HUNS COUNTERATTACK ON FIFTY MILE FRONT WITH SOME PROGRESS

ALLIES CONTINUE TO PUSH LINE OF BATTLE NORTHWARD

GERMAN STATEMENT INDICATES THAT ENEMY PLANNED TO HOLD POSITIONS ALONG THE OURSQ—CLAM LINE WERE WITHDRAWN WITHOUT THE ALLIES KNOWING IT

LONDON, July 30.—Importance of the smashing of the enemy defensive line along the Ourcq by Franco-American troops is reported by a German official statement which indicates the Germans intended to hold these positions. The communiqué declares withdrawal to the line between Fero-Eu-Tardenois and Ville-En-Tardenois was accomplished Saturday night without the knowledge of the allies, and that subsequent attempts to storm the new positions were repulsed.

Both the Paris communiqué and battle-front dispatches show the Germans have been a distance north of the Ourcq from its source to a point west of Fero-Eu-Tardenois and that a sharp wedge has been driven into the German lines in the direction of Pines.

On the eastern edge of the salient, allied troops were reported fighting in the southern outskirts of Ville-En-Tardenois, while further progress has been made toward St. Euphrasie and Bligny sur Andre river. This stream flows northward to Pines.

An appreciable advance also has been made on the western edge of the pocket about Oulchy-Le-Chateau, where Grand Esoy and Cugny were captured with 450 prisoners.

The presence of French Prussian and Bavarian guard regiments in the fighting is accepted as admission by the crown prince that the situation is becoming increasingly menacing.

FRENCH TAKE ROMIGNY; YANKEES LOSE CIERGES

TIDE OF BATTLE FLUCTUATES AS RESISTANCE OF ENEMY STIFFENS—GAINS ON WEST OF SOISSONS. RHEIMS SALIENT OFFSET BY FRESH FRENCH SUCCESSES ON EAST LINE—GERMANS MAKING A DESPERATE EFFORT TO STAY ALLIED ADVANCE

FIGHTING of unusual violence has broken out again on the whole Soissons-Rheims front, according to battle-front dispatches received via London today.

Simultaneous with a heavy German counter-attack on the western half of the salient, the allies today apparently began an assault on the eastern half. French and American troops have been forced to lose some ground before the enemy, but have made progress in their respective fronts. The fighting is going on over a front of about fifty miles.

The Americans have fallen back from Cierges, four miles southeast of Fero-Eu-Tardenois, near the source of the Ourcq, and the French have been driven out of Begueaux, three miles northeast of Oulchy-Le-Chateau.

Allies Advance

The heaviest fighting is reported to be under way between Ville-En-Tardenois and the Ourcq, a front of about ten miles. On this sector the French have advanced to the crest of the plateau between the Ourcq and the Vesle. Northeast of Ville-En-Tardenois allied troops advanced up the Andre valley as far as Anbilly. The French have advanced on to the crest of the plateau between the Vesle and the Ourcq (southwest of Bhamis).

By J. W. T. MASON

(United Press Wire Service) NEW YORK, July 30.—Von Hindenburg's counter attacks, started this morning north of the Ourcq, gave evidence of being primarily magnified rear-guard actions for the purpose of preventing the allies from breaking through the German front.

Confirms Disaster

Between Soissons and the Ourcq is Von Hindenburg's most dangerous sector. If General Foch should succeed in penetrating the German line and the offensive of the allies would overtake Von Hindenburg's forces. That Von Hindenburg has suddenly tried to seize the initiative in this quarter indicates a haunting fear on his part of the serious situation in which his position stands on the Marne basin. Von Hindenburg has concentrated his heaviest reinforcements around the Soissons sector of the Aisne-Marne salient, which he has been unable to break through at present in that area. He might believe that a lavish slaughter of German troops at this moment would perhaps succeed in breaking the allied line, and that the Soissons offensive for Home Consumption.

A genuine offensive of this character, however, would run into the strongest positions the French have prepared for defending the roads to Paris.

The Allies are determined to meet this offensive head-on. The first five to seven miles away and east of the forest. General Foch sensibly improved his positions by local attacks before he began his Marne drive. Should Von Hindenburg reach there, and have his mobility overcome one more by this perilous man to reach Paris, he will undoubtedly be quickly involved in serious difficulties.

Must Relieve Pressure

Von Hindenburg has got to do something to relieve the pressure of the offensive. The Berlin war office has at last been forced to tell the German people that the German Marne army is in retreat. Von Hindenburg's attack has followed closely on this statement. It may well be due in part to an intensify of depression among the Kaiser's subjects. The Kaiser perhaps is deliberately counting on a few yards advance between Soissons and the Ourcq to relieve the falling morale at home.

ROMIGNY FALLS; OTHERS WRECKED

LITTLE CHANGING IN LINE LONDON, July 30 (AP)—French troops have captured Romigny (a mile and a half southwest of Ville-En-Tardenois), it was learned this afternoon.

