FIVE HUNDRED PRISONERS AND HEAVY MILITARY BOOTY TAKEN BY AMERICAN FORCES NEAR CHATEAU-Thierry IN BRILLIANT ADVANCE ON MILE AND A HALF FRONT—AVIATORS LEND SUBSTANTIAL AID

SCORES KILLED IN EXPLOSION IN MUNITIONS PLANT KNOWN DEAD NUMBER NEARLY FIFTY, WITH MANY BODIES STILL IN WRECKAGE

WASHINGTON, July 3.—Five hundred prisoners, virtual annihilation of a complete German regiment and heavy captures of military booty were the result of American force near Chateau-Thierry, General Pershing reported today. The Americans in capturing Vaux, the Bois de la Roche and the neighboring wood advanced on a mile and a half front to a depth of 1,000 yards...

BRITISH GIVEN SETBACK AT HANDS OF GERMANS

HAIG'S MEN OCCUPYING OLD FRONT ESTABLISHED LAST SPRING—FORWARD POSITIONS GIVEN UP TO ADVANCING HUNS

WILLIAM PHILIP SIMMS (United Press Staff Correspondent) WITH THE BRITISH ARMIES IN FRANCE, July 3.—As a result of the Germans re-taking the ridge northwest of Albert last night, the British are now back along their old front line, established where the enemy drove, but established here last spring. Apparently the Germans considered the British position corresponding to Albert and Ansoy wood last September and to take it back any price...

MUTINY WHEN RATION IS CUT ITALIANS ARE HOLDING OLD AND TAKING NEW GROUND

OFFENSIVE COMMENCED ON LOWER PIAVE WITH EXCELLENT SUCCESS—AUSTRIA LOSES MANY PRISONERS AND MUCH WAR MATERIAL

GENEVA, July 3.—Several regiments of Austro-Hungarian soldiers quartered in Urganu and Grate mutilated when their bread ration was eliminated, according to the Prague Telegraph. The mutineers announced they had enough cartridges to shoot their officers, whereupon the bread ration was re-established and the revolt ended. The spirit of mutiny, due to the food shortage, is spreading throughout the country, even affecting the troops on the Italian front...

AMERICANS HOLD POSITIONS WON

PARIS, July 3.—Another German counter-attack on the newly won American position at Vaux, west of Chateau-Thierry, failed yesterday, the French war office announced today. In local operations between Libercourt and Salsouze, the French advanced nearly half a mile on a two-mile front, taking 220 prisoners.

BOSS SHIP-BUILDER LOOKS OVER GROUND

SAN FRANCISCO, July 3.—Charles Schwab, Union Ship's boss ship-builder, and Charles Pizer, vice-president of the emergency ship corporation, left in a lively day today. Visits to every shipyard on the bay with an address to the workers of each was the schedule. Short Stories of the War

NO CONFIRMATION OF PEACE TALK LONDON, July 3.—In connection with the return of Sir George Cave to the High Command, was rumored today that peace terms were mentioned at the Anglo-German conference on exchange of prisoners in this city. There is no confirmation. Cave, in connection with some affairs, headed the British delegation at the conference.

SAYS KAISER IS ALL RIGHT

SO PRIVATE FUERNBERG WILL PUT IN FIVE YEARS AT HARD LABOR CAMP DODGE, Iowa, July 3.—"I think the Kaiser is all right," said private Martin Fuernberg, of Salem, N. D., a member of the quartermaster's corps, at Camp Dodge. The general consensually convicted him of assisting, delaying and wilful statements and sentenced him to five years at hard labor at Fort Leavenworth. He also is discharged from the service and must himself all pay and allowances due him to be become due.

