YANKEE ARMY MOVES LIKE WELL OILED MACHINE

ADVANCE WEST OF CHATEAU-THIERRY ON TWO MILE FRONT ONE OF MOST BRILLIANT ACCOMPLISHMENTS OF THE WAR

By LOWELL MELLETT, (United Press Staff Correspondent) WITH THE AMERICANS OF THE MARNE, July 2.—American troops advanced on a two-mile front west of Chateau-Thierry last night, to the depth of about half a mile, taking 400 prisoners and inflicting the heaviest losses on the enemy. The American losses were extremely light. Our men took the village of Vaux, Hill 102, La Boche wood and penetrated Clermont wood.

Twenty-three minutes after they departed from their trenches the Americans were in Vaux. Half an hour later the American ambulances went over the top. The concentration of fire later on Vaux resulted in the hitting of practically every building in the town. Every man entered the place. When they reached the town they found the artillery had wiped out any resemblance to a house.

Operation Perfect. Perfect co-operation between the artillery and infantry made the American advance possible, as some portions of the German line were unusually well adapted to defensive purposes.

The advance was made on a front of about three kilometers (1.83 miles) and reached a maximum depth of a kilometer (.621 miles). One of the most remarkable artillery successes yet staged by Americans was the attack on the German line, which was thoroughly swept first. Complete neutralization of the German artillery was evidenced by the feebleness of its reply.

Combined Attack on Hill

Combined Polish and American attacks on Hill 102, conducted simultaneously with the American attack on Vaux, are reported to have been successful after a bitter battle. The hills are very important, dominating Chateau-Thierry, as well as the country to the left.

The village of Vaux is less than two miles directly west of Chateau-Thierry and is one of the principal defenses of the latter city. American wood is a mile and a half west of Vaux, Hill 102 is about the same distance northwest of Clermont wood.

Hill 102 is about half a mile east of Vaux

Hill 102 is about half a mile east of Vaux and extends to within less than a mile of the western outskirts of Chateau-Thierry.

Improvements Made

"Great work" was the verdict on every hand. Officers said that it supported strongly the recent attacks on the neighborhood of the American line. The work was done by the enemy forces on all the fighting fronts.

REMNANT OF BLACK SEA FLEET AT SEBASTOPOL

DREADNOUGHTS VOLIA AND DEMOKRATIA AND SIX DESTROYERS KNOWN TO BE IN GERMAN HANDS—ONE WARSHIP AND TEN SMALLER CRAFT BLOW UP BY RUSSIAN CREWS PRIOR TO CAPTURE

By JOSEPH SHAPLEN (United Press Staff Correspondent) STOKHOLM, July 2.—The dreadnaughts Volia and Demokratia and six destroyers of the Russian Black Sea fleet have arrived in Sebastopol, according to news official dispatches from Russian sources today. Their crews were captured by the Germans and forced to leave the city immediately.

In the revolt at Novorossiisk (200 miles east of Sebastopol) the Russians have two dreadnaughts, Babushkyna, Roosta and ten destroyers. Persons close to the leaders of the Siberian government say that Alexander Kerensky led the Siberian government in two resolutions. Establishment of the constituent assembly from outside the country. I am not allowed to divulge the details, but Kerensky went into Russia in the latter's capital, Omsk, with a delegation, all of whom were arrested in disguise. They visited Moscow and other centers, where they conferred with leaders. After a stay they returned to a Scandinavian city.

The two Siberian governments have been united. The eastern government, the capital of which is at Irkutsk, has joined with the western government, the capital of which is Omsk. Omsk has been chosen as the center of government. Members of the constituent assembly, General Chernov, chairman of the Balkal Cosacke, and other leaders have formed a small cabinet. Colonel Tsvetkov is named as minister-in-chief of the Czech-Slovak front. The Czech-Slovak front the nucleus of the Siberian army. With them are brigaded several corps of volunteers and detachments of Cosacks.

RECESS PLANS TO BE SET BACK

TAKING UP OF WIRE SYSTEMS IS LIKELY TO START LONG DEBATE

By L. C. MARTIN WASHINGTON, July 2.—Opposition such as instantly meets any proposal for government operation or control of public utilities hangs up today. The taking up of wire systems is likely to start long debate.

All anti-governmental-wireless men of congress are protesting emphatically to the house by Representative Aswell and in the senate by Senator Sheppard, but not pass without limiting government control and operation to six months of trial. As now drawn it fixes no limit.

It is probable that in the interest of early passage of the legislation which may be needed to avert a strike of telephone men at the time limit will be conceded.

Will Not Satisfy

This report is "quite" the opposition. The report that the systems are to be handled by Postmaster General Bell, as director-general of communications, caused the fire of a large group in both houses.

But most of the opposition will wear itself out in talk and the resolution will pass, probably in about the form the president has indicated. It passes the interest with the recess congressional leaders had planned to begin July 10.

The house commerce committee today held a hearing on the resolution. Representative Aswell was explained by Secretary Daniels and Bell, who urged it as a necessity, to guard military and naval secrets, have been asked to attend, as has Postmaster General Bell.

PARIS BOMBED AGAIN

PARIS, July 2.—German aircraft threw their sixth raid on Paris in an early day, several midnight. The attack was reported at 12:59 a. m. It was officially announced that there was "nothing to report."

THE WEATHER

Fair and cooler weather for the Twin Falls district tonight and Wednesday is forecast by the service. A few showers are predicted during the morning through the local telephone exchange.

BAKER AFTER QUICK ACTION BY CONGRESS

SECRETARY WOULD HAVE PRESIDENT GIVEN CONTROL OF TELEGRAPH AND PHONE LINES AT ONCE, DETAILS TO BE SETTLED LATER

WASHINGTON, July 2.—Advocating permanent government control of all communication systems, Secretary of War Baker today urged the house commerce committee to report quickly on the Aswell resolution empowering the president to take over telegraph, telephone, radio and cable systems. "Military control is not necessary this minute," said Baker, "but it may become so the next minute."

He urged the committee not to put any time limit into the resolution, but to leave for determination in later legislation defining the terms of control, the amount of payments and other features of government arrangement with companies taken over.

