BIGGEST DAY IN ANNALS OF THIS SECTION

PEOPLE OF TWIN FALLS COUNTY OUTDO ALL PREVIOUS EFFORTS IN WAY OF CELEBRATION—RED CROSS ENRICHED BY THOUSANDS

"It's all for the Red Cross," an expression heard most frequently during the day, definitely set forth the splendid spirit of the observance of the Fourth of July in Twin Falls.

Between 18,000 and 20,000 persons observed the National birthday in Twin Falls, and at least \$10,000 was collected from all sources for the work of the Twin Falls County Red Cross chapter.

Outside Towns Help The celebration was in truth a Twin Falls county affair. Filer and Kimberly contributed both spectacular parades to the main features at attractions for the Red Cross drive.

"Keep the Change," "Sell it Again," at the auction, and "Keep the Change" at the shows and concessionaires' booths were common expressions of the day, indicating the wish and intent of the people to contribute to the cause of the war relief.

HUN LEADERS LOSE FAITH IN ABILITY OF ARMY

DELAY IN BEGINNING OFFENSIVE ON WEST ATTRIBUTABLE TO ONLY ONE THING—CONTINUED SLAUGHTER METHODS OPPOSED

By J. W. T. MASON, (United Press Staff Expert) NEW YORK, July 5.—Von Hindenburg's delay in starting a new offensive along the west front is strongly indicative of a new lack of confidence in the battle headquarters in the ability of the German army to win decisive results on the battlefield.

There apparently are powerful influences at work trying to persuade the Kaiser not to permit Hindenburg to continue policy of ruthlessly slaughtering Germany's manpower for commercial results. A definite acceptance by the Germans of a defensive role is undoubtedly under discussion at general headquarters.

TELLING THE TOWNY FALLS ABOUT THE COUNTRY

Over 300 newspapers throughout the United States went today supplied with copies of the Twin Falls Fourth of July celebration and their readers told of the spirit of the men who made possible the biggest and best event of the kind this city has ever seen.

Lane defined "Americanism" as "neither international nor an internationalism, but growth and the right to grow and the right to teach fraternity, saying that it is disgraceful that the day laborers are paid more than the majority of teachers."

SIGNAL DEFEAT IS GIVEN TO GERMANS

WITH THE BRITISH ARMIES IN FRANCE, July 5.—The battle east of Amiens on the morning of the Fourth is destined to occupy a niche in history, although it may be considered small engagements.

They, the Australians, aided by American detachments, fell upon Wilhelm of Hohenzollern's men and signally defeated them in a surprise attack at daybreak, taking 1,500 prisoners.

The attack began without artillery preparation. Two minutes before the troops went over, British guns began to bombard the German positions.

Suddenly a great number of tanks, which had been brought up secretly during the night, emerged from the smoke cloud in the center before the terrified Hunns. The latter resisted only weakly, holding up their hands and crying "Kamerad."

SOLDIER TAKES WINDSOR CASTLE KEY AS SOUVENIR

INTERNATIONAL COMPLICATIONS NARROWLY AVERTED WHEN ARTILLERYMAN COLLECTS

International complications were narrowly averted when one of the members of the One Hundred Forty-sixth field artillery regiment, while in England, "collected" the key to Windsor castle, says Lieutenant Arvin D. Rounds, on duty with the One Hundred Forty-sixth field artillery regiment stationed now about 39 miles east of Bordeaux, France, speaking of the tendency of the American soldiers to collect souvenirs as a letter under date of June 5, recently received by his parents, City Treasurer and Mrs. H. E. Round. "I am collecting souvenir postcards of the important places for a record," Lieutenant Rounds says. "It is really hard to get souvenirs such as these for they don't mesh in that line."

Meets Twin Falls Men For several months after the evacuation of the One Hundred Forty-sixth regiment, of which he and other members of the Twin Falls unit of the old Second Idaho regiment were transferred, Lieutenant Rounds was stationed at Newport News, Virginia, in command of a detachment detailed to care for live stock of the regiment. At the conclusion of this period of duty he was transferred to the regiment which with the 10th Cavalry, was stationed at Newport News, Virginia. "I have seen Captain McChesney several times," Lieutenant Rounds says, "but they are several miles from here now." Definition of the field artillery arm of the military service is difficult, Lieutenant Rounds says. "Field artillery used to mean the three inch and 4.7 inch guns with the six inch guns as heavy artillery," he explains. "With the advent of tanks and larger guns, things have changed so that it is hard to tell which is heavy and which is field artillery."