KEY AND SKIDMORE TAKEN TO ST. ANTHONY

DASIL ROY, 16, and Bert Skidmore, 18, who escaped Saturday night from the state industrial school at St. Anthony after they had made a midnight assault upon the night watchmen, were captured at Ogden and are returning today to the school, according to a telegram received at 9:20 o'clock from Sheriff J. Fred Williams of Ogden. Both boys were committed to the school from Twin Falls, they being sentenced to a juvenile reformatory and Skidmore being convicted of a statutory offense.

ITALIANS OBEY AMERICAN ENTRY

ROME, July 3.—Formal announcement that American troops shortly will take their place in the line was cheered by Italian soldiers, many of whom have returned to the American army, according to dispatches from the front today. Military critics today attached great importance to the recapture of Col Di Rosso, with consolidation of Italian positions at Mont. di Valbella.

FOOD CONTROLLER OF ENGLAND DIES

LONDON, July 3.—Lord Rhoads, Great Britain's food controller, died today. The end came at nine o'clock. His morning breakfast had been in failing health for several weeks as the result of overwork in handling the food situation. He became food controller June 15, 1917, succeeding Lord Davesport.

CLOSE UP STREET FOR BIGGEST FLAG

CHICAGO, July 3.—Traffic cops were ordered today to close Chicago street to all traffic for half an hour while a tailoring concern here was making the world's largest flag. Tailors were engaged of putting into an enigmast manufacturing 100,000 ft. It will cover one side of a six-story building.

CHICAGO CONCERNED ABOUT GARBAGE

CHICAGO, July 3.—Garbage is Chicago's latest war baby. "Don't sell garbage; save it. Let the city make glycerin out of it and thereby kill Germans with your bread crumbs" are instructions from city officials. An agreement on the price of what to be paid farmers, today voted to report a disagreement. Three of the house members persisted in their refusal to accede to the \$20 price asked by the people.

CANNOT AGREE ON WHEAT PRICES

WASHINGTON, July 3.—Conferees on the agricultural appropriations bill who have striven for weeks to come to an agreement on the price of wheat to be paid farmers, today voted to report a disagreement. Three of the house members persisted in their refusal to accede to the \$20 price asked by the people.

ANNOUNCEMENT

Because of the fact that July Fourth is one of the days of the year when men are asked to lay aside the customary tasks and assist in a due and proper celebration of the events which the date commemorates, there will be no issue of the Daily News on July Fourth. Bulletin service at The News office will be maintained as usual.

CHICAGO PROFESSOR OF ECONOMICS SAYS GERMANY IS BANKRUPT NATION TODAY

CHICAGO, July 3.—Chicago financiers today had the figures of L. Laurence Laughlin, professor of economics at Chicago university, to back approval of America's system of raising war money by taxation. "Germany is a bankrupt nation today," Laughlin told an audience here. "Her borrowing method has raised her war debt to \$37,000,000,000 and the interest on it is more than the productive power of her people. Germany normally has \$200,000,000 paper money in circulation and a \$350,000,000 gold reserve. Now she has \$5,000,000,000 unconvertible and a \$600,000,000 gold reserve."

PRESCRIBE SAME DOSE FOR ALL INTRACTABLES

FARM BUREAU WOULD DISCIPLINE BOTH EMPLOYER AND EMPLOYEE DISTURBING CROPS.

A resolution asking the state council of defense through its county organizations to bring proceedings similar against the farmer who demoralizes the general plan of crop production and conservation by refusal to abide by the adopted scale of farm labor wages as against the laborer who holds out for higher wages, was a measure adopted by representatives of the farm bureau organizations of the Idaho counties west of Pocatello as assembled at a meeting Saturday at Gooding by W. F. Alworth, of Twin Falls, president of the state farm bureau and a member of the state council of defense.

State Stackers' Pay

The meeting also agreed with certain modifications the scale of farm labor wages and scale of prices to be charged for grain threshing, originated in and adopted by the Twin Falls county farm bureau. The modifications in the farm wage scale provided for a daily wage of \$4.50 instead of \$3 for hay stackers, other hay bands, to receive \$3, and in respect to the threshing scale, it was left to each of the several counties to decide whether to alter the prices to fit the local conditions.