"If I had my way I would not put any time limit in either in this resolution or in subsequent legislation, to the length of government control," said Baker. "I don't approve of it. I hope it will do better next time. I did not approve of the time limit in the railroad control bill. Hence, I hope no limit will be fixed in this measure."

Emphasizes Need of Haste

Baker emphasized the importance of giving the president, without delay, all the power he needs, pointing out that later legislation to which all due deliberation may be given can take care of the rights of individuals and corporations.

Committee members indicated this will be their argument to the house in urging speedy passage of the resolution. "It is simply an empowering measure and that congress will later be able to exercise the fullest supervision over the details of government control."

Representative Loun, New York, took a fight to get the resolution taken care of by telegraph and telephone lines before the house ahead of the Aswell resolution, which is backed by President Wilson.

The Loun resolution empowers the secretary of war to take over the lines to take over the lines. Loun plans to change this by committee amendment. Loun introduced his resolution several weeks before Aswell's and claimed priority.

MAY MEAN DRIVE ON MURMAN COAST

WASHINGTON, July 2.—Between 30,000 and 40,000 German and Finnish mercenary troops are concentrating around Viborg, preparatory to what is believed by military officials here to be a drive on the Murman coast and Kola. (A few score American soldiers are reported to be with the British and French at Kola.) Official French cables today brought the information that while the concentration was progressing a railroad connection has been proposed forward and now connects with the Murman line at Kem, on the southwest coast of the Gulf of Onega.

BOLEISM APPARENT IN LABEL EVIDENCE

ROME, July 2.—Evidence of "Boleism" in Italy were brought to light today by the Rome Messenger and the Milan Secolo.

Reporting the testimony of Rev. Father Bole, it is alleged that those papers showed that alleged accomplices of Bolo Pasha offered \$1,000,000 for the newspaper proprietors in 1916. The offer was refused.

The Messenger declared that Senator Annunzio was given to control the proposed pro-German "journalistic trust."

HUN "KULTUR" FINDS OUTLET

SUBMARINE VICTIMS THROWN INTO ICE WATER TO DROWN

LONDON, July 2.—Two hundred and thirty-four members of the crew and medical complement of the U-boat which sank the British liner Lusitania, were today reported to have been rescued. The U-boat was still missing today. Patrol boats and destroyers are scouring the adjacent waters in search of possible survivors.

Stories of the 24 survivors indicate that German spies, working in the United States and Canada, have telegraphic or wireless communication with Berlin. The commander of the U-boat, Captain Geyer, master of the Lansdown Castle, of carrying eight American aviators. In reality, eight medical officers were located on the boat, but on account of the passage at the last moment. The survivors believe the U-boat torpedoed the hospital ship deliberately. An informant from America, transmitted, since the ship sailed.

Ben Palumbo, a doctor, was on board. While the survivors were clinging to the wreckage, the submarine plowed through the wreckage, tipping over the rafts and lifeboats, throwing the victims into the water. The U-boat commander attempted to explain he was searching for the American flight officers, which he believed were on board.

One of those subsequently rescued, a Canadian sergeant major, was in a boat containing twelve women, nurses which exploded. It is believed all were lost, as none recovered.

When the sergeant major was rescued he was found on a raft. Scoring the submarine code alongside, he thought it was a British craft and climbed aboard. A German sailor picked him up and threw him bodily into a lifeboat.

SQUARE DEAL IS ASSURED TO ALL IN NEW PROGRAM

PRESIDENTIAL "DOCTRINE OF AID" IS COMPLETED AND WILL BE GIVEN TO WORLD JULY 4

By ROBERT J. BENDER (United Press Staff Correspondent)

WASHINGTON, July 2.—The world will soon know the definite purpose of the United States in its heretofore efforts to bring an end to the struggle by 1920.

President Wilson has completed the doctrine of aid to all nations. The United States stands for the right of every nation to be heard, not only to speak, but to be heard by the other oppressed peoples under the banner of the United States.

The president has decided the time has come for a recapitulation of aims in the war. The next months will be tortuous ones and strong decisions must be made. There must be no doubt in the minds of the nations, however, that whatever course this country is called on to pursue in any emergency, her ultimate purpose is to see that all nations get a square deal at all times.

Will Oppose Principles

As outlined, the president in his July Fourth speech at Mount Vernon said forth no out-and-out program of aid—merely the principles upon which he will work.

The means of extending this to the United States is to be determined by the means of justice already are in effect. A movement is afoot to further protect allied supplies at Kola, Russia. In view of information that the German company operating there is to be nationalized, the United States is to afford protection against the British.

Some weeks ago a small allied force was ordered to police the Kola area. The United States is to afford protection against the British.

CAR SERVICE RESUMED

COLUMBUS, O., July 2.—Street car service was resumed here today when more than 500 car men returned to work after a two-day strike. The municipal company officials agreed to submit all their differences to the war labor board.

ITALIANS AIDED BY AIR FORCES

OPERATIONS HELPED OUT WITH SPLENDID SUCCESS

THREE FORMIDABLE PEAKS ON ASIAGO PLATEAU WITHSTAND REPEATED ENEMY ASSAULTS—SUCCESS OF ITALIAN OFFENSIVE IS UNABATED—BOMBERS ACCOMPLISH MAGNIFICENT RESULTS IN OPERATIONS AGAINST GERMAN TERRITORY

(By United Press)

ROME, July 2.—An Italian attack in the mountain region, begun early this morning, already has resulted in 600 prisoners, the war office announced today.

"Northwest of Monte Grappa, operations begun at dawn this morning have yielded 500 prisoners and many machine guns," the statement said.

"South of Asiago British troops captured prisoners and machine guns." Despite determined Austrian attacks Italian troops along the entire front are maintaining their offensive and holding all previous gains.

The western British sections the Italians have retained a few Austrians. The enemy, reacting to remaining positions held by the Hindenburg tactic, attacked on a 5,000 meter line in an effort to reach the Italian positions. Five divisions (45,000 men) were used on this front, while two divisions were held in reserve as a rear guard. The attack failed.

