to pray in, so you need to be alone; to talk in, so you need a telephone; to dine in, so you need your larder full; to rise in, so you need some push and pull.

Roller Bearings
Ball bearings are a German invention, and it is only a comparatively few years ago that they made their appearance on the market. Roller bearings, both cylindrical and conical, are an American invention. The first roller bearings claimed for the rollers over the balls are that they can sustain both the radial and the axial strain and they are more easily replaced when they become worn.

LIMITS SUGAR FOR CANNING

TWENTY-FIVE POUNDS IS MAXIMUM PURCHASE, CARDS NOTWITHSTANDING

Purchase of sugar for home canning, for the present at least, must be limited to not over 25 pounds, regardless of the 100-pound provision of cards now in circulation, according to regulations made effective in Twin Falls county today by Food Administrator C. E. Munson, upon receipt of the following telegram from H. F. Bicknell, state food administrator:

Washington wire that the sugar situation is becoming more serious because Cuban deliveries are shorter than expected. Submarine losses and consequent disinclination of shipping facilities further aggravated the situation, while consumption remains large. Purchase of sugar for home canning for the present at least must be limited to 25 pounds. This must be enforced regardless of the 100 pounds provision of cards now in circulation.

Manufacturers on statement A who have not filed statements by this date must receive no further sugar allotment this year.

Even though we have a temporary surplus in Idaho, conservation is important, as this sugar must be distributed over a considerable period.

Make these regulations immediately effective.

MOTHER GOOSE FESTIVAL CHAUTAUQUA FEATURE

Either Jane Clark is Pageant Director.

More recognition is being given this year than ever before to the Junior Chautauqua, always an important department of the Chautauqua week.

Either Jane Clark, an expert pageant director and playground worker, is to have general supervision over the children's work and is to personally have charge of the Mother Goose Festival on the closing night of Chautauqua. This pageant will be the delight of both the children who take part and the grown-ups, too. It is a rhythmic, fanciful narrative, introducing the children's favorite Mother Goose stories and characters. In addition to the Mother Goose Festival or pageant there will be the regular story hour and children's games the other days of the week with the Junior Supervisor in charge.

Either Jane Clark.

MARY PICKFORD in "Amarilly of Clothesline Alley"

By Belle K. Maniates
Scenario by Frances Marion, Directed by Marshall Neilan

An ARTCRAFT Picture

Surrounded by Luxury and Refinement, Yet This Remarkable Lady—Amarilly—Preferred to Marry a Bartender
VAUDEVILLE---ROSS ROTH COMPANY

TONIGHT Friday and Saturday

IDAHO THEATRE

Fascinating Screen Facts

A prize fighter whose sole conversational asset is the terse phrase "Let's Go!"; a chorus girl; a millionaire's son; a demoralized old valet;—these and many others make up the amusing cast of Charles Ray's newest Paramount picture, "The Family Skeleton" which is to be shown at the Idaho Theatre the first of next week. Sylvia Bremer plays the leading female role in support of Mr. Ray while clever Billy Elmer is the expert fighter. Other players in the cast are Andrew Arbuckle, Otto Hoffman and Jack Dyer. Under the personal supervision of Thomas H. Ince himself, Victor-L. Scherzinger directed the entire production.

According to announcement just made, William B. Hart is expected to marry in the near future. The Artcraft star will wed Margaret Evans, daughter of a cattle man of Butte, Montana.

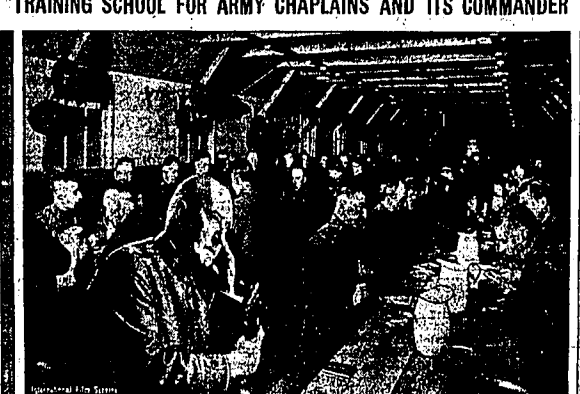

Edith Bennett's latest Paramount picture, "A Desert Wedding," gives the Ince star a role in which she does her best work.

Chinatown, as it was some years ago, with the big dance-halls of the Barbary Coast and the molting cravers from the fleets of the world anchoring in the Golden Gate, making the most of their time on shore, is shown in Mary Pickford's latest Artcraft picture, "Amarilly of Clothes Line Alley," will be shown at the Idaho Theatre beginning Thursday. The exterior scenes were filmed on the streets of San Francisco and scores of stunt-eyed Mongolians added "atmosphere" to the picture.