Soldiers' Readings Relative to the reading of the American soldier in foreign service Lieutenant Rounds says: "I am receiving the papers all right, but not only clippings from news or what is very interesting, as we want to conserve space. We get the London Daily Mail for 'Dirty Mail' as the French newspaper call it; the New York Herald and the Chicago Tribune. These are all Paris editions of these papers. They are only one or two sheet papers, but contain the principle news. Also we get the Stars and Stripes, which is published once a week by the soldiers."

ALLIES' GUNPOWDER EDUCATING THE HUNS Retaliatory Bombardments Make Germans Think that Agreement is Advisable

AMSTERDAM, July 5.—Bumtoms were being distributed here today that Germany is considering a proposal to the allies that a mutual agreement be reached against bombing towns out of the war zone. The sentiment in favor of such a move is said to be strong in Germany.

OLD METAL FOR WAR STAMPS Mrs. Frank A. Vanderlip, whose husband was a "four-year" man serving Uncle Sam, is smelting up bellows of gold and silver at the new metal market established in New York city. After she gets through vigorously smelting the metal, it will be melted and assayed. Then the government will send the original owner the equivalent of the bellows value in war savings stamps. If you have any old silver or platinum around you the time to put it to work for Uncle Sam. Send it in to the metal market and it will soon be converted into War savings stamps.

All Buildings of Stone "All the buildings are of stone, even the chicken coops. The roofs are of curved tile, one course laid over and the other course down. The stone used is a sort of combination sand and limestone which works easily but which wears well. "The windows all swing like double doors, and each has a heavy wooden blind, which also swings. The French keep these shut or nearly shut all the time and can't seem to understand the American who has them wide open all the time. "All the buildings and grounds show care given to beauty. One sees trees trimmed in cones and arches everywhere, and I saw one trimmed with a coffee can for a top. The trunk and another like a windmill. I saw a woman's gate that was a beauty. The posts were old stumps and the gate was made of intertwined branches, and the two gates were nearly identical.

Open Fire has Baited "The houses are furnished either plainly. One house where I visited is evidently owned by some of the wealthiest people. The furniture is of the cloth covered type we had 25 or 30 years ago. Fire places are common, and most of the cooking is done in a fireplace. A fire of wood is common.

NEGRO SOLDIERS PAY PENALTY FOR ASSAULT

Drop Falls to Break Necks and All Strangle to Death

CAMP DODGE, Iowa, July 5.—On the grounds where four months ago they began their military training and in view of the entire 85th division, three Alabama negroes—Fred Allen, Robert Johnson and Stanley Talbot—were being punished from the gallows, paying the penalty for attacking a 17-year-old white girl on the cantonment grounds.

Five minutes after nine three white privates, included in bonds and out of sight of the troops, were up to receive information, spring the trap that sent the blacks to their dishonorable death.

Allen was declared dead in seventeen minutes, Trumble in eighteen and Johnson in 2 1/2 minutes.

None of the necks was broken and all strangled to death.

As soon as the death was officially announced the regimental bands struck up "The Stars and Stripes Forever" and the troops marched away to their regular military duties.

There was considerable excitement immediately before the traps were sprung when twenty negroes in various ways, drove up in order to witness the executions, collapsed.

Four of the blacks shrieked loudly and had to be taken away from in front of the scaffold.

LODGE MAKES GIFT TO MEMBER GOING TO CAMP

FILER—J. A. Johnson left Friday for Camp Lewis, Washington, where he will enter training for military service. Mr. Johnson leaves a host of friends here. He was greeted with a wrist watch by the Masonic lodge of this place.

A large crowd from here went to Twin Falls Friday to bid a farewell to the boys leaving for Camp Lewis.

H. L. Taylor left Friday, enroute for Deer Lodge, Montana, where he will visit a short time with his family before entering the navy yards at Bremerton, Washington, for training.

Mr. Lopez spent four years in the navy so he is very well prepared for service and expects to be called to duty within the next 60 days. Mr. Lopez and baby returned to her home at Deer Lodge several weeks ago, and will remain with her parents during Mr. Lopez's absence.

Mrs. L. P. Larson and children of Rock Creek spent a few days last week at the Mallory home during the absence of Mr. Larson in Omaha.

Mrs. and Mrs. W. W. Taylor and daughter spent July 4 with a sister of Mrs. Taylor at Rogerson.