British aviators were active in the fighting on the Italian front and destructive bombing raids into German territory were the most important operations described by over-night official reports.

Italians on Sunday took three formidable peaks—Monte S. Vito, Col. Di Basso and Col. di Cella—in the Asiago plateau and, holding them, against repeated German attacks. The Austrian war office admitted the loss of Monte S. Vito and Col. di Basso, stating that the Austrian forces were withdrawn to their former main positions at Bleiburg wood.

British aviators made the following forays into German territory between Sunday night and today: Bombed the Mannheim chemical works Saturday night; bombed the railways and workshops at Karlsruhe; the station at Treves and the Metz-Boulay railway triangle Sunday night; attacked an enemy air-drome at Boulay and the railway works and stations at Thionville, Remilly, Lutzerath, Zweibrücken, Saarbrücken and Mannheim Sunday night; and bombed the Metz-Boulay railway triangle again yesterday.

One German plane was brought down and two British machines are missing. Italy announced that during July 1, 537 prisoners including three officers, were captured.

In a special report the German war office claimed the following prisoners since the start of the west front offensive: 10,000, including 10,000 British, 80,000 French, and the balance in Portuguese, Belgian and American.

ARGUMENT IS NOT FOR WILD BEASTS

Chancellor Bonar Law Denounces Torpedoing of Hospital Ship

LONDON, July 2.—"You cannot use arguments with wild beasts! To torpedo the hospital ship is to do to all of them," declared Chancellor Bonar Law today, in referring to the torpedoing of the hospital ship Lusitania by a German submarine.

Bonar Law made the statement during an address of welcome to the delegates attending the international allied parliamentary conference.

He referred to the torpedoing as an "unpardonable outrage" and declared that "we must not set our teeth until the end is achieved."

ENEMY ATTACK IS REPUDED BY HAIG

LONDON, July 2.—An enemy attack northwest of Albert, which sought to recapture the ground taken by us Friday night, was repulsed with heavy loss except at one spot, where the enemy gained a footing. Field Marshal Haig reported today.

"Attempted enemy raid in the neighborhood of Avoy wood, Avion and Hinges were repulsed and few prisoners taken."

IF PEOPLE DIDN'T READ THE CLASSIFIED AREA THERE WOULD BE NO ONE

People "run mad" because they get results and cost little.

1c PER WORD

ROBINSON'S

WRITING ADVERTISEMENTS is not an easy task for me and I am reminded of the man who met a friend, and on asking him where he was going he replied, "I am going to town to get drunk and my! How I dread it."

WRITING ADVERTISEMENTS is a serious thing with me as I feel that they must be worth reading and faithful even to being exactly correct, and tell you of something that is here that will make it worth your while to come to the store.

The business of this store has increased to such an extent during the past few months that I have felt that the prices and quality of the goods had become such an established fact that such advertising was unnecessary.

SPECIAL SALES are again "Egging South" and in the advertisements you will read it is made to appear that the "dear public" is to be greatly benefited. I know and you know that merchants are in business for selfish reasons and when prices are changed it is because they believe the goods will not sell at the prices marked.

There is something wrong with store purchases or store management or store merchandise that brings about the making of special prices at this time. Desirable merchandise is too hard to get and is worth more each month it is carried to warrant sacrificing.

Open Wednesday Evening

REMEMBER last winter when there were several "philanthropic" sales being put over and I stepped in and made some prices that were worth while, we will have "another little party" and sell a few things that will furnish music for the entertainment.

Open Wednesday Evening

Women's and Children's Underwear

Good quality Children's Muslin Drawers, well made, worth a quarter on today's market, but you can get them here 2 pairs for 35 cents.

Women's Nainsook Gowns

Good quality, soft finish, full cut, good length and well made (compare them with gowns you will be asked more at special sale) my regular price only \$1.00.

Women's Nainsook Combinations

Soft finish Cambric Corset Covers and Drawers, daintily made and trimmed with lace or embroidery, wonderful value at \$1.00.

Boys' Black Seamless Hose

Good Strong ones, Good Black, not a thing the matter with them except the price, sizes 6 to 8 1/2. 3 Pairs for 50 cents. Limit, three pairs to a customer.

Children's Gingham and Crepe Rompers

In checks, stripes and plain colors. The kind that wash well, look well, and wear well. Good style and good looking. Every one worth 75 cents, but you can buy two here for 75 cents.

Girls' Fine Rib Black Stockings

The good dye kind. Splendid quality. Regular clean stock. No Job Lot, worth 25 cents and cheap at that. Buy to make a "little music for the entertainment" you may have/then in sizes 5 to 7 1/2 at 2 pairs for 25 cents. (Limit, 4 pairs to a customer.)

Men's, Women's and Boys' Shoes

Perhaps you need a pair to carry you through till fall. Well, here's your chance to buy a good sensible pair of Shoes, not a lot of narrow widths in odd sizes, but a good lot of good shoes at the ridiculous price of \$2 a pair.

Infants' White Bonnets

Good quality dotted Swiss, with strings and ruffles, assorted sizes at 15 cents each.

Buttons for Wash Dresses

Just the thing for lawns, gingham and other washable fabrics, come in lighter colorings. Regular 10 cent kind but yours for 1 cent a dozen.

Sewing Silks and Button Hole Twist

Like many other small items are higher, but you can buy the best quality here for 8 cents and 4 cents a spool.

Stand Covers and Dresser Scarfs

Extra good quality, embroidered corners. Covers 30x30, scarfs 18x50 both with (pique) homesteaded edges. Wonderful good at 65 cents each.

White in assorted designs. Just the thing to trim aprons and dresses. Comes in 4-yard pieces, 2 for 5 cents.

Colored Dress Trimming

Fine for all kinds of Wash dresses, comes in Pink, Light Blue, Dark Blue and Black in fancy designs. 2 pieces for 10 cents.

Brassieres

Extra quality of net band style, fine for warm weather, also two other styles in lace and embroidery trimmed, new fresh goods, but splendid value at 35 cents.