"Amarilly of Clothes Line Alley" was adapted by Francis Marion from the novel by Belle K. Maniates, and presents "America's Sweetheart" as a product of the slum, who has some amusing and exciting experiences. Among her admirers are two favored ones—a bartender and a gilded society youth. She meets the latter when he gets-knocked out in a brawl which takes place while he is on a slumming tour.

The production was directed by Marshall Neilan, who has been in reputation for a number of Miss Pickford's recent successes, including her last picture, "Stella Maris."

DESCRIBES HUN SINKING OF A U.S. TRANSPORT

SOLDIER IN MEDICAL CORPS ON BOARD DESTROYED VESSEL TELLS OF SUBMARINE ATTACK

A graphic description of the sinking of the American transport President Lincoln by a German submarine is given in a letter received by Miss Corliss Almondinger of this city from Herman Young of Toledo, Ohio, a member of the medical department serving as an orderly to a medical officer on board this ship. He says: "Eighteen Hours on Raft"

"I had several letters for you written at different times on our trip over and while lying in the harbor in Exton, but you will never read them and this can't make their place. Could have brought them along too, and increased their value by saying 'these letters were with me when a German ship wrecked us and were with me eighteen hours in the ocean on a raft.' But I didn't take time to hunt them up, though I would have had time—35 minutes. Had a good notion to take pictures. Had quite a nice assortment, too, but didn't know at the time that I would get a life out."

"It was, the ocean didn't wet a thread of my clothing, although I lay on a raft in the water for the biggest share of the eighteen hours."

Saw Torpedoes Coming "Our destroyer convoy had left us about twelve hours before and were still with the other ships about 400 miles from land when two torpedoes struck us on the port side near the bridge and about ten seconds later both of us just aft amid ships, the boat floating considerably to the port immediately."

"Quite a number of our crew saw the torpedoes come for us. I happened to be busy in the laboratory which is on the starboard side, but know in-

mediately that we were bumped. Our other ships left us as quickly as they could but continued to send out S. O. S. calls for sometime after our radio message was compelled to jump."

"This happened in the middle of the forenoon and about 11 o'clock in the evening the destroyers picked us up, having made a record trip of about 450 miles, and bringing us back to the French port and on this fine boat which is bringing us home at a much faster rate than we ever traveled on the Lincoln."

"We lived on the destroyer for thirty-six hours, and on our way up stopped here and there to chase other and imaginary subs; at least we dropped depth bombs for them."

Huns Stay in Offing "While bobbing up and down on the raft, the German sub came up, cruised in amongst the rafts, took our first lieutenant and tried, their boat to sink our captain. He disguised himself by exchanging caps with one of the sailors and began pulling away at an oar. They also picked up a seaman, gave him some coffee and put him back on the raft. They hung around on the horizon until the middle of the afternoon."

"I'll never forget the sight of the good old home going down slowly until her main deck submerged, then down with the rushing in-whirling of the sea. We were very near—20 feet, perhaps—when she disappeared. There was hardly any auction."

"Almost a year since I enlisted June 18, and surely new experiences have been piling in. We are all hoping to get furloughs now that we have to start all over again apparently as we are getting used to new ships in case we are not to go on a new ship as a whole, which is not likely."

Receives Special Reception "The men on the destroyers surely did treat us fine, giving up their bunks and doing their best to make us comfortable. I saw the hospital came in with all manner of offerings including clothing, toilet articles, tobacco and money. You should see the array of uniforms—officers with bag's hats, watch caps or sometimes bathrobes, as was the case on the destroyer, while clothes were drying. We are riding as passengers now, feeding as the navy knows how to feed."

Effective Thursday morning, May 8, and continuing until the completion of road improvement work now in progress, the Shoshone falls grade will be closed to traffic of all sorts except between the hours of 8 o'clock p. m. Saturdays and 8 o'clock a. m. Mondays.

Chinese Alarm Clock Effective. The first type of alarm clock invented is still in use by the Chinese. It consists of a piece of slow-burning iron stick, cut to the proper length, lighted and put between the sleeper's toes. It is probably the most effective device of the kind known, for when the appointed hour arrives the sleeper does not roll over and wait for the clock to give a second alarm; he gets right up.

There Are Always Others. In every circumstance of our lives lies the stirring knowledge that one's own case, however strange, is far from being singular. There are others besides myself with whom Poverty has taken up its abode; there are others from whose cup Despair has daily drunk; who, looking up from their daily bread, have found Borow's eye forever on them.—Laura Spencer Porter, in the Atlantic.