Elsewhere there is little change in the battle line, which is fluctuating as the fighting progresses.

ENEMY CASUALTIES PLACED OVER TWO HUNDRED THOUSAND

LONDON, July 30.—Correspondents on the British-Soviet railway declare the Germans have lost thirty thousand prisoners in their recent operations and that other casualties will total 250,000.

VARIED COMMENT ON FOCH BLOW SEEPS FROM GERMANY

AUSTRIA INCLINED TO GET SOME SATISFACTION FROM DEFEAT OF GERMAN ALLIES—EXPLANATIONS DESIGNED FOR HOME CONSUMPTION—BREAK NEWS GENTLY

LONDON, July 30.—News of the German defeat in the Soissons-Bhamis district is being fed to the German public in camouflaged alibis. The results are varied. There is some criticism of the German government, but the sugar-coated palaver of other stories tends to camouflage the real effect of the Foch blow.

Captain von Berolzheimer, a wearer of the Iron cross, has petitioned the Reichstag to immediately arrest and prosecute those responsible for the war, and has laid special stress on the work of von Bethmann-Hollweg, the former German chancery, whom he denounces.

From neutral sources comes report of what is being fed to the people of Germany. One former member of the general staff, in a written article, explains: "We wished to inflict the heaviest possible losses on the enemy, while shortening our line."

The Frankfurter Zeitung says: "Everyone feels we are fighting toward success in our entire western campaign." The Vorwarts comments: "It is false to say that the effective power of the French is weakening." The Kreuz Zeitung deplores of another German offensive in the near future. A Dresden newspaper urges the fullest confidence in Von Hindenburg and any decision he may have to make.

"The war is unended in the situation. Adding some sarcastic comment for the treatment accorded Austria in her recent Italian reverses."

YANKS DEFEAT TURKEY BREAKS AGE PRUSSIAN TROOPS AT SERGIY ACCORDING TO REPORT

AMERICANS DRIVEN FROM THE TOWN NINE TIMES SINCE SUNDAY MORNING—FINALLY STOOK—CRACK DIVISIONS ARE FIGHTING AMERICANS

By FRED B. FERGUSON (United Press Staff Correspondent)

WITH THE AMERICAN ARMIES IN FRANCE, July 29 (10:45 p. m.)—The crown prince hurled the Fourth Prussian guards, one of the "Ace" divisions of the German army, against the engaged American farmers at Sergiy in an attempt to check their advance, but the Americans threw them back across the Ourcq.

Today this famous enemy division is broken and the farmers are in full possession of Sergiy and the ground beyond. Standing out prominently in the fighting on the west front is the fierce struggle around Sergiy, which has been taken and retaken nine times since Sunday morning. To reach this town the Americans waded waist-deep across the Ourcq and drove up the opposite bank in a hail of machine gun fire. They reached the machine gun positions, swept over them and took the town. Our artillery aided in the holding off of the Boche. Then the Prussian guards came up.

Storm Troops Brought Up Prisoners say they were rushed from Avescourt, northwest of Lumbville (150 miles east and south in direction of the front), especially for counter-attack work. They bivouacked in the Neale forest two nights and were then brought out for the Sergiy fight.

Advance Behind Barrage Behind a German barrage they drove the Americans from the town. The latter called on their artillery for further assistance and returned to the attack, fighting through the streets and from behind crumpled walls. Enemy machine guns had been placed behind barricades of debris and in a related church. The machine gun work at Sergiy was so hot that the Americans lay in the streets close to the curb, seeking even that shallow protection.

Daughters of one battalion style their commander, who has the heart of every man in the outfit, "that new major." He lay in the debris along side his men while the Boche fire was the worst, thus crying "Come on, boys!"

MARNE DEFEAT CAUSES UNREST

EVIDENCES OF NEBUVOENESS AS GERMAN ARMS FALL IN ORIGINAL TEST

WASHINGTON, July 30.—First news of the German retreat which was given out in Sunday's papers, caused "extraneous" recollections of nervousness according to Zurich dispatches today.

Explanations in the German official press of the elastic strategy of Von Hindenburg and Ludendorff did not succeed in raising the morale of the people, the cables stated.

PARIS, July 30.—The new German retreat in the Soissons-Bhamis pocket which became known only yesterday caused extraordinary nervousness among the population in Berlin and throughout Germany, according to a Zurich dispatch to the Journal today. The Cologne Gazette and the Lokal Anzeiger declare the loss of ground on the west front is important.

AMSTERDAM, July 30.—"All material has been destroyed before we prepared retreat to positions near Fero-Eu-Tardenois and Ville-En-Tardenois," a semi-official dispatch from Berlin stated today.

ROME, July 30.—The west front disaster caused a depression in Germany similar to that the Piava debacle in Austria-Hungary, said a Rome dispatch received here today. South Germans accuse the German general staff of deliberately sacrificing the troops of the southern German states.