Men's and Boys' Summer Shirts

In Pongee Madras and Oxford, Good Quality—Good Looking, made well, wear well. Good clean stock and just the thing for warm weather. Not a shirt in the lot that could be bought to sell for a dollar. Most of them worth \$1.25 and \$1.50, but yours for 50 cents each.

Men's Wide-End Ties

Light, Medium and Dark colors, 35, 45 and 55 grades all go at 25 cents.

Men's White Lisle Union Suits

Made with Military Shoulder, closed throat, half sleeves, knee length. Well made and most comfortable, well worth \$1.50, but you can buy them while they last at \$1.00 each.

MY REGULAR PRICES on many goods are as low as the remarkable value I am giving I would mention a Men's lisle finish half hose with extra strong heels and toes. This same stocking is being sold by wholesale houses to the retail trade at \$3.00 per dozen. My price to you by the pair is but 25 cents. (Black, Tan, Slate and Palm Beach color.)

OPEN WEDNESDAY EVENING

Edward Robinson

LATE TAXPAYERS REGISTER KICK

DECLARE THEY WERE LED INTO PENALTY PAYMENT BY NOTICE

Disputes between taxpayers and County Treasurer Harry Coggins relative to the date upon which the second installment of taxes should be collected, were heard in some cases on Monday, when several taxpayers upon application at the treasurer's office were informed that their taxes were delinquent and that they must pay 7 1/2 cents in addition to the tax statement an additional penalty of six per cent of the amount of the taxes due.

In several instances payment was made under protest, and statements were made that suit against the county treasurer to recover the amount of the penalty fee would be instituted.

Technically for Excuse "There are always some delinquent taxpayers," Mr. Coggins said, "and in this instance a technicality has been dug up upon which to base action." Some of the heaviest taxpayers of the county were caught under the delinquency ruling. One man, who taxes amounted to nearly \$1,000, having a penalty of close \$100, said that it wouldn't make so much difference if the amount of the penalty were devoted to the Red Cross of "other war fund."

NEGRO TROOPS ON LINE EAST OF VERDUN PUT UP SPLENDID FIGHT AGAINST ODDS

By FRANK J. TAYLOR (United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN FRANCE, July 2.—American negro troops proved their value as fighters in the life-east of Verdun on June 15, it is now permissible to state. The German attempted a raid in that sector, but were completely repulsed by the negroes.

The boches began a terrific bombardment at one minute after midnight, throwing over between 3,000 and 4,000 shells from guns ranging in size from 67 to 340 millimeters. The bombardment was concentrated in small areas. Many of the shells made holes from 10 to 15 feet across.

In the midst of this inferno the negroes crouched to their posts, operating machine guns and automatic rifles and keeping up such a steady barrage that the German infantry failed to penetrate the American lines.

The Americans miraculously sustained only one casualty.

"We all got knocked down lots of times but every man got right up," said one.

During the attack a crew of machine guns was bowled over by an attack which tore up the ground all about them. But despite the terrible bombardment they again refused to let the Germans. This incident was repeated twice.

Both French and American officers reported that the negroes performed like veterans. They obeyed orders promptly, took risks, fought voluntarily, and compared well with the best troops on the west front.

A German raid east of St. Die, in Alsace, was repulsed by American machine gun and rifle fire Saturday, the enemy suffering heavy losses.

An American lieutenant and 80 men successfully raided German positions in Postaine wood, near Montdidier Saturday morning, capturing an officer and 35 men, and inflicting heavy casualties.

So Picture Won't Fall

When hanging pictures always hang them with the face to the wall at first, then turn them without hooking the wire. That leaves the wire twisted up at the hook, and when hung this way the jarring of the house will have no effect on them.

BUHL BOYS GUESTS OF HONOR AT DANCE

Twenty-Eight Young Men Leaving for Camp Lewis Are Entertained at Farrell Affair (Special To The News)

BUHL.—Twenty-eight of the young men who left this community Friday to enter the national army at Camp Lewis were entertained at a farewell dance given Thursday evening in their honor by the people of Buhl. About 80 couples enjoyed the affair, and a pleasant occasion is reported.

Demaginations in the preparation of wartime cookery conducted Friday evening in the Poplar Grove district school house by Miss Gertrude Denecke, county home demonstration agent; Miss Charlotte Lewis, state demonstration agent; and Miss Leah Jennings of the department of agriculture dairy division, were largely attended by women of the surrounding communities. Miss Lewis demonstrated washable bread doughs, and Miss Jennings demonstrated the various products of cottage cheese and discussed its dietetic value. A number of recipes were distributed.

W. S. Bingham of Ogden transacted business Thursday in Buhl.

A Zimmerman returned Thursday after an extended visit to Pacific coast points.

C. Jewell, formerly of Buhl, who is now with the signal corps in Oregon, is in Buhl this week on a furlough. His brother is in the same branch of the service.

Ben Tillery, Lou Clinton and Ed Wagner motored to Jobling Thursday. It has been reported that a new vein of gold has been found in the Buhl-Jarvis ridge mining camp.

Noble Palmer has been on the sick list for the past week.

Le Coteau left for Seattle Friday. He will work in the ship yards there.

P. V. Larkin of Boise was a Buhl business visitor Thursday.

Dave Thomas of Chalfont returned from an extended trip to Canada on Thursday. The country there is fine.

Mr. Dan Willy is not much improved at this writing.

Henry Graybill, who has been confined to the Buhl general hospital for the past fourteen weeks, returned home Thursday. He returns to Buhl every other day to have his leg dressed.

J. B. Dunn of the Dixie Oil company is now in Barley transacting business.

Bob Hammond and Ed Dillingham leave for Salt Lake Sunday morning, enroute.

Misses Fern Gould, Ann Hicks and Grace McDonald motored to Buhl Thursday evening.

Many Lonesome Girls Working for Uncle Sam

"These City of Lonesome Girls." That is Washington. It is safe to say that more girls try themselves to sleep in Washington each night than in any other city in the world. Approximately 50,000 girls have come to Washington since the war began. Every one of the 50,000 is a little homesick for home. They have come from every corner of the Union and from every city and hamlet. Every one of them wants to go back home, too.