Mr. and Mrs. Scott Caldwell and children of Los Angeles, Cal., arrived here Sunday, coming overland, and will visit at the home of the Taylor brothers. Mrs. Caldwell is a sister of the Davis brothers.

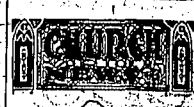

A baby girl arrived at the home of Mrs. Guy Blackstone July 1. Mrs. Blackstone's home in Kimberly, but she is spending the summer at the Geo. Blackstone home.

On June 27, a daughter arrived at the home of Mrs. Danfeldt of Cloverdale.

Miss Mabel Foster of Portland is spending the summer here with her sister, Mrs. B.P. Kirpatrick.

Wilfred Olson is in Salt Lake this week on business.

THE CHRISTIAN CHURCH—Next Lord's Day will be a big day in the Christian church. I. M. Timmons, preacher-farmer, of Los Angeles, will preach both morning and evening. Brother Timmons is an enthusiastic young man whose mind is keen and logical, and whose arguments are earnest and forceful.

The topic of the morning sermon will be "The Thrill of Thrift." The topic of the evening sermon will be "Should Christian Fight?" As a sort of prelude to the evening service Mr. Timmons will give a short talk on the subject, "What About Cigarettes for the Soldiers?" These topics are all timely and interesting to all of us, and no doubt many questions have come up in your mind in the past year which will be answered in the course of these sermons.

Bible School meets promptly at 10 o'clock. Please be present and on time.

At the end of the morning services there will be a basket-dinner on the church lawn, at which all members of the church and Sunday school and their friends will be welcome. Following the dinner there will be held the regular meeting of the Sunday school cabinet, at which plans for the enlargement of our work will be discussed, reports read, and so on.

Please be present in the morning, stay for the dinner and the meeting afterwards, get in close touch with our work, and enjoy the blessings of true fellowship.

Our choir is doing excellent work under the efficient instruction of Mrs. O. J. McCormick, and will provide special music for both the morning and evening services.

## START WORK ON DEHYDRATING PLANT BUILDING

LOCAL FOOD CONSERVA-  
TION INDUSTRY TO BE  
SITUATED IN NEW  
HOME IN 30 DAYS TIME

Ground has been broken in excavation for the building to be occupied by the Twin Falls Dehydrating company with a factory for the dehydration of perishable fruit and vegetable crops of this district. The contract for the construction of the building has been let to Earl Folt. The building is to be a frame structure, 165x115 feet, and is to be situated on lots recently purchased by the company north of the Short Line and opposite the Lincoln Produce and Refrigerating company plant and adjoining the R. Phillips warehouse formerly occupied by the D. M. Ferry Food company. The contract cost of the structure is \$75,000 and it is to be completed within 30 days.

One outfit of equipment for the dehydrating plant, including 10 units of the dehydrating apparatus has been received from the factory in Walla Walla, Washington, operated by H. M. Lather, inventor of the dehydrating process. An equal number of units will be erected on the floor of the local plant, giving it a daily capacity of 20 tons of vegetables or fruits.

## COUNTY LEADS IN AUTO TAXES

ASSESSOR GEORGE W. WILCOX COMPLETES FIGURES ON MOTORS

According to County Assessor George W. Wilcox, Twin Falls county's collection of motor vehicle licenses will run higher this year than the collections in any other Idaho county. Mr. Wilcox has compiled a statement showing the total of fees collected up to July 1, 1918, amounting to \$69,678.45. The total collections for last year in this county were \$44,522.55, and the total collected up to July 1, 1917, was \$47,247.40.

## REAR RECORD

NEW YORK, July 5.—Three thirty motors supplied the power which drove the first American built Caproni airplane at Missouri Independence day. The machine made 120 miles an hour, gear speed than it attained with Italian motors.

## POPE'S INCOME UNCERTAIN

It is stated at the Vatican that outside of the central money capital in the papal treasury, which is the accumulation of many papes, there is no way to determine the actual income and expenditures, for the reason that the income varies from year to year, according to the popularity of the particular pope on the throne, according to world prosperity, and like causes, and that the expenditures must be fixed according to this uncertain income.

## TEACHERS MAKING CONTRACTS FOR YEAR

Several are re-elected at increased salaries and others transferred to advantage.

## NEW YORK IS OLDEST CITY

The oldest incorporated city in the United States is New York, incorporated in 1624. Boston, although settled in 1630, was not incorporated till 1822.