REDUCE MEAT RATIONS

AMSTERDAM, July 30.—German meat rations will be reduced to fifty grams weekly, beginning August 13, dispatches received here today stated.

RAILROAD REPORT SHOWS BIG LOSS

CHICAGO, July 30.—The Chicago & Alton railroad operated at a loss of \$17,000 in 1917, according to figures made public here today. The road's income of \$20,225,650 was 2,000,000 over that of 1916.

GOVERNMENT WILL CONFISCATE CLOTHES

AMSTERDAM, July 30.—Voluntary donations of clothing for war needs having failed in Germany, the government has decided upon confiscation, dispatches received here today stated. Disciplinary of the order, it was stated, will be punishable by a fine of \$2,000 and a term of imprisonment.

PLACE FOOD SUPPLIES UNDER COMMON HEAD

LONDON, July 30.—Allied food controllers in action here have decided on an inter-allied food council, it was stated today. This council will administer the allied food problems until victory is assured.

CZECHOSLOVAK FRESH TROOPS FORCES REACH BLACK SEA PORTS TERRIFIC STRUGGLE

MOVING TO JOIN BRITISH FORCES IN MESOPOTAMIA IS BELIEF—SEIZURE OF CRUISER AND ARMED STEAMER ALSO IS REPORTED

WASHINGTON, July 30.—Czech-Slovak troops have penetrated to the Black Sea in southeastern Russia and have seized two Russian cruisers in the harbor of Novorostok, according to authoritative advices reaching here today.

This was the first indication of the presence of Czech-Slovaks so far north in Russia. The opinion was held at headquarters of the Czech-Slovak national council that the operations were those of detached Czech bands who were feeling their way southward in an attempt to get to France.

Fall of Vliaka Expected Importance was attached to the dispatch, as the possibility was indicated that the fighters might join the Russian battling the Turks in Trans-Caucasia. The news forms a drama with the troops in Mesopotamia. A Russian campaign with this objective was rapidly nearing success when the Russian collapse came.

Advices state that the guns of the cruiser were turned on the Bolsheviks' garrison at Novorostok. Another dispatch reported the seizure of an armed steamer in the Volga river, between Hymnake and Astrachan by the Czechs.

The fall of Vliaka, an important junction point on the Siberian railway, before the advancing Czech-Slovaks is believed imminent.

Headed for Murman Coast

The Czech-Slovaks apparently are pressing south into service to carry supplies to the Volga river toward Vliaka from the western base of the forces at Kazan. It is declared that the plan of the Czechs in this region was to reach the Murman coast.

Colonel Harbin, of the Czech-Slovak forces in Siberia, is expected in Washington.

Wounded Moved to Dressing Stations

As has been established dressing stations in villages in woods and in crossings, the wounded are laid on the ground, quickly attended to and "sorted out," then sent on to the rear in larger ambulances. Doctors and attendants who have not slept for 48 hours remain at their work. Most of the hours no reaching hospitals, fifty miles behind the line, within five hours of the time they are hurt. American girls comprising a unit for the relief of civilian war victims, who were near the front, hastily manned Ford and, speeding to the front, carried wounded from dressing stations to hospitals over roads that were constantly under bombardment.

Handy Wrenches: German armor attempted to hammer the Americans by pouring machine gun fire into the roads tonight. A number of doughboys, in charge of a sergeant, turned their automatic rifles on a score of guns. The Americans were moved down until only the lieutenant and a corporal remained unhurt. Two returned to the American lines, each carrying a wounded man. The lieutenant who was hit six times while rescuing his men, fell exhausted at the dressing station when he returned from his third trip. Another group, changing a machine gun, drove past by one and thirty a corporal was left. He captured the gun and killed five remaining Germans with his pistol.

(Continued from Page One)
The state department cautioned it was unwise to place too much credence on the reported break. It was recalled that from time to time there have been reports of Turkish dissatisfaction with German domination.
It is likely some of the Turkish government organization is anti-German, but it is doubtful if the group predominates, officials say.
As to Bulgaria, it was pointed out that the prospect of Balkan distribution in the peace conference is disturbing her. She is in no position to trade with the allies.

Sorry Falls Easy Times
The Prussian guards attacked four times Sunday following American capture of the town. Each time the Americans re-took it. The fifth attack was fatal, the doughboys driving off the guards Monday morning, despite a vigorous defense.

Important Positions Lost
A prisoner from one of the Bayesian divisions said the positions they were ordered to hold were all lost.
A captured artilleryman said he formerly worked in an airplane factory in Berlin. He participated in the general strike May and was sent to the front as punishment. He said he and his fellow workers struck because "some wanted peace, some more food, some more money."
In addition to the guards, Americans in this region took prisoners from the 801st and 10th Landwehr regiments and the 61st Bavarians. The roads in the rear of the allied lines are as jammed as they were at the beginning of the offensive. All are going forward. Frenchlanders are mingling with the doughboys. Some of the latter, hastening to the line, are so new to actual fighting that their tin hats are uncrushed.