It is all because Washington is just a great big lonesome town. It is a town of grand distances and every little stranger is overawed by the big things and the big people here and she wants to get back to the home folks and the family circle.

Uncle Sam can't spare her, though, because he needs every bit of help that he can get to win this war. Each day sees a new flood of girls coming to Washington "to work for the government." Each night finds the new girls looking for a home, and a terrible task it is. With housing conditions overcrowded already and rooms a scarcity, the lone girl has a pretty stiff proposition before her. The Y. W. C. A. and other organizations have tried to help her; but they can't bring in the comfort that mother provides.

All of the brave hearts in this war are not on the battlefields of France. There are thousands of brave hearts in the lonesome girls of the national capital.

DISCOUNT

Beginning Monday, July 1, 1918, we will start our business off on a strictly CASH BASIS, but to show our trade the appreciation of their past and future business, we will give for the next TEN DAYS—

10 Per Cent Discount on Our Entire Stock

We Have a Complete Stock of **PREST-O-LITE BATTERIES** on which we will give 25 Per Cent DISCOUNT for the next TEN DAYS. If you are in need of a Battery, now is your chance. We also have a very complete stock of Good-year, Goodrich and Ajax Tires, which are new stock, so if you are going to need these tires this summer, now is your time to get them right.

Bring your oil cans and let us fill them with the BEST OIL on the market. In five-gallon lots, 85 cents per gallon. 90 cents in single gallons.

COUNCIL DELAYS CONTRACT AWARD

TAKES TIME FOR FURTHER CONSULTATION WITH BIDDERS ON CITY BUILDING

The city council at its meeting Monday night opened the bids of three contractors for construction of the waterworks warehouse to cover the lot at the corner of Second avenue and Second street north, and to house temporarily the city offices and public library. Award of contracts was not made at that time but was postponed until a special meeting to convene on Friday evening next, for the reason that the plans as given to the bidders did not provide for accommodation of the public library, and for the further reason that each of the three bids submitted was more than \$1,000 in excess of the architect's estimate. Before Friday members of the council expect to confer with the bidders relative to proposed changes in the building to admit of its construction at a lower cost and to accommodate the library.

The bids submitted following are the bids opened Monday by the council: Robert T. Lewis, \$960,235; Ernest White, \$3,110; Sahli Brothers, \$912.

The proposed building, according to plans drawn by Architect John Vissers, is to be of brick, 50x125 feet. The major portion at present, and eventually all, of the building is to be occupied as a storage warehouse for waterworks

department equipment and repair parts. Until a new city hall is built, this building also will accommodate the offices of the city clerk, waterworks and plumbing inspectors, and will serve as a meeting place for the city council. The proposed quarters for the library in this building will front on Second street.

Require Water Transfer

The council at the Monday meeting established as a precedent the requirement that all plans of subdivisions within the city limits in the future shall be tendered to the council together with an assignment of water rights covering such territory to the city. This requirement was fulfilled by Councilman A. L. Swin at this meeting when he presented a plan of the proposed Garden subdivision to include block one and two of the Buena Vista addition. The plan was referred to the city attorney.

Approves Assessment Rolls

The assessment rolls for improvement districts created for the purposes of extending the sewer system through the Elm Park addition and for the installation of pavement in the alleys of the four blocks cornering at the intersection of Main avenue and Shoshone street, were approved and ordered filed with the county auditor.

Firemen Get More Pay

Salaries of first year members of the fire department, which have been heretofore \$60 per month, were raised by the council at this meeting to \$100 per month. Fireman in the second year of their service draw salaries of \$110 per month. W. B. Worrell, chief of the fire department, reported that there are three members of the department who have served more than one year and are entitled to ten days vacation this year on full pay.

Spruce Division Open

The spruce production division of the military aeronautics corps is open for volunteer enlistments, according to word received by the local United States army recruiting station. Men in this branch of the service are sent into the lumber woods to get out spruce and pine for the manufacture of airplanes.

Fishermen Pay Fine

A fine of \$25 each was imposed by Justice of the Peace D. T. Welby of Huhl upon T. S. Flynn and Frank Palmer, both of Castleford, when they were convicted of fishing without a license. The complaints against Flynn, Palmer and five others were sworn out by Deputy Game Warden Joe Fitzsimmons, who made the arrests Saturday.

Field Service Clerk Needed

A full service examination for the purpose of filling positions in the position of clerk in the field service, to be held July 29 in Twin Falls is announced by the civil service commission. Men and women who have reached their eight

The Eighth avenue lateral across the Blue Lakes addition through a strip of land granted by the council to the Pugetell Security Trust company, since agents for the addition. The lateral at the present time extends through the addition in the center of what is to be one of the principal streets.

May Give to Red Cross

The Council instructed the city clerk to issue no permits to concessionaires for the Fourth of July observance in Twin Falls unless the applications were approved by the celebration committee, the purpose of the instruction being to limit the concessionaires to such as would donate their receipts to the Red Cross.

County Charges Are in New Hospital

County Commissioners personally moved aged and indigent into comfortable quarters afforded.

Recruits Go to Fort Logan

Recruits for the army hereafter accepted from the intermountain district will be transferred from Salt Lake, where their enlistments are completed, to Fort Logan, near Denver, Colorado, the recruit depot at Fort Douglas, Utah, having been closed, according to word received by the local recruiting station from Lieutenant G. W. Hall, in charge of army recruiting in this district.

Writes From France

Ralph Fox, a member of the quartermaster corps with the American expeditionary forces in France, writes to his parents, Mr. and Mrs. F. R. Cox of this city, under date of June 25 stating that he is stationed at St. Nazaire, near the bay of Biscay, and that he has recently begun active work in one of the offices of the quartermaster department there.

COUNTY CHARGES ARE IN NEW HOSPITAL

County Commissioners T. E. McGro of Filer and W. E. Brewer of Hesse, Monday personally moved eight inmates of the county institution for the deaf, dumb and blind, from quarters previously provided in the building known as the Cottage Inn at the corner of Second avenue and Second street south, to the new county general hospital, where comfortable quarters have been provided for them. One of the inmates was moved in an ambulance, his condition rendering it impossible for him to be moved otherwise.