Shows Tax Justice

Toward the close of the meeting, former Governor Frank P. Gooding introduced a resolution addressed to members of the Idaho delegation in congress calling for a more equitable basis of taxation as regards Idaho farmers than is provided for in the tax on freight was bills. Under this measure, Mr. Gooding said, the Idaho farmer is taxed \$10 for shipment of 25 bushels of wheat—\$5 if actually loaded or not, while the middle western farmer pays only \$3.

The action of the Gooding meeting is applicable only to the counties he mentioned. Similar action in respect to the counties of eastern and southeastern Idaho is expected as an outcome of a meeting in session today at Idaho Falls.

From Economist's Viewpoint

The Twin Falls county farm bureau was represented at the Gooding meeting by M. C. Mitchell, recently appointed principal of the Twin Falls high school, who during the summer season is assisting in the labor department at the local farm bureau office. Mr. Mitchell was especially interested from the standpoint of an economist in the discussion at the meeting relative to the farm labor wage schedule. "It is apparent to me," he stated on his return, "that the farmers were not particularly concerned in the amount to be paid to farm laborers. The fundamental purpose of the scale, to stabilize labor conditions, so that the employer might be assured of adequate labor supply and the employee be assured of receiving the prevailing wages, seemed to be the only consideration and one generally recognized. If it had been necessary to serve this purpose to set the scale at \$3 per day, I believe there would have been no objection on the part of the farmers."

"DEVIL DOG" AND "BLUE DEVIL" TOGETHER

The American on the left is a United States marine. Fritz, after his first clash with him, dubbed him a "devil dog," which is perfectly good German for "devil dog." The soldier on the right is a member of the Chasseurs Alpins, whom the Germans have called "blue devils." Both marine and chasseur have willingly accepted the appellations.

ed of receiving the prevailing wages, seemed to be the only consideration and one generally recognized. If it had been necessary to serve this purpose to set the scale at \$3 per day, I believe there would have been no objection on the part of the farmers."

Farm Wage Scale

The farm wage scale as adopted at the Gooding meeting is as follows: Single man, \$60 a month with board; 10 hours a day; crop of team extra. Short time—\$3 a day and board; \$4 a day without board; hay stackers, \$2.00 a day and board. Expert irrigators, \$70 a month. Married men, \$80 a month, with house, garden and possibly a cow furnished.

Threshing Price Scale

The scale of prices for threshing in Twin Falls county this year, which was adopted with privilege of making minor changes to fit local conditions, is considered to be the lowest price that good threshing can be done for in good farming districts. The scale was adopted at a meeting here on Jan. 13 of 67 threshermen. It fixes the price for threshing with coal burners, for wheat and barley at six cents per bushel, and for oats at five cents per bushel. Where straw burners are used only for dry land crops, a charge of one cent per bushel additional is provided for.

Reasons for Set Price

The reasons for a fixed price for threshing are given by the Twin Falls county farm bureau as follows: Threshermen do not have to rush through jobs in order to hold their

YOUTH ACCUSED OF FORGERY RETURNED

HANS T. JENSEN, UNWITTINGLY APPRISED OFFICERS OF HIS WHEREABOUTS—IS ARRESTED

Hans T. Jensen, a young man who claims to be a former United States soldier, was brought back to noon today in custody of Probation Officer John R. Ault from Redmond, Utah, to answer to a charge of forgery. Jensen was previously convicted in district court here of passing a fictitious check at Buhl, and was paroled by District Judge W. A. Babcock on June 16 to the probation officer. The afternoon of the same day, according to the now-complaint against him, Jensen forged the name of H. D. Walters to a check on the First National bank in the sum of \$10, which he passed at the Idaho Department store, making his getaway from Twin Falls a few days later.