Steps have been taken to check for twenty years ago, to say nothing of primitive times. When we have produced a million pictures which the committee on public information will release it will be possible for city people to visualize what they can have and how they can live on a farm. By our distribution of that and other pictures and the publicity which has been agreed to by our newspaper membership, a check will be given the influx to the cities in mistaken search for better living and greater opportunities. There will be dozens of other films which the collated newspapers will announce to their communities and which will be used to make the feature of public and patriotic occasions.

"The great war problem of labor is to create an incentive to greater efforts and this can be done, we know from experience, by means of motion pictures, provided there is cooperation by the daily newspapers in getting great audiences to see the pictures and at the same time hear the story told of the need for more acreage in crop and more crop per acre.

"What we need now is public cooperation with the work which already has been done quietly in getting our great regiment of newspapers and our regiment of 'movie' theatres enlisted for the more food drive."

TODAY'S MARKETS

CHICAGO GRAIN

CHICAGO, July 30.—Grain futures were depressed at the opening of the Chicago Board of Trade today, due to favorable weather reports and low sows. There was an upturn traceable to a better demand for cash grain in the east. Receipts were light. Provisions reflected the grains throughout. July corn opened later at \$1.51 1/2, later advanced 1/2 to 1-5/8. August was down 3/8 at the opening, 1-1/2, and gained 1/8 by noon. September, down 1-5/8 at the opening, 1-1/2, rose 1/8 before noon. July oats were 1/2 down at the opening, later gaining the same fraction at 74 3/8. August opened at 74 3/8, subsequently advancing 1/8. September, down 3/8 at the opening, 64 1/2, later rose.

ODDEN MARKET REVIEW

ODDEN—Market prices on hogs at the Odden Stock Yards took a sudden climb during the past week, which livestock commission men believe will be retained, the prices on Thursday and Friday being \$17.75 for "loafs." This is the highest price that has ever been paid for hogs in Utah, and compares favorably with the prices prevailing in other livestock centers, where freight and feeding charges are considered as part of the differential. The receipts at the Odden yards have been light during the past week, and there is an absolute demand for all well finished animals. Livestock men express the belief that there are numerous hogs throughout the intermountain country that are ready for market and with the occasional changes in Far Eastern conditions will cause him high prices for the mid-summer period.

believe that farmers and livestock raisers will find it to their advantage to make shipments now. However, the desire of those on the market is to secure well finished animals, hogs that are up in weight and ready for the markets. Utah has maintained a splendid record for prices in livestock during the summer months and the market has never dropped on any day to the government minimum, even for feeder stock. Anticipation is that the price of \$17.75 will be retained for sometime, neither varying up or down.

Fat cattle are finding ready sale and so are sheep, although the summer period finds few of these animals on the market. The suggestion is made by livestock men that animals can be quickly made ready for marketing through the use of some concentrated feeds, such as are on the market now. In this connection attention is called to the fact that tankage can be secured from the Odden Packing & Provision company and Lucerne, a balanced ration made from Utah products from the Hansen Livestock & Feeding company. Either of these feeds are considered excellent for getting the final fish and fat on cattle, sheep or hogs, the use of them having been thoroughly tested by feeders in northern Utah.

Glad Tidings of Hope

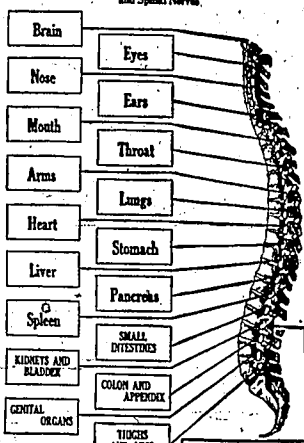

TO THOSE WHO HAVE SUFFERED FOR YEARS— THERE IS HOPE AND HEALTH FOR YOU

DR. WYLY THE CHIROPRACTOR

WHO HAS PROBABLY BROUGHT HEALTH AND CHEER TO MORE SUFFERERS THAN ANY MAN IN THE STATE, IN THE SAME LENGTH OF TIME—ASKS YOU, TOO, TO JOIN THE HAPPY HOST OF SATISFIED PATIENTS AND GET WELL. YOU DON'T HAVE TO BE SICK.

Diagram Showing Dependence of all Organs upon Spine and Spinal Nerves

Observe that spinal fluid serves as between two parallel vertebrae. As vertebrae are displaced, spinal fluid pressure upon a nerve.

GOD intended that all of the organs of the body should functionate normally, and each organ has a special work to do. Dr. Wyly follows out and works exclusively with that great principle ever before him. He goes RIGHT to the CAUSE of your trouble, which is usually a subluxation (partial displacement) of the vertebrae of the spine.