Don't Be Like Her. There are any number of pitfalls waiting the girl who is always setting her mother right, and who boasts the fact that her parents are "so old-fashioned." And there is no better safeguard against the world's evils than confidence in a girl's heart that mother knows best.—Exchange.

YOU VOTE ON SATURDAY

Citizen residents of the proposed Twin Falls Independent Highway District have it in their power by their votes on Saturday next to transfer the administration of road matters from the jurisdiction of the County Commissioners, where they are of necessity made subservient to other considerations...

The only appeal to be made in connection with the Saturday election is that there shall be a large and representative vote cast. The opportunity is one that ought not to be neglected. The election should be marked by absence of the tendency to let some one else do it, and everyone should avail himself of what is both a privilege and a duty in this instance to cast his vote for improved road conditions.

THE WAR TODAY

By J. W. T. MASON (United Press War Expert)

One Year Ago

The British made further gains between Arras and Lens and repulsed the German counter attacks.

General Brullov, commanding the Russian armies, replying to congratulations from General Robertson, British chief of staff, said: "In honor bound, free Russia's armies will not wait to be their duty."

Two Years Ago

The Russians continuing their advance against the Austrians, occupied three villages in the Carpathians.

The Germans heavily bombarded the Verdun defenses.

The Austrians and Italians fought without marked advantage in the Trentino.

Three Years Ago

The Russians were in general retreat along their whole front west of Lemburg.

The French took a trench north of Arras at the point of the bayonet.

The Turks began a vigorous offensive at the Dardanelles.

Duty and Beauty

"Dip your fingers in strong alum water to harden them," advises the beauty expert of a Western contemporary. "Then apply vaseline over night and in the morning after washing in soap-water, polish them with talcum powder." Just to combine duty with beauty and as an item of helpful preparedness, those who follow the suggestions might use the same alum water in the dish water, scouring the dishes vigorously over the dishes—Providence Journal.

Three Permissible Lies

"A. Boswell of Hagstad," who is a philosopher and a prophet in the V. E. League, after utterance to this bit of information: "Every lie shall be written down as a lie by the recording angels, with the exception of three: a lie told in order to reconcile two men; a lying promise made by a man to his wife, and a lie to which a man, when engaged in war, makes a promise or a threat."

Stalled

A writer in the New York Evening Post makes a day set aside for returning to be a novel idea. So far as an experience goes, all the days in the year are set aside in that respect, and are so thoroughly side-tracked that they never get on the main line.—Buffalo Times.

Summer Arrives

NEWS and GOSSIP OF WASHINGTON

Washington Residents Fleeing the Patriotic

WASHINGTON.—"Most persons are greedy." The words were spoken by a Washington woman who had been observing with some disgust the way many of her fellow Washingtonians were exploiting the war situation. "Some, I know," she said, "have an apartment that they used to rent unoccupied for \$45 a month. They have furnished it simply and tastefully and they are now getting \$150 a month. I call that performance simple extortion."

It is, obviously, extortion. And it is a typical case. Many of the sufferers from the extortion have come here out of patriotic motives and are working for the government either without pay or for very much less than they are used to getting. A cable man came here and offered his services to one of the most important of all the war boards. He was told that he would be given a position if he would agree to take 40 per cent of his average salary for the last three years. He did agree and he went to work with a will and he wrote to his wife and children that he would send for them just as soon as he could find the right kind of house.

He finally was driven to thinking that it would be best for him to take an apartment that was furnished. But he couldn't find one. At this point he decided to go home. The government lost an able worker through not taking care of his property. Now it realizes and it has provided an agency to see that the war workers are properly housed.

Be the PUBLIC EYE. CHAMPION OF BABIES. In all the cities of America there is a feud between the landlord and the baby. And in all the cities but one the landlord is usually the winner. Babies are not wanted in modern flats. But one city official, James F. Gannon, Jr., commissioner of revenue and finance in Jersey City, has been musing about it in the crevices of the law and has discovered a way of assuring to the baby its happy home. He has already opened fire on the baby-landlords of the city and dared them to put another infant out on the streets. Moreover, he offers his plan free of charge to all other cities, with the assurance that they can similarly make use of it to protect America's next generation. Commissioner Gannon admits that the landlord is within his technical rights in choosing whom ever he likes for his tenants. But the city has technical rights, too. And he says to the landlord: "Very well, if you insist on the letter of the law the city will do the same. If you insist on discriminating against families with children the city will raise your tax assessment to the limit. If you try to come back we will hit the case out before the bar of public opinion. And you will lose. For Jersey City is on the side of the babies, and don't you forget it!"

Milwaukee Twins Hailed as "Champion Runaways"

MILWAUKEE.—With the title of "Milwaukee's champion boy runaways" Milwaukee tucked away in their pockets, Joe and Billy Purpora, eleven years old, have added to their accomplishments the feat of successful financing.