The whereabouts of the alleged offender were unknown to the officers who had made a general search for him until Friday last when he addressed a note from Redmond, Utah, to the local draft board asking for his check, since papers in order that he might enter in the navy. When asked before the draft board prior charge, Jensen gave his age as 10 years. The fact, however, that he has registered under the draft regulations, proved him to be over the age of 21 years, and he will not be permitted if convicted of the offense, with which he is now charged.

After passing the bad check at Buhl, Jensen attempted to escape to Utah and was overtake and brought back from Contact, Nevada, by Deputy Sheriff J. P. Baysinger.

Good to Whistle or Sing. Of course the fellow who whistles at his work is likely to annoy someone near him who is silent and tries to make him or the whistling is a good omen. Singing awakens the emotion, and whether a man can carry a tune or not, something breaks loose inside him—something great and permits him to enter more heartily into any service or celebration, provided he, too, can lift his voice with the others.

BRITISH COUNTER WING WITH THE BRITISH ARMIES IN FRANCE, July 2.—A British counter attack, delivered shortly after midnight, is believed to have driven the Germans from the point where they obtained a foothold northwest of Albert yesterday.

ritory from one who is cutting prices. Farmers know they are paying the going price and can expect first-class work.

A cut is unfair to both. The prices are based on facts and are fair to farmer and threshermen alike.

It makes for efficiency all the way through. The most efficient nation, Germany, gets efficiency among her farmers by putting them under military control; American democracy can equal Germany's military efficiency only by doing the same.

Forty Days' Work on Wheat. According to the farm bureau there are 600 threshing machines in Twin Falls county, and it will take them 40 days with an average run of 1200 bushels per day to thresh the wheat crop this year, not including other grains.

NEW RULES FOR SUGAR SAVING

FOOD ADMINISTRATION REQUIRES CLOSE CHECK ON ALL PURCHASES

Regulations of the national food administration made necessary by the sugar situation which has become serious as a result of the sinking by German submarines both of cargoes in transit from Cuba and of ships intended for use in bringing sugar from abroad, are outlined in telegraphic orders received by County Food Administrator C. E. Munson from State Food Administrator H. F. Dickel as follows:

Remove Sugar Bowls

Issue orders immediately requiring the removal of all sugar bowls from tables in hotels and public eating places.

Order all dealers in selling sugar to consumers to keep complete records of all sales in a separate book kept for this purpose showing the names, dates and amounts. These records are to include not only sales for home canning, but all sales under the two and five pound limitation.

Notify dealers to make inquiries of all purchasers of sugar concerning purchases elsewhere to guard against duplicating purchases.

Notify householders that their sugar purchases will be checked up.

Shoppers Under Ban

Again repeat that the manufacture and sale of chocolate and white icing must be discontinued.

Sugar for canning purposes will be available in excess of 25 pounds by special permission from the county food administrator, by showing the amount of fruit actually on hand available for canning purposes only over the signature of the party who has the available fruit for canning and preserving. The intention of the department is to cut down on non-essentials in order to have our fruit which must be cared for when in condition to can.

Bakers Get Flour

Bakers will be allowed to purchase flour, for all purposes, 70 per cent of the amount of flour used by them during the quarter of May to June, 1917, for their requirements for this quarter ending July 31.

Bakers must be using at least 25 percent substitutes in baking bread, and preferably more, and 33.3 per cent and preferably more in pastries.

WARN AGAINST CHOLERA SPREAD

FEDERAL INSPECTORS DISCOVER FIRST CASE OF HOG MALADY HERE IN 14 MONTHS

The first outbreak of hog cholera in 14 months in the Twin Falls district was reported Saturday by Dr. W. A. Sullivan, inspector in charge of the bureau of animal industry hog cholera investigations in Idaho. From the farm of H. R. Laird, one-half mile west of Twin Falls. At the time the report was made, seven animals out of a herd of 23 had died from the malady. The serum treatment was administered to the remaining members of the herd and there have been no subsequent losses. The treatment was administered by Dr. W. S. Decker, deputy state veterinarian, and inspectors of the local bureau of animal industry station.