He does not believe in strong, poisonous medicines, neither does he believe it necessary to CUT OUT (remove) the organs which God in His wisdom has placed within us. But he DOES believe in relieving the pressure on the nerves which lead to and control these organs and then (and ONLY) then, can NATURE, the great healer, do her work unhindered. There is ABSOLUTELY nothing strange or mysterious about the art of "making sick folks well." To do this, Dr. Wyly contends that THREE (three) things are absolutely necessary:

First We must release the pressure on the nerves which control the organs of the body (this he does by his system of adjustment).

Second The nerves often being subject to that pressure for months and sometimes years, are numbed and deadened. They must be stimulated back to life and normal action. This he does with the Violet Ray electricity and vibration.

Third Owing to the long pressure on the nerves, the three great organs of elimination, viz: the skin, bowels and kidneys, have not thrown off the poisons from the system, hence the system is FULL of poisons—auto-intoxication. This poison MUST be removed from the body. This he does with his mineral water and electric light baths.

Now When these three things are done, no matter what your trouble it was nor of how long standing—the chances are 9 to 1 that nature will assert herself and you will be well. I repeat—it matters not what your trouble is, nor of how long standing, if there is Vitality enough left within you to respond to nature's process of rebuilding, you will get well.

Don't give up—just because other things have failed is no reason

Chiropactor can't make you well. Come on and give ME a chance. If I can't help you I will tell you so. I have one of the very best and most careful graduate Chiropactors in the state, Dr. Miller, as my assistant and we have two lady nurses in charge of the baths, who know and perform their duties perfectly. So don't give up—see us at once and be put on the road to health and happiness.

REMEMBER, consultation and spinal analysis are FREE. I say free—ABSOLUTELY FREE. It costs you nothing to know your real trouble and whether or not we can help you. You are under no obligations whatsoever.

Just a word in conclusion, we NOW have a daily average of 35 patients—we can accommodate 60—only 15 more than we now have. Come on in AT ONCE and be one of that 15 and get well and make room for some other sufferer.

If you are not sick yourself, help a sick friend by referring them to us. They will appreciate it more than anything you can possibly do for them.

PROVIDE CAMP SITE FOR GUESTS

CITY ADMINISTRATION MAKES USE OF VACANT LOTS

The Twin Falls city administration through Councilman A. L. Swin, chairman of the committee on public grounds, is fitting up several centrally located vacant lots in the city for the use and convenience especially of automobile tourists passing through this section. Signs also directing tourists to these camp sites and to scenic attractions of this vicinity are to be erected on the highways adjacent to the city.

So far camp sites have been provided on three lots, one at the corner of Sixth avenue and Shoshone street east, another at the corner of Fifth avenue and Second street east, and the third at the corner of Fourth avenue and second street east. The first lot is the property of the Baptist church; the second is the Carnegie library site, and the third is owned by Councilman W. H. Ehrhardt.

The need for camp sites for the convenience of motor tourists, such as are being provided, is one that has been pointed out for a long time, and has been referred to the city and its visitors are expected as a result of the spot now taken.

TAYLOR ENTERS RACE FOR COMMISSIONER

Bull Man Willing to Serve Again After Lapse of Four Years

The nomination with the acceptance of C. H. Taylor of Buhl, for candidate on the Democratic ticket, subject to the primary election, for county commissioner from the second district was filed Monday in the office of the county clerk. The nomination was filed by H. R. Morrison of Lacuna resident, a former director of the Twin Falls Cant. company.

Mr. Taylor thus becomes a candidate for the position which he occupied for two terms ending in 1914, when he retired on the Democratic ticket; subject to the primary election, for county commissioner from the second district was filed Monday in the office of the county clerk. The nomination was filed by H. R. Morrison of Lacuna resident, a former director of the Twin Falls Cant. company.

HAS FIREMEN HUNTING BLAZE

DR. T. E. WYLY STARTS TO OALL DEPARTMENT THEN PUTS OUT FIRE

The fire department spent several minutes on Monday evening looking for a fire after Dr. T. E. Wyly, manager of a chiropractic sanitarium at 530 Fourth avenue east, at about 5:30 o'clock discovered a blaze in a room on the second floor of the institution and called the telephone exchange to give the alarm. Before he had finished giving the information, Dr. Wyly concluded that he could extinguish the fire himself. He tramped the receiver, effectively shutting off further communication and began to play a garden hose, so effectively that when the firemen finally hit upon the proper clue to the whereabouts of the fire the blaze was out. Guided by such information as the telephone operator could give, the firemen first sought the Weylo photographic studio which has occupied quarters in the McCormick building on the North Mercuriale company store, and which is to move soon into rooms in the Bank block building over the Cioa book store.