The wandering twins are back in the Purpora family circle. The couple of Huckleberry Flans managed to amass the grand total of \$2 during their absence from the parental roof. Accompanied by a big police sergeant the twins were returned to their home not the least bit fagged out by the experience and apparently very much regaled on candy and pie, which was their chief diet, according to Joe. Billy told interviewers that they spent the daytime in seeking out "junk," which they sold to the ragman and used the proceeds for things dear to the hearts of every well-bred youngster. The twins followed their heads at night in the rear hallway of a downtown moving picture theater, so Joe said, and were patrons of the place during the day.

Torn pants—that is, Joe was the offender—are blamed by Billy for having prompted the twins' latest expedition. Billy said Joe met with an accident necessitating an attempt to repair a rent in his pantaloons, the operation having made them late for school in the second place, and it was not altogether a success in the second place. So they just naturally didn't go to school. The rest has been told.

The Load Must Be Divided

WE are doing everything in our power to assist in the prosecution of the war. We have met every requirement of the Government in the way of furnishing facilities for its needs. At the same time we have successfully maintained commercial service of satisfactory quality. We have done this in the face of enormously increased costs of material and labor. In fact, it has been a tremendous burden, and we have carried the load alone.

The difficulty lies in the fact that our revenues have not increased in proportion to our expenses. Telephone rates have remained stationary while everything that goes into the rendering of telephone service has advanced in cost. This condition has continued until we are confronted by a constantly increasing deficit. We are glad to assume as much of the load as we can possibly carry. We feel it is our patriotic duty to impose no burden upon the public which we might carry ourselves. But our resources are limited as they are in any other business, and we have finally reached, and even passed, the limit. The question of service is a question of revenues. Hence, the problem of producing revenues adequate to the needs of the service is one with which the public and the Company are mutually concerned. Existing conditions make it imperative that some adjustments be introduced whereby the service may be insured against deterioration through inadequate revenues.

Lines to Be Remembered. Grounds for Quitting. Ode's "John Hancock." The first man to sign the Declaration of Independence was John Hancock and he wrote his name so large that, as he said, King George III of England could read it without eyeglasses. INVITING TO THE BIG CELEBRATION

LOCAL BUSINESS MEN SPEND DAY ON VISIT TO NEIGHBORING TOWNS

Seventy-five Twin Falls business men, under the leadership of five captains, left the Perjine Hotel at 6 o'clock this morning, traveling in automobiles to several neighboring cities and towns on a "get acquainted" excursion, and leaving, incidentally, personal invitations to all whom they might meet to come and take part in the Fourth of July celebration here. Especial emphasis is made in their invitations to that fact that all of the proceeds from the affair are to be donated to the Red Cross, and that any Red Cross organization, so disposed, is privileged and invited to put on its own attraction to draw a share in the proceeds for its own use.

The party under the leadership of James McMillan is visiting Kimberly, Hansen, Murtagh, Rock Creek and McMillan. Sam Hart leads the party going to Berger, Hollister, Rogerson and Clover. The men with L. T. Wright are going to Burley and Rupert. Those with E. J. Ostrander are calling upon the citizens of Jerome, Hazelton, and other towns of the North Side, while Judge E. A. Walters leads the party going to Filer, Buhl and Castelflor.

SAYS HUNS INCITE MEXICAN TROUBLES

Orin B. Harper and family of Herndonville, Mexico, arrived yesterday to be the guests of Mrs. J. E. White, Mr. Harper's sister, at White Haven for the summer. Mr. Harper has traveled extensively in this country, Mexico and South America, and states that the Twin Falls tract so far as he has seen is one of the most wonderful stretches of country he has encountered and hopes to locate here.

Conflicts in Mexico are in such a state, owing to frequent uprisings, many of which were instigated by German propagandists, that Mr. Harper was forced to return to the United States to insure the safety of his family.

KIMBERLY FARM BUREAU DAY IS WELL ATTENDED

DISCUSSIONS OF FARM AND HOME PROBLEMS PROFITABLE-SALE BENEFITS RED CROSS

(Special to The News)
KIMBERLY.—More than 300 persons attended and took part in the discussions and exercises of farm bureau day here Wednesday. The sale of donated poultry, eggs and light refreshments from booths that stretched over a distance of half a block brought in the proceeds in excess of \$400 to be donated to the Red Cross.

Following a picnic lunch at noon in the park, a stirring patriotic address was delivered by Rev. D. J. Roberts of Jerome. Speakers at the evening session in the high school were Dean E. J. McLaughlin of the Agricultural College, University of Idaho, and County Food Administrator C. E. Munson of Twin Falls.