Prisoners Quarantined It is believed that infection was carried to the Laird farm by an animal recently purchased from a public stock yard.

The premises have been quarantined and neighbors have been warned of the presence of the malady in their vicinity. Dr. Sullivan, who has directed the campaign instituted here in the summer of 1915, which has resulted in practically wiping out the hog cholera plague from the state, again calls attention of farmers at this time to the necessity for extreme care in guarding against any possible source of infection.

Keep Strangers Out "It is unwise," he says, "at this time to permit strangers to visit the swine pens. The spread of hog cholera might be accomplished easily by one deliberately set on that purpose, and the loss of thousands of dollars, to farmers and of the diminution of a source of food supply needed by the nation would result." Technical inspectors last week were called to investigate 15 cases of disease among herds of swine in which hog cholera was suspected. Presence of the malady was discovered only in the herd on the Laird farm.

BEST IN THE LONG RUN The First Infantry Guns Weighed 75 Pounds FOOT soldiers began to carry firearms about 1330, huge, clumsy guns weighing from 25 to 75 pounds. Mere hand cannon, iron or copper tubes, they were pivoted by a forked support, and fired at a touch. With the invention of the first lock air pump, in 1517, the first self-firing gun, the musket, was a quick step. Like the first guns, automobile tires, when Goodrich began to develop them, were crude, clumsy affairs, and it's a long, long road of improvement to the symmetrical—

THE CRIPPLE

The public has too often confused the idea of a cripple with that of a self-respecting disabled man...

To be sure there is historical precedent for this attitude, for in past decades and centuries various peoples have condemned the cripple to the status of roadside beggar...

That the beggar cripple has been permitted to ply his trade is a great injustice to the disabled men of character and independence.

A Real Argonaut. She is a little grey-haired girl in Ewing street. Of course she had violated a rule of the Home and was to be punished.

TIME AND CHANGE

A recent announcement of the Office of the Director of the Mint sounds much as though "free and unlimited change" that bone of contention in a hard-fought political contest of twenty-two years ago were to be an established fact.

To persons who have old gold or silver which they wish to convert into cash for war or other purposes, the Government offers an opportunity...

Great Old Southern City. Mobile is in much worse the typical Southern city, with a lazy climate, soft voice, omnipresent cloud of darkies, bright green robe of trees and rank shrubs, and a scattering peg of interesting vestiges from the West Indies.

Fine Japanese Paper. Japanese native-made paper is not surpassed anywhere in the world. It is used for the finest books. The paper cloth of Japan, from which durable clothing is made, utilizes not only the strength, but the variety of uses to which the native paper of Japan can be put.

English Is Bad Enough. Why talk of the deficiency of pronouncing Polish, Austrian, Russian, Roumanian names when almost all of every hundred cannot pronounce scores and scores of English names? Just think of Berlin pronounced as Bury, Diliwin as Dillon, Belcor as Beevor, Festerhohnhagh as Festungh, Dittel as Deed, Rulphen as Birren. And these are by all means the worst cases.—San Francisco Chronicle.

Our Ambassador to the German Imperial Court

JAMES W. GERARD

In His Authorized Photo-Play Version of

MY FOUR YEARS IN GERMANY

A 10-Part Production---Approximate Showing Time, Two Hours

Specially Shown to President Wilson and Endorsed by U. S. Government

It teems with stirring facts, but the biggest and most important fact is that it SHOWS Young America why we are at war with Germany. The justice of our cause is made plain to the people, with indisputable evidence put forth by our ambassador, James W. Gerard, the only man who defied the kaiser in his own den--a crazy beast, with the insane desire to rule the world. This production the biggest and best ever shown in the city. Nothing like it ever seen at the price.