HERE TO START WORK ON ALLY PAVING

Contractor G. H. Helmer Finishes Waterworks Installation in Oregon and Returns

C. H. Helmer of Twin Falls, contractor to whom the contract for paving the alley in the blocks connecting at the intersection of Main avenue and Shoshone street, was let by the city council, arrived here Monday from Ontario, Oregon, to inaugurate preliminary steps toward beginning active work on the contract. The laying of iron water pipe in the alleys to be paved has been completed. Mr. Helmer states that he will be ready to start operations within about two weeks.

He has just completed the installation of a new waterworks system in Ontario.

DRIVER BAG MANY BUNNIES

RUPPERT—About 250 persons took part in four rabbit drives on the South side of Snake river Sunday which resulted in the bagging of not less than 7,000 rabbits. Two of the drives took place at the L. Tarbet place and two near the school house at Jackson.

MEN APPRECIATE THEIR SEND-OFF

E. P. NAFZIGER, LEADER OF PARTY, EXPRESSES THANKS

Members of the party of 68 men who retraced their Friday evening under military service call to enter the military service at Camp Lewis, Washington, are deeply appreciative of the farewell demonstration given them here and feel "the more determined to do their duty and be a credit to the county," according to word written enroute and received here from E. P. Nafziger, formerly a member of the high school faculty, who was placed in charge of the party.

"The boys deeply appreciate the fine send-off given them and give their thanks also to all who responded to the generous 'cante fund,'" says Mr. Nafziger. "The fund amounted to \$212.16. At the division points the boys have made successful drives on the lunch counters and gone over the top with heavy pie and sandwich casualties as a result."

"Thanks are also extended to the contributors of the boxes of smokes and candy and to the Palace cafe for the big good luck cake."

"The men have lots of pep and enthusiasm."

WEST END REAFFIRMS LOYALTY TO DIVISION

Resolution Declaring County Out an Issue is Passed at Buhl

(Special to The News)
BUHL—A mass meeting was held in the Masonic hall in Buhl Friday night for the purpose of discussing the feasibility of a county division. A meeting was attended by a large body of representative citizens of the west and included many prominent farmers. The following resolution was drafted and unanimously adopted by the meeting: Resolved, That we, the people of the west end of Twin Falls county in public meeting assembled, realizing the wisdom and benefit to be derived by the division of Twin Falls county, and the creation thereby of a separate county to be known as the county of Buhl, reaffirm our determination to make of this question an issue, this year, two years from now, and thereafter each successive two years, until our constitutional rights to a separate county are recognized.

OROGERS BRING JOY TO BOYS

ARTHUR J. PILGERRIM AND FRANK KENDALL CALLED INTO NAVY

A young man in mechanics "covered all" slipped up to the general delivery window in the local postoffice yesterday and asked if "the letter" for Pilgergrim had come. Miss Corlino Tabor, clerk, promptly handed him his letter from Washington, D. C. Rushing from the window with it, followed by several of his boy friends, young Pilgergrim exclaimed over and over, "Oh boy! Oh boy!" Tearing the envelope open the quickest way possible he read the letter, the boys looking over his shoulder. "Report at once," he read aloud. Waving the letter, he fairly rushed from the post office shouting, "I'm going tonight, boys, you bet, I'm going tonight!"

After Pilgergrim had gone one of the boys came back to the window and begged, "Hass't one come for me yet?" "Not yet," Miss Tabor answered. "The young fellow went slowly out of the post office, registering 'disappointment.'" Pilgergrim seemed delighted, "exclaimed a bystander. "They're all that way, every one of them," replied Miss Tabor. "They come here every single day for their letter that calls them into service and you have seen how they act when the letter comes, and how the disappointed ones act."

Arthur Pilgergrim, only son of Mr. and Mrs. J. J. Pilgergrim, expects to enter the naval branch of the service at once, as does also Frank Kendall, younger son of Sheriff and Mrs. Frank M. Kendall, who likewise received his call yesterday.

The latter was with the old company of Idaho National Guard, and was with the National Guard on border duty. He was rejected from service in the present war and could not go with the others who went from here into training camp and later to France. After several attempts to enter various branches of the service, he has finally been accepted for service in the navy.

HAS ANTIDOTE FOR WEED PEST

J. A. GIFFORD OF FILEB SAYS MOWER AND ALFALEA WILL WORK

Use of the mowing machine and grove of alfalfa are most effective means of combating weeds in fields, according to J. A. Gifford of Fileb, who writes to The News, the following letter:

"I like by your issue of July 29, that the commissioners are going to get after some of the past weeds. I am very glad to hear of it. The best way I ever found to get rid of them is alfalfa and the mowing machine. I got it in morning glories in Kansas in that way, and found none the second year when I mowed. I have found no weed yet but what I could get rid of in this way."