Dean Hiddings pointed out the necessity for the live stock industry of the county to make good the broods made in Europe by the war. Discussing in characteristic style the topic, "What and How Shall We Eat During the War," Mr. Munson pleaded for economy and strict adherence to the regulations of the food administration.

Want Better Bridges

Consequent upon a general discussion relative to economy in resolving, the meeting adopted a resolution requesting the county commissioners to repair bridges over the county, even if it were necessary to accomplish this end, to take the workmen off the Shoshone falls gage improvement work.

County Agent Donald McLean led a committee of the grain storage problem, declaring that it is probable that no grain will be moved out of this district until spring. There is a possibility, he said, that arrangements may be effected for securing loans of money on the grain crops, but this matter has not yet been definitely settled.

Robert H. Smith, assistant entomologist of the state university, who is conducting clover aphid control investigations in Twin Falls district, discussed the pest at the meeting and indicated the best method of control on the J. M. Stetelmuth farm, where a demonstration was conducted.

Many Women Present

The women's program, which included demonstrations in canning, and the preparation of cottage cheese and oatmeal meals, was attended by 175 women. Miss Gertrude Demco, county home demonstration agent, and Miss Jennings, a demonstrator for the federal food administration, conducted the demonstrations. Organization of a women's conservation league was effected.

Talismans and Amulets

The truth is that deep down in the complex nature of most of us there is a certain regard for the occult, of which, however, our higher intelligence may disapprove, we find it difficult to rid ourselves entirely.

While the word mascot has long been common in Procece and Gascony to denote something which brings good fortune to a person or household, it is only within the last 30 years or so that it has passed into common use in Britain. It owed its introduction largely to Edmund Andran's well-known comic opera "La Mascotte."

Not only the word is modern. The use of talismans, amulets and charms which were really prototypes of the mascot, goes back to a very remote age. The ancient Egyptians wore amulets fashioned in the shape of gods, men, animals and insects. The stones in the shape of beetles often found in Egyptian tombs gave courage to the wearer. Figures of frogs were also held in particularly high respect.

Dwarf Trees in Small Gardens.
Dwarf trees are suited to small gardens, they occupy little space, are easily cared for, bear sooner than standard kinds, and they are easily shaped into bushes, hedges and insecticides. They are sold in espallier form, trained on buildings, fences or trellises.

LOCAL BRIEFS

Recovering Rapidly.—A. A. Walters, father of Judge E. A. Walters, who has been seriously ill at the Twin Falls hospital for some time, is improving rapidly.

Will Serve as Nurse Abroad.—Miss Geneva Stafford leaves tonight for Portland, Oregon, where she will take extensive Red Cross training during summer in preparation for work in France, where she expects to be sent early in the fall.

Back From Business Trip.—Kennedy returned Wednesday from a two weeks trip into the region about eighty miles north of Boise, where, with L. L. Noyes, formerly of this city, but now of Boise, he inspected mining property in which they are interested. The trip was made for the most part, in an automobile.

Johns Quartermaster Corps.—Theodore P. Warren, son of Mrs. Emma L. Warren, and a grandson of C. L. Long, has been accepted by the local army recruiting station for enlistment as an automobile mechanic in the quartermaster corps, and expects to leave shortly for Salt Lake to complete his enlistment.

Is Mountaineers Superintendent.—H. Dorman, whose resignation at the end of four years served as principal of the Twin Falls high school, was recently retained as superintendent of schools at Mountainhome, Idaho, at an annual salary of \$2400, according to word from him received by Superintendent Hal G. Blco.

Undertake War Work.—Miss Lena Eckert, who has been a stenographer for some time past in the County Auditor's office, left Wednesday morning for Washington, D. C., where she will serve in the office of the General Bureau. Before her departure she was presented with a letter of recommendation and a lovely ruby ring by her employer, Mr. Finch. Miss Mattie Coates, an employe of Nibley Chanalls, accompanying her.

Completing Assessment Rolls.—The assessment rolls for all of the real property in Twin Falls county will be completed and submitted to the county commissioners at their meeting on Monday next, according to Assessor George W. Virox, who is gratified over the accomplishment of this task within the limit of the time prescribed by the statute. The last report used in the preparation of these rolls was turned in Wednesday by Deputy J. B. Palgout, who had been working in the Shoshone Basin districts.