The building vacated as a county hospital has been leased by the owner, J. H. Gowan to morticians who will conduct a hotel in it.

GARELESSNESS IN THRESHING TAKES BIG TOLL

GOVERNMENT'S FIGURES SHOW ANNUAL WASTE OF FIVE PER CENT OF WHEAT CROP

Facts and figures given by Captain S. M. White, representative of the national food administration grain threshing division, at threshermen's schools held last week at Filer, Kimberly and Buhl, were drawn as well from his own wide experience as from information compiled by the food administration, which is the basis for the following report: The wheat crop of E. Johnson of Manhattan, Kansas, as a meeting of the Cerealsists' convention in Kansas City on June 13; Bethroth Old Straw Stacks

"Last week I read a news item in The Kansas City Star to the effect that Nebraska farmers are retreating into wheat-straw stacks, and some have made a profit of \$1.00 to \$1.50 per bushel from the operation. Of wheat grade No. 2 from straw stacks two or three years old, some farmers have a bushel of wheat and two hundred bushels." This kind of "conservation" (1) started in the southern part of the state and has spread widely; and the attention of county conservation boards and defense councils has been called to the probability of substantially increasing the food supply by retreshing wheat straw, and for the benefit of wheat growers, a record will be kept of further results of the retreshing. The item probably would not have made much of an impression had not other items of a similar nature appeared in the papers of our city last winter and this spring (1916-1917), and had not a few of our citizens who had actually made money by retreshing wheat-straw stacks.

Makes Profit With Farming Mill

In Pawnee County, Kansas, last fall permission was given to a farmer to follow up a threshing machine and clean up and collect such grain as was left behind by the machine, and which had not been cleaned up by the threshing crew. He followed the machine for three weeks with a team and fanning machine. At the end of that time, he had collected wheat and sold on the market for \$200.00 and had earned \$27.00 per day for himself and team. Two other men in the same county did similar work with similar results but specific figures are not available. The item probably was a farmer decided to take care of wheat that had been left ground the threshing machine in his fields before the straw piles were burned and the fields plowed. He spent two days with his team and fanning machine, and in that time collected 50 bushels of wheat worth \$125.00 and thus earned a wage of \$25.00 a day for himself and team, and incidentally saved valuable wheat not available to the army. The item was cited, not because they are peculiar to Kansas but because they demonstrate that there is a great wastage in cereal production on the farm, due to many causes. The loss is due to wheat rotting and handling of wheat around the threshing machine often runs as high as ten bushels per setting, and an average rig moves from two to five times a day, the loss of wheat is considerable. It is considered that a conservative estimate would be two bushels per setting, or 540,000 bushels from the Kansas crop for this one item. Perhaps a greater amount, but through retreshing, which the wheat is hauled to the threshing rig or to the stack.

Carelessness is Expensive

The greatest waste, however, in harvesting and threshing operation is lost in wheat through straw. This is the almost equally as careless handling of the separator which is often in poor repair, careless feeding and threshing when damp. The loss of the farm of Mr. Hauser, referred to above, was about five per cent. While this may not be in common, it is undoubtedly higher than the average loss. Our estimate based on the judgment of our farm management specialists, our county agents, leaders and a number of farmers averages about five per cent of the total crop. Two per cent of the Kansas output, using 90,000,000 bushels as a basis, is 1,800,000 bushels of wheat, most of which is an absolute loss, and as many of the straw piles in the wheat belt are burned instead of being fed to the stock.

The total estimated waste of wheat in Kansas, therefore from the hauling from the fields to the threshing operation is to be the 1918 is approximately 2,850,000 bushels.

Waste of Wheat in Nation

On applying the same method of estimating waste of wheat crop of the United States for the season of 1918 when the official estimate of the wheat crop was 639,800,000 bushels, it is found that the loss due to careless cleaning up around settings, resulting that each rig loses 1000 bushels a day and sets three times, for the entire country is equal to 3,830,216 bushels; that the loss from straggling from bands wagon, grain wagons and careless handling is equal to 1,000,000 bushels per day per team or for

A. W. McLean, lawyer and banker of Lumberton, N. C.

A. W. McLean, lawyer and banker of Lumberton, N. C., has been named by the president as one of the four members of the government war finance corporation. Mr. McLean has been prominent in Liberty Loan and other patriotic work since the entry of the United States in the war.

LIEUTENANT JOHN S. GREEN OF TWIN FALLS PROVES HEROISM

Lieutenant John S. Green of Twin Falls was seriously injured by the premature explosion of a shell in a French 37 m. m. gun which he was demonstrating at Camp Lewis, Washington, according to word received here from his father, H. S. Green, of Monticello, Idaho. The accident occurred on June 13. Fragments of the shell and gun killed Lieutenant Green's face, neck and wrist with pieces of steel. Word received by his parents is that he is recovering satisfactorily, and that he expects to return to duty within three or four weeks from the date of the accident. Danger of the loss of his eyesight is now considered past.

The incident occurred with Lieutenant Green was conducting a night class in the operation of the gun. Others in the firing crew also were injured but details are lacking. By officers who viewed the wreck of the ground and the torn up condition of the ground, it is considered a miracle that Lieutenant Green escaped with his life.

CURRY RED CROSS TO SERVE LUNCHEES HERE

Auxiliary Members Arrange for Booth at Fourth of July Observance in Twin Falls

CURRY, The Curry Red Cross women are planning to have a booth and serve lunches July 4th in Twin Falls.

Mrs. Gorman of Hollister visited at the home of Mrs. W. Poe last Friday.

Mr. B. H. Barrett, from South Kansas, are here to spend the summer.

Mrs. Williams, from Knell, is visiting her mother, Mrs. Warrington.

Mrs. Ed. Williams is going to Ellettsville to join the team in first aid work.

Some Curry people are making arrangements to go to Wood river fishing July Fourth, or Ranger and family and J. C. Roberts and family are known to be going.

Ray Pond, is home from the hills for a few days, helping with the haying.