"When farmers are asked to clean the ranches, they should be left in as good condition for the mower as convenient. Where the grader is used the banks are left so that a machine cannot be used. The stato engineer of Kansas told me several years ago that he had taken a grader and by running one wheel in the bottom of the ditch and the other on top of the bank it got over 30 inches high, had shaped it properly and then put the dirt in the center of the road."

"I think when we become more civilized on the rural business, when we go on the road to work we will try to put the road in as good condition as we can for the public to travel over, not simply to get our road tax worked out."

BURLEY MINISTER TO TRAIN AS CHAPLAIN

(Special to The News)
BURLEY—Clifton Bliss, son of Mrs. Ira Titus of this city and minister of the Burley Christian church for a year past, left Thursday for Kentucky, where he will attend a training school for army chaplains, with a view to entering active service in that capacity. He was accompanied to Fremont, Nebraska, by his wife, who will remain there with her parents until his return from the war.

"FEAR"

This time Germany probably means business. There have been other peace offers, but this time a neutral government is officially asked to act as intermediary.

It is not likely that the Allied nations will take the latest news seriously. There have been too many similar moves in the past.

Moreover, the time is coming when Germany will sue for peace and the terms under which the negotiations will be opened will be fixed by the Allies.

We are, at heart, a peace-loving nation. In fact, we like peace too well to take chances on a temporary patched-up article.

CALLS FARMERS INTO SERVICE

AUGUST DRAFT WILL TAKE MEN GRANTED DEFERRED INDUCTION

The 1918 class of registrants will not be touched, but the 1917 class one registrant of Twin Falls county, including all of those whose induction has been deferred temporarily on account of being engaged in farming, will be practically exhausted in fulfilling the selective service call for 81 men to enter here Wednesday morning, August 7, for Camp Fremont, California.

Orders for the induction at this time of men previously granted temporary deferred induction on account of their employment as farmers were transmitted Monday through the adjacent post office to all Idaho local post offices in this county about 65 men have been granted deferred induction on those grounds.

The following telegram was sent by Governor Alexander to the postmaster general: "August draft will bring agricultural counties of Idaho of needed labor for harvesting crops."

The reply of General Crowder was as follows: "No. E-1458. Cannot delay August calls without interference with military program. Have been compelled to make same reply to other states who have received their own resolutions. Illinois for example has organized thousands of school boys and sent them into the harvest fields."

This office is informed that many local boards have temporarily deferred men engaged in agriculture who are otherwise in class one subject to July

and August calls. These telegrams cast the question. You cannot and must not release any men from these calls to cultivate or harvest their crops, and men temporarily deferred by your board must be inducted before you can take any men from the 1918 class. If passed heretofore he must be inducted now if needed to fill your quota before making inductory inductions from the 1918 class.

GUNNERS DEFEW Albert N. Depew

EX-GUNNER AND CHIEF PETTY OFFICER-U. S. NAVY MEMBER OF THE FOREIGN LEGION OF FRANCE CAPTAIN GUN TURRET, FRENCH BATTLESHIP CASSARD WINNER OF THE CROIX DE GUERRE

SYNOPSIS

CHAPTER I.—Albert N. Depew, author of the story, enlisted in the United States Navy, serving four years and attaining the grade of chief petty officer, first-class gunner.

CHAPTER II.—The great war started soon after he was honorably discharged from the navy and he went to France with a determination to enlist.

CHAPTER III.—He was sent to France with a determination to enlist.

CHAPTER IV.—Depew was detached from the ship and sent to a regiment of the Foreign Legion to train with the French.

CHAPTER V.—Depew was sent to the front line trenches.

CHAPTER VI.—Depew was sent to the front line trenches.

CHAPTER VII.—His company takes part in another raid on the German trenches and shortly afterwards assists in stopping a fierce charge of the Germans who are moved down as they cross No. 10's trench.

CHAPTER VIII.—Sent to Dinmude with dispatches, Depew is caught in a Zeppelin raid, but escapes unhurt.

CHAPTER IX.—He is shot through the thigh in a brush with the Germans and taken to a hospital, where he quickly recovers.

CHAPTER X.—Returned back to sea duty, Depew is sent to the front line trenches to help in the Turkish batteries.

CHAPTER XI.—The Cassard takes part in a night engagement in the morning.

CHAPTER XII.—A Pal Crucified.

When we got to "V" Bench on my next trip the weather was really fine, but it did not please us much, for as

where the CASSARD was wrecked. Where the MAINE was wrecked. Where the CASSARD was wrecked. Where the MAINE was wrecked.

When we got in range the enemy batteries opened up on us and the shell fire was heavier than any we had been in before, though not more than we had been in before.

Fascinating Screen Facts

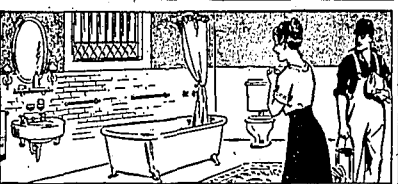

Tulla Belle, aged eight, and Robt MacDougal, ten years old, two local children of the screen world, are entrusted with the chief parts in Masterlink's world-famous masterpiece, "The Blue Bird," produced for the screen for Artcraft release by Maurice Tourneur.