Will Join Army Band.—Isador F. Friedman, son of Mr. and Mrs. I. Friedman, has been granted permission of the local board to enlist in the regimental band of the Twentieth United States infantry regiment stationed at Fort Douglas, Utah, and expects to leave shortly for his new post of duty, where he has been advised, he will be assigned the part of the soprano saxophone player. Other Twin Falls members of the Twentieth infantry band are Ralph Pink and Orin A. Fuller. Mr. Friedman was a member of the old Second Idaho Regimental band while in the federal service on the Mexican border, but was rejected on account of defective vision, when the regiment was called for service abroad last spring.

Solutions and Air

Many of the solutions used by photographers are affected by the air, and so have to be kept in well-closed bottles. Every time a bottle is opened, fresh air gets into it, and the change in its content is facilitated. To guard against this it is usual to recommend photographers to keep their solutions in several small bottles rather than in one big one, so that when once a bottle has been opened its contents are soon used up.

FAREWELL PLANNED FOR ARMY RECRUITS

WINE MEN LEAVE TWIN FALLS TODAY—FILER BOYS LOOKING FOR DUTY WITH ACTION ACCOMMODATED

Departure from Twin Falls for Salt Lake of nine recruits accepted for enlistment by the local United States army recruiting station is to be the occasion for a farewell demonstration in which the Twin Falls band, members of the Grand Army of the Republic and citizens generally are to take part, at 6 o'clock this evening.

Seven of the prospective soldiers leaving here today are residents of Filer, four of them being those who, in acquiescence to their own wish for duty with action, have been recommended for enlistment in the machine gun units of the infantry. Two are from Twin Falls—John D. Bradle, earlier on a rural mail route out of Twin Falls and the inventor of a non-overshooting airplane, which he has given to the government, and Richard

IN THE LIMELIGHT

EMPEROR CHARLES DEMOCRATIC

An Austrian emperor of high standing told in Switzerland of his first interview with Emperor Charles. He was himself one of the older school, and his experiences when called to the court of Emperor Francis Joseph had been visions of horrors of red and blue and gold functionaries and stretched faculty that made real conversation a farce. He was summoned by the young emperor, he said, and a time fixed for an interview. He went to the palace and gave his hat and coat to a servant in the first anteroom of the suite of offices in which the emperor had installed himself. Then he was ushered into the next room. There the emperor's adjutant confirmed the appointment, by consulting a memorandum slip, and told him to go into the next room, where the emperor was waiting. But the next room was empty and the adjutant said: "The emperor himself is in the second room; walk right through." So the visitor went alone through a long empty room, rapped on the door of the further room, and a "Hercules" walked into the emperor's own room. The emperor was alone. "We sat in a window seat for half an hour and talked," said the visitor. "Not a soul was nearer than the second anteroom, where the adjutant was waiting on letters. There was no servant or policeman or detective or other protection for him. To those of us who knew the old Emperor Francis Joseph it was hard to believe that this was a monarch of the same house. I think if another head of any first-class power to the war or out of it, would permit so little personal protection."

He Wanted to Be Quite Sure Everything Was All Right

THERE is a well of human interest in connection with the selective service law and its fulfillment, which has, as yet, hardly been tapped. Consider those 10,000,000 questionnaires filled out by the registrants of the land. What a mass of pathos, humor and fact are contained in those documents! Here is something that happened at a local board recently, when registrants were filling out their questionnaires. He was a poor country fellow. How he got into the city, and registered, and filled out his questionnaire, is no matter. What he said is another matter. After he had answered all the questions, he turned to the lawyer who had assisted him and said: "Now, is that all I have to do with this thing?" "Yes, just seal it and put it in the mail box," the lawyer explained again. The registrant still sat. "You say that is all I have to do?" he said, hesitatingly, at last. "Yes," replied the lawyer, coolly. "lick it, seal it up, and drop it in the mail box. That is all you have to do." But the country boy still sat. After a bit he shifted in his seat, and said: "Well, now, you say all I have to do is lick it and seal it and put it in the box." It is to the eternal credit of that lawyer that he never cracked a smile, but encouraged the earnest fellow, who finally went through the door, licking the flap of the envelope as he went.

A Summer School of Patriotism

This Chautauqua program is built for national service. The government has recognized the great value of Chautauqua in this war year and is sending lecturers to speak on vital war problems. Inspiring music is a war-time necessity and this musical program sounds a strong patriotic note throughout the week. There is splendid entertainment, also, to lighten and brighten war-worried minds.

LINCOLN E. WIRT

Sent to the Western Front by the Government, Spring of 1918, to secure information on actual conditions in the war zone. Will bring Chautauqua audiences the last word from Pershing and the American section of the line.

U. S. FOOD DEMONSTRATION

A food demonstrator direct from Hoover's department. Bringing new methods of conserving food and practical government recipes as worked out by the Food Administration. Morning of the last day at Chautauqua. No admission charge.