Mrs. A. C. Johnson's brother, J. D. Wilson, wife and daughter Erma, of Blackfoot, are visiting here this week.

E. N. Osh and family left Friday afternoon for Lost river, on a fishing trip.

Willis Bauer and Harold Malone left Friday evening for training camp.

Curry Red Cross auxiliary meets every Friday afternoon in rooms over the Curry Mercantile store. Good interest and splendid work is being done.

Miss Chaffee, who has been visiting her sister, Mrs. L. J. Miller returned to her home in Washington Friday, accompanied by her niece, Heloise Miller and Catherine Chaffee.

Mr. and Mrs. A. C. Smith entertained a number of friends at a lawn party Tuesday evening. Among the guests were Mrs. Peay, sister of Mrs. Smith, of North Yakima, Wash., and Cadet Miner W. Bowtell, who is home on furlough from the West Point Military Academy, New York.

Miss Ola Gunnerson entertained a large number of young people at the page ranch last Saturday evening in honor of Harold Malone, who left for the training camp June 28. Refreshments were served and all enjoyed a jolly good time.

Mrs. Pond went to Albion Sunday with a company of Filer people, and enjoyed a picnic as well as spending the day with her daughter, Miss Charlotte, who is attending the summer school there.

Friends of Mrs. Harry Miller received word here that she is visiting her husband's childhood home in York, Nebraska.

Tom Clark, foreman of maintenance department of the state highway, has been doing some very good work in the Curry district.

Edward and Aubrey Henderson leave Sunday morning to attend the technical training school of the United States Army at Fort Belvoir.

ASKS COUNTY TO TAKE BOTH SIDES

OPPOSITES TO FILER HIGHWAY DISTRICT BILL COUNTY

Having previously appropriated \$200 as one-half of the attorneys' fees for carrying to the supreme court for the promoters of the proposed Filer highway district, an appeal from an order of the district court here restraining the calling of an election for the creation of the district, the county commissioners Monday were presented with a request for an appropriation in a similar amount to defray one-half of the expense for attorney's fees undertaken by those who complain was the basis for the issuance of the restraining order, and who are named as the appellees in the appeal to the supreme court.

Brings in Bill

The request was tendered in the form of a bill against the county in favor of Michael A. Thomas, one of the signers of the complaint for the restraining order. It was presented by J. F. Martin, associate of E. M. Wolfe, legal advisors to the appellees.

County Attorney Frank L. Stephan advised the commissioners against allowing the bill. "It is contrary to all rules for one party to be the financial backer of both the plaintiff and defendant in a suit," he said.

"It is relatively a matter of indifference to us whether our claim is allowed by the commissioners or not," Mr. Martin said. "We are going to see to it that the claim of the promoters of the highway district upon the county for attorney's fees is not paid by the county anyhow."

The question of the validity of proceedings preliminary to the calling of the proposed Filer highway district district is at issue in the case before the supreme court.

Want to be Let Out

Opponents to the calling of the election object to the record that they ought to be included within the bill.

LADY DROGHEDA.

Lady Drogheda, who is an ardent aviatrix, is in this country to raise funds for her many war charities. Only recently Lady Drogheda held an aviation exhibition in England and probably will duplicate it here. She was a pupil of Graham-White, from whom she learned the many intricacies of the airplane. This is her most recent photograph.

daries of the proposed district for the reason that their holdings are naturally tributary to Twin Falls.

The attorneys retained by the promoters of the highway district are Judge E. A. Walters and Shad L. Hedgicock of Twin Falls.

STEAMSHIP PRATT, TORPEDOED BY SUBMARINE, MAY BE SALVAGED

The steamship *Hubert L. Pratt* was torpedoed off Cape Henlopen, southeast of Lewes, D.C., by a submarine raider. The boat was about a mile off shore when hit by the torpedo, but managed to keep afloat and make her way to shore. The boat lies in but seven fathoms of water, her stern high in the air. A navy tug is on the scene and there are hopes that the boat will be salvaged.

DOINGS OF THE VAN LOONS

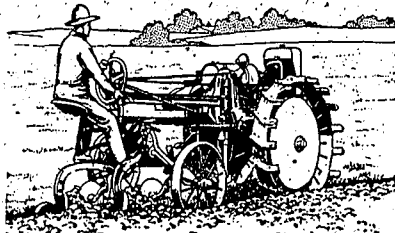

There is trouble brewing for Father

WATCH FOR THIS MOLINE TRACTOR IN THE PARADE JULY FOURTH

Features of the Moline Tractor

1. Does as much work with two bottoms as the ordinary three-plow tractor, due to its higher speed, 3-1.2 miles an hour.
2. 98 per cent of weight on drive wheels. No dead weight to push along. All weight goes into pull.
3. High clearance, 20 1/2 inches, and light weight, 3380 pounds, make tractor ideal for cultivating.
4. Universal adaptability for all farm operations—plowing, discing, planting, mowing, harvesting, etc., etc.
5. One man controls both tractor and implement from seat of implement, where he must sit to do good work.
6. Tractor backs with implement as readily as it goes forward, due to implement forming a single unit with it.
7. Easier to control and steer than any other tractor. A woman or boy handles it with ease. Turns in 16-foot circle.
8. Land wheel is instantly lowered for plowing, so that tractor runs level when right wheel is in the furrow.
9. Mechanical governor, permits instant fixing of engine speed at any desired number of r. p. m.
10. Self starter avoids back breaking labor and saves time in field—also fuel.
11. Electric lights illuminating both tractor and implement enable crowding of work in rush season.
12. Perfected overhead-valve four-cylinder engine gives smooth, even flow of power—easy on bearings.

THE BEST TRACTOR MONEY CAN BUY

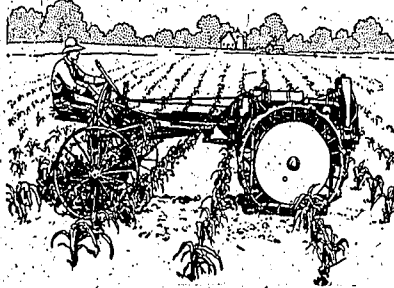

Because of its ideal design, construction and performance, this new Moline Universal enables one man to farm more land and produce more food than ever before possible. It is the world's most dependable farm hand.