When it is said that the star in "Miles" is Mary Pickford, little more need be added. To the motion picture "theogors of the world" Mary Pickford is well, she is simply incomparable. Mary Pickford, "America's Sweetheart," and "Our Mary," the idol of the film fans wherever motion pictures are shown.

Dainty, charming and magnetic, Vivian Martin is one of the most popular and talented motion picture stars in the country. In this excellent photoplay, her radiant face in its highest expression in a role quite different from any which she has recently portrayed in Paramount pictures, which will be doubly attractive to her fans following of admirers because of its delightful novelty. Her artistic portrayal of the role of Betty Druce in "Unclaimed Goods," added greatly to the popularity of Mrs. Martin's enjoyable but characterization of the stellar role in "Vivette's" doubtless will go far to place her on the pathway to that enduring fame as a motion picture star which ability and conscientiousness in the execution of her artistic endeavor demand as their reward.

Theatro

Why is "Over the Top" the greatest story of the war? Because it is written by a man who has been there, who has suffered severe wounds, been promoted by his own gallantry, and whose heart of America with his lectures and vibrant tales; because it is a book full of humor, anecdotes that bring the smile rather than the tear, because it does not end on the high, but on the lowly optimism of the true American throughout. The Vitaphone picture, "Over the Top," starring Eddy, himself, is the climax of screen art. It is the Great American Photodrama.

CANDIDATES FOR LEGISLATURE ARE AGAINST DIVISION

J. H. SEAVER AND MRS. CARRIE HARPER WHITE GO ON RECORD AT MASS MEETING

Joseph H. Seaver of Castleford, candidate for the Republican nomination for state senator, and Mrs. Carrie Harper White of Twin Falls, candidate for the Republican nomination for state representative, went on record against county division at a meeting of about 75 citizens held Monday evening in the high school auditorium, at which an executive committee to have charge of the anti-division campaign was appointed.

War First Consideration
 Mr. Seaver said that he deplored most earnestly the bringing up of the anti-division issue at this time in the nation. He felt that every citizen's effort all should be devoted to the winning of the war, but that since the issue had been thrust upon the county again he favored fighting it in an organized way.

Mr. White declared that she stood on both feet against the county division proposal, which, she considered most unpropitious coming at this time. She expressed the opinion that the question should not be taken outside the legislature by arbitration. "Buhl needs our friendship more than she needs our throbbing," Mrs. White said.

Pursuant to a motion made by C. A. Robinson and passed by unanimous vote of the meeting, Mayor F. P. Bracken, in the capacity of chairman, appointed an executive committee of five members to have charge of the anti-division campaign, with power to appoint committees in each precinct. He named the following members of the executive committee: A. B. Robinson, chairman; Twin Falls; W. F. Alworth, Filer; T. H. Irwin, Kimberly; W. E. Sager, Twin Falls; John R. Auhl, Twin Falls.

 Machine Gunner, Fighting in France
 Author of
OVER THE TOP

For a year and a half, until he fell wounded in No Man's Land, this American soldier saw more actual fighting and real warfare than any war correspondent who has written about the war. His experiences are grim, but they are thrilling and lightened by a touch of humor as original as the Soldiers Three. And they are true.

In his wonderfully vivid way which made OVER THE TOP so famous, Sergeant Emphy now goes on to tell the new soldier what confronts him all the way from training camp to trench. He shows the mother, the father, what their boy is doing day after day; what they, what every American, can do to help him.

president of the state and county fair bureau organizations. All declared unequivocally against county division.

Mr. Robinson declared that he had confidential information that the people of the original Lincoln county, which was split four years ago into three counties, had grown tired of the additional expense involved through the change and that they were seeking to make further changes looking toward the consolidation of the counties.

"There is no justification for the claims of the Buhl county divisionists and that if the matter can be held in abeyance there will be a reaction against division, was the opinion expressed by Mr. Hicks.

MARINE'S ACCIDENT IS ORIGIN OF CUSTOM
 PORT ROYAL, B. C., July 29.—The story of "stealing their hats in the ring" of the United States marines now tops "em in the water.

Seeing their hats in the ocean for luck was adopted as one of the marine customs when, a gale of wind, scattered the pieces of a vessel while he was crossing the bay off Paris Island, B. C., the marines' training camp. The "Hats" sailed gracefully out into space and was soon bobbing merrily on the dancing waves.

Seeing their hats in the ocean for luck, the remainder of the recruits immediately called their hats out into the deep and the bay was soon dotted with hundreds of straw hats. The boys "stealed the world" and now no recruit can expect to have good luck unless he has cast his hat upon the receding tide.