## TEACHERS MAKING CONTRACTS FOR YEAR

Several are re-elected at increased salaries and others transferred to advantage.

Contracts of teachers in the common school districts for the coming year are in the office of Miss Edith Wolf, county superintendent, show that a number of the teachers have been re-elected to return at increased salaries to positions which they filled last year, and that others have transferred to their advantage to other districts within the county.

## TEACHERS MAKING CONTRACTS FOR YEAR

Among the assignments of teachers for the coming year, are the following:

Miss Abbie Leighton, for two years teacher in the Rogerson school, has been engaged to teach the higher grades in the Cedar Draw school northwest of Filer.

Miss Bertha Mayer, formerly principal of the Rogerson school, has been engaged to teach in the Edinwood school, south of Filer, and Miss Cleona Dool of Nebraska, has been engaged to teach the upper grades in this school.

Miss Jennie D. Hirst, teacher for two years just in the Superior district school, has been engaged as a teacher in the Washington district school near Peavy, and Miss Eva Becher has been re-elected to her position in the school.

Miss Etha Nob of Buhl, has been engaged to teach the Superior school vice Miss Hirst, resigned.

Mrs. J. A. Whitefoot, teacher last year of the seventh and eighth grades in the Hollister school, has been engaged to teach the upper grades in the Castleton school.

Miss Vera, Avie Henry of South Dakota, has been engaged as principal for the Rogerson district school.

Among the teachers re-elected to the positions they filled last year are: Miss Hena V. Finley, Brynjar, Miss Olla Arden, Fairview; Miss Anna Horley, Drakesville; Miss

## SAYS BRIDGES WILL BE FIXED

COMMISSIONER BREWER GIVES ASSURANCE TO COUNTY AGENT

Assurance that bridges complained about in resolutions passed at the recent Farm Bureau day at Kimberly, would be repaired before the beginning of the threshing season has been given to County Agent Donald McLean by W. E. Brewer, commissioner for the east district of the county. The bridges in question are three in number, two being situated south of Kimberly and one east of that place. Mr. Brewer stated that the repair work would have been done prior to this time but that it could not be completed properly while water was running through the ditches opened by these bridges, and the Canal company has deemed it inadvisable heretofore to shut out the water.

Mr. Brewer took occasion in his interview with Mr. McLean to call attention of the board to the requirement for planking bridges before crossing them with their engines. The provision of the Idaho statute in this regard is as follows:

The owner and the person or persons in charge of any traction or portable engine in this state shall be jointly and severally liable to the county, in incorporated village or city for all damages to the public highways or streets in this state within any county, incorporated village or city, which may result from the crossing with such traction or portable engine in every case where the owner or person or persons in charge of such traction or portable engine fails to properly plank, when crossing such bridge or culvert, for the purpose of securing its safety with plank not less than three inches in thickness and not less than twelve inches in width.

Word has been received here of the marriage of Miss Edith Holcomb of Helton, Nebraska, to John L. Richards of that place. Many of the youngsters will remember Miss Holcomb since she was a resident of this city some months ago. She is a sister of Mrs. W. E. Regan.

# SOCIALISTS IN REICHSTAG BALK ON NEW BUDGET

## INTIMATE THAT GOVERNMENT'S PEACE PLANS ARE LARGELY GLITTERING GENERALITIES

(By United Press) AMSTERDAM, July 5.—Philip Scheidemann, leader of the majority Socialists, replying in the German Reichstag Wednesday to Vice Chancellor Payer's reproach for Socialist opposition to government measures, declared that nothing to withdraw.

"We will cooperate with the government only if the peace question is clarified," Scheidemann said. Scheidemann declared that the greatest military victory, by itself never will bring peace—only a armistice. Scheidemann's action is regarded as important, as it was the first time during the war that the majority Socialists had refused to vote for the government budget. It is bound to produce a far-reaching effect on the people.

It is learned that Scheidemann, in his recent conference with Pieter Troelstra, the Dutch Socialist leader, as the Hague, declared the German Socialists will not support the government until the latter makes a reasonable step toward peace. This is the message that Troelstra wanted to bring to the London labor conference.

## SIGHT LET UP IN CONTROL OF STEEL

WASHINGTON, July 5.—Sight regulations for the steel government control over steel distribution was made by the war industries board today. Hereafter orders for steel not in excess of five tons to be used in essential civilian work may be filled without written consent from the director of steel supply at Washington. Blanket authority is still held over all other steel orders, however, and individual written approval by each order is necessary before manufacturers of steel may make shipments.