Drop forgings, heat treated parts, steel cut gears and unusually large bearings add extra years of endurance. These new features, together with the well known Moline Universal type—all the weight on two wheels, one man control and ability to do all farm work including cultivation—make the Moline Universal the best tractor money can buy.

Moline Tractor Supreme for the Farm

13. Engine lubrication under 35 pounds pressure causes bearings to float, on film of oil.
14. Short heavy crankshaft 3-1/2 inches in diameter and light reciprocating parts eliminate vibration.
15. Overhead-valve construction of engine and small bore, 3 1/2 inches, insure extreme operating economy.
16. Double valve springs give quick action with soft seating, prolonging life of valves materially.
17. Offset fulcrum of rocker arms enables use of light valve springs and reduces lift of cams by one half.
18. Every working part of the tractor, from fan bearing to final drive, completely enclosed in dust proof housing.
19. Tractor has no frame. Parts bolted directly together, ensuring permanent alignment of shafts and bearings.
20. Transmission gears drop forged, cut and hardened. Seven splined shafts facilitate take down of transmission.
21. Fifteen Hyatt heavy duty roller bearings and five high grade ball thrust bearings used in tractor altogether.
22. Differential lock doubles pulling power of drive wheels in soft ground.
23. External expanding brakes on differential shafts hold tractor under perfect control under all conditions.
24. Complete provision for inspection and adjustment throughout tractor. Valves can be easily and accurately adjusted.

ARRESTS SEVEN FOR CONNING AT REVOLUTION

MEXICAN TROUBLE BREAKS OUT AFRESH WITH DISCOVERY OF ACTIVITY THIS SIDE OF LINE.

(By United Press)

NOGALLES, Ariz., July 2.—Charged with conspiring to foment a revolution in Mexico, seven men arrested on the border by army officers will be taken to Tucson today for arraignment. One of them is held at Nogales, Sonora, and further arrests are expected today.

A confidential raid to have been made recently by a Mexican prisoner in Sonora caused the investigation to start, Captain A. Spacomb, U. S. A., and Department of Justice officials, cooperating with Mexican officials, took up the case and thus far there have been over twenty arrests on this side of the line. It is reported that over 25,000 rounds of ammunition and a number of rifles have been seized by cavalrymen and deputy marshals.

Today's arrests were made at the home of M. A. Collins and Thomas Hanlon, Nogales business men arrested Sunday in connection with the movement, which will have a preliminary hearing Saturday.

WAR REVIEW

NEW YORK, July 2.—The increasing number of local attacks ordered by General Foch at various points along the west front are throwing into temporary confusion any possible arrangements by Von Hindenburg for a general offensive.

The gains made by the allies in these enterprises are upsetting calculations by the Germans at crucial points. The British operations east of Nieuport, the American attacks in Belleau wood, the French assault in the vicinity of Villers-Cotteret forest, and similar engagements during the last few days, Hindenburg's plan, and of disconcerting information concerning contemplated German operations.

The public reputation of Von Hindenburg is especially desirable from the allied standpoint that Hindenburg be given the next opportunity to engage in an offensive. Every reason of strategy strongly suggests that General Foch will welcome a new blow by Hindenburg. The Germans must play directly into the allies' hands if Hindenburg insists on a fifth offensive after Von Hindenburg's announcement that battlefield victories cannot win the war.

The most important facts for the allies to know is how the German people will react to a new slaughter of German manpower by Hindenburg after Von Hindenburg's renunciation of the sword as the right instrument for gaining peace. The Kaiser, too, is deeply interested in this same question.

If any attack does come, it will be delivered with all the power Hindenburg has left, because never before have the consequences been so threatening to the militarists. General Foch, therefore, is taking every possible precaution to keep in touch with Hindenburg's movements, and to throw the Germans out of step by incessant minor attacks from Flanders to the Marne.

BERLIN ADMITS DAMAGE

AMSTERDAM, July 2.—Six persons were killed and sixteen injured in the allied air raid on Mannheim June 30, according to a Berlin dispatch received today. Some damage was done.

The dispatch said damage was done in the air raid on Karlsruhe the following day, but that there were no casualties.

HINDENBURG IS SHUT OUT

(Continued from Page One)

protesting Chateau-Thierry from the west. The defense of Chateau-Thierry henceforth must occur within the immediate environs of the town itself. The town may fall to the Americans if the next assault.

The new American exploit impress confidence in the effectiveness of the American system of training. The method of assigning in advance to each man his post in the line to be captured, and of identifying that post by personal maps and photographs, marks a new advance in the technique of offensive fighting. The cautious discovery of enemy machine gun nests, and their extermination by artillery fire, demoralizes—that the Americans are not throwing away their lives by the reckless, impetuous assaults of amateur soldiers, but that they are attacking with the most recently applied scientific principles.

Important Accomplishment

Only by such carefully devised and patient methods can the casualty of an offensive operation be kept to a minimum. There is every reason to be satisfied, therefore, with what the Americans have done, not so much because of the importance of the accomplishment itself, but because of the promise it holds out.

The Americans are showing the craftiness of veterans, combined with the battlefield energy and efficiency of natural warriors. With that spirit of service, the allies will be confident of final victory.

THIEVES BREAK INTO AMSTERDAM STORE

TRIO OF ACCOMPLISHED THIEVES IS SUSPECTED OF ROBBERY—DOOR AND SAFE OPENED.

Burglars Saturday night entered the Amsterdam Cooperative Mercantile store at Amsterdam, 22 miles southwest of Twin Falls, and took \$63 from a cash register, and a large quantity of clothing, which was unlocked by the burglars. The combination lock of the safe also gave way before the drill of the burglars. Three men who came to Amsterdam at noon Saturday and were gone Sunday morning are suspected of the theft. Sheriff F. M. Kendall and Deputy Sheriff John M. Beck spent Sunday and Monday in search of the trio. One party of three men was arrested but they proved their innocence.