TRAVIU'S EXPOSITION BAND

The great Band which was honored with the opening and closing engagements at the San Francisco Exposition. Two big programs on the fifth day. These concerts will be worth more than the price of your season ticket.

GRAND OPERA SINGERS

Three grand opera soloists with voices of unusual power and brilliance will accompany the Band at night. These three artists are members of a prominent Chicago grand opera organization and will render a program long to be remembered.

President Wilson Indorses Chautauqua

THE WHITE HOUSE WASHINGTON

My Dear Mr. Flowers:

14 December, 1917.

It has been on my mind for some time to thank your organization for the very real help it has given to America in the struggle that is concerned with every fundamental element of national life. Your speakers, going from community to community, meeting people in the friendly spirit engendered by years of intimate and understanding contact, have been effective messengers for the delivery and interpretation of democracy's meaning and imperative needs. The work that the Chautauqua is doing has not lost its importance because of war, but rather has gained new opportunities for service.

Let me express the hope that you will let no discouragement weaken your activities, and that the people will not fall in the support of a patriotic institution that may be said to be an integral part of the national defense.

Cordially and sincerely yours,

WOODROW WILSON.

Mr. Montaville Flowers, President, International Lyceum and Chautauqua Association, Hotel LaSalle, Chicago, Ill.

WAR RESOLUTION AGAINST TURKEY AND BULGARIA INTRODUCED IN HOUSE

(By United Press) — WASHINGTON, June 20.—A resolution for a declaration of war against Bulgaria and Turkey was introduced in the house today by Representative Kelly of Pennsylvania.

The state department today formally inquired as to the reported Turkish transgressions against the American consulate and hospital at Tabriz.

The Spanish embassy was asked Spanish representative at Tabriz care for American interests there, and the Swedish legation was asked because it represented Teuton interests there.

OWNERS OF STOCKYARDS AND LIVE STOCK COMMISSION MEN AFFECTED BY NEW ORDER

(By United Press) — WASHINGTON, June 20.—President Wilson in a proclamation issued today requires owners of stockyards to secure licenses before July 25. The secretary of agriculture, thereby, is given virtual control of the yards in the act of conserving the food supply and directing its distribution.

JANITORS WILL GO; WOMEN TAKE PLACES

CHICAGO, June 20.—Another autonomy was upset today when the National Building Managers' association decided to displace with the janitor. Tenants will be asked to assume joint responsibility with new janitresses for office cleanliness. Elevator men will depart with the janitor, according to convention plan.

SEVEN ARRESTED NEW YORK, June 20.—Seven men were arrested charged with stealing several tons of fresh beef intended for the American expeditionary force.

CAMP LEWIS HEAD REDUCED IN RANK

WASHINGTON, June 20.—Major General Henry A. Green, who has been in command of the national army division at Camp Lewis, Washington, has been assigned to the command of the Philippine department after demotion to the rank of brigadier general.

It is understood General Greene has protested against the order, and is coming to Washington to make an effort to have it rescinded.

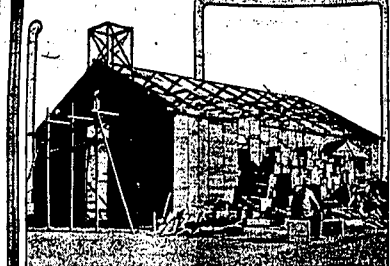

Army officers here are at a loss to understand the reason for General Green's demotion. Army inspectors, it is said, have found his work with the Camp Lewis division highly effective and his personal record above reproach.

CAMP LEWIS MAN FOR FORT DOUGLAS

CAMP LEWIS, Wash., June 20.—Lieutenant Colonel J. W. Jordan has been appointed to the rank of colonel. It was announced yesterday, and has been given command of the twelfth infantry regulars stationed at Fort Douglas.

Colonel Jordan has risen from the ranks. He enlisted in the Oregon volunteers during the Spanish-American war.

SERBS BUILD CHURCH OF EMPTY BOXES

Building materials are rather scarce where the Serb forces are campaigning in the Balkans, so the soldiers had to use considerable ingenuity when they set about constructing a church. Nothing else being available, they gathered all the empty boxes about and erected the church, shows here partly completed.

Manly Pride.

I remember when working in a flower garden was looked upon as a belittling work for a man to carry money. One man hired to dig, threw down his spade when told a place for flowers was being made, declaring, "I ain't got as low as to earn my victuals making a pokey bed."—Elizabeth Eddy Norton, in the House Beautiful.

Chinese Cleverness.

In making confectionery the Chinese are very skillful, and possess the reputation of being big money secrets. They are able to empty an egg and fill it with an almond without any one being able to find the slightest break in the shell. They also take the entire pulp from an orange and fill it up with fruit jelly without leaving a trace of an incision in the rind.