## NORWEGIAN SHIPS SUFFER HEAVILY

WASHINGTON, July 5.—Twenty Norwegian vessels, totalling 20,833 gross tons, have been lost through U-boats and mines during June, officials cable to the legation here stated. Thirty-one men are missing, all supposed to be lost.

## GERMAN PEOPLE MUST HAVE PEACE

LONDON, July 5.—"The German people's desire for peace is so strong that sensible accommodation from the allies is bound to lead to its realization," the Berlin Vorwarts declares.

"Germany is feeling the loss of raw materials, due to her overseas isolation."

## MORE MEN CALLED

WASHINGTON, July 5.—Provost Marshal General Crawford today issued a call for 300 general military service men from Alaska and 650 limited service men from New York and Connecticut to act as clerks.

## TELLS OF BRAVE GIRLS

Mrs. Ruby Lester Fleming, director of the Red Cross stenographic forces in France, has just returned for a visit after seven months abroad. She has brought back some interesting observations on the courage and devotion of the American girls who are profitably performing their unsparring task under nerve-racking conditions. Operating a typewriter under fire, she says, takes as much courage and grit as driving an ambulance. The office staff of the Red Cross in Paris has stuck to work through the strain of air raids and long-distance bombardment.

WITH THE AMERICAN FORCES—When the lines, that can't be named, BY PICARDY.—

Mr. Charles A. Porter, Windsor Locks, Conn., Dear Mr. Porter: This is to let you know that the letter you mailed along early in April addressed in such a unique way has been delivered. He member, you addressed the envelope, "American Expeditionary Force, France."

"To the Soldier who has no letter in this mail."

It was a fine letter, written as only an old soldier such as you are, could write. You mentioned that you were a veteran of '61-'65, and know what the soldier means to a soldier. And you told, too, how you were knitting socks, and how you were thinking of the boys you were here, and how peaceful things were in Connecticut.

Well, here is how your letter was delivered. It came from Paris by courier to a little place in Picardy, just by

### Three-in-One Service For Duty on Land, Sea and Sky

THE UNITED STATES MARINE CORPS FIGHTS WHEREVER THERE IS FIGHTING TO BE DONE—FOUNDED IN 1776, THE CORPS HAS A RECORD OF GALLOUTY IN ACTION FROM REVOLUTIONARY WAR TIMES TO PRESENT CAMPAIGNS IN FRANCE—KNOWS ALL TRADES—HAS SPLENDID OPPORTUNITIES

"An' after I met 'im all over the world. A-doing all kinds o' things. Like landing 'imself with a gatling gun. To talk to them eastern kikes. 'E sleeps in a 'ammick instead of a cot. And 'E drits with the deck on a slow. For there isn't a job on the top o' the earth. The hogger don't know, or do."

—Kipling.

"The Marines have landed and have the situation well in hand." One frequently reads such a statement in a newspaper dispatch from some distant land. Yet there are many who do not know what is meant by "Marines." Marines are not in the army, though they perform military duty. They belong to the naval force, and perform the soldier duty in the navy. For this reason they are sometimes called "Sea Soldiers."

These "Sea Soldiers" are known as Marines because they are members of the marine corps, an organization whose special duty it is to protect the interests of the United States in any part of the world. They serve on land, sea, and in the air, as can readily be seen by the accompanying photograph.

United States Marines are drilled as artillerymen, infantry soldiers and machine gun companies. They are instructed in all the arts of land warfare. On board ship they are naval gunners, handling the anti-aircraft guns and the batteries that repel submarines. Men between the ages of 18 and 35 may enlist in the United States Marine, the three-in-one service—land, sea and sky. The requirements are sound bodies and good will; the rewards, splendid training, opportunity for advancement, and adventure in all parts of the world.

If you'd like to serve your country in this, the most interesting branch of Uncle Sam's service; if you feel that you'd like to take part in the greatest of all wars, but don't want to spend an indefinite length of time in a training camp or naval station; if you want to see action on land, sea and in the air, report at once to the nearest marine recruiting station, or apply to your postmaster for enlistment blank.

You are needed, men of the west. General Parke has asked for 45,000 more men at once.

The West must send 25,000 of these fiery fighters.

Here's your chance to get into action with the United States Marines.