CLEAN UP LAST OF INDIAN CLAIMS

WASHINGTON, July 3.--After more than a quarter of a century of litigation the present review of the court of claims will see the passing of the last of the "claims for property of citizens of the United States taken or destroyed by the Indians without just cause or provocation." Assistant Attorney General Huston Thompson announced today.

A total of more than 10,000 claims were filed under the Indian Appropriation act, passed on March 3, 1901, totaling nearly \$44,000,000. More than \$6,000,000 have been awarded these claimants, who came from every state west of the Mississippi and many states east of that line. The largest claim was \$1,212,000 and was filed by Charles D. Poston, a prominent figure in the early days of Arizona.

His losses were at the hands of the Apache Indians.

Every Indian war is recorded in the files of these cases, from that with Tecumseh in 1812 to that with Gitting, July 31, 1890.

INTERNATIONAL MOTOR TRUCKS

The transportation problem, it has developed during the past year, is the most difficult with which the country is confronted.

In the moving of troops, munitions, foods, fuel, ship-building supplies, the railroads of the country have been severely over-taxed.

This over-taxing, it is evident, is to continue. Throughout the eastern states, where manufacturing plants are located close to points of general assembly, the motor truck has been and is taking the place of the railroad.

It is in this way that the Gooding, The & Rubber Company of Akron, Ohio, has been delivering its goods to the Government as far away as Boston, Mass., a distance of more than 750 miles.

The necessity for motor trucks—and then for more trucks—explains the activity of the International Harvester Company in their manufacture.

The International Truck is the best truck—light in weight, low in price, simple in construction, economical in operation, and reliable in performance.

Fascinating Screen Facts

Sylvia Bremer, the beautiful Australian girl, who gives such a sympathetic interpretation of Nellie, in J. Stuart Blackton's famous Paramount picture, "AMISSING," which will be shown at the Idaho Theatre next week, had a difficult time when she decided to become an actress. As soon as her parents in Sydney, Australia, learned of her ambition they packed her off to the back country of Australia, where she stayed at her uncle's sheep ranch, and had as playmates the aborigines, crocodiles, and iguanas of the neighborhood. But Miss Bremer grew tired of these attractions, so she ran away and was given a small part in an Australian stock company. After that her rise was rapid.

The new Mary Pickford production, "The Little American," has been aptly termed "the star-spangled banner of the photoplay art." Readily conceded to be America's favorite daughter, "Our Mary," offers a most fitting characterization of the girl from the U. S. A. in a subject that has particular bearing

Why Ships Are Sunk

Torpedoed merchant vessels are not sunk by extensive damage of the ship structure, is the view of a committee of the British Institution of Naval Architects, but because watertight compartments are not watertight. Plating did rivets are not disturbed over large areas, while bulkheads are not burst in by water pressure. Three causes explain many losses—bulkhead doors too low down to be closed after explosion, flooding of closed compartments through fractured joint pipes, and penetration of bulkheads by flying rivets and other fragments of steel.

What Solomon Said

The teacher was talking to her class about Solomon and his wisdom.

"When the queen of Sheba came and laid jewels and her crown before Solomon, what did he say?" the student replied.

"One small girl, who had evidently had experience in such matters, promptly replied:

"O'r much d'yer want for the lo'r?"

Natural "Water Barrel"

Perhaps the most valuable specimen of self-watering plants is the so-called "water barrel," which, of about the size and shape of an ordinary beer keg, is in fact nothing more or less than a living water tank. Its whole interior is composed of storage cells so admirably arranged that the pulp which they form contains something like 90 per cent of pure water.

Toy Dog Answers Call

A toy dog which, at the word of command, will rush from its kennel and take a piece of meat, is placed those whose business it is to please the children. A microphone is placed inside the kennel. A sharp noise causes it to vibrate and come in contact with a piece of metal. This closes an electrical circuit, equipped with a small battery and connected with an electromagnet. The pull of the latter on its armature releases the catch of the spring and out pops the toy animal.