Sewing Machine Aid.

Take a board that will fit easily in the machine drawer and drive Galibing nails in it at regular intervals about two inches apart. Put your spools of thread on these nails, with numbers up, arranging white thread on one side, colors on the other and silks at the back.

Modesty.

'One way to create the impression that you are familiar with success' is to be modest.—Youth's Companion.

The Safest Guide.

The much-praised optimist, although to be admired, is not a safe guide. He tells us all is well, when it is not. He falls to see the pitfalls and urges us forward and we fall into them. Likewise the pessimist, although abandoned and berated, leads us to be ever cautious. Under his influence we creep cautiously down, where we will fall into the pit, when there is none.

Chinese Signal.

The Chinese do not beckon, as we do, with the palm of the hand turned up, the fingers curled and the index finger successively bending and straightening. They beckon with the fingers curled downward, sweeping the whole hand vigorously back and forth.

Where Cat and Gate Are Unlike.

The neighbors' back gate and the neighbors' cat sound very much alike on windy nights and there is little choice between them on this score, but we don't suppose the back gate can have any little back gates every once in a while.—Ohio State Journal.

True Respectability.

Having the courage to live within one's means is respectability.

SAVE RAILROAD

(Continued from Page One)

of the Idaho Congressional delegation in the move, and had already taken steps to secure the active co-operation of Senator Pittman of Nevada and the members of the California delegation.

Law Makes It Possible

The feasibility of the proposition is based upon the passage of the bill in Congress some three months ago providing for the creation of a Federal corporation with heavy capitalization and large bonding powers for the purpose of providing for the construction of railroads and other war measures in the interests of public economy.

Data is now being prepared for submission to Washington in an effort to show just what the saving would mean in perishable foodstuffs alone. In addition figures as to copper output are being prepared. The Twin Falls Commercial club has already appointed a committee to assist in any way possible, and Senator M. J. Sweeley of Twin Falls has been working on the matter for some weeks. It is understood.

M'ADOO ORDERED TO RETIRE TO RANCH

WASHINGTON, June 20.—Secretary McAdoo has been ordered by physicians to a ranch in the west. Believing his throat troubles was serious, the doctors ordered complete rest.

To Work Swiss Pest Bed.

According to the Geneva Tribune, a definite proposal at an early date to ask the federal council for a 5,000,000 franc loan for the development of the pest industry in Switzerland. The extraction of pest will be undertaken on a large scale, it being planned to work 24 pest grids.

Important Scientific Discovery.

Absolute proof that the gravitational attraction between masses of matter varies with changes in their electrical potential due to electrical changes upon them was obtained by Dr. Francis E. Nipher in a year of experiments in the laboratory of Washington university, St. Louis.

Friendliness Pays.

Cultivate the habit of meeting folks with a show of friendliness. Life will be made sweeter to you if you take more interest in your neighbors' health, business, hopes, success and failures.

What You Expect.

If you are looking for a chance to feel aggrieved, you will be sure to find it. No one can be on the lookout for slights and snubs without discovering them in plenty. The happy, wholesome girl, who takes it for granted that she is always welcome, and that everyone has the kindest intentions, is pretty sure to get what she expects.

Peculiar Coincidence.

Confusion of names took place at a wedding recently celebrated at Mandawell, Neyland, Wales, in which the bride, bridegroom, best man and bridesmaid all bore the surname of Thomas. At length, the exception that the bride-maid was a cousin of the bride was all unrelated.

The Blessing.

The real blessing, mercy, satisfaction, is not in the having or the lack of merely outward things, but in the consciousness that the true sources of life and happiness are deeper than all these.—John White Chadwick.

To Keep Awake in Church.

Some men wouldn't get so sleepy in church if the rostrum had footlights in front of it and the minister was a female garbed in a rag, a dab of red paint on a smile.—Cincinnati Enquirer.

Strong as an Ostrich.

The strength of an ostrich is pre-eminence; he can disembowel a horse or kick through a sheet of corrugated iron. To an unprotected man it is to open an infuriated ostrich is to do grievous as the iron. Many have lost their lives through ignorance of his strength, his speed, and his implacable ferocity.—William C. Scully, in the Atlantic.

No Joke.

A. S. S. claims that a man will stand all the positive stimuli he needs from his employer, and think nothing of it. But if he sees a street car conductor knock down a nickel he thinks he ought to notify the company.

Dimensions of the Vatican.

The Vatican, including a number of connected buildings, erected at different periods, covers a space of 1,151 by 707 feet and has 200 stairways, 20 courts and 4,422 rooms. No statement has been made of the number of servants employed there.
